GREECE WILL NOT CEDE ONE INCH TO BULGARIA, SAYS THE PREMIER

His Statement is Regarded as Most Significant.

By Special Wire to the Courier.
London, Aug. 7.—Greece will not cede one inch of territory to Bulgaria; was the substance of a reply made by Premier Gounaris to a delegation of Macedonia deputies who asked a statement relative to the purposes of the government, says a Reuter despatch from Athens.

In the negotiations, which have been conducted by the allies of the quadruple entente with Bulgaria, in an effort to induce her to enter the war on their side, she has insistently demanded that she be ceded that part of Macedonia, which was awarded to Serbia at the close of the Balkan wars. She also has sought to obtain at least a portion of the Macedonian territory which came under the Greek flag in the same way.

Macedonia was a Turkish province until the close of the Balkan war. The region embraces a perfect medley of peoples, the chief elements being Slavs, Osmanlis and Greeks. The Slavs are Bulgarians and Serbs.

The statement attributed to M. Gounaris is significant in view of the fact that the British, French, Russian and Italian ministers at Athens called upon him Wednesday and made united representations regarding the political situation. Their purpose was to gain the assistance of Greece. Similar representations were made yesterday by the representatives of the same nations at Nish, to the Serbian premier. This was regarded as the second step in the attempt to bring about a Balkan agreement so that Bulgaria, Roumania and Greece may be numbered among the allies.

Normal School Results

Record of Successful Candidates From Brant.

Toronto, Aug. 7.—The results of the Middle school examination for entrance into the Normal schools has been announced. The certificates of the successful candidates, and the statements of marks of those who failed, will be mailed to the principals or inspectors in the course of a few days.

The appeal examiners have already read the papers of each candidate whose marks would appear to justify appeal. Where such a candidate has failed the statement of marks will be stamped as read and no further appeal will be allowed. In all other cases of failure appeals will not be refused, if made before September 1st and accompanied by the fee of \$2.

A candidate after whose name a Middle school subject is indicated in brackets, is required to rewrite said subject with another departmental examination for which he is eligible and which he requires to take. Such a candidate cannot be admitted to a Normal school this year.

Successful candidates who desire to attend the coming session of the Normal schools will be notified that their applications for admission must be made to the Deputy Minister of Education not later than Wednesday, August 25th.

THE ATTITUDE OF SWEDEN

Has Become Unsatisfactory—Result of German Successes.

By Special Wire to the Courier.
London, Aug. 7.—The London Morning Post declares the attitude of Sweden toward Russia and the latter's allies for some time past has revealed elements of a disquieting character.

"Emboldened by recent German successes," the newspaper says, "the latent hostility of Sweden, which has never forgiven the loss of Finland, has become strongly developed. Considerable preparations for warlike contingencies have been made in North Sweden, and the Swedish army is fully mobilized. If Sweden persists in her unfriendly attitude toward Russia, she may rapidly drift into a war which would inevitably be a great obstacle to her future progress."

The Times in a long analysis of the Swedish situation, says the war party has lost its importance, and the people generally accept neutrality as the wisest course.

Fishing Smacks Sunk

By Special Wire to the Courier.
London, Aug. 7.—The British fishing smacks Hesperus, Ivan, Ces, Fisherman, Helio, and Challenger have been sunk, probably by German submarines. The fishing crews were landed to-day.

The Danish steamer Hans Emil has been set on fire. The crew was saved.

Peel County women and girls started a campaign on July 12 to obtain \$1,800 for a Red Cross ambulance, and by yesterday had gathered \$3,950, sufficient for two.

PROMINENT OFFICIALS AT CALAIS WAR CONFERENCE

PICTURE FROM THE SPHERE. LONDON. COPYRIGHT IN THE UNITED STATES BY THE NEW YORK HERALD COMPANY.
This picture shows some of the "big men" of England and France who attended the war conference which was held at Calais early in July. The picture shows the party leaving the hotel after the conference. In the foreground are M. Delcasse, French Minister of Foreign Affairs; M. Viviani, President of the French Council; Lord Crewe and Lord Kitchener. Behind are M. Millerand, French Minister of War; General Joffre and M. Albert Thomas, French Minister of Munitions.

GERMANY'S BIG SUBMARINE FLEET BIGGER THAN EVER, BUT NOT INCREASING IN EFFECTIVENESS

She Has Made a Specialty of This Craft and is Still Building Them at the Rate of One a Week—How John Bull is Fighting Their Craft.

By Special Wire to the Courier.
New York, Aug. 7.—The London correspondent of The Tribune says: "Although it is well known that Germany now has in commission and working on the 'blockade' of the United Kingdom more submarines of a better type than ever before, the opinion does not appear to be increasing in effectiveness. No more ships are being sunk now than during the early days of the blockade. In fact, the admiralty has just announced that not a single British ship was sunk during the week ended July 21."

"British naval experts and British marines now scoff at German efforts to cut off supplies from England. They call the blockade a failure. They admit that a certain number of ships are destroyed with a considerable degree of regularity, but they declare that the percentage is not likely to increase. They believe this because of the precautions which are being taken for doing away with enemy submarines, precautions which range from arming merchantmen to snaring the demersals with nets of steel wire. They believe it also because of the increasing number of ships which when attacked, run for it. British skippers are finding that it is possible to get away as did the Armeian and the Orduza."

An impression that British waters are infested with these "underseabots" that is lurking outside every harbor and that every shipping lane is watched by a few of these marvellous engines of warfare, is wrong.

Germany has, particularly since the beginning of the war, made a specialty of the submarine. She has more of them than any other nation, with the possible exception of England and in type and in efficiency they are equal to, if not better than the submarine of any nation. She is building submarines at the rate of one a week. Of that there appears to be little doubt.

The British Government has information that in all parts of Germany factories are at work on submarines. At points far inland parts are being made to be transported by rail to naval bases, there to be fitted together and launched. They are building at Hoboken, outside Antwerp, having taken over Belgian shipbuilding yards. There is evidence of construction at Zeebrugge on the Belgian coast and certainly Zeebrugge has been made a submarine base as has Ostend.

Before the war, Germany had twenty-eight submarines, with a score or more under construction. With the outbreak of hostilities many more were laid down. It is estimated that it takes nine months to build the engine of a submarine. The rest can be done in quicker time, with proper facilities, but the craft has to wait for the engine.

The vessels which were under construction at the beginning of the war—twenty-two is the best estimate available—have probably all been

Captured Important Summit

By Special Wire to the Courier.
Paris, Aug. 7.—After a desperate battle the Italians have stormed and captured the summit of Monte San Michele, which dominates Gorizia, says a Petit Journal despatch from Turin. The fall of Gorizia, 22 miles northwest of Trieste, on the Isonzo, now is believed imminent, the despatch adds.

Submarine

By Special Wire to the Courier.
Paris, Aug. 7.—The Italian submarine Nereide is reported to have been sunk in an encounter with an Austrian submarine off the Island of Pelagosa, in the Adriatic Sea, according to a special despatch from Rome.

The Nereide, which was built in 1913, was 134 feet long, with a beam of 14 feet and a displacement of 315 tons gross. Her peace time complement was 17 men.

So far \$62,948,295 worth of French gold has been exchanged for paper. It was decided to wipe out an Ohio village to save the State from any more flood devastation.

COMPLETE ENVELOPMENT OF THE RUSSIAN ARMIES IS GERMAN'S OBJECT

Situation is Regarded by Experts to be Menacing.

By Special Wire to the Courier.
London, Aug. 7.—Holding the bridge heads at Warsaw over the Vistula River, the most formidable obstacle in eastern Europe, German and Austria-Hungary, having conquered one river line and with it invaded Russian territory for an average depth of 100 miles along a front from the Baltic to Bukovina, are now throwing their forces forward in an endeavor to accomplish what Russia's allies have so feared—the complete envelopment of the Russian armies.

The British press, basing its opinions on Petrograd despatches and the lack of reports to the contrary from either Berlin or Vienna, is inclined to the view that the forces of Grand Duke Nicholas retired from Warsaw virtually intact; but there is an increasing disposition not to minimize the seriousness of the situation, as still exists and the anxiety of the quadruple powers seems to be manifested in renewed pressure to bring the Balkan states in line on the side of the entente powers.

Quiescent Sweden is now regarded and even so conservative a newspaper as the London Morning Post, makes cause for comment in Sweden's growing hostility to Russia as stimulated by German success in Poland.

Whether the present Balkan negotiations will be more fruitful than the entente standpoint that were previous attempts to align these states against Germany and Turkey is debatable, especially so as Greece, according to an Athens despatch quoting Premier Gounaris, refuses to consider the relinquishing of any territory to Bulgaria, a concession which might clear the situation.

Though still holding Novo Gorozevsk, the whole Russian garrison remains at bay. Thus the Russian armies not only are menaced back of the Warsaw from which it is assumed they were not entirely clear before heavy German forces broke across the Vistula to the southeast of Warsaw; but a larger and more formidable enveloping movement has taken definite form, being in effect a greater pair of pincers aiming at Dvinsk in the north, and at Brest-Litovsk in the south and superimposed on a smaller pincer which sought and still seeks to crush the Russian forces in and around Warsaw. There is the chance that the grip of the smaller pair may not be effective and it will take some time to demonstrate whether the more ambitious movement succeeds.

BIG WIN FOR THE NORRIS GOVERNMENT

Will Have Overwhelming Majority in the New House

Winnipeg, Aug. 7.—Only four seats of the 46 voting yesterday have definitely returned Conservative candidates. Aime Benard, in Irberville; Parent, in Morris; Newton, in Roblin; and Hamelin, in Ste. Rose. In Irberville Benard won by 183 majority, in Roblin the Conservative leads by 82, and in Ste. Rose Hamelin's lead is 401. In all the others Liberals are elected, or with incomplete returns, are leading by large or smaller figures. Of the independents Ald. Rigg, Democrat-Socialist, is elected for "B" seat, North Winnipeg the "A" seat going to Lowery, Liberal. Liberals are elected by big majorities in Centre Winnipeg. The greatest individual majority was rolled up by Hon. Tom Johnson, Minister of Public Works, in "A" seat Centre Winnipeg, being over 4,200 ahead of Norquay, the final figures being about 8,400 to 2,200.

Sir James Atkins, the leader of the new independent Liberal-Conservative party, went down to defeat in Brandon city. Sir James represented Brandon in the Dominion Parliament. W. W. Sharpe, who resigned his seat in the Ottawa House to run in Manitoba, fared no better, his Liberal opponent having a substantial lead. Seats historically Conservative went in the general sweep. In the semi-urban district around Winnipeg the

A Grim Toronto Record

A Grim Toronto Record
A Gruesome Report by the Waterworks Commissioner

Toronto, Aug. 7.—Human life has been destroyed in wholesale quantities in Toronto during the past two years. The city sewers have during that time given up the bodies of 200 prematurely born babes. The gruesome information was given in a statement by Works Commissioner Harris yesterday. Even 200 is a small estimate of the number of slaughtered innocents, as the number found is only those caught in the screens at the sewage disposal plant at Morley avenue. No estimate of those that have gone through can be made.

The Commissioner of Works stated that the discoveries were reported to the Chief Coroner, with a view to the matter, being taken up by the police, however, such a course was considered useless. The sewage comes from all parts of the city, and therefore it would be impossible to ascertain where the bodies were deposited.

The statement means that at least 100 babies are destroyed a year in Toronto. The police, however, have nothing to work upon, and the Chief Coroner can do nothing. The present average number found shows little decrease from any time during the two years.

A Great British physician, Sir Almoth Wright has invented an antiseptic vaccine. By inoculation, it is hoped, a soldier before going into battle may be made proof against the infection of wounds.

At Lancaster Cheese Fair record prices prevailed, though quotations were a little easier compared with recent Lancashire markets. Prices were still 20s to 25s above the normal ruling price being 80s though from 75s to 85s 6d were obtained.

THE FIELD DAY

The boys had the field day of sports at Tutela Park next Saturday are pleased to report that the Beavers soft ball team have offered to play any nine men living, and the Verity Plow Company lads have taken up the gauntlet thrown down by those seemingly unbeatable Beavers. The question is now which football teams will volunteer to play on that date? The boys want two hard ball teams to fall into line, and offer their services to play a game. A collection will be taken up at the game, and the proceeds of the free will offering will be donated to the machine gun fund.

Come on now, get busy—the committee needs the money and Great Britain feeds the guns.

The Manitoba Grain Growers have promised some 10,000 acres' produce for patriotic purposes.

A HUNDRED SOCIETY LADIES AT HENLEY

Will Control Grand Stand Receipts, and Sell Refreshment for Red Cross.

This year's war-time "Henley" next Friday and Saturday at the St. Kitts course, could be a huge success. Not only did the entries exceed expectations but the St. Catharines Keen Cross Society is taking hold of their end of the meet in grand style and a handsome sum will surely be realized for Red Cross purposes. Not only will the proceeds in the grand stand be devoted to the Red Cross fund, but too of the society buds of St. Catharines will invade the grounds. They will serve tea and ice cream in makes, sell tags and souvenirs and generally make a great big affair of it in aid of war funds. To assist in stimulating recruiting among the oarsmen and other friends—if any stimulation is necessary—the C.A.A. will hold a recruiting rally in the St. Kitts City Park on Friday evening, Senator Loughheed, Acting Minister of Militia, will preside and among the speakers will be A. Claude Macdonell, P. Col. Currie, Joseph Thompson, and Lieut.-Col. Logie, O. C. Divisional Area of Niagara, and his staff will be present.

WILL TORONTO GIVE UP MOTORS AND FASHIONS?

T. W. P. League May Follow Suggestions of Britain's War on Luxury.

"We might pledge ourselves against using jitneys," said a Toronto club woman in discussing the decrees advocated by the British Parliamentary War Savings Committee in their war against luxury, "but as most of Toronto hasn't an automobile, and much of us have already parted with its car, we can't do much more than that."

The call is for pledges that the people abstain from luxuries, and the committee suggests many varieties of sacrifice for the different phases of society. Those definitely outlined are that the use of motor cars for private purposes be given up, that no restaurants be patronized and that no attention be paid to passing fashions.

"Fear out your clothes," says Mr. H. E. Monro, of the committee, "and ignore the changing styles."

"It is quite possible that Toronto will take some action in that regard," said Mrs. Willoughby Cummings, of the Toronto Women's Patriotic League. "Of course, much more economy has been practiced this year by Toronto women than most people realize."

"Very little entertaining has taken place. Many have given up their summer tours, and others have only taken short trips. It is amazing to note how many women have already returned to town. Many luxuries have been quietly given up, and there has been more sacrifice than people know. Some of it has been caused by necessity, but much of it is pure sacrifice or patriotism, that more could be given for the war."

"As for the suggestion that restaurants should not be patronized—that requires thought. It would be hard on the restaurants. Apart from that, many Toronto people living in apartments find the restaurants an economy."

No combined action has been taken by Toronto in the war against luxury.

"There is no doubt more of us could do without motors if we had adequate car service," said another Toronto woman. "We people living north of the tracks have to walk from Farnham avenue, and back again up hill, and as for riding home at night, it is simply disgusting. Even the jitneys are filled to overflowing down at King street. Motors are more necessary in Toronto than many other items of living."

THE HYMN OF THE LUSITANIA

(Translated from the German by Edith Wharton)

The swift sea sucks the death shriek under,
As the great ship reels and leaps asunder,
Crammed taffrail high with her murderous freight
Like a straw on the tide she whirls to her fate:
A warship, she thought, she lacked its coat,
And lustful for lives as none afloat,
A warship, one of the foes' best workers,
Not peened with her rusting harbor shirkers;
Now the Flanders guns lack their daily bread
And skipper and buyer are sick with their dread.
For neutrals Uncle Sam may be—
Your surest neutral's the deep, green sea,
Just one ship sunk with lives and shell,
And thousands of German gray coats well,
And for each of her gray coats German hate
Would have sunk ten ships with all their freight;
Yea ten such ships are a paltry fine,
For one good life on our fighting line;
Let England ponder the crimson text
Torpedo strike! and look out for the next.

WHEN BUYING LAMPS

Be sure that you get your money's worth—Don't simply ask for a Tungsten lamp—because you may get a cheap, inferior lamp which will really waste your money.

Next time you buy Tungsten lamps it will be to your advantage to come to our office. We are interested only in helping you get your money's worth out of every cent you spend for Hydro Service.

That is why we recommend Hydro Quality lamps—because we know that every lamp has been given the utmost care in manufacturing, and has passed the Hydro test before it can be sold to you.

The Hydro name on every genuine Hydro Quality lamp is a perfect guarantee that you are receiving your share of a constant, expert service. This service is devoted to giving you better, cheaper Hydro light—by keeping your lamps up to the Hydro Standard of Quality—the highest known to the world to-day.

BURGLAR CAUSES FIRE WHICH LEADS TO THE DEATH OF TWO CHILDREN

By Special Wire to the Courier.

Montreal, Aug. 7.—Two children were burned to death early this morning in a fire caused by a burglar, who surprised by Mrs. Cyprien Tetreault of 1455 St. Zetique St., while he was sprawling about her shed, hurled a stone at her, knocking a lamp from her hand. The oil ignited and the house was destroyed. Mrs. Tetreault escaped from the burning house with her year-old baby, but her four-year-old son, Lorenzo, and her ten-year-old niece, Yvonne Tetreault, lost their lives. The burglar escaped.

Rev. Father Burke has been appointed Roman Catholic chaplain to the third overseas contingent.

[From Our Own Correspondent]

Mr. L. Stephenson of Toronto is spending a few days at his home here.

Miss Dorothy and Dollie Day of Paris are spending their holidays at the parental home.

Our village is improving rapidly. Buildings are being repaired and new ones erected, also our sidewalk is nearly completed under the able management of Mr. Charles Stephenson the cement man. Charles is a hustler when he gets started, he makes things fly.

The re-union of the Lockyer family took place last week and was very largely attended. Lockyer intended leaving our village and going to Princeton.

Mr. and Mrs. Kelly spent Saturday at Scotland.

Mr. W. Spelman and family motored to Hamilton on Sunday.

APPOINTED.

STORY OF E-11'S RAID

A correspondent in the Dardanelles writes: I have received from an eye-witness a vivid account of the recent attack by the E-11 on Constantinople.

My informant early one morning intended crossing from Pera to Stamboul, and instead of walking over the bridge he took a small boat. "The sea," he said, "was beautifully smooth with hardly a ripple upon it. I suddenly noticed about sixty yards from the landing place, what appeared to be a stick floating upright in the water and moving towards the bridge. The sight amazed me, as the current was obviously setting in a contrary direction. I looked hard, and saw white trail gliding swiftly through the blue-green water. It instantly flashed through my mind that the object was a torpedo, and I rose hastily, in my excitement, nearly upsetting the boat."

"I could clearly follow the course of the deadly engine as it made straight for a big Turkish army transport called Stambour. There was a shattering explosion, an enormous column of water was flung up, and the wounded ship settled down by the stern."

"A second explosion followed amidships of the transport, and in a few minutes nothing was to be seen but a tangled mass of half-submerged wreckage."

"A third torpedo hit the Custom House quay without, however, doing any damage. I took out my watch. It was 5:42 a.m."

"There was a terrible commotion on shore. The boatmen, instead of attempting to save life, ran as if for their lives. The bridge was suddenly teeming with police and soldiers rushing distractedly about, some firing rifles."

"The submarine meanwhile lay on the surface, shining in the sun, an officer on the look-out. The craft then sank beneath the water, and with only the periscope showing, moved rapidly down stream. Shortly after there was a deep booming and the swish of shells bursting all over the surface of the waters."

"The batteries on the hill behind Kassim Pasha and St. Sophia showered shells unintermittently for half an hour. It was a perfect waste of energy and ammunition, as the submarine was invisible."

"The artillery panic caused a terrible panic among the population, who thought the Allied Fleet had arrived. The incident, indeed, has greatly shaken the morale of the Turks, this effect being increased when the news spread with incredible swiftness that the submarine had sunk two other transports in the Sea of Marmora."

"Good Queen Bess," in 1885, in establishing a store of arms and armor at the old Tower House, a mansion in Woolwich Warren, adjoining the then boggy and unhealthy marshes of Plumstead, covered Britain's greatest arsenal, which 330 years later gives employment to 30,000 men, earning more than \$500,000 a week for making munitions of war. That was the origin of the Woolwich Arsenal of to-day, which covers 600 acres, and where guns of all sizes, every form of military wagon, shot, shell, torpedoes, cartridges, bullets, war signals, life-saving rockets and high explosives are manufactured."

This is the message the German Emperor's aviators are now showering upon Poland: "All women between the ages of fourteen and thirty-two will be made prisoners of war if the men are found absent."

Loss of Vitality is loss of the principle of life, and is early indicated by failing appetite and diminishing strength, and ends in Hood's Sarsaparilla, the greatest Purifier of the blood, cleanses and functions, and builds up the whole system.

OLD WORLD NOTES.

The British Museum plans to have the finest collection in the world of the war literature produced during the present conflict. Not only English books, but publications in French, Russian, Italian, German and other European languages, are being obtained from every available source. "We shall not expect or desire to obtain every war book published," explained the head of the Library, "for many of them are of course valueless and we exercise the same discrimination in purchasing a book about the war as we do in buying other works. We want all the cream of the world's literature, but

we want none of the trash. Of foreign war books generally we are taking about two or three out of a dozen * * *

The Lighting Charges were increased by a halfpenny and the power rates by a farthing, at a recent meeting of the Electricity Supply Committee of the Dublin Corporation. It was explained that the increase was due to the increased cost of coal. The electricity undertaking has proven a most costly and unsuccessful scheme.

THE SITUATION. The encircling of a large part of the Russian armies now looks to be quite a possibility. It is desirable, of course, to put the best possible face upon the position of affairs in the Eastern theatre, but the situation is none too good.

Matters on the French front and Italian fronts are comparatively quiet, while there is nothing from the Dardanelles.

It has been a common thing with reference to the activities of the German submarines to hear some such remark as, "What are the British Doing?" A special report over the Courier's leased wire to-day gives the answer in a very cogent and complete manner. John Bull has not been asleep, very far from it, and the facts as related demonstrate just how earnestly he has been checking the undersea pirates, and is completing plans to still more thoroughly do so.

The announcement that Greece will not cede one inch of territory to Bulgaria makes regrettable reading in connection with the desire to get the Balkan States to side with the allies. It is very important that Bulgaria especially should be induced to join, but she is out for a hard bargain.

A FINE RECORD. Elsewhere in this issue will be found a very complete report of all that has been accomplished in connection with the "Brant Patriotic and War Relief Association," and it has been much.

The project has taken a double-barrelled scope—first of all, conditions created by the war, and, secondly, help for those out of employment through no fault of their own. The announcement that the sum of \$66,000 was promised in a whirlwind campaign is simply one more evidence of what splendid gifts there are in this community when the cause is just. And don't forget the people of the county, either, for they are also doing their share as far as the soldiers are concerned.

The successful administration of affairs has proved an arduous and a delicate task—how much so perhaps citizens do not stop to realize—and the very highest commendation deserves to be bestowed upon the men and the women who have so ungrudgingly given of their time in this regard.

There have been some "knockers" and growlers, for that crop is always with us, but no one who reads the record of what has been done—and everybody should—can fail to reach any other conclusion than that the task has throughout been accomplished in a most admirable way.

This winter will without doubt see the unemployment trouble largely mitigated, but the demands created by the departure of brave boys to the front will continue to increase.

They need have no fear that their dear ones will be properly and considerably looked after, for the members of the Association and their assistants—especially Miss Van Norman and Mr. H. T. Watt—have abundantly demonstrated that they know how, and are doing it.

RESULT IN MANITOBA. Just like the fall of Warsaw, the result of the provincial election in Manitoba was anticipated.

There is no earthly use in trying to explain away the matter. It resulted from the proved fact that the Roblin Government had grossly betrayed the confidence of the people. It is true that the Conservatives in the fight just closed were under new and clean leadership, and that the old gang had retired from the scene, but it could not be expected that the people would thus at once accept what was undoubtedly an entire rehabilitation.

They rose in their might, just as the people did in Ontario to end a like condition of affairs under Ross rule, and in both instances they were right. The moral of it all is that it does not pay Governments to do wrong any more than individuals.

The Y. M. C. A. is in Sheffield providing canteens for the munition workers. Mr. I. Faulkner, one of the organizing secretaries, states that the Duke of Norfolk's agent offered eight sites in excellent positions close to the gates of the works, all of which the Duke was willing to let them have at the nominal rents.

NOTES AND COMMENTS.

No matter how small, your mite is heartily welcomed for the gun fund. The object noticed up in the heavens to-day used to be known by prehistoric inhabitants as the sun.

Tobacco fund, razor crop, subscriptions to the Machine Gun campaign—all three lists are still open at the Courier office and showing healthy growth. Keep up the good work.

"Jam is the familiar name of the leader whose forces went down to defeat in Manitoba. It was the other fellows who got it, however.

The poem of a German writer, as translated elsewhere in this issue, shows just how the people of the Fatherland gloated over the Lusitania tragedy.

FRENCH OFFICIAL

Paris, Aug. 7.—The French war office to-day gave out a statement on the progress of hostilities in France reading as follows:

"Last night passed quietly on the western part of the front. There has been reported nothing more than some engagements with hand grenades in the vicinity of Souchez, and artillery fighting in the region of Tracy-Le-Val and in the neighborhood of Berry-au-Bac.

"In the western section of the Artois, there has been a continuance of the very spirited fighting with grenades and bombs. An attack of the enemy in the vicinity of Hill No. 213 has been repulsed.

In Lorraine, a strong German reconnaissance has been dispersed.

Says They Are Not in the States to be Merely Tolerated.

San Francisco, Aug. 6.—Four State Presidents and as many Vice-Presidents of the National German-American Alliance threatened to resign at the alliance's convention yesterday if an open letter to President Wilson was adopted.

The letter proved to be in the nature of a strong appeal to discontinue the exportation of arms to belligerents, and to depart from the Administration's hinted pro-allies attitude.

The resolution to a certain degree takes the place of the open letter which was drafted to be forwarded to President Wilson. The resolution was decided upon as an expression of the feelings of German-Americans in regard to America's attitude to the belligerents. It was unanimously accepted. It reads in part:

"The American people must realize that those of German birth or extraction are not willing to accept second-class citizenship in this country, and are not here to be merely tolerated. As American citizens we rightly demand full equality, and we will not suffer our influence upon the development of our Republic to be curtailed.

"During the present world conflict efforts have been made to place us in a false position. The dispute between the land of our birth and the land of our adoption has been made the occasion of casting suspicion upon us, and our loyalty to this country, the land of our adoption, has been questioned. We must emphatically protest against this, and will not further permit any doubts whatsoever to be cast upon our loyalty."

Brought Down by Shrapnel and Occupants Captured.

Berlin, Aug. 7.—Via London 1 p.m.—An official statement given out to-day by the German Government says: "At midnight of August 6, the Italian airship Citta De Jost, while endeavoring to approach Pola, was brought down by shrapnel before it could do any damage. All the crew, consisting of three naval officers, one mechanic and two men were taken prisoners. The airship was taken into Pola."

The loss of an Italian dirigible balloon was officially admitted on Aug. 6 by the Italian Government, though the name of the air craft was not given. The Italian statement said that the airship after throwing several bombs fell into the sea.

The most imposing regiment in the Italian army is the Corazzieri, or Royal Bodyguard, which for physique of man and horse is the most magnificent corps of the kind in Europe. No trooper in the Corazzieri is less than six feet one or two, whilst many are far taller, and their wonderful feats of horsemanship are known throughout Europe. Most of the men are comely of feature, as well as splendid of limb and the large majority of them come from the peasantry.

HAD CLOSE CALL

Sniper Hit Rifle of Private Van Fleet and Bayonet Made Gashes.

Pte. Harry J. Van Fleet has sent more interesting letters home from the front, from which the following extracts are taken:

July 9th, 1915. "I only wish I was there with you, and perhaps I will be by the time I do my bit, but chances look mighty slim for a time yet.

"I thank you very much for the parcel of cigarettes, which is certainly a godsend out here. I started to answer your letter a week ago, but we had orders to move off to the trenches again. We had the honor of being inspected by Sir John French last week, and he certainly is a smart old gentleman. He praised the Canadians very much indeed. We have been in the front line of trenches three times in succession now, and are back in billets again waiting for reinforcements from England. I had a pretty close call yesterday. I was sitting in the trench spreading my bread with marmalade when a sniper hit my rifle with a bullet that hit the rifle full down on me and the bayonet gave me a good cut behind the ear, and on the ear and also on the face, but I am still able to be with the boys.

"They say you are not lucky here unless you get a bullet that hits you bad enough to be sent to England. In other words, we call it Blythe if one of our comrades gets hit in the arm or leg. We call him a lucky guy. It certainly is hell out here at times. But now that I've got this far I should like to see it through if the good Lord spares me and lets me get through with a full skin. We are expecting to get leave to go to England some time in August for a few days, and that will look like Heaven if ever we do get there again. I think if ever I should get in a bed again I'll lay there and rot.

"We have a very fine man for our captain, and I am quite sure if anything happened to him the battalion would miss him more than anyone else, as he is so game and every inch a hero if ever there was one. He comes from Kingston, Ont. He is a good bloke, and the men deserve a dozen V.C.'s.

"We have had plenty of rain this week, and have had to go through trenches in water and mud in some places nearly up to our knees. No. 11627, Pte. H. Van Fleet, 2nd Batt., 1st Bde., No. 2 Co., No. 5 Platoon, Can. Div., France.

PEERLESS TY COBB

Is Still at the Head of Batters in All Leagues.

Chicago, Aug. 7.—International batting leaders, including records later than Tuesday, according to averages published here to-day, are: Gilhooley, Buffalo, .351; Rath, Toronto, .333; Barney, Jersey City, .333; Shean, Providence, .326; Pick, Richmond, .324; Channell, Buffalo, .322; E. result was as discouraging for the Conservative cause as in the country constituencies. Every English-speaking Conservative member of the late Legislature who faced the electorate went down to defeat, these including Gorge Lawrence, the late Minister of Agriculture, in Killarney, and ex-Speaker Johnson in Turlie Mountain. In Lansdowne Premier Norris has a majority of about 850. All the other Cabinet Ministers are returned with large margins.

The first idea of a wounded man on getting out of the hospital is a round of restaurants and variety halls. Officers and enlisted men with arms in slings and on crutches are sights too common there to attract more than passing notice.

Curiously enough the new dramas based on the war, except a few spy plays, have had no support at all and were soon taken off. Yet a French company, giving a series of short plays nightly, has met a great success because of its thrillers—tales of concentrated horror. Comedies of the light society kind have failed to attract, while those with real humor and well drawn character have enjoyed uninterrupted runs. A season of Russian and French opera came to an early and disastrous close, and the popular priced evening orchestral "proms" in Albert Hall were discontinued for lack of support. Concerts on the whole do not seem, however, to have suffered greatly from the war.

Fashionable life has merely transformed its activities. Instead of private affairs, society gives benefits, ranging from gala theatrical performances with royalty present to garden fetes. It is quite cosmopolitan, for one of the British charities but for Belgian, French, Russian, Serbian and Italian relief funds.

While London has lost its German and Austrian colony, it is so filled with Belgians that Flemish and French signs can be seen in shop windows all over the city. Many French families have come over also. There was a long season of French-Belgian comedy, played by a company from Brussels with the best talent of the country. Mme. Rejane and a Parisian company had a successful run in repertory and another French company now has a theatre.

The tea rooms of the fashionable hotels were never better attended, largely by officers off duty. But the mass of London takes its pleasures more cheaply. The band stand in Hyde Park has lost none of its popularity of evenings, but the character of the crowd has changed. Before the war the band enclosure was the rendezvous of the foreign element, the men mostly of the waiter and small clerk class. Hundreds and on Sunday nights, thousands of young Germans used to be out. These times, the Germans, Austrians, French and Italian young men are otherwise employed, but there is a foreign element from Belgium, France and neutral countries. Most of the men seen are British soldiers in training, with a sprinkling of Belgian soldiers.

Boating on the upper Thames is one of London's main summer pleasures. Tea gardens, cottages, and house boats line the banks and every bright Saturday and Sunday afternoon still finds the river full of punts, canoes and wherries. But instead of white flannels and striped jerseys, most of the men wear khaki.

[From Our Own Correspondent] Quite a number from here attended the garden party at New Durham on the 28th. Mr. and Mrs. F. Davies spent Sunday with the latter's sister at Fairfield. Miss Mabel Carter of Burford spent last week with her cousins, the Misses Edith and Eva Read. Mr. and Mrs. Baden of Toronto, Mr. and Mrs. E. W. Howey of Brantford motored up and spent Monday with Mr. and Mrs. Wm. Coakley. Mr. and Mrs. J. Woodhouse were guests of friends in Burford on Sunday last. Mr. James Murray has purchased a new car.

considering the various elements entering into the contest "there is not a great deal of occasion for surprise neither is there reason for the Liberal party feeling unduly elated over the victory nor for the Conservative party to feel humiliated in defeat.

The Norris Government, it adds, has been given a popular mandate by the people "which is sufficiently emphatic to leave no room for doubt." The Free Press (Liberal) declares editorially that "the great fraud which the unrepentant and unrepented Rogers-Aikins party planned to perpetrate upon the public met the fate it merited. The party has been wiped out, as it deserved to be. The Free Press adds that the victory could not be too decisive and emphatic, and that the people of Manitoba have "let the world know that they will not knowingly condone political rascality and crookedness."

London is Still Old London in Spite of War

One of the paradoxes of the war is the visiting of Parisians to London for a bit of excitement and gaiety. Paris is nothing like its old self, for its theatres are closed, motor buses at the front, most of its taxis laid up and a large number of its hotels closed. But London has sacrificed but little of its old life. Hotels are full, tea-rooms and restaurants are crowded as ever, theatres, especially the music halls and revues, well attended, and the Hyde Park and upper Thames have their usual crowds of holiday makers.

But this does not mean that London does not feel the war. The hotel guests are mainly purchasing agents for the Allied Powers, visiting attaches on official business and agents for American factories looking for supply contracts. Comparatively few of the younger men seen in the fashionable tea places and restaurants wear civilian clothes. Khaki is also the prevailing color among the men of the revues. The "Piccadilly knut" as the young men who set the fashions are called, has largely disappeared from his old haunts.

London's gaiety is, in one sense, largely kept up by the war. Men living the hard routine of duty at the training camps or a life of constant danger at the front, seem to find a complete change and rest of mind in a frivolous show as in nothing else.

HARD LUCK

City Clerk Leonard received a letter from Mrs. A. H. Mills of 3 Eastmount Ave., Toronto, asking for a rebate on the taxes of her house, 191 Clarence street. The house, she explained, had been vacant since the first week of April. Previous to this date, the house was rented to a Mr. Ransom at \$4.50 per month. He occupied it for two and a half years, but when he left the rent was over \$100 in arrears. Mr. Ransom had misrepresented his position, and when it was found that he was unable to pay the matter was taken to a lawyer. A settlement was arranged out of court whereby Ransom was to pay \$85, in instalments of \$2 per week. After paying an instalment he left for England, and consequently Mrs. Mills had to pay lawyer's fees, taxes, water rates and an extra charge made on account of the oiling of the road, besides losing nearly the \$100 of house rent. It is no wonder then that she would like a rebate.

PRESENTATION

Last Sunday in the S. P. I. Class Room of the Colborne Street Methodist Church, Lieut. J. A. Pearce, a former president of the class, and now in training with the 58th Battalion at Niagara was made the recipient of a suitable present as a token of the Class's friendship towards him. Mr. P. E. Verity in making the presentation spoke very highly of Lieut. Pearce's services to the class and club, having always taken an active part and doing much to make the club a success. On behalf of the teachers and scholars of the class, and noble discharge of duty and a safe return. In replying Lieut. Pearce thanked his class mates, assuring them he would think of the many pleasant times and the benefits the class had afforded him. He said he was glad to know that four had already gone to the front and hoped the Honor Roll would keep growing. Mr. Robert Eaton of Toronto was present and gave a fine talk, impressing it upon the young men present to do their duty whether at home or at the front, and to always fear God.

NOT TO CLOSE YET

The campaign for the machine gun fund was supposed to have been concluded to-day but owing to dollar day last Thursday, and the fact that so many of Brantford's prominent and well-to-do residents are away on their holidays, a slight kink was put in the soliciting. Therefore the campaign leaders decided to run over into next week.

COURT OF REVISION

The Court of Revision will meet at the city hall on Monday afternoon at two o'clock.

TRAMP CAUSED FIRE

A call was sent into the Central Fire Station early this morning at about one o'clock from 54 Gilkinson street. It was not a large blaze, only two firemen were sent down with chemicals. They found that the house was vacant and the fire had been started on an old mattress inside. A tramp had apparently been smoking while laying on the mattress and in some way had ignited it.

WORTHILY HONORED

Mr. Wm. Hooton the Recipient of a Presentation.

Through a misunderstanding, an announcement was made yesterday in a local paper that the presentation of a wrist watch to Mr. Wm. Hooton on Tuesday night was from the members of Calvary Baptist Church. As a matter of fact the presentation was made by a number of Mr. Hooton's friends and the whole affair was private and not connected with the Calvary Baptist or any other church. Rev. Mr. Bowyer of Calvary Baptist Church was one of the donors, but only personally, not as pastor. Mr. Hooton desires this correction to be made as he is a member of the Church of England and has no connection with the church in question.

Following is the letter of presentation: Brantford, Ont., Aug. 3rd 1915. Mr. William Hooton,

Dear Sir and Brother.—In answer to the call of King and Country, you have volunteered for the service of the Empire in this, the greatest war struggle that the world has known.

As patriotic citizens of Brantford, Canada, and of the British realm, we express our admiration for your action. It means self-sacrifice, and is an example that the world has never will doubtless stir others to a like response.

During your residence in our city, you have made many warm friends, who esteem you for the many qualities which you have always shown. In the Providence of God, we believe that the cause which we seek to sustain is a righteous one, and our prayer is that when militarism is given a death blow and a lasting peace is assured, you may safely return to your home, your family and your friends.

As a slight token of our regard and remembrance, will you accept this wrist-watch.

On behalf of your many well-wishers, W. E. Bowyer, T. J. Fair, O. Crocker, T. Kipp, Dr. Frank, G. Fair, B. Lundy, J. Harwood, W. Hunter, R. Hunter, J. Kelley, D. Hanley, L. Reynolds, Ald. W. Braze, R. Thornton, T. Spring, F. Chalaupka, G. Symington.

In order to right any further misunderstanding Mr. Hooton is acknowledging his gift by the following letter:

264 Darling street Brantford August 3, 1915 To Mr. Bowyer and others:

You will never know the pleasure it gives me to think you and all other friends for the fine address and wrist watch you gave to me on my enlisting in the 2nd Dragoon of Canada, to do my bit for the Empire.

It is a great surprise and pleasure to me to know that I had made so many friends during the short time I have been amongst you. And I am sure it will encourage me to go forward and do my duty.

If it is God's will that I should have the good luck to get through alright it will be my utmost endeavor when I return to retain the friendship and esteem of all friends in Brantford. Once again thanking you all, I remain, Yours Truly, Wm. Hooton

A FORMER BRANTFORDITE

Hit Upon Excellent Plan Regarding U. S. Visitors to Canada.

Owing to the efforts of Mr. J. P. Jaffrey, Dominion immigration Agent at Philadelphia, American tourist traffic through Canada is considerably increasing. Canada being at war, a large number of Americans had the impression that passports would be necessary to cross the border, consequently the tourist traffic, which should be very great, as Americans cannot spend the holidays in the European summer haunts, has been very light. Mr. Jaffrey has corrected this mistake in the minds of many and is endeavoring to secure the co-operation of the other immigration officials in the United States.

The system being used is an advertisement in the press advising parties who are contemplating a Canadian trip to communicate with him. Mr. Jaffrey then looks into the matter to see if they are bona-fide tourists or are on purely business trips and furnishes them with a personal letter of introduction to the custom officials at the Canadian border. This insures them against any unnecessary delay, and allows any maid or chauffeur, who may be of German descent, and is accompanying the party, from being stopped at the border, as might otherwise be the case. Of course no aliens are allowed to enter in this manner without their record being previously checked.

In two weeks time Mr. Jaffrey gave out 3,000 of these letters, which, in most cases were to the heads of families, and have thus resulted in over 10,000 Americans crossing the border.

THE PRIZES OF DOLLAR DAY

List of Numbers Which Stand for Cash Value.

Yesterday afternoon Mayor J. C. Spence drew the tickets turned in in connection with the cash bonuses given by the merchants on Dollar Day. Ninety-four tickets were drawn, prizes being awarded in the order in which the tickets were drawn. The first prize, held by the first number is \$10; the second prize held by Nos. 2 to 4 inclusive is \$5; the third prize held by Nos. 5 to 14 inclusive is \$2 while the remaining numbers (15 to 94) are worth \$1.00 each.

The bonuses may be obtained by presenting the tickets at Boles' Drug store, corner of Market and Colborne streets, not later than August 20th. Remember, not later than August 20th.

The following is the list of numbers of tickets which won prizes:

Table with 2 columns of numbers and their corresponding prize values. Includes numbers like 1-3443, 2-15033, 3-1122, etc.

OPERA HOUSE STILL CONTINUES

A Number of Splendid Attractions Will be Seen.

The lease of the Grand Opera House having expired, it is understood that in the absence in the Old Country of Mr. A. J. Wilkes, K. C., principal stockholder, the affairs of the institution will be looked after by Mr. J. T. Whittaker. Arrangements have already been made to play the A. J. Small circuit, which handles all the best attractions for Canada.

A few changes will be made and a new orchestra be engaged. The plan for future will be to play 6 o'clock each evening, the theatre being open to the public, opposite Bank of Hamilton, corner of Market and Colborne Sts. No tickets will be sold in Opera House lobby until after 6 p.m. date of attraction.

Mr. Small has promised to give Brantford the cream of all his offerings, and the appearance of many stars is expected.

OBITUARY

The many friends of Miss Annie Smith of 32 Palace street will regret to learn that she passed away yesterday afternoon. Miss Smith, who was a daughter of the late James Smith of Burford Township leaves to mourn her great loss two sisters, Miss Teanie and Miss Jean. The funeral will take place to-morrow from the residence to Paris cemetery. Friends and acquaintances will kindly accept this intimation.

The death occurred last night of Mary the infant daughter of Mrs. and Mrs. George Padfield, at the age of 7 weeks. The funeral will take place from the residence of her parents, 76 Brant street Monday afternoon to Mount Hope cemetery. Friends and acquaintances will kindly accept this intimation.

Laid at Rest

The funeral of Mrs. David Dennis took place yesterday afternoon from her late residence, 47 Chatham street to Mount Hope cemetery. Deeply impressive services were conducted by the Rev. W. E. Bowyer of Calvary church. The pallbearers were: Messrs. Herb File, Jesse Bartle, H. Brown, Nelson Jackson, Geo. Dennis and Frank White. A wealth of floral tributes showed the regard in which the late Mrs. Dennis was held by her friends and included:

RECRUITS

SECOND DRAGOONS

Two men were added to the Second yesterday. Their names: G. CASWELL, 102 Marlboro st., single, Canadian.

E. KIRBY, Grant street, married, Canadian. This morning Major Brooks gave a short address to the men commending them for their work.

32ND BATTERY

A large crowd gathered on the Market Square last night and saw the 32nd Battery going through gun drill. This drill and the sight of the guns seems to be a source of never-ending interest to the people, who crowd about and examine the machines thoroughly.

The 32nd Battery is still in need of men. Applicants should apply at their headquarters, on George Street, beside the Post Office. Drill is held twice a week, Wednesday and Friday nights.

25TH DRAGOONS

Yesterday the men had their first real route march, leaving Brantford at two o'clock for Burford. The officers were not out to break any records and only allowed the men to cover about 4 miles an hour, resting them a couple of times on the way. Arrived at Burford, after supper the men paraded to the fair grounds and then dispersed for the evening, reporting at 10 o'clock at the armories where they stayed the night.

At 7.30 this morning they fell in and marched back to the city, maintaining the same marching speed as on their outward trip. All the men stood the trip in capital shape and the officers are delighted with the showing.

DUFFERIN RIFLES

The Dufferin Rifles are open every day and evening to receive applicants for recruits at their headquarters in the armories.

To-morrow the Paris boys of the detachment will parade to divine service in Paris, while the remaining number will assemble at the armories and attend probably St. Andrews church.

Desiring to commemorate the Queen's visit to Shepherd's Bush on April 14, the Hammersmith Borough Council proposed to name a large hall "Queen Mary's Hall," or "Queen's Hall." The Home Secretary, however, intimates that the name must not be used without express permission.

No city in Europe has known so many changes of masters as Warsaw. Founded about the year 850, it was the capital of the independent kingdom of Mazovia until the fifteenth century, when it was annexed by Poland. In the seventeenth century its possession was contended for by Sweden, Russia, Austria, and Brandenburg, until, in 1795, Russia practically annexed it. In 1795 the city was handed over to Prussia, but Napoleon occupied it in 1806, and at the peace of Tilsit, Warsaw was proclaimed an independent duchy. In 1809 the Austrians seized the city, but lost it again, and after another brief spell of independence the city passed finally to Russia in 1813.

ECHO PLACE IMPROVEMENT

Matters Discussed at Meeting of the Association. Meeting held by the Echo Place Improvement Association, August 5 in Echo Place School. President Myers in his opening remarks was pleased to see so many in attendance, also glad to hear of the good that had been done the last month by the Side-walk Committee, also stated that Mr. H. Craddock deserved a whole lot of credit for the manner he had accomplished the work of having the Hamilton Road oiled. This was greatly appreciated by all the residents of Echo Place. REPORTS OF COMMITTEES Mr. A. Patterson, chairman of the Road Committee, stated that the work was not completed but would give a full detailed report at the next meeting. Mr. H. E. Craddock, chairman of the Oil Committee, gave a full report on the oiling of the road to the satisfaction of all present. He also wished to thank the residents of Echo Place who contributed to the oil fund, also the Motor League. Mr. T. Morrow, chairman of Lights, gave some information he had received that the residents of Echo Place could anticipate getting the Hydro for street and domestic purposes most any day. It was moved by F. T. Morrow and seconded by A. Edmondson that the Echo Place Improvement Association donate the sum of \$10 for a machine gun fund. Carried. The question of what has become of telephone competition will be brought up at the next meeting. Officers present: Morley Myers, President; F. T. Morrow, Vice-President; A. Edmondson, Treasurer; H. C. Thomas, Secretary. FOR AND ABOUT BOY SCOUTS. At the request of the I. O. D. E. fifty Boy Scouts volunteered to sell badges hoping thereby to raise about \$200.00 towards a machine gun. The result, by troops, was as follows: St. Luke's Troop, 13 boys selling, \$55.65 Bell View Troop, 9 boys selling, \$41.20 Sixth Brant Troop, 16 boys selling, \$40.95 Canadian Pacific Troop, 5 boys selling, \$34.00 St. John's Troop, 8 boys selling, \$9.00 Grand Total \$180.80 The Scouts were delighted to be allowed the opportunity of furthering so splendid a cause, and all worked hard. The following, however, are names of those who were successful: (Grace) \$15.90; W. Springall (St. Luke's) \$11.50; M. Elliott (St. Luke's) \$11.65; E. Elliott (St. Luke's) \$9.65; Geo. Ballinger (6th Brant) \$8.90; V. Cutmore (Grace) \$8.90; G. Clark (St. Luke's) \$7.80; D. Goppin (6th Brant) \$7.80; E. Smith (Grace) \$7.25; Geo. Carey (Bell View) \$7.00; P. Fisher (Bell View) \$6.05. The District Commissioner Rev. C. V. Lester, expressed himself as perfectly satisfied with the boys' efforts, and as very grateful to Miss Van Norman and the other members of the I.O.D.E. for the courtesy and consideration accorded both to himself and the boys. He is especially pleased with their graceful act in crediting the Brantford Boy Scouts in appreciation of their services with \$50.00 towards the machine gun fund. Scoutmaster H. J. Todd, Assistant Scoutmasters Rev. Henwood and R. Ritchey and Patrol Leader P. Fisher (leader of the Bell View troop) did all in their power to help the boys. c

British News

We have already secured a fairly good collection of what has been published in Germany and Austria since the beginning of operations. We have sent abroad a number of military literature to our staff. We have our own experts who devote their energies each to the literature of a particular nation. It is for them to deal with the war books of the nations concerned. Germany seems to be very prone to religious works of the war. We have quite a number of German theological war books. A remarkable case of anthrax, which was apparently conveyed by a shaving brush, was investigated at Hammersmith's Coronor's Court recently. It was stated that deceased had not come into contact with any animals. A few days ago he had a pipe on the neck after shaving, and the following day his neck swelled so badly that he went to the West London Hospital. He died in that institution. Anthrax was not suspected until an examination of the blood was made and the anthrax bacilli were discovered. A London sanitary council veterinary surgeon, said that there had been no case of anthrax north of the Thames since last August. The disease was generally conveyed by personal contact with animals. The disease was caused by the introduction of an anthrax bacillus on a broken or rough surface of the skin. It might have been conveyed by means of a shaving brush, for the hair of various animals was used in the manufacture of shaving-brushes. He could not account for the infection in any other way. Londonderry Magistrates sent to prison for a month a fitter in Brown's Foundry, for delaying Admiralty work. The evidence of the foreman was to the effect that the man was drunk at work on an Admiralty ship, and the man admitted. He made a disturbance, and struck the foreman on the eye. Later the same evening, the foreman, in order to avoid the man, took a round-about way home. Defender, however, followed and assaulted him. Severe drought is affecting the milk supply in Cheshire, and the present outlook is serious. A great shortage is expected soon if the drought continues. The pastures are bare, and in many places the farmers have no water for the cattle. Enormous losses are being caused by the dryness. Root crops are spoiling and fruit losses will be very heavy, a large area being affected. The fruit is now dropping from the trees which promised so well are now bare. Cereals are now suffering, and the hay crop is the lightest known for several years. Women jurors might act in place of men in England is a recent suggestion is followed up. Referring to the presence of some coal heavers as witnesses against jurymen at a Bottle inquest the deputy coroner for West Lancashire said that whilst all labor was required at present he wondered whether some temporary legislation could not be introduced to discontinue the services of a jury. As ladies were now taking up men's work, perhaps as an alternative to his first suggestion they would empanel lady jurors. Judged from a purely business standpoint, the Kaiser stands to lose a lot over this war. For instance, he owns some sixty residences in different parts of Germany, and no fewer than ninety private estates. These bring him in about \$2,000,000 a year. One way and another Germany judged as a going concern, means about \$10,000,000 a year to its overlord. This is just about four times the sum total of King George's income. Of the four German kings, the Kaiser (king of Prussia) is the only one actively assisting in the field, the kings of Bavaria, Wurtemberg and Saxony remaining at home. Quite a number of princes and dukes have been wounded; one is a prisoner of war—the prince of Hohenzollern-Sigmaringen, who was on the Emden; and among the killed are at least six princes—two of Lippe, two of Meiningen, and one each of Waldeck, Reuss, and Hesse. Coaguless is the invention of the great Swiss surgeon, Professor Kocher. It is in the form of a powder which, before use, is mixed with water. Applied to a wound, it almost instantly coagulates the blood and stops the bleeding whether external or internal. It shortens surgical operations and makes them less dangerous. The French medical headquarters speak most highly of coaguless. It will, no doubt, come into general use in all surgical operations. The Russian Sikorsky biplane, is the largest heavier-than-air machine yet invented. It has a wing-surface at least five times greater than that of the commodious Farman biplane. Its steel frame is twenty-two yards long. Its dead weight is over three and a half tons, and it can carry a ton of bombs, and a ton of fuel. At least a quarter of ton would consist of explosives. Nearly half a ton of fuel and oil is carried. The space between the planes is nine feet deep. The forepart of the machine consists of coagulated canvas, extending over a length of about thirty feet. These canvas have large windows on each side, like those of an omnibus. The cabins are electrically lit at night. In cold weather they are heated through the exhaust. c

ONE YEAR'S REPORT OF THE BRANT PATRIOTIC AND WAR RELIEF FUND ASSOCIATION

Explanation is Given in Detail of the Wide Scope and Accomplishment of a Splendid Work.

The Editor of the Courier:

Sir,—On the anniversary of the commencement of the war it appears to me that the citizens of Brantford should be given an account of the stewardship of the Brant Patriotic and War Relief Association.

After the war broke out, a great deal of thought was given as to how we should organize to take care of the conditions created in our midst, caused by the war. Several meetings were held, and after a thorough consideration, it was decided that it would be wise to have one organization to collect and disburse funds for the relief of unemployment, and to see that the dependents of the soldiers who had gone to the front were properly looked after.

The Brant Patriotic and War Relief Association was organized for the purpose, and every subscriber became a member. The officers and committees were duly elected as follows:

- Hon. Pres., Mayor Spence.
- President, Lloyd Harris.
- 1st Vice-Pres., Reginald Scarfe.
- 2nd Vice-Pres., Col. E. C. Ashton.
- Hon. Treas., W. F. Cocksbutt, M.P.
- Hon. Sec'y., C. H. Waterous.
- Secretary-Treasurer, H. T. Watt.
- W. A. Hollinrake, Geo. A. Moore, John McGraw, Rev. R. D. Hamilton, Frank Cocksbutt, Joseph H. Ham, Edmund L. Gould, Edmund L. Cocksbutt, Matthew F. Muir, W. Hargrove, A. K. Bunnell, Thomas L. Wood, W. S. Brewster, Thomas E. Ryerson, William D. Schultz, Wedlake, W. N. Andrews, John Muir, Franklin Grobb, J. S. Hamilton, Rev. M. Kelly, Dean Brady, C. A. Waterous, M. J. O'Donohue, J. A. Sanderson, T. H. Preston, R. E. Ryerson, M. E. Harris, William Milne, Hudson Jennings, Oscar A. Watt, James N. Walker, George E. Cooke, Henry Stroud.

A whirlwind subscription campaign was inaugurated, and pledges were secured for a total amount of \$66,000. Subscribers were given the privilege of paying in four instalments, 25 per cent. October 1st, 1914, 25 per cent. April 1st, 1915, 25 per cent. October 1st, 1915, 25 per cent. April 1st, 1916, with the distinct understanding that if the war should cease between any dates of payment, the balance of the subscriptions would not be called.

On these pledges we collected as follows:

- 1st call due Oct. 1st, 1914, \$15,413
- 2nd call due April 1st, 1915, 13,192
- Cash contributions, 8,883
- Total, \$37,488

For the purpose of properly distributing the funds received, it was decided to work through two sub-organizations, viz.: The Social League for the relief of unemployment and the Canadian Patriotic Fund, Brantford Branch, for the care of the dependents of soldiers gone to the front.

The committee decided that for the past winter, the funds collected from the first two calls should be equally divided, as the distress caused by the sudden cessation of work was very acute, so that up to the present the funds collected have been equally divided between the two sub-organizations mentioned.

As the war, unfortunately is not over, it will be necessary to call for the third payment, which will be done in due course, and subscribers will

be notified to pay in the amount pledged for October 1st next.

Your committee will consider how funds collected in the future will be disposed of, but inasmuch as the conditions of employment should be considerably improved next winter, it is not likely that the Social Service League will receive the same proportion of its last winter.

With the large number of Brantford men who have so nobly answered the call from the front, a heavier burden is imposed on us to care for those whom they have left behind. Those who are not going to the front should exercise every economy, and should take every possible precaution to carry them through the coming winter, and those who were assisted by the Social Service League last winter must not expect the same degree of assistance next winter.

Some citizens have, I believe, criticized the work of our organizations, but the work speaks for itself. I have asked the officials of each organization to outline the work accomplished, and which I now have pleasure in making public. The amount of work involved has been enormous, and the workers have given of their time willingly and unselfishly, and I am proud of our women and men who have so nobly given themselves to this great work. Our work is open to investigation by any subscriber to our funds, and we will be only too glad to show our methods and answer any questions.

Thanking you, Mr. Editor, for your courtesy in allowing the use of your columns,

Yours sincerely,

LLOYD HARRIS.

Lloyd Harris, Esq., President, Brant Patriotic and War Relief Association, City.

Dear Sir,—In reply to your request we beg to make the following report on the work and administration of our fund.

At the meeting of the members of your Association on November 21st, 1914, it was decided to join the Canadian Patriotic Fund, forming a branch in Brantford, and contributing to the fund 50 per cent. of all contributions to your Association's fund.

Application was at once made to the head office of the fund at Ottawa for admission and the same was duly granted.

The executive committee of the Brantford branch of the Canadian Patriotic Fund is as follows:

- President—Mayor Spence.
- Vice-President—Lloyd Harris.
- Executive Committee—Frank Cocksbutt, Rev. G. A. Woodside, R. Scarfe, Dean Brady and Adjutant Hargrove.
- Secretary-Treasurer—H. T. Watt.
- Asst. Sec'y.—Miss E. VanNorman.

The Canadian Patriotic Fund, or National Patriotic Fund, as it is sometimes called, is a Dominion-wide organization. The head office is at Ottawa. His Royal Highness, the Governor-General, is President and chairman of the executive committee. Hon. W. T. White, M.P., is the Hon. Treasurer, Sir H. B. Ames, M.P., is the Hon. Secretary, and Mr. P. H. Morris is Assistant Secretary.

Briefly, its objects are to collect, administer and distribute a fund for the assistance, in case of need, of the wives, children and dependent relatives of the officers and men, resi-

dents of Canada, who, during the present war, may be on active service with the naval and military forces of the British Empire, and Great Britain's allies, and to afford temporary assistance to men invalided home, and to widows of men killed in action or dying on service.

In connection with the Brantford branch, a ladies auxiliary has been formed with Mrs. Jos. Stratford as President, Mrs. J. W. Digby Vice-President, and Mrs. W. T. Henderson Secretary. Mrs. Geo. Watt, Mrs. M. E. B. Cutcliffe, Mrs. M. F. Muir, Mrs. Gordon J. Smith, Mrs. J. E. Waterous and Mrs. R. H. Palmer, as convenors of visiting districts.

This auxiliary has divided the city into districts and systematic calls are made on the soldier's wives with a view to establishing bonds of sympathy and helpfulness, which are quite as valuable as monetary assistance. These ladies also furnish the general committee with the information necessary in deciding upon the amount of the monthly allowances.

In determining the amount of assistance which should be given, wide investigation and extensive enquiries have been made. In Montreal, Toronto, and most of the eastern towns it has been estimated that a woman requires an income of \$30 per month on her own account, \$7.50 for a child between the ages of ten and fifteen, \$4.50 for a child between the ages of five and ten, and \$3 for a child under five. In families where there are more than three children, only \$3 per month is allowed for each child beyond the number, irrespective of its age. No family, however large, is expected to require more than \$60 per month exclusive of assigned pay.

When the allowance for each individual case has been worked out, in accordance with this scale, all sources of income are deducted and the balance paid each month. The following generally may be found to be the sources of income:

- (a) Separation allowance, (paid by Dominion Government).
- (b) Allowance from husband's employers.
- (c) Earnings of other members of the family. Casual earnings, as apart from regular wages, are not considered; otherwise self-help would be discouraged.
- (d) Earnings of ten or more children.
- (e) Living rent free, or fuel free, the value of same is taken into consideration.

It is not customary to include among the sources of revenue that are deducted, the soldier's assigned pay, which is sent to the wives by the Government, except in the case of men engaged in garrison or picket duty. The latter are expected to assign to their families at least 80 cents per day, and this sum would be taken into account.

On January 23rd, 1915, the Canadian Government issued an order in Council to the effect that after April 1st, 1915, each soldier's family that is in receipt of the separation allowance, will also receive at least 50 per cent. of the soldier's pay.

Every effort has been put forth by the local committee and the lady visitors to persuade the soldier's wives to save as much of this pay as possible. Our cheques for monthly allowances are given out on the 15th of each month. On the 15th of July we made a personal appeal to each individual as the cheques were received, urging them to commence a

"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 100 pounds. Several of my friends advised me to try 'Fruit-a-tives' and I did so. That was eight months ago. I began to improve almost with the first dose. No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-tives', and by using it I recovered from the distressing Stomach Trouble, and all pain and Constipation and misery were cured. I completely recovered by the use of 'Fruit-a-tives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-tives' enough."

savings account in some bank. As a result of this plan we learned that about 75 per cent. of those on our lists have at present bank accounts, they prefer to have their money showing the amounts set aside.

The remaining 25 per cent. produced satisfactory evidence that they were paying off old debts, paying for their homes, or properly using their money in some such manner. A number who had not appreciated the necessity of providing for the proverbial "Rainy Day", quite readily agreed to allow us to save some of the money for them.

Some criticism has been made of the amount of money being paid to the soldier's wives, and in this manner, in which they are using it. The foregoing facts go to show that our soldier's wives are endeavoring to make the best of the present, most trying conditions.

We have some 350 names on our list, and while in a few isolated cases we have experienced some difficulty, we are proud to say that the soldier's wives of Brantford are the finest type of womanhood of the country.

Persons prone to criticize should bear in mind that when the head of the house leaves of his own free will to fight for the country's cause, serious and onerous obligations at once fall upon his wife and mother, and it is reasonable to accord these noble women liberal treatment and conditions which will tend to make their lives as cheerful as possible.

With regard to the financial status of the Canadian Patriotic Fund, the Honorary Treasurer's statement of March 30th, 1915 shows receipts to that date of \$3,387,172, and disbursements \$1,101,934, leaving a cash surplus on hand of \$2,285,238.

The Fund has a record of amounts pledged for future payment. New branches are being formed continually and contributions are received daily, so that there is no doubt that the Head Office Executive will be enabled to carry on the work as long as necessary.

By forming a Branch of the Fund in Brantford, we are able to draw back from the Head Office of the Fund the amount necessary to make payments to our soldier's wives every month in respect of the amount contributed.

We are at present drawing \$4,000 per month and by dividing the amount which will have been contributed for the period of a year into monthly payments, we find that we are receiving about twice as much as we are sending in. This will be increased as recruiting continues.

In addition to the amount contributed by your Association, we have forwarded \$1,000 contributed by the city Officials Fund. The County of Brant also reimburse us for amounts paid to soldier's wives resident in the County, and this amount is in the neighborhood of \$600 per month.

Our office and administration expenses are small, representing less than 3 per cent. of the total disbursements.

There is no doubt that the Canadian Patriotic Fund is, as it has been so aptly termed by Sir H. B. Ames, the Honorary Secretary, "A National Benefaction", and we are confident in the assurance that its work has the hearty and sincere support of the people of Canada.

Yours truly,

(Sd.) H. T. Watt.

Secretary-Treasurer, Brantford, Ont., July 23rd, 1915.

Lloyd Harris Esq., President Brant Patriotic and War Relief Association, City.

Dear Sir,—In reply to your request for a report on the work and administration of the moneys so generously placed at our disposal by your Association, we beg to advise as follows:

The Social Service League was formed at a public meeting of citizens held in the Y.M.C.A. Hall on September 15th, 1914. The officers are as follows:

- Honorary President, Mayor Spence.
- President, Frank Cocksbutt.
- First Vice-President, A. McFarland.

Second Vice-president, C. A. Waterous.

Secretary-Treasurer, H. T. Watt. And T. H. Preston.

A Ladies' Committee was appointed for District organization and investigating work, consisting of Mrs. Frank Cocksbutt, Mrs. Cummings Nelles, Mrs. W. C. Livingstone, Mrs. J. W. Digby, Mrs. T. L. Wood, Mrs. M. J. O'Donohue, Mrs. M. E. Whitaker, with power to add to their number. This committee met with Mr. Cocksbutt and Mr. Preston, and the City was divided into districts.

The Constitution of the Social Service League is based on the Russell Sage Constitution for Associated Charities, with certain clauses eliminated which do not apply to Brantford.

The League endeavors to make itself as far as possible a clearing house for all benevolent effort, in order to prevent overlapping and duplicating of assistance given to needy persons.

The work of the League is carried on principally in the Winter months. An office and store room is used in the basement of the Y. W. C. A. and is available without cost, through the kindness of the Management of that Institution. Mr. Nelson-Jee has been in charge throughout the past season, and applications for relief are received by him.

It is the cardinal principle of the League to give work rather than charity wherever possible, and in no case is money given to applicants. When applications are received, or needy cases are reported or discovered by the visitors, they are investigated at once, and an order given for supplies in charge throughout the past season, and applications for relief are received by him.

For the future we do not expect to give anything like the amount of actual relief given throughout the past winter. People who in the past have been obliged to seek assistance are urged and expected to provide now for their needs during the period when conditions make it less difficult for them to do so.

Yours truly, (Sd.) H. T. Watt, Secretary-Treasurer, Brantford, Ont., July 23rd, 1915.

Social Service League, our funds are principally supplied by the Brant Patriotic and War Relief Association. We, however, received from the Old Home Week Trustees \$1,830.76, from fees \$39, and sundries \$194.14; the total receipts to May 6th 1915, being \$16,408.41.

Of this amount some \$4,700 was paid to unemployed in wages, the balance for general relief and running expenses, the necessary running expenses amounting to slightly over one per cent. of the total amount disbursed.

In view of the most unusual and distressing conditions which obtained throughout the past winter season, the Executive Committee feel that the work carried on has been of inestimable worth to the City as a whole. Utmost care and economy has been exercised in the disbursement of the funds, and the dispensing of relief, and sincere thanks are due to those who have so willingly and faithfully taken part.

For the future we do not expect to give anything like the amount of actual relief given throughout the past winter. People who in the past have been obliged to seek assistance are urged and expected to provide now for their needs during the period when conditions make it less difficult for them to do so.

Yours truly, (Sd.) H. T. Watt, Secretary-Treasurer, Brantford, Ont., July 23rd, 1915.

WAR TIME RECIPES

EGYPTIAN LENTIL SOUP. Wash and pick 1/2-lb. Egyptian lentils and put on to boil in about 1 quart of water. Add 1 sliced onion, 1 carrot, 1 turnip, a small bunch of herbs, and celery salt, and boil gently about 1 hour. Rub through a sieve, return to pan, add 1 oz. butter and a cupful of milk. Bring to boil and serve.

BROWN BEAN CUTLETS. Boil 1 pint of brown haricot beans until soft, strain and keep the stock; pass the beans through a sieve and add a tablespoonful of chopped parsley, a little grated onion, pepper, salt, a few drops of A1 Sauce. Add bread-crumbs until the right consistency is obtained for moulding into cutlet form. Egg, crumb, and fry as usual. Serve with tomato sauce or a rich gravy.

STUFFED YORKSHIRE PUDDING. For the stuffing—1/2 lb. cooked lentils, 1 onion chopped and fried, a pinch of herbs, 2 tablespoonfuls of bread-crumbs and seasoning. For the batter—1/2 lb. of flour, 1/2 pint of milk, 1 egg. Mix the batter and partly bake for 20 minutes; remove from oven, spread

with stuffing, roll up carefully, return to oven and bake 20 minutes. Serve with apple sauce and brown gravy. OMELETTE AUX TOMATOES. Take 3 eggs, 1/4-pint of milk, a teaspoonful chopped parsley, and a taste of grated onion juice, pepper and salt. Whisk all in a basin so as to mix thoroughly. Heat 1-oz. of butter in a frying pan, and pour in the mixture and keep putting the knife round the outside to prevent the omelette adhering, and to make the uncooked centre flow towards the rim. When nicely set, fold and serve on a hot dish, either with tomato sauce or garnished with baked tomatoes.

GREEN PEA SOUFFLE. Pass some cooked green peas through a sieve, add pepper and salt, a teaspoonful of sugar, a very little milk, and the yolks of 2 or 3 eggs, according to quantity of peas. Beat the whites of eggs till a stiff froth, add to the mixture and bake quickly in an oiled soufflé dish or small cases.

SAVOURY RISSOLES. Equal quantities of mashed whole meal bread and boiled rice, add a little boiled onion minced fine, some pepper, salt and butter. Mix, roll into shape, of peas through a sausage machine, dredge with flour, dip in butter, and fry crisp. A great variety can be made by introducing lentils, macaroni or haricots, with herbs, fried onions, breadcrumbs, etc., and an egg.

How Italy Has Organized, Told by Mr. G. M. Trevelyan

(SPECIAL DISPATCH.)
LONDON, August 7. G. M. Trevelyan, author of "Garibaldi and the Making of Italy," writes in the Daily Chronicle:

It has generally been thought, and I confess I shared the belief, that organization was not a strong point with the Italians. This did not make any of us like them the less, for nations often have a way of being lovable in inverse proportion to their power of organization—witness the Irish and Germans. But to-day we find in the Italian army how fine a work of organization has been accomplished. But the ten months while Italy was neutral were employed in organizing, with equally remarkable secrecy and speed, a perfect military machine. It was known that Italy was preparing, but how extensively was a well kept secret.

To-day she has no lack of "high explosives" or of anything else (down to masks against poisoned gas) which a close study of the war in other parts of Europe has shown to be necessary. The credit is generally divided between Premier Salandra, General Cadorna, the chief of staff, and Zupelli, the Minister for War. These three have shown themselves to be great men in this work of preparation and foresight, a work which we English are to-day in a position to estimate at its just worth, and no longer to regard as a matter of course.

The Italian Armies.
General Cadorna, by the way, is not commander in chief, but chief of staff. For the King is commander in chief. Vittorio Emanuele III. is daily winning for himself the love of his soldiers. With ceaseless activity he rushes from point to point at the front, appearing where he is least expected, to share a hasty meal with the officers and go round to talk to the men a few words of sympathy and encouragement, often under fire. A democrat and a gentleman, he does not, like the Kaiser, allow any one to worship him as a god, but talks to people as one human being to another. The Casa Savoia has nine representatives at the front by land and sea, including every man or boy of that fighting race old enough so much as to enlist as a private soldier. People like this. A high church dignitary amused and delighted his company the other day by saying that he had an enthusiasm "Savoyard avant Savoia!"

General Cadorna seems to be an Italian Joffre. He has not yet been so fiercely tested, and I do not mean to put any general in this war on a level with the great Frenchman. But I mean that Cadorna has obtained over a susceptible nation the same kind of imaginative hold that Joffre has done, by the same scientific coldness. Like Joffre, Cadorna takes politics in war, organization and humbug of all sorts. Excitement and discipline are his instruments, and he has given the country a quiet confidence in slowly maturing restraints which is just what every country must have in order to endure this long and terrible war of exhaustion.

Not that Cadorna is slow to strike; far

As Solution of the Cotton Problem Britain May Take American Surplus

(SPECIAL DISPATCH.)
LONDON, August 7. Every one who at the beginning of the war urged the government to take emergency action to prevent supplies of cotton reaching Germany is far from pleased with the result of the debate in Parliament on the question, judging from the correspondence which is appearing in the newspapers. What seems to be the general tenor of the views expressed is that what would at the beginning have been a comparatively simple matter now teems with difficulties.

It is asserted that it would have been very simple at the beginning of the war, because then there were only the nominal commercial interests in those countries concerned, such as Holland, Sweden, Norway and Denmark, to be considered, and these nominal interests involved nothing more than the amount of cotton habitually imported for strictly normal consumption. Now, however, the situation is entirely different.

It is pointed out that great vested interests in the importation of cotton and in re-exportation to Germany have been allowed to grow upon neutral ground, and if action were to be taken to-day which ignored these interests international agitation might result which neutral governments and in consequence embarrass our own Foreign Office as well. The matter is, however, of such tremendous importance that great efforts are being made to conciliate the Dutch, Swedish, Danish and Norwegian interests.

In the meantime various expedients have been suggested which challenge careful examination. The most general of these is that cotton should be declared contraband. Technically neutral countries have an undisputed right to import any article they please, whether it be contraband or not. Contraband goods are only liable to seizure when they are shipped to an enemy port, or when in the case of shipment to a neutral country there is evidence that the ultimate destination is an enemy country.

If cotton were now declared contraband, says Mr. O. Raymond Drey, who is an authority on the law relating to the subject, "the duty would devolve on the British government of obtaining every ship bearing from America to neutral ports till this question of destination was decided. It would be in each case a matter of long legal inquiry, involving international law and proceeding, in all possibility, international complications. It does not seem at first sight as if this would be an effective way of stopping the abuse, but in most cases it would probably be extremely difficult to prove enemy destination, and while the cases were being interminably argued at law the abnormal trade would go on. And there would be the additional disadvantage of constantly stimulated exportation, not only in the neutral importing countries, but also in America. At the same time, the fact must not be overlooked that cotton was made contraband of war American shippers would be unable to insure cotton cargoes and would, therefore, undertake less willingly the risk of seizure.

"Another suggestion that has been made," Mr. Drey proceeds, "is that the British government should buy the entire surplus of the American cotton crop for 1915, and also, presumably, what still remains there of the surplus of 1914. This is a very attractive suggestion, but it really attracts serious wear. It really amounts to cornering a great portion of America's production of raw cotton, and American speculators have tried, and again without success to bring off this gigantic operation. Such wholesale purchase could only be carried out on the New York Cotton Exchange. It would be necessary to engage the services of members of that exchange to act in the interests of the British government as buying agents. How is it possible that agents, known to be acting for the British government, should succeed in a task which American speculators, acting in their private interest, have always found beyond their power of accomplishment. It would be quite impossible to prevent hostile interests combining on the New York exchange against the British agents. You cannot go to the cotton fields and buy up the crop from the planters. Even if you could American brokers would be ahead of you.

"The only likely result of an attempt to corner a great part of the American cotton crop would be temporarily to force up prices. American planters and American cotton brokers are free agents and no foreign action could possibly compromise their liberty of action in selling when and to whom they like. Of course, if the operation were feasible, expense would not be an objection itself. The surplus could be held and even sold at a profit after the war if prices went up. Even if prices went down the loss would be no great matter compared with the gigantic daily cost of the war. A great part of the British home consumption, however, would, no doubt, be resold immediately to Holland, Sweden, Denmark and Norway for their home consumption. But if the scheme is impracticable the question of cost is one merely of academic interest.

"What the government is actually doing," says Lord Robert Cecil declared in the House, is to attempt to come to diplomatic agreement on the one hand with Washington, and on the other with the governments of the four neutral States, to procure that all cotton imported into the four neutral States from America should pass exclusively through the hands of controlling syndicates governed by agreed conditions in the countries. This has already been done in the case of Holland, and if the others fall in with the plan it may be that it will be completely successful in keeping cotton out of Germany. How far it has already been successful in Holland it is impossible to say, as the statistics showing the amount of American cotton imported by that country are not available before April 30. We only know that up to April 30 for a given period the imports of cotton into Holland had been thirteen times as great as in the last corresponding period before the war. Presumably since the syndicate policy is being proceeded with by the government there has been a complete change in the situation since then. At the same time it must be remembered that the difficulty of controlling the bonafides of such syndicates exists, and must always exist. Germany is offering the neutral tempting prices for the cotton she needs so much

High Explosives, Their Nature and Their Effect

(SPECIAL DISPATCH.)
LONDON, August 7. The following article on high explosives, what they are and how they are made, is published in the Daily Mail:

The characteristic of high explosives is the extreme violence and suddenness of their detonation. Water is an explosive when it is heated and when it becomes steam, but the expansion is so slow that explosive results do not usually follow unless there is gross negligence.

Gunpowder of the old type expands more rapidly than water and produces a large volume of gas, but, again, it acts with comparative gentleness. High explosives, on the other hand, pass instantly from a solid or liquid form to gas and act with terrific energy, tearing to pieces any vessel which contains them. To make them act in this manner they usually require a detonator, which applies a violent shock to them and starts the explosion. It is a curious fact that most of the high explosives when lighted with a match burn quite quietly.

Almost without exception high explosives are composed of some organic substance, which means some form of carbon treated with nitric acid. Without nitrogen, which is the chief ingredient of nitric acid, it might be said that there can be no explosives. Yet by a paradox nitrogen is one of the most inert gases known and the chief ingredient of the air we breathe. Possibly its explosive value arises from this very inertness; it combines so exceedingly reluctantly that on small provocation the compound breaks up into gas, giving the enormous expansion needed for explosive effect.

Power of Lyddite.
The most famous modern high explosive and one of the most powerful is lyddite, which is very similar to the French melinite and the Japanese shimose. Lyddite is simply picric acid melted with a little vaseline. Picric acid is a yellow, crystalline substance largely used as a yellow dye and also very serviceable in medicine for the treatment of burns. It is intensely poisonous and a powerful explosive. Attention also very serviceable in medicine for the treatment of burns. It is intensely poisonous and a powerful explosive. Attention also very serviceable in medicine for the treatment of burns. It is intensely poisonous and a powerful explosive.

Ammonal, a high explosive largely used in the Austrian army, is simply a mixture of picric acid, "T. N. T.," aluminum in fine powder and nitrate of ammonium. It is a safe and powerful but has the disadvantage of being hygroscopic, or attracting moisture, and for that reason shells containing it do not always explode.

Gunotton, the oldest and best known of high explosives, is little used for filling shells, though it was commonly employed in our navy for charging the heads of torpedoes until the present war. In power it is slightly inferior to "T. N. T." and considerably inferior to lyddite, while it has this further disadvantage that it is liable to be set on fire by a shot. It is prepared by steeping the very finest cotton in a mixture of nitric and sulphuric acid, using great care and taking precautions to prevent the temperature rising. The process of steeping occupies from one hour up to a whole day, and strong acid fumes are given off while the work is in progress. After steeping the cotton is washed, kept until it is slightly damp, when it is compressed into cakes and blocks, in which form it is ready for use.

Concealed Batteries Annihilate Italians After Hand to Hand Fight

(SPECIAL DISPATCH.)
BERLIN, August 7. The Prager Tageblatt recounts a stirring episode, told by Ludwig Magyar, of a clash between Austrians and Italians in the Tyrolean Alps.

"A small patrol of Hungarians were on guard high up on one of the peaks when the Italians in large numbers were seen approaching," says the writer. "It was a warm June afternoon. The Hungarians waited anxiously for the battle, which was to be their first with the Italians, and they were determined to show them what kind of soldiers they were.

"A small patrol of Hungarians, charged and a hand to hand encounter followed. Guns were thrown away in the frenzy of the combat, and both sides fought with their bare fists and even with their teeth.

"The Hungarians were forced to retreat and the Italians captured the hill. They were in possession of it one day and part of another day. This joy over their victory was short lived. Their provisions and water had given out, and they despatched a messenger after another to the troops stationed at a nearby village to replenish their meagre supply. Finally a caravan of forty mules carrying the necessary food and water came slowly up the winding road, and cries of "Hurrah" rent the air from the parched throats of the Italians.

"Suddenly a concealed battery of machine guns opened fire on the caravan, annihilating it. The Italians on the crest of the hill looked on with amazement at this surprise attack. Then a terrible fire from another concealed battery on the other side of the hill began to mow down the surprised Italians. They were caught in a trap. They fought bravely, but hopelessly, as the shells did their deadly work.

"That evening the Hungarian patrol saluted the column of the regiment.

"We have the honor to report that there is not an Italian left on the hill."

Lesson VI.—Third Quarter, For Aug. 8, 1915.

THE INTERNATIONAL SERIES.

Text of the Lesson, 1 Kings xii:6-16. Memory Verse, 16—Golden Text, Prov. xvi, 18—Commentary Prepared by Rev. D. M. Stearns.

In this record of the division of the kingdom and its cause we still see God over all controlling and in all working, for He has foreseen everything from the beginning and provided for every so called emergency and always tells the final outcome. This division of the kingdom has never been healed till this day, but it will be in His time, according to Ezek. xxxvii, 21, 22, "I will make them one nation in the land upon the mountains of Israel; and one king shall be king to them all, and they shall be no more two nations, neither shall they be divided into two kingdoms any more at all." The immediate cause of this division is found in chapter xi, 9, 10, "The Lord was angry with Solomon because his heart was turned from the Lord God of Israel, which had appeared unto him twice and had commanded him concerning this thing that he should not go after other gods." Therefore was the king, dom rent in twain. Departure from God and disobedience to Him is back of all trouble, as a rule, and the devil is back of that, but the time will come when on this earth there shall be no more trouble, and from this earth and this atmosphere the devil shall have gone forever (Rev. xx, 10; xxi, 1-4; xxii, 3-5). Whether it is providing a king for Israel, as we have seen in the case of Saul, and David, and Solomon, or dividing the kingdom, as we are about to see, the Lord generally works by ordinary human instrumentality.

In our lesson story today we see Hadad Rezon and Jeroboam and Rehoboam and old men and young men all doing seemingly as they saw fit, but behind the scenes is an unseen hand controlling. "The Lord stirred up an adversary unto Solomon, Hadad, the Edomite." "God stirred him up another adversary, Rezon, the son of Eliadah." "Thus saith the Lord, the God of Israel, Behold I will rend the kingdom out of the hand of Solomon and will give ten tribes to thee." "The cause was from the Lord, that He might perform His saying, which the Lord spake by Ahijah, the Shilonite, unto Jeroboam, 'the son of Nebat.' "Thus saith the Lord, Ye shall not go up night against your brethren, the children of Israel: return every man to his house, for this thing is from Me." (1 Kings xi, 14, 23, 31; xii, 15, 24). Even the devil cannot touch a child of God without God's permission, as we see in the case of Job and of Simon Peter.

The believer who aims to walk with God in humility and obedience may live in continual peace and quietness, assured that all things are God's best for him and that no real evil can ever befall him. But if there is disobedience or willfulness God will in love and wisdom chasten for our good. Solomon being dead, Rehoboam, his son, reigned in his stead, all Israel having made him king at Shechem (xii, 1; 1 Chron. x, 1). When Jeroboam heard in Egypt that Solomon was dead he returned and, with a deputation, waited upon Rehoboam with a request that he would lighten the burdens which his father's magnificent reign had caused to be placed upon them. He asked for three days to consider their request, and meantime he consulted first with the old men and then with his young men. The former advised moderation and that he speak kindly to the people, but the latter advised increased severity. So when the third day came and Jeroboam and the people came again for his reply he spake to them as the young men had advised, for the Lord was by their evil counsel working out His purpose (verse 15), as He also wrought by the counsel of Hushai, which was evil toward Absalom, to overthrow him. "The counsel of the Lord standeth forever, the thoughts of his heart to all generations," but all other counsel or device He bringeth to nought (Ps. xxxiii, 10, 11). " whatsoever the Lord pleased that did He in heaven and in earth, in the seas and all deep places" (Ps. cxxxv, 6).

However people may associate themselves against Him or take counsel together against His people, all shall be broken to pieces and come to nought. (Isa. xli, 9, 10). For "the Lord of hosts hath sworn, saying, Surely as I have thought, so shall it come to pass; and as I have purposed, so shall it stand." (Isa. xlv, 24). He maketh the wrath of man to praise Him, and the remainder He restrains. He saith to the sea, "Hitherto shalt thou come, but no further; and here shall thy proud waves be stayed." (Ps. lxxv, 10). Job xxviii, 11). If our hearts are whole toward Him He will hold strongly with us and cause others to see and know that He is with us; but if we are self-willed and rely on human wisdom He will work against us and overthrow us, though He may bear long with us. He has a purpose for every individual life of His redeemed, as well as for the church, which is His body, and for His people Israel for all nations; and He will accomplish His purpose through His willing people individually and collectively. We never heard of anything so great as the love of God.
