

SENSATIONAL REPORTS ISSUED RE CONDITIONS OF C.N. RAILWAY

BOARD OF RAILWAY COMMISSIONERS REPORT AS TO FAILURE TO FURNISH ADEQUATE AND SUITABLE ACCOMMODATION FOR RECEIVING AND DELIVERING TRAFFIC—INABILITY TO SUPPLY SUFFICIENT CARS—SHORTAGE OF PROPER APPLIANCES—NOT ENOUGH ENGINES OR SNOW PLOUGHS.

Special to The Leader. OTTAWA, July 9.—The report of Mr. Dillinger, of the board of railway commissioners on the conditions of the Canadian Northern Railway is rather a sensational document. It says: "In compliance with the order of the board dated April 19th, 1907, I beg to report as follows:—1. That the Canadian Northern Railway company has within the period of twelve months next preceding the issue of the above order, failed, and does now, and up to the time of making this report fail: (a) To furnish at the place or places of starting on its railway, or at the junction, or junctions of its railway with any other railway, or railways, and at the stopping place, or places established for such purposes, adequate and suitable accommodation for the receiving and loading of traffic offered for carriage upon its railway, and (b) to furnish adequate and suitable accommodation for the carrying, unloading and delivering of such traffic, and (c) Without delay and with due care, and diligence to receive, carry and deliver such traffic, and (d) to furnish and use all proper appliances, accommodation, and means necessary for receiving, loading, carrying, unloading, and delivering of such traffic. 2. That the company failed and does fail as aforesaid in not furnishing at the points named, the required number of cars to receive and deliver traffic for carriage at these points, and in its inability to utilize to the best advantage even the motive power of the company has, in my opinion, the causes for each failure, have been and are largely, if not entirely, (a) The lack of motive power and cars to move the traffic offered; (b) The need for additional facilities such as roundhouses, and repair, or machine shops at different points on its system, proper, and expeditiously to care for the same; (c) The severity of the winter; (d) The want of proper equipment to keep the tracks cleared from ice and snow during the winter months; and (e) The complete absence of systematic organization in the operation of its system. 3. The company is not possessed of all proper appliances, accommodation and means necessary for receiving, loading, carrying, unloading, and delivering traffic that will probably be offered immediately, or within the two years next succeeding the issue of the document herein, before referred to at all places of starting on its railway, at all junctions of its railway, and at all stopping places established by it for such purpose, for carriage upon its railway. The company is not possessed of a sufficient number of locomotive engines or cars, of the facilities, roundhouses, and repair shops, for carrying forth a sufficient number of snow ploughs, flangers, and snow-fighting appliances, to keep the track clear for traffic in the winter months, nor has the company the proper organization to make available and utilize to the best advantage the equipment it already has.

ROBLIN WILL FIGHT TO HIS UTMOST TO PREVENT THE GRAND TRUNK PACIFIC RAILWAY CUTTING INTO COLLEGE PROPERTY.

WINNIPEG, July 9.—Hon. A. C. Killam, chairman of the Government Railway Commission, and Dr. James Milne, of the same board, arrived in this city this morning at 9:45 from Port Williams. The first session of the commission opened in the appeal courtroom at the court house at 11 o'clock; after hearing a brief outline of the arguments against the proposed route of the Grand Trunk Pacific into the city the commission adjourned its sitting until 10:30 tomorrow morning. This afternoon all those interested in the entrance of the Grand Trunk Pacific accompanied the commissioners over the ground around the agricultural college, Tuxedo Park and through the city. Judge Killam called upon Mr. Roblin to submit his objections to the line. The Premier stated that he was representing the people of Manitoba in protesting against the Grand Trunk Pacific being allowed to cut in half the agricultural college farm. The land had been bought two or three years ago, and was then thought to be located so as none of the railways would want to interfere with it. Already the government had invested approximately half a million dollars in the project, and it would total one million. If the Grand Trunk Pacific through the farm was approved it would destroy the property for the purpose for which it was secured, he had the opinion of the professors of Glasgow and the United States and their views coincided with his. He would have the commissioners go over the grounds and would be glad to accompany them. Mr. Roblin estimated and in fact, was another route to fight the proposed route to the utmost of his power, stating that he was backed by all the members of the local legislature, and by the majority of the people of Manitoba.

LIQUOR STOPPED FOR COBALT STRIKE

GOVERNMENT TAKE MEASURES TO PREVENT SUPPLY OF LIQUOR TO MINERS ON STRIKE. Special to The Leader. TORONTO, July 9.—In view of the possibility of serious developments at the situation at Cobalt, the Government has promptly taken measures to prevent the supply of liquor to the miners, while the strike lasts. In response to a requisition signed by Mayor Forlin, of Cobalt, Hon. W. J. Hanna at once took up the matter with the T. & N. O. Railway Company and expressed his opinion that the liquor in the district to see to it that hotels at New Liskard, Haliburton, and Latchford do not sell any packages of liquor and to report any hotel keepers who are found to be contributing to drunkenness. The action of the Government is due to the fear that the supply of liquor to the miners on strike might lead to serious mischief and would seem to indicate that the struggle is likely to be a severe one.

GOVERNMENT VS. MARCONI WIRELESS

MINISTER OF MARINE DENIES CHARGES THAT CONTRACTS ARE BEING NEGLECTED. Special to The Leader. OTTAWA, July 9.—Hon. W. R. Pleimen, Minister of Marine, denies the charge of the Marconi Company that the contract rights of that company with the Government are being neglected or infringed. The company claim that their contract made with the Government in 1902 gave them a monopoly of the wireless business in Canada to the exclusion of all other companies and all other wireless systems. The dispute has been brought to a head by two things which the Government has done recently. One of these is the installation on the Pacific coast of wireless stations by the Government and the avowed intention of the Government to operate these stations itself. The Marconi company contend that they should have been given the right to erect and equip these stations and to operate them all the time. The Marconi company erected and operated the stations on the Atlantic coast. The other action of the Government against which there is a complaint by the Marconi company is the issuing of a license without which no ship or station can do a commercial business in Canada. The company specifies that the ship or company which receives it shall exchange it with any other wireless company which offers it to them. Recently the Marconi Company arranged to equip three of the Canadian Pacific Railway Company's steamers on the Pacific Coast with wireless apparatus and applied for a license to operate them. These were the first licenses for wireless telegraphy issued after the Government had decided upon the licensing system. After receiving the license the company claimed that its rights were infringed and declined to pay the license fee. They objected to the provisions that there shall be an exchange of business with any other company. The Government believes that it is within its rights under the contract and that its actions are in the public interest.

BUSY DOINGS AT INDIAN HEAD EXPERIMENTAL FARM

TRAINS FROM EAST AND MAIN LINE BRING HUNDRED OF INTERESTED VISITORS—ENTIRE STAFF OF THE PROVINCIAL AGRICULTURAL DEPARTMENT PRESENT—PLEASANT OUTING AND INTERESTING LECTURES—EXHIBITIONS FROM THE WEST WILL ARRIVE TODAY. From Our Own Correspondent. INDIAN HEAD, July 9.—This was another of Indian Head's busiest days, it being the first day of the experimental farm exhibition. Trains today brought hundreds from the east, including the main line, Arcola and the Soris branches. The trains began to arrive at ten o'clock in the morning and thereafter until five in the evening all was a lively scene. The trains unloaded at the farm and from there it was a step to the main buildings of the institution, including those in from the surrounding country who come every year to meet their friends at the annual event, there must have been some nineteen hundred people present. The government provided a free lunch and a free ride to and from the town and about the farm. The general hospital aid has charge of the catering and this kept the directors and their assistants busy from the time of arrival until after tea. Large tents were erected, providing eating places and resting spots for mothers with babies, and lecture rooms for those holding forth on the various subjects. The entire staff of the provincial agricultural department was present. These were Hon. W. R. Motherwell, A. P. Ketchen, Deputy commissioner of agriculture, J. Brackett, director of farmers institutes, Hedley Auld, secretary of the statistics and information bureau, and T. N. Willing, provincial weed inspector. Besides these Prof. Saunders of Ottawa, and J. Murray, superintendent of the Brandon experimental farm were present. All those gentlemen with Superintendent MacKay made splendid array of competent instructors in the agricultural lines. Among the speakers of the day were Hon. W. R. Motherwell, Prof. Saunders, and Supt. MacKay. They welcomed the visitors to this pleasant annual outing, and expected them to have as enjoyable and profitable time as it would be possible, to secure. After the addresses were finished the teams and rigs were brought to the grounds for those who cared to see the many points of interest about the farm, such as the grain plots, gardens, groves, hedges and wind breaks. Hundreds of others contented themselves with lying under the maples and listening to the attractive airs played by the Lebrecht Industrial band. Ice cream, lemonade, fruit, etc., abounded in the hospital booth, which was largely patronized throughout the day as the heat was intense. The trains all left on their homeward ways about six o'clock, the Gainsboro section going first, the main line east to Fleming second and the Arcola last. Tomorrow there is expected to be a larger crowd present when excursionists from the west as far as Caron and from the Canadian Northern will come down to spend the day. The Norris & Rowe circus will be here and will provide additional attraction, as it will draw immense crowds from the surrounding villages and vicinity.

BASEBALL

Calgary V. Edmonton. CALGARY, ALBERTA, July 9.—McClellan has the Indian sign of the Calgary players until the ninth innings, when but one hit had been made on the Edmonton twirler, on the other hand, the Calgary pitcher, Sykes, was being baited freely, 12 hits being registered off him, with five runs. The score: Edmonton — 0 0 0 4 0 0 0 1 5, 12-2. Calgary — 0 0 0 0 0 0 0 0 1 4 4 4. Hatters Beat Lehigh. BATTERIES: Morrison and Rogers; Hollis and Benny. Winnipeg Beat Duluth. DULUTH, Minn., Winnipeg took today's game from the White Sox by a score of 6-1. Bushelman was unhit when hits meant runs. Winnipeg — 0 0 0 3 2 1 0 0 0 6 8 1. Duluth — 0 0 0 1 0 0 0 0 1 6 3. Batteries: Crueshman, Crisp, Treadway and Smith. Calumet-Houghton: Houghton beat the home team in proper style today with a score of 9-1. Houghton — 0 0 2 3 1 0 2 0 9 1 1 2. Calumet — 0 0 0 1 0 0 0 0 1 1 7 5. EASTERN. At Toronto: Toronto 7; Montreal 4. At Providence: Providence 2; Jersey City 12. At Newark: Newark 4; Baltimore 1. At Rochester: Rochester 3; Buffalo 5. ASSOCIATION. At Minneapolis: Minneapolis 8; Louisville 7. At St. Paul: St. Paul 4, Toledo 5. At Kansas City: Kansas City 7; Columbus 2. At Milwaukee: Milwaukee 1; Indianapolis 7. AMERICAN. At Cleveland: Cleveland 1, New York 3. At Detroit: Detroit 3, Boston 7. At St. Louis: St. Louis 5, Washington 4. At Chicago: Chicago 5, Philadelphia 1. NATIONAL. At Boston: Boston 5, Cincinnati 1. At Philadelphia: Philadelphia 1, Pittsburgh 8. Second game, Philadelphia 2, Pittsburgh 9. At New York: New York 5, St. Louis 3. Second game, New York 6, St. Louis 5. At Brooklyn: Brooklyn 1, Chicago 7. The Japan Crisis. By Associated Press. LONDON, July 9.—It is reported that Director Ishii, of the foreign office, has been ordered to proceed to the United States and Canada, evidently in connection with the Japanese labor question. The time of his departure has not yet been announced. Gunner Wants Fight. By Associated Press. LONDON, July 9.—Gunner Moir, will cross the Atlantic to meet Tom Burns, if suitable inducements are forthcoming.

PROVINCIAL SYNOD TO MEET IN REGINA

ARCHDEACON LLOYD SAYS THE TRIENNIAL MEETING WILL BE HELD IN REGINA. Special to The Leader. WINNIPEG, July 9.—Archdeacon Lloyd, of Lloydminster, has arrived in the city from the east. The Archdeacon is interested in the matter of education of the helpers who are at work in the diocese of Saskatchewan and states that arrangements will be at once completed for the opening of a theological training school in Prince Albert this fall. He has just returned from Ottawa where he went to meet the Minister of the Interior, with whom it was necessary that he should confer in reference to the property owned by the church in Prince Albert, but now being used by the Department of Indian Affairs. Asked regarding the proposed re-organization of the dioceses of the West the Archdeacon stated that the matter had been discussed formally during the past year, and that it would come up for a fuller and more formal discussion at the triennial meeting of the provincial synod, which would convene in Regina on August 14th. The expansion of the West had created a new set of conditions in all portions of the country, and very important matters would be coming up for consideration at the meeting in Regina.

SEATTLE RECEIVES 20,000 DELEGATES

WAS SENT TO KILL BRADLEY. ORCHARD SAYS HE WAS COMMISSIONED BY HAYWOOD TO KILL BRADLEY. BOISE, July 9.—The reading of the deposition taken in San Francisco in connection with the explosion at the residence of Fred Bradley, whom Orchard swears he twice attempted to assassinate. Today one of the closing features on the side of the defence in the trial of Wm. D. Haywood accused of the murder of Frank Steunberger. By the state the Bradley incident is looked upon as one of the most important features of their case in the support of Orchard's story. The defence all along has maintained that the attempt to poison Bradley and his whole household, and the explosion at his house, which Orchard said was caused by a bomb placed by him, are a fabrication. Orchard says that he was commissioned by Haywood to go to San Francisco and kill Bradley who had been a consistent enemy to organized labor. Bradley was terribly mangled but recovered. Shortly after the explosion the owner of the house used the company for damages and got a judgment because of an escape of gas, which it was claimed caused the explosion. Bradley still maintains his belief that the explosion was caused by gas. It is not likely that he will go on the stand before tomorrow. His testimony will take one day and on Thursday Haywood will be called. His examination will take up the remainder of the week and the state's rebuttal is hardly looked for before Monday. WHALE IN B. C. Health Officer Has Difficult Task to Dispose of Leviathan. Special to The Leader. VICTORIA, B.C., July 9.—A whale has been washed ashore at Cordova Bay, near here. The leviathan is at present lying close in to the beach and is an object of interest to all living within the district. Dr. Fingan, the provincial health officer today notified the city sanitary inspector to take steps to have the carcass removed and the latter official is now engaged upon the difficult task.

Dr. Fingan, the provincial health officer today notified the city sanitary inspector to take steps to have the carcass removed and the latter official is now engaged upon the difficult task.

CANNOT GET MEN TO DO GRADING

IS MANITOBA PREMIER'S REPLY TO BIG DEPUTATION OF FARMERS. Special to The Leader. WINNIPEG, July 9.—A big deputation of the settlers living in the country on the east side of Lake Manitoba, beyond Oak Point, swooped down on the legislative buildings this morning and wanted to know why the Oak Point branch of the Canadian Northern Railway had not been built, according to the promises given them nearly a year ago. There were eighty men in the deputation. They wanted a definite answer and also a positive assurance that any promises made would be fulfilled. The Premier in addressing the delegates admitted that a specific promise had been made nearly a year ago that the road would be extended, and the reason why it had not been filled was the impossibility of getting men to do the grading. Efforts had been made to secure men regularly engaged in railway construction but they could not get them. The farmers then were asked to turn out and to do the work, but they, too, were busy and could not leave their farms. He would make no promises or give no assurances unless he knew they could be carried out. TO FORTIFY HAWAII. Secretary of Navy to Inspect Naval Base and Fortifications. By Associated Press. NEW-YORK, July 9.—According to a Washington dispatch to the World, Secretary of the Navy Metcalf will sail for the Hawaiian Islands on July 25th to inspect the naval base and fortifications there with a view to making plans to Congress for strengthening the position. Secretary of Commerce Strauss will sail on the same steamer to look into the immigration system on the islands and enquire into the reports that the Japanese are flocking to the islands. Storm at Rathwell. Special to The Leader. RATHWELL, MAN., July 9.—About 11 o'clock on Sunday night a very severe storm passed over the district north of here, R. J. Walker who lives five miles northwest of Rathwell had a valuable three-year old colt struck and killed by lightning. There was a heavy rain in the Indian Ford district the same night.

KING PARDONS COLONEL LYNCH

SENTENCED TO DEATH IN 1903 FOR HIGH TREASON, IRISHMAN IS PARDONED. By Associated Press. LONDON, July 9.—On the eve of his visit to Ireland King Edward has granted a free pardon to Col. Arthur Lynch, who was convicted of high treason in 1904, for having fought in the Irish Brigade on the side of the Boers in the South African war. Lynch was sentenced to death for high treason in 1903, his sentence later was commuted to imprisonment for life, and in January, 1904, he was released "on license." Lynch was a member for County Galway in the House of Commons.

CANADIAN SHOTS SCORE AT BISLEY

DOMINION MEN MAKE BIG SCORES AT THE ENGLISH BISLEY MEETING. BISLEY, July 9.—The following high scores were made today at the Bisley meeting in England by the Canadians attending the meeting: Gregory Competition—Staff Sergt. Graham, Toronto 35, Staff Sergt. Kerr, Toronto 34. Alexis Competition—Tom Mitchell 25, Lieut. Converse, Quebec 34; Staff Sergt. C. N. Mitchell, Winnipeg, 34; Pte. A. B. Mitchell, Toronto 34. Armourers Company Competition—Lieut. MacVittie, Toronto 33; Capt. C. N. Mitchell, Winnipeg 33; Major Wetmore, Clifton, N. S., 33. Lord Mount Severn subscribed ten pounds towards the fund being raised to send a British rifle team to Canada and Australia. USING MAILED TO DEFAUD GRAIN CASE—THE WISCONSIN WITNESS EXAMINED. By Associated Press. ST. PAUL, Minn., July 9.—In hearing today in the case of the Government against G. W. Wood and other officers of the Wisconsin Grain and Stock Co. charged with using the mails to defraud, Milton J. Wright, now with the Minneapolis chamber of Commerce, and formerly "traveling complaint adjuster," for Edward Woods, was the important witness for the government, he stated he had been employed by G. W. Wood, to go to Superior and take charge of the Superior board of Trade and Superior clearing house. His testimony regarding the working of the board of trade was interesting, to the effect that it showed that "Members" of that body were chiefly youths employed by the Woods, and that "Trading," was mostly of scale order. The object of the boys being to so adjust their trades that their "winnings" would equal the salaries they were guaranteed, which were \$50 a month. ST. LOUIS, Mo., July 9.—Seven indictments were returned today by the Federal grand jury against Edward G. Lewis, president of the People's Bank, charging fraud. Defendant gave bonds.

FEAR FOUL PLAY

TORONTO, July 9.—The body of an unknown man was washed ashore this morning on Lakeshore opposite the second entrance gate to High Park. The man was about sixty years of age. It was quite apparent from the condition of the body that it had not been in the water more than twenty-four hours. There was a slight gash on the right side of the neck, which led the police to believe that the man might have been murdered. Princesses Birthday. By Associated Press. LONDON, July 9.—Princess Victoria, the only unmarried daughter of King Edward and Queen Alexandra, celebrated her 39th birthday on Saturday. The Princess is one of the best loved members of the royal family.

CHICAGO, July 9.—Five persons died in Chicago yesterday from the heat. Ten more were stricken and three of these may die.

The Glasgow House. "The Store that Serves You Best."

BRITISHERS FORM HUGE STEEL TRUST

NINE BIG COMPANIES IN DEAL WITH COMBINED CAPITAL OF \$130,000,000.

A great combination of iron and steel manufacturers, similar to those existing in the United States and Germany, is in course of formation in Great Britain, with the avowed object of dominating the steel trade of the world.

Nine big companies, headed by Vickers Sons & Maxim, and including John Brown Co., which recently was amalgamated with the Harland & Wolff Company, have absorbed thirty-six previously independent concerns, which will give them control, it is estimated, of about 90 per cent. of the steel produced in Great Britain.

The details of the combination have not yet been worked out, but it probably will be based on the principle of the German trust, involving the regulation of prices, adjustment of the output to the demand and equal distribution of orders.

The other firms included in the combination are Cammel, Laird Co., the North Eastern Steel Company, the Wearside Steel and Coal Co., the Dorman & Long Company, Guest, Keen and Nettleton, the Baldwin Company and Stewart, Lloyds & Co. It is pointed out that it is extremely difficult to complete such a combination in England, as it is necessary to make public all deals with reference to them to the shareholders of the various companies.

Touring in Canada

MONTREAL, July 4.—Sir Montague Allen left by the Canadian Pacific Railway tonight bound for the west. He will make an extended tour throughout the Canadian Northwest and British Columbia, inspecting the Merchants Bank and the Ogilvie Flour Mills properties, in both of which he is a director, being president of the former.

WILSON'S FLY PADS

One packet has actually killed a bushel of flies.

Solely by WHOLESALE, GROCERS AND GENERAL STORES 10c per packet, or 5 packets for 25c. Will last a whole season.

HIGHWAY MEN ROB AND KILL FARMER

FARMER IS ROBBED AND MURDERED AFTER HARD FIGHT

NEW YORK, July 3.—Held up by highwaymen on a lonely road near Richmond Hill, Long Island, Christie Bruce, a farmer, was murdered and robbed early today while driving home from market. The evidence along the roadside showed that the body had made a desperate fight for his life before the highwayman finally shot him. One of the pockets of the steel produced in Great Britain. The details of the combination have not yet been worked out, but it probably will be based on the principle of the German trust, involving the regulation of prices, adjustment of the output to the demand and equal distribution of orders.

EXPERIMENTAL FARM.

For New Ontario—Site Chosen By Minister of Agriculture.

TORONTO, Ont., July 4.—The new experimental farm for New Ontario is to be located north of McDougall's chute beyond the end of Steel. This is said to be the decision of Hon. Neilson Monteth, minister of agriculture, and the officials who went north last week to choose a site. Hon. Mr. Monteth is impressed with the possibilities of the country.

PORT ARTHUR GRIEVANCES.

Ministers Receive Delegations From Lumber and Mining Men.

PORT ARTHUR, July 4.—Today was spent by the Ontario ministers in receiving delegations of the citizens from the city and country, who presented their claims and grievances for consideration. The timber men sought relief from operation of the law which bears hard upon them and increases the price of raw and finished lumber.

The mining men sought changes in the Mining Act, to which Mr. Cochrane said a lease would be granted, and the Government would build a controlling dam at the outlet of Dog Lake, and afford a right of way for the transmission of line over the public lands. A public meeting was held in the evening.

Fell Down Shaft.

TORONTO, Ont., July 4.—Henry Shaw, an employee of the Bramford Sluich Co., fell down the elevator shaft at the works today, sustaining spinal concussion. His condition is serious.

CELEBRATING INDEPENDENCE

AMERICAN CITIZENS OF WINNIPEG HOLD PICNIC TO PORTAGE LA PRAIRIE.

PORTAGE LA PRAIRIE, July 4.—The American citizens of Winnipeg celebrated their national holiday by holding a picnic to this city. All over the world, wherever he may happen to be, Independence Day is always made a head line feature of the loyal American and the celebration of today were in enthusiasm or profusion, either in the form of a picnic or a grand display. The train consisted of the local depot at about half past eleven and had about 600 celebrants aboard.

The local band was in waiting at the station and to their lively strains the visitors streamed down Main street and along the Avenue. All classes were represented in the procession, and everyone had prominently displayed the national emblem of the country, whose birthday as an independent nation they were honoring. The hotels and eating houses were quickly filled by those who had not come from the city, and the streets were thronged with visitors. The hotels and eating houses were quickly filled by those who had not come from the city, and the streets were thronged with visitors.

Hampered by Skirt.

CATSKILL, N. Y., July 4.—Her efforts to swim, hampered by a long skirt which she wore while bathing in the Hudson river last evening, Miss Ruth E. Dederick aged 15 became exhausted and was drowned in the presence of several girl companions.

Company Litigation.

TORONTO, July 4.—The affairs of the late Henderson Roller Bearing Co., and its successor, the Standard Bearings Ltd., are again in the courts. The old concern, it will be remembered was reorganized in February, under the new name, and the Standard Bearings Co., which was an independent company, and controlled the Henderson patents, now uses the Standard Bearings for an order settling aside the reorganization agreement on the ground of fraud and misrepresentation.

POPE PIUS X IS FAST FAILING

POPE SHOWS SIGNS OF WEAKNESS AND GENERAL FAILING OF HEALTH

ROME, July 3.—For some time the Pope's health has caused a great deal of anxiety to those who know him. There is no concealing the fact any longer that Pope Pius X. has aged considerably and grown very much weaker. His color has disappeared, and there are signs of weakness which grow gradually. The spirit of the Pope followed so suddenly upon the freedom and simplicity of his life in Venice, has ended by making him a melancholy man.

INVESTIGATING GRIEVANCES.

PORT WILLIAM, Ont., July 3.—Hon. Frank Cochrane, the Minister of Lands and Mines in the Ontario Government, is in the city preparatory to making a trip into a portion of the province undertaken by any minister of any government. For the last several years there has been an element of discontent all through this portion of the province that while growing from nothing has become a source of worry, and some trouble to the present government. The people through this part of the province have for years past been complaining that the money accruing from the mineral products of the lands should be distributed more generously than they have ever been, and they have brooded until their fancies never been satisfied. Mr. Cochrane has been dispatched here by his government to go to the very root of these grievances and when found, suggest a remedy. In accordance with this the Ontario Government has undertaken to stay in the two districts of Thunder Bay and Rainy River, for the next two weeks, and to meet with the people. Mr. Cochrane is accompanied by Hon. Dr. Reame, the Minister of Education, who is expected that the recommendations they make will have a decided effect on the policy of the government.

BUFFALO EXPRESS COLLIDES

Leaving Philadelphia Runs Into a Freight, Killing Three

SUNBURY, July 3.—The Buffalo Express on the Pennsylvania Railroad which left Philadelphia at 3.25 a. m. today, collided with a freight train east of here at 1 p. m., killing three persons and injuring 14 others. The dead are—Express conductor, William here, and Michael, both of Williamsport, Penn., and assistant baggage master C. P. Hunter, of Harrisburg. Most of the injured were passengers.

IN HOT PURSUIT OF GIRL'S BETRAVER

RESIDENTS OF TOWN UP IN ARMS OVER FRENCH OUTRAGE ON YOUNG GIRL

RICHMOND, Que., July 3.—Despite the search kept up all day, and this evening, the assailant of Miss Millie Lynn, the sixteen-year-old daughter of John G. Lynn, one of the best known names in the country has not been captured. He is thought to be surrounded and will likely be caught with a stolen trunk. The family live about a mile from the village of Melbourne. The residents of the place are in arms over the French outrage. Four or five enormous gashes were discovered in the back of the girl's head, having been inflicted with a stone. There was a report that she had died. This is incorrect though the young woman is in a serious condition. Alfred Greenhill, an Englishman, who has worked about the farm for some two years is being searched for by a body of determined men. He was seen by the girl from the berry field where she was found, and from which screams had drawn the attention of the family to what was going on. By noon fifty men were searching the country. The pursued had been sighted by farmers several times, but he always managed to slip away. Nothing will be left undone until the assailant is behind the bars.

TRULY SENT. NOW HE IS BOLD. USE PAPA'S RENT. THE WISEST OF CONTRACTORS. N. J. BOYD CANDY CO. WHOLESALE

PETITION SIGNED BY TWO MILLIONS

WILL BE PRESENTED TO PRESIDENT NELDORFF OF THE HAGUE CONVENTION

THE HAGUE, July 3.—The opposition to the medical proposition before the peace conference on the inviolability of private property is increasing. It now seems that Russia and France are not even in favor of the Italian amendment, suggesting that belligerents be allowed to capture private property, but that such property be returned after the war and that the owners be paid an indemnity for the damage sustained. The Japanese are preparing a proposition regarding the use of wireless telegraphy during the war, while the other powers are desirous of proposing that submarine cables be classed as neutral property. Any proposition regarding the bombardment of towns, harbors, or other places, which in their opinion, would be a violation of the laws of war, is not desired. The proposition is to be presented to the Hague Convention in order to present a petition signed by over two million Americans in favor of a general arbitration treaty.

END OF FAITHLESS FAIR

Sensational Double Suicide in Berlin by Man and Woman.

BERLIN, July 3.—A great sensation was caused in Berlin today by the double-suicide of Herr Francis Joseph and Frau Gotthelf. Herr Joseph, who was 31 years of age, was proprietor of a large manufacturing works, and held to immense wealth, being the only son of a millionaire father. Frau Gotthelf, who was also 31 years of age, was the wife of the proprietor of a great exploring firm. Herr Gotthelf who was ten years older than his wife, frequently received Herr Joseph in his house as a guest, and what was apparently a warm friendship sprang up between the two men. The trio could be frequently seen together at the theatre, race course and other public resorts. Recently during a trip which all three made to Heligoland Herr Gotthelf went sailing while Herr Joseph and Frau Gotthelf remained ashore, and the husband, who was compelled by stormy weather to return earlier than intended, found his wife and her lover under compromising conditions. Herr Gotthelf thrashed Herr Joseph, and apprised the faithless wife. The two lovers thereupon returned to Berlin, and taking lodgings in a committee building by the name of the "Friedrichstrasse" were discovered by the police. When the victims of this tragedy were discovered they were clasping each other's hands. Frau Gotthelf was aged 31 years, aged 5, 7 and 8.

New York Strike Averted.

NEW YORK, July 3.—The strike of the city garbage collectors is over and a serious epidemic as a result of the conditions which have existed for the past week are averted. The men will return to work and Mayor McLenan will hold an investigation.

ON THE WAR PATH.

Colored Minister of Woodstock Says Will Work Hard Against Church.

BRANFORD, Ont., July 4.—Rev. John Taylor, a colored minister in the police court proceedings instituted by the B. M. E. conference and whose case was dismissed today, is on the war path. He declares that in the future he will work against the church as hard as he is worked for in the present. He is a secessionist movement at Windsor. He says he will leave for small amounts on the Sovereign Bank of Chatham, and that in a short time an independent conference will be formed.

GENERAL MIX UP IN CENTRAL AMERICA

PRESIDENT ZELAYA TRYING TO CONSOLIDATE HONDURAS, GUATEMALA AND SALVADOR.

PUERTO CORTES HONDURAS, June 27.—(Via New Orleans)—July 3.—Within the last few days a new combination has appeared on the Central American checker board, whereupon President Zelaya has been manoeuvring for several months by means of revolutionary plots to consolidate the Republics under one government. The new combination is reported to be Honduras, Guatemala and Salvador. Their understanding was reached at Tegucigalpa, the Honduran capital. His aim is to defeat the consolidation. The first move in the new combination was to force the evacuation of Honduras by Nicaraguan troops, thereby Puerto Barrios, Guatemala, has within the last week been reported to have been evacuated. The army, which for many weeks has been camped in Honduras, within a few hours has disappeared from Guatemala. Since the evacuation of the defeated General's of the former president Manuel Bonilla have been reported to their country and some of them have been invited on missions to Tegucigalpa, which is considered significant. It is reported that Zelaya did not yield to the demand for evacuation until his envoy, Gomez, who recently conferred with the refusal of Diaz, of Mexico, brought araguis in an attack upon Tegucigalpa.

DESPERATE ATTEMPT TO ESCAPE JAIL

PRISONERS REMANDED FOR FORGERY ATTACK TURKEY IN CELL.

CHATHAM, Ont., July 4.—Arthur Smith, of Knox, Penn., and Edwin Baldwin, of Wainfield, Ohio, today made a sensational and desperate attempt to break jail by nearly losing their lives. The men, both of whom were arrested on Tuesday in Tilbury, a few miles west of here for forgery and altering of two forged checks for small amounts on the Sovereign Bank of Tilbury. They were arraigned before Judge Bell here yesterday when they pleaded guilty and were remanded for sentence.

Early this morning while the turnkey was making his rounds he entered their cell. One of the miscreants then grasped the lock and with it struck the turnkey a terrible blow on the head, knocking him bleeding and senseless to the floor. The turnkey will recover and it is certain that the two desperadoes will spend a good portion of their lives in prison.

WILL ASSIST DR. HILTON

Staff-Sergeant Ayers Leaves Police Force to Assume New Position

It is announced that Staff Sergeant Ayers of the R.N.W.M.P. has left the force to become a veterinary inspector under Dr. Hilton, who was recently appointed by the Dominion Government to represent the Dominion Department of Agriculture in Saskatchewan in the carrying out of the contagious diseases in animals act. This work is controlled from Ottawa by Veterinary Inspector Dr. J. G. Rutherford. In most provinces the department has had special representatives. In Saskatchewan the animal act as heretofore has been done by officers of the R.N.W.M.P. under the supervision of Inspector Burnett at Regina.

Largest Floating Dockyard

In a few weeks there will be launched from the shipyard of Sir James Laing & Sons, Sunderland, where she has been converted from a liner, a unique vessel, which will be a valuable acquisition to the navy. H.M.S. Cyclops is the most complete repair ship of floating dockyard in the world and the outcome of an experiment made some time ago, when an old cruiser was converted into a repair ship at Portsmouth and named Vulcan.

The Cyclops is a vessel of 11,000 tons and her dimensions are: Length, 460 feet; breadth, 53 feet; depth, 40 feet. The lowest deck is fitted up as a complete foundry, with cupolas where castings can be made to replace damaged parts. Above is a boiler shop, where boiler or ship plates, can be fully dealt with. Punching and shearing machines are there, just as in a shipyard. Then there are carpenters, blacksmith and armorer shops, fully equipped fitting shops, electrical and copper smithing departments.

A large ice-breaking plant is carried, and a set of gigantic condensers, capable of supplying a whole fleet with fresh water. A fully equipped electricity generating plant is one of the vessel's most remarkable features. The Cyclops will have a complete outfit of about 700 tons of stores.—London Chronicle.

The Optimist

Little Talks on Life

What am I to say to the poor soul
who comes to me with the story of a
sum of misfortunes, disappointments
and hardships, which really seem
more than should have to be borne
by one being?

What am I to say to the man or
woman thus burdened? Suppose
say it is the will of a God who is
just and merciful and suppose I feel
in my heart that no Supreme Being
clothed with these attributes would
allow such a series of such afflictions?

Suppose I do one or all of these
things—what does it avail? Do I
not render myself impotent in the
estimation of the sufferer; barren of
use to him or her in the time of
trouble? Did any man or woman,
who was thus overburdened, ever
really feel that he or she was
through him or her for a purpose?

I leave these questions with you.
It is well to bear them in mind and
think about them often. There is
no telling when the afflicted one will
appear to you for a ray of light on
the dark road. It is far more im-
portant that you be ready to answer
this call than that you be ready to
feel the hungry fellow who shuffles
up your back steps.

One shall leave with you also one
thought which has no question mark
or exclamation point as a part of
it for what it may be worth. It
may serve you fairly well or you may
find it wholly useless.

FORGET.
Forget, and again forget.
Let this be your chief advice to
those who are afflicted. Let this be
your first aid to the injured and
the maimed.

At first it will strike you as a
heartless sort of remedy to suggest
it will seem cold and bitter.
They will tell you they cannot for-
get. They will spurn your aid and
perpetrate all manner of wrongs
in the sad and seamy side of
things they cannot forget.

They are wrong. They do not
forget the pain, but they forget the
cause. They can forget. It may not
be an easy task, yet it is possible.
Possible to any one.

One will say to you, "I do not want
to forget." Tell that one to come no
more in quest of help. Why ask for
relief when relief is not wanted? It
is found after a while that commis-
sioner is one of the cruelties sought
by these poor souls. They imagine
the deaths will be less dreary if they
have company.

Maybe. And if this be true, why
should not the heights be more glo-
rious for two than for one?
They are.

They will say, "It is impossible to
forget." Let nothing be impossible.
The impossibilities in the natural
world of yesterday are the commodi-
ties in the same world of today. This
is also true of the mental world. Al-
so of the spiritual.

Some of them mean that they have
tried to forget, after a certain fash-
ion, and have failed. What was that
fashion. In many an instance it
was an attempt to forget by re-
peating "I must not remember," or
"mental words to that effect." Yet
these are only one way to forget.

That is to first forgive, and then
work. Without forgiveness all the
work you can do will only change
the form of the bitterness; the bur-
den that is bending the spirit more
and more each day.

Without work forgiveness is little
more than a ventilated form.

FERRIS SEEDS

mon beauty, their early maturity, their
beautiful flowers, make them the most
valuable and profitable seed in the world.
Seed Annuals free on request.
Send Annuals free on request.
Windsor, Ont.

The combination conquers, how-
ever. It is the only remedy I have
ever known to succeed.

The mind is a curious thing. It is
a flower, or a weed, according to
the care given it. It can quiet or
quell.

Cause it to quiet. Clear out the
storerooms that are piled high with
remembrances of old pains and re-
grets and losses of vain hopes. Of
what use are these? What do you
do with them? They have a use—a
high use, but you do not need to
keep them to gain their benefit. Did
you keep your school books? Did all
your learning leak away when you
parted with the cloth and paper?
Forget! And again forget.

A remarkable book has just been
translated into English from the
French. It is not saying too much
to say that it is the most remark-
able book that has been published in
many a year. It is the work of
that human immensity, Hugo. It is
his "Post Scriptum" de Ma Vie.

He wrote it to be published after
his death. It contains his last ideas
on literature, philosophy and reli-
gion. It is therefore, the finished
product of this first mind of the
nineteenth century—this towering
genius which is swiftly rising to
its shaggy head among the
peaks of everlasting pre-eminence.

You read this book and you say,
"Great God, what a man!"
You rise from your reading, and
you have grown taller and truer. It
is a victory with vitality and vigor
with the art of the immortal.

There is one chapter in it, the story
of Antoine Leroy, the athlete who
will have place among the crown
jewels of all literature. It is not
of this chapter I am going to speak,
however.

At the end of the book are some
"Thoughts." These are brief ex-
pressions of truth. They are im-
mortally chiseled explanations of truth
—they startle and expand the
mind.

Among these are two which deal
with the same subject. Thus:
"What is the highest faculty of
the soul?"
"Is it genius?"
"No, it is goodness."

And this "What is the highest
faculty of the soul?" is nothing
in the least exaggerated. It is
nothing great in the head. Genius
is a great heart.

Genius has been defined a thou-
sand times—yes, more than a thou-
sand. These definitions have varied
as the stars in the skies. Here is
a supreme definition of genius from
a supreme genius. Consider it well.

Genius is goodness. Goodness is
the highest faculty of the soul.
It is the faculty you are trying to
cultivate?

Or are you seeking to be clever,
courageous, cultured, commercially
successful?
Some one has said genius is hard
work. If such be the truth, the
blacksmith is the genius and Dante
a day laborer. Hugo strikes the
note. Genius is goodness. It is a
great heart.

And heart is everything. Yes,
everything. The village was abase
with them.

The courtship rebels did not begin
until the afternoon. Meanwhile the
cafes had been doing a big business,
for Ecassines, under any condition,
is a thirst inspiring place, and she
had to have that. Thus
Bacchus got a good start of Cupid.

When the time came for the latter to
take his leaving most of the eligible
bachelors were in that condition
which seataring men describe as
"three sheets in the wind."

Some 200 or 400 of them wearing
white hats, fell in behind a blaring
brass band and paraded through the
town, waiting to be crowned by the
maiden who sat at the windows bear-
ing the signs of the red heart. When
they came to a halt in the market
square the Queen of the Loveless
Ecassines sisters, Marie Ghedne, em-
erged from somewhere and stepped to
the front. She had her hair in a
hue to match it. Her face would
never win her a fortune, but she
possessed the assurance and a saucy way
about her that took the fancy of the
crowd. She was attended by four
ladies in honor, attired in a weird
combination of saffron and green. In
respect of good looks Marie had no
cause to be jealous of the girls in her
entourage was her knight errant, a

IMPRISONED ALPINE LANDSLIDE

FOOD CARRIED THEM BY DAR-
LING MEN ACROSS A MASS OF
TREMBLING EARTH

GENEVA, July 3.—The railway
authorities are making gallant efforts
to relieve the inconvenience caused
to the crowds of tourists who have
been imprisoned in Zermatt by the
landslide on the railway to Viège.
Trains are being run to either side
of the landslide, and gangs of porters
are employed in transporting the
luggage of the tourists, who are
escaping by this means from the
little Alpine town. Porters have
also been requisitioned to carry across
the obstruction the food supplies for
which Zermatt is almost entirely
dependent on the outside world.
As the rainfall has been practi-
cally continuous, the work of trans-
portation across the landslide has
been one of considerable difficulty
and danger, as the vast extent of
earth is still trembling and insecure.
The landslide has intruded with
the rush of tourists to Zermatt, but
many of the more enthusiastic of
those who have reached Viège have
placed their belongings in knap-
sacks, and are crossing the valley
on foot.

GIRL SHOT WHILE CURLING HER HAIR

EIGHTEEN-YEAR-OLD ITALIAN
GIRL SHOT THROUGH HEAD
IN NEW YORK.

NEW YORK, July 4.—While
combing her hair at the window of
her room, Ninzia Crizzanti, a 19
year old Italian girl, was killed to-
day by a bullet through her head,
which the police are convinced was
fired by some one, who sought to
conceal the source of the fatal shot
in the noise of fourth of July fire-
works. Another shot buried itself
in the wall of the room. Several ar-
rests have been made of Italians liv-
ing in the rear of a flat house on
Mott street, which is opposite to
the house where the girl was shot.

A STATUE UNVEILED

In Memory of De'Champlain the
Great French Explorer.

CHAMPLAIN, N.Y., July 4.—A sta-
tue of Samuel De'Champlain, the first
memorial to the great French explorer
to be erected in the United States, was
unveiled today with impressive
ceremonies, and the presence dele-
gates representing the French popula-
tion throughout New York and from
across the border.

HAYWOOD TRIAL WITNESS KILLED

DISCOVERS IS ON WRONG TRAIN,
JUMPS OFF AND
IS KILLED.

DENVER, Col., July 4.—Frank Sch-
meiser of the Silverton Company, who
Tuesday was elected a member of
the board of the Western Federation
of Miners, jumped from a moving train
in the city he discovered that he was
on his way to Silverton for a short
visit prior to going to Boise to testify
in the Haywood trial. In the suburbs
of the city he discovered that he was
on the wrong train and jumped off,
calling to the conductor to throw his
rifle after him.

MARRIAGE FAIR

In Belgium Is an Annual Spree and
Men Find Courage in Bottle.

There are several well-known and
much-tried ways of catching hus-
bands. But that which is most suc-
ceeded by the maidens of the village
of Ecassines—Laiting is novel. For
as Americans will have heard, the
maids of catching them wholesale on a
day set apart at Whitsuntide for love-
making.

Ecassines is a place where the
supply of matrimonially inclined
maiden greatly exceed the number of
eligible bachelors. The girls, not hav-
ing the means to go in search of hus-
bands, hit upon the idea of inviting
bachelors from all over the world to
marry them. They advertised.
The fact that girls were to be had
went further than that. They inti-
mated that they would relieve bash-
ful swains of the ordeal and do the
asking themselves. Some three or
four years ago they held their first
matrimonial fair. They have been
holding it annually ever since.

Some 200 or 400 of them wearing
white hats, fell in behind a blaring
brass band and paraded through the
town, waiting to be crowned by the
maiden who sat at the windows bear-
ing the signs of the red heart. When
they came to a halt in the market
square the Queen of the Loveless
Ecassines sisters, Marie Ghedne, em-
erged from somewhere and stepped to
the front. She had her hair in a
hue to match it. Her face would
never win her a fortune, but she
possessed the assurance and a saucy way
about her that took the fancy of the
crowd. She was attended by four
ladies in honor, attired in a weird
combination of saffron and green. In
respect of good looks Marie had no
cause to be jealous of the girls in her
entourage was her knight errant, a

IS THE TELEPHONE SUCH A NUISANCE

NEW YORK WORLD SAYS 'PHONE
AND TYPEWRITER HAVE
SPOILED CIVILITY.

Health Commissioner Darlington of
New York, has his telephone disco-
nected at night. He found that there
were too many people who woke him
up at the telephone. He was a uni-
versal complainer. Instead of
writing a formal complaint and send-
ing it by mail to the office, it was
easier to work off the spell of sudden
wrath by calling the commissioner up
on the telephone. He has been com-
plaining for some time. It is as big
a nuisance as it is a convenience.
Welcome as it was at first, the time
has come when a more systematic
method must be devised for checking
the nuisances which the abuse of the
telephone breeds.
The telephone and the typewriter
have been two most effective instru-
ments in destroying civility and con-
ciseness in business intercourse. They
also have been destroying social formality,
which it would be better to keep, be-
cause formality is the opposite to
familiarity and too much familiarity
is destructive to friendships.
So long as a man had to write his
letters pen in hand he was not given
to many words, because the physical
effort of writing restrained him. He
wrote only when he had something he
really wanted to write, and that in-
stant stopped when he had said it. Now,
with abundant stenographers, the ef-
fort of writing a letter is no more
than that of ordinary conversation,
copy-books have increased in volume,
correspondence has grown to intermin-
table lengths, and even judicial opin-
ions take many more words than
when the judges had to do the trans-
cribing themselves. On the whole it is
doubtful whether stenography and
typewriting save time.
In the manner with the telephone.
Before it existed, when the man de-
sired to say anything to another man,
he either wrote to him or went to
see him. The result was that many
trivial things were left unsaid and
matters of little consequence were
passed over.
With the telephone at his elbow,
especially if he has some clerk or
typewriter to make the calls and at-
tend to the connections, a man is very
prone to do too much telephoning.
A matter comes to him and he telepho-
nes about it at once. If he had not
been able to telephone, four times out
of five he would have found a way to
dispose of it without either writing
the letter or making a call.
The telephone habit grows upon
most people. This is seen by the in-
creasing number of calls in every
house or office where a telephone is
installed. Its use is a habit and it
grows until it becomes a bad habit.
Women have a better sense of market-
ing in person than over the tele-
phone. They would then see what
they buy, they could compare prices
and they would save money. A man
had far better attend to any business
matter of importance by a face-to-face
talk than over the telephone. A talk
is always more effective where the
parties are face to face. Arrange-
ments thus made are better under-
stood and their carrying out is more
harmonious.
The telephone is indispensable for
certain purposes. It is a convenient
way to make appointments. It is a
substitute for the telegraph. It is the
 quickest way to get the doctor.
But the man who invents an ad-
justable telephone padlock will make
a fortune.—New York World.

ENGLISH REPRESENTATIVE—E. and J. Hardy, 25 Fleet Street, London, E. C. England.

REGINA, SASK., WEDNESDAY, JULY 10, 1907.

ARCHBISHOP LANGEVIN'S DENIAL

Under the heading "Made Out of Whole Cloth—A Sensational Newspaper Fabrication," the Rev. Lewis J. Drummond, in the current issue of the Central Catholic, over his own signature, denies the statement made recently by the Regina Standard, that Archbishop Langevin in his recent visit to Regina, conferred with "agents of the church" and reached a decision to organize a clerical party in Saskatchewan in readiness for the next provincial elections.

OVER-CAPITALISATION

One of the most interesting and important discussions at the recent boards of trade convention at Prince Albert dealt with the question of the watering of stocks of companies operating public facilities, and a resolution was passed calling for legislation to prevent such watering.

FACTS AND MR. MCCAUSLAND

Magistrate W. McCausland has seen fit through the columns of the Standard to take up the cudgels on behalf of Chief of Police Harwood, describing the article upon the city police which appeared in yesterday's Morning Leader as being "entirely uncalculated for" and "published with exceedingly bad taste."

QUALIFICATIONS OF SCHOOL INSPECTORS

In referring to the statement made by Premier Scott at the big banquet here, that just as soon as the Government could place their hands on a Roman Catholic with the technical qualifications and knowledge of our conditions required they would try and secure him for the staff of school inspectors, the Battleford Herald remarks:

"Surely Mr. Scott doesn't mean to insinuate that there is no Roman Catholic with sufficient education and ability to fill the position of school inspector."

AUTOMOBILES AND THE PUBLIC

The Leader some time ago drew attention to the utter disregard shown by the drivers of certain automobiles in the city to the speed limit set down by law and to the danger to which the public was subjected by such furious driving, at the same time suggesting that the police should take steps to have the nuisance abated.

MAGISTRATES, POLICE AND DISCRETIONARY POWERS

In discharging what we believed to be our duty as a newspaper we yesterday spoke plainly on the city police force and the peculiar methods by which it appears to be governed. We had no quarrel with anybody, nor were we seeking to create any controversy.

HAYWOOD TO GIVE HISTORY OF LIFE

PLANS COMPLETE FOR DEFENSE TRIAL WILL LIKELY END IN THREE WEEKS

BOISE, Idaho, July 8.—The attorneys for Wm. Delmar Haywood completed the details yesterday of their plans for the final week of the trial now commencing in the forthcoming appearance on the stand of Haywood and one of his co-defendants, Charles Moyer, the president of the miners' organization.

The French Seat of War

A ready illustration in these days of photographing the canals on Mars is the distress and consequent popular rising against the most democratic government the world ever saw by the ocean fronted, wrong-headed, supercilious producers of the famous claret wines of southern France.

SLICED SMOKED BEEF

When it's made by Clark means that you ought to taste it. It's good to eat.

MINNEAPOLIS UNDERMINED

MINNEAPOLIS, Minn., July 8.—It was announced today from the city engineer's office that the city is undermined by a series of subterranean streams.

IMPORTANT CASE IN COURT

Sir Daniel McMillan Appears as a Witness—Big Interests Involved

From Monday Morning's Leader. At sittings of Supreme Court, Regina, on Thursday, Friday and Saturday of last week the Hon. Mr. Justice Newlands had before him the case of Huggard and Correlli versus The Ontario and Saskatchewan Land Corporation, et al.

The case is one in which some very interesting features arise from the legal point of view, and which is further rendered of importance by the amount involved, \$35,000 having been paid into court to the credit of the action.

The plaintiffs and certain of the defendants were members of a syndicate formed for the purpose of acquiring and disposing of lands in the Province of Saskatchewan. A large reservation was obtained from the C. P. R., and these lands ultimately came into possession of the Ontario and Saskatchewan Land Corporation.

NATIONAL COUNCIL OF WOMEN HERE

Eighty Delegates Will Spend Day in City en Route West

From Monday's Morning Leader. The delegates to the National Council of Women Conventions some eighty in number, are expected to arrive in the city this morning en route to the coast.

If you have a lame horse, get Kendall's Spavin Cure. If you have a horse that you can't work because of sprain, lameness or any other ailment, get Kendall's Spavin Cure. If you have a horse that even the veterinarian can't cure of Spavin—or any Soft Bunches or Swellings—get Kendall's Spavin Cure.

REGINA WONDERFUL CITY FOR ITS AGE

TORONTO PAPER ADMITS THIS FACT BUT CAUTIONS INVESTORS

TORONTO, Ont., July 3.—The "Telegraph" says, editorially: "A light calculator estimated that Saskatchewan would have a population of 200,000 if it had three people, settled on each of the thirty lots that have been sold since the boom started. Nor is Saskatchewan only, or indeed, the worst or producer of city lots. Regina is just as bad. The same is true of other western centres. These communities are not wholly responsible for the use which is being made of their names by exploiters who are looking for the money of the 'eastern tenderfoot.'"

Is it central property that is being worked off on city dupes with the help of page advertising? "Perhaps so, also perhaps not." "Let Ontario investors see to it that they are not paying city lot prices for chunks of raw prairie remote from the busy haunts of men."

Public Meeting. At eight o'clock the visiting delegates and a large number of Regina ladies attended a public meeting in the basement of Knox Church, where they were looking at their best and were greeted by a gaily dressed crowd. Refreshments were served in the hall.

Local Council to be Revived. Before the public meeting a conference took place between Lady Edgar, Mrs. Cummings and Miss Hill and a number of ladies connected with the local council, which of late years has fallen into a state of inactivity, among the ladies present being Mesdames Longworthy, J. M. Young, J. R. Peever, J. W. Smith (president), Rothwell, J. Bennett and F. N. Darke. As a result of this meeting and the contagious enthusiasm of the visitors, it was every likelihood of the local council being reorganised and a meeting for that purpose will probably be called shortly.

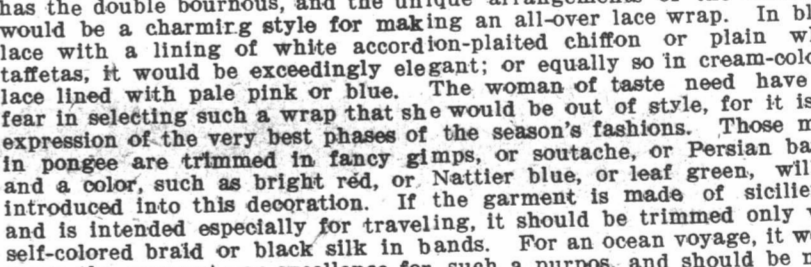

LADIES' WRAP. With Body and Sleeves in One. Paris Pattern No. 1960. All Seams Allowed.

For wearing over the gowns that have the Japanese sleeve—and every woman this summer numbers at least one such dressy costume in her wardrobe—this charming wrap is unapproachable, because it is not only intrinsically beautiful, but exceedingly chic and stylish and comfortable. Built on a foundation jacket faced with rich dark green velvet, relieved with appliques of white lace, the sleeve and cape portion of pale-green broadcloth are all in one, with openings for the arms that have turn-back cuffs of the velvet trimmed with the lace. The back of the garment is laid in two bournous plaits trimmed with white silk and gold tassels, and the front is fastened with gilt buttons. This is an excellent model for a pongee or sateen wrap and it would prove valuable for many Summer purposes, especially for traveling. It is seen at its best, however, in broadcloth. At all the fashionable restaurants, in the new plays, and in the audiences at the theatres, various modifications of this style are to be seen, but this model, as shown in our Paris pattern, in its classic beauty is absolutely original in design. Some of these wraps show the single bournous, but none of them has the double bournous, and the unique arrangements of the sleeve. It would be a charming style for making an all-over lace wrap. In black lace with a lining of white accordion-plaited tulle or plain white tulle, it would be exceedingly elegant; or equally so in cream-colored tulle, in pongee are trimmed in fancy gimpes, or soutache, or Persian bands, and a color, such as bright red, or Nattier blue, or leaf green, will be and is intended especially for traveling. It should be trimmed only with self-colored braid or black silk in bands. For an ocean voyage, it would prove a charming style for such a purpose, and should be made in cloth. To make the wrap in the medium size requires 4 yards of goods 42 inches wide, or 3 1/2 yards 54 inches wide; as illustrated, 2-3/4 yard of contrasting material 20 inches wide for fronts and to face cuffs and revers, and 4 yards of passementerie and 2 tassels to trim. The pattern is in 4 sizes, 32, 36, 40 and 44 inches, bust measure. Price of pattern, 10 cents.

LADIES' SHIRT-WAIST. With or without Back Yoke-Facing. Paris Pattern No. 1930. All Seams Allowed.

The smart shirt-waist here illustrated in cadet blue tussor has the broad Gibson shoulder that the fashions of this summer have rendered indispensable. It would be a mode. It is a good model for developing foulard, rajah or pongee waists, or any of the colored linens, especially violet or Nattier blue, it would be charming. The pattern is in 8 sizes—32 to 46 inches, bust measure. For 36 bust the shirt-waist needs 3 1/2 yards of goods 27 inches wide, or 2 1/4 yards 36 inches wide, or 2 1/4 yards 42 inches wide. Price of Pattern, 10 cents.

GIRLS' TUCKED DRESS. Paris Pattern No. 1931. All Seams Allowed.

Suitable for girls from six to twelve in this dainty little frock made of bright red and white, which has white embroidery on the front box-pleat, the collar, belt and wrist bands. Of course, the trimming may be varied to suit individual taste and rows of soutache or other braid would be most effective. The pattern is in 8 sizes—8 to 12 years. For a girl of 10 years the dress requires 6 yards of goods 20 inches wide, or 3 1/4 yards 36 inches wide, or 2 1/4 yards 42 inches wide; 2 1/4 yards of insertion to trim. Price of pattern, 10 cents.

LEADER PATTERN ORDER. Please send the above mentioned pattern as per directions given below. No. Size Name Address in full

BALGONIE NEWS.

Comings and Goings of Balgonie Residents—New Methodist Minister.

BALGONIE, July 3.—Miss Lauder of the H. H. Campkin Co. of Indian Head spent a couple of days with Mr. and Mrs. C. O. Rigby on her way to Saskatoon...

Mr. Thomas Wilson of Drayton, N. D., and Mrs. J. Redmond of Ontario are visiting at the home of Mr. and Mrs. J. K. Wilson.

Mr. and Mrs. J. K. Wilson leave for their trip to the west on Friday. Mr. Wilson is being taken for the benefit of Mrs. Wilson's health by the Great Lakes route to Peterboro, Ont.

Mr. J. F. Shaw, the Methodist minister, who has been in Balgonie for the past year, has received an appointment to the parish of St. Catharines in this town.

Mr. Emilie Genter has been appointed manager of the Balgonie Supply Co. in the place of Mr. James Smith.

Mr. Paul Eisenhardt has accepted the position of secretary-treasurer to the company, and Mr. Jacob Genter has been added to the staff.

Mr. W. E. Mason of Regina, manager of the Canada Permanent Mortgage Corporation, was in town on Wednesday.

We regret to hear that Mr. Lannan's father is seriously ill in St. Catharines.

A number of Balgonians spent Dominion Day at the home of Mr. Tim Hardt who was visiting in Regina and Mr. F. L. Sandbeck spent the week-end with friends in Grenfell.

St. Philip's church has received the addition of a new fence, which is a considerable improvement.

STRASSBURG, Sask., July 4.—An unfortunate accident occurred last evening when the construction gang on the Canadian Pacific Railway, north on returning from work in the forenoon in some unaccountable manner fell off between the cars and was almost instantly killed.

The body was shipped this morning to Winnipeg for interment.

SPORTS AT SWIFT CURRENT.

Large Crowds Are Treated to Some Excellent Racing.

SWIFT CURRENT, July 4.—The attendance of citizens and visitors at the race track on Dominion Day was larger than on any other day.

REDUCED 5 1/2 MILLS

Town Council Strikes of Nineteen Mills. ELLE, July 8.—At a spe- of the Town Council the council chamber on morning last. Mayor Har- ing, a rate of 19 mills on was struck for the ensuing up as follows: The fire- drainage debentures 4 cool 2 mills, and electric 2 mills. Last year's 2 1/2 mills on property- year's reduction being con- try satisfactory. The "King of Ring" Company gave a ce here in their large tent, ally large audience. Henderson, chairman of the Committee of the Sas- Football Association, had- of the committee to be on Monday next when as protests from the dif- in the League and Union. As there are no protests in the decision committee is likely to have a- ing on the subject of the ship. In addition to Dr. the committee consists of Hurst, of Moose Jaw, and of Regina. The board- said Browne is building a tion to his hardware store, Surgeon is also extending a shop.

ALBERT, July 2.—Owing

ding of the Saskatchewan damage and hardship has result; we state the follow- an example: Two men in timber limits left Prince Al- Monday last with two boats sufficient for a long Paugh. On Tuesday night aged at the Forks, and on morning again resumed. All went well at first, but they noticed the river rising to make the land but their- ived fruitless and they were down the river at a fearful id logs and debris of every. Desperate efforts were the boat ashore and in apt one boat capsized, throw- provisions, maps, charts and a taining \$160 into the river, them with only a few socks which were stowed in the boat safety. The boats having compartments and being built were saved. They state had drifted down the river, he- were able to get ashore. Hav- their maps they were at a less exactly where they were but until they came upon the trail and followed this Port la Corne, arriving at that- ury and hungry, having had few socks blanch for days, ove to Kinistino on Monday, Tuesday took the train to- and again began the jour-

ALBERTA

MEDICINE HAT, July 3.—G. S. Lindsay, general manager of the Crown Pass Coal Company has been spending a few days in the city, negotiating for the purchase of two sections of land along the river front, which bear a seven foot seam of coal. The object is to supply the farmers of the district which is opening up very rapidly.

MEDICINE HAT, AID, July 3.

More than the opening of the tightness in the money market at parties were spending too much last night. The council meeting stated that the banks had put their heads together and decided that the western municipalities were spending too much money on permanent improvements and that no more money would be loaned for this purpose. This question of the banks' being so willing to accept deposits in the west and yet refusing to loan this same money in the city, where it was received from, would form the principal topic of discussion, at a meeting of representatives from the various municipalities to be held in Medicine Hat in September. A scheme would be proposed whereby the towns should finance entirely independent of the banks, as at present these institutions seemed to exist in the west solely for the purpose of taking in deposits.

EDMONTON, July 3.—Adrift on

log in the river was the thrilling experience of a miner from the north yesterday after noon. The rescue, which was accomplished by Roy Bloomfield, a well-known canoeist, was no less thrilling. The miner had come down the Saskatchewan river in a small boat on a poorly constructed raft, which went to pieces on a sunken pier opposite the brickyard below the Great eastern. The miner managed to cling to one of the logs on the pier until he was rescued by Bloomfield. The rescue was made in less than an hour, and in less experienced hands would have resulted in a double drowning.

EDMONTON, July 3.—Charles Bunn,

who was arrested some time ago at the Athabasca Landing and held on a charge of a attempted murder of John Pruden has been released on \$50,000 bail. Owing to Pruden's condition from an attack on his hands, the case could not be set down for trial at the present sitting and may not come on till next January owing to the absence of any of the witnesses.

EDMONTON, Alta., July 3.—The

corner stone of Edmonton's new 100,000 Yonkers Hotel, the Commercial Association building was laid on Monday morning by Mrs. Bulyea. The new building will be completed this fall and is one of the most up-to-date buildings in the west.

MEDICINE HAT, Alta., July 4.

Three money-by-laws were carried here yesterday by big majorities: \$20,000 for farm in 1908, \$20,000 for improvements to the Natural Gas System, and \$50,000 for a new water main. The \$20,000 for the Milling Company to erect an elevator was defeated by six votes.

EDMONTON, Alta., July 4.—The

closing day races of the Alberta International Exhibition in Edmonton were fully as largely attended as on previous days, and those present were furnished with excellent sport. The principal race was the Free-for-all, won in straight heats by the Winnipeg horse, Tom Keen, who gave the best performance of his career. In the 2.24 pace and 2.19 trot there was a bunch of seven starters which made considerable time. The starter, Webb in getting them away.

EDMONTON, Alta., July 5.—A

petition from the Medical Council waited upon Hon. C. W. Ross this morning to confer with him with respect to the recent judgment of the supreme court of Canada, which declared the Alberta Medical act, passed by the Alberta legislature and suspended on May 19, ultra vires and reversed the judgment of the supreme court of the N. W. Territory. The judgment of the supreme court of medical men in this province, who registered in Alberta subsequently to those who registered within the above mentioned date will require to register again and pass an examination of the medical council.

EDMONTON, Alta., July 7.—Com-

missioner Perry of the R.N.W.M.P. is expected to arrive in the city this week on his way north to inspect the Peace River trail. A number of pack horses, to be used in the trip, arrived in the city yesterday. They will be taken out to Lac Ste. Anne on Monday by Corporal Stark, of Morinville, and from there to the Peace River crossing to await the arrival of Commissioner Perry and his party. The commissioner will go over the entire Peace River trail to ascertain the exact condition.

BRITISH COLUMBIA.

VANCOUVER, B. C., July 3.—Leo McDonald, aged 12, whilst riding a bicycle round a corner ran his head against a fire wagon, and was thrown violently to the ground. He was struck by a wagon shaft and the wheel passed over him, he was removed to the hospital.

VANCOUVER, B. C., July 5.—Mon-

ition Immigration Inspector McDonough refused to permit the landing of a party of Japanese from Japan, except on payment of head tax. It is believed many will be unable to pay the tax may prevent their landing.

VANCOUVER, B. C., July 7.—The

Trans-Canada Express of the Canadian Pacific Railway Company, arrived here on time from Montreal, covering the distance in 90 hours, the fastest time ever made by a transcontinental train in America.

MANITOBA

WINNIPEG, July 3.—An doubt as to the identity of the man who committed suicide in Central Park yes- terday by shooting himself through the heart, was removed this afternoon, when the body was positively recognized as that of Israel Scott, a wealthy farmer of Elgin, Man.

WINNIPEG, July 3.—In order that

they will be better able to deal with the heavy business of the company, especially in the mountains, the Canadian Pacific Railway Co. has decided to proceed with the construction of fifty locomotives which will exceed in size any that have ever been built in the continent.

PORTAGE LA PRAIRIE, July 3.—A

young man named Herbert Allen was killed by a serious accident this morning while endeavoring to stop a runaway team. He slipped in the mud and fell under the horses. The harness snapped upon him, and the delivery rig to which they were attached also passed over his body. He was conveyed to the hospital where it was found that his leg was broken in three places below the knee. It is not yet known if the bone is so badly shattered as to necessitate amputation.

WINNIPEG, July 3.—As a result of

bricklayers troubles in the city, a strike and killed a two-year-old child Hilda McGillivray, on Collingwood street, at the corner of Ross and Collingwood, this morning. The child ran in front of the car wheeling a doll's carriage. One of her legs was cut off and her life crushed out.

PORT WILLIAM, Ont., July 3.—

According to the regulations of the Marine and Fisheries Department, the government all sailors and other employees on lake vessels must sign articles with the captain before leaving the port. Failure to do will subject each man to a fine not less than \$40. The first ship to get under the ban of the regulations at this port is the Flessa Hickon, and yesterday, the captain refused to accept articles with the men. The men are employed two men who had not signed the necessary articles. The two men are the first and second engineer.

COBALT, July 3.—Three hundred

miners are on strike in the Nipissing mines. About fifty men remain at work, but the rest are on strike. The matter of wages, which it is expected will be adjusted.

PORT FRANCES, Ont., July 3.—

Hon. Messrs Cochrane and Reaume of the Whitney cabinet will attend the public meeting here on Monday to discuss the wants and grievances of the district.

ALVINGTON, Ont., July 3.—Alton

Irvine, the six-year-old son of a local tailor, fell off the head of the Grand Trunk bridge onto the tracks below and received injuries that caused his death a few hours later.

OTTAWA, July 3.—The last of

the winter mail has been received by Comptroller White of the North West Mounted Police from the police posts on the English River. One is from Fullerton dated January last and the other is from Churchill dated February last. Both of these last posts the men had passed an uneventful winter. There were no deaths, no sickness and no suffering. The neighboring natives are reported to have been in good health. Mails were sent to York factors and were brought back by the Hudson Bay company, carriers when the navigation opened.

OTTAWA, July 3.—Canada's

trade with Japan in 1906 amounted to \$2,477,686, an increase of half a million over the trade of the preceding year. In the first four months of the fiscal year Canada's exports to Japan were worth \$45,948 or double the amount sent during the corresponding period of the previous year.

ST. THOMAS, Ont., July 3.—Five

men were hurt, one badly by the overturning of a bus on the road between Sparta and Ymer on Monday night. The men belonged to the Aymer Oddfellows band returning from a garden party at Sparta. The bus was badly damaged. The other members of the party were badly shaken up.

TORONTO, July 3.—Prime Minister

Whitney of Ontario, was arriving on Monday morning to figure out whether he was the victim of a petty thief, or a Dominion Day joke. While engaged in handing out envelopes to the prize winners of the horse parade yesterday, the prime minister had occasion to drop one envelope into his pocket to await the pleasure of the successful competitor, but when Mr. Whitney dipped his hand down for that envelope a few minutes later it was gone. They searched high and low but to no avail.

KENORA, Ont., July 4.—Quite

recently a kind of some very fine specimens of gold bearing quartz were discovered on Mackay's Island, on Old Mackay's Island. The men found that J. L. Mackay did some work on nights or nine years ago and early this spring specimens were found. It cannot be proved as through civic neglect they are practically released from obligation. Thompson, though honest enough kept his books in a loose way.

KINGSTON, July 5.—While

Davy, the six-year-old son of Charles Davy, of Perth, not half of a bottle of gun powder, and child-like lighted a match and applied it to the powder with the result that the powder exploded blowing the bottle to fragments and burning his face and arms terribly. The little fellow will lose the sight of one eye. The powder was not on fire but the flames were put out.

OTTAWA, July 2.—Sir Charles

Tupper is 86 years of age today, and is still vigorous, mentally, and physically. He was born in Scotland, and is still vigorous, mentally, and physically.

HAMILTON, Ont., July 3.—At

the police court today, J. W. Barber, the proprietor of the Flambro Hotel, and Samuel Van Norman, a boarder, were committed for trial on a charge of committing an assault on May Corbin, Complainant says the men locked her in a stall in Barber's stable and then assaulted her.

OTTAWA, July 3.—William Rolly

of the Transcontinental Railway staff arrived home today, after spending 34 months in the wilds of the Nipigon district, where the Grand Trunk Pacific country is being located. About the country and climate Mr. Rolly said: "It was 60 below zero at one time during the winter, and we spent most of the time at districts where no white man had ever been before. The ships were severe but the commission has been successful in finding a route for the roadbed and the grades will be good."

PORT ARTHUR, Ont., July 3.—The

special election held today for three aldermen, resulted in the return of R. C. Spofford, J. J. Bennett and Neil McDougall. Thirteen ballots were also voted on and adopted by a majority vote, these included the construction of two concrete and steel bridges, about \$600,000 was called for to purchase land for a fair ground. A plebiscite on the development of the Dog Lake Falls received an affirmative response, while the proposal to purchase land for a fair ground was rejected. The vote was small and little interest was taken.

KINGSTON, July 3.—A street car

in charge of Motorman Cadenhead struck and killed a two-year-old child Hilda McGillivray, on Collingwood street, at the corner of Ross and Collingwood, this morning. The child ran in front of the car wheeling a doll's carriage. One of her legs was cut off and her life crushed out.

Brakeman Scribner, a young man of Crookston, while fixing

There are 265,000 people in Canada today, who really KNOW "Fruit-a-tives" to be a splendid remedy.

Four years ago, "Fruit-a-tives" were an unsolved problem in the brain of one of Canada's leading physicians.

Today, over a quarter of a million of Canadians know them for what they are—a positive cure for Stomach, Liver, Kidney, Bowel and Skin Troubles.

"Fruit-a-tives" have cured stubborn cases of Constipation—Chronic Rheumatism—Skin Eruption—that defied ordinary remedies. The cures of Biliousness, Indigestion, Headaches, Pain in the Back, Nervousness and Irregularity of the Bowels—are numbered by the thousands. "Fruit-a-tives" move the bowels just as fruit moves them and leaves them healthy.

"Fruit-a-tives" are fruit juices and tonics in tablet form—with the increased medicinal action made possible by the chemical change which takes place when the juices are combined.

Only 50c. a box—6 boxes for \$2.50. At all druggists—or sent on receipt of price. 10¢

TROUBLE IN INDIA INCREASING; EUROPEANS GO ABOUT ARMED

SERIOUSNESS OF SITUATION NOT REALISED—DISCONTENT HAS SPREAD AMONGST BENGAL ARISTOCRACY AND COOLIES—NUMBER OF ASSAULTS ON EUROPEANS—PASSENGERS CARRY ARMS—LADIES AFRAID TO TRAVEL—DRIVERS FEAR TO TAKE TRAINS OUT.

NEW YORK, July 5.—A London dispatch from three months ago is being re-read in India as increasing. A correspondent who has returned from the most disaffected district in Bengal, telegraphs that the seriousness of the situation is hardly realized by the Europeans in India, or at home. Discontent has spread amongst the landholders and the Bengal aristocracy as well as among the peasants and coolies.

An active organization known as the National Volunteers, which has been formed in almost every town and village, is being trained in archery and sword exercises by the well paid instructors. The present movement is directed against the British and actively push the boycott of British goods. Men who cannot be threatened, and who still maintain relations with English officials are punished by a serial boycott, the deadliest weapon that can be employed against Hindia.

Hundreds of tales of lawlessness and oppression by the National Volunteers come from every district. The rural powers are too weak, or too disaffected to take action. The people are gradually losing respect for the British and authority. The worst feature of the situation is the growing number of assaults on Europeans.

Europeans go about armed with revolvers. European passengers carry shot guns in trains. Ladies are afraid to travel on the railroads. A traffic officer said there was danger of certain sections of the line being closed owing to the reluctance of the guards and drivers to take trains out.

Norway's Cathedral by the Arctic Circle

When King Haakon VII was crowned in the Cathedral of Trondheim, the ancient capital of his new kingdom, the nave of the magnificent building was as it is now, covered in by rough planks of wood. From the interior it was necessary to clear an army of architects, modelers, sculptors, stonemasons and builders, for the Cathedral has for many years past been undergoing such a restoration as, in some of the oldest parts of the building, amounts to rebuilding. It will probably be such a restoration as will satisfy even those to whom the almost total reconstruction is abominable. The work done so far, says the London Times, has been carried out with a spirit of high reverence for the work under the superintendence of Herr Christie, the most eminent of Norwegian architects, who is devoting his life to what he calls "Norway's noblest monument, the country's sacred treasure, the crown and glory of its architecture." It was in 1847 that the present restoration was begun. It has continued proceeding since that year, and is now nearly completed in 1914, when Norway will celebrate the hundredth anniversary of its restored independence. The amount of money expended will reach at least 6,000,000 kroner (£233,000).

Trondheim, with its 40,000 inhabitants not far from the outer rim of the Arctic Circle is a strange place in which to find one of the most remarkable of the Cathedral's parts of wood. But there is a great part of Europe helped in the building of this magnificent monument to one who was held to be hero, martyr and saint. There were churches dedicated to St. Olaf in Novgorod and in Constantinople in the East, and in London there were four churches of St. Olave, two of which still remain. The Cathedral of the Ouse, the Cathedral rose above King Olaf's shrine and on the site where his body has been laid against Canute, who had added the Crown of Norway to the Danish crown. To Olaf's shrine mark the Cathedral walls, and pilgrims from all parts of the world came to the side of a small church there grew up a larger one, and from that grew the present Cathedral, notable even more for its architectural splendor of detail than for its magnificence of style.

By the year 1300 the church was complete, and was the wonder of Norway. It was 324 feet long with a great central tower, three other towers of smaller dimensions, and many turrets and spires. There were six windows, 3,360 pillars, and thirty-five altars, all richly decorated and adorned. On the capitals of the columns weird and exquisite architectural carvings were lavished. The ornamentation of the capitals is very deeply cut. Quaint heads are mingled with the carvings, and the spires are topped with grotesque gargoyles as they rise into the air.

The present restoration is one of the most remarkable of the world. The Cathedral has had three centuries of bad fortune. It was plundered in 1537, the silver shrine of St. Olaf being carried off to Copenhagen. When the Swedes captured Trondheim, in 1684, they looted the Cathedral, and the silver shrine of St. Olaf was carried off to Sweden. The Cathedral was again in ruins in 1719; and the rebuilding was then done in a simple and irreverent fashion, capitals, columns tracery being used as ordinary building material arches being replaced by new stone work, the nave left in ruins, the aisles shut off from the chancel, the walls figured by tiers of wooden boxes used as pews. This was the condition of Trondheim Cathedral when the restoration was begun in 1847.

The work of restoration has been carried very far. Practically everything is completed but the nave, which has been carried up to something like its original height. Everything has been exactly restored. Nothing has been changed, except as was discovered, or will be as the building is to be in 1914 just as it was in 1300. To this end the best architectural skill has been employed. Every fragment of old building has been used when it was possible to do so. The case of what was ruined beyond repair careful casts have been made, and the whole restored from these, and the suggestion in the unit work. The material employed is a curious blue sandstone found in the

JULY 4TH BATTLE; KILLED AND WOUNDED

UNITED STATES CONTRIBUTES ITS USUAL LIST OF INDEEDENCE DAY CASUALTIES.

NEW YORK, July 4.—Independence Day was largely celebrated in New York. The weather was fine and thousands visited the amusement parks and sporting events. Up to a late hour the police state that several lives were lost and that half a dozen others were dying and that hundreds of others were being treated in the hospital for injuries.

NEW YORK, July 4.—A sacrifice of life by reckless celebrators of the 4th of July began today with the accidental shooting of an Italian woman by a man who was struck with remorse at the death of his aunt, shot and instantly killed herself. Mrs. Antonio Anacchino, the wife of a retired Italian contractor, living in the Bronx, and Arthur Cararo, aged 19, were the victims of a tragedy. Mrs. Anacchino stood nearby watching him when one of the bullets glanced from the pavement and struck her over the right eye, penetrating the brain and causing instant death.

Numberless accidental injuries were recorded as an outcome of the careless use of explosives. The use by Italians of revolvers loaded with ball cartridges instead of blanks was accountable for a number of injuries.

A MOTOR CAR IN THE ANTARCTIC

BRITISH PARTY'S DASH TO THE SOUTH POLE—FOUR MILLION SQUARE MILES AWAITING EXPLORATION.

Preparations are rapidly advancing for the dash by motor car to the South Pole upon which Lieut. Shackleton is intent. The lieutenant will be remembered for his part in the famous voyage of discovery, under Capt. Scott. He stated from London at the end of July of the first week of August. The vessel is now in the Antarctic, and will be out on the continent of ice, and she will undergo certain alterations before sailing, with the object of giving more room below for storage purposes. She will proceed first to New Zealand and thence to King Edward VII Land, where she will winter. The party will return in January, 1908, to New Zealand, arriving there in May of that year; and lie up till the following January. She will then go down again to King Edward VII Land and pick up the expedition on its return from its overland work. As far as possible to the westward, till the coal runs out and it gets too dangerous to attempt to return to New Zealand and thence home again. Lieut. Shackleton and his comrades expect to be in England again in June, 1909.

The captain of the vessel has not yet been chosen; besides him there will be a crew of 14. In addition there will be a party for scientific and general work, numbering 12 in all. These will include Sir Philip Hecock, a geologist, and who will also do the surveying; Lieut. Adams, who will act as meteorologist, and is also good for sledging; James Murray, the biologist; and James Muir, who is an able mechanical engineer.

The great feature of the expedition is that it will press the motor car into the services of the Antarctic exploration. This idea, is not, of course, new. It has often been discussed, and was mooted at the time of the last expedition; but so far as Lieut. Shackleton knows the present is the first time it has ever been put into effect.

The intention is to use petrol or some similar substance that will not freeze; while it will have separate sets of wheels adapted to the varying surfaces over which the journey is to be made. The motor car will be used as a case of marching on foot. Its function will be to draw the sledges and lighten the impediments of the expedition.

But if case 1-c motor breaks down on this uncustomed journey the loads will be transferred to a number of Manchurian ponies. These animals are very strong, capable of living on little at home in the Antarctic regions, for they are accustomed to living in extremely low temperatures, and there will also be a number of dogs with the party.

From the base at King Edward VII Land to the South Pole is some 700 miles; and unless insuperable mountain difficulties are met the distance may be covered in about five weeks or so.

But Lieut. Shackleton was careful to point out that the object of his expedition was not a mere dash to the Pole and back. There is geographical and scientific work in hand also. Four million square miles in the region of the Pole await the footsteps of the explorer, and a rich harvest of geological, geographical, and magnetic discoveries is probably in store for those who venture the journey.

WHAT THE PRESS IS SAYING

Provoke Not. (Toronto Star.) Mr. Henry O'Brien says Toronto children are badly behaved. On the other hand, children are constantly being met who complain that parents have not been brought up better.

Blood Should Tell. (Montreal Herald.) To say that Mr. Mackenzie King has gone into public life, and that he may ultimately obtain high office, is to merely admit that blood will tell. If Mr. Bourassa, the grandson of Pitt Rivers, cuts a figure in the public eye of his generation, why should not Mr. King, the grandson of William Lyon Mackenzie?

Pointers For Borden. (Toronto Star.) The fact that Leader Borden has called the Conservative editors into council at Montreal may indicate that he is going to act on the good advice they have been withholding from him for years.

WARNS ON LIFTING HATS.

Count Johann von Harrach, Austrian Leader, Raps Americans.

VIENNA, July 4.—Count Johann von Harrach, one of the leaders of Austrian high society and the husband of Princess Maria Theresa of Thurn and Taxis, has started on an energetic campaign against the modern method of salutation by taking off the hat.

"It is a practice," he says, "which is unhygienic and very bad for hats and the number of colds and cases of influenza due to this pernicious habit are legion."

In a formal appeal to civilized society he says: "All men and women should join me in this crusade. I propose to establish an international union of men and women who, instead of recognizing the present insidious method shall pledge themselves to reform in the shape of a simple inclination of the head."

The count takes a dig at America, where he says the hat salutation has grown to be a fetish. It always makes him laugh to see how an American uncovers in the presence of a lady utterly oblivious to draughts and the next day's bad cold.

Members of the association are to wear a scarlet badge on their hats as a sign to the uninitiated, that when they bend their heads instead of taking off their hats they do not intend any affront.

Germany is taking kindly to Harrach's reform. The count is flooded with applications from there for admission to the association and for the scarlet badge.

WINNIEPEG EXHIBITION

July 15th to 20th, 1907

Are you coming? Thousands will be here and you will see your old acquaintances from all parts of the country. When you meet your friend.

Drop in to WATSON'S for adult luncheon, and have dinner for luncheon with him. We have the brightest, most up-to-date Dining Hall, Tea Rooms and Smoking and Coffee Rooms in the West. Our Chef is the most capable manager can secure. Our Menu, crowded with the seasonable products of the Tropics, shows our far-reaching purchasing power. We pay special attention to the rendering of a prompt and artistic service.

Music in almost constant attendance. Special features for the Fair.

CITY AND COUNTRY

Winnipeg Cash Wheat
WINNIPEG, July 9.—The following were the prices paid on today's market for cash wheat, compared with Monday:

From Thursday Morning's Leader.
The Misses Elizabeth and Jessie Robson, of Winnipeg, are visiting Miss MacIvor, Albert street.

The claims of H. W. Laird and M. Evoy, against the city engineer for examination.

The railway instruction car of the International Correspondence School is at present located in the city.

G. Ems, M.L.A. for Rothenburg, spent a few hours in the city last night, en route home from a trip west.

Mrs. C. E. Gee, left on Thursday morning for Toronto, after spending a very pleasant year with her son, W. H. Gee, and family.

Miss C. Louise MacCallum, of Indian Head, formerly of Smith's Falls, is spending a few days with Mrs. Dr. H. G. Nyblert.

The tender of the Municipal Construction Co. has been accepted for trenching and laying all sizes of water pipe for 57 cents per lineal foot.

L. H. Kerr, a well-known mining expert who is largely interested in the University mine in the Cobalt district, is at present the guest of L. V. Kerr, in the city.

At the recent commencement exercises of St. Mary's Academy, Winnipeg, the full granting honors of the English Academic course were conferred on Miss Constance Knowlton, of Whitehead; Miss Beatrice Marrin, of Winnipeg; and Miss Ray M. Leish, of Regina.

Yesterday morning the fire brigade had a little exercise, but fortunately nothing more to Lorne street. It was found that a fire had originated in a tent through the upsetting of a gasoline stove, but all danger had been averted before the brigade reached the spot.

Gainsboro Post.—A number of the leading farmers of Winlaw, Elmore and Workman vicinities are taking steps towards seeing what can be done to secure an extension of the Great Northern Railway into this part of the country.

A meeting for this purpose is called to meet in Elmore school house at 7 p.m. on Friday, July 5th, when all interested are requested to attend. This seems to us a right move for the gainsboro steps at the same time and endeavor to induce the Hill line to come to Gainsboro also. At least there can be no harm in having a meeting called to discuss the matter.

Samples of wheat gathered from several farms in the Lumsden district, and now on view at the office of Balfour, Broadfoot & Co., show the great progress made by the crops during the past ten days. The wheat measures 26 inches and the crops are expected to head out in from 12 to 15 days. W. Balfour has just returned from an extended tour through the province, going as far west as Alberta and covering a large tract of the best wheat growing land in the west. As a result of his observations, Mr. Balfour states that he has no hesitation in stating that there at present exists every reason for confidence and for anticipating the best wheat crop ever grown in Saskatchewan.

From Friday Morning's Leader.
J. D. Stewart, M.L.A. for Cannington, was a visitor in the city yesterday.

Mr. and Mrs. Arthur Bourget are just now in Quebec, the guest of the former's mothers.

W. J. Swainland, manager of the Union Bank branch at Cupart, arrived in the city yesterday afternoon, having driven across country.

A. B. Cook is leaving for Toronto and other eastern points on business connected with his firm. Mr. Cook expects to be away for three or four weeks.

The hearing of the charges preferred against five of the city hotel-keepers by the provincial license department was yesterday again adjourned for another week.

At the meeting of the Epworth League held at Rae Street Methodist church on Wednesday evening, the Rev. Mr. Davis delivered a lecture on his travels in the West Indies, describing in a very interesting manner his trip from New York to Trinidad.

Henry Roberts of Carlyle, brother-in-law of Police Sergeant Sample of this city, together with his two sons and Sidney Porteous of Carlyle, left yesterday for the Peace River district with a car of settlers' effects. The party will proceed as far as Edmonton by rail and thence proceed across country to the famous northern country of Alberta.

The Auditorium rink management are having the Edison Projecting Kinetoscope installed at the rink and have made arrangements for a tri-weekly service of the latest films. They expect a shipment of 400 pairs of roller skates to arrive about the 15th of July, when the roller rink will be formally opened. The moving pictures will be a special feature in connection with the skating and no extra charge will be made. About 2,000 feet of film will be exhibited each night at 9 o'clock. Spectators will be charged a small fee, and if there at 9 o'clock will see the exhibition.

Americans in the city celebrated the Fourth yesterday in the approved fashion, starting the day with the firing of guns and ending up with a brilliant display of fireworks on South Railway street, on the open space adjoining the C. P. R. freight sheds.

In the afternoon a splendid programme of sports was gone through at Railway Park, but the rain storm, which broke a little after 8 o'clock in the evening put an effectual stop upon the baseball game which was to have been played. The game may possibly, however, be brought off next Monday.

From Saturday Morning's Leader.
Miss Parks of Whitewood is the guest of Miss Evelyn Miller.

Mrs. H. E. Armstrong, Cornwall street, will not receive again till September.

The Misses Robson of Winnipeg are the guests of Miss Jessie MacIvor this week.

The Misses Phil left on a trip to Ontario on Saturday last, Miss Annie Phil to attend a ladies' college in Toronto.

W. Stubbs, formerly of the Independent Lumber Co., but now representing a Winnipeg Lumber Co., is a visitor in the city.

W. Holden, who has been in the city for the past few weeks in connection with the Holden Private Telephone Co., leaves today for Winnipeg.

Rev. E. A. Henry and the session of Knox church are busily engaged preparing for the twenty-fifth anniversary of the founding of the church in Regina. Special services will be held in the church every night during the week commencing Sunday, Sept. 15th.

From Monday Morning's Leader.
Mr. and Mrs. D. P. McCall left last evening on a holiday trip to Ontario.

Mrs. Spencer Page will not receive tomorrow nor again until the second Tuesday in September.

Chas. Pool leaves today for Prince Albert to join the staff of the Provincial Lands Titles Office there.

D. B. McPherson has left for a month's holiday in the east, the greater part of which time will be spent in Kempenfelt, Ont.

Mrs. Roy, wife of L. Roy, accountant of the Trust & Loan Co. of Canada, arrived from Montreal on Saturday to join her husband here.

E. Marshall Young, who has been absent in the States for several months past, representing Young's Nebraska and Brokerage Co., in York, Nebraska and other Southern points, has returned to the city.

Mr. and Mrs. John Munro, of New York, are stopping in the city on a short visit to Mr. Munro's uncle, A. B. Dunnett, before continuing their journey to Banff. Twenty years have elapsed since Mr. Munro was last in Regina.

Mr. and Mrs. W. M. Logan and children left on Saturday morning for St. Mary's, Ont. They were accompanied by Mrs. W. B. Van Egmond and daughter, who will spend this summer at Toronto and Niagara-on-the-Lake. They will be joined by Mr. Logan's mother at Winnipeg.

Work is being pushed ahead with the various improvements at the Exhibition Grounds with a view to having everything in readiness for the big fair. The capacity of the grand stand is being doubled and yet another large stable erected, while the finishing touches are being given to the great amphitheatre.

His Honor, the Lieutenant-Governor and Madame Forget will leave tomorrow morning for Battleford, where His Honor will, on Wednesday, nearly 25 years since His Honor and Madame last visited the ancient capital of the old northwest, where they made their home for many years.

From Tuesday Morning's Leader.
Cecil Yates, of Strassburg, was a visitor in the city.

Pat O'Curry, of Arlington Beach after spending several days in the Capital, has returned home.

The Crank Sentinel is authority for the statement.—That no more will freight be hauled on Sunday over the Prince Albert line and the Lord's Day Act will be strictly observed.

Hon. W. R. Motherwell, commissioner of agriculture, left for Indian Head last night in connection with the completion of arrangements for the annual excursion to the experimental farm, which takes place today and tomorrow.

The secretary of the Regina Industrial Association has received a certificate of membership from the American Trotting Association, and the four days races at the big fair will in no way be interfered with by the ban imposed upon the four members of the Regina Turf Club.

The committee which had in its hands the management of yesterday's reception of National Council delegates, wish to tender their thanks to the following gentlemen for kindly placing their automobiles at the disposal of their visitors.—Messrs. Arnold Bros., G. H. Marsh, Sheriff Duncan, M. Mc Causland and Luke.

What might easily have been an extremely serious automobile accident occurred last night, when a car said to have been travelling at a high rate of speed ran into a gentleman at the corner of Albert and Dewdney streets. The gentleman was accompanied by a child, who happily, however, was not injured. The man was not so fortunate, being hurt sufficiently to make it necessary for him to be taken to the Grey Nun's hospital close by.

CANAL PERMITS.
United States to Send Training Ships Through St. Lawrence Canals.

OTTAWA, July 4.—The Dominion Government has granted leave to the United States government to send through the St. Lawrence canal a training ship from Newport to be used by the Michigan naval reserve at Detroit. There are no guns on the boat and whatever arms are used for training will be on shore.
