BOGUS HERO
OF WAR PLEADS
GUILTY NOW

Admits Deception Practised on
Unsuspecting Public—Wore
Nine War Decorations on
His Tunic.

Ottawa, April 15.—Robert William
Gunter, who, under the name of Major
Campbell and Sir James Colonge, posed
in Montreal, New York, Rochester and
half a dozen other cities as a returned
war hero with a sensational record,
was remanded for sentence in a police
court yesterday after pleading guilty
to all the charges of deception brought
against him. When arrested he was
wearing a Canadian Major's uniform
adorned with nine war decorations.

One of Gunter's favorite stories was
that he was in charge of the firing
squad which executed Carl Lody, the
German spy, in the London tower. After
pleading guilty he said that he had
really had a commission in the Cana-
dian army and blamed drink for his
downfall.

London, April 15.—Leon Trotsky, the
Bolshevik minister of war and marine

front in a wireless from Moscow which
has been picked up here. The mes-
sage reads:
"All our efforts must now be directed
to the eastern front, which is the only
front upon which we have suffered de-
feats. We must send old and experi-
enced troops to that quarter. It is
absolutely necessary for us to capture
Ekaterinburg, Perm and Ufa."

anese authorities by L. A. Bergholz,
the American consul general here,
against Japanese in civilian dress car-
rying clubs with clubs no longer are

been assured by the police that all such

President Wilson Issues a State- ment on Behalf of the "Big Four"

Paris, April 15.—The full text of
President Wilson's statement in be-
half of the "Big Four" follows:
"In view of the fact that the ques-
tions which must be settled in the
peace with Germany have been
brought so near a complete solution
that they can now quickly be put
through the final process of drafting,
those who have been most constantly
in conference about them have decid-
ed to advise that the German plen-
ipotentiaries be invited to meet the
representatives of the associated bel-
ligerent nations at Versailles on the

25th. of April.
"This does not mean that the many
other questions connected with the
general peace settlement will be in-
terrupted or that their consideration,
which has long been under way, will
be retarded. On the contrary, it is ex-
pected that rapid progress will now
be made with these questions, so that
they may also presently be expected
to be ready for final settlement.
"It is hoped that the questions
most directly affecting Italy, especial-
ly the Adriatic question, can now be
brought to a speedy agreement. The

Adriatic question will be given for
the time precedence over other ques-
tions and pressed by continual study
to its final stage.
"The settlements that belong espe-
cially to the treaty with Germany
will, in this way, be got out of the
way at the same time that all other
settlements are being brought to a
complete formulation. It is realized
that, though this process must be
followed, all the questions of the
present great settlement are parts
of a single whole."

man who is acting as Lloyd George's
subordinate on the Council of Four
at Paris.

ITALY BEING FLOODED WITH PROPAGANDA

Bolshevik Doctrine is Being Spread
Throughout the Country—Extra
Police Needed.

Washington, April 15.—Bolshevik
propaganda is being spread broad-
cast in certain Italian cities, creat-
ing a situation of grave possibilities,
a message to the States Department in-
dicated yesterday. Extra police are
patrolling the streets of Turin, a big
industrial centre, and 500 cavalry
troops are reported to have been
quartered there to suppress possible
uprisings. The troubles are officially
spoken of as an "impendent strike" and
the Italian authorities, the State De-
partment message said, have the situ-
ation under control.

NINE MEMBERS BOLT FROM THE GOVERNMENT

Unionists Score Titles When Issue
Came Before the House of
Commons Last Night.

Ottawa, April 15.—By a majority
reduced by several bolters to seven,
the Government succeeded just be-
fore midnight in referring the ques-
tion of abolishing titles to a special
committee of the House. The commit-
tee is to meet promptly and its re-
port is to be considered by the House
at the present Parliamentary session.
But for a definite promise to that ef-
fect made by Sir Thomas White the
Government's majority would have
been completely wiped out. It was
clear that the House had the members
been given their freedom, would have
declared by an overwhelming major-
ity against the bestowing of further
titles, hereditary or otherwise, upon
Canadians. One after another the
members expressed the opinion that
they wanted to see no more Barons
or Knights in this country.

THE WEATHER

enue Road and down Avenue Road to
the production thereof (Hoskin Aven-
ue) through Queen's Park and in at the
South entrance of Varsity Stadium,
where the 4th Battalion will be formed up
en masse and a general Salute performed.

Arrangements have been made for
the relatives of the men returning to

The returned men of both Battalions
will parade in front of their Units and

EWING WANTED HIGHER RANK SAY OFFICERS

Man Who Made Charges in House of
Commons Against Argyle House
Was Turned Down.

Ottawa, April 15.—Information re-
ceived from Canadian Military Head-
quarters, London, is to the effect that
the Major Ewing, who, on his arrival
at Halifax this week, strongly con-
demned the administration of the
Overseas Military Forces of Canada,
stating that it was the reflection of
the "rottenness of the Government at
Ottawa," was for some time in the
Canadian Army Service Corps em-
ployed as inspector of catering.

"For two months previous to his
departure," the cable from London
states, "he showed signs of being
disgruntled. It is claimed that this
dissatisfaction was attributed to the
fact that the quartermaster-general
was unable to accede to his request for
promotion to the rank of lieutenant-
colonel, for reasons among which was
the fact that Major Ewing had not
seen service in France.

The funeral of the late Mr. Peter

sidence of her son-in-law William F.

predeceased her 35 years ago, in Beaus-

sibly outlying points. You will be notified
of this immediately there is any in-
formation to be given out. In any event
if this is not granted, make every effort
that it does not interfere with the size

Any men coming from outside points
who have no friends in the city and
who cannot afford to go to Hotels, will

MRS. RYAN IS GIVEN RIGHT TO THE CHILD

Long Drawn-out Litigation Over
Custody of Four-Year-old
Girl has Been Finally
Settled.

Washington, April 15.—A legal fight
begun in 1915 over the custody of the
then ten-month old baby, Ircan, be-
tween Mrs. Margaret Ryan of Ottawa,
Canada, and Mrs. Anna Matters, of
Chicago, both of whom claim to be its
mother, culminated yesterday with the
supreme court setting aside federal
court decrees turning the child over to
the former. The lower court was or-
dered to dismiss the case.

The proceedings were instituted by
Mrs. Ryan, who claimed Mrs. Matters
had kidnapped the child shortly after
its birth and taken it from Canada to
Chicago in violation of the immigra-
tion laws. Mrs. Matters contended the
trial court was without jurisdiction and
this was upheld by the supreme court.

Wounds are Forcibly Removed

Washington, D. C. April 15.—A To-
kio dispatch to the state department
reported that gendarmes took from the
Severance Hospital at Seoul, an insti-
tution maintained by Americans, three
Corean patients suffering from gunshot
wounds inflicted by the police.

A surgeon connected with the Hos-
pital protested violently against the ac-
tion of the police. The superintendent
of police, when asked for an ex-
planation, charged that the prisoners
were criminals and that the action of
the gendarmes in taking the men away
from the hospital was in accordance
with the law.

In The Spring-Time.

Any fool knows enough to carry an umbrella when it rains, but the wise man is he who carries one when it is only cloudy. Any man will send for a doctor when he gets a headache, but the wiser one is he who adopts proper measures before his ills become serious. During a hard winter or the following spring one feels rundown, tired out, weak and nervous. Probably you have suffered from cold or influenza which has left you thin, weak and pale. This is the time to put your system in order. It is time for house-cleaning.

A good, old-fashioned alternative and temperance tonic is one made of wild roots and barks without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system.

GENERAL BUTTE, SASK.—"I have used the Golden Medical Discovery for a number of years and am pleased to recommend it as a blood purifier. I know it has no equal. I think my boy would not be alive to-day had it not been for the Discovery." I from other medicines, instead of upsetting the stomach as cough syrups do, it is good for the stomach.—Mrs. FRANK WOOD.

THE INDUSTRIAL OUTLOOK

No one who is in a position to know what possibilities there are for widespread trouble between employers and employees throughout the Province within the next three weeks can view the situation with other than deep concern. The prospect of impending conflict between capital and labor is not inviting. We have only just emerged from the anxiety, distress, and turmoil of international conflict. The minds of men are unsettled. The wheels of industry are not yet turning with their normal smoothness and production. The sight of relief which the world has taken that the great struggle is over has not yet expended itself. Are we to have further troubles before humanity will settle down to steadiness and advancement?

It is not argued here that the tollers of the world are not entitled to a greater share in enjoyments and advantages of life, but the history of unrest and disturbance shows that the evil consequences of disruption fall heaviest on those who are least able to withstand them. Some one of note, writing as a labor leader in England, points out that strikes were a useful instrument in their day but that they have become obsolete or nearly so. The most approved forms of getting concessions today are negotiation, discussion, reason and governmental pressure. May we express the hope that these agencies will be employed throughout the country instead of drastic methods if the workers feel they are entitled to what they are not now receiving.

CARNIVAL CONDITIONS

Gambling of all kinds is at Fever Heat in Berlin

Berlin, April 14.—Barbed wire barricades, camouflaged armored cars with white death's-head and cross-bones emblems, cannon and machine-guns have vanished from Berlin's streets.

Life is again so superficially normal that nothing reminds you of democracy's death grapple with Bolshevism in the German arena.

The sporting world of last week was absorbed in Berlin's six-day bicycle race, drawing crowds despite the nightly increasing price of seats, soaring prices being a typical Berlin phenomenon—a new way discovered for parting natives from their money.

At two of Berlin's largest cafes continuous billiard tournaments are going on. Mechanical gambling on the rolling ivorys made a hit with devotees of sport.

In a Berlin paper is an "ad." in which the advertiser seeks a partner with 100,000 marks for opening a bar of a new type to Berlin. New gambling clubs for ladies and gentlemen continue to sprout, proffering sumptuous free banquets of illicit liquors and free liquor as bait to catch members, with vaudeville and operatic stars as an added attraction.

THE OVERSEAS FLIGHT AGAIN POSTPONED

Hawker Forced to Delay Attempt to Fly the Atlantic—Developing Into a Real Race.

Saint John's, N. F., April 14.—Dense fog and drizzling rain yesterday forced Harry G. Hawker, daring Australian aviator, again to postpone his attempt to fly across the Atlantic in quest of fame and the \$50,000 prize offered by the London Daily Mail. Yesterday a blustery southeaster made a "hop off" impossible.

Hawker plans to begin his adventure at the first signs of favoring wind and weather, but mariners wise in the lore of fog and rain said tonight it might be a week before the misty curtain lifted, as thick weather is to be expected at this season.

Meanwhile the trans Atlantic flight is developing rapidly into a real race. Encouraged by the delays encountered by Hawker, Captain E. P. Raynham, British airman, is rushing the work of assembling his Martinsyde biplane, which he hopes to have ready in time to take the air at least as soon as Hawker's Sopwith machine hops off.

As the rivalry between the two camps increases, there are indications that Hawker and Commander Mackenzie Grieve, R.N., his navigator, are ready to sacrifice every possible safeguard in the sporting desire of "getting the jump on the other fellow."

Despite rains overnight, continuing into this morning, Hawker prepared to begin the flight as soon as the fog lifted measurably.

GERMAN U-BOAT MAY STOP AT THOROLD LOCK

Officials Anxious to Give People of This City and District a Chance to View the Submarine.

Niagara Falls, Apr 14.—Efforts are being made by prominent men of Niagara— Falls, Ont., to have the German U-boat, which will shortly pass through the Welland canal, stop at Thorold, Ont., for several hours to give the residents of the Canadian and American Niagara districts an opportunity to inspect it. The Welland branch of the navy league has asked to have the U-boat stop for a day in Welland.

Officials of Niagara Falls, Ont., are in communication with Commodore Ameline Jarvis of Toronto to have the U-boat stop at Thorold. Thorold is conveniently located so that residents from all the Niagara district could go there to view the U-boat.

BEDRIDDEN WITH RHEUMATISM

Felt That He Would Never Walk Again "FRUIT-A-LIVES" Brought Relief.

MR. LORENZO LEDUC

"Fruit-a-lives" is certainly a wonder. For a year, I suffered with Rheumatism; being forced to stay in bed for five months. I tried all kinds of medicine but without getting better; and thought I would never be able to walk again.

"One day while lying in bed, I read about 'Fruit-a-lives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me.

I have every confidence in 'Fruit-a-lives' and strongly recommend them to every sufferer from Rheumatism."

AFTER CLOUDS COMES SUNSHINE.

AFTER DEPENDENCY COMES JOY. AFTER SICKNESS COMES HEALTH. AFTER WEAKNESS COMES STRENGTH. In the spring when you're "all in" — fagged out — blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and barks, which has stood fifty years as the best spring tonic — you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet or liquid form, and sold by every druggist in the land. After a hard winter — shut up indoors, your blood needs a temperance tonic, a tissue-builder and blood-maker such as this "Medical Discovery" of Dr. Pierce's.

STAMFORD, ONT. — "I can highly recommend Dr. Pierce's Golden Medical Discovery and Pleasant Pellets. I have used these remedies twenty-five years in my family. Had a very bad case of neuritis and Golden Medical Discovery completely cured me in a very short time. I have given it to all my family, also to my grand children. I had a grand-child last summer that we thought could not live. We gave him the Discovery and he is strong and healthy as any child could be. I am a great believer in Dr. Pierce's Medicines and would not be without them." — Mrs. A. BOWLING, 288 Railway Ave.

A collision which caused a great deal of excitement occurred at 1:30 o'clock on Monday afternoon in front of Haynes Avenue Presbyterian Church. While Mr. Moore, carter, was making the hill from Thorold Road to Queenston Street, Joseph Watson, Flour and Feed merchant, James Street, who was riding a bicycle in the same direction, ran into the step of the Ford, and was thrown from his wheel to the road, the bicycle being dragged a considerable distance underneath the car. Fortunately the occupants of the car and also the rider on the bicycle escaped unhurt, but the hind wheel of the car was damaged beyond repairs.

GET ON LAND EARLY

The Dates to Plant for Heaviest Yields.

To Make Most Money From Wool Shearing has to Be Done Properly and Wool Handled Carefully — A Few Hints Which Have Saved Farmers Dollars.

(Contributed by Ontario Department of Agriculture, Toronto)

THERE is a best time to sow each class of farm crops to secure the highest returns. It is difficult, however, to know which are the most favorable dates for the best returns of the different crops in all seasons. The results of experiments conducted over a series of years form a good general guide. Some crops give best results from later seedings. Seasons vary so much that in some years the grains are practically all sown by the dates at which it is only possible to start sowing in other years. It is of the utmost importance, however, to start cultivating the land as early as it is dry enough to work to good advantage. The first cultivations should take place for those crops which should be first sown. In this connection it is interesting to study the results of an experiment which was conducted in each of five years at the Ontario Agricultural College, Spring wheat, barley, oats and peas were sown on the 1st, 15th and 28th of each month. The following table gives the average results for the ten tests in the five-year period:

Bushels of Grain Per Acre.

Spring Bar-Seedings.	Wheat.	Oats.	Peas.
1st	21.9	46.2	75.2
2nd	19.2	45.9	76.0
3rd	15.4	39.8	64.2
4th	18.0	37.1	55.8
5th	6.4	27.6	46.2
6th	3.7	18.4	37.0

It will be seen that the spring wheat gives decidedly the best returns from the first date of seeding. There is not much difference between the first two seedings of barley and oats, but there is a slight advantage from the first date in the case of barley and from the second date in the case of oats. The peas, however, gave the highest returns from the second and third dates, and even the fourth gave a higher average yield than the first date. After the first week each seed date was an average decrease per acre for each day's delay as the season advanced of 27 pounds of spring wheat, 47 pounds of barley, 43 pounds of oats, and 20 pounds of peas.

These results are of special interest and are worthy of careful attention at this particular time.

Sheep Shearing.

Shearing and Tying the Fleece.—Shearing should only be carried on under the most favorable conditions; upon bright, warm sunny days when the sheep are dry of fleece and the wool is clean, somewhat from the body. Cleanliness and care in the removal of all feces is very essential and the shearing floor should be swept after each fleece has been removed and tied. This will eliminate a great deal of foreign matter which, although it may add weight, does so at the expense of quality.

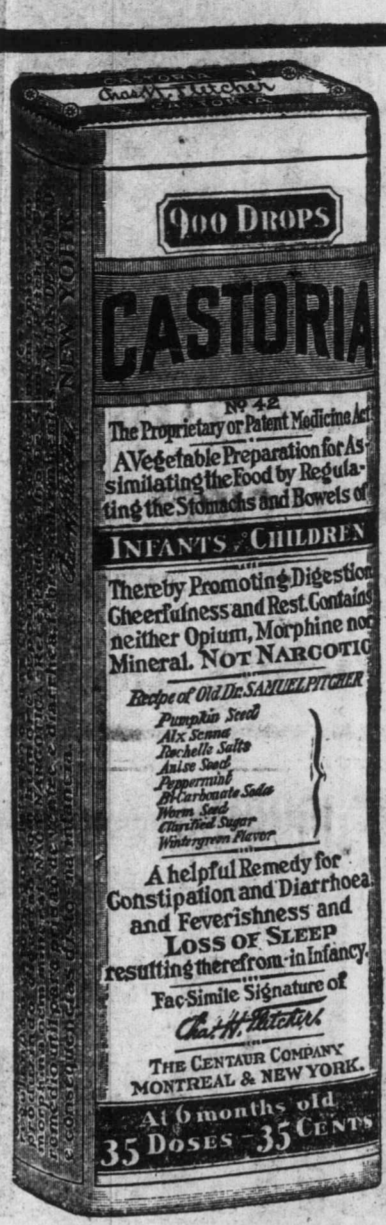

Dung Licks or Tags.—It will be noticed with many fleeces that there are certain hard dung licks or tags adhering to the britch ends. These contain a great deal of moisture and if left on the fleeces somewhat from the body produce a damp heavy condition that means a higher shrinkage and hence less value. They should, whenever present, be snipped off with the shears before the sheep is shorn or else pulled off by hand after the fleece is spread out for rolling. They can very easily be packed and shipped separately, bringing more money this way than if left upon the fleeces. The same is true of all paint clotted locks as well.

Rolling the Fleece.—Spread the fleeces out on the floor, being careful not to pull apart and with the head side down. Then fold the belly wool and both sides in until your fleece represents a strip about 18 inches wide. Starting at the hind end, roll tightly towards the neck, thus leaving the shoulder wool, which is always the superior portion, on the outside of the roll. The grader always estimates the grade by the appearance and quality of this wool over the shoulder and heart-girth, that over the hind-quarters usually running a grade or two lower.

Try the Fleece.—Having rolled tightly, tie both ways with the special paper twine supplied by the Department. Never under any consideration use binder twine as the fibres become attached to the wool and follow right through into the cloth where they always show up quite prominently. Many mills have refused to have anything whatever to do with clips that have been tied with binder twine. If the paper twine is not available use any stout cord other than binder twine. Tie each fleece separately, never tying two or three together in the same bundle. Furthermore, avoid as much as possible the shipping of loose wool. If you have two or three different breeds of sheep, possibly a grade flock and a pure-bred flock, it is wise to keep the wool from each breed separate and pack it so.—Director E. W. Wade, B.S.A., Ontario Department of Agriculture.

A number of varieties of beans are in cultivation, but to meet the present demand the Small White Pea bean is particularly suitable. Care should be exercised in securing well matured seed of strong vitality as many of the beans grown last year are unsuitable for planting.

It only takes a few hours to rake and clean a yard and lawn. The result means a lot when carried out over the whole city.

War to Peace

Making the Soldier A Civilian

EARLY in the war, the Government realized that the returned soldier would need one of three things.

- (1) If he was ill, he would want to be made well.
- (2) If he was so disabled by service that he could not follow his old occupation he would want an opportunity to recover his power to "make good" as a civilian.
- (3) If he was fit, he would want to be put into touch with employment opportunities.

To help in this three-fold service the Department of Soldiers' Civil Re-Establishment was organized.

The Medical Branch.

The Medical Branch of this Department gives the special after-care that soldiers who have suffered through war service need.

On his return to Canada the invalided or wounded soldier is treated in military hospitals. If the Medical Board decides that his case requires extended treatment in certain diseases, he is discharged from the army and comes under the care of this Department.

The Medical Branch then provides free medical and surgical treatment;

- free artificial limbs and special boots for deformed feet;
- free surgical appliances, eyeglasses, etc.;
- free dental treatment.

At present this service is available not only on the soldier's discharge from the army, but whenever he becomes ill again on account of disease or wounds due to war service.

The Vocational "Re-Training" Branch.

Some soldiers have so suffered on war service that they are prevented from working at the trade or occupation they followed before enlisting. This branch of the Department arranges for such men

Col. R. W. Leonard of this city has contributed \$5,000 to Queen's University endowment fund.

The Joint Committee from the Collegiate Institute Board and City Council met last night in the Council Chamber to consider sites for the proposed new Collegiate Institute.

His numerous old friends in this city will learn with regret of the death of Mr. W. Flaherty of Niagara Falls, Ont., which occurred yesterday. The deceased was in his 83rd year and was considered the oldest Free Mason in Ontario. In his early days he was a conductor on the Great Western R. R. and later on the G. T. R. For many years he was proprietor of the American Hotel at the Falls and was well known and highly respected by many throughout this province.

Mr. Wallace, the St. Paul Street jeweler launched a fine 30 foot gasoline speeder, last evening. It is equipped with a modern powerful engine and a speed of 30 miles an hour is expected from the boat. Owing to the O. T. A. there was no champagne at the christening.

A man appeared before the Court to answer to a charge of assaulting another in the Y. M. C. A. The too ready use of his hand cost the aggressor \$8.25.

Three canines wandered the streets at large and their owners were assessed \$2 each while two bicycle riders who prefer the sidewalk to the road for riding on also paid \$2 each for the privilege.

Washington, April 15.—Transportation of intoxicating liquors for beverage purposes through a dry State is not prohibited under the Reed prohibition amendment, the Supreme Court held today in an opinion interpreting that act.

JAPS ARREST MISSIONARIES

San Francisco, April 15.—Four American missionaries in Seoul, Cap-

NEW CHIEF ENGINEER

Winnipeg, April 15.—A. H. Dixon has been appointed Chief Engineer of Western Lines, Canadian National Railways, to succeed the late A. T. Fraser, who was killed recently in a snowslide at Mount Robson. This announcement was made today by A. E. Warren. Mr. Dixon was formerly district engineer of the Pacific district, with offices at Vancouver.

SON USES WEED SO IS CUT OFF

London, Ont., April 15.—Because he used tobacco, which, says the testator, "I despise," Frank Atwood, son of Squire Adolphus Atwood, who died recently at his home in the township of Lobo, is disinherited. Squire Atwood's original will, which has been entered here for probate gave the son named an equal division with other sons and daughters. A codicil however, calls attention to the objectionable use of the weed, and supplants the son by a grandson, Carlton Robb, as beneficiary.

Advice to Legatees

The Squire, in addition to dividing his estate of \$17,250, gives to the legatees the following advice: "I desire to leave my legatees four words which I have proved myself to be the key to success: Wisdom, Perseverance, Justice, and Economy, and in addition, I give this advice: Never buy what you do not want, and never buy on credit, unless you have reasonable grounds for knowing you will be able to honor the obligation when due."

Colin E. Tait of the local Collegiate Institute received honorable mention for his Victory Loan essay in the recent competition.

This, surely, is reasoning backwards. In our opinion every member of the Council might well be on the finance Board. If this were so there would be an infinitely better understanding of the chief responsibility of the Council—namely the administration of money.

Householders Waste Natural Gas, Too

WEATHER
Fresh northwest winds; cloudy and cool, with occasional rain.

One important phase of natural gas conservation is its proper use in the home. Present methods are largely wasteful. Government experts say, and they have arranged for instruction in the public schools in proper methods of cooking by natural gas that its use may be prolonged. A recent publication says:

"Better results can be obtained with pressures in the neighborhood of one ounce than at four ounces or higher, if the vessel is properly placed over the shorter flames resulting from the lower pressure. A burner with a large number of short flames will give better results than with long flames. This is such an important feature that practically twice as much gas will be required to cook with four ounces of pressure as would be required for pressures of from one to two ounces."

Although Natural Gas is Cheap, do not waste it—the Supply is not Everlasting.

CANNOT JOIN MEETING OF PAN-CHURCHES

Pope is of the Opinion That Others Must Return to the Catholic Faith Before Vatican Could Take Part.

Rome, April 14.—It is stated semi-officially on behalf of the Vatican that the holy see has not given its adherence to the pan-Christian congress which it is proposed to hold shortly, as the Catholic church, considering her dogmatic character, could not join in the congress on an equal footing.

The feeling of the Vatican, says the semi-official expression, is that all the other Christian denominations succeed from the Roman church, which descends directly from Christ and that, therefore, Rome cannot go to them, at being for them to return to her bosom.

The pope, the expression adds, is ready to receive representatives of dissident churches with open arms, as the Roman church has always longed for the unification of all the Christian religions. Pope Leo XIII, it is pointed out, was deeply interested in the question and wrote two famous encyclicals on the subject of the unification of the Christian churches.

CRAP GAME IS PULLED OFF ON OLD BROADWAY

Cops Interrupt "Man's Size" Game at Corner of 42nd Street and Forty Men are Pinched.

New York, April 14.—The corner of Broadway and 42nd street, famous the world over as the heart of the Great White Way, was the scene today of what was probably the most centrally located crap game New York detectives ever have broken up.

Detectives Donohue and McLoughlin, strolling along Broadway in the early watches, heard an impassioned voice urging a "natural" to put in his belated appearance. Drawing nearer, they observed about 40 men clustered around the man with the bones and \$4,000 in currency in a pile on the sidewalk waiting for the winner's clutch.

Shouldering his way in, McLoughlin invested \$65 in evidence and announced that the game was pinched. Aided by policemen, the detectives captured 35 players, who later were assessed \$8 each by Magistrate Ringie. One of the victims announced regretfully that he would be obliged to work his fine out, as he had just dropped his last \$2,000 in the game—\$1,500 one pass.

A friend put up the necessary \$3, however, and after Magistrate Ringie warned the players that African golf would not be tolerated on the streets of this orderly city, the players disappeared.

BRITAIN SAID TO BE DEALING WITH THE SINN FEINERS

London, April 14.—"It is reported," says the Morning Post, "that negotiations have taken place, or are in progress, between the Ministers and Sinn Feiners in reference to the Government of Ireland. The statement is that a deputation came from Paris to De Valera. One version has it that the Sinn Fein leader was asked what he wanted. Another is that de Valera was promised dominion Home Rule on condition of his promising to abandon the present Sinn Fein republican policy."

NOTED OPERA SINGER FILES DIVORCE SUIT

Chicago, Ill., April 14.—A deposition in the divorce suit of Galli Curci, the opera singer, was filed here last week. It was by Cleofonte Campanini, general director of the Chicago Opera Association in which Galli Curci sang. Campanini said that twice while Galli Curci was singing he saw Luigi, her husband, escort young women to his wife's apartment. The director said he did not remember the names of the towns or the hotels where these things happened.

MANY KILLED IN RIOTS IN CITY OF CAIRO

Over 100 Wounded in Two-day Fight in the Streets. Soldiers are Charged With the Responsibility.

Cairo, Egypt, Friday, April 12.—In two days of rioting here, ended at noon on Thursday, 38 persons were killed and 100 wounded. It is announced in today's official communique. Armenians were chiefly the object of the mob's attacks, and seven of those killed were of that nationality. In rioting in Alexandria three persons were killed and six seriously injured on Saturday morning, while a continuation of attacks on the troops resulted in the killing of seventeen other persons during the afternoon. The text of the statement reads:

There was further rioting in Cairo yesterday. The mob, armed with knives and hatchets, made attacks largely directed at Armenians. The police report 3 killed and 100 wounded during the 48 hours, ending at noon yesterday. The killed included seven Armenians and four Greeks. Military measures were enforced and the night passed off quietly.

Disturbances occurred in Alexandria yesterday. There was a collision in the morning between troops and rioters in the Karmus quarter, in which three were killed and six wounded seriously. In an Armenian disturbance in the afternoon the mob persistently attacked the troops who were obliged to fire, killing seventeen, including a number of others. The public is warned to be inside by 8 o'clock in the evening.

London, Sunday, April 13.—A Reuters' despatch from Cairo, dated April 11th states that many Armenians were massacred during the rioting on Wednesday and Thursday. It is said that 2500 Armenians were collected there on Friday night and lodged in various buildings under military protection.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR. SOFT. GLOSSY. WAVY

A small bottle destroys dandruff and doubles beauty of your hair.

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—but really new hair growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

ESTATE GOES TO WIFE

F. W. Woolworth Intended to Make Bequests to Charities and Friends.

New York, April 15.—Death stayed the hand of Frank W. Woolworth, founder of the chain of Woolworth stores, as he was about to execute a will under which large bequests were to be left to charity and gifts to old employees, friends and relatives. In consequence an old will, made thirty years ago, will be probated, under which the entire estate is left to Mrs. Jennie Woolworth, the testator's wife. Mrs. Woolworth is under medical care and a committee will look after her interests.

The value of the estate has been estimated at between \$30,000,000 and \$60,000,000.

PEACE BRIDGE MAY BE NAMED LAURIER

Bridgeburg, Ont., April 15.—Now that the name of Roosevelt has been withdrawn by the special committees on both sides of the river as the proposed name for the peace memorial bridge arch, the name of Sir Wilfrid Laurier is being mentioned, although no action has been taken.

It is said that while the late Sir Wilfrid had many admirers, he also had many foes, and that another name should be suggested.

MINERS ACCEPT GOVERNMENT AWARD

London, April 15.—The vote of the miners on the report of the Sankey Commission regarding improved conditions of labor as adopted by the Government has been completed and shows a very large majority in favor of acceptance. The final vote stood: For acceptance, 499,000; against acceptance, 69,490.

DATE IS FIXED FOR FULL CONGRESS

Paris, April 15.—The Peace Conference Leaders have come to an understanding regarding the date when the German delegates shall be called into conference, the Petit Parisien says it understands. That date, it declares, is very close at hand—before April 20.

An annoying affair occurred to Mr. Booth, the janitor of the Toronto Bank on Saturday. While burning up rubbish in his yard a valuable gold watch he wore fell unobserved into the brush pile and was destroyed before he discovered his loss.

Come Mother, This Castor Oil

Is What You Need—Don't Cry!

If you, mother, had to swallow the awful dose—Think back to your childhood days—Ugh!

Give your children Cascarets instead. Cascarets taste like candy. Every child loves to take a Cascaret. Besides Cascarets act better on the little liver and bowels when the child is bilious, constipated, feverish and sick. Cascarets are delightful—harmless—cheap!

Each 10 cent box of Cascarets, the pleasant candy cathartic, contains directions and dosage for children aged one year old and upwards. When the little one's tongue turns white, breath feverish, stomach sour, there is nothing better to "work" the nasty bile, souring food and constipation poison from the child's system. Give Cascarets, then never worry.

Victoria, B. C., April 15.—Sir James Ball, Great Britain's Timber Controller, and Montague Myer, timber purchaser for the Imperial Government, will leave London for British Columbia on April 16th.

"SEVENTEEN"

"Seventeen," Both Tarkington's Willie Baxter stories, will be presented at the Grand Opera House by Samuel Wallack. Mr. Tarkington understands boyhood so well that in his story he made the villain, the ten-year-old sister of the hero, William Sylvanus Baxter, who his sister persists in calling "Will-ee" despite his hoary age. It is presumed that Mr. Tarkington called his story "Seventeen" not "Going on Eighteen" because he thought of it first.

Jane dotes on bread and butter, apple sauce and sugar, and her warm weather scarcity of clothes which have a tendency to fall off embarrasses "Will-ee" in his walks in the town street, with the "baby-talk" lady. In Jane's home there seems to be nothing which escapes her big eyes or her sharp ears.

"Seventeen" comes to the Grand for one performance, April 17th, direct from eight solid months' run in New York where two million persons were delighted with the story of youth, love and summertime.

A NEW NATIONAL STATUS.

The new status which Canada will occupy among the nations is made apparent by the announcement that four of her overseas ministers will fix their signatures, on behalf of the Dominion, to the Peace Treaty at Versailles. Of Nonly have representatives had a voice in the negotiations and discussions leading to the settlement of the war but they are to be accredited with a place on the document itself, which will stand as a barrier against further world conflicts.

This position is, of course, no more than has been earned by sacrifice of men and by contribution of all that goes to make the prosecution of war successful.

This country, prior to the outbreak of hostilities, was a peaceful, quiet young dependency intent on agricultural industrial and commercial development. The maelstrom of European diplomacy, politics and trouble was scarcely known to her. In four or five years the whole situation has materially changed. Sixty thousand of her hardy and gallant sons lie sleeping in Flanders, an offering on the altar of freedom and justice. The deeds of heroism, the strength of arms, the power of resistance and the tenacity of purpose exhibited by the men who went from our shores earned a place in the settlement of war as well as in its conduct.

Canada today is fully entitled to rank among the governments which by their wisdom and authority will exercise a power on the destinies of the world.

VEGETABLE GROWERS' MEETING

Mr. Henry Broughton of Samia will address the meeting on "co-operation," relative to the growing and marketing vegetable crops. Mr. Broughton has made a striking success of this line of work and his address will be of interest to the Vegetable Growers of St. Catharines District.

Mr. A. H. McLennan, Ontario Vegetable Specialist will also be present and will address the meeting. All Vegetable Growers are invited. Don't forget the date.

DR. ARTHUR B. COBB
Dentistry.

When the agonies of tooth-ache grip you—when the pain seizes to increase with each passing moment—Then is the time you want relief and want it quick.

This Dental Office provides an emergency department for just such cases and it does away with tedious waiting and the necessity of treatments by appointment.

We fully understand the need of quick attention to the sufferer and there are no delays after you enter our Office.

To stop the pain is our first effort and after that, if there are other attentions needed, we advise the patient of their exact nature and what the cost of such attention will be.

But—it is a great mistake to put off the tiny aches until they become unbearable pains.

You impose upon yourself unnecessary torture and needless expense when you indulge in delays of this kind.

When a Dentist is needed you'll find one here who will serve you skillfully, painlessly and at extremely moderate charges.

"SEVENTEEN" COMES TO THE GRAND

Samuel Wallack's production of "Seventeen," the four act comedy made from Booth Tarkington's Willie Baxter stories, will come from a year's run in New York and Boston to the Grand on Thursday evening. Never has there been a play so delightfully typical of that age when shaving is more of an affectionate desire than a necessity, for, like the book, the play is full of good humored jesting at the expense of youthful human nature's growing pains, and there is an irresistible sympathy inspired for the harried and misunderstood hero aged seventeen, William Sylvanus Baxter, Jr., and the villain of the piece is little sister Jane, aged ten, a short-skirted, be-socked young person with a wild affection for "bread-and-butter-and-apple-sauce-and-sugar" and an even stronger love for "telling on" Willie. His every move, almost his every thought, is related to the parents.

Humorous and wholesome, youth-giving and happy in its sincerity as the story is, much credit must be given to Mr. Wallack's cast for his young actors seem veritably to have stepped out of the book.

WINTER DAIRYING PAYS

A Few Very Simple Rules for Economical Feeding.

A Profitable and Efficient Ration for Work Horses When Fall Work Closes—How to Feed Roughage to Live Stock to Best Advantage.

(Contributed by Ontario Department of Agriculture, Toronto.)
ONE great lesson which is being impressed on the people of Canada at the present time, and which cannot be emphasized too much is the need for thrift or economy. In this connection those in authority ought to set a worthy example to what Lincoln called "the Common People," of whom he is reported to have said, "The Lord must have loved them, because he made so many."

Farmers farm, "not for fun" as a man said to me one time, "but to make money." This may not be a high ideal for farmers or anyone else, but nevertheless it is a very necessary part in the lives of most farmers.

The chief value of winter dairying from an economical viewpoint is, that prices for milk, butter and cheese are always higher in winter than in summer, and if the producer of milk can keep winter production costs down to the level of summer costs, the gain in price for the milk, cream and butter sold in winter, is clear profit. Some claim that this cannot be done and that the extra cost of feed in winter, more than counter-balance the extra prices received for winter dairy goods. This is probably true where the cow-feeder is obliged to purchase all his concentrates in the form of high priced dairy feeds, such as oilcake, cottonseed and gluten meals, but where a farmer is able to grow all his roughage, and at least one-half the meal ration, on his own farm, there is probably not so much difference between winter and summer milk costs, as some would suppose, especially on high-priced land. Where cheap, rough land is available for summer pasture, then summer milk can be produced comparatively cheap. Another phase of milk production in winter worth considering is the labor problem. In winter there is more time to attend to the cows than in summer during the rush of work. Having the cows in a comfortable stable makes pleasant winter work looking after them. If at least half the herd be fresh during November and December, these cows will be going dry at harvest time the following summer, and thus labor is more evenly and more economically distributed throughout the year. Winter dairying may be warmly commended to the people of the Province of Ontario who keep cows for profit.—Prof. Wade Toole, Ontario Agricultural College, Guelph.

Simple Rules for Economical Feeding.

1. Grow as much of your own feed as possible.
2. Utilize roughages to the greatest degree possible.
3. Keep the feeding stalls and pens well lighted, dry, clean and well ventilated.
4. Feed regularly.
5. Make changes in rations gradually.
6. Feed only what is eaten up clean and quickly at each feed.
7. Have clean fresh water before the stock at all times.
8. Study the individuality of each animal.
9. Feed mixtures where possible, as a variety of food is more palatable, and palatability is a factor in digestibility.
10. Cut feed to avoid waste.
11. Make a wide use of oats which should form the basis of all our grain rations.
12. Always be kind and quiet with the stock. It pays.
13. Study market values of feed, and compound balanced rations accordingly, in order that the cheapest available be used.
14. See that the stock gets regular and sufficient exercise.
15. Keep all feeding troughs, mangers and utensils clean.—Prof. Wade Toole, Ontario Agricultural College, Guelph.

The Proper Ration for Horses When the Fall Work Closes.

When the fall work is completed and the hard-worked horse is at the beginning of his long period of idleness, feeders naturally plan to change the ration and carry the horse through the winter as cheaply as possible. The horse should get exercise regularly. He should not be taken from regular hard work and tied up in a stall day in and day out. If possible, the work should gradually ease off and the feed, particularly the grain ration, should be cut down accordingly. The idle horse may be wintered almost wholly on roughages. Good clover hay, or better, a mixture of clover and timothy well cured will serve as the main winter feed. Roughages are always cheaper than grain, and where hay is available the grain ration of the idle horse should be very small, but if horses are fed straw in place of hay a small grain ration is required to keep them from losing in flesh. A few roots are beneficial, a good-sized rutabaga once a day or a few carrots will be found to aid digestion. If hay is not plentiful straw may be substituted at the noon feed and roots given with it. In feeding hay make the morning and noon rations smaller than the night feed, giving about as much at night as at the two other feeds. Idle horses should be fed three times daily. If any grain whatever is fed make it rolled over and it is not necessary to give more than a quarter the amount used when the horses are at hard work provided plenty of good hay is available.—Prof. Wade Toole, Ontario Agricultural College, Guelph.

The regular meeting of the G. W. V. A. will be held in the club house to-morrow night.

B. M. E. CHURCH TO CONDUCT CAMPAIGN

Another big campaign is about to be launched in aid of the repairs and general expenses of the B. M. E. Church, Geneva St. \$1000.00 in eleven weeks is the slogan by the Rev. T. H. Jackson, pastor of the congregation, who no doubt will be remembered by many kind friends in the city for the successful revival campaign in the said church sixteen years ago while pastor of said congregation. It was under his leadership that the basement of the church was excavated and the first furnace installed, many other minor improvements being successfully carried through.

Mr. Jackson desires to thank all friends of the worthy cause, for past favors and will be glad for a renewal of same.

The plan of this new drive is a personal canvass by the pastor. Nine hundred and seventy dollars is the actual figures.

An appeal is being made to individuals, co-operations, industries, organizations and societies. The urgent need of the cause justifies the appeal. The work has been done, the contractors and erectors are waiting expectantly on this struggling congregation.

The Factory Behind the Product

IN this airy, sunlit factory, at St. Catharines, Puccini's "Lion Brand" Macaroni is made. Only the BEST QUALITY of "Durum" wheat is used. Experts prepare it in the original Italian way. This takes time—and care—and patience. No artificial drying is permitted. The macaroni must dry, naturally, on long, clean wooden poles. More than 60,000 of these poles are in use at the time.

The result is a pure, nutritious product of delicious flavor, containing greater food value than the ordinary brands of macaroni.

Always INSIST on Puccini's "Lion Brand." Your grocer has it, or will get it for you.

CANADA AS A BEAR LAND

(1) Grizzly bear at Banff.
CANADA grows bears as well as grains and fruits and other products of the soil. Bruin is to be found in every province, but it is in the mountain region of British Columbia that he flourishes. There one will find grizzlies and silver tips, browns and blacks and grays, and all the sub-varieties in between, including Teddy and Johnny cubs, among the children. All of these specimens may be seen in the interesting Zoological gardens at Banff, where they are lined up like soldiers on parade, in front of their cages—especially as dinner time nears!

(2) Polar bear in Banff Zoo.
It was a half-grown black bear. Our surprise was mutual, as we unanimously voted to separate. Or, on another occasion in Muskoka, when we almost walked on a big shaggy specimen enjoying a supper of wild berries. Here, too, we apologized for disturbing him at his meal, and gracefully and quickly withdrew.

(3) Black bear cub, Alaska.
On yet another occasion we came upon bear footprints on a snowfield in the Rockies in the Ptarmigan Pass, north of Lake Louise. They were freshly made on new fallen snow. "Here's a whopper," remarked our guide, as the toe marks were studied, "and somewhere near too—an old grizzly I guess."

That led to some great bear stories that night around the camp-fire by our guide, who is a hunter as well as a prospector and mountaineer. One especially gave us lively nightmares, of a long struggle he had, alone and single-handed, with a monster grizzly, who, when his steel upright towered above his human foe. It was literally a fight to the death, with the grizzly the loser.—F. Y.
