

## CHARGES AGAINST DR. BRYCE

**GOVERNMENT APPOINTS A COMMISSION TO INVESTIGATE.**

**Alleged Irregularities in the Provincial Board of Health—Grave Charges Made by a Retired Clerk—Friends of Secretary Bryce Attribute the Charges to Spite.**

The charges are preferred by G. A. Dorland, a former clerk in the Provincial Health Office who was retired in July last.

The charges extend over a period of several years prior to 1891, and allege grave irregularities. The principal allegations are understood

he is in connection with the purchase and sale of vaccine virus when the smallpox scare was prevalent in 1894-5, and which was thrashed out in the Legislative Assembly at the time. Dorian claims that Dr. Bryson personally received a commission from the dealers in vaccine points in Washington from whom he purchased the points, and that, further, that instead of selling the points at the price of 30 to 50 cents he sold them to them from 30 to 50 per cent. in excess of the cost and pocketed the difference. Another charge is that he collected various sums of

Dorian claims to have kept copies of all accounts of the department and will present them before the commission. He professes to have laid charges purely out of a desire for "home government," but Dr. Bryce's friends allege that the fact that Dorian was placed on the retired list explains the whole matter.

Dorian drew full pay from the department three years while on the sick list, prior to his being retired in July.

**THE SHAM FIGHT.**

Major-General Herbert and Capt. St. John arrived in the city yesterday to take part in the sham fight. The General, who will be the empire-in-chief, accompanied Col. Otter over the ground yesterday. These two are the only ones who are present aware of the intended movement of the attack and the defence. The recruits for the attack, the Grens, 13th

The umpires, about 150 in number, will then ride to the New Forest where they will lunch with General Herbert. The troops will march back to the Exhibition grounds, where they will have some refreshments and march past at 4 o'clock. There will be no charge for admission to the grand stand.

**LET US GIVE THANKS.**

Every Citizen Has Occasion for Rejoice  
—To Celebrate the Day.

With a becoming spirit of gratitude

giving. All have much to be thankful and it is meet that one day should be devoted to returning thanks for bene received during the past year. For reason Messrs. W. & D. Dineen will of their showrooms to-day.

The trade of the past year has been largest in the history of the firm. In spite of the financial trouble that prevailed this is a cause for congratulation.

The depression made it necessary to sell smaller profits, and for this reason the

has not made as much money as in other years. The volume of business, however, has been much larger, and it is safe to say that the customers found no cause for complaint in the reduced prices.

To-morrow the store will be open bright and early, and the cash sale will recommence with renewed energy.

Thanksgiving Day.

The days are gray and chill and cold,  
The wind goes whistling shrill,

The rabbits' footprints still  
Above the boughs are brown and bare,  
Below the flowers are green and fair.  
The songsters of the summer fair  
To summer skies have fled.

But yet, November, month of storm,  
You have one golden day  
That cheers the heart and keeps it warm  
Although your skies are gray.  
The Hardest Home of all the year,  
When all the barns are stored,  
In earth's increase doth still appear  
The bounty of the Lord.

Then those we love we meet again,  
And those we love we meet again,

Age-strait  
granite and  
246  
edeline.

For others, too, we look in vain,  
Why do not greet us here.  
Yet who for these are we are dim,  
All heads bow silent low,  
Thanksgiving full, complete, to Him  
"From whom all blessings flow."

A Bitterly Cold, Thanksgiving Day  
Blustering Boreas will have his innings  
if the proba. go for aught. The volunteer  
promised an extremely cold day; with occa-  
sional snow flurries thrown in. There will also  
very high wind raging all day. Yesterday

There is a gale now in progress reaching Lake Superior to the Atlantic coast. In Lawrence Valley and in some places on Superior over a foot of snow has fallen.

The least degree of inconvenience through the

non-payment of taxes.

In this particular case against Oliver,

Coate &amp; Co., we think the city officials have

made a mistake in allowing the property of

uninsured citizens to be seized for a debt

with which they were not in the remotest

way connected. It would have been an

easy matter for the city to allow the people

who had goods in the rooms to remove

them before the seizure, and to look to the

building for the taxes. This would have

been the proper way to meet the particular

case in question. But now that the seizure

has been made public attention is particu-

larly directed against the law that permits

of such injustice.

TRADE TOPICS.

There was a much better feeling among

the grain trade yesterday in consequence of

a further advance in wheat. The very

prices led many to believe that a substan-

tial rally may take place.

Speculation has increased in New York

stocks, and up till 2 o'clock prices were

marked up rapidly. The small shorts were

forced to cover and many turned over to the

bull side.

Large quantities of poultry were brought

in yesterday, and although there was a good

demand prices were reasonable.

"We expect cheaper money after Dec. 1,"

said a broker yesterday. "There will be

about \$1,000,000 in dividends paid out by

banks that day, and a large proportion of

this will offer for reinvestment."

"Trade in wholesale drygoods is quiet at

present," said a dealer yesterday. "In fact

the sorting-out trade is somewhat disappoint-

ing. There are no features of importance to

note. Many travelers arrived home to-day

for Thanksgiving."

Immense merchandise movement the day after Thanksgiving Day—Friday, Bargain Day—James Eaton's Bargain Day—and you must remember James Eaton & Co. have no other store but the one at 88 Yonge-street, near King-street. Friday will be a day of the most sweeping reductions. Our store rooms are full with holiday goods. This mountain of merchandise must find space downstairs. Goods that are in the way now must go immediately—now—instanter. Hence the urgent pressing necessity of these great offerings. An enormous amount of goods must be—shall be—forced out—and forced out quickly—by cut price power. Deep, deep, are the cuts—down, down, go the prices. It makes a mighty money-saving saving chance—a matchless opportunity. It's better than 50 inches to the yard—it's better than 25 ounces to the pound—it's giving more than 20 to the dozen. The impressive quotations in this column are typical of hundreds of others to be had on both floors of our establishment. A clearing sale with us is a clearing sale—a sweeping—all covering—far reaching—genuine clearing sale. If you can't come Friday, come Saturday—everything not sold will be kept at the same prices.

4000 lbs. 10 cent candy will be sold at 5c lb., the sweets of life.

Another thousand pounds of the chocolate for 10c lb.

Another gigantic purchase of Dress Goods has just been made by our dress goods man. The firm that sold them to us loses just \$159, that's their own words, and we know it's true—but money—money—money—must be had, and so this firm didn't care what the loss was as long as they could get money, and they sold and we bought, and we shall sell to the thousands who will come Friday, these magnificent new 50c and 75c Dress Goods at 25c, 25c, 25c, 25c yard. Don't wonder, don't think, but come early Friday if you want to get properly served.

1000 pairs of ladies' hose—they have been 25c, 28c, 30c and 35c pair. No matter, room we want, and so we put them all at 16c pair Friday.

An enormous slaughter in the Glove Section—Cashmere Gloves—think of it—hundreds of pairs—think again—worth 15c, worth 20c, worth 25c—all at 10c for Friday.

Another Kid Glove offering—500 pairs to many in stock. Every pair is worth \$1, but the Friday price will be 60c pair. Sewed bordered Japanese Silk Hosiery, in all colors, worth 15c, Friday 10c.

Wide beautiful Linen Lawn Handkerchiefs, regular price 15c, Friday price 10c.

1000 pairs of ties—30c on a sheet—20c Friday.

Special Lot in Corsets (nulls), worth 50c, for 25c.

SPECIAL.

Another case of those beautiful Brooches in—think of it—nearly 1000 people have carried off from one to two each this last four days at 10c each, and they're now 25c to 50c.

## MORREY AND CONNOLLY

Found guilty and sentenced to One Year's Imprisonment.

OTTAWA, Nov. 22.—As soon as Justice Rose took his seat in the bench the jury filed into their seats, and a verdict in the conspiracy case of McGreevy and Connolly was handed to His Worship. It was that both were found guilty of conspiracy.

Mr. Blake, counsel for the prisoners, said that His Lordship had been good enough to intimate that he would reserve judgment until he had seen the evidence presented by the Crown to show that there was a conspiracy, and secondly, he submitted that before His Lordship should have given the jury the letters and the other documents in the case, they ought to have been convinced that conspiracy had existed.

He said that the prisoners be admitted on bail until such time as called for, so that judgment might be pronounced against them.

Judge Rose said that he would be pleased to reserve a case as suggested by Mr. Blake, but he had not sufficient confidence in the prisoners to admit them on bail.

Mr. Blake: If the bail is not sufficient then it can be increased.

Justice Rose said that the prosecution had advised him against taking bail, and he did not see his way to accepting it.

Mr. Blake: But it is in your own discretion.

Justice Rose admitted that such was the case, but he would like to be relieved by counsel for the prosecution before consenting.

Justice Rose said that he had been advised that one of the prisoners had formerly left the court during the progress of the case.

Mr. Blake: Not since this case commenced. I do not know what may have taken place during the Parliamentary enquiry.

Mr. Kerr: Thomas McGreevy left the country during the time the Parliamentary investigation was going on.

Mr. Blake: But not since this case was started.

Mr. Kerr then spoke against granting bail, stating that counsel for the prosecution had agreed together to press this upon His Lordship.

Mr. Blake made another appeal, which, however, was fruitless.

Justice Rose, in passing sentence, spoke of the various scenes he had seen in his judicial life, and how affecting it was to see men like the prisoners in the position which their own operations had brought them. He would try, however, to meet the ends of justice without exciting too much sympathy.

It was impossible, however, not to sympathize with the prisoners in their present condition. He agreed with the verdict of the jury. It was not only morally but legally right.

The offence was one which affected many. It was against public policy and good government, and could not go unpunished. He would not yield to a cry that vengeance should be meted out against single offenders, because many were implicated. He did not wish either to create undue sympathy.

The sentence which he passed was one year each in the County of Carleton Jail here without hard labor.

The prisoners were then handed over to the sheriff, but not before many friends expressed sympathy for them.

The Nelson Monument Affair.

Editor World: The recent attempt by three irresponsible French-Canadian youths of Montreal to blow up Nelson's monument is just now engaging the attention of our Canadian conferees, and sensational reports thereof are being sent to foreign papers.

The thing is being given altogether too much attention and can only serve to arouse prejudice in the minds of a large majority of Ontario's population, who depend for their information about our neighbors of France on the writing of the Bunting-Hardison probe and his ramblings through the province. The Mail's fight against the Province of Quebec is no new thing and the question is naturally raised, How The Mail keep a charity establishment in return for whose benevolence it condescends to accept daily articles upon subjects which have filled its editorial columns since it forsook Ross Wiman's fat.

However, be it as it may, we must say that the methods of The Mail and the McCarthys are not calculated to make this a united country, and that anything that tends to this should not be countenanced by those who have the welfare of this country at heart.

SCOTCH-CLASH.

Canadian Cheese in the West Indies.

Editor World: I notice in The Fort-of-Spain, Trinidad, Commercial Review and Prices Current of the 1st inst., compiled by Messrs Gordon Grant & Co., that some nine Canadian cheeses brought 15c per lb., and that the quality is preferable to "Canadian." This is certainly good news for our cheese-men, as "Canadian" cheese is the best quality the West Indies import. I desire to add for the information of intending shippers that cheese for the West Indies must be about half the size of those used in England, namely, about 35 lbs., and that I shall be happy to receive through rates and freight on application, also names of agents in the various islands at which the steamers of the Pickford & Black West India line call.

Toronto, Nov. 22. N. WEATHERSTON.

Wants to Find His Sister.

John Donnelly, one of the employed of The Belleville Intelligencer and ex. of a well-known G.T.R. engineer, was suddenly seized with heart trouble at Queen-Yonge-street last evening and fell to the sidewalk. He was taken to St. Michael's Hospital.

Donnelly came to the city yesterday to spend Thanksgiving Day with his married sister, and in his excited condition cannot recollect the name of his brother-in-law or the street on which he resides.

For Nine Years.—Mr. Samuel Bryan, Thedford, writes: "For nine years I suffered with ulcerated sores on my leg. I expended over \$100 on physicians and tried every preparation I heard of or saw recommended for such disease, but could get no relief. At last was recommended to give Dr. Thomas' Eucalyptic Oil a trial, (using it internally and externally) in a complete cure. I believe it is the best medicine in the world and I write this to let others know what it has done for me."

Died From the Shock.

Mrs. Thomas Everett, living near Scarborough Junction, was awakened at 3 o'clock yesterday morning by a smell of smoke. She arose and found the kitchen in flames. In attempting to extinguish the fire she was scorched, but not seriously. The fire instantly resulted in her death, however. Mrs. Everett had been ill in bed for several weeks and the excitement of the fire caused her death shortly afterwards from the shock.

In his Vegetable Dilemma Dr. Parmentier has given to the world the fruits of long scientific research in the whole realm of medical science, equipped with new and valuable medical discoveries never before known to man. For delicate and debilitated constitutions Parmentier's Pills act like a charm. Taken in small doses the pills act both as a stimulant, mildly exciting the secretions of the body, giving tone and vigor.

Christmas in England.

Torontonians intending spending Christmas in England should book early, as all steamship lines are generally taxed to their utmost just before Christmas. This is especially the case with the old reliable Cunard Line. Call at Webster's office, northeast corner King and Yonge-streets, and secure passage at once.

Mr. Thomas Bell of Messrs. Scott, Bell & Co., proprietors of the Vaughan Furniture Factory, writes: "For over five years I was not free from day from headache. I tried every medicine I thought would give me relief, but did not get any benefit. I then procured a bottle of Nordhoff's Laxative and found it gave me relief in any form of constipation. I have since used it in every form of constipation, and I am now completely cured."

Exhausting Vital Drains (the effects of early followed by thorough cure). Kidney and Bladder affections, Unnatural Discharges, Syphilis, Gonorrhea, Leucorrhoea, etc., are cured by the use of the Genu-Phosphoric Pills, a specific for all these ailments who have failed to cure you. AN ANGRY IOWA MOB PUTS AN END TO A FIEND.

OTTAWA, Ia., Nov. 22.—An excited and angry mob hung Fred Gustavson to the stair railing of Justice Truitt's court room at 2:30 o'clock yesterday afternoon. Gustavson raped the little 4-year-old girl of Jonas Sax about 10 o'clock Monday night. The brute was positively identified by the girl. When the news was received that the man was in Truitt's court, a crowd of 1000 men were surging around the stairway leading to the court room trying to get at the prisoner. The mother of the little girl succeeded in getting to the top of the stairs, and swung a rope from the platform in front of the court room, and, together with her aged father, appealed to the crowd below to hang Gustavson. The mob then broke into the court room, seized Gustavson and hanged him. The brutal deed of the body were extremely revolting. The little girl remains in a precarious condition, with the chances of life greatly against her.

YANZANT V. MARKHAM.

The Arbitration Concerning the Water-works in Progress.

MARKHAM, Nov. 22.—The case of Yan- zant v. Markham, which affects the water- works system of the town and if an adverse decision is given may cut off the supply for drinking and fire purposes, is proceeding. The Board of Arbitration consists of Judge Morgan for Yanant, William J. Scott and Stouffville, for the town, and J. E. Robert- son of Toronto, chairman.

An examination of the property was made and of the different sources of supply of water to be obtained.

The first witness called on behalf of the Yananzant was Mr. W. Brough of Toronto. He made an estimate showing that if the town were to use the water for domestic purposes they could afford to pay at least \$4500 for the land expropriated, and still have a revenue remaining. Mr. Mark in cross-examination showed that as by a test it took five days to fill the waterworks basin when emptied, it flowing in so slowly, the property had little value for water pur- poses. Mr. M. White, formerly chairman of the Waterworks Committee, gave the cost of running the engines and gave a test he had made showing how a much larger water supply could be obtained than was at present used.
