CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market has developed a slightly irregular tendency, although there is no general weakness. In pine the demand is chiefly for the export and lower grades. Box lumber continues to be bought eagerly, although it was expected that the large purchases earlier in the season would have supplied the requirements of the box trade. Wide boards of first quality suitable for the European market are particularly scarce. The only weakness is confined to cutting-up grades.

The lumber market has developed a slightly irregular tendency, although there is no general weakness. In pine the demand is chiefly for the export and lower grades. Box lumber continues to be bought eagerly, although it was expected that the large purchases earlier in the season would have supplied the requirements of the box trade. Wide boards of first quality suitable for the European market are particularly scarce. The only weakness is confined to cutting-up grades. The demand for lumber for building purposes has slackened, which is, no doubt, responsible in large part for the dullness

of the medium grades of pine. Mill run, 1x3 and 5, is held at \$18 at the mill. The higher prices predicted for thick hemlock have not yet materialized. While some manufacturers have held for higher prices, there has been a sufficient quantity of stock offering at current quotations to prevent the advance becoming at all general. Hardwood lumber is quite as good property as earlier in the year. There continues to be good buying by local implement and furniture manufacturers, as well as for export to the Eastern States. A considerable quantity of birch has been shipped to Buffalo. The shingle market still exhibits signs of weakness, but recent developments have been favorable to white pines, which will be in a stronger position after the red cedar situation has become brighter.

QUEBEC AND NEW BRUNSWICK.

Prices of timber at Quebec continue very strong, the light production having encouraged manufacturers to oppose any drop in values. The quantity of waney pine timber received at Quebec this season is 500,000 cubic feet less than for the corresponding period of last year. Decreases are shown in other kinds as follows: Square white pine, 10,000 cubic feet, red pine, 25,000 cubic feet; oak, 150,000 cubic feet; elm, 300,000 cubic feet. Birch and maple are the only woods that show an increased production. The spruce market is quiet. The total shipments of spruce lumber from St. John to trans-Atlantic ports during the first six months of this year were 76,000,000 feet. This is a decrease and reflects the extent to which lumber has been diverted to the United States market. Two or three large cargoes have recently been shipped to Ireland.

An event which promises to help the lumber industry is the recent formation of an association by the lumbermen of New Brunswick. This step was brought about in part by the proposal of the Government to increase the stumpage dues to \$1.50 per thousand feet, an advance which in the opinion of the lumber trade is not warranted.

MANITOBA AND BRITISH COLUMBIA.

Nothing has occurred within the past week to distract the lumber market of Manitoba and the Territories. Heavy shipments are being received by dealers from British Columbia. Up to August 1st of this year the building permits issued in Winnipeg aggregated almost \$3,500,000, a showing which is unprecedented and which clearly explains the large consumption of lumber. Shingles continue weak.

The manufacturers of British Columbia held a meeting on August 7th and decided to check further over-production by closing down all the shingle mills from August 15th until the situation was relieved. This step should at once have a beneficial effect upon the market. The demand for timber limits has also slackened, there being but three applications for licenses to cut timber off Government lands during the week ending August 1. Many of the logging camps are still closed down. The Premier has wisely decided not to interfere with the operation of the law prohibiting the export of logs. It is pointed out that the over-production of logs in Washington is just as great as in British Columbia, and that the loggers could not find a market for their production even if the export embargo were removed.

UNITED STATES.

A few days ago it was reported that white pine prices at the head of the lakes had weakened. Late advices do not altogether confirm this report. There has been a slight softening in prices of the upper grades, but this has been offset by the increased strength of the lower qualities. At Tonawanda and Philadelphia an advance of 50 cents has been made on nearly every grade below intermediate. While the demand generally has been of a quiet character, sales at Duluth during the first week of August were quite heavy. It is estimated that fully 15,000,000 feet of various grades of merchantable lumber were contracted for, and many manufacturers are now sold up to the saws. It is said that sales have been at very satisfactory prices. A lot of No. 3 pine was sold at \$15. Ohio dealers report that low grade lumber has been moving freely, and that No. 3 and No. 4 boards are strong, with a very light stock in sight. Chicago is experiencing a steady trade and the outlook is good for fall business. Spruce is very strong in New York. Prices are now the highest ever known. At Boston and other eastern points the situation is strong, though less lumber is moving.

The growing strength of common and plain sawed oak and the scarcity of elm are the features of the hardwood market. Buyers are unable to find a sufficient supply of 1½ inch elm and prices are strong. Maple in the same size is by no means plentiful. Basswood is holding its own, the increase in supply having as yet had no visible effect upon the price.

Any change in the shingle demand has been in the direction of improvement. Shingles of good quality find a ready market, but there is a considerable stock throughout the Eastern States that are not up to standard, and these may have to be sacrificed. More activity in shingles is expected next month.

GREAT BRITAIN.

Although the holiday season is at its height, there has been of late a slight in-

crease in the consumption of lumber at London and Liverpool, which is taken to reflect the conditions throughout the United Kingdom. The outlook in timber-consuming industries is considered bright, and it is probable that the fall will witness increased activity. Canadian lumber of all kinds seems to be in a strong position. All the available stocks have been cleared and there is little in first hands for buyers to select from. The position of the Canadian import, according to the Timber Trades Journal, is quite abnormal, the trade usually counting upon a considerable quantity of New Brunswick spruce about this time; but this season fewer cargoes have come forward than for many years past. No pine whatever has been shipped on consignment, consequently the tendency of values is towards a further advance. The standard sizes in first and second quality are now held at higher figures than at any previous time this season. Third and fourth quality are in larger supply and consequently prices do not show the same degree of strength as those of the better grades. The position of spruce has changed within a week. There is absolutely little or nothing to offer for arrival until the season is more advanced, and then the supplies are expected to be short of the average to an extent that has not been witnessed for some years. Some buyers apparently kept out of the market on the belief that the low rates of freight would encourage shipments. This, however, has not been the case. It is claimed that the low freight rates are due to the fact that there is less lumber to be shipped across the Atlantic. There is a good inquiry for red pine, rock elm and oak. Birch is in large supply and slightly easier.

STOCKS AND PRICES.

The barque Maria Laurie is about to load lumber at St. John, N. B., for the Canary Islands.

A raft containing 3,600,000 feet of logs left Stella, on the Columbia River, B. C., August 1, for San Francisco.

J. A. Morrison, of Fredericton, N. B., is shipping large quantities of cedar shingles to the New England States.

During July 3,007,749 feet of lumber was entered at Saginaw and 15,230,988 feet at Bay City, making the total receipts for the month 18,238,737 feet.

The schooner Arona is loading lumber at Bear River, N. S., for Buenos Ayres. The Brig. Dixon Rice is loading at Annapolis, N. S., for the West Indies.

The DeLaplante-McBurney Lumber Company, of North Tonawanda, N. Y., recently purchased 6,000,000 feet of white pine in the vicinity of Duluth and Menominee.

The Robert H. Jenks Lumber Company, of Cleveland, Ohio, have been shipping

considerable hemlock to the Tonawandas and other eastern ports from Alpena, Cheboygan and Manistee, Mich.

Since navigation opened 194,000,000 feet of lumber has arrived by vessel at the Tonawandas, as compared with 158,000,000 feet for the same period of last year, an increase of nearly 26,000,000 feet in the receipts for 1903.

The Pigeon River Lumber Company, of Port Arthur, Ont., have already sent two hundred men into the woods. The company expect to make a large cut during the coming season. Six camps will be put in, in addition to two or three jobbers.

There is a strong demand for slack cooperage stock. A Chicago dealer reports sales of No. 2 30 inch elm staves at \$5. No. 1 are supposed to be worth from \$8.50 to \$8.75 for 28 and 30 inch. No. 1 basswood heading is in strong demand at about \$7.50.

A quantity of birch timber, from Halifax, N. S., was recently sold at auction in London and brought the following prices: 6-15 ft. 4x10-16 in., 18 3d per cubic ft.; 3-15 ft. 4x8-9, 18 2d; 4-15 ft. 4x6-7, 11 1d; 4-18 ft. 3x13-17, 11 1/2d; 3-19 ft. 1x10-11, 11d; 3-19 ft. 3x9, 10 1/2d; 3-16 ft. 3x8, 10d; 3-19 ft. 3x7, 9 1/2d; 3-16 ft. 2x7-16, 18 3d; 6-15 ft. 5x6-9, 18 4d.

Seventeen oak logs from Quebec recently sold in London, at prices ranging from 40 to 50s per load of 50 cubic feet. Elm timber, from Quebec, sold as follows: 40-44 ft. x 12-17 in., 87s 6d per load; 36-38 ft. x 12-21 in., 97s 6d; 84-89 ft. x 13-21 in., 100s; 33-35 ft. x 12-17 in., 97s 6d; 30-32 ft. x 12-21 in., 92s 6d; 26-29 ft. x 11-16 in., 87s 6d.

In Chicago short pine piece stuff is selling wholesale in sizes from 2 x 4 to 2 x 10, 10 to 20 feet long, at \$17.50 to \$19.50 f. o. b. cars. Northern rail shippers are delivering the same sizes and lengths on this rate at \$16.50 to \$18.50 and these prices are being generally adhered to. No. 1 common boards, all widths, are selling at \$21 and No. 2 at \$19. No. 1 stock boards, 10 inch, are quoted at \$23, and 12 inch at \$17; No. 1 4 inch fencing, 10-foot, \$22, 16-foot, \$23; 6 inch, 10-foot, \$25, 16-foot, \$26; No. 2 fencing, 4 inch, 10-foot, \$17.50, and 6 in. h \$20, with \$1 added for 16 foot and longer.

THE BOSTON MARKET.

The is a little better movement in spruce lumber at Boston with prices steadily held at full quotations. The situation in the East is still very strong, though the mills on the Kennebec are said to be in better shape as to supply of logs than those farther east. The quotations are firm at: Ten and 12 in. dimensions, \$21; 9 in. and under, \$19; 10 and 12 in. random lengths, 10 feet and up, \$20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, \$17 to \$17.50; all other random,

9 in. and under, 10 feet and up, \$18 to \$18.50; 5 in. and up, merchantable boards, \$17; matched boards, \$8.50 to \$20; cut spruce boards, \$13 to \$14; bundle furring, \$17.

Hemlock lumber is quiet, without change in prices: Boards, 12, 14 and 16 feet stock, \$14.75 to \$15 for good eastern; Pennsylvania, No. 1, \$18.50 to \$19.50; No. 2, \$15 to \$16.50.

There is a fair demand for western pine lumber, with the better grades still very firm: Uppers, 1 to 2 in. \$8.40 to \$8.75; 2½ to 3 in. \$9.20 to \$9.75; 4-in. \$9.60 to \$10.00; selects, 1-in. \$7.60; 1½ to 1¾ in. \$7.60 to \$7.80; 2-in. \$7.80; 2½ to 3 in. \$8.40; 4-in. \$8.60; fine common, 1-in. \$6.75; 1¼ to 1½ in. \$6.90; 2-in. \$7.20; 2½ to 3 in. \$8.00; 4-in. \$8.20; barn boards, \$23 to \$33; coffin boards, \$28 to \$32.

There is only a quiet demand for hard-wood lumber, but prices are firm, especially for white wood and quartered oak. Quartered oak, \$75 to \$83; plain oak, \$45 to \$47; common and rejects, \$20 to \$25; red oak, plain, \$43; white-wood, \$54 to \$60; sap, \$43 to \$48; common, \$38 to \$45; brown ash, \$41 to \$44; white ash, \$43 to \$46; maple, \$33 to \$37; end dried white maple, \$46; birch, \$27 to \$30; birch, 75 per cent. red, \$45 to \$50; northern elm, \$29 to \$31; Michigan elm, \$34 to \$37.

Clapboards are steady and unchanged: Extra, \$45; clear, \$43; second clear, \$40; extra No. 1, \$30.

Shingles are firm for the better grades but off stock is in full supply and easy: Extra cedar, \$2.40 to \$3.45; clear, \$2.90 to \$3.00; second clear, \$2.25 to \$2.40; extra No. 1, \$1.50 to \$1.75; British Columbia red cedar, 16-in. five butts to 2-in., \$3.50 to \$3.60; 18-in. five butts to 2 in., \$3.75; five butts to 2½ in., \$3.90.

Laths are quiet: One and five-eighths in., \$3.15 to \$3.25; 1½-in., \$3 to \$3.10.

THE GLASGOW MARKET.

From Messrs. Edmiston & Mitchell's monthly timber circular, of July 31st, we extract the following particulars of the Glasgow market :

The import from Montreal, which up to the end of June was but trifling, has been on more extensive lines, several full cargoes augmenting the meagre supplies coming forward by the lines. First quality white pine deals and sidings of good average continue in demand, and are almost unfailingly sold from the quay, but there is a hesitancy in some quarters to pay the existing high prices. In spruce the position is unaltered from the previous month, there being a fairly active demand at recent prices. A fair business has been done in hardwoods of all descriptions from the United States, and prices of poplar lumber particularly have been well maintained. The house building trade in the city and neighbourhood continues brisk, and a considerable amount of work is on hand.

WHITE PINE.—There has been a considerable import during the month, aggregating 1400 loads, practically the whole of which came in during the last week by the steamer "Janeta," which is the first arrival at Greenock from Quebec this season. There have been no transactions of any importance, and business has been quiet.

RED PINE.—The import has only been of a trifling nature, but the demand being extremely limited, the present small stock is sufficient for immediate requirements at least.

OAK.—Several transactions of nice lines of Quebec timber were completed during the early part of the month, but the import has been on the heavy side, about 1100 loads. Second class and southern wood is slow of sale, but a fair demand is in evidence for good large Quebec logs.

ELM.—There have been no transactions worthy of mention, and the demand being somewhat restricted, the stock, which is further increased by this month's import, is more than ample for probable requirements.

BIRCH.—Quebec. The import from Montreal during the month amounts to 650 loads, consisting partly of contract

wood and partly on consignment. The demand is unfortunately very restricted, and "ex quay" sales can only be effected at unsatisfactory prices. 15-inch is quoted at 18d., and 16-inch 20d. "ex quay." Lower Port. There has been one arrival during the month from Picton, N. S., consisting of about 1050 loads of log timber and 120 standards planks. Value of 15-inch is about 16d., and of planks about 11d.

ASIT.—The import for July is comparatively trifling, and it just as well that this is so, for there is very little demand for it nowadays. There is still some old stock in the market unsold, and this is being offered for sale at considerably under import cost.

DEALS, ETC.—Only a limited volume of business has been done, but this to a large extent is on account of the holidays, as supplies have been coming forward much more freely. Broad 1st pine deals find a ready market, and recent small arrivals have all been disposed of from shipside. Low quality deals, however, are receiving but scant attention. Prices remain unaltered and firm, current values being : Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22

TIMBER LIMIT TRANSACTIONS.

It is reported that the timber property of the East River Lumber Company at Sheet Harbor, N. S., has been purchased by United States capitalists. Rhodes, Curry & Company, of Amherst, are interested in the property.

The sale of two townships north of Thessalon, Ont., both heavily timbered with pine, is reported. The owners were N. & A. Dymont, of Thessalon, and the purchasers are George Neibergall & Son, of Windsor.

W. E. Wilson, of the Wilson Lumber Company, San Francisco, has, according to report, been buying up timber limits on Vancouver Island, B. C., for several months. He has now secured between 80,000 and 90,000 acres. His last purchase was completed only a week ago and consists of 10,000 acres of timber in one block at Comox. The timber is located on Crown-granted land and can therefore be exported to the United States.

HOO-HOO.

Owing to the short notice a number of lumbermen were not able to attend the meeting held last Friday. Another grand concatenation will be held at Toronto, on the 28th of August, for those desirous of joining.

ONTARIO TIMBER LIMIT SALE.

In this issue will be found an announcement of the proposed sale of timber limits to be held by the Ontario Government on December 9th next. The limits to be sold aggregate about 900 square miles. The hardwood and timber other than pine on the limits, except some non-agricultural areas in the Rainy River district, will remain the property of the Crown. The conditions of the sale provide that ten years only will be allowed the purchaser to complete the cutting of the timber. The ground rents have been increased to \$5 per square mile, an advance of \$2. The

Crown dues payable when the timber is cut have been advanced to \$2 per thousand feet board measure, and on square timber to \$50 per thousand cubic feet, these being double the rate charged on old limits.

The following charters are reported: Str. Loyalist, St. John, N. B., to Greenock and Glasgow, deals, 35s; str. Micmas, St. Margaret's Bay, N. S., to Bristol Channel, deals, 36s 3d; str. Huntcliffe, Halifax, N. S., to w. c. England, deals, 33s; str. Coringa, St. John, N. B., to Glasgow, deals, 23s; str. Hero, Miramichi, N. B., to London, 40s; barque Ansgar, Miramichi, N. B., to Dunkirk, deals, 50s.
