## VEILED THREATS.

SAN LUIS POTOSI, Mexico., Oc 27.-Posters announcing the candidacy of Huerta and Blanquet, and calling upon the people to vote for "Men of steel," and to beware of being misled in these critical times, kept most of the voters away from the polls in yesterday's election here. Of the few votes cast, Federico Gamboa, candidate of the Catholic party, received the majority.

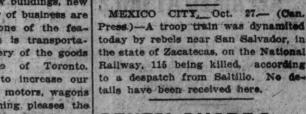

Posters also announced the birth of a new party "Anti-Interventionist." All other posters were prohibited un-der threats of arrest.

News from the surrounding country ndicates that the number of maranding parties has not diminished. Ranchers are flocking to the city in terror having abandoned their properties.

The boldness of the rebels is increasing, apparently encouraged by the success at Torreon. There is Mittle fear of an attack upon this city for

the present, there being no leaders of importance in the neighborhood. The number of troops here is small, but could be quickly increased in case of emergency.

Of this arrangement the government ingurance department claims igno-rance, whereas Mr. Symons, for the company, states that it was known to them. The evidence in the next few days will throw more light on this point. The policyholders' surplus in the company return for 1999 was \$142,-254.45. The writing down in the same year was \$27,000, altho the increase allowed on real estate values was \$35,-000; according to Mr. Masten. The loss in operating was \$122,965.87. The pay-ments as premiums on capital stock to the National Agency, according to the company, was \$159,000, resolving to \$98,000 thru debt to the Agency. There was retired about \$17,000 which showed that the National Agency Co.'s sale of debentures was practically at a standstill.
The National Agency advanced in 1907 a promissory note for \$30,000 to the Union Life, but this was refused at Ottawa as an asset. It was explained that this note represented a value of stock in the Colonial Loan Co. held by the National Agency. The debt was now assumed by the Union Life, but this was considered that this note represented a value of stock in the Colonial Loan Co. held by the Stock was owned as before by the sister company.

Day after day hundreds of satisfied customers are telling the story of what the Royal Opticians have done for them. One satisfied customer brings many more, and so the endless chain goes on day in and day out. It is satisfaction one wants when it's eyes that hang in the balance; twenty-six years' experience in optical work, both in America and Europe, has given the Manager of the Toronto establishment of the Royal Opticians an advantage over many others. No case is too simple, no case too complicated, to get his expert advice. We invite those who have been imperfectly fitted elsewhere to take advantage of our liberal offer. Find out the condition of your eyes. Know yourself. Some people neglect, this all-important organ, and enter darkness blindly but surely. Advise with one of our optical experts freely.

skin leaves it firm and free from blemish. Dolly: Your itchy scalp can be relieved and cured, as well as the failing hair, by the use of a quinine tonic, which at least a dozen of my personal friends are using and making at home from an ounce of quinzoin dissolved in a half pine of alco-hol, to which should be added a half pint of water. They use it regularly by mas-saging into the roots of the hair, and they claim the itching stops immediately and the tonic improves the growth of the hair and helps nature make \_ it beautiful and healthy.

Gertrude: I am sure you are wrong in the never-snampoo idea, for I learn intogh my correspondents that neglect-ing to cleanse the hair is nearly as in-jurious as the use of soap or other harm-ful mixtures. So I would shampoo with canthrox at least once a month during the fall, and I think your hair will re-gain its healthy, glossy and evenness of color. A teaspoonful of canthrox dis-solved in a cup of hot water is quite enough mixture for a thorough shampoo, and after thising well, the hair dries very quickly. The regular use of can-throx for shampooing corrects all hair and scalp troubles and encourages a bountful growth of hair, long and beau-tiful. AN AMUSING INFATUATION. The World has nothing against Mr. Home Smith, one of the city's ablest young business men. He has his private interests and his duty to his clients, and has in no way undertaken public service that would interfere with these duties, particularly in the domain of the Humber Valley surveys to which we alluded yesterday. He pany to whose lines they will carry has, indeed, rendered valuable service on the harbor commission.

But it is quite another matter for a journal like The Telegram, which professes nothing but public interest, to pretend that it has been acting solely in the public interest when it has been shown to have opposed every movement made for the development or expansion of the city save one, in every direction and for every district in the city save one, and Telegram, however, does what it can campaigned against every interest in the city save one.

The Telegram singled out the Hum ber surveys for its countenance an support, and Mr. Home Smith has been unique in obtaining its support. He had the support of everyone else but none but he had the support of The Telegram. This singular devotion, while an admirable tribute to Mr. Home Smith, is of no advantage to other districts in the city, nor to other masses of population than that which in due course we believe will decorate the Humber. The Telegram has given up to Mr. Home Smith

It is a matter of congratulation that, notwithstanding, the Consumers' Gas Company still has the lowest capital stock expended per mile, and in pro-portion to population more mileage. The one cause of concern has been the continued advance in the cost of ma-terial used. This has been alleviated by favorable contracts made in ad-vance, but for which prices would have had to be raised. hat the experts have not allowed for improvement of service, altho hey state they have expressly provided for keeping up the service under city management "to the spirit" of the NEW FAST TRAIN original street railway agreem **LEFT FOR WEST** 

Moreover it must not be forgotten that, after eight years, if the city should delay until that time the at-tempt to purchase it, all the exten-sions and improvements which should C. P. R. Toronto took its place as an equal in importance as a railway centre with Montreal at 2.30 yesterday afternoon, when the new Canadian Pacific Rail-way Winnipeg fast train, the "Gate City Express," pulled out of the Tor-onto Union Station on its inaugural journey to the west. Altho Montreal has been served with two transcontinental trains daily, one chase the system, the extra revenue which would go to the company to swell its profits would come to the city to reduce its deficits, on civic lines, and in addition there would be

"THE SHADOWY PRESENCE OF THE DOUBTING ADAM."

Altho Montreal has been served with two transcontinental trains daily, one leaving for the west at 9.45 a.m., and the other at 9.45 p.m., only one daily train for the west left Toronto, the 10.20 p.m. western express. During the past season, however, the business between Toronto and the west was such that it was necessary to run this train in two sections. At Winnipeg the same thing was experienced, and the train for Toronto had also to be run from there in two sections. While this to a certain extent met the require-ments, the C.P.R. was not satisfied, and the result is that the service between Toronto and the west has been doubled. To accomplish this the C.P.R. has placed five new trains on the system. Four are to be in operation and one in readiness at the terminal. "No case. Abuse the attorneys." is the useful piece of legal tradition which The Telegram now finds its sole resource in its opposition to the proposal to buy the street railway, if, in the opinion of the experts appointed by the city council, and of the Hydro-Electric Commission, the terms agreed

Four are to be in operation and one in readiness at the terminal. The equipment of each of these trains, exclusive of the cost of the locomotive, amounts to \$125,000 each, or a total of \$675,000. With the locomotives, which are built at a cost of \$25,000 each, the total outlay involved reaches \$800,000. Despite this fact the C.P.R. consider the great improvement thus wrought to upon warrant acceptance. There were no arguments which would hold water and all the punk assertions of The Telegram have been shown to be worthless. Even the list of people to has given up to Mr. Home Smith what was meant for Toronto, and when this is understood, as it was widely understood in the city yester-day, the opposition of The Telegram to the expansion of street railway accommodation thruout the whole city will be an amusing instance of

The Telegram contends that Messrs Arnold and Moyes in handling the estimates of the street railway for eight years to come should have estimated "the intangible value of eight years' anticipated profits on a gross revenue of \$72,490,000 earned by the operation of 750 cars on 35 miles of new track and of the 110 miles of track, old track, now operated," and also "the size of the deficit on a gross revenue of \$72,490,000 earned in the operation of 1,100 cars on 248 miles of track inside the present city limits, including the 100 miles of track that the city would have to build outside the limits of 1891."

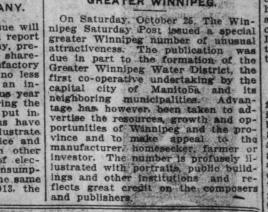

This is an admirable example of the method of The Telegram in "poisoning the wells" for thoughtless or uninformed readers. It is the work of the flim-flam operator, to wary the metaphor, and at first glance the absurdity of attributing exactly the

Mayor Hocken tried to find out, and he got a very fair idea. Gain of 12½ Per Cent. He discovered that maintenance of roadbed rails excepted, takes up ten per cent. of the operating expenses of electric roads in the United States. As it is only two per cent in Toron-to, there is an advantage of eight per cent to this city. In the United States the state tax on franchises takes up an average of 4½ per cent. of operat-ing expenses; there is no such tax in Ontarlo. That increases the advan-tage to Toronto of 12½ per cent, and admits of a comparison of 55 per cent. in Toronto to 67½ per cent in cities of the United States, and shows why the operating expenses in the United States are upwards of 70 per cent. of the revenues.

the operating expenses in the United States are upwards of 70 per cent. of the revenues. If follows that the increase in operating expenses by the city taking yet the Toronto Railway Company's system would not be large enough to cause any apprehension as to the net revenues being sufficient to pay off the cost of the intangible value in a short time, or to pay off the whole indebtedness with 30-year bonds. Ex-tensions and betterments would also have to be provided for out of the net revenues, but a conservative estimate to well within ordinary revenues. What the Fire Did. What the Fire Did. What the revenues for very long, as the amount of travel in newer Toronto 4s rapidly increasing the instances the change in traffic fund the great fire a few years ago. Then the wholesale district was con-fined to a small area on the water-front. Now the district has spread over a 3-mile area lessening to some degree the increase in the volume of travel downtown. He also instanced the spread to the suburbs of manufac-tring industries, building up the population there quickly and requir-ing transportation only in the suburbs.

There must be something fine about a cigar to boost its sales up into the millions. It might not be so wonderful for a short period; but, both Tuckett's 'CLUB' and Tuckett's "MARGUERITE" are old favorites. They are sold by tobac-conists all over the country and have been for years. Clear Havana "filler" – Flor de Vuelta tobacco-which attains a mild-ness, sweetness and ripeness known to few other places in Cuba, these cigars have consistently maintained a standard that has given them the preference amongst good smokers everywhere.

Here is the story of Angel Alvarez, an humble worker on the Big Job. He was getting ready a surface blast of dynamite and all around him men were working in calm assurance that he would notify them before the explosion. Happening to glance up he saw a great boulder just starting to slip down the cut into the pit where he stood with two open boxes of dynamite. He knew that disaster impended. He could have jumped from the pit and run, saving himself. but sacrificing his comrades. In-stead he shouted a frantic warning, and selzing the two boxes of dyna-mite thrust them aside out of the way of the falling boulder. There was no hope for him. A Loan Exhibit of Konstantin Makoffsky's Great Masterpiece-

For a limited time we will have on exhibit this famous old world painting, one of the world's great works of art. Its value is almost fabulous, and it is only at considerable expense that we have been able to secure it from New York for the pleasure of our patrons. The painting will be on view in a specially arranged gallery on the third floor, Richmond Street side. This loan view is an event of real importance in the art life of Toronto, and cannot fail to interest you if your appreciation of beautiful work is keen. There will be no red tape about the seeing of the painting, but we bespeak for it

your attention, and promise you a rare pleasure. "The Russian Wedding Feast" will be unveiled to-morrow morning. Estimated Value, \$50,000.00, dimensions of en 8 x 13 feet. Owned by C. M. Schuman, of New
