THE GLOBE

The World did not think on Thursday night, when it was about to expose the Globe's falsehood—that the Canadian farmer would get 45 cents more for his beans under reciprocity—that the very proof thereof would be in The Globe's own columns of Friday (yesterday). But it was. Look at this:

The Farmer Gets the Benefit

To the Editor of The Globe: We read with interest your item in yesterday's Globe regarding the amount of beans raised in Kent County this last season, and the crop that is now growing will easily figure more than that for this season.

much more for his crop to ship to the United States and he gets all the benefit. We also enclose you a clipping that was in the local papers in this part of the country, showing how we were done in passing an entry at Niagara Falls for just one bushel of beans.

CANADIAN FIELD CROPS SHOW UP WELL

There Are Good Averages for All Provinces, as Well as for All Crops, According to the Official Record—Detailed Comparative Statistics.

OTTAWA, Aug. 11.—The condition of field crops in Canada is presented in a bulletin of the census and statistics office issued to-day for July 31, and shows good averages for all provinces as well as for all crops. Fall wheat was hurt by the hard winter in Ontario, but fared better in Alberta. The estimated yield is 23.24 bushels for the former province, and 27.89 bushels for the latter. The total estimated yield is 17,705,000 bushels.

Irish Home Rule Now the Live Topic

LONDON, Aug. 11.—Both Liberals and Unionists are already busy preparing for a campaign throughout the United Kingdom for and against home rule for Ireland. The liberals are forming a new organization for this purpose under the control of their chief whip. They will supply speakers and arrange meetings throughout the country.

This Newman letter follows The Globe of Tuesday, which said: "Under the reciprocity agreement, Canadian beans have access to the United States markets free of duty. This means that the 45 cents which the Canadian farmer now pays to Uncle Sam in tariff duty upon every bushel of beans he markets in the United States will remain at home in his own pocket. It will stay in Canada to be spent in Canada."

Here it is good and straight, that reciprocity "will add 45 cents (the present American duty) to every bushel of beans he (the Canadian farmer) markets in the United States."

The Globe claims the whole 45 cents, but Brother Newman, the Ridgerton bean man, says 25 to 35 cents! That is, at the best, The Globe's claim of 45 cents becomes 25 cents. But the prices do not vary on the average 15 cents. Indeed, according to the Toronto bean merchants, as interviewed further down, the New York price is no better than the Toronto price to-day.

Why is The Globe so ignorant on beans? Why not go on beans for a while as a diet? Nothing is to count, according to The Globe and Bean-wayer Newman, but "markets, the best markets." Neither home markets nor tariff policy, nor interprovincial trade, nor imperial unity, nor nationality, nor social conditions, nor system of government—nothing but "markets!"

Mr. Newman is a missionary who says the farmer will get all the benefit of the difference in price. Anyone who knows Brother Newman and has done business with him will appreciate his disinterestedness in the farmer's cause.

Is it any wonder that The Globe, in its run-amuck way, should publish the following from a Buffalo paper—the sheep invasion: "The reasons which have been given for the abnormal condition existing at Toronto are the true ones," said the former President Lincoln, "and no man acquainted with the live stock situation throughout the country will deny it. I have no doubt that a large number of sheep have been run over to the Toronto market at a loss to those who did it, but they doubtless believe they can afford such a temporary loss, for they have other and larger fish to fry."

Will The Globe name the men who "have other fish to fry," and are running in the sheep? In the meantime, read what a World man says, who went out among the Toronto bean dealers:

BEANS IN TORONTO

Who Pays the Duty?—Imported Beans From Europe Will Swamp the Canadian Bean Raiser When Our Duty Comes Off.

The letter from Newman & Co. of Ridgerton in yesterday's Globe on beans makes readers wonder to what lengths the Liberal organ will go in order to support a party policy. We have seen it on three several days swallow itself on the long held contention that the consumer pays the duties. On sheep, on sheep, on beans The Globe assures the farmer now that the consumer does not pay the duty, but that the farmer himself has to pay the duty when he exports his produce. Before the farmer has decided whether he will believe The Globe of to-day or The Globe of last year, the organ comes out with a new line of what appears to be very deliberate misrepresentation. There may be misprints and there may only be misprints, but in any case the result is misleading.

The World had a talk yesterday with Mr. W. H. Millman of Millman & Son, grocers' brokers. Mr. Millman handles the Kent bean crop and knows the crop and market conditions. To-day's price for beans received in Toronto in car lots is \$2.10 a bushel. At this price they can't be exported, even if there were no duty. These are third grade beans, too. We have not enough beans to supply home consumption at any price. We are to-day trying every point in Canada for beans for our own home market. The price is so high that we've got to look outside Canada for them. Do you mean to say that Newman & Co. have misled The Globe in regard to the statement that the farmer can get a better price in the United States? The market in New York to-day for beans is no higher than in Toronto, and neither Mr. Newman nor anyone else could ship beans to anywhere in the United States, even if the duty was removed, at a better figure than he can get in Toronto. Mr. Millman knows Mr. Newman personally and remarked, with regard to Newman's statement that the freight rate from Ridgerton to the

Mixed Grains Less. Mixed grains have a condition of 86, which is 14 per cent. less than last year and flax is 81, which is nearly 30 better. The average of corn for husking is 85, and of potatoes \$5.64—being in each case a little higher than last year.

Potatoes, turnips, and mangolds range from 81 to 85, or about the same as a year ago. Hay and alfalfa are 89 to 92, which is a little lower in each case than last year. Corn for fodder has an average condition of 87, sugar beets of 79, and pasture of 94. The eastern provinces are lower than the figures quoted for the whole of Canada, and the western provinces are higher. The highest averages are given for Manitoba, Saskatchewan and Alberta. Sugar beets have a condition of 81 in Ontario and Alberta where they are grown to supply the sugar factories.

Northwestern Crops. Compared with last year's crops in the northwest provinces, the condition of spring wheat in Manitoba, south of the Grand Trunk Pacific Railway is 88 to 89, and north of it 85 to 86. Oats 83.16 to 84.92; and north of the same railway the condition is 92.21 to 77.42 for wheat, 90.71 to 72.90 for oats, and 88.36 to 59.81 for barley.

In Saskatchewan, south of townships 25, the condition of wheat is 90.19 to 82.25, and of oats 87 to 84, and of barley 82.02 to 65.88; and north of townships 24, the condition of wheat is 93.22 to 87.69, of oats it is 85.35 to 83.88, and of barley 94.70 to 71.29. In Alberta south of townships 31, the condition of wheat is 93.89 to 24.93, of oats 92.30 to 86.40, and of barley 83.70 to 86.38; and north of townships 30, the condition of wheat is 97.84 to 71.83, of oats 97.95 to 65.68, and of barley 105.95 to 73.69.

Bigger Acreage. The area of spring wheat in the northwest provinces this year is 1,590,000 acres more than last year, and of oats 341,000 acres, but no increase is shown for barley. The yield of wheat and clover is estimated at 12,189,000 tons for Canada, being 1.45 tons per acre and the yields per province are: Ontario 4,376,000 tons; Quebec 5,698,000 tons; Prince Edward Island, 254,000 tons; Nova Scotia, 941,000 tons, and New Brunswick, 885,000 tons.

IMPERIAL MISSION MEETINGS.

The Canadian section of the imperial mission, which is opposed to reciprocity as injurious to empire unity, has arranged the following meetings: Ottawa, Aug. 14; Pictou, Aug. 16; Brockville, Aug. 17; Guelph, Aug. 18; Victoria Park, Cobourg, Aug. 24.

toms, insurance and freight paid for \$1.55 a bushel, while the third grade, Canadian beans, are being sold at \$2.10.

With the duty off, the Americans might pay 16 or 15 cents a bushel more for top grade, hand picked Canadian beans, only the top grade being saleable in the New York or Boston markets. "Everybody knows if he knows anything, that the Lima beans sold thru the country are a very small matter and would not affect the figures at all," was Mr. Ryan's reply to The Globe's suggestion about imported beans. The trade in beans for British Columbia and the west, Mr. Ryan thought, would be supplied by the overseas trade. Another point Mr. Ryan regarded as rather silly in The Globe to publish, altho it may be expected perhaps to impress rural persons unacquainted with the ways of customs agents. This was the clipping about a bag of beans, on which Mr. Newman had to pay 75 cents for his bill of entry. The beans were worth \$1.55. He could have got \$2 in Toronto for them yesterday, but that is the way he shipped them to a friend in New Jersey and paid 60¢ freight, which he agreed was all right, and 45¢ duty. And then he was held up for a bill of entry. The Globe knows very well he would be held up for the bill of entry just the same under reciprocity and irrespective of whether he shipped one bag or a hundred.

POLICE ROUND UP "BLACK HAND" SUSPECTS

Eight Italians Held as Result of Raids on York Street Resorts, Where Numerous Weapons Were Found—Brother of Murdered Man Returns From Quest

Italians Arrested

JOSEPH RAFOLA, 35 years, married, barber, 174 York-street, charged with selling revolver without permit to Griro, murderer of Tarro. JOSEPH MUSELINO, 40 years, keeper boarding house, at 160 York-street, vagrancy, believed to be high in councils of black hand. JIM VECARI, 19, roomer at 160 York-street, vagrancy. MRS. MARY CLARK, lives 180 York, says husband works at island; vagrancy. RUFFINO RAFFALE, says he lives at 146 Christie-street, got in raid on 160 York-street, vagrancy. SALVATORE SCARONE, or Tarro, 32 years, single, brother of murdered Frank Tarro, or Scarone, keeps fruit store at 185 York-street, vagrancy. SAM CAROLLO, 24 years, married, 165 York-street, vagrancy. JOSEPH DOZZINI, 19 years, single, 165 York-street, vagrancy.

Following upon the information given to Inspector of Detectives Duncan by Frank Griro, self-confessed murderer of Frank Scarone or Tarro, eight Italians, charged for their part on three York-st. resorts by pretty much the whole detective force yesterday afternoon.

Griro, who was committed for trial upon the murder charge in police court yesterday morning, at the request of W. A. Henderson, counsel for his defence, made a long statement regarding the killing of Tarro, and the workings of the Black Hand in Toronto, to the inspector after his surrender Thursday night, and it was upon this and other information given that the arrests were made yesterday. All the prisoners but Joseph Rafola are charged with vagrancy.

Rafola, who is an Italian barber, with a shop at 174 York-st., is charged with selling the gun which killed Tarro to the murderer on the morning of the killing. He says that he did not say so on the morning that he bought the revolver. The penalty for selling such a weapon without a license is a fine of not more than \$100, or six months' imprisonment, or both. The seller may also be deported.

The other eight are believed to be connected with the Black Hand more or less closely and are charged with vagrancy.

Found Small Arsenal. Joseph Musolino is 32 years of age. He has been in the country for several years and is naturalized citizen. When the police descended upon his fruit store and boarding house at 160 York-street, they found him and several others there. A number of vicious looking knives and stiletos made of files were found, which Musolino says belonged to his boarders. In the fruit store were found only three bunches of bananas and a box of macaroni. The police believe that this store is not a resort one. Musolino declared that if he wanted he would go to the States or to Italy. He said that he made his living from his boarders' fees.

Jim Vecari, who lives at this house, is a sickly looking lad. He says that he has an order from the city for admission to the hospital and that he has not worked recently thru ill health. Ruffino Raffale was picked up at this place, but says he lives at 146 Christie-street. He is believed to have been engaged in the white slave trade. He is 23 years and single. Mrs. Mary Clarke says that she lives with her husband at the Musolino house.

His Mission Ended. Salvatore Scarone, brother of the murdered Scarone, or Tarro, keeps a fruit store at 165 York-street. He has returned to the city since leaving with the avowed intention of wreaking vengeance upon his brother's slayer. It was from fear of this man that Griro chose to give himself up, even tho he had successfully eluded the police.

Sam Carollo, a cousin of the murdered man, lives with his American wife at the Scarone house. He sells from a wagon which he runs. Joseph Dozzini, a lad of 19, lives at

CHARGED WITH BIGAMY

Fred Arnot and Ethel Baker Before Brockville Court.

BROCKVILLE, Ont., Aug. 11.—(Special.)—Fred J. Arnot and Ethel May Baker, the Ogdensburg couple charged with bigamy, were given a preliminary hearing in the police court here.

Mrs. Arnot, No. 1, who now resides at Carthage, N.Y., forced the prosecution. She testified that she and Arnot were married on Nov. 2, 1901, and that their family consisted of two children. She produced a number of letters found secreted in the cellar of their home, which Miss Baker had written to Arnot, the correspondence covering several months past.

The crown attorney produced a certificate record of the marriage of Arnot and Miss Baker, performed in Brockville on July 4, by Rev. Thomas Brown. The prisoners were then committed for trial.

In court, Arnot expressed a desire to converse with Mrs. Arnot No. 1, but the woman indignantly refused to recognize either him or the girl prisoner. Both women appeared to be laboring under much strain when brought face to face.

HAMILTON HAPPENINGS

HAMILTON MOTORIST FINED FOR SPEEDING

Magistrate Will Try to Get License Canceled—Hydro Bugaboo Goes Bang—Coroner's Inquest.

HAMILTON, Aug. 11.—(Special.)—Magistrate Jelfs in the police court this morning handed a young Hamilton motorist a fine of \$20 for fast driving, and another fine of the same amount for not carrying a rear light on his motor car. The magistrate expressed his disapproval of the young man's conduct, the magistrates announced that they will write the proper authorities and endeavor to have Depew's license revoked.

Chief Hanel of the Beach police force and P. C. Berlinghoff swore that Depew had recklessly speeded his car along the sand strip at night without the proper lights and that he and a companion had been driving.

The board of control, the city clerk, the city solicitor and the city engineer will attend the session of the Ontario Municipal Association at Toronto on Aug. 21 and Sept. 1.

Another hydro bugaboo was exploded by Mayor Lees today when he explained the city's recent claim of \$307 against the hydro commission for lack of power in July.

In the city contract, as in the contracts of all other municipalities in the hydro scheme, there is a proviso that for failure to supply power the Ontario Power Company shall be penalized to the extent of twelve times the cost of the power not delivered.

A misinterpretation of the contract caused the city engineer to confuse the words "company" and "commission," with the result that a claim was filed against the hydro commission for twelve times \$23.67, the price of the power which the city failed to receive.

Bulk of Central Prison and Asylum Lands go to Railway—Arrangement With Massey-Harris.

The long anticipated sale of the Central Prison and asylum properties on Queen-street, has taken place at last. Although for several weeks it has been practically certain that the Grand Trunk Railway and Massey-Harris Company were the prospective purchasers nothing official was disclosed until yesterday afternoon, when the following statement was given out from the office of Hon. Dr. Reaume, minister of public works:

"The Ontario Government has disposed of the bulk of the Central Prison and asylum properties on Queen-street, for which tenders were invited some time ago, to the Grand Trunk Railway for \$1,025,000. The Grand Trunk Railway has entered into some arrangement with the Massey-Harris Company, by which the latter secure a portion of the asylum grounds for their works. According to the terms of the arrangement, the railway will give possession from time to time of such portions as they may be in a position to vacate. The part lying outside the asylum walls, covering about eight acres, has already been turned over to the purchasers. A small block on Queen-street was sold to another purchaser for \$15,000. The remaining two lots, including the one known as the old pumping station, are still retained by the government."

It is understood that the Grand Trunk will erect a line of freight sheds on a portion of the property.

MINING AND STRIPPING IRON ORE

Iron ore is taken from the ground in two ways, mining and stripping, or mining and "farming," as one old miner in Duluth puts it.

It goes without saying that where the ore lies near the surface, the cheaper way is to take off the overburden and then load the ore from the pit directly into railroad cars.

Stripping in the United States is practiced principally on the Mesabi Range, where the ore is so near the surface that it can be taken off by the use of steam shovels and the ore is then loaded into railroad cars.

With a shovel the earth is loaded directly into small dump cars of 100,000 pounds capacity, in which it is taken to the lake ports, if the ore is to be shipped by water.

The cost of mining varies with the location. On the old ranges ore is valued at about \$1.5 a ton, this figure including mining, but when exclusive of taxes on the Mesabi Range the cost of mining ore is about 90c per ton, while it costs about 30c per ton for stripping, bringing the ore to the surface and loading it into cars.

MAGADAM RECORD AS A ROAD BUILDER.

It has been said that the best roads built since the days of the Romans are those made by macadamized roads. Macadam was a Scotchman who spent several years in America. On his return to his native land, towards the close of the eighteenth century, he devoted his attention to road-building. According to a writer in Harper's Weekly, his leading principle was that a road ought to be considered as an artificial flooring so strong and even as to let the heaviest vehicle pass over it without impediment.

Another of his principles was that the soil is more resistant when dry than when wet. In order to keep it in a condition of the greatest resistance—that is to say dry—he advocated the putting over it of a covering impervious to rain—the road, in fact. The thickness of this covering was to be regulated in relation to its bearing of weights.

It was soon found that roads which were more layers of broken stone six, four and even as little as three inches in thickness, passed thru the worst winters without breaking up, while, as the commoner used to say, they "ran true."

After Ottawa Hockey Players. MONTREAL, Aug. 11.—Frank Patrick, the hockey star, who has been in the city for several days, and whose interview with local players has been arousing the greatest interest, announced today that his visit east was made with the purpose of signing up men to play in a western league, to include Vancouver, Victoria, Edmonton and Calgary. He apparently has all kinds of money at his disposal, and has already succeeded in signing up Hyland and Ernie Johnston of the Wanderers. Gardner and Small are likely to follow, and he is also after Blair of Three Rivers. Frank has not yet approached the Ottawa players, but makes no secret of the fact that he will do so. He says he will be off to the capital in a few days, but awaiting a few more signatures here first. Frank says that the rinks in the west are already under construction, and that there are a large number of western players ready to line up, so that the percentage of eastern imports will be comparatively small.

LACROSSE GAMES TO-DAY

Tecumseh Play Nationals at Hanlan's —Toronto and Shamrock.

"We cannot afford to lose," said Charlie Querre yesterday, speaking about the game with the Nationals to-day at the island. "The Nationals are a very strong team, but they are not feeling any too well, and myself are not feeling any too well, and we will go on the field. The Tecumseh, despite the handicap they are under, are fully confident of victory. They realize that the Frenchmen are a hard combination to beat, but they think that their stalwart defence will be able to handle the Nationals. The game will be called at 2:30. During the afternoon the scores of the doubleheader at Baltimore will be reported. The teams will line up as follows:—

Nationals—Goal, L'Heureux; point, Cattarachi; cover, Gaudin; defence, field, Decaire, Clement, Lachapelle; centre, secura; home field, Dulude, Gauthier, Pire; outside, Levivier, Gauthier, Lette. Spares—Bouillanne, Duckett, Dussault.

The Gladstones will play Matilda's at Toronto. The Gladstone League game this afternoon on the Utley-street grounds at 3:30.

The Genuine St. Leon Water bubbles forth from the famous St. Leon Springs located at St. Leon, Quebec. This wonderful water is chiefly remarkable because it contains rare mineral matter which has never before been found in natural liquid form. Regular patrons can tell the Genuine St. Leon Water by its distinctive taste—bitterly unlike other mineral waters—but to guard against substitution the St. Leon Waters, Limited, now place the word "Miracle" on the label and seal of every bottle.

Trains Were Delayed. The trains from the north were late again yesterday, especially those passing Schreiber where there was a wash-out a few days ago. The Winnipeg train, which was due in Toronto on Thursday did not arrive until yesterday and the one due yesterday afternoon at three o'clock did not reach the Union Station until night.

EATON'S DAILY STORE NEWS

Fall Footwear Invites You Monday

Men's and women's boots at most moderate figure. Foot-comfort demands boots of one right weight. In these new Fall styles this point has received extra careful consideration. The women's wear keeps the happy mean between summer and winter weights and the men's comes with a choice of heavy or light soles. These goods were bought at a low figure, which enables us in turn to offer them to you at these special prices:

Women's Fall Boots, in patent leather and vic kid, both Blucher and buttoned styles, Bluchers having dull call top; vamps with short effect, neat Cuban heels; sizes 2 1/2 to 7. Special price 1.95

Men's Fall Boots, in patent oxford, with plain dull tops, some with patent leather facings, high boxed toes, military heels; sizes 5 1/2 to 11, a model of unusually smart appearance. Price 2.75

Why Men's Combination Underwear is Only 59c

Unshrinkable balbriggan at fractional price. Reason is that these are summer weight goods, but they are quite suitable for early Fall wear. The big reduction in price should dispose of the whole lot Monday, and buyers should be on hand early.

Men's Arm Bands, Half Price, 5c a Pair. Manufacturer's surplus stock bought at an extra low price. Made of medium width elastic, with gilt and nickel attachments, adjustable to any size, in blue, red, pink, black and white. Pair . . . 5

Men's Four-in-Hand Ties, 17c only, made by ourselves of odds and ends of high-grade silks, loose folded ends, thin, narrow neckbands. In popular shades and stripe effects, dot, floral and conventional patterns. Special price 17

Striking Offer in Boys' Shirt Waists. Monday at nearly half price, of good quality whiting in neat blue and white and black and white stripes, neatly laundered neckbands, attached cuffs, strongly sewn throughout, and made to stand plenty of rough wear; sizes 11 to 14. Reduced to each 25

Men's Felt Hat Offer of Supreme Interest

Manufacturer's clearance gives christies and soft felts at nominal prices, 95c. The swing of the trade pendulum occasionally throws some magnificent values our way. As in this case, we cleared a manufacturer at a very low price of his stock of christies and soft felts. We are content to make only a small profit and the rest of the advantage goes to the purchaser.

There are the christies, mostly black, and soft felt hats, chiefly in greys and browns, all for fashionable Fall wear. You would not be surprised to see these hats priced twice as high, therefore buyers should be here early Monday morning. Price 95

Linen and Duck Hats for Children

Of washable material, delightfully cool and easy. In small and large shapes, with stitched brims, white, blue and brown. Special price 20

Straw Hats for Men and Boys

Neglige and boater shapes, trimmed with black and colored bands. At a mere fraction of usual price 10

Main Floor—Queen St.

Men's 3-Piece Business Suits at \$4.98

A price that just about covers actual cost of manufacture. We cleared a manufacturer of these suits for spot cash. That's why he was content to forego profits, and that's why we can sell them at this low figure.

A big assortment of serviceable English and Canadian tweeds with Italian cloth linings. In medium and dark greys, dark striped greys, dark browns and olive shades. Width 44 to 46 throughout; else 34 to 44. Price 4.98

Men's Working Pants, \$1.00, strong Canadian and English tweeds in light, medium and dark stripes. Well made with 2 side and hip pockets; sizes 33 to 44.

Overalls for Working Men, 50c, of good strong denim, blue or black, all seams strongly sewn, two patch pockets, with riveted corners, high bib, straps, with buckles; sizes 32 to 46.

Smooths to match above, 50c—button close up to neck, all buttons riveted, two patch pockets; sizes 34 to 46.

What Shall the Boy Wear? Why not the Bloomer Suit?—most popular, neat and the best looking suit made for a boy. We have them in 3 grades, as follows:

A Double-Breasted, belted model of a durable imported dark grey tweed, in-stripe pattern. Italian cloth lining, bloomers pants, with strap and buckle; sizes 24 to 28. Price 8.25

Plain Double-Breasted Model, with side vents, of an all-wool, unbleached grey English tweed, with faint green stripe, durable body (No. 2), full-fitting bloomers; sizes 24 to 28. An excellent suit at moderate price 4.25

Three-Button Double-Breasted Model, highest grade, well built shoulders, shapely, belted and side vents, long fitting coat, flaring at bottom. Of an imported all-wool fabric in neat, medium shade of grey, with fine twilled body lining. Stylish bloomers; sizes 24 to 28. Altogether a suit of magnificent texture and finish. Price 5.00

WM---STRENGTH---ENERGY

To men who are run down, weak and puny, who have lost the force of vitality, who feel gloomy, despondent and unable to do battle with the affairs of life, who have Rheumatism, Back Pains, Weak Stomach and Kidneys, and feel generally as if they needed to be made over. If that means you, come to me, and if I say that I can cure you, I will do so or no pay. I don't want money that I don't earn. I don't need it, and not after it. But I am after the dollars that are now going wrong in the quest of health. Look at all these poor wrecks of humanity that are spending all they can earn on drugs—dope that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound of strength for the hundreds of dollars wasted.

That is the money that I am after, because for every dollar I take I can give a thousand per cent. interest, and don't want it at all until I have cured you, if you will secure me. I have cured so many cases right here that I can prove my claim to you, but if that proof is not enough, I will give you the names of men right near you where you are. Is that fair?

The Dr. McLaughlin Electric Belt is a cure for all signs of Breakdown in men and women. The vitality of the body is Electricity—the force in the Nerve Cells. My Electric Belt will give you back this power and enable you to fight on in the Battle of Life!

AMPLE PROOF WILL BE GIVEN YOU ON REQUEST. If you have no confidence in electricity let me treat you at my risk. I will give you the best on trial, without one cent of risk to yourself. Give me reasonable security and I will take your case, and you can PAY ME WHEN YOU ARE CURED

FREE BOOK Write me to-day for my beautifully illustrated book, with cuts showing how my Belt is applied, and lots of good reading for men who want to be "The Noblest Work of God." A MAN. Enclose this coupon and I will send this book, sealed, free.

UNLAIN TROTS TO WAGON
MINUTE IN .56 1-4 SECS

Breaks Major Delmar's Former One Minute Record—Grand Circuit Close.

CLEVELAND, Aug. 11.—The Grand Circuit races at the North Randall track came to a close in a blaze of glory this afternoon when, displaying unparelleled speed, C. K. G. Bidings' great trotting gelding Unlain stepped a half mile to wagon in the open in 56 1/4 seconds. This broke the old record of one minute first established by Major Delmar at the old Greenview track here on July 31, 1905, by 2 1/2 seconds and established a mark that probably will stand for generations to come.
Horsemen who witnessed the attempt are unanimously of the opinion that had Unlain tried for the world's trotting record to-day, as it originally was announced he would do, he undoubtedly would have set up a new standard for trotting in the world. In the future, the back going was in perfect form.
Mr. Bidings drove Unlain. The start was made from the half mile post so that the crowd might witness the finish in front of the grandstand. "Lain" Unlain, the great gelding's trainer, drove a runner alongside. The first quarter was made in 29 1/2 and the second in 27 1/2. Argot had an easy winner in the Tavern stake race for amateur reinmen, carrying with it a purse of approximately \$1000. This event was the real climax of the North Randall meeting, and brought a great deal of glory to the winner.
Frank Jones, the Memphis, Tenn., horseman, drove Argot 1st. He had an easy task of it, as his charge went to the front at the start without effort.
Ed. Geers captured his first race of the meeting in the "Nancy" race. Jack's prize took three straight heats in easy style, and captured both first and fourth money when only hindered. Nancy, owned by Dr. Wilkes finished the third heat. Fanny Silver, standing to win second money, was outpaced and won first place in the previous heats, being ruled out.
Fanny Silver ran away in this heat and dashed thru an open gate, throwing both herself and her driver, James Nickols. A winner was not secured.
Peter Thompson, an outsider, surprised experts by winning the three-year-old trotting sweepstakes in straight heats. The event was expected to go to either Joyce Hot or Leafy, but the latter did not act well, and Biese took the race. Peter Thompson could not stand the pace set by Peter Thompson, who showed surprising speed for a three-year-old.
Wright's 218, the 215 pace, the favorite, Longworth B., only succeeding in getting fourth money.

"August is a very crowded month in New York. It is the month when a greater number of strangers are in the city than any other time, and is the most pleasant time of the year to visit, as all the theatres will be started, roof gardens in full swing, and the summer resorts at their height. I should like to take care of your people, and feel sure that your excursion this year will be very successful, as you are sending them out at a good time. I may state to you that any of your people who appear at our houses with letters of introduction from you will receive precedence over all others, except where reservations have been made in advance."

THEODORE ROOSEVELT

is reported to be responsible for the following advice to the man who wishes to grow with the country:

"Young man, place your savings in real estate, which is the source of all wealth, offers the best security in the world and the highest return on the investment."

Capital invested at 4 per cent. compound interest doubles itself in twenty years. Canadian Banks pay the maximum rate of 3 per cent. calculated on the minimum monthly balance equal to about 2 1/2 per cent. per annum for Savings deposits, and you can figure out for yourself what you will receive in a life time on this basis.

Real Estate when carefully bought affords infinitely better security than any financial corporation, with the certainty in a growing country like Canada of large returns.

THE CITY OF CALGARY, which was hardly known a few years ago, has grown in population in ten years from 4,000 to 60,000.

CALGARY is the centre of the Canadian Pacific Railway irrigation lands of 3,000,000 acres, and draws tribute from 50,000,000 acres of the best prairie lands in the Province of Alberta.

CALGARY ranks sixth among all Canadian cities in Bank Clearings with \$150,000,000 for 1910.

CALGARY'S Building Expenditure for the six months ending with June last was \$8,212,243, placing it fourth among all Canadian Cities.

CALGARY has 154 Wholesale and Commission Houses, employing over 700 Commercial Travelers.

CALGARY'S assessment for the year 1911 was \$5,000,000. TUXEDO PARK, CALGARY, situated on the North Side Heights (Upper Town), is inside property within fifteen minutes, by street car, from the centre of the city.

The Municipal Street Railway and Water Service intersect the property, making it an ideal situation for residential purposes, assuring the purchaser absolute security for his investment.
