FORMER POLICEMAN
SEEKS NEW POSITION

W. W. Child is Recommended for
Clerkship in Police Court.

The recommendation of the board of
control that W. W. Child be appointed
clerk in the police court is expected
to be the subject of more or less ques-
tioning at today's meeting of council.
He has served 20 years on the police
force and is entitled to retire and re-
ceive \$916.66 a year. The city finan-
cial commissioner advises that he is
a valuable man and that his services
be retained at a salary of \$1200 a year.

Mr. Bradshaw also adds: "As the
police benefit fund was specially es-
tablished for the benefit of those on
active duty in the police force, I would
respectfully recommend that hereafter
the fund should then be determined,
and that he shall not be entitled to
count his service in some other de-
partment, as part of the time required
to enable him to become a pensioner
of the police benefit fund."

CANADIAN OFFICER
RUMANIAN HERO

Col. Joseph Boyle of Yukon
Saves Deputies From
Exile.

DECORATED BY KING

Ferdinand Bestows Order of
Crown in Gratitude for
Services.

Paris, July 9.—Col. Joseph Boyle, a
Canadian officer from the Yukon, has
become the popular hero of Rumania,
and wears the highest Rumanian de-
coration within the gift of the king
for saving a number of Rumanian
deputies from certain exile and prob-
ably death at the hands of the Rus-
sian Bolsheviki, according to travel-
lers reaching France from Jassy, the
temporary Rumanian capital.

Soon after the Russian Bolsheviki
broke off relations with Rumania last
week, Col. Boyle, with a party of
Rumanian troops, they were sent
to exile to Sebastopol, and the city
is suffering for the services. Both
were placed on board ship to be de-
ported. None of them knew what
their fate might be, and everyone was
convinced they would never see their
native country again.

Colonel Boyle pleaded in their behalf
with the Bolsheviki leaders and insisted
upon their innocence. The Bolsheviki
authorities were dead to his appeal,
and would not revoke the sentence of
exile. Colonel Boyle then declared that
if the Rumanian deputies were de-
ported he would share their fate. A
special steamer conveyed the deputies
and Colonel Boyle to Sebastopol,
where, after a stay of several days,
during which the party suffered many
hardships, Colonel Boyle finally con-
vinced the Russians that the Ru-
manians were innocent and all were
released.

FRENCH WORRY ENEMY
BY MINOR OPERATIONS

Paris, July 9.—Since the last Ger-
man offensive despite the absence of
actions on a large scale, says a semi-
official statement, the French troops
have harassed the enemy by minor
operations, improved their positions
and captured numerous prisoners.
Since June 15 the number of pris-
oners taken, with the co-operation of
the Americans, who especially dis-
tinguished themselves at Belleau Wood
and Vaux, is 5,400, including sixty of-
ficers.

BOARD OF FIVE
IS SUGGESTION
MADE BY MAYOR

It is likely that the decision of the
city council today will meet with the
approval of the civic employes on
strike, and that the dispute will be
ended.

Strikers Insist, However, on
Appointment of Con-
ciliation Board.

RESTATE GRIEVANCES

Agreement Likely to Be
Reached After Council
Meeting Today.

A five-man board of arbitration is
Mayor Church's solution of the
present civic strike, and at today's meet-
ing of council the message of the
mayor will contain this recommenda-
tion. The striking employes, too, offer
no serious objection to this method
of settling the trouble.

In the mayor's official yesterday
afternoon, a conference was held with
a committee of the civic strikers, and
several of the heads of departments.
The men seemed agreeable to the ap-
pointment of such a board, and jointly
with the city to be wound by its award.
The mayor at first wanted a board of
three only, but to this the men would
not agree.

Mayor's Statement.

"This is an industrial dispute, and
there must be some way of settling
it," said the mayor after the confer-
ence. "I am opposed to any inter-
ference on the part of the Indus-
trial Relations Board, but believe
in meeting conciliation with con-
ciliation. The city wishes to be a fair
and just employer of labor. There is
to be a meeting with the city council
tomorrow afternoon, and the strike has
now gone several days, and the city
is suffering for the services. Both
parties should get together and adjust
the dispute in a fair and equitable
way. For this reason, I decided to
meet the men this afternoon and go
into the whole situation, with a view
to laying the matter further before the
board of control and city council. I
think the heads of departments and
the city council should adjust this dis-
pute themselves."

Controller McBride received the fol-
lowing note from Buffalo, yesterday,
from a Toronto alderman who is there
on a visit:

Wage schedule, laborers. Buffalo re-
cently adopted by council upon re-
ports of city clerk who visited 16
American cities to make wage sched-
ule applying to civil service, pay for
white wages \$15 per week, sweeper
and garbage drivers \$15 per week and
garbage drivers \$20. No holidays or
sick pay."

Man Held Firm.
It was pointed out by the civic
strike committee at the Labor Temple
yesterday afternoon that no settle-
ment, short of a board of conciliation
under the Industrial Disputes Act,
would be considered. The men, it
was stated, would not consider any
findings of such a board which were
not considered as binding upon both
parties to the dispute. The question
of increasing the pay of the civic em-
ployes by \$2 or \$4 a week, and mak-
ing payment retroactive to January 1,
1918, was but one of the considera-
tions in the demands of the strikers.

It was pointed out that only one out
of ten employes of the city was a per-
manent employe, and that among the
temporary employes, so-called, there
were men who had been with the city
for anywhere from three to 25 years.
The statement of Controller McBride
that the city employes received sick
pay was discounted, and it was point-
ed out that temporary men were de-
barred from sick pay.

Temporary Employes' strike
committee considered was the ques-
tion as to what constituted a tempo-
rary employe. It was stated that there
were many cases of foremen who had
been with one department for years
being transferred from one section of
a department or from one department
to another. As soon as this transfer
was effected the ex-foremen were
placed in the category of temporary
men, and as a result lost their holi-
days and their Saturday afternoons.
This was especially the case in the
roadway department, which was di-
vided into ten districts. As a result
of the recent decision of the city
council to cut down the estimates the
staffs of these ten districts were cut
down. Hence the transfers of men
employed. As the temporary men were
not allowed pay for time off, they re-
ceived nothing for enforced vacations
due to rainy weather or other causes.
The average pay of this class of em-

HAVE YOU A "D. A."? A deposit account is one of the greatest conveniences in ordering goods by telephone. Apply for particulars at the "D. A." Office on the Fourth Floor.

MEN! ARE YOU PREPARED FOR THE SUMMER?

We Are PREPARED to Supply Your Needs

Again the Men's Wear Department comes to the forefront with a very practical list of seasonable values.

There is nothing like good healthy sport to take your mind off business; but there's nothing like unwieldy, unsuitable clothing to take your mind off your sport. For the man who is going to play a little golf, for example, light clothing, such as athletic combinations and outing shirts, is almost indispensable.

Our prices are right, a visit will convince you that our goods are right. Come in and let us fit you up in the right way.

Men's Athletic Combinations, Special, \$1.19

They are made in athletic style, sleeveless and in knee length, of corded or checked madras, soisette or fibre silk, and cotton mixtures. Sizes 34 to 46 in the lot. Special, \$1.19.

"Sport" Outing Shirts at 85c

They are made with low roll collar, that can be buttoned close to neck, cut in coat style, with long sleeves and imitation soft double cuffs. The material is plain white, in corded cotton shirting. In sizes 14 to 17. Each, 85c.

Men's Navy Blue Bathing Suit, Special, 39c

If you are going holidaying, you'll need a bathing suit. A range is at your disposal in the Men's Wear Section, that will aid greatly in your selecting a suitable one. For example, there is this line:

Made in one-piece style, of finely woven cotton, fastening on shoulder with buttons. Sizes 34 to 44. Special, 39c.

Men's Night-Robes, Special, \$1.69

In white cotton, cambric or fine lawn, with V-shaped necks, or in medium weight twill, with military collar, trimmed with black braid. Sizes 15 to 19 in the lot. Special, \$1.69.

Men's Two-piece Balbriggan Underwear, Garment 33c

Men! 33c a Garment for Balbriggan Underwear is Something Unusual These Days.

In fact, even in normal times, 33c would be a noteworthy price for underwear of this quality; but come early and judge for yourself. They are in fine light-weight natural shade balbriggan, with long-sleeved shirts and ankle-length drawers. Sizes 34 to 42. Not more than four suits to each customer. Garment, 33c.

Men's Suspenders, Special, 29c

Made of lisle thread, elastic and webbing, in cross-back style, with white leather trimmings, cast-off ends and gilt adjustable buckle. Special, pair, 29c.

"Burberry's" Rainproof Coats of Covert Cloth and Gabardine in Olive and Self Shades of Fawn, \$20.00 to \$32.50

Of Course You've Heard of "Burberry," London, England, Makers of Raincoats, Similar to Those for Officers, Who Claim Them as the Best Yet

Certainly any coat that will give satisfaction in the wet and drizzle of "over there" should give entire satisfaction here. Those at \$20.00 are of an olive shade, light-weight covert cloth, proof against rain or wind, in single-breasted style; length 48 inches; have the smart raglan shoulders; button in a fly, with London collar, with tab across throat; slash pockets, closing with button; the back drapes loose from the shoulders. Sizes 36 to 42. Price, \$20.00.

Those at \$32.50 are of the "Ticklochen" model (as worn by English officers), of gabardine cloth, in self shades of fawn, lined with a plaid worsted effect; have long lapels that may be converted. Collars are about 3 1/2 inches in depth. Have belt at waist, flare skirt, English raglan shoulders, and slash pockets. Price, \$32.50.

Oil Silk Coats, a traveling companion that may be rolled up and placed in a corner of cub bag. In black, brown, green and corn color, in single-breasted fly front style, with buttonholes reinforced with leather. Back drapes loosely from the shoulders, \$18.00.

THE T. EATON CO LIMITED

HAYING GENERAL THROUGHOUT ONTARIO

All Spring Grains Look Well and Other Crops are Promising.

The following is a summary of reports made by agricultural representatives to the Ontario Department of Agriculture:

Haying is in full swing, and the weather has been favorable for field work. The crop of clover will not be as heavy as was expected, but second growth is said to be coming on nicely. Timothy is also short in the stalk. Alfalfa has given a fair first cut.

Fall wheat, also badly thinned out by the trying weather of March and April, is giving promise of a good quality of grain for seed. Kent reports some fields as ready for cutting in a week.

All spring grains look well, although perhaps a little short in the straw. Barley, spring wheat and oats are heading out, but there are some complaints of smut in barley.

The present excellent appearance of beans is giving much satisfaction to growers.

Peas have not looked so well for years. Norfolk reports that some raised for factory purposes have

grown from four to five feet in length covered with blossoms. Corn has not been making the growth that was expected earlier in the season, but is likely to turn out a fair crop, especially in the western portion of the province.

Potatoes Good Yield. Potatoes are likely to yield well. A quantity of early varieties are being marketed.

All roots are thriving, more especially sugar beets. Early tomatoes from Essex are already in good supply and are realizing satisfactory prices.

In Carleton considerable buckwheat and grain mixtures have been grown for green feed, and most of these soil-crops are doing very well.

Harvest and fall apples will give about a 60 per cent. yield, but winter apples will be much lighter in supply. Strawberries have been a disappointment. In many instances the heads of the fruit, the cause being attributed by some to winter injury. Prices, however, have been good, ranging from 18 cents to 25 cents a box. Raspberries, currants and gooseberries are more promising.

Live Stock Gaining. Live stock on pasture have been making rapid gains. Pure-bred cattle are in strong demand, while good dairy cows sell at from \$100 to \$150, and three-year-old steers at \$150 a head or the grass. It is claimed that creameries have reached the peak of production for the season, which so far has been a very active one for the dairy industry.

Hogs are selling at from \$17 to \$18 a hundredweight, while little pigs from six to eight weeks old bring \$18 to \$19 a pair. The promise of a fair

corn crop is encouraging some farmers to go again into bacon raising, notwithstanding the high cost of supplementary hog feeds. Elgin reports a marked increase in the number of sheep in that county. Owing to the generally favorable weather and the greater use of hay-loaders and other improved implements, the shortage of labor has not been keenly felt so far in the hay fields. Lincoln reports that national service girls are working through the fruit belt in comparatively large numbers, and very good reports are to hand regarding their work. At present there is considerable demand for hoeing and cherry picking.

A Government Breakdown.

The Fort Arthur News-Chronicle laments the absence of government guidance—almost the absence of government itself—in Canada. Bitterly, perhaps unjustly, it contrasts our prime minister with the American president and says:

If we had had a Wilson at the head of our government, what would we not have accomplished? We have done well. Yes, we have, but look abroad over the land at this present moment. Where are our great men? What are they doing? Who knows the name of the man representing the premier while that nice man is in England?

It is true that we have been subjected to some regulations, but whence come they? From the government?

We were supposed to take over the Canadian Northern Railway, but have we?

We were supposed to assume ownership of the Grand Trunk Pacific, but have we?

Nobody outside of the immediate vicinity of the official desk knows. But the probability is that we are still waiting for a report from some section foreman before completing the deal.

Our country is supposed to be immune from danger by agitators and mischievous foreigners, but is it?

The News-Chronicle views with alarm the approaching railway strike and the apparent inability of the government to deal with the situation. Put in all justice to the ministers of the crown still in Canada it must be remembered that the leading members of the government are overseas. Sir Robert Borden, General Mewburn, Sir Edward Kemp, Hon. C. C. Ballantyne, Hon. N. W. Rowell, Hon. Arthur Meighen and Hon. J. A. Cairns are all in England, and most of them have been there for some time past.

We elected a parliament last December to win the war. It assembled in March and prorogued in May. There is little likelihood of its being called together again until some time in the year 1919. Parliament at that brief session passed the usual war appropriation and did some good work, but will anyone say that the session as a whole was not a bitter disappointment? The members were told in effect that they must get thru and get out within so many days. An Ontario M. P. and government supporter says he was not even permitted to discuss so vital a question as pensions.

Is parliament winning the war by working two months out of twelve? Does anyone reach the highest measure of sacrifice and devotion who, in the midst of a war, works for his country one day out of six? The British Parliament is in session practically the year round. The American Congress has been in session almost continually since the outbreak of the war. They are only asking for three or four weeks' recess during the heated term that makes Washington City notoriously an unhealthy and unpleasant place to live in during July and August.

President Wilson never leaves the country and hardly ever takes even a week-end away from the capital. The people of the United States would be shocked and surprised if they found themselves for months at a time without a chief magistrate. We do not say this by way of criticism of our own prime minister, who may be called by high reasons of state to a conference in the mother country, but, generally speaking, it must be admitted that the Ottawa government pretty much runs itself during a great part of the year, while ministers of the crown enjoy an ocean trip and the rare old hospitality only to be found in the courts and manors of the Old World.

Our Ontario Legislature meets a few weeks out of the year. The provincial government is embarrassed today by a partial breakdown of the Ontario Temperance Act. It has other embarrassments which could be relieved by legislation, but the legislature adjourned in April, 1918, and will not reassemble before February, 1919. No wonder people seriously argue that the Dominion Parliament and the provincial legislatures should be abolished!

We are quite willing to admit that a great deal at a time like this must be entrusted by the legislature to the executive. We believe that legislative bodies should declare policies and permit those policies to be carried out by regulations framed by the governor in council. It helps the government, it steadies the people and it makes for efficiency to have parliament in session. Grievances can be openly discussed and the people kept in close and sympathetic touch with the con-

duct of the war. We do not believe that parliament should be shooed away from Ottawa after a two months' session, and we do not think that the government of this country should be practically disbanded every year for all the summer and part of the fall.

Housing Plans.

In considering the housing problem the chief thing to keep in view is the fact that it is the problem of the slum. Any housing plan that must obviously and ultimately result in the creation of a slum, whether with or without tenement complications, cannot be entertained by any municipality that has a regard for its own future. This is the basis of the objection to the proposal to give free rein to the erection of apartment houses, and permit the creation of an area of congested population in the city centre.

It is unfortunate that the interests of owners of real estate are enlisted on the wrong side of this question. The desire to get bigger returns from real estate investments over-rides or has over-ruled in the past every consideration opposed to the slum and congested population conditions. It is difficult to handle this problem, especially with the class of smaller owners. A case arose recently where such a one wished to build three flat houses on an 18-foot lot. Some ruin lies that way, if several such owners with contiguous property would pool their interests, as has been done in some cases, they might erect a satisfactory apartment with the necessary conditions of space, air and light without which slums flourish.

But even this is not a desirable solution. There is no excuse in a country with three-and-a-half-million square miles and eight million people to crowd people into slums or tenements. The resort of the people to this is simply that these ample spaces are inaccessible.

So the whole question comes down to one of transportation. Cheap fares, whether on steam or electric roads, and frequent and regular service would do more to solve the housing question than all the intricate housing schemes that have been proposed. Yet in Toronto owing to the pressure of certain interests we do not avail ourselves of such services as we possess as fully as we might. A street car line benefits all land within at least ten minutes' walk, and civic car lines which serve such districts should be enabled to benefit the city thru the annexation of territory to the limit thus defined. Our Toronto conditions in this respect are expensive and wasteful for the city.

In some parts of the city there are two feet in height or more and housing in splendid shape, while in other sections it has headed out at six inches in height and gives little promise of harvest.

The flax crop is in good condition thruout the sections of the south.

Canadian Deserter Shoots Two Guards, Making Escape

Bay City, Mich., July 9.—Carl Schweinberg, sheriff of Bay County, Ont., and William J. Samart, registrar of deeds and head of the civil division of the county, were shot near here yesterday by Fred Jackson, who had been arrested by the two men and was being brought to this city on the charge of being a deserter from the Canadian army. Neither of the men was seriously injured and after the shooting Jackson escaped.

MEWBURN IN ENGLAND.

Canadian Minister of Militia and War Arrive Safely on Other Side.

Ottawa, July 9.—Word has been received at the militia department that Gen. Mewburn, minister of militia, and his party have arrived safely in England. On the same boat with General Mewburn was Colonel C. C. Ballantyne, minister of marine and of the naval service. Officers of the militia, private secretary to the minister of militia, and Lieut. Chisholm. It is understood that all members of the party are in good health.

VLADIVOSTOK NORMAL.

Towns in Amur District Come Under Czecho-Slovak Control.

London, July 9.—Life in Vladivostok is now normal, says a despatch from Tokio to the Central News Agency. The rule of the soviet has passed. Towns in the Amur district are coming under Czecho-Slovak control. Russian destroyers at the port have been disarmed by the Russian commander.

BELLEVILLE AVIATOR KILLED.

Belleville, July 9.—Flight Lieut. Leonard Frederick, son of Byron Frederick, was instantly killed in an airplane accident at Montrose, Scotland. A telegram today conveyed the intelligence but gave no particulars. The victim, enroute with a unit at Swift Current but upon arrival overseas transferred to the Royal Flying Corps. He succeeded in finishing his training as an aviator, graduating with honors and special proficiency as a flier at high altitude. He was 24 years of age and unmarried.

Canada Must Recover Her Nickel Deposits and Wipe Out the Humiliation of Successful German Intrigue.

The people of Canada are with The World that the Dominion Government take over forthwith the nickel mines at Sudbury. The control of these mines has absolutely passed out of the hands of Canada into the International Nickel Co. of New Jersey and the Mond Nickel Co. of Great Britain. One company refines the ore in the United States, the other in Wales, and they do what they like with the metal product. The first-named paid three and a half millions out of its profits to the British government, and the other company all its profits to Great Britain! Canada has taken some petty war profits out of the Canadian Copper Co., the subsidiary of the International. That is all we get. They do the rest.

And for the first three years of the war nickel refined from our mines went to Germany in a steady, roundabout method. We were helpless in the matter. We were given certain assurances by the International Co. and the British Government. The assurances were worthless, as we know. Germany got lots of our nickel.

And we have even less hold on the Mond Co. and what it does with the metal it refines in Wales and with the profits it makes therefrom. They snap their finger at us. They do not even share up with Canada. Nor have either of these companies ever told us what is the actual metal content of these ores, in nickel, in copper, in the three highest and most valuable metals known to the world—platinum (\$105 an ounce), palladium (\$130 an ounce), iridium! And yet enormous values have been taken out of Canadian ore and secretly disposed of by these owners outside of Canada! But they pay immense sums out of profits to the wealthy governments of Great Britain and the United States. We are treated by these companies as a child. They are using the slang of the day, they take the profit, "like candy from a baby." Canada is the baby! How much longer?

The great German Metal Trust has interlocked with both these companies from the start, and if you cannot see the connection so closely now it is because the German influence in them has been so completely cloaked and at times pretendedly withdrawn. But there, we have no more confidence in Sir Alfred Mond than we have in Captain DeLamar. And Mr. Lloyd George trusts the Mond, Canada does not; after the way they have tried to run our country and do with it what they liked—not even telling us what they got out of it or what they owed us in any fair deal as to their super-profit. Even if there was no German influence behind these companies we owe it to ourselves to see that a store of metal in our own country that is as valuable as nickel, and that is the most valuable alloy known for making steel; and a considerable share in the monopoly of platinum, palladium, iridium and gold is not to be allowed to pass into the hands of a few men.

As long as nickel or nickel alloys make the highest grade of steel for industrial, military, or for war purposes, aren't we fools to let it pass out of our hands? As long as steel-steeel maintains its superiority, Canada could be the master of the world in the steel industry. But we have let it pass away, for a time, at least. We even went out of our road in the Province of Ontario to let the fee of these ores pass into the hands of a few men. It should have kept them as they stand, as licensees to mine—but always subject to the regulation of the provinces. But we've told that story already to deaf ears, and we do not propose to repeat it today.

Being master in its own house, the Dominion Government has full power to take over these mines as a war measure and never give them up; never to let the control of the produce pass to others, and to do this it does not propose to further the interests of the industry, but to get out as to Canadian officials and British officials knowing the destiny of the nickel refined in the States or Wales from Canadian ore.

We intend to take the mines over, and we intend to see that the refining here. We intend to know the contents of these ores. We intend to share in the profits. We intend to hand out nickel, still better, on fair terms, to such nations as reciprocate with us. We intend to see that the nickel, or German control, or German agents in the guise of their Canadian citizenship, putting us to secret shame by our own guiltily and their duplicity. The humiliation is in this; that if we did not know that the Germans had got control of Canada's nickel mines, the Germans knew it all the time; and they stied up Canada as a country that, by their "purring duplicity," they could make a show of. Our men fighting Germany at the front, in the open, and Germany in a cloak directing the nickel mines and their products as they liked. Some humiliation, you will say, Mr. Jack Canuck!

If Britain wants our nickel in the meantime, yes, on the one condition that what is refined hereafter in Wales is refined on account of Canada, not for the Mond, and that we dispose of it, not to Mond. And if Britain and the allies must have it, for the time being refine it in New Jersey, only there on account of Canada. On condition that we control and sell the product, even if they have to send it back to Canada for us to sell and dispose of it.

Australia saw fit to nationalize her product as against German control; so must we as against any outside control; still, least of all, by Germans.

Canada will do no wrong to any innocent shareholders in either of these companies, but we are not going to allow outside control to direct our policy in respect of these most valuable metals. Outside ownership or manipulation has passed, we trust, forever.

And certainly Canada intends to know who were the real owners of International Nickel when the war broke out. And what was the real ownership of Mond when the war broke out. And what relations these companies may have had with enemy aliens when and since the war began. We will find it out for ourselves. We will not take any progress

OUTLOOK IS MIXED FOR ALBERTA CROPS

In North Conditions Are Good But in South Damage is Great.

Calgary, July 9.—The latest reports on crop conditions made by agents of the United Grain Growers thruout the province, indicate that in many sections of the province, particularly in the north, the crop conditions are excellent, while in many other areas, particularly in the south, the farmers have resigned themselves to a total failure.

In other places the crop will be fair while in still others it will be medium and in many places very poor, running not more than ten to twelve bushels of wheat to the acre.

In some parts of the province there are two feet in height or more and housing in splendid shape, while in other sections it has headed out at six inches in height and gives little promise of harvest.

The flax crop is in good condition thruout the sections of the south.

GERMAN TRADE FULL OF DECEIT

Committee Shows Duplicity of Enemy Efforts to Buy War Goods—More Than 500 Businesses Wound Up.

London, July 7.—The report of the committee appointed by the board of trade to advise upon the Trading With the Enemy Act, has revealed the ingenuity and effectiveness of the financial juggery whereby Germany has been able to obtain the control of British trade and industry.

The cases cited by the committee of the monthly peaceful penetration are most illuminating, and suggest that only the most drastic measures will prevent a revival of it at the end of the present struggle. The prime evil would seem to be the nickel industry, in which the German agents have been most persistent and determined in the enemies of British industry to masquerade in the names and status of British-born people.

Germany Covered Vast Field. In the report referred to, the committee stated that the cases which have been considered run over a wide range, varying in importance from the Siemens nickel works, which employ more than 10,000,000, and the Badische Company, which has an annual sale of 1,750,000 dyes, to that of a humble tailoring establishment in the east end making a profit of \$70,000 a year.

The work of the committee so far as it can be summarized is stated as follows for the period since February, 1916: Cases considered..... 507 Orders to wind up or prohibit..... 507 Orders for sale to British subject..... 26 Orders cancelling contracts..... 174 No orders made..... 174

The committee states that in considering these cases of businesses which had been in the hands of subjects of enemy countries it was convinced that where the businesses formerly carried on mainly for the benefit or under the control of enemy subjects were useful and successful it was more in the national interests to transfer them to British businesses than to wind them up.

Credit to Treston Skill. The committee also pays this tribute to the energy and business shrewdness of these enemy subjects. "Whatever the business was, organization, adaptability, personal application and in case of necessity ruthless competition produced successful results, for in few of the numerous cases examined was the business found to be unprofitable."

The variety of trades in which German subjects were engaged was a noticeable feature of the committee's work, extending from the great chemical industry to the collection and export of rabbit skins and from the manufacture of machinery to the production of sausage skin.

In the course of the committee's enquiries the necessity of legislation for the registration of names was fully demonstrated. Foreign traders had substituted British names for their own for the purpose of misleading their customers into the belief that they were dealing with British principals instead of aliens.

The free choice of titles which joint stock companies enjoyed also enabled foreign traders to conceal their nationality and acquire whatever advantages were accorded to a business appearing to be a British business. The practice of adopting the word "British" or some other title or name, which disguised the fact that the business was German, was pretty well known.

British Managers a Camouflage. But the extent to which such businesses were conducted thru British managers and directors and by British employees was remarkably extensive, as revealed by the investigations of the committee. In case after case the committee found that the principal promoters of the business the actual business was almost entirely in the hands of British subjects, not naturalized Britons, but born Britons, who carried it on with apparently unlimited powers as to extension and method.

Even in the case of the dye industry the staff of chemists employed in the important service of advising as to the application of the dyes to the textiles dyed were almost entirely British, and when branches were established in England for the manufacture of German patented articles these factories were almost invariably carried on by British managers and workmen.

In many of such factories these British managers and workmen are, under the Trading With the Enemy Act, taken to determine certain contracts, mainly those providing for the delivery of metals or other goods to Germany, and the extent to which Germany had obtained the control of important metal industries.

CHIEF OF POLICE NOW WANTS HALF THE FINE

Moore of Woodstock Claims \$225 for Informing in Opium Cases.

Woodstock, July 9.—About a year ago a local druggist was fined over \$1000 for selling opium. The city's share of the fine was \$225, and this amount was turned over to the city treasurer by acting Chief of Police Moore. Now this official, thru his solicitor, has notified the city council that unless the money is refunded to him a writ will be issued against the city. He claims that he was the informer who had been entitled by statute to the half the fine.

Mrs. Wardell, or May Spragg, of St. Thomas, who pleaded guilty on the charge of having made a fortune of \$40,000 in the sale of opium, was today allowed to go on suspended sentence. She paid the costs of the court, \$32.62.

FRENCH TAKE FARM IN MILE ADVANCE

Attack Gains Good Results Between Montdidier and Oise.

Paris, July 9.—French troops early this morning attacked the German lines on a front of about 2 1/2 miles west of Antheuil, on the front between Montdidier and the Oise, penetrating the enemy positions and recapturing an advance of a mile, the war office announced today.

"Between Montdidier and the River Oise, the French at 5.30 o'clock this morning carried out a local operation west of Antheuil on a front of four kilometres. The French troops, supported by tanks, penetrated the German lines, capturing Ferme Ferre and Ferme des Loges, and recapturing an advance of 1300 metres at certain points."

"A counter-attack at the Ferme des Loges was repulsed, the French maintaining all their gains. Prisoners were taken to the number of 400, including fourteen officers."

"South of the village the artillery duel continued active thruout the night in the vicinity of Chauvigny Farm. The French increased their advance at this point, taking 50 prisoners, including one officer."

"The artillery of both sides was active west and north of Chateau Thierry, notably in the vicinity of Hill 204."

"Patrols took prisoners in the Champagne, in the sector of Marquigny and in the direction of Buzancy."

"There was nothing to report on the remainder of the front."

London, July 9.—The British war office reports:

"During the night London troops carried out a successful raid east of Arras, capturing a submarine shelter and a machine gun."

"The enemy's artillery has been active against the positions recently captured by us south of the Somme."

BRITISH AERIAL FORCES CONTINUE HEAVY WORK

London, July 9.—The text of the official statement outlining the operations of the aerial service reads:

"During the period of July 4-7, air force contingents with the navy bombed the Ostend docks and Zebrugge and Bruges with six tons of explosives. At Bruges direct hits were obtained on a submarine shelter on the railway and on merchant ships. Near Zebrugge four torpedo boat destroyers and four torpedo boats were attacked."

"Sixteen hostile machines attacked one of our formations. Three enemy machines were destroyed and three others driven down out of control. All our machines returned."

"Seven hostile machines attacked three of our large squadrons. In an engagement lasting fifty-five minutes, two hostile airplanes were destroyed. Our machines returned safely, though damaged."

CREDENTIALS FOR VISITORS.

Washington, July 9.—All persons going to Canada hereafter to study the workings of the Canadian department of vocational education of soldiers, must be provided with credentials from the United States federal board of vocational education. The board announced today that so many visitors have been going to Canada for that purpose, it has become necessary to keep out mere curiosity seekers.

THE WOMAN WHO CHANGED

BY JANE PHELPS

Helen Tells Her Husband She Saw the Supper Party.

CHAPTER CXXIX.

When I told Mrs. Collins that George knew I had seen the supper party, she was amazingly reticent. "You are very clever."

I made no reply—simply nodded and left the table. But up in my room, I walked the floor wringing my hands and excitedly talking loudly to myself. I knew I had worried her—that I had had the best of the conversation from every point; but instead of being pleased, I was horribly depressed. Must I always be subjected to such things? Should I always have to be fighting to prove my right to my husband's love? It wasn't a pleasant thought, not one I could think of with equanimity.

"I guess I gave her something to think of the other night," I said to myself, making a mental note of the incident. Helen called "cat," and that it was Merton Gray who had applied the name to her. "I'll show her she can't get the best of me, even if I have to lie, but as I recalled my untruth I flushed. I never had known George to tell even the tiniest white lie. He would be disgusted when he knew (as he would have to) that I had stooped to tell an untruth."

Enc Collins took your place when you left me, this noon," I told George when he came in early, as he said he would. "He saw me, last night, as your party in the grill broke up, and George is amazed at Helen's Confession."

"She saw you—when?"

"When you were in which she was one, started to leave the grill."

"But—where were you?"

"I was in the corridor. I couldn't sleep and had gone down to get a book."

"Why didn't you speak to me, if you were there when we came out? Were you spying on me?"

"I was getting a book," I parried. "Then I told him," Mrs. Collins was very insistent. She said I owed her a vote of thanks because she had not told you. I said that I had told you myself, so I owed her nothing."

"I told a lie, George, and I shall tell as many more as are necessary to let people know I am not the abused, neglected wife they think I am—and that at times I am not."

"What else did you say to her?"

"I can't recall all that passed, but I remember she said you told her you had not invited me to join the party. Of course that gave her all the liberty she needed."

"Yes, I said I would not disturb you, as you had not been in the mood to plan my future conduct toward George, and towards his world. I would be dignified and calm; I would not be set upon; and I would, in all things, try to become a woman of poise and character—a woman of the world."

"By Jove! that must have taken Julia's breath away."

I could scarcely believe my ears. I had expected fault-finding—perhaps unpleasance—perhaps a result from my confession, particularly as he had received it so sneeringly. And this was his only comment! Was there ever so strange a man?

"I think it did," I replied, going on with what I was doing.

"What queer creatures women are!" he soliloquized. Then, to me: "I don't see why women cannot be friends the same as men, but evidently they cannot."

I made no reply, and the matter was not referred to again by either of us, altho I could not put it from my mind for days.

FAVORITES SPLIT WITH OUTSIDERS

Three Out of Four Events on Second Day in Straight Heats.

Cleveland, July 9.—With the exception of the 2:15 pace, each event on today's Grand Circuit card at North Randall was captured in straight heats, with honors divided between favorites and outsiders. The 2:15 pace caused the biggest upset of the afternoon. After Margaret Margrave had taken the second to Grace Edler, she was forced to succumb in the 3rd to a 2-year-old filly named 'The Girl'.

The first division of the Pace three-year-olds went to Mamie Locke, which trotted rather easily from Hanks Stout, the 2:30 standard in each heat.

In the 2:04 pace, Hal Boy, the other successful favorite, had things his own way. Summary:

2:30 class, trotting, purse, \$1000:

Seah, b.m., by Hobbs 1 1 1
 (Murphy) 1 1 1
 Hanks Stout, b.g. (Stout) 2 2 2

AMATEUR BASEBALL

In the first game of the "T" League at Broadview Athletic Field on Saturday the Central Athletic swooped down on the Broadview team, triumphing easily by 17 to 2 in a swiftest of which the champs displayed their true form. They continually brought their heavy artillery into action and when the smoke cleared had registered 11 hits which will materially fatten each of their batting averages. This win gives them a four-game lead over their nearest opponent, and have to win their three remaining six games to clinch the league honors. "Fete" Ruffin, of the champs, pitched four times out of five trips to the plate and struck out three. Russell pitched fine ball, allowing but one hit, which Conant corralled in the first inning for two bases.

ATHLETICS..... 2 3 4 0—18 1
Broadview..... 0 0 0 0—2 1
Centrals..... 1 0 0 0—18 1

Opportunity hitting accounted for the Broadview winning the second game from the Riverdale by 8 to 5. The winners came from behind and put up a splendid article of ball and put up a horn, Lynn and Hogarth were the fielding stars, while McCarty, Smedley, Spring, Thorn and Kerr, carried the ball, Keller and Smedley each getting a triple. This game ties both teams for the cellar position and leaves the Central but one game ahead of them. Score: Riverdale..... 3 1 0 0 0—3 10 5

NEW YORK STOCKS CONTINUE TO DRIFT

New York, July 9.—Railroad stocks were spurred into momentary activity and strength at the opening of today's session on reports that Director-General McAdoo would soon announce a form of contract satisfactory to holders of such securities. These reports, providing premature, the market soon relaxed into its recent somnolent condition, and the nominal price level was maintained. The movement lacked conviction, however, as it embraced various issues under professional control.

RAILROAD ISSUES LOSE EARLY STRENGTH—CROP REPORT NOT BULL FACTOR

New York, July 9.—Railroad stocks were spurred into momentary activity and strength at the opening of today's session on reports that Director-General McAdoo would soon announce a form of contract satisfactory to holders of such securities. These reports, providing premature, the market soon relaxed into its recent somnolent condition, and the nominal price level was maintained. The movement lacked conviction, however, as it embraced various issues under professional control.

TORE IS DEPRESSED IN MINING MARKET

Hollinger, Lake Shore and Vindicator are exceptions to general rule. Losers were more frequent than gains in the mining market yesterday, but in the great majority of instances, the recessions were merely fractional. The general trend suggested only that for the time being offerings were on a larger scale than the buying power was in a position to absorb. There was no change from day to day in fundamental conditions, and the emphasis being placed in the United States as well as in Canada, upon the precarious situation of the gold mining industry is not calculated to improve the demand for gold stocks pending adoption of some kind of remedial measures.

REPORT ON CORN PROVES BEARISH

Prices Close Unsettled at Chicago—Oats Sell at Higher Level. Chicago, July 9.—Uncertainty over what the government crop report would have indicated today to restrict business in corn and to bring about an advance after an early decline. Prices closed unsettled at the same as yesterday's finish to 15c higher, with August \$1.55 1/2 to \$1.55, and September \$1.55 1/2 to \$1.55. Oats gained 1/2 to 1 1/2 to \$1.25. The official estimate would exceed 3,100,000 bushels, whereas the official forecast proved to be 3,000,000 bushels higher. A new taken shorts evening up to prepare for possible bullish surprise from Washington dominated the market in the last advance, some unsteady over the facts of dry weather northwest counted against bears toward the end. Guesses regarding the official estimate of the oat yield were too large by about 1,000,000 bushels. This fact was not known, however, until after the action of the market paralleled the action of the bears.

PETROLEUM SHOWS REACTIONARY TREND

Maple Leaf and Steamships Also Lower—War Loans Are Quiet. Movements of stocks on the local market were within the customary narrow range yesterday, the limited demand being counter-balanced by offerings of offerings in the majority of issues. Small gains were noted, were intermingled, the only pronounced reaction being in the case of Petroleum, which, after making a high record for the year on Monday at \$16, weakened yesterday to \$14.40, with the final bid only \$14. There was nothing to explain the setback beyond the irregular character of the market. Prices on the New York Exchange, Maple Leaf sold 1/2 lower at 10 1/2, and Steamships common also fell 1/2 at 40. Oil and Steamships preferred held at 75 1/2. Announcement of the regular dividend on Russell common did not have any effect on the stock, which remained steady at 75. Crown's West Coal, which brought \$4 a few weeks ago, related to the minimum of \$0, and Toronto Railway was easier at 55 1/2. A number of small stocks were scored by Brazilian and Cemen.

NEW AREA PROMISING AS A MINING DISTRICT

La Rose, Crown Reserve and Aladdin Interests Holders of Claims. Porcupine, July 9.—Miners and prospectors recently returned from the Agokawak Lake district, south of the centre of the new area, hold a promise. Quite a large number of claims have been staked and further staking is going on. The rock formation in the new area is very similar to that of Porcupine. Among those interested and holding claims are the La Rose Company, Crown Reserve and Aladdin interests, closely identified with the Aladdin Cobalt Company.

SEVEN DAYS' OUTPUT OF ROCKWOOD OIL

Rockwood Oil & Gas Company's all shipments from June 24 to July 4, inclusive, as officially announced, were as follows: Date shipped, No. of bbls. June 24, 184 26-25; June 25, 142 26-25; June 26, 173 8-25; June 27, 192 26-25; June 28, 192 26-25; June 29, 192 26-25; June 30, 192 26-25; Total shipments for 7 days, 1230, 8-25.

AT CALUMET AND JEROME.

New York, July 9.—Diamond drilling operations on the property of the Calumet and Jerome Mining Company will start next Monday, according to an official of the company.

N. S. STEEL OUTPUT.

Montreal, July 9.—The output of the Nova Scotia Steel and Coal Company for the first quarter of 1918 shows a falling off in tons of coal mined, as well as a large decrease in the quantity of iron mined. Limestone, however, ever increased slightly, while pig iron production rose 5000 tons. Comparisons for the first and second quarters of this year are: Second Quarter, 1917, 124,355 tons; 1918, 133,466 tons.

STEEL OF CANADA IN DEMAND AT MONTREAL

Montreal, July 9.—A demand for Steel of Canada common relieved local stocks today. On purchases of upwards of 900 tons, Steel of Canada advanced 1/2 to 3/4, and closed at the best. The stock followed the general market, and it was presumed that the greater activity reported for some buying for the dividend. The directors of the company are meeting tomorrow, but no special dividend is expected from the meeting. Only two other stocks attained even a moderate degree of prominence in today's trading. Woods, Mfg., regarding which a dividend dividend news appears to be expected, was in good demand at 70, or within 1/2 point of its best quotation of the year. Canada Steamship voting trusts were also in some demand and higher, at 4 1/2.

RUSSELL DIVIDENDS

Directors of Russell Motor-Car Co. have reported the dividend declaration of 2 1/2 per cent on the common stock, which was payable Aug. 1 to stock of record July 20. The regular quarterly dividend on the preferred stock is \$1.00, or 4 per cent on the \$25.00 par value. A distribution of \$56,000.

LONDON STOCK MARKET.

London, July 9.—The stock market showed little variation today. A quiet day with some activity in the gilt-edged and colonial securities, but increased activity was recorded in the miscellaneous section, indicating the public buying of oil, iron, shipping and electric shares. South American issues were easy on the exchange situation, those at a discount were quiet.

MONEY AND EXCHANGE.

London, July 9.—Money, 2 1/2 per cent. Discount rates, short bills, 1 1/2 to 2 per cent; three months' bills, 1 1/2 to 2 per cent. Paris, July 9.—Trading was quiet on the bourse today. Three per cent rentes, 81 francs 50 centimes for the rente, 81 francs 50 centimes for the rente, 81 francs 50 centimes for the rente.

FREE FROM TAXATION.

Next Victory Loan Bonds Will Not Be Assessed. Ottawa, July 9.—The government after careful consideration has decided that the bonds of the next Victory loan will, like those of all previous issues, be free from all Dominion taxation.

EXPRESS COMPANIES' DEFICIT.

Washington, July 9.—Operation of the eight interstate express companies during January, 1918, resulted in a deficit of \$1,637,757. The Interstate Commerce Commission reported today. Only the Southern Express Company made a profit during the month. Its operating income being \$89,580. The largest loss was sustained by the American Express Company, \$752,545.

GRAIN AT WINNIPEG

Winnipeg, July 9.—There was a somewhat better demand today for No. 2 C. W. oats, and a premium of 1/2c was being paid by buyers. Cash barley was also in good demand and quotations were 2c higher on the best grades. Flax was higher. Winnipeg oats closed 1/2c higher for July at 90 1/2c, October 2 1/2c higher at 84c. Flax closed 1 1/2c higher for July at \$1.10, October 1 1/2c higher at \$1.05. Winnipeg market: Oats—July, 89 1/2c to 90 1/2c; October, 84c to 85c.

U. S. WHEAT HARVEST ESTIMATES REDUCED

But Corn Crop Promises to Be the Largest on Record. Washington, July 9.—A reduction of 40,000,000 bushels in the prospective wheat harvest was shown today in the department of agriculture's July forecast, which is 891,000,000 bushels compared with 931,000,000 bushels forecast in June. Deterioration during June reduced the prospective winter wheat crop by 50,000,000 bushels, and the spring wheat crop by ten million bushels. The corn harvest promises to be the largest on record, with a total of 2,160,000,000 bushels as forecast for the first time this season by the government. The acreage is almost five per cent smaller than planted last year, the total being 113,835,000 acres.
