FIFTY-ONE LIVES LOST WITH SHIP

French Steamer Colbert, Carrying Military Passengers, Torpedoed.

NAVAL HERO IS LOST

Commander Meets Death on Anniversary of Day That Brought Him Honor.

Paris, May 20.—The French steamship Colbert, carrying a number of French military passengers, was torpedoed and sunk in the Mediterranean, April 30, by a Teuton submarine. Fifty-one persons, including the commander of the vessel, lost their lives. Announcement of the sinking of the Colbert was made this afternoon by the French admiralty.

The official statement says: "The steamer Colbert, in the service of the admiralty, and having on board a certain number of military passengers, was torpedoed in the Mediterranean on the morning of April 30, by a submarine. Fifty-one persons were killed. Among them being Auxiliary Naval Lieut. Commo. who was in command of the ship and who had been turned over to the army. He was made a chevalier of the Legion of Honor for defeating a submarine attack on the same day, April 30, a year ago."

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

AFTER a period of rest and preparation the British infantry resumed the offensive southeast of Arras yesterday and captured another section of the Hindenburg line on a front of over a mile. The attack, launched against the flank of this formidable defensive system, made good headway on a mile front between Bullecourt and Fontaine-Croisilles. The enemy hurried up troops to shake the British hold on the captured position and he began a fierce fight, without regaining any ground. The British took some prisoners. In order to harass the nerves of the enemy Sir Douglas Haig has adopted the system of employing spasmodic gusts of fire against various points of the front. This manoeuvre has created great uneasiness among the officers of the enemy's staff. It is combined with the exercise of strong pressure all along the line. The British also beat the Germans in local fighting near the St. Quentin Canal.

The new operations launched by the British have apparently as their object the reduction of Quent and the capture of the Droocourt switch line. The German front in this region forms a rather sharp salient, which lends itself to attack. It has a further weakness in the hanging of the right flank of the Hindenburg line in the air owing to the loss of its pivot at Vimy Ridge. The British are thus able to dispose their artillery about the junction of the Droocourt and Hindenburg line in a semi-circle, so as to make the enemy's defense of the position physically impossible. As to Lens, Sir Douglas Haig prefers to reduce it by artillery fire, together with a turning movement, instead of entering it by the front door. He has no fancy for needless street fighting and heavy losses. The enemy has apparently left behind a small body of troops in that city to do as much destruction as possible. Eventually these will do the kammered act. By damming the Souches River the enemy has flooded the French coal mines.

A violent battle between French and German forces is proceeding on the Chemin-des-Dames, with the Germans the assailants. The crown prince landed his troops first against the La Boverlie salient, north of the Chemin-des-Dames, recently gained by the French. These forces received rough handling and short shrift, and after rolling them back, the French, becoming active at a point twelve miles to the west of this sector, stormed the German defences near Laffaux Mill and captured some sections of trenches. The Germans returned to the assault by opening, first, a strong artillery fire with heavy high explosive shells and their stinking asphyxiating gas shells. This bombardment increased to the intensity of drum fire; but a French counter-preparation with their artillery rendered the proposed general assault of the enemy abortive. Only in a few places did the Germans leave their trenches, and then they encountered a spirited resistance of the French Infantry. In but one place, northeast of Carpy did the Germans penetrate the French positions, and this was only on a front of about 220 yards. The French infantry is thus displaying great superiority to the enemy, as in the past, but the great drawback is that France has not men. She requires urgent reinforcements, it is said, for while German and Austrian power is declining, French power is declining as well. This explains the prompt decision of the United States to send troops to Europe as speedily as possible and also the pending Canadian decision to conscript enough men to make up the half-million promised for the war at once.

The Italian offensive, which has the important task of wearing down Austria-Hungary and of removing the danger of a premature enemy success against Russia, first made progress about Hill 652, on the Julian front; then repulsed counter-attacks by dense masses of the enemy, and lastly took prisoners and much war material on Saturday, according to yesterday's official report from Rome. Hill 652, where the Italians extended their lines, is on the Vodice, north of Gorizia. They also enlarged their gains near the Plava bridgehead. The enemy launched his counter-attacks with dense masses, but each attempt failed before the Italian defences. The Italian captures comprised two four-inch guns, two six-inch mortars, some trench mortars, machine guns and a great quantity of arms and ammunition.

The work of the Italians has an important bearing on the war, for by using up the remaining human resources of Austria-Hungary, they are steadily increasing the tremendous strain on Germany. Austria-Hungary, Bulgaria and Turkey a year ago represented about one-half of the total military effort of the Germanic alliance; Germany represented the other half. Owing to the wholesale surrenders of Austrians in Galicia last year and the defeat of Turkey in Mesopotamia and in Egypt this year, the present military effort of Germany has increased to about three-quarters of the whole enemy alliance this spring.

Kennedy Jones, British food controller, told an Edinburgh audience that by a new method of attack the British sailors had successfully combated the German submarines, and he was confident that these British maritime successes would continue. He did not give details of the British successes. It is suspected that one means adopted by the enemy to increase the damage by the U-boats has been to waylay British ships in neutral waters, remove them outside of the three-mile limit and then sink them. These same neutrals had denied the British destroyers the privilege of even appearing in their waters. It is understood that the allies have stopped this abuse of their friendship. They have now on their side the powerful boycott of the United States against unfriendly neutrals.

The Russians confined their military activity to the repulsing of German attacks on their extreme right and left flanks, near Riga and in Rumania. Minister of War Kerensky is leaving Petrograd for the Russian fighting fronts. He told interviewers that he was convinced that on his return he would be able completely to dissipate gloomy impressions as to the condition of the Russian army. The council of workmen's and soldier delegates has passed a resolution of confidence in the new coalition government. It is now known that German agents assisted in fomenting the recent revolution in the belief that the anarchists would gain control, institute a reign of terror and plunge the country into such confusion that it would not be of any assistance to the allies in this year's campaign. The moderate element, however, gained control of affairs, and the anarchists have apparently lost their chances for good, so that the state will remain attached to the allied cause.

The operations have died down to sporadic Bulgarian attacks and cannonading on the Balkan front, probably owing to stress of early spring weather. The French, however, have captured a new trench in the Lymniza region. British aviators have bombed hostile encampments and depots near Drama and Dolra and British troops have repulsed a Bulgarian counter-attack on the Struma front.

Paris announces that a German torpedo hit and sank the French steamer Colbert in the Mediterranean on April 30, and that 51 persons, including the commander of the ship, were killed. The ship was carrying a certain number of military passengers when struck. Commander Commo, who went down with his ship, died on the first anniversary of a successful battle which he had with a submarine.

VICE-REGAL PARTY VISIT HAMILTON

Governor-General Opens the Mountain Hospital, and Party is Entertained.

Hamilton, Monday, May 21.—Another epoch in the history of Hamilton was reached Saturday afternoon, when His Excellency the Duke of Devonshire, Governor-General of Canada, officially opened the new Mount Hamilton Hospital.

Dignity and attention marked the proceedings upon his arrival. The duke, in company with Lady Maud Cavendish and their personal suite, mounted to the platform, on which were Mayor Booker and Mrs. Booker, T. H. Pratt (chairman of the hospital board), General Logie, Lt.-Col. C. R. McCullough, Col. S. C. Newburn, Col. John I. McLaren, Sir John Gibson, Bishop Clark, Mr. Mahoney, Dr. Langrill, Adam Brown, John Allan, M.L.A., W. H. Wardrop, K.C., J. H. Collinson, Mrs. W. B. Sanford and members of the city council. His excellency commented upon the site that had been chosen, and stated that any city should be proud to have the honor of erecting such an institution. He then turned to Chairman Pratt and said: "I now declare this magnificent institution open, and take great pleasure in handing you the key."

Amid applause, his excellency handed over the key to Mr. Pratt, and in turn was presented with a golden key in a plush case, facsimile of the original. Lady Maud was then presented with a huge bouquet of roses.

Mayor Most Modern Hospital. Mayor Booker, T. H. Pratt and Dr. Langrill replied briefly, during which they upheld the expenditures in connection with the institution, and stated that, when completed, it would be the most modernly equipped hospital on the continent. It will be built on the unit plan, and when all the buildings are erected, the cost will be in the neighborhood of \$2,000,000. His excellency and Lady Maud also took part in the dedication services conducted by Bishop Clark and Rev. W. H. Sedgewick, in memory of a prominent Hamiltonian who has made a noble and supreme sacrifice. The third floor was dedicated in memory of Gordon Spitham, William Carr, Fred McLaren and William McLaren, while other wards were dedicated to the following Highland boys who have fallen in action: William MacIntosh, Francis Gibson, Walter Vallance, Chester Newburn, Howard Tidwell, Waldemar Marshall, Campbell George, B. Tingling, Herbert Dohle, Gordon Fearon, Jeffrey Lynch-Stanton, Theodore Purdon, Mac and Gordon Tupper, M.C. The sun-room was dedicated to the memory of Mrs. T. H. Pratt by the W.C.U.

The kind and courteous manner of his excellency, and the gentle ways and pleasant smiles of Lady Maud, have won the deepest regard of Hamiltonians. One instance of the duke's thoughtfulness was shown just as he was preparing to return to the Royal Connacht. He was asked to pose for a picture. He graciously consented for himself and Lady Maud, and also insisted that the members of the city council should be in the group. Among some of those assisting to his excellency and Lady Maud during the public reception that was held in the Royal Connacht Hotel, it being the only evening not taken up by some function during their stay in this city, were Mayor Booker and Mrs. Booker, Sir John M. Gibson and Lady Gibson, Miss Gibson, Mrs. Hendrie, Lt.-Col. Robertson, Lt.-Col. Hendrie, Lt.-Col. Robertson, Lt.-Col. Brooks, Lt.-Col. Daley, Major Smith, Lt. Smith, Archdeacon Forrester, Rev. C. H. McIvor, Mr. and Mrs. W. H. Lovening, H. B. Whittier, Mrs. W. B. Sanford and Robert Hobson.

His excellency and Lady Maud spent a very quiet Sunday in the city, where the Very Rev. Dean Owen preached. They were accompanied by Lt.-Col. Henderson, aide-de-camp to his excellency; Capt. McIntosh, Capt. Buckley, Johnson and Capt. Mackenzie. In the afternoon his excellency was taken for a motor trip around the mountain brow and along the shore of Hamilton Bay, as far as Oakville. Mayor Booker and members of the city council were also in the party.

In the evening the duke and Lady Maud remained in the city, at the Royal Connacht Hotel, it being the only evening not taken up by some function during their stay in this city. While at the mountain sanitarium Sunday afternoon his excellency presented Major John Common with a long-service medal. The ceremony was witnessed by Mrs. Cannon, Sir John M. Gibson, Mrs. P. D. Crerar, president of the women's auxiliary of the sanitarium, and Lieut.-Col. R. A. Robertson.

SAVED FROM THE SEA.

New York, May 20.—Twelve members of the crew of the Greek steamer Parthenon, who were supposed to have perished in a small boat after their vessel was torpedoed off Fastnet on April 30, had the good luck to be picked up four days later by a British steamer, and were reported to have safely returned to New York. They were reported missing on May 14 in cable advice.

Of Interest to Men for Summer Wear

Victoria Day, the 24th of May, by virtue of its being a holiday, and usually the advance guard of warm weather, has become a sort of accepted time for men to don summer apparel. Whatever your requirements may be, you'll find the Eaton Assortments most satisfying in individual selection and value. The following are selections from the immense stocks:

Distinctive Style and Comfort in These Two-piece Summer Suits

REFINED patterns are also a notable feature of the large selections of two-piece suits, and this is apparent in all lines, whether they be \$10.00 or \$22.50. Greys are the favorites, and these are in so many shades, mixtures and patterns that almost every man can choose the serviceable grey and still choose a distinctive pattern. Homespuns, tropical tweeds, new Palm Beach cloths, flannel effects, the materials all help in making the selection more varied.

To particularize we draw special attention to suits at \$10.00 in finely woven homespuns in grey mixture, check or mottled patterns. These are made in a smart pinch back style, shaped well to waistline, which is pleated under a stitched-down half belt. A two-button model with patch pockets and no lining. Trousers are straight and narrow and have cuffs, belt loops and five pockets. Sizes, 34 to 42. Price, \$10.00.

Another at the same price is a two-piece suit in Palm Beach cloth, a firmly woven fabric, light in texture, cool and easily kept in shape. This in a medium shade of grey in three-button style with notch shape lapels, patch pockets, and in regular or stout sizes, 34 to 48. Price, \$10.00.

Cheviot-finished tweeds in handsome stripes on medium grey grounds are featured in single-breasted, two-piece suits, with patch pockets and quarter linings of lustre, at \$12.50.

Single-breasted pinch-back suits in light-weight worsted blue, with silver stripe; in mid-grey soft tweed, with black and green small check; also form-fitting saque suits in dark grey worsted, and a grey tweed with darker stripe, are four noticeable patterns in the range at \$13.50.

Pinch-back suits in a flannel-like material are shown in light grey, plain medium grey and an Oxford grey, with lighter grey thread stripe. Price, \$15.00.

American two-piece suits in latest New York styles and patterns are in cheviots, homespuns, lightweight tweeds, tropical worsteds and flannel effects. These are in plain colors, fancy mixtures and handsome stripe patterns, in fawn, stone, blue and olive shades. Semi-form-fitting and pinch-back styles. Prices, \$20.00, \$22.00 and \$22.50. —Main Floor, Queen St.

Summer Needs in the Men's Furnishings Departments

VARIETY is again the keynote in the EATON stocks of men's furnishings, providing every man with the privilege of satisfying individual tastes in the details of dress. Silk shirts promise to be a great favorite this season, and these offer many smart combinations in colors. Japanese silk shirts with light grounds have stripes of grey, mauve or blue and have lounge collar to match, breast pocket, and are in coat style. Sizes, 14 to 16½. Price, each, \$4.50.

Another line in Japanese silk have reversible collar, single band cuffs to button, breast pocket, and are obtainable in plain white or tan shade. Coat style. Sizes, 14 to 18. Price, \$2.75.

Men's Outing Shirts, made from a good quality of white duck, have neat reversible collar, soft cuffs, a breast pocket, yoke across shoulder and double sewn seams. Sizes, 14 to 18. Each, \$1.25.

Men's "Sport" Shirts of fine mercerized materials, plain white, are made with low cut neck, have long or short sleeves, breast pocket and yoke. Sizes, 14 to 17. Each, \$1.25.

Men's Khaki Shirts, made with the separate soft lounge collars, two breast pockets with flap to button, soft cuffs and are coat style. Sizes 14 to 16½. Each, \$2.00.

Men's Coatless Suspenders, made from medium weight liase webbings, in plain white, have goose-neck ends, nickel trim with adjustable buckles. Price, 50c.

Men's Leather Belts, tubular style, in black, tan and grey, are made with one tongue as buckle, two keepers, and are neatly finished. Sizes, 30 to 42. Each, 75c.

Men's Soft Lounge Collars, white silk, in plain and corded designs, stand-up-turn-down style, close-fitting front with loop, also cut-away and square corner to button down and long point style. Sizes, 13½ to 16½. Each, 25c.

Men's Wash Ties, plain and corded materials, with neat centre stripe of black, blue, purple, helle or self-colors, all four-in-hand style, with open ends. Have thin, slip-easy neckbands. Each, 50c. —Main Floor, Centre.

Motor Dust Coats

Now Available in Good Selection in Chambrays, Palm Beach Cloths, Tropical Worsteds, Grass Linens and Holland Cloth—Men's Clothing Department, Main Floor. Prices \$2.00 to \$12.50.

For the man who motors in each day to business from his Summer home—to the professional man who must step from his car to the sick-room, these garments are almost essential. And even for the average man in his run about town or the occasional run in the country they are a great convenience and save clothes. Here, then, is a list of representative values from the selection of dust coats now on display on the Main Floor. Direct entrances to the department from Queen street.

A dust coat in a grass-colored Holland cloth is single-breasted, buttons to neck, has turn-down collar, good full skirt and patch pockets. Sizes 36 to 46. Price, \$2.00.

A heavier quality, in the same color, is shown in double-breasted style with 4-inch collar. Price, \$2.75.

A silver grey and fawn chambray coat is double-breasted, as illustrated. Price, \$4.00.

A dust coat in tan shade material, after the weave of oatmeal cloth, also in fine Holland cloth, is in double-breasted style, with slash pockets and opening to inner pockets. Price, \$5.00.

Dust coats of lustre, in medium grey or plum shade, are double-breasted, with half belt at back, slash pockets and opening to inner clothes. Price, \$7.50.

The Men Have Summer Footwear Needs—And We Are Ready to Fill Them

Representative Styles and Values in the New Display of Men's Straw Hats

THE season of heavy boots closes with the 24th of May, but even before the holiday our customers have been selecting their summer boots and Oxfords from our big, new stocks. Here are some of the styles we have to show you now:

Men's Packard Oxfords at \$8.50
This American make has an undisputed position because of the uniformly high quality of materials and workmanship employed. The models are extremely attractive. One like the illustration in chocolate brown calf, with Goodyear welted soles, recede toe and wide heel. Sizes, 5½ to 10; widths, A to E. At \$8.50.

A Wide Toe Eaton Oxford at \$7.00
This is also in dark brown calf, but instead of the narrow toe it swings out at the side to accommodate the foot. This is a popular, comfortable last for warm weather. (Also in black.) Sizes, 5½ to 10½. At \$7.00.

Howard and Foster Oxfords at \$9.00
The wing toe capped sport last is the season's greatest novelty. Done in Havana brown calf, these smart American-made shoes are offered in all sizes and widths; also in black and lighter tan. Price, \$9.00.

Straight Last Oxfords in Dongola, London Last, \$6.50
"Eaton's" Brand low shoes are made up on this comfortable last, with fine Goodyear welted soles and low, square heels. Sizes 5½ to 10½; widths, D to E. \$6.50.

White Canvas Boots at \$3.00 and \$3.50
These are medium toe lasts, built on the lines of leather boots. Blucher cut and fitted with Goodyear welted soles of leather in the \$3.00 grade and of white rubber in the \$3.50 grade. Corresponding Oxfords at \$2.55 and \$2.90. —Second Floor, Queen St.

\$3.00 — A fedora crown Panama, with flip brim, to be worn turned down, made from white fibre.

\$4.25 — This is a very special value in a fedora Panama, made of a clean white fibre with rope edges, brim slightly dipped in front and back, and trimmed with fancy Palm Beach band.

\$5.00 — An English-made boater, made from fancy straw, with 5-inch crown and 2 1/8-inch brim, black corded ribbon and hat-guard.

\$2.00 — A fine grade Panama Hat, very finely woven, with hollow or semi-telescope crown and flexible brim that can be worn up or down as desired.

\$2.00 — An English-made Sennit boater, with 5 1/8-inch crown and 2-inch brim, trimmed with black silk ribbon and with hat-guard attached.

\$5.00 — A nicely-balanced hat of bleached Panama, with fedora crown, with brim to be worn dipped in front if desired.

Boaters or sailor hats in sennit and split braids, Panama hats in many new becoming shapes, including one in a sailor shape, also many straw hats in various shapes in fedora shape, with different widths of brims—these are some of the most noticeable styles in the immense selection of straws in the Men's Hat Section in readiness for the opening of the season. The values are such as will pay any man to investigate before he buys his new hat. These hats illustrated are but a few of the styles, but give an idea of the prominent lines and values.

Early Closing During MAY, June, July, August and SEPTEMBER, Store Closes at 1 p.m. Saturdays. No Noon Delivery on Saturdays. **Saturday at 1 p.m.**

\$5.00 — This Panama boater is sure to be a big favorite, as it combines lightness with neatness, has 5 1/8-inch crown and 2 3/8-inch brim. —Main Floor, James St.

STORM DAMAGES IN MANY PLACES

Lightning Causes Bad Fire in Front Street Factory Building.

BLAZE AT MARKHAM

Woolen Mills There Completely Destroyed as Result of Conflagration.

Fire caused by lightning striking an electric wire leading into the premises did \$25,000 damage to the three-story building at 104 East Front street, occupied by the Turner Company, and the Dale Wax Figure Company.

The basement and ground floor is occupied by the Turner Company, and several thousand dollars' worth of fermented and unfermented wines were in stock.

Chief Smith arrived on the scene soon after the first alarm. The flames and dense clouds of smoke made it almost impossible for the men to enter the building. Six lines of hose were laid and the high pressure was put on by the waterworks.

TWO MEN DROWN IN SATURDAY'S STORM

Harry Smith and Harold Mawson Lose Their Lives in Hamilton Bay.

Hamilton, Monday, May 21.—Hamilton bay claimed two more victims during the severe rain and wind storm that swept over this city Saturday night.

The men noticed the storm coming when opposite station 9, but in running for shelter were captured. They climbed into the tender, but the force of the waves turned it over also.

TWO BARN BURNED

Special to The Toronto World. St. Thomas, May 20.—A terrific rain and electric storm visited this district last evening.

These developments throw a new light on many events before the war. Among them is the long unexplained decision of Emperor William at Damascus in 1898 that all Mohammedans might confidently regard the German emperor as "their friend forever."

BRITISH SOLDIERS ENTERING PERONNE

This picture represents one of the outstanding incidents in this year's advance against the German lines. It is one of the dramatic scenes of the fighting so far, and it is one of many similar views that will be shown here in the new war films that are soon to be shown in this city under the auspices of The Toronto World.

AUSTRIA MAY BE FELD OF GREAT OPERATIONS

To Win War Allies Must Impose Barrier Between Berlin and Constantinople, Washington Believes—To Foil German Plans.

Washington, May 20.—Germany's success in 1919 an opening for next year's declaration, expected to suggest a program of territorial re-annexation on the east and west, is regarded here as largely answered beforehand by information revealing for the first time the full scope of the imperial government's aspirations for conquest in the south.

A full realization of this situation, which will form a sinister background for consideration of whatever renunciation proposals the imperial chancellor may make, adds a new force to the repeated declarations of allied statesmen that the German peace manoeuvres in reality war moves and that a premature truce only would give Germany a resting period in which to further Prussianize and prepare for a greater world war.

Information gathered by alert American agents abroad, who have been watching the various peace moves and studying the motives behind them, have supplied the explanation of many hitherto obscure features of the German policy.

In her southeastern conquests it is now apparent that Germany has followed almost to the letter the plan of the pan-German league, whose policy has been regarded as the policy of extremists.

As early as 1911 the pan-German league is said to have circulated a definite propaganda with printed appeals to contain the rays of great Germany, whose way southeastward thru Asiatic Turkey was marked out by boundaries virtually coincident with the military lines held today under German officers, by the troops of Germany, Austria-Hungary, Bulgaria, and Turkey.

Following the policy of Bismarck, Emperor William chose war as the means of establishing the broad pathway to the southeast, which was essential for realization of the dream of a great Germany.

The subjugation of Austria-Hungary, which would have presented a difficult task under ordinary conditions, became in these circumstances comparatively simple. A polyglot combination of states, having little in common, and apparently held together only by the decaying genius of an aged emperor, Franz Josef, the dual monarchy was regarded everywhere as on the verge of dissolution.

These developments throw a new light on many events before the war. Among them is the long unexplained decision of Emperor William at Damascus in 1898 that all Mohammedans might confidently regard the German emperor as "their friend forever."

allied democracies and the consciousness of the duties that these ties imposed on her.

"I note with deep satisfaction," he continued, "that in free Russia, despite our diversity of views, there is no party, no single organization capable of carrying on propaganda in favor of separate peace. There is in this question which still lingers the passion—namely, the question of the treaties concluded by the regime, the immediate publication of which is demanded. This, I am convinced, is a mistaken demand. New Russia must look forward, not behind."

"There are two great new facts in the war, the Russian revolution and the entry of the United States. A new start must be made from these facts and new Russia must fulfill the engagements she entered upon with the allies. The army will understand that it is fighting for all it holds most dear, and that defeat will annihilate our new-found liberty and new life."

GERMANY'S DESCENT

Natural Consequence of Belief She Had Reached Highest Possible Point.

Rev. A. E. Ribourg, D.D., preached yesterday evening at St. Alban's Cathedral on "The Ascension of Christ and the Ascent of Man."

"The ascension of Christ was the starting point of the apostles' ascension to new ideals, and the apostles' ascension was the starting point of the work of ascension, which by the system of education, has brought its people to a point where they could no longer ascend. The German people have been made to think that their culture was the 'plus ultra' of civilization and could not be improved, but should be imposed at once as the standard and ideal of the whole world."

"We contemplated today the shameful spectacle of a nation, which by its system of education, has brought its people to a point where they could no longer ascend. The German people have been made to think that their culture was the 'plus ultra' of civilization and could not be improved, but should be imposed at once as the standard and ideal of the whole world."

"Men and nations cannot stop seeking the things which are above the ideal things, the highest things, for if they do not go forward, upward, they stagnate or go backward. When men cease to fix their ideals high, and are contenting themselves with respectable mediocrity, aiming only at that which is easy of attainment, they are surely preparing the way for the impoverishment of human life and the degradation of human character."

Labor and Conscription.

Opposition to conscription from an unexpected quarter continues to come. Mr. James Simpson is to be credited with organized labor. In an interview given as vice-president of the Trades and Labor Congress of Canada and a member of the executive council he announced "uncompromising opposition to conscription."

It is ten per cent. of our men give up their lives, it would be far from an equivalent to ask the wealthy to give ten per cent. of their wealth. The proper proportion should be determined and assessed on those who have gold to give instead of blood.

LABOR AND CONSCRIPTION.

God save our gracious King, Long live our noble King, God save the King! Send him victorious, Happy and glorious, Long to reign over us, Long to reign over us.

LET BORDEN FINISH CANADA'S WORK.

Let Us Pool Our Treasures.

There should be no dissent about the program put forward by a contemporary, which we quote elsewhere, that the next steps to be taken by the government are the appointment of a food controller, a minister of shipbuilding, and the nationalization of the railways on the lines of the Acworth-Drayton report.

PAYING THE PRICE

By opposition it is of a conditional nature. There is one more point upon which action is needed. Something has already been done, but not enough, and nothing like as much as France and Britain and the United States, to say nothing of Germany, have thought necessary for the welfare of the people.

A great deal has been made of the national loan, but there is no sacrifice in loaning one's money on the highest security at 5 1/2 per cent. No man who has invested his money in this way should think he is in the class of those who are making real sacrifices.

Seagram Horses Run 1-3 In the 58th King's Plate

Only Two Favorites Finish in Front On Opening Day at Woodbine Park Rancher and Belle Mahone Were the First Choices, Gala Water Third and Storm Bound, Fountain Fay, Royal Spinner and Queen of the Sea Long Shots.

The fifty-eighth King's Plate is now a matter of history and again the honors go to the president of Woodbine, whose horse ran 1-3 on Saturday, with Belle Mahone second, in between. Belle Mahone equaled the record for the race, 2:08.4, held by St. Bass. The Woodbine record for 1 1/2 miles is 2:04.1-5, made by St. Bass May 27, 1911.

Saturday was ideal for racing, the weather not too hot and not too cold. The storms that broke just after the running of the seventh race did not interrupt the racing, but the rain was even with difficulty and nearly all on the back stretch.

The attendance was probably a record and is estimated at between twelve and fifteen thousand. The members' enclosure than at any other time in the history of Woodbine Park.

The opener was a great day for Canada, six of the seven races being won by thoroughbreds from Ontario. The notable George Herdina in the lot. He won two, as also did Mr. Seagram, the Duke and Johnnie Groves.

Only two races went to Woodstock. The first was the 2-year-old race, in which Belle Mahone and Storm Bound were the only favorites. Belle Mahone was the only horse to finish in the front, with Storm Bound second. The rest of the race was a long and hard run.

ALL HOME BAKERS SHOULD COMPETE

World Competition Takes Place This Week. SEE FILM AT LOEW'S Will Judge Loaves Daily-Valuable Cash Prizes.

Don't forget that this is the week of the bread-making competition to be put on by The Toronto World. It is also the week when bread making in its entire process will be shown thru the film at Loew's Theatre.

Home-made bread has many things to commend it. There are some who go so far as to state that pound of good bread has more nutritive qualities than a pound of flesh meat.

Interests vary according to time, place and position, but there is no variation in the interest which bread making should have in the mind of every housekeeper who places her home and those in it above every other worldly consideration.

The judges will be Miss Margaret Davidson, head of the department of domestic science at the Central Technical School; Mrs. Burns, now so well-known in Toronto thru her many demonstrations in cooking, which have been put on under the auspices of the women's thrift committee; Miss Church, secretary of that committee, and sister of Mayor Church; Mrs.

ITALIAN FLAG DAY HERE TOMORROW

Toronto Citizens Will Have Opportunity to Help Gallant Ally.

Toronto, the generous and the patriotic, will tomorrow turn her eyes and her efforts toward the effective and encouraging campaign being waged by gallant Italy. At this serious time, while civilization waits for Russian reorganization and the rapidly moving preparations of the United States and watches the progress of the German-led Austrian foe.

All Canada, extends appreciative good wishes to Toronto on her "Italian day." Victor E. Glanville, the local Italian consul, Saturday received cordial and encouraging messages from some of the Dominion's leading statesmen.

Italian Soldiers Are Worthy. Sir Robert Borden, the prime minister, sent the following greeting: "My sincere sympathy is with you in your efforts to assist the gallant soldiers of your country and our ally. The soldiers of Italy have proven their courage and worth in the desperate struggle for the maintenance of liberty and civilization."

Under the leadership of Miss Bertha Archibald the 25 companies of the girl guides attended the meeting, presenting a pleasing sight in their uniforms of blue and white. The dias was well filled with bouquets of flowers, which were later taken by the girls to the different hospitals of the city.

TEAMSTERS' STRIKE

No settlement has as yet been reached between the 400 striking teamsters and the transport companies. A meeting on Saturday afternoon between representatives of the teamsters and their employers resulted in an offer of \$45 per month straight pay being refused by the men, who are holding out for \$70 per month. A meeting of the strikers is being held in the Laborers' Institute this morning.

"The Crisis," an elaborate photoplay, following closely the story told in Winston Churchill's famous novel, "The Crisis," is to be presented at the Strand Theatre today, tomorrow and Wednesday. The photoplay, which is to be presented at the Strand Theatre today, tomorrow and Wednesday, is a photoplay which combines a detective plot with a romantic love story. Frederick takes the part of the hero, a deeply wronged woman, whom her enemies seek to rob of the custody of her dearly-loved child.

THE HIPPODROME. Every blonde young woman who aspires to a stage career will be given an opportunity to display her ability by Catherine Crawford, who headlines the bill at the Hippodrome this week. The conditions of the contest will be explained at the matinees. The famous "The Angles" star, William S. Hart, will be featured in "The Desert Man." Suzanne Rocromora will sing a number of classical songs and the latest popular selections. Fin and Finn; Burke and Harris; Jack and Jessie Gibson; Georgia Earle and company in "Back Again," and "Koyotone" film comedies complete the bill.

Conscription, National Transportation, Food Dictatorship, and More Ginger All Round

Speech of W. F. Maclean of South York in the House of Commons

Ottawa, May 18.—Sir Robert Borden in the house of commons this afternoon spoke of the transactions of the imperial war conference and closed by advocating conscription in Canada. The debate was resumed after a brief interval.

Mr. W. F. Maclean (South York): Mr. Speaker, I wish to say a word or two with regard to what took place this afternoon and in regard to the discussion and what are the great issues at stake in this country.

In the first place, I desire to congratulate the right hon. the prime minister (Sir Robert Borden) and the government on coming to the decision that conscription must be resorted to in Canada in order that we may do our full share in this war.

The decision is somewhat delayed. I believe the people of Canada will appreciate the final determination at which the government has arrived. Certainly this policy will be appreciated in my own province and, I think, all over the Dominion.

What I would like the government to do now is to declare for conscription, to do so vigorously and to do what the United States are doing. Conscription is practically in force there today, or will be as soon as the president signs the bill.

There are one or two other things in which we want a great deal more ginger in the policy of the government. Mr. Pugsley, I hear, has said that the prime minister this afternoon said that he was surprised to learn of the experience of a friend of his who was told in Germany by a business man how much the Germans knew of the stores of iron ore in Belle Isle, off the coast of Newfoundland.

CROP PROSPECTS ENCOURAGE WEST

Growth Has Been Remarkable During the Past Ten Days.

Regina, Sask., May 19.—The department of agriculture has obtained a number of reports on the progress of the seeding and the condition of the crop at the present time. It is estimated that ninety-five per cent of the wheat seeding is finished, and the rest of the province will be practically all wheat in the ground.

Live stock as a rule wintered well, altho the long winter and wet and cold spring has resulted in cattle being in poorer condition than usual, and in some districts the calf crop will be smaller than usual.

The Stratford council took over a cargo of New Brunswick potatoes and retailed them at \$4.50 per bag delivered to citizens needing seed.

Monday morning the board of control of the city had faced the problem of the increasing debt of the city of Toronto. Controller Cameron has advised the erecting of a large pigery.

Live hogs continue to come to the Markdale market in large quantities. Last Thursday one farmer, after unloading back home for another load, not being able to fetch all in first load, took a second load to Fred Gray.

At the city farm on Yonge street, under competent management, a demonstration of the practical value of the use of the leavings on the tables of the hotels, restaurants, dining-rooms and the family table, together with spoilt food in cold storage and retail stores that is handled by city employees, can be made a yearly source of revenue.

Charles White has disposed of his 200-acre block of timber near Jaffa to a Hamilton firm for \$15,000. W. Cleaver, who has occupied the land for 25 years, has purchased the 125-acre farm from William Roberts at Little Aylmer for \$15,000.

SOME BREEZY ITEMS FROM PRINCE EDWARD ISLAND.

WOMEN WHO PLOW.

Potatoes are still bringing \$1.60 per bushel in the Summerside markets. Hay is very scarce, and unless those who have more than they need "loose up" some farmers in this province are apt to suffer before the new hay is ready to cut.

The national service meeting to promote "food production" held at Yarmouth, N.S., has taken place at the farm and garden work. The speakers seemed entirely unaware of the fact that Yarmouth's interests are those of a potato grower.

The World has wrought for weeks past to encourage the catching, curing, and marketing of fish.

The crop of wheat in Victoria, Australia, is now officially estimated at 6,250,000 quarters. This is an increase of 250,000 quarters over the earlier estimate of 5,000,000 quarters.

That Hemorrhoids, or Piles, Can Be Completely Cured Read These Letters—Both Are Sworn Statements.

Mr. Samuel Parker, fruit grower, Grimsby, Ont., has made the following declaration before Mr. W. W. Kidd, Notary Public of the same place: "I do solemnly declare that I was troubled with bleeding piles and was advised to go to the hospital for an operation performed. My wife said: 'No, get a box of Dr. Chase's Ointment.' I did so and was cured."

Mr. Donald M. Campbell, Campbell, N.S., writes: "I have been troubled with hemorrhoids or piles of fifteen years' standing. After trying all the remedies, I purchased a box of Dr. Chase's Ointment and was cured."

MARKETING LIVE STOCK AT OUR CENTRAL MARKETS.

It is not our intention to enter into the merits or demerits of co-operation as a principle, but co-operation applied to the marketing of cattle, sheep and hogs has accompanied so much in the short time of its application that it must inevitably be the theme of any article on improved marketing methods.

The western live stock owes a debt to those who established and maintained it in the face of unusual reverses and misfortunes, due to pioneer conditions of transportation, unorganized markets, and to financial difficulties inherent to the development of a new country.

There was an Australian woman who handled horses with ease and made a well-packed furrow. The crowd of spectators was increased in the afternoon by Canadians from a neighboring camp, who appeared much interested in seeing women do much of the work that is largely done by machinery in Canada.

The officers of the United Farmers' Co-operative Company, Ltd., are busy engaged each working day in new clean buildings at the corner of St. Lawrence Street, opposite the old St. Lawrence Market.

The articles deal in at the present time are: Binder twine, salt, mill feeds, grain, produce, live stock, cement, coal, implements and vehicles.

London.—Developments on an enormous scale are expected in South Africa after the war, and plans in this connection are now being made as regards the export of food.

Now that public attention is directed to the cost of the three chief cereals, and the different weights represented by a "quarter," which the food controller gives may not be borne in mind, such a statement as "Wheat 85s. 2d. per quarter, barley 2-1s. 10d. and oat 5s. 2d. per quarter" may give the impression that more might be charged for wheat than for barley, and for barley than for oats.

The Canadian farmer and housewife will understand that in the British Isles the dearest grain is oats at present time.

Around the Farm

Very workmanlike they looked with their heavy shoes, their uncompromising gaunters, and their dreadnought smocks—the Surrey women who took part in the farm competitions on April 18. They met on the farm of W. E. Horne, M.P., at Shuckborough near Godwin, and all through the damp afternoon they plowed, harrowed, hoed, cleaned wurzels, fed calves, milked and killed poultry.

There were 128 entries in the various competitions, and 120 of these put in an appearance. The women who handled horses with ease and made a well-packed furrow.

SPAIN'S NEW DEMAND

Madrid, via Paris, May 20. - The Spanish Government's note to Germany concerning the attack by a German submarine on the Spanish steamer Patrio, recalls that a number of notes of protest previously addressed to the German Government were made unanswered. It declares that the transaction of all diplomatic business with Germany will be suspended until replies are received to these, and also demands the fulfillment of conditions agreed upon by the German Government to prevent unprovoked attacks by its submarines on Spanish shipping in safety zones, and asks for an indemnity for the Patrio.

SPAIN LEANS TO ALLIES

Food Production and Thrift

WARNING AGAINST USE OF MANCHURIA BEANS
Burrell Says Good Results From Planting in Canada Are Improbable.

By a Staff Reporter. Ottawa, May 20. - In connection with an announcement by Hon. Martin Burrell, a plan to increase the production of beans in Canada, the minister of agriculture issues a warning to the farmers of the country against using beans imported from Manchuria for planting in this climate. Large quantities of small white beans from Japan and Manchuria have been imported and distributed for food by wholesale grocers, and there is reason to believe that considerable seedling has been done with these varieties, which may not be suitable for the Canadian climate. The department, as a result of an investigation that has been conducted, finds that while the beans are not poisonous, the result that 8,000 bushels now in hand, and as much more as may be required, are being held for seed purposes until after the middle of June. The canning companies being desirous of increasing the production of beans are making available their supplies of actual net cost to them. They will not enter into the retail trade, but will make bulk sales to the canning companies with the result that 8,000 bushels now in hand, and as much more as may be required, are being held for seed purposes until after the middle of June. CHATHAM RATEPAYERS LOWER MARKET PRICES

Municipal Purchasing Board Does Thriving Trade at Greatly Reduced Prices. Special to The Toronto World. Chatham, May 19. - The local market this morning was the scene of the keenest activity in recent years, when the municipal purchasing board undertook to reduce the present high cost of commodities by offering large quantities of potatoes, butter and flour at greatly reduced prices. Within a short time after the civic stall was opened 75 bushels of potatoes, 200 pounds of butter, and one ton of flour were disposed of at \$5.70 a cwt., or \$1.10 less than the market price. Flour was sold at ninety cents a bushel, and butter at a reduction of nine cents a pound. The enactment of a measure requiring the vendors to sell fowl and other produce by weight, which measure went into effect today, has caused considerable criticism among the regular vendors, who threaten to boycott the market if it is not rescinded.

POULTRY MEN WILL HELP.

Special to The Toronto World. Guelph, May 20. - As an encouragement to the production of more poultry in this city the Guelph Poultry Association, which has a large membership, has made a most favorable offer of assistance. They will provide settings of eggs for fifty cents a dozen and brood hens at \$2.50. These offers will be taken advantage of by a large number of people during the next week or two.

WOODSTOCK MARKETS.

Special to The Toronto World. Woodstock, May 20. - The local market for produce was very active today. Wheat dropped from \$2.75 to \$2.25. Other prices: Eggs, 40 cents a dozen; butter, 42 to 45 cents; hogs, live, \$15.50.

JACKSON'S ARREST STIRS BROCKVILLE

Former New York Police Sergeant Accused of Jewelry Thefts. Brockville, Ont., May 20. - George W. Jackson, a former police sergeant of New York City, well-known in Brockville for several years as George Aunro, is at the local police station awaiting the arrival tomorrow of police officers from New York to investigate a charge of grand larceny, involving the disappearance of jewelry valued at \$3,000. He was arrested by Chief Burke after an intimation from the immigration authorities at Odgenburg, N. Y., who had reason to believe that the man they wanted was here. He came to Brockville about four years ago and became prominent in sporting circles, being a baseball player of more than local reputation and manager of the local baseball club. He seemed well provided with money, and was being watched by the police. He was arrested by Chief Burke after an intimation from the immigration authorities at Odgenburg, N. Y., who had reason to believe that the man they wanted was here.

SAVATIONISTS HOLD SELF-DENIAL MEETINGS

ITALIANS ENLARGED PLAVA BRIDGEHEAD

Austrians Admit Loss in the Fighting Along Isonzo River. Vienna, May 19, via London, May 20. - The official communiqué issued today from Austria-Hungarian general headquarters reads: "Yesterday, the seventh day of the tenth Isonzo battle, again was full of fierce fighting. Southwest of the Italians, who had gained a footing here on the left bank of the Isonzo, fruitlessly attempted to extend their position. Our lines east of the narrow Plava-Saleuno Valley were unharmed, and the enemy's fire from guns of all calibers. "The Italian infantry, whose heavy losses are continuously made good by supplies of fresh troops, directed their efforts here principally against the heights of Vodice, against which they made repeated dashes in dense columns. Each time these dashes collapsed sanguinarily, thanks to the bravery of the defenders, brilliantly supported by the artillery and the sappers who participated in the battle. The Austrian praise is due to the detachment of the Kassa infantry regiment, Kaiser Wilhelm II. infantry regiment No. 24, 7th Grenadier Landwehr infantry regiment No. 32, under command of the gallant Col. Föner, and Austro-Hungarian Landwehr battalion, No. 40. "The enemy shot down in air fights two enemy airplanes, and a third was brought down by small arms fire near Verbovca. As a result of the fighting, which already has lasted one week, the Italians try to the present week, succeeded only in extending their bridgehead positions near Plava by twenty kilometers. "In the Plavch-Ploekend district and in several sectors of the Tyrolean front reciprocal artillery firing increased considerably in violence. In the southern Tyrol near Lagid and the Borola Pass our reconnoitering detachments penetrated the enemy positions and captured their parties. "East of Gorizia (Isonzo front) the Italians again attempted to penetrate our positions without artillery preparation. The result was a heavy loss to the enemy. Our positions were maintained completely. Lively skirmishing in this sector during the night. In the results of the fighting by us 150 prisoners, including two officers, were taken.

FIGHTING GETS LIGHTER ON MACEDONIAN FRONT

Two Allied Destroyers Bombard Mangalia on Rumanian Front. Sofia, Bulgaria, May 19, via London, May 20. - An official statement issued today by the Bulgarian war department said: "Macedonian front: After the sanguinary defeat and heavy losses which our enemies suffered between May 16 and May 17 in fruitless attacks by day and night, the fighting activity was relatively lighter today. The artillery fighting occasionally became intense at various points. "The Rumanian front: Two enemy destroyers bombarded Mangalia. They were driven away by our coast artillery and seaplanes."

WHEAT TUMPS UP TWELVE POINTS

Overselling of Chicago Market Results in Sharp Upturn.

Chicago, May 20.—Sellers of wheat overreached themselves Saturday trying to profit by a report that European governments were unloading holdings of grain in liquidation developed and the evidence of a moderate decline went so far as to tempt some speculators to take advantage of the market by buying higher with July 8 and September 9 contracts. The wheat market had been steadily overvalued. The fact that the volume of business in the pit was the smallest since the war and that the market was so ready to sell which was not unusual. Only a little group of half a dozen speculators were required to attend to these contracts, and a steady stream of orders were being received to these contracts, until a steady stream of orders were being received to these contracts, until a steady stream of orders were being received to these contracts.

WINNIPEG WHEAT MARKET

Winnipeg, May 19.—The morning was a dull one, the duller the trade has been for a long time, so far as volume of trade was concerned, but a wild one in the afternoon, when the market opened after ten o'clock, but after once started it showed a wide range, selling up to 22.25 and closing 14 1/2 higher than on Friday.

INDUSTRIAL TRADING

The cash situation was interesting in that it showed quite a keen demand by some of the mills for wheat. When the agreement between the principal local and shorts was being worked out, two weeks ago, the mills did not want to be bound to take delivery of wheat in May and June on July contracts, stating that they rarely wanted wheat in these months, and while they might want to take some, they did not wish to be bound and pay the privileges for the advanced government and the agreement was finally made on that basis, the government agent agreeing to help out the mills, but some doing 14 1/2 higher than there does not appear to be any plethora of wheat to satisfy this demand. Winnipeg may be closed 2 1/2 higher, July closed 1 1/2 higher, and Oct. closed 1 1/2 higher. Barley closed 1/2 higher, 1 1/2 higher. May 15c higher, July 15c higher.

EVERYBODY BUYS COAL

Special to The Toronto World. Cobourg, May 20.—The Cobourg Board of Trade, which has been looking into the coal situation both locally and otherwise, has come to the conclusion that the only justification for the present high prices is that all over the country the consumers of coal have become panic-stricken and are frantically trying to purchase coal at almost any price.

YOUR CHANCE—THE WEST IS CALLING.

Home-seekers' excursions to Western Canada at low fares via Canadian Pacific, each Tuesday until October 31, inclusive. Particulars from any Canadian Pacific Agent or W. B. Howard, District Passenger Agent, Toronto.

LIGHTNING FATALITY AT ESSEX.

Special to The Toronto World. Essex, May 20.—In the heavy rainstorm, accompanied by thunder and severe lightning, which passed over this section last evening about five o'clock, the tower of James Street Methodist Church was struck and some brickwork was torn from the west side. Samuel Hicks, a well-known farmer of the Township of Usborne, who resided about a mile and a quarter east of Centuria, was struck and instantly killed while standing in the doorway of the barn. He was aged 67. Besides this wife he is survived by two sons and two daughters.

GIVEN CABINET OF SILVER.

Kingston, May 20.—W. S. R. Murch, past grand first principal of the grand chapter of Royal Arch Masons of Canada, was presented with a cabinet of silver in recognition of his services in that position for two years. Henry T. Smith of Toronto made the presentation. Other taking part were F. Hopkins, K.C., Toronto, and Col. Pennington, of Belleville.

ANOTHER BREAD BOOST.

Special to The Toronto World. Galt, May 20.—While it was only May 7 that local bakers advanced the price of bread to 10 cents, they announce that tomorrow bread will be 12 cents a loaf, and refer to the fact that this has been the price in many cities for the past week. Reasons given for the latest advance are the high cost of flour and other ingredients and increased cost of manufacturing and delivery.

This Applies for the Month of May Only

The Man Who Lost One Hill of Corn Out of Every Five Did Not Test His Seed Before He Planted It

—Thus do we see verified the truth of that proverb. "Ye shall reap as ye sow."

Before Simpson's asks you to accept this or that suit as good value, it tests them carefully to make assurance doubly sure that each is well made—that the materials are right—that style is proper—that finish and workmanship are up to standard.

That's why we are reaping such benefits in the way of an increased men's and young men's business.
