MEETING OF PARLIAMENT ON THURSDAY, FEBRUARY 26, IS OFFICIALLY ANNOUNCED

Expect Four-Month Session, But That Premier Will Not Return to Ottawa Until After Prorogation—Hume Cronyn Will Move and Alex. McGregor Will Second Reply to Throne Speech.

Ottawa, Jan. 8.—Sir George Foster, acting prime minister, at four o'clock this afternoon made the definite announcement thru the Canadian Press Limited that parliament will meet for the transaction of business on Thursday, February 26. He stated that in all probability the address in reply to the speech from the throne, to dispose of which is the first business of parliament, will be moved by Hume Cronyn, M.P. for London, and seconded by Alexander McGregor, member for Pictou.

The choice of February 26 as the date on which parliament will convene does not cause any surprise at Ottawa because it has been generally understood for some time past that the house would meet during the third week in February and that the choice almost invariably falls upon a Thursday. This allows for the preliminary being disposed of on Thursday and Friday and clears the decks for the opening of the formal debate on the address on the following Monday.

It is regarded as altogether likely that this debate will occupy several days. It will afford Hon. W. L. Mackenzie King his first opportunity as Liberal leader in the commons to deal with political questions in a general way. It will be recalled that when Mr. King entered the commons to take the oath of office on the 22nd of December he did not replace Mr. D. D. McKenzie as Liberal leader in the commons.

Lifting of Embargo Does Not Greatly Aid Wheat Sale to U. S. Ottawa, Jan. 8.—(Special.)—Canadian wheat sales in the United States since the embargo was lifted have been much less than was anticipated. The embargo was raised on November 15 and during the remainder of that month there was shipped to the United States 458,262 bushels, valued at \$1,421,441, and during December 1,190,807 bushels, valued at \$2,590,505.

U. S. GENERAL STAFF WARMLY CRITICIZED

Brigadier-General Claims Lives Were Sacrificed on Day of Armistice. Washington, Jan. 8.—Lives of American troops were needlessly sacrificed on armistice morning because the American high command at Chaumont did not specifically revoke previously issued orders to attack. Brigadier-General John H. Sherburne, former commander of the artillery brigade of the 32nd (negro) division, today told a house sub-committee, General Sherburne strongly condemned the methods of what he referred to as the "general staff gang" at Chaumont, criticizing particularly a "dominating triumvirate" of the corps division and brigade commanders stood in such "pitiful fear" of the Chaumont staff that they did not dare, in most cases, to revoke on their own authority the order to attack on Nov. 11 even though they knew to a moral certainty that an armistice had been signed.

LIST IS REDUCED OF WAR CRIMINALS

London, Jan. 8.—The list of war criminals to be demanded for trial has been considerably revised and reduced from the originally proposed twelve hundred to about three hundred, according to The Daily News.

NEW SUGAR PRICE IS SIXTEEN CENTS

Commerce Board Fixes Retail Figure for Next Three Months. SAYS RISE UNAVOIDABLE. Canadian Press Despatch. Ottawa, Jan. 8.—The board of commerce today issued a statement as to its reasons for rescinding the order for limitation of sugar profits, made last September, and for the issue of a new order fixing a maximum retail price for sugar and making the same price of 16c per pound at retail applicable throughout Canada.

Neither United States nor Canadian refiners can control the situation. It is due to the advanced cost of raw sugar which is produced, so far as Canada's supplies for refined are concerned, in Cuba and other islands and other warm countries. Canada's best sugar production is only about one and one-quarter per cent of Canada's refined sugar output.

RUNNING FUSILLADE ENDS IN CAPTURE OF BANDIT AND FOUR ALIEN SUSPECTS

Rapid Work of Police Leads to Arrest of Five Alleged Highwaymen Within Few Minutes of Hold-Ups—Constable Naylor Distinguishes Himself. With the arrest of five men last night the Toronto police department believe that they have at last succeeded in breaking up the gang of hold-up men who for the last month or so have been terrorizing the city with a reign of outlawry that has no parallel in its history. That these men were captured last night is due almost without exception to the magnificent team work of the force and some exceedingly smart work on the part of some individuals.

PREDICTS FARMERS' POLITICAL SUCCESS ALL OVER CANADA

Quebec Delegate to Brandon Convention Arouses Enthusiasm. RE-ELECT J. L. BROWN. Brandon, Jan. 8.—"In the near future we will see the farmers of the west of Ontario and of Quebec and the maritime provinces united to make a good Canada for Canadians," said J. A. Caron of Quebec, a director of the United Farmers of that province, addressing the United Farmers of Manitoba here this afternoon.

Prince Will Visit Canada in Fall

Calgary, Alta., Jan. 8.—The Prince of Wales is determined to visit his ranch in Alberta during the coming fall on his way back from India, he told Prof. Carlyle of Calgary, who has just returned from England, where he made arrangements for the shipment to the ranch of thoroughbred Dartmoor ponies, which the prince is introducing to Alberta, also thoroughbred Shorthorn cattle and Shropshire sheep. The name of the ranch has been fixed by the prince as "The E. P. Ranch."

London, Jan. 8.—England needs to be rebuilt, to meet successfully the housing need. This was the opinion expressed today by Viscount Astor, parliamentary secretary to the health ministry, before the Society of Architects. The country needs not the half-million houses so often spoken of, but 800,000.

MANITOBA ELECTION THIRD WEEK JULY

Premier Norris Says Twenty-Fifth of Month Likely Date. Winnipeg, Jan. 8.—Hon. Edward Brown, provincial treasurer, stated that the Manitoba provincial elections will probably take place the third week of next July. The term of the provincial government automatically expires August 6, 1920.

SENATE COMPROMISE IS NOW IMPOSSIBLE

Washington, Jan. 8.—Senator Lodge of Massachusetts, the Republican leader, declared in a statement tonight that he feared President Wilson's Jackson Day message had made impossible the hope that in the senate we might have come together and ratified the treaty protected by the principles set forth in the fourteen reservations.

Red, Floor,

Unmistakable evidences of public opinion given during my visit to seventeen of the States. I have endeavored to make it plain that if the senate wishes to know what the undoubted meaning of the league is, I shall have no objection. There can be no reasonable objection to interpretations accompanying the act of ratification itself. But when the treaty is acted upon, I must know whether it means that we have ratified or rejected it. Cannot rewrite the treaty. We cannot rewrite it without changing its meaning or leave it and then after the rest of the world has signed it, we must face the unthinkable task of making another and separate kind of treaty with Germany. But no mere assertions with regard to the wish and opinion of the country are credited. If there is any doubt as to what the people of the country think of this vital matter, the clear and simple way out is to submit it for determination at the next election to the voters of the nation to give the next election the form of a great and solemn referendum, a referendum as to the part the United States is to play in completing the settlement of the war and in the prevention of the future of such a settlement as Germany attempted to perpetrate. We have no more moral right to refuse now to take part in the execution of the settlement of these settlements than we had to refuse to take part in the fighting of the last few weeks of the war which brought victory and made it possible to dictate to Germany what the settlements should be. Our fidelity to our associates in the war is in question, and the whole future of mankind. It will be heartening to the people to know the attitude of the purpose of the people of the United States.

Spiritual Leadership of U. S.
I spoke just now of the spiritual leadership of the United States, thinking of international affairs. But there is another spiritual leadership which is open to us and which we can assume. The world has been made safe for democracy, but democracy has not been finally vindicated. All sorts of crimes are being committed in its name, all sorts of preposterous perversions of its doctrines and practices are being practiced. This, in my judgment, is to be the great privilege of the democracy of the United States, to show that it can lead the way in the solution of the great social and industrial problems of our time and lead the way to a happy settled order of life as well as to political liberty. The program for this achievement we must attempt to formulate and in carrying it out we shall do more than can be done in any other way to sweep out of existence the tyrannical and arbitrary forms of power, which are now masquerading under the name of popular government.

"Whenever we look back to Andrew Jackson, we should draw fresh inspiration from his character and example. His mind grasped with such a splendid definiteness and firmness the principle of national authority and national action. He was so indomitable in his purpose to give reality to the principles of the government that this is a very fortunate time to recall his career and to renew our vows of faithfulness to the principles and the pure practices of democracy. I rejoice to join you in this renewal of faith and purpose. I hope that the whole evening may be of the happiest results as regards the fortunes of our party and the nation."

BOLSHEVIKI MASTERS OF SEA OF AZOV

Red Cavalry Has Captured Important Port on the North Shore.

London, Jan. 8.—Bolshevik cavalry captured the town of Berdiansk, on the north shore of the sea of Azov, one of the most excellent ports on the sea.

A Moscow wireless says the capture of Berdiansk gives the soviets mastery of the sea of Azov, and means the definite surrender of the forces of General Denikine, the anti-Bolshevik leader in south Russia.

The despatch adds that the reds are continuing their irresistible march, and that the fall of Rostov-on-Don and Novocerkassk is expected shortly.

The wireless gives a report from Rome, that a delegation of Italian deputies is going to Russia, to study the situation. News has reached London from British sources in Irkutsk that 9,000 anti-Kolchak insurgents are holding Irkutsk, eastern Siberia. They are armed with machine guns and have airplanes, and are constantly being reinforced. General Semioff with his forces is slightly east of Ychita, but it is considered doubtful whether Semioff will be able to hold this position, and it is understood that he has appealed for Japanese assistance.

RUMOR OF PROTESTING BRANTFORD ELECTION

Brantford, Ont., Jan. 8.—(Special).—That Mayor MacBride had given him a tremendous bluff over the telephone and that he would not be bluffed by Mr. MacBride or anyone else, was the statement made by Ald. J. W. English, opponent of Mr. MacBride in the recent mayoralty election, when asked if he intended to enter action to protest Mayor MacBride's election. The rumor that the election would be protested continues to grow and Mayor MacBride declares that if he is protested he will institute proceedings to invalidate the entire election on the ground that the ballot boxes became so full that the ballots were stored in empty boxes and waste paper baskets.

IMPORTANT RED PAPERS SEIZED IN NEW YORK

New York, Jan. 8.—Federal agents today raided the premises of the Volks-Zeitung, a German Socialist newspaper published here, and the Chatham Press, a printing establishment in which alleged communistic literature had been printed. Pamphlets, placards and literature were seized at each place and taken to department of justice headquarters. No arrests were made. Agents who made the raid declared that the seizures were among the most important made since the nation-wide campaign against the "reds" was begun. Most of the literature is printed in Russian.

PRESS OF LONDON ON HOOVER'S VIEWS

Various Opinions on His Statement Regarding Needs of European Countries.

London, Jan. 8.—The evening newspapers commenting today on the statement of Herbert C. Hoover concerning the financial and food requirements of Europe, take various viewpoints. The Westminster Gazette says:

"It has long been obvious to close observers that the standing check to American sympathy on the financial side is the persistent militarism of the allies and the consequent economic embarrassment."
"Mr. Hoover," declares The Globe, "is looking at the matter purely from the American viewpoint. He does not desire that his countrymen remember that they are citizens of the world as well as of the United States. The emergency is urgent. We are sure that the disposition of the American people will be to treat this matter not as a bargain between keen businessmen, but as a difficulty to be settled among friends."
The Standard says: "Mr. Hoover sounds unsympathetic, but it is good hard sense. There is no use whatever in arranging loans and credits if the only result is to increase waste."
The Fall Mall Gazette says: "Mr. Hoover throws a cold douche upon the pauper spirit in which some parts of Europe are disposed to turn to Amer-

MEXICAN VOLCANO POURS FORTH LAVA

Flooding Nearby Territory and Causing Hundreds of Deaths.

Mexico City, Jan. 8.—A violent volcanic eruption has been caused by the recent earthquake near Cordoba, where Cerro de San Miguel, a small and apparently extinct volcano, has been burst in twain. The new crater is throwing out smoke, ashes and flame, while lava is flooding the nearby territory in a stream more than 200 yards wide, resulting in not less than 200 deaths.

Despatches from Vera Cruz today give some details of this catastrophe. Every nearby eminence in this district has been levelled. Scores of worshippers in the churches at Ahuixtla and Treaguas were buried beneath the ruins. Great gaps in the earth appeared at San Francisco de La Penas, San Carlos and Agostada. Vera Cruz confirms the earlier reports that the village of Ixhuatlan was completely destroyed.

PREMIERS IN PARIS TO MEET CLEMENCEAU

Leylus, and the Earl of Derby, the British ambassador. The three premiers conferred for a brief period in the reception hall of the station. The French, British and Italian premiers had a conference this evening. It is announced that diplomatic relations will be resumed with Germany on Sunday, when the French charge d'affaires will leave for Berlin. Baron von Lerner, the German representative, will present his credentials to President Poincare.

NATIONAL COUNCIL PROTESTS VERDICT

PORTABLE ENGINEERS ELECT THEIR OFFICERS

Richard Banks, a former official of the International Union of Hoisting and Portable Engineers in Toronto, and now a member of the Canadian Portable and Hoisting Engineers Union, stated that he had declined all offices at last night's election of officers. He stated that the union now had a membership of close upon 115, many in the city. William O'Brien appointed business manager for the union for the ensuing year, "stated that despite any reports to the contrary, it was a fact that no Canadian member of the international could work at the trade in certain United States centres because they

MANY HOISTING ENGINEERS

Relative to the statement of Dick Banks of the Canadian Hoisting and Portable Engineers in Toronto that there are 180 of these men in Toronto, Frank Dennis of the international local stated last night to The World that as a matter of fact there are more than 250 in the trade in the Queen City. "I may say that during the past two or three meetings we have initiated from 10 to 15 new members a meeting, and if this keeps up we will soon have 90 members in the local."

DISTRICT 46 I. A. M. ELECTS OFFICERS.

W. J. Moore, Lodge 471, has been elected president of district 46 of the International Association of Machinists, and Fred Stroud will officiate as its secretary for the ensuing year. Other officers elected for the ensuing year are, vice-president, J. Lowe; financial secretary, James Clarke; treasurer, Billy Dill; sergeant-at-arms, Jim Bryant; trustees, A. Thornton and Billy Beare.

NEW BUSINESS MANAGER

District 46 of the International Association of Machinists will have two business managers after the end of this month. It will be recalled that William C. Hagen, one of the most popular men in the labor movement in Toronto, died some weeks ago. He was business manager for the Toronto end of the association and Herbert Lewis was another. Nominations for this office are to be in not later than Tuesday, Jan. 20. With the growing membership of the association in Toronto and the campaign now in progress for a 5,000 membership by the opening of the spring the work of organization is too much for one man to handle.

NONE FOR TORONTO.

Relative to the decision of the Domestic Workers' Union to post up its new wage agreement for an eight-hour day and a hot meal in the middle of the day for day workers in all the government labor bureaus, the expected arrival of more than a hundred "one-to-goodness" English, French, Scotch, and Irish lassies in Canada as domestics is of interest, and the government bureau report that they have been deluged with requests from families in the city for these desirable assistants to housekeepers. However, very few of the hundred girls are expected to stay in Toronto.

FRANK WALKER PRESIDENT.

Frank Walker has been elected president of the Ontario branch of the Toronto. Other officials elected for the ensuing year are: Bill Mahon, vice-president; Harvey Webber, financial secretary; Jim Bell, recording secretary.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES. If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers, and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear, which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs, which is equally as dangerous. The following formula, which is used extensively in the damp English climate, is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Peppermint (Double Strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing headaches. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Peppermint used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

WOUNDED ENJOY SHOW

"Listen Lester" Company Give Free Matinee to Patients of Christie Street Hospital.

If the enthusiastic expression of appreciation of the efforts of the members of the "Listen Lester" company at the entertainment which they gave voluntarily to the blind soldiers of Fearson Hall and the disabled men of Christie Street Military Hospital in the auditorium of the latter hospital yesterday is anything to go by, "Listen Lester" must be some show. Christie Street Hospital being without props, the entertainment was more in the form of vaudeville with parts from the regular show. Miss Mae Weeks, Frank Hieder, Joe Brown, the quartet, "The Four Entertainers," and the company chorus, which sang ten numbers from the regular show, made a special hit with the wounded men, and their applause literally made the building rock.

Baker Does Not Think Bread Will Be Increased

President Z. Hilton of the Master Bakers' Association and proprietor of Hilton's Bakery predicts that there will be no increase in the price of bread in Toronto for months, notwithstanding the fact that the price of wheat to the millers has been increased from \$2.30 to \$2.50 a bushel. It is said that there is an uncertain feeling among the bakers and that so far there has been no concerted move by them in the direction of a united advance of the price.

SMALL'S DOUBLE IN NEW JERSEY

Man Without Memory at Flexington May Be Missing Millionaire.

CONFLICTING RUMORS

If rumor could locate Ambrose J. Small, then rumor certainly had a field day yesterday. There were no less than three stories in circulation in the city and each one had its supporters who knew "for a certainty" that the particular story it favored was true. The stories may be numbered as follows:

(1) A letter was supposed to be received by the police from a man working in the vicinity of Adelaide and Yonge streets, who tells how he saw Mr. Small, on either the evening of his disappearance or the night previously, meet a strange man on the street. The writer of the letter gives some details of the conversation he overheard between Mr. Small and the stranger. The alleged missing man emphatically, as if in answer to a demand, "I won't," and to which the stranger replied, "You will."

(2) Story number two was to the effect that Mr. Small had been located at St. Anne De Beaupre, Quebec, where he was taking a rest cure.

(3) The third rumor came from Flemington, New Jersey, and states that a man resembling Mr. Small has been taken care of by the police as if he was found wandering about and is supposed to be suffering from loss of memory.

Rumor number one may be dismissed as either the creation of a fertile brain, or the result of a too long brooding over Mr. Small's disappearance. Could any man remember the name of a person whom he saw talking to a stranger on the street a week ago? Mr. Small has been missing five weeks and The World gave publicity to his disappearance a week ago.

Rumor number two seems to be about as reliable as number one, also at first his friends here were inclined to think there might be something in it.

There may be something in the New Jersey story as Mr. Small has relatives in New York. It is understood these relatives will be taken to Flemington with a view to identification. Until this has been done it is impossible to either confirm or deny the story. The police are waiting for a report on the matter.

Ontario Safety League Report Work of Past Year

The Ontario Safety League is issuing a synopsis of its work during last year's safety campaign. The figures on the synopsis show that the league distributed almost one million separate pieces of literature in 1919, a figure practically double that of 1918. The bulletins and other material have gone all over the province and the message of accident and fire prevention has been carried into homes, schools, factories, shops, offices, warehouses, garages, road-houses, electric railway cars, etc., etc. In addition, 350,000 gummed seals and cash prizes amounting to \$275 were issued.

Philip J. Reilly to Address Employment Managers Shortly

Reilly, president of the Employment Managers' Association of the United States, and employment manager Denison Manufacturing, Framington, Mass., will be here to address the newly formed Toronto association. Mr. Reilly is one of the best informed men on employment, welfare and general personnel problems in America. A committee was appointed to select a permanent place of meeting, and much of the detail connected with the meeting to Mr. Reilly will be discussed at the association's first regular meeting to be held January 15, at a place to be announced later.

TRUST COMPANY WINS

At Osgoode Hall yesterday morning, Justice Rose gave judgment against the estate of G. P. Richardson, a jeweler, of Kingston, for \$5000 in favor of the Montreal Trust Company. He went overseas with the first contingent and was killed in action in 1916.

SUSPENDED ASSEMBLYMEN CHARGE COLLUSION

New York, Jan. 8.—Charges that their suspension from the New York assembly was due to their known intention to bring accusations against the Laek legislative investigating committee, showing, if proven, that the committee had acted in collusion with the British secret service in its raids on "Red" headquarters in this city, were made in a statement issued last night by the five suspended socialist assemblymen.

Winnipeg.—The fall assizes were adjourned until January 20 by Mr. Justice Metcalfe yesterday. When the assizes recommence the first case to be considered likely will be the charges against F. J. Dixon, M.L.A., and Rex S. J. Woodsworth.

CITY HALL NOTES

Both the mayor and Controller Maguire showed a wise discretion in staying away from the caucus held by the council members on Tuesday evening. Experience teaches much, and both the controller and the mayor, warned by the result of last year's caucus when the recommendations of that meeting were all upset in council, were not disposed to be mixed up in any wrangle this year.

History repeats itself and the chairman of the exhibition board chosen yesterday are not at all sure that they will be sustained in council on Monday next. Some of the aspirants to office are prepared to allow their enthusiasm to override the vote by which custom, to use no stronger word, should compel them to be bound. The struggle will all be fought over again in council, as some of the defeated candidates yesterday announced their determination to insist on a new vote. A day may yet arrive when even the decision of a caucus will be honored.

The Don Valley is to be beautified. The question of cleaning up the C. N. R. lands and beautifying the valley north from Ravine crescent will most likely be up before the board of control at their first meeting. The mayor is actively furthering the project, and the parks commissioner has already prepared plans.

Advertisements inviting applications for the position of city architect were issued yesterday and the latest date for competitors to enter for the race is set for January 20. Colonel Moorhouse seems to be a hot favorite for the position.

Also the position of manager of the civic auditor has been advertised extensively for a week, not one single application has so far been received.

An alderman whose experience in municipal matters almost makes him a deity of council, said yesterday that the council would have to watch itself carefully on Monday when appointing committees. It would be fatal to show sympathy to replace discretion in the appointments. Less experienced aldermen should be put on the minor committees to learn the business of council. Some of the "new hands," he said, had expressed a desire to be placed on some of the most important committees. It would be a very bad mistake to comply with any such request. All new members, contended the alderman, have fads and they must be knocked out of the system before an alderman becomes a useful member of the council.

The program for the inaugural meeting of the council on Monday next was issued yesterday and is as follows: Mayor subscribes to declaration of office; members-elect take and subscribe to declaration of office; mayor takes chair; prayer; mayor's inaugural address; mayor lays on table record of the declaration of the election of members of council and of the members of the committees; presenting petitions; giving notice of appointment of select committee to strike standing committee; adjournment; presentation and consideration of report of select committee; adjournment; appointment of seven directors to the Exhibition board; appointment of seven members to the Victoria Industrial School Board; appointment of one member to the library board; Mr. T. W. Self being the retiring member this year; appointment of five members of the local board of health; appointment of five members to the Toronto General Hospital; appointment of two governors of the Toronto Western Hospital; appointment of a governor of St. Michael's Hospital; appointment of five members to the Council of the St. Michael's Hospital; appointment of a director of the Credit Union of Toronto; Gray and Bruce being the retiring members; appointment of a director of the Ontario and Quebec Railway; appointment of a director to the Ontario Housing Co.; appointment of six members on the board of trustees of the Toronto Free Hospital for Consumption; appointment of a member of the Toronto Transportation Commission; general business.

The late council election cost the taxpayers \$9,173 exclusive of printing of the report. The election had been opened for three days for the benefit of the waymen cost just over one dollar for each vote cast. There were 44 votes recorded and the expenses came to \$48.

Some time in November the council passed a motion to allow the use of the old club-house in the Rosedale Athletic Club, which was built by the club and is now owned by the city. The city solicitor has just reported to the board of council that the motion and expenditure are illegal.

The mayor is advocating the erection of three stadiums for sports in the city—one in the east, one in the west, and one in the north and end of the city. It is likely that application for authority will be made at the next meeting of the Ontario house, if the city council approve of the scheme.

The ten-year old son of a civic official who was vaccinated successfully at Tokio November last, has just been attacked by smallpox and his home quarantined. Dr. Hastings says such a case is one in ten thousand. A three-weeks old baby died from smallpox yesterday. Despite these incidences the outbreak seems to be gradually dying out in the city. There were only 22 new cases yesterday and 34 patients were discharged. There are now 123 hospital cases and 322 people quarantined in 344 houses.

Dr. D. C. Meyers took out yesterday a permit for the conversion of his private hospital at 75 Heath street into an apartment house. The estimated cost of alterations is \$8,000. Other permits taken out were: W. E. Edmonds, dwelling, 45 Northcliffe boulevard, near Rosemount, \$5,500; John McIntosh, pair semi-detached cottages, 17-19 Coleman avenue, \$8,000; Harvey Reed, residence on north side of Orchard View boulevard, near Yonge street, \$4,000.

RUNNING AROUND LATE

Frank Sims, Coxwell avenue, was arrested by Detective Koster of No. 2 division yesterday on a charge of vagrancy. The only answer the police would make to the question why Sims was arrested, was: "He's been running round late at night."

INDIA TO BOYCOTT BRITISH GOODS

If Peace Settlement With Turkey Does Not Satisfy Mussulman Ideas.

Delhi, India, Jan. 8.—British goods will be boycotted if the peace settlement with Turkey was not satisfactory to Mussulmans, according to a resolution adopted by Indian Moslems, who gathered here recently in the All India Khalifat Conference.

Another resolution it was proposed to begin a gradual cessation of co-operation with the government, in event of an unsatisfactory peace with Turkey.

Indian Moslems have been insisting upon the principle of nationality and self-determination as a basis for dealing with Turkey.

A joint meeting of Moslem and non-Moslem representatives of India was held after the conference. It adopted a resolution expressing the feeling that in view of America's attitude, Great Britain would have a decisive voice in the settlement of these terms with Turkey and "that the sacrifice in men and money made by the Moslems and their adherents in the world war was nullified them to a determining voice in this settlement."

It was decided to send a delegation to England and if necessary, to the United States, to lay the true sentiment of the Moslems before the British and American governments.

NAME JOHN LEWIS AS LIBERAL EDITOR

Is Made Director of Political Literature of National Organization.

Ottawa, Jan. 8.—(By Canadian Press)—Hon. W. L. Mackenzie King, leader of the opposition, today issued the following statement:

The position of editor of the political literature of the national Liberal organization committee has been accepted by John Lewis of the Toronto Daily Star. Mr. Lewis has had an experience of some thirty years as editorial writer upon The Toronto Globe, The World and The Star, and other journals. He is the author of the biography of George Brown, in the Makers of Canada series.

The new editor has the opinion that political pamphlets and other literature ought to be written in the same spirit as the editorials in any self-respecting newspaper. The Liberal party, he believes, has no reason to be alarmed or disturbed by the rise of new political groups, such as the Farmers and Labor party.

It is announced that Mr. Lewis will enter upon the duties of his new position at once. He leaves Toronto for Montreal on Monday. The remainder of the present week, Mr. Lewis will be associated with Mr. Andrew Hayden, who, at the beginning of this year, was appointed permanent general secretary of the committee. The appointment of Mr. Lewis marks a further important development, it is stated, in carrying out the work of political organization and education undertaken by the national Liberal organization committee, of which Hon. W. L. Mackenzie King, the leader of the opposition, is the president.

Alberts to Find Out Powers To Stop Warehousing of Liquor

Edmonton, Alta., Jan. 8.—Whether or not the province has power, directly or indirectly, to prevent the warehousing of liquor within its bounds is the question now being looked into by the attorney-general's department. If it is found that provincial legislation can be passed to that effect, it is possible that action will be taken at the coming session.

STEAMER PETOSKEY SAFE.

Muskegon, Mich., Jan. 8.—The Crosby line steamer Petoskey, which has been battling great ice floes in Lake Michigan since Monday, when she left Milwaukee, docked here tonight. The passengers and 35 of the crew suffered no ill effects from their experience.

STRIKE OF STEEL WORKERS IS OFFICIALLY CALLED OFF

Involved 367,000 Men and Has Been in Progress Since September—Order Ending Walk-Out Complains Men Were Refused Free Speech and Right to Organize.

Pittsburg, Pa., Jan. 8.—The strike in the steel mills and furnaces called Sept. 22, with at its inception involved 367,000 men, was officially called off here tonight by the national committee of the American Federation of Labor. Announcement that the national committee had decided to proceed no further was contained in a telegram sent to the headquarters of the American Federation of Labor in Washington to the heads of all international unions interested and to the organizers and field men in all strike districts.

The steel corporation, with the active assistance of the press, the courts, the federal troops, state police and many public officials, have denied steel workers their right of free speech, free assembly and the right to organize, and by this arbitrary and ruthless misuse of power have brought about a condition which has compelled the national committee for organizing iron and steel workers to vote today that the active strike phase of the steel campaign is now at an end.

draw close and shouted, "Stop in the name of the law or I'll fire," and seeing that the man (Brake) paid heed to the command he drew his revolver and fired one shot at the retreating form of the highwayman.

By this time Naylor was within 20 yards of him, and he drew close to the man turned and whipping a 32-calibre revolver from his pocket pointed it at Naylor. At the same time he uttered a thing which Naylor states he did not hear. Although the man had him covered with his gun the constable plied kept on the run, and again pointing his gun fired two shots at the fugitive.

Quick Action. In the meantime Felitto, the man accompanying Deluco at the time of the robbery, raced to Yonge and Gerrard streets, where he told the story to the hold-up to Policeman Byrt, 515, who was on patrol duty there.

The excitement of the first arrest had hardly died down and Naylor and Byrt were making their reports to the officers in charge of the case.

STATEMENT ON COAL PROFITS

No Estimate Possible Yet on Amount Accruing to Canada.

REPORT AT END OF YEAR

Ottawa, Ont., Jan. 8.—In an effort to clear the public mind with regard to the question of canteen profits made during the war, a proportion of which will ultimately come to Canada, the department of overseas military forces of Canada has issued an explanatory statement.

The statement issued this evening shows that canteens in Great Britain, and those operated elsewhere, were under separate organizations. It emphasizes the point that just now any estimate of the amount of the trading done to Canada or any other of the British belligerents from canteens operated in Great Britain is impossible.

Contrary to press reports, it is stated that neither Australia nor any other British dominion has been brought to the end of the present year before the public with regard to the amount which Canada will receive as her share of the profits from canteens operated overseas during the war.

An organization known as the Navy and Army Canteen Board was appointed by the war office to operate canteens in Canada as well as in British camps in the British Isles.

In disbursing the funds the military funds trustees are guided by the terms of the trust deed which provides that such funds shall be disbursed, have been for the benefit of the British troops in the case of the British Isles who needed financial assistance.

The question of prohibition becoming constitutional in the United States is debated in this week's Sunday World, and will be of profound interest to Canadians.

EDUCATIONAL BASIS OF THE BERR

Sir Robert Falconer Emphasizes Need for Broader Education.

WAR A TEACHER

"We do not know what liberty means," said Sir Robert Falconer, president of the Toronto University, during the course of an address to the annual banquet of the Canada Life Assurance Company at the King Edward Hotel last night.

Sir Robert Falconer declared that liberty depended upon intelligence and that intelligence was bred through education; therefore, it was extremely important to the welfare of the country that education should be developed on a broader line than in the past.

With reference to the returned soldiers, Sir Robert said that those men who returned to Canada with more trained minds.

There are at least 25,000 of these men in our universities," said the speaker, "and they are the most quick and intelligent people we have. With their guidance and support, we can expect reconstruction will be on broad lines and as a result our next generation will enter into a richer heritage of freedom than any other people."

The occasion for this interesting address was a unique one. Several hundred branch members of the Mutual Life from all over the Dominion and from several points in the United States gathered for the elaborate banquet.

Escaped the Law

Henry Brown, charged in the police court with failing to support his wife and two children and who was remanded until today for sentence, died, last evening in the Emergency Hospital.

There is a moral to the above story, and it is this:—

If you don't support your family while living, the law will compel you to do it, or send you to jail.

If you die and leave them without proper financial support, you escape the law. But what of your moral obligation?

How would your wife and children be fixed if you should die to-morrow?

A vocal program was sung thru during the supper interval, thereby every minute of the evening was fully occupied. President T. A. Ryan in presenting the prizes for euchre gave a short address telling the reason for these gatherings, which was to keep that brotherhood intact which had been formed over there, when men had shown themselves to each other in a light which only the conditions made possible. He also told the ladies that if this undertaking was to be successful there must be a sisterhood also and asked them to get together for this purpose as their help was sadly needed.

Many expressions of thanks were offered the management, thereby friends who had helped to make it the pleasant and successful evening it was. Squadron of the Dragons Leaves Toronto Next Week. OAKOAL'S NEW PLANT ABOUT TO BE ERECTED. The Oakoal Company (Canada), Limited, whose construction engineer has just returned from New York with preliminary plans, after visiting the various plants in the various cities, have their plans and specifications in hand for their new plant to be erected in Ashbridge's Bay industrial park.

The buildings will be brick structures, with steel sashes and fireproof corrugated glass. The garbage will be received in a separate building to the bricketing plant. In the garbage building the non-combustibles will be separated from the combustible, and after traveling over the sorting belt, a large magnetic roll will be suspended for removing particles of metals, it will be ground by a specially-designed grinder; hence put through a specially-designed rotary sizer, and by its introduction to some 300 degrees of steam and heat and chemicals will be thoroughly sterilized.

The garbage will then be conveyed by automatic conveyors into the bricketing plant, where both the prepared garbage and coal dust will pass through another set of grinders, or pulverizers, and after being thoroughly mixed both will be elevated to the mulcher, where the preservatives, deodorants and waterproof chemicals are added. From this point the fused mass is conveyed into a pug mill, and thence into a gigantic press that will turn out twenty tons of briquettes per hour.

The Oakoal people claim that their product is the only briquette that will stand poking or shaking while burning, as, not depending on chemicals for a binder, there will be no disintegration, as in the case of chemical-bound briquettes. The product has been put under every test by scores of well-known engineers in both the United States and Canada, and has scored as high as 28 per cent. superiority over the best coal.

First Juvenile Court Case. The first case to be tried in the juvenile court under the new jurisdiction came up yesterday in the afternoon. It was brought up for stealing coal. The evidence produced showed that the boy had been encouraged in this by payments from the woman with whom his father boarded. The boy was let off with a suspended sentence, and no notice of the injunction had been served. Judge Costworth gave an order that the money be paid to the woman who had been granted the injunction, and directed the clerk of the peace to retain the \$2,000 until 11:15 yesterday to give Mr. Lennox an opportunity to serve the writ for \$6,000 has been issued against Evelyn. CUP HOLDERS ARE DOWNED IN OPENER

Aura Lee Came Thru With One-Goal Victory Over Tigers.

Hamilton Tigers, Canadian senior hockey champions, opened their season with a defeat last night at the Arena. Bill Marsden's Aura Lee ex-juniors turned the trick, but nearly tossed it into the Tiger lair by trying to tie back and play a defensive game in the last five minutes when the Bears, snarling around the net five strong and scattering the puck at forces from all angles, Forbes and Jack kept the Tigers from trying it. Denis lost their group honors in Hamilton a year ago by the same tactics.

It is not the Tiger team of old. The dangerous forward line of a year ago is no more, and how the Bengals miss them! The new front line is scarce, is not half as speedy as the old and erratic in their shooting. Joe Matte is the wholehearted team captain. Without him, the Bengals would have been beaten ten goals, Joe made the play for all of the Tigers' goals and it was the great Joe that led the attack in the last five minutes when Forbes was so dangerous.

Forbes was in the Aura Lee net. It was a return to his first love after a season with the Bengals, and he thought that he was good in putting it wild. Forbes won the game without a doubt. Hamilton tried every trick on the program to beat the great little goalie, but Verne bounced them off from all sides. Time after time the Tigers got inside, but they could not get past the great little goalie, but Verne bounced them off from all sides. Time after time the Tigers got inside, but they could not get past the great little goalie, but Verne bounced them off from all sides.

Hogarth, star of two seasons ago with Aura Lee juniors, made his senior debut last night, and was a tower of strength. Defensively he was better than Matte. At the rushing game he did not go up as often as the Hamilton star, but he was right in a letter-puck-carrier than the Frenchman, and scored two beautiful goals. He is a top-up between Matte and Hogarth for the honors, with the Aura Lee man probably just a trifle the better.

Loant, who never played defence before, was pressed into service at the last minute to replace Mackay. The latter was killed for the night. He is just back from overseas, has practiced with Aura Lee and played with the Avenue road before going over. He is a fine athlete, directed after a meeting yesterday and decided that Mackay must play for them or stay out. This is a funny procedure, after not even approaching the boy to ask him to practice with them. Bill Marsden is tired and can't play. Matt Mackay is a student at U. of T.

Loant did grand work. He poked away at the Tiger attackers until he was tired, rushed well and was a very useful unit. Up front Aura Lee have a line that they need. They are weaker than a year ago. They have no Roaches, McCarty's nor Greens.

Tigers—Goal, Reame; defence, Matte, J. Smith; centre, Reid; right, Cooper; left, Fisher; left wing, J. Bracken; right wing, A. Young; subs., Clegg, Halliwell.

Aura Lee stroked into some nice passing at times, but still need practice in passing. Taking it all round the showing of Aura Lee was a surprise to many fans.

Reise, Matte's partner on the defence for the Tigers last year, failed to make the trip. John Smith, a Hamilton League recruit, did very well. He is big and strong and a fair puck carrier, but still green. The little fellow who played man on the front, He packs a wicked shot, but the white front works had to go and let it go from outside. Boyd is in on condition. Max Smith light but a great checker. Fisher slow and poor on the attack, and Reid an average man, but no goal-getter in centre ice.

For a period and a half it was draggy. Both sides bunched and it was Hogarth and Matte that put life into the play and scored the only two goals of the opening round. Hogarth opened the scoring with a pretty goal. He rushed up, blurred a pass to the wing and then kept right on thru and called. Brown grabbed the other. Matte was taking the puck behind his net, after relieving a press. Brown went behind, took the puck away and waded out in front and shoved it under Reame's feet.

It brightened a bit in the second, with Tigers showing some combination and a determined attack. Of course, Matte gave them that, and the Hamilton gang went out in front by counting three goals and holding Aura Lee scoreless. A three-man passing game got the first, with Cooper taking the pass when well in and uncovered. Cooper got all three. The second time he shot after Matte gave him a pass, dashed in for the rebound, got it behind the net and swept the puck around the post for a goal. Matte rushed up and passed over to Cooper for the third.

The final period saw Aura Lee score two and win the game. Rutherford stroved in from the left towards the net first. With two Hamilton men on the defence and Aura Lee shy one, Hogarth rushed up alone and beat Reame from the side.

Carpentier is willing to journey to a strange land, accept a split of \$50,000 of Mr. Coffroth's offer, said Dempsey. Both teams are anxious to get off to a good start on the big grind to the championship, and are their favorite sub divisions are being to get tight. Chairman of Baseball Commission Resigns

Cincinnati, O., Jan. 8.—August Herrmann, for more than sixteen years chairman of the national Baseball Commission, has resigned. His resignation, which was presented at the annual meeting of the commission here today, is to take effect at the earliest possible date, not later than the joint meeting of the National and American Leagues, called for February 11, in Chicago.

The announcement of Herrmann's action was made in a written communication addressed to E. B. Johnson, president of the American League, and to the National League, who, with Herrmann, compose the commission. Herrmann, in his statement, said he could not serve as head of the body any longer after the joint meeting of the two leagues.

Nothing was given out at the close of the executive meeting to indicate what prompted Herrmann to tender his resignation at this time. It had been reported that Herrmann had been instructed by the American League to tender his resignation to the National League, but Johnson desired that he continue at the head of the commission.

The action of Herrmann undoubtedly came as a great surprise to his associates on the commission, and certainly to baseball authorities who were attracted to him because of his long experience in the game. Herrmann, secretary-treasurer of the baseball commission, announced that he had been asked to resign in that office if Herrmann was not re-elected as chairman.

Outside of regular cases, the commission confined itself to a discussion of alleged baseball gambling. In this connection it was reported that the commission had allowed up in a thorough manner and thrashed out to the satisfaction of the baseball public.

EXPLORERS BIDDING ACTIVELY FOR CORN

Car Scarcity is Another Factor in Causing an Advance in Prices.

Chicago, Jan. 8.—Activity on the part of exporters together with unfavorable advice on the car situation led to material upturn today in the corn market. The close, however, was unsettled, 3/4c higher; May, \$1.36 1/4 to \$1.36 3/4, and July \$1.34 1/4 to \$1.34 3/4. Oats gained 1/4c to 3/4c. The finish in Chicago was unchanged to 2 1/2c up. Seaboard export concerns outbid Chicago dealers who were reaching after corn in Illinois and Iowa. This fact greatly impressed the bulls, and so likewise did knowledge that many of the loaded at elevators there showed urgent need of repairs. It was said also that efforts to distribute government wheat mills were at the expense of the corn movement. Overnight advances in the price of flour and hogs tended further to give strength to corn. Besides wheat and rye sold at the highest level yet this season. Profit-taking, tho, on the part of holders of corn brought about a set-back at the last. The high-grade demand gave important strength to oats. Moreover, sellers appeared nervous owing to scantiness of stocks and no activity. The provision market was firm in sympathy with higher quotations on hogs and grain. Liberal shipment of packing house products were noted.

STRIKE ON DAVIDSON

A phone message was received yesterday from Davidson Consolidated Gold Mines, at the head office, to the effect that a new strike of importance has been made at depth. Two hundred feet of ore has been struck on the west drift, on the 500-foot level, a deposit of very rich ore has been entered. This is more than 200 feet away from the large ore body opened up at the 500-foot level some months ago. The deposit is 32 feet in width, and has been opened up for about 25 feet. The ore so far developed will run very high grade. The company has also encountered an ore body at the 550-foot level, 60 feet from the shaft. It is reported that this is probably the best ore ever located in the property.

VACUUM GAS LEASES ARE EAGERLY SOUGHT

Further rumors in connection with Vacuum Gas yesterday were to the effect that an amalgamation is possible of most of the companies which have leases in the new and lucrative oil field of Dover township. One who is supposed to have a knowledge of Vacuum affairs was not denied that the rumors had been made, but was inclined to think that the principal holders of Vacuum would have to be made a tempting offer before any deal would be considered. The Vacuum leases are considered among the best in the western Ontario field, and only a few months will be required to develop one or more producing wells similar to the now operated on the Petrol, which adjoins the Vacuum.

TRADING IS BRISK IN MINING STOCKS

Peterson Lake Heavily Purchased—Schumacher and Davidson Advance. Trading in mining stocks was brisk yesterday, nearly 200,000 shares changing hands, and while, on the surface, transactions were somewhat mixed, the market as a whole maintained a firm upward trend, but little stock was for sale at the demand led to pronounced rallies in a number of cases.

As an earlier days of the week movements of Kirkland Lake and Davidson held more of interest for the general trader than those of other issues, the fields were broadening to such an extent that formidable rallies were being met, and among stocks decidedly in the foreground yesterday were Peterson Lake, Schumacher, Davidson, Mining Corporation and Vacuum Gas. The bidding in Peterson Lake was particularly animated, more than 48,000 shares changing hands between 2 1/2 and 2 3/4 bid for 2 1/2 and 2 3/4 asked. The stock is now at 2 1/2, and while the upward movement is not yet far started, the "street" hears that the company has received an offer for some of the company's leases which, if accepted, would mean a gain of \$200,000 to the company, certain leases can be disposed of at a profit which will mean \$200,000 to the company, a standing share of Peterson Lake will have the company with a considerable surplus.

Kirkland Lake swung within the point range of 68 to 69, closing at 68 1/2. The week's advance was 1/2 point, and it is known that the December dividend is \$3.00. The company is said to be running into \$300,000 as compared with \$18,000 in November, came as a agreeable surprise to the management which had not believed the ore was so good as proved to be the case. The company is capitalized at \$2,000,000 and more than three-fourths of the stock is owned by the Beaver Company, so the advance in Kirkland Lake was a strong Beaver shareholders will take a prominent position as beneficiaries. Beaver stock advanced 1/2 point, closing at 61 1/2 as compared with 60 on Wednesday.

Schumacher and Davidson were the strongest stocks in the gold group, the former advancing 1/2 point to 50, and the latter moving up 1/2 point to 74. The advance seems to be growing that the negotiations for the transfer of control of the company will be completed in a matter of days. The company is said to be running into \$300,000 as compared with \$18,000 in November, came as a agreeable surprise to the management which had not believed the ore was so good as proved to be the case. At Least Seven Pockets

There must be one for the
knobby old jackknife that he
has carried ever since his 8th
birthday, there must be another
for marbles and pencil stubs,
and the ball of string; and
where's a chap to carry his
chewing gum (when he isn't
using it) if he hasn't a special
pocket reserved? Perhaps
there's a watch and a little
pocket money as well. There
must be seven pockets. That's
flat. These are the

Big Things in Boy Life

and yet the number of pockets
is not the finest feature he will
secure in a Simpson Suit of
clothes. He gets his pockets,
but he gets as well a suit he will
like to wear. There will be
something about the style of it,
something about the material
itself, and a confidence that it
will not go to pieces in a
scramble, nor yet look shabby
when he stands before the class.
