A GOOD CANDIDATE

Mr. Peter Binks has strenuously resisted the appeal of his many friends to accept nomination as a candidate for a seat in the city council.

When the Times' new reporter sallied forth this morning and mistook the sidewalk with the back of his head, as a result of over-confidence in the grip of his rubber on a slippery surface, he said things about the snow and the climate generally. But when the buzzing stopped and his ears were once more open to sweet sounds he heard on every hand the chirping of the sparrows, and from a sunny open space the clear notes of a robin.

MR. DAWSON'S WORK

Anyone who has spent an hour or so in discussion of imperial questions with Mr. A. J. Dawson of the London Standard is not surprised at that gentleman's success in promoting the Standard of Empire, the new weekly, which is destined to do much to make the people of Britain at home, and of British overseas, more fully acquainted with each other, and thus to advance the interests of a sane and wholesome imperialism.

Mr. Dawson is the very opposite of a Little Englander. Though a young man, he has been a sailor in eastern seas, has roamed it in Australia and South Africa, and learned to know the overseas lands even better than his own.

That which Mr. Dawson proposes, and which he has rendered certain of accomplishment, is the issue every Friday of a 16-page journal devoted to news from British overseas, the larger portion from Canada. This weekly will go out free of cost to every reader of the London Standard.

That which Mr. Dawson proposes, and which he has rendered certain of accomplishment, is the issue every Friday of a 16-page journal devoted to news from British overseas, the larger portion from Canada.

There is, however, another advantage. Besides the home issue there will be an overseas edition of the Standard of Empire, which will bring to readers in Canada and elsewhere a summary of the week's news in the mother country.

"I have had the opportunity of watching Mr. Dawson's work, and I wish to bear testimony to it, the spirit with which it is inspired, its thoroughness and success. He is doing a great work, not only for Canada, but for the whole empire, and if we can do anything to help him, British Columbia should do it.

THE PINCH IS FELT

Labor as well as capital must bear its share of hard times. The manufacturer who cannot produce goods at a profit because of low prices and dull markets has no resource but to reduce wages or curtail production.

In the United States at the present time the pinch of hard times is felt. The Boston Journal, in the following article, sets forth the conditions in that city.

That there are men out of work in and around Boston who would rather be at work, is an unfortunate fact. But these men are not in general of the same caliber as those who parade around and call themselves the 'army of the unemployed.'

THE POST OFFICE. The St. John post office has long been a disgrace to the public works department of Canada, and as it is always undermanned the service to the public is never satisfactory.

London, Ont., April 2.—One hundred and thirty of the soldiers at Wolsley Barracks have been ordered to Halifax where they fill vacancies made by soldiers, whose time has expired or who have been transferred to other parts of the army.

MAY FURNISH SOLUTION FOR PROBLEM OF LIVING

Students of Sociology Will Attempt to Live on \$1.50 per Week--An Interesting Experiment

Springfield, Mass., April 1--That men can live and keep in the pink of condition on the small sum of \$1.50 a week is the main aim of a group of students at the Young Men's Christian Association training school, and is a member of the senior class. The subject of his study is "The greatest possible economy of diet without impairment to physical and intellectual efficiency." To secure the desired facts he readily obtained volunteers to undergo the trial of "living low" at least for a time. The faculty cooperated with the scheme and installed the necessary heating apparatus for cooking in one of the rooms in the gymnasium.

The principal object of the experiment is to find out on how little and how cheaply a group could live and maintain the efficiency necessary to carry on the required work. It is not to be either a low or a high protein diet, but a simple one in economy and efficiency. This experiment was suggested by the fact that not only at the training school do some of the men find it compulsory to carry on the most economy to meet their expenses necessary to complete the courses of study, but in nearly every institution there are some who are obliged to prepare the food they eat in their rooms. And this practice is often done at the risk of impairing and undermining the health permanently, because of the lack of knowledge of the nourishing properties of economical foods. There have been students who seemed to possess the knowledge of food values and who apparently exercised their best judgment and care in buying and preparing what they eat, but who, after only a short time, would fall below par in general health and ability to do the best work. They seemed to lack that subtle something that comes with sociability, companionship and change of interest at meal-time. Special attention is being given to the social side of Mr. McGuire's test, in that the young men try always to maintain a lively and interesting conversation during meal-time.

RAISES TAXES OF MRS. EDDY

Assessors of Concord, N. H., Increase the Levy on Christian Science Leader.

Concord, N. H., April 2--The board of assessors of this city voted to increase the taxes on the property of Mary Baker G. Eddy for 1907 \$2911.80, thus making the total tax for that year \$9118.85. A tax of \$1341.66 was also levied on the property of the Christian Science Church, which was levied by Mrs. Eddy for the benefit of her son, George W. Glover and his family. The board was in executive session most of the afternoon and all information regarding the proceedings was withheld, except the fact that the question of taxing Mrs. Eddy's property for the 15 years previous to 1907 was not considered.

Under the law only a part of the property held in trust, as above, is taxable in the city of Concord for the year 1907. This results from the fact that under the trust for the benefit of Mrs. Eddy there are resident in this city but one trustee and the beneficiary, Mrs. Eddy, one of the trustees being a resident of Bow, N. H., and the third trustee being a resident of Boston, Mass.; that in the trust for the benefit of George W. Glover and his family only two of the trustees are resident in this city and the beneficiary, Mrs. Eddy, one of the trustees being a resident of Boston, Mass., and all of the beneficiaries being residents of South Dakota. Part of the trust is held in trust for the benefit of Mrs. Eddy, and exempt from taxation under our laws.

The board has made a full and thorough investigation of all the facts with respect to the extent of both of the estates held in trust as above, and in the light of the curricula in said estates. The parties interested in both of said trusts are hereinafter named. Before the board and given the board full information as to the character, extent and value of the securities held in each of the trusts, and the amount of taxes assessed as above on these trusts estates impose on them their fair and proper share of the total taxes assessed in the city of Concord.

It was an executive session, was Chairman Shepard's reply to a question whether the action of the board in increasing the assessment for 1907 was unanimous. A protest filed by the assessors of Concord, and signed by one member of the board at least, was not in accord with the majority of his associates.

His size was big handicap. Obese Stowaway Caught in Port-hole of Steamer he Tried to Quit. New York, April 3--Had Giuseppe Capello been a trifle smaller, or had the port-hole of the Italian steamship Brasile, through which he tried to squeeze his way to liberty, been a trifle larger, many persons along the docks at the foot of West Thirty-fourth street would have been deprived of considerable amusement yesterday.

Montreal, April 3--Lieutenant-Colonel Howell, secretary of the immigration and transportation department of the Salvation Army, was in Montreal on Tuesday and left last evening for Halifax, where he will meet the immigrants coming in under the auspices of the Salvation Army.

Seamen's Mission Bazaar. Through all the storm of yesterday Keith's assembly rooms were filled with an eager crowd who patronized the Seamen's institute fair, booths, took tea, and listened to the excellent entertainment provided under the direction of D. Arnold Fox. The affair was given very hearty support, and Lady Tilley and those interested in the Seamen's Institute feel much gratified at the interest shown.

MANY WOMEN INSULTED ON STREETS OF WASHINGTON

As An "After Dark" City it is More Dangerous Than New York According to This Woman's Opinion

Washington, April 3--That the respectable woman has no protection on the streets of the Capital of the nation, that this condition exists both day and night, was a revelation to a newspaper correspondent who was in attendance at the Mothers' Congress.

Being a woman engaged in newspaper work, the correspondent's duties took her out alone at night, and often at late hours. It never had occurred to her there was the slightest cause for fear. Never in all her experience in New York City had she the least unpleasant or discourteous encounter on the streets. Her newspaper work takes her around the city, through the Bowery, the financial district, Broad, Wall and Nassau streets, during the day and often late at night.

At the crush of the Bridge entrance to the subway she often waited for a girl chum, when leaving for home after dark, without being spoken to, or otherwise annoyed. One evening, a few days ago, it was necessary for the woman to carry a message about ten o'clock. She left her hotel at Fifteenth and G streets, and went to the Western Union building, only two short blocks.

This is the story the correspondent told. "I was spoken to by four men. These men were not of the rough and ready type at all. Later I found it is not the rough element that is the aggressor in this matter. I found it was a young man, a student of the law, who called the little Wall street. He said, 'I seldom go shopping at every corner you will see a group of men commenting on the women as they pass.'"

UNFROCKED FOR HIS LOVE LETTERS. American Preacher's Passion for Pretty Sunday School Teacher Was His Undoing. (New York American.) While the Rev. Frank C. Brown lay probably dying of brain fever in the parsonage of the Little Rowanston church, he had disgraced the Fairfield County Baptist Conference, torn up his papers and burned them in sight of his brother ministers.

MISS CLARA RAYMOND. A written admission of Brown's guilt and of his scandalous infatuation for the young girl had come in time to spare the reading. All the pastors looked relieved, for it is known that the letters were unfit for publicity and would surely have revived the whole odious affair.

THE GOLD RUSH TO BRITISH COLUMBIA.

First Gold Discovery Half Century Ago Was Turning Point in History of Province. Victoria, B. C., April 2--March 21st was in a sense the turning point in the history of British Columbia. On that day, fifty years ago, the first gold claim was located on the Fraser. The country was at that time a northwestern wilderness, and the discovery was the beginning of the inrush which opened up and settled the province.

Mr. Joseph W. McKay discovered gold on Vancouver island in 1850, but not in quantity. In the same year a bag of nuggets was brought down from Queen Charlotte islands. The following year several pioneer prospecting parties were on the scene, but returned disappointed. In 1852 an Indian chief brought some gold into Fort Simons, and Chief Factor Work went up the Skeena to investigate, but his search was fruitless. In 1853, while exploring the Similkameen region, General G. B. McClellan found gold, and passed it out at the rate of \$2 per day. Between 1853 and the date of the great discovery several small finds were made. It was during Christmas week, 1857, that the people of Victoria first learned with any certainty that there were substantial gold fields. On report of Chief Trader McLean, Governor Douglas issued a proclamation claiming all gold in its natural place of deposit to belong to the crown, and forbidding anyone to dig for it "unless authorized in that behalf by Her Majesty's colonial government."

Ladies & Gentlemen, I will be a Candidate for ALDERMAN to Represent QUEBENS WARD at the ensuing CIVIC ELECTION and kindly Solicit your Support.

Yours respectfully, HENRY DUNBRACK.

CRICKET BOOM FOR SYDNEY THIS YEAR. (Sydney Post.) That Sydney is to have a boom in the good old game of cricket this coming summer, would seem evident from the indefatigable secretary of the Sydney Cricket Club, S. P. Challoner, who is already endeavoring to make arrangements for a team to go to Charlottetown, whilst Dr. John K. McLeod is interesting himself in arranging for a team to go to New Zealand. The Cape Breton League whose office is in Sydney, was the last year most successful, and resulted in some close and exciting matches, and the teams that took part in those games, materially strengthened, will again compete for the championship of the Island. With frequent visits from the British battalions, which are to be stationed at Halifax this year, some matches, no doubt, can be arranged with the sailors, who are nothing if not cricketers. Altogether the prospects are bright for the game, which "one may play and still remain a gentleman."

GREAT NEED OF CHEAP LABOR

Lieut. Governor Duns-muir Says This is Re-tarding British Colum-bia's Progress

(Montreal Witness.) The Hon. James Duns-muir, lieutenant-governor of British Columbia, arrived in Montreal last evening, en route for Eng-land.

He is accompanied by Mrs. Duns-muir, Mrs. R. W. Duns-muir, Miss Dols Duns-muir and Dr. H. A. Bromley, his private secretary.

In an interview at the Windsor Hotel, Mr. Duns-muir said there was no truth in the report that he was about to re-sign the lieutenant-governorship, nor in the report that he was about to sell his gold mines.

As to the present outlook in British Columbia, he said that while a great deal of progress was being made, the scarcity of cheap labor was the great drawback to the complete prosperity of the province on the western coast.

For instance, he said during the last summer farmers had to pay as high as \$3 and \$3.50 per day for men to get their hay and to look after the fruit.

TEMPERANCE PETITION TO QUEBEC LEGISLATURE

Women of a Montreal Society Have Prepared a Monster Document and Will Forward it

Montreal, April 2.--"La Federation Nationale St. Jean Baptiste, which has in the past been instrumental in promoting so much philanthropic work, is now devoting its energies towards the temperance question.

This federation is the women's section of L'Association St. Jean Baptiste de Montreal, and with 23 affiliated societies, thus representing many thousands of women, is sending a petition to the Quebec legislature.

"Whereas women suffer more than any other part of the community from the disorders caused by the abuse of alcoholic drinks, and whereas, they have in addition the duty of protecting their children and of removing temptation from them, your petitioners humbly pray that it may please the government and the legislature of Quebec to amend the license act as follows:

"To take away from the judge the discretionary powers conferred upon him by the present law, and oblige him to annul any license after a third offence.

"The police officers in the different cities of the province shall be bound to see that the license act is enforced and the chief of police shall report, without delay any violation of the law to the collector of provincial revenue, who shall be bound immediately to prosecute the offender.

"Applications for licenses shall be made public, by means of the newspapers or otherwise, three weeks before they are submitted to the license commissioners.

"No license shall be granted without the signature of the majority of the resident municipal electors, qualified to sign the certificate.

"To reduce the number of licenses in the city of Montreal by 15 per cent, as soon as the police officers in good faith the business of a restaurant keeper, and unless the license commissioners are convinced of the necessity of such a license at the place named."

A woman who resides in Winter street took a fainting spell in a street car in Charlotte street yesterday afternoon. The car was stopped and Dr. D. E. Berryman attended the woman, who was then removed to her residence in the ambulance.

BORDER MASONIC LODGES TO HOLD DISTRICT CONVENTION

St. Stephen, N. B., April 2—A committee consisting of delegates from Masonic lodges of this district met here this afternoon with District Deputy Hiltz, of Milltown, and drew up a scheme to be submitted to the lodge of this district, which will no doubt result in organization of an annual district convention. The lodge will report to District Deputy Hiltz, who is empowered to call the convention, which upon invitation of Worshipful Master Smith, of St. Marks Lodge, will probably hold its first meeting at St. Andrews on St. John's Day, June 24.

MILBURN'S HEART AND NERVE PILLS EFFECTED A COMPLETE CURE.
If you find your health failing, your food apparently doing you no good, your heart beating irregularly—now slow, now fast—skipping a beat now and then, palpitations or throbbings on the slightest exertion or exertion, pain in the region of the heart, loss of sleep, dizziness and faint spells, these all point to heart weakness, to nerve derangement, to a state of health consequent upon disease, which, if not corrected and cured by Milburn's Heart and Nerve Pills, will surely end in utter prostration and hopeless invalidism.

BLAMES AIRBRAKES NOT WORKING FOR DEBBY JCT. WRECK

Newcastle, N. B., April 2—The inquest into the death of fireman Robert W. Lamley, killed yesterday at Debby Junction, in a head-on collision between C. Dixon's special and No. 60, was held here this afternoon before Coroner Desmond.
Relief Despatcher Hugh Quilly, the first witness, testified that No. 60 left Newcastle for Indiantown fifteen minutes late.
Chimney Dixon, conductor, of the west-bound special, sworn, said that his crew were Edward Doyle, driver, deceased, and Frank Leahy, brakeman; C. Maloney, fireman. He had twenty-four cars from Moncton.
Specials are supposed to keep clear of regular trains. The air brakes had worked well up to just before the collision. Having no orders regarding No. 60, he knew it was his duty to stop at Debby Junction and enquire, and he intended to do so. When approaching the Southwest bridge he felt the engineer checking speed but not fast enough to stop the train at Debby Junction. He himself then almost immediately applied the air brakes in the van. He noticed the pressure was reduced some six or eight pounds. When applying the brakes he heard air but it made much less noise than it should have done. He failed to stop the train. It struck No. 60, twenty-four car length past the station. He hastened to the front, saw Lamley in the ditch and carried him up the bank. He was dead. He explained the wreck by the brakes not having enough air pressure.

DESPERATE WORK OF CONVICTED FIREBUG

Terre Haute, Ind., April 2—Having been found guilty on a charge of arson, Harry D. McDonald, in the circuit court here today, shot and killed Chief of Detectives Wm. E. Dwyer, seriously wounding three other officers and a bystander, and was himself seriously wounded. McDonald had been tried for dynamiting stores and a church in Sanford last year.
As soon as the jury reported its verdict, McDonald jumped up, drew a revolver and fired at Prosecuting Attorney James A. Cooper, Jr., but missed, because Cooper tipped his chair over backwards. McDonald continued firing at the officers seated around the counsel table. Detective lawyer fell dead at the third shot.

Dr. Shoop's Restorative

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and indigestion as diseases, yet they are symptoms only of a certain specific Nerve Weakness—nothing else.
It was this fact that first correctly led Dr. Shoop to his discovery of the Restorative. Going direct to the source of the trouble, he sought to reach the seat of the disease, and to restore the system to its normal health and vigor.
For stomach troubles, indigestion, heartburn, and all other ailments, try Dr. Shoop's Restorative. It will cure you, and it will do so. We sell and cheerfully recommend.

SCHOOL BOARD NOT TO HANDLE MONEY

Legislation to Be Sought Vesting in Chamberlain Power of Disbursing for School Purposes

OVERDRAFTS THE CAUSE

Suggestion That Yearly Salary of \$2,400 or \$2,500 Should Attach to Office of Recorder—City Asked to Advertise in Standard of Empire—Douglas Claim Settled—Taxes Time Limit Monday.

At a meeting of the treasury board last night it was decided to instruct the bills and by-laws committee to prepare a bill to be forwarded to the legislature to transfer the power of disbursing money for school purposes from the school board and vest it in the city chamberlain. The chairman and Ald. Frink were named to meet a committee from the board of trade to consider the advisability of the city taking advertising space in a new English weekly to be called the Standard of Empire.

The first business considered was payment of \$24 to St. George's church, Carleton for the maintenance of the clock. On motion of Ald. Baxter it was decided to make the payments for the maintenance of clocks a standing order.

W. E. Foster, president of the board of trade, then introduced Charles E. Storr and A. J. Dawson of the London Standard. They were members of the party of British journalists who visited Canada last year. They presented to the board the project of a new weekly, the first number of which is hoped to issue on Empire Day. The paper will be issued gratuitously to subscribers of the Standard and sold at a yearly subscription rate of three dollars. The contents will be colonial news exclusively, about two-thirds Canadian. Messrs. Storr and Dawson represented that many of the Canadian western provinces and municipalities have taken advertising space. New Brunswick will have an eighth of a page, which will cost \$1,500. They wished to induce the city to take space also.

Ald. Frink and the chairman will discuss the matter with a board of trade committee.
The recorder announced that he had been able to settle the Robert B. Douglas claim on the Loch Lomond extension for \$900. An appropriation of that amount was ordered.

The chamberlain said there was under way in the water works department a departmental construction work amounting to about \$90,000. He asked that the board recommend that bonds to that amount be issued.

It was decided that the chairman give notice of motion to this effect at the next meeting of the board.
A discussion arose as to the overdrafts in the departments, especially in connection with the school board. Ald. Baxter moved that the bills and by-laws committee be asked to prepare a bill to send to the legislature asking the power of disbursing money from the school board and vesting it in the city chamberlain. These payments, on behalf of the school board, should then be made on the presentation of certificates signed by the chairman of the board.

A discussion also came up over the manner of paying the recorder. Nothing definite was decided on but Ald. Baxter suggested that the recorder should be paid yearly, \$2,400 or \$2,500. He thought a fair equivalent for the services.

The chamberlain mentioned that Monday, 13th inst., will be the last day on which taxes can be paid in order to qualify as a voter. Those present besides the chairman, Ald. Ballou, were Aldermen Frink, Pickett, Baxter and Vanwart, Common Clerk Wardrop, Chamberlain Langhorne, Controller McIntyre and Recorder Skinner.

Nickel Pictures of High Grade.
In pursuance of the policy, the popularity of which is attested by the ever increasing patronage, the Nickel management are ever on the lookout for the highest class of pictures and songs available.
For the week-end the feature picture is one of the Pathe hand tinted productions of which is "The Three Sins," it deals with youth of the cavalier days during England's civil war, introducing a touch of romance that takes on quite a serious phase, until it transpires that all his misfortunes were really a myth, as they were the results of a dream. It is indeed a pretty conceit, in fact original in coloring and scenic effect, that the thread of the story has an added grace. The Gem of Fire, is an elaborated story picture of the old fairy story order, weird, but sufficiently artistic to hold close interest to the last. For comedy there are Adventures of Captain Kidd, the terror of merchantmen of old, but a happy kick in burlesque, in fact regis- tered Webber & Fields presentation. A Good Joke is another funny one, not hilariously so, but just right to fill the bill. Mr. Beckley, who will finish his engagement on the 7th will sing Rilla of Brantiana. Mr. Maxwell sings When Mandy Said Good Bye, a clever song that will surely be one of the season's hits.

Beavers Have Good Lead.
The Beavers won from the Mimosa in Black's bowling league series last evening. The Beavers were respectively 1,312 and 1,229.

Jewish Wedding.
The North End Jewish Synagogue was the scene of brilliant festivities last evening when two popular young people were united in marriage by "The Three Sins" of the congregation. Miss Lena David, of Chapel street, became the wife of Lewis Atiz, of Moncton, and the friends of both were present in large numbers. Joseph Selig acted as best man. The hall was well filled with a merry-making crowd and there were probably 300 present.

A feature of the annual meeting of the Thistle Curling Club held last night was the presentation to C. J. Milligan, who is soon to take up his residence in Sackville, of a fine gold locket, and to J.

T. FRED SHAW Who received a loving cup from the Thistle Curlers last evening.

Fred Shaw, past president, a handsome loving cup. In making the presentation to Mr. Milligan, President John C. Chesley read an address expressive of the regret at his departure; appreciative of his efforts on behalf of the club, and well wishes for his future in the west. Mr. Milligan replied briefly thanking the members. Vice-President Cameron presented the loving cup to Mr. Shaw. The cup is to be known as the Yarmouth cup.

REV. DAVID LANG'S FATHER IS DEAD IN WINNIPEG

The Rev. David Lang left last night for Winnipeg, having been summoned there by a telegram announcing the sudden death of his father. His St. John friends will deeply sympathize with Mr. Lang in this great bereavement. He will not be able to return to this city until about the 16th or 17th of the month. The services in St. Andrew's church on Sunday will be taken by the Rev. William McDonald of Fredericton.

BOSTON AND HAVANA DIRECT SERVICE WILL BE EXTENDED TO ST. JOHN

Boston Business Men Decided It Is Time to Attack New York's Monopoly

New York, April 2.—J. E. Doherty, John Valente and John Wyde of Boston, with P. F. Doody of Havana, are, it is stated, the moving spirits in the projected direct steamship line between Boston and Havana, with St. John, N. B., as port of call. At a preliminary meeting a short time ago it was decided to form a joint stock company and charter steamers. "There is little doubt of the opportunity, even necessary for such a line," Doody told Bostonians. "For many years New York has been securing business and Boston merchants have done their trading with Cuban ports through New York lines. We propose to give a fine class service with first class steamers. We will guarantee one steamer monthly, but we will build up the schedule as the trade increases, until we are running a steamer a week if necessary. There is a large trade between Boston and Havana and with the opening of business will be greatly increased. Between St. John and Cuba we will build up a trade in lumber, carrying from that port to fill up when trade is light from Boston."

THE NEW Y. M. C. A. BUILDING

Work on it is Well Advanced—Ready for Occupancy by Sept. 1st

Work on the new Y. M. C. A. building is being carried steadily forward and the association's new home will in all probability be ready for occupancy the latter part of August or early in September. Most of the rough work has been pretty well completed and it is expected that as a very large portion of the lathing has been finished, the work of plastering will be started within the next few days. A good deal of plumbing has been completed and the wiring for electric lights, etc., is finished, or nearly so. The work is being pushed forward with all possible haste and it is almost certain that the building will be completed at the time already mentioned.

EASTER CARDS

The Times has received from Raphael Cook & Sons Co., Ltd., fine art and book publishers, 9-17 St. Antoine street, Montreal, a variety of samples of their Easter cards. In design, coloring, artistic printing and real beauty of appearance they leave nothing to be desired. There is a great variety of designs, and the interesting character of the text adds to their value. In addition to the beautiful cards appropriate to Easter there are others of most artistic design, Scottish clans, the patriotic design, Scotchmen, six in a packet, picture post cards showing Canadian scenery in colors, and others of humorous design. The high-class character of all these cards will commend them to the public.

EVERY DAY CLUB

In the debate at the Every Day Club last evening the champions of wood defeated those who held that iron was of greater service to man. There were fine speakers on each side, and a large audience heard the debate. The five and drum band played several selections, which were greatly enjoyed. A dime concert in aid of the band will be given in the hall this evening.

OBITUARY

Mrs. Ann E. Page. On Wednesday evening at the home of her daughter, Mrs. G. B. Crowe, Truro, Mrs. Ann E. Page, widow of Richard R. Page, died. William Jeffery.

Young's Cove Road, April 1.—The death occurred at his home on Friday, March 27th, of William Jeffery, aged 73 years. Death came as a sudden stroke to his family, although in failing health for the past year it was not thought the end was so near. He leaves an aged widow and eight children, Arthur Collins and Charles of this place and Capt. John Jeffery of New York, Mrs. James Shannahan and Mrs. P. D. Waynot of Livermore Falls, Me., and Mary and Jennie at home. Mr. Jeffery was the father of eleven children, three of his sons being dead.
