Germany Now Agrees To Inter-Allied Military Control
DEMOCRATS BRING ISSUE OF NATIONS

THIS REMOVES THE BUGBEAR OF DISARMAMENT
Germany's Military Organizations to be Inspected by Allied Nations.
MARX IS FIRM

Tells the Junkers Their Interference is Not Desired in the Matter.

K This Removes

(United Press.)

Berlin, June 28.—The German Government has definitely accepted inter-Allied control of Germany's military organizations.

Despite the fiery objections of the Junkers, the Government completed a note to the Allies Friday, agreeing to a final inspection of the organizations which have caused anxiety abroad.

The accent is on the "final" in the note. Having embarked on a course which is not approved by reactionary groups, the Government wishes to settle the question in definite fashion. The note is being forwarded to Paris and will be handed to the Allies between now and Monday, when it probably will be published.

Marx Terse and Firm.

Chancellor Marx put the final touches to the note Friday noon, after conferences with the Nationalists, with whose protests he dealt firmly and briefly. Marx told them, according to reliable information, that their interference in the situation is not desired. Considerable surprise has been caused by his attitude toward the group, which was led by the powerful Nationalist leader, Admiral Von Tirpitz, of U-boat fame.

The correspondence between Premier Herriot and Von Hoese, German ambassador to Paris, has been published. Discussing renewal of the so-called minimum contracts whereby German industrialists agreed to give Ruhr deliveries in kind to the French, Herriot pointed out that the London conference is coming in mid-July; that he hoped the question of the expert report will be settled shortly; and that he thus saw little occasion for Government to Government negotiations on a treaty which would last only a few weeks.

ASKING PARDON OF MAINE GOVERNOR

Adams, Government Witness in Conspiracy Cases, Has Filed Petition.

Augusta, Me., June 28.—An aftermath of the Aroostook conspiracy cases in which Sheriff Edwin W. Grant and Willard S. Lewis, a Houlton lawyer, were sentenced to a term at the Maine penitentiary, and County Attorney Herschel Shaw of Houlton was sentenced to the state's prison at Thomaston, is the filing of a petition for a pardon by Roy D. Adams of Houlton. Adams, who admits that he has been in the liquor business, was one of the government witnesses in the cases against Sheriff Grant, County Attorney Shaw and Attorney Lewis. He was sentenced in one case to pay a fine of \$500 and costs and to serve four months in jail and in default of payment to serve six months additional in jail, while in another case the sentence was a fine of \$500 and costs and three months in jail and in default of payment to serve six months additional in jail. He was committed to the Houlton jail on Dec. 10, 1923.

In his petition for a pardon, Adams says that he has not been connected with the liquor business since October, 1923, and that since that time he has been engaged in the manufacture of lumber. He has given the Aroostook authorities valuable information in the prosecution of certain persons duly convicted; that he is in poor health and the term of imprisonment imposed on him might have a serious result; and that he is out of the liquor business forever.

Advices Men to Return to Work at Once; Believed They Will.

(Canadian Press)

Windsor, Ont., June 28.—A bombshell was thrown into the ranks of the strike Windsor workers yesterday when Mayor Mitchell, on his return from Ottawa where he had gone in an effort to iron out the difficulties between the Government and the men, informed the strikers that they had been "double-crossed by your own officials." Leaders of the strike movement the Mayor said, had misled the followers into belief that the Ottawa authorities had refused to listen to the eleventh hour arguments when the reverse was actually the case.

The Mayor advised the men to return to work at once and it is believed they will do so and make their demands later. A labor meeting with Hon. O'Brien Proves Former Dorchester Prisoner Paroled Last April.

Just previous to the opening of the Police Court this morning Magistrate Henderson took occasion to pay a high tribute to the work of Detective Patrick Biddiscombe yesterday when he successfully captured Daniel O'Brien in Mill street. HE WILL DENOUNCE AMERICAN POLICY

Colored Ambassador Takes Up Cudgels For Republic of San Domingo.

By HENRY WOOD (United Press Staff Correspondent.)

Lyons, June 28.—The United States was scheduled for an international gruffing when the International Union of League of Nations Associations convened here today for its final session.

Sam will be summoned on the carpet and given an opportunity to hear what the rest of the world thinks about his military occupation by armed forces of the republic of San Domingo and Haiti. The placing of this question on the agenda of the International Union of League of Nations Associations and it was written down on the agenda for the meeting which convened today.

The entire situation created by the United States military occupation of San Domingo will be presented to the conference by Louis Danté Bellegarde, the Italian Minister to Paris, who, during the past Assemblies of the League of Nations has created an international reputation for himself as a silver-tongued orator in French.

It was Monsieur Bellegarde who brought before the League Assembly the question of South Africa's suppression by air bombing and other modern war methods of a native revolt in which a large number of negroes, including women and children, were killed.

Bellegarde, who is himself colored, has won a marked position in League of Nations circles for his defense of the colored race.

The conference which met today is composed of delegates from the League of Nations Societies in nearly all of the leading countries of the world, including several, such as Russia and Germany, which are not members of the League.

A REFERENDUM ON THE LEAGUE IS CALLED FOR

This is One Plank in the Platform of the Democratic Party.

WAR CONDEMNED

Hope of the Nations Lies in League of Nations and World Court.

(Canadian Press.)

New York, June 28.—A composite plank was finally adopted by a viva voce vote by the Democratic convention here last night. It read in part: "The Democratic party pledges all its energies to the outlawing of the whole war system. We refuse to believe that the wholesale slaughter of human beings on the battlefield is any more necessary to men's highest development than killings by individuals."

THE ONLY HOPE FOR PEACE AND ECONOMIC RECOVERY LIES IN THE ORGANIZED EFFORTS OF NATIONS COMBINING TO REMOVE THE CAUSE OF WAR AND SUBSTITUTING LAW AND ORDER FOR VIOLENCE.

Greatest Moral Question.

"It is of supreme importance to civilization and mankind that America be placed on the right side of the greatest moral question of all times. The Democratic party declares its principle of rendering assistance in the high purpose of establishing world peace through the League of Nations and the World Court of Justice, which it recognizes as institutions representing the supreme effort of statesmanship."

"It is desirable and wise and necessary to leave this question out of partisan politics and that we take a census of the American people by a referendum election, advisory to Congress to be held officially under action of Congress and free from all contentious political questions."

"Shall the United States become a member of the League of Nations under such reservations to the covenant of the League as the United States may care to establish? Immediately upon an affirmative vote we will carry out such mandate."

The plank was adopted on a viva voce vote.

Whether the League of Nations declaration would be carried by the floor depended upon the decision of Newton D. Baker, Secretary of War in Woodrow Wilson's war-time cabinet. The committee had adopted 34 to 16 a composite plank calling for a national referendum on United States membership in the League. Mr. Baker, however, had stood firmly, though possibly alone, for an unequivocal declaration pledging the United States to take immediate steps to bring the United States into the League, and had prepared a minority report for presentation to the convention, but had not at an early hour made known definitely whether he would, when the time came, take such a course.

The last of the preliminary formalities of the convention were cleared away yesterday when the roll call of states for nominations was completed, and, as a result 16 names were formally before the delegates today as candidates for the Presidential nomination. It was known also that several others would receive votes during the early balloting, at least.

The week of steadily accelerated maneuvering apparently had brought about no material change in the deadlocked situation involving the vast field of candidates. William G. McAdoo, of California, and Governor Alfred E. Smith of New York were the lead in the number of pledged votes for the opening ballot, and managers of each maintained claims of accessions. Sponsors of dark horse candidates meanwhile continued to express pleasure over the situation and confidence in the outcome.

The threat of a clan fight in the convention and its dangerous potentialities to the party kept leaders up most of the night in small conferences seeking the way out of the difficulty, which had almost completely overshadowed the controversy over the League of Nations plank.

ANOTHER HILL WILL OFFERED TO COURTS

Much Litigation in Sight Before Legal Heirs Are Named.

Toronto, June 28.—Many thousands of dollars have been expended out of the \$400,000 estate of the late William Henry Hill in an effort to probate an alleged will of January, 1923, but who the ultimate beneficiaries will be is a matter yet to be legally decided. Mr. Justice Orde refused to accept the 1923 will as genuine, and dismissed the application for probate made by the executor, but it is understood an appeal will be taken from this judgment.

Further developments in the case are expected. It is said that the next-kin will make an application before Mr. Justice Lennox in Judges' Chambers at Osgoode Hall to have the estate put into the hands of a trust company until such time as final disposal of the estate is made. It is also learned that the beneficiaries under the will of 1911 will make application before Judge Widdifield to have that document accepted. It is likely that both these actions will stand pending hearing of the appeal.

The street car, the policeman said, was passing the foot of King street before the automobile came along.

THE HARBOR.

Prospects for July for the harbor were very good, it was said this morning by Commissioner Bullock, but the revenue for June would probably fall about \$1,000 below that of the corresponding month of 1923. The department had notice of the arrival of two steamers and several schooners to load lumber and pulp wood and a cargo of coal for the sun refinery was due any day. A start is to be made on Monday morning at the repairs to No. 5 trestle, the commissioner said. It would take about three months to complete as there was quite a lot of tide work.

GRAIN SHIPMENTS

Figures just received by Commissioner Bullock give the amount of grain brought here last season by the Canadian National Railways and of which nearly one half was shipped through C. P. R. elevators. The amount brought here in the season of 1923-24 by the C. N. R. was 2,864,921 bushels and of this 1,938,469 bushels was taken in C. N. R. cars to the west side and handled through C. P. R. elevators.

ONE OF CANADA'S LIVE WIRES HERE
GREAT PICTURE AT IMPERIAL MONDAY

Wallace Beery, who plays the role of the fourth in Pola Negri's new Paramount picture, "The Spanish Dancer," which will be shown at the Imperial Theatre Monday, has been invited to St. John today. He is one of the live wires of the good roads organization, and of many others.

Mr. Kelley, whose home is in Hamilton and who is president of Hamilton Advertiser's Agency, Ltd., says he is much impressed with New Brunswick's beauty and resources. He is much interested in Maritime ports and thinks much might be done to have more grain shipped through these ports by the development of a strong public sentiment for Canadian trade through Canadian channels.

St. Stephen will play the W. Vets a doubleheader here today in place of Calais. The management of the latter team was unable to get a club together and called off the game this morning. Efforts to get St. Stephen, however, were successful.

The funeral of Mrs. Mary Murphy was held this morning from O'Neill's Undertaking Parlor to the Cathedral where requiem high mass was celebrated by Rev. R. McCarthy. Relatives were pall bearers. There were numerous spiritual offerings. Interment was in the new Catholic cemetery.

A charge against George Matthews for causing damage to the asphalt in Haymarket Square with a ladder while engaged in painting a house there, was deferred pending removal of the damage reported to have been done.

GOOD ROADS WILL BRING TOURISTS IN

Association Urged to Help Advertise Attractions of the Country.

St. Andrews-by-the-Sea, June 27.—The eleventh annual conference of the Canadian Good Roads Association was held here this afternoon after one of the most successful series of sessions in the history of the organization, according to officers and delegates who were present from all parts of Canada and from several of the States of the American Republic.

The last session, which ended this afternoon, was one of the most interesting of the whole conference, particularly to the Maritime Provinces, where the question of tourist traffic today is a live issue.

The importance of the tourist traffic to Canada as a whole and to each of the provinces in particular was well demonstrated by J. B. Harkin, commissioner of Canadian National Parks, Ottawa, who delivered an address in which he showed the great amount of foreign money which was brought into Canada through this medium.

He urged continued action on the part of the association and its allied members to maintain and increase this valuable source of revenue, for which he said the foundation was good roads and more good roads.

He said that the amount of money brought into Canada by tourists last year was estimated at \$180,000,000, of which \$4,000,000 came to New Brunswick, \$6,000,000 to Nova Scotia, \$25,000,000 to Quebec and to British Columbia, which was more intensively organized for tourist travel.

He said that this revenue, which was wise adverse trade balance with the United States, offsetting the great amount of money which goes out of the country to pay dividends on United States capital invested in the Dominion of Canada.

truck gardens and an alarming condition in the country averted. Canada, he said, had hardly touched the surface of the tourist business, and it rested with the people to open up the avenues from the rich country to the south by providing the roads.

Another important subject dealt with at the closing session, was that of safety traffic signals, on highways contained in a paper prepared by R. J. Durlley, secretary of the Engineering Standards Association and presented by J. A. Duchastel, city manager of Outremont, Que.

He advocated a uniform system of signals in the interests of safety. Standardization, he said, would be difficult on account of varying conditions in different provinces.

It was to pass a resolution, requesting the executive to take up actively the question of legislation, requiring the displaying of a red light on the rear of all vehicles using the highways of Canada.

A DAY OF PROMISE

Comment in European capitals and on this side of the water indicates a greatly strengthened confidence that the coming inter-Allied conference in London in July will bring a day of new promise to Europe and to the world at large.

The statements made concerning the meeting by M. Herriot created the impression in some quarters that Mr. MacDonald had consented to a new offensive and defensive alliance with France, but while that is not correct the facts themselves are sufficiently reassuring.

The United States, which will be represented at the conference by the American Ambassador to Great Britain, is strongly in favor of having the Dawes plan carried into operation as soon as possible.

TEN YEARS AGO

The world this week is reminded once more about Sarajevo. Ten years ago the world knew nothing of such a place. Ten years ago today a pistol shot fired there by a young Serbian fanatic resulted in an Austrian ultimatum to Serbia, absolutely unreasonable in character, and gave Germany the opportunity for which it had been waiting.

WHEAT AND FLOUR

One of the most remarkable features of Canadian trade has been the rapid increase in the amount of wheat exported since the close of the war. In 1920 we exported 41,808,000 bushels; in 1921, 77,978,000; in 1922, 129,215,000; in 1923, 136,489,000; in 1924, 215,464,000; and in the year ended March 31 last the amount was 256,870,000.

FIGURING ON HER TIME

(Kingston Standard.)

It is stated that in New York State a farmer's wife has calculated the amount of some of her work during thirty years of married life. A partial list is that she served 236,423 meals, made 83,190 loaves of bread, 5,930 cakes and 7,860 pies, besides canning 1,550 quarts of fruit, raising 7,600 chickens, churning 5,450 pounds of butter, and putting in 38,441 hours in sweeping, scrubbing and washing.

TOM MOORE AND CANADA

(Toronto Globe.)

Thomas Moore's visit to Niagara and other parts of Canada in 1864 is recalled by a Niagara reader, Mrs. E. J. Thompson, who notices Moore's name in the Homekeeper Page recently for the words of Moore's poem, "The Whip-poor-will." Our reader does not allude to the poem, and a scanning of volumes at the Reference Library has not discovered it.

"I first heard of it in 1880," says Mrs. Thompson, "when visiting the house Moore lived in at Ste. Anne. An old French gentleman, who took us to the house, told us that Moore had lived in Canada for many months and written a number of poems and songs while here. He quoted 'The Whip-poor-will,' and said it was written at Niagara. The old house, Martin Melancon (who was killed while saving the ship May 27, 1813), now owned by Mr. Usher, was the house from which the poem was so gracefully quoted, for it was the only house whose chimneys could be seen from Fort George."

THE COUNTRY CHURCH

(New York Times.)

Many years ago, before it was dreamed that Windsor County, Vt., was the birthplace of a future President of the United States, a study was made of the church life in that particular county, which is essentially rural. A like survey has been lately made and the comparative results have just been published.

"The census of 1890 enumerated 3,922 working oxen, almost an average of one to a farm; in the census of 1920 oxen are not mentioned. Today almost everybody has an automobile, and not all of them are Ford. Although the registration of cars in Vermont is not made on a county basis, the Secretary of State estimates the number owned in Windsor County as between 4,500 and 5,000. On 'dances night' even a half of them are Fords. Although the registration of cars in Vermont is not made on a county basis, the Secretary of State estimates the number owned in Windsor County as between 4,500 and 5,000.

PRESENTATIONS MADE

Some fifty members of the congregation of the Silver Falls Methodist church gathered at the home of Mr. and Mrs. E. J. Young last evening to say farewell to Rev. L. J. Wason, Mrs. Wason and family, who leave for Weymouth toward the end of next week, where Mr. Wason has accepted charge of the Methodist church. Harry Shilington read an address, expressing to Mr. Wason the appreciation of the congregation for the work he had accomplished, and also of regret at the departure of himself and family. He presented Mr. Wason a well filled purse of gold, the gift of the congregation. Mr. Wason replied appropriately. Mrs. E. J. Young, on behalf of the cast of 'The Beantown Croir,' presented Miss Marjorie Wason a string of pearls. Miss Wason replied fittingly. Mrs. Young served refreshments at the close of a pleasant evening.

AWAY WITH REST OF LUMBER CARGO

The steamer Margaret Coughlan, after discharging part of her cargo of Douglas fir at the Long Wharf, sailed about 7 o'clock last evening for Halifax, St. John's, Nfld. and Corner Brook, Nfld., to discharge the rest of her cargo.

The cargo was brought to St. John from New Westminster, B. C., via the Panama Canal. The Margaret Coughlan is one of the largest ships employed in the lumber carrying trade and some idea of her tremendous lumber carrying capacity may be obtained from the fact that on her trip around from the Pacific to Montreal last year she had a cargo of 5,000,000 feet, which is believed to constitute a record shipment.

After discharging her cargo at Montreal, the ship proceeded to Sydney, where she loaded a cargo of steel products for British Columbia ports. Another feature in connection with the Margaret Coughlan, owned by the Canadian Western Steamships Limited, of Vancouver, is 5,704 gross and 3,631 net tons and was built at Vancouver in 1920. She is 411 feet in length.

NAMED FOR BOARD OF COUNTY HOME

Mrs. J. D. Seely and Miss M. H. McCloskey Nominated—Report Heard.

Mrs. J. D. Seely and Miss M. H. McCloskey were chosen as the nominees of the Local Council of Women for appointment to the Municipal Home board at the meeting of the council yesterday afternoon in the Board of Trade rooms.

Mrs. E. A. Young presided in the absence of Mrs. A. W. Estey. Mrs. Louis M. Owens acted as secretary. Correspondence read included communication from Lady Aberdeen on the convention on the prevention of the causes of war.

Mrs. Grace W. Leavitt, acting treasurer, reported \$4.36 in the general fund and \$1,116.50 in the milk fund. Contributions to the milk fund during the month included \$20 from J. D. O'Connell, "The Orphans' Friend," and \$50 from Pacific Dairies. The 120 donors were to be thanked.

The meeting balloted on the names suggested for appointment to the Municipal Home Board. The names were Miss M. H. McCloskey, Mrs. J. D. Seely, Mrs. (Staff Captain) Ritchie, Miss Cora Sinclair and Mrs. J. Boyle Travers. The scrutineers appointed were Mrs. A. C. D. Wilson and Mrs. W. Brown.

Mrs. H. B. Peck presented her report on the constitution and by-laws of the national and local councils, which was received with applause. Miss Leavitt spoke in warmest praise of the report and Mrs. Peck's work.

Mrs. M. H. B. Good, in seconding motion to adopt the report, paid a tribute to Mrs. Peck's work and expressed the opinion that as a deliberative body the council should hold only about three or four meetings a year and that officers and conveners of standing committees should have the right to vote.

The scrutineers announced Mrs. J. D. Seely and Miss M. H. McCloskey had been chosen as the council's nominees for appointment to the Board of the Municipal Home. Miss McCloskey and Mrs. Seely thanked the meeting for the nomination.

Mrs. J. Goldman said each affiliated society should be given a printed copy of the constitution and by-laws when approved. On Mrs. M. H. B. Good's motion, seconded by Mrs. J. D. Seely, it was decided to appoint a committee to revise the constitution and by-laws and after revision to have them printed.

Mrs. H. B. Peck was appointed convenor of the committee with the following additional members, Miss M. H. McCloskey, Mrs. E. A. Young, Mrs. Louis M. Owens, Miss Grace Leavitt and Mrs. M. H. B. Good.

Delegates to attend the National Council annual meeting and substitute were named as follows: Mrs. J. A. McAlpine, Miss Grace Leavitt, Mrs. H. B. Peck, Mrs. A. C. D. Wilson, Mrs. G. Wilford Campbell, Mrs. J. D. Seely, Mrs. James McAvity, Mrs. William McAvity and Mrs. W. Edmond Raymond.

HEART WAS SO BAD HAD TO SIT UP IN BED Mrs. O. E. Fitzgerald, 106 Ross street, St. Thomas, Ont., writes:—"In the fall of 1921, I was taken ill with my heart, but I did not pay much attention to it. I kept on with my household duties, but seemed to become worse and worse, and finally had to call in a doctor. He said I was all run down and was a nervous wreck. I had a severe pain in my chest which would move over to my heart and it became so bad I could not lie down, as when I did I had such a rattling feeling I would have to sit up in bed till it passed away.

I tried several remedies, but with no good result. Finally, I was induced to try Milburn's Heart and Nerve Pills. I took 7 boxes, and I am now as well as I was thirty years ago, and I am now sixty-five years old."

WILL LEAVE C.N.R. AFTER 47 YEARS

L. R. Ross, Terminal Superintendent, Now on Leave of Absence.

L. R. Ross, terminal superintendent of the Canadian National Railways in St. John, who has been in the service of the railway for 47 years, enters on six months' leave of absence on July 1 and, at his own request, will be retiring following his leave of absence.

Clarence S. Pushe, relieving superintendent, will come to St. John to take Mr. Ross' place and it was said by Walter U. Appleton, general manager of the Atlantic region of the C. N. R., in a long-distance telephone communication from Moncton last night, that Mr. Pushe would in all probability succeed Mr. Ross and receive the permanent appointment.

Mr. Appleton spoke with warmest appreciation of the service of Mr. Ross who had been a highly efficient officer of the company. His retirement was entirely of his own seeking and was regretted by the company, he said.

Mr. Pushe has been in the service of the company for many years. His home is in Mulgrave, N. S. He has worked through the different branches of the service and has won well merited promotion. For several years he was a general officer at Moncton and for the last year he was relieving officer for the district.

Mr. Ross' retirement will be greatly regretted in St. John, where he has spent the whole of his 47 years of service with the railway. He attained to the highest office in this section of the country and has filled that office to the satisfaction of the public and of his associates in the service. His many friends will wish him many years of health to enjoy a well earned recreation.

O'CONNELL TO GIVE SEVERAL PICNICS

Will Feast Children in Other Maritime Centres—Asks Help Here

A picnic for the children of Sussex would be given by him soon after the one for the orphans and children of St. John, J. D. O'Connell said last night. Mr. O'Connell was not sure of the exact date, and said that he would not be in a position to announce it until after the picnic here on July 5.

Two other picnics will be held in the province, one at Havelock, which will follow the Sussex picnic, and the third on the North Shore. Mr. O'Connell plans holding several picnics in Nova Scotia.

Several citizens had already volunteered the use of their cars on the day of the picnic for the transportation of the orphans to and from the Barrack Green, but many others would be required, Mr. O'Connell said. He trusted that this year, as in former years, the citizens owning cars would be generous and give an added enjoyment to the orphans.

Mr. O'Connell was particularly stressed that only orphans would have the privilege of being driven to and from the grounds.

CHUMS MARRIED SISTERS. Two young brides and grooms are visiting in the city at the home of Mr. and Mrs. George Bailey, Kennedy street. They were recently married at a double wedding in Lawrence, Mass. The grooms were chums and the brides sisters, each attending the other at the simple, but very pretty ceremony at which Rev. George F. Beecher, of the First Baptist church, Lawrence, Mass., officiated, at the home of the two brides' father, Saturday, June 21. Miss Mildred A. Keyes married Stanley G. Bailey, who was a St. John boy, and at whose parents' home the party are now. Miss Doris C. Keyes married Barry Hawkes, formerly of St. Martins. The brides were both dressed in smart tailored suits and carried bridal bouquets. Messrs. Bailey and Hawkes are engaged in the same business and have been intimate friends for years. The young people traveled here by motor. Their pictures appeared in the Lawrence Evening Tribune, the day they were married.

The Measure of Life

CUT this rule measure out and paste it on your mirror, or some place where you will see it frequently. It represents the normal span of seventy years of life for men and women, narrowing towards the top because expectation of life narrows from year to year, and each year seems to pass more quickly than the last. The scale breaks off suddenly at the end because, even if extended a few years, active life is practically at an end.

Take a pencil and place it upon the exact point in the scale which represents your age. Look ahead and count up the years. Think seriously whether you have sufficient time ahead of you to permit of procrastinating the carrying out of any plan of life you may have decided upon.

You have always intended to take on adequate insurance. With this scale measure before you, decide now whether you have taken on sufficient insurance. Every year you delay increases the risk and the cost of carrying that risk.

The Mutual Life Assurance Company of Canada holds out to you practically every plan of insurance in which insurance actuaries have confidence. The Mutual Life of Canada offers insurance at cost.

Alfred Howell, of Toronto, designer of the St. John civic war memorial, is in the city. He met with the members of the war memorial committee informally yesterday morning. Mr. Howell viewed the proposed site of the memorial at the head of King street and pronounced it to be one of the best sites he had seen in the whole of Canada. He stated that he had no objection to using New Brunswick granite for the monument, providing the cost was no greater. He will remain in St. John for the next meeting of the committee, which will probably be held on Monday.

He described the monument and the ideal it portrays. The height will be about 34 feet. The monument will consist of a monolithic shaft surmounted by a symbolic figure representing Victory through Sacrifice, bearing in her left hand the representation of Victory and in her right hand the symbol of Sacrifice, a cross.

In contrast to this figure of Victory

SWIMMING SCOWS DRAW 200.

The swimming scows at the foot of Kennedy street are proving even more popular this year than ever. The recent warm wave caused a rush which, according to Mark Burns, who is in charge of the scows, has taxed the dressing-room facilities. Yesterday more than 200 persons took advantage of the opportunity offered for bathing and swimming. A class for beginners in swimming is looked after every afternoon by Mr. Burns, starting at 2:30 o'clock. Novices are appearing in larger numbers daily, and several of them are making excellent progress. Children are not permitted to go in after 5 p. m., but adults can enjoy the privileges until 9:30 p. m. A refreshment booth has been opened nearby and appears to be doing a thriving business.

Journeying West, Sees Need For Greater Maritime Boost

SHOWS PRESS FOR ADVANCEMENT OF THE MARITIMES

Says People and Governments Should Strive for Their Welfare.

ENLARGE INTERESTS Mentions Needs of Hotels Like the Admiral Beatty—More Publicity.

R. E. Armstrong, secretary of the St. John Board of Trade and president of the New Brunswick branch of the Navy League, writes under date of June 20, from Victoria, B. C., where he is attending the Navy League of Canada convention, as follows:

My transcontinental trip throughout Canada was completed at 3:30 this afternoon, when I landed at the beautiful and highly adorned city of Victoria, B. C., after a most delightful trip of about six hours over the Pacific waters from Vancouver.

The glorious and inspiring beauties of the Dominion, from the attractive maritime provinces to the prairies, mountains and rich agricultural areas of the West, also the remarkable progress that I noticed since my all-Canadian trip of 80 years ago, have not only awakened feelings of admiration and respect for the accomplishments of our fair Dominion, but they have also impressed upon me the absolute need for the men and women of the Maritimes, as well as the governments of these three provinces, to press with might and main for the promotion and advancement of these provinces along all possible lines.

Maritime Perseverance. Loyalty and perseverance for the expansion of the port, industrial and other interests of New Brunswick, Nova Scotia and Prince Edward Island, should not only be helpful to the provinces, but also to the Dominion at large. We do not want a feeling of grievance that the men of the Maritimes are not equally interested in the progress of this section of Eastern Canada, but that they are also desirous to lend assistance to the expansion of all Canada.

We must use every effort to enlarge our agricultural and industrial interests; to beautify our cities and towns; to provide them with outstanding hotels such as the Admiral Beatty; to endeavor to secure the co-operation of all maritime provincial organizations in works of this character and to see that the Port of St. John, as well as other ports of the Maritimes receive the fullest and broadest measure of publicity.

More Publicity Needed. St. John, as well as the province, needs publicity of a broad type in order to acquaint the public of Canada, of the British Empire and of other world areas, with their wonderful possibilities. Only a few days since, I had letters from parties who had been overseas, in which the statement was made that the public of Great Britain knew very little respecting this section of the Dominion. In my journeying over the West I saw little publicity regarding the beauties, attractions and opportunities of these maritimes.

Florida Sets Example. While passing through Toronto I was in touch with the secretary of a Florida Chamber of Commerce, who had engaged for a fortnight a large room on the ground floor of one of Toronto's leading hotels for the purpose of awakening an interest in the poster attractions of his city. He was displaying a twenty-foot painting of his beautiful region, which had been artistically portrayed by an artist who had charged \$1,000 for his work. Photographs of an attractive nature adorned the window. There were also samples shown of the fish that were caught by winter tourists in Florida. Distribution was likewise being made of grape fruits that grew in Florida, also of cigars of a neat type that were made there.

His equipment, he stated, also included a film projector which could provide moving pictures of the locality from whence he came. He further stated that advertising of his section was being supplied through many newspapers and magazines, that practically all citizens and organizations, as well as the city council, were linking up closely with the Chamber of Commerce along publicity lines, and that in the vicinity of \$100,000 was being expended this year for the purposes above mentioned. He stated that the people of his city were greatly impressed with their accomplishments and with the interest that was being manifested by the public throughout the United States and Canada.

I sincerely hope that the people of the Maritimes will at once begin to realize the need for similar activity on their part. I was greatly impressed with the splendid welcome that was accorded the Rotarian convention by Toronto. Flags, bunting and beautiful welcome arrangements were everywhere to be seen.

Let me state that on this trip I was greatly pleased to receive a beautiful view of our province that was visible during day-time, also of Quebec, Ont.

On the High Seas in a 16-Foot Boat

There aren't many who'd relish a 100-mile ocean voyage in a 16-foot open motor boat. But Linden B. Fanta and wife of Seattle do. They are making the trip from Seattle to Skagway, Alaska, now. It was all planned as an outing for their six-month-old daughter, Jean. She, of course, is accompanying them, sleeping in a non-sinkable crib amidship. "Sergo," the goat that will furnish fresh milk for Baby Jean; "No-See-Um," the cat, and "Bouroughs," the dog, make up the rest of the "crew."

tarlo, and the Western Provinces, particularly the great and glorious mountains of Jasper Park, and of the Rockies in general. I was simply astounded with the immensity of the progress that had been made in the last 80 years in Toronto, Winnipeg, Saskatoon, Edmonton, Vancouver, Victoria and other parts.

While passing through Winnipeg I had a conversation with H. R. Fanta, north, the secretary of the Maritime Provinces Association, which has recently been established there. He is a native of Nova Scotia. Prof. J. N. Finlayson, who is another maritime province man of a progressive type, is president of this organization. The objects of this association, as set forth in its printed circular, are to promote good fellowship among the members and to endeavor to strengthen the bond which united the eastern and western provinces of the Dominion. These are surely splendid objectives. The St. John Board of Trade will doubtless be pleased to extend their co-operation to this association as well as to any other organization of the maritimes. In my hasty trip I met many maritime province men in the far west—from St. John, Fredericton, Bathurst, Windsor, and other points.

The Railways. One feature that pleased me greatly was the excellent way in which the Canadian Pacific Railway Company, it has also a very courteous lot of conductors and porters, who closely look after the comforts and needs of their patrons. Many improvements are noticeable in the various regions through which it operates. Hundreds of laborers were actively employed in improving the steeper and other difficult features of the road. Many grain elevators were also noticeable. The C. P. R. has done wonderful things along improvement lines. Many stations have been enlarged, station grounds have been beautified, hotels have been improved, and many other accomplishments reached. The Empress Hotel and adjacent grounds at Victoria are marvels of grandeur and gorgeousness. Their steamship system along the Pacific coast, as well as the enlargement of their grain elevator plants in Vancouver and other ports are also worthy of special mention.

Navy League Delegates. Now let me tell you something about the Navy League representatives who accompanied me on the route from Toronto to Victoria. They occupied the Pullman car "Strathcona" during the whole run. Among those who composed the Navy League delegation were President Sam Harris of Toronto and his good wife, Lt.-Col. Cecil G. Williams, the energetic and prudent secretary, Miss Gillespie, assistant secretary, Major Coleman, Rev. J. Russell McLean, editor of the Sailor; Brigadier-General Lessard; Alderman Colwell and Joseph Penny of Halifax; J. R. McNicol of Toronto, and a few others from Saskatchewan, Alberta and other districts.

Upon reaching Victoria a cordial welcome was extended the delegate by a welcome committee, of which Major Langley was the head. Soon after registering at the Empress Hotel, they were entertained at a 5 o'clock luncheon by the Victoria committee. Major Langley announced the following programme: Friday, June 21—Delegates will be on arrival by members of B. C. Division, Navy League. Saturday, June 22—Members will assemble at Empress Hotel at 9 a.m. to go on board S. S. "Princess Charlotte" at C. P. R. dock for the purpose of meeting the British squadron in the Straits.

Afternoon: Races at Colwood—Time of start to be arranged later. Sunday, June 23—Members will be discovered hidden in the woods along Glace Bay motor boat on Wednesday evening off the three mile limit with about 80 cases aboard.

LIQUOR SEIZED NEAR GLACE BAY. Glace Bay, N. S., June 27—The largest rum seizure of the year was made at Long Beach last evening by Customs Collector Orr, of Port Mouton, when 80 ten gallon kegs, valued at about \$12,000 were confiscated. A large portion of the liquor was found stored in a barn owned by Angus W. MacDonald, while the remainder was discovered hidden in the woods along the shore. This is the second liquor seizure that has taken place this week in the county, the first being at Glace Bay motor boat on Wednesday evening off the three mile limit with about 80 cases aboard.

Miss Mildred Crosby, young daughter of Mr. and Mrs. Dane Crosby, who had been ill at her home, is declared out of danger. William Ferguson of Biggar Ridge, Carleton county, is visiting at the home of his brother, John Ferguson, and Mrs. Ferguson, Lorneville.

Five Pleats. A French shop is importing very charming frock of fat crepe finely accented pleated and trimmed with hand hemstitching.

CHURCH UNION BILL OVER ALL MONDAY

Parliament Has Measure Nearly Ready for Its Third Reading

Ottawa, June 27—The Church Union Bill is now ready for third reading except for one section. The section which has not yet been passed is that in regard to the vote to be taken by congregations to decide whether they shall enter the United Church or remain out of it.

When consideration of the measure was taken today, it was of course the vote on the Brown amendment last night, which struck out of the bill the Duff amendment sending it to the courts, had been accepted as a test of the new church union by taken by ballot distributed through the mails. The bill provided for a vote at a meeting, subsequently Mr. Duff changed his amendment to provide for the distribution of ballots or the holding of a meeting as an alternative. There was an hour's discussion and then the section was laid over.

The next section relating to the Federal Commission to decide as to the equality of non-concurring congregations in denominational property also caused some debate. A couple of amendments were moved to provide a recompense of minorities within congregations but they were both ruled out of order as requiring notice.

The rest of the bill passed rapidly, and at the end there was added an amendment proposed by Premier King to provide that "it is intended by this act to sanction the provisions contained in so far only as it is competent for Parliament to do so."

Afternoon: Visit to H. M. S. Hood, Repulse and H. M. S. Adelaide. 9:30: Ball at Government House. Tuesday, June 24—8:45 a.m. Dominion Council meeting. (Private dining room, Empress Hotel). 9:30 p.m. Citizens' ball at Empress Hotel.

Wednesday, June 25—H. M. S. Hood, Repulse and H. M. S. Adelaide leave for Vancouver. 9:45 a.m. Dominion Council meeting continued. Afternoon: Reception on board H. M. S. ships at Esquimaux. 8 p.m. Review of Victoria Sea Cadet Corps at drill hall, Menzies street.

Entertainments. Personal invitations have been issued to a ball at Government House on June 23 under the direction of the Lt. Gov. of British Columbia and Mrs. Nichol; to a ball to be given June 24 by the mayor and citizens of Victoria to Vice-Admiral Field, Rear-Admiral Sir Hubert Brand, and officers of His Majesty's special service squadron; to a dinner by the Government of Canada on Saturday night to the special Navy League cruise on the "Princess Charlotte"; to a luncheon by the Victoria branch of the Navy League to the service squadron heads; to a luncheon and dockyard by the Victoria branch of the Navy League to the service squadron heads; to a luncheon and dockyard by the Victoria branch of the Navy League to the service squadron heads.

INTERNE STAFF OF HOSPITAL CHANGES. The interne staff in the General Public Hospital will change on July 1. Of the present staff Dr. E. Thurroff will be leaving for her home in Minto; Dr. W. O. Chestnut will spend a short time at his home in Sussex, and Dr. O. B. Evans will start in practice in St. John. Dr. K. Sullivan was appointed for a month only, taking the place of Dr. A. Chealey.

The first member of the new interne staff to arrive was Dr. R. A. Massie, son of Col. A. E. Massie, who took up his duties early in June. The other new members are Dr. Arthur Rowan, son of Jackson Rowan; Dr. Howard B. Buston, son of the late Stephen Buston; Dr. J. Claude Simpson, of Bay View Mills, P. E. I., and Dr. E. B. Hearst, of Malpeque, P. E. I. All five of the internes are McGill graduates. Dr. Bearlato served overseas from 1916 to 1919 during the war.

FAIRVILLE NOTES. Miss Dorothy Powell, of Lyndown, New Hampshire, who is a nurse in the Lyndown Hospital, was visiting Mrs. Fred Cusack, Fairville, and has gone to spend the remainder of her vacation with her parents at Springfield, N. S.

Hasen Ferguson, son of Mr. and Mrs. John Ferguson, Lorneville, is improving after a serious operation performed in the Massachusetts General Hospital. His mother is with the young man.

Here Are Some of The Wonders of Wembley

The Coal Mine, in the Amusement Park, extending for a quarter of a mile, is a perfect replica of a coal mine, with miners and pit ponies actually working.

The Stadium is awe-inspiring even when nothing is happening within its vast amphitheatre. It is twice the size of the Coliseum and it holds 100,000 people. Over twenty tons of music are being used by the musical choir in their concert. Ten thousand singers perform under Dr. Harris.

Tropical trees transplanted to the island where the Royal Albert Hall is situated, are being brought to the stadium by electricity beneath the earth to counteract the severe London climate. The Aquarium in the Amusement Park uses 50,000 gallons of water brought specially from the Dogger Bank.

The Samoa House, to the right of the New Zealand Pavilion, covers 1,700 square feet and is built by Samoan natives, without a nail. It comes from the island where Robert Louis Stevenson lived. The Bermuda Pavilion is a replica of the house where Tom Moore lived in the Bermuda Islands.

Actual rubber trees, with the invaluable products from their sap are featured in the Malay Pavilion. The world's largest elephant head displays its magnificent tusks in the Ceylon Pavilion.

The Burma Pavilion includes an actual Buddhist shrine, with the God Buddha in the center. Here the Burmese visitors to Wembley abandon their shoes and worship the pale god of their people. A nest soup, lichen and shark's fins are among the delicacies sold at the Hong Kong restaurant.

The world's first never-stop railway, running on an endless screw thread, is among the wonders of Wembley. Tristan de Cunha, the Empire's loneliest island, has a show in the South African Pavilion. Among its exhibits is a black ryal, the bird which has wings, but never flies.

A pair of sacred gates from Persia, which were already erected upon their owners, are exhibited in front of the Palace of Beauty. A Highland dance is being given among the strange birds in the South African Pavilion. This bird burrows its nest in the ground after the fashion of the rabbit.

SWEDEN TAKES UP SHALE PROBLEM. Stockholm, June 28.—A total of 245,000,000 tons of fuel oil can be derived from Sweden's deposits of bituminous shale, according to estimates of engineers published in connection with the announcement that production of shale oil is about to begin on a large scale.

VENDETTI FOUND GUILTY OF CHARGE. Dorchester, N. B., June 27—Thomas Vendetti, of Catamount, was today found guilty on the charge of uttering a forged check. The case was continued before Chief Justice McKeown in the Supreme Court on Thursday afternoon. No witnesses were called for the defence.

DIES FROM BURNS. Bathurst, June 27—While playing in front of a kitchen stove last Thursday, the two year old daughter of Mr. and Mrs. Fred Stever set fire to her clothing in some manner and was badly burned about the body before the flames could be extinguished. The unfortunate little girl was admitted to the Gloucester Hospital where she died six hours later.

FIFTY YEARS AGO. Ladies wore bustles. Surgical operations were rare. Nobody wore white shoes. Cream was five cents a pint. You never heard of a "tin Lizzie." Doctors wanted to see your tongue. Nobody cared about the price of gas. Farmers came to town for their mail. Nobody listened in on a telephone. Nobody ever heard of "less than one-half of one per cent."

White on Red. The bright red sweater or blazer jacket is most striking with the white skirt and the white felt hat.

GOVERNMENT IN POWER AT GOOD WILL OF ENEMIES

London Letter Says MacDonald Ousted When Time Ripe.

MAY BE AUTUMN European People and Topics Discussed in Metropolis of the Empire.

(Correspondence of Times-Star.) London, June 28.—At last the London newspapers have awakened to the probability that the Labor Government is approaching the end of its parliamentary tether, and that we may be immersed in another general election some time this autumn. Obviously, the present minority's minority regime cannot last long. It will not, as a matter of hard fact, last a moment longer than the opposition can help, and the date of its success depends on when the Liberal and Conservative parties consider the time is ripe for another appeal to the country.

To this statement may be added the further fact that in no case will Philip Snowden be allowed to bring in another budget. This places the date of the next general election at some time before Christmas, and the late autumn or early winter is the most convenient and likely season.

To leave the critical period of dismissal till after Christmas might prove too dangerous in view of the necessity for preparing for the election. Liberals see no reason why they should go on bolstering up a party whose avowed mission in the country is to squeeze Conservatism out of political existence. Conservatives are eager to bring down the curtain. And are the Labor leaders so ready to accept of a "resurrection and the briefest end?"

France's Great Chance. Within the history of the Republic of France only four French presidents have, like M. Millerand, resigned owing to conflict with the assembly, the last instance being nearly 50 years ago. Now that M. Millerand has got the problem whether he or M. Poincare was really the other's ghost loses importance.

M. Millerand has a more attractive personality than M. Poincare, and is much more the typical Frenchman. Although he is now 68, and his career has been strenuous, his face and figure denote physical and mental alert, and his hair, now white, strikes up vigorously in true Gallic style. His mustache is dark, and, through pin-ciness often slightly askew, his vivacious Latin eyes are sparkling. He started as a Paris town councillor at 25, was the first Socialist minister in France, and has held almost every important cabinet post since. He is the typical Parisian family man, devoted to his home, but fond of an evening with his pipe and his books. He never appeared in a lounge suit, but always arrayed in correct and faultlessly tailored frock or morning suit. He looked like a military man, but was, I believe, interested in the wholesale provision trade. His wife was more dour and reticent Ulster type. Lord Irvine was less orthodox in sartorial, as in political matters, more genial, and much more able. His place among our really big capitalists of industry will be hard to fill. His genius made Harland and Wolff a household word the world over. One thing the two dead noblemen had in common—neither leaves an heir to big estates.

Miss Kipling. I understand that Miss Kipling's fiancée, Captain George Brambridge, who is at present our attaché at the Madrid Embassy, was an old friend and comrade of her brother. The latter was the only son of Rudyard Kipling, and left fighting at Loos with the Irish Guards, with whom Captain Brambridge also served during the war, winning an M. C. for gallantry in the field. Rudyard Kipling's graphic history of the doings of the Irish Guards in the war was a labor of love and memorial to his son. Though Miss Kipling's disposition resembles that of her illustrious parent, being retiring and even shy, she possesses great ability, and is of a rare striking personality. She spends most of her time in Sussex, where Mr. Kipling has resided ever since his return after the Canadian trip that nearly proved fatal to him. If the wedding takes place in London, Mr. and Mrs. Stanley Baldwin will be among the guests.

Old Slugs. Slightly moored in neat cottages round London are scores of old merchant skippers, who read with a rare thrill the news that the famous Cutty Sark is being reconformed. She dates back to 1869, but these old clippers were built as lovely as cathedrals, and (Continued on page 10.)

LEONARD FISH BUSINESS CHANGES. It is announced that W. F. Leonard, president of the Leonard Fisheries in British street, has disposed of the Leonard interests in the company and Walter W. Leonard has bought the St. John branch of the concern and will continue to operate under the old name of Leonard Bros. Mr. Leonard, who assumes control of the local industry, told a Times-Star reporter yesterday that while the shad and gaspereaux seasons were the best for the fish host, his business in general had been fairly well up to the average. The shad catch had been above normal while the gaspereaux catch had fallen below the average. The run of salmon was keeping up to normal. A general wholesale fish business is to be Mr. Leonard's plan.

The former Leonard Fisheries had their head office in M'guintree. Two of the brothers, Charles E. and George F. have left the old concern and have opened a wholesale fish business at North Sydney.

Eight Canadians to Be Sent to British Ship. Ottawa, June 27—Eight Canadian Naval cadets are to join the British Battleship "Thunderer" on September 15.

The eight will consist of four naval cadets for executive duties, two paymaster cadets and two naval cadets for the engineering branch. They will serve on the "Thunderer" (the "special entry" training ship for the executive and engineer cadets for one year and the paymaster cadets for approximately two years.

They will be promoted to sub-lieutenants and subsequently lieutenants. As lieutenants they will return to Canada for service in ships and establishments of the Royal Canadian Navy. While serving with the Royal Navy Canadian officers will be allowed to return to Canada every two years for foreign service leave except in cases where the officer is serving on some far distant station.

sailors' eyes, even more beautifully, and they last almost as long. The old action of the Cutty Sark's race home from the Far East with the Thermopylae, has been revived by a London newspaper. The Cutty Sark was a hulk, especially in a stiff breeze, but there were faster ships about. Her best day's sailing was 363 knots, a wonderful achievement for sails, but not in it with the Yankee Lightning's 436, under "Bully" Forbes, an old skipper whose defiant "Hell or Melbourne" remains a sea classic, and who now anchors at Liverpool in Smithdown Road cemetery.

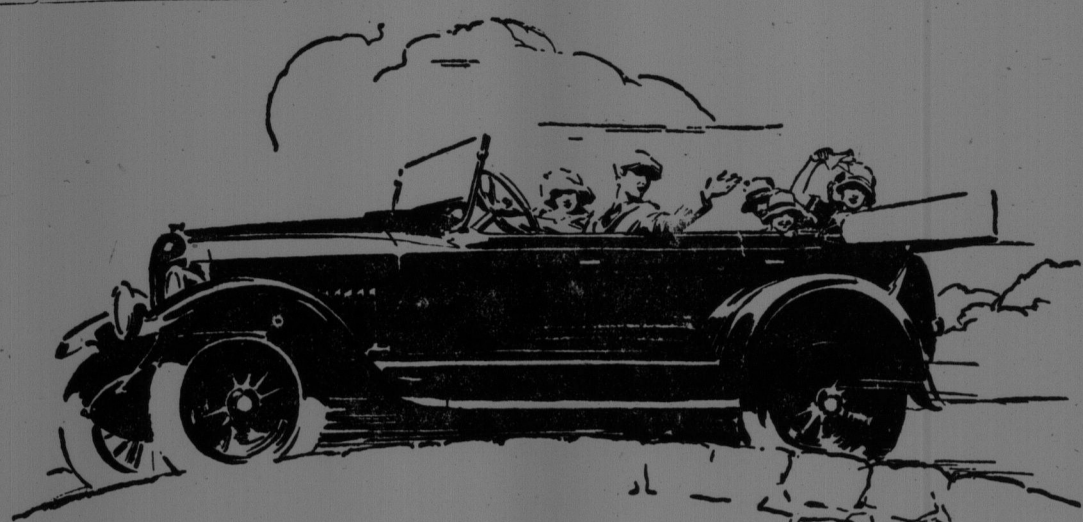

Overhauling a Mail Steamer.
The best story of the Cutty Sark is her race with the P. and O. mail steamer "Britannia" from Cape Gable to Sydney. The old sailor clipper romped home several hours ahead of the P. and O. boat, thanks to a fresh breeze that suited her down to her Plimsoll mark. When the first mail reported to the steamer's skipper that a sailing vessel was "coming up astern," the indignant skipper thought his first officer had gone mad. The first owner of the Cutty Sark lived at Richmond, and over his kitchen mantelpiece, in Latin, ran the sea proverb: "God sends the food, but the devil sends the cooks." This was before Lloyd George instituted diplomas for sea chefs. The last time the Cutty Sark put into Port of London was in November, 1922, when she berthed in the Surrey Docks.

The Mystery City.
The Roumanian capital has suddenly become a mystery city. No news has reached the outside world since the arsenal blew up, except vague rumors of revolutionary emetics and Jewish pogroms. Those who call Bucharest the Paris of the Balkans are thinking of pre-war France. Bucharest was, until this crisis, quite the gayest capital in Europe. It is a city of medieval turrets and modern cinemas, beautiful women and picturesque costumes, incredible gaiety and indescribable squalor. It combines almost theatrical tranquillity with feverish night life. In endless cabarets bare-limbed dancers, usually camouflaged in garlands, sway to Spanish castanets, and at day-break the revellers take a drowsy, driven by a comic opera brigades to the chestnut groves, where gipsies chant wild melodies to the strains of a lute, until it is time to have breakfast and get to bed.

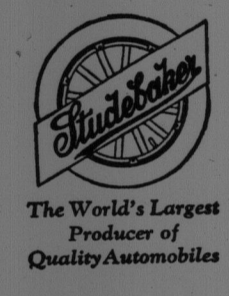

Doing Yourself Proud.
I doubt whether, without deliberation running amuck among the more extravagant vintages on the wine list, one can dine so expensively anywhere at the West End as one may at Wembley. The famous firm that looks after the catering is doing its work admirably, and there are cafes to suit all tastes and pockets. But at one restaurant in the Far Eastern section a four-pound-a-head dinner is provided, calculated to gratify at once the appetite and the social savor of any war profiteer or American dollar king. The eleven courses include such items as bird's nest soup, retailed by West End grocers at 10s. 6d. an ounce; stewed shark's fin, long familiar to frequenters of the Chinese restaurants in Piccadilly and Oxford street; stuffed duck and so on. Just the place for the well-served jaded dapper in quest of something expensive and sensational.

Heroes of the Past.
A sporting newspaper man with a long memory of Derby Days tells me that he can recall no other occasion when so many famous horses were to be seen in the paddock at Epsom as this Wembley year. He spotted Frank Wootton, a trainer, whose jockey ambition of winning the Derby was never realized; Mornington Cannon, who won a quarter of a century ago on Flying Fox, and still maintains that that was the best of modern Derby mounts; Herbert Jones, who had the luck to be "up" on two out of the three royal winners; and Otto Madden, hero of one of the most sensational Derby Days on record. He rode that absolute outsider, Jeddah, which romped in a good winner at monstrous odds in 1898. According to legend, the only backer, outside the stable, was a lonely and benighted Anglo-Indian, home on leave, who picked Jeddah because that was the name of his Indian station.

A Tete-a-Tete.
Talking about cricket reminds me that at Leicester the other day the finest bowler there ever was, delighted some old admirers by turning up "in the pink." He seemed to be eyeing the pitch with rather a wistful gleam in his bronzed face. He talked in a most interesting way of old times, and recalled one amusing episode in which he figured with Lord Hake. The old Yorkshire skipper had called a doubtful run, when he and Lockwood were

POWER Plus-

—plus extraordinary riding comfort—the comfort that comes of correct design; scientific balance; plenty of room in both the front and rear seats; deep, luxurious cushions and long, strong, resilient semi-elliptic springs.

—plus obvious quality in every detail: hand-tailored top and side curtains; lasting, durable, genuine leather upholstery. Carefully selected fittings, lustrous black enamel finish.

These are a few of the "plus" features that make the Studebaker Light-Six an investment—not merely an expenditure. A car of recognized value that commands, at all times, the top price and ready sale in the used car market.

Real Sportsmen.
Everybody who has met the South African cricketers speaks in high praise of their sportsmanship. In the vital matter of weather they have experienced the worst of luck, but they still preserve a gallantly cheerful spirit worthy of a companionship that played its full part in the war, because there is not one of these visitors of service age when the bell rang in 1914 who failed promptly to answer the call. Nourse is a Matabele medal as well as the European ribbons, or is entitled to do so, and Pegler, who was with the Rifles in the immortal salient, is a D. S. O. man. Hands is an old gunner with the M. C. His battery of "hows" came in useful more than once, especially when the Germans made their big push on the Ginchy front.

A New Caruso.
An old opera enthusiast assures me that the ovation accorded to Alfred Piecaver at Covent Garden after his debut in the leading role of Puccini's "La Tosca" equaled anything of the kind within his recollection. The English Caruso, as the newspapers call him, is a Lincolnshire man, of sturdy physique, good looks, and pleasing address. In early youth he accompanied his parents to the U. S., and his first public singing was in a New York choir. His first operatic engagement was at Prague, as the result of a friendly competition, while on a holiday in the Austrian Tyrol, and Mr. Piecaver was there when the war broke out. In consideration for his vocalism the Austrians refrained from internment him, and he organized an association football club to help pass the time away. Probably he is the first really notable operatic star who was a devotee of "soccer."

CADETS PRACTISE SHOOTING.
The cadets assembled at the Armory in large numbers last night and had a practise shoot under the direction of Capt. D. V. Pain, cadet instructor. The cadet uniforms are being called in and many were turned in last night. The remainder will be handed in on Tuesday night.

GET DUCKING AT TEST.
A test of the chemical motor pumping engine from No. 1 fire station, Charlotte street, was made on the North Market wharf last evening to see how the apparatus would draw water from the harbor. The pumper started on tall right but eventually refused to draw the water from the slip. She was then taken to a fire hydrant nearby and a good stream was thrown. It was so good that the hose got clear of the two firemen handling it and, as

it slashed about, several citizens who were looking on as well as the chief of the fire department received a duck- opposite side of the pumper and was found to work alright.

Only full-size Gum-Dipped Balloons Give all the Advantages of Low Pressure

On full-size gum-dipped balloons you get the greatest amount of the unequalled comfort, safety and economy afforded by low air pressure.

Firestone full-size Gum-Dipped Balloons are not merely over-size tires. They utilize the principle of low air pressure, first perfected by Firestone, without changing gear ratios, fender clearance or interfering in any way with the mechanism of your car.

The universal success of the full-size balloon is due to the Firestone process of gum-dipping that impregnates each individual cord with pure rubber giving the balloon carcass, with its thin side walls, the great strength necessary to flex and absorb road shocks.

Firestone full-size Balloons give equal or better mileage than regular cords. They make all roads safe and poor roads better. Adopt them now and you will put a new enjoyment in short and long trips. There is a Firestone dealer near who will give you full details about their application.

Evangelist Ewen D. Lamont.
Evangelist Lamont solemnly declares, on the authority of the Bible, that another world war is imminent, when the five continents and the seven seas will resound with the din and clash of modern instruments of destruction. Famine, plague and pestilence, unprecedented in world history, will also destroy millions.
A great general with an army of millions will suddenly take part, using light rays as an instrument of destruction, bringing the war to an abrupt end and ushering in peace.

Over His Head.
(Chicago News)
Not so long ago the wife of a wealthy merchant in a western town decided that it was high time the family assumed the high social position to which its riches entitled it. Accordingly, the plunge was made, much to the disgust of the father, who, however, did not

dare to cross his wife in anything. "Well, Henry," said a friend, meeting him on the street. "I understand that at last you are in the swim."
"Mother and the girls think I am," said the old man, "but my personal feelings are those of a man who has fallen overboard and ought to be holding for help."

THE NEW ENGLAND STAFF BAND OF THE CITY OF BOSTON. This is a picture of the headquarters band for the Salvation Army forces in New England Province. It has an enrollment of 30 efficient musicians. Its conductor, Staff-Captain Robert Young, was formerly associated with the International Trade Band, Toronto Temple Band, Buffalo City Band and the National Staff Band of New York. He is a bandmaster of acknowledged ability and gets excellent harmony from his men. The assistant director, Envoy Erick Laidzen is a graduate of the Royal College of Music, Stockholm, Sweden. He accomplishes the difficult feat of singing a solo and accompanying himself on two instruments at the same time. The programme includes a trombone quintette, saxophone quartette, ocarina solos with whistling accompaniment, etc. The male chorus will sing plantation melodies with pleasing effect. The hand bell ringers will also contribute to the programme. A concert will be given on King Square at 8 p.m. Tuesday, the holiday.

A resolution moved by Hon. T. A. Low, Minister of Trade and Commerce, providing for an amendment to the Inland Water Freight Rates Act, passed last session, was under consideration.

A 50 per cent. reduction of the present ocean rates on cattle from Canada to England is advocated in a pamphlet which has been circulated among the members of Parliament by the Manitoba Free Press, of Winnipeg. The pamphlet quotes figures to show that the cost of marketing Canadian cattle in the United Kingdom today is approximately 75 per cent. more than in 1914.

TROJANS REDUCE LEAD OF GUNNERS

Maul Offerings of Brookins and Johnston in Opening Stages.

Trojans cut down the lead of the Machine Gunners to a scant game by jumping on Brookins right from the start for five runs and the same number of "Eddie" Johnston's delivery.

The game was renewed with vim and determination in the last half. Thompson Jr. and Smith soon registered scores for their respective teams. Smith of the Trojans scored again and made it a tie. Soon after Pougnet put the Trojans in the lead. Young Thompson scored another followed by a counter by Murray. A penalty kicked by Clark of the Trojans tied the score again and ended it for the evening.

Lineups: Navy—Penrice, Savery, Frost, Montgomery, Chattoo, (Capt.), Glass, Thompson, Bardell, Thompson, Jr., Argy, Hurst. Trojans—J. Smith, Bain, Tucker, Marsh, Clark, Dobbleslein, Murray, Faugnet, Evans, (Capt.), Bradberry, Warren.

JOE KIRKWOOD'S TRICK PERFORMER

No Need for Him to Win Important Championships.

Joe Kirkwood will not compete in the British open championship this month. It would be had "business" for him to do so.

Kirkwood is an entertainer first, a player next, although his ability is that of a champion. It would cost Kirkwood something like \$1,500 to make the trip abroad.

The chances are 15 to 1, or worse, against his winning the title. The importance of a title to a golfer lies in the publicity it brings. This publicity spotlights him as a rising star.

Report That Glace Bay Boy is Booked to Meet Field Next Month.

Johnny McIntyre, claimant New England lightweight championship, was smart and tough enough recently to beat Johnny Avilla of Chicago, at the Casino, Lynn, Mass., before a big crowd in a battle that was filled with rough stuff from beginning to the final clang of the bell.

McIntyre will journey to Toronto to meet George Field in a battle for the Junior welterweight championship of Canada during July and on his return will take on Phiney Boyle for the Moody A. C. at Lowell.

Horse Notes

The St. Croix Courier has the following notes of harnessdom:—Cochato, 2:11 1/4, is dead. The Short Ship horses are racing at Cherry Park this week.

Next week, Windsor and its two \$10,000 purses. Peter Langford dropped dead in a workout at Lewiston recently.

Mack's Error

They call him cunning, crafty Connie Mack, but he makes mistakes like other humans. Plenty of them. Curley Ogden represents one of his more recent ones.

The Athletics pilot said Ogden was through and gladly passed him along to Washington. Once in his new quarter, Ogden settled down and began pitching great ball. Mack is still rubbing his eyes and wondering what it's all about.

A soccer team selected from the four teams of the St. John Soccer League will go to Sussex on Monday to play the Demonstration Platoon from Halifax in training at Camp Sussex, provided that arrangements can be made at the latter place. This was decided at a meeting of the executive here last night. Chattoo will captain the St. John team.

WATER MEN WIN

The Water Department defeated the Public Works team last evening in the Civil and Civil Service League, 16 to 8, and regained the league leadership.

A home run by Hayes, triples by Garnett, Keefe and Martin, and doubles by Garnett, Keefe, Martin, Hayes and Friers comprised part of the fireworks. McEachern, Markham and Garnett twirled for the losers, and Arbo for the winners.

**FATHER TIME IS
ON YANKS' TRAIL**

Some Current Gossip of the Sporting World.

New York, June 28 (United Press)—The famous world champions are fading—slowly, but surely. The Yanks are an old team, as baseball goes. It received practically no young blood during recent years. New faces have appeared, but they were mostly old in the league. Manager Huggins has depended almost entirely on buying "made" players. He had unlimited cash from the rich New York American League owners, and so long as Harry Frazee was selling off the Boston Red Sox, money talked very freely. But now that the new owners are building, money is tongue-tied in Boston.

No one else in the American League will sell to the Yanks, unless it's a case of sell or go bankrupt, and all the league teams seem to be making money this year. So, with his old stars fading, knees stiffening and elbow-hinges sobbing for oil, Huggins is looking forward to the coming winter with misgivings. Schang, Dugan, Scott, Pipp, Penock and several other stars are fast growing no younger. The Babe has seen his fastest days, and his weight will soon force him to first base or to the bench as a pinch-hitter. Don't get the wrong idea. With a little luck in escaping injuries, Huggins is likely to lead the pack home with at least an even chance at the world series this fall. But he must have luck. With the epidemic of injuries that the Reds have suffered, Huggins would now be in the second division. The hot July and August suns will thaw out the old sponges and oil up the rusty hinges. That will help quite a bit, if the fragile, old athletes can keep their bones intact. Huggins' first real blow this year was when Earl Coombs, his \$75,000

Louisville beauty, busted his valuable ankle at Cleveland, June 15. And Huggins is certainly weak in second-string men.

New York baseball experts have been hinting for some time, in fact since the disastrous trip west started, that the Yanks were in danger. But New York must have the "biggest" or the "smallest." Nothing but extremes go in insular Manhattan. So everybody whistled going through the haunted west and hoped to escape the boogie man.

Talking about aging baseball players, they will "point with pride" to Walter Johnson and Grover Alexander and say: "Well, if they have lasted 30 years and are still going good, why crowd Penock, Dugan, et al, into the old men's home?"

But Alexander and Johnson are supermen of baseball, just as old Cy Young was, and these Yanks are just as good players. Naturally, the "Big Bam" is a freak, with a heavy preponderance of eyes and arm over brain, and will probably bust them as long as he can see them.

The turf has missed the good riding and good sportsmanship of little Ivan Parke, who led all the western jockeys in 1923, and who had started out to have a good season when appendicitis put him in the hospital. How that kid can ride! Little "Poison Ivy" they used to call him out at Latonia when he'd come booting home a longshot, and making it look easy. It finally got so that there were no longshots under Parke. His leg up on a mount meant money on the nag if for no other reason.

The great thing about young Ivan was that he was always trying. Whereas other jockeys sat nonchalantly on their mounts at the barrier, Parke was always crouched in his saddle, hands, heels and whip ready to shoot his horse into the position he wanted. A natural judge of pace, Parke could rate a colt along through the first part of a race and pick him up out of the not yet the equal of Earl Sande, greatest of American riders, but one of the best natural jockeys that ever wore silks.

A likely young light heavyweight is Jack Slattery of Buffalo, who was seen in action in New York early this month, and impressed by the system-

Mary Pickford May Be Chosen For Role of "Peter Pan"

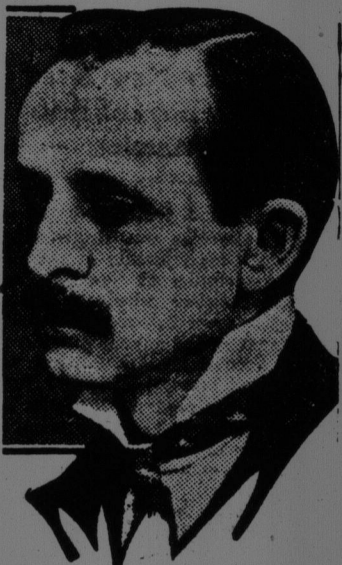

Hollywood, June 28.—Will Mary Pickford be "Peter Pan" of the films? Speculation long playing about her name in this connection has been given fresh impetus by the announcement that Sir James M. Barrie is to select the player for the title role in the Paramount screen version.

Barrie is known to be desirous of having Mary interpret the character made famous on the stage by Maude Adams, and is said to have expressed himself solicitously when Miss Pickford on a previous trip to England had tea with the author.

Declaration that Barrie's word would be decisive was made by Jesse L. Lasky, vice-president of Famous Players-Lasky, just before sailing for this conference. He took with him the finished script of "Peter Pan," to be produced this summer by his company. He also carried screen tests of the many aspirants for the role. They will be shown to Barrie in London, having been made by Herbert Brenon who will direct the pictures.

These tests, gathered over a period of months, range from foremost star to the least known of screen players. Lasky denied that the purpose of his trip was to confer with Mary Pickford, now in Europe with her husband, Douglas Fairbanks, on a vacation. But Mary had several consultations with Adolph Zukor, president of Paramount, while in New York. And this fact, coupled with the Lasky pilgrimage, has prompted Hollywood to definite prophecy.

"Of course Miss Pickford has been mentioned for the part," said Lasky, "and from the first we decided that 'Peter Pan' need not be selected from within our own organization—but the choice rests entirely with Sir James."

AN AWFUL ATTACK OF PIMPLES ALL OVER HIS FACE

Pimples breaking out on the face and other parts of the body is a sure sign that the blood is not in proper shape. While the skin is the object of the attack the real seat of the disease is in the blood on account of the entire circulation being poisoned.

Burdock Blood Bitters quickly and effectually banishes pimples and all other skin diseases as it goes right to the root of the trouble by cleansing and enriching the blood.

Mr. Conrad Anderson, Kellfield, Sask., writes: "A year ago I had an awful attack of pimples. They broke out all over my face and I could not get rid of them in any way. One day a friend told me about your Burdock Blood Bitters and let me have a bottle he had to spare. After using it I noticed a change, so I bought three more bottles, and now I don't know there is such a thing as pimples."

OLD REMAINS FOUND

Remarkable Archaeological Discovery Reported in Sweden.

Stockholm, June 28.—One of the most remarkable archaeological finds of recent times has been made in Loerby, at Listerlandet, in Skane in the south of Sweden, where prehistoric dwelling places estimated to be fully 4,000 years old have just been discovered.

These remains are surpassed in age in Sweden only by the Stone Age skeleton dating back to about 5,000 years, which recently was found and is now exhibited at Gothenburg.

The St. John Kennel Club will hold its annual show during the St. John Exhibition in the fall, but the dates for the shows to be held by the Nova Scotia Kennel Club at Halifax, the Pictou Kennel Club at Glasgow, and the Fredericton Kennel Club at Fredericton are not decided upon as yet.

Dogs from different places in Eastern Canada and some from the United States are expected to be entered. Several of the dogs are sent around the entire circuit. J. W. Mitchell, the well known dog judge of New York, will officiate at the St. John show, while the judges for the other three have not been obtained yet. The list of premiums and prizes for the local exhibition will be issued very shortly, in all probability around July 1.
