London and Paris Read in It Unconditional Surrender

Comments on Austrian Reply to U. S. President
SENSATION IN REICHSTAG
Socialist Says it Must be War With Hohenzollerns or Peace Without Them—Open Call For Abdication of Kaiser—Amendment of Constitution Approved

London, Oct. 29.—Austria's reply to President Wilson is viewed here as an unconditional surrender. Although recognized as an event of intrinsically the greatest moment, denoting the breaking up of Hapsburg power, main interest in the situation lies in the effect it will inevitably have on the position of Germany.

Amsterdam, Oct. 29.—(By The Associated Press)—Exciting scenes occurred in the German Reichstag on Friday and Saturday. Outspoken speeches were indulged in.

Paris, Oct. 29.—The capitulation of Austria is the unvarying opinion with which the morning newspapers precede Count J. Andrassy's note to President Wilson. The editorials, while accepting this conclusion, urge caution lest there be a hidden snare behind the Austrian offer.

Washington, Oct. 29.—(By The Associated Press)—The American government has received a message from the British government which is believed to be a demand for the draft when the army was sent overseas, and when money was required by taxation or by loans.

EPIDEMIC HAS REACHED ITS HEIGHT IN ST. JOHN

Few Days More Should See Decline, Says Minister
TOTAL CASES NOW 751

That the epidemic of Spanish influenza has been at its height in St. John for the last two or three days, and that after two or three more it should show a decline, was the encouraging statement of Hon. W. F. Roberts, minister of public health, speaking to a Times reporter this afternoon. He hopes that within a week the situation will be well in hand and the disease well under control.

Smashing Blow Breaks Enemy On The Piave

Austro-Hungarian Resistance Gives Way In Central Positions; British Nearer Valenciennes; French Close In On Guise

With the Allied Forces on the Piave, Oct. 28.—(By the Associated Press, 8 p. m.)—The last lines of the Austro-Hungarian resistance on the central positions along the Piave River were broken today by the British, French and Italian forces.

Paris, Oct. 29.—General Debeney's first army continues to close in on Guise and has captured German first line trenches and the barracks and hospitals south of the town of Guise, according to the war office statement today.

London, Oct. 29.—(By The Associated Press)—The British launched a local attack this morning south of Valenciennes. They improved their positions and drew closer to the town, which is infested with enemy machine guns. On the rest of the front it was comparatively quiet.

METHODIST 'DIE-HARDS' FOUGHT TO LAST

Could Not Stem the Wave of Democracy That Swept Conference

INTERESTING RESUME

Scenes on the Floor as Big Debate Was on—A Summary of What Was Accomplished

(In Toronto Star)

By W. F. W. Canadian Methodists have declared for democracy. It calls for democracy not alone in politics but in social life and the industrial activities of the Dominion.

Democracy defines as the spirit of Christ working in the lives of men. That is it in the rough. There are many more high-sounding phrases used to describe it, but that is the definition of a plain matter-of-fact layman.

The General Conference just closed was a democratic assembly. There were more young men in it than in any of the nine similar conferences that preceded it.

But it had its oterion of "die-hard" —just as the British Parliament of a few years ago had—and that oterion fought the Progressive of the Conference to the last gasp.

The Progressive, that "what they are" was rather bitter word of the oterion delegate—a learned legal light—in regard to the Progressive who brought in the resolution.

There were a number of the oterion and the "captains of industry" who opposed the resolution.

LEND TO THE NATION.

The question is being asked: What of Canada? Is her spirit as high, her resolution as indomitable, her will to win as steadfast as in the days—now, please God, past forever—when disappointment, agony and bitterness of hope deferred were her almost daily lot?

Recent events have enhanced, not lessened, the importance of this loan. The best thing that could happen would be that the loan should not only be fully subscribed, but very greatly over-subscribed.

That loan was over-subscribed by a very large amount. It is up to Canada to do as much with the Victory Loan.

St. John made a splendid beginning yesterday. Whether it be much or little, every citizen who can do so should have a share in the great national task. To quote again from Canadian Finance:

"Having put her hand to the plow Canada at home will not turn back—any more than Canada's sons abroad will stay their efforts till complete victory is won. As the finance minister reminds us, a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing."

Canada must finance many millions of dollars of export trade in food, munitions and supplies which British and our Allies must have on credit. For these purposes Canada must borrow hundreds of millions of dollars. And this money must be borrowed from the people of Canada.

The Austro-Hungarian foreign minister has formally notified President Wilson that his country agrees to all the conditions laid down, including that of the Czecho-Slovaks and the letting to the Czecho-Slovaks and the letting to the Czecho-Slovaks and the letting to the Czecho-Slovaks.

The incident of the French press on this comment is significant. One journal observes that Austria-Hungary no longer exists, and another intimates that its government only "flatters itself that it exists."

The offer made yesterday on behalf of a number of returned soldiers, who have seen the inside of more than one hospital, and who are willing to do what they can to assist, is greatly to their credit.

Very pathetic stories of illness and bereavement come from many parts of the province, and from some parts of this city as well. The earnest women who met in conference yesterday realize the seriousness of the situation, and it cannot be doubted that good results will follow.

Canada will give the Kaiser another job with the Victory Loan. He wanted Canada for one of his princelings. He wanted its boundless resources to exploit for the benefit of Germany.

Lighter vein. Pat was working on a road in his shirt sleeves with two Englishmen. The Englishmen decided to play a joke on the Irishman and painted a donkey's head on the back of Pat's coat.

Working it Out. A school teacher received the following note: "Dear Madam, Please excuse my Tommy-to-day. He won't come to school, because he is acting as timekeeper for his father, and it is your fault. U gave him a example if a field is six miles around how long will it take a man walking 3 1-2 miles an hour to walk 2 1-4 times round it. Tommy ain't a man so we had to send his mother. They went early this morning and father will walk round the field and Tommy will time him, but please don't give my boy such examples again, because my husband must go to work every day to support his family."—Brandon Sun.

Mrs. A.—Josephine is progressing by leaps and bounds in her piano practice. Mr. A.—I thought that she couldn't make all that racket with her hands alone.

THE BELFRY OF BRUGES.

In the market place of Bruges stands the belfry old and brown. Thrice consumed and thrice rebuilt still it watched o'er the town.

Thick with towns and hamlets studded, and with streams and vapours grey. Like a shield embossed with silver, round and vast the landscape lay.

From their nests beneath the rafters sang the swallows wild and high; And the world, beneath me sleeping, seemed more distant than the sky.

Then most musical and solemn, bringing back the olden times, With their strange, unearthly changes, rang the melancholy chiming.

Like the psalms from some old cloister, when the sun shone in the choir. And the great bell tolled among them like the chiming of a friar.

Visions of the day departed, shadowy phantoms filled my brain; They who lived in history only seemed to walk the earth again.

All the Foresters of Flanders—mighty Baldwin Bras de Fer, Lyderick du Bac de Fer, Lyderick du Bacq and Gressy, Phillip, Guy de Dampiere.

I beheld the peasants splendid that adorned those days of old; Stately dames, like queens attended, knights who bore the fience of gold.

Lombard and Venetian merchants with deep-laden argosies; Ministers from twenty nations; more than royal pomp and ease.

I beheld the Flemish weavers, with Marching homeward from the bloody battle of the Spurs of Gold.

Saw the fight at Minnewater, saw the White Hoods moving west. Saw great Arvid's victorious scale the Golden Dragon's nest.

And again the whistler Spandall all the land with terror smote; And again the loud skraun sounded from the tocsin's throat;

Till the bell of Ghent responded o'er the land and dyke of sand, 'Twas Roland! I am Roland; there 'tis victory in the land."

This poem written many years ago by Longfellow, has a wonderful significance at the present time.

Great Headwork. A Yorkshire farmer who had been on a jury quite a number of times was asked who influenced him most, the lawyers, the witnesses, or the judge.

Money-Minded. "Well, I've got a commission." "Good! How much per cent?"

MORNING WAR SUMMARY

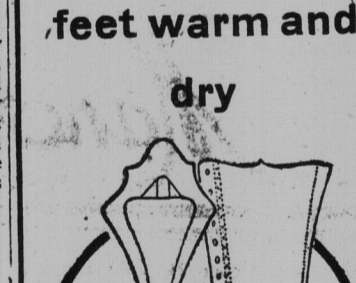

New York, Oct. 28.—The Associated Press tonight issued the following:

While both Germany and Austria are seeking to secure a cessation of hostilities and Turkey also is reported to be favorably disposed toward peace, the Entente Allied troops on all the battlefronts are giving no heed to peace proposals but are continuing without mercy to drive their foes before them.

And in all the battle zones the Allies are meeting with marked success. In France the German battle line is slowly disintegrating under the violence of the Allied offensive; in northern Italy the Austro-Hungarians are being forced back by the British, French and Ital-

Closing the Pincers. South of Valenciennes in France Field Marshal Haig's forces, notwithstanding stiff opposition, have advanced their line in the general operation which has in view the capture of Valenciennes and pressing on toward Mons and Maubeuge in the general converging movement that is going on between Belgium and the region north of Verdun.

Further south, from the Oise river to the region of Rethel, the French have gained a signal victory by forcing a retreat of the enemy in the big salient north of Laon and are threatening to cause the collapse of the entire German line eastward through a fast turning movement. American troops have been thrown into the line near Rethel and have advanced nearly a mile and taken numerous prisoners. The German war office admits the success of the thrust of the French between the Oise and Serre rivers and says that the German lines were withdrawn Sunday night to a front west of Guise and east of Crecy.

On the northern Italian front hard fighting is in progress between the Brenna and Piave rivers, along the Piave the Allied troops have been successful in crossing the river, inflicting heavy casualties on the enemy and taking more than 9,000 prisoners.

In Albania the Austrians have been driven by the Italians in the region of Alessio, which lies twenty miles southeast of Scutari just south of the Montenegro border. In Serbia the Austrians have evacuated Kragujevatz fifty-five miles southeast of Belgrade and are still in retreat toward the Danube.

The Turks are fast being driven out of Mesopotamia, having reached a position more than 125 miles north of Bagdad.

Daily Fish Bulletin
Issued by Canada Food Board.

"FLU" ATTACKS FISHERMEN.

Housekeepers cannot expect to get cod and haddock from now on as cheaply as they did during the summer months. There are many factors to be taken into consideration in the fluctuation of fish prices. During the season of the fish landings fall off to an appreciable extent and the fish that are secured are worth every cent paid for them as oftentimes the fishermen risk their lives to bring them in.

The recent epidemic of Spanish influenza exacted its price among the fishermen, too. Boats were held up while their crews lay sick. The result has been a decrease of something like 500,000 pounds of fish in the monthly catch.

Food Board Flashes

It has been estimated by the Millinery Chamber of Commerce that the expenditure of women's headgear in the United States is more than \$250,000,000 a year. This would average \$5 per capita for women and girls of all ages.

This huge amount spent on hats would pay for nearly thirty times the quantities of beef, bacon, butter, eggs, condensed milk and other staples imported from Canada to the Allies last year. Thrift could be made to pay for the war.

RECENT DEATHS.

REFUGES FROM ITALY ENTHUSE OVER SUCCESS

British and Italian Drive Against Austrians Goes on Well - The Piave Crossed. Italian Headquarters, Monday, Oct. 28 - (By the Associated Press) - People living in the war zone at tonight are rousing the bulletin boards upon which is placed the official statement that the Piave River has been crossed and that the battle is still going on. There were many impromptu addresses which were enthusiastically cheered by the civilians.

NEW POTATO WORLD RECORD

Utah Farm Produces 825 Bushels On An Acre. It has long been a reproach to American farmers that few of them ever produced record crops of potatoes, but that is rapidly changing. In some of the black soils of Hungary, and under intensive cultivation in parts of Germany, crops of 800 and 600 bushels an acre used to be produced, and reports of them stirred the envy of Americans.

Mind your eye! A BUG darts at your eye. Your eye closes—before you think. Reflex action. Your eye telegraphs to your brain "Bug coming!" Your brain flashes back "Close up!" You aren't conscious of the exchange of messages—but your eyelids close. Force of habit protects you. Habit and reflex action save time and effort in numberless ways, and keep your brain clear for the real problem.

Habit, for example, sets the hour when the delicate departments of your digestion combine in a supreme reflex action to move your bowels. Nujol cultivates that habit. If they move regularly all you know is that you feel well.

If they don't move regularly, you know—the habit has failed.

The food waste stagnates in your large intestine, decays, generates poisons, which are absorbed into your blood and carried all over your body.

Your next effort will be more difficult—and soon the bad habit of constipation will be established. The good habit of regularity is replaced by the bad habit of irregularity—reflex action is paralyzed, and the waste accumulates.

Don't exchange a good habit for a bad one. Nujol builds such a strong habit that it offers a maximum of resistance to the clogging of the intestines. Don't wait until you're "stuck" to start. Nujol night and morning will give you a reflex action as "regular as clockwork." Be as proud of your inside cleanliness as you are of a clean face and clean teeth.

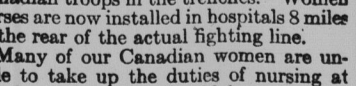

Bills, purgative mineral waters, salts, castor oil and other cathartics, weaken and cause strain. They increase constipation. Nujol acts easily, harmlessly, naturally. Your druggist has it.

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

BRITISH GIVEN HEARTY WELCOME BY LILLE PEOPLE

Deliverance From German Yoke Celebrated Yesterday - Train Service to Paris Resumed

With the British Army in France and Belgium, Oct. 28—(By the Associated Press)—Lille today opened wide her gates in formal reception to a division of the fifth British army. She paid a supreme tribute of gratitude to these representatives of the army which a few days ago released her from the heavy hand of German bondage. In 1912 there was a similar day of rejoicing in Lille, when the Austrian siege of the city was broken. A century later came the centennial celebration of this event. Today's demonstration surpassed both of these. All the inhabitants of Lille and many people from the surrounding territory—scores of thousands—thronged the streets, which were bedecked with the flags of the Allies to return thanks to their deliverers and to cover the war-weary veterans with flowers. Throughout this vast assemblage moved a spirit of unbounded gratitude that reflected on the faces of the people in smiles of welcome that mingled with tears of joy. Lille could have done no more. She gave freely from her heart, and no victors could have had a more noble reward than that given to the British, who, when Lille had been freed, chivalrously stepped aside and requested French troops to be the first to enter the capital of the department of the north. The division which was selected by the British to represent the army consisted of the territorial units which played a gallant part in driving the invaders from the city. These troops marched from one side of the metropolis to the other, amid wildly cheering throngs. The main ceremony was held in the centre of the city, about the statue of the Spirit of the Resistance of 1912, where German officers were parading but a brief time ago and impressing their arrogance upon the unhappy inhabitants. Gathered to receive Lieut.-General William R. Birdwood and his staff were all the dignitaries of the city, headed by Mayor Delaisalle. It had been announced that President Poincare would attend

but he was not present, much to the disappointment of his people. It was an event which will write itself indelibly upon the pages of history. Only twice in the last century and a quarter has this premier city of Flanders witnessed such an impressive celebration as that of today, which centred about the exchange of flags between the city of Lille and the fifth army. Toward the end of the celebration a German airplane appeared east of the city and was immediately surrounded with bursting shrapnel. It aroused only the curiosity of the people in the city, who fervently prayed that the aviator would see what was going on and report it to his commander. Trains are now running between Lille and Paris and a newspaper being published for the first time since the German occupation.

FAMOUS CANADIAN SNIPER IS KILLED

Lance Corporal H. Norwest, M. M., a famous Indian sniper of an Alberta battalion, met his death on August 18, while, with two other snipers, he was endeavoring to locate a nest of enemy snipers who had been causing trouble to the advanced posts of our front-line companies. Norwest's record of 115 observed hits by no means represents the havoc he has caused to the enemy, as on many occasions he doubtless caused casualties and would not claim hits unless his observer was present and confirmed them. Although a dead-shot, his success was a result of his patience and unusual hunting ability. He would wait for days to get his man, and would never fire unless his position was secure from observation by the enemy. No man's land was his favorite haunt, and on many occasions he actually practiced the enemy lines under cover of darkness, turning safely to our lines. Before the recent drive he was detailed to remain at the transport lines, as he had never missed a trip in his two years in France, but he pleaded so hard to be allowed to go that he went into the attack and was of invaluable assistance in clearing out many machine gun nests and putting enemy snipers out of action. The man who knew him well writes: "Norwest is dead. I doubt if anyone in the Canadian corps, or in the whole British army for that matter, had a finer record than he—115 hits observed—115 dead or badly wounded Hun efforts of one man. "He was a very peculiar character—very silent, very intent. As delightful as a child at his successes and as grim

was spent in trying to cure an ulcer by using ordinary ointments," writes Mrs. Jeffrey, of 21 French Street, Methuen. "Then I heard of Zam-Buk, used it, and am now completely cured. "Thirty-three years ago the ulcer appeared on my ankle, and gradually spread to my knee. The pain was terrific. For years I could hardly walk and had to remain in the house. For twenty-five years I received doctors' treatment but got only temporary relief. "Then I heard of some wonderful cures using it. The relief experienced was wonderful. The inflammation was gradually drawn out. The pain was soon ended, and, at last after thirty-three years of misery, I was on the road to recovery. To cut a long story short—perseverance with this wonderful balm resulted in a complete and permanent cure. "Zam-Buk is also unexcelled for eczema, ringworm, abscesses, boils, blood-poisoning, burns, scalds, cuts and all skin injuries. All druggists or Zam-Buk Co., Toronto, Ont., box 3 for \$1.25.

Zam-Buk

as the avenging angel when on his work I have seen him in his position, waiting for a chance to get a shot, and he reminded me for all the world of a pointer pointing—his whole body tense with eagerness, his whole mind set on his work. "Day after day he would lie out in exposed positions—waiting, waiting. His patience was colossal. No place was too dangerous for him to go, no risk too great to take, so long as he was killing. He won the Military Medal and was richly rewarded. His Indian blood possibly helped him in his work; possibly he inherited his patience and cunning from his hunting forebears. "He fell at last, shot through the head by a German sniper, on the 18th of August, 1918, and was buried at Warvillers, a small village he had helped to wrest from the enemy. The most fitting epitaph that can be put on his grave is the remark that was made by many when they heard of his death—"It must have been a damned good sniper that got Norwest!"

MUST OPERATE BRANCH LINES

Government Will Not Permit Effort to Secure Better Prices to Work Injury to Patrons, Says Hon. F. B. Carvell

"If the owners of the Carqueet and Gulf Shore branch and the Kent Northern line do not desire to come to the government's terms in the matter of the handing over of these roads to the federal authorities, the government will see that they are kept running this winter," was the declaration made by Hon. F. B. Carvell, minister of public works, who arrived in the city last night, in his private car attached to the McAdam train. "Two streaks of rust and a right of way" was the expression the minister of public works used in connection with these two lines. He stated that last winter the government had to come to the aid of the owners financially in order that the road be continued in operation. He pointed out, however, that each of these loans constituted a mortgage upon the line receiving it. The opinion he expressed when asked why it was that these two lines would

NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save Your Hair! Double Its Beauty in Just a Few Moments

"Danderine" Makes Your Hair Thick, Glossy, Wavy and Beautiful

Within ten minutes after an application of Danderine you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks use, when you see new hair line and downy hair first—yes, but really new hair—growing all over the scalp. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. A little Danderine immediately doubles the beauty of your hair. The difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, and a pearl-like lustre, softness and luxuriance. Get a small bottle of Knowlton's Danderine from any drug store or toilet counter for a few cents and prove that your hair is as pretty and soft as any that it has been subjected or injured by careless treatment—that all—you surely can have beautiful hair as long as you will just try a little Danderine.

PROGRAMME OF THE UNITED ONTARIO FARMERS

Repeal of War Time Elections Act and Permanent Liquor Prohibition Two Features

Toronto, Oct. 29—Absolute freedom of discussion; no change in Canada's relations with the United States; a full discussion by the Canadian people of the war-time election act; permanent dominion-wide prohibition of the manufacture, importation, and sale of liquor; nationalization of railway, telegraph, telephone and similar public utilities; natural resources to be leased to short terms by public auction. These were the main planks in the proposed platform of the United Farmers of Ontario, tentatively agreed upon at a meeting of executive officers held at the organization here yesterday. Planks previously adopted by the Canadian Council of Agriculture were reaffirmed, including sweeping reductions in customs, taxation and the substitution of a direct tax on unimproved land values, a sharply graduated inheritance tax on large estates, and a graduated income tax on the profits of corporations, with a special squeeze on watered stocks. David Chambers, aged thirteen years, received a bad flesh wound in the leg yesterday as the result of a bullet hitting a rock and deflecting and striking him. He and another boy named Sheldon Linton went shooting near Saint's Rest and the latter sighting a sea dog fired but struck a rock. The injured boy was attended by Dr. O. Comeau of Fairville. AN IMPORTANT GAIN BY BRITISH IN MESOPOTAMIA

Town of Kerkuk Captured—Armored Cars Are Used With Good Effect

London, Oct. 28—British troops have captured the important town of Kerkuk, in Turkish Kurdistan, lying 155 miles north of Baghdad. The town was occupied on Friday. The statement says: "The Turks still held on Friday strong positions on Jebel Hamrin, west of the mouth of the Lesser Zab. But on the previous day some of our armored cars by desert track farther west struck in on the Turkish line of communications in the neighborhood of Kalesh Sherghat, where they attacked enemy convoys. At the same time our cavalry moved up on the left bank of the Tigris, threatening the enemy communications from the east. "The pressure of our troops in front, combined with the attacks on their communications, compelled the Turks to retreat twelve miles to the north on Saturday night to a position three miles south of Kalesh Sherghat, where we are in close contact with them. Our troops are showing good powers of endurance in a country possessing no roads and devoid of supplies. "Kerkuk was captured by us on Friday after slight opposition, and the Turks retreated towards Allyn Kupri. Armored cars followed and took casualties on the desert close to the latter town, and on Sunday our main body was in touch with the Turkish troops covering the crossing the Lesser Zab." There is the Mending to Do

WHEREVER there are children there is plenty of mending to do, and what mother does not dread the mending of clothes and stockings? It may seem easy work, but there is no more severe strain on the eyes, and eye-strain is nerve-strain. Unfortunately, it is usually necessary for the busy mother to leave the mending until some quiet hour when the children have been got to bed. This necessitates working by artificial light, with unusual straining of the eyes. It is this straining of the eyes which makes one feel so tired after mending, sewing, shopping or doing fancy work. When you think of how constantly the eyes are employed, and of the continual changing of the focus to suit the distance of the object viewed, you may not be surprised to know that the optic nerve consumes an enormous amount of nervous energy. For this reason straining of the eyes brings on fatigue, and often leads to nervous breakdown. There is no magical way by which exhausted nerves can be restored. It takes time and patience in order that the depleted nerve cells may be nourished back to health and vigor, but you may be sure of satisfactory results if you use Dr. Chase's Nerve Food regularly. We know that Dr. Chase's Nerve Food is composed of the vital substances which go to the upbuilding of the nervous system. We have the utmost confidence in its curative properties, because we have seen it tested in so many thousands of cases. But how are we going to prove this to you unless you try it? You are the one to be benefited, so it remains for you to make the test. Try it when you feel tired out and discouraged. Try it for sleeplessness and irritability. Try it for nervous headache and indigestion. It is not a mere relief, and for this reason you must persevere in its use until the lost vigor is restored to the nerves. The fact that the results are both thorough and lasting will encourage you to continue the use of this food cure until you feel strong and well. Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.75, all dealers, or Edman, Bates & Co., Ltd., Toronto. The portrait and signature of A. W. Chase, M.D., are on every box of the genuine.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, OCTOBER 29, 1918

Full in the path of victorious Germans, alone for two nights in a pitch black hospital with nine dying soldiers and a madman! One small woman saw it through. And overhead roared the shells of the advancing Hun

France's Fighting Woman Doctor

EIGHTEEN THOUSAND wounded passed through her hospital in four days.

600 operations and not a patient lost!

This was Nicole Girard-Mangin, the woman doctor who was mobilized and sent to the front by mistake because they thought she was a man.

"What! a woman?" cried the head doctor. "This is no place for a woman! But, good God, if you know anything, roll up your sleeves and stay."

Dorothy Canfield tells the story in this remarkable living document. Simply, intimately, dramatically this story comes to you from the battlefields of France. It is a burning page torn from the war. Don't miss it! In this number of Pictorial Review.

Thoroughly representative of today's loyal, inspired womanhood, every woman should read this November issue—the greatest woman's magazine ever issued. Pages and pages of fashions, some in full color, showing advance winter models.

Special with this issue: Two wonderful full-page war pictures for framing, by the greatest French war artist of today, Lucien Jonas

The Luck of Geraldine Laird
By KATHLEEN NORRIS

DESERTED, insulted by the hideous terms of her husband's letter, penniless, Geraldine Laird faces life. Her two babies need food, shelter, clothes, schooling. Another man is eager to take her husband's place.

Would the fact that your husband had deserted you for another woman drive you in the extraordinary direction it drove Geraldine? The way she solves her problem is fascinating, thrilling. The second big installment moves swiftly forward. Read it now or save your installments till the four are completed—you will have right there a big popular novel to read that would cost you \$1.50 at the bookstores.

The Man Who Looked Back
By LUCY PRATT

Greatest war story of the year

A GERMAN Airman. But he could not forget. "Children! Oh—yes! Plenty of 'em—mostly like the others—like the ones that tried to crawl—and cry for their mothers. Still hanging on—to their school bags—living and dead—you understand. You see—they kept crying—for their mothers!"

The man had looked back! He looked back! What he went through, what you go through as you read—is tragic. But it is true! Shall children die and women plead in vain?

Making the World Safe for Monogamy
By HELEN RING ROBINSON

First woman State Senator of Colorado

WILL the war make husbands monogamous? War has always profoundly affected marriage. At the close of the Thirty Years War it was practically abolished in Germany. They wanted cannon-fodder. They want it now. Hence, their system of "secondary marriages" today! Will our line hold against the Hun and the Harem? Retaining our ideal and keeping out the ghastly German desecration depend on just one thing. Read in this issue what it is!

Declaration Of Independence Of Czecho-Slovaks

Independence of the Czecho-Slovak nation was declared formally the other day by the Czecho-Slovak national council, recognized by the United States and the Entente Allies as a belligerent de-facto. The declaration of independence says in part: "Declaration of independence of the Czecho-Slovak nation by its provisional government. "At this grave moment, when the Hohenzollerns are offering peace in order to stop the victorious advance of the Allied armies, and when the Hapsburgs are promising the federalization of the empire and autonomy to the dissatisfied nationalities committed to their rule, we, the Czecho-Slovak National Council, recognized by the Allied and American governments as the provisional government of the Czecho-Slovak state and nation, in complete accord with the declaration of the Czech deputies in Prague on Jan. 6, 1918, and realizing that federalization and still more, autonomy, mean nothing under a Hapsburg dynasty, do hereby make and declare this our declaration of independence. "We do this because of our belief that no people should be forced to live under a sovereignty they do not recognize, and because of our knowledge and firm conviction that our nation cannot freely develop in a Hapsburg mock federation which is only a new form of the de-nationalizing oppression under which we have suffered for the past 800 years. We consider freedom to be the first prerequisite for federalization, and believe that the free nations of Central and Eastern Europe may easily federate should they find it necessary. "The world knows the history of our struggle against the Hapsburg oppression, intensified and systematized by the Austro-Hungarian dualistic compromise

women in the province for the purpose of caring for the sick in each district, as the direct result of the mass meeting of women called by Dr. Roberts and held yesterday afternoon in the Veterans' Hall. The fact that a public gathering was permitted at all at this time of quarantine was evidence of the desperate need in the city and province for women who will go into the afflicted homes, and render the assistance which is needed so desperately. Dr. Roberts spoke of the seriousness of the situation, which yet called for no panic but rather education and care, and said that he thought the

women's societies already organized were the best means of obtaining help. Mrs. G. A. Kuhring told of the splendid work which the V. A. D's have done in the city and in some parts of the province and said that the city's greatest need were reliable visitors for the stricken homes. Others who spoke at the meeting were Mrs. John A. McAvity who assured the meeting of the local Red Cross co-operation, Mrs. D. P. Chisholm who spoke forcibly concerning the non-enforcement of the by-law forbidding expectation, and A. M. Belding who explained the predicament of the Children's Aid Society with regard to

taking children into its shelter. Dr. Melvin pointed out the value of organization throughout the province and of sending of the telegrams to the Red Cross branches by Dr. Roberts was suggested by Mrs. George F. Smit. Employees of a Great Canadian Institution Support the NEW VICTORY LOAN

ON the last Victory Loan, the employees of the Dominion Rubber System, realizing Canada's urgent need of our contributions and having absolute confidence in the security of Victory Loan Bonds, made a record of which any institution might well be proud. 3,897 employees subscribed \$311,650.00—an average of about \$80 per subscriber, or over \$52 for every man, woman, boy and girl in the organization. This splendid result was made possible by the systematic effort of our company officers in promoting Thrift among its workers, through the Dominion Rubber System Thrift Plan instituted some two years ago.

We are proud of the total; we are proud of the loyalty displayed by our associates; just as we take a natural pride in the great and growing importance of the Dominion Rubber System as a factor in the development of our country.

The Dominion Rubber System has outgrown the local importance of its various factories. It has become a Canadian institution—like the banks and railroads—exercising a country-wide influence, not only in the commercial life of Canada, but also in every movement for the welfare of the wage-earner and the development of the nation.

Below, we reproduce the announcement made when the Dominion Rubber System Pension Plan was adopted. It enables employees of our company, when age or disability overtakes them, to retire on a competence, the reward of faithful service. In the lower right corner, we also show how our organization is a powerful factor in the conservation of fuel.

To encourage us to take a still greater interest in the coming Victory Loan, the Executive of the Dominion Rubber System will again help employees to finance their subscriptions and will also subscribe dollar-for-dollar for whatever amount is taken by its workers. In other words, if we, as employees of the Dominion Rubber System service branches and factories, subscribe for \$400,000.00 or \$500,000.00 of the new bonds, the company will arrange for the financing of them and in addition will subscribe for at least \$400,000.00 or \$500,000.00 on its own behalf.

The subscriptions made by employees at each factory center or divisional office district, as well as the dollar-for-dollar subscription by the company, will be credited to the local Victory Loan Committee. We look forward with pleasure to the hope that our subscriptions will compel our Executive to make a magnificent contribution to the new Victory Loan.

MUTT AND JEFF—IF THE WAR LASTS LONG ENOUGH, JEFF MAY LEARN SOMETHING

Comic strip 'Mutt and Jeff' by Bud Fisher. The strip shows Mutt and Jeff in a room. Mutt says: 'GOOD NIGHT, OLD DEAR! DROP AROUND AGAIN TOMORROW AND HAVE TEA WITH ME!' Jeff replies: 'THANKS, SID SIDNEY, I WILL, GOOD NIGHT!' Mutt then says: 'MUTT, I SPENT THE EVENING WITH SIR SIDNEY, I'M LEARNING A LOT FROM SID. HE'S CERTAINLY WELL READ!' Jeff asks: 'WHAT WAS IT?' Mutt replies: 'YES, HE REPEATED AN EXQUISITE QUOTATION TONIGHT. IT WAS A CLASSIC.' Jeff asks: 'I CAN'T GIVE THE EXACT WORDS, BUT HE SAID HE'D RATHER BE A SOMETHING IN A SOMETHING THAN A SOMETHING ELSE!' The strip ends with Mutt and Jeff looking thoughtful.

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion. Doubtless if you are a sufferer from indigestion you have already tried pepper, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble. In some cases do not even give relief. But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisulphated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk, but the pure bisulphated magnesia which you can obtain from practically any drugist in either powdered or tablet form. Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulency, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You will find that provided you take a little bisulphated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisulphated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

PORT NEWS OF THE DAY; HOME AND ABROAD

THE RING.
Carroll Very Ill.
 San Francisco, Oct. 28.—"English pugilist" Carroll, veteran pugilist, who, on more than forty years of age, went to London to fight with Jack McAuliffe a contest for the lightweight championship, is seriously ill with stomach trouble at his home here. He is now nearly seventy years of age, and little hope of his recovery is entertained. Carroll became a contender for the heavyweight title in the days of the old California Athletic Club in this city, which turned out many famous boxers. The expiration of his ring career in London was a disappointment to his admirers, and he gave instruction in art and was Bob Fitzsimmons' manager when "Rube" Robert first came to this country. For several years he has been a ballplayer in the superior court in San Francisco.

May Get Wild.
 New York, Oct. 28.—Charley Harvey, boxing promoter and manager of boxers, who has been appointed official timekeeper for New York in the great "Week of Sport," which incidentally will run many weeks, said that every effort would be made to bring Jimmy Wilde, a phenomenal English boxer, to his country for a series of bouts. Wilde is not at the front, and is not likely to get there by reason of being far under the military weight requirements, and it is felt that a request from the Y. M. C. A. to the British government would be sufficient to release him from his army duties in London long enough to enable him to participate in the Madison Square Garden carnival.

Noted Athlete.
 Capt. William George Hazlett, who died in Kingston, Ont., last week, a victim of influenza, was born in Kingston in 1889. Throughout his school career he was always foremost in baseball, hockey and football. In 1912 he accepted a position with the secretary of state's department, where he remained until the fall of 1914, when he enlisted with the 2nd Battalion as a private. His untiring energy and executive ability were soon recognized and he was promoted to sergeant, going overseas with that rank after eight months' service in France. Returning with the rank of lieutenant, distinguished himself by his bravery, and was awarded the Military Cross and Victoria Cross.

You can pay more than 7c for a cigar but you can't get a better cigar than the Pippin.

We claim it the best 7c cigar in the land. Four of them cost a quarter.

GLENN, BROWN & RICHEY
 ST. JOHN, N. B.

so he applied and was appointed quartermaster to Queen's Hospital at Kingston, with the rank of captain. He was taken ill with influenza on Oct. 15 and died on Oct. 24.

He is survived by his mother and father, two brothers and three sisters. His younger brother, Jack, is well known, having been captain of Queen's football team and manager of Queen's hockey team for a number of years.

HOCKEY.
Case in Court.
 Toronto, Oct. 28.—In the appellate court here today judgment in the appeal of the Toronto Hockey Club against the National Hockey Association, to declare void and unconstitutional the resolution dropping the Toronto Hockey Club from the National Hockey Association in February of 1917, was reserved. The Toronto club was dropped by the N. H. A. on Feb. 11, 1917, when the 22nd Battalion team was ordered overseas and could not fulfil their schedule. The season was completed without the Toronto club, and ever since then the Toronto club has been kept squeezed out of professional hockey.

BASEBALL.
Has Jennings Quit?
 Has baseball seen the last of Hughie Jennings? Will Hughie, after twenty-eight years of continuous labors in the national pastime, return to private life to spend the remainder of his days in comfortable surroundings? When he recently announced that he was going to France as a member of the Knights of Columbus foreign service staff, he also said some intimates that he did not expect to return to the game when it is resumed after the war.

Jennings is forty-eight years of age. As remarked, he has seen twenty-eight consecutive campaigns and took active part in play until he went to Detroit in the spring of 1907 as manager of the Tigers. He quit playing that year and has not resumed a position on the field. Hughie does not have to stick to baseball.

ball. He is well fixed. Stocks and bonds in his name will bring him enough revenue to free his mind of worry for the remainder of his life. He has worked hard and saved well. Wise investments have taken care of his future and when a man reaches the age of forty-eight he can well figure that he has done his share of athletic campaigning. His only rival in the American League today is Connie Mack. The Philadelphia has won more pennants than Jennings and has been a manager longer in the American League than Hughie has, but outside of the tall and slender tactician of the Athletics, Jennings has the edge on everybody else in Ban Johnson's circuit.

WHAT CITY WOULD LOSE BY REMOVAL OF FILM EXCHANGE
 An estimate made by film exchange managers has it that the various exchanges in this city expend within the city annually the sum of \$100,000 about different avenues. The owners of the various picture houses in the city are up in arms against the proposed changes of location of the film exchanges. They argue that they will not receive anything like the same service if the exchanges remove to some other centre and that the change will cost them an average of \$150 per year each for express charges on films sent them by the exchanges. From a community standpoint they deplore the fact that the city through such a change would be robbed of 150 useful and progressive citizens, which would be felt not only by the moving picture men but the merchants in general here. Under the new set of conditions St. John would cease automatically to be the centre of distribution to the pleasure-seeking people of the maritime provinces, which would have its moral effect at any rate if not to be considered from a mere monetary standpoint.

ROBERT STEAD'S NEW NOVEL.
 Robert J. C. Stead, in his new novel, "The Cow Puncher" (Toronto, the Musson Book Company, Limited, cloth, \$1.50), has written a notable book with a western Canada setting. David Elden, the cow puncher of the story, grows to young manhood on a ranch in the foothills, outside the influence of church or school. At eighteen he is accidentally thrown into the company of a young eastern girl, who enkindles in him the ambition to be somebody in the world.

With this purpose in view, young Elden leaves the ranch and goes to make his fortune in a young western city. The first night he is swindled out of all his ready cash by a gang of card-sharps, and he takes a job next morning as a coal heaver. For a time it looks as though Dave's course would be downward instead of up, but he fortunately comes under influences which revive his ambition for self-assertion. About this time the big western real estate boom breaks out, and Dave's course is meteoric. His wealth comes quickly and goes as quickly. Following the collapse of the boom a tragedy in his life affairs sends him as an exiled man to France. In the closing chapters is found one of the highest patriotic notes struck by any author during the war.

"The Cow Puncher" is decidedly worth while. It is interesting and refreshing, and at times inspiring, written with all Mr. Stead's intimate knowledge of the west and skill of delineation. Through the book runs a happy vein of humor and philosophy which is not the least of its charms. It is illustrated by Arthur Hemling, mounted policeman, and is announced by the publishers as an all-Canadian book—Hemling, ex-lumber man and northwest

written by a Canadian, and printed and bound in Canada. It should receive a warm welcome from the Canadian reading public. The United States edition is issued by Harper.

"Unto the least of these"

RIVET your eyes on this picture of a Belgian mother and child, until you feel the full horror of the situation! Thousands of these orphans, dying of starvation, might now be living in comfort and plenty, had their soldier fathers not flung themselves into the breach when the Hun invaded Belgium.

The fathers died to save us. Are we going to let the orphans starve? Conditions are simply ghastly. The United States loans to the Belgian Government finance the general relief work, but this only provides a bowl of soup and two pieces of bread to each person per day.

What is that for a growing child? The Slaughter of the Innocents is less terrible than what is now occurring in Belgium—practically a whole generation of the Belgian nation in the grip of Consumption, Rickets and other ills all directly due to insufficient nourishment.

POLICE COURT
The prisoners' dock in the police court was filled again this morning when men gathered in over the night were brought before the magistrate. Charles Anderson, recently released from custody on a liquor charge, was arrested again late evening on a charge of drunkenness and supplying liquor to Heber Piers. He pleaded not guilty. Piers was put on the stand and said that Anderson gave him a drink out of a bottle. Sgt. Thomas Jones was before the magistrate on a charge of drunkenness, resisting the police and using insulting language in a boarding house in Charlotte street. He was fined \$5. Three men, charged with drunkenness, were each fined \$5 or two months in jail.

SOME STOCKS IN SLUMP IN WALL STREET TODAY

New York, Oct. 29.—Declines ranging from one to six and a half points measured the heaviness of the stock market in the first half hour of today's trading. Oils, notably Mexican Petroleum, were the weakest features, being closely pressed, however, by rails, tobaccos and some of the leading industrials, including United States Steel, on which dividend action is to be taken after the close of today's market. Coppers opened with a show of strength, also shipping and low-priced coals, but gains in these issues were not retained.

Noon Report
Further recessions occurred during the dull forenoon on selling attributed to the calling of bank loans. United States Steel's persistent heaviness at an additional reaction to 107 was as much of a factor as any other development in forcing prices downward. Mexican Petroleum extended its decline to eleven points and Royal Dutch forfeited seven points. Gains among coppers, motors and specialties were largely cancelled, but rails and shipping were relatively steady under lead of Southern Pacific and Marine Preferred.

CAMPAIGN IN CITY GOES WELL

Question as to The Matter of City Taxation Answered—Glacé Bay Reaches Objective

"Every one is working hard and all the canvassers who have reported seem well satisfied with the manner in which the campaign is getting on," said S. E. Eldin, M. P., chairman of the local Victory Loan executive, this afternoon. Reports received at the headquarters in Prince William street so far are not complete enough to warrant even a guess at the amount subscribed during the first day of the drive. The incomplete reports are regarded as encouraging but also as indicating that it will take every effort on the part of the canvassers and the most earnest co-operation on the part of the citizens to fulfil the expectations of the committee to pass the objective set.

Few of the larger subscriptions are in yet, as J. M. Robinson, who has charge of this end of the campaign, has not yet returned to the city. He is expected tomorrow.

Voluntary subscriptions at the banks yesterday reached a total of about \$50,000. As most of these were for small amounts, the total is received with satisfaction, as indicating a real interest in the success of the loan by people who are willing to subscribe without waiting to be canvassed.

As to Taxation.
Questions have been asked about taxation on the Victory Bonds. The statement that they are exempt from taxation authorized by the federal government relates to dominion taxation. As there is no provincial taxation on personal property, the only remaining taxation is that imposed by cities and municipalities. At the last session of the legislature it was decided to leave the question whether or not Victory Bonds were to be taxed to each municipality to decide for itself. In St. John the question hardly is an important one owing to the provisions of the new assessment act. Under the new act the city does not assess on the principal value of stocks and bonds, but merely collects taxes on the income. Thus on a \$100 bond, as an illustration, where taxes at say \$2.25 formerly would have been \$2.25, the tax due under the new act would be only a few cents. On small holdings this would be so small that it is doubtful if it will be taken into consideration at all by the assessors and on large holdings it is not great enough to be regarded as a burden.

The First Bond
The statement that the first bond was sold to His Worship Mayor Hayes is challenged in the North End. It is asserted that E. D. St. John, 142 St. Main street was really the subscriber to the first debenture in the new war loan in St. John. A firm check approached yesterday morning, George W. Mallin, bond salesman, had all arrangements completed with Mr. Starkey and the latter's signature was twice entered on the whistles and bells had reached the peak of their clamorous appeal.

Address Tonight
S. E. Eldin, M. P., Mayor Hayes and others will speak from a car in front of the Imperial this evening at eight o'clock. A large lobby of the lobby of the Imperial will be open and bond salesmen there to explain and make sales of Victory Bonds.

Quebec, Oct. 29.—At noon today the local committee of the Victory Loan had subscriptions of \$300,000. The \$7,000,000 quota of Quebec district will be over-subscribed, according to the committee.

Well Done, Glacé Bay.
Glacé Bay, N. S., Oct. 29.—Glacé Bay, Canada's most populous incorporated town, reached its Victory Loan objective on the first day of the campaign.

In Montreal.
Montreal, Oct. 29.—The total of the subscriptions of the first day towards the Victory Loan in this city was \$8,290,000. Montreal has set itself the task of raising \$10,000,000.

CLEVELAND TOOK \$125,000,000

The Stirring Story of What One City Did for the Liberty Loan

A St. John man resident in Cleveland, Ohio, writes:
"The Liberty Loan is over and away over subscribed. Cleveland had to raise \$115,000,000, or about \$150 for every man woman and child in the city. Our actual total will run about \$125,000,000. I was working in a double double quartette on the future sales committee. The 'dub' closed all indoor meetings about half way through the loan period, so we resorted to outdoor work. Every election ward had a captain and dozens of salesmen, so that every dwelling was canvassed. Every business firm, office, shop or organization employing more than half a dozen people was canvassed by the industrial committee. Then the feature sales committee covered the business streets with salesmen and saleswomen. Autos were driven up on the sidewalks and from them mailed soldiers, Americans, British and Canadian, addressed the crowds, and local speakers joined in. Every night of the last week about half a mile of Euclid Avenue was closed to traffic and a carnival was held. Platforms were built, open air motion pictures were operated, and entertainments provided. My singers performed every night on these platforms, joining with vaudeville artists, a saxophone sextette, a pianist, hand, etc. in drawing crowds, while bond salesmen circulated and aided the speakers. A theatrical advertising man took our double quartette to the largest hotel for lunch and after having us sing one song for the dinner he announced that we would sing another song for \$1500 in Liberty Loan subscriptions. He got it. The Americans were slow in getting started, but now that they are going they are a whirlwind."

The writer adds that influenza has caused the closing of everything possible in Cleveland. There are nearly 20,000 cases, and hundreds of deaths.

The Eureka—the most powerful Electric Vacuum Cleaner made, is Sold St. John Only at Our Store

Since Vacuum Cleaners have become recognized as practically household necessities, it is needless to describe its usefulness; but just now when so many women are forced to do all their own house-work, it is more than an advantage to save labor.

One of these wonderful machines, used frequently on rugs and carpets, will remove every atom of dust, not only from the surface, but from underneath, and make sweeping day a thing of the past.

And when children are about the house it is very important to have the germ-laden dust absolutely removed, not transferred to another place, as is the case when a broom is used.

Let us demonstrate the machine for you, or send it to your house for a free trial.
