Exhibit at WEMBLEY

THE Canadian Government has decided to continue its participation in the British Empire Exhibition at Wembley in 1925.

Eighteen million people visited the Canadian Pavilion last season, and an even greater attendance is expected in 1925.

The opportunities for making new and valuable trade connections are exceptional, and the Government invites Canadian exhibitors to be fully represented.

Applications for space should be sent immediately to J. S. McKinnon, Canadian Industrial Representative, 205 Royal Bank Building, Toronto.

March 20th is the last day for applications. Hon. James A. Robb Minister of Immigration and Colonization, Ottawa, Ont.

ST. JOHN, N. B., FEBRUARY 26, 1925

POOR POLITICS.

That throwing bricks at the Prince of Wales is not a good way of making capital has been discovered by the British Labor party.

The former Prime Minister, Ramsay MacDonald, and John Robert Clynes were quick and forcible in disassociating themselves from the attitude and sentiments of David Kirkwood and other Socialist members in this matter.

Mr. Clynes, in reproving the Clyde radicals, declared that the Prince of Wales was no more to blame for the evil conditions existing in Glasgow, or anywhere else for that matter, than any of those who criticized him.

Mr. MacDonald was equally outspoken. "We can't cure the case of the poor widow and her children by being mild-mannered and petty," said the former Prime Minister.

The British public is fully sensible of the harvest of good that is due to the tours by the Prince of Wales in the United States, in many parts of the Empire, and in many foreign countries.

The development of Canadian unity through truly national policies is an enterprise promising dividends so rich for the whole of Canada that it must challenge at once the common sense and the patriotism of Parliament.

GRADES AND RATES.

The London Times, which is most critical of the Canadian proposal to take action intended to establish some measure of control over ocean freight rates, says imports into Canada from Great Britain "are so small in bulk compared with Canada's great exports of produce that single homeward voyages as a rule have to bear the whole cost of round voyages."

Ships go where the freight is to be had, and the Times' comment tends to emphasize the importance of a transportation policy under which, to a far greater degree than at present, Canada's exports as well as its imports would be handled over its own railroads and through its own harbors, so that two-way cargoes for the ships may be provided.

At the time the Grand Trunk Pacific was under construction, the late C. M. Hays spoke frequently and forcibly of the need that loaded trains coming from the West to the seaboard should find their freight for the return journey, and he predicted that as the West developed, growing in population and in production, the traffic would overflow all the Canadian Atlantic ports.

Transportation authorities have said on many occasions that the same engine can haul, say, 500 tons over the average Canadian railroad, including the lines used to reach American ports, can haul 1,000 tons over the low gradients of the National Transcontinental, and Canadians, particularly those in Eastern Canada who heard so much years ago about the meaning of the Transcontinental grades, have never been able to understand why a much greater use has not been made, and is not today made, of that 1,800 miles of level track from Winnipeg to Moncton.

We say Moncton, which is the eastern end of the Transcontinental, but by using the McEwen short cut, and coming down the Valley Railroad to St. John, over the same low grades, freight routed to this port finds the shortest route to winter tide-water. Trains bound from New Brunswick to the West over the Transcontinental encounter no grade exceeding six-

POOR POLITICS.

tenths of one per cent, which permits of very heavy trains. So far as rail haulage is concerned, the grades of the Transcontinental, permitting a locomotive to haul practically twice as great a load as on most other lines, should be an immense factor in keeping Canadian freight in Canadian channels.

CANADIAN UNITY.

In considering the relations between Ontario and Quebec, a writer in the Toronto Star, who advocates the most broadminded views in matters affecting the two great provinces, says:

"But what true Canadian would grudge even a high price for a real national unity between Ontario and Quebec, between Maritime Provinces and Central, between East and West?"

Without that unity Canada cannot prosper, cannot reach the level of material success and national contentment which it should gain and hold by reason of its manifold resources and the character of its people.

But why suggest that a high price is necessary? A reasonable view would be that, considering the ends in view, no really high price is demanded. Should no real unity be achieved, the failure would be not only costly but disastrous.

National unity will come—is coming—from a closer understanding in every province of the people, the problems, the aspirations of all of the other provinces. There should follow, as a proof of this better understanding, and in the near future, the bold application of policies of national betterment, of benefit to every part of this Confederation. The ironing out of transportation inequalities, and of those in connection with the ports and with immigration naturally suggest themselves in this connection.

The interests of the people of the nine provinces are interlocking. Our nine million people have a country with manifold resources and activities. They will feel fresh confidence, new energy, a greater faith in Canada, when they see that the railroads they own are being employed as levers of national progress; when they see that the port cities on both coasts are being built up like the industrial cities in the Central Provinces; when they see that the Prairie West is given a chance to market its products and to develop its own industries, and that national policies give the Maritime Provinces similar opportunity and encouragement.

The development of Canadian unity through truly national policies is an enterprise promising dividends so rich for the whole of Canada that it must challenge at once the common sense and the patriotism of Parliament. Bold and progressive action there along broad lines will be welcomed by the whole Dominion.

Without such action there will be, undoubtedly, growing dissatisfaction, followed by the discussion of other alternatives, East and West. Secession movements thrive on lack of unity and of common prosperity.

In the Maritime Provinces, and in many other parts of Canada today, all eyes are fixed upon Ottawa. The preliminary reports indicate that Parliament is seriously impressed with the purpose, size and earnestness of the delegation and by the very great body of public sentiment it represents.

A member of the Ontario Government is quoted as saying of the five per cent, beer now legalized in that province, that a washbowlful of the fluid would not produce intoxication. If this be true the tendency will be to direct more and more of the savagely thirsty to the native Ontario wines, the sale of which has always been permitted, and which are said to have a certain degree of "authority" lacking in tamer beverages.

"Whatever can reasonably be done for the relief of these Eastern Provinces should be done," says the Manitoba Free Press, but that journal hesitates somewhat about confining the British preference to goods entering Canada through its own ports, direct, fearing that to some extent delay might result in delivery. It is to be noted that throughout the whole campaign no such doubt has been raised by shippers and other business men interested, all of whom have expressed themselves in favor of having the preference used to the greatest extent possible to build up Canadian railways and ports.

The Ontario Government estimates that it will receive an additional revenue of about \$3,000,000 from the proposed three-cent tax on gasoline. The former Attorney-General of Ontario, Mr. Roney, contends that as this is an indirect tax it is beyond the provincial jurisdiction, but Premier Ferguson holds otherwise. The Ontario Motor League is making a determined fight against the tax and regards the

issue as not settled yet. Ontario has 271,000 passenger cars, 31,000 trucks and 4,000 motor cycles, and the average consumption of gasoline per vehicle is said to be from 350 to 400 gallons. According to these figures, the average motorist would pay the Province approximately \$12 a year in addition to what he now pays in license fees, his contribution varying with the size of his car. Gasoline in Ontario now sells at from twenty-eight to thirty cents a gallon.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

And Still Onward

(Toronto Star). Two hundred and nineteen years will elapse ere another total eclipse is visible in Ontario. Going back in history for the same number of years, the student of events is impressed with the changes for the better which have taken place.

But it does not do to presume that perfection has been reached; that there is no longer a goal ahead; that man has accomplished for his fellow man all that needs to be accomplished. To entertain that belief, to doff armor, counting the day as won, is to invite retrogression and forego the greater victories which await the forces of reform. The battle, indeed, is as yet hardly joined—the battle with unperceived poverty and inequality of opportunity, with ignorance and prejudice and oppression—however great may be the things which have already been accomplished. Man must look forward as well as backward. And in looking forward he is far more likely to underestimate than to overestimate the things which progress can achieve.

Macaulay, as a historian, refused to entertain the delusion that the "good old days" were really good. He admitted that they were bad and worse than bad. Writing in the middle of the nineteenth century he found the seventeenth intolerable. He lamented that "it is now the fashion to place the golden age of England in times when she was more destitute of wealth, and the want of which would be intolerable to a modern footman, when farmers and shopkeepers breakfasted on leaves, the very sight of which would raise a riot in a modern workhouse when men died faster in the purest country air than they now die in the most pestilential lanes of a city, and when men died faster in the lanes of our towns than they now die on the coast of Guiana."

Macaulay realized that progress had been made, and that "we too shall, in our turn, be outstripped. He who shall far outstrip, he did not dream. He wrote:

"It may well be in the twentieth century, that the peasant of Dorsetshire may feel himself miserably paid with fifteen shillings a week; that the carpenter at Greenwich may receive ten shillings a day; that laboring men may be as little used to dine without meat as they now are to eat dry bread; that numerous comforts and conveniences which are now unknown, or confined to a few, may be within the reach of every diligent and thrifty workman."

For an age which was singularly complacent in its own virtues, that was indeed a bold prophecy. But if the great historian were alive, and if the people of today would be amazed if they could see, in a clear vision, the world of seventy-five years from now.

The impossible things will be done. They will be done by people who refuse to consider them impossible. The leaders in that fight for a better world to live in—a kinder and a nobler civilization—will be men who realize not only how far along the road to progress the human race has come, but how far it has yet to go. They will imagine the impossible and then achieve it. They will be animated by a divine discontent with anything less than the best for humankind, and they will realize the superiority of the present over the past, but they will also realize how superior to the present the future may be made.

Progress are only successful so long as they do progress. Were they to sit down, satisfied with their accomplishments, the fight for greater and better things would be lost.

How To Judge Dogs.

(New York World). The results of the dog show indicate a lamentable divergence between the experts' idea of a good dog and the average owner's idea. At the dog show the judges take into consideration such things as head, neck, eyes, shoulders, fore legs, hindquarters, tail, frame, weight, color, gait, etc. Are these what the owner cares about? They are not. The main points about a dog in the average American home are as follows: The way he wags his tail when offered a lump of candy.

The cute way he folds his paw over his nose when asleep. His manner of begging for food from the table.

His intelligence, as indicated (a) by offering his right fore paw to strangers, (b) by pretending to be asleep on command, (c) by bringing father his slippers.

Seeing Through.

The darker the night, the brighter the stars. The fogs and smoke of cities darken the day, and make life gloomy to those who have not learnt to make it bright for themselves; but they make glorious sunsets for those who have eyes to see.—Lord Avebury.

DEBATE WON BY ST. DAVID TUXIS TEAM

First of Series Held in Ludlow Street Church Proves of Interest.

The first of a series of Tuxis League debates scheduled for this season took place last night in the Ludlow street Baptist church, when St. David's Tuxis team upheld the negative of the resolution "Resolved that the Country Boy has a greater chance of success in life than the city boy," and the Ludlow street Tuxis team championed the affirmative side. Rev. H. S. B. Strathmore, Rev. J. M. Milligan and Rev. W. C. Macchum, religious education council secretaries, were the judges, and they complimented the debaters on their fine presentation of excellent arguments. There final decision showed the two teams with standing as follows: Argument, St. David's, 483; Ludlow, 410; presentation, St. David's, 209; Ludlow, 218; department, St. David's, 79; and Ludlow, 84, making a total of 221 for St. David's, and 212 for Ludlow street. The members of the team were as follows: St. David's, Gordon Lipsett, captain; John MacFarlane and Robert McDade, Ludlow street, Roland Hamilton, captain; Rodney McLeod and Delbert Black.

Short Addresses. Roland Hamilton, proctor of the Ludlow street group, was chairman. R. H. Parsons, the mentor, welcomed the visitors and the debate music was also given by A. R. Crookshank, mentor of St. David's group and W. T. Denham, chairman of the Tuxis Debating League who outlined the programme for the debates, saying that the next one would be with Exmouth street group debating with the Brookville group. At the close of the debate music was enjoyed and refreshments were served by a committee of young women consisting of the Misses Inez Clark, Carle Dineen, Kathleen Martin, Sadie McLeod, Frances McLeod and Alma Belyea.

Open Meeting. An open meeting for young people proceeded the Tuxis debate, and was held in the church with Rev. W. A. Robbins presiding. Mr. Robbins led the devotions and gave a short address and the three field secretaries, Mr. Strathmore, Mr. Milligan and Mr. Macchum also spoke briefly. Willard Hamilton, boy mayor of Moosejaw, Sask., gave an address based upon the Tuxis emblem which symbolized the Christ-centred life. He closed with an earnest appeal to the young people to lift up the best that was in them. Vocal solos were given by E. Clyde Parsons and Miss Robbins and Miss M. E. Mullin presided at the piano.

Witches' Brood. (Marie V. Caruthers in New York Times) They come when nights are hoarse with wind And drenched with gusts of rain, To search his pointed fingers, Against the window pane, My witch kin—how I feel them near, Again and yet again!

"Tis but the wind!" My good man sooths; "But there's no lass, dear? Nothing shall ever bring you harm The while your husband's near!" (Alas! He sees not what I see, And hears not what I hear!)

Children and man and home are dear— But sometimes makes me mad, (Even though I loathe my witch kin wild) Pierce longings to be free, Lovest hold me, or else some night, How can I tell—maybe—

IN LIGHTER VEIN. Clear Magic. During a ball performance there he said, "I hold me, or else some night, How can I tell—maybe—"

"Look here," he said, "what the deuce is all this row about?" A scene shifter smiled broadly. "D'ye know the magician who eats fire?" he said. "Well, he's just put the fire in a cigar in his mouth!"—London Tit-Bits.

There Will Be. "Are you going to America?" "Yes, to America." "By which ship?" "By atrahpi!" "But there is no atrahpi service!" "There will be by the time my wife is ready!"—London Answers.

Print Answer in Capitals. Speaking of puzzles, here's rather an odd one: First, three-fourths of a cross, then a circle is seen. Two uprights come next with an angle between. Same angle reversed, standing firm on two feet. Then three-fourths of a cross and the circle repeat.

Hadn't Tuned In. Father (sternly)—"Now you understand what I have just said, young lady." Small daughter (unimpressed)—"Will you please broadcast it again, daddy? I haven't quite got your wavelength."

Some Things That Matter. (John Richard Green). "What seems to grow fairer to me as life goes by are the love and grace and tenderness of it, not its wit and cleverness and grandeur of knowledge—grand as knowledge is—but just the laughter of little children and the friendship of friends—the cosy talk by the fireside, the sight of flowers and the sound of music."

Letters to The Editor

Those Sunday School Lessons. To the Editor of The Times-Star: Sir,—I did not intend to take up any more of your valuable time and space, but since "Canadian" has seen fit to take the stand that he has I feel a little more explanation would not be amiss.

If "Canadian" would read my previous letter again, he would see that I inferred that George Washington was a great man, not that I believe that anyone of the present generation would say otherwise.

But again I would say that if our Sunday schools need a layman as an example for our children, surely they could find a Canadian or an Englishman. Is there any necessity to go to another nation for an example, be that nation ever so friendly?

If "Canadian" has children going to Sunday school, does he appreciate that last Sunday in one of the Sunday schools, and in the same lesson, has reference to George Washington, there is also an expression: "America, Our Country." Does "Canadian" think that sentiments like that are right for a Sunday school lesson for his children?

Those of us who live in these "border countries" (to quote "Canadian") and who are in the minority, and who have "prejudices" sometimes, are asked with patriotism, "I wonder if those are true sentiments of a 'Canadian' who has love of country at heart."

If "Canadian" would notice the "Canadian" note below my letter of the 23rd, he would see that those cards were printed in Providence, R. I. Perhaps it is because those who live in the "border countries" love one another a little too much, or perhaps it is because the majority of those in the "border countries" wish to give business on the wrong side of the border.

Maybe if there was a little more of the so-called petty prejudices, we would not now have Mr. Belding and Mr. McKenna of The Times-Star and Telegraph-Journal traveling the Dominion, in the interests of the "border countries" and perhaps it would not be necessary to send a delegation to

ASKS BRITAIN TO MODIFY EMBARGO

Canada Requests Entry of Potatoes in Transit When Ban Was Declared.

OTTAWA, Feb. 25.—The Government is urging upon the British authorities the granting of further concessions in respect to the embargo placed on Canadian potatoes entering Great Britain. The British Government has been asked to permit entry of all tubers which were on Canadian wharves and those which were in cars and in actual transit to the seaboard when the ban came into effect on Friday last. The British Government has asked what quantity would be shipped were this request granted. The information is being prepared by the Department of Agriculture and will be cabled within a day or so.

When notification of the embargo was received the Canadian Government obtained a concession allowing the entry of all shipments en route on the ocean before and on the date of the embargo.

A Rush to Own Hydro Ranges

Thanks to the complete route of all "Gas" attacks, Hydro Ranges have entered on a boom that's an object lesson to jealous knockers. After noting the way the "Gas" Co. was caught red-handed in its attempt to fool the public on Electric Range economy, it seems everybody wants a Hydro. The demand has multiplied by four times. Around fifty people were in to see about their May first delivery last week alone.

The "Gas" Co. has unwittingly helped Your Hydro to advertise Hydro Ranges and is hereby tendered a grateful appreciation for its transparent twistings of the truth, its one-sided deceptions and its actual slips into untrue statements. Your Hydro at first felt called upon to expose these desperate deceptions—but no longer. They have helped along the good cause. Nobody has been fooled. Everybody has seen through them and become intensely enthusiastic about Hydro's.

Book now to be sure of May first deliveries. Installation equipment can cost below \$20. Choose Ranges from \$72 with ten months to pay. They soon save their price over and over.

Nearly A Quarter Million Gas Ranges

Are Doing the Household Cooking in Montreal and Toronto Today

A Tremendous Endorsation of the Gas Way.

Here are the Figures. They Speak for Themselves. Toronto...110,000. Montreal...130,000. Total...240,000

And, by comparison, the number of Electric Ranges in use in these two largest Canadian cities is trivial. The reason for this is plain. Gas cooking is cheaper—quicker—better and is always at your service.

Have You Ordered a Gas Range Yet? If not, why delay? SIXTEEN HUNDRED of them are at work in St. John today.

Now is the time to consider the matter, because an early order means an early installation. Postfall the summer heat. Put the drugstore on the Gas. It can stand it.

Here's Our Proposition. We inaugurated the plan last year in order to place the great benefits of Gas Cooking within the reach of EVERY HOUSEWIFE in St. John, who lives on streets served by our Gas Mains.

- (1) You can pay cash. (2) You can pay on monthly installments. (3) YOU CAN RENT ON A YEARLY BASIS.

Think it over. Can you really afford to be without a Gas Range? Why not call and look over our variety of Gas Ranges. We shall be glad to demonstrate at any time and tell you all about the wonders, and the cheapness, and the efficiency, of Gas Cooking.

Fables On Health

AN APPLE A DAY. THAT old maxim, "An apple a day keeps the doctor away," is not just a meaningless jingle, thinks Mrs. Mann of Anytown. There is quite a bit of truth in it. But if one becomes tired of apples, nature is kind and offers many other varieties of fruit from her bounteous stores. The tomato is a good substitute, and it may be eaten raw or cooked. Unlike many other fruits the tomato loses none of its vitamin C. The acid in the tomato takes care of that. Dried fruits, such as prunes, dates, figs and raisins, are valuable for mineral elements, particularly iron. These may be used freely where economy is necessary, but they should not be used to the entire exclusion of fresh fruit. Nearly everyone likes fruit. So there is little need to urge its use. And it is good that this is so. Because fruit helps to regulate the bowels and to stimulate a feeling of general well-being.

MOST OLD FOLKS REQUIRE A HEART AND NERVE TONIC

After middle age little sicknesses and ailments seem harder to shake off than formerly as the heart action becomes weak and uncertain and the nerves are not as steady as they were in the younger days. Now is the time when all aged people who wish to maintain their health and vigor and retain their energy unimpaired should use MILBURN'S HEART AND NERVE PILLS. Mrs. M. O'Connor, Whitestone, Ont., writes: "I have been troubled, most of my life, with shortness of breath, palpitation of the heart, and fainting spells. I was advised, by a friend, to try Milburn's H. & N. Pills, which I did, and at once found relief, and I have never had a really bad spell since. I am 80 years of age and I always keep them in the house, and feel that with their help I will see many years yet. I always recommend them to anyone who is suffering from heart trouble."

TAKE UP DUTIES AS OFFICERS OF LOCAL COUNCIL

New Treasurer and Corresponding Secretary of Women's Organization

REPLACE TWO VERY ACTIVE WORKERS

Miss Alice E. Estey and Mrs. H. B. Peck Had Retired.

When the meeting of the St. John Women's Council is held tomorrow afternoon two officers will take up their duties for the first time, Mrs. T. H. Carter, who succeeds Miss Alice E. Estey as treasurer, and Miss E. L. Colwell, who succeeds Mrs. H. B. Peck as corresponding secretary. Mrs. Carter has been treasurer for the Municipal Council of the I. O. D. E. and is a keen council woman. Miss Colwell is a successful teacher in the city schools and papers which she has given at the Teachers' Institute have been so highly valued that they have been published in pamphlet form at the request of the institute.

Served 14 Years.

Miss Alice E. Estey and Mrs. H. B. Peck were both made honorary members of the executive on their retirement. Miss Estey served as secretary for 14 years, taking office first when Mrs. David McLellan was president. During that time she had many important duties to fulfill. Some of the largest financial endeavors of the council were carried through successfully in those 14 years. Rosebud Tag Day brought its annual responsibilities and more recently the free milk fund imposed exacting duties.

Besides these purely council activities there have been many tag days and drives conducted by the council for other organizations, such as the International, skating meet and the civic war memorial, each of which has meant arduous labor for the treasurer of the council. It has also been Miss Estey's duty as treasurer to have supervision of the collecting banks which are the council's property and are loaned to very many organizations for use in tag day appeals. Ill health was the cause of Miss Estey's much regretted retirement.

Secretary Three Years.

Mrs. H. B. Peck held the office of corresponding secretary for three years, filling the important and often very

arduous position with great efficiency. Mrs. E. Atherton Smith was president when Mrs. Peck was elected corresponding secretary, succeeding the late Miss Etta Millican. Mrs. Peck was named as a delegate to the council by the Ladies' Association of the Natural History Society and was convener of the council's standing committee on agriculture for women. She made this committee popular locally and was instrumental in enlisting St. John women to begin home gardening.

As corresponding secretary Mrs. Peck made the constitution and by-laws a matter of diligent study, seeking aid from leading legal men. She has been a delegate from the St. John Council to the annual meetings of the National Council in Halifax and Toronto and the reports which she has brought back have called forth warm tributes of praise.

Since her retirement as corresponding secretary of the St. John Council of Women, Mrs. Peck has been elected corresponding secretary of the New Brunswick Provincial Council of Women and president of the Animal Rescue League, one of the affiliated societies of the local council. She declined re-election as corresponding secretary at the annual meeting of the local council to the great regret of the members.

WAR WIDOWS ASK PENSION FOR SLAYER

Say Man Who Killed Wife and Family Unbalanced in War.

OTTAWA, Feb. 25—A deputation representing war widows will wait on the Minister of Justice next week to ask commutation to life imprisonment of the death sentence recently passed on John Pirie, of Ottawa, convicted of the slaying of his wife and two children. Pirie served in the British army more than 20 years and it will be urged that he was suffering mental unbalance, following war injuries and during a period of unemployment and financial strain, when he put his family to death.

Many Attend Ash Wednesday Devotions

The Cathedral was filled last evening at the Ash Wednesday devotions, at the close of which hundreds presented themselves at the altar rail for the distribution of the ashes that had been blessed at the 8 o'clock mass by His Lordship Bishop LeBlanc. At the devotions, Rev. Charles Boyd led in the recitation of the rosary and Benediction of the Blessed Sacrament was given by Rev. W. M. Duke.

Father Duke also gave a short instruction on the significance of the day and of the ceremony of the distribution of the ashes. He pointed out that this brought people to think of the fact that some day every one must die, that now was the time to give themselves to God and by avoidance of sin and by prayer and the use of the sacraments of the church, prepare themselves for the life that was to come.

Red Cross Helps Fire Sufferers

A special appeal was made to the New Brunswick Red Cross Society for articles of clothing and bedding for the sufferers in the fire in the North End of the city on Friday night, and the response to the appeal was made with the society's usual promptness. A large parcel of 44 articles of clothing and bedding was sent early on Saturday morning. Yesterday the society received a letter from the citizen who had made the appeal telling of the gratitude of the family. The six children had all been provided with necessary clothing and the excellence of the garments, especially of the beautiful hand knit articles was referred to particularly in the letter.

COUNT SALM TO CHANGE FLAG

It is reported from abroad that Count Ludwig Salm, the husband of Millicent Rogers, New York heiress, is contemplating his adoption by a Hungarian named Kovacs. This, it is suggested, is in order to block any move the Rogers may make to have the count's marriage with their daughter annulled in the New York courts. The count had obtained a divorce in Hungary prior to his marriage to Miss Rogers, but inasmuch as the Hungarian laws provide that only citizens of that country may be divorced there, and as a result of the war, the count ranks as an Austrian, it would be easy to have the marriage annulled on the grounds that Salm's divorce was invalid. By becoming a Hungarian citizen, Salm hopes to block any such move. Count Salm is shown refereeing a tennis match at Cannes, where he is now.

OPTIMISM RULES AS DELEGATES LEAVE

DELEGATES RECEIVE A CHEERING SEND-OFF ON LEAVING ST. JOHN

More Than 500 at Depot When Special Departs Carrying Envoys to Ottawa, Confident of Success of Their Mission

CONFIDENT in the justice of their cause, enthusiastic and optimistic as to the results of their mission and determined to impress upon the Government and Parliament the necessity of an all-Canadian transportation policy, two hundred St. John delegates left here yesterday afternoon in the C. P. R. special train of eleven cars for the epoch-making conference at Ottawa.

Although there was no set celebration or send-off planned for the mission which is carrying the plea of the Maritimes for a transportation policy that will restrict the British preference to imports through Canadian ports and the routing of Canadian trade through Canadian channels, more than 500 well-wishers were at the Union Depot when the special train pulled out, ample evidence that the people of this city are vitally interested in the business on hand.

IMPORTANT MISSION TO ALL CANADA

But the importance of this mission is not confined to St. John, to the Province of New Brunswick, or to the Maritime Provinces. Every province in Canada will be looking toward Ottawa today. The conference with the members of the Federal Cabinet, and later with the Senate and the House of Commons, is a gathering of national import. Never before in the history of the Maritime Provinces has such a representation from the provinces down by the sounding sea carried the case of the Maritimes to Parliament Hill. There can be no question as to the representative character of this deputation. It is composed of men whose interests are wrapped up in the development of the Maritime Provinces and who sincerely hope for that prosperity which was predicted would follow Confederation.

PEOPLE EVERYWHERE SUPPORT PROJECT

Capital and Labor have joined hands and go to Ottawa today pleading the same case. These delegates left here yesterday afternoon inspired by the whole-hearted support which has come from every section of the country for the case they will present to Premier King, the Cabinet and Parliament. The country's legislators will today hear a clear, concise and accurate exposition of the problems of these provinces by men who realize the seriousness of the situation, here and who desire most of all to remedy the conditions and promote the national well-being of the Dominion at the same time.

Newspaper agencies, alive to the importance of this mission to Ottawa, had their representatives on hand yesterday afternoon when the C. P. R. special was being made-up at the Union Depot. The Pathe News and Fox News, large film distributors, "shot scenes" at the station and in hundreds of theatres throughout Canada people will see how the business interests of the Maritimes are concerned over their problems.

GET AWAY 100 PER CENT. STRONG

"We are starting away 100 per cent. strong," was the way one of the St. John business men, who had charge of the canvassing committee, characterized the make-up of the deputation, shortly before the Special left here. "Practically every man who said he would join us on this mission to Ottawa is here this afternoon, ready to do his part in making the trip a success. I never saw a more optimistic gathering leave this city, and that spirit of enthusiasm is going to have considerable effect in Ottawa."

Before the train departed the entire deputation lined up on the station platform and were photographed.

The movie cameramen also were on hand for this event, while the C. P. R. special of 11 cars was also photographed.

The special left here promptly at 8:30 o'clock, and enroute to Ottawa will pick up delegates at various points along the line, reservations having been made for Fredericton, St. Stephen, Woodstock and other deputations. The train was in charge of G. Bruce Burpee, district passenger agent of the C. P. R., who accompanied the delegation to the Federal capital.

Branch Railway.

FREDERICTON, Feb. 25.—The Fredericton delegates to Ottawa are expected to take advantage of their presence in Ottawa to urge the need of proceeding with construction of the branch line to Vancouver branch line, which was in the Canadian National Railways programme before Parliament a year ago, when it was thrown out by the Senate, and which is to be proposed again this year.

They will seek support of members of the delegation from elsewhere in the New Brunswick as well as from Halifax, in making an united demand for favorable action upon the Kingsclear-Vancouver branch line project, when it is presented again this year.

Alcoholics Quickly Sobered In New York by Gas Mixture Use

NEW YORK, Feb. 25.—Speedy resuscitation of patients unconscious from alcohol and prompt relief of milder symptoms of intoxication are reported by Drs. T. F. Hunter and S. G. Mudd of Boston, who have been experimenting with an apparatus now in use by the New York Edison Company in this city for administering oxygen and carbon dioxide.

This combination has been highly effective, according to Dr. Charles Norris, Chief Medical Examiner, in saving the lives of asphyxiated persons, but has not yet been introduced here as a treatment for alcoholism. In one case, after giving a terrific bath, the patient suddenly passed into deep coma. The report on the treatment in this case is:

"At 3:14 a.m. there was no response to shaking or supra-orbital pressure. Carbon dioxide administration was begun and continued for thirty minutes. During the middle of the administration the patient began swearing and struggling and had to be held down. When the mask was removed at 3:46 he gave his name, address and occupation."

"Twelve minutes later (3:58) administration was started again and was continued for fifteen minutes with the patient quite co-operative. Ten minutes after the removal of the mask he was quite sober, remorseful and swore off liquor; he asked where he was and how he had gotten there. To all appearances he could have been discharged."

Happy Crowd On Special Is Confident

By A. J. WEST.

EN ROUTE TO OTTAWA WITH THE ST. JOHN DELEGATION—if the C. P. R. could fill its trains as full as this one, it would declare annual dividends big enough to make even Wall Street gasp. Wending a tortuous way through the crowded coaches, one wonders how in the world everybody is going to be fortunate enough to sleep in a berth. But I am informed by G. Bruce Burpee, district passenger agent at St. John, that no one will be required to pass the night on the roof despite the fact that it is taking ingenuity to accommodate everybody.

A Happy Throng.

But no one is worrying. Indeed, it is questionable whether a train ever carried a happier throng. Laughter, banter and good fellowship are the order of the evening. These are no old delegates. These are no tired business men. At least that is the impression one gathers as the merry laughter rolls in billows through the swaying coaches. It is just a respite, however, before the plunge into the serious business of the morrow.

Background of Seriousness.

Peering behind the wholesome hilarity, one can detect a background of seriousness. Now and again this background is revealed in bold relief as one converses with the delegates. There is an unmistakable ring of sincerity in their voices as they discuss the object of their mission. They realize what success will mean to St. John, to New Brunswick, and to the whole Maritimes. And they mean to attain success.

Supremely Confident.

The entire delegation is supremely confident. It is full charged with optimism. Perhaps the spirit of the party is best described in the words of G. H. Langtry, of Yarmouth. He said: "I am not sure that Yarmouth will obtain any direct benefits but I am proud to be a member of this great delegation. It will get results, good results. It is going to Ottawa with the kind of determination that cannot fail to bring a turn of the tide for the Maritime Provinces." Tomorrow will tell.

KAMLOOPS STRONG FOR CANADA PORTS

Former Trade Board President Stresses Need for Dominion Unity.

BY A. M. BELDING

Special Representative of The Telegraph-Journal and Times-Star now touring Western Canada in the interests of the Maritime Provinces.

KAMLOOPS, B. C., Feb. 25.—Being detained here by a delayed train, I was able to attend the Rotary Club luncheon and was given half an hour to present the case for the Maritime Provinces today. At the close, C. P. Dunbar, past president of the Board of Trade, expressed the club's appreciation of the message.

He said he was from Ontario and as a boy and young man had never learned anything about the problems of the Maritimes, but got the idea that they were rather addicted to sending able men to Ottawa to get as much for them as possible.

Promises Support.

He said I could assure our people that in the matter of building up our own ports, Kamloops was with us not only in relation to our Pacific but to our Atlantic ports.

He spoke very strongly on the importance of all parts of the Dominion getting together and said the Maritimes made no mistake in sending a mission to the west—nor should they be content with one.

The secretary of the Board of Trade told me the board would undoubtedly honor a request to pass a resolution urging that the British preference be confined to goods imported through our own ports.

After luncheon several leading business men expressed to me their deep interest in my message. The speaker of the day, Dr. Archibald, was to have spoken on Joseph Howe, but was unable to be present and I was, therefore, able to bring Joseph Howe up to date and ask what he would say if he were speaking for the Maritime Provinces today.

"When the next spokesman came," said one Rotarian, "be sure that he comes to Kamloops for we are very deeply interested."

WASHINGTON, Feb. 26.—By a vote of 5 to 1, the House of Representatives military aircraft committee has reversed its decision of last Saturday and decided to reopen hearings next Thursday.

Just Before Entraining at St. John for Ottawa

The above photograph, taken at the Union depot yesterday afternoon, shows some of the delegates from St. John who left on a special C. P. R. train to join those from other parts of Canada at Ottawa today, where they made request that the Government do all in its power to promote an all-Canadian transportation policy in this country.

In the photograph above taken yesterday at the Union depot before the departure of the St. John delegates to Ottawa some well known citizens can be distinguished. Among them are Councillor William Golding, Lieut.-Col. W. C. Good, J. C. Chesley, John K. Kelly, P. D. McAvity, L. A. Titus, Alexander Christie, Commissioner B. Ullock, Commissioner Harding and W. G. Estabrooks.

Western Cities Represented

WINNIPEG, Feb. 25.—Owing to insufficient notice being given to the Boards of Trade and other interested bodies, only two western cities, Moose Jaw and Vancouver, will be represented on the "Canadian trade through Canadian ports" delegation which will interview Premier Mackenzie King and members of the federal cabinet at Ottawa tomorrow.

E. N. Hopkins, Progressive, M. P., Moose Jaw, will represent the Board of Trade of that city, while J. B. Thompson, past president of the Vancouver Board of Trade, will represent Vancouver.

SAYS WEST BACKS PREFERENCE LIMIT

EDMONTON, Alta., Feb. 25.—Commenting editorially upon the proposal to be made to the Federal Government on Thursday that the British preference should be restricted to goods entering Canada by Canadian ports, the Journal says editorially today:

"Such a request assumes reasonably and fairly that trade that is benefited by a direct preference in this way should be willing to use the channels of traffic that will be most helpful to the improvement of its own transportation services and the strengthening of business relations with the Mother Country. There is everything to be said in favor of such a policy and the west is in sympathy with it."

NEW LABOR HEAD URGES FIGHT ON PAY REDUCTION

President Green of American Federation, Makes Announcement of Policy

WASHINGTON, Feb. 26.—Wages must not be reduced! Workers must fight every move toward reduction, William Green, president of the American Federation of Labor, said today.

FIRST BATTLE IN NEW ENGLAND MILLS

Cites Textile Situation and Warns Against Attempts in Other Industries.

By HERBERT LITTLE.

United Press Staff Correspondent.

WASHINGTON, Feb. 26.—Wages must not be reduced! Workers must fight every move toward reduction, William Green, president of the American Federation of Labor, said today.

Attacking "some of the important employers in the New England textile industry who are engaged in an attempt to cut wages," Green, in an interview, warned against similar attempts in other industries and declared that the wages of all workers depended upon the success of the employers in the first move.

Down the Line.

"Workers must fight every attempt to reduce wages; if the wages of carpenters are reduced, carpenters buy textiles, and the wages of textile workers are reduced," said Green. "Textile workers will have less money to buy commodities produced by other industries; they eat poorer food; they make the old shoes last longer, burn less coal or no coal at all. So it goes, and every reduction of wages, the longer run, increases unemployment."

"Unemployment has steadily receded before the advance of the trade union movement, which has reduced hours of labor, raised the rates of pay, fostered the development of machinery and taught the workers to demand and get better conditions and higher standards of living."

Unions work constructively for the good of mankind by obtaining wage increases for workers, Green said.

Reductions vs. Increases.

"To large extent the history of misery and despondency is written in the record of wage reduction," he said. "To a much greater extent the record of happiness, well-being, prosperity and growing civilization is written in wage increases. Just a few months ago the U. S. Steel Corporation raised wages. The reason doesn't matter much. The fact is human happiness."

"Humanity was given a fairer chance when the carpenters' union, years ago, stood out from the ranks and demanded and got the eight-hour day. The United Mine Workers took the breaker boys out of the mines and gave slaves a chance to become men. The International Typographical Union has saved thousands of lives by the regulations it has induced employers to accept."

"How feeble and ignoble a contribution it is when employers come offering reductions of wages!"

"It has not yet been thoroughly learned that the industrial department reduces wages hurts every other industry."

"Today it is the textile workers who are being attacked. Tomorrow it may be some one else. If employers in the stand and fight. If employers in the textile industry can reduce wages, then other employers, equally foolish, will attempt the same ploy."

"Experts have been predicting a prosperous year; everybody hopes it will be; but 1925 is going to be a good year only on condition that the industrial world recognizes the rights of the workers to fair wages."

GRIM DAYS AT PAARDEBERG RECALLED BY ST. JOHN MEN

This Is 25th Anniversary of Crushing Defeat of And Surrender by Conge In The Boer War

CANADIANS IN FOREFRONT OF COMBAT

Veterans Celebrate In Montreal—General Otter's Story of Battle Re-Told—Names of St. John Men Who Fought The Boers In 1900

TWENTY-FIVE years ago tomorrow, the series of actions called Paardeberg in the South African war culminated in a crushing defeat for the Boers and on that day Cronje surrendered.

The Canadian forces under command of Colonel, now Major-General Sir William Otter, K. C. B., took a prominent part in the Paardeberg fight and several local men were through it.

General Otter's Report

"The Battalion arrived near Paardeberg Drift with the 19th Brigade at 6 a.m. Feb. 18, 1900, having formed the rear guard in the brigade in its march during the night from Klip Drift, a distance of 22 miles.

Crossing Made

"Hardly had the battalion reached the place designated than it was ordered to move to the drift and cross the river. This was done and the crossing began at about 8:30 a.m. The current ran 9 miles an hour while the water was sufficiently deep to reach up to the men's armpits.

Intense Fire

"The fire of the enemy from their concealed and entrenched positions was intense. To rush their positions over a level and unsheltered ground was not possible.

Rested Several Days

"Until the 26th the battalion had a rest. At 10 p.m. on that evening the Canadians were advanced to trenches along the river with a small party of 30 engineers on their right on the river with the wagons about 1,000 yards in the rear.

Cronje Surrenders

"On receiving the enemy's fire, the line at once lay down and returned it while the rear rank began to entrench. 'Daylight found A. and H. companies well entrenched with the Royal Engineers still pushing the work on.

"My Fee is 25c"

If you were examined physically, your trouble diagnosed as a Grippy Cold, Bronchial Cold, Sore Throat, Croup or Chills, a prescription written and the announcement made "my fee is 25 cents, you would wonder if you had heard aright.

Yet you are buying a doctor's prescription when you buy a 25 or 50 cent bottle of Johnson's Anodyne Liniment for the treatment of any of the ills above mentioned—and in addition this wonderful old preparation has a record of over 100 years of success.

Johnson's Anodyne Liniment is for internal and external use and its leadership as the most valuable of all family remedies has been established and maintained since the year 1810.

Your doctor advises internal cleanliness

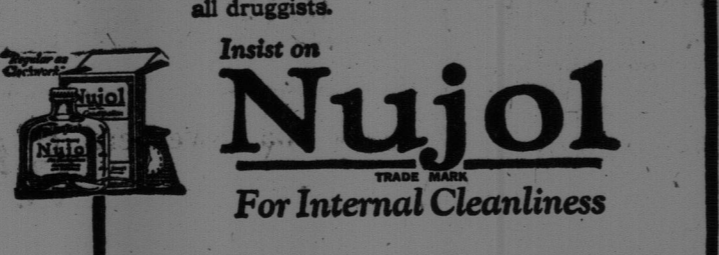

HE WILL tell you that the first results of constipation—headache, sleepless nights, biliousness, backache, etc.—warn that the body is flooded with intestinal poisons.

Laxatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition and often lead to permanent injury.

Why Physicians Favour Lubrication Medical science has found at last in Lubrication a means of overcoming constipation.

Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. For sale by all druggists.

TILING CONTRACT FOR THE HOSPITAL

St. John Firm is to do The Work/at Price of \$4,700.

A \$4,700 contract for tiling in the General Public Hospital has been awarded to the W. Nonnenman Tiling Company, of St. John, and the necessary tiles will be ordered immediately and the work of laying will probably be commenced in about five or six weeks.

The floor of the out-patient department was at first covered with linoleum which proved entirely unsatisfactory, and broke off in large pieces. The contractors refunded the money expended on the linoleum and it was decided to put tiles in its place.

French Grey Tile. A one-inch hexagonal tile in French grey has been chosen for the out-patient department floor and as a finish a sanitary base of white tile will be placed along the walls to meet the tiles.

In Sterilizing Room. The same tiles as will be used on the walls and ceiling of the sterilizing room will be used on the walls of the kitchen, where paint and enamel have proved quite unsuitable.

Mr. and Mrs. A. O. Patruquin entertained the members of the Young People's Society of the Church of the Good Shepherd in Fairville at his home in the Manawagonish road on Tuesday evening. About 35 were present.

How Canada Benefits from Canadian Pacific Financing

ONE reason why Canadian Pacific traffic charges are low is that its capital charges are low.

Surplus earnings have been reinvested for betterments and improvements without being capitalized.

Surpluses of \$31 per share of all its common stock have gone back into the railway, a total of \$80,600,000.

This was a contribution, without interest, by the shareholders, otherwise the Company would have been forced to borrow this amount, thus adding to its bonded debt and permanently increasing its capital charges.

In addition to this the shareholders have contributed as premiums on the purchase of shares the sum of \$31,200,000, equal to \$12 per share on the whole common stock, which has been similarly employed, and costs neither the Company nor the public one dollar in capital charges.

If other amounts similarly appropriated were added to the surpluses and premiums, an increase of not less than \$240,000,000 might properly be made in the capital of the Company, the interest on which would form a permanent charge on the Company's traffic.

The Canadian public has profited by the Company's expenditure of \$68,000,000 for immigration, settlement and irrigation projects.

Moreover, the Canadian Pacific is the largest individual taxpayer in Canada. Its contribution in taxes to the public treasury in a period of only five years (1919 to 1923, inclusive) being \$31,666,000.

Thus the Canadian Pacific, which directly and indirectly has been the greatest force in building up the country, has cost Canada nothing. The Canadian Pacific is in the widest and truest sense a national institution, in the success and progress of which every citizen has a direct interest.

GIRL RESCUED FROM BLAZE IN KING ST. STORE

Myrtle Phippin Carried Down Ladder by Police Constable

ROSS DRUG COMPANY SUFFERS FROM FIRE

Girl and Policeman Are Injured by Shattered Glass During Blaze.

With seething flames cutting off all chance of escape through the regular exits Miss Myrtle Phippin, a stenographer with the Ross Drug Co. Ltd., was trapped in the first floor of the store building in King street yesterday afternoon when fire damaged the building and stock to the extent of \$8,000, and was compelled to beat the glass out of two window sashes with her bare hands before Police Constable Walter Coughlan was able to assist her down a ladder to safety.

Fire Discovered.

The fire was first discovered on the outside by Elmer Ingraham and a messenger boy, who were walking along Charlotte street and noticed the flames bursting through a rear window in the alley. They alerted Police Constable Coughlan, who with Traffic Officer Andrew Duffy, were at the corner of King and Charlotte streets. Constable Coughlan immediately sent in an alarm from box 73 and then hastened to the burning building and joined Constable Duffy. Detective Biddis Chamberlain. It was then learned that Miss Phippin was entrapped on the first floor. Customers and clerks hurried from the store on the ground floor and there were cries from the clerks to help the girl upstairs.

Girl at Window.

Looking up, those on the sidewalk could see Miss Phippin at the first store window pounding her hands against the glass. Detective Biddis Chamberlain, with Constable Duffy, Messrs. Ingraham and Chamberlain hastened through the drug store and up a narrow staircase to the first store for the purpose of rescuing the young woman. But on opening a door they were driven back by a burst of flame and smoke. This was the only exit from the floor. By this time the fire department apparatus had arrived. An extension ladder was raised to the window and only a few moments before the ladder was rested on the window sill Miss Phippin smashed the glass of the inside window and also that of the outside sash and had her head protruding through the broken window to obtain air. She then crawled out of the window and Constable Coughlan who went up the ladder assisted the almost frantic young woman to the street.

Cut By Glass.

When coming through the window a sharp piece of glass sticking from the side of the sash cut a severe gash in Miss Phippin's right shoulder and as she was descending the ladder the blood could be seen flowing from the wound. About the same time a piece of falling glass cut a bad wound on the back of Constable Coughlan's right hand. As soon as she was safely landed on the sidewalk, Miss Phippin was conveyed to the residence of Mr. and Mrs. Walter H. Golding, 36 Sydney street, where she resides. Dr. Stanley H. Calnek was summoned and found it necessary to use several stitches to close the wound.

At Typewriter.

When seen after her terrible experience, Miss Phippin said that she had been working on the typewriter and was quite unaware of the dangerous fire raging in the rear which sounded like some person folding heavy paper. As the noise continued she went to the rear to investigate and when she opened a door she was met by a burst of flame and smoke. So heavy was the smoke that Miss Phippin inhaled some

and was so overcome that she almost fell to the floor.

Closes Safe Door.

Seeing that she was cut off from the stairway, which was the only exit, she staggered towards the desk, shut the door of the safe and then went to the front window. The room was rapidly filling with smoke. She pounded her hands on the window pane and called for people to send in an alarm.

Miss Phippin said that she could see people on the sidewalk looking up at her but taking no notice of her gestures, being unaware of the danger that she was in. It was then, that through clear desperation that she smashed the panes of glass with her hands and put her head through the opening to obtain some air. In a few minutes a piece of fire apparatus had arrived, the ladder was placed to the window and she was saved.

Miss Phippin said that during the time she was standing at the window trying to escape, the heat from the burning stock room was so severe that she was almost certain that her clothing was on fire. She was so overcome that she was forced to use her hands. In addition to a severe cut on the shoulder, Miss Phippin is suffering from shock and excitement and will be confined to her home for a few days.

The building and contents are owned by the Ross Drug Company, Ltd., and the loss is estimated at about \$8,000 and fully covered by insurance. The manager of the company, Lewis A. Titus, had left the city on the special train as one of the delegates to Ottawa. He was caught at McAdam Junction by telegram and returned to the city on the late express last night.

E. W. Muir, of Woodstock, who is president of the company, has been notified and will arrive in the city this morning.

The fire was well handled by Acting Chief Thompson and was under control and entirely out within an hour.

CONDUCT SERVICE FOR DEAD PASTOR

Four Ministers Take Part in Memorial Ceremony in Albert.

HOPEWELL HILL, Feb. 25—The sudden death of Rev. E. Ramsey, who was seized with cerebral haemorrhage on Sunday while conducting service at Harvey and passed away soon afterwards, has cast a gloom over the community. A solemn service was held in the Methodist church at Albert Monday evening as a last tribute of love and respect for the devoted pastor. The united choirs of the Baptist and Methodist churches of Albert led the singing with Alonzo Stiles as organist. Rev. Mr. Payzant, Rev. Charles Stebbings, of Albert, and Rev. Mr. Bell and Rev. Mr. Gough, of Hillsboro, took part in the service. Mr. Gough gave the address. Rev. Charles Stebbings, Preston Ramsey, the son, and Mrs. Ramsey, the widow of the dead pastor, accompanied the body to Sackville Tuesday where burial took place.

SOUTHERN MIGRATION OF BIG LEAGUE TEAMS SPEEDED UP TODAY

CHICAGO CUBS AWAY TO START EARLY TRAINING

Manager Killifer Plans First Workout Next Monday

NEW YORK, Feb. 26.—The southern migration from big league cities was speeded up today and several of the squads which are already limbering up at the training camps were augmented by new arrivals while others were en route.

Seventeen of the Cubs, several officials, newspaper men and guests, made up a party which left Chicago today for Catalina Island. Others are to join the train en route.

The Yankees squad at St. Petersburg, Fla., had increased to eleven today with the arrival of Monroe Schwartz, pitcher from Atlanta. Martin Aubrey, a rookie from the Pittsburgh Eastern League team, was his head in stopping a batted ball yesterday and was resting today.

Rookies Work Out. The recent pitchers had another workout today at the Giants' camp at Saratoga. Art Nehf, Bill Ryan and Dick Scott worked with the rookies yesterday. Frank Frisch, captain and second baseman, is reported ready to sign his contract now that Manager McGraw has arrived on the scene.

The St. Louis Cardinals are hard at work at Stockton, Calif. They played their first exhibition game against Sacramento on Saturday and Sunday. At Tarpon Springs, Fla., the Browns and their first workout this morning. Reports from Fort Myers, Fla., say the Philadelphia Athletics are advancing so rapidly in their training there that starting today Manager Mack ordered only one workout daily.

TAKES BAD BEATING

Hugh Walker is Outclassed by Ad Stone in 10 Round Bout.

MIAMI, Fla., Feb. 26.—Ad Stone, Philadelphia light heavyweight, decisively outpointed Hugh Walker of Kansas City in their ten round bout here last night. Stone administered a terrific beating to his opponent, but was unable to knock him out. Stone weighed 175 pounds, and Walker 174.

Spavined Nag's Mid Section Bends When Babe Ruth Goes For Joy Ride

Along the Sport Trail

By RAY HANSEN

ACCORDING to advices from Spain football is supplanting the famous bull fights, the former attracting large crowds while the latter shows a marked decrease. It may be that the famous matadors, toreadors and picadors are losing their grip or the bulls lack the "pep" of their ancestors.

IF TEX RICKARD'S plans materialize he will stage many stellar boxing attractions during the coming outdoor season. He is confident that he can match Dempsey with Wills or Gibbons, McTigue vs. Berlenbach, Mickey Walker vs. Greb and Kaplan vs. Mascart. Dempsey is undoubtedly the greatest attraction and a bout with either Wills or Gibbons would pack any park. Berlenbach, the former wrestler, is also a great favorite in the light heavyweight class and is one of the biggest drawing cards to be developed in years.

ALTHOUGH Mile. Lengien recently returned to the tennis courts with apparently all of her old power and skill it has developed that she is not as strong as formerly and experts have expressed a fear that she will never again attain former heights. Judging from reports, which have been coming from France for the last couple of years, it is only a matter of time before she must step down from her exalted position and make room for a younger and more robust player.

THERE WAS a report in circulation yesterday that Clarence "Quip" Moore was to be given a tryout with Worcester of the Eastern League. When asked about the report the former Vet star said there was no truth in it. Local baseball fans would like to see Moore get a chance to show his wares.

Red Stuart's Spectacular Dash Won Game For Boston Bruins

A red streak breezed up the Arena ice at 10:10 Tuesday night and deposited the rubber in the twine, says Red Hoey in the Boston Post. It was Red Stuart finishing a spectacular dash for the goal which broke the one all tie between the Boston Bruins and Montreal and the locals won another game, 2 to 1, in the National Hockey League series, but not until the game had gone into nearly three minutes of overtime play.

Stuart timed his dash beautifully. The teams were taking occasional excursions into each other's territory seeking an opening. Stuart was not expected to furnish the deciding punch. Yet he grabbed the puck at mid rink, weaved over to the left, drew both Dutch Cain and Gerald Munro with him, then he jumped around the two.

CHAMPIONSHIP MEET IS POSTPONED TILL FRIDAY

The New Brunswick skating championship meet, which was to have been held in the Victoria Rink tonight, has been postponed until tomorrow night, according to an official announcement given out this morning by the committee in charge.

Despite the mild weather, the ice remained firm during the night, but this morning water covered the surface and a meeting of the committee of the North End Amateur Athletic Association, under whose auspices the championships are being conducted, was called to decide on definite action.

BIG BAMBINO NEARLY BREAKS HORSE'S BACK

Wise Animal Feels Its Spinal Column Cracking and Quits

HOT SPRINGS, Ark., Feb. 26.—Babe Ruth is not one of the four horse-men. He is all four of 'em.

Take this from no less an authority than Nebuchadnezzar, a lean, hungry and spavined nag whose life isn't being exactly prolonged by the flock of inexperienced horseback riders it has to lug around the foothills of the Ozarks every day. And thereby hangs a tale—a bangtail, in fact.

Outfit Arrives. Babe ordered one of those spiffy collegiate riding outfits a few weeks back. Every day since he has called up his local liveryman to find out if the duds had arrived.

Looked Like a Horse. "Bring on plenty of horses," roared Babe, and in no time an attendant trotted forth an animal that answered the general description of a horse. It had four legs, a pair of ears and a long snout. It was a horse all right.

Babe advanced and gave the counter-sign. The horse, which eventually turned out to be a most intelligent beast, gave Babe a quizzical look and started to tremble all over.

The Babe smiled. As he did, the poor, weary beast sagged in the middle, but gamely kept together. Steve O'Neill, in a golfing costume, mounted another nag. The two horsemen then set out in the direction of the hills. Four blocks out, Nebuchadnezzar emitted a pitiful whinny and then deliberately knelt down on its front knees. There was nothing for Babe to do but slide off. Fate, he Babed to do the nearest telephone and called up the riding academy.

"Send me out a horse!" roared Babe. "Why, what's the matter with the one we sent you?" asked the professor of cantering, who happened to be the only faculty member present at the time.

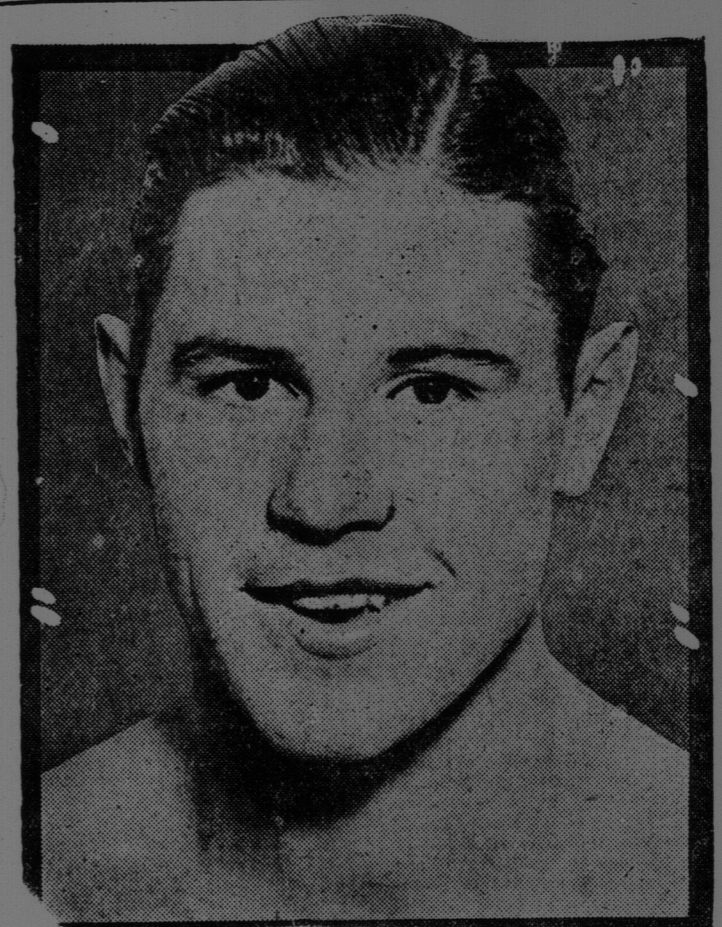

Sends Belgian Dray. "I don't know what's the matter with him," replied Babe, "but send me out one that doesn't bend in the middle." A Belgian dray horse was dispatched to the big Bambino and he proceeded to dedicate his new riding toys in perfect bliss.

Urban Shocker is ten pounds underweight and has a severe cold. His doctor has advised him to discontinue the hot baths and all strenuous exercise during the best of his stay here.

Sad Sam Jones, of the Yankees, and Steve O'Neill, formerly of Philadelphia, but now with the Minneapolis club, have joined the Cleveland players in their workouts.

MALONEY VS. ROMERO. BOSTON, Feb. 26.—Jim Maloney, South Boston's 22-year-old heavy-weight, and Quintin Romero, Chilean champion, are to meet in a 10-round battle here tonight.

Slattery Climbs Notch

JIMMY SLATTERY. This youthful Buffalo boy sta led the fistic multitude by handing a beating to the highly touted Jack elaney, conserator of Paul Berlenbach and Tiger Flowers, in New York i e other night. Delaney had been picked to win but Slattery upset the dose by decisively outpointing his opponent in the major portion of the bout. The victory obviously stamps Slattery as a dangerous contender in the 160-pound class and upwards.

ARRANGING FOR BIG HOCKEY MATCH

New Glasgow Team Will Bring Strong Line-up to Meet St. Johns.

According to prediction the weather will be more favorable tomorrow, and the management of the St. John hockey team is going ahead completing arrangements for the invasion of the fast New Glasgow team. If the weather man makes good his promise, a fast sheet of ice will await the teams at the Arena.

Word was received this morning from the New Glasgow team saying that they will bring their strongest lineup for the big game against the St. Johns. They also sent the numbers of their players so that local fans will know who the different players are as they appear on the ice. The list follows: Bubar (1), MacDougall (2), Nicholson (3), McKay (4), Williams (5), McLeod (6), Chisholm (7), MacCaron (8).

The St. John team will be out in force to endeavor to defeat the 1924 Nova Scotia champions, and with Bidlake in goal it is anticipated that it will be a "battling royal." If the attendance warrants, other feature games will be booked.

JOHN ROGERSON IS DEAD AFTER BRIEF ILLNESS

Noted Carver Made Figureheads in Old Ship-ping Days

WITHIN FEW WEEKS OF 88TH BIRTHDAY

Skill Shown in Decorative Work at St. David's Church.

Within a few weeks of being 88 years of age, John Rogerson, famed as a wood carver and whose figureheads adorned many a fast St. John sailing vessel in the old days, died at 2.30 o'clock this morning at his home in Carleton street. He had enjoyed good health, and had been ill only since last Saturday.

Born in Scotland.

Mr. Rogerson was born in Rochmaben, Dumfriesshire, Scotland, on April 2, 1837, and with his mother and brothers came to St. John in June, 1848. His father had preceded the family to Canada and Rogerson's skill as a carver won for him a widespread fame, and for many years he followed his trade as a carver of the figureheads and trimmings of the wooden vessels which were built in St. John and as a designer and maker of the hanging signs which used to mark the places of business of the important city firms. His work was in great demand, and he and his partner, John Cochrane, could hardly keep up with the demand for their work.

Some of His Work.

St. Andrew's Society possesses a very handsome carved chair, which is an excellent sample of Mr. Rogerson's work, and the beautiful carving in St. David's church, was his gift. He had carved the woodwork for the second St. David's church, and after that church was destroyed he did the carving for the present edifice, devoting many days and months of painstaking labor to that self-imposed task.

One of the most recent pieces of carving which Mr. Rogerson completed was a panel of the Queen Margaret instructing King Malcolm in the Holy Scripture. This piece, which is made for the members of his family, is among his best works.

Sterling Qualities.

Mr. Rogerson had been one of the most widely known of St. John citizens and one of the most highly regarded. He possessed the sterling qualities of the Scotch character—integrity, industry, deep religious fervor and kindly feeling. He retained his memory and his faculties to a remarkable degree and during the last few months had been engaged in writing some of his recollections of the early days in St. John. He was able to give an accurate account of the wooden ships of the city and of the world-famous port. He knew them all and had made the figureheads for very many of them. He could recall the pioneers of the city and tell of its development up to the present time. In later life he was in the Customs service here.

Mr. Rogerson was an elder of St. David's church and one of its oldest members. He had worshipped in each of the three church buildings. He was the third oldest member of St. Andrew's Society. On June 18, 1863, he was married in St. David's church to Miss Jean McKay, who died many years ago. Three daughters survive, Mrs. J. E. Hurst, of 294 Davis avenue, Mrs. Anne, who is Mrs. McAdams of Brooklyn, N. Y., and Miss Helen, of the Western Union staff in St. John.

In addition to his three daughters, Mr. Rogerson left a brother, William, in Toronto. The arrangements for the funeral had not been completed this afternoon.

Winnipeg Considers Taking Over Tramway

WINNIPEG, Man., Feb. 26.—The City Council has appointed a committee to investigate the question of taking over the Winnipeg Electric Railway, whose franchise expires in 1927, and to report to the council on submission of a money-by-law at the next city election.

ASSISTED AT CONCERT

Among those taking part in the concert in the First Presbyterian church, West St. John, on Tuesday night, were Alexander Crandall who gave a bagpipe solo, and Miss Marguerite Baughers and Rev. J. Marchionni who sang solos.

Her Troubles Quickly Disappeared

QUEBEC LADY TELLS OF BENEFITS DERIVED FROM DODD'S KIDNEY PILLS.

She Advises All Persons Who Suffer From Diabetes and Kidney Trouble to Use Them.

Herbertville, Que., Feb. 25.—(Special)—"I have found your Dodd's Kidney Pills excellent. For ten years I have suffered from diabetes and pains in my kidneys. I have consulted many doctors. I have had their treatments without result. They told me my case was incurable. I had heard of Dodd's Kidney Pills and I decided to give them a trial. I took several boxes and my health seemed to improve. I continued taking them and today I am quite well. I can eat anything I wish. I always keep a box of Dodd's Kidney Pills in the house and if my kidney trouble reappears I take a few and the trouble disappears. If anyone suffers from diabetes or had kidney trouble they should take Dodd's Kidney Pills."

This statement is sent to use by D. E. Guay of this place.

Dodd's Kidney Pills will relieve kidney trouble no matter where or in what form it is found.

Marjorie Daw to Ask for Divorce

Movie Actress Declares She and Sutherland Couldn't Get Along.

HOLLYWOOD, Feb. 26.—Marjorie Daw, motion picture actress, has returned from New York with the announced purpose of filing a divorce suit in the Los Angeles County Superior Court against her director-husband, Eddie Sutherland.

"We simply could not get along," she explained. "I do not think he will contest the suit."

Marjorie Daw's marriage to Edward Sutherland was hailed as a Hollywood romance. Miss Daw was then 17 years of age. Her real name was Marjorie House. She recently finished a picture called "The One Way Street." Her husband directed Thomas Meighan in "Coming Through."

Mr. Sutherland was killed recently one of Charlie Chaplin's assistant directors.

Film Fashions

IRENE RICH, Warner Bros. star, has created something new—a charming bit of a trick that gives her costumes an added dash of sauciness and demureness at the same time. She has received many flattering comments on the novel addition to her frocks, that she stands somewhat in the position of having started a new "fad."

Miss Rich has had pockets put into the left sleeves of her different street and tailored costumes, and stuck therein a tiny kerchief. These kerchiefs are in various colored French lace handkerchiefs to light up an otherwise sedate or subdued frock.

The result is utterly chic and entirely unexpected. The pocket is located about three or four inches below the elbow, being a tailored pocket, and is caught into a narrow little band at the wrist. Miss Rich uses the insert pocket with a brilliant batik or Russian colored kerchief peeping forth very saucily.

In the tight-fitting sleeve that hugs the arm and outlines its curving lines, Miss Rich introduces a very interesting note by having the pocket put right on the cuff.

Film Stars Engage In Real Romance

Just before Christmas Robert Agnew refused all film offers and engaged to be a vacation jaunt, but it now transpires that the young actor's one and only destination was Rome, Italy and the Metro-Goldwyn studios where May McAvoy was playing Esther in "Ben-Hur."

Bobby and May have been much together—both on and off the screen—and after May left Hollywood Bobby was disappointed.

Incidentally, both Miss McAvoy and Mr. Agnew are now back and the picture colony is expecting their engagement announcement any day.

FARMERS HAVE NEW PROJECT RE MILK FOR CITY

Pool Supplies and Have Dealers Buy Through One Man

MAKE 50c. LOWEST FOR EIGHT QUARTS

Matter Being Taken Up This Afternoon at Norton Meeting

Something new in the milk business was forecast this morning, an arrangement whereby the producers would purchase from one man instead of from the individual farmers as at present. The Times-Star was informed that the project was to be taken up at a meeting of Kings County farmers in Norton this afternoon. Also it was said that at least 50 cents for an eight quart can, F. O. B. at shipping point, was being put forward. It was said that Clarence Hayes, of Apohaqui was named as likely to be appointed if it was decided to pool the supplies.

Says 90 P. C. Agree. It was reported that several meetings have been held along the line recently and that N. W. Eveleigh of Sussex, president of the Kings County Milk and Cream Producers Association, accompanied by Mr. Hayes, has been working along these lines. A contract pledging the farmer to ship his milk only through one man had been circulated and it was said by Mr. Eveleigh today that it was signed by 90% of the shippers and he added that they controlled approximately 1,500 cans.

The farmers, if it was finally decided this afternoon to go ahead with the project, would pay a certain amount to the man through whom they would not only conduct all negotiations with the dealers but also would travel daily on the train to look after the milk and see that the empty cans going out, the latter being an old source of trouble. Asked about a report current here that these in the arrangement wished to ship only to about two plants in St. John Mr. Eveleigh said that a few had suggested this but he felt confident that no such decision would be arrived at by the meeting.

Seeking the cause of the pool idea, a reporter from the Times-Star was told that the reasons were that cutting the price of milk to the producer in December followed the cut of three cents a quart in this city and further cuts since brought the price from the original 93 cents a can F. O. B. shipping point, as agreed to last September, to between 40 and 45 cents. When asked what would happen if the local dealers refused to accede to the demand for a least 50 cents a can Mr. Eveleigh said that drastic steps would certainly have to be taken although he refused to say definitely what these measures would be. Meanwhile much hinges on this afternoon's meeting at Norton.

Pythian Past Chancellors Are to Debate Matter - Carleton Tower Against Union.

The Past Chancellors' Association of the Knights of Pythias, a body organized about a year ago for social and fraternal purposes is undertaking to decide the question: "Resolved—That the automobile is of better service to man than the horse." This question will be fought out by debate in about a fortnight's time with Carleton Tower Lodge No. 37 taking one side and Union Lodge No. 2 contra. Already the past chancellors in their new formation have fallen into pleasant and easy habits, dining, smoking, listening to interesting lectures and now they have taken to debating.

Makes Complaint Re Milk to Mayor Mayor Potts this morning had in his office a quart bottle, half full of milk which had been brought to him as evidence that dirty milk was being sold by some one. A lady brought it in and said she did not get satisfaction when she had reported the matter to a health official. She asked if the citizens could not be protected and a clean supply of milk assured. The milk, she said, had been bought for a baby 18 months old and part of the quart had been given the child before the sediment in the bottom was noticed. The sediment in the bottom looked like coal dust and nearly covered the bottom of the bottle.

OPTIMISM MARKS CHURCH REPORTS Progress of New United Church at East St. John is Told of at Meeting.

Optimism was the keynote of the reports at a meeting of the United Church of East St. John, last evening in the church hall. Rev. W. J. Bevis, the pastor, presided and gave a report on the progress of the church since the last meeting, after his short report of a little more than three months. Lorne C. MacFarlane, secretary; George C. Elliot, treasurer; Raymond Miller, Sunday school secretary; Mrs. J. W. Flewelling, Ladies' Aid secretary, and Miss Bernice Flewelling of the Girls' Club, gave reports bright with activity and full of practical suggestions.

Officials Chosen. The election of elders resulted as follows: Rev. W. R. Pepper, retired Methodist clergyman; M. J. Morrison, J. W. Flewelling and Alexander M. Magee. The stewards are A. J. Robertson, chairman; George C. Elliot, treasurer; Lorne C. MacFarlane, secretary; C. C. Weldon, Robert McAllister, Robert L. Magee and A. W. MacIntyre. The term elder is from the Presbyterian and steward from the Methodists, each sharing in the interchange of terms.

Organized in November. The church was organized early in November and the Sunday school was begun in the latter part of that month. Mrs. A. W. MacIntyre read the report for the latter, prepared by Raymond Miller. There are 76 members with an average attendance of 61 children and adults. The membership of the church numbers 41, and more will join next Sunday when the first communion service will be conducted by Rev. Mr. Bevis, assisted by Rev. W. R. Pepper.

Mrs. Flewelling said that the Ladies' Aid had accomplished wonders in the few weeks they had been working. Quilts had been made and many garments completed for charitable purposes. The Girls' Club had increased its membership and is holding very interesting meetings, so Miss Flewelling reported.

New Church Building. Mr. MacFarlane said in his secretarial report that the unity of feeling that prevailed was a reason for optimism. The spirit of co-operation among the various departments of the church's activities made the future endeavors an assured success. The church edifice will be started in the early spring, he reported.

The financial statement submitted by Mr. Elliot, was in accord with the other encouraging reports.

IS PREPARING REPORT ON WORK AT FALLS BRIDGE

Commissioner Frink Again Takes Up Diversion of Avenue Roadway

OVERHEAD BRIDGE AND PAVING WORK

Advices Getting Away From Dangers of Level Crossing There

Commissioner Frink said this morning that, in view of recent press despatches foreshadowing the dismissal of the appeal of the Province of New Brunswick from the decision of the Supreme Court of Canada re the C. P. R. bridge over the reversing falls, he was preparing a report to the council in connection with the completion of the roadway to the bridge.

He said his report would contain an estimate of the cost of diverting the roadway and of an overhead bridge at the falls, and also an estimate of the cost of extending the present pavement to the bridge on the present level.

When the bridge was first built the city applied to the Board of Railway Commissioners for a grade separation at this point, and this was granted. They apportioned the cost among the C. P. R., City of St. John and the N. B. Power Company, in the proportion of 50 per cent. to the C. P. R. and 25 per cent. each to the city and Power Company.

Owing to the numerous appeals in this case the Board of Railway Commissioners has set forward the time of beginning the work from time to time, and another extension of time for completion will have to be granted if the work is proceeded with.

An estimate of \$110,000 of the cost of the overhead bridge was made by G. G. Hare at the time the project was first mooted.

Commissioner's Views. The commissioner said if it was decided to go ahead with the grade separation, he thought it would be wise to get away from the dangers of a level crossing when there was a good opportunity, it would be necessary to cut some lots from H. G. Weekes, and he understood Mr. Weekes was willing to sell at a reasonable figure.

The road engineer will prepare a report on the cost of extending the present pavement at its existing level.

INQUIRY HERE INTO FIRE IN MAIL CAR

Report Goes to Ottawa—Clerks Busy With Damaged Mail.

An investigation into the causes of the fire that destroyed a considerable quantity of mail matter soon after the C. P. R. train from Montreal left St. Johns, P. Q., yesterday, was held this morning by H. W. Woods, district superintendent of postal services, at the local post office. Mr. Woods said afterwards that his report would be forwarded immediately to Ottawa for action, if any, by headquarters officials. Esmonde P. Barry and Arthur Melick, who were in charge of the car at the time, were present at the investigation.

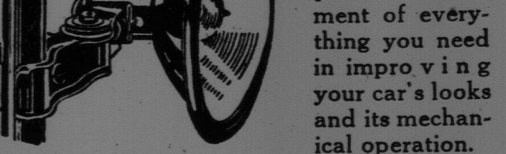

Deive Into Mail. This morning, employees of the post office were busily engaged in sorting and drying out the mail bags that were damaged. Good progress was made with the work and several business houses and citizens received letters and envelopes were badly burned at the edges. In addition, the water poured on the bags to quench the fire seeped through the tough canvas and added to the difficulties of sorting. Practically all classes of mail were damaged by the fire, including registered matter. Much of the mail was for points east of St. John, and this will be forwarded as quickly as possible.

They'll say to a feller from the east: "If you could stay here a little spell you'd never want to go east again." An' that's the way they feel about it—too. They're the greatest boosters fer their own place I ever seen. When I said that to one of 'em he says, "If I had to hear some reel downright braggin' you go down to Seattle or some of them there Yankee towns—the fellers that kin do the talkin'." I guess that's so—too. Well, sir—I'm beginnin' to think we need more of it down east. We say to a feller: "Do you think you'll like it here?" Out west they say: "Oh, I'm sure you'll just love it here—we all do." And that's the difference. You might phone Hamner an' tell 'er I haint got no holes in that carpet bag yet. She was afraid I'd hev an old sock or somethin' stickin' out afore I got west fer—but I'm doin' fine—yes, sir. HIRAM.
