BOOMING THE CANAL The promoters of the Georgian Bay Canal are circulating as part of their literature in behalf of the project the following extracts from an address by Senator Forster of Shediac, N. B., before the Canadian Club of Port William, March 30, 1908.

"We, from the Maritime Provinces, have enormous quantities of bituminous coal to export. None of that coal goes farther west than Montreal, where navigation closes upon us. From Ottawa to Fort William, both inclusive, all the coal that is consumed, and it amounts to about 5,000,000 tons annually, is bought in the United States, and imported into Ontario. Why is that, when for steam, gas and coke our Canadian coal is just as good and economical as the American soft coal? Simply because of the difference of cost of transportation. Give us the advantage of cheap rates and we will, probably to both you and us and the country, supply half at least of the 5,000,000 tons you require. Give us good navigation for boats of equal size from Sydney and Pictou to Fort William and you can be landed at your door for 85c. per ton, and possibly a little cheaper. This 85c. per ton will constitute the whole cost from Sydney to the farthest Canadian landing place. On the coal shipped from Cleveland, to the water rate of 35c. to 45c. per ton must be added the rail rate from Pennsylvania, 75c. more per ton, making it \$1.18 for the entire haul, or 33c. per ton more than the Nova Scotia coal. To this \$1.18 for freight, must be added the duty of 53c. per short ton. This will give a clear advantage of 86c. per ton to the Canadian article landed at your door. Therefore out of the 5,000,000 tons which Ontario today imports from the United States we can supply all the soft coal, that is, at least 3,000,000 tons. The money paid for the coal and for the hauling of it will all remain in Canada when the Georgian Bay waterway is in operation. These \$3,000,000, 500 or \$4,000,000 we pay today for purchasing three million tons of coal in Pennsylvania and \$3,000,000 or \$4,000,000 for conveying it to the Canadian works is clearly money lost to Canada—money exported abroad. Let us save every cent of it, and it will be so much added to our national wealth. This money saved will go to the credit of the canal, and will allow us, though indirectly, its annual charges."

On the stationery on which these extracts are copied is a map of the proposed canal from the Great Lakes to the Atlantic via the Ottawa deep waterway. Along with it comes an editorial from the Ottawa Journal, pointing out that the project has been before the country many years. "The Indians used the Ottawa route to the Huron country before the advent of Champlain." It is "the beeline by water." The Journal points out that it is remarked by the Maritime Mining Record that as long ago as the inauguration of the National Policy, which was in the seventies, Sir Charles Tupper held out the hope that by means of the duty Nova Scotia would be able to secure Ontario as a market for coal.

"The hopes have never been realized," says the Record, "wholly, it may be said, because of lack of transportation facilities. Coal cannot be sent to Ontario points without rehandling and re-shipment at Montreal, and these are fatal to the looks of Nova Scotia coal, and by looks chills are all coals commonly judged. The construction and operation of the Georgian Bay canal would enable Nova Scotia operators to send coal into the very heart of the Dominion. The government lately intimated that it could not proceed with the work at present for lack of funds. Sir Robert Perks, a great engineer, construction contractor, has, it is understood, offered to construct the canal with government encouragement. This should not be withheld. The boards of trade of the Ottawa Valley have taken action, and these should be backed up by all boards of trade in Nova Scotia. The Georgian Bay canal, with a sufficient depth of water, will probably prove of more value to Nova Scotia than the building of the G. T. P. Railway.

The secretary of the Canadian Federation of Boards of Trade and Municipalities, Mr. A. J. Forward, says the Journal publishes messages from municipal authorities and board of trade officials in a wide area. These messages express a unanimous approval of the project. From St. John (New Brunswick), Caledonia (Nova Scotia), Quebec, Three Rivers, Drummondville, Rouville, Lachute (Quebec), Bruce Mines, Bonfield, Clinton, Sudbury, Oshawa, Sault Ste. Marie, Haileybury, Fort William, Port Arthur, Kenora (Ontario), Neepawa, St. Boniface, Killarney (Manitoba), and Calgary (Alberta), come declarations of approval.

The projected Ottawa waterway is described in these messages as a national enterprise which must benefit the whole country. In the west the opinion is that it would bring about cheaper transportation of western products. In the east it is recognized as a plan having the possibilities of an immense development of trade through Canadian outlets. The United States Steel Corporation has found it necessary to prevent its workmen from visiting the saloons during the working day. When the great corporations find it necessary to enforce temperance on the part of their employees the charge that state or national prohibition is an infringement of personal liberty loses much of its force. Moreover, this action on the part of the corporations puts a premium on sobriety, and proves that the use of alcohol unites men for effective work. This presentation of the economic aspects of the drink habit should not be lost upon men. To be efficient and to succeed in life they must needs be sober.

The members of the new board of management of the I. C. R. are making a thorough inspection of the line and its facilities, and going carefully into all matters relating to traffic. They state their policy is one of economy. It may confidently be assumed that under their management the road will make a good financial showing, and it may be hoped that this will not be at the expense of any needed service. The Baptist ministers' conference in Chicago has decided by a large majority vote to expel from membership Prof. George B. Foster, whose books have so started those of the old ways of thinking on matters theological. Prof. Foster is a Canadian, and besides being a particularly independent thinker is a brilliant writer. That he retains membership in the conference is strong proof that the number of those who prefer a life to a dogma is increasing rapidly in the Baptist church of the United States. A regular train service has been inaugurated on the Grand Trunk Pacific from Winnipeg west for a distance of 599 miles. It will shortly be extended to Edmonton. We are told that among the passengers on the first train were a number of commercial travellers. Thus there is the beginning of a traffic which will grow with great rapidity as new towns spring up along the line. An inspector at the East St. Louis meat packing houses has resigned and declares that much meat is passed at the National Stock Yards there which is not fit for human food. He demands an investigation. If his charges are true the investigations in Chicago a year or two since failed to spur the government officials up to the performance of their duty. The Standard says the "Pugsley organs" are in "a frenzy of delight" because more dredging is to be done. On the contrary, the Standard is in a frenzy of wrath and disappointment because the dredging is to be done. The people, it may be observed, are well pleased that the interests of the port are being looked after as they never were under Conservative rule. A few years ago there was nearly a dollar difference between the price of Manitoba and Ontario flour. Today best Ontario is as high in this market as the Manitoba product. This is not a normal condition of the trade, and is not at all likely to continue. The news of heat prostrations in Boston remedies us to the rather cool breezes of the past day or two in St. John. OFFICERS ELECTED At a meeting of St. John Lodge, No. 30, K. of P. held last evening, the following officers were elected: H. F. Black—C. C. E. Burchell—V. C. A. Rourke—Prelate. L. D. Munroe—M. at A. A BAD SIGN

"Speaking of fresh eggs," said Mark Twain at a dinner table, "I remember the other day, I saw a man in the town of Squash, Vermont, who had a very peculiar habit of migrating to Germany in the winter months. He would migrate to Germany to pay a 20 tax in Germany for every pound of the income he enjoyed. There was a man called Banbury, who was a very peculiar fellow. He would migrate to Germany to save an extra cent. But when he got to Germany, he found out to his horror that he had to pay two dollars."

PROVINCIAL NEWS

New Brunswick Among the new houses to go up in Sackville this year will be one on Salem street to be built by Mr. Charles W. Favre.

The marriage is announced to take place in Sackville on Wednesday afternoon at half past six of Miss Winifred Babs, daughter of Mr. and Mrs. Merritt Babcock, of Alfred, N. B., and Mr. Albert Albert, of the home of the bride's parents, on Wednesday.

The Chatham World says: Douglas C. Finch and Game Protective Association, was up the Bartibogue, on Friday, and was favorably impressed with the sporting facilities that district.

At St. Margaret's, Thursday night, John Quinn and Matthew Rieley lost their houses and barns with all the contents by bush fire, and the highway bridge across the Bay du Vin River, on the Richibouctou road, was burned.

The old station house at Ivory Crossing was burned Thursday by forest fires. Scarlet fever is again epidemic in Newcastle, several new cases having occurred last week. The Board of Health has closed all the schools in the main part of the town, except the advanced grades of the Harkins Academy and the convent. Instructions are being given to citizens to at once clean up their premises.

James Hodge, Fredericton's oldest business man, is quite seriously ill at his home on Campbell street, in that city, and little hopes are entertained for his recovery. Mr. Hodge has reached the advanced age of 94 years.

Mr. George Jackson, superintendent of the Middlemore Home, Birmingham, England, who has been in Fredericton since Friday, has left on a trip through the river parishes, where he will visit children who have come out here from the home in past years.

To walk to Boston is rather a big undertaking, but this is what two young men started out to do yesterday morning when they had good love to Chief Rideout at the police station, Moncton. William Rogers, aged sixteen, and Bartholomew, also aged sixteen, are the names of the two lads who spent the night at the Moncton police station. They have no money and arrived in Moncton on Saturday from Bathurst and last night, having no place to go to, applied for protection at the police station. They said that they had recently come from Boston and were going to live with an aunt who lived in Bathurst, but on arrival there found their relative in rather poor circumstances so they started on the return journey. All the money they have is only enough to keep them from starving.

NEWS FROM FREDERICTON

Heavy Rains Quench Fires—C. R. Heads at the Capital.

Fredericton, N. B., June 14.—A heavy thunder storm which lasted upwards of half an hour passed over this city early this evening. It was accompanied by a downpour of rain, the first of the kind experienced in a week, excepting a light shower this morning. The country hereabout has been suffering greatly from the protracted drought and tonight's rain will do lots of good. It will also have a very beneficial effect on the forest fires which have destroyed so much forest land in central New Brunswick during the past ten days. Tonight's storm was general throughout this district and the afternoon there were heavy showers in the vicinity of Stanley.

Messrs. Butler, Tiffin and Brady, members of the Intercolonial board of management, arrived from St. John this evening in a private car attached to the regular train. They will meet members of the board of trade at 9 o'clock tomorrow morning for discussion of some proposed changes and improvements in the train service here. They are to take their departure by special train at noon for Chatham Junction en route to Montreal. This evening a delegation from the city council waited on the visitors and asked that steps be taken to have a reduction of the grade of the I. C. R. crossing near the Fredericton end of the railway bridge. A promise was given that the matter would be looked into.

The warehouse on Queen street belonging to Jas. Hodge was broken into Saturday night and a quantity of goods, including two boxes of cigars, stolen. The robbery is supposed to have been the work of boys. The police now are working on the case.

Levi Richardson, of St. Stephen, is visiting his daughter here, Mrs. Chas. D. Young. He celebrated his ninety-eighth birthday yesterday and attended service at the Methodist church. He is remarkably active for a man of his years.

Jas. Hodge, Fredericton's oldest merchant, now in his ninety-fourth year, is seriously ill and not expected to recover. S. B. Hatheway, of Kingsclear, has purchased F. D. Clements' herd of twenty-five milch cows and intends engaging extensively in dairying.

The police authorities have not yet taken action under the recent decision of the supreme court and restored to the I. C. R. freight shed the liquor illegally seized in December. Col. Marsh, when interviewed in regard to this case, in prospect of appealing the case, said that nothing had been decided upon. It is unlikely that the city will incur further expense in regard to the case. Judge McKeown arrived here this evening and will preside at the opening of the circuit court tomorrow.

WOODSTOCK NEWS Woodstock, June 14.—Special.—The funeral of Michael McShaffrey, a well known resident of South Newbridge, who died on Friday of Tuberculosis, aged 50 years, leaving a widow and one daughter, Mrs. A. O. McKinney, of Woodstock, took place this morning after services in the Catholic church, the interment being in the cemetery in Woodstock. A slight shower last night and this morning put out the few forest fires in this neighborhood, but not sufficient fall to benefit the crops. Delegations from the town council and board of trade this morning met Mr. Garant, one of the proprietors of a large shoe firm in Quebec city and John Dickinson, who has recently been burnt out, and will report to a meeting of the board of trade to be held at nine o'clock this evening in the council chamber, the result of their deliberations, with a view toward the immediate erection of a new tannery at Lower Copner.

It was accompanied by a downpour of rain, the first of the kind experienced in a week, excepting a light shower this morning. The country hereabout has been suffering greatly from the protracted drought and tonight's rain will do lots of good. It will also have a very beneficial effect on the forest fires which have destroyed so much forest land in central New Brunswick during the past ten days. Tonight's storm was general throughout this district and the afternoon there were heavy showers in the vicinity of Stanley.

Messrs. Butler, Tiffin and Brady, members of the Intercolonial board of management, arrived from St. John this evening in a private car attached to the regular train. They will meet members of the board of trade at 9 o'clock tomorrow morning for discussion of some proposed changes and improvements in the train service here. They are to take their departure by special train at noon for Chatham Junction en route to Montreal. This evening a delegation from the city council waited on the visitors and asked that steps be taken to have a reduction of the grade of the I. C. R. crossing near the Fredericton end of the railway bridge. A promise was given that the matter would be looked into.

The warehouse on Queen street belonging to Jas. Hodge was broken into Saturday night and a quantity of goods, including two boxes of cigars, stolen. The robbery is supposed to have been the work of boys. The police now are working on the case.

Levi Richardson, of St. Stephen, is visiting his daughter here, Mrs. Chas. D. Young. He celebrated his ninety-eighth birthday yesterday and attended service at the Methodist church. He is remarkably active for a man of his years.

Jas. Hodge, Fredericton's oldest merchant, now in his ninety-fourth year, is seriously ill and not expected to recover. S. B. Hatheway, of Kingsclear, has purchased F. D. Clements' herd of twenty-five milch cows and intends engaging extensively in dairying.

The police authorities have not yet taken action under the recent decision of the supreme court and restored to the I. C. R. freight shed the liquor illegally seized in December. Col. Marsh, when interviewed in regard to this case, in prospect of appealing the case, said that nothing had been decided upon. It is unlikely that the city will incur further expense in regard to the case. Judge McKeown arrived here this evening and will preside at the opening of the circuit court tomorrow.

AN ORCHESTRA AT THE STAR TONIGHT

Over in the Star Theatre, North End, the people continue to enjoy excellent new pictures faultlessly shown, fine singing and bright novel music. The pictures include: "Henry III," historical; "An Apostle of Gaul," historical; "Found on the Rocks," dramatic and two very amusing comedies. At Weston's new song, "My Irish Maid," and the orchestra. If its a fine night, a car ride from the city will do you good; but take in this program.

DREGE DUG UP BODY

Sydney, N. S., June 14-While the government dredge Cape Breton was engaged in dredging at the east side of the Nova Scotia Steel & Coal Company's pier this morning, a man's body was scooped up from the bottom. The body was found to be missing, and the remainder of the body was badly decomposed. It is supposed to be the body of Daniel Boyd of Sydney, who disappeared from here last October. A brother of the deceased viewed the remains but identification was impossible.

DELEGATES HOME FROM GRAND MANAN

Proceedings of Baptist Seventh District Convention Meetings Held There - Good Reports. The Seventh District of the Maritime United Baptist church held its annual meeting in the church at Grand Harbor, Grand Manan, June 11 to 13. Thirteen churches were represented by five ministers and fifteen lay delegates. In addition, the foreign mission work was represented by Rev. V. V. Higgins, field secretary, and the education work by Rev. H. T. deWolf, D.D., principal of the Acadia Seminary at Wolfville. Reports were received from twenty-two churches showing an addition of 107 in membership for the year, sixty-one by baptism, three by experience, and forty-three by letter. There were twelve ordained ministers and two licentiates at work in the district. The total value of church property was fixed at \$78,350. Money raised for all purposes during the year amounted to \$17,647. Thirty Sunday schools were reported having 2,070 scholars and 232 teachers and officers. The election of officers for the district for the coming year was held on Saturday, and resulted as follows: Chairman, Rev. A. F. Brown, Grand Harbor, Grand Manan; Vice-Chairman, Rev. E. E. Bishop, Fairville; Clerk-Treasurer, Rev. M. E. Fletcher, West St. John. The executive is to consist of D. C. Clark, H. Colby Smith, R. Hunter, Park Point de West St. John, and Rev. E. E. Bishop, Fairville, with the chairman and clerk of the district ex-officio. Friday evening was devoted to temperance work. Addresses were given by Rev. C. F. Sterling of Oak Bay, and John W. Brown of Grand Harbor.

HOLMES AND BUCHANAN "GO BIG" AT NICKEL

Especially Good Programme at Carleton Street Picture House Yesterday. The expected happened at the Nickel yesterday-Holmes and Buchanan made a sensational hit in the picture "I Was a Girl in a Taste of Effervescence Summer fun in tune and jangle. Later on in the week these excellent works will be shown in a new series of pictures which is now the rage of the States - caught on wonderfully and the continuing and stage setting of the piece added to its success. Miss Holmes made her entrance in the spotlight and upon the conclusion of the first verse, Buchanan as a Weary Willie was discovered lying on a park bench. He, too, "twisted had a sweetest," and upon his second entry as a clapper the die commenced. Miss Holmes' winsome mannerisms and the rich harmonies of the pair evoked triple and even four encores. It was a distinct hit; same song today at 3.15, 4.15 and three times in the evening.

GOT CHOWDER, MADE FUSS WAS NABBED BY POLICE

About 11 o'clock last night two men entered the restaurant of Mrs. McLaughlin at the corner of Water Street and Market square, and ordered a chowder. Their order was filled, but she says they began to kick up a row, claiming that the chowder was not good. Word was sent to the Water street lockup and Policemen Sullivan and Ross responded. One of the men was caught, but the other made good his escape. He was chased North wharf and Smythe street by Sullivan but was lost sight of in the darkness of that street and made good his escape. Later Policeman Sullivan met a man who bore some likeness to him but when he was taken to the restaurant Mrs. McLaughlin was unable to identify him as one of those who had made the trouble. The man who was arrested gave his name as Sweeney, belonging, he said, to Carleton. He spent the night in the Water street lockup.

Cranks who call on the President

Scarcely a month of the four years in office of a President of the United States passed that at least one crank, more or less mentally deranged, does not call at the White House to tell him exactly how the affairs of government should be managed...

Just as the cab started the Swede fired point-blank. The police department blotter in the District of Columbia shows the names of 87 arrests, since 1900, of men and women who visited the White House on a "special mission" to the President.

It may seem strange that but few of these cranks are from the District of Columbia but such is the case. Most of them come from New York and the New England States. St. Louis and Chicago, however, may be depended upon for their quota.

His enemies were pursuing him in ships.

block of stock he wanted the president to take, he begged the chief executive to compel the commissioner of patents to grant him a patent on his invention. An inventor, who did not believe in trusts, had a marvelous scheme to transport ice from the North Pole in order to force the ice kings into poverty and starvation.

"Drain the water off Old Point Comfort."

those precious thoughts with his life. When Alice Roosevelt's engagement to Representative Nicholas Longworth was announced a number of these unfortunate called at the White House to present the President various reasons why he should not allow the marriage to be consummated.

The Haviland returned to Boston last night, while the other tugs proceeded east with their tow, but later returned and anchored.

Halifax Echo, June 14:—With by far the largest cargo of sugar ever brought to Halifax between her voyages, the big British freighter Crown of Gallia, Captain Halliday arrived in port from Demerara on Saturday and is now discharging at Woodside. In all she has over 4,000 tons of sugar aboard, well as a considerable quantity of molasses. The steamer's cargo is made up as follows: sugar, 4,000 bags, 20 barrels and 15 barrels; molasses, 2,254 casks and 79 barrels. All of this cargo is to be discharged in Halifax and will load rails for Prince Rupert, B. C. This will be the second consignment of rails sent around the Horn from Sydney.

SULLIVAN WAS SET FREE TODAY

Man Charged With Cutting Patrolman Perry Allowed to Go by Sheriff Ritchie—Was Remanded, and Time Expired.

Dennis Sullivan was liberated from jail at noon today, but not through the usual channels. Sullivan was arrested on Thursday afternoon of last week for intoxication and on Mill street cut Patrolman Ira Perry on the stomach and neck with a pocket knife, and three charges were preferred against him, namely, intoxication, resistance and stabbing. On Friday morning the testimony of the officer was adduced and Sullivan was fined \$5 for two months for drunkenness, and remanded for resistance and stabbing, until the evidence of Dr. G. A. B. Addy, who dressed Perry's wound, could be obtained. It was the purpose to commit Sullivan for trial in the circuit court, which opened today, but this intention was reconsidered, and it was decided to commit him for the next sitting of the county court on July 1. The remand, which is valid for three days, became outlawed today, and Sullivan's friends obtained his release from Sheriff Ritchie, as to detain him longer would render the sheriff liable to action for false imprisonment. Sullivan therefore escapes through laxity from a probable term in the penitentiary or jail, and also from prosecution for resistance. It is understood that the commitment against Sullivan for intoxication was not issued, as it was not deemed necessary in view of a prospective sentence from the superior court. Otherwise he would have yet been in jail. J. A. Barry was the solicitor in the case.
