Ald. Coloman, McIntosh and Groat made a vigorous demand for the improving of the streets in the lower part of the town and not appropriate all the money in making a paradise of the park and water in the way of permitting logs for said county.

Will be made on the part of the Canadian government in the way of permitting logs to go free into the United States unless the United States makes some concession in the way of reducing or removing the present duty of \$2 per thousand feet of Canadian sawn lamber.

Ontario's Legislature passed a law last year that no logs cut on crown lands by American lumbermen should be taken into making a paradise of the park and water the Livid States to be sawed into lumber.

They claimed it was not alone the duty of the aldermen from these wards to look there was a large andience. The programme consisted of spectacular effects, in which various movements were executed by young ladies, gentlemen and misses in rich and appropriate costumes, interapersed with young ladies, gentlemen and instrumental music, allegorical grouping, emotional representations etc.

The manes of those who assisted Miss Jones were as tollows:

They claimed it was not alone the duty of the duty of the aldermen from these wards to look after this but that of the whole council. These men contend that the Canadian government knew when it sold the timber to the Americans that it was to be sawed in American mills, and having this knowledge, the government had no right to pass a law of this character. Canadians waive that point, and say it must be free logs and free lumber or no chance at all.

"Ladybug, ladybug, fly away ! Bring me a beau wi hout delay." St. Andrew's night had come around just 18 times in the brief sake!"

come a beau to marry the lady fair.

In Honiton township every boy and girl, since they were old enough to know anything of beaus and sweethearts, followed the old time superstitious custom on St. Andrew's night. If any of them married within the year, they extolled the efficacy of the charm of the ladybug, and the young folk of Heniton believed all the more faithfully in it. The girl was not a welcome gift from the township, but in view of her close relation to Martha's father and her ability to house and feed and clothe her she could not well refuse to receive her.
