BANK OF ENGLAND ROBBERY.

A Bag of 1,000 Sovereigns Stolen.

LONDON, July 28.—A daring robbery was perpetrated at the Bank of England on Saturday...

The details are of the usual description: when the bank cashier had placed the coin upon the counter in front of the messenger...

There does not appear to be any clue, and the money, being all in gold coin, adds, of course, to the difficulty of detection...

The view of the police is that the robbery had been carefully planned for some time, and that the thieves, having become acquainted with the routine arrangement of Coutts's bank...

ATTACKS THE CREW.

La Bourgogne's Men are Hauled Over Coals.

Survivor's Story Told in the Paris Matin—M. Hachard Refutes the Claim of the Sailors.

PARIS, July 28.—Just as the first shock of the Bourgogne disaster was fading out of people's minds, the terrible accident has been suddenly brought up again by the Matin...

He makes the gravest accusations against the crew of the Bourgogne, and also says that several surviving passengers who arrived here on Wednesday...

"I have just read on my arrival what has appeared in the French press, and it is so full of misrepresentation...

"The official figures speak for themselves. Out of 200 men in the crew, 110 survived, while out of 600 passengers only 54 were saved...

"I learned afterward that Capt. Deloncle had only one object in his mind, namely, to save any and every man...

"Five French women had been able to seize a cord attached to a raft, which was fastened to the boat...

"Worn out, I tried to get aboard, when a man forced me to let go with blows of his fist and an oar...

"If I am called to appear before a court of justice, I will give certain names, particularly that of an engineer...

"I saw in New York, in Forty-second street, passengers spit in the faces of those who had abandoned them...

"The Matin, commenting upon M. Liebre's declaration, says that it reproduces them with a striking heart...

"This morning the Matin comes to the attack again and reproduces some statements made by M. Eschard...

LARGE CUSTOMS RECEIPTS.

Saving the Preferential on Foreign Goods—Busy Day Saturday.

The officials at the customs house remained there until five o'clock on Saturday evening and entries were received up to the hour of six...

There were goods on board for a number of outside New Brunswick and Nova Scotia points. Whether these were entered or not is not known here...

The customs receipts at St. John for July show an increase over July, 1897, as the following statement sets forth:

Table showing Customs Receipts for July 1897 and 1898. Columns include Customs, Scales, Stamp inspection, and Stock markets fund.

There have been more entries made in a day at the St. John customs house than the number made on Saturday.

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., AUGUST 3, 1898.

THE GREATEST EUROPEAN.

Prince Bismarck, who closed his official career eight years ago, held for a quarter of a century before that time the primacy among the world's statesmen.

It was a comparatively unimportant state whose destinies were entrusted to Prince Bismarck when he assumed the direction of Prussian destinies.

Austria aided Bismarck in taking Schleswig-Holstein from Denmark. Austria had, probably no clear idea why the thing was done.

For fifteen months ministers and their supporters have been boasting of their Atlantic steamship project as more business-like and more economical than that of the late ministry.

Then came the new German confederation, the war with France, the annexation of more territory and the organization of the empire of Germany.

It was Bismarck also who created the German empire outside of Europe. In 1864 Germany had no colonial empire.

As a domestic statesman Bismarck has left his mark on the institutions of his land. Strongly inclined to state socialism himself, while resisting the socialist party as such.

It is a tribute to Bismarck's work that the magnificent piece of machinery which he created and set in motion, did not require the constant oversight of the inventor.

Subscribe for THE WEEKLY SUN

DR. ALLISON AND PROHIBITION.

Dr. Allison's attitude toward prohibition has been seriously misrepresented. In a letter to the Sun today the president of Mt. Allison University says that he did not use the language in respect to prohibition in Maine and other places that has been attributed to him.

It will be remembered that the alleged language of Dr. Allison was not printed as a report to this paper, but was quoted from a despatch to other journals.

They have prohibition in the county where Dr. Allison lives. The sentiment in favor of its vigorous enforcement is not strong enough to make the law completely effective in Westmorland.

A SCHEME THAT FAILED. For fifteen months ministers and their supporters have been boasting of their Atlantic steamship project as more business-like and more economical than that of the late ministry.

Last year Sir Richard Cartwright figured up all the money that would be saved by the Peteresen scheme and the difference of cost was computed as so much money already in the treasury.

A year passed and the contractors did nothing. Their energy and ability did not yield fruits. The one thing they accomplished was the persuasion of the government that they were always on the eve of success.

LUBEC GOLD SWINDLE.

Sunday's New York Herald devotes two pages to an exposure of the Lubec gold swindle, in which some New Brunswick people are somewhat interested as possible victims.

The despatch which stated that Lord Minto, the next governor general, was a liberal did not fully explain what sort of a liberal he was.

These confiding gentlemen supposed to be shrewd business men, who they dropped their own honest goldminer into the square lead lined box.

The capitalists were satisfied and invested some money. Phelan had not been let into the secret, and though aiding them, did not up to this time know the real truth of the matter.

Professor Robertson's Advice. Professor Robertson, to whom the duty interests of Canada owe so much, is going about Great Britain, accompanied by the minister of agriculture.

It is stated in shipping circles that J. B. King & Co. of New Brighton, Staten Island, have closed a contract for the construction of a steel ocean going tug and three steel barges.

OUR BOSTON LETTER.

The Residents Suffering Intensely from the Depressing Weather.

The Collapse of the Jernegan Bubble—The Fight Against the C. P. R.—Provincial Visitors.

BOSTON, July 31.—The residents of Boston and other parts of New England have suffered intensely this week from the depressing weather conditions.

The fight against the Canadian Pacific railroad, now being waged by a number of western roads, is especially interesting to New England, as this section depends to a large extent upon the big Canadian road.

It is stated in shipping circles that J. B. King & Co. of New Brighton, Staten Island, have closed a contract for the construction of a steel ocean going tug and three steel barges.

SUSSEX NEWS.

Representative Gathering—Important Work Done at the Plebiscite Convention.

SUSSEX, Aug. 1.—Pursuant to announcements given currency throughout Kings county during the last few days, a meeting of temperance workers was held this afternoon in the vestry of the Baptist church.

Among the visitors from the lower provinces here this week were the following: P. E. Burpee, J. G. Walsh, J. Connon, St. John; Mary Huestis and Mrs. Huestis; Col. Mannell and Mrs. Mannell; Frederick; W. M. Tweedie, Sackville; E. W. Paver, Halifax; Mr. and Mrs. C. W. Holmes, Amherst; F. McLean, Lunenburg; H. Sullivan, Charlottetown.

The bureau of statistics at Washington has completed a series of tables showing the extent and variety of the commerce between the United States and Canada, covering a period of 25 years.

OUR BOSTON LETTER.

The Residents Suffering Intensely from the Depressing Weather.

The Collapse of the Jernegan Bubble—The Fight Against the C. P. R.—Provincial Visitors.

(From Our Own Correspondent.)

BOSTON, July 31.—The residents of Boston and other parts of New England have suffered intensely this week from the depressing weather conditions.

The sensation of the week has been the collapse of the Jernegan bubble and the exposure of the most amazing swindling scheme which has been known in New England for half a century.

Professor Robertson's Advice. Professor Robertson, to whom the duty interests of Canada owe so much, is going about Great Britain, accompanied by the minister of agriculture.

It is stated in shipping circles that J. B. King & Co. of New Brighton, Staten Island, have closed a contract for the construction of a steel ocean going tug and three steel barges.

MINING NOTES.

(N. Y. Sun.) SEATTLE, July 17.—The prospect for the early completion of the Crow's Nest branch of the Canadian Pacific is stimulating mining operations in the meeting of the Dominion Educational Institute, which meets at Halifax tomorrow.

Among the visitors from the lower provinces here this week were the following: P. E. Burpee, J. G. Walsh, J. Connon, St. John; Mary Huestis and Mrs. Huestis; Col. Mannell and Mrs. Mannell; Frederick; W. M. Tweedie, Sackville; E. W. Paver, Halifax; Mr. and Mrs. C. W. Holmes, Amherst; F. McLean, Lunenburg; H. Sullivan, Charlottetown.

The bureau of statistics at Washington has completed a series of tables showing the extent and variety of the commerce between the United States and Canada, covering a period of 25 years.

These confiding gentlemen supposed to be shrewd business men, who they dropped their own honest goldminer into the square lead lined box.

MANCHESTER'S TONIC Condition Powder. A Preparation put up by qualified Veterinary Surgeons, and recommended by the best of the profession.

John, died at Chelsea July 25. He was 48 years old. Mrs. Katherine Beverly Robinson, a former Canadian, killed her little daughter and then herself, at Fair Haven, Vermont, early in the week.

The following were among the exports by water to the lower provinces this week: 889 bbls. flour, 125 bags flour, to Halifax, Charlottetown, etc., per str. Halifax; 300 bbls. flour, 50 bbls. cornmeal, to Port Mulgrave and Arichal, per sch. Diamond; 150 bbls flour, 60 bbls. cornmeal, to Brighton, N. S., per sch. Serene; 200 bbls. cornmeal, 300 bbls. flour, to Bridgewater and Liverpool, per sch. Narcissus; 200 bunches corn, to Annapolis, per sch. J. B. Martin.

The lumber situation shows no marked improvement and the market continues dull and easy. It certainly does not pay to ship lumber to this market at present.

Market are very scarce and firm, with the last sales made from vessel at \$15.50. The jobbing prices are very firm at \$12.50 for large No. 3, \$14 and \$15 for medium No. 3, \$15 for large 2's, and \$20 to 25 for No. 1 Lobsters are very firm with the supply still short.

THE SUN PRINTING COMPANY, issuing weekly 3,500 copies of THE WEEKLY SUN, changes published in the Maritime Provinces. Advertisers, please make a note of this.

M. A. Harding, Main street, has been awarded \$500 for the damage done to his property by the runaway street car two weeks ago.

A subscriber in the state of New York has shown his confidence in the future of the semi-weekly Sun by paying his subscription to July 6th, 1902.

The New Glasgow Milling Co. is still rushed to its full capacity, and although July is a poor month for flour sales, yet they will have shipped this month some 2,500 barrels of flour.

Rev. I. W. Carpenter, formerly of New Haven, but for the past two years of Catechetical, has purchased a property at Lute Mountains and moved there with the intention of permanently locating. Maple Leaf.

The Reformed Baptists will hold their camp meeting at Brazill Lake, N. S., commencing Sunday, August 14th, and continuing for ten days. Rev. A. Hart of Everett, Mass., will be the chief worker. He will be assisted by his son, Albert Hart, Rev. M. S. Elliot of St. John will also be present.

The firm of J. Macdonald & Co., New Glasgow, have just completed a steam launch for the dominion government, to be used on the fishery protective service. She is 42 feet long and 9 feet beam.

On Friday the remains of John B. Smith, who died in Victoria, B. C., some time ago, were brought to this city for interment at Fernhill. Mr. Smith was a son of the late W. M. Smith, formerly steamboat inspector in this city.

The new Furness liner London City, Capt. Patterson, which left London, July 17th, with a large general cargo, arrived off the Island on Friday afternoon. She will come up to port this morning and after discharging a large quantity of powder in the stream, will move in to the Furness line berth.

The causes of death reported at the board of health office for the week ending July 30, were: Cholera infantum; 3; valvular disease of heart; 2; meningitis; 1; diarrhoea; 1; consumption; 1; softening of brain; 1; carcinoma of uterus; 1; cerebral paralysis and old age; 1; asthma; 1; fracture of spinal column; 1; total, 12.

The Rev. B. Watson, M. A., and W. R. Hibbard, R. A., of Lennoxville, Quebec, have been appointed classical and mathematical master respectively at the Davenport school. Mr. Watson in 1883 obtained a prize for Latin and Greek unsexamined translation. In 1884 he gained first class honors, the Prince of Wales medal for classics, and the Mackie prize for Latin essay. Mr. Hibbard gained first class honors in mathematics in 1885.

Capt. Charles Storey of the fishing schooner Lafayette, lying at Leonard's wharf, sustained severe injuries last Thursday while going on board the vessel. He stepped on the rail and slipping fell to the deck. He had a bad shaking up, and one side of his body was badly bruised. Dr. D. E. Berryman, who was sent for, ordered the removal of the injured man to the hospital, to which institution he was taken in the ambulance. Capt. Storey, who is 70 years of age, belongs on the other side of the bay. He was resting as comfortably as could be expected at an early hour this morning.

It is now clear that the C. P. R. are going to expend a large amount of money in perfecting the facilities at Sand Point on the foundation of the new elevator is finished and the work of erecting the immense structure will be begun at once. Six additional tracks are to be put down between the warehouses and the cattle sheds. There are two tracks there at present. The material required for filling in the wharves is being obtained from Bay Shore, where the company have a steam shovel at work. Some 40 or 50 men are now engaged in this work, and it is expected the number will be doubled within a few days.

J. Edgar Higgins, son of Dr. D. F. Higgins of Acadia College, was married at Wolfville Saturday morning to Miss Nellie T. Chipman, daughter of X. Z. Chipman, and immediately left with his bride for Honolulu, where he has an appointment as head of the department of horticulture and agriculture in the State Normal school. Mr. Higgins took his B. A. degree at Acadia in 1895, taught at Horton Academy and took the course of study in the Nova Scotia school of horticulture one year. During the last two years he has been working in the students department of Cornell University, where in June last he received the degree of M. A. S. (master of science in agriculture). The position is a good one. Mr. and Mrs. Higgins passed through St. John Saturday en route to Vancouver, whence he goes to San Francisco to take the steamer for Honolulu direct, a distance of 2,100 miles.

A very heavy thunder storm passed over the town of Antigonish Thursday. Lightning struck the old Lake school building, where several carpenters who were engaged in building a new school building in close proximity to the old one, had secured shelter in the basement. One of the number, John E. Cunniff, of Yarmouth, who was standing in the door, received the most direct effect of the lightning and died within six minutes after he was struck. His fellow workmen got badly shocked, but will recover. Mr. Orr was 50 years of age.

Major A. O. Brodie, of Roosevelt's Rough Riders, U. S. V., who was wounded at the battle of El Caney, near Santiago, arrived by steamer Boston this morning, says Friday's Yarmouth Herald. He is accompanied by a native Cuban servant, and is en route to Halifax on a visit to his brother-in-law, Walter Mitchell. The major reports the work of the Rough Riders in the vicinity of Santiago a great accomplishment, and speaks of the extreme heat encountered there.

Barkt. Alberta, Capt. Harris, sailed Thursday evening for Buenos Ayres with a cargo of 65,000 feet of spruce lumber. The Vamoose sailed Friday from the Wedge for St. Malo, France, with a cargo of 48,000 feet of desal. Ship Ruby is loading at the Wedge for Shields with deals and scantling, and the barkta. F. B. Lovitt and Hillside are now loading here for Buenos Ayres. Barkt. Trinidad, 630 tons, Capt. Card, has been chartered to load lumber at Yarmouth for Buenos Ayres at \$11. If Rosario, \$12.—Yarmouth Herald, Friday.

At chambers, yesterday morning, Judge McLeod gave judgment in Clark, assignee, v. Webber, which was reviewed from the St. Stephen civil court. The grounds taken were that an assignee could not sue in his own name in an inferior court for a debt which had been assigned under the Assignments and Preferences Act; also that there was no acceptance and receipt of goods sufficient to bind the defendant under the statute of frauds. His honor decided that the suit was rightly brought in the name of the assignee, but that the sale was not unfavorable under the statute. A nonsuit was therefore ordered. George J. Clarke for plaintiff; W. H. Trueman for defendant in support of the application for review.

D. Buchanan of Apohaqui goes across the bay this morning to attend a business trip. He has just returned from Centreville, Carleton county, where he placed one of his turbine wheels and refitted the plant of the grist mill owned by Mrs. Getchell. Mr. Buchanan states that the crops up river are in great condition, the hay crop being enormous. He says Carleton is a great farming country, and as a Kings county man, he is amazed at the quantity of wheat and other grain which the Carleton farmers raise. There was a large quantity of wheat waiting to be ground at the mill while he refitted.

The new Donaldson liner Salacia has arrived at Montreal from Glasgow on her initial trip. She is one of the most modern types of a cargo steamer, and was built by Charles Connell & Co., the well known Glasgow builders, and fitted up with triple expansion engines by Dunsmuir & Jackson, also of that city, and can develop a speed when loaded of fourteen knots. She is built of steel, has a double bottom and is rated the highest class at Lloyds. Her cattle accommodation is first class, special attention having been paid to ventilation. Her passenger accommodation has not been lost sight of, for she has a room for a limited number of saloon passengers only, is fitted up with electric light, and has all the improvements up to the present date. Capt. Mitchell, late of the Concordia, is in command of the Salacia. His many friends in St. John will be pleased to hear that he has charge of such a fine ship.

TEA MEETING AT WESTFIELD. A most successful tea meeting was held at Victoria hall, Westfield, Beach, on Thursday, July 28th, under the auspices of the ladies of St. James church congregation. It has been many years since such a gathering was seen in this parish for local purposes. All seemed to vie with each other in their endeavor to make the tea a success. Those who had the care of the undertaking feel much encouraged by the warm sympathy and hearty cooperation which they received, and wish to tender their warmest thanks to all who kindly assisted them. The net proceeds amounted to the handsome sum of \$134.35.

WORLD'S BIGGEST WARSHIP. The new battleship Formidable is to be launched at Portsmouth in November. She will be the largest battleship afloat, being 10 feet longer than the Madagascar.

Another battleship of a similar type to the Formidable is very shortly to be laid down at Portsmouth, where a big scheme is under consideration for increasing the capacity of the yard to build battleships and large cruisers.

WAYS OF EASTERN POTENTATES. His highness the sultan, we hear, has raised by public subscription several hundred dollars for the forthcoming festivities in honor of his birthday. This is a novel proceeding, but perhaps not quite so bad as that of the Nawab of Rampore, who on being blessed with a daughter, ordered a week's pay to be deducted from every state employe to pay for the rejoicing in connection with the event. —Malay Mail.

A NEW DARGAI STORY. In the last number of the Tiger and Sphinx, the regimental paper of the Gordon Highlanders, it is to be found a modest account of the storming of the position at Dargai. One anecdote is entirely new. In the final rush Col. Matias was outpaced, and was complaining aloud of being blown, so Color Sergeant Mackie gave him a helping hand, exclaiming with kindly sympathy: "Ye're a man vera strong for an auld man." —Caucutta Englishman.

NOTICE.

To Subscribers of the St. John Sun.

The following Collectors are in the Counties named, subscribers in arrears will please be prepared to pay when called on.

- H. D. Pickett, Digby and Annapolis Counties, N. S.
L. D. Pearson, King's, N. B.
A. J. Markham, Kent County, N. B.
E. P. Dykeman, Queen's, N. B.
Edgar Canning, Albert, N. B.
L. M. Curran is travelling the Counties of Sunbury and York.

THE DEATH ROLL.

The death of Mrs. Anne Ratchford occurred at an early hour on Friday morning at the residence of Mrs. F. Gray Merritt. Mrs. Ratchford was in her 82nd year and had been an invalid for a long time, and lately became severely afflicted with paralysis. She was a daughter of the late Zaimon, chairman of this city, and widow of the late E. DeWolf Ratchford, a Parrobb. Her only near relative is her sister, Miss Wheeler, of this city. Mrs. Ratchford has resided in St. John since her husband's death many years ago. She was a most estimable woman, cheerful and benevolent, and was a faithful worshipper at Trinity church.

Mrs. Smythe, Cliff street, widow of Thomas Smythe, died on Friday morning. Deceased was an old and respected resident of St. John, being in her 74th year. Her husband, who died in 1890, was a well known citizen. Mrs. Smythe has not been in very good health of late, but her death was not looked for. She leaves three daughters, Mrs. Brown of Boston, Miss Smythe of New York, and Miss Maggie Smythe who lived at home. There was considerable surprise in the north end on Saturday morning when it became known that William Purvis had been found dead in his bed. Mr. Purvis, who was in the sixty-fifth year of his age, had been suffering with asthma for several years, but not until a few days ago did his breathing trouble him very severely. Dr. McFarlane was his attending physician, but no very serious results were in the way. Deceased appeared to be resting easier than for some time and retired as usual. It is supposed that his death occurred between four and five o'clock. A family of two, Miss Alice Purvis, who lived with her father, and William Purvis, Jr., who is employed in the Maritime Mill Works, are left to mourn. Their mother is also dead. Mr. Purvis has six brothers and one sister living in various parts of the province. Deceased was a member of long-standing in the Temple of Honor.

Edward Moriarty died suddenly at his residence, Douglas avenue, shortly after noon Sunday. He arose in the morning and partook of a hearty breakfast and later attended church. He was a well known citizen and for many years carried on business on Main street. Heart failure was the cause of death. He leaves two daughters, who will have the sympathy of the community in their sad loss. John Keenan, an old and respected resident of Kennebecus Island, died suddenly Sunday morning. With his son he started to row to Baywater to attend church. When only a short distance from the shore, he fell over in the boat dead. Deceased was eighty-four years of age.

HORSE AND CARRIAGE SUNK.

A serious accident occurred on the last trip of the steamer from Somerville and Baywater to Milledgeville Sunday. There were a large number of teams on the boat and a lot of passengers. On the way over a fire bucket fell from among the horses, causing a panic among the horses. They began to rear and back up, and one horse and carriage were forced off the boat. They went down and never came to the surface. D. Watson, who was in the carriage, jumped out before it went over, and that saved him. Boats put out at once from Milledgeville, but the horse and carriage did not come to the surface. The turn out was owned by J. E. Hamm, and Mr. Watson and another gentleman and two ladies had been enjoying a drive. There was great excitement on the steamer, but fortunately no other casualty occurred. The horse that was lost was valued at about \$125.

AN AMHERST SENSATION.

An Amherst despatch of Thursday last to the Montreal Star said: "The disappearance of Ernest L. Black, who has been in the name of Black Bros., and the attachment by the sheriff of his stock and household goods is announced. Black was last seen on Saturday. A full list of what he owes has not been made, but it will be raised large sums by borrowing, falling credit at the banks. The collateral notes were signed by his father, Rev. A. B. Black, and a brother, C. H. Black. In some cases at least it is stated that the signatures to these notes are forged, and to be bogus. Black belongs to one of the oldest and most respectable families in this province."

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. Druggists return the money if it fails to cure. The recent thick weather has compelled the shad fishermen down the shore to shandon operations altogether.

WAITING ON SPAIN.

The Answer to United States as to Peace

Demands of the Americans Once More Rejected by Washington Authorities.

Capt. Evans, of the Iowa, Replies to an Article Published by Pennsylvania Regarding Capt. Philip.

WASHINGTON, August 1.—All eyes turned today toward Madrid, for it was realized that upon the Spanish cabinet depended the restoration of the peace. It has been announced here in a thoroughly reliable quarter that the decision of the Spanish government was not to be submitted before tomorrow at the earliest. In the absence of any new phase in the negotiations here today speculation naturally turned backward toward the Spanish government. A meeting at the White House Saturday, and great interest was manifested in every particular respecting that event. A disposition was shown in some quarters to question the authority of the French ambassador to act as he did, representing Spain. "But it can be again stated that, regardless of any technical point, such as the absence of signed, sealed and delivered mail credentials, which, of course, could not reach here in the little time at hand, the president regarded M. Cambon as fully qualified to act as a representative of the Spanish negotiations, subject, as are all ministers or ambassadors in these days, to the reference of the work accomplished by them to the government they represent for final approval. M. Cambon made it clear that he had been fully instructed on every point likely to arise in the negotiations that the president was satisfied that by accepting him as the representative of Spain in this matter a vast saving of time would be effected, and a point of the utmost importance that the negotiations would be technically conducted without the interposition of any neutral government. However, any question that might have arisen as to the hopes of the French ambassador was set at rest by a short and concise statement issued today from the embassy. The discussion turned on the nature of the change made at the instance of M. Cambon in the list of American demands. It was contended in some quarters that no change had been made in the important modifications had developed. As a matter of fact as there is a difference of opinion between parties, the administration looking upon it as inconsequential, while M. Cambon attaches importance to it. However, the fact that the administration believes that the change is not essential and that it certainly does not affect the principle of the document, it might be well to recapitulate briefly just what the demands of the United States were. As to Cuba, it is demanded the Spain be to release her government, possession and control. It would be noted that nothing is said of Cuban independence, and that the acceptance of this position leaves the United States free to deal with the island as it may deem best. The Rio de Janeiro, which is adjacent and embraced within her jurisdiction, is to be ceded unconditionally to the United States. One of the Ladrone Islands likewise is to be ceded to the United States as a coaling station.

These three conditions being granted by Spain are to be taken as part payment in lieu of the full indemnity. What further payments shall be required is to be discussed by a commission having authority to act for the president, subject to his approval. Whether Spain shall retain possession of the Philippines as a whole or in part is left to that commission to determine. The reason for deferring the decision as to the future of the islands in this fashion is because the administration is not yet satisfied itself, it is not clear at this moment what sound policy should dictate in the matter. Meanwhile, and until the commission has satisfactorily disposed of the future of the islands, the United States is to exercise a military government over Manila harbor and bay. This commission will be actually a peace commission and will prepare the treaty which will terminate formally the war with Spain. However, a suspension of hostilities may be sooner declared when the Spanish government shall definitely accept the conditions above laid down and renounce its authority over Cuba and Porto Rico.

Notwithstanding the fact that he now has a direct cable to Washington, Gen. Miles sent no message during the day, and all that was heard from him was contained in a delayed telegram announcing the arrival at Porto Rico of the advance of Gen. Schwan's brigade. It is denied that Gen. Miles has succeeded in his plan of intercepting the troop transports before they reach a point in eastern Porto Rico, only selected by their landing, and in diverting them to the excellent harbor he has secured.

Acting upon the recommendation of Surgeon General Sternberg, Secretary Alger has practically concluded to abandon Camp Alger near this city, because of dissatisfaction with the sanitary conditions there as exhibited by the large number of sick soldiers. The change will not be made immediately, for it is not positively known yet which regiment now in camp will be withdrawn to make up the total of about five thousand required to be supplied to Gen. Wade's command, and in the second place, it is believed to be absolutely essential to have the

surrounded by boats carrying dying and wounded prisoners, and others of the crew of the "Iowas" to the number of two hundred and fifty. To leave these men to suffer for want of food and clothing while I called my man aft to offer prayers, was not my idea of either Christianity or religion. I preferred to clothe the naked, feed the hungry and succor the sick, and I am strongly of the opinion that Almighty God has not put a black mark against me on account of it. I do not know whether I shall stand with Captain Philip among the first chosen to be hereafter, but I have this to say in conclusion that every drop of blood in my body on the afternoon of July 3 was singing thanks to Almighty God for the victory we had won. (Signed), ROBLEY D. EVANS, Captain U. S. Navy, commanding U. S. S. Iowa.

A LAW AND ORDER LEAGUE.

An Evangelical Alliance meeting yesterday morning the secretary, Rev. Mr. Steele, said, the chief object of the meeting was to consider some means for the better enforcement of the Sunday observance laws. Judge Forbes spoke strongly on the Sunday observance law, emphasizing the need of united action on the matter. He advised the organization of a Law and Order League. The suggestion was accepted, and on motion of Rev. Mr. Fotheringham, seconded by Rev. Job Shenton, it was unanimously decided to form a Law and Order League. It was moved, seconded and carried that a meeting of all citizens favorable to the formation of such a league be called for Monday, the 15th inst., at 4.30, and further that all the clergy of the city be asked to announce the meeting to the congregations. Rev. Mr. Fotheringham thought that the co-operation of the Roman and Anglican clergy should be sought; and the alliance acting on his suggestion decided to interview, personally the clergy of the churches mentioned. Rev. Mr. Chipman was then introduced to the conference and made a short speech.

In view of the meeting of the plebeian committee of the alliance on Wednesday next it was moved that the alliance co-operate as heartily as possible with the committee in their campaign. On motion the meeting adjourned and was dismissed with the benediction by the Rev. Mr. Fotheringham.

LANDING EX CARS.

Freight paid; books on time. With this book you can down them all. BIRD & GIBBERTSON COMPANY, Limited, Toronto.

PROVINCIAL NEWS.

SUSSEX, July 29.—Murray Huestis of the firm of Huestis & Mills, merchants of Sussex, who went to England with many others on this side of the water under the auspices of Lever Brothers, the well known manufacturers of the famous Sunlight soap, has returned home. Mr. Huestis speaks highly of his visit, and was greatly pleased, indeed astounded, with the size and beauty of the company's works. The amazing number of hands employed and the beautiful cottages and other conveniences made for their education, amusement and general comfort. A souvenir presented by the company, containing cards of these places, is very handsome, and shows with the greatest pride by Mr. Huestis.

Stephen Taylor, while putting a load of hay in his barn on Monday last, fell and received very serious injuries. He is being attended by Dr. Pearson.

Frank L. Lansdowne and Mrs. Lansdowne left this morning to spend a few days with friends in St. John.

Work has been begun on the Depot house opposite the railway station. It is to be moved somewhat nearer the main street, greatly enlarged and improved, which when completed will greatly add to the locality in which it stands. G. Fairweather, builder, has the contract.

Leonard Beer, nephew of Col. Beer, who has been in British Columbia for some years past, is visiting friends in Sussex and St. John. Mr. Beer has been in the employ of the Bank of Montreal at Vancouver and in the mining districts of Rossland, Kootenay, etc. He reports mining business on the boom there and large amounts of British capital coming into these sections.

MONCTON, N. B., July 29.—The body of Warren Wortman, who died in the city hospital in Boston last week, reached Moncton this morning and was interred in the rural cemetery this afternoon at two o'clock.

Mrs. Mary Fairweather, widow of the late G. E. Fairweather, of Lower Norton, Kings county, died at the house of her son, H. M. Fairweather, druggist, in Moncton, this morning at nine o'clock. The deceased lady was in her seventy-ninth year. She leaves three sons and one daughter. The sons are Clarence H. druggist at St. John; Charles H. of Sussex; and H. M. of Moncton; the daughter is Miss Annie of Moncton. The body will be taken to Hampton by the two o'clock train tomorrow for interment.

The local lodges of the Brotherhood of Locomotive Engineers royally entertained the visiting delegates and invited guests to the number of about five hundred at a monster clam bake at Point du Chene yesterday. The clam bake was about forty-five feet in circumference, and three cords of wood were required to heat it. Five barrels of clams were used. Salmon and other good things were served with the clams, and the whole was washed down with barrels of coffee, ginger ale and orange cider. The brotherhood men never do things in a small way. The delegates who remained over last night left by this morning's train. A number of the visitors from the west left on an excursion to Halifax. Chief Engineer Arthur did not accompany them, but started for home. Among the visiting knights of the throttle was A. Casselin, of Richmond, Quebec. Mr. Casselin, who is in the Grand Trunk service, has been fifty years on an engine and has never had a serious accident. The Grand Trunk many years ago presented him with a medal for good service. He attributed his success and good health to the fact that he has never drunk intoxicating liquors.

FREDERICTON, July 29.—At chambers today Judge Vanwart had three cases before him in which appeals are being taken from our court to the supreme court at Ottawa. In Fraser v. McPherson, the defendant appeals against the judgment of our supreme court for a new trial. The case on appeal was settled and ordered to be printed by the judge today. Gregory, Q. C. for defendant and McCready for plaintiff.

In Woodstock woolen mills v. Moore, the time for setting appeal was extended till August 18th. Dr. Stockton for plaintiff, contended the whole evidence taken at the trial should be printed in the appeal. Gregory, Q. C. for defendant argued that for the purposes of the appeal only a short statement of the facts was necessary. The adjournment was made to give the parties another opportunity of agreeing on the case.

In Maxwell v. Malcolm and Ross, a similar application, at the request of Geo. J. Clark for plaintiff was adjourned till Friday next, Gregory, Q. C. for defendant contended there will be nine cases appealed to the supreme court at Ottawa from this province, to be heard at the next sitting of that court in October.

James Tibbits died at one o'clock this morning. He had been confined to his residence for ten days from an attack of pneumonia, and besides this an internal malady from which he had suffered for some years became aggravated, resulting in death as above stated. The deceased was an excellent man, and held the respect and esteem of his fellow citizens. He was a son of the late Benjamin Tibbits of Andover, and was seventy-two years old. Up to within the last few years Mr. Tibbits was in active service here and was a director of the People's bank from its incorporation. His children are Annie, wife of H. L. Smith of San Francisco; Ada, wife of J. Douglas Hazen, St. John; and Frankie, Harry, registrar of deeds at Andover, and Archie of the People's bank staff. The funeral will take place on Sunday afternoon at 2:30 o'clock.

Michael Wade of Marysville was thrown heavily from his wagon in a runaway accident this afternoon at St. Mary's. He was found unconscious and so badly bruised that Dr. Mullin sent him to the Victoria hospital for treatment.

The Fredericton curling club have awarded the contract for a new and larger rink to A. W. Saunders for \$1,480. The contract calls for the completion of the building by December.

THE MARKETS.

Revised Every Monday for the Weekly Sun.

Heavy receipts of dairy butter keep the market in that line very dull. There is not a large amount of creamery offered, and the price asked is considered a little high. Eggs are scarce and in demand. The market was somewhat dull last week, but is now more active. Potatoes are very cheap, but in a little demand. Beef is steady, but some cuts are lower, also mutton.

As soon as the Gresham has loaded her bunkers with black diamonds she will leave on Saturday morning.

The dimensions of the Algonquin are the same as the Gresham, 205 feet long and 25 feet beam. The Algonquin differs, however, from the Gresham in having a flush deck. She is also said to be a somewhat faster boat, being capable of developing 14 miles an hour, as compared with the 12 miles of the Gresham.

The Gresham and Algonquin are armed with fifteen guns, including two five-inch rapid firing guns on each side and the others six pounders and quick firing and machine guns.

As soon as the Gresham has loaded her bunkers with black diamonds she will leave on Saturday morning.

THE MARKETS.

Revised Every Monday for the Weekly Sun.

Heavy receipts of dairy butter keep the market in that line very dull. There is not a large amount of creamery offered, and the price asked is considered a little high. Eggs are scarce and in demand. The market was somewhat dull last week, but is now more active. Potatoes are very cheap, but in a little demand. Beef is steady, but some cuts are lower, also mutton.

11 Market Square,

H. HORTON & SON.

ent supporters exchange their mandates from the people for commissions from the crown. The lone Mr. Scott is now the government.

DISHONEST PROHIBITION PAPERS.

Prohibition papers are explaining to their readers that the whiskey influence controls the press in Canada, and that anything appearing therein contrary to the prohibition doctrine is to be regarded with suspicion as not being in good faith. A main essential to the mental equipment of a typical prohibitionist seems to be a firm belief in the evil instincts and motives of people who do not think just as he does. This is often coupled with an inclination to make his belief widely known. The growth of the prohibition party is not so marked as to create the opinion that the people as a whole are impressed with the prohibitionist's assumed superiority.

UNCE SAM UNMAKS.

(Worcester Spectator.)  
We are going to Porto Rico for "keeps," not to set those in bondage free.

MUST FOLLOW KING WILLIAM.

(Orange Sentinel.)  
An Orangeman who declines to parade with his brethren under good reasons undoubtedly violates the spirit of his obligation.

ADVERTISING FOR TOURISTS.

(Ottawa Free Press.)  
All the way from Scotland comes a bundle of papers setting forth the beauties of that country, the facilities for reaching it and the best methods of obtaining health, profit and pleasure at the lowest rates when there. If a locality wants to be patronized by tourists it must bestir itself and, as in other business undertakings, advertise, and make its attractions known far and wide.

WHERE TO BUILD LARGE HOTELS.

(Kingston, Ont., Times.)  
A mistake was made in building the large hotels down the St. Lawrence that there was no large permanent population near them. Had one or more of these been located at Kingston there is no doubt that it would have been filled with guests every summer, and hence paid its owners.

CANADIAN HISTORY.

(Victoria, B. C., Colonist.)  
Commenting upon the publication in St. John, N. B., of a series of leaflets dealing with the early history of the maritime provinces, the Manitoba Free Press pleads for greater attention to the romantic side of Canadian history generally. The plea is timely because the links between the present and the past are rapidly being broken. Yet historians, like poets, are born, not made. Something more than a legislative appropriation is necessary to secure the telling of the story of early Canada so that it will impress itself upon the character of the people. All that can be done, until the skilled narrator puts in an appearance is to collect as many of the data of the past as possible.

spent some little time

So I took my little girl up on my knee

And I said: "My dear, how listen to me;

Just listen and dry your eyes;

"This world is a different world, indeed,

And people are hard to suit,

And the man who plays on the violin

Is a bore to the man with the flute.

"And I myself have often thought

How new a world better would be

If every one of the folk that I knew

Would only agree with me.

"But since they will not, the very best way

To make this world look bright

Is never to mind what people say,

PURITY OF FLOUR.

It is Absolutely Indispensable to be Wholesome.

People are Fastidiously Careful in Other Respects but Willing to Accept Any Kind of Flour—Health Cannot be Preserved When

An Inferior Grade of Flour is Used—Methods Employed in Testing the Different Brands.

The American Journal of Health, a high class weekly of New York, is the recognized American authority on matters of Hygiene.

The following leading article from its issue of the 18th inst. is a very valuable endorsement of the good qualities of "Ogilvie's

The article comes all the more gratefully inasmuch as it was entirely unasked, it is plain to see in a recent issue that

"Health cannot be preserved in a household which uses persistently an inferior grade of flour."

"But how can he be so sure?" said Ted, "who roared at people when he thought

A MILLION IN GOLD

Arrived at Victoria by Steamer from Klondyke.

An Old British Columbia Miner Talks About the Gold Fields.

A Great Deal of Complaint About the Government Mining Regulations.

(Victoria Colonist, July 24.) Something more than one million dollars in Klondyke bullion, with perhaps double that amount in bank and commercial companies' drafts, was received here by the steamer Garonne...
