CANADIAN JOURNALISTS TAKE ACTIVE PART IN CONFERENCE DEBATE ON IMPERIAL DEFENCE

Special to The Standard.
London, June 9.—The Imperial Press Conference resumed the discussion on Imperial Defence this morning. Mr. A. J. Balfour presiding. Lord Roberts and Mr. Haldane, the Secretary of State for War, were present.

A grave note was again emphasized in the speeches of the home statesmen.

Mr. Balfour, in opening, declared that all local defence, though it was necessary, was subordinate to imperial defence, and subordinate from the standpoint of particular localities themselves, not only from the viewpoint of the Empire. (Applause.)

In dealing first with the military aspect of the question, Mr. Balfour laid down two propositions: first, that all the forces of the overseas states should be under the control of these states; and, second, that they should be organized on a common basis. Respecting the navy, he did not regard it as necessary, but he pointed out that it was useless any local fleet at naval defence, but anything in the nature of coastal protection should be rigidly subordinate to a fleet in action. (Here, here.)

The fate of the Empire would be dependent on fleet superiority and that superiority must be shown in home waters. If there was to be an armageddon, it would take place in the German Ocean, the English Channel, or perhaps the Mediterranean.

The Signs of the Times.

Mr. Balfour continuing, said: "Anybody who reads the signs of the times will, I think, agree with the weighty words of Lord Rosebery and Sir Edward Grey, and will recognize that no man can now speak of imperial defence without some note of anxiety—"

FOREST FIRES IN CARLETON COUNTY HAVE SWEEPED ENORMOUS SECTIONS OF VALUABLE LAND; HON. J. K. FLEMMING A HEAVY LOSER

Wide areas of the forest lands of New Brunswick are in a blaze, such as has seldom been known in the history of the province. The weather has been exceedingly dry for a long time now, and the lumber land owners are praying for rain. The weather probabilities, however, do not forecast any immediate showers.

Raging Near Hartland.

The reports from Hartland state that the forest fires are still raging fiercely in that vicinity. Hon. J. K. Fleming, who is in the city speaking to a Standard representative last evening, stated that on Monday he had his mills at Hartland shut down, and ordered the crew out to fight the fire as the blaze gave promise of sweeping his timber lands to destruction. They were fairly successful in their efforts to quench the fire, but a long-distance message from Hartland stating that the fire had broken out again, and had already destroyed his lands to the extent of \$3,000. The mill hands are again at work and are doing everything possible to prevent further destruction. Mr. Fleming's lands consist of about six miles east of Hartland.

These lands were purchased by him about a year ago, and although he has done everything possible to protect them from fire, he has unfortunately sustained a heavy loss, and it is likely that he will suffer more damage. Besides Mr. Fleming there are many other wood lands have been already burned over.

The Fire Near St. John.

The fires in the vicinity of the Black River Road, Red Head, and Loch Lomond are now practically extinguished, but a terrific fire has sprung up in the vicinity of Brown's Plains. The fire has already burned about three miles in each direction, and is still fiercely raging. It has crossed McKell's Lake, and last evening was burning on both sides of the lake.

Mr. Jones a Loser.

Mr. George E. Jones, M. P. P., of Jock Mac, suffered considerable loss yesterday; and Captain Anderson who owns a hotel for fishermen near the lake, is in great danger of losing his property, as the fire is only about one-eighth of a mile from his hotel.

Mr. George E. Jones, M. P. P., of Jock Mac, suffered considerable loss yesterday; and Captain Anderson who owns a hotel for fishermen near the lake, is in great danger of losing his property, as the fire is only about one-eighth of a mile from his hotel.

BOYLES AND MRS. NESBITT ARE UNDER ARREST IN CONNECTION WITH THE COOKVILLE AFFAIR

Special to The Standard.
Sackville, N. B., June 9.—The finding of the body of a dead infant in the cellar of the house lately vacated by William Boyles at Cookville, some ten or twelve miles from Sackville, has been the exclusive report of which appeared in today's Standard, has led to the discovery of a shocking condition of affairs. The inquest held today was by Coroner Baird of Middle Sackville. Dr. Calkins who held a postmortem gave evidence that the body of the child was fully developed and weighed about ten pounds. He found a cord tied about its neck and cotton wool stuffed in its mouth sufficient to cause death, though he could not say positively that death was due to this cause. The body had been buried about a month. William Boyles, his wife and Mrs. Annie Nesbitt, who lived with the Boyles and also several neighbors gave evidence, but threw no light on the mystery though the evidence pointed to Mrs. Nesbitt as the mother of the child. The jury brought in a verdict that the child belonged to Mrs. Nesbitt, and implicating Boyles as the father and that death was due to strangulation. On the strength of this Mrs. Nesbitt and Boyles were arrested, and will be taken to Sackville tomorrow for examination. Mrs. Nesbitt has been twice married. Her first husband, a man named Milton, was lost at sea. She then went to the United States and married a man named Nesbitt from whom she separated and returned to Cookville where for a year or more she and two children were living with the Boyles family. She is about 40 years of age.

MURRAY DRANK THE GOLDEN MANY BOTTLES OF BAY RUM OF BAY RUM AN ANNIVERSARY OF MARRIAGE

Special to The Standard.
Annapolis, N. S., June 9.—That as a result of having drunk dozens of bottles of every conceivable kind of liquor from bay rum and whiskey to gin and Florida water, Kenneth Murray, late yesterday came to an extraordinarily painful death, was the substance of a verdict rendered by a coroner's jury here this evening. Murray, who was forty-four years of age and married, and leaves besides his widow several small children, started on a drunken spree about ten days ago, which lasted until the time of his death, during which time he consumed nearly 50 bottles of different kinds of liquors amounting to the number being over a dozen bottles of bay rum. The effects of which death was chiefly due.

Held Inquest.

This afternoon Dr. Withers held a coroner's investigation and after viewing the body adjourned to the town hall where the evidence was given before a large number of citizens. J. M. Owen appeared for the Crown and one of the features of the inquiry was a clash between Doctor Withers and Mr. Owen regarding the right of the Crown to be represented at the investigation. After a sharp discussion the coroner conceded Mr. Owen's right to appear. The widow was the first witness called and she deposed that her husband had drunk enormous quantities of liquor and had suffered great agony before death. On the table were found twenty bottles which had contained liquor and were amongst those used by the deceased. Other witnesses showed the crafty manner in which the unfortunate man had obtained the liquor. Unable to purchase even bay rum himself, he had employed several small boys to obtain it for him, a bottle at a time, they having bought it under several pretences.

WITH HER OWN FIRE APPARATUS FIGHTING TO SAVE VILLAGE OF BATH, WOODSTOCK SUFFERS FROM FLAMES TO EXTENT OF NEARLY \$100,000

Special to The Standard.
Bath, N. B., June 9.—A disastrous fire broke out here about eight o'clock this evening in the rear of the buildings owned by Tompkins Bros., whose barns, general store and dwelling were entirely destroyed.

Some goods were saved from the store, but their loss is heavy, being about \$15,000 with about eight thousand insurance. From Tompkins' store the fire extended to the Woodstock hotel on the corner owned by Gilbert Gibson, the dwelling which was occupied by a tenant named Colby Hatheway, was entirely consumed and Mr. Hatheway lost all his household effects.

Hotel Destroyed.

The hotel occupied by Gilbert Gibson was badly gutted and practically destroyed but the barns attached were saved with difficulty. Gibson's loss is partly covered by insurance.

The fire companies from Woodstock, Perth and Perth assisted the Bath firemen in fighting the fire which was under control by 11 o'clock. Dr. Cummins' residence to the north was saved, but the origin of the fire is unknown but it is supposed to have started in the rear of the building near the railway track.

The Woodstock fire fighters were rushed here by a special train.

FIRE AT WOODSTOCK.

Dickinson's Tannery Burned Down With Loss Of Nearly \$100,000.

Woodstock, N. B., June 9.—The tannery owned by J. D. Dickinson & Son of this town was totally destroyed by fire about one o'clock this morning. The origin of the fire is unknown. The tannery consisted of three large buildings, wood structures, situated in the lower part of the town. Owing to the fire at Bath, the fire department at Woodstock was crippled by the absence of their fire engine and one of the men who had gone to Bath to lend assistance in fighting the fire there.

At first it was thought that the lower end of the town would be wiped out and the fire fighters with their engine which had gone to Bath was ordered back immediately and left there for Woodstock about two-thirty this morning.

The fire was got under control, however, at 3 a. m., having consumed the tannery buildings together with the office building which is situated across the street.

The tannery plant took in the upper leather and sole buildings of J. D. Dickinson & Son, and their loss is about \$90,000 insurance. The upper part of the office building was used as a dwelling.

PARLIAMENT'S JURISDICTION QUESTIONED QUEBEC HAD SERIOUS FIRE YESTERDAY

Special to The Standard.
Ottawa, Ont., June 9.—The question of the jurisdiction of Parliament over the White Pass and Yukon Railway and the right of the railway commission to deal with its tariff, was questioned by F. H. Chrysler, K. C., this afternoon during the argument of the complaint of the Board of Trade of Dawson, that the rates of the railway are excessive. He argued that the Canadian Parliament had jurisdiction only when the railway passed through two or more provinces or was for the general advantage of Canada, but if a Canadian company built a railway elsewhere Parliament had no authority.

In the United States there was jurisdiction over commerce but in Canada over work only. As there was a doubt he stated whether the Yukon as a mining district would exist ten or fifteen years hence he insisted that the railway would have been entitled at its commencement to draw from the revenue one-twentieth of the cost of construction each year in order that the railway might pay for itself during the period the district lives as a mining centre. The case is not concluded.

Started in Mill.

The fire started in the lumber mill and gained a great start through the employees endeavoring to get it under control without summoning the fire brigade. When the latter was finally called the flames had got a great hold on the place and were rapidly spreading to the surrounding property.

Soldiers Help Firemen.

Only the plentiful supply of water and assistance rendered by a detachment of men from the R. C. G. A. from the citadel enabled the firemen to control it when they did. On Prince Edward street the heat was so great that the rails on the C. P. R. track were expanded and the train due to leave at 1:30 was delayed for several hours. The damage is only partially covered by insurance.

HEALTHY FACTORS IN THE GROWING OF GRAIN THROUGHOUT CANADIAN WEST

Winnipeg, June 9.—The new wheat crop in the west, and the progress which is being made by the growers generally, has been an atmosphere of doubt in some of the rural sections as to the effect of the late seeding and it was considered possible that the plant would be heavily handicapped by the delay.

Some time in the spring of every year, and usually in May, the anxious farmer and the farmer's wife comes off all right the country will be established on a firm basis, and everything will be all right.

Heat is not the only tonic which the infant crop requires, and it is pleasant to be able to note that supplies of water have been abundant and well distributed.

Optimism is increasing. The most marked development in the crop situation has been the change of popular sentiment with regard to the outlook.

Did Nothing Of The Kind. But being comparatively ignorant of paleontology, the two fishermen did nothing of the kind, not knowing that there was a chance of establishing beyond doubt forever the existence of the common or garden sea serpent.

In this manner the two mariners accounted for the fact that a heap of bones and a lively recollection were all that they brought from Montauk to the sea serpent they captured.

GIRLS SPACE IN JAPAN IS A HUMBLE ONE

Boston, June 9.—Dressed in a blue and white silk kimono for which her mother in Tokio had grown the silk worms and spun the cloth, Miss Imura spoke on "Japanese Customs" at the Boston trade school for girls yesterday afternoon.

There are five important points in the education of a Japanese child, said Miss Imura. "He is taught loyalty to the Emperor, patriotism for his country, obedience to his parents, respect for his brothers and sisters and sincerity in his friendships."

SAINT JOHN, THURSDAY MORNING, JUNE 10, 1909.

HOW THE FEDERAL GOVERNMENT BLOCKS THE VALLEY RAILWAY.

So far the progress of the Valley Railway project has been blocked by the inaction and reticence of the Dominion Administration. The Federal ministry has before it a distinct proposition of the Hazen Government. This offer has neither been accepted or rejected. It has not even been answered.

The situation is this. A large delegation from the districts locally interested in this project waited upon Mr. Hazen and his colleagues. The Premier met the delegates frankly, telling them what the Government was ready to do. Mr. Hazen stated that the Government was ready to guarantee bonds of the Valley Railway to the extent of \$25,000 per mile, provided the road would be taken over and operated as part of the Intercolonial system, the Government allowing forty per cent. of the gross earnings as a rental for the railway. This is the percentage that the trunk railway systems usually allow to the owners of branch lines operated under lease by the trunk roads.

Mr. Hazen's proposition was naturally satisfactory to the delegates. It provided not only for the construction of the railway, but for continuous and effective operation, with reasonable traffic rates, and with all the resources of the Government behind the operators. It proposed to establish a close connection between the St. John Valley and the territory served by the Government railway system, giving direct traffic relations with all the great centres of population and traffic in this country. It also gave the province a substantial security against loss by the guarantee.

It was for the Dominion Government and its Department of Railways to speak next. The delegates lost no time in proceeding to Ottawa with the proposition, and the assurance that acceptance by the Department of Railways would ensure the commencement and conclusion of the enterprise. Sir Wilfrid and his colleagues listened with apparent interest. They promised consideration. That was the last heard directly from them.

But some time after, F. B. Carvell, M. P., who is not a minister, and who may or may not have been authorized, gave out a statement, which professed to be authentic. Mr. Carvell said the Government at Ottawa could not take up the matter without further particulars. He did not say what information was desired. Mr. Hazen's statement about the guarantee of bonds was plain. The question of route would be a matter to settle, but if the Intercolonial was to operate the road the Department would have more than any one else to say on that question.

All sources of information are as much open to Ottawa as to Fredericton, with the additional element that the Federal authorities are responsible for railways that are for the general advantage of Canada. Instead of sitting still and waiting for information concerning a project of Intercolonial extension it would be the business of the Dominion Government to get after all the particulars required to reach a decision, or at least to give the answer that was promised to the delegates.

But the Dominion Government has neither accepted or rejected the Provincial proposition. Mr. Pugsley has not shown the slightest interest in the matter since it took a practical form, though he was never tired of talking about it when the scheme was in the air. The Government at Ottawa has played the part of the dog in the manger. It has done nothing, and has not given an answer one way or the other which would enable the Provincial Government to do something.

And so the Hazen Government has appointed a committee of its members to go to Ottawa and see what the Federal ministry and its Railway Department propose to do. If the Laurier ministry needs further information, this committee will give all the particulars in sight. The hope seems to be that in some way the Government at Ottawa may be led to take up the proposition to lease the Valley line. If that fails it is perhaps not too much to expect that the Federal Government will declare its intentions, so that the Government of the Province, and the districts most interested in the enterprise will know where they stand.

A negative answer would enable the Provincial authorities to give their attention to other plans. Mr. Hazen has announced on several occasions that while he preferred the lease to the Intercolonial, this was not the only method by which the Valley Railway might be obtained. There are other practical plans which the Government would consider if this Intercolonial lease should be rejected by Ottawa. They have been submitted to Mr. Hazen and his colleagues, and are worthy of consideration. But it is obvious that they cannot be taken up by the province, until the Federal Government gives its decision on the offer made three or four months ago.

Thus the Federal Government blocks the way. Surely this obstruction should now be removed. The Minister of Railways should himself know, or be able to find out, whether he is prepared to operate the Valley Railway as part of the Government system. It is not so hard a question to answer that it should block the enterprise for the rest of the year.

MR. PUGSLEY AND JUDGE LANDRY.

The Telegraph assures us that the Acadians of this province have found other leaders quite as capable as Judge Landry ever was of defending their rights, and speaking their wishes. Therefore the Telegraph seems to think it is quite proper for Mr. Pugsley and his organs to fall upon Judge Landry, accusing him of falsehood, malice and all sorts of low personal and party motives. It is true that there are Acadian leaders

younger than Judge Landry, but it is a mistake to suppose that the Acadians have forgotten their first and greatest champion. The advance of other worthy Acadians, like the present Minister of Agriculture, does not weaken the affection or diminish the respect that is felt for Judge Landry, or make it any safer for a minister of the Crown to charge him with the gravest offences of which a man in Judge Landry's position could be guilty. Mr. Pugsley and his organs have not only tried to do a great wrong, but they have made a serious political mistake. The New Brunswick public man who makes reflections on the integrity of Mr. Justice Landry, injures himself more than he does the Judge.

WELL DISPOSED TOWARD UNION.

The resolution adopted by a majority of nearly four to one in the Presbyterian General Assembly is as near a declaration in favor of church union as the church is now in a position to make. It refers the question with the doctrinal statement and the plan of church government to the presbyteries and sessions for consideration. Next year the Methodists of Canada will meet in general conference. While the Presbyterians meet annually in their court for the whole Dominion, the Methodists assemble once in four years. Some declaration will be made at the next gathering. Meanwhile both Methodists and Presbyterians will have become more familiar with the basis of union in respect to doctrine, form of worship and church government, and after the Methodist deliverance, if it is favorable, the Presbyterians may continue their deliberations until two years from now, when a pronouncement may perhaps be made.

While it is not likely that Presbyterian leaders stand four to one for union, it is evident that a large majority are in favor of proceeding with the movement. Those who wished to bring the negotiations to an end voted for the amendment to bring forward a federation enterprise. The adoption of this resolution would have confined the whole issue and removed the union movement outside the sphere of practical operations. Promoters of the amendment have since shown their hostility to union by a direct protest.

FOREST FIRES.

In spite of all that the vigilance of land owners can accomplish, forest fires are destroying timber all over the continent. The loss is not confined to the woods. Half the busy and prosperous town of Presque Isle in Maine has been swept away. At the time of writing, the New Brunswick town of Bath is the scene of a desperate contest between the fire and the fire-fighters. The latter can work to better advantage in saving a town than in saving growing timber. But there is no doubt that some of the plant used to protect a town from fire could be used to advantage to stop the progress of forest fires at roads and other spaces, where the engine or chemical equipment could be introduced. The destruction of a town may occasion more personal inconvenience at the beginning, but the burning of a large forest is the greater public calamity. Next year the town of Presque Isle will be rebuilt, largely with insurance money. But the traveller who crosses the path of the forest fire any time within half a century or so thereafter will find it a desolation.

ANOTHER EXAMPLE TO YOUTH.

The St. John organs of the late Provincial Administration have been going into hysterics because a York county member included in his list of school book vendors a trader who had been fined for violating the Scott Act. The recommendation was made in ignorance of this record, and when the fact was recalled the right to sell school books was cancelled. Yet the Pugsley organs have filled columns with editorial discussion of the incident.

Right here in St. John was a school trustee appointed by the Government, and reappointed at the end of his first term. This member of the school board was convicted of selling liquor without license in a part of the city which is under prohibition. He was not retired from his position in control of the education of the St. John youth and it is not remembered that any of our valued contemporaries had a single spasm over the case.

SIR WILLIAM'S OTHER ENGAGEMENT.

Sir William Macdonald, the founder of Macdonald College, could not be present at the recent convocation, though Ste. Anne is only an hour's journey from Montreal. The old gentleman was said to be otherwise engaged. A day or two later it was learned how Sir William had been employing himself. A syndicate had bought at a large price a block of land and houses near McGill University and proposed to clear away the place for a big hotel. Naturally the university people did not like to see this huge building close to their grounds, and Sir William Macdonald, who has invested some eight millions in McGill, shared their views. So while the president of the University joined the Governor General and his party at the Macdonald College, Sir William remained behind and busied himself buying back the land for \$180,000 to present it to the University. Now McGill is safe.

Doubtless there were as many farms for sale in this province any time the last five years as there are now. Many of these have been left in common or added to estates of the neighbors. But now for the first time a serious and systematic attempt is made to bring settlers from the British Isles to farms, some of which are otherwise likely to become or remain unoccupied. The supply of farms in New Brunswick has for many years exceeded the local demand, because our farming population is flocking to the cities of Canada and the United States, or going west. The Department of Agriculture, which has been gathering information, has plenty of work cut out for it. The business waited some years for an energetic administration.

A good many journals publish whimsical notes of regret over the destruction by fire of valuable papers in the office of the Minister of Public Works. This loss may be serious, but it is nothing to the loss of documents and records by Mr. Pugsley a few years ago. The lost records of the Central Railway financial operations conducted by Mr. Pugsley himself, would keep the Ottawa fire busy a whole afternoon. Mr. Pugsley has many painful separations from his public records, and is getting quite reconciled to them.

There are 251 pulp mills in the United States. They use altogether 3,346,108 tons of pulpwood, of which 2,170,000 is spruce, and 670,000 tons of the spruce came from Canada. It will be observed that the Canadian supply kept 50 pulp mills in operation in the United States. It would not be a bad idea to have these 50 mills working on the side of the line where their wood supply grows.

Five ladies graduated this year from that traditionally masculine establishment, the Massachusetts Institute of Technology. One of these was a bachelor of arts before she began her five years' course in chemistry for the degree of master of science. The other four took the four years' science course in architecture.

Montreal is trying to raise \$300,000 to extend the principal Y. M. C. A. building, and establish two branches. The first day's canvass brought in \$62,656, which is said to be a record.

CHINA REJECTS ARBITRATION

London, June 8.—The newspapers print a statement that China has withdrawn definitely her proposal to refer to the Hague tribunal her difficulty with Japan concerning Manchuria and has notified Japan of her wish to reopen the negotiations. There is every reason to suppose that Japan will agree.

MR. PUGSEY'S VINDICATION. ON JUDGE LANDRY PROVES HIM DESISTUTE OF ALL PRINCIPLE

(From the Toronto News.) Minister himself, has been able to submit reasonable and honest evidence to show the errancy of the report. Much has been made of the typographical error which did not affect in any way the findings of the Commissioners. No one has explained where the \$124,000 went. Mr. Pugsey himself attempted it, but made a ridiculous failure. Concerning the one item of some \$40,000, he suggested two places where it might have gone, but the proofs belied him.

Unqualified Rubbish. Yet, although his miserable and fatuous denials have been shown in their true light, Liberal journals print such amazing and unqualified rubbish as this from The Quebec Telegraph: "Dr. Pugsey's four-and-a-half hour speech in answer will be memorable in the annals of Parliament. The only point made by the Opposition through Mr. Crockett was with regard to the application of certain moneys, and upon question of privileges at a later date. Mr. Pugsey disposed of this to the satisfaction of the House, showing that every dollar of the money alluded to went into the railway."

Decline of Liberalism. The Liberalism of 1896 which thundered against the Curran Bridge and the Louise Basin, has declined enormously when it can defend deals such as these which have been signalled by the activity of the House.

HOTEL MAN'S FINAL SESSION OF TEACHERS INTERCOLONIAL YESTERDAY

The attention of the Exchequer Court was taken yesterday afternoon with the case of John P. Legere, a Bathurst hotel keeper, against the I. R. C. J. P. Byrne, M.P.P., appeared for the Crown and M. G. Teed, K. C., for the applicant. The applicant is claiming twenty thousand dollars for damages done by fire. He claims that the freight shed at Bathurst, burned on the morning of the 25th of May, 1908, and caught his hotel about 75 feet away, and there caused almost total destruction and that the fault of the fire lay on the railroad officials.

Roof Leaked, He Says. Porter LeBlanc who is in charge of the roof of the shed was in a first class condition. The roof leaked and often the freight had to be removed to avoid damage. The eaves of the shed almost hung over the track. Cross-examined by Mr. Byrne, he said that the roof had been somewhat repaired shortly before the fire.

Mr. Legere on Stand. John P. Legere, suppliant, was next called by Mr. Teed. He said that for some time the freight shed was in a dangerous condition, and that on the 24th of May, the very day before the fire, he had examined the roof and concluded it dangerous. He was awakened about 2 o'clock on the morning of the 25th. At first the fire seemed to be confined to the western side of the freight shed, and he did not fear that it would spread to his premises. At first he assisted in getting some of the freight from the sheds; afterwards gave his attention to his own buildings. His property was totally destroyed. From his barn he only brought out an express wagon and a cow. The wind was blowing in the direction of his building on the night of the fire.

Mr. Legere gave evidence that he purchased the property in 1898 from Amos Gallant, and that Mr. Byrne had said that there was now a substantial three and a half story brick building on the old site with barns adjoining. Mr. Byrne asked the witness whether he was bringing this action in his own name or whether he was not acting in conjunction with insurance companies. Mr. Teed argued that no objection should be made now to such an understanding. His Lordship said that the defendant had not pleaded this so it could not now be brought in. Mr. Byrne said that he had not seen the papers until a few days ago. This closed the case for the suppliant, with the exception of one witness, John Cowan a carpenter, whom Mr. Teed said was to give evidence as to the condition of the freight shed roof. Mr. Teed asked that he be given permission to call Cowan later on in the case, as the witness was not able to be in court this afternoon. The first witness called for the defendant was Mr. Rolston C. Lawrence who was engineer in charge of the special train, which went between Campbellton and Newcastle on the night of the fire. Mr. Lawrence said that the conductor in charge was James Maloney. The train, which was a special freight, passed through Bathurst at 1.55 in the morning. They had a heavy train of about 25 cars, and at Bathurst had occasion to take in water and also to shut one car. Witness said that he did not see any sparks flying at Bathurst. He did not think that his fireman had occasion to shake down the grate in the engine between Campbellton and Newcastle. If any sparks

\$1,000 A WEEK WAS PROFIT OF STREET R'LWAY

Yesterday afternoon the fourteenth annual meeting of the St. John Street Railway Company was held in the corner Union and Dock streets. After transacting considerable routine business the following directors were re-elected: James Ross, president; Col. Hugh H. McLean, M. P., vice-president; R. B. Emerson, James Manchester, Col. J. J. Tucker, Wm. Downie, H. B. Robinson and F. E. Sayre, directors.

The Annual Report. The report of the directors for the fiscal year ending April 30th, 1909, as follows: "Your directors have much pleasure in submitting a statement of the past year's business, showing a net profit, after providing for the interest on the bonds and all other charges, of \$2,380.58, out of which your directors decided to declare two half yearly dividends of three per cent, amounting to \$48,000, leaving a balance of \$4,980.58, which has been transferred to the profit and loss account.

The roadbed, rolling stock, buildings and other property have been efficiently maintained. The agreement with the City of St. John for the removal of snow and repairs to streets has been renewed for ten years, dating back to the 1st April, 1908. This agreement now covers all our tracks in the city.

While the general business of the company shows a satisfactory increase for the last year, the net earnings from the street railway have not increased. This is due to the extra car service provided, and the loss in operating the street railway system on the West Side of the harbor. Respectfully submitted, HUGH H. McLEAN, Vice-President.

County Court Chambers. Assessment was entered in the case of D. R. Jack vs. H. A. Gibson, Mr. D. Mullin, K. C. Argument in the case of Hellenberg vs. Black was heard. Mr. L. P. D. Low in support of the defendant and Mr. Fred R. Taylor for the plaintiff. There is a review case from Judge Ritchie's civil court and at the trial in that court the defendant tendered a sum of money in full payment of the debt. The plaintiff refused to accept this and proceeded with the trial. When about half through the trial the plaintiff elected to discontinue. This was refused by both counsel. His Honor ordered the verdict set aside and non-suit entered. The examination of the defendant in the case of the Vaughan Electric Co. vs. Dominion Specialty Co., was adjourned until a future date.

YESTERDAY'S FUNERALS.

Ex-Ald. Hamm. The remains of Mr. J. B. Hamm, ex-alderman, were taken to rest in Fernhill cemetery, yesterday afternoon, 7 o'clock. The funeral took place from his son's residence, 114 Elliott Row. A large number of citizens attended the obsequies. Rev. A. B. Cobbe conducted the burial services at the house and grave. A number of members of the City Council were in attendance. The flag at City Hall was flown at half-mast out of respect for ex-Ald. Hamm.

CARNegie FOUNDED 1,800 LIBRARIES.

New York, N. Y., June 8.—Andrew Carnegie has founded 1,800 public libraries, representing donations of \$51,596,963, according to his own statement in the current number of Collier's Weekly. Up to December 31, 1908, the philanthropist says he erected in the United States, 553 libraries, with 208 branches, at a cost of \$34,770,745. England and Wales come second in the list with 229 buildings and fifty-nine branches at a cost of \$7,859,550.

All New Music at Nickel Today. The Italian Trio at the Nickel will enter upon their farewell three days with a programme of selections warranted to attract music lovers in large numbers. By special request two of their best successions will be repeated, namely: Suppe's Poet and Peasant Overture in xylophone trio and the national hymn, O Canada, on baritone, tenor and solo brasses. The other numbers will be popular medleys, concert selections and marches. Miss Jennie Evans is to sing a new American sentimental song, If You Were Mine, and the orchestra will change its bill as well. Last evening in spite of numerous opposing attractions the Nickel was largely attended and much interest was manifested in the show. The magnificent Pathe film d'art, The Hunter's Grief, was generally commended upon as one of the richest things yet seen here in motion photographs. The superb acting of the eminent Parisian players and the wealth of scenic detail was truly classic. Close was the American Vitaphone production, Sweethearts of Mine, a charming man-reverie in cigarette smoke and the comedy, An Obliging Friend, the farce of a hypnotist and a love-lorn youth. The Nickel will have some news of especial gladness for its patrons by tomorrow it is expected. Details are not yet adverted. Watch the papers and Nickel advertisements.

ST. JOHN HIGH SCHOOL VON MEET; FREDERICKTON 3 POINTS BEHIND; MACDONALD'S WORK

St. John High School is the proud winner of the second New Brunswick interscholastic track meet, pulling out yesterday afternoon three points ahead of Fredericton High School. The other competing schools, Rothesay College and Aberdeen High School, Moncton, did not make much of a showing. The scores at the end of the meet was as follows: St. John High School, 36; Fredericton High School, 33; Rothesay College, 13; Aberdeen High School, 10.

St. John High School deserves great credit for its victory, but Fredericton H. S. as runner-up deserves the same. The only four foot athletes from that school competed, and only three were point winners. Rothesay's strong event proved to be the hammer throw, which the Blue and White won by a wide margin. Places, scoring 8 out of its 13 points. As was expected Fredericton H. S. was strong in the sprints and jumps.

Nine Records Broken. The meet was distinguished by the breaking of nine records, all but one, that of Willis, of St. John, in the hurdles going by the board. MacDonald, of Fredericton, was responsible for four of the new records. Finley, of St. John, for two, and Walsh and R. Smith of St. John, and Hall, of Rothesay, for one each. The 100 yards dash was covered in 19.25 seconds by MacDonald, time which is not often made in this section in senior events. Walsh covered the mile in six seconds over five minutes, showing great reserve powers.

St. John Took Lead. Early in the meet St. John H. S. took the lead with Fredericton some points behind. MacDonald's great work in the broad jump and pole vault pulled down the lead of the local school and gave Fredericton the lead. Great Excitement. There was great excitement when the quarter mile was run, and Finley of St. John won the event with MacDonald only third. It was then evident that everything depended on the mile run and the hurdles, as the two St. John runners passed him. MacDonald's showing in the first heat of the last named event was an indication that he would take first place.

MacGibbon Protested. St. John High School protested MacGibbon, of Fredericton, on the grounds that he was not properly entered. It is not likely that the protest would hold if pressed and it is likely it will not.

Individual Work. Eric MacDonald, of Fredericton, was the star of the meet, winning 29 of Fredericton's 33 points. He has a great future before him as an athlete. Fred Finley, of St. John, also gives promise of some great work when he drops lower. He scored 15 points for his team. The individual scores were as follows:

Table with columns: Event, Name, School, Points. Includes 100 yds dash, 200 yds dash, 400 yds dash, 800 yds dash, 1 mile run, 2 mile run, 5 mile run, 10 mile run, 1/4 mile hurdles, 1/2 mile hurdles, 1 mile hurdles, 1/2 mile pole vault, 1 mile pole vault, 2 mile pole vault, 4 mile pole vault, 1/4 mile shot put, 1/2 mile shot put, 1 mile shot put, 2 mile shot put, 4 mile shot put, 1/4 mile hammer, 1/2 mile hammer, 1 mile hammer, 2 mile hammer, 4 mile hammer, 1/4 mile ball, 1/2 mile ball, 1 mile ball, 2 mile ball, 4 mile ball.

PUGILISTS DESERTING NEW YORK FAST TIME IN ROAD RACE AT CHATHAM

New York, June 9.—Boxing is on its death bed in New York. An air of uncertainty hangs over the head of every club whenever a fight that takes on national prominence is billed, for the police is ever ready to swoop down on clubs to stop the 10-round bouts allowed by law in legitimate clubs. No better evidence of the decadence of the sport can be add than the fact that the promoters of fights who have made New York famous pugilistically during the last several years.

Exodus Now On. However, the ban seems to be put on them, and to the exodus goes on and the western lovers of boxing get the treat.

The start in the series will be the Monte Attell-Franco Neill scramble, June 19, a 25-round go. Then comes the 45-round Leach Cross-Dick Hyland go at the Mission street arena. Directly following that, Battling Nelson fights Johnny Tompkinson in a 45-round fight at 133 pounds ringside, July 9. Papke and Ketchel are being matched for the middle-weight title at 168 pounds, July 5 being the date talked of for the go. Then comes the heavy weight fight between Kaufman and Johnson, which will take place the latter part of July or September 6. This match is of all probability go to California, too.

Others Who Will Be There. Besides the above mentioned, among the local talent who will appear in western bouts are Corbett, Keyes, Nell and Frayne. Ketchel will skip out after his engagement with Jack O'Brien, next Wednesday night, and then, after a few weeks, Jack Johnson will pack his grip.

WITH THE FIGHTERS. Stanley Ketchel announces that immediately after his bout with Jack O'Brien he will start for the Pacific coast to prepare for his battle with Billy Papke.

Pittsburg promoters plan a big tourney of all-star bouts when Jeff and Sam Berger appear there in an exhibition June 15. One of the first of the special attractions will be Tommy Murphy and Jimmy Dunne and Johnny Glover against Young Zerlinger. Other cards of equal strength are being arranged.

Every prominent boxer in Philadelphia will take part in a series of field events Thursday, the proceeds going to swell the fund for the Doc Powers memorial bed.

The bout between Jig Stone and Dutch Carr at Charlestown will be held Thursday, instead of Wednesday, as announced. The preliminaries will complete the programme.

Ed Wojcag proved that he is a high class performer when he stopped Tommy Lennox in such a hurry at Philadelphia.

Friends of both Jim Kendrick and Johnny Coulson are desiring for the pair to meet at the Army A. A. before the summer is over. Either might do against a home boy, but up to date pairs of strangers have failed to prove strong attractions at the club.

SAFE HITS. George Van Haltren has been handed his release by the Oakland Pacific Coast league team, of which he was manager until deposited recently. Van Haltren is undoubtedly out of league ball. He was one of the greatest in his time.

The New York Americans have sold infielder Joe Ward to the Philadelphia National league club at a price unstar-

CITY TEACHERS OFTEN BUY SHOES AND CLOTHES FOR DESTITUTE BOYS AND GIRLS; SOME PATHETIC FACTS

"You have no idea what hard times some of the children have," said the principal of one of the city schools to The Standard. "One day I was called by a lady teacher in my school to deal with an unruly subject. I went to the boy and was talking with him and saw his bare toes through holes in his boots. It was winter and in answer to my question he said these were his best boots. We got him new ones, and he was a much better boy afterward."

INTERESTING ADDRESS ON WORK IN COREA

In the St. John Presbyterian church Dr. Kate McMillan, a returned missionary from Corea, gave an interesting address on her work there. She read extracts from letters she has received from her co-workers since her return here. Being engaged in medical work, which covers in a field of 200 square miles, Dr. McMillan is able to get into the homes of the natives and learn their ways, thereby making the path smoother to carry on the missionary work.

TUBERCULOSIS LITERATURE TO BE PREPARED

At a meeting of the Board of Health held yesterday afternoon, the requirements of the amendments made to the Public Health Act, at the recent session of the Legislature, were discussed and arrangements were made for their fulfillment. The amendment called on the local Board of Health to prepare literature on tuberculosis, and have it distributed among the patients, in order that the nature of the disease and the best possible things that could be done for the patients' welfare might be made clear to them.

FINLEY BLDG. HAS CHANGED OWNERSHIP

Mr. Edgar S. Reade, of Ottawa, formerly of St. John, has purchased the four story building on Dock street, known as the Finley block. The building is to be rented to a manufacturing concern which is being brought to the city. It will take possession about July 1. This is perhaps one of the best business locations in the city of St. John, a location in which the property values are steadily increasing. The building is being painted and refitted for the incoming occupants.

THE MYSTERY OF A PAIR OF TROUSERS

That the depths of friendship are sometimes hard to sound is the conclusion reached by a North End man who had an experience a few nights ago with one of the Good Samaritan Brotherhood. On the night referred to, which fell on a Saturday, the North End man arrived at a late hour in a tailor shop at which he was having a suit of clothes made. He had either accumulated an early jag, or had miscalculated the effects of the new regulations, for he was sailing about three sheets in the wind.

MORE RED TAPE FOR CANADIAN PASSENGERS

ECZEMA

To anyone who is suffering from Eczema, words of description are useless—the only thing of any interest whatever, is how to get rid of it and how soon. Eczema presents itself in a variety of hideous forms, and all cases do not respond to the same treatment. We do know, however, that Nyal's Eczema Ointment freely used at night, and Nyal's Eczema Lotion by day, will bring the most grateful relief from the intolerable itching. Persistent use of these two remedies will cure almost any case. 50c each.

REV. DR. PRINGLE AND COMPANY VICE TO

Special to The Standard. Hamilton, June 10.—Rev. Dr. Pringle, of Sydney, N. S., main reputation as the stormy petrel of the Presbyterian Church, is now announcing another series of expository sermons to be given in the Assembly here this month. He has returned to the conditions of the Province, which do not seem to have improved very much, according to his statement. He has returned to the conditions of the Province, which do not seem to have improved very much, according to his statement.

This year it was different, a commissioner and he could score a bullseye. To unmask political corruption he deemed it one of the duties of his office to also want to against the belief of public servant who drunk and stole from public purse was not al. He was just as thief as the criminal magistrates sent every day for stealing.
