Toronto, April 25.-Judgment for sums totalling \$5,080.70 has been awarded by Mr. Justice Ross in favor of the Imperial Bank on promissory notes made by four London men. The judgments are as follows: Against E. R. Dennis for \$1,053,69:1 against J. Cameron Wilson for

\$1,908.74; against T. H. Yull for \$1,059.82, and against George A. Wenige for \$1,058.45. The claims of the defendants against J. Hoidge and Bancroft Marbles, Limited, as third parties, are dismissed.

The defendants contended that the notes were given for the develop-ment of a power plant at Bancroft by

the quarries, and that there was to be no liability upon them till tain amount of capital had been raised. In any event, it is alleged, the notes were only held as collateral for a loan of \$85,000 by Hoidge to the marble company, upon which liability had not yet arisen.

From Cleveland To Port Stanley. NO TRACE OF TWO PORT STANLEY MEN FOUND

Special to The Advertiser by a Staff Correspondent.

Ericau, April 24.-Part of what is believed to be wreckage of the Ada May Belle, missing since Sunday night, was picked up today by Captain Norman McCauley of the steam fishing tug Thisde.

The wreckage appears to be part of a cabin roof. It is about ten feet long and three feet wide, and attached to the wood is an air tank, an air gauge and an air whistle. The canvas is gone from the wood, but the underside of the piece is painted white and the air tank is green. No name of any sort is found on the wreckage.

The debris was found about 27 miles south and west of Erieau at a point about 20 miles off shore, and about 30 miles west of the route followed by boats from Port Stanley to Cleveland.

Captain McCauley spent about two hours searching for further wreckage or bodies, but found nothing. He arrived in port about 5 this afternoon

Bessemer Finds Nothing.

Captain Vanbuskirk of the Bes-semer reported today that he and his crew had kept a careful look-out for wreckage and other signs of the lost boat, but they had seen nothing, although their route takes them near the place where the body of Knaggs was found.

He is surprised that experienced take men would have started out or Sunday with a boat like the Ada May Belle, when storm signals were set and quite a sea running. He says that he had great difficulty in getting the Bessemer into Port on Sunday, and the wind kept him away from the landing for several hours

after he was in the harbor.
Captain Vanbuskirk is of the
ppinion that the finding of either the body of Knaggs or the wreckage cannot be taken as an indication of the possible location of the boat or the place where the other bodies may be found, because of the peculiar currents which are developed during a heavy blow and after the wind drops.

## INDIANS DID MUCH

Tribute Paid Red Men by Dr. J. Coyne at Political Science Banquet.

That the Indians of Ontario have contributed materially to the development of Canada was one of the chief points brought out by Dr. James H. Coyne, M.A., LL.D., F.R.S.C., member of the historic sites and manuments board of Canada, who was the guest of honor and speaker at the fourth annual banquet of the History and Political Science club of the University of Western Ontario, held at Smallman & Ingram's tearooms last night.

Dr. Coyne, who is an authority on early history of the country, said that present-day people are inclined to discount the importance of the early Indian settlements. He pointed out that at one time there were as many as 80,000 Indians living in On-tario. Certain districts are more thickly settled by Indians than by whites today. This was true of the region about Lake Simcoe.

It was an Indian, Eli S. Parker, a

### Prince Takes Refuge In Verse To Escape Wooing of Mermaid

Wales Ability (?) As Poet Saves Him in Embarrassing

Moment. HIS LINES FOLLOW

By G. WARD PRICE. Special Correspondent of The Advertiser. (Copyright.

Aboard H. M. S. Repulse, April 24.-The verse addressed to the Prince of Wales by Father Neptune when he offered the prince the hand of his mermaid daughter, at the ceremonies attending the crossing of the equatorial line and the prince's rhymed reply, became known today, The mermaid princess looked like a green Egyptian mummy. She had a long, fishy tail, and her fishiness was enhanced by fingers as deeply

Receives the Mermaid.
"O Prince of Empire," perorated

"We've lovely daughter, Fair as the moon, As you've no princess,
Don't you think you oughter,
Take home a bride A daughter of the sea?"

Supported by a strong paternal arm the mermaid then flopped awkwardly forward after the manner of a newlylanded fish.

The prince received her with an engaging smile and then, drawing from his pocket a crumpled manu-script, broke into the following poetry of his own composition.

"Thanks, King Neptune for your greeting,
And the welcome you bestow; This is indeed our second meeting And your queen I also know.

Now, sire, thank you for your kind suggestion, suggestion,
About your beautiful princess,
But may I ask you just one question,
Where in hell did she get that
dress?

But, alas, I'm forced to spurn her, Though your offer makes me proud; Yes, my king, I must return her, Pets on board are not allowed."

Bears Howl Appreciation. Howls of appreciation from Nep-tune's bears greeted this royal lyric, and Neptune, every scale quivering with emotion, forthwith hung around the prince's neck a collar of the grand commander of the seven seas.

Girls, Choose the Man You Love.

A young woman wants to know whether it is better to marry the man she loves, or the man who

Both, I should say. Marriage should be a mutual benefit association in which both parties give and rarely holds the scales even. other. In almost every couple one kisses and the other submits to being kissed, as the French proverb cynically puts it.

This being the case, it is better for the woman to be the kisser than the kissee, because, while it is a misfortune to a roman never to be loved, it is a tragedy to her never to love.

Of course, every woman desires to dreams of having a husband who will e a perpetual lover and spend his life laying tributes at her feet. She feels that she would be perfectly happy doing the goddess-on-a-pedestal act, and occasionally deigning to beone throws a bone to a dog.

The trouble with them, was that they had married men who loved them instead of men they loved. If they had been doing the love-making and trying to hold the affections of husbands whom they suspected every flapper was trying to steal from them, they would have been too busy, too thrilled and interested to get into mischief.

There are many reasons why a woman who is contemplating matrimony should lay greater stress upon the state of her own affections than she does upon the man's. The principal one, of course, is because a woman is ten times as much married to her husband as he is to her, and therefore it is ten times more important that she should be pleased with her bargain than it is that he should be satisfied with his.

Safe Fat Reduction

Why be fat? The answer of most fat people is that constant dieting is hard continual exercise is tiresome and exhaustive—and then, too, it might be harmful to force the weight down. That was the old-fashioned idea. Today in Marmola Frescription Tablets all these difficulties are overcome. Just a pleasant little tablet after each meal and at hedtime causes fat to vanish. This modern method is easy, entails no cletting or exercising and has the added advantage of cheapness.

SOME "SNEAK IN"

By EDITH BRAUN

New York, April 25 .- It may sound surprising to the reader with no experience of metropolitan society, that entertainments on a great scaledances, receptions with musicales. etc.—may be held without the issu ance of formal invitations. All o the many guests may be invited entirely by telephone.

I do not say that is the rule, although a frequent occurrence in the case of smaller entertainments.

The great use of the telephone. which dispenses with the written response, sometimes complicates matters. There is a young woman of one of the "highest" families, who gave a dinner dance for a girl popular in society, her flance and attendants. She knew, of course, how many quests there would be to dispense. ants. She knew, of course, how many guests there would be at dinner, but of those who accepted the telephone invitation to come after theatre to dance, she was not sure, and her instructions to the town house chef were that she expected about a hundred, but a hundred and forty might come in, so he must be prepared. Actually one hundred and sixty-face.

prepared. Actually one hundred and sixty-five appeared. Of course, this was a small affair. I know of one dance to which thirteen hundred invitations were sent out, and the cher's supper checks (this dance was given at a hotel) exfriend. Most of the extras were peo-ple who were not invited at all. There is quite a practice of sneaking in at big society affairs when strict rule of showing cards is not

Always Has a Reason. A big dance always has a reason ack of it beside the wish of the host and hostess to entertain. It is given in honor of a visiting relation, or a in honor of a visiting relation, or a debutante daughter, or a celebrity visiting the country, or a princely personage from Europe. The host and hostess have a receiving party made up of close friends. The person honored is included in the receiving party and the guests are introduced to him or her as they arrive.

This receiving party and the guest of honor stand at the top of the grand staircase or near the door of the main reception-room. The butler announces the guests as they enter the reception-room—first whispering to ask them who they are, if he does

not know them.
In case there is no announcement the guests' arrival, and the host and hostess are busy with other guests, there never is much awkward. ness about the reception of a guest, or his introduction to the person being honored, if he is a stranger to others in the receiving party. He either mumbles his name to a member of the receiving party or steps up and shakes hands with the guest of honor, quite unabashed by his lack of identity.

Work Themselves In.

At an affair at which there was no the guests an Italian count whom she thoroughly despised and purpose- ly had not invited. He came up to dance with her and she refused. Then she sent a friend to him to ask him to leave the house at once. He protested that he had been brought there by a quite well-known young man, who was a friend of the girl. Of course, he did leave, and it was later found that he had not come with the found that he had not come with the friend, but had insinuated himself into the dance. Occurrences like Fox.

this are quite frequent.

Some of these unwelcome visitors are fortune-hunting foreign noble-men; others, socially ambitious persons. But there are interesting exceptions. A Danish baron, recently in New York, was invited to a dance and when he came to greet the hostess he had his sister with him. She had not been invited. The hostess she had not been invited. The hostess did not have any idea of her existence. The baron explained that he was anxious to introduce his eister, but the hostess, who happened to be an assertive young woman, was not effusive in her welcoming and treated the sister quite coldly during the evening. Neither the baron nor his sister will ever see the inside of that house again!

A funny look crossed Reddy's face "Oh, so you haven't any family." "Mrs. Jimmy hasn't any family either. She is living by herself under Farmer Brown's henhouse, and she seemed very well the last time I saw house again!

### Stand for Hour.

The receptions preceding a big dance begin about half-past eleven. Dancing starts about the same time. The receiving party sometimes stands as long as an hour until most of the

society—that is the annual charity ball. The dances in vogue now are the fox trot, one-step and the waltz. the fox trot, one-step and the waltz. The latter is becoming more popular

A reception without dancing, which mostly takes place in the afternoon, has music for entertainment. At these afternoon functions the formula is quite the same: nouncement of the guests, the presen tation, and the handshake. There are "at home" receptions, with music, at which there are no receiving party nor announcements nor presentations. A guest may arrive and spend half an hour listening to the music before greeting the hostess during the re-

freshment period.

Dr. B. S. McGhie, medical superintendent of Westminster hospital, was the special speaker at Thursday night's meeting of the Ryerson Mothers' club, addressing the wo-men on "The Prevention of Nervous Diseases for Children." Dr. McGhie's address was very in-

Self-control and mental habits must also be developed in the child, and a youngster should not be allowed to get into fits of temper. ### Eating and Paying for It.

W. D. Euler, M.P. for North Waterloo, chairman of the railway committee, is asking querout on the road.

The member for North Waterloo was particularly interested in knowing about how much money was made from meals in the dining cars how much a meal should cost. No doubt he has often figured it out on the back of an envelope board bill. and knows just what it costs to finance the family silo for a given period. So he would apply the same ratio to a dining car, plus the shouldn't the picnic car pay?

But Sir Henry Thornton says it does not, have had no effect. and Hon. George Graham drew from his railroad two systems used, the table d'hote and the a la carte. The first idea runs on the plan that the given meal at a given price, guaranteed to be sufficient to keep body and soul together until it is time to eat again. It's a hard and fast sort of arrangement-if the cook puts down roast beef and Irish stew for the day it's no use asking for pickled hocks or T-bone steak. George Graham says this plan is a failure because people, knowing they are just going to pay a given price, order everything in sight, eat some of it and muss up the rest so that it can't be served to the next traveller. It's just the same habit that causes a man to sit down to a 50-cent meal at a country hotel and between times eat all the soda biscuits and pickles and fill his pockets with toothpicks. So the table d'hot?

The same can be said of the a la carte, a system by which the diner can pick and choose eat oatmeal and mackerel on the kitchen table platter and leaves the odd quarter for the waiter. light.

There's really not much justification for the people at large, 99 per cent of whom never see the inside of a dining car, putting up deficits for those who use the service but do not pay who wear balloon trousers to keep from sticking at least. Yours truly, enough to make it break even.

Those "indulgent parents" may have read that young man's diary after it became public property; they may have uttered a semi-sympathetic "too bad," and allowed the incident to end right there. But the responsibility does not end there; it is one of those things that cannot be easily brushed aside. The trail is very clearly marked and it leads from the family purse of tions. ### Mutual Investments Help Men Sleep at Night

HE MUTUAL LIFE OF CANADA has had the benefit of shrewd, far-sighted counsel in the placing of its investments. Government bonds, Municipal bonds and debentures and such securities form a very proportion of the total investments of the Company. Many of these, purchased during the war period and its aftermath, will yield high interest for long terms to come.

The strength of these selected investments means absolute security for Mutualists. The profitable income they assure lowers the cost of Mutual insurance, because under the Mutual principle, the entire net profits are paid back to policyholders.

Let us send you the Mutual Book which explains in full detail.

### Active Worker In Organizations

A member of many fraternal organizations and clubs, A. J. Morgan has been actively associated with the London Rotary club since its first year here. When the Hobby Fair was started by this club it was by his endeavors and insistence that pet stock and poultry be included as part of the extensive program. Mr. Morgan is this year director of the natural history department.

Mr. Morgan has been a continuous exhibitor at the Western Fair for many years, having put up his first exhibit for the Hobbs Hardware Company in 1889 and has continued exhibiting ever since he commenced business for himself. His enormous exhibit last year in the agricultural building was considered by many as the finest on the grounds. He exhibited at the Winter Fair, Guelph, from its inception, and many years at Toronto and Ottawa, until business demands became such that he had to give up all out-of-town exhibitions. He states that it was at these shows that he became acquainted with a large number of persons from all sections of Canada, who now are friends and supporters of his

### Bang of Hammers Sounds Across the Empty Stage of City's Oldest Theatre

Ghosts of Famous Past Disturbed by Workmen-End of Majestic.

ONCE MORE POPULAR

First Theatre To Have Movies Will Now Be Bowling 'Alley.

There was a bang, bang of hammers, rip and tear of woodwork and crash of dismantled scenery on the stage of the Majestic theatre this morning, on which once strode the proudest of vaudeville entertainers, the greatest of actors and singers.

London's oldest playhouse is now undergoing process of transformation to become a newer, more modern building to provide diversion of a different variety.

Above the din of wrecking, and in spite of the storm-struck appearance of the interior of a theatre which once provided a city's amuseent, workmen this morning recall feet danced across a stage to

rhythm of gay music and to the de-light of a mirthful audience. "Was this a theatre?" they asked themselves, and an old-timer replied: "It was, and the most popular of them all."

It is no longer a theatre. It is a

Your mind and body can be depended upon to give quick and sure response to the duties and demands of daily life. Once gone, the right way—piles will not come back every few weeks.

The most important part of the Page System for the treatment of piles is the little Page Pile Tablet, and you will enjoy chewing one or two after meals. This reaches the inside where the real trouble is. The treatment also includes a wonderful ointment for temporary use while the tablets are taking effect and a bowel regulator.

This system for the treatment of Piles is the result of twenty-five years' experience with every form of piles, carrying the indorsement of thousands who tell of the riddance of piles. It goes further than a treatment prepared to give relief for the moment. Its purpose is to stop piles permanently by treating them from the inside instead of the outside.

Take the time now, forget all that you have tried or thought of trying-sign the coupon and prove the truth of these statements to yourself. Remember, the treating of piles from the inside instead of the outside has been thoroughly proven. It heals. Read the letters on this page. Note the years that others have suffered and then found health and happiness. Many who followed this treatment twenty years ago still report not the slightest trace of returning piles. Many who have taken just the trial package have been healed. Note that a patient with a case of bleeding piles for twenty years is reported as completely healed after taking the Page Internal Treatment. Surely a remarkable case.

Letters come to us daily just like these you read on this page. We have enough of them in our offices to keep you reading for many days. Yet the proof is what the Page Internal Treatment can do

E. R. Page, Marshall, Mich.

Dear Sir: I am glad to say your Pile treatment has rid me of this terrible disease. I have suffered agony for about three months and never was able to find anything that would relieve me. When I began using your treatment I was not able to do my housework nor eat anything. If I did I would almost have convulsions. But now I can do my housework and can eat anything I want and I can just lie down and sleep all night. You can tell the world I am willing to recommend your remedy to anyone who wishes to know what to get for Piles. I will gladly refer them to E. R. Page, Marshall, Mich. I extend to you many thanks for the healing in my case.

## When London Had No Movies-Sallie Holman Was An Idol Before Mary Pickford Was A Star

Famous Actress of Other Days Compares Present Plays and Players With Stage Successes of the Early Seventies - Does Not Believe Public as Fond of Opera and Music Now as in Days Gone By-George Primrose, Gene Lockhart and Others Made Their Debut in London

> By JAMES P. DUNN. Illustrated by H. B. West.

In the audience of a London theatre the other night was an elderly lady who watched with trained appreciation and listened to the rhythm of the music with obvious pleasure and little critical nods of her head.

When the play was finished she left with the rest, stopped a moment to congratulate the manager on the show, and moved on into the street, musing on the change that had come over the stage in London in the last two decades.

It was Mrs. "Allie" Holman, the Blanche Bradshaw of the old Holman opera troupe, the last remaining member of that company which in the seventies and eighties was London's stock company, with a reputation that reached from coast to coast, and from Canada to New Orleans.

Of all the famous Holmans, this old lady is left alone in London, living in the work of her son Arthur, who has a successful stock company in Brockton, Mass., and in the realm of the stage as she sees it in London's theatres from week to week. The old love of "the profession" burns brightly in her heart. She never misses a performance, and the Billboard, that fascinating encyclopedia of theatrical news, is her constant

Londoners of the younger generation do not know her. She passes them on the street seeing the London of her triumphs rather than the city of today. Only in the world of the theatre is she actively interested.

comedy, or a drama. Sometimes a movie attracts her, though seldom. She compares them with the opera house that stood at the corner of York and Richmond in the seventies and with the plays produced there.

### Born in England.

The Holman opera troupe, which settled in London about 1873, originated with Harriet and George Holman, the parents of Sally and Julia. Both were born in England, Harriet at Portsmouth and George in Northamptonshire. They were married in New York, where they played for some years in the old Hope chapel, Burton's theatre, Tony Pastor's theatre, and in Barnum's

Together with Mr. and Mrs. Seaquin, they played the first recorded performance in America of Balfe's opera, "The Bohemian Girl," which the Seaquins had brought from England. Harriet played the Gypsy Queen, a part which subsequently became a favorite with her.

Harriet Holman, who was a Jewess, was a woman of extraordinary ability. It was said during her lifetime that she could sit down and play the scores of forty operas without the

music, and no one was ever found to deny it. The company played in the Royal Lyceum theatre, Toronto, for some years, and moved to London in 1873. Sally Holman was the prima donna of the company at that time, George was the business manager as well as an actor, and Harriet was stage manager and director of pro-

ductions. Sally, who was a short, slim girl with golden curls and large, deep brown eyes, was an actress of great versatility. It was quite common for her to play two entirely different parts in a matinee and an evening performance on the same day. She had a glorious mezzo-soprano voice, rich and flexible, which many older Londoners remember with pleasure. While she reigned as prima donna her name on a bill was sufficient to draw full houses every night in any city in America. Later she married Jim Dalton, of the old Emily Soldine opera company, a man with a glorious baritone, and a pupil of Santley's. He was an Englishman. Sally died about 1888 or 1890, and it was then that Blanche Bradshaw, the Mrs. "Allie" Holman of today, became prima donna of the company. She was gifted with a clear soprano with a natural trill, of which London and the singer were mutually

The Holmans lived in what was called "The Cottage" on Talbot street, which was conspicuous for the "bird room," a room in which George Holman had arranged stuffed birds in glass cases. This collection, which was afterwards sold to the government and installed in one of the avernment buildings at Ottawa, contained ago.

Here is the old bill in which the Holmans said good-bye to London

a specimen of every bird in the dominion, and each bird had been shot by Mr. Holman himself.

### Company Disbanded.

With the death of Harriet about 1898, the company was disbanded. It had contained such singers as Ellis Ryse, an English bass: Brookhouse Bowler and Joseph Brandisi, both tenora, and had introduced the operas of Gilbert and Sullivan and a host of light operas to America and Canada.

Then there was James Percival, the leading female impersonator of his day, who still lives in London. He was with the Holmans for a number of years as a special turn. It was Harriet who trained him and who developed his voice. His stage name was Harry Germaine.

Detroit was ever a welcome stop for the Holmans and on one occasion Sally, having given a benefit performance there for the Detroit Light Guards, was made the first and only woman honorary member and presented with a diamond-

Blanche Bradshaw was the daughter of a mother brought up in the profession. Mrs. Bradshaw, although a Quakeress, was a talented actress, and a woman of much capability.

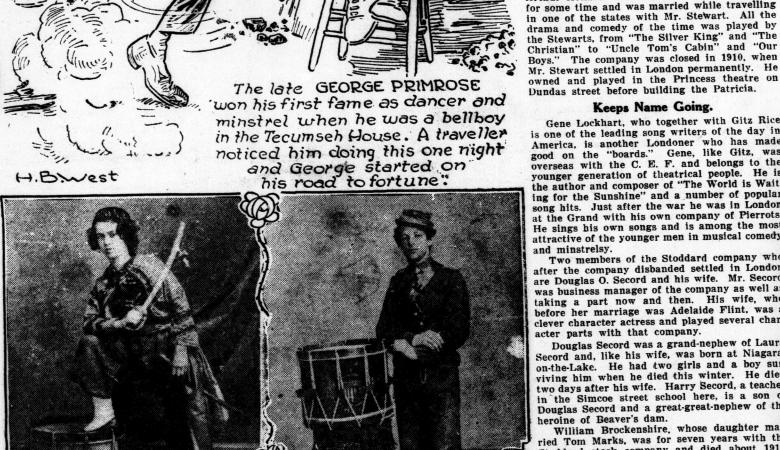

### London Has Rich Part.

London has had a rich part in training actors and starting them cut on the bright highway behind the footlights. Before the Holmans appeared there was Graves Simcoe Lee, an actor of considerable merit. He was an amateur actor in London in 1850 and, together with the late Sir John Carling, belonged to a small troupe which put on several plays in the city at that time. Later he went to Toronto and played in the Royal Lyceum there. Henry Morgan, of Ottawa, one of the recognized historical critics in Canada, credits him with doing much to build up the reputation of the stage in the dominion while playing at the Lyceum in Toronto.

His greatest parts were given by Mr. Morgan, who saw him as Romeo, Charles Surface. Claude Melnotte, Captain Absolute, Laertes, and Sir Charles Coldstream. He went to Wallacks theatre. New York, from Toronto, and became very popular there. Later he retired and lived with a widowed sister. Mrs. Breckenridge-Strathy, at Kingston, Ont., where he died.

Then there was George Primrose. George Primrose, the inimitable negro, the prince of soft shoe dancers and the perfect flower of blackface minstrelsy. He was born in Pickering, Ont., about 1854 and died in San Diego in 1919, leav- janitor, who looked after the boilers, used to sit ing a very comfortable fortune. He was a hardheaded businessman and was always the business manager of any partnership in which he shared.

To think of Primrose is to conjure up Wambold, and the Haverleys, and Dockstader, and all the dusky bards who held the audiences within the thrall of their whimsicalities twenty years

The famous SALLIE HOLMAN, London's "divine Sarah! of the opera.

"Primrose," you say to one of the old-timers of the bald-headed row. "George Primrose of Primrose and West," and the veteran conjures up a picture of a happy, beaming black face with its infectious chuckle, two light twinkling feet in their neat soft shoes, the careless outspread arms of the dancer, and he hears again the soft swish-swish-swish and the faint tap-tap-tap whispering above the fiddles in the orchestra.

George worked in his young days in the Tecumseh house as a bellhop, when his parents lived at Clarke's bridge. He was between twelve and thirteen, and small for his age. But he could dance. It was the sight of George with a well-balanced tray in one hand and cigar in the other doing a solo dance one hot summer day in the corridor that started him to fame. A visiting actor saw him and advised changing the motley of a bellhop for the trappings of a

"You may be an excellent bellhop," quoth this stranger, "but you're a better dancer. You should be on the stage.'

Dancing was a vogue in the old Tecumseh house in those days. All the bellhops lived and slept downstairs in the basement beside the boilers and the liquor storerooms. Among them were George Primrose and Jerry MacDonald, now proprietor of the Iroquois hotel, where visiting Thespians of a later day stay.

"I remember George Primrose very well," said Mr. MacDonald. "He was always fond of dancing. Often at night old Joe Gartside, the on a kitchen chair beside the furnace and play his concertina while George danced. The floor was cement, but it made no difference to George. He would dance anywhere and at any

spare time devising new dance steps. George would go over and watch them, and then come back to the hotel and practice the new steps at night to the tune of the janitor's concertina."

### First Welcomed George.

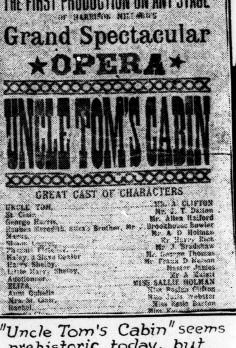

The Dime theatre in London, now Majestic, first welcomed George on its boards as an amateur dancer. Then he went to the Casino in Detroit as bellhop once more. The dancer of the show slipped and broke his ankle, and golden opportunity knocked at George's door. He went on, and scored. From there he went to a small theatre in Buffalo, as he says, "at \$5 a month and five shows a day, but it was good training." In 1881 he joined his first regular minstrel company, Skiff and Gaylords, and was with it until he and Billy West hitched their wagons to a mutual star and rose to fame and prosperity.

Primrose and West was the star turn of vaudeville for a decade and one of the liveliest on the road. Billy could sing and George could dance, and between them they licked the golden platter clean.

On his last visit to Canada (about 1912) Primrose played at Shea's, Toronto (in a twentyweek engagement) at \$2,500 a week, an unusually high figure for that time on the Keith circuit. He was the unrivalled king of the burnt cork troubadors, and the greatest of all soft-shoe

"Why do I dance?" he asked in an interview given shortly before his death. "Because I love it and always did. I danced when I hadn't a pair of shoes to my name and did it barefoot on the country roads as a kid. I have danced my way to fame and fortune. Most likely I shall dance my way from this world into the next."

For seven years W. L. Stewart, now owner and manager of the Patricia theatre, owned and played in a stock company. Together with Leila Stoddard, later Mrs. Stewart, he travelled the Stoddard stock compans through Canada from

Arthur Holman was a member of this company for some time and was married while travelling in one of the states with Mr. Stewart. All the drama and comedy of the time was played by the Stewarts, from "The Silver King" and "The Christian" to "Uncle Tom's Cabin" and "Our

Keeps Name Going. Gene Lockhart, who together with Gitz Rice is one of the leading song writers of the day in America, is another Londoner who has made good on the "boards." Gene, like Gitz, was overseas with the C. E. F. and belongs to the younger generation of theatrical people. He is the author and composer of "The World is Waiting for the Sunshine" and a number of popular song hits. Just after the war he was in London the Grand with his own company of Pierrots. He sings his own songs and is among the most attractive of the younger men in musical comedy and minstrelsy.

Two members of the Stoddard company who after the company disbanded settled in London are Douglas O. Secord and his wife. Mr. Secord was business manager of the company as well as aking a part now and then. His wife, who before her marriage was Adelaide Flint. was a clever character actress and played several character parts with that company.

Douglas Secord was a grand-nephew of Laura Secord and, like his wife, was born at Niagaraon-the-Lake. He had two girls and a boy surviving him when he died this winter. He died two days after his wife. Harry Secord, a teacher in the Simcoe street school here, is a son of Douglas Secord and a great-great-nephew of the heroine of Beaver's dam.

William Brockenshire, whose daughter married Tom Marks, was for seven years with the Stoddard stock company and died about 1914. He was a genial, interesting conversationalist and the life of any company he was in.

London has also a connection of a sort with Hollywood and the movies. Alfred Christie and his brother, Charles Christie, makers of the Christie comedies, are both London men. Al. worked about twenty years ago as property man at the Grand opera house, and his brother Charles in a furniture store here.

Then there was Tom Briley, another Londoner who followed the lure of the screen. He was a carpenter in London and is now carpenter for Bill Hart, the two-gun hero of moviedom. Along with these three there was Charlie Edwards, a Londoner who worked around the Grand opera house at about the same time as Al. Christie. He, too, went into the movies, although his present position is not known. He was well known in the city twenty years ago.

Fred Hueston, son of Robert Hueston, who owned and operated the Hueston livery stables in London, was an artist of distinction many years had a vaudeville turn on the large circuits, in which he drew cartoons. He us to draw the pictures on a small smoked glass screen, from which they were transferred as he worked to a larger sheet at the back of the stage. This proved a popular turn in all the centers. Later he added a fellow vaudevillian sang songs and whistled melodious airs while the artist cartooned.

At the present time he is with the Christie brothers in Hollywood, Cal., engaged in making comedies for the silver screen in the place of he old cartoons on smoked glass. In his earliest years he was fond of drawing and was a pupil at the Detroit school of art. He also was cartoonist for one of the large New York dailies hefore going on the stage. Robert Hueston and W. R. Hueston, who own a garage in the city,

### Many Connections.

Apart from the men and women of the stage who have been Londoners or who have made their start here, there have been many connections with the stage made during the visits here of actors and actresses filling engagements in the city.

Through the office of the Grand opera house where for fourteen years John R. Minhinnick has been manager, there has passed a stream of Thespian talent and art. All the stars in their courses have been welcome guests for brief even ings of comradeship in the cosy office of the manager. Included among those who have sat smoking a quiet cigar or explaining some new golf club and stroke, or a fresh philosophy, have been Guy Bates Post, Cyril Maude, William

Shirley Kellog, Martin Harvey, Robert Mantell and a host of lesser lights of the world theatrical. All these visitors have left pleasant memories with Mr. Minhinnick, but he has seen the times and fashions of stageland change in fourteen years. Some of the glamor is gone. In its place has come matter-of-fact efficiency. Tem perament is taboo, where once it was a requisite.

ertson, Harry Tate, De Colville, the husband of

'Everything's efficiency today." Everything runs like clockwork. The tempera mental star is a thing of the past and I'm not altogether sorry. It makes the work of the manager much easier. It was quite common in my early days to have stars so temperamental that you never knew whether they would be on time or, if they were, whether they would go on. Now all that is changed. The public wants entertainment when it wants it, and it is the business of the theatre to supply it. However, the stage people have come to realize this and temperament is recognized now as a handicap rather than a virtue in the profession today.

In spite of all this, such matter of fact things as trains and blizzards and sickness cause plenty of excitement to managers. About ten years ago De Wolf Hopper, the great Gilbert and Sullivan artist, came to London and afforded Mr. Minhinnick one of his most amusing memories.

up the train on which the company was travelling from Kingston. The matinee on Saturday was missed entirely, but eventually the lost child of the old Grand Trunk blew in, about 8 o'clock. The show was timed for a quarter past. eight and the theatre was full. What was to be done? But the tall actor was equal to the occa-

### Talks To Them.

"Get me a few sandwiches and some coffee," he said to the theatre help, "and I'll talk to

So he did, and London had the happy experience of seeing De Wolf Hopper in his street clothes munching a sondwich and holding a cup of hot coffee in his hand, telling them all the latest funny stories from New York.

He was quite frank about the storm, and suggested that it would be interesting to let the audience see the show being put on and the scenery arranged. This was done, and the calm and collected Hopper retired to dress still chewing the last of the chicken and draining the bottom of the cup of coffee.

"That show lasted until 2 o'clock in the morning," says Mr. Minhinnick with a smile of reminiscence, "and we thought we were going to be charged with a breach of the Lord's Day act. However, the late Frank Love, the police magistrate, who was a member of that audience, but left before midnight, refused to issue a summons, so we were safe.

Then quite lately, within the last few weeks, a member of a company playing at the Grand got married while in the city. In fact this has happened on several occasions.

When Blackstone, the magician, was here. his brother married one of the girls in the com pany in London. Mr. Blackstone was seeking a divorce in the States and notice of the judgment was received while he was in this city. Immediately he and his new flancee called on the city clerk, and they were married the same day.

### All Have Hobby.

"Every actor has a hobby now," declares the manager, "and with most of them-I should say about 99 per cent of them-it's golf. They come in here and the first thing they ask for is the golf links.

"Then they are all, or nearly all, smokers. Each man who is a smoker has his own brand of cigars, and every man has a theological theory of his own. Sometimes after the show is over they come into my office and talk things over Actors are always well read and up-to-date. They know what's going on all over the world, apart from their own profession. Then they lend something of themselves to their stories, you know, and so they make the most interesting company for an after-dinner smoke."

When the English companies come here it quite common for the members to be asked t some of the London homes, where they me ple of their own type and race, with who they have a great deal in common

Mr. Minhinnick knows them in their business capacity, as entertainers of the public and revenue producers, but he counts some of them among his best friends, and the jolly evenings spent with them as a valuable part of life's

Clarence Dillon Underwrote Beach, Fla., its railroad contact with the rest \$500,000 For the C.N.R. in Five Years—Has Just Executed the Greatest Financial Industrial Coup in History—Upsets All Traditions of Big Business—No Bustle, No Hurry, No Rush

HE man who, with his associates, has underwritten a half-billion dollars' worth of Canadian National Railways securities, Clarence Dillon, head of Dillon, Read and Company, international bankers, with headquarters in New York. He recently executed the greatest industrial financial coup known to history. This transaction consisted in outbidding the great American banking house of Morgan and buying the automobile business of Dodge Brothers for a price reputed to be \$146,000,000 cash.

Had this sale of the Dodge Brothers' automobile plant and business been accomplished according to stage and movie specifications, there would have been a thrilling succession of heated conferences, neck-and-neck races by automobile and special train between rival bidders and airplane couriers on frantic missions between New York and Detroit. Instead, this largest cash transaction in industrial history was handled by long distance telephone between two quiet offices.

Mr. Dillon is a calm, deliberate man of 43. His seemingly daring undertakings appear consistent with his business philosophy, for he, the high apostle of relaxation, takes things easily, almost lazily. Could he drive a golf ball and putt in that manner, he could make par on many a course. He does not become excited, and, what is more heretical to the usual doctrine of business success, he declared that he had started out to become an artist and not a financier.

When he was graduated from college in 1905 he married and set out for Paris, Rome and other cities, where he spent two years studying art, painting, architecture and literature. He doesn't seem to know exactly why he swung from art to finance, except that he was obliged to support a bride and found in business a readier means of accomplishing that end than in art. But he still devotes much time to the study of art, literature and architecture. That has probably made business more interesting. For business is a big part of his life, and life, he says, has been improved through his love of the arts. He has plenty of reasons why business is not to be considered prosaic.

A thumb-nail sketch of his career is to be considered in leading up to the circumstances which permitted him to be the sales-chief for \$500,000,000 worth of Canadian National Railway securities. When he returned from Europe he engaged in the machinery business in the id-west. Selling out after a time he went to New York, where through the good offices of a former classmate, William A. Phillips, he secured a position with the well-known bond firm of William A. Read and Company. That was in 1913, only twelve years ago. A warm friendship between Mr. Read and Mr. Dillon developed.

### Headed His Firm

N 1914 Mr. Dillon was sent to the Chicago office of the firm, where he watched the wheels of banking go around, and decided he liked it. He went back to New York the same year, and in 1916 was taken into partnership in William A. Read and Company, becoming head of the firm in the same year, after the death of Mr. Read. This is the sort of meteoric career that fascinates the public and leaves it rather

It was after Mr. Dillon's accession to leadership that his firm began to go into financial enterprises on a large scale. The first of the really large enterprises to be undertaken by the new organization was in 1919 when Clarence Dillon engineered the \$100,000,000 Steel and

Tube merger, involving six large steel companies. In 1920 the bank stepped afield and underwrote \$15,000,000 Canadian Northern Railway bonds, thus opening an account with the world's largest railroad system, the Canadian National Railways, for which this bank is said to have underwritten the record total of \$500,000,000 in less than five years. This performance knows no equal in banking or financial circles.

Mr. Dillon is undismayed by intricate and difficult problems. Take, for example, his masterful genius and ability in surmounting difficulties in his easy handling of the perplexing Goodyear Tire and Rubber Company's complicated position. That was in 1921. Last year the company earned \$17,000,000.

Foreign loans have had a distinct appeal to Mr. Dillon. Brazil, The Netherlands, France, Germany, Japan, Poland and Holland are only a few of the countries who have come to him

### No Doubt About It

AS active a man as Lord Curzon, whose death removes an outstanding political figure, must have made a bad invalid. One of his forms of activity was to answer the telephone himself, which once gave rise to an amusing incident.

the Standard Oil Company, and he gave to Palm of the world. Railways, oils, waterpower, steel, rubber, automobile, corporate loans have been some of the chief forms of commercial activity that have engaged his interest as a banker. His penchant for doing business without the borders of the United States has always been to the fore.

### Languages His Hobby

ONE of his hobbies in business is that of talking the language of the man with whom he is negotiating, a rule not easy to follow in the case of foreign loans. In French, German or Italian negotiations, Mr. Dillon speaks the language of the loan seeker. These three languages he is said to speak with about equal facility.

This financier, who is a comparatively young man and newcomer in banking circles, has around him several young men, for he is known

N amusing story is told by Miss Margaret A Bannerman, the Canadian actress, who is getting a reputation for such things.

It concerns a certain actress who, though married and long past her first youth, makes up so wonderfully in flapper parts that she looks no more than about eighteen. A short while ago, while she was on tour, a

Youth has been coming to the fore in Canadian golf lately and it is certain that there will be many young contenders for the honor this

summer. Among them will be one who has had the advantage of a valuable extra practice period which should stand him in good stead when the

time of competition comes. In December, when the heads of most other university graduates were filled with plans for holiday parties, Christmas celebrations and similar amusements, Sandy Somerville, the sensational young Toronto University undergraduate who last summer was runner-up for the Canadian amateur championship, unostentatiously packed a suit-case and went off to Pinehurst,

North Carolina. There this young Canadian spent the time between college terms playing golf and no doubt astonished some of the other visitors with his

Cataloguing His Achievements R OSS ("SANDY") SOMERVILLE is, as all regular readers of the sporting page will tell you, one of the best all-round athletes Canada has ever known. He is, besides being a

famous golfer, the champion kicking half-back of the Toronto University rugby squad. Also, he is a noted cricketer, having gone to England with Mr. Norman Seagram's touring Canadian eleven a couple of years ago. Then, too, as hockey fans know, he wields a wicked stick. In addition, it is reputably reported, he has at times displayed great prowess at squash rackets, indoor and outdoor baseball, tennis, soc-

cer and dealer's choice. Just what he doesn't play is not clear, though there is no record of him ever having won a championship at parcheesi or lawn croquet. This athletic jack of all trades is the son of ex-Mayor Somerville of London, say that the residents of the Forest City are proud of the native son is to understate the

case. He is twenty-one years old and was educated at Ridley College, St. Catharines, Ontario, where Harry Griffith, formerly well-known coach of the Toronto University rugby squad and now headmaster of Ridley, taught him a lot about football and cricket. From Ridley, where he was the sensation of the little Big Four League in these sports, he came to Toronto University and immediately commenced to distinguish himself more generally.

Sandy Somerville is probably the one serious rival of President Coolidge for the long-distance reticences and non-speaking championship. He is known amongst his friends as "the silent Scotchman," a most descriptive sobriquet. He has absolutely no conceit about his achievements, is very canny and is not much given to enthusiasm, premature or otherwise. He is a living refutation of the theory that if you want the world to appreciate you you have to let it know

how good you think you are yourself.

People who travel inevitably get impressions.

They just can't seem to help it. A. A. Thomson,

After all (I argued to myself) it stands to reason that no one would be an American if he could help it. Still less would anyone pretend to be an American, if he weren't. And these people must live somewhere.

Any further doubts I might have had were dispelled by the fact that in the year 1923, as many as 42,781,463 English novelists crossed the Atlantic for the purpose of embarking on lecture-

Am I sure of my figures? I am. The popu lation of the United Kingdom at the last census was 42,781,463. Out of this population can you honestly say that you know one who has not written, is not writing, or is not about to write a novel? I trow not. And of the novelists you know is there one who has not just returned from, or is not just setting forth on a lecture trip in America? Of course, there isn't. Which proves my point.

I also put the point to my favorite editor. "Do you think I should be justified in going?"

I asked him. "Sir," he said—and there were lashes on his eyelids as he said it- "it is your duty." "To America?" I asked.

"To England," he replied.

So I went. When we reached New York, several natives came aboard. Three of them, in particular, rushed at me. The first knocked me down. The second bound me hand and foot. The third sat on my chest.

"What," asked the first, "are your impressions of New York?"

"Enormous," I replied. "What," asked the second, "are your impressions of American womanhood?"

### **Tonic Treatment** for Indigestion

The Only Sensible Way to Treat Stomach Trouble is Through Such a Tonic as

### Dr. Williams' Pink Pills

They Give New Vitality—and more.

When the stomach is feeble and food lies in it undigested, the poisonous gases distend the walls of the stomach and cause serious interference with the other organs especially with the action of the heart and lungs. These poisonous gases have other ill effects. They are absorbed by the blood and so weaken and corrupt it as to cause aches in remote parts of the body and the formation of unhealthy tissue everywhere. Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words, it needs a tonic that will enable it to do the work of changing the food into nourishment. The tonic used ought to be one that will agree with the most delicate stomach and

this is exactly what Dr. Williams' Pink Pills do. Here is a bit of convincing proof given by Mrs. Chas. Ladner, Ellerslie, P. E. I., who says: "For some years I was a sufferer from stomach trouble. Everything I ato caused distress, sour stomach, and belching. I could not eat meat or potatoes, and I grew weak and very nervous No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills, and these simply worked wonders. I took the pills faithfully for a couple of months, by which time every symptom of the trouble had disappeared, ad there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr.

Williams' Pink Pills.' You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Essex Alone Gives This Quality and This Price

The Reason for its Amazing Sale

Buyers know what Essex gives can be had elsewhere only at far higher cost. The great Essex sales record is due to no other thing. It is recognition of a value leadership so overwhelming that it is not even challenged.

Today's Essex is the greatest of all Essex values. It is the finest Essex ever built. It is the smoothest, most reliable Essex ever built. It is the best looking, most comfortably riding Essex ever built. We believe its maintenance and operation the most economical of any car in the world. And the price, because of famous patents, with volume manufacturing advantages that are absolutely exclusive, is the lowest at which Essex ever sold.

Essex won its wide acknowledg-

ment on finest quality without useless size or weight, and a price advantage equaled nowhere in the world. Greater size could add

nothing to Essex. It has in brilliant evidence the qualities which weight and size are built to giveriding comfort, solidness, distinction, and smooth, quiet pace.

On every side its hosts of owners praise it with such pride and conviction as we have never heard for any other car. What they say has revealed this great value to thousands of buyers. It is reflected in the greatest sales in our history. And the rapidity of this sales increase shows how thoroughly the facts about Essex have pene-

trated the entire market. Wherever you go, note how they outnumber all new cars. It is the surpassing proof of value-greatest sales.

## World Wide Recognition is hard to get!

TO obtain world-wide recognition L is no easy accomplishment!

Yet in a remarkably short space of time, the new Studebaker cars have won the endorsement of motor car buyers all over the globe. And not a "word of mouth" endorsement either. From Hong Kong to Timbuctoo the public has expressed its appreciation of the New Studebakers by "saying it with orders."

A 532 per cent gain in Studebaker sales in the British Isles; 134 per cent in Holland; and 90 per cent in Spain. These are a few examples that tell better than words what they think of the New Studebakers across the water.

The way people are turning to Studebaker in countries abroad is duplicated throughout Canada.

There's a reason for this trend of buying. A reason which will be perfectly obvious once you see the 22 new Studebaker models; once you examine their many features; once you compare the prices with all other cars—and learn the history-making values offered by these new cars.

The yannigans at one stage of the proceedings showed a great infield combination, with Jim Kernan at third and Pete Harris at first. Harris has a southern coyote yell, which bucked up the spirits of the yannigans when they were inclined to wilt, and Kernan, working around the danger corner, apparently thought it was called that because it was loaded with dynamite. Anyway, Kernan stepped lively around there. He was finally pulled in when Chet Johnston threw his shoulder slightly out of joint in an attempt to nab Arnott stealing. Fast Slipping Cobbmen Throw Away Another Game by Errors.

ATHLETICS WIN

Special to The Advertiser. Chicago, April 24.—The fast-slipping Tigers knocked away another game to-

Sox were on the viscore.

So far as hitting was concerned, the Chicago team had little to boast of. Three lone blows are all that appear in the hit column, but one of these, by Davis, was stretched into a three-bagger, and subsequently to a run. A change was made in the Tiger line-up, when Cobb sent Bob Fothergill into wight to renlace Hellmann. The change. change was made in the Tiger line-up, when Cobb sent Bob Fothergill into right to replace Hellmann. The change, however, was unfortunate. Fothergill losing what appeared to be an easy fly that passed near his hand and splattered against the grandstand in the first inning, thereby giving the opposition a run. Another costly error was committed in the fifth, when Haney threw far over Blue's head on what would have been the third out.

Hamilton C. I. Runners Fail To Show in Philadelphia

Associated Press Despatch.
Philadelphia, April 24.—Breaking of a world's relay record by the doughty four from Georgetown university, the equalling of another by Princeton, a victory for Lord David Burghley of Cambridge university, England, in the 400-metre hurdles, and the winning of the decathlon by Anthony Plansky of Georgetown featured the first day's even's in the University of Pennsylvania's thirty-second annual relay carnival today.

Hamilton collegiate failed to show in the intercollegiate relay
Georgetown's great performance came in the sprint medley one-mile relay, last event on the afternoon program. George Masters, running anchor for the Washington quartet, covered his half mile in 1 minute, 53 seconds, and gave his team a mark of 3:28, cutting two-fifths of a second from the figures held jointly by the New York A. C. and University of Illinois.

Lord Burghley, who entered the hurdles contest against the advice of a physician, cleared the timbers cleanly, and for the greater mart of the 400 metres ran in fourth olage. With 100 yards to go he increased his pace, and drew away from his antagonists to win in 544-5 seconds, only two-fifths of a second behind the Penn relay record.

The band played "God Save the King," and 20,000 spectators stood and bared heads.

A. E. Perritt, sprinter from Oxford university and a native of New Zealand, was unable to bear the strain of two races against some of the fastest unred his heat in the 220-yard dash, but fell behind George Hill, Pennsylvers, cantain and Torrence of Penn.

land was unable to bear the strain of two races against some of the fastest men in the United States. He captured his heat in the 220-yard dash, but fell behind George Hill, Pennsylvania captain, and Torrence of Pennsylvania State in the finals, Hill winning in 22 seconds flat.

The Britisher showed a strange style, with more shoulder motion than American runners use. His stride is even, and his performance was considered remarkable in that he and Lord Burghley had only one day to practice on this side of the ocean.

Scoreless Homer Funniest Play Seen by Falk

By AL DEMAREE (Former Pitcher, N. Y. Giants)

"The most unusual play I've ever seen in the big leagues," says Bib Falk of the White Sox, "was a hom run with a man on first that failed to bring in a score.

"Ellerbe of Washington was or first with two out. Garrity, the next batter, hit the ball in the left field bleachers. George McBride, manager of Washingon at the time, was coaching at third. Ellerbe rounding second base with his head down, hadn't noticed that the ball had gone to the

bleachers. "McBride, seeing Garrity had hit home run, put up his hands to slow down Ellerbe. Ellerbe, seeing Mc-Bride do this, and thinking the ball had been caught, rounded third base slowly and cut across the infield to his position at second base. Garrity kept running and rounded third before he noticed what Ellerbe had done. The 'ump' properly called Garrity out for passing the base runner ahead of

Entrance of Municipal Team
Spurs Up Game.

The city tennis courts have been busy since the cold weather broke, but during the last few days municipal and private courts have been swamped with players, bearing out the general opinion that London is facing its biggest year in the court game. Today there was not a vacant hour on the seven city courts.

Chicago, April 24. — The names of Faavo Nurmi, "fleetest Finn," and that of his countryman, Willie Ritola, appeared in large news type again today, but instead of being credited with a new world's running mark, as has been the case, they were in the "boiling pot" of amateur sportdom. Following declarations by officials of Chicago and Drake universities that exorbitant prices had been demanded for the track appearance of Nurmi and Ritola, the former's manager, Hugo Quist, issued absolute denials.

manager, Hugo Quist, issued absolute denials.

K. L. Wilson, athletic director at Drake asserted he had been asked to pay \$500 expenses for Ritola to appear at the Drake relay carnival. Nurmi's appearance was contingent on the payment of travelling expenses from Des Moines to New York and thence to Finland, Wilson said. Coup Put Across at

Special to The Advertiser. New York, April 25 .- Orders have gone out on the "wire" to all "service; stations" that they will be cut off the list of the General News Bureau if any bets are accepted from Harry Fink. This is the sequel to the big coup at Miami the past winter, when

country were "murdered" on the

Dallahm-Firmament races on March Details of the big coup are just becoming public, following a thorough investigation. It develops that Fink, who was at Miami, wagered \$43,000

in the machines on Attorney Muir and Super King in an effort to boost the price for the place against Dellahm and Firmament. It is claimed that \$23,000 was dropped into the place machines on Attorney Muir. while the "iron men" were given a \$20,000 complete the place with the place w nission on Super King. Friends of Fink claim that he was merely acting as the agent of New

Montreal, April 24.—The demand from the United Kingdom for Canadian western oats on the Montreal market today was steady, but the trade in wheat and barley was reported slow. An easier feeling developed in the ocean freight market, and rates to Liverpool, London and Manchester were reduced another 5d per quarter, with engagements of 25 to 30 loads of heavy grain late on Thursday to London at 25 3d per quarter, with engagements of 25 to 30 loads of heavy grain late on Thursday to London at 2s per quarter and oats at 1s 3d per quarter, while the rates to all other ports were unchanged.

The feature of the domestic grain market was the improved demand from Exporters for Canadian western wheat. There was also demand from local buyers for other grain and, on the whole, a moderate amount of business was transacted.

Shareholders' Factions Struggle For Control of the Company.

Canadian Press Despatch. Winnipeg, April 24.-Bingo Gold Mining stock advanced six cents on today's session of the Winnipeg stock exchange. Approximately 11,700 shares changed hands, bringing the especial activity in any single stock, total up to 22,000 during the last two and the aggregate of business was small. days.

The present strength of the Canadian issue is attributed to a struggle between two factions of the shareneiders to gain control of the stock. The annual meeting of the company will be held here on Monday

### Local Market

Fine, warm spring weather prevailing today proved to be ideal for tarmers, and hence they came to the local market in large numbers, making the square one of the largest so har this year. Buyers were also in evidence in larger numbers than is general for Saturday markets, and buying in most lines of produce was brisk.

Home-grown rhubarb and asparagus proved tempting to hosts of buyers, and on this account vendors who ontered the delicacles reaped quite a harvest. Although comparatively little asparagus was brought to the city this morning, the largest ofering being twenty bunches more is expected for next week. Rhubarb sold at 10c to 20c a single bunch, and from 90c to 31 per dozen. Asparagus brought 20c to 25c a single bunch.

Winter vegetables proved to be one of the big offerings on the square again this morning, but as the time basses the demand is becoming much weaker Parsnips sold at 50c to 60c per bushel, and were very slaw; turnips brought 40c to 50c per bushel; potatoes, 60c to 75c a bag, which is a lower figure than yesterday.

Apples were not wanted so far as most of the buyers were concerned, and

the demand is at 500 to 750 to 750 to 750 to 500 per bushe; potatoes, 600 to 750 to 500 per bushes; 600 per bushe

Machinery to be set up would be appointment by the dominion government of a tariff commissioner, a man of mark above and beyond all outside influence, with whom would be associated in an advisory city one representative of the consumers and one of the manufacturers with the minister of customs as fina arbitrator. The tariff commissioner tariff without notice and be given would have power to change the control over selling prices, and to examine the books of all manufac

turers receiving protection.

Have Raised Prices. "In the past," says Mr. Patterson "the Canadian manufacturers, it is claimed, have raised the selling prices in Canada on Canadian goods to a point almost equal to the price of the imported article. This could not happen under my plan, as the penalty would be so severe in case the manufacturer broke faith with the commissioner that it would put him out of business—penalty being the elimination of all duties on imported goods in that line."

2-The commissioner would grant the right to manufacturers to raise their Canadian selling prices to meet rise in wages and raw material, but they must alternatively submit to a reduction if these are reduced.

3—The commissioner would, wherever possible, allow raw material not produced in Canada to come in free.

### THE TRUST

### "Take the case of my grandfather"

A prominent insurance man was recently asked—"Why did you name a Trust Company as your Executor?"

"Take the case of my grandfather," he replied, "He left an estate of \$40,000. He appointed a businessman, a minister and a doctor as his executors. The businessman declined to act. The minister was transferred to a new field and he resigned in favor of the doctor.

"Grandmother received an income for life. When she died the remaining executor was asked for an accounting. Then it was that my father found the estate had dwindled from \$40,000 to

"Although the executor was guilty of neglect father was never able to collect the shortage totalling \$32,000."

"That is why I have named a Trust Company my executor."

## Durable as Rock - as

ALMOST unbelievable—yet,—Gyproc is made from Gypsum, and Gypsum is rock—

-And Gyproc can be nailed like lumber "with ordinary everyday nails". It is rock, yet a saw cuts it as easily as lumber.

Unlike rock, however, Gyproc is thoroughly flexible, light and easy to handle.

Gyproc is fireproof walls cast in sections.

Line your rooms with Gyproc and you add protection against fire that no ordinary board can give.

Gyproc joins perfectly at the corners and the bevel edge on each sheet aids joining so that your wall when finished forms a perfect unit.

### Cooler in Summer - Warmer in Winter

The very nature of Gyproc makes it a perfect insulator, keeping out the summer heat and winter cold, saving you at least 25% on your fuel bill. It is not affected by atmospheric conditions and will not crack, shrink or warp.

When wall is finished— Go ahead with the trim

No delays. You lose no time in waiting for the plaster to dry or in cleaning up the dirt left after the plasterers are finished. Decorations or panelling may be applied immediately to Gyproc walls without the loss of an hour.

### COLLEGIATE ARENA FESTIVAL **DELIGHTS LARGE AUDIENCE**

Musical and Physical Work of Pupils Revelation To Crowd.

CUPS PRESENTED

Singing of Combined Glee Clubs Shows Value of Training.

Two thousand curious people enered the arena by 8 o'clock last night to attend the musical and 'physical culture festival put on by the students of the London collegiate institute.

Two thousand whole-heartedly enthusiastic people left the arena at 10:30 o'clock fully convinced of the fact that the students at the collegiate are being given valuable training in the departments featured by the exhition.

Was Great Success.

To put it in a word, the festival was an unqualified success, the glee club orchestra and physical culturists vieing with each other to win the popular favor of the large audience. Unlar favor of the large audience. Un-stinted applause greeted each number on the program, which was exceed-ingly well balanced throughout. The Central collegiate boys, under the direction of H. B. Dinsmore, made the hit of the evening with their mat work and pyramids. The South collegiate boys were also well receive

in their display of horsework.

The East collegiate girls gave glimpses to the audience of very graceful old English folk dances, as did the South collegiate girls Russian folk dances. The club-swinging and wand drill work by the Central collegiate girls also came in for its

and wand drill work by the Central collegiate girls also came in for its full share of appreciation, the clubswinging being counted one of the best numbers of the evening.

The glee clubs of the three units, massed for the occasion under the direction of E. W. G. Quantz, musical director of the London schols, excelled in each of their six numbers, particularly in the "Bridal Chorus" particularly in the "Bridal Chorus," from "The Rose Maiden," (Cowen), and "With Sheathed Swords," from "Damascus," (Costa). These two numbers were features of the con-certs put on by the glee clubs of the south and central units, respectively, during recent months. Other selec-tions by the glee club, which were rendered in fine voice included "Viking Song (Coleridge-Taylor), "On-ward To Fields of Glory (Denizettie), "Shout Aloud With Triumph (Manney), and "O Canada.

Orchestra Excels. Excellent also was the work of the 50-piece orchestra under Douglas E. Fetherstone. Outstanding numbers by the orchestra were: "Kashmiri by the orchestra were: "Kashmiri Song," Woodforde-Finden; "In a Monastery Garden," Ketelbey, and "The World Is Waiting For the Sunise," Seitz. The orchestra played also for the glee club.

Cups Presented.

Dr. Alfred J. Grant, president of the Rotary club, presented the prizes won by collegiate students at the hobby fair last week, assisted by Principal A. E. O'Neil of the east unit and Principal T. S. H. Graham of the south unit. The silver cups for the best individual exhibits at the fair for the girls was presented to fair for the girls was presented to Grace Willoughby and for the boys to Will Christianson, both students at the central unit.

Dr. Grant declared in a brief speech that the evening's program consti-tuted a fine rebuttal of the too comaccusation as to the musical and physical culture work in the col-legiate as being "frills," and not pospractical value, in the educating of the students participating in

program took exceptionally well with the audience, for the reason, it is presumed, that public performances

Principal Everton A. Miller, M.A., whose happy thought it was to have the festival, informed The Advertiser at the conclusion of the evening's entertainment that he was more than pleased with the work of the students, and also with the reception accorded the program by the parents and friends of the collegiate who attended in such large numbers.

One of the cleanest, most wholeson One of the cleanest, most wholesome things in sport today is the bright, optimistic, boosting spirlt that comes through baseball at this time of the year. Everyone foresees the championship. The dark, brooding side of things is passed into the discard. The knockers become boosters; in short, it is a season of general good feeling, and anything that can be done to lighten the hearts of the masses is very much worth while.

At this season of the year enthusiasm is likely to outweigh judgment, and to predict the outcome of the M.-O. league race, with so many changes this year, would be absurd.

However, one opinion is as good a nother, and the general feeling of th fans at the present moment is that Mike Baker is going to give London

Every team in the league has been shorn of players since last fall. Just a few of those included in the list a few of those included in the list who have gone to league of higher classification are: Eddleman, Jack-son, Runser, Morehart, Regan and Luce from Flint; Harris, Connolly and Keiffer from Bay City; Mes-senger, Wayneburg and Yoter from Saginaw; Bonnelly, McGee and Win-dle from Hamilton, and Englishman, Gehringer and Nason from London.

With these players lifted out of the league, and with Hamilton having difficulty in signing a few of their high-priced stars of last year and at the same time stay within the salary limit, Baker seems to be particularly fortunate In getting so many of last year's veter-ans back.

With a backbone of experience as included in Coogan, Delman, Fields, Harris, Stimpson, Kernan, Sandquist and Manager Baker himself, there is a wonderful opportunity of rounding out a winning combination from the squad of youngsters in camp.

Knotty Lee at Kitchener has probably the greatest of any of the managers, as he has been required to build from the ground up, although Buzz Wetzel at Hamilton has stated that he will have prectically a new ball team Buzz could always dig ball players out of the ground, however, and the Ambitious City can be counted on to have their usual strong line-up.

The approach of the championship race, which, by the way commences a week from next Wednesday, finds the Tecumsehs well advanced in their preseason training, and present indications are that they will be in fine form when they step on the field at Saginaw for the opening game.

Joe Delman, Bill Coogan, Connie Fields and Pete Harris, the veterans of last year's pitching staff, are much further advanced now than they were at this time last spring. During the last few days they have been putting on full steam, with the result that they are beginning to get the old zip on the ball. In fact, they are so far advanced that they have a decided edge on the batters at the present moment.

The sluggers of the squad have no need to worry however, as they will not look over any nicer pitching in the league than they have been viewing during the last few days.

The Tecumsehs may not win the pennant, but there is a general feeling among the close followers of the team that when the curtain rings down next September they will be near the top, and the team that beats them will certainly know that they have been through a battle.

Present Attitude of West Must End Logically in Disastrous War.

Faith in race supremacy and wholesale belief in the Nordic-Myth precede the collapse of the nation believing it, according to Dr. Stanley Jones, the Indian missionary, who spoke yesterday in the First Methodist church. Dr. Jones has been for 17 years a Methodist missionary in Canada

In the afternoon he addressed the ladies' aid of the church, and in the evening a mass meeting. In the af-ternoon he explained why foreign mission work is necessary, and in the evening spoke on the place of Christ in the changing east.

He drew a very distinct line at

both services between western civilisation and Christianity. He denied vigorously that one was a synonym r the other "We missionaries are in the East

to give it Christianity, but not to bring it western civilization" he de-"I am ready to die if that will bring the people of the East to vision Christ and know Him, but I am not willing to introduce western civilization into the Orient holus "We in the West hold fast in the

Nordic myth. We believe without any doubt that we whites are the salt of the earth and the hope of the world. In the middle west of America this is a dominant the ory and obses sion just now. It is entirely nonsensical belief for every nation on the face of the globe believes it of itself, and hey cannot all be fight. 'If we follow this Nordic myth blindly it will bring us to utter anni-

hilation. Why? Because after we have allowed the Oriental to learn all he can from our western civilization he will then unite in a great mass to

"We are not there to make the Oriental a pale imitation of us. There is such a rich spiritual life and culis such a rich spiritual life and culture in the Orient that we shall in time be able to benefit largely from the east. I will go further and say this: In twenty years' time I will come be all such that the same come back from the east and evangelize America by virtue of the new in-terpretation of Christianity which will come out of the east. are here now remember what I say and recall this statement when I come back in 1945."

Dr. Jones said the only justification for the presence of a missionary in India was to bring Christ to the Oriental. That, he said, was the end and reason of all missionary work. He admitted that there had never been a time when foreign mission ary work was so much criticized and when it so much needed a defence and an explanation.

Bishop Presides. Speaking at the evening meeting t which David Williams, bishop of luron, presided, and Rev. H. B. Huron, presided, and Rev. H. B. Storey, Rev. R. Johnstone McCormick and Rev. J. MacDonald, seated on the platform, took part in the service. Dr. Jones told the story of the last

nine years in India.

"Nine years ago." he said. "the name of Christ was hissed in any public meeting in India. Today it is allied with the whole progressive movement in India and halled as the name of a saviour. The Hindee has movement in India and halled as the name of a saviour. The Hindoo has found a personal Christ in the last nine years, and has found that some-thing which in his own religion was

### HIGHWAY PROBLEM STILL UNSETTLED

Alternative Routes Discussed For Entrance To St. Thomas.

Special to The Advertiser.

St. Thomas, April 24.—City Solicitor W. B. Doherty, Aldermen Webster and Raven returned from Toronto today, where they were in conference with Hon Geo, S. Henry in reference to the route to be taken for the west end entrance to St. Thomas of the provincial highway. Two courses are open, the first being the Talbot street hill and gravel road and the alternative the Lynhurst hill. From a scenic standpoint the latter would be the most desirable, but the erection of a high-level bridge would be necessary, and most of the cost would fall on the city. With the Talbot street hill there is a bad turn to negotiate at the foot of the incline while the road to the top of the Sandymount hill, where the pave-

"Sleeplessness," Doctor Kennedy tells us, "is one of the commonest signs of nervousness. Another is physical unrest. You are showing signs of nervousness when you cannot keep from twitching your eyebrows, shrugging your shoulders, swinging one foot when your legs are crossed; or when you cannot sit at a desk or table without continually tapping with the fingers."

HE warning symptoms, as outlined above, are well worth careful study because with this knowledge you can detect the indications of failing nervous energy while yet there is time to prevent serious results.

Your digestive system has failed to supply proper nourishment to the nervous system. On this account outside help is necessary, such as Dr Chase's Nerve Food, before you can get back your strength

You will not be using this restorative treatment long before you are sleeping, and resting better, appetite and digestion will improve and you find yourself well on the way to health and happiness.

### ASK THIS HALIFAX NURSE

She Is Willing to Answer Letters From Women Asking About Lydia E. Pinkham's Vegetable Compound

Halifax, Nova Scotia. —"Iam a maternity nurse and have recommended Lydia E. Pinkham's Vegetable Compound to many women who were childless, also to women who need a good tonic. I am English and my husband is American, and he told me of Lydia E. Pinkham while in England. I would appreciate a copy or two of your little books on women's ailments. I have one which I keep to lend. I will willingly answer letters from any woman asking about the Vegetable Compound."—Mrs. S. M. COLEMAN, 24 Uniacke Street, Halifax, Nova Scotis.

Could Not Sleep Nights

Dublin, Ont. -'I was weak and irregular, with pains and headaches, and could not sleep nights. I learned about Lydia E. Pinkham's Vegetable Compound by reading the letters in the newspapers and tried it because I wanted to get better. I have got good results from it and I feela lot stronger results from it and I feela lot stronger and am not troubled with such bad headaches as I used to be and am more regular. I am gaining in weight all the time and I tell my friends what kind of medicine I am taking. You may use my letter as a help to others."—Mrs. JAMES RACHO, Box 12, Dublin, Ontario.

### **CURED HIS** RHEUMATISM!

"I am 83 years old and I doctored for rheumatism ever since I came out of the army, over 50 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change." You might just as well attempt to put out a fire wiff oil as try to get rid of your rheumatism, neuritis and like complaints by taking treatment supposed to drive Uric Acid out of your blood and body. It took Mr. Ashelman 50 years to find out the truth. He learned how to get rid of the true cause of his rheumatism, other disorders, and recover his strength from "The Inner Mysteries," now being distributed free by an authority who devoted over 20 years to the scientific study of this trouble. If any reader of this paper wishes "The Inner Mysteries of Rheumatism" containing facts overlooked by doctors and scientists for centuries past, simply send a post card or letter to H. P. Clearwater, 77th street, Hallowell, Maine. Send now, lest you forget: If not a sufferer, cut out this notice and hand this good news and opportunity to some afflicted friend. All who send will receive it by return mail without any charge whatever.—

### Oriental Rugs

Such a marked interest shown in these that the exhibition is being held over for a few days

Experts on Oriental Rugs are in attendance-and the showing ranges through prices as varied as the designs themselves. Third Floor.

A Veritable Carnival of Cretonnes!

The Drapery Department is vivid with these new and gayly pretty designs. Quality and value, too, are of very great importance to the practically interested shopper—and these are anything but disappointing.

The patterns listed below will illustrate that prices are attractive—and the first glance at the new draperies themselves will confirm that they are equally so.

### NEW SUNFAST CRETONNES 36 Inches, \$1.35 Yard

### FASCINATING NEW WALL PAPERS

Spring sunlight outside just urges a desire for new wall coverings inside. Re-decorating-of one or two rooms at least—is as essentially of the springtime as the daffodils and crocuses.

All of which induces a very garden-like appearance in the Wall Paper Department-with charming designs, riotously floral or conventionally so, ready to be released at only moderate expenditure.

### LIVING, DINING-ROOM AND HALL PAPERS

### THE BRITISH PEERAGE

Has plumped for the little soft round felt hats that cuddle over the hair and down into the back of the neck. So naturally America loves them too! Talbot (whose other name is J. Suzanne) is Creator of a particular brand of them that are on exhibition on Fifth Avenue. of Chartreuse Green, with sharklike ornaments. But in any color, they are charming, becoming and chic.

### MOTHER'S KNEE

Is not the place it used to be! There's an intriguing interest added, that has nothing of punishment about it. But 'tis still a place for learning something. How to simulate a garter, for instance!-by way of a gayly colored band woven into the stocking, whose dainty chaperone may be a replica of Marie Antoinette with her real curly white wig. Or a little lady in a Pleasant Peasant headdress with a double dangling necklace of beads under her chin. Or a black and white Pierrotte, with a black tulle frill.

The interest may be graded. Sometimes it starts with pink toes the color of rich roses trailing upward, paling till it fades away. Or the effect may be blended stripes that remind you of the Rainbow or the Prison House—depending on the way you have your memory trained. While if you are really dashing in your tastes, you can get stockings with a color scheme exactly like that of the Leopard People on Show at the World's Most Wonderful Circus, that has been making its last
