The copy filmed here has been reproduced thanks to the generosity of:

Seminary of Quebec
Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Séminaire de Québec
Bibliothèque

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

NOTE—The above has reference only to the Section of Country where the system of collection had heretofore been most perfected, and shews the quantity of White Pine exempted from duty in that Section in the four preceding years to have been about two thirds of the whole, or twenty millions exempted against eleven millions dutiable, while by the system adopted in 1852 the quantity exempted has been less than a half of the whole, or eight millions two hundred thousand exempted, against eight millions six hundred thousand dutiable; of Red Pine, the quantity exempted in the four preceding years was more than a fifth of the whole, and in 1852 less than a thirtieth.

In the smaller agencies where the system of collection was still more imperfect, there is no means of procuring data for a comparative Statement of quantities, but the following will give a condensed view of the whole Timber Revenue (Bytown excepted,) for the same period:—

	£	s.	d.
1848, amount as per Returns of Agents	4238	7	0
1849, do do	5027	0	0
1850, do do	6126	3	4
1851, do do	7575	2	10
1852, do do at reduced rate on Red Pine	23333	19	6

MEMORANDUM.

This Return, although very voluminous, is rendered in the most abbreviated form practicable, but does not contain a sixth part, in volume, of what has been required. It is composed, however, of the most useful part of the information sought, while, from the defective data of past years, there is a great part of what has been asked for which there is no means of supplying.

JOHN ROLPH.

* The Saw Logs are given to shew the total from Bytown, though not measured in Quebec, and consequently not coming strictly under the above heading.
