# THE ACADIAN.

WOLFVILLE, N.S., APRIL 8, 1904.

## Town Council Meeting.

The regular monthly meeting of the Town Council was held on Wednesday evening, with the Mayor and all the Councillors and Recorder Crawley present.

Considerable time was expended in discussing the estimate for the current year, but no action was taken, the matter being deferred until a special meeting to be held when the various committees are ready.

The following accounts were read and ordered to be paid:—

|                             |       |
|-----------------------------|-------|
| T. L. Harvey                | 4.00  |
| Mrs. Irene Fitch            | 20.34 |
| Acadia Electric Light Co.   | 64.12 |
| M. W. Pick                  | 5.20  |
| J. W. Wallace               | 5.00  |
| C. M. Vaughn                | 5.00  |
| E. H. King                  | 4.00  |
| Edward Bird                 | 21.00 |
| Wolfville Coal & Lumber Co. | 20.35 |
| John Kaye                   | 3.00  |

Written reports were received from the Street committee, Police committee, Water committee and Sewerage committee and a verbal report from the Poor committee. These all dealt with routine work.

The committee appointed to examine by-laws regulating automobiles in the town reported and the proposed by-laws were read and passed, and ordered to be sent to the Provincial Secretary for ratification.

Mr. J. L. Murphy was elected to the office of Plumbing Inspector for the present year at a salary of \$70.00.

Resolved that the Town Clerk be given leave of absence on full pay until the next regular monthly meeting of the Council in order to regain his health, and that he be asked to nominate a deputy to serve during his absence, to be paid by the town.

## Kings County Temperance Alliance.

The annual meeting of the Kings County Temperance Alliance was held at Waterville on Friday last. There was a good attendance of temperance workers present, representing the different sections of the county. The reports of the various officers and committee were received. Officers for the ensuing year were elected as follows:—

President—L. O. Nelly, Aylesford.  
Vice-Presidents—Dr. H. Chipman, Grand Pre; C. I. Wolfe, Waterville; and A. D. Nichols, Aylesford.

Secretary—C. A. Patriquin, Wolfville.  
Treasurer—R. R. Duncan, Grand Pre.

Executive Committee—Rev. F. Friggen, Dr. H. Chipman, C. I. Wolfe, Prof. E. W. Sawyer, S. Blenkins, V. S. Santlor, L. H. Davidson and H. G. Harris, with the president, secretary and treasurer.

A strong resolution was passed endorsing the movement in favor of the prohibition of the cigarette and calling upon the representative of the county to support the bill before the federal parliament.

A committee was appointed to consider necessary amendments to the Scott Act and report at the next meeting.

Several new members were added to the Alliance, and suggestion made looking to a larger membership among the temperance workers of the county.

The committee appointed at a former meeting to consider the selection of candidates for the provincial legislature was given further time to complete arrangements and report.

A number of stirring speeches were given. Encouraged by the success which has followed the efforts of the Alliance in the past the members are determined to continue the work until the liquor traffic in Kings county shall have become a thing of the past.

## World Wide.

Oil has been discovered in paying quantities in southern Alberta. It was struck at a depth of only about 700 ft., and is said to be the finest machine oil in the world.

An agreement concerning affairs in the Balkans has been arrived at between Italy and Austria, which, it is hoped, will effectually settle the trouble in that disturbed country.

It is said that sea-birds, far from quenching their thirst by gathering under storm-clouds and drinking in the water as it falls. They can smell a rain squall a hundred miles away and reach it with marvellous rapidity.

Rideau Hall, the abode of many Canadian governors, took fire last Sunday morning and had a narrow escape from destruction. It is supposed the flames started from an open fire of logs that was blazing in one of the rooms. The loss is estimated at \$25,000.

A street car conductor of St. Paul, Minn., has refused to receive his fares in defaced money. The court, with a passenger appealed, held that silver, worn so smooth as to have lost all trace of the usual marks, inscription and image, was not legal and might be refused.

The British force en route for Oyangtse met with an unexpected and fierce onslaught from the Tibetans, near Gura, last week. After a few minutes hard fighting, the natives were dispersed and almost annihilated. No fatalities occurred on the English side. The press correspondents seem to have received most of the blows.

On April 1st, a trio of robbers 'held up' an express train at a small station near Keswick, Calif. They separated the engine and express car, shot and killed the messenger, who refused to open the car for them, and blowing up the car with dynamite, got their booty and made their escape in the engine.

## Horticulture Club Notes.

Dear ACADIAN.—As promised in our last communication, our meeting of March 27th was of more than ordinary interest. Mr. J. Elliot Smith gave us a carefully prepared paper on 'Orchard Cultivation.' Of all the questions that confront the orchard man, none is of more importance than this one. Assuming the land prepared and the right varieties of trees planted, the all important question now is,—How shall I cultivate the land so as to secure the best conditions for the growth of the orchard, and the fruiting in paying quantities of the older trees? Mr. Smith's answer is proper cultivation, and cover-crops, that conserve and supply nitrogen. What he means by proper cultivation, is the plowing of the orchard as early in the spring as the land is fit to work; and then use the 'disc' and 'spring-tooth' harrows to make and keep a continuous mulch on the surface till July; when clover or some other cover crop should be sown, and cultivation cease. Of course it is generally necessary to supply potash and Phos-Acid in some form, and in such proportions as the intelligent orchard man sees to be necessary, but Mr. Smith claims that cultivation and cover-crops mean seventy-five per cent. of a growing and fruiting orchard. Mr. Smith only claimed to speak for his own orchard and he speaks with confidence as to his theory, for under this treatment the orchard responds every year with a crop from fine to extra as to quantity, and as to quality, to quote one of our best authorities, J. W. Bigelow, Esq., 'Smith's orchard gives more exhibition apples than any other orchard in Horton.' Now, while it is true that the exact treatment given Mr. Smith's orchard may not be the best for every orchard on account of difference in soil and surroundings; yet it is safe to say that three quarters of our orchards will best respond, to just such treatment. There is an orchard adjoining Mr. Smith's, that has been a pattern for a number of years, (I refer to Mr. F. Johnson's) and it is not too much to say that these two orchards have done more to demonstrate and vindicate clean cultivation, and cover-crop than all the others in the township of Horton. Mr. Ernest Johnson was with us, representing the above 'adjoining orchard,' and endorsed all the main features of the paper read.

A most interesting free-and-easy discussion followed: as to the time to begin cultivation in spring; tools best suited for work; how often, and when to remove the mulch; when to renew the mulch; when to stop cultivation, relative merits of clovers, vetches, tares, &c., as cover crops; in which Mr. C. S. Fitch, Mr. A. H. Johnson, Mrs. Johnson, Prof. Sears and others participated. We missed our old friend Mr. G. Thomson, who is the champion of 'Sod Culture' for old orchards, and like Mr. Smith and Mr. Johnson, can measure up his theory by the fairest of standards, 'by their fruits ye shall know them.' Mr. Thomson's 2 1/2 acres of orchard gave last year 534 bushels of apples. But the man behind the orchard is in evidence here, and it is decidedly unsafe for the rank and file to entertain 'Sod Culture' of their orchards. Our club is particularly fortunate in having a number of the leading fruitgrowers of Kings Co., and I am bold to say that in no way can they help each other, as well as those of lesser experience, better than meeting as we meet, and discussing the vital questions involved in our business.

We will only have two more meetings of the club this season, viz. Apr. 12th and 26th. Subject for discussion Apr. 12, 'The Spraying of the Orchard.' Mr. Ernest Johnson will give us a paper on this subject, and those who know him can be assured of an up to date talk, based on actual experience. The importance of the subject just now can hardly be over-stated. It is almost time we were after the 'bad moth' with poison spray; and 'black spot' is not yet a thing of the past. Come, all who can, and help us to make next Tuesday evening the best yet. For our closing meeting we may have some men from other parts of the county, but of this we will be assured later. It is most refreshing and helpful to meet with intelligent, practical fruit-growers who have no 'kite to fly,' or 'axe to grind,' or cheap notoriety to seek; where you can be sure of the honest pooling of actual experience for the benefit of the whole. So much is said and written, that is not only not helpful but actually misleading. No wonder so many people, starting under the mistakes into which they have been led by mercenary sharpers, cry out in desperation against what they miscall 'book farming,' or 'orcharding Oh, for the speedy establishing of the 'experimental orchard,' where we can see in actual working the possible best.

Wolfville, Apr. 6th, 1904.

A Good Word for Chamberlain's Cough Remedy.

'In December, 1900, I had a severe cold and was so hoarse that I could not speak above a whisper,' says Alen Davis, of Ereston, N. Y. 'I tried several remedies but got no relief until I used Chamberlain's Cough Remedy, one bottle of which cured me. I will always speak a good word for that medicine.' For sale by G. V. Rand.

Some bright girl who wishes to learn type-setting will find an opportunity at this office, and when qualified, a permanent position with good pay. A good common school education and a desire to succeed is necessary. Apply at once.

## Personal Mention.

Dr. McKenna spent Easter at the home of his father at Kingston.

Miss May Pines, of Middleton spent a few days in town this week.

Miss A. M. Benjamin, of Berwick, is in town, the guest of her sister Miss Saxton.

Miss Carrie DeWitt has been visiting in Windsor, the guest of her friend, Miss Mary Smith.

Mr. Woodbury, formerly of the Peoples' Bank, now of Lunenburg, spent Sunday in town.

Mr. and Mrs. Dickson, of Hillsboro, N. B., spent Easter in Wolfville, at the home of Prof. Wortman.

Miss Hall, of Granville Ferry, is visiting at the home of her aunt Mrs. (Prof.) Haycock, Summer street.

Miss Lottie M. Taylor, of Falmouth, who has been visiting in town for some weeks, returned home on Monday.

Miss Lombard, of Annapolis, spent the Easter holidays in town at the home of her uncle, Mr. E. Archibald.

Mrs. Andrew Jack, of Halifax, spent Easter in Wolfville, at the home of her mother, Mrs. Charles Fitch.

Miss Edna Sterling, of Windsor, has been visiting in Wolfville during the past week, the guest of her friend Miss Twidell.

Miss Edith Manning, of Chester, who is attending Acadia Seminary, was the guest of Councillor and Mrs. Wallace, Highland avenue, during the Easter vacation.

Mr. Harold Tufts, who purchased the farm of Mr. E. R. Dickey, at Hillaton last autumn, has sold back to Mr. Dickey and has returned to Wolfville.

Mr. Arthur Hemmison, of the Union Bank, spent the Easter holidays at the home of his parents in Wolfville. He is now employed at the head office of the bank.

Rev. A. S. Lewis has resigned the pastorate of the Aylesford and Kingston Baptist churches, to take effect on June 30th. It is understood he intends pursuing a course of study at Newton.

Rev. A. Martell, of Aylesford, was in town on Saturday last, visiting friends. Though in his 86th year Mr. Martell is active and robust, retains all his faculties, and is apparently good for many years yet.

Editor Outhit, of the Parrsboro Leader, and Miss Jennie Lambert were married in the Methodist church, Springhill, Wednesday afternoon of last week. Immediately after the ceremony they started on a trip to Toronto, Ottawa and other western cities.

## Death of a Historian.

Mr. Edouard Richard, of the Canadian archives department, fellow of the Royal Society of Canada, and author of the book called 'Acadia,' is dead. Though Mr. Richard was born in Quebec province, he was an Acadian by descent. At one time law partner of Sir Wilfrid Laurier in Arthabaskaville, he was elected to the house of commons for Megantic. The Mackenzie government made him sheriff of the Territories. Resigning that office in 1883, he published some years later his story of the Acadian expulsion. This work was highly controversial, and showed strong feeling of resentment, not against Great Britain, which he cleared of blame, but against the New England folk and Governor Lawrence. Mr. Richard held that the governor's motive was merely a desire for personal plunder, as he wished to acquire for himself and friends the cattle and other personal possessions of the neutrals. He was severe in his condemnation of Parkman, Sir A. B. Archibald and other defenders or apologists of the expulsion. After the publication of this work, which was a great deal of original work, Mr. Richard was sent to Paris to conduct the researches begun there by the late Mr. Marnette of the archives staff.

On Monday evening last the officers of the Wolfville Division, for the current quarter, were duly installed as follows:—

W. P.—Mr. Henry Peck.  
W. A.—Miss Thorpe.  
R. S.—R. P. Simonson.  
A. R. S.—Miss Tye.  
F. S.—Miss Wallace.  
Treas.—Howard Moore.  
Chaplain—Rev. Mr. R. Freeman.  
Conductor—Miss Freeman.  
Assistant Conductor—Miss Palmer.  
I. S.—Fred. Porter.  
O. S.—T. Duprez.

One of the interesting features of the evening was a phonograph concert given by Mr. Percy Porter with his fine outfit and generous supply of new records. Next Monday evening the Division is to receive a fraternal visit from Hantsport Division, and a lively time is expected.

The Dominion Atlantic Railway Co.'s annual meeting was held in London on Tuesday of last week. President Fitch-Kempt was in the chair, and in submitting the report and accounts for the year 1903 indicated the special characteristics of the year with which they had to grapple. Wet weather, early and late, depressed their passenger business, while even at the end the weather put serious obstacles in the way of removing freight. They were making the usual steady progress and had good reason for satisfaction in their business outlook. Rolling stock had to be increased, and with the realization of the expectations which they were justified in forming regarding development in the Annapolis Valley, with the extended orchard planting, they saw no reason to limit their views as to the future.

A Mother's Recommendation.

I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have no words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by G. V. Rand.

Address by Dr. Boggs.

Tuesday evening in the Baptist vestry, Rev. Dr. Boggs addressed a large and appreciative audience, on a subject which is attracting considerable attention the world over. The speaker dealt with the history of the vast Asiatic territory known as Tibet, giving a comprehensive description of the country, and showing the advancement which Christian missionaries have made. A few points graphically presented by the esteemed missionary and educator are here given as we recall them to mind.

The country is controlled by the leading religious dignitary, styled the 'Grand Lama' of Thibet. The population is about 6,000,000 composed of 'sheep-like' and intensely superstitious adherents to Buddhism, grossly ignorant, and bent on excluding from their Highland Country, the advanced ideas of progressive nations, and above all the purifying and regenerating light of the Gospel of Christ.

Thibet is from 10,000 to 17,000 feet above sea-level, has numerous great monasteries, in which over 16,000 students are being trained as priests for the Buddhist church.

Dr. Boggs gave a vivid description of the heroic efforts of Annie Taylor—the distinguished missionary—who gained access to Thibetan territory—after many arduous efforts, by working as a trader, that she might introduce the Bible, and establish the Christian Church.

The speaker referred to the British Expedition now on the way to 'Lhasa' the capital of Thibet—explaining that England was moved to enforce her rights there on finding that Russian political officials were established in Thibet—while the representatives of other countries were stringently excluded. Pastor Morse, who acted as chairman spoke very fittingly and forcibly along the lines of Dr. Boggs' remarks and special prayers were offered for the success of the work in this vast field. Col. Yongehusband is the Commander of the expedition and Christians the world over are confident that the result will be the complete opening up of the heart of Asia to the teaching of the Nazarene.

Miss Starr favored the audience with her violin, the stinging was heartily enjoyed, and all were glad to have heard the venerable doctor whose stay with us we fear may be brief in view of his planning to continue his great work in the Indian Missionary field.

### SPRING MEDICINES.

Are in season now. We have them ALL, but particularly desire to call attention to two—

#### Rand's Sarsaparilla Blood Purifier

—AND—

#### Dr. Gibbins' Sarsaparilla and Burdock with Iodide of Potassium.

These are thoroughly reliable preparations. If not in need of a spring MEDICINE, perhaps one of the TONICS, in our

### SPORTING GOODS WINDOW

Will appeal to you. In it we are showing a fine line of

#### Fishing Tackle, Base Ball and Tennis Goods, KODAK & PHOTO SUPPLIES.

Come in and inspect them.

### RAND'S DRUG STORE.

The Canadian Census.

According to statements made in Parliament by Mr. Fisher, the cost of taking the census in 1881 and 1891 and in 1901, to date, was as follows:—

|              |            |
|--------------|------------|
| 1881         | \$ 456,904 |
| 1891         | 570,115    |
| 1901 to date | 1,179,376  |

The increase in the population between 1881 and 1901 was about 13 per cent. The increase in the cost of counting the population was more than 100 per cent. and there is more to be spent yet.

The Nova Scotia Building Society has completed the fifty-fourth year of its history in a manner very satisfactory to its shareholders and depositors. The assets now amount to \$1,011,155.61, which includes only \$18,499 of real estate, compared with \$31,000 a year ago. In a business of this kind, real estate, outside of what may be owned for the concern's own purposes, is not regarded as the best property, and its reduction to a minimum is always regarded a good point. The society had a steady demand for money last year, and received applications for \$707,900, of which it accepted only \$220,000. By amendments to the general act under which the society is organized, the investment of funds by trustees in its security is legalized. Mr. W. F. Parker, barrister, is the agent in Wolfville.

Minard's Liniment Lumberman's Friend.

### THE ACADIAN.

WOLFVILLE, N. S., APRIL 8, 1904.

Cleanings by Acadian News Gatherers.

The contract for building the break-water at Pembrooke, Hants county, has been awarded to Mr J. E. Bigelow of Canning.

No need to send out of town for your fishing rods, casts, flies, etc., as Rand's have just put in a fine line. Goods and prices both right.

At the regular meeting of Wolfville Division Monday evening, the newly elected officers were installed, and three new members were initiated into the order.

On "Good Friday" the holiday spirit was in evidence, and several groups of pleasure-seekers with camera and red were seen en route to pastures new and trout streams.

The west window in Mr. J. S. Heales' new store this week has been an object of special attention on the part of the ladies. It is certainly an artistic combination of goods in ladies' white wear.

Quite an extensive addition to the store was made to the store of Messrs J. E. Hales & Co. The work of getting ready the foundation was begun yesterday. Further particulars will be given next week.

As will be seen by a notice in another column the 'Wolfville Hotel' property is now offered for sale, either en bloc or in lots. This will be a good investment for some wide-awake man. A valuable building lot on Gaspereau avenue is also offered.

WANTED—A woman for general housework. Must be a good cook and neat. Family of three in country village. Modern conveniences. Wages \$4.00 or satisfactory to right party. Address Lock Box 12, Limerick, Maine.

June 4th has been decided upon as the date for holding the intercollegiate championship sports. These will take place as last year at St. John. Strong teams will be entered by the Maritime Colleges and a good program of sports is expected.

The property at Grand Pré formerly occupied by Fred J. Faulkner was sold at Sheriff's sale at Kentville on Saturday, and was purchased by Mr. Rose, of Grand Pré, for \$215. The house on this property was destroyed by fire some months ago.

The students resident in Chipman Hall, who remained in Wolfville during the Easter holidays, entertained the young ladies of the Seminary who were here in a reception held in the Seminary on Saturday evening. Refreshments were served and a very pleasant time was had.

Thermometer readings at Parker's Pharmacy:

|                     | Max. | Min. |
|---------------------|------|------|

| Monday "            | 44   | 28   |
| Tuesday "           | 58   | 44   |
| Wednesday "         | 59   | 43   |

Will offer for sale during this month the property on the corner of Gaspereau avenue and Winter street, which consists of a two storied house of 8 rooms with modern conveniences, with about an acre of land which produced last year 50 bushels apples, 60 bushels plums, besides pears, peaches, cherries, grapes, berries, etc. There is also a good barn 20x30.

C. A. PATRIQUIN.  
The Athenaeum Society have secured the famous entertainer, Mr. Edw. P. Elliott, for one night in College Hall next week. Mr. Elliott was heard here some years ago in David Harum, when he was pronounced the best man in his line ever heard in Wolfville. See bills for further particulars.

The Christian Endeavor Society in connection with St. Andrew's church held a very successful and enjoyable social at the commodious home of Miss R. E. Tweedell, Prospect street, on Tuesday evening. In addition to the members of the Society nearly all the young people of the congregation were present. The evening was passed very pleasantly with music, games and other amusements followed by dainty refreshments.

We had the pleasure this week of inspecting a new carbonating machine which has been set up at Parker's Pharmacy by Mr E. W. Fox, a native of this county, and a brother of John H. Fox, of New York, the inventor. The apparatus comprises a carbonator in which carbonic acid gas is mingled with the water, the gas being supplied from a tube in which it is commonly sold; a siphon filling machine which holds the siphon while they are being filled with the charged water from the carbonator; and a bottle capping machine for capping small bottles. The machine is intended for bottling all kinds of mineral water, filling siphons, and may be connected at the same time for counter use, supplying soda water, etc. It is known as the "Dinic Carbonating Machine" and is a most complete apparatus and a big improvement over any hitherto in use. Mr Fox has secured an option on the patents for use in Canada, and is organizing a company for the purpose of carrying on the business. On Saturday of next week a public exhibition of the working of the machine is to be given, and the public will have an opportunity of testing the quality of the drinks.

WOLFVILLE.

The annual 'at home' of the Athenaeum Society is to take place this evening in College Hall.

HELPER WANTED—At Haystead's Carriage Blacksmith Shop, Wolfville. In connection with Borden's Carriage Shop. Apply at once.

Mr J. W. Selfridge has sold his residence on Acadia street to Mr S. A. Stevens, of Port Williams. Mr and Mrs Stevens expect to come to Wolfville to reside about the first of May. The death of Mr Marchant Rand, one of the best known and respected citizens of Hillaton, and a brother of Mr G. V. Rand, postmaster here, occurred on Wednesday morning, the result of an attack of La Grippe. He was 71 years of age, and leaves a widow, two sons and two daughters.

A lady remarked to me the other day: "What a blessing to be able to select such beautiful room paper at home, instead of standing around a store and then not getting what you want." Send a word to B. G. Bishop and he will show you samples of the finest and cheapest Wall Papers in America. 'Twill be a revelation to you. Feb. 19, 1903.

Rev. D. J. Fraser, pastor of St. Stephen's (Presbyterian) church, St. John, is well known in Wolfville, having been for several years pastor of St. Andrew's church, in this town. Dr Fraser leaves shortly on a three months' holiday in Europe, during which time he will attend the Presbyterian Congress. On Monday evening of this week he was presented by his congregation with a purse containing three hundred and fifty dollars in gold, as a token of the esteem in which he is held by his people.

A wild goose was on exhibition at Dimock's shoe store on Saturday, and attracted considerable attention. The bird was shot by Mr E. H. Dimock, at Starr's Point on Friday. It weighed eight pounds. This was a 'wild goose chase' to some purpose.—Hants Journal.

Messrs. R. E. Harris and C. M. Vaughn have begun the erection of an apple storehouse on Front street, immediately east of the Nothard and Lowe warehouse. The new building will be 100 x 28 feet with cellar eight feet. On Monday the work of excavating the cellar was begun and is now well in hand. The location is a good one, and the new building will be a great convenience to the owners. This makes three large apple stores on the railway property here.
