Dear Friends—With no ordinary solicitude
of our minds, we have prepared this little pamphlet,
in a brief and forcible style, to meet the present
situation of the cause in New Brunswick.
The following is the substance of the pamphlet:

British Periodical Publications.
REWARDED by mail, under the provisions of the late Post Office Law, at merely nominal rates.

1. The London Quarterly Review (Conservative).
2. The Edinburgh Review (Conservative).
3. The Monthly British Review (Church).
4. The New Monthly Review (Liberal).
5. Blackwood's Magazine (Tory).

These Reprints have been in successful operation in this country for twenty years, and their circulation is constantly on the increase, notwithstanding the competition they encounter from American periodicals of a similar class, and from the numerous *Extracts* and *Magazines* made up of selections from foreign periodicals. This fact shows clearly the high estimation in which they are held by the intelligent reading public, and affords a guarantee that they are established on a firm basis, and will be continued without interruption.

Although these works are distinguished by the political slant above indicated, yet a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in this they stand far above all other journals of a like class.

Blackwood's, will, with the masterly guidance of Christopher North, maintain its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns, both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer), "My Pneumatic Model," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs. Scott and Co., so that Subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these interesting tales.

BELLS! BELLS! BELLS!

THE Subscribers manufacture and keep constantly in hand, all sizes of Church, Factory, Steamboat, Ferry, Locomotive, School House and Plantation Bells, with the best description of Hittings.

These Bells are made from the best stock, and the small sizes under go the same process in Manufacture as the larger. An experience of thirty years, with a great many recent improvements, and a entirely new method of casting, enables us to obtain the most economical tone, combining size, in extraordinary vibration.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have fifteen Gold and Silver medals at our office, which were awarded for the "best Bells for sonorosity and purity of tone." We pay particular attention to the getting up Peals or Chimes, and can refer to those furnished by us. Our establishment is contiguous to the Erie and Champlain Canals, and Railroads running in every direction, which brings us within easy reach of New York. Cash paid for old Copper, Old Clocks, Lovers' Combs, Trunks, Pendulums, &c., & forms, of superior workmanship. All communications, either by mail or otherwise will have immediate attention.
