See Announcement of Mackay's Big November Sale
on page 5 of this issue.

A. H. MACKAY

A thousand rumors do not make one single fact

ALL of us want to believe the rumors regarding further reduction in footwear prices. If they were founded on fact—or even probability—we would have been ahead of Rumor in announcing the good news.

BUT rumor, as usual, ignores the one fact that controls the situation, that prices to the retailer are governed by the cost of raw materials and labor. High prices are not of our making or seeking. They have been imposed upon us and you by the tremendously increased cost of every single thing that enters into the making of shoes. And these high material costs, together with to-day's wage scale which govern and dictate our shoe prices, show no immediate tendency to permanently seek lower levels. That is why we cannot make any definite promise to you that our prices to the retailer will be any lower this season than those in effect for Spring, 1921, styles. Irresponsible Rumor ignores these facts—delights in "sensational news"—and, as is so often the case, hurts everybody indiscriminately until its falseness and viciousness become apparent. We appreciate our responsibility to you; we want to help towards cheaper living and we are earnestly striving to improve matters. We ask your confidence and belief to encourage us towards that end.

OUR advice to you—and we give it in all sincerity—is to **BUY NOW** any shoes you need for yourself or your family for Fall and Winter. Don't buy extravagantly or recklessly, but do so carefully and judiciously.

MONCTON BUILDING PERMITS INCREASE

Moncton, Oct. 27—So far this year Moncton has made a very creditable showing in the building line. Nevertheless, with all the building of the past few years, including this year's showings, there is still a big demand for houses in the city. Indications point to a considerable building programme in the city for next year. The permits issued during the present year amounted in all to 403, the value of which, as submitted by the applicants, amounts to \$1,231,800. Of this amount single and double dwellings represent \$606,750. Factories, warehouses, workshops, garages, stores, offices, additions, repairs and public buildings represent a total of \$625,050.

DAVID J. BUCKLEY DIED ON FRIDAY

The death of David Joseph Buckley of Newcastle, one of the leading lumber operators of the North Shore, and one of the best known and most respected business men of the province, occurred (Friday) morning at six o'clock, after a long illness from anaemia. He had been in failing health for several years and had taken treatment in the United States and elsewhere. He returned home a few months ago, and had lately been considered improving with good prospects of complete recovery. Deceased was born at Chatham, N. B., December 27th, 1863, son of Donald and Katherine Power Buckley. His father was a lumberman and about forty years ago the family removed to Rogersville engaging in lumbering there. About nine or ten years ago deceased removed to Newcastle and built a big sawmill at French Fort Cove. Mr. Buckley was much respected by both his business associates and his employees. He was of a public-spirited and charitable frame of mind, a devout Roman Catholic and a Knight of Columbus. He was a valued member of Newcastle Board of Trade and interested in all civic problems. In politics he was a Liberal and held a prominent place in the party's council. Being an authority in forestry, he became a member of New Brunswick's first Forestry Board. Deceased's wife, who pre-deceased him by about seven years was Miss Mary Wellwood of Harcourt. He is survived by following children: Marguerite (Mrs. Donald B. Croghan), Newcastle; and Lee and Miss Yvonne, at home. Following brothers and sisters also survive: John D., Newcastle; William J., Methuen, Mass.; Mrs. Katherine Harnett, Moncton, and Jennie (Mrs. Martin O'Brien), Rogersville. The funeral of the late D. J. Buckley was held from his late residence in Newcastle on Sunday afternoon Oct. 31st, at 3 o'clock. The C. M. B. A. and Knights of Columbus Societies, of which the late Mr. Buckley was a devoted member, attended with Major W. J. Duncan, as master of ceremonies. The funeral was one of the largest ever seen on the Miramichi and many friends of the deceased attended from Moncton, Chatham, Fredericton, Richibucto, Rogersville and other points in New Brunswick. The flowers were many and beautiful and were conveyed from the home to the grave by automobile. The pallbearers were, Mess. Wm. Sinclair, F. E. Neale, Cyril Creaghan, W. Maloney, Gerald O'Brien and Daniel Co'an. Interment in St. Mary's Cemetery.

FUNERAL OF THE LATE LORD MAYOR

Cork, Oct. 31—In the presence of surprised church dignitaries, scores of his former comrades volunteers and thousands of his countrymen, the body of Terence MacSwiney, late Lord Mayor of Cork, was lowered to its resting place in the "Republican Plot" in St. Finbarr's cemetery, just outside Cork, this afternoon. Despite the splendour lent the scene by the attendance of high churchmen, there was a simplicity marking the ceremonies that was impressive. Outside the ceremony hidden by the enormous crush of townspeople, two armored cars, their machine-guns ready and a half dozen lorries filled with fully equipped soldiers, were drawn up at the roadside, imparting a sinister air to the otherwise solemn proceedings. But during the transfer of the body from city hall through streets lined with people to St. Mary's cathedral and during the procession from the cathedral to the cemetery there was not an incident of violence or disturbance. The city of Cork and the whole countryside paid tribute to the memory of their newest martyr. The body was buried beside that of former Lord Mayor MacCurtain, who was assassinated. A few yards away are the graves of Joseph Murphy, who like MacSwiney died a hunger striker and of two other Irish Republican soldiers.

Chief Secretary For Ireland In Spirited Reply

London, Oct. 28—The incident of last night's debate in the House of Commons was the spirited reply by Sir Hamar Greenwood, chief secretary for Ireland, to Joseph Devlin, Nationalist M. P., who had spoken of the British administration as that of a Canadian secretary Sir Hamar declared that the empire history was one to be proud of and no part of the empire was more favorable to Home Rule. He regretted, and hoped every newspaper in Canada would repeat his statement, that the first Canadian in the position of chief secretary for Ireland had been attacked because he was a Canadian.

Presbyterian Papers Merge

Toronto, Oct. 26—The Presbyterian Witness, of Halifax, and the Presbyterian and Westminster, of Toronto are to be amalgamated and to form one church weekly, under the title of the Presbyterian Witness, to be published by the Presbyterians Publications, Toronto, according to a decision arrived here at an executive meeting of the General Board of the Presbyterian Church of Canada.

History of Jutland Battle Published Early Next Summer

London, Oct. 27—In the House today it was stated that the proposal to publish an official account of the battle of Jutland has been abandoned. Information had been received from unofficial German sources throwing considerable light on the battle from a new angle. Any record based on British evidence, only therefore it was to be a one-sided version and would create a wrong impression of the battle. The whole of the matter also prepared by the Admiralty will be incorporated in Sir Judis Corbett's work under the authority of the committee of imperial defence which is to be published next year.

Liquor Fines of \$3,000 Collected

Allan McLaughlin of Grand Falls and his sub-inspectors, Messrs. Melanson, Picard and Daigle, have been active again in Madawaska county during the past week. Several offenders against the prohibitory law have been taken before Magistrate Michaud at Edmundston, who assessed fines totalling more than \$3,000. The inspectors have seized more than 300 gallons of liquor in the county at various points. It requires vigilance night and day in Madawaska to head off the individuals who endeavor to run in liquor from over the border in Quebec province. All the run-runners are not by any means residents of Madawaska county. Some are residents of Maine and others belong in Quebec. The inspectors in that section of this province have been more successful for some time in arresting the illegal liquor traffic than have the officers on the Maine side, where there is a much longer frontier to guard.

NEWCASTLE, N. B.

M. S. J. Hungerford Appointed Vice-President in Charge of C.N.R.

Samuel J. Hungerford, who has been appointed Vice-President in charge of Operation and Maintenance of Canadian National Railways, is of the type of man, young in years and old in experience. Born near Bedford in Quebec, in 1872, he was only 48 last July, but he has been engaged in the business of the "rolling wheel" for 34 years.

As a boy of 14, at Farnham, Quebec, he first really became acquainted with a railway locomotive. Metaphorically speaking, he boarded it then and has made it carry him from the lathe of the machinist's apprentice to the chair of the Vice-President of what will be, when the Grand Trunk System is included, the world's greatest railway.

Mr. Hungerford is a man of quick action who never seems to be in a hurry. He has a wide circle of friends in the railway world—friends that he made while mastering his various jobs in the Mechanical Department at important railway points clear across the country. Any of these friends, officer or employee, Eastern or Western, will say that "S. J. is there with the goods" and that he knows a locomotive and a car from the rails up, and how to

utilize them to the best advantage. He has the reputation of being past-master in the art of handling men, of one who cannot be beaten on wage negotiations, and of one who is an all-round diplomat but firm as the proverbial rock when necessary.

In 1910, when the Canadian Northern, having a little more than 3,000 miles of railway in Western Canada, required a head for its Mechanical Department, the management approached Mr. Hungerford, at that time Superintendent of the C. P. R. shops at Winnipeg. The decision was typical of the method of the man in all things. He foresaw a bright future for the new line that was being so rapidly extended, and gave up 24 years of service with the C. P. R. to become Superintendent of Rolling Stock of that Company's only Western competitor.

He knew the West and also the country served by the C. N. R. He had seen the C. P. R. expand from a system of 4,319 miles in 1886 to one of 11,000 in 1910. He knew also that Canada required a great deal more railway.

The expenses of the Mechanical Department of the C. N. R. increased sharply during the first year of office of its new Superintendent of Rolling Stock, whose motto was in effect "First get your engines in good shape, then use them." He watched the operation of the line and provided the power, and his plan was to urge the use of the heaviest engines where traffic was heaviest in order to reduce the train movements, making it obligatory on the Maintenance of Way forces to keep the track to the standard required. The heavy engines went on and the tracks were maintained.

The new C. N. R. official had also a definite idea as to what a real engine on a real railway ought to be. The C. N. R. standard, or 100%, locomotive, was of 23,000 pound drawbar pull, as against the C. P. R.'s 20,000 pound standard, which shows that the new road was nothing if not ambitious. Mr. Hungerford considered that in the light of the rapid development of locomotives these engines were too puny to be classed as 100%, so he, as it were, "hit his chart to a star" by adopting for the C. N. R. 100,000 pound drawbar pull as the requirement for a locomotive ranking 100% on that road. This is probably the highest standard adopted by any line. The C. N. R. had at that time no engines rating higher than 35% on its new rating, and has not even now any that go as high as 100%, but they have engines that have a drawbar pull of 65,000 pounds, which gives them a percentage of sixty five. This rating means that for each 1% there is 1,000 pounds of drawbar pull or tractive energy delivered by the locomotive to the train.

At the end of five years, the Mechanical Department of Western Lines of the Canadian Northern Railway was in first class shape, and S. J. Hungerford's jurisdiction was extended over the Eastern lines of the System in May, 1915. For two years and a half he was Superintendent of Rolling Stock for the System at Toronto, having wider jurisdiction than that of the General Managers, but he built up no departmental walls. Although always a Mechanical Department officer, he was bigger than its limits would have made him, and always realized that engines and cars belonged to the Railway and not to the Mechanical Department, and that the good of the Railway, as a whole was also the good of any department in it. So he set about the business of standardization of shop practices and of the distribution of rolling stock throughout the System. When that work had been completed,

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-LIVES"

MR. JOHN E. GUILDERSON
P. O. Box 123, Parraboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back. In 1916, I saw in an advertisement that 'Fruit-a-lives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since."

Anyone who would care to write me as regards 'Fruit-a-lives' I would be glad to tell them what 'Fruit-a-lives' did for me."

JOHN E. GUILDERSON,
Contractor and Mason.
50c. a box, 6 for \$2.50, trial size 25c.

Elections In All the States

The quadrennial general election to be held Tuesday will, of course, embrace all of the States so far as the voting for President and Vice President is concerned. In addition there will be election of state officers, judges of supreme court, railroad commissioners, etc., in all of the States with the exception of Maine, which State elected its State officers and representatives in Congress last month.

In thirty five of the States Governors and full State tickets are to be chosen. In others the election will be confined to justices of the supreme court and minor officials. The States in which Governors are to be chosen are as follows:

Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Mexico, New York, North Carolina, North Dakota, Ohio, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Washington, West Virginia and Wisconsin.

While the prohibition and woman suffrage issue, which have been voted on in a considerable number of States for years by their absence, there are numerous other proposed constitutional amendments and questions of various kinds to be submitted to the voters in the States.

In one or two of the States the voters are to be given an opportunity to express themselves for or against an entire revision of their State constitutions. In other of the States the questions to be submitted to the voters will deal largely with such matters as the extension of educational facilities, changes in the methods of taxation, irrigation and drainage projects, highway improvement, and various projects for internal development. The most of these will be of local interest, but a notable exception will be the vote in California on the proposed anti-Japanese land law, the result of which will be of more than national interest.

The Sixty-Seventh Congress, comprising 435 representatives, will be elected. The possibility of a change in the dominant party in the house lends interest to the congressional elections. The present Republican majority in the House is forty-six. The active fight of the Socialists and other minor parties to defeat some of the present representatives who are candidates for re-election and to elect some of their own representatives is attracting attention.

United States Senators are to be elected for in thirty two States. The States in which senatorial elections are to be held are as follows:

Alabama (two), Arizona, Arkansas, California, Colorado, Connecticut, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Missouri, Nevada, New Hampshire, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, South Dakota, Utah, Vermont, Washington and Wisconsin.

He will have the direction of forces that spend more than 90% of the total operating expenses of the System, and these on the present mileage, (including the G. T. P.) and with the present scale of expenditure amount to 167 million dollars per annum. It is Mr. Hungerford's business to see that the great expenditures of money day by day on the publicly-controlled road are so made as to insure the largest return in condition of track structures and equipment and the movement of the largest amount of traffic possible.

Those who know S. J. Hungerford well, have complete confidence in his capacity. He is regarded as one of those men who, with the President, Mr. D. B. Hanna, will set new standards of devotion to duty and loyalty to employers—in this case the general public of Canada.

Little Betting On U.S. Election

NEW YORK, Oct. 27—For reasons that have not been satisfactorily explained the betting on the results of Tuesday's election appears to be very small in comparison with the amount wagered here in previous presidential contests. Brokers in the Wall street district who make a practice of placing bets on a commission basis are complaining that they never did so little business in wagers on a national election. With the election only a few days distant the amount of money now at stake in the financial district on the outcome is said to be the smallest that ever has been in the hands of the brokers at such a time. Several million dollars in wagers were handled by the New York brokers in the presidential election four years ago, but it is considered doubtful if the bets made this year will aggregate one million unless there should be an eleventh-hour rush on the part of those willing to risk money on their political judgment.

One touch of love made all her life's punctures.

Cheapness in the disguise of Economy

The Nurse told Her to Give OLIVEINE EMULSION THE GREAT HEALTH RESTORER

South Brookfield, Quebec Co., N.S., Oct. 1919.
"Our little girl was very sick with Stomach Trouble and different foods were recommended, but everything failed until a nurse told me to give her OLIVEINE EMULSION. She is now a big, healthy baby and I would not be without it in her house. For coughs and colds and as a health builder it is the best in the world. We recommended OLIVEINE EMULSION to quite a few who were suffering from the effects of influenza and they used it with good results."
(Name on request)

OLIVEINE EMULSION is more than an ideal cough remedy, to pave the way for a quick recovery from heavy colds and deep-seated coughs. It is a body builder—gives strength to the weak—tones up and invigorates the whole system. It is pleasant to take and is agreeable to the most sensitive stomach.

Sold everywhere.

OXO GENERATES HEAT

Concentrated Beef Cubes Fortify Body Against Chills.

An Oxo cube dissolved in a cup of hot water is a splendid thing to take before going out in the cold or damp, or on coming in, if one feels the slightest ill effects. Besides its nourishing and invigorating properties, Oxo acts as a fuel in the body, generating heat that the system requires.

Oxo cubes—in tins of four and ten cubes—have endless possibilities. For soups, sauces, gravies, savory dishes and meat jellies, they do all that meat could do, and do it quicker and with less trouble. Use Oxo cubes with "left-overs" and oddments for new, delicious dishes.

There is nothing better than Oxo for building sturdy boys and girls.

HOW YOU CAN TELL

GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations.

Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mononaceticacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

OBITUARY

CLIFFORD DRUMMOND

Clifford Drummond, a returned soldier, died at River Glade Hospital Thursday evening. His remains were brought to Newcastle on the local. The deceased was 25 years of age, the son of Hugh Drummond, Chaplin Road. He enlisted and went to France with the 104th Regiment and was shell-shocked and gassed from the effect of which he never recovered. Besides his father and step-mother he is survived by four brothers and four sisters, John and Ernest in the west; Robert in California; Ralph at home. The sisters are Mrs. Frank Richards, Chaplin Road, and Mrs. Fred Chesboro, of Pittsburg, Pa. The interment was held in the Methodist cemetery on Saturday afternoon.

PAUL TIPPETT RICKARD

At Barker's Point, Wednesday morning, Paul Tippet Rickard died, aged 25 years, with pneumonia. He leaves his widow, two sons, Walter and Ernest, and one daughter, Muriel, his mother, Mrs. Frank Dickson; five brothers, Rev. J. H. E. Rickard, of Slingerland, N. Y.; Wesley D., at home; George T. Hartland; Frank W. Moncton, and Harold E., at home, and three sisters, Mrs. I. A. Haggart, Methuen, Mass., Mrs. Charles Ross, Baker's Point, and Mrs. J. E. Mitton, Renous, Northumberland County, N. B.

ALEX. O'DONNELL JR.

McNamee, N. B., Oct. 27—Alexander O'Donnell, Jr. of McNamee, fell from a load of hay and broke his neck. He died shortly after. About three weeks ago he lost a daughter with diphtheria. The remains were laid to rest at the Church of England burying ground at Carroll's Crossing. The pall-bearers were Harry Lyons, Clifford Lyons, Ward Reid, Patrick Brown, George Parker, Oliver Lyons. The floral tributes were many and beautiful.

He leaves to mourn, besides his wife and father, four daughters, Emma, Margaret, Gladys and Isabelle two sons, Harry and Vincent; three brothers, Richard, Peter and Finlow. Five sisters also survive, Jennie, Nellie, Marie, Jessie and Pearl.

Childhood Ailments

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild but thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Concerning them Mrs. Alcide Lepage, Ste. Beatrix, Que., writes:—"Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her playful and well." The Tablets are sold by medicine dealers or by mail at 25c cents a box.

SUGAR PRICE CUT \$1.40
The sales department of the Atlantic Sugar Refining Co. have made the announcement that they have cut the price of sugar \$1.40 per one hundred pounds bringing their selling price to \$14.50.

Difficulty Arises In Miner's Strike

London, Oct. 27—A new difficulty has arisen regarding the complete settlement of the coal strike, which was believed to have been attained on the basis of an increase in the miners' wages as set forth in the earlier announcement this afternoon. That the difficulty is serious is indicated by the fact that the cabinet

has been summoned to meet early tomorrow morning before the conference of the miners and government officials reassembles.

At the last moment the miners presented a new demand which compelled adjournment of the conference with the representatives of the Government. Nothing has yet transpired as to the nature of the miners' new demand.

London, Oct. 27—The Government's emergency bill, which provides for all contingencies in the event of miners strike, should involve the railway and transport workers was passed through all its remaining stages today and passed third reading tonight. The vote was 238 to 58.

Anxiety is being felt by many mining men interested in copper properties in Canada regarding the royalty in this mineral which the Dominion Government may think fit to impose after January 1 next, up to which time the royalty is free from any levying. A resolution was passed by the Dominion Mining Association, at Ottawa, this evening, that the Government should be asked to consider the possibility of a permanent free trade in copper.

inary development of important discoveries by describing to them the specific royalties which will be charged on the different minerals produced, and particularly asking that the time for which copper shall be exempt from the royalty shall be extended for a period of ten years.

TWENTY-FIVE YEARS AGO

(Daily Times, Oct. 25th, 1895)

A commission has been taking evidence at Newcastle in Hon. Peter Mitchell's suit against the Montreal Street Railway for \$12,000 damages for injuries sustained in jumping from a runaway car. It is said the testimony is to the effect that Mr. Mitchell is both mentally and physically weaker than before the accident.

New Price for the Government Lime

Under a new arrangement between Hon. J. F. Tweeddale, minister of agriculture, and Smith & Merrithew, who are crushing limestone under an agriculture at Brookville, crushed lime for fertilizer will be sold at the Brookville, siding for \$3 a ton f. o. b. in car load lots, according to a dispatch from Fredericton. The purchaser will pay freight charges to destination. The former price was \$5 a ton delivered at the railway station indicated by the purchaser. The increase in freight rates has made it impossible to continue the old arrangement. The lime contract has therefore been amended to meet the increased cost in freight rates, as provided by its terms when drawn up.

Hon. Mr. Tweeddale will protest to the chairman of the railways that crushed lime intended for rectification of soils must be classified to come under the increased freight rates. The commission ruled originally that the increase would not apply to such crushed stone.

The lime which is being turned out at Brookville by the analysis of Professor Schutt, Dominion analyst of Ottawa, contains ninety-three per cent pure lime.

Great Britain Will Not Confiscate Property

Paris, Oct. 27.—The French Foreign Office received official notification today that Great Britain renounces the right of confiscation on German property in the United Kingdom.

This has caused "great surprise, which is freely expressed in French official circles as there had been no previous intimation that such a move was probable. French officials emphasize the

ROYAL YEAST CAKES

are now packed in square packages. Each package contains five cakes, which are equal in quantity to six round cakes. All dealers are authorized to guarantee that the quality of the round and square cakes are identical in every respect.

gravity of this move, as they fear Germany will make a similar request of France, which it is declared, could not be granted. However, they point out that the renunciation by Great Britain of her rights under paragraph 13, annex II, of paragraph 8, of the treaty of Versailles, is not as sweeping as reported at first.

Some complaint is made because France is confronted with an accomplished fact, without having been given an opportunity to discuss the matter.

It was said at the Foreign Office today that France would send a reply to the British note, but what form the reply would take could not be disclosed at this juncture.

Official circles add that Great Britain retains her rights in case of voluntary default by Germany.

DISTRESS IN EUROPE

British Empire Effort to Help Smaller Nations.

Canadian Red Cross to Organize Appeal on Behalf of Orphans—Call to Be Made in Armistice Week.

An urgent appeal for aid to combat the widespread disease and distress in the war-stricken areas in Europe has been made by the League of Red Cross Societies to the nations which have suffered least from the war. In response a War Relief Fund has been undertaken in Great Britain with an Empire-wide appeal for contributions. The Fund is under the immediate patronage of His Majesty the King and has the support of all parts of the Empire.

His Excellency, the Governor-General of Canada, having received communications from London upon this matter, consulted the Prime Minister, and with his approval referred the question to the Canadian Red Cross Society, and it was arranged for an appeal to be made in Canada during Armistice week in November. The Fund will be known as "The British Empire War Relief Fund."

To Make Known the Need.

The Canadian Red Cross Society accepted the task of making this appeal known throughout Canada only in view of the relentless circumstances and the humane desire to help to alleviate the terrible suffering of a large number of peoples. The reasons are numerous and compelling. Large populations are suffering from distress and disease. Millions of innocent children are among them. Even in time of peace great numbers of their people lived close to the bread line. The war drained them of all their surplus resources. Through the years of strife they were denied all but the bare necessities, and their condition now is pitiful indeed. History has repeated itself. The diseases which took such fearful toll of human life after the Thirty Years' War, the Seven Years' War (1757-65), and the Napoleonic Wars are again widespread, and now there are millions of people in Galicia, Poland, Jugo-Slavia and Roumania who, in addition to being poverty stricken, are in the direst misery and despair on account of disease. In some two countries, most of which were either our Allies or friendly to the Allied cause, modern civilization is faced with the inevitable consequences of a great war through partial famine and pestilence.

A Previous Epidemic.

That the epidemic is now one of alarming proportions and terrible in its effect may be noted from the following quotation from "The Times": "At present the worst results of typhus are confined to Galicia, where the schools are closed, business is at a standstill, and civic life is crippled. The whole community is faced with starvation, whilst the absence of clothing and drugs makes it impossible for the authorities to make any headway against the epidemic. Here we have a country into which the idea of modern sanitation has never penetrated; for the most part there is no water supply in the smaller towns and villages save wells, whilst the work of sewers is done by open gullies running through the streets. There are no doctors, no nurses, and no beds, and the miserable typhus-stricken patients lie unattended on the bare floor. Throughout the rural districts the families exist in miserable one-roomed huts, their diet consisting of starvation rations of potatoes and beet, both bread and meat being luxuries rarely seen. In almost every hut there are several cases of typhus and in many instances whole families are stricken with the disease, and are perforce left to die unattended."

Many Countries Are Suffering.

What is said of Galicia is true of other countries of Europe, such as Estonia, Lithuania, Latvia, huge territories of the Ukraine, Soviet Russia, Jugo-Slavia and Czecho-Slovakia. Nor is typhus the only affliction. Tuberculosis, smallpox, dysentery and relapsing fever are also ravaging large areas.

Lack of Medical Aid.

These terrible conditions have been called to the attention of the people of the British Empire in a statement by the Right Hon. Arthur J. Balfour, who, speaking for the Council of the League of Nations, says: "Men, women and children are dying by thousands, and over vast and civilized areas there are neither medical appliances nor medical skill sufficient to cope with the horrors by which we are faced. Governments have in certain cases done all in their power to bring relief, but there remains a vast field for charitable enterprise which can be dealt with only by voluntary effort."

Eleven Million Orphans.

Dr. Livingstone Farrand, chairman of the Central Committee of the American Red Cross, who has just returned from Europe, states that there are 11,000,000 fatherless children in Europe who face the next few years without hope of adequate assistance unless outside assistance is given.

For Suffering Children.

No stronger call could be made to humanity than that of suffering children. And on their behalf particularly the Canadian Red Cross will appeal throughout Canada during Armistice week. Each provincial division of the Red Cross will have charge of the arrangements in its own province, and all Red Cross workers should put their hands to the joyful task, in close co-operation with the local branch of the Headquarters of the Provincial Division. If the local branch is organized,

A New Character

When, four years ago, KING COLE ORANGE PEKOE TEA first appeared, something more than a new tea had been produced—a new character in tea had been created. Only after most searching experiments in flavor-blending were we at last able to develop that peculiarly mellow richness of flavor so delightful to the taste, which has won for KING COLE ORANGE PEKOE the high place it holds. The total annual sale of KING COLE ORANGE PEKOE has doubled twice in the last two years.

We are confident that you will say that it is different to any tea you ever tasted.

The Human Clock usually Breaks Down Instead of Runs Down

It has long been a favorite idea of mine to compare the human body with my old clock here.

"Without proper attention the old clock gets run down and stops until I wind it up again and then it ticks away just as heartily and regularly as ever."

"And so it is with the human body, but the great difference I find is that the human clock usually breaks down instead of runs down, because people neglect to take proper care of their health."

"Through all these years I have managed to keep well and to keep young by using restorative treatment whenever there are indications of the system becoming run down."

"Fortunately I learned the value some years ago of Dr. Chase's Nerve Food and to it I use I largely attribute my healthful condition at this age."

"When I hear people talking about being unable to sleep, or of suffering from nervous headaches, indigestion or worn-out feelings, I ask them, 'Why do you not use Dr. Chase's Nerve Food to increase your nervous energy?'"

"So many people, as age advances, suffer from a lowering of the vitality, from high blood pressure or hardening of the arteries, but I have found that the use of this restorative treatment, when required, keeps my health at the high water mark."

ILLUSTRATED CONVERSATIONAL STYLE

The Questions to be Answered

1. Which style of advertising interests the most people in Dr. Chase's Nerve Food?
 - A. The use of testimonials?
 - B. Human interest advertisements with illustrations and conversational style of copy?
2. For what ailment do you find that Dr. Chase's Nerve Food is most frequently used?

Both these questions can best be answered by making inquiry among your friends. Then write a good letter telling what you found out by your investigation.

\$300.00 in Cash Prizes

- \$100 for the best letter.
- \$50 for second best letter.
- \$25 for third best letter.
- \$5 each for succeeding twenty-five best letters.

For your guidance we would suggest that you clip out this advertisement and start in at once to make an investigation among your friends and neighbors.

The competition closes Nov. 15th, 1920, but in case of two letters being equally good, the first one received will have the preference.

Edmanson, Bates & Co., Ltd.
DEPT. 88 TORONTO, ONT.

Before beginning the next series of advertisements to tell people about Dr. Chase's Nerve Food, we want you to help us to decide on the style of our advertising.

The use of testimonials has always been favored in medical advertising, but with an effort to make our advertisements more interesting we have during the last few years used attractive illustrations and the conversational style of reading matter.

You will find samples of both styles of advertising on this page. What we want to know is which style appeals most strongly to women, because it is on the wife and mother mostly that rests the responsibility of looking after the health of the family.

If in addition to reporting that such a style of advertising is most interesting to you, you can say, "I have made inquiry among 25 of my friends and find that 16 have used Dr. Chase's Nerve Food as the result of reading your illustrated advertisements, 7 on account of reading testimonials and the other two have never used it," your answer would be much strengthened.

By adding further particulars as to various cases which have come to your attention your letter would be made more interesting and more likely to win a good prize. Your name will not be used publicly without your permission.

Was Given Few Months to Live Is Now Strong and Well

Miss E. W. Ehman, School Teacher, Libau, Man., writes:—"Four years ago, while living in Regina, I was afflicted with fainting spells, nervous headache, and became very thin and pale. I sought medical advice and was treated for consumption, and given only a few months to live. I had to sleep on the verandah and was told not to go to public places for fear of spreading germs."

"A newspaper advertising Dr. Chase's Nerve Food fell into my hands. I bought six boxes and after a few weeks began to increase in weight and feel better. Under this treatment I gradually regained my health and now weigh 165 pounds. I

enclose a picture I had taken while ill and my photo of to-day, so that you can see what a difference there is."

"The reasons for my writing this is the hope that this statement of mine will fall into the hands of some poor sufferer who can be benefited, may be saved, by the steady, regular use of Dr. Chase's preparations."

"I often use Dr. Chase's Kidney-Liver Pills to keep my kidneys and liver in shape. I have recommended Dr. Chase's medicines to a great number of people for kidney trouble, lame back, appendicitis, shortness of breath, indigestion, nervousness, and in fact for every sickness I am asked advice about."

TESTIMONIAL STYLE.

A Series of Talks On Music

By Prof. C.C. Laugher, Mus. Bac. Sarnia, Ont.

NO. II—THE HARP

The name "Harp" is attached to so many of its kind and all the instruments are plucked strings that it is advisable to mention some. The Irish harp is an instrument of the lyre family but having more strings and is only used to play simple melodies and to accompany another instrument. The harp lute was an instrument of the guitar kind and an improvement was made by Edward Light, who produced this instrument with 12 gut strings, the finger-board having frets on it and a thumb key was fitted to each string, this key when depressed was to adjust the pitch similar to the modern harp and its pedals.

The harp is one of the most ancient and universal of stringed instruments, and possessed a larger number of strings than the lyre. The strings were plucked with the fingers. The triangular form of the present harp is very similar to that of the Egyptian and Assyrian harps depicted on the ancient monuments. The shape gives to us the idea of it

Professor C. C. Laugher Mus. Bac.

being driven from the bow of an archer, for we find the farther back we go that these instruments are bow-like in shape.

We read that the paintings dated from the thirteenth century, B. C., have been discovered at the entrance of the tomb at Thebas, which depict two priests out at each side of the portal, playing upon harps, these instruments are taller than the players.

We now come to the more modern times and find the harp now tuned in semitones and has a double row of strings.

The Welsh harp has three rows of strings and is sometimes called the triple harp, the gut strings numbering 98. The outer rows produced the natural tones and the centre row gave the sharps and flats.

The real modern harp has a double action invented by Sebastian Erard about 1810. The modern harp is a graceful orchestral instrument possessing a triangular outline. It has a straight slender pillar, a slanting sounding box and a carved neck connecting the two, both pillar and sounding box rise from a circular base in which eight pedals are arranged in a semi-circle, the compass of this instrument is over six octaves, there is a limit to the technique on this instrument as the scales or passages of a chromatic order are almost impossible and even when practicable is ineffective. Simple chords and arpeggios are the most telling on this instrument. With but few exceptions, what music is suitable for the piano is suitable for the harp.

In the modern double action harp by means of the pedal the strings may be raised two semitones, affording great facility for modulations. The strings are arranged in diatonic scale and tuned in flats, the normal scale being E-flat. Each lever or pedal controls two sets of discs from each disc project two pins, the strings pass between the pins, but in pressing the pedal half way down, presses the pin against the string, thereby shortening it or making it one semitone higher, by pressing the pedal entirely down presses the second pin against the string shortening it yet another semitone. The seven pedals affect the strings but the eight govern the damper. The voice of the harp possesses great sweetness, as the strings are not plucked sharply, but gives a sweeping motion, producing a stately effect.

Planets Causing Longer Summer

Youngstown, Ohio, Oct. 24.—That old mother earth may be facing one of those glacial experiences such as she underwent thousands of years ago, is seriously mentioned as a possibility by John H. Chase, of this city, whose articles on astronomy have gained wide attention. Mr. Chase, who is supervisor of playgrounds in Youngstown, and who, since his graduation from college has continued his studies in astronomy, views the almost unseasonable weather of the present autumn as a probable consequence

of the rare alignment recently undergone by certain planets. If his theory in this respect is correct, he regards the phenomenon as a forerunner of a glacial slide, which apparently would wipe out Australia and part of Africa's surface and effect a marked change in the climate of this continent.

"It is possible we are now experiencing the first effect of the remarkable planetary alignment which occurred last winter," said Mr. Chase, discussing the subject.

"If you recall, the planets Jupiter, Uranus, Mars and Saturn were all in direct line with the earth for the first time in many centuries. The combined pull of these great bodies, it was predicted by many astronomers,

was certain to affect the earth's orbit—probably in the way of lengthening and flattening the ellipse.

"If that occurred we could expect longer summers in the northern hemisphere and shorter ones in the southern hemisphere, and more important than this is the likelihood that a glacier may form, covering all of Australia and part of Africa."

"Just such a flattening and stretching of the earth's orbit thousands of years ago caused a glacier to creep over North America as far as South Lestonia, twenty miles south of Youngstown."

"This may not be the explanation, but it is a possibility based on what is known to have happened at least once before in the world's history."

Luxury Taxes Closing Shops Labor Asserts

Ottawa, Oct. 27.—Not the manufacturers themselves, but the ranks of organized labor are now endeavoring to secure the removal of the luxury tax on certain kinds of production, basing their action upon the grounds that its imposition has led to a great deal of unemployment. This attitude was evinced this morning by a delegation from Toronto, which waited upon Sir Henry Dreyton, Minister of Finance, and Senator Gordon Rob-

The Piano Case

The delegation pointed out that over 650 men employed in the piano, organ and phonograph trades were at present out of employment in Toronto, and stated that the manufacturers had given as their reason for shortening production of these articles of trade that the people would not buy them with the added cost due to the imposition of the luxury tax.

The delegation inquired whether the Government could not see its way clear, if the luxury tax was absolutely imperative, to have it included in with the sale price of pianos, organs and phonographs, instead of over and above it as at present.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Find Substitute For Spruce Pulp

"It has become axiomatic in the
paper industry that there are no
substitutes for spruce wood in mak-
ing paper pulp," writes Harry A.
Mount, in Popular Mechanics. "Thou-
sands of dollars have been spent by
manufacturers in an effort to find
some material to replace the rapidly
diminishing supply of spruce with-
out result. And so they have re-
verted with a great deal of skepticism
to the recent announcement that a sat-
isfactory paper can be made from the
sea grass of Florida, and that a
practical method of production has
been developed. Recently a com-
pany has been organized, however,
and plans are going forward for build-
ing a pulp mill with an initial capac-
ity of 25 tons per day in the sea
grass belt.

"Engineers connected with the en-
terprise say that a preliminary sur-
vey reveals that there is in Florida
nearly 5,000,000 acres of sea grass.
It can be harvested twice a year,
yielding 20 tons of paper per acre to
each cutting. It would seem, there-
fore, that Florida might eventually
supply paper to the whole world, for
it is claimed all grades of the com-
modity, from building papers and
cardboard to the finest writing pa-
pers and vellums, can be made from
the grass.

"It is not surprising in the light
of past experiments, that relief to the
present paper situation should come
from such a source. Fibre suitable for
paper making should come from
such a source. Fibre suitable for
paper making has been produced
from a number of plants, among
them corn and cotton stalks. The
pulp from these sources has been
made only on a laboratory scale,
however, because two chief difficul-
ties stood in the way of commer-
cial exploitation of the process. In
the first place there is not a suffi-
cient supply of any one material,
and it is too expensive to gather corn
or cotton stalks from a wide area.
The second, and perhaps the most
important, difficulty is that, because
the material is not compact, only a
small amount can be placed in the
pulp 'digester' at one time, making
the production very expensive."

Commemoration of the Glorious Dead in the War

London, Oct. 25.—Lord Curzon, Min-
ister for Foreign Affairs, and leader
of the House of Lords, today gave the
Canadian Associated Press some de-
tails of the arrangements which the
Government proposes to follow in
connection with the unveiling of the
cenotaph commemorating the glori-
ous dead in the war together with
the burial of an unknown British soldier
in Westminster Abbey, on Armistice
Day.

The body of this soldier will arrive
from France on Armistice Day and
no attempt will be made to discover
its identity. There will be a long pro-
cessional route, the pallbearers being
admirals, field marshals and gener-
als. The procession will halt at the
cenotaph for the unveiling ceremony
by His Majesty the King, afterwards
the procession will proceed to West-
minster Abbey with the King as Chief
Mourner and the Princes immediately
following the gun carriage, on foot.

The burial will take place in the
nave of the Abbey and it is also pro-
posed that the grave shall be filled
with soil from France.

Lord Curzon laid stress on the fact
that troops from the dominions will
be given every opportunity to share
in the ceremonies with the home for-
ces. It is proposed that two min-
utes silence during the armistice
hour, shall again be observed
throughout the Empire.

Prince of Wales A Prize Winner

CALGARY, Oct. 27.—The Prince of
Wales took the championship and
two firsts with his Shropshire sheep
from his ranch south of here at the
annual fall cattle show and sale yester-
day.

The Earl of Minto took first with
his Oxford animals. The Prince won
first in all he showed.

Uncertainty of Cattle Export

Cattlemen on the Western Cana-
dian ranches are reported to be ser-
iously concerned about the uncer-
tainty facing the export of cattle on
the hoof to the United States. They
fear that after the coming elections
a tariff wall may be erected against
the importation of stockers and feed-
ers from the Dominion. Last year
the value of the animals exported
was roundly \$50,000,000. This has
been a growing trade since 1910
when 155,000 cattle were shipped
over the line. In 1919, the total had
risen to 242,000 and for the fiscal
year ending March last, the figure
was 214,000.

But there is a reassurance forth-
coming. Canadian producers believe

Middle Aged Women

Women should take warning from such
symptoms as heat flashes, shortness of breath,
excessive nervousness, irritability, and the
blues—which indicate the approach of the
inevitable "Change" that comes to all women
nearing middle age. We have published vol-
umes of proof that Lydia E. Pinkham's Vege-
table Compound is the greatest aid women can
have during this trying period.

Read About These Two Women:
Fremont, O.—"I was passing through the critical period
of life, being forty-six years of age and had all the sym-
ptoms incident to that change—heat flashes, nervousness,
and was in a general run-down condition, so it was hard
for me to do my work. Lydia E. Pinkham's Vegetable
Compound was recommended to me as the best remedy
for my troubles, which it surely proved to be. I feel bet-
ter and stronger in every way since taking it, and the an-
noying symptoms have disappeared."—Mrs. M. Goddard,
222 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to
the annoying symptoms I had an attack of grippe which
lasted all winter and left me in a weakened condition. I
felt at times that I would never be well again. I read of
Lydia E. Pinkham's Vegetable Compound and what it did
for women passing through the Change of Life, so I told
my doctor I would try it. I soon began to gain in strength
and the annoying symptoms disappeared and my Vege-
table Compound made me a well, strong woman so I
do all my own housework. I cannot recommend Lydia E.
Pinkham's Vegetable Compound too highly to women
nearing the Change of Life."—Mrs. FRANK
HANSON, 1216 South Orchard Street, Urbana, Ill.

Women Everywhere Depend Upon

Lydia E. Pinkham's Vegetable Compound

IF YOU HAVE Skin Trouble

DOES your skin get rough, rashy, and irritable? Are you
troubled with outbreaks of pimples and blotches? If so,
Zam-Buk will soothe your skin and clear away these
annoying disfigurements. If afflicted with more obstinate
troubles like dry or weeping eczema, ulceration, abscesses,
ringworm or poisoned sores, Zam-Buk alone ensures speedy and thorough cure.
Zam-Buk's soothing, healing and germicidal powers are derived from a scientific
blending and concentration of nature's herbal oils and extracts.
Zam-Buk has revolutionized the treatment of skin troubles. Where ordinary
coarse ointments act merely on the surface, Zam-Buk's refined herbal juices
penetrate to the underlying tissues, destroying disease at its very root.
For quick, clean healing of everyday cuts, burns, scalds and wounds, or for
ridging skin or scalp of eruptions and sores Zam-Buk is invaluable.

WEeping ECZEMA. Mrs. Carmichael, 72
St. Avenue, Montreal, writes: "I suffered from
wet eczema so bad that, when hospital treat-
ment failed, I began to think my case incurable.
Zam-Buk, however, ended the disease, and
soothed my skin wonderfully. It drew out all in-
flammation and cleared every trace of disease."
See box, 3 for 21c. All Drugists and Stores, or Zam-Buk Co., Toronto.

BABY'S FACE SORES. Mrs. C. B. Ritchey,
Riverport, N.S., says: "My baby had sores on
her face caused by teething. Although I tried
numerous salves and ointments nothing would
heal them. On a friend's recommendation I got
some Zam-Buk. This soothed the child, healed
every sore, and effected a wonderful cure."

Begin With ZAM-BUK To-Day!

the seriousness of any threatened
curtailment of livestock production
and believe that if a tariff commis-
sion had to be met they could tally
also care of all the cattle that can
be raised if two conditions are ful-
filled. The "scrub" bull must go so
as to raise the general quality of
our beef and stock-raisers must pro-
vide a steadier supply than in the
past. These two factors are the
main drawbacks to the development
of an export trade in beef similar to
that which has proved for 25 years
the mainstay of our bacon industry.
During 1919, out of 698,849 cattle
marketed at stockyards for home
consumption, 139,431 graded "common." That is,
19.8 per cent graded "common."
With so much unsuitable material
to hamper, an export market cannot
yet be established to compete with
the high class beef from Argentina
and Australia. But if quality is im-
proved and supply well regulated,
packers emphatically assure stock-
breeders—and this applies to east
and west—of a readiness to aid in
opening and building up a valuable
market for all beef animals bred on
Canadian farms.

Marketing Eggs Improving

Mr. J. F. Booth, Commissioner
of Co-operation and Markets reports
a market reduction in the percentage
of bad eggs received by wholesale
companies within the province in re-
cent shipments as compared with the
same in former years. The improve-
ment is credited to the operation of
the Egg Marketing Act, which came
into force in the beginning of June
this year. To meet the standards
called for, it is necessary to candle
all the eggs as received from produc-
ers. Two thousand retail egg mer-
chants in the province are licensed by
the Co-operation and Markets Branch.
Two inspectors are visiting these
merchants giving them personal as-
sistance with respect to the egg trade.
Later in the season inspectors will
make a second tour to enforce the
Act. Bulletins are sent out with
illustrations explaining the candling of
eggs, and the construction of a sim-
ple candling device. These various
forms of assistance are clearing away
much of the early misapprehensions
that were evident when the Act was
first made public.

PEPS

the real breatheable tablets, make the throat, chest, and lungs cold-resisting. When a nasty cold or a coughing bout foretells the revival of your old bronchial trouble, the best thing to do is to take Peps at once to strengthen and

PROTECT

the chest. When a Peps tablet is taken from its preserving silver wrapper and allowed to dissolve in the mouth, it gives off powerful medicinal and germicidal fumes that immediately circulate with the breath through all the air-passages, and destroy any germs that have got into

YOUR

nostrils and throat. At the same time the sore, inflamed membrane is soothed, healed, and protected, phlegm is released from the bronchials, breathing is made easy, and that distressing cough and throat soreness disappear. By this direct treatment Peps keep trouble off the

CHEST

and lungs, and the worst weather can be faced without fear of evil consequences. It is the safest plan to always have a few Peps handy to arrest a cold, and prevent it reaching the lungs or starting bronchitis and chest weakness.

Peps

Fisheries Production Of Canada

The Dominion Bureau of Statistics have issued a preliminary statement of the Fisheries Production of Canada for the year 1919 prepared from the compilation of returns collected by the Bureau in co-operation with the Fisheries Branch of the Department of Marine and Fisheries. The total value of fish marketed fresh and of fish products is given as \$56,485,579, compared with a value of decreases both in value marketed and quantity caught. The catch of haddock, halibut and cod was greater in 1919 than in 1918, while the value marketed was less. Salmon, lobsters and mackerel showed increases both in quantity caught in value marketed. British Columbia fisheries had a value of \$25,301,607, which is a decrease from 1918 of nearly two million dollars. Nova Scotia fisheries were valued at \$15,171,929, a slight increase over 1918. Prince Edward Island, Ontario, Saskatchewan and Alberta showed increases in value, while New Brunswick, Quebec, Manitoba and Yukon showed decreases. Of the principal fish products, canned salmon is given at 1,394,215 cases, valued at \$13,342,140 in 1919, a slight decrease both in quantity and value from 1918. Canned lobsters were reported at 123,759 cases valued at \$4,095,934 in 1919, compared with 107,812 cases valued at \$2,254,690 in 1918. The quantity of canned sardines was 119,225 cases valued at \$593,811 in 1919, compared with 177,193 cases valued at \$1,227,985 in 1918. Increases in quantity and market value are noted in dried cod and salted mackerel, and decreases in green salted cod and pickled herring. Of fish marketed for consumption fresh, the principal varieties in point of value were halibut, 240,728 cwt., valued at \$5,114,416; salmon, 460,413 cwt., valued at \$3,324,158; whitefish, 196,953 cwt., valued at \$1,845,854; lobsters, 85,340 cwt., valued at \$1,224,882. Other varieties which showed large quantities marketed for consumption fresh were mackerel, herring, cod, smelts, trout and haddock.

Exhibition of Ranch Bred Silver Foxes

An unique exhibition under the immediate management of the Commission of Conservation of Canada, will be held in Montreal on November 24th, 25th, and 26th. It will be the first international exhibition of ranch-bred live silver foxes. Fur-farming is rapidly becoming a scientific branch of animal husbandry and, although little more than a decade old, is one of Canada's most flourishing infant industries.

While the greater number of Canadian fox ranchers are to be found in the Maritime Provinces and chiefly in Prince Edward Island, there are many in each of the other provinces and the number is steadily increasing. The interest evinced in Quebec, Ontario and Western Canada generally demonstrates that many Canadians are desirous of embarking in the fur-farming of mink, beaver, fisher, marten and other fur-bearers.

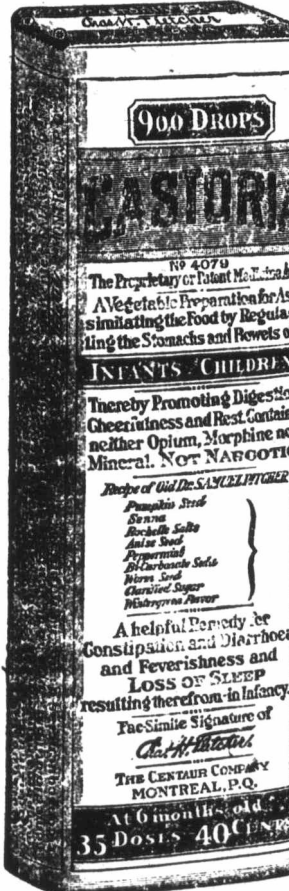

Present advices indicate that fully 150 animals will be brought from Prince Edward Island alone. It is confidently expected that other provinces will send an equally large number in proportion to the number of their fur-farmers and many enquiries have been received from the United States. The Secretary of the exhibition is Mr. F. C. Nunnick, Commission of Conservation, Ottawa.

A healthy growth of the industry should do much to check the rapid depletion of wild fur-bearing animals and to steady unstable conditions in the large fur markets. It is confidently expected that the exhibition at Montreal will result in the formation of a Fur Breeders' Association of Canada, which can do much to establish and keep accurate breeding records of pedigreed fox stock and, in general, advance the interests of the industry.

Retail Clothiers Will Demand Aid

OTTAWA, Oct. 26—Claiming that it is just as reasonable to give aid to other branches of merchandising which have been "interfered" with by the Board of Commerce, retail clothiers and shoe dealers will expect the government to give them financial assistance if similar support is given the sugar refiners in Canada, as is anticipated. This attitude was expressed at a meeting of the executive of the Ottawa branch of the Retail Merchants' Association of Canada held this morning to discuss various matters in connection with Ottawa branch affairs, and embodied in a resolution which will be put before the first meeting of the branch for endorsement. Mr. W. J. McKerracher, vice-president of the Ottawa branch, gave notice of the resolution.

SECURED NAMES
We understand the policemen have secured a number of boy's names who were doing some destructive work on Hallow E'en, and they will be brought to account for their actions.

TO CONTINUE WORK
Rev. W. B. Williston, of West China, formerly of Bay du Vin who has attracted large audiences at a Missionary Institute at St. Luke's church, St. John the past week, will conduct a similar institute at St. Mary's church, Waterloo street, beginning November 7th.

TWINS DIE AT SAME TIME
An extraordinary chain of coincidences has been noted with the death of two daughters of J. D. Smith of Ramsgate. They were twins, were married together, and died from heart trouble at the age of thirty-two within a few hours of each other. They lived in separate towns.

REMARKABLE ESCAPE
Harry Treadwell, a boy of about nine years old, had a narrow escape from drowning on Tuesday, when he fell into the deep water near Robinson's Mill. A rope was thrown to him but he could not grasp it and was going down for the third time when a young man, Edmund Mazerall, jumped in and succeeded in bringing him to the shore.

A PHENOMENON
About a week ago, Mr. Andrew McCabe, while digging potatoes on his son's lot on Jago St., received quite a surprise when he noticed that under one of the potato stocks, about fifteen large potatoes had pushed up to almost the top of the earth, and on digging further down got so many potatoes (large and small) that he decided he would count them. He found that fifty potatoes had grown under the one stalk, and drew the attention to nearby neighbors, who were also digging potatoes close by. This is a phenomenon, and the seed was of the Delaware species.

TABLET TO BE UNVEILED
A Memorial Tablet, donated by the Girl's Junior Club, to St. James' Church, in memory of the glorious dead and the valiant living will be unveiled in St. James' Church during the morning Service next Sabbath, November 7th. The G. W. V. A. has been invited to attend in a body and the public at large are cordially invited to be present. The tablet was erected by Henry Birks & Sons, and cost over three hundred dollars. Principal MacKinnon of Halifax will be the speaker for the day. After the unveiling, the tablet will be placed in the vestibule of the church, as decided by the congregation on Sunday evening last.

FORMER NEWCASTLE BOY ELECTED VICE-PRESIDENT
The annual meeting of the Moncton Dental Society was held last Thursday evening in the Y. M. C. A. hall, with a good attendance of members present. After routine business had been transacted, the following officers were elected:
President, Dr. A. J. Cormier; Vice-President, Dr. G. T. Leighton; Secretary-Treasurer, Dr. W. L. Gillespie.
It was also decided that in future the offices of the various Moncton dentists would be kept open Saturday afternoons and evenings.

FIRST SNOW
A slight flurry of snow, the first of the season, fell on Saturday about 1.15 p. m.

RESIGNED AS J. P.
Mr. Joseph McKnight has resigned his position of Justice of the Peace for the County of Northumberland.

JAMOKA ORCHESTRA
The Jamoka Orchestra failed to appear last Tuesday night and many who purposed attending were disappointed.

MISCELLANEOUS SHOWER
A number of young friends from Newcastle and Chatham of Mrs. David Ritchie, called at her home last evening and tendered her a miscellaneous shower.

HALLOW E'EN
Hallow E'en was quietly celebrated in town on Saturday night. Apart from an unusual amount of noise the celebrants were orderly.

MIRAMICHI HOSPITAL
The patients and staff of the Miramichi Hospital wish to thank the Girl's Club for the enjoyable treat of ice-cream and grapes.
R. CORRY CLARK, Secretary.

On Wednesday, Oct. 20th, at St. Paul's Manse, Fredericton, by Rev. J. S. Sutherland, Jennie Pirie Johnston of Chatham and J. Stirling Jardine of Newcastle.

HALLOWE'EN PARTIES
A number of Hallow E'en parties were held last Saturday evening, and the children present enjoyed themselves immensely with games and other amusements suitable for the occasion.

CORRECTION
In the "Money Back Guarantee" of the Maritime Produce Co., advertisement, the word discount should not appear. A 10 per cent penalty will be given to the customer who is not satisfied.

A GOOD START
The sale in aid of The Miramichi Hospital Nurses' Home at Messrs. A. D. Farrah & Co's store, got away with a good start yesterday, and the prediction is, that this sale will be the biggest success of its kind ever held on the North Shore.

DIED FROM LOCKJAW
Robert Lyle Nicholson, eight-year-old son of James Nicholson, of Chatham, N. B., died on Tuesday as the result of an accident sustained while playing. One of his arms was fractured and it was thought he would soon recover, but lockjaw developed.

ESCAPED FROM JAIL
Charles Byer and Asbury Travis escaped from the County Jail, Newcastle, Tuesday night between 10 and 11 o'clock. They were in an upper cell and chiseled an opening under the window, just below the bars and made a rope of their blankets. Byer was awaiting trial on the charge of theft. Travis was serving six months' sentence on a similar charge four months of which was served. This is Travis second escape. The first time he gave himself up.

ECLIPSE OF MOON
There was a total eclipse of the moon last Wednesday night but it was not visible in New Brunswick.

RECEIVES POSITION
Mr. J. Garfield Troy has been given the position in the local custom house, which for some time has been vacant.

ARMISTICE HOUR
It is proposed that two minutes silence during Armistice Hour shall again be observed throughout the Empire.

NO HOLIDAY ON ARMISTICE DAY
Thursday, Nov. 11 (Armistice Day), will not be declared a public holiday by the Dominion Government. The matter was under consideration by the cabinet, and it was decided to issue a proclamation calling upon the people of Canada to suitably observe and commemorate the anniversary of the cessation of hostilities.

There has been requests from a number of cities and towns that a public holiday should be proclaimed but it was deemed advisable to let the decision rest with the mayors and municipal authorities.

VOCATIONAL EDUCATION
We understand that Newcastle is not to have classes in Vocational Education this year. It is a pity if such is the case, as last year's classes were most successful and valuable information was derived by those who attended. The cost is a small one and the education received is most helpful. Possibly an agitation by the public might reverse the decision.

Mr. A. ALCORN OFFERS \$50.00 PRIZE
A scholarship of fifty dollars has been very generously offered by Mr. A. Alcorn of Blackville to the pupil making the highest average on the High School Entrance Examination next June.

The prize may be competed for by any pupil in the Parish of Blackville who is taking Grade VIII, work during the present school year, and who has not previously obtained a High School Certificate, or an admittance to the Provincial Normal School for any class.

Pupils who wish to compete will be required to write the examination at Blackville Superior School. Mr. Alcorn takes a deep interest in educational work and his generosity in this respect will be greatly appreciated. It will also be an inspiration for the pupils to make greater efforts in their studies.

In Memoriam

In loving memory of Mrs. Sydney Parks (nee Miss Mae Tozer) who fell asleep in Jesus on November 1st 1919. Just one year since you departed. One long, lonesome, dreary year. And tho' gone beyond our calling. Often times we think you near.

Often times we've felt your presence. Since you went to dwell above. Seems as tho' you try to tell us. We have still your thoughts and love.

While the World was wrapped in slumber. At the first still hours of day. Death's White Angel was on duty. Grappling for our cherished Mae. Our Mae still tho' God reclaimed her. Took her for his very own. Up in Heaven she is smiling. Smiles which brightened up our home.

SISTER HAZEL

In loving memory of Pte. Guy C. McLean, who was killed in action Nov. 1918. Far from his home, in Boom Road. He sailed across the waves. And in honor of King and Country. His sweet young life he gave.

It's far far out in France tonight. He sleeps beneath the sod. Although on earth his body rests. His soul is safe with God.
MOTHER

In loving memory of Ada G. Underhill, who died October 21st 1918 at Underhills. She is dead but not forgotten. For we all do miss her so. And we hope again to meet her. When from this earth we go.

And sadly we do miss her. In the dusky evening. For her chair is always vacant. By the lonely table side.

And we never will forget her. Never will her memory fade. Flowers of love will bloom forever. On the grave where she is laid.
MOTHER, AND BROTHERS

ECZEMA
You are not alone in suffering from this skin disease. It is a common ailment and can be cured. Dr. J. C. ...
