THURSDAY EVENING, JUNE 13, 1872

Town and County News.

JOHN ROSE, a Canadian, convicted of committing rape on a girl 11 years, was sentenced, in Buffalo, yesterday to 20 years imprisonment in the Auburn State Prison. Judge Burrows, in passing sentence, regretted that he could not sentence him to death.

Y. M. C. A.—The regular meeting of the Young Men's Christian Association will be held in their rooms this (Thursday) evening at 8 p. m. As business of importance will be brought before the Association it is hoped there will be a good attendance. All are cordially invited.

TORONTO UNION STATION.—Quite a number of gentlemen belonging to the Masonic fraternity left Guelph last night and this morning to take part in the ceremonies at the laying of the foundation stone of the Union Station, Toronto, which takes place to-day. All the Lodges in Toronto will turn out on the occasion.

MEDICAL CONVENT.—Dr. Clarke has been elected a member of the Medical Council for this territorial division, comprising five counties, by a considerable majority. We believe the doctor has now been elected five times in succession, and three times President of the Council, which is a good indication that he stands well with his brethren in the profession.

REMEMBER'S MONTHLY MAGAZINE for July contains an ample store of refreshing literature, including a continuation of "Beak at the Farm," by Neil Forrest; choice poems and music, splendid illustrations, fashions, household, &c., etc., and a fair page engraving of the City of Vienna, the scene of the World's Exposition in 1872. Price, 25 cents. Published by W. Jennings Demorest, 815 Broadway, New York. For sale at the bookstores.

REAPERS.—Messrs. Thain, Elliott & Co. are now manufacturing the celebrated Johnston Reaper, which is superior to any made, and which was awarded the 1st prize at the Provincial competition at Paris last summer. To cutting heavy or lodged grain it is far ahead of any other reaper. The machine they turn out is in every respect the same as that which competed there. Farmers should not fail to go to the Foundry and examine it before purchasing elsewhere, as they will find it to their advantage to do so.

BREKING IN ROCKWOOD.—On Tuesday night the dwelling house of Mr. M. Lee, Rockwood, was broken into and \$23 taken from his trunk, which was standing near the bed on which he was sleeping at the time. The store of Mr. Wm. McCarthy was also entered by the window above the verandah, and a silver watch taken. Mr. McCarthy has not missed anything else, although his drawers were removed from his bedroom to the kitchen door, and the key of his safe found lying on top of them. There was considerable money in the safe. There are suspicions that the burglar is, and means are being taken to have him arrested.

Wool.—This commodity has been coming in freely during the week, deliveries being made on Monday of 1400 lbs., Tuesday of 800 lbs., Wednesday of 700 lbs., at 53 to 54 cts. per lb., and Thursday of 7,000 lbs. at 52 cts. Considerable quantities are reported at Toronto 50 cts. and at Hamilton 54 cts. We heard that Mr. James G. Wright, Paisley Block, sold yesterday his clip of wool, amounting to 900 lbs., which had been netted him close on \$500; and it is also stated, on competent authority, that the same gentleman must have realized nearly \$2000 for hay during the past year. No wonder truly that our Paisley Block friends are termed "a prosperous people."

FALL WHEAT.—Mr. Wm. Patterson, near Mr. Stone's, has brought us in some stalks of Fall Wheat (Treadwell) just shooting into ear. Their present appearance indicates abundance of straw and a full ear at present, always provided that the numerous insect enemies of this important cereal abstain from their destructive depredation. The weather is most propitious for growing crops, and farmers generally seem much rejoiced at the pleasing prospect the genial heat and moisture of the recent few weeks has produced on every variety of cereals, and even the hay crop is likely to compensate in length, a greater degree than was expected, for the evident deficiency in quantity whether of thickness or of average of grass, reserved for hay.

BEAT ENH WHO CAN.—There are some who are proud of their athletic feats—and we have seen several paragraphs in newspapers telling how many feet such a one jumped, threw the sledge, tossed the caber or put the stone. Canada does not fall behind in such performances as these, and has come off victorious in more than one contest against such athletes as Donald Dinnie. But we have a gentleman in Erin whom we will set against all comers, come from what quarter of the world they may—not in any of the above mentioned feats, but in the matter of endurance. The recent few weeks has produced a man in Erin whose life of performance was painfully exemplified, in the case of poor Renforth, but it is in refreshing the inner man—in sucking the most eggs. This gentleman let ten dollars to five that he could suck six dozen of eggs within an hour and keep them on his stomach for another hour. The hen may enlarge the life of the performer as was painfully exemplified, in the case of poor Renforth, but it is in refreshing the inner man—in sucking the most eggs. This gentleman let ten dollars to five that he could suck six dozen of eggs within an hour and keep them on his stomach for another hour. BASE BALL ITEMS.

The two Academies of Georgetown and Rockwood, on the 1st inst., played a friendly game on the fair ground of the former place. After a well contested game of three hours, the Georgetown Academy won by 5 runs, the score being 31 to 26.

On Saturday last, the return match was played at Rockwood on the grounds of the Academy, Georgetown again winning—this time by a score of 52 to 21.

The Silver Leafs and the Atlantics, juvenile clubs, play a friendly game this evening.

The match arranged for to-morrow afternoon between the Unions, of Guelph, and the Athletes, of Elora, has been postponed till next Tuesday afternoon, in Elora.

The Silver Creeks beat the Stars by 1 run in the match yesterday afternoon.

The Harrison base ball club play the Huron boys on Saturday first, on the ground of the latter.

The Re-distribution Bill. (From the Fergus News Record.) No doubt Mr. Drew has had influence enough with Sir John to get this change made. The result of the last Provincial election may have helped to influence Sir John in yielding this change, as he would be greatly gratified by the change, as we infer from what was current here during the winter, that a quite different scheme was in favor with them.

The re-division of the counties—ours for instance—is manifestly made for party purposes. The South Riding was not so outrageously small, nor the Centre and North so extravagantly large as to demand re-adjustment; while petty little Niagara remains as is. Our readers have only to examine the census returns to see how many constituencies were in equal level with ours before being re-arranged. Before the change South Wellington had a population of 11,347, and Centre and North Wellington 21,000 each. The alteration will give South 23,000, Centre 21,000, and North 18,740. But had John A.'s object been to equalize the representation he could have found other constituencies in much more urgent need of re-arrangement. The contemptible little borough of Niagara, for instance, with a population of only 3,700, is left as it was; and so is Cornwall, with a population of only 7,000. On the face of this, Wellington was cut up to suit the ends of a few political schemers.

It strikes us Drew must have got the promise of this alteration in order to secure his vote on the Treaty and other ministerial questions. Last session, after the local representation was over, he was found almost uniformly voting with the Opposition, no doubt being under the wholesome dread of the coming election. He has, however, become a most servile follower of the Ministry this session, voting even for the Treaty bill, no doubt to gain the reputation that if Paul John A. took out of his riding he would be safe to do so. But we are greatly mistaken if he does not find out that the North Riding, even as altered by the measure, will demand a strict account of the objectionable vote he has been giving since he went down to Ottawa this spring, as regards the Centre Riding. Has he thoroughly reform as over, and will return Mr. Ross either as acclamation or with a very large majority.

Harrison Correspondence. One day last week Mr. Robt. Arbnuckle's horses ran away with the wagon to which they were harnessed, from opposite the Harrison Hotel. They cut right across Elora street, knocked down T. McDonald's sign-board, and smashed one of the windows in the shop. They then dashed up Elora street, ran into John Labour's neat wagon, slightly damaging it by knocking one of the hind wheels off, and broke the axle of a pedlar's wagon. They were stopped when nearly home by Mr. Henry Hall. Mr. Arbnuckle's own wagon also sustained some damage, and the horses were slightly cut. A bay belonging to Mr. A. was thrown out, but fortunately escaped without serious injury.

On Saturday last Mr. John Sweeney got his right foot considerably bruised by one of the wheels of a hand car passing over it. He was on his way to or from Drayton, when the piece of wood used as a break fell off the car. Sweeney jumped out to regain it, and in getting on board again, put his foot on the rail in front of the wheel.

T. G. & B. RAILWAY.—The right of way between Mount Forest and Harrison has now nearly all been purchased and paid for at prices as high as from \$60 to \$65 per acre.

How to Thwart the Potato Bug.

A correspondent of the *Gardener's Monthly* writes:— I have watched their habits closely in three different States, and as they will come upon you a few remarks will not be out of place; for if you are as ready to receive them as we are now, they need not be dreaded after all. They love some kinds much better than others, as for instance they prefer the early York to the early rose, and will leave the peach-blew till the last. Plant early, and you can get the potato a good start before the bugs get over their spring stupor.

Plant early kinds, for there are three distinct crops of bugs, and generally they come in countless numbers to take the latest crops.

Hand pick, if not bad. See if there are many of the lady bug or lady bird as it is sometimes called. If there are plenty they will take care of your potatoes for you. They are a little red bug, with dark spots, and eat their eggs most voraciously. If necessary to use other means, take one pound of Paris green to thirty pounds of common plaster and mix thoroughly, and apply when the dew is on; and you will slaughter them by hundreds of thousands. The plaster is good for your potatoes and you don't get green enough to hurt anything. Apply as often as the vines need it, and you need have no fear as to the result. I have saved acres of potatoes this summer by recommending this plan in our village paper. When the bugs come, plant as little ground as possible, enrich it highly and use ashes and salt to counteract any tendency to rot, and you may laugh at the destruction which wasteth at noon-day.

THIS MORNING'S DESPATCHES

The Fortress of Luxemburg.

Yacht Race.
More About Livingstone.

Luxemburg, June 12.—The treaty giving Germany working control over Luxemburg has been signed. The Germans stipulate never to make use of the roads for the transportation of warlike material in time of war.

Paris, June 12.—J. Buerer Davis, the American agent, accompanied by the Consul for the United States, leaves this city for Geneva to-morrow.

London, June 12.—The channel match of the Royal Thames Yacht Club took place to-day. The course was from the Nore to Dover. The *Egeria* came in first, but by time allowed, the *Freona*, which was second, was awarded the prize.

Well, Mass., June 12.—The Young Men's Christian Association Convention was permanently organized this afternoon. Among the Vice-Presidents are J. Baylie, of Quebec, and W. J. McCulla, of Ontario.

Baltimore, June 12.—The Grand Jury in the Criminal Court to-day prosecuted Rev. Dr. Huston for adultery.

New York, June 13.—The *Herald's* London special from Bombay says that the telegram received there to-day contains information about Livingstone, derived from Arab sources, which show him to be well. Stanley is at Uzoogo, and is coming to the coast with Livingstone's letters. It appears that Livingstone traversed north of Lake Tanganyika on his way from Mombasa to Ujiji, where obtaining fresh stores, he returned to Uyanymbwe. He refuses to leave the country, intending to explore the unexplored path between the Lakes Uyanymbwe and Nyassa. It is affirmed that the River Ruvu flowed into Lake Sanganyika, and hence that Ananyamba is not connected with the Nile.

Local and Other Items.

It is supposed that forty-seven persons die every minute of the day and night, reckoning for all parts of the world.

MR. MATHESON, late of the Clinton *New Era* has entered into partnership with Mr. Moyer of the St. Catharines *Times*.

THE NIAGARA CAMP.—Most of the Companies forming the camp at Niagara have arrived there, and are preparing for their drill.

We learn from an exchange that the first barrel of flour of this year's crop, at St. Louis, was baked into bread and presented to the members of the Agricultural Congress then in session in that city.

FOR MANITOBA.—On Tuesday a company of seventeen souls left Sarnia for Manitoba, taking with them a dozen horses and three large covered wagons. They go direct to St. Paul by railway, goods all loaded. They were from Howick, County of Huron.

OUTRAGES IN QUEBEC.—This city is getting to be quite notorious for crimes. On Monday a sailor was shot in the head and afterwards struck with a pistol. Another sailor was shot at and beaten the same day. A captain was driving along Champlain-st., when he was shot, but fortunately escaped unharmful.

As an old and highly respected citizen, Mr. Wm. F. Wilson, tanner, of Woodstock, dropped dead on Tuesday at his farm in West Oxford. The deceased had been lifting some heavy weight, and the immediate cause of his death is supposed to have been heart disease. He has been a resident of that town since 1839, and his sudden death has cast a gloom over the inhabitants which will not soon be dispersed.

A PARADISE.—There is in Lake Ontario an island called "Garden Island." Twenty years or more ago, a law was passed that no liquor should be brought on the island on any pretence whatever. It now has a population of about one thousand souls and yet there is not a pauper nor policeman among the inhabitants, nor has a single case been before its magistrate for the past fifteen years. Are not these facts sermons for temperance.

THE OIL TRADE.—There is a patch of territory comprising six acres in Petrolia district which has produced oil to the value of \$800,000 within the last five years; and \$80,000 was recently offered for one well on the same territory. At present the product of the oil wells of Ontario is of greater value annually than all the mineral products of the Province.

THE WESLEYAN CONFERENCE.—Ever since the Union between the two bodies, the British Wesleyan Conference has been paying the Canada Conference six hundred pounds sterling per annum, in consideration of certain burdens and responsibilities transferred from the former to the latter. The bargain has been arranged at this Conference by the Canada body agreeing to accept seven thousand pounds sterling down, in commutation of the annual payment. This, we believe leaves the two bodies entirely independent of each other in financial matters.

Quebec's requirements in the matter of gin seems to be something extraordinary. During the month of May 24,968 gallons were entered at the Custom-house, the specific duty on which amounted to \$19,074 40.

THE GENEVA ARBITRATION.

PROTEST OF THE BRITISH GOVERNMENT.
The British Arbitrator will repair to Geneva and at the meeting of the Tribunal the British agent will be directed to present to them a statement to the following effect:—

"Her Majesty's Government regret to be under the necessity of informing the Arbitrators that the differences between Her Majesty's Government and the Government of the United States, referred to in the note which accompanied the presentation of the British counter case on the 15th of April last, has not yet been removed. Her Majesty's Government have, however, been engaged in negotiations with the Government of the United States, which have continued down to the present time, for the solution of the difficulty which has thus arisen; and they do not abandon the hope that if further time were given for that purpose, such a solution might be found practicable. Under these circumstances, the course which Her Majesty's Government would respectfully request the Tribunal to take is to adjourn the present meeting for such a period of time as may enable a supplemental convention to be still concluded and ratified between the high contracting parties."

In the meantime the high contracting parties not being in accord as to the subject matter of reference to arbitration, Her Majesty's Government regret to find themselves unable to deliver their written argument, which their agent is directed to put in under the 5th article of the Treaty, although that argument has been duly prepared and is in the hands of their agent, or any other step at the present time as to the intended arbitration.

It will of course be understood by the Tribunal that Her Majesty's Government, while they would consider the Tribunal to have full power to proceed at the end of the period of adjournment, if the difference between the high contracting parties should then have been removed, notwithstanding the non-delivery on this day of the argument by the British agent, continue, while respecting this adjournment, to reserve all Her Majesty's rights in the event of an agreement being finally arrived at, in the same manner as was expressed in the note which accompanied the British counter case."

London, June 12.—The position of the Government on the Treaty creates great political excitement. The Government believes the Treaty is not dead. It is rumored that a vote of want of confidence in the Ministry is to be moved in Parliament by Mr. Disraeli or Mr. Douvriere, probably the latter. The general expectation is that there will be an adjournment of the Geneva Conference.

Washington, June 12.—Prominent members of the Administration now here, unite in the firm belief that the Government will not consent to a postponement of the Geneva Arbitration. The conduct of the British Ministry strengthens the rumor which prevailed in official quarters several days ago, that they had satisfied themselves the Tribunal was inclined to give damages to the United States, and this they had ascertained through their secret agents.

County Court.
Court House, June 12.
Dale vs. Dale.—Action of trespass to recover \$200 damages against Mathew Dale. The plaintiff was Marjory Dale, of Arthur. The plaintiff claimed that certain farm stock which the defendant had taken belonged to her. The defence was that a division of stock had taken place between them and on that division the defendant had received from plaintiff the property in dispute. A number of witnesses were called on both sides. The Jury returned a verdict for the plaintiff, \$195. Damages awarded for plaintiff, Mr. A. H. Macdonald and Mr. Jacob for defendant.

Morris vs. Ferguson.—Action upon a promissory note made in the United States. Mr. Guthrie moved on behalf of the defendant to put off the trial on account of the absence of material witnesses, and offered to pay amount of note into Court to abide result of action, and to pay plaintiff's costs of witnesses, Mr. Dunbar for plaintiff opposed motion. The Judge granted the application on terms proposed.

Queen vs. Nelson Lepoint.—The defendant was put on his trial for stealing a horse alleged to be the property of Joseph Neff, of Flamborough. Joseph Neff was called, and on being cross-examined, it turned out that the horse was the property of his father, John Neff. Mr. A. H. Macdonald, for the prisoner, then moved that a verdict not guilty be entered; which was accordingly done and the prisoner was discharged. As soon as the prisoner had got out of the Court House he was re-arrested by Chief Constable Kelly, on a charge of stealing the horse of John Neff and is now in custody.

Latest from Manitoba.
Large parties of immigrants are arriving almost every day. Some valuable stock is being brought in by these immigrants. Three fine Durhams belonging to one farmer died by the way. Building is actively progressing on an extensive scale in Winnipeg. A man and team of horses are worth from \$6 to \$70 per day. Labour is scarce. Large quantities of lumber are still arriving, but prices continue high. Immense swarms of grasshoppers are reported to be ravaging Minnesota. There are some indefinite rumors of another projected Fenian raid, but credence is not given to the report.

POLICE COURT.

Before T. W. Saunders, Esq., P. M.
June 13.
Duncan Bailey and Jas. Caldwell were brought up for breach of the Market By-law in throwing vegetables, &c., on the street. Dismissed.
Nelson Lepoint, who was tried at the County Court on Wednesday for stealing a horse from John Neff, Flamborough, and acquitted through an informality in the indictment, was re-arrested and brought before the magistrate this morning on the same charge, and sent up for trial.

\$65,000 in silver arrived per *Scandinavian* consigned to the Canadian Express Company.
Lord and Lady Lisgar leave for Montreal on Monday, and will remain there till Thursday evening, when a dinner will be given in His Excellency's honour by the Montreal Corporation and citizens.

Guelph Evening Mercury

THURSDAY EVENING, JUNE 13, 1872

North Wellington Reform Convention.

The President of the Reform Association for North Wellington has issued circulars calling a Convention, which will be held in Allan's Hall, Harrison, on Thursday the 20th, at one o'clock p. m., for the purpose of considering the change about to be made in the Electoral Division of the North Riding of this County. Provisions to that meeting it is proposed to renew the election of delegates in each municipality, which should be done at once, as it is very important delegates from every municipality should be present at the Convention, and take immediate action in view of the approaching election.

The Manufacturing Interests of the Dominion.

We have received a copy of the second report of the Select Parliamentary Committee appointed to enquire into and report on the extent and condition of the manufacturing interests of the Dominion. It gives in detail the questions transmitted to the leading manufacturers. Although answers to these have not been received from a large number of manufacturers, yet the Committee, in view of the near approach of the close of the session, did not deem it advisable to delay the presentation of their report, as the information they have been able to gather in the short time at their disposal, enables them to form a pretty correct estimate of the condition and importance of the manufacturing interests of the Dominion. The Committee find that the period during which these interests have been most prosperous has been since the close of the American war, in consequence of which the cost of production in the United States was greatly enhanced. The conclusion they have come to is, that the present state of our manufacturing industry is not on the whole unsatisfactory, but that if imported manufactures, now paying fifteen per cent, were subject to a duty of twenty per cent, the slight advance in duty would give a great impetus to the manufacturing interests of the country.

The report then adverts to some grievances under which certain classes of manufacturers at present labor, and recommends these cases to the attention of the Government. One is that some steps should be taken to prevent the large exportation of hemlock bark and its extract, which threatens at no distant day to deplete the country of this commodity. The report also recommends the exemption of duty on piano and melodeon veneers, rosewood, etc., which would have a favorable effect in encouraging the manufacture of pianos and other musical instruments. There are several other recommendations which deserve attention. The Committee also direct attention to the vast deposit of iron ore in the Dominion, and are of opinion that some proper means should be adopted for utilizing that immense source of wealth. They are of opinion that the policy initiated in this country, in 1859, and generally known as that of incidental protection, has been highly successful as regards the establishment and encouragement of our manufacturing interests, as well as conducive to the prosperity of the country at large, and not only is a continuation of that policy desirable, but the consideration of an extension of the same principle by Parliament may become advisable.

COLLIERIES.—The captain of the Yankee schooner that was seized a few days ago for violating the Fishery laws, says that he was deceived by the captain of the Dominion cutter, who assured him that the ratification of the Treaty of Washington gave him the privilege of fishing where he liked. The moment, however, he dropped his lines within the limits, the "blasted Britisher" dropped down on him like a night hawk on a June bug, and made a prize of his vessel.

General Assembly of the Canada Presbyterian Church. HAMILTON, June 6. The report of the committee on arrangements with a view to the celebration of the centenary of the signing of the Declaration of Independence, was read and approved, as containing an excellent summary of the Scriptural argument against marriage with the sister of a deceased wife. The next item was the report of the Committee on various matters connected with Sabbath Schools, which was read by the Rev. Mr. Buchanan.

Accompanying the report was two documents: the report of a committee appointed to consider the question of Sunday School books, and a memorial from the Presbytery of Guelph in reference to the preparation of a uniform scheme of Sunday School lessons. Those documents were referred to a committee. The report on Prof. Young's resignation was read. The third clause, suggesting that some method be devised for the retention of Prof. Young in nominal connection with Knox College, gave rise to some discussion, and was recommended to the committee with instructions to amend it by the aid of the light which had been thrown on the question during the discussion.

To the remit on the Union question answers were received from six Presbyteries approving of the basis of Union simpliciter: from eight approving generally, but proposing certain modifications; from one disapproving; and from one requesting that the consideration of the Union question be postponed. A number of young men, formerly belonging to other churches, and desirous of studying for the ministry at Knox College, were granted the request. It was agreed that the Assembly meet in Toronto next year, on the first Tuesday in June. On motion the British American Presbyterian was strongly recommended to the ministers and brethren of the church as worthy of their support. At an evening session the delegates from the Presbyteries of Guelph, Hamilton, and Toronto, were introduced and gave eloquent addresses.

June 7th. Rev. Dr. Topp, Chairman of the Board of Knox College, read the annual report. The report furnishes much matter for congratulation. The contributions are \$1,000 more than last year; whilst the debt has increased \$247. The Board recommended that two Lecturers be appointed to assist in the work of next session. Forty-five students are found in the Theological Classes, and 27 in the Literary course. Others are studying with a view to the ministry, in connection with our Provincial University, making in all about 100 who have in view the work of the Church. The Chairman of the Board of Management of Montreal College, Rev. A. Young, read the yearly report. The number of students enrolled is 45. The financial prospect was most cheering, in view of the fact that the college demands for support upon a comparatively small section of the church. A site for a college building was purchased during the winter, and the estimated cost of the site and building is about \$30,000, more than half of which has already been subscribed in the City of Montreal. The Board agreed to recommend that the Assembly proceed to the election of another professor. The delegate from the Reformed Presbyterian Church of the United States, Rev. Mr. Walden, was invited to address the Assembly. At the afternoon session, overtures were read from the Presbyteries of Owen Sound and Huron, praying for the erection of a new Presbytery, to be called the Presbytery of Bruce, and to embrace the territory of the County of Bruce. Rev. John Laing read the Home Mission Report. The document was a full one, giving in detail an account of the Church's work in this department, noticing in many places an encouraging progress, and throwing out valuable suggestions as to the way of accomplishing successfully the great work to which the Church is called. The valuable and long continued services of the Convener were acknowledged by a gift of \$750. The Assembly then adjourned till Monday.

HAMILTON, June 10. The report of the Committee on Sabbath observance was read, recommending that steps be taken to secure the united action of religious bodies, so as to get the public Sabbath desecration, especially by railway companies and steam boats. The report was adopted after a long and earnest discussion. An overture respecting the mode of electing a Moderator was read, recommending election by open vote, instead of nomination by Presbyteries. A motion to adopt that mode was lost. Prof. Young reported that the name of Dr. Willis should be allowed to remain on the roll of the Presbytery of Toronto, Canada. An overture from the Presbytery of Paris concerning an increase of salary to the Rev. Wm. Reid, general agent of the Church, was read. Referred to a committee. The subject of union next came up. Dr. Topp moved that the doctrinal basis be taken up first, and in the subject of Collegiate Education. After some discussion the four articles were allowed to stand as they were. Rev. J. Ross proposed an additional article on the Headship of Christ, on which a keen discussion took place. CONVENT.—The Leader says that Sir John A. Macdonald, Sir F. Hincks, and perhaps Dr. Tucker, are going to have a short missionary tour through Ontario previous to the elections. We hope the Reform leaders will meet them wherever they go.

CHAPTER I. THE PAINTING—THE ARTIST AND HIS WIFE—THE STORM—THE DRIFTING SHIP.

"I have an ambition to win fame and fortune in my profession," she murmured, "it is not wholly through my love for art, and still less for the sake of honour and wealth; but it is for thee, my darling—to requite in some measure the goodness which preferred my poverty and obscure social position to offered wealth and rank."

"Your poverty, Kenneth?" she repeated. "Nay, not poverty."

"Yes, poverty, which compared with the splendour which might have been yours for the taking. Not absolute poverty certainly, for, ardently as I loved you, I would never have asked you to be mine had I only had the uncertain earnings of my brush to trust to. It was on the strength of my real patrimony, which insured us against real want, that I ventured to press my suit; but poverty it was still, when compared with your former home, and the position offered you by the owner of Carsedale."

"Nay, not poverty," repeated Lucy, in a tone and with an air of smiling decision; "not poverty, but wealth my Kenneth—wealth of heart and soul and mind, and a great wealth of love for me—this was what you offered to share with me, and in comparison the offer of Carsedale, was poor and worthless indeed."

"Your friends thought differently," resumed Kenneth. "Your uncle and cousins considered that you threw yourself away when you wed the poor artist, and have resented your willingness of conduct by scornfully ignoring your existence. Even to the last your uncle must have cherished the ill feeling, for he does not seem to have asked for you ere he died—at least no indication of the fact has reached us; even the knowledge of his death we have gained only from the newspapers."

"Yes, dear, murmured Lucy, in a deprecating tone. "My relations have behaved very ill—my uncle and my cousins, Stephen and Malcolm—but I am sure had cousin George been at home he would have acted very differently. But you know he has been in Jamaica all his life."

"Yes, dear, I always considered your cousin George to be a noble, generous fellow, and entirely free from those proud ambitious notions by which the others are governed. We shall see how he acts towards you when he returns to Scotland; for I presume he will return to enter on the inheritance which your uncle has left him."

"I am certain he will," returned Lucy. "Indeed, it is possible he may have reached Ardgowan already. He has had time to come from Jamaica since the news of uncle's death reached him. Oh, Kenneth, I am sure cousin George will be our friend. The others will never, I fear, behave better than they have done, but why should we care for their opinion when we are so very, very happy," whispered Lucy, as she laid her head upon his breast, and twined her arms round his neck.

"Happy! Yes, my darling, we are happy to an extent which well contented us. Yet I should like to show your cousins that the artist who took you from them and Carsvale has some talent to add him from obscurity. Yes," he raised, as his cheek flushed and his eye sparkled, "for my Lucy's sake, I should wish to win fame and fortune. Hark! what cries are those?" Lucy started up, and they both listened intently, for through the beating of the storm without, the sound of loud, excited voices and occasional shouting reached their ears.

"Oh, dear something must have happened," exclaimed Lucy, as the cries continued to mingle with the roar of the wind and the roll of the sea.

She flew to the window, drew aside the curtain, and looked out. The night was very dark, but several lights were seen moving to and fro on the shore and running footsteps sounded from the road below. Clear yawn thing unusual had occurred, and Kenneth and Lucy rushed forth together to learn what it was.

The cottage they occupied stood upon a pretty steep slope facing the sea, the garden was in front, and beyond that the high road.

Holding by each other, and battling against the fierce wind which swept in from the Atlantic, they ran down the gravelled path, with difficulty opened the garden gate, and went out upon the road, where they had not been half a minute when a dark form came towards them at great speed from the direction of the direction of the neighboring fishing village.

"Hillo!" shouted Kenneth. "What's the matter?"

The man passed, and they recognized him as Dan, Kirkby—a fisherman who had several times taken them out for a sail in his boat. He was breathless with running.

"It's a bad business, Maister Bruce," he answered. "There's a big ship drivin' on the Wreckers, and nae pe'er on earth can save her."

He stopped only to communicate this dismaying information, then started off again, and in a moment was lost in the darkness.

"My hat, Lucy! I must to the beach," cried Kenneth, bounding up the garden path with the swiftest of footsteps.

She flew after him, and encountered him in the hall as he was about to burst forth again.

"Oh, Kenneth, I will go with you," she said, clutching his arm in her agitation.

"You Lucy—in such a night? My girl, don't you think of it."

"Oh yes, yes. I could not stay in the house—I could not, not indeed. I will wrap myself well up, and sustain no injury."

"But, should baby awake in our absence?"

Wesleyan Conference.

Montreal, June 10.

Yesterday forenoon a special service was held in St. James' Street Wesleyan Church for the ordination of the young men just received into the ministry by the Conference.

The edifice was densely packed long before the hour fixed for the service, a great number of the congregation being obliged to stand. The services, unusually impressive, were conducted by the Rev. T. B. Stephenson, of London, and the Rev. W. M. Panshon, who preached a most impressive sermon.

After the sermon, the ordination of the candidates, nearly thirty in number, was proceeded with in a very impressive manner; the Rev. W. M. Panshon and several other ministers officiating.

Dr. Douglas moved, seconded by Dr. Rice, that the time has come when a division of this Conference should take place.

Two amendments were presented and withdrawn; and after two hours' discussion, the vote stood for division, 254; against it, 63.

Dr. Douglas moved, seconded by Dr. Rice, that a committee be appointed on this question who should consider the whole subject and prepare a plan which should be laid before the next Conference. Carried unanimously.

It was unanimously agreed that in the event of the Eastern British American Conference deciding in favour of Federal Union, that it be invited to send a delegation to the first committee, for the purpose of devising a scheme of union for the Methodist Churches in British America.

It was resolved that the results of the recommendations of this committee be printed and forwarded to the members of this Conference, prior to next May.

The report of the Committee on Methodist Union, previously published, was read and adopted.

Dr. Panshon and Dr. Evans were appointed a deputation to visit the Eastern Conference at its ensuing session.

June 11. Rev. Bowman Stephenson, B. A., of London, England, briefly addressed the Conference on the subject of an institution in operation in the metropolis, for the training and education of orphans; waif from the slums of society. He proposed the establishment of one or two agencies in Canada, one near Hamilton the other near Montreal, to which they would send out their orphans.

Dr. Ryerson moved, seconded by Dr. Rice, a resolution, which the Conference accepted cordially, approving the scheme, and agreeing to recommend it to the Christian public.

DEATH OF A LADY FROM OVER-EATING.—Recently an inquest was held in London, England, on the body of Mrs. Sophia Burdin, aged sixty-eight years, a widow lady of property, residing on Palace street, St. James's. It appears from the evidence that on the 24th ult. the deceased lady dined at the house of a gentleman connected with the Geographical Society, with whose family she has been acquainted for over forty years. She made an extraordinarily hearty meal eating very quickly. She ate more than one pound of rump steak, with potatoes, cauliflower and bread, and also a quantity of pudding. She left the house about seven o'clock in the evening, and on reaching her own house was taken suddenly faint and ill, and died before the arrival of a medical man, who had been sent for, and a post-mortem examination made by Dr. Langston showed that the heart was weak and fatty. The stomach was healthy, but filled with food, much of it undigested. He found pieces of meat about three inches in length. Death had resulted from spasm of the heart, induced by the overloaded state of the stomach. Verdict—"Natural death."

BREAKFAST—EPPS'S COCOA—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which will save us many heavy doctors' bills.—*Ciell's Seevee Gazette.* Made simply with boiling water or milk. Each packet is labeled "Epps & Co., Homoeopathic Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and Condensed Milk).

Habitual constipation leads to the following results: Inflammation of the kidneys, sick and nervous head-ache, biliousness, dyspepsia, indigestion, piles, loss of appetite and strength; all of which may be avoided by being regular in your habits, and taking, say one of *Parson's Purgative Pills* nightly, for four or six weeks.
