FOUND A MAN IN HER ROOM

A DUNDAS GIRL'S SCREAM SCARES
A BURGLAR.
Hamilton, Sept. 17.—Miss Crow of Mount Fairview, Dundas, was aroused from her slumbers about 1 o'clock this morning, and discovered a man in her room. When the young lady saw the man, she ran down stairs and escaped through a window on the verandah. In his hasty exit he dropped the young lady's watch, which she carried on the chain. The man had discovered the keys of the safe, opened it, took out two dollar bills and in his search for more scattered the contents of the safe all around the room. It is supposed the burglar obtained entrance to the house before the inmates went to bed, concealing himself in the room. He returned to the verandah at 11 o'clock. Alexander McLellan, 19 years old, has been wanted for some time by the police, was run down this morning by Detective Bleakley and P. C. McLaughlin in New York. He was selling a brass cylinder weighing about 100 pounds. When the officers saw the young man, they ran away and was caught hiding in a drain. He was arraigned at the Police Court to-morrow.

Charged With Perjury.
William Cusick was fined at the Police Court this morning \$10 or one month for assaulting Lewis Bloom. Cusick's term expires here this evening. Yesterday he swore that he did not see Bloom the day he was assaulted.

Hamilton Gaslight Company has been ordered to pay \$500 to the city for the cost of a sample block recently put in place. It is probable the city will henceforth have gas paying.

T. H. & R. and B. Railway Company has been ordered to pay \$500 to the city for the cost of a sample block recently put in place. It is probable the city will henceforth have gas paying.

Word has been received that Mayor Stewart will leave home on September 12 and is expected to have been at the end of next week. The specialist has concluded that the Mayor's condition is favorable for his condition.

WEDNESDAY MORNING, SEPTEMBER 18, 1925.

CLARK FIRED HIS STORE.

The Evidence Against Him Was Weak, But the Jury Decided That He Was Guilty.
Sydney J. Clark was tried at the General Sessions yesterday on a charge of arson. At 12:30 a.m., March 11, Clark's tobacco store, at 381 Gerrard-street east, was discovered to be on fire. The circumstances surrounding the fire, coupled with the fact that the premises and stock were well insured, were deemed of such a nature as to justify Clark's arrest on a charge of arson. Clark occupied the most of the day and resulted in a verdict of guilty.

Incendiary Fire at Port Hope.
Port Hope, Sept. 17.—The residence of Mrs. Lewis Ross, Pine-street, was destroyed by fire early this morning. The fire started in the kitchen, and spread to the rest of the house. Mrs. Ross is understood to have carried off an insurance of \$1000.

Death of a Montreal Woman in a New York Hotel.
New York, Sept. 17.—Shortly after 10 o'clock Monday night a rather well-dressed woman, apparently about 45 years of age, engaged a room at the Bryant Park Hotel, 38th-street and 5th-avenue, New York. She did not make her appearance until about 11 o'clock. At that hour the hotel clerk found her entrance to the room. On the bed lay a woman, apparently lifeless, and a small bottle of carbolic acid. The woman had evidently taken her own life. The police were called and the body was removed to the morgue.

Convicted Drowned in a Fit.
Sing Sing, N.Y., Sept. 17.—John Dolson, a convict serving a term for burglary, while employed at the Sing Sing workhouse, was drowned in the Hudson river. He fell into the river and was drowned.

Accidental Death.
Coroner Johnson held an inquest last evening on the body of George Snydall, who died at 34 Yonge-street last night. Snydall was a 35-year-old man, who was killed by a falling brick from a building under construction.

His Injured Proved Fatal.
Charles David McCall, 26, died in the General Hospital yesterday afternoon. He was injured in a fall from a building under construction on the corner of York and Dundas streets.

Protect the Farmer.
The Lake Simcoe Farmers' Association is holding a convention at the Hotel Hamilton this afternoon. The association is protesting against the proposed tunnel project, which would divert water from the lake into the St. Lawrence river.

What a Detroit Physician Says of Sprudel.
One of the most prominent physicians of Detroit, Dr. J. H. Sprudel, has written a book on the benefits of the mineral water from the Sprudel Springs in the Adirondacks. He states that the water is of great value for various ailments.

THEY WANT A PLEBISCITE.

400,000 LAST NIGHT CAPTURED A MEETING.
Lively scenes in St. Andrew's Hall on the Waterworks question. The meeting was held last night to discuss the proposed tunnel project. The meeting was held in St. Andrew's Hall, and was attended by about 400 persons. The meeting was held in St. Andrew's Hall, and was attended by about 400 persons.

Seen on the East Coast of Greenland.
London, Sept. 17.—A despatch from Sandefjord, Norway, says: Advice has been received from Angmagssalik on the east coast of Greenland, that about the end of July a vessel believed to be the Norwegian ship, the 'Nansen', and his expedition from Norway in search of the North Pole, was seen on the east coast of Greenland. The ship was seen on board the ice-bound ship.

John Clark's Toronto Wife.
John Clark, the Toronto man who married Nellie Ganthony, is lying ill in New York. On his wedding day he was seized with nervous prostration, that affected him with blindness. He is now slowly recovering.

Whitecap Convicted of Murder.
Huntington, Pa., Sept. 17.—The trial of Wesley McCracken, one of three brothers, charged with the killing of George Hawa, a member of a white gang, was held in Huntington, Pa. McCracken was convicted of murder in the second degree.

More Splendid News.
St. John's, Nfld., Sept. 17.—The largest custom-made watch made yet in the province was taken from leading jeweler, J. H. Macdonald, of St. John's. The watch was made by the jeweler, and was of a splendid design.

Another Goldsmith's Case.
Frank Smythe is being tried at the Sessions on a charge of receiving stolen property. The case is another of the Goldsmith's robbery prosecutions. Smythe is charged with receiving stolen goods.

Guelp Electric Railway Opened.
Guelp, Ont., Sept. 17.—The Guelp electric street railway was formally opened this afternoon. The railway is owned by the Guelp Electric Railway Company, and is operated by the Guelp Electric Railway Company.

Ex-Mans' Men.
Ex-Mans' men should take the opportunity to address meetings of citizens on the question before the company's offer at the same time. The company is offering to build a tunnel under the lake, which would divert water from the lake into the St. Lawrence river.

BARNEY KING KILLED.

Is He the Napanee Man Who Was Arrested on a Charge of Murder?
Lt-Col. Grasset yesterday received a telegram from the Chief of Police at Sturgis, Mich., stating that a man named Barney King had been killed at that place, and that he was supposed to have been a friend named J. W. Kelley living in Toronto. The Chief of Police at Sturgis, Mich., stated that the man who was killed was the man who was arrested at Napanee on a charge of murder.

Seen on the East Coast of Greenland.
London, Sept. 17.—A despatch from Sandefjord, Norway, says: Advice has been received from Angmagssalik on the east coast of Greenland, that about the end of July a vessel believed to be the Norwegian ship, the 'Nansen', and his expedition from Norway in search of the North Pole, was seen on the east coast of Greenland. IS A MUSICIAN A WORKMAN?

ARE SACRED CONCERTS AT THE ISLAND LEGAL?

An interesting case heard before the Police Magistrate yesterday and referred to a superior court for a decision—The Arguments Advanced Pro and Con.

Owing to the long calendar of drunks and disorderlies yesterday morning the hands of the Police Court clock pointed to a quarter to twelve before the case against Bandmaster Bayley of the Queen's Own, for playing sacred music at Hanlan's Point on Sundays was called.

Mr. W. H. Raymond of McCarthy, Oster, Hoskin & Creelman, appeared for the Toronto Ferry Company, and a discussion arose at the outset between him and Crown Attorney Curry as to whether Mr. Bayley or Herbert Plant, Thomas Griffin and John Waldron should all be tried, or whether a conviction in one case would suffice.

Magistrate Denison wanted cases tried in one case would suffice. Mr. Raymond—There might be a difference between a bandman who merely played once or twice a week while following a regular trade or profession throughout the other days, and a leader who gave his whole time to his work and followed music as a profession.

The counsel for the crown and the magistrate indulged in quite a lively argument on this, and after Mr. Curry had been overruled, he said: "Mr. Ward."

"You are one of the stockholders in the Toronto Ferry Company, are you not?" began Mr. Curry.

"Hold on," said Mr. Ward, and he read the charge against Mr. Bayley and the statute, which says that no mechanic, laborer, or any other person whatsoever shall engage in his ordinary occupation on Sunday.

"Do you plead guilty or not guilty?" "A. Not guilty."

"Do you know Mr. Bayley?" "A. Yes."

"His ordinary occupation is a bandmaster?" "A. Yes, also a professional musician."

"Has he been engaged by the Toronto Ferry Company?" "A. Yes, he and his band."

"When?" "A. During the summer of 1935, on numerous occasions."

Mr. Raymond here objected that proof of his calling was necessary and whether he followed his calling on that day.

"Engaged Week Days and Sundays." Continuing, Mr. Hammond said: "He has been engaged by them on Sundays and week days."

"On Sunday, Aug. 11th, he was employed in what capacity?" "A. Conducting the Queen's Own band."

Magistrate Denison here interposed a question to the defence to explain that there was more in the question than appeared on the face of it.

"Suppose," said the magistrate, "that in his church, an organist plays on Sunday, that would be his ordinary calling."

"Is this an advertisement?" continued Mr. Curry, taking a newspaper in front of Mr. Hammond.

"Who is Responsible?" Solicitor Hammond jumped to his feet. "My objection applies to this also," said he, "that advertisement was put in under the authority of the Toronto Ferry Company, and the defendant would be responsible for an advertisement that he did not put in."

Mr. Hammond then told where the concerts were conducted and that Mr. Bayley made up the program and would be responsible for it.

"On this Sunday, Aug. 11," continued Mr. Curry, "were there any religious exercises?" "A. No, none at any time this year."

"As a Sunday Pleasure Resort." "I think that you said that the place known as Hanlan's Point, is owned by the Toronto Ferry Company, and is a pleasure resort?" "A. Not Sunday days."

"People in search of pleasure are carried over by the Toronto Ferry Company?" "A. I don't think they go for fresh air."

"Well, you didn't question them." The Magistrate: "What's the real difference?"

"Did Mr. Bayley play any secular music?" "A. Yes, he played both sacred and secular music."

"Where there were any secular concerts on the 11th?" "A. No, only one, that of the afternoon."

"There was no charge for these concerts, only the ordinary charge for conveying people over and back?" "A. The music was paid for, but their tickets were over and back."

"When did these concerts start?" "A. In June, 1934."

"The object was to increase the attendance on the ferry?" "A. As far as it was going on that day."

"And you were going on to say?" "A. That it did not go on to say."

"We hoped it might later, and it was also to draw a more respectable class over there; a better class of citizens."

"And to make it a good place to go on Sunday and for financial benefit to the company."

Mr. Hammond then took the witness in hand.

THE DOGS OF A QUEEN

ROYAL KENNELS OF ENGLAND AT HOME PARK, WINDSOR.

Managed With the Order and Regularity of a Military Barracks—Queen Victoria's Love for Animals.

That Queen Victoria should be fond of dogs is not surprising. It is a trait which has been passed on to most of the Kings, Queens and Princes of Great Britain. Most of her predecessors on the throne of England had much of the same fondness for the animal.

Edward II. was a famous dog fancier. Henry VII. was a great lover of dogs. Queen Victoria's affection for the King Charles Spaniel, as the lasting remembrance of one of England's Kings.

Queen Victoria is as fond of dogs as any of her predecessors were. She never travels without two or three of her favorite animals, and when she was in France not long ago, her collie won the admiration of all amateurs.

Darney II. this collie, has been for many years her constant favorite; and anyone who knows the intelligence, the faithfulness, the affection of the breed will not wonder.

Queen Victoria's love for the collie dog appears in the "Journal of My Life" day after day, and in a play at a theatre at night. I think we had better take only the one. A band conductor without a conductor.

Mr. Raymond—"Suppose Mr. Bayley's band plays over there without a conductor at all?"

Magistrate Denison—"Suppose Mr. Bayley's band plays over there without a conductor at all?"

Magistrate Denison—"Suppose Mr. Bayley's band plays over there without a conductor at all?"

TORONTO'S HEALTH VERY GOOD

Medical Health Officer Says Precautions Have Been Successful.

The Local Board of Health meets this afternoon at the Medical Officer will ask for an order closing Lavender Lane, as unfit for habitation.

Dr. G. H. Mumm, health officer, says that the health of the city during the past summer has been remarkably good. The number of cases of typhoid fever for the 16 days of September is 38. This is equivalent to the whole month of September, 1934.

The Medical Health Officer does not attribute the increase to the opening of the intake pipe. He anticipated an increase of 50 for the month, owing to the lowness of the bay and lake.

Engineer Keating estimates the cost of putting College-avenue and a portion of the intake Park-road in good Macadam repair at \$4000.

City Clerk Hevins, who has returned from the annual convention of the Cincinnati, denies the sensational story of disgraceful proceedings at the banquet.

The Board of Works, the Executive Committee of the City Council will meet on Thursday.

The Abel Manufacturing Company, Parkville, has informed the city engineer that it is a plentiful supply of spring water on their premises.

Specifications for the anchoring of the conduit are ready at the City Hall, and a number of tenders have already been received.

Island Water Auxiliary Plant. Messrs. E. H. Watson and W. H. Schmitt, of Meaford, Ont., have submitted a new offer for the erection of a pumping station on the Island.

They propose to place the plant to the north of the old shore crib, and to make connection with the 5-foot steel pipe by an offset to the main intake pipe.

The firm also suggests the use of a catch basin at the shore crib should be built, and other material coming from the lake crib be constructed. Such a basin could be constructed for \$7000.

THE WORK OF THE DIVERS. Large Accumulations of Sand Reported.

City Engineer Keating last evening told the Toronto board of works that divers had explored the 10-foot conduit pipe where it had been broken on Sunday.

The pipe was found to be broken at a distance of 130 feet from the shore, and where the water was being drawn from Blockhouse Bay. Beyond this distance the pipe was found to be in good condition.

The pipe was found to be broken at a distance of 130 feet from the shore, and where the water was being drawn from Blockhouse Bay. Beyond this distance the pipe was found to be in good condition.

\$7 to \$12

ONE-PRICE CLOTHIERS, 115 to 121 King-St., E., Toronto.

W. A. Murray & Co.'s Fall Opening

The fall opening of W. A. Murray & Co., yesterday was a great success and all day this leading store was thronged with fair purchasers.

The goods made a fine display, and several new lines having been opened, it might be worth while to dwell upon some, which were not included in our remarks of Monday.

Speaking of styles, a chance remark of a lady who had just returned from England, might be interesting: "It seemed just like Regent-street, London, the goods were of such identical fashion."

The more this fall's fashions are mastered, the more do hats seem to predominate. They have this to say:

"In the 'Four-Track Series' No. 17, the passenger department of the New York Central and Hudson River Railroad has published a most interesting story under the title of 'Block Signals'."

The technical details of the letter press and illustrations in color are unusually fine. The technical description is by Mr. John P. O'Donnell, a member of the American Society of Civil Engineers. The New York Central has spent more than \$1,000,000 in equipping its lines with the safest and most complete system of block signals.

The system is a mystery to the average man, and we can imagine no more instructive or interesting pastime than to take a trip over the New York Central road with a copy of this book in hand, and observe what is to be seen of the practical working of the block signal system.

A copy of the book will be sent free postpaid to any address in the world upon receipt of three two-cent stamps, by George H. Daniels, General Passenger Agent, Grand Central Station, New York.

25 cent discount allowed off St. Lawrence and the break in the water table. Everybody must have pure water. Tel. 1281.

Block Signals.

Referring to the little book on block signals, issued by the New York Central, the "Electrical Review," which is the recognized authority upon everything pertaining to electrical science, has this to say:

"In the 'Four-Track Series' No. 17, the passenger department of the New York Central and Hudson River Railroad has published a most interesting story under the title of 'Block Signals'."

The technical details of the letter press and illustrations in color are unusually fine. The technical description is by Mr. John P. O'Donnell, a member of the American Society of Civil Engineers. The New York Central has spent more than \$1,000,000 in equipping its lines with the safest and most complete system of block signals.

The system is a mystery to the average man, and we can imagine no more instructive or interesting pastime than to take a trip over the New York Central road with a copy of this book in hand, and observe what is to be seen of the practical working of the block signal system.

A copy of the book will be sent free postpaid to any address in the world upon receipt of three two-cent stamps, by George H. Daniels, General Passenger Agent, Grand Central Station, New York.

RACING AT DUFFERIN PARK.

Chief Captured the 217 Trot in Straight Heat and Alice G. the Pacing

The fall racing opened yesterday afternoon at Dufferin Park, under auspicious circumstances.

There was an attendance of about 800, with the weather, the half-track in good condition and the racing first-class.

The two books and the post box did a good business.

Alice S. captured the 227 pace after five heats.

Acorn won the first, but lost it owing to leaving his seat in the second heat.

Acorn won the third, which he won, also the next, Alice S. winning the fifth and six.

The 217 trot went to J. H. McFadden, who was the victor in the straight heat, and the 3-minute race was won by Acorn.

A good crowd was present, and the racing, starting at 2 o'clock. On Tuesday, the racing will be resumed.

First race, 2:27 pace; 8400 purse.

AGAIN, HENRY OF NAVARRE

ALL THE CHACKS BEHIND HIM IN THE FIRST SPECIAL

Clifford Finished Second and Sir Walter Third—Domino Played a Waiting Game, But Was Scaten Before the Stretches

Gravesend, Sept. 17.—The fall meeting of the Brookly Jockey Club began under more favorable circumstances than usual today.

The attraction was the first special, an allowance event, for all aged horses, at a mile and a quarter. It drew together the five best horses in this country, including the mighty Henry of Navarre, the flying black colt Domino and the great but erratic Bay St. Santa Anita.

In addition, Clifford and Sir Walter were thrown in at weights that gave them more than a fighting chance.

After seven or eight minutes of racing, for which Clifford was to blame, the flying black colt, Henry of Navarre, at once took up the role of taskmaster.

He gradually wore down Sir Walter's lead and finally won, with comparative ease by a length.

Clifford, who came with a second place, was a close second, and Sir Walter, who was a close third, was a close third.

The other big event was the race for the Henry Handicap, which was won by Ben Brush, who was third in demand in the ring.

First race, 2:27 pace; 8400 purse.

STEEL CANAL BOATS.

Five of Them Make a Trial Trip From Cleveland to New York.

A fleet of steel canal boats arrived in New York from Cleveland, Ohio, which, canal boatmen and railroad men declare, will in all probability start a revolution in the canal boat and general freight traffic.

The party boarded the canal boats and made a tour of inspection, under the direction of Charles E. Wheeler, General Manager of the Cleveland Steel Canal Boat Company, who has come down on the maiden trip to get perfectly familiar with the situation.

A Monster Hunter. John McCarthy, the lion and bear hunter, is again in Precout with a load of choice hides and rattle snakes.

It took just 5 1/2 inches of the steel blade to go through the snake's body. Both the hide and rattle are rare curios.

He sells his hides with scalps intact when possible, getting a good price for them and saving the county the scalp bounty.
