Sydney.—The enforcement of the Nova Temperance Act in Cape Breton has been energized by the arrival on the seeme of Dr. H. R. Grant, who has personally directed a number of raids by local inspectors.

Dr. Frant is depocially interested at present in seeing that the C. N. R. carries out it's promise not to freight liquer from Quebes into Nova Scotia. A raid on the freight house and some teams which had just left it, resulted in the seigure of fifty-three barrels,

and several court actions and heavy fines followed. A visit to Glace Bay was not so successful. Word of the visit travelled ahead and when the raiders reached the mining town, most of the acually wide open places were elessed and their stocks of liquor stored elsewhere. A small seizure was mede at Penny's Store.

PORT WADE

Ralph Apt and wife, of Kentville, have been spending a few weeks here with his mother, and while here he decided he ought to get a moose, so he and Ernest McGrath last week brought down their moose, a fine young fellow 21/2 or 3 years. They were very generous with the meat so we all had a share. Your correspondent had a nice piece of the steak. 'twas "some" moose meat. Ralph is getting to be a great marksman, as he brought the fellow down with the first shot, and only about two miles from home.

## Rich Red Blood Necessary to Health

Weak, Watery Blood Needs a Tonic

Why are we continually told that health-giving blood must be bright red? What has color to do with the quality? Just this-the oxygen in the air is the great supporter of all organic life. One function of the blood is to take the oxygen from the airwhich it meets in the lungs and delivers to the tissues of the body When the blood, filled with life-sus taining oxygen, is sent out by the heart, it is bright red. When it returns, impure and deprived of oxygen

it is dark. You will see, therefore, that there are two prime requisites of health, pure air and bright red blood-the pure air to furnish the oxygen, the rich red blood to carry it where it is

peeded. Pale, anaemic people, whose nerved are on edge, who tire out easily, and who suffer from frequent headaches, do so because their blood is thin and watery. All such people can improve their condition through a fair use of CASH MARKET Dr. Williams' Pink Pills, whice sarich the blood, thus enabling it w carry oxygen to the system. Among those who have benefitted from the use of this medicine is Mr. Charles A. Stayner, Glenholme, N. S., who save: "Some four years ago I found myself badly run down. I tired very easily, and found it difficult to do my work. My appetite failed and I slept badly at night. I was taking medicine, but it was not helping me, and Thomas Mack was growing weaker and weaker. friend who called to see me advised ne to try Dr. Williams' Pink Pills. I got six boxes and before these were done I felt better. Then I got six more boxes, and after taking them felt as well and strong as ever. Four years have passed since that time, and I have continued in good health and working all the time. I have recommended these pills to others

> and shall continue to do so." These pills are sold by all medicine lealers or will be sent by mail, post paid at 50 cents a box, or six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brookville, Ont.
