Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

D. B. Weldon Library  
University of Western Ontario  
(Regional History Room)

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

# Instructions to Architects

## Re. Proposed New Court House at Woodstock.

The proposed new Court House for the County of Oxford is to be built in Woodstock, Ontario, in the highest part of the Town, on a lot containing about three acres. The front of the building will be towards the south. The ground in front is nearly level, and falls about three inches in ten feet towards the back.

It would be preferred to have the external walls of the Court House built of stone; the face work of main part of the exterior in random ashler with pitched joints, or in regular courses worked similar, with bands and other parts of the work treated differently.

The building is to be made as nearly fire-proof as possible, and it is to be heated with steam or hot water, and to be thoroughly ventilated throughout.

Architects competing will be required to furnish plans, sections, and at least three elevations, and specifications, giving a proper description of the materials and work; also plan of basement, showing all heating, sanitary and ventilating arrangements, closets, &c.

The sizes of the different offices and rooms given below are not intended to be binding, only to give those competing an idea of the accommodation required in each—as in carrying out a design it may be necessary to make some of them larger or smaller, but there should be ample space allowed for all the rooms and offices—and all well lighted. The sizes of the rooms are given in square feet, being the area of the floor, and should be as well proportioned as possible. The size of the vaults are also given in internal area. The Committee judged that the internal width should not be less in any case than five feet.

The \$75,000 is intended to include everything necessary or required throughout the building, including heating, lighting, ventilating, and the furnishing for all the rooms—fitting up of vaults, etc. etc.
