Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	12X	14X	16X	18X	20X	22X	24X	26X	28X	30X	32X
☐	☐	☐	☐	☐	☐	☒	☐	☐	☐	☐	☐

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\longrightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\longrightarrow$ signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LIST OF PRODUCTS
**MADE IN
EDMONTON**
AND
WHO MAKES THEM

Card indexed

When you buy Edmonton-made goods you help swell Edmonton pay-rolls and increase the business on which your living depends; when you buy goods made elsewhere you are increasing pay-rolls somewhere else.

THE EDMONTON BOARD OF TRADE
JANUARY, 1917

BIG OAKS FROM LITTLE ACORNS

Edmonton needs payrolls. How to get them is the problem. Owing to the comparative sparseness of Alberta's population and to other economic conditions, we cannot expect to attract many big industries. We must generally be satisfied with small ones and encourage them to grow. Increased production by those factories we now have, which would necessarily mean increased payrolls, would be about as good as more factories—perhaps even better. Furthermore, the success of existing factories is an inducement to others to come here.

Every citizen of Edmonton can help to increase our payrolls. Generally speaking, the goods made in Edmonton are equal in quality, frequently superior, and generally are better values than those made elsewhere and sold in competition with them. Then buy the home product, out of which your neighbor or your tenant, or your client, or your patient, or your customer gets the money which he pays to you. If everybody will adopt this policy it is a safe prediction that the output of many Edmonton shops and factories, and consequently their payrolls will at once be increased by 25 or 50 per cent.

This is not advocated for the benefit of Edmonton manufacturers. It is for the benefit of Edmonton as a whole, and that Edmonton workmen and workwomen may have more wages to spend, from which everybody benefits, whether artist, banker, cobbler, doctor, engraver, grocer, hatter, insurance agent, jeweler, laundress, milliner, nurse, optician, preacher, real estate agent, stenographer, tailor, undertaker or wholesaler.
