SERIOUS VIEW OF ULSTER IN PRESENT CRISIS TAKEN BY UNIONIST ORGANIZER

One Shot Fired There Might Act Like the Cry of Fire in a Theatre—Will Never Truckle to Nationalist Ambitions.

NEW YORK, Dec. 11.—The Times' London cable says: Black clouds, freighted with the thunder and lightning of revolution and civil war, are discerned on the political horizon of Great Britain by some observers, who, be it noted, are not usually prone to take a pessimistic view of the future of their country.

The man who makes this statement is John Louis Garvin, who has been the chief organizer of the Unionist campaign. It is as the leading spirit in the making of its battle cry that Mr. Garvin sees ultimate victory for the Unionist party ahead.

BOYS ON 'TREASURE HUNT' FOUND A SUICIDE'S BODY

Robert Crockett Gashed Throat, and Frozen Remains Discovered Up Don Valley by Taylor's Dam.

"You will find the treasure within one hundred yards of Taylor's dam," read the paper pinned to a tree in the Don Valley late Saturday afternoon, as a clue to the half hundred boys of the Y.M.C.A. Boys' Club, who were enjoying a "treasure hunt," a sort of cross amusement between paper chasing and scouting.

The boys spread themselves out and in the near-darkness, one noticed a heap of snow, which he thought looked favorable for a cache. He struck his hand under the fleecy covering and drew back, puzzled, saying it felt funny for a stone.

A STRENUOUS CAMPAIGN

United Mine Workers' Election to Be Held on Tuesday.

PITTSBURG, Dec. 11.—Throughout the coal fields of Pennsylvania, Ohio and West Virginia there was canvassing, rallying and parading of miners to-day, to close the election of district and national officers of the United Mine Workers of America in the history of that organization.

AN OVERDUE LETTER

PARTY AT WICKET: Anything addressed to Premier Balfour there, me good man?

Balfour Bunkered and Balfour Asquith's Right-Hand Man

Mr. Balfour plays golf. Sometimes a golfer gets bunkered—gets his ball and himself where he can't get out. That's where Mr. Balfour has landed in the election now nearly over in England.

Asquith, to our mind, is immeasurably stronger, notwithstanding the able Canadian agents who have gone over from our papers here to cable back their impressions in stilted words and flaming headlines.

England, shaken to her very roots, is rising into a clearer democracy than the world ever yet knew: in America here we have hardly yet ceased sinking into the mire. We have little foothold.

DIES IN FAR-OFF CHINA

Wife of Rev. H. M. Clark Succumbs After Brief Illness.

A cablegram from China on Saturday brought the sad news and most unexpected news of the death from smallpox at Wellfleet, Honan, of Mrs. Harold M. Clark, wife of the Rev. Mr. Clark of the Canadian Presbyterian Mission there.

MASSEY-HARRIS CO. BUYS OUT BATAVIA, N.Y., FIRM

Deal Involves Something Over \$2,000,000—Pres. Melvin Jones Says It's to Care for the Export Trade.

A press despatch from Batavia, N. Y., thirty-six miles from Buffalo, yesterday reported the purchase of the Johnston Harvester Co. of that city by the Massey-Harris Co. of Toronto.

The following statement was given by the president of the Massey-Harris Co. of Toronto, Hon. L. Melvin Jones, president and general manager, confirmed the report, stating that, as definitely as he could say at present, the purchase involved between two and three million dollars.

FOUR KILLED IN COLLISION ON THE I. C. R.

Light G.T.R. Engine Took the Wrong Track—All the Dead Are Railway Men—Fireman on Passenger Train Had His Legs Crushed—Only One Passenger Injured.

MONTREAL, Dec. 11.—(Special).—At 5.50 yesterday evening a light G. T. R. engine, with Engineer R. Jamieson, Fireman Dionne and Conductor C. Briggs (G.T.R.), on board, running from Sherbrooke, collided head-on with an Intercolonial passenger train at St. Hyacinthe.

The cause of the accident is not clear. The light engine came up the track on its way to St. Hyacinthe at terrific speed, passing Windsor Mills Station at probably forty miles an hour.

Engine Stayed on Track. Strange to say the two engines remained on the track, the two automobiles being in close contact, so great was the impact that the passenger engine slid forward six feet against the passenger engine, the jam causing the death of the three men on their engine.

Parents Live Here. Wm. Walker, killed in the St. Hyacinthe wreck, was a son of Chas. Walker, 230 Dunn-avenue, who left yesterday for Montreal to bring the body here for interment.

HAMILTON HAPPENINGS

SUFFOCATED BY SLEEPING NEAR NATURAL GAS STOVE

Father and Son Overcome—Conductor Assaulted by Hungarian, Who was Ejected.

HAMILTON, Dec. 11.—(Special).—As a result of sleeping near a natural gas stove, from which the gas was escaping, Luigi Violini and Bruno Violini are lying in St. Joseph's Hospital in a dangerous condition from partial suffocation. The two men, the former of whom is the father of the latter, were found in their boarding house, 22 East Barton-st., this morning. Luigi recovered consciousness during the day, but the son was still unconscious at midnight. It is thought that the father will get better, the only slight hopes are held for Bruno's recovery.

A mass meeting was held at the First Methodist Church this evening in support of the campaign for the reduction of licenses. Rev. T. J. Elmerington, pastor of St. Thomas' Church, said the law was not being administered, and gave a personal experience, in which liquor was given to an Indian under the nose of a police officer, and no prosecution followed. He said that on this occasion he had been told that the police officers had advised that serious in administering the liquor law.

Dr. Emory said that the bars were after the young men and women of the city, and that the police officers who spoke against the compensation argument, said no legislation had ever been put through Great Britain, Canada or the United States to reimburse saloon-keepers who lose their licenses.

The death took place to-day, following an operation at the city hospital, of Annie Secord, wife of Byron Secord of Snider's Corners. Work was received to-day of the death of Mrs. Lenten Williams in Toronto. The funeral will take place here on Tuesday. There died yesterday afternoon at Mrs. W. Rodrick, 24 Holton-ave., Mrs. Eliza Jane Chiswold, aged 76.

Five Dollars a Box

The Price Cut No Figure With Him

I want to say for the benefit of some poor despicable that Stuart's Dyspepsia Tablets will give comfort and a cure every time. Five dollars a box would not stop my purchasing them should I ever suffer again as I did for a week before using them. The one 50 cent box I bought at my druggist's did the work and my digestion is all right again. Many of my neighbors have also tried these tablets and found them to be just as represented and Mr. Ellms also wants me to use his name in endorsing Stuart's Dyspepsia Tablets. (Signed) A. Ellms and Chas. F. Buzzell, Asst. Postmaster, South Saultury, Mass. Mrs. Jas. Barton of Toronto, Canada, writes: "For eighteen months I suffered from what I supposed was bladder and kidney trouble, and took medicine from three different doctors, without any sign of cure. I felt so ill at last, I was hardly able to do my work. It thought I would try a box of Stuart's Dyspepsia Tablets and see if they would make me feel better, never really thinking I had dyspepsia, but after only three or four tablets have been taken all the acid trouble disappeared and I discovered I had acid dyspepsia, while the doctors had been treating me for kidney and bladder trouble, and one of them treated me for rheumatism. My digestion is fine, my complexion clear, and I am able to do my work and low spirits are unknown to me. I am thankful for finding a cure so good and so pleasant to take as Stuart's Dyspepsia Tablets. I am surprised at the change they have made in me. All druggists sell and recommend Stuart's Dyspepsia Tablets, because they contain only the simple natural digestives, and taken after meals prevent acidity and cause prompt digestion and assimilation of food. Physicians everywhere endorse them because they are as safe for the child as for the adult; they are invaluable to sour stomach, nervous dyspepsia, heartburn, gas on stomach and bowels, and every form of stomach derangement.

Canada's greatest asset and her greatest need. He appealed for a better market for our apportioning of character on a religious basis. Social purity, he said, was becoming worse than tuberculosis. There were too many politicians and jelly fish men in Canadian public life. Rev. James Grant of the Yukon, at McNab-street Presbyterian Church this evening, said the sum problem in the great cities should be faced squarely. Rev. A. H. Goins, in his sermon tonight at Zion Tabernacle, urged his congregation to vote for license reduction, and against compensation. Judge Snider concluded the jury list of cases at the sessions yesterday. The jury in the case of Bartle v. the Street Railway Co., brought in a verdict for the company. The plaintiff sued for damages for being run into by a car while he was riding a bicycle. The defendant's motion for judgment was granted against John Muncy, who brought action against it for damages to his auto. The jury found that the auto ran into the car. St. Andrew's Presbyterian Church celebrated its anniversary to-day. Sunday school anniversary services were held at Emerald-street Methodist Church. The police this morning raided 303 North Mary-street, and arrested 15 Hungarians, on a charge of gambling on the Lord's Day. The police searched the corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. GREYS TAKE LONG MARCH THRU THE SNOW AT NIGHT

Detachment of "E" Co. Tramp Twenty Miles in Make-Believe Attack on York Mills.

On Saturday night a detachment of E Co., Royal Grenadiers, left the armories, 25 strong, about 9 o'clock, in command of Capt. Burson. They marched by way of University-avenue, through a park, avenue road, to Upper Canada College, where a stockade was made. They then proceeded northwest on Russell Hill-road to Eglinton-avenue, where a second stockade was made. At this point Capt. Burson told his men he was going to attack York Mills. Capt. Burson and Lieut. King were sent out as scouts to report back the best possible way of advancing and the line of the main roadway. Pte. W. Brennan acted as connecting link, who reported back from the scouts to Sergt. R. Stuart, who was in command of the advance guard. The team to turn reported back to Sergt. T. Néville, who was in command of the general reserve. Lieut. Neale acted as adjutant, and Col.-Sgt. A. J. Cook was aide-de-camp. The company advanced across country to a point south of York Mills, where Capt. Burson blew the cease fire, formed up his company, and congratulated his men on their march. He said that in such a weather, but it took sturdy men to do it in severe winter weather. After a short rest the company started off for a route march towards the second concert east, turning south to the C. P. R., where another halt was made. The company turning west to Rosedale, not stopping until they reached the Glenora bridge, where they halted for about five minutes, after which the company marched to the armories, arriving there half an hour later, where the men were entertained by the captain. After refreshments were served Q. M. S. Noble told several military stories, after which Capt. Burson gave a lecture. He told his men they had traveled over 20 miles of the roughest roads he had ever seen, and was surprised to see the men in such condition. The evening was not exactly what he had in view, but it was an educational staff. Lieut. Neale said he was a strong believer in practicing night attacks, digging trenches, etc., and hoped to be back to the good work. Col.-Sgt. A. J. Cook, the advocate of long marches in the regiment, expressed his opinion that the Grenadiers preferred long marches and night attacks to ceremonial parades.

Continued From Page 1. not a licensed liquor store or saloon within its limits. The railway facilities for the shipment of goods are one of the main lines of the New York Central, a branch line of the Erie and two branch lines of the New York Central. Another important feature is its accessibility. There are only two or three independent manufacturing companies making goods similar to those we manufacture in the United States and this one is the most conveniently situated to us. It is almost as convenient to Toronto as our Brantford or Woodstock works, for the cars leave here in the early morning, spend some hours in the works and be home in the evening.

"Reasons for Purchase. "May I ask you what led you to make the purchase?" "That is a big question. Much would have to be said to answer it fully, for there are many reasons that have influenced my company to make this purchase. This question has been before us for consideration for four or five years, and we were previously very nearly completing the purchase, but for the time being deferred. You see our foreign trade has been increasing rapidly, and additional plants have been necessary to meet the demand. We are endeavoring in connection with our present works at Brantford and Toronto to increase them to the fullest extent possible, and substantially, as we are situated, both at Brantford and Toronto, this has been accomplished.

"For some time past in Toronto we have endeavored to procure additional ground area and we have not been successful, except in so far as we have been able to purchase individual properties and assemble them into a tract at Stafford-street. This has been accomplished under difficulties. Fifty city private houses have been purchased and demolished to get this additional area and very considerable difficulty has been experienced in getting under and over the street lines. It became necessary to build a new plant in Canada, independent of the four plants we are now operating, or build or purchase elsewhere.

"Adapted to Foreign Trade. "We have felt under present conditions, that the best interests of our company would be conserved by the purchase of the Batavia plant, rather than to so largely to our present plant capacity in Canada. The works there are peculiarly well adapted for foreign trade and goods can be manufactured and delivered in the various foreign countries for less money than is possible here; in addition there is the fact that in the United States there are possibilities for immense business, the ninety million people there necessarily offer opportunities for output that gives an added interest and stability as a factory so situated.

"How will this affect the Canadian factories?" "Really, it is impossible to say maintaining hope, however, it will have no adverse effect on our present factories."

"You say goods can be made there more cheaply than here. If so, how have you been able to compete with them abroad?" "Get High Prices Abroad. "For the simple reason that prices in foreign countries where we do business are higher than in Canada, and therefore we have been able to make profitable business abroad, where our goods are sold for the highest prices."

"When do you expect to take possession of the plant?" "We have already done so and it is running as busily there as we are here. Your fears are no change in the plans for the present, they are well maintained for the coming year, as, of necessity, they would be, and the active management of the business is not affected by the purchase, except that they are now being put into the place of the various estates, the management of which we have purchased. To the extent of the interests held by those heretofore responsible for the management and hereafter to be associated with us in the management, the interests are still held in Batavia. It will mean for Batavia no change whatever in the personnel of the company or in the company, unless it should be found desirable, as it probably will, to increase the capacity somewhat more rapidly."

"The Tariff Agitation. "Were you influenced in the purchase of these works in the United States because of the fact of reciprocity being much talked of by the people of Canada and the United States and now under consideration by the government?" "I do not think I had better try to answer that question. I can only say that, in coming to the decision we have been able to give the best consideration we would give it as business men."

"Will this new departure likely lead to closer relationship or amalgamation with other large American companies?" "No, our company is absolutely independent. No other company, or companies, in the United States, or elsewhere, have any connection with us, or we wish them, nor will there be any change in this regard."

"May Affect Officials. "Will this result in changing the officers or appointing new officers?" "Of course, exact names are not known. Many of our officers are pleased to see any change in the management, and we are confident that the world would be the better for it."

"The World would be the better for it." "Yes, anything else?" "Not this evening," said the M.P.

WILL APPEAL TO VATICAN AGAINST FRENCH CLERGY

Hon. Rodolphe Lemieux Premier's Emissary in Opposition to Naval Policy. MONTREAL, Dec. 11.—(Special.)—There are signs in the political horizon which point to an approaching religious crisis in this country. Sir Wilfrid Laurier has decided to appeal to the Vatican against the evident hostility of the great majority of the clergy to the naval policy of the government, and the Hon. Rodolphe Lemieux will be the man to interview Mgr. Merry Del Val and his master, Pius X. It is reported even that the postmaster-general had arrived in Rome, but this is hardly true, as he did not sail from Capetown till Nov. 22, and he could not reach either Marseilles or Naples much before the middle of the present week. It is known, however, that Mr. Lemieux will carry St. Wilfrid Laurier's protest to the foot of the pontifical throne.

ITEMIZED FROM THE SUNDAY WORLD

AMHERSTBURG, Dec. 11.—(Special.)—Napoleon A. Coste, for many years a very prominent resident of Amherstburg, died here this morning after two months' illness. Mr. Coste was 75 years of age, and was born in Marseilles, France. He came to this country when a young man, and led a very active life until the last few years, always being prominent politically. Mrs. Coste died suddenly last March in Atlantic City. Surviving members of the family are four sons, Louis, engineer of the Waterways Commission at Ottawa; Eugene, mining engineer, residing in Toronto; Denis, manager of the Natural Gas Company at Niagara Falls, Ont.; and Maurice of Wichita, Kansas. The funeral will take place from his late residence Wednesday morning.

CIVIC CAMPAIGN DULL EASY FOR CONTROLLERS

Hockey News Gossip Varsity Beat The Centrals Basketball West End 40-36 At Basketball

Note and Comment

Toronto's contingent are in New York ready for the Eastern Baseball League meeting, that will be held to-day, when Pat Powers will know his fate.

The National League meet on Tuesday and the American League on Wednesday. The latter organization is expected to have the most harmonious gathering of its kind.

In the National and in the Eastern it is different with their year-to-year elections. Under the conditions now existing in both organizations it is necessary for the president to play a tactful role.

Varsity landed another championship on Saturday, and the soccer team are in line for recognition. The student eleven defeated Broadview in the championship at Scarborough Beach.

The meeting of the Intercollegiate Rugby Union on Saturday decided to make some rules amendments and now there are only a couple of minor differences from those of the Canadian Union.

As suggested by the Interprovincial Rugby Union, there will be no inter-city dates with the college teams, as the Big Four clubs are sure to pick up the open dates that the "Red-Bird" boys do not want.

Miss Dorothy Campbell and other Canadian ladies who may have suggestions toward the British golf title next year, would do well to bear in mind that the event is being held in the same time as the blue ribbon fixture.

According to the pages of an official club organ, George H. offered the following hints of advice: "Before pocketing a ball lost by another player it is well to wait until the ball stops rolling."

POISON IN THE BEER?

VANCOUVER, Dec. 11.—(Special.)— Three persons were poisoned, one fatally, while partaking of a meal at an early hour this morning.

Black, a tea and coffee merchant in this city for the past year, dying with- in an hour after the meal. He dropped to the floor in the presence of the other two, Mr. Wolton, proprietor of a pool room, and Miss Birdie Gordon, who is in the employ of the latter.

They sank to the floor while about to summon medical aid for Black. He died before the physician arrived. The others are now out of danger. The poison is supposed to have been in the beer.

MINNEAPOLIS, Minn., Dec. 11.—

The lives of 200 guests were endangered this morning, when fire practically de- stroyed the Brunswick Hotel, the old- est of the large hotels in Minnesota, at a loss of about \$200,000.

Another Trolley Tie Up.

SERIOUS VIEW OF IRLAND IN CRISIS

Continued From Page 1.

setzes upon the people and they rush blindly for safety, with deadly results. The shots fired at Sumner precipitated your civil war. On the firing in Ulster might have the same result as the cry of 'Fire' in the theatre.

"I know the Ulster men. I know what you may call their cold glow. They will have no home rule such as Dillon wants. I have been charged with inconsistency because after urging the Ulsterist party to undertake the task of extending local self-government in Ireland, I am now opposing the Revo- lutionary dictatorship. I am not inconsis- tent. I still hold, as I have always held, that Irish aspirations should be satis- fied. The aspirations of Irishmen gen- erally can be satisfied without the dis- integration of the empire. One of my ideals has always been to make Ire- land content as a means of bringing about that close union between the two great English-speaking nations of the world, which is essential to the progress of humanity.

Bar to Sympathy. "I am seeking no treaty binding to- gether England and the United States. I am desirous of a nearer and a strong- er union based upon common aims and mutual understanding. So long as Irishmen in America are dissatisfied with England's treatment of their race at home there will always remain a bar to that perfect sympathy which should exist between the two great English-speaking nations of the world. I will resist to the end.

"Meanwhile, resistance must be our watchword. Our opponents are count- ing on our giving way when it comes to pinch. The house of lords they face will not accept the veto bill rather than submit to such an intru- sion.

"Not a bit of it. The Liberals want to make the upper house a political nonentity. The lords will resist to the last ditch. They are fighting for their political existence. How could they submit to measures which deprive them of everything they possess? The crea- tion of 500 puppet peers would be judi- cious. We will ostracize them so- cially.

"The Radicals are undermining the very foundations of our constitution. We want to strengthen them. What would be the fate of any American who should try to do away with the senate? When Adams, Madison and others sat down to frame our consti- tution, they looked to England and drew up a constitution which based upon ours, differed in this respect, that yours was made rigid.

"We English, with that self-suffi- ciency characteristic of us, said of our- selves that we were the best consti- tution in the world. It was not rigid, we agreed; but we called it elastic.

"Elastic," said Mr. Garvin emphat- ically. "It is not elastic. It is fluid. Now we seek the need of making it more rigid, and the reform of the house of lords is a beginning."

THREE LIBERAL GAINS.

LONDON, Dec. 10.—With nearly all the constituencies heard from, the poll- ing, yesterday shows three turnovers in favor of the Liberals.

In the Saffron seat of Essex, the Unionist majority of 272 was turned over to the Liberals by 40 majority. The seat was Liberal previous to the January election.

In Lowestoft, the Unionist majority of 238 was turned to a Liberal majority of 225.

In the Cockermouth seat in Cumber- land, Sir Wilfrid Lawson beat his Unionist opponent by 151 votes, a turnover from a Unionist majority of 941.

The lord advocate for Scotland, Hon. Alex. Ure, was returned in Linnithgow. Premier Asquith's majority in Fife East was reduced from 266 to 179.

ULCERS AND COLD SORES

Are Healed by Zam-Buk.

Ulcers, cold sores and chapped places are common troubles just now. The hands and the face are the parts generally affected, but sometimes cold sores arise from chilblains on the toes and feet, and had ulcers sometimes follow cold cracks. Zam-Buk will be found a quick and sure cure.

Mr. W. J. Halliday of Ash Grove, Ont., says: "I had my little finger frozen, and it cracked at the first joint, causing a bad sore, which discharged freely and would not heal. The pain was very bad, and the whole of my hand became in a bad shape. Nothing I got seemed to do it any good.

"A friend advised me to try Zam- buk, and I soon found that Zam-Buk was altogether different to any prepa- ration I had ever tried. In a very short time it soothed the pain and healed the wound. I am convinced that Zam-Buk has saved my hand."

Miss Lillie May of Stony Creek, Ont., says: "A few weeks since several nasty disgusting cold sores suddenly broke out on my lips, which became much swollen. Seeing my con- dition, a friend advised me to try Zam-Buk and leave all other prepara- tions aside. This I did, and was much surprised, after a few applications of this balm, to see every cold sore ban- ished, and my lips in a better con- dition than before."

N. TORONTO ASSOCIATION PASSES RESOLUTION

Will Only Endorse Candidates Who Favor General Rate in Sewage Trouble.

NORTH TORONTO, Dec. 11.—(Special.)—At a meeting of the Ratepayers' Association, held in the town hall, on Saturday evening, a resolution was adopted pledging the members to sup- port only those favorably to the gen- eral rate of taxation in the sewerage bylaw, as against the local improve- ment.

President Banton presided and some of the members took exception to the proposal to introduce any restrictive line of action, claiming that they must be given a free hand. The president, while admitting that they could not waive any hard and fast rules, ad- vised the adoption generally of the plan. Altogether, 15 members were in attendance, and in view of the interest attaching to the matter, it was decided on Saturday evening next to re-intro- duce the subject of "sewage."

With three skating rinks this winter the town will be much better equipped for all kinds of outdoor sports than ever before. The three rinks are well distributed in the north, south and centre, and all will be well lighted, the town council having promised to instal the necessary lights.

Notwithstanding the fact that this is somewhat of an off season for real estate, from time to time sales are being made at prices which indicate sub- stantial faith in the future of the town. Some of these sales are being made in the belief that annexation will carry at the coming municipal elections, and with the consequent anticipated ad- vances buyers are anxious to get in on the ground floor. A number of deals are also under way and will, it is ex- pected, be closed within the next week or so.

In Eglington Methodist Church to-day, Rev. John McFee preached in the morning and Rev. T. W. Bartley in the evening.

Rev. Dr. Carmichael was one of the speakers in Eglington Presbyterian to-day, and a large crowd heard the venerable minister.

Chief Collins reports the conditions around town as being unusually quiet, not even a fire to give spice to his duties.

Yonge-street is in fine shape and large quantities of farm produce are being brought into the city market.

NEWMARKET.

City Men Wanted to Pull Off Prize- fight, But Failed.

NEWMARKET, Dec. 11.—(Special.)— In the town hall, on Thursday evening, the Aurora Orchestra will give a con- cert at which Mayor Egan will pre- side, and at which addresses will be given by Prof. Reynolds of the O. A. C., Guelph; C. M. McEae and others.

The Ladies Aid of St. Paul's Church will hold their annual sale of work in the court room of the King George Hotel, on Wednesday, Dec. 14, com- mencing at 10 o'clock. There will be a large assortment of useful and fancy articles.

A number of Newmarket citizens are willing to affirm that the thermometer registered ten below zero last Monday morning shortly before daylight. This is nearly as bad as at any time last year. At the regular meeting of Tuscan Lodge, A. F. and A. M., on Wed- nesday evening next, officers will be elected.

The local W. C. T. U. will pack and send a box of clothing to Muskoka on Wednesday next.

A number of a number of city toughs who sought to pull off a prize fight in the town hall here, has been frustrated by the better element of the town making such representations to his council that Mayor Egan has been re- fused. The Metropolitan railway had engaged to run special cars and every-

Is This Your Boy

Who at Tender Age Must Face the Hard, Cold World Without Preparation or Protection?

No. You could not think of such a thing. And yet, would you neglect your health as you do if you waited to think of your family and how they would get along without you.

You have not the old-time vigor and energy. You go home tired and worn out, feel cross and irritable, lack the old-time smile and good cheer which brought sunshine into your home at your arrival.

NEW STYLE "PURITAN." This new design appeals particularly to refined people. Finished without carving of any kind, it is so simple and graceful, and above all so perfect in every line, that already it has won high favor as a most artistic piano.

The quality throughout, both in workmanship and material, is of the very best—better cannot be made.

A Christmas Gift Which Endures

A GOURLAY PIANO IS THE SUPREME CHRISTMAS GIFT, for it brings year-in-and-year-out happiness to every member of the family. Indeed, purchasers are assured that in later years their grandchildren can use the instrument with pleasure, so surely is the durability of every Gourelay piano insured by thoroughness in construction.

The Purchase Made Easy

STEAMER OLYMPIA ON REEF IN FURIOUS STORM

Greater Vancouver Townsite of Hastings Annexed and South Vancouver to Vote to Join.

VANCOUVER, Dec. 11.—(Special.)— By its vote on Saturday the Townsite of Hastings, on the eastern border of Vancouver, joins Greater Vancouver, adding four thousand to the city's population of approximately 120,000, including the city of North Vanco- uver. This is the second district which has joined the city within the past six months.

South Vancouver, with a population of twenty thousand, will vote on an- nexation in January, which, with other likely districts, will, it is expected, bring the city's population to over the 150,000 mark.

CORDOVA, Alaska, Dec. 11.—The Alaska Steamship Co.'s steamer Olym- pia, with 106 passengers aboard, is ashore on Sea Island, Prince William Sound. A furious storm is raging. No word has been received from the wire- less operator on the Olympia since 3 a. m., and grave fears are entertained for the safety of those on the wrecked vessel.

THE new brick gothic church on which the energies of the parishioners have been expended will be opened on Friday evening next by the Bishop of Toronto.

The rector preached to-night from Philipians III, 12 and 14, and urged a proper appreciation of a past, present and future in the individual and con- gregational life.

The new structure is claimed to be the most churchy looking edifice of its size in Toronto, and was designed by A. Sharp and was erected under the personal superintendence of Thos. Crittenden, a parishioner, who has given his services gratuitously for over six months on this project.

The interior walls are not completed, but the opening will take place as arranged on Friday evening, the work of the several organizations being so cramped owing to lack of space as to render the new church an absolute necessity.

DIXIE, Dec. 11.—(Special.)—The opening of the splendid new Presby- terian Church took place here to-day in the presence of a large congrega- tion from Zam-Buk Co., Toronto, upon receipt of price. You are warned against harmful imitations and substi- tutes. See the registered name "Zam- Buk" on every package before buying.

A Real Lung Tonic. There are many prepara- tions that will relieve a cough—few that will cure it. The first class, containing such drugs as Opium and Mor- phine, simply deaden the irritation and stop the cough, but do little or no permanent good.

Father Morrissey's No. 10 does not contain a trace of these dangerous drugs, but is an absolutely safe and scientific preparation of Nature's own remedies—Herbs, Roots and Balsams. It entirely removes the irritation that caused the cough, by cleaning-out the mucus, stopping the inflammation and healing the delicate membrane of throat and lungs.

### Pastor Russell's Sermon

#### God's Great Plan Hidden in Abraham and Family—The Mystery, Covered So Long, is Now Made Plain—Isaac, the Second Son of the Patriarch, Pictured the Heavenly Seed, Ishmael, the First Son, the Earthly Seed.

OMAHA, Neb., Dec. 11.—Pastor Russell of Brooklyn Tabernacle visited here yesterday as the guest of the International Bible Students' Association. He gave two public addresses, which were heard by large and intelligent audiences. We report his address from these words of Scripture: "And Isaac brought Rebecca into his mother Sarah's tent, and she became his wife and he loved her."—Genesis xxiv, 67.

Similarly, Moses not only was a real character, the leader of the nation of Israel, but, additionally, he was a type of a greater Mediator—Messiah. As Moses mediated the law covenant for Israel, so Messiah, the prophet like unto Moses, or anticipated of him (Acts iii, 22), is to be the mediator of the new covenant, under which the Abrahamic blessings will reach them and then through them to the nations (Jer. xxxi, 31).

As already pointed out, Isaac, the son of Abraham, typified the Messiah of glory, the Son of God and heir of all the promises—the one thru whom alone eternal life may be obtained and restitution to that perfection which will enable Israel and the world to keep the Divine Law perfectly and merit the gift of God, eternal life according to their New Law Covenant, which will be mediated through Messiah.

Not everything that Abraham did, however, is to be esteemed typical. In a general way this great patriarch is to be looked upon as the originator of faith and integrity and justice. The blessings promised to go thru him to his seed, which would constitute him the father of many nations, made of him, as St. Paul points out, a type of the Almighty, from whom flows every good and every perfect gift—from whom grace and the blessing which is the source of all life, his people, unto all the families of the earth.

Here we find, in harmony with other Scriptures, a picture of this Gospel Age, and its work of bringing to Messiah a special Bride class of saintly ones. First amongst these saints were some of the Jewish nation, according to the divine rule; as the scriptures set forth—"to the Jew first." This bride class has been selected from every nation, people, kindred and tongue, and in all will be but a little flock—"Fear not, little flock, it is your Father's good pleasure to give you the kingdom"—the spiritual, unseen kingdom of Messiah—jointheirity with Him in His throne—not the earthly kingdom which has been promised definitely to Israel.

Other scriptures have shown us that there are two classes amongst the saints. A few, peculiarly devoted, will constitute the bride class. And a larger number, not so courageous of the truth and not so zealous, will constitute her companions, her servants, as Rebecca traveled accompanied by her servants. These two classes are particularly specified in the scriptures (4th Psalm), where we read of the Messiah-Bride and Queen. In her resurrection glory she is pictured as the queen reared in gold of Ophir with the precious stones—the glory representing the divine nature which will be granted her glorious righteousness, embellished with the fruits of the holy spirit.

From the first there was manifested a competition for the Abrahamic blessing. And as Ishmael mocked at the infant Isaac, so the Jew, in his considerable development and strength, mocked at the Antitypical Isaac—Jesus and his comparatively insignificant and unlearned followers—and persecuted them. In order to continue the type, that Abraham might typify God, he was commanded to send forth Hagar and her son into the wilderness. That sending forth typified the Divine disfavor which came upon the Jews eighteen centuries ago and which has made them outcasts from God's favor, as Hagar and Ishmael were cut off from Abraham's presence and family and care. The bread and water which Hagar took with her, by which she and Ishmael were nourished in the wilderness for a time, pictures and types the promises of God thru the Law and the Prophets which still belong to the Jew

of to-day any more than we would identify the apostles with the Jewish church of their day. The apostles were a select few, and similarly all the members of the church thruout the age have been a select few out of a nominal many. "The Lord knoweth them that are His." The true church has been selected, not only from all of the twelve tribes of Israel, but from every other nation, people and tongue, even so many as the Lord our God has called.

Rebecca's leaving her father's house typified the personal consecration of each one who, led of the spirit, accepts the divine invitation to the first Jew, given to Rebecca, when first she heeded the invitation and invited the servant to her home, represents the earliest blessing which will enable Israel and the world to keep the Divine Law perfectly and merit the gift of God, eternal life according to their New Law Covenant, which will be mediated through Messiah.

Isaac immediately received Rebecca and took her into his mother's tent. Sarah had died and Rebecca became her successor. This is beautifully pictured the fact that when the bride of Messiah shall be complete, the bride of glory, the Sarah covenant will be at an end and her place, as a channel of blessing, will be taken by the glorified church. This will be fulfilled in the prophetic blessing of her relatives, "Be thou the mother of thousands of millions." Those thousands of millions represent the world of mankind, which will be regenerated, and granted new life by the great Messiah during the thousand years of His reign as the Mediator of the new covenant.

Messiah will be the regenerator and His bride will be the nourisher, instructor, helper of all mankind under the new covenant, because it will be this antitypical Isaac and his bride that will mediate for Israel, and thru Israel for the world, the new covenant of restitution blessings (Acts iii, 19-21). "In thee and in thy seed shall all the families of the earth be blessed," applies primarily, as St. Paul shows, to Messiah and His church in glory—the sacrifices being past, the spiritual nature being attained as a reward for the sacrifice (Galatians iii, 16).

Whoever will first receive Messiah and come into harmony with the righteous laws of His invisible kingdom will be the first to be blessed. This question will be no partially in the matter, for God is no respecter of persons. However, because of their past experiences and earthly hopes and trust in the law and the prophets, the Jews will be the first amongst the nations to accept the new order of things and any themselves with it; therefore, to them will the blessings go first and thru them, as instruments of the kingdom, the blessings will extend to all.

Duluth receipts of wheat to-day, 30 cars, against 31 a week ago and 49 a year ago. Minneapolis, 230, 286, 109.

Large Argentine offerings. Corn easy, with very little enquiry.  
**ST. LAWRENCE MARKET.**  
Receipts of farm produce were 1200 bushels of grain, 15 loads of hay, a moderate number of loads of mixed produce, in the arena, with a fair supply of butter, eggs and poultry on the market.  
There was an active trade all round in every department at about steady prices.  
Wheat—Four hundred bushels at unchanged prices.  
Barley—Six hundred bushels; prices unchanged.  
Oats—Two hundred bushels; prices unchanged.  
Flax—Fifteen loads sold at \$18 to \$19 for timothy, with clover and mixed hay from \$8 to \$11 per ton.  
Apples—Prices ranged from \$2.50 to \$4.50 per barrel, and choice apples are worth \$5 and \$5.50.  
Poultry—Turkeys sold at 21c to 22c and choice young hens turkeys sold up to 34c per lb.; geese, 12c to 14c per lb.; ducks, 12c to 15c, chickens, 12c to 16c per lb.

**Market Notes.**  
A Yonge-street farmer topped the market for stall-fed chickens at 14 1/2c per lb. T. Jones, Cherrywood, sold 5 ducks, 27 lbs., at 12c per lb.; 25 lbs. of chickens at 15c per lb.  
Wm. Stelling, a Scarboro farmer, sold one lot of choice quality butcher hogs at \$10 per cwt.  
John Barron, J. L. Paterson of Swan Bros., Harris Abattoir Co. and J. Tomlin of poultry on sale on the market.

**Kansas Crop Estimate.**  
A Kansas crop report issued yesterday showed an estimated wheat crop of 40,250,000 bushels; corn crop, 152,000,000 bushels; condition, 75.8 per cent.  
**Big Corn Movement.**  
CHICAGO, Dec. 10.—The wheat market has been marked to a greater extent than in the average year, in the face of a declining market, is shown by the receipts here. In the past month they have been the largest at this time in four five years. This week's receipts of 7,222,000 bushels, increase of 375,000 bushels over the previous week, and 33,000 bushels over last year, were the largest at this time in six years, with the exception of 1908, when they were only 35,000 bushels larger than receipts would have undoubtedly exceeded, those of 1908. Next week will see a large movement. The corn is in better condition than usual for marketing, and will come right along. The Illinois Central road brought in 321,600 bushels, or nearly one-third of the total by all roads.

**Broomhall's Cable.**  
LIVERPOOL, Dec. 10.—The wheat market opening was influenced by the weakness in Buenos Ayres. Argentine offers are of lower quality. During the morning market was dull, but with pressure to sell a further decline occurred. There was some covering by shorts on the predictions of smaller world's shipments this week, but at the close Plata houses here were free sellers, and prices were lower than yesterday.  
Argentine.—Our agent cables that the weather is favorable and harvesting progressing rapidly. Wheat cargoes arrived off coast one, awaiting orders. Wheat cargoes in distant quarters easy under

F. C. ROWNTREE

F. C. Rowntree, an ex-representative and influential citizen of Weston, is widely known in business, municipal and athletic circles.  
Mr. Rowntree was born in Weston June 1, 1882 (is the fourth son of David Weston, having come to the village in 1862), is a young man of sound integrity and business ability, possessing the business tact and judgment which is so essential to success.  
Mr. Rowntree, when quite young, started in the cattle trade at the bottom of the foremost dealers in live stock. He has made a specialty of milch cows, having handled a quarter of a million dollars worth during the present year.  
His sterling character is highly recognized and appreciated by his host of friends and acquaintances.  
Not only to the cattle business does Mr. Rowntree devote his time, but also to the interests of his home village and athletics. In 1908 he was elected to the council of the village by more votes than any two members ever polled, and his Rowntree was the youngest member ever elected to such a responsible position in that village.  
He is a popular and stellar member of the Tecumseh Lacrosse Club, and an ardent admirer of the light harness horses.  
Mr. Rowntree is a Conservative in politics and an active member of West York Conservative Association, having served in the capacity of secretary for a number of years.

HOLSTEIN COW.

The above is a cut of a half-bred Holstein cow, which holds the record in point of price hitherto reached in the Toronto stock markets, the amount paid for this animal being \$125.00. Mr. Fred Rowntree was the purchaser, through the firm of Corbett & Hall.  
The animal was bred by Mr. Fred Lund of Thistleton, and last year during the grass period gave eight gallons of milk per day. The raiser of the cow also makes the statement that during the winter months she gave upwards of seven gallons per day.  
This is the class of cow that the Ontario dairy man is evidently in search of, and are highly pleased in having dealt in what will go down in current history as the record in the Toronto live stock market.

NEWS IS DISCOURAGING

Continued From Page 12.

Business showing new low mark for recent decline. Short interest is of large proportions, and little there is of anything in the news to create material advance, cash demand, the market active, is improving, and receipts are decreasing. We expect a trading market and until trade broadens we will see the acceptance of moderate profits on all good bulges.

Toronto Sugar Market. St. Lawrence's grant, 45¢ per cwt. in barrels; No. 1, 50¢ den. 4.25 per cwt. in barrels. Beaver, 4.50 per cwt. in bags. These prices are for delivery here. Cash prices are less. In 100-lb. bags prices are 5¢ less.

POULTRY EMPORIUM OF M. P. MALLON.

Progress all along the line is the dominating feature of the business conducted by M. P. Mallon, who deals exclusively in poultry and game, with a warehouse at 32 Jarvis Street, on the east side of the St. Lawrence Market.

Mr. Mallon is the youngest son of John Mallon, one of the widest-known dealers in the stock markets in the whole Dominion, and who for many years conducted a wholesale and retail butcher business at the St. Lawrence Market.

Mr. M. P. Mallon, the subject of our sketch, has made a business of dealing exclusively in poultry and game, and has built up a connection altogether in advance of any of his competitors. He has business relations throughout the whole of Ontario and affiliations in the United States. Mr. Mallon's business transactions during the present year have almost doubled those of the previous year, and the expectations are for a continuous increase.

In the cut above will be seen a portion of the receipts and shipments which daily occur at Mr. Mallon's business premises, and this will convey better than anything else the busy spot that this is in the Toronto poultry market.

DOMINION LIVE STOCK CENTRE.

In the live stock show which is to be held at the Union Stock Yards to-day and to-morrow, the people of Toronto and the Province of Ontario will witness one of the best exhibitions of this kind which have been attempted in the Dominion.

The directors of the Union Stock Yards deserve to be complimented on the efforts which they have put forward in endeavoring to make Toronto what it is bound to be, and what it is now, the leading live stock centre of the Dominion. In fact, it may not be a great number of years before it will even vie with Chicago, Toronto, being the centre of one of the most agricultural provinces in the world, necessitating the long haul to the exhibition of the live stock industry, which is valuable both to the province and to the city.

The accommodation provided at the Union Stock Yards is up to date. It is not as large as some of the big live stock markets in the United States, but in equipment, its superiority cannot be contested by any other yards on the continent and probably compares favorably with any smaller industrial enterprise in the world. The location of the yards is advantageous from several standpoints. The yards are now served by the two leading Canadian railroads and it will not be long before the new transcontinental C. N. R. will be able to put live stock directly into the Union Stock Yards.

This is the first fat stock exhibition held at these yards, and if the entries mean anything, it is that a start has been made which is a guarantee of the increase that will be made in this, now undoubtedly annual event. It will be seen by the list of entries given on another page, that exhibits are being made by nearly all the leading live stock exhibitors in the Province of Ontario. Among the exhibits will be one steer which carried off the championship in his own class at the Chicago show.

This exhibition should not only appeal to the farmers and the live stock men, but should be attended and appreciated by the citizens of Toronto as a means of seeing what is being done at the Union Stock Yards in endeavoring to build up a branch of industry which will be of material advantage to the city in future years. As a measure of the size of the exhibition, it needs only to be mentioned that upwards of nearly 1400 head of the various kinds of live stock will be shown.

The Double-Track Way to Montreal is via the Grand Trunk Railway System. This, however, is but one of the many advantages of the Grand Trunk route, as the modern Pullman coaches, excellent dining car service, up-to-date parlor-cars and comfortable vestibule day coaches will serve your patrons. Four trains leave Toronto daily, 7:15 and 9:00 a.m., 8:30 and 10:30 p.m. Remember, the Grand Trunk is the only double-track route, which always guarantees safety. Secure your tickets and reservations at G and York City Ticket Office, northwest corner King and Yonge streets. Phone Main 4219.

Monthly Steel Statement. NEW YORK, Dec. 10.—The unfiled tonnage of the United States Steel Corporation on Nov. 30 was 2,760,418 tons. It was announced to-day. This is a new low record, the previous low figures being those for Oct. 31, 1910, of 2,511,949 tons. On Sept. 30 the unfiled tonnage was 3,158,106 tons.

Plan of D. B. Martin, Limited

The above firm, through careful selection of cattle, have already established a very wide reputation for their standard Blue Ribbon Beef and other meat products. They have been greatly assisted in maintaining their uniform and excellent standard of their meats by the rigid government inspection that is maintained at their plant. The production of meat under this inspection is always in advance of what the ordinary citizen has any conception of. The old methods of slaughtering and handling meat without Government inspection is rapidly becoming a thing of the past.

The D. B. Martin Co., who own and operate the celebrated Public Abattoirs at Philadelphia, costing over a million dollars, and also at Baltimore, Jersey City, Montreal and other large eastern cities, are probably one of the most up-to-date concerns engaged in the new trade and every particle of meat or food product leaves their Abattoirs under the stamp of the Government Inspector, so that there is no possibility of its customers receiving anything but the product of healthy animals.

The big Martin Abattoirs at the Union Stock Yards, owned by this concern, a cut of which appears in this issue, are a good example of what can be

accomplished by a wise and liberal use of capital and technical experience in the production and handling of meat. In these buildings every known improved device for manufacture of meat products has been adopted regardless of expense. The enormous cold storage boxes with a capacity of 200 cattle and 5000 sheep per week are well worth a visit, particularly at the Christmas season, when some of the choicest animals to be found in the Province are slaughtered for the Company's patrons.

Not only is the meat produced at these abattoirs under Government inspection finding greatly increased sale in the City of Toronto, but shipments are being constantly made to points all the way from Winnipeg to Halifax, which speaks well for a Toronto industry, and it is to be hoped the energy displayed in developing this business will find its reward in a still further rapid growth and trade throughout the country. It has already become a well recognized fact that such a plant as the Martin Abattoir which manufactures every particle of the animal into some useful product, can produce meat to the consumers either for Toronto or the towns throughout the Province much cheaper than can possibly be done under the

old methods, and many of the local butchers at outlying points are finding it to their advantage to draw their supplies from these abattoirs rather than to slaughter their cattle locally.

The buying of live stock for this firm is looked after by Mr. William Crealock, the well-known Toronto cattle buyer, who has had many years' experience in the care and selection of animals to be slaughtered. It falls to Mr. Crealock to select from five to six hundred cattle every week for local consumption, and his expert knowledge is very important to the selection of animals suitable for the Company's many customers.

The big beef department is in charge of Mr. S. Newton, who is said to be one of the best judges of beef in the country. His careful attention for the requirements of local butchers has given this department a very good name, and the pork and by-product department is under the supervision of L. E. Lammerty, whose careful attention to the public taste is rapidly showing the best results.

This plant, under the energetic management of its Managing Director, Mr. George W. Cook, has become quite a large factor in packing house industries in Canada, and is a decided credit to Toronto's meat industry.

DUNN & LEVACK

Among the firms who do business at the Union Stock Yards and at the old City Yards, none is more favorably or widely known than that of Messrs. Dunn & Levack, the two men being a natural affiliation for the business in which they are engaged.

Wesley Dunn, the senior member of the firm, was born of a family with a long history in the cattle business. His natural bent was therefore towards the occupation to which he has applied himself, and by assiduous and careful efforts he has gained the proud position he now occupies. His father and uncle were pioneers in the cattle exporting business, which business they carried out to an entire success. Mr. Dunn saw the possibilities of the future, and immediately assumed the obligations which he has since carried out with great success. Straight and honorable methods of dealing have been his guiding star in conducting his business relations and this doubtless has been a great aid in building up the extensive and profitable connection which the firm now has.

Shipments from all parts of the country are confided to the firm of Dunn & Levack with extreme confidence, the results having for many years warranted this. As a judge of sheep and lambs Mr. Dunn has no peer in Canada, his leaning if anything having drawn him especially into consideration of that branch of the live stock trade.

In his partner, Mr. W. B. Levack, Mr. Dunn has shown the same good judgment which he has exercised thruout all his transactions in his many years of business. Mr. Levack, who is a nephew of the late William Levack, is an astute business man and at the same time an expert in the cattle business. His long apprenticeship, served with his uncle who was accounted one of the best cattle men in the Canadian trade, has demonstrated the thoroughness of his later success.

W. B. Levack is one of the young men in the cattle business, but the youthful in years is old in the experience of his chosen profession. Both partners have obligated themselves to their business, and commissions entrusted to their care receive quick action, prompt and careful attention and excellent execution.

Their yearly record of business is a large one and compares favorably with any of the other leading firms on the Toronto markets.

This firm have received a fair share of the shipments of live stock for exhibition purposes at the Fat Stock Show being held at the Union Yards to-day.

# McDONALD & HALLIGAN

D. McDonald and T. Halligan of the firm of McDonald & Halligan, who have offices at both the Union Stock Yards and the Western Cattle Market, are two of the largest live stock operators in Ontario, and have had a twenty years' experience on the Toronto market in the handling of all classes of live stock. They are recognized by the drovers of Ontario as being two of the keenest judges on the market, in either buying or selling, for they do not restrict themselves to the selling of cattle, but on a quiet day they often buy four or five loads to turn over again on the same market. By doing so they keep their judgment on edge and often are the cause of holding the market steady. This experience enables them to give their patrons the best of results, more so than if they only sold cattle on one day in the week. They are well connected with the large American buyers, and in addition, have a good connection with the British and American markets, and are thereby in a position to give their patrons the benefit of such information free of expense, which should be of great value to men who have cattle to offer for sale. In addition they buy a large number of cattle on order, one of their best customers being the Laing Packing Co. of Montreal. Since the death of the late Robt. Kyle they have done considerable business with this packing house. To handle the sheep and lamb trade they have D. A. McDonald, son of the senior member of the firm. Born in the business, he has the making of a promising live stock dealer, and during the past year has handled a fair proportion of the stock offered for sale, and to the satisfaction of his customers.

This firm is offering for exhibit at the Fat Stock Show on Monday and Tuesday:

- One load Export Steers, owned by P. J. Henry of Ridgetown, Ont. Mr. Henry is one of the most prominent cattle dealers in Western Ontario.
- Two Three-Year-Old Steers, owned by P. J. Henry, Ridgetown.
- Two Two-Year-Old Steers, owned by P. J. Henry, Ridgetown.
- One Year-Old Steer, owned by P. J. Henry, Ridgetown.
- One load Export Steers, owned by Andrew Cormack of Paisley, Ont. Mr. Cormack is also one of the largest cattle and sheep dealers in his section of the country.
- One single deck of choice Southdown Lambs, owned by Jno. D. Ferguson & Sons of Belmont. Mr. Ferguson is also a heavy shipper to the market, and has been in the business for twenty years. His sons are following the same line, and have the promise of making their mark in the live stock business in the near future.

They also have a load from Mr. James Stone of Blackwater, Ont. Mr. Stone is not only one of the largest dealers in fat cattle in that section, but is also a noted breeder and raiser of Shorthorn Cattle, which he has exhibited on almost every market in both Canada and the United States.

## GERMAN CHANCELLOR ON BRITISH RELATIONS

Exchange of Views Will Remove Distrust—Blames Socialism For Recent Disorders.

BERLIN, Dec. 11.—Discussing international politics in the reichstag yesterday, Chancellor Von Bethmann-Hollweg gravely warned the more radical exponents of socialism that they would be held to account for excesses resulting from their teachings.

The chancellor said: "The revolutionary character of social democracy is finding more and more brutal expression. Dr. Carl Liebnick, a Prussian socialist member, speaking recently in the United States, said, matters in Germany were developing in such a way that the German crown might soon be swept away in a night, as was the case in Portugal. Our people must have a clear answer to these views. The socialists and whoever teach the masses of the people that they can prosper only after the existing order is overthrown, are responsible when the masses draw practical conclusions from this doctrine.

"Therefore, I hold social democracy responsible for the great excesses recently committed during the strikes at Homburg and elsewhere. Who sows the wind reaps the whirlwind."

In a second speech Chancellor Von Bethmann-Hollweg made this declaration: "As regards our relations with England, and the alleged negotiations with that country on the subject, I wish first of all to point out that the British Government has repeatedly advanced the idea that an arrangement resulting in the strengthening of the ties of the several powers would contribute

# COUGHLIN & CO.

Messrs. Coughlin & Co., who have headquarters at the Union Stock Yards, are among the largest dealers in live stock at this market, having a wide connection among all the leading drovers throughout Ontario, permeating the Canadian West in their business affiliations, and also having large transactions with firms in the leading stock markets of the United States and Great Britain. The firm also have a branch office in Winnipeg.

Mr. Coughlin was previously a partner of Mr. Bert Whaley, who was also a prominent dealer on the Toronto stock markets. He comes of a family grown up in the live stock business, who in the early years of the Canadian cattle export trade were looked upon as experts in this particular business.

Mr. Coughlin was previously a resident of Western Ontario, and is especially well known in that territory because of his long connection with the cattle business in that centre.

He is accepted as an astute judge of all branches of the cattle business, and a recognized authority in any matters connected with this particular trade. Mr. Coughlin's business acumen is shown especially in his choice of Dan Macdougall as his chief salesman. Dan is perhaps more widely known on the cattle markets and throughout Ontario than almost any other man in the business. His word in a trade deal is acceptable to all those with whom he has had transactions in the many years in which he has been in business, and he is undoubtedly a valuable accessory to the firm of Coughlin & Co.

As an illustration of the business transactions of this firm, the following list of entries for the Live Stock Show at the Union Stock Yards, to be held to-day, bears testimony:

essentially towards consolidating international relations. "England, as you know, has already expressed the idea at The Hague conference. Since then England has referred repeatedly to the idea, without, however, making propositions which could have been either positively accepted or rejected. We likewise, concur with the desire, cherished by England of avoiding rivalry in armaments, but from the informal pour parlers conducted in a friendly spirit, we have always laid away as a fundamental idea, that an open and confident exchange of views, followed by an understanding on the mutual economical and political interests of the two countries, would be the best means of removing any distrust arising from the comparative strength of their armies and navies. "The very continuance of such an exchange of views gives evidence of either side, and it may gradually remove the distrust which is felt, not between the two governments, but unhappily often in public opinion."

Murray's Dandies. Dandies' Association on Friday evening next in Room 9, King Edward Hotel.

# RICE & WHALEY

A firm of international repute is that of Messrs. Rice & Whaley, who have an important business at the Union Stock Yards, also at Buffalo and at Winnipeg.

Mr. Bert Whaley, the junior member of the firm, was practically raised on the Buffalo market, his father having spent many years in the live stock yards at that point, and thereby giving his son an education in the live stock business, which he has used to exceptional advantage and brought credit to his tutor. The firm was originally formed as long back as 1880, and has continued to grow since that time.

Messrs. Rice & Whaley are widely known throughout the world's cattle markets, being exporters to the United States, to Europe, and having a large business with the other leading centres in the Dominion of Canada. During the year the firm handled thousands of all classes of live stock, most of which they receive on consignment from drovers throughout the country. The gradual increase in business is a sure sign of the satisfaction of their patrons.

They also conduct buying orders for farmers and others who are on the market, and make strong efforts to carry out in the most satisfactory way any orders which are entrusted to their care.

As business assistants on this market, the firm employs Messrs. John Black and David Robertson. Messrs. Black and Robertson have been raised in the business in which they are now engaged, and have been with the firm from the opening of their business in this market.

List of entries consigned to Rice & Whaley, to be exhibited at the Union Stock Yards for the Fat Stock Show on Dec. 12 and 13:

LAROSE DIVIDEND. The La Rose Mining Company directors decided Saturday not to increase the dividend, which is now 8 per cent. It was reported that the output for December was 4000 ounces of silver. Everything is looking splendid on the property.

Snow Obstructed Trains. Saturday nearly all the trains were delayed by snow and both the C.P.R. and G.T.R. were busy despatching snowplows and auxiliaries on the different branch lines through the province. The G.T.R. Hamilton and Chicago trains were both several hours late, and the C.P.R. train No. 94 from Winnipeg, was snowbound for nearly two hours west of Sudbury. By yesterday the lines were cleared and all trains arrived in the city on time.

A Few More Overcoats at \$8.85

Hundreds of satisfied men left this store Saturday with overcoats worth double what they paid for them. But it's quite a contract to sell a thousand overcoats in one mid-December day. There were a hundred or so completely overlooked by customers and salespeople alike. These are the ones we want to show men to-morrow. They're mostly Chesterfields, in imported tweeds of grey and black, and plain black chevrons and meltons, with velvet collars. All sizes 34 to 44. Only 125 in the lot, offered to-morrow at \$8.85.

"What Has Become of Last Year's Snow?"

If Francois Villon had lived in "New France," instead of old, he probably would be more interested in this year's snow—the snow that hasn't come yet in any great quantity, but which is surely on the way. Remember that this year's snow will probably go through last year's rubbers (if you're unlucky enough to find them) as if they were last year's birds' nests. So be warned in time, and buy your Rubbers for this year here to-morrow, the prices are the best ever.

RUBBER FOOTWEAR.

2,000 pairs Rubbers, made in one of the best Canadian factories; the brand on the sole is noted for "long wear"; good solid rubber heels, extra thick where the wear comes; to fit Cuban and low heeled shoes; all sizes for everybody. Telephone orders filled.

MEN'S CHRISTMAS SLIPPERS.

The word "slippers" suggests comfort. It brings up to your mind images of quiet after-dinner smokes, before a blazing hearth fire with a winter's storm raging outside. Treat yourself this Christmas to the luxury of a pair. Or perhaps a gentle hint to other members of the family will bring results.

1,000 pairs Men's House Slippers, Everet, opera and Romeo styles, made from black and chocolate, fine, strong, even grain kid leather, hand turned flexible leather soles, low heel, neat looking styles, each pair in a box; all sizes 5 to 11, regular values to \$2.25 on sale Tuesday, \$1.49.
