THAW'S SEARCH IN VAIN WHITE'S CONDUCT GOOD

Detectives Employed by Murderer Report That Victim Has Been Maligned.

New York, July 4.—If Stamford White had committed any grave impropriety within the last year and a half of his life, or if he could have been induced to make any serious error, there were almost always detectives at his heels anxious to find an opportunity to denounce him.

All the reports that the men watching him made indicate that his conduct was singularly good and that his memory has been maligned for the purpose of helping the man who killed him.

Harry K. Thaw's lawyers and friends now admit that he had no immediate motive for the killing and that there has been little basis for the stories in circulation.

Furthermore, it is believed that Thaw's watch on White began after Thaw's wife, then Miss Nesbit, had made certain charges against Thaw and put these charges in the form of an affidavit as the basis of a suit. This threatened suit is said to have been compromised, and Thaw subsequently married Miss Nesbit. But Thaw always believed that White had instigated the whole matter, and there is evidence to show that he has attempted to get evidence against White followed soon after the time Thaw is said to have settled the suit.

Counsel for Harry Kendall Thaw, after going over all the evidence in their possession, yesterday decided on a new and definite plan of defence—that of brooding insanity—and mapped out the line of action that will be followed at his trial for the murder of Stamford White.

In order to establish that Thaw is a victim of this brooding, the testimony of his relatives, including his mother, who first heard of the tragedy on her arrival in England, will be employed, and the whole story of the young man's mental condition since he first became insane at White will be told by relatives and friends.

Mushroom Makes a Bushel. Boston, July 4.—One of the finest specimens of the sulphur mushroom seen in Boston in a long time was the most interesting course of a lunch here at the Hotel Marlborough, a member of the Mycological Club.

The mushroom, one-half of which filled a two peck basket, was raised by Mr. Smart at his Winchester home, where it grew on the roots of an enormous oak tree, taking about two weeks to grow. It was a beautiful pink in color and the texture and flavor were all that could be desired.

Lady Minto Was First. In the "single horse and outfit" class at the Open Air Horse Show on Monday, open to hatters, furriers, haberdashers, tailors and jewelers, the first honors were won by Lady Minto, J.W. T. Fairweather, owner, with "Flashlight second and Golden Rod third. The World said Golden Rod won first.

INSPECT COAL OIL INLET BOARD FINDS NUISANCES

Police Commissioners Forbid the Force Doing Duty Outside City Limits.

Hamilton, July 4.—(Special.)—The provincial board of health visited the city this afternoon and inspected the coal oil inlet and the vicinity. To-night the board met and passed a resolution saying that they desired to state that several nuisances existed in and about the inlet as well as in certain factories or works in the vicinity. Before deciding upon the best method of doing away with those nuisances, the board wants to secure more information and a special committee was named to get that information. The board reaffirmed its decision with reference to the storm sewer on Roncevalles-avenue, Toronto.

Scott Conclusions. Charles Scott, the youth who shot himself Monday night, regained consciousness to-day, and the doctors look for his recovery. Robert Faulka, who was injured by jumping off a radial car Saturday afternoon, is still unconscious.

James M. Hamilton, 721 East Barton-street, was arrested this evening on the charge of threatening to shoot George H. Workman.

The police commissioners issued instructions to the members of the force to-day, to the effect that the board required them to give attention to their duties in the city, and that they had no right to do duty at the Hamilton Jockey Club grounds, or other points outside the city, and no right to force their way into places of amusement without paying an admission fee. This ruling was brought out by the charges laid against Constables Springer and Robinson. Springer forced his way into the Jockey Club grounds and Robinson refused to help the gatekeeper. The commissioners told the officers that they had no right to do duty as constables at the track.

CAVE-IN ON C.N.R. One Man Gets Broken Leg and Another is Covered by Sand.

Port Arthur, July 4.—(Special.)—A cave-in occurred at the Rossmore pit on the C.N.R. this afternoon. One man had his leg broken and another was buried under the falling sand, but escaped.

Arthur Black, a laborer, was engaged in breaking down the bank when the whole mass suddenly gave away, completely burying him.

In his hurry to rescue the buried man, the man in charge of the steam shovel swung the dipper around, not noticing Saunders, his assistant, who was standing near the dipper. The shovel struck Saunders, breaking his leg.

Black was uncovered within a few minutes. Both men were brought to the hospital, where it was found that Black had suffered no serious injury, and will be around in a day or two.

Manager McEwen of the St. Anthony Reef Mine brought in the June clean-up of the ten-stamp mill, amounting to \$400, today. A concentrating plant has been installed, and hereafter concentrates will be treated, which means that the monthly output will amount to \$700 to \$800.

BRANT COUNTY'S DEBT. Court House and Jail Debentures Are Wiped Out.

Brantford, July 4.—(Special.)—County Treasurer Hamilton paid off \$30,000 of the debt incurred twenty years ago for the erection of the court house and jail. This is a reduction of \$70,000 on the debt in two years, and if the policy of keeping up the sinking fund now being carried out by the county council, on the suggestion of the treasurer, is continued, the county will be free from all debt by the end of 1912, and after that date a reduction of nearly \$20,000 can be made in the county rate.

MISS BUTTON WHO DROWNED

No Other Cause Can Be Assigned - Was School Teacher on Her Way Home

Thru the description given in yesterday's World of the body of the young woman found floating in the bay on Tuesday evening, Charles Burton, clerk of the Township of Cullross, hastened to Toronto and yesterday afternoon identified the body as that of his daughter, Miss Mae Burton.

Miss Burton had been teaching school at Gordon Lake, Algoma. She had written to her parents in Tesswater that she would reach Toronto at 6.30 on Saturday morning, making connection with her home-bound train at 8.30, and arriving at Tesswater the same day.

Coroner Orr issued a warrant for an inquest to be held on Friday morning, but it is understood the warrant will be withdrawn, and the father will take the body home to-day.

Miss Burton was 27 years of age, and was the eldest of five children. As far as the parents know, she was in good health and with no special account to account for the accident. It is supposed, however, that upon arriving at the depot, she had breakfasted, and, having some time to wait for the train, she strolled along the wharf, and, stumbling, fell into the water; or, having stepped all night, and possibly being drowsy, sat down on a pile of boards, lapsed into sleep and fell over and into the bay.

The inquest held last night into the death of Angus Macleod, a young Scotchman, who, with a party of friends, were on a pleasure trip on Saturday last, and who met death during the return trip, resulted in the verdict that Macleod's death was due to the morning of July 3 by falling from a Grand Trunk express train between Parkdale and Toronto.

McKevley Inquest. Coroner Wilson opened an inquest into the death of Swansen, who was killed at Sunnyside crossing on Tuesday night, at the morgue last night. The evidence of Dr. Macleod, who was called, was taken. He had seen McKevley last alive on Monday night at his place, McKevley was a man of medium height, and was industrious. He was born in Ireland.

The jury then adjourned, to meet in No. 6 police station on Tuesday, July 11, when further evidence will be given. Identification was made yesterday morning.

CIGARETTES WORSE THAN MEAT. America's Worst Export to Britain is at Last Discovered. London, July 4.—Edward Page Gaston of Chicago testified before the select committee of the house of commons on juvenile smoking that the worst article America sent to Great Britain was the American cigarette. It was worse, he said, than Chicago tinned meat.

Earl Beauchamp, chairman of the committee, closely questioned Mr. Gaston regarding the proposition that Canada laws against the sale of tobacco to minors. Mr. Gaston said that nearly one-fourth of the population of the United States were under 16 years of age, and living under anti-cigarette legislation.

The proposed British bill, which provides that the house of lords should order a fine of \$5 for the first offence in supplying tobacco to minors, \$10 for a second offence, and the revocation of the offender's license on a third conviction.

Chicago, July 4.—Members of the Gaston family have been active in the fight against cigarettes for many years. Mr. Gaston's sister, Miss Lucy Page Gaston, is the present superintendent of the Anti-Cigarette League. Miss Gaston has conducted a fight against the use and sale of cigarettes for the last fifteen years.

ELECTION RASCALITY. Lunenburg, N. S., July 3.—(Special.)—Disclosures were made during the account, held here by Sheriff Creighton, at the instance of the Liberal-Conservative candidate, Larder and Marshall, who contested the recent local election. Larder, 2031, Marshall 2147, Mader 2274, March 2254. The Liberal majority is thus cut down by about thirty.

Some of the irregularities were stated this morning after March and Mader were declared elected, although some of the worst are being withheld until action for a protest is begun. The contest was advertised that with a combination of sawdust and "potatoes," the latter selling for \$4.50 a bushel, as the potatoes could be raised in a ten feet wide and 100 feet long in 60 days in an acre of ground in an ordinary season. The potatoes were marked by the company at \$25 a season.

ABATTOIRS VERY DIRTY.

Brantford's M.H.O. Finds Conditions That Are Unpleasant.

Brantford, July 4.—"In filthy condition," was the phrase used to-day by Dr. Pearson in describing the slaughter-houses around the city. He has completed a tour of inspection of the houses, during which he made discoveries which were far from pleasant. The doctor stated that the slaughter-houses visited were all found to be in a very dirty condition. They were not kept in anything like a sanitary state and the refuse was allowed to remain around too long.

"Would that have had effect on the meat," he was asked. "It certainly could not have a good effect," was the answer. As a result of the inspection Dr. Pearson has issued orders to all the slaughter-house proprietors to keep their establishments in better condition in future. If this injunction is not followed out, he will be trouble in store for the meat dealers.

DICKERING WITH C.T.R. FOR ENTRANCE TO CITY. James Bay Railway Will Be Ready For Business In A Month or So.

The Canadian Northern Railway will begin active traffic operations in and out of Toronto within the next month or six weeks, or the expectations of General Manager C. W. Spencer will fall of fulfillment.

Mr. Spencer arrived in the city yesterday from Montreal, and will remain here for a day or two. "I am only here on routine business," he explained.

When asked when the road would begin actual work, he estimated that it was expected that arrangements could be made that would allow of a start in a month or thereabout. As to just what those arrangements are, the general manager has not a word to say, beyond the fact that negotiations with the Union Station, with all the details of the road, will be completed by any publicity being given to them at this stage.

It is said that the Canadian Northern has practically made a deal with the C. P. R. for the use of its tracks for entering the Union Station, with all the details of the road, will be completed by any publicity being given to them at this stage.

"Better guess again," returned Mr. Spencer, generally, and turned to a mass of correspondence lying on the table before him. The G. T. R. lines are also available, and would give equal facility to the C. N. R. for an entrance from the Don Brick Works.

Third Vice-President Hanna said he knew nothing of the plans, but he would be glad to be of any service in having engines ready. Twelve of them would be brought down from the Toronto shops, and a number of them would be ready to be turned out of the works.

MAY BE THE FILM-FLAM MAN. George Foster in the Tolls as a Suspicious Character. George Foster is the name given by a young man locked up by Detective Tipton last night. That is about all the police know about him, but he answers the description of one of the "working" crooks that have been "working" the city for the past few weeks.

He may be the man who has been doing the film-flam game. Those who know him would be glad to have an opportunity to look him over this morning, without his hat and coat.

He also resembles the man who was named "Red" at the depot. He had \$160 on him, some \$5 Sovereign Bank bills, the same kind that Rae lost.

He refused to give any account of himself to the police. He had a gold watch with the initials "G. F." and his hat bore the letters "M. A."

DOBSON IS ARRESTED. Accused of Theft From Orange Lodge—A Fire Inquest. John William Dobson, the man who took the Baron Munchausen tale to the police, of having been bound, gagged and robbed by bold burglars, was locked up yesterday on the charge of stealing \$135 from Orange Lodge No. 555, of which he was treasurer. Crown Attorney Drayton has decided to hold a fire inquest, and Dobson may have to answer to a charge of arson.

Mutual Reserve in England. London, July 4.—Questioned in the House of Commons as to what security there was for the policyholders of the Mutual Reserve Life Insurance Company of New York, which recently closed its British offices, the president of the board of trade, Mr. Lloyd-George, said that the sum of \$100,000 deposited here by the company in 1886 had been withdrawn in January, last by permission of the court of chancery.

The president of the board of trade said that the whole question of foreign insurance companies was now under consideration by a committee of the house of lords, and he hoped soon to get their report.

Stops Vineless Potatoes. Washington, July 4.—The postoffice department issued to-day a fraud order against W. D. Dart and the "Vineless Potato Company" of Chicago. It was advertised that with a combination of sawdust and "potatoes," the latter selling for \$4.50 a bushel, as the potatoes could be raised in a ten feet wide and 100 feet long in 60 days in an acre of ground in an ordinary season. The potatoes were marked by the company at \$25 a season.

ANA-TORONTOISES AWICED

Toronto Aldermen Go to Ambitious City, See and Confer.

Not very long ago the Hamilton aldermen administered defeat to the Toronto civic fathers at an unfriendly game of baseball in Toronto. There is a precedent for this, for did not David once put Goliath to the mat. The recent event, however, was an inter-city matter that needed some trifling correction. On the 1st inst., the Toronto City Council, numerous Toronto aldermen went to the Ambitious City yesterday and sighted the former mistake. They took the Hamiltonians into camp, and left late last night for Toronto, full of satisfaction and good food.

The contest took place behind closed doors. Not on account of bashfulness, but owing to wet grounds. It was held in the arms of the 14th Regiment, and other Hamilton soldiers. Around the walls were fitted along several ambulance wagons of the medical corps. The game was played with a big ball, but did not have the powers of resistance which characterize the real baseball. It was the Toronto men who by 12 to 11. The score might have been different if the Hamiltonians had not placed their hits in the local city covered by Mayor Coatsworth. His words were the call player, and he trotted a diamond. He couldn't stop a clock hit a ball. The only reason they play, but he is a great spectator, and knows what to show other spectators the hospitality department of the armory, which is the 13th Regiment's mess. Watched the game, and he was a frequent visitor to the first-aid bureau. Some of the Hamiltonians looked after him as religiously as if it was a new law.

Good Hosts. When the Hamilton men came to Toronto about a month ago, it was made to see that they were comfortable, even if it was in a manner. The Hamiltonians did not have the hammer out, and up some of the fixed things, but with the torrents of unrelenting rain, they could not make the visitors think anything of a couple of dozen arrived on the C. P. R. early in the morning. The Hamiltonians, Col. Moolie, Frank Walker and other things, citizens had the cars there, and their best to make the visitors think anything of a couple of dozen arrived on the C. P. R. early in the morning. The Hamiltonians, Col. Moolie, Frank Walker and other things, citizens had the cars there, and their best to make the visitors think anything of a couple of dozen arrived on the C. P. R. early in the morning.

After the Ball. When it was decided to play the game in the armory, the Hamilton Reception Committee was waiting at the dock with the boat. As the boat was ready to be sent for, while the game progressed in the armory the sun shone, and was called after all the returns were in it started to rain again. Some of the Hamiltonians, who had ridden down to Burlington Beach, married somewhat by the rain which only made the situation of the party got to the Beach on the Acacia. The Hamiltonians, Col. Moolie, Frank Walker and other things, citizens had the cars there, and their best to make the visitors think anything of a couple of dozen arrived on the C. P. R. early in the morning.

Barrow, Please Note. But to revert to that ball game. It was unlike other ball games in more respects than one. It was not a game of skill, but a game of chance. The Hamiltonians did not have the hammer out, and up some of the fixed things, but with the torrents of unrelenting rain, they could not make the visitors think anything of a couple of dozen arrived on the C. P. R. early in the morning.

NO MAN IS STRONGER THAN HIS STOMACH. Let the greatest of heroes have dyspepsia and his muscles will soon fall. Physical strength is derived from food. If a man does not eat properly, he will not be strong. If he has no food to eat, he will not be strong. If he has no food to eat, he will not be strong. If he has no food to eat, he will not be strong.

TEXAS FACES WATER FAMINE. Subterranean Disturbances Have Affected Artesian Wells. Galveston, July 4.—Southern Texas is threatened with a water famine due to a sudden decrease in the flow of the artesian wells. Galveston is supplied with fresh water from thirty wells located eighteen miles inland. When the wells began to dry up the city installed a \$25,000 pumping plant, but the water supply was not increased. The same conditions apply over the Texas coast country.

HOW TO BE A CENTENARIAN. New York, July 4.—"Drink plenty of good beer, and eat what you like." "Don't think too much." "Smoke all you want to and never stop." "Do everything regularly and never in excess." "Play with children one hour a day." Faithful observance of these rules is the reason Joseph Zetlin, who to-day celebrated his 101st birthday, gives for his long life. In celebration of his birthday he smoked a few extra cigars, and did not otherwise deviate from his "routine" of life.

A STRIKE ON THE TURBINA.

Firemen Wanted More Money and Delayed Steamer.

There is some serious trouble existing amongst the crew of the steamship Turbina, and as a result the boat did not get in from Hamilton until nearly 1.30 this morning. Mayor Coatsworth and a number of the Toronto aldermen were among the passengers, and there were several anxious people on the wharf waiting for friends. The Turbina was late arriving at Hamilton on her last trip west. The firemen were airing a grievance and some trouble was also experienced in regard to handling the freight. The steamer went up town. They wanted more wages, less work and better food. The manager acquiesced them by promising the increased wage, and it was after 10 o'clock when the boat left for Toronto and made a splendid run. The dissatisfaction among the crew is of several days' duration, and it is difficult to get that class of labor.

LOVING HARMONIOUS BODY SHAME TO DISTURB SENATE. Messrs. Power and Ross Defend Existence of Canada's Upper Chamber.

Ottawa, July 4.—(Special.)—In the senate to-night, Mr. Power of Halifax continued the debate on senate reform. There had been no question as to the desirability of the second chamber until Senator Ellis was heard from in the debate. He had declared the present system inconsistent with popular government, and predicted all second chambers would one day disappear.

Senator Power thought Senator Ellis' view of responsible government was incorrect. History showed that England no Liberal government in a century had the majority in the house of lords. For several years the Canadian government had had a poor majority in the senate. On the whole, England and Canada had been well governed. When the upper house was not elected, the chief of police has received a telegram from Buffalo asking that the relatives of Frank B. Rowland, a marine fireman, who is dead there, be notified.

There will be a special meeting of the senate of the university to-day to receive the results of the recent examination of which they will be immediately published. Justice Clute has given judgment for the case of A. S. Allan against J. A. McLean and the Trust Co., in the action of the plaintiff to set aside a \$10,000 mortgage of \$500. Rev. Melvin E. Foster of Grand Rapids, Mich., and the Alexandra Choir of 600 voices will conduct a series of meetings at the Metropolitan Hotel, on Saturday, Sunday and Monday evening.

A widow, three weeks out from England, has applied to the city relief officer for assistance for her two boys, who are under 16. He cannot be admitted at Grand Haven owing to his age, and will likely have to remain at the city relief office. Have you ever been at Colours? It is the finest summer town in Canada—just a grand spot for a summer outing. You should see it. The money will be paid in full. Whenever a vacancy occurred it should be filled by the election of a senator for life by the people. This would provide representation, independence, and a good class of men. A man would have to be a man of high character to be elected. Under this system the senate would be very independent and very popular.

Senator Ross of Nova Scotia thought Canada would agree to a one-chamber parliament. He was opposed to a senate elected by provinces. There would never be the same sort of a man under that system. At the present time the senate was a loving, harmonious body. It would be a shame to disturb it.

BIRTHDAY DINNER TO HORSE. Miss Curtis' Pet Does Tricks in Parlor and Sits at Dining Table. Great Barrington, Mass., July 4.—Miss Sophie Curtis, of No. 46 West 40th street, New York, gave a dinner party at her summer home, The Pines, in Sheffield, in honor of her pet horse, Invincible. Invincible has been issued to New York and Berkshire society people. At a nod from his mistress Sophie Curtis, a poem of greetings was presented to the horse. The horse was decorated with gold and silver ribbons, and a crown of flowers. The house and table were elaborately decorated with gold and silver. The occasion, on the centre of the table was a birthday cake, surrounded by seven lighted candles. The guests of the luncheon, E. B. Glenn, in rhyme, presented Sophie with these gifts in remembrance of his birthday. From Mrs. Curtis a yellow and green blanket, embroidered with gold braid, with the name Sophie worked on the centerpiece; from Mrs. E. E. Kidder, a silver vase filled with flowers; from Mrs. B. B. Glenn, a cut glass bonbon dish filled with loaf sugar; from Mr. and Mrs. Kidder, a string of sugar plums; from Mrs. Taft, a poem of greetings, and a silver tray with a silver vase filled with flowers. At the call of Miss Curtis he bows, says yes or no, lies or sits down, as directed.

At the close of the party the horse bowed to each of the guests and trotted out of the house to his quarters, in the stables near the latter was a number of blue ribbons at horse shows and at Berkshire County fairs. He was raised and trained by Miss Curtis.

\$5000 REWARD IS OFFERED FOR MAN WHO WAS IN CITY

An Erie, Pa., Detective Is Here Searching For Missing Business Man.

Detective Gallagher of Erie, Pa., is in Toronto looking for Michael Liebel, a business man of that town. Liebel disappeared on May 25. He is supposed to have been in Toronto on May 28. He has been suffering from nervous trouble for some time. His friends are offering a reward of \$5000 for his recovery, alive, or a substantial reward for his body. He is 33 years of age, black hair and moustache, slight build, with green coat and crossed. He weighs about 180 lbs. and is 5 ft. tall.

LOCAL TOPICS. The education board will meet to-night. Thomas Berry, for seven years a guard on the fall, has resigned. W. H. Knowlton has presented Riverside Zoo with two Canadian lynxes. Robert Morrison, aged 60, of 95 William street, was locked up yesterday on a serious charge. A boat found floating in the lake is seen to be carrying a high pressure air system within a month. Parkdale L.O.L., No. 207's, annual moonlight excursion on steamer Turbina, Lubar's orchestra. The regular monthly meeting of the modern Canadian Passenger Association will be held in Montreal on July 10. The illustrated lecture of J. W. Bengough, which was to have been delivered at the Toronto Club this evening, has been indefinitely postponed.

A. W. Johnston of Sorrento-avenue is running the city for \$200 for a food bill, due, he alleges, to negligence on the part of the corporation. A salary of 200 yards of four-inch galvanized wire was made in Coatsworth's Cut early yesterday. There were 14 good-sized pipes to be cut. The chief of police has received a telegram from Buffalo asking that the relatives of Frank B. Rowland, a marine fireman, who is dead there, be notified.

CRICKET AT MIMICO.

Asylum Has Unbeaten Record to Date—Schedule of Games.

Dr. Beemer's Asylum cricketers have proven themselves so far this season the strongest team in Toronto, with an unbeaten record up to date.

Following are the remaining games to be played at the Asylum: July 10—St. Albans. July 16—Parkdale. July 25—St. Catharines.

The eleven consists of the resident doctors, guards, gardeners and attendants and occasionally a convalescing patient.

All clubs are most hospitably treated at the asylum, which boasts of probably the best cricket field in the country.

Not only was the rowing talent surprised at the downfall of the Argonauts in the semi-final yesterday at Henley, but citizens generally were disappointed, as it looked the chance of a lifetime to lift the Grand Challenge.

Good Scoring at Montreal. Montreal, July 4.—A victory for the local eleven was the result of the McGill-Ottawa cricket match, played on the McGill grounds.

W. W. Wright, c Paris, b Livingston 10. R. H. Leighton, b Marsden 10. Mossman, b Livingston 10.

Not on the List. Ottawa, July 4.—Hon. Sydney Fisher told the house today that Moberley, the Saskatchewan half-staffer, was not on the list as a census enumerator.

Caer Howell vs. Thlaties. A friendly match was played yesterday on Caer Howell lawn between the above clubs.

Woodstock Wants Soldiers. Woodstock, July 4.—Woodstock wants a city regiment.

ARGONAUTS OUT OF IT BEATEN BY TRINITY HALL

Belgians Beat Third Trinity and Will Row Final To-Day—Henley Gossip.

Henley-on-the-Thames, July 4.—(C.A.E.)—Trinity Hall beat Argos half a length in the time of 1:50. From the start to the finish it was a magnificent race, nip-and-tuck all the way.

Wright at the start rowed 41, and never got lower than 38, but stroke side was too strong. Wright has no excuses whatever for the defeat.

This puts the Argonauts finally out of the contest for the Ontario Mill, Iron Co. C.C. Belgians beat Third Trinity easily by two lengths in the time of 1:03.

DEMAND EFFICIENCY.

Dr. Goldwin Smith, in a letter to a Labor Friend, says: "The fight of an artisan to a living wage cannot be ascertained unless value in labor is given for the wage."

Without desiring to leave a loophole for controversy, we can safely say that the proposition is a sound one, and applies not only to skilled labor, but also to unskilled labor; not only to those who labor with the hand, but also to those who labor with the brain. It is the law of efficiency partially explained.

The board of governors of Toronto University will do well to weigh its wisdom and apply it to the staff of the university. Ontario can afford to pay her university professors a living wage, and is prepared to do so.

But, in return, she must demand that "value in labor" is given for the wage. The rake of efficiency must be drawn through the staff, and the wheat separated from the chaff. What will be done with the chaff must rest with the board of governors and the president, always holding in mind, however, that public opinion declines no harshness. Professors who fall below the line of efficiency may be offered less exalted positions at reduced salaries, or some sort of pension scheme may be evolved. This is a matter of detail that will be worked out as the good-will of the people.

The same revolt has inspired the independent movement in Canada. At the annual convention of the National-Independent Telephone Association held last week Dr. J. F. Demers, general manager of the Bellechasse Telephone Company of the Province of Quebec, stated that in that province there were twelve independent companies, with a total capital invested of about \$1,000,000 and 7000 subscribers. Others who spoke for Canada were A. Hoover, president, and A. F. Wilson, secretary of the Canadian Independent Telephone Association, the latter of whom stated to the convention that Ontario has now over sixty independent systems and that independent companies were growing by leaps and bounds. "Finding," he said, "there was no prospect for government ownership, we went ahead for an independent long-distance company. After six weeks in the legislature, against every possible opposition, we got our charter. I think in three weeks we will be working, and then we will have one of the hottest fights known to the Dominion."

Speaking on the same subject Mr. Dagher referred to the movements in Manitoba, Alberta and Saskatchewan for the establishment of provincial long-distance systems. "In the older provinces," he remarked, "only the possession of the toll lines permits it (the Bell Company) to retain its hold of the local business, and if the expressed will of the people was carried into effect, the Dominion government would acquire the 'Bell' long-distance system without delay." The Dominion government is, however, too anxious to maintain the Bell monopoly, at the expense of the public interest and convenience, to have regard to the call of the farmers for telephone facilities. It refused to sanction the use by independent competing companies of the trunk lines, even though sufficient compensation was paid and notwithstanding the fact that the establishment of these companies was directly due to the extortionate charges of the Bell Company. It also approved the increase of that company's capital by \$20,000,000 without securing that the full value of the new stock would be got.

INDEPENDENT TELEPHONES.

Now that the Dominion government has turned down the proposal to nationalize the telephone services of Canada and has done its best to strengthen and perpetuate the practical monopoly so largely enjoyed by the Bell Telephone Company, the attention of the people must be directed more determinedly to the necessity and value of local independent companies. During the debates in the house of commons, great stress was laid by the supporters of the Bell Company on the argument that only a private monopoly could give the best service. This contention is of course absolutely disproved by the history of that company and of similar companies in other countries. It is an incontrovertible proposition that had the Bell companies in the United States and Canada recognized fairly their obligations to the people in the matter of providing a cheap and universal service, the existing antagonism in their ways and methods would not have developed, nor would it have resulted in the establishment of so many local independent companies, designed to supply what the Bell companies had refused.

At the first annual convention of the Illinois Independent Telephone Association, held recently at Peoria, Ill., a notable paper was read by Mr. F. Dagher, who acted as telephone expert to the Dominion House of Commons Select Committee on Telephone Systems. In it he considered the relative merits of telephone competition and monopoly and made particular reference to all the European countries where the telephone service is operated as a monopoly, whether government or corporation. The conclusion which he drew from his survey of the situation in these countries and in other parts of the civilized world was that development of the telephone business cannot be looked for under any system of monopoly. This judgment, however, may be too arbitrary, since it is quite possible for a state system of telephones to be conducted with as much public convenience and benefit and as efficiently as the state telegraphs of Britain, a service unsurpassed in these respects.

Few people realize the extraordinary development of independent telephones in the United States. In Mr. Dagher's words, "to have built up a business aggregating two and a half million telephones, representing an investment approximating \$250,000,000, within the last eleven years, is an achievement almost without parallel in the history of commerce and invention. No better guarantee," he proceeds, "than this is necessary to demonstrate that this independent movement has come to stay and that the telephone service of the future will be dominated by the supporters of that movement." The success of the independent telephone movement Mr. Dagher ascribes in part to the fact that "the Bell monopoly has by its greed and arrogance in the past forfeited the good-will of the people."

The same revolt has inspired the independent movement in Canada. At the annual convention of the National-Independent Telephone Association held last week Dr. J. F. Demers, general manager of the Bellechasse Telephone Company of the Province of Quebec, stated that in that province there were twelve independent companies, with a total capital invested of about \$1,000,000 and 7000 subscribers. Others who spoke for Canada were A. Hoover, president, and A. F. Wilson, secretary of the Canadian Independent Telephone Association, the latter of whom stated to the convention that Ontario has now over sixty independent systems and that independent companies were growing by leaps and bounds. "Finding," he said, "there was no prospect for government ownership, we went ahead for an independent long-distance company. After six weeks in the legislature, against every possible opposition, we got our charter. I think in three weeks we will be working, and then we will have one of the hottest fights known to the Dominion."

Speaking on the same subject Mr. Dagher referred to the movements in Manitoba, Alberta and Saskatchewan for the establishment of provincial long-distance systems. "In the older provinces," he remarked, "only the possession of the toll lines permits it (the Bell Company) to retain its hold of the local business, and if the expressed will of the people was carried into effect, the Dominion government would acquire the 'Bell' long-distance system without delay." The Dominion government is, however, too anxious to maintain the Bell monopoly, at the expense of the public interest and convenience, to have regard to the call of the farmers for telephone facilities. It refused to sanction the use by independent competing companies of the trunk lines, even though sufficient compensation was paid and notwithstanding the fact that the establishment of these companies was directly due to the extortionate charges of the Bell Company. It also approved the increase of that company's capital by \$20,000,000 without securing that the full value of the new stock would be got.

CONTROLLERS AND COMMISSIONER.

Whether the proposal to appoint a commissioner of industries for the city be right or wrong, it is surely of sufficient importance to warrant serious treatment. More especially is this the case when it comes before the board of control on the recommendation of the city council, and backed by the approval of prominent citizens, who have indicated in the most satisfactory way possible that in their judgment a department of the nature proposed is calculated to add largely to the prosperity and growth of the city. In a really businesslike manner, the board of control appears to regard it as an opportunity to exhibit themselves to the least possible advantage.

There is no element of hostility to other cities and towns in the appointment of a commissioner of industries. But it is an honorable ambition that Toronto should remain in the van of Canadian progress, and should be prepared to welcome enquiries and to render every possible assistance to manufacturers and others desirous of establishing themselves in Ontario. It is only a matter of common prudence to have in the city a bureau where all necessary information can be made forthcoming when it is asked, and whose head can keep himself in touch with all industrial movements in this connection. Those who are busy proposing changes for the post are admitting that, in their view, it should be filled. It is not an impossible task to form a clear idea of the qualifications necessary and to ascertain who can best meet them. If the board cannot do this, better do nothing than repeat the exhibition of yesterday.

Editor World: I see that you have been instituting a campaign for the thorough inspection of our meat supply. I am in perfect sympathy with this move, and all my friends, who hummer many hundreds, think as I do. But there is another matter that the World should look into with our meat supply, and that is the restaurant and luncheon rooms of this city. It is my experience, gained from long years of eating a meal down town, that with the exception of one place, it is almost impossible to get a respectable meal promptly served under 75 cents. In most of the restaurants and lunch rooms the stews and soups are so laden with a composite odor of all the things being cooked and washed in the kitchen that only a hardened constitution can stand it. Are these places ever inspected? Is it possible that a half-cent meal taken from the table by the waiter is perhaps served up the same day in another form to somebody else? INTERNATIONAL COURTESIES.

Lincoln, Neb., July 4.—Miss Anna Tompsett of 630 South Twelfth-street to-day hosted a British flag over her roof.

The accents for these supplies had been passed by the late auditor-general, Mr. Fraser made a personal visit to Quebec to ascertain the goods purchased for the Montcalm and Champlain had not actually found their way on board. The goods, however, were there all right.

Col. Gougeon, deputy-minister of marine, declared that it had been the department's intention for years back to purchase the best quality of silver for the larger government boats. The reason for this was that visitors were frequently entertained on the boats on one occasion at least the governor-general had made a trip on the Montcalm. As to the prices paid for the goods he had submitted samples to jewelers, who said that if purchased in Canada, they would have cost 10 per cent. more than was actually paid to Coughlin.

George Taylor, the Conservative whip, asked if Mr. Coughlin had not been an applicant for one of the vacant senatorships, and was given this order as a sop to soothe his disappointment when the senatorship went to Mr. Coughlin. The witness, however, had never heard anything about Mr. Coughlin and the senatorship.

THE CASE OF PRESTON. Hamilton Herald (Ind.): It is undoubtedly the fact that the resolution of Mr. Monk, demanding the dismissal of W. T. R. Preston from the government service, is backed by Canadian public opinion. The more independent Liberals are ashamed of the apparent subservience of the government to this politician-official with a shady past. They feel that the prestige of the government and of the Liberal party has suffered through him. Probably the Laurier government would like to get rid of its commissioner if it could do so with safety. But at present such a course would be rather dangerous. As Liberal organizer for years past, and also, probably, in his official capacity as immigration commissioner, Mr. Preston has acquired so much inside information that it would be risky to incur his resentment by sending him adrift. No doubt Mr. Preston knows that he has no cause to fear the loss of his office and emoluments. The calm insolence with which he treated the Conservative members of parliament during the recent investigation indicated that he is sure of his position.

No Will, All to Girl Wife. Montreal, July 4.—John Morrison, who managed during a lifetime to amass probably one hundred and fifty thousand dollars, and who was run over and killed by a street car a few days ago, died without a will. Under a contract which was made when he married his girl-wife some years ago, the old man left the widow all he had.

SIX BORN ON SHIP. One Boy Solitaire, Twins and Triplets, Record of Grosser Kurfuert. New York July 4.—When the steamship Grosser Kurfuert, which reached here yesterday from Bremen, was off here yesterday from Bremen, a long-legged bird with long bill alighted on the main deck.

"Guess it must be an albatross," said a sailor. Pretty soon one of the stewards was running about the deck asking for the doctor and several stewards were going to the galley with hot water bottles to be filled.

Dr. Sticks was told that he was wanted in the stateroom of Mrs. Freidenberg, the doctor and when he came to the door he found the passenger list. The bird on the main trunk flew away to the northward.

"I guess it wasn't an albatross," remarked a passenger. The bird didn't show up again until early yesterday morning, while the ship was in the fog off the Hook, and it brought another bird with it.

This time the doctors were called to the cabin where Mrs. A. Cobham had over a boy and a girl were to be added to the cabin passengers were holding their heads high when they came down the gangplank and first cabin people were jeering at them.

The steerage had not been heard from. The Grosser Kurfuert was not been an applicant for one of the vacant senatorships, and was given this order as a sop to soothe his disappointment when the senatorship went to Mr. Coughlin. "WHARF" IN COW PASTURE.

Amusing Discussion in House Over Disraeli Bridge.

Ottawa, July 4. (Special)—The house went into supply this morning and devoted many hours to the estimates of the department of public works.

An item of \$750 to complete the Disraeli Wharf revived this familiar scandal. The so-called "wharf" is nothing more or less than a municipal bridge. The town is midway between Lake Aylmer and Black Creek, which are connected by a long, marshy depression, used as a cow pasture, and sometimes as a meadow in summer, but an amusing colloquy between Mr. Morin (Dorchester) and Mr. Tohn (Richmond and Wolfe).

W. F. Maclean (South York) suggested that it would be economic to present this bridge by deed of gift to the municipality. As it was, the government would be called upon to keep the so-called "wharf" in repair. He would not be at all surprised to see a wharf-inger appointed.

NEW NORMAL SCHOOLS.

Hamilton to Have One—Other Sites Yet Undecided.

Four new normal schools are to be built by the government very shortly. For this purpose it will be remembered that the sum of \$100,000 was included in the supplementary estimates. Hamilton may have one of the schools, if the city is willing, and of this there is no doubt. At present the normal college is located in rooms rented in the Hamilton Collegiate Institute, a government grant of \$4500 a year being made towards it.

On the establishment of the new normal schools, the normal college will be abolished, and a new building erected for the school. The county model schools will also be done away with and teachers will be enabled to take over permanent certificates under the new course. Toronto, London and Ottawa already have normal schools. Besides Hamilton, no definite decision has yet been arrived at for the location of the other three schools, but Peterboro, Chatham and Owen Sound have strong claims. Four more schools will be built next year.

APPEAL DISMISSED.

(Canadian Associated Press Cable), London, July 4.—By the privy council to-day the Whitley v. Joyce appeal was dismissed with costs.

This was an action taken by Whitley to recover from John Joyce \$2,000, 000, being par value of the stock of the Shawinigan Water and Power Company. The action is based on an alleged verbal agreement of partnership entered into in the year 1899. The respondent denied such an agreement.

RUSSIAN LOSSES IN WAR.

St. Petersburg, July 4.—The general staff issued to-day final statistics respecting the losses of the Russian armies during the war with Japan. They show that 318,700 men were killed and 115,885 wounded or contusioned. The number of missing is 37,497, and of prisoners of war 53,897.

WORKINGMEN AND SUBURBS MUCH DAMAGE TO CROPS

Storms of Past Few Weeks Have Left Their Bad Effects.

Councillor Lot Hartman of North York was in the city yesterday and stated that the heavy rainstorm of Wednesday morning had wrought considerable damage in the northern county. While fall wheat had withstood the terrific downpour fairly well, barley in many places was leveled with the ground. Oats, too, had suffered greatly, but this crop would in a measure recover itself. Hoing operations have been greatly delayed, and the outlook for this crop is not good, keeping down the weeds. In other parts of York County, where the land is not so rolling, even greater damage will, it is said, be caused by the flooding of low lands.

In Durham County incalculable loss has been indicated by a cloudburst, which ruined hundreds of tons of early mown hay, and leveled wheat and barley crops. On high sandy land the potatoes apparently suffered little, while low planted fields are practically ruined.

Toronto Junction.

Toronto Junction, July 4.—The funeral of Alfred Maton, the 11-year-old son of Wm. H. Maton, who was accidentally shot on Saturday last, will take place to-day at Prospect Cemetery. The town council will hold the regular monthly meeting on Thursday night, when the Black Freetholders held their regular monthly meeting to-night in Campbell's Hall.

A piano recital was given in the town hall last evening by Miss L. C. Huxley's pupils. It was well attended, and the proceeds (\$14) go to the Sick Children's Hospital. The entertainers were: Councillor W. J. Lawrence, Master Fred McLaughlin, Miss Alice Brown, Howard Gues, Miss Edwards, Perry, Edna Atkinson, Vera Rundle, M. Armstrong, Ruby Huxley, Amy Quinlan, Lillian Armstrong, Elsie Huxley, Myrtle Armstrong, Ethel Armstrong, Bessie Scriver, Edna Irish, Jane Shaver, Edna Perrin.

Illington.

At the regular monthly meeting of the Etobicoke Township Council, a resolution was passed to the effect that allowance between lots 21 and 22, on the 4th concession. The following motions were passed: That the bridge over the Mimico Creek be replanked; that the culvert on road division No. 43 be repaired, and also the culvert on road division No. 17. That an amount of \$100 be authorized to expend \$125 on Bathurst-street, Mimico, and also \$6 for a gravel walk from the station to the Windsor Hotel. The treasurer was instructed to pay W. J. Garhouse \$4, the price of a lamb killed by dogs on June 2. The clerk was instructed to call for tenders for filling the approach to the concrete bridge on the Scarlett-road. The sum of \$60 was granted to the Ontario Horticultural Exhibition. The clerk was instructed to gain notice of the Toronto & York Radial Railway Company to at once put in a culvert on Eastwood's Hill, as per agreement.

East Toronto.

East Toronto, July 4.—C. T. Lyon, J. P., held court in Spruce-avenue Fire Hall this morning, when William McDonald, better known as "Bib Mac," who was charged with assault on a conductor on the street railway, was fined \$5 and costs, and ordered to remove out of the county for a period of six months. Failing this, a prisoner was granted an alternative of six months in jail. He paid the fine. Two young men, charged with shaking the donkeys at Victoria Park, were each fined \$1 and costs.

When the body of the late Frank Flynn, who died in Battleford, was brought back to Toronto, it was accompanied by Bro. A. Graham, a member of the local branch of Brotherhood of Locomotive Firemen, on his arrival from the east. Bro. Graham was met by a number of the local brethren and escorted to the Y.M.C.A. Hall, where a brief reception was held. On behalf of the members of the B. of L. F. and the C. O. F. E., Bro. Graham was presented with an emblematic pin and three links. Bro. Nelson presided. Addresses were given by Bros. Frank Rine, McCabe, Sands, Reid, Westlake, Shaeffer and W. Westlake. Bro. R. Paterson represented the C. O. F. E. The members were desirous of testifying in some measure to the many acts of kindness rendered to the late Bro. Flynn by the order's representative. Mr. Graham left for his home in Battleford to-day.

There is said to be a strong anti-annexation feeling in wards 2 and 3, while the rebuff administered to Chairman Baker has cheered in the ardor of the friends of the measure in Ward 1. Monday night's meeting will, it is expected, furnish material for considerable discussion.

Markham Old Boys.

A number of Markham Old Boys have arranged for an informal picnic and reunion of the members of the society at Centre Island, on Saturday afternoon at 2 o'clock. No formal invitations will be issued, and it is expected that all those claiming allegiance to the township and town, now resident in the city, will regard the matter as a personal one, the guests attending free of charge. Refreshments will be provided. Re-appointments will be provided.

North Toronto.

In the course of a month or so the

powerhouse of the Metropolitan Railway, at Deer Park, will be shut down entirely, and the machinery removed to Port Credit. The power to handle the Metropolitan cars between the C.P. crossing at Deer Park will be received from the storage batteries of the auxiliary powerhouse, on Yonge-street, of the Toronto Railway.

The vital statistics for the town, as recorded with Town Clerk W. J. Douglas for the past six months are: Marriages, 4; births, 81; and deaths, 25. J. Humberston of Bedford Park and E. Troyer of Chicago went on a camping trip to New Ontario last night. The board of works committee and the water, fire and light committee met on Tuesday evening to prepare the estimates for the current year, which are as follows, subject to revision by the council: Board of works, Yonge-street, 66 tons of stone, \$1200; Yonge-street repairs and watering, \$600; side street repairs \$1000; commissioner's salary, \$200; land purchased for street, \$400; total, \$3400. Water, fire and light committee, water supply and reservoir, \$200; boiler, pump and heater, \$2400; labor, \$450; fire department, \$100; total, \$7750. The total of the two committees is \$11,150. COULD OTHERS CAN'T AGREE ABOUT A COMMISSIONER

Laid Over Till To-day—To Enlarge Riverdale Park—Matters at the City Hall.

As was expected, the matter of appointing a commissioner of industries was brought before the board of control yesterday by Controller Jones with a little more success than he has been accustomed to having with it lately, also no appointment was made owing to Controller Ward going on strike and refusing to vote for anybody at all.

The names that came before the board were Fred Dane, George Dunstan, Joseph Paterson and J. I. Ronides Thompson. Each of them received two votes, and the matter stands over again till to-day. In the meantime it is likely that some arrangement will be reached and it will be laid sailing when it comes to the board.

There is no friendship for the office on the part of Controller Ward. He moved to create by creating the department be revoked. Controllers Hubbard and Shaw said they were following out the wishes of the council regardless of their personal views on the matter, and they defeated Ward's motion.

Frank Hilton's name was proposed by Controller Jones, who at once withdrew it, remarking that he understood the board was particularly against it, and he nominated George Dunstan. Fred Dane was nominated by Controller Shaw and J. I. Thompson by Controller Hubbard.

Controller Ward believed it was a scheme to create a position which would cost \$25,000 a year and he would not vote.

After Controller Jones had voted for Dunstan, Controller Jones and Controller Shaw voted for Dane, and Controller Hubbard voted alone for Thompson, and then nominated J. P. Paterson and voted for him. Then Hubbard voted with Jones for Dunstan and with Shaw for Thompson and Paterson. Then the matter was laid over till to-day.

COULD OTHERS CAN'T AGREE ABOUT A COMMISSIONER

Laid Over Till To-day—To Enlarge Riverdale Park—Matters at the City Hall.

As was expected, the matter of appointing a commissioner of industries was brought before the board of control yesterday by Controller Jones with a little more success than he has been accustomed to having with it lately, also no appointment was made owing to Controller Ward going on strike and refusing to vote for anybody at all.

The names that came before the board were Fred Dane, George Dunstan, Joseph Paterson and J. I. Ronides Thompson. Each of them received two votes, and the matter stands over again till to-day. In the meantime it is likely that some arrangement will be reached and it will be laid sailing when it comes to the board.

There is no friendship for the office on the part of Controller Ward. He moved to create by creating the department be revoked. Controllers Hubbard and Shaw said they were following out the wishes of the council regardless of their personal views on the matter, and they defeated Ward's motion.

Frank Hilton's name was proposed by Controller Jones, who at once withdrew it, remarking that he understood the board was particularly against it, and he nominated George Dunstan. Fred Dane was nominated by Controller Shaw and J. I. Thompson by Controller Hubbard.

Controller Ward believed it was a scheme to create a position which would cost \$25,000 a year and he would not vote.

After Controller Jones had voted for Dunstan, Controller Jones and Controller Shaw voted for Dane, and Controller Hubbard voted alone for Thompson, and then nominated J. P. Paterson and voted for him. Then Hubbard voted with Jones for Dunstan and with Shaw for Thompson and Paterson. Then the matter was laid over till to-day.

Many Contracts.

Contracts were awarded as follows: Asphalt pavements: Broadview, from Gerard to Danforth, \$28,234; Queen, Niagara to Roncesvalles, \$28,687; Delaware, Bloor to Shanly, \$4866, all to the Construction and Paving Co.

Brick pavements: Fraser-avenue, Liberty to 183 ft. south to J. H. McKnight, \$775; Charlotte-street, King to Adelaide, city engineer, \$293.

Bitulithic pavements: Howie-avenue, Clark to north end, city engineer, \$2883; Avenue-road, from present end to 183 ft. south to J. H. McKnight, \$775; Charlotte-street, King to Adelaide, city engineer, \$293.

The proposal to purchase an addition to Riverdale Park was endorsed at a meeting of the parks and exhibition board yesterday, when an Assessment Commissioner Forman was in favor of it. The land to be acquired lies between Spruce and Carlton-streets, and is 3.2 acres in area and is bisected by Gildersleeve-avenue. There is only a small portion of it suitable for building purposes and that piece is valued at \$1800. The whole addition was valued at \$4250. The commissioner will now negotiate for the purchase of the Jarvis property and then the land will be added to the park.

Many More Houses.

The building permits issued during the period between June 18 and June 30 represented an approximate value of \$638,000; within that time permits were issued for 158 dwellings.

Board of Works To-day.

At to-day's meeting of the board of works, Aid. Grey will present the plans for a reorganization of the roadway department. He suggests a plan of ample yards in each ward connected with the headquarters at the city hall by telephone, and a card index system to keep track of repairs, so that each break or hole in the pavement may be repaired as soon as detected or as soon as the cutting is closed in. Last year \$10,400 was spent in the work of teams and Aid. Grey recommends the purchase of sufficient teams, saving \$200 per team per year. At present twelve double and six single teams on twelve double and six single teams on local improvement work alone, besides the 210 miles of paved streets and 90 miles of asphalt, and he does not consider the contractors' plant equal to this work. Aid. Grey therefore recommends the installation of an asphalt plant.

Uxtonville.

Invitations have been issued for a barn-raising on the farm of Henry Smith, midway between the fifth and sixth concessions, a mile and a half west of the village, to-morrow (Friday) afternoon.

Miss Ella Hagerman is winning laurels as a vocalist. At a garden party given at the Uxtonville, on Tuesday evening, under the auspices of the Presbyterian Church, she met with a most flattering reception.

Green Sickness or Chlorosis

Just at the threshold of womanhood, that trying time when the whole system is undergoing a complete change, many a girl falls a victim of chlorosis or green sickness.

Her disposition changes and she becomes morose, despondent and melancholy. The appetite is fickle, digestion is imperfect, and weariness and fatigue are experienced on slight exertion.

Chlorosis is much like anaemia, because it arises from poor quality of blood. It is accompanied by such other restoratives and blood builders as are combined in Dr. Chase's Nerve Food are demanded by the system.

The regular and persistent use of Dr. Chase's Nerve Food cannot fail to benefit any girl or young woman suffering from chlorosis, anaemia, or weakness and irregularities, which result from poor blood and exhausted nerves.
