Czar Warmly Denounced And the King Censured In British Parliament

Socialist and Labor Members Use Extraordinary Language in Protesting Against His Majesty's Visit to Russia.

KEIR HARDIE'S VIOLENCE HAD TO BE CHECKED

LONDON, June 4.—Violent protests were made by the Socialists and Labor members in the house of commons this afternoon against King Edward's approaching visit to Russia, in language the offensiveness of which no attempt was made to veil.

The speakers drew lurid pictures of the alleged conditions in the Muscovite Empire, declaring that while they had no objection to King Edward privately visiting his relative, Emperor Nicholas, they had the greatest abhorrence of the idea of a state visit to Russia.

The Labor-Socialists suggested that the visit had been engineered by Russia with the view of rehabilitating her credit, and John G. S. MacNeill, Nationalist, joined in the debate.

Foreign Secretary Sir Edward Grey, on behalf of the government, deprecated the tone and the temper of this attack. He declared the evidence proved clearly that the system of government in Russia had apparently bettered during the last two years.

The Other Way About. He then invited the house to consider what kind of resentment would have desired effect in Great Britain had the Emperor of Russia declined to visit this country until a full self-government had been granted the Transvaal.

The government had advised the King to pay this visit, which, according to its information, would be welcomed by all the moderate and liberal members of Russia.

Sir Edward Grey then repeated that no negotiations were on foot for a treaty of commerce with Russia, and he said none would be initiated during the visit. It was hoped, however, that the visit would have the effect of improving the relations between the two countries.

A few years ago such a visit would have been impossible. The fact that it occurs now is intended to emphasize the knowledge that the relations between Great Britain and Russia are today friendly, and he trusted they would so continue.

Would Lead to War. The foreign secretary then went on to say that the consequences of the attitude of aloofness or boycott of Russia, suggested by the Labor-Socialists, must be disastrous and would sooner or later lead to war.

Attacks on the personal character of Emperor Nicholas were not justified. If the cabinet advised the King to take up the attitude suggested, it might as well tear up the Anglo-Russian convention, the foreign secretary said, and then reminded the house that the general peace of the world depended greatly upon Great Britain's relations to Russia.

James Keir Hardie, Socialist-Labor, excelled himself in denouncing the Russian Government. He was called to order by the Speaker, who treated to a disconcerting and unless he withdrew certain objectionable phrases. Sir Mr. Hardie finally died.

The Labor-Socialist motion, condemning His Majesty's visit to Russia was defeated 225 votes to 59.

ENCOURAGEMENT. OTTAWA, June 4.—(Special.)—R. L. Borden has received the following telegram from Meifort, Sask.:

MAIL TO THE BIG MAN

Premier Whitney deserves the night of his life at Massey Hall to-night. He has many of the personal qualities that go to make the BIG man. Intimate touch with him makes one see in him about the nearest approach to an HONEST politician Ontario has ever looked upon.

Then his generosity is no idle show of things. The man who could praise the Hon. Adam Beck as Mr. Whitney did on Wednesday night has more than the makings of greatness in his soul.

Massey Hall should be jammed to-night to give Mr. Whitney cheers for what he has done for Ontario and what he may yet be spared to do.

CANNON IN EARNEST FOR THE NOMINATION

Says Taft Strength is Over Rated—Chicago Beginning to Fill With Politicians.

CHICAGO, June 4.—Political activity commenced in earnest to-day around the auditorium and the auditorium annex and the coliseum, where the Republican national convention is soon to be held.

The Cannon headquarters were permanently opened in the auditorium and the announcement was made by a number of the politicians friendly to candidates other than William H. Taft, that Foraker headquarters would be opened soon in the Great Northern Hotel.

Charles P. Taft of Cincinnati, brother of the secretary of war, came to Chicago to-day and promptly announced that he expected the secretary to be nominated without difficulty on the first ballot. He smiled as he cautioned listeners to remember that he was a prejudiced witness, but asserted that there was no doubt in his mind that only one name would be cast.

Vice-presidential gossip was prominent to-day for the first time, the names of Senator J. P. Dolliver of Iowa, and James S. Sherman of New York, being mentioned. John Hays Hammond, the well-known mining engineer, also talked of.

At the headquarters of Joseph G. Cannon it was declared that the estimates of strength made by the Taft people were largely overdrawn, and John Eversman, the confidential man of Congressman McKinley of Champlain, who is in charge of the headquarters of the present time, asserted that the Illinois candidates would not only have more strength than has been generally credited to him, but that the Taft people would be able to draw more than 350 votes on the first ballot.

The full Republican national committee will meet to-morrow morning and begin the hearings on which will be determined the contests involving 229 seats in the convention. The nomination of the present time, asserted for the presidency hinges absolutely on the decision of the members of the national committee and the subsequent approval of that decision by the credentials committee of the convention.

Half of the contests decided in favor of Secretary Taft would result in his winning on the first ballot, while failure to capture this number unquestionably would put the nomination in doubt.

Realizing the necessity of keeping a majority of the contested delegates out of the Taft column, the representatives of other candidates have pooled issues in most of the cases, and, as allies, will urge their claims before the national committee. The contests therefore, largely will be resolved into a Taft and anti-Taft controversy.

So far as the south is concerned, and most of the contests are in states from south of the Mason and Dixon line, the interests of the allies are being looked after by Major P. C. Bryan, of Washington, D.C. He arrived in Chicago to-day and announced that he would base his arguments chiefly on the contention that in most of the Southern States, the Taft forces had disqualified the negro voters from participating in the state and district conventions and that the allies delegates had been selected at conventions from which no class race had been barred.

MILITIA CAMPS AND MILITARY CHANGES

Sir Frederick Borden Says it Hasn't Been the Matter of Money That's Caused Postponements.

OTTAWA, June 4.—(Special.)—At the request of R. L. Borden, Sir Frederick Borden, minister of militia, today gave his promised statement with regard to the holding of militia camps.

It having been decided, he said, to hold camps of instruction in Eastern Canada and the Maritime Provinces, an order was issued fixing dates, but owing to local conditions it had been found necessary to make some changes as follows:

ROCKLIFE—Postponed from June 22 to a date not fixed. Last year the troops of No. 4 militia district trained at Petawawa, but owing to prevalence of typhoid fever in the camp it had been decided to install a complete drainage system before the ground was used again.

NIAGARA—From June 9 to 15. It had been found that more time was necessary to install necessary water supply.

KINGSTON—June 15 to Aug. 31. The medical officer reported against using the water supply of the camp, and it was necessary to make other arrangements.

CANADA CLUB BANQUET MANY NICE THINGS SAID

Lord Crewe and Others Make Kindly References to This Growing Dominion.

(Canadian Associated Press Cable.) LONDON, June 4.—The Canada Club to-night banqueted Lord Crewe, Lord Strathcona presiding over a large and distinguished gathering.

Lord Crewe, responding, expressed regret that his duties prevented him from going to Quebec. During the 300 years Canada had undergone all the experiences which went to make up the life of a great nation, and now stood in the forefront of the civilization of the world.

Mr. Fielding plunged into the controversy. He said, to take a note on account and the government received the intimation that the opposition was unwilling to concur.

Mr. Fielding insisted that the opposition had refused interim supply, but just as Mr. Speaker left the chair at 8 o'clock, R. L. Borden got in a final word, declaring that the only proposition put before the opposition was one to suspend the rule of the house.

At the morning session R. L. Borden asked if any considerable body of militia would be assembled at Quebec for the twenty-first and Sir Frederick Borden replied that arrangements were being made by Gen. Otter with a view to having a considerable number reviewed at Quebec. He would make a final announcement on Monday.

Six Men Injured at a Ballillero Celebration. PETERBORO, June 4.—The Village of Ballillero is excited over a shooting affray, the result of a charivari at the home of James Byers, who lives a mile from the village.

His son, Welsh Byers, was married a month ago, and the boys were long in preparing the celebration. When the crowd routed the family after 11 o'clock of the 2nd, and after a noisy demonstration, asked for money, the father fired a charge of shot into the crowd, injuring six of the men.

CHINESE HIDDEN IN CAR

Sixteen Nearly Perish After 12 Days' Confinement in Box Car. SAN FRANCISCO, June 4.—When a sealed box car, which apparently had come intact from Galveston, was opened in the Southern Pacific yards today, 16 Chinese were found squatted on a half load of steel.

The car was ten days on the road and had been in the yards for 48 hours. The Chinese had a little water and a few crackers left, but were weak and hungry. All but one were turned over to the immigration officer. It is supposed that the men were smuggled across the Mexican border.

TRUSTEE LEFT MEETING BROKE UP QUORUM

Leaves Contractors in Awkward Plight by Catering to His Own Annoyance. Because of Trustee R. R. Davis, who hasn't won many medals on the board of education, accounts aggregating upwards of \$15,000 or \$20,000 for school buildings will be compelled to lapse this week—a circumstance without precedent in a responsible local body.

Unless the chairman of the board takes the responsibility of signing cheques without authority, there will be about 20 contractors who have been depending upon the board of education for funds with which to pay off their men on Saturday, who will be disappointed.

Twice were last night's board proceedings given a crimp because trustees, who didn't like the way things were going, left the circle and broke up the quorum.

The second time effectually stopped proceedings and compelled an adjournment. R. R. Davis objected to the appointment of a lady 45 years of age for the temporary to the permanent staff, and because the reasons offered were too convincing for him to hope to overthrow the appointment, with the few members present, he left the meeting with the avowed intention of breaking up the quorum and ending proceedings.

Mr. Murphy, K.C., cross-examined Major Hodgins at such a pace as to the possibility of over-classification being due to error of judgment on the part of resident engineers, but the major was quite positive that no one could mistake sand or mud for solid rock. The investigation will be resumed next Monday.

Some weeks ago Mr. Davis did the same thing, in company with Miss Clara Brett-Marlin. The only new business done prior to the adjournment was the striking out of the management committee's report of the recommendation that M. H. W. Irwin, B.A., of Harbord Collegiate, be promoted to the head of the English department at Riverdale High School. The appointment of W. G. Scrimgeour, B.A., to the high school staff, was referred back.

BOURASSA CHALLENGES

Wants Gouin to Meet Him in a Public Debate. MONTREAL, June 4.—(Special.)—Henri Bourassa, after addressing five thousand people at St. James' market this evening, challenged Hon. Lomer Gouin to meet him in public debate on the Champ de Mars on Saturday evening.

The papers announced that the premier and Hon. Rodolph Lemoyne would speak this evening, but those two gentlemen having left the city some ardent supporters of Mr. Bourassa went to Mr. Gouin's headquarters and cleaned out the meeting, while no one appeared to be strong enough to resist the invasion.

DREYFUS IS SHOT AT THE ZOLA PAGEANT

Sensational Incident as Climax to Bitter Protestations—Royalist Plot Hinted at, but Assailant's Motive Mystifies.

PARIS, June 4.—Just at the close of the ceremonies attending the canonization of Emil Zola in the Pantheon to-day, when the president of France, the premier and a host of ministers of state were taking their departure, Louis Antheim Gregori, a military writer of note, drew a revolver and fired two shots point blank at Major Alfred Dreyfus, for whose liberty Zola had fought and won.

Men distinguished in all walks of life filled the pantheon and when the shots rang out there was intense excitement in fear that the president had been assassinated, but even the attempt on the life of Major Dreyfus has created a profound impression. Soldiers speedily surrounded Gregori, and he was taken, bruised and bleeding with his clothing almost torn from his back to jail.

The affair has caused a tremendous sensation in Paris, and the motive of the would-be assassin in the case of the military writer, for Gregori, instead of being an ordinary fanatic, such as is carried away by the political passions of the moment, is a man of mature age, having been born in 1844, and was highly esteemed in the circles where he was known as an individual enjoying close relations with many high French officers. He was one of the correspondents who followed the big French and German manoeuvres for the purpose of securing data for technical papers.

Tool of Royalist Plan. His friends are at a loss to understand what induced him to commit such a foolhardy act, and many are disposed to question his statement that he simply shot at an individual in protest against the participation of the army in the ceremonies attending the placing of the ashes of Zola in the pantheon.

Some do not hesitate to express the opinion that he may be but the tool of a little clan of royalists, who, under the name of Action Francaise, have never ceased to insist that the court of cassation illegally prevented an appeal in the Dreyfus case, and an unshaken hope of seeing a revision of the case favorable to the contentions of the Nationalists.

By the shooting of Dreyfus, they pointed out, the whole affair may be indirectly reopened before July, as the assassination or attempted assassination must come before the assize court for trial.

Some color is lent to this theory by a series of remarkable articles that appeared in this morning's L'Action Francaise from the pens of Chas. Maurras and Leon Daudet, while the poet, who are the leading spirits among the royalist supporters of the restoration of Philippe d'Orleans.

The articles apparently anticipated to-day's events, that of Maurras declaring that "there may be a rumble before the revolution," while Daudet wrote: "The real hero will be Dreyfus, and Dreyfus may ask himself whether this nocturnal glorification of modern crime will not conjure up a terrible dawn. He has already heard the stroke of midnight."

Furthermore, the Soleil, a royalist paper, of morning printed an entire page eulogizing the Duke of Orleans, accompanied by his picture.

Other stories are afloat to the effect that there was an actual plot of royalist Catholic students to dump the corpse containing Zola's body into the Seine last night, but that was discovered and frustrated. Such rumors, however, received no official confirmation, and the general public reflects upon the matter as far-fetched and absurd, in view of the strength of republican sentiment among the masses.

Dreyfus Had Close Call. Major Dreyfus was not seriously injured. A bullet entered his forearm, but did not injure the arm. The official statement was made that his condition was very favorable and that no complications were feared.

With regard to the reasons for Gregori's act the opinion prevails in Paris that there is much truth in his avowal that he was driven to the deed by the appeals to hatred with which the anti-Semitic papers have been filled since the government resolved to place the body of Zola in the Pantheon.

"The state of this feeling can be gauged by an interview with Henri Rochefort, editor of The Patrie, which is published daily, and in which he says: "It would have been a glorious death for Dreyfus. It would have reflected his first and only time under fire."

It was definitely established at the scene in the Pantheon that Gregori fired the first shot from behind Dreyfus, his coat and burying itself in flower pot at the base of the catafalque. When Dreyfus wheeled at the sound of detonation, he threw up his left arm over his head.

McAll Mission Musicals.

The Parkdale Auxiliary of the McAll Mission are to be congratulated on the excellence of the program rendered at their "musicals" held at the beautiful home of Mr. and Mrs. S. J. Moore, corner of Jameson-avenue and King-street. The evening was a perfect one, and the attendance of about 200 of Parkdale's music lovers was an inspiration. Rev. W. H. Hincks led the devotions, assisted by Rev. Bernard Bryan. An artistically executed piano solo was given by Miss Maud Dowd. Miss May Perry with her usual grace and sweetness won her usual success in her very first number. Donald C. MacGregor, Toronto's favorite baritone, fairly captivated the audience, and Horace Davis sang "The Good Shepherd," which was very much appreciated. Bernard Rickman has a rich, clear dramatic tenor voice. Mrs. Edward Faulds was the accompanist. Rev. A. Logan Lawson, Toronto's favorite address on "What the McAll Mission is doing to evangelize the people of France." Mrs. A. C. Rutherford told the change the Canadian Association had made in the support of the work in France, from Rochefort and La Rochelle, provincial towns, which had been the special care for 22 years, to Grenelle and Javel, stations in Paris. Members visiting Paris would now have an opportunity to see where their money is being expended, and take a more intelligent interest in the work. Eleven new members were added to the auxiliary. The receipts at the meeting totaled over \$30. Mrs. Hamilton, president, occupied the chair. Rev. Vernon Coyworth closed the meeting with prayer.

Coming Events.

Parkdale W.C.T.U. will meet this afternoon at 3 o'clock in Parkdale Methodist Church (corner King-street and Dunn-avenue). All ladies interested in temperance reform cordially invited.

SPARKLES with life. It has a brilliant glow—is full of solid nutriment—snappy and inviting to the palate—the combined soul of malt and hops—the cream of the harvest fields—the health bringing home beer.

THE KING OF ALL BOTTLED BEERS

POSSESSED the highest type of literary genius. It is more than two centuries since he ceased to write, but when shall he cease to be read?

He grasped all things. He saw into the profoundest depths of human nature. Thoughts illimitable were at the point of his pen.

His personages live and move as if they had just come from the hand of a creator. He was not a man of one idea, but part of the intense life of flesh and blood that seethed around him. Exuberant vitality of mind, body and soul was his supreme characteristic.

Personally he was a handsome, well-shaped man, of a merry temperament, abounding in energy and overflowing with health.

His favorite eating place in London was the celebrated Falcon tavern. Here men like Ben Johnson, Marlowe, Ford, Fletcher, Herrick, Raleigh, etc., met him daily.

These literary giants of the heroic Elizabethan age were in the habit of discussing the burning topics of their time (which included the colonization of America) over foaming tankards of beer.

With his three gentlemen welcome. Come, we have a hot rubenasty to discuss, come, gentlemen, I hope we shall drink down all unkindness. Act 4—Scene 3—The Merry Wives of Windsor.

BORDEN'S SON-IN-LAW GOT A GOOD CONTRACT

Wasn't the Lowest Tenderer for Supply of Militia Dept. Machines, But That Wasn't Necessary.

OTTAWA, June 4.—In the public accounts committee this morning Mr. Crockett conducted an examination as to certain labor-saving machinery purchased for the Dominion arsenal at Quebec. Potter & Johnson of Pawtucket, R. I., were the makers.

Col. Jarvis, secretary of the militia department, produced a letter from Lieut.-Col. Gaudet of the arsenal giving orders that these machines should be purchased from L. S. Macoun, who is a son-in-law of Sir Frederick Borden.

Macoun had no warehouse or factory, but he appears to have sold supplies of various kinds to the militia department, including a quantity of copper. For this only three persons were asked to tender.

The lowest tender was put in by the Volsigary Company of New York. Macoun and D. J. Coughlin of Montreal quoted the same price. The tenders were referred to the minister of militia, and the contract was awarded to Macoun.

Col. Jarvis said one reason the contract was not given the New York firm was because it wanted a cash payment and the department felt that there should be an inspection. It developed, however, that the department paid Macoun before a test of the metal was made, and advanced \$23,000 on consignment before it had arrived in the country.

Mr. Crockett in referring to the advance made on the copper commented on the serious position the department would have been in had the metal failed to pass inspection. The purchases covered a period of 12 months and in all amounted to \$74,000.

17 INNINGS AT BOSTON.

Cuba and Doves Battle to a Tie, 1 to 1 Results. At Boston.—The Chicago National League champions played a seventeen-innings single-run tie with Boston today. Darkness stopped the game. Lindaman and Fiechter pitched remarkable ball, and several times each pulled out of tight places when a run would have been scored with a hit. Howard hit the ball over the left field fence, close to the foul line. In the seventh inning, and the locals led the score in their half on Beaumont's single, a base on balls and Bowserman's infield hit. The home team had many chances to score in the closing innings, but heady pitching and fast fielding prevented a tally. There were many sensational plays, but a one-handstop of a low liner by Ritchey was the feature. Score: Boston, 0; Chicago, 0.

STILL HOLDS THE FIELD.

What has the Hon. A. G. MacKay accomplished by his electoral campaign and the daily sermons that were heralded as a means of enlightening the citizens of Ontario regarding his mental processes? He has gone over the record of the Whitney Government with microscopic minuteness and has displayed considerable ingenuity in extracting from it material for comment.

As was to be expected from its position on the leading issue of the election, cheap power has chiefly occupied public attention. Cheap power means everything for Ontario, which must become and remain the manufacturing centre for the central west.

Are the electors of Ontario prepared to entrust their interests and their future to a politician who does not trust them sufficiently to disclose his policy touching the provincial resources and franchises? The opposition leader started out his campaign with a declaration that the guiding principle of his party was "Trust the people."

WEST TORONTO'S OPPORTUNITY. Not the least of Mr. A. W. Wright's claims to be returned for West Toronto is the fact that he is a strong and convinced advocate of the principle of public ownership and operation of franchise monopolies.

which will uphold or condemn according to his record. That is the true principle underlying representative government, and it is a principle which the return of Mr. A. W. Wright will do much to vindicate and enforce.

Mr. A. W. Wright is the people's candidate, because his platform is the defence of the people's rights in the public domain. His advocacy of this cause has not been prompted by its popularity as an electoral cry—the maintenance of it at a time when the voices of its supporters were as cries in the wilderness.

A MEMORIAL TO SHAKESPEARE. For some time past an animated controversy has been conducted in Great Britain regarding the character of the memorial proposed to be erected to the world's greatest dramatist. The committee originally in charge of the scheme decided upon a statue in Portland-place, London, and the announcement at once elicited a strong volume of protest.

With a remarkable unanimity the meeting pledged itself to the establishment of a national theatre as a memorial to Shakespeare. In opening the proceedings, Lord Lytton referred to various objections offered to the scheme, including that based on the theatre as an institution.

HOSSACK LOOKS FORWARD TO RECORDING OF VOTES

And Where Will the Others Line Upon His Resolution to Abolish the Bar?

"Sir Oliver Mowat was the most sagacious statesman Ontario ever had," declared Donald Hossack at his meeting in Association Hall last night.

Sir Oliver had declared ten years ago that the temperance question was in politics. All over the province Liberals told Mr. Hossack that Oliver Mowat's platform was good enough for them.

Mr. Hossack appealed to the reason of the fair majority for the government was better than a weak one, or a very large one. He considered it of sufficient importance to enable the opposition to perform its functions more efficiently.

BRITISH EMPIRE LEAGUE DUTIES ARE ALMOST DONE

Col. Denison Re-Elected President—Some Views as to the Value of the Privy Council. Lieut.-Col. George T. Denison was re-elected president of the British Empire League at the annual meeting in Association Hall last night.

The meeting was a small one and no effort had been made to bring out the members and there were no speakers invited. The annual report expressed the pleasure of the committee at the line of action followed by Sir Wilfrid Laurier and his colleagues at the colonial conference last year, in leaving the question of the discussion of mutual preferential tariffs open until the British government was ready to take it up.

George M. Holmstead thought that the attitude adopted by the press in regard to the privy council was unbecomingly, saying that it was a good thing to have his questions sent over to such a learned tribunal. Col. Denison remarked that "the consideration of a good thing to have an impartial tribunal, but thought the agitation to do away with it had not assumed proportions sufficient to warrant any resolution being passed by them, and when one considers that Ontario only sent over an average of five cases a year for decision, he remarked, "What an easy time those fellows have—five cases—look at us with over 17,000; we could settle a paltry five in as many minutes."

Tales of a Store NUMBER 7. The cost of building such a high structure as the new store of the Robert Simpson Co., Limited, is enormous.

Consider what must be the cost of the machinery and appliances used in erecting the steel columns and beams. Enough money is available to equip a first-class manufacturing plant.

First of all, to accomplish the work of construction, a temporary water supply was installed. This consisted of a 6-inch main connected with the street main. This main and the amount of water would easily satisfy the requirements of a good sized town.

From this main the water is piped all over the steel structure of the new building of the Robert Simpson Co., Limited, for the use of the various engines, machinery and other purposes.

Again, from two different points the Toronto Electric Light Company have laid main to the new structure of the Robert Simpson Co., Limited. The power from these drives the drills, pumps, rotaries and hoists.

In the matter of electric lighting there were employed eight arc lamps and 30 incandescent lights, which carry on the work during the short days of the winter months, and in the underground operations, during which the lights were kept burning 144 hours out of the 168 working hours of the week.

In addition to these water, electric power and light mains, the Robert Simpson Co., Limited, required for the building seven steam engines, aggregating a total of 120 horse power. Thus the company, for temporary purposes, was able to expend of providing water, light and power enough to run a big factory.

REAL, EARNEST REFORMERS.

Labor Men Deny Any Trifling in Apportioning of Delegates.

The frivolous intent imputed to the district labor council in appointing as representatives to the Moral Reform Association several brewery workers and cigar makers was repudiated by several speakers at a meeting of the council last night.

Delegate Todd said that there were several total abstainers among the workers mentioned and that it was quite possible for a brewery worker to be a sincere moral reformer, and also for a temperance man to be "unusually immoral."

Delegate Sanderson had a shrewd suspicion that the promoters of the movement depended only to the extent of a few dollars on the strength of the candidate in that section of the riding.

The general opinion expressed was that the meeting was the most encouraging of the season so far. Dr. Sweeney was chairman.

Dr. Bryans was given a rousing reception and proceeded to engage in a bout with the record of the Whitney government, with particular reference to the educational policy. C. N. R. bond guarantee, three-fifths clause, easily winning a popular verdict on points from a possibly slightly biased audience.

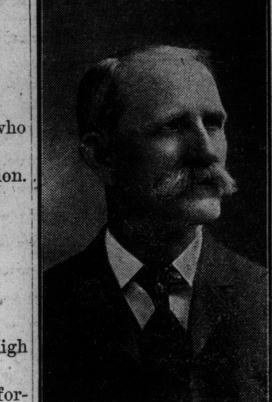

Organizer J. F. M. Stewart was so optimistic as to the general result in the Toronto riding, as to create unbelief in some quarters lest several apparently sure Liberal seats might be lost thru over-confidence.

Other speakers were J. M. Ferguson and William Banks, while Charles Emery gave a commencement day touch by treating the audience to several recitations.

# WORLD LIVE STOCK

## HAY AND SENSE.

Considerable fears were expressed in the early winter for the supply of hay for our home market. This fear among the farmers was evidenced by their absolute refusal to sell at any price, hoping, as is ever with humanity, to obtain some record price. To meet this hope for a good hay day, the farmers everywhere hoarded up everything in the nature of hay. Straw and corn stalks were made to do uncommon duties, and even many cattle went hungry, all because the owners of the hay would not feed it, nor part with it at any living prices to their less fortunate brethren.

The result is that there is probably more hay for sale in Ontario barns today than for many seasons. The dropping of the price to \$12 on the Toronto market and the excellent outlook for the new crop is causing the first misgivings in the minds of the would-be corners of the market. Dealers in the country say that they are being offered hay readily now at much lower prices. One man who has had to purchase heavily during the winter could not induce his farmer friends, although he was carrying their accounts, to part with their hay. Now they are all asking him to take hay on the account.

Others were offered as high as \$19 per ton at their station by the merchants in Toronto. They refused. Such prices would surely bring bigger prices, they reasoned. And so again the old adage that much wants more and loses all, was illustrated on the progressive farms of Ontario.

It should certainly be a lesson to those farmers who closed up their barns to the appeal of their brother farmers and their city dealers for hay. The price offered was in all fairness large enough for anybody. To feed hay at \$12 a ton, let alone \$24, was outrageous and when these prices were current in the city the man with plenty was not carrying out the golden rule when he closed his farm to the appeal. Little sympathy can be claimed for those who now must take \$10 per ton less for the feed.

## BELVOIR SHORTHORN HERD.

This well known herd was established in 1880 by importing Britain's and United States' best Bates females. 22nd Duke of Aldrich was purchased for \$200 when followed the imported these cows. He was sold when five years old by auction at London to Col. Cannon, Vt., for \$490, and when ten years old again for \$1000.

Next came imported 60th Duke of Oxford, bred by the Duke of Devonshire. At a sale in Chicago by Prince Gibson, who was the owner of the Belvoir herd, he was purchased by Riddell Henston, to use on his Duchess and Oxford cows. The Duchess and Oxford Duke of Leicester, bred by H. Halford, and afterwards sold to the United States.

The females bred from this combination were very satisfactory, being good milkers and good feeders. Coming to the eye, everyone looked like a high-bred lady and yet the milk pails flowed over, and the steers raised by these bulls of the old time regime are absolutely lacking on Ontario farms.

"I once sold by auction in Chicago 20 head that realized \$29,400," writes Mr. Gibson, "and the same day I sold 20 head that realized \$10,000. How to suit present-day requirements became the question and I have tried to meet the same by using Scotch bred bulls. The Scotch bull was followed by Lord Chancellor, and he by imported Gay Lothario, bred by J. Wilson, A. Lavender by Prince of Squiglar, in service now is the imported Scottish Diamond, bred by A. M. Gordon, by Kohlinoor, said to be the best son of Corneg Stone, assisting him is Clipper King—probably the best bred Clipper on the continent.

"The young heifers are very promising. The only one of the same sort that made a Col. King famous, are showy candidates amongst them, but the glamor is not for me. Others must have the glamor, as they are all to be sold at this dispersion sale. The farm is for sale also, and every Shorthorn will be sold except a few old cows that have been superannuated and would not bring their worth. There are imported Emmas and Minnie Ammandales, one of the sort that made Col. King famous. There are also Bates Barringtons, Waterloos, Lornes, etc., all good." Send for a catalog, mentioning the Toronto World, to Richard Gibson, Delaware, Ont.

## GRAIN COMPETITION IN DEMAND

J. Lockie Wilson, superintendent of agricultural societies, says that the entries for the grain crop competition are coming in fast and soon the allotment will be about consumed.

It is a surprising thing to note that several of the best agricultural counties are not participating. It may be the fault of the local agricultural society. In Prince Edward County, for instance, there is little more made in advanced ideas by the society along the lines of agriculture. A look at the board list reveals the fact that out of 15 members there are only three farmers. Probably this accounts for the failure of the county to send a representative to the contest.

Another instance is Ontario County, which is becoming noted as a slow mover in agricultural activity, but of its membership the majority are farmers, but results are not much better than in Prince Edward.

## JOINT DISEASE IN COLTS DISINFECT YOUR YARDS

Many Losses Occur in Colts in Ontario From Disease—No Doubt That It is Contagious.

This is the great breeding season of the year, and many an anxious doe does the farmer, who follows the breeding and rearing of stock, spend in regard to them. Attention they must have, or else it will turn out a rather unprofitable business. One of the evils which the horse-breeder has to contend against is joint-ill, and the worst of this disease is that it is infectious, and once the soil is infected, or the disease makes its appearance in a breeding establishment, it often lingers for years. In view of the many losses that occur to Ontario farmers, a short article on the disease of a Scotch veterinary may be useful.

"This disease, due to septic organisms entering the system by the umbilicus, attacks foals, calves and lambs. It is an extremely serious and fatal affection, and is found to hang persistently to some breeding establishments, where it causes a heavy annual loss. The organism, in all probability, always enters at the umbilicus, and thence it is said to improper feeding of the dam, want of exercise, premature birth, anything which during pregnancy debilitates the system of the mother, predisposes to the disease, and in the majority of cases, we are compelled to look for causes operating from without. It is said that parturient fever in ewes, and abortion in mares, are sometimes associated with the disease, and as these are dependent on organisms which enter by the genital tract, infection of the umbilical cord and subsequent general infection is possible, it is, however, more likely that infection is due to dirt surrounding the foal, and that dirty surroundings, soiled litter, or actual infection from the genital tract of the dam, are the most common causes."

## WAITING ON THE HARVEST.

Big Crop in West Means Later Demand.

The World yesterday wired the International Harvester Co. of Canada, at Hamilton, as to conditions in tying up their western trade. Following is the reply:

"The west is ordering conservatively at present, as we believe, to heavy inventories and to poor crops last year, coupled with a disposition not to incur additional obligations until the crop is assured.

"If harvest results fulfil present expectations, later demand should improve, although the country's resources and energies this year will be required to retire old obligations."

## COLUMBUS PAYS EXPENSES.

\$5 Gold Piece Will Be a Souvenir for Engineers' Executive.

COLUMBUS, Ohio, June 4.—The committee on salaries of the Brotherhood of Locomotive Engineers reported to-day with a recommendation of increase in salaries of grand officers all along the line. The convention voted down the report.

To-day the Columbus engineers on the committee on convention expenses presented the international body with a \$5 gold piece, and demanded a receipt for it, for the expense of the convention.

This was the committee's way of informing the convention that all the expenses had been borne by the Columbus engineers, and that the Columbus in some cases convention deficits have run to \$1000 and \$1500, which in international brotherhood was compelled to pay.

The only cities which previously entirely paid their own way were Milwaukee and Norfolk.

The gold piece will be put in a frame with the names of the Columbus committee and hung in the grand offices in Cleveland.

## Better Get Tags.

People having no license for their dogs had better look out, as the month is up now. Magistrate Kingsford had five names on the calendar yesterday, but he let them go, saying, however, that he will fine any others.

## THE ROYAL RED, WHITE AND ROANS.

At Dryden's Sale To-Dav. Hendrie's and Gibson's to Follow.

## AN OPEN LETTER.

The Belvoir Herd of Shorthorns will be sold June 23, at Delaware, Ont. Trains will be met at Komoka, three miles, and C.P.R. Caradoc, four miles. This is the last of 50 years' connection with the breed. At New York Mills I earned my spurs when under my management 110 head averaged over \$3000 each. We have the same old blood, reinforced by the vigorous Scottish quick-maturing sort, and yet retaining the milking and steer-growing propensities pertaining to the old breed that made Ontario famous. We must have beef, but also cream and butter.

Come and help to make my last years happy.

Delaware, Ont.

ARGUES THAT RAILWAYS CAN'T BE COMPELLED

Acts of Parliament on Esplanade Privileges Cannot Be Overridden by Commission Says Counsel.

Our rights of maintaining our tracks on the level rest upon grounds from which your honours are powerless to drive us.

So said G. F. Shepley, K.C., on behalf of the Grand Trunk Railway, arguing before the Dominion Railway Commission yesterday that that body had not the jurisdiction to order the construction of the railway viaduct along the waterfront.

And so confident was Mr. Shepley of the strength of his contention that, at the conclusion of his argument, which lasted three hours, he suggested that no more evidence should be taken until the question of jurisdiction had been disposed of.

Beginning with the rule of law that a general act does not prevail over a special act, Mr. Shepley argued that the present status of the railways would naturally result in acts of Parliament or by order of the privy council.

COBALT—Mining Stocks Lower

on Professional Selling—COBALT MINING SHARES LOWER THE LEASING SYSTEM MAY BE ADOPTED

World Office, Thursday Evening, June 4. On the whole the markets for mining shares were easier to-day.

COBALT, June 4.—(From the Man on the Spot.)—The arrival in camp of Thomas Neve, the well-known New York banker, has given rise to many queries.

As is well known, the Cobalt Central has the largest acreage of any Cobalt mine, and in the Big Pete it has a depth of 250 feet the Big Pete vein shows up stronger than ever and is an authority than George L. Walker of Boston, when in Cobalt the other day, quoted this vein as one of the strongest proofs of the continuity of the Cobalt veins.

One of the rumors regarding the Cobalt Central is that an early dividend would be declared for the current year. The company will lease some of its most promising prospects. It is admitted by all acquainted with the Cobalt Central Co. worked on the Big Pete as a mine shows this conclusively.

First in Quality for over a Century

It is not very hard for a distiller to make his product best for a year or two, but for a hundred years—that is fame. Such is the enviable reputation held by Coates' Plymouth Gin.

It is never sold in bulk—every bottle of the genuine is filled, corked, canned, labeled, wrapped and packed at the famous Black Friar Distillery, established 1793. See the Black Friar on the label.

ONE FIRE STATIONS APPROVED BY ALDERMEN

Chief Thompson Says North End of City Must Be Protected—Plan Island Improvements.

Fire Chief Thompson, in recommending to the civic fire and light committee yesterday that three new fire stations be erected in the northwest section of the city, declared that the northern portion of the city was in a 'bad way for fire protection.'

The committee supported the proposal that a new fire station be erected on the west side of Avenue Road, north of the intersection of the street with Balmoral Avenue, and a second in the district bounded by Bloor Street, Bathurst Street, Dupont Street and Brunswick Avenue, and a third on the west side of Perth Avenue, north of Bloor Street.

Proceeding first to centre island, the party were taken by launch to the R. Y. C. wharf, where the recorder and the mayor were met by a delegation of the islanders.

ALLEGED CRIMINAL LIBEL. Philadelphia's Republican Leader Accused by Mayor's Secretary. PHILADELPHIA, June 4.—The unusual spectacle of the political leader of a great city hailed before a police magistrate on a charge of criminal libel drew a great crowd of people to the neighborhood of the Little office of Judge Gorman on Arch street, near Broad street, to-day, where State Senator James V. McNichol, the acknowledged head of the Republican organization, had been summoned on a warrant sworn out by Max Kaufmann, private secretary to Mayor Reuburn, to whom McNichol stated on Tuesday he gave \$10,000 for the use of the Law and Order Society and discrediting the reform efforts of Mayor Weaver in 1905.

## LAD SHOT THRU BODY BY SMALL COMPANION

Didn't Know Rifle Was Loaded and Told Little Fellow to Pull the Trigger.

George Miller, a 15-year-old lad, living with his parents at 338 East Queen-street, was accidentally shot yesterday morning by Clarence Gilder, a 4-year-old companion. He is in Grace Hospital in a critical condition. The accident occurred in Miller's father's grocery store. The Miller boy let the little fellow have his 22-caliber Winchester rifle to play with and told him to pull the trigger. The bullet penetrated Miller's right lung, passing clear thru the body. How the rifle came to be loaded is not known. It had not been used for some time and was much rusted. Last night it was said there was no hope for the boy's recovery.

**Grand Jury Suggestions.**  
The lash for men who commit robbery with violence or with threats of such, or made with firearms. That inspectors of electric and gas light companies be compelled to wear uniforms. That government help be given to support the House of Industry. These were recommendations made in the report of the sessions grand jury yesterday.

**Baptist Salaries Too Small.**  
ST. CATHARINES, June 4.—At the Niagara and Hamilton Baptist Association here Rev. G. N. Simmons of Tonawanda made the statement that of the 25 ministers in this association eight were leaving their present charges this year for other churches, after pastoring none of which extended over three years. "Why are Baptist pastorates being shortened while our Methodist friends are lengthening theirs?" asked Mr. Simmons. Was it the salary question? He showed that one minister in the association was getting \$2000 a year, four \$1000, three \$800, three \$700, for \$500, five \$500 and one \$400.

## MORE SEVERE PENALTIES FOR SMUGGLED CHINESE

Those Who Evade the Immigration Act to Be Liable to Imprisonment and Fine.

OTTAWA, June 4.—(Special).—A bill amending the Chinese Immigration Act, was passed in the senate to-day. Sir Richard Cartwright stated that it was proposed to limit the free admission of Chinese students to persons under 17 years of age. He stated the law was being strengthened by making Chinese who evade the act or entered Canada by fraud liable to a year's imprisonment or a fine of \$500, or both, and also to deportation. In committee on a bill to amend the Exchequer Court Act, Senator Ferguson stated that some merit had been made of the fact that Mr. Justice Casels had declined to accept remuneration for his enquiry into the marine department. The senator stated that under the law the judge could not accept remuneration for business other than his proper court business. The bill was given third reading. The senate adjourned until Tuesday evening.

## SICK MAN LEFT ALONE. Remained in Buggy Unattended Nearly Whole Day and is Dead.

RENFREW, June 4.—Late last Friday afternoon Michael Sholes while driving to Barry's Bay took ill, apparently, for when he met John Retas he asked to be directed to a physician. Two hours later two men found the team at the same place and going to Retas's house, a hundred yards away, returned with him and found Sholes hanging out of the rig with his head on a wheel and his feet inside the wagon. Believing he was drunk they removed the horses to a barn, but Sholes remained in the rig all night exposed to heavy rain, and it was not until 2 o'clock Saturday afternoon a passing farmer took charge of him. He died on Sunday. His body, it is said, was covered with sores. An enquiry will be held.

## LINEMAN KILLED.

Emmanuel Godin, a G.N.W. lineman, living at 154 Sackville-street, was instantly killed yesterday at Brampton. He was attaching a guy wire to a pole and touched an electric light wire which was carried on the same pole. He fell 30 feet to the ground and was dead when picked up. He was 57 years of age and had been nearly 40 years with the company. Two sons are also linemen.

## Two Cent Postage to Germany.

BERLIN, June 4.—The deepest public interest has been manifested in the announcement of the approaching reduction in the postage rates between the United States and Great Britain to two cents an ounce. A high official of the German postoffice was questioned to-day regarding the possibility of extending this reduction to Germany. He expressed himself as in favor of it, provided the necessary financial difficulties from which both the United States and Germany would suffer should such a reduction with Germany be carried out.

## By-Rail to the Sun.

M. Camille Flammarion has just published a most interesting little work on astronomy for children, and in fact, for everybody who wishes to read the science in a plain form. M. Flammarion says that a railway train travelled to the sun in the uniform rate of 37 1/2 miles an hour, it would take 149,000,000 minutes to reach the sun, or 16,472 years, and from a matter of fact, the train would never reach the sun, for it would be a molten mass in the planet's atmosphere and to vapor by the sun's heat before it reached the sun. A ticket to the moon would cost only \$780; a ticket to the sun would cost \$2,875,000, and a ticket to the nearest star \$20,000,000,000.

## Brother Collected Insurance.

The Northern Life Insurance Co. are making a full enquiry into the Leigter insurance case at Kingston. It seems that William Leigter was insured by his brother George, at one time the company's agent at Kingston. When William disappeared it would seem that George forged doctor's and undertaker's certificate of death and collected the \$1000 some months ago. George committed suicide.

## The Pope's Joke.

Salutly as he is, a writer in "P. T. O." the Pope is very human, even jocular, when it so pleases him. A bishop who has just returned from Rome tells this anecdote with intense enjoyment: "The Pope asked the bishop to dine with him. After dinner his holiness smoked a Turkish cigarette, to which he is very partial. The bishop, noticing the kind of tobacco, said: "Does your holiness really smoke Turkish cigarettes?" "Yes," answered the Pope, smiling; "up to this time I have been unable to Christianize them."

## Arrested Smuggling Clothing.

DETROIT, June 4.—Thomas E. Orchard, 21, and Frank B. Haun, 18, both of London, Ont., were arrested by Special Treasury Officers Mank and Dowling to-day at the Windsor Ferry dock for smuggling a quantity of clothing across from Windsor.

## Loses a Leg.

KINGSTON, June 4.—(Special).—George Coxworthy, aged 40, received terrible injuries at locomotive works and may die. While running a small planer his right leg was cut off at the knee. John Anderson, the Renfrew magistrate, claimed he was a Queen's graduate. Registrar Chown says he was never registered or received a degree.
