HIS MAJESTY HAS BRONCHITIS CREATES CAUSE FOR ANXIETY

Illness Kept Secret for Two Days, But Inability to Greet Queen's Return Results in News Becoming Public—Specialists Remain at the Castle.

LONDON, May 5.—The kingdom was thrown into consternation to-night by the sudden and totally unexpected announcement that King Edward was suffering from bronchitis in a form which caused some anxiety to his physicians, two of whom are sleeping in Buckingham Palace to-night in order to be on hand in case of need.

The Queen hurried to the palace, and soon afterwards the public learned by an official announcement that the King had been ill for two days. The fact that his illness had been thus concealed from public knowledge increased the alarm.

King Edward suffered from a similar attack at Biarritz, owing to the inclement weather and cold winds, but it was supposed that he had completely recovered, especially as he attended the opera at Covent Garden within three hours of his arrival in London from Biarritz last Wednesday.

On Thursday His Majesty had a busy day. He gave an audience to Field-Marshal Lord Kitchener and Premier Asquith, and visited the Royal Academy. On Friday he gave several audiences and entertained Mr. and Mrs. Herbert J. Gladstone at a farewell luncheon on their departure for South Africa, and visited the theatre in the evening.

This social activity tended to reassure the public mind, but it was noticed that while King Edward was viewing the pictures at the Royal Academy he looked pale and fatigued and lacked his customary zest and sprightliness, and the members of his entourage feared that this might betoken a return of the throat and chest trouble.

The King spent the week-end at Sandringham, with the object of combating the threatened attack, and returned apparently better, but the sudden changes in the weather this week were trying to His Majesty, and finally compelled him to keep indoors. He still attended to state business, however, and granted audiences, including, among others on Tuesday, one to Lord Roberts. On Wednesday he entertained Grand Duke Michael at luncheon.

In fact, it was only to-day that his physicians were able to induce King Edward to keep to his bed and take a complete rest.

The bulletin issued at 7.30 o'clock this evening showed that the eminent specialist, Sir Richard Douglas Powell, has been called in. He, with the King's physicians, Sir Francis Laking and Sir James Reid, signed the bulletin, which says: "The King is suffering from an attack of bronchitis and has been confined to his rooms for two days. His Majesty's condition causes some anxiety."

The King is in good spirits, despite his illness, and in addition to long visits from members of the royal family, he received in audience this morning Lord Illingston, the newly appointed commander-in-chief of New Zealand, and other colonial officials. Both Sir Francis Laking and Sir James Reid will remain in Buckingham Palace through the night. It is stated, however, that this is merely a precautionary measure, as the King's illness is not grave. A consultation was held late to-night, but no bulletin was issued, it being merely reported that the King was resting comfortably.

A court circular, which was sent out about 8 o'clock, states that His Majesty was unable to meet the Queen because he was suffering from a severe cold. The Prince of Wales has been in constant attendance for the past two days, and this evening the Duchess of Argyll was summoned to the palace. The Duke and Duchess of Teck also came, but all the visitors left Buckingham Palace before 11 o'clock, and according to the latest report, the King's condition at midnight was more reassuring. Anxiety will continue, nevertheless, as it is known that His Majesty is subject to serious fainting spells.

Altho cable despatches to the New York newspapers have of late been declaring that His Majesty is in a serious state of ill-health, no attention has been paid to them, as the health of a reigning monarch, at an advanced age, is always a topic to delight the "foreign correspondent." As a matter of fact, however, English newspapers are under a restraint as to publishing any gossip which might be taken to mean that the King or Queen is seriously ill.

Not since 1902, however, has there been such an alarming announcement as that of yesterday. It will be remembered that two days before the date set for the coronation—June 26, 1902—the world was startled to learn that the King was suffering from perityphlitis, and that a serious operation was necessary. Public intercession took the place of rejoicing. Happily, the operation was successful, and His Majesty made a rapid recovery, the postponed ceremony taking place Aug. 9. His Majesty is now in his 70th year.

CHICAGO, May 5.—(Special.)—Contradictory statements as to the cause of death of Miss Elizabeth Dean, superintendent of the Frances Willard Hospital to-day, may result in an investigation to-morrow by Coroner Peter M. Hoffman. Miss Dean died in great pain, after an illness of a little over twenty-four hours, and in circumstances indicating poisoning.

The earliest report of the death of Miss Dean was of poisoning from Paris green or some coloring matter used to color green peas. It also was stated by Vernon Jones, an elevator pilot in the employ of the hospital, and Nellie Dunn, a laundress, were dangerously ill, and that others had suffered in a less degree from an illness resembling that from which Miss Dean died.

At the hospital it was stated later that the superintendent's death was caused by ptomaine poisoning from eating shad roe at a downtown restaurant Tuesday noon.

Miss Dean had served as superintendent of the Frances Willard Hospital since Nov. 1, 1909. Before that she was superintendent of the Chicago

ONTARIO'S PROBLEMS

The World wishes it to be understood that neither this article nor the ones that preceded it or may follow it is a criticism of Sir James Pliny Whitney. He is the greatest political asset, the most substantial political character, that either Ontario or all Canada possesses. Long may he be spared and on the job.

The World again returns to the problems of Ontario because of their vital character.

Our farmers are leaving the country, and those of those who are stopping on the land are only stopping because they cannot get away, and their boys and girls are waiting for the day when they can get to the city and leave the dear old farm, and the dear old home in the country, and the dear old school-house, and the dear old church. Why? The World says because the struggle against nature is too severe in the country as compared to the city. The World believes that life can be made more enjoyable, more pleasant and more profitable in the country than it is in the city. But something must be done to bring this about; and that something must be done first of all by the people themselves, next by the municipality, and next by the government of the province; but the government must lead and provide the legislation, and must in a way supply expert knowledge and also provide some money. There must be, to begin with, good roads, and there must next be better service on the steam railways; there also must be drainage; there must be cheap electrical energy for heat, light and power; and there must be a better policy of public hygiene. The World is not going to abandon the work that it has taken up in this respect; it invites the opinion of everybody in regard to it. It proposes to interview members of the legislature, ministers of the crown, members of township councils and the public generally. It wants information as to how the money can be raised for these propositions; it wants to know what the department of public works is doing toward getting better roads in this province, and getting them right away.

There is hardly a state in the United States at this moment that has not a progressive roads policy under way, and is not making headway. Some of the states have hundreds and hundreds of miles of good roads secured by the state co-operating with the municipalities. Why did we lose our good-roads man that we appointed to this job some time ago? Did he get the necessary encouragement, and was the policy that he suggested taken up? What, again, are we doing about widespread drainage? Go thru the State of Ohio, and you see land in places worth \$20 an acre, simply because it is well drained. All the farmers there are successful and thriving, and have lots of houses for help. The Ontario farmers are calling out for help, but the Ontario farmers have not houses for their help to live in. What is the reason of this condition? Why did Mr. Southworth give up the work he had undertaken in the department of agriculture and go into something on his own account? Did he not get encouragement either? Is the provincial treasury convinced that where we are spending money we are spending it to the best advantage; is it not time that we had a revision of the payments made out of the provincial treasury, with the view of seeing whether we cannot drop some of the more or less worthless and some of the more or less unnecessary payments and pay the money into the

STREET RAILWAY CONTRIBUTES AT LEAST \$10,000 TO FUND

General Manager Fleming of the Toronto Street Railway yesterday wrote E. R. Wood, chairman of the Y.M.C.A. citizens' committee, saying:

"You and your noble band of workers are entitled to the heartiest thanks of the community for the splendid undertaking you are engaged in, and I think it should be a pleasure to every person or company, who can do so, to give you a lift.

"Holding these views, I have discussed the matter with our board of directors, and they have decided to turn over to you the receipts taken on the cars next Saturday, less \$5000.

"Upon an ordinary Saturday the receipts will amount to probably \$13,000, but believing that the public will generously ride upon the cars next Saturday to help along a good cause, the receipts should be far more than the ordinary, but whatever the receipts are over \$3000 will be handed to your committee.

"Should the receipts taken in for the day not amount to enough to provide \$10,000 for your building fund, then the company will contribute whatever sum is necessary to guarantee you this amount."

MINERS CAUGHT FIVE HUNDRED IN A LIVING TOMB

BIRMINGHAM, Ala., May 5.—Forty-five white and 135 negro miners are entombed to-night in No. 5 coal mine at Palos, Ala., 40 miles west of Birmingham, as the result of a terrific explosion to-day. It is believed that all are dead. The mines are owned by the Palos Coal and Coke Company of Birmingham. Two bodies were found early to-night, but it is thought few can be recovered before morning.

The flames from the explosion shot 200 feet into the air, and the shock was felt for miles. Timbers were hurled several hundred feet from the mouth of the mine. Rocks from the roof caved in and made access difficult. The fan machinery was damaged, but air is being pumped into the mine to-night in hopes that some of the men are still alive. A special train with physicians, surgeons and undertakers arrived at Palos late to-day. A hospital relief also was sent from Birmingham.

The first rescuers who went into the mine after the explosion were overcome by firebrand, and had to be carried out.

James Gousby, a mail carrier, was caught by the explosion 90 feet from the mouth of the slope, and his body was hurled into the Warrior River. Hundreds of women and children were around the mine, wringing their hands and crying piteously to-night.

To-day's disaster, coming so soon after the Muga explosion of April 21, when 41 men lost their lives, has plunged the mining settlements in grief.

AN OPEN VERDICT AT THE FINTON INQUEST

Conflicting Evidence Puzzles Coroner's Jury — House-keeper Swears to Having Seen Tom Put Something Like an Iron Bar in His Rig.

STONY CREEK, May 5.—(Special.)—Too much mystery surrounded the death of Elijah Finton to convince the jury at the inquest held here to-night. After deliberating from 10 o'clock to 11.45 p.m. they returned an open verdict.

We find that Elijah Finton came to his death on the morning of April 28, at his farm at Saltfleet, by being struck on the head with some heavy instrument which came from the hands of some person unknown to this jury.

It is understood that much evidence has been withheld by the crown, but only sensation to-night being the evidence of Mrs. Kerr, housekeeper at the Finton house, who said she saw Tom Finton, son of the dead man, put something that looked like an iron bar in his rig before he drove away that morning.

More evidence to the effect that deceased had been greatly annoyed was adduced. Tom had money in his possession when arrested that could not be accounted for by his employer's book. His statement about his father having helped him hitch the wagon was disproved, as well as the evidence of Teresa Dean, who thought she saw Finton at the house after Tom drove away.

Tom seems to be the only one of the family who is not able to explain the movements on the day in question. "His statements seem to be contradictory," said Coroner B. E. Thompson, when addressing the jury.

Would Swear to the Cough. Mrs. Teresa Dean, aged 38, swore that she worked for deceased for the week prior to the murder. While on the job, she was taken to the Finton house that Tuesday morning, she saw Tom Finton, who was driving a rig, and that he passed her his cash. "It looks like money," she said. "I took it home with me." She went to the driving shed about 9 o'clock and secured some string to tie the grape vines with. She never saw nor heard anything about the man. George Finton was working on a wood pile.

Some one opened the kitchen door and coughed. The cough sounded like Elijah Finton. She hurried thru the barnyard so that she would not be asked into the house to play checkers, as Mrs. Kerr had done. "Elijah was not in the kitchen at that time," said Crown Attorney Washington. "No matter if 40 men swore he was not, you would swear that you had coughed at the door."

"I would swear to the cough," she said. She saw the side of a face also, but after being questioned about his cough she would not swear it was deceased.

Had Seen No Quarrel. She lived at the Finton home for five months in 1909. She saw no quarrelling between deceased and Tom. Mrs. Thomas Finton had quarrelled once with Mrs. St. John over some tea. William Harrison, an employe of G. M. Blair, said he left home at 8.40 a.m. Tuesday for Hamilton. On the road Tom Finton passed him. He saw Tom again at the Court House Hotel in Hamilton. Tom told him about his father having dropped dead and said that he had left him while he was building a pig trough in the drive barn. His father had helped him hitch up, said Tom.

George Miller, revee, was again called. He corroborated Harrison's evidence about leaving. When he had looked at the body he followed Tom, who had not approached closely, and suggested that "tramps might have

COLLEGIATE SCHOLARS MUST PAY HIGHER FEES

Cost of Tuition Was Twice What Pupils Paid—Wesley Smith After the Hydro Again.

HAMILTON, May 5.—(Special.)—The non-resident pupils in attendance at the collegiate institute will hereafter have to pay \$40 per year, while those who are non-residents and who board in the city \$30 per year. This decision was arrived at at a meeting of internal management committee of the board of education this evening. All non-resident pupils have paid in the past was \$20 per year, and the cost per pupil is \$47.

It was thought that as the institute was in an overcrowded condition, that a step to check the outside attendance would be advisable, and that the city should also get figures that are near the front of tuition. Seventeen pupils in school section No. 1, Barton, will be allowed to attend the school at a school at \$25, which is east of the city.

The committee recommended that Lord Strachan's offer of \$1000 be accepted, and that the board make a grant of \$25 to the Seaman's Society. Flagg on all the city schools will be hoisted to commemorate the anniversary of South Africa's natal day. A letter from the teachers asking that yearly contracts be amended by the insertion of a release clause, was referred to the salaries committee. Miss Agnes Tooley and Miss Fannie Sutherland applied for positions as school teachers, and Miss Josephine Williams for the position of domestic science teacher.

The salary of Carlisle Stewart, art of the Barton-street school, was increased from \$475 to \$500 as the school was enlarged from 8 to 16 rooms.

The library board met this afternoon and discussed plans for the new library building, but arrived at no definite decision. The National Battlefields Commission presented the board with a bronze medal of Champlain.

After the Hydro.

Wesley Smith is not satisfied with the meaning of the Hydro people at the award of J. Walter Gage, who acted as sole arbitrator between the parties in making a deal to allow the Hydro company to erect lines and to transmit power across his property in Glanford. This morning, acting for Wesley Smith, Geo. Kerr, K.C., made application for a fiat in order to take action against the commission and secure the interpretation of the courts as to how the money should be paid. The application was made to the attorney-general.

There is an air of mystery surrounding the whereabouts of Richard Sandwell, a cement and sewer contractor, who resided at 202 Canada-street, yesterday morning at 10 o'clock he left his home and family, which consists of a wife and two young children, and he has not been seen or heard of since.

The strike of the union millwrights which has been going on for two days, was partially settled today, when the Bowles Jamieson Company announced that it would open a shop on Monday next. The company has agreed to take back the men at the scale in force when the strike was declared.

Controller Allen took a rap at Hamilton's wealthy class today when the board refused to build a children's shelter. He said that all the most of the members of the local Children's Aid Society were rich, the organization only collected \$157 for its work last year. The G. T. train came from the north, jumped the track at Burlington Junction last night, but luckily none of the coaches were overturned, and no one was injured.

Quite a Scorch.

Ernest Langley, an employee at the asylum for the insane, was fined \$20 and costs at the police court this morning for furious driving. According to the evidence, Langley and a friend named Armstrong collided with a car between Waterdown and Hamilton.

His lordship, Bishop Dowling, accompanied by Rev. Father Bonomi, went to Caledonia this morning, where the bishop held the first of a long series of confirmation services. His itinerary will last six weeks.

Representatives of a large brass manufacturing concern of London, Ont., have been in the city recently looking over the ground with a view of locating here. The local conditions are such that they make a strong appeal to the London people, and the announcement of another large industry for Hamilton may be made shortly.

BOARD FAILED TO AGREE ON MEDICAL INSPECTOR

Recommendation to Appoint Dr. MacMurphy Referred Back—Inspection System Approved.

The City of Toronto is to have a system of medical inspection in the public schools, and that system is to be under the supervision of the board of education, and not of the city medical health department. The city as yet, however, is incomplete, the recommendation to appoint Dr. Helen MacMurphy being referred back by the board.

Trustee Clara Brett Martin started the ball rolling by producing the evidence, promised to Dr. Bryans at the meeting of that board last week. She read certain reports which she had received from Washington, stating the method of medical inspection now being carried on in several of the larger American cities, and arguing that they were all under the board of health.

"In New York, Chicago, Philadelphia and Cincinnati," said Trustee Martin, "this system of inspection is carried on under the board of health department. Why do we want to shoulder ourselves a system which will eventually be a very expensive one, and which as yet has not been tried and proved in our own city?"

A deputation from the League of Women was heard through Mrs. Archibald Huestis and Mrs. Torrington, who both expressed their great desire that the board should see their way to the introduction of the new system, and especially that they should appoint as medical inspector Dr. Helen MacMurphy.

After much wrangling and many attempts to have the entire question go back to the management committee for further consideration, a recommendation for medical inspection carried by the following vote:

For—Smith, Ogden, Davis, Conboy, Simpson, Evans and Lewis—7.
 Against—Hodgson, Rawlinson, Martin and Agnew—4.

But the big strike came when the system had been adopted and it was necessary to appoint a medical inspector. Then votes were at a premium and oratory plentiful. The recommendation of the management committee was that Dr. MacMurphy be appointed. Trustee Levese asked to have the name of Dr. Willmott Graham substituted.

Rather Mixed.

"Dr. Graham starts Trustee Martin," "So is a young man and unmarried."

"So is Dr. MacMurphy," interrupted Trustee Rawlinson. "If we are going to have a medical man at all, we ought to have Dr. MacMurphy."

Trustee Levese then read a letter of recommendation which he had received from Dr. Sheard as to Dr. Graham's ability to fill such a position.

Here Trustee Martin interrupted: "Dr. Sheard has always been a supporter of Dr. Graham, and he is to the woman of his own profession, and his recommendation in this case should not be relied upon."

Trustee Rawlinson's chief reason for supporting Dr. Graham seemed to be embodied in his statement, "You have already appointed three nurses, now you surely don't want to employ another lady doctor."

Man Gets Promotion.

Another reputation, consisting of the ratepayers from Deer Park, were there to protest against the expected action of the board in proposing for appointment to the principalship of this newly annexed school, a lady teacher, Miss Harriet Johnston, principal of the Girls' Home. Dr. Conboy moved, on behalf of the deputation that the name of J. A. Brown, assistant master at Fern-avenue School, be substituted, claiming that Mr. Brown was not getting his promotion in due course. Trustee Simpson made a strong general plea for the lady teachers, but Mr. Brown got the berth.

After traveling the rounds of the various committees for almost three years, the motion to make Dr. MacMurphy principal of the high schools was ruled out of order on the suggestion of Trustee Levese, that the official could not be appointed before the position had been created. Chairman Simpson, on being appealed to for the ruling of the chair, sided with Trustee Levese.

ST. AIDAN'S CHURCH IS FORMALLY OPENED

Bishop of Toronto Dedicates New Edifice—Total Cost Will Be \$40,000—County News.

BALMY BEACH, May 5.—(Special.)—The opening of the beautiful new St. Aidan's Anglican Church under circumstances more than ordinarily auspicious took place here to-night, the dedication services being in charge of his lordship the Bishop of Toronto, and a number of local clergy.

St. Aidan's, the latest addition to the splendid circle of Anglican churches that within the last few years have graced the city, is located at the southeast corner of Queen-street and Birch-avenue, and in its general appearance and artistic and beautiful architecture, is unrivalled by few modern structures in the city.

The first sod of St. Aidan's was turned on the last day of July, 1909, by Canon Dixon in the unavoidable absence of his lordship. Later in September, his lordship officiated at the laying of the corner stone, and since that time the progress has been uniformly rapid. From a tent to the nucleus of a great structure as St. Aidan's will be when fully completed, has been a comparatively rapid transition. The new parish church, only the nucleus of which will be completed at present, will cost \$40,000, and cost approximately \$18,000. The whole structure will cost \$40,000.

The opening and dedicatory services were conducted to-night by the rector, Rev. E. A. McIntyre, assisted by Rev. W. L. Baynes Reed, rector of St. John's Church, Norway. Rev. Canon Dixon, rector of Little Trinity, and, in fact, the father of St. Aidan's movement, was present during the evening.

Bishop Sweegy delivered the sermon, basing his remarks on Psalm 122 and 2, "I was glad when they said unto me, let us go up to the house of the Lord." "I want to impress upon your minds the memory of the association day dedicatory service," said the Bishop of Toronto. "I may say that St. Aidan's church shall stand as a protest against the evils that threaten the state and society. I would that the churches of our city were open from early morning to dewy eve, that those who cannot obtain their own homes spiritual consolation, might obtain it in our sanctuaries. The Oriental lands teach us a great lesson in this respect."

In the historic old pavilion on Balsam-avenue, on Ascension morning, Rev. E. A. McIntyre, officiating, early celebration was held.

The opening services will be continued on Sunday morning and evening. The offertory last night was especially generous and it is expected that by June 1, a large share of the initial cost will be provided for. St. Aidan's, under the rectorship of Rev. Mr. McIntyre, has made marvelous progress.

NORTH TORONTO.

Matters Municipal Said to Be Allowed to Drift Along.

NORTH TORONTO, May 5.—(Special.)—A meeting of the public school board was held to-night in the Davila school, but beyond a number of routine matters, there was little of outstanding interest.

Northern Lodge, I.O.O.F., entertained the members of the city brethren last night, when an enjoyable time was spent.

The cricket match, scheduled for Saturday afternoon, between Yonge-street east and Yonge-street west, Edward Park C. C. members, is looked forward to with much interest. The evening practices are being well attended by those preparing for the contest.

The condition of Yonge-street is just about as bad as it could possibly be.

EAST TORONTO.

Local Y.M.C.A. Never Had Such Prosperous Year.

EAST TORONTO, May 5.—(Special.)—The annual election of officers in connection with the East Toronto Y.M.C.A., held in the hall here to-night, was in all respects the most successful in the history of the local branch. The enthusiasm was unbounded, and the attendance has never been surpassed or even equaled. A feature of the evening was the luncheon served by the ladies' auxiliary to all those taking part in "The Old Maid's Convention," the delightfully humorous play recently given here on two occasions by local talent. There was an abundance of good things and a happy time was spent by all.

Mr. and Mrs. C. J. Bell have done magnificent service in the cause of the Y.M.C.A., and this is freely conceded by all.

These officers were elected: Mrs. C. J. Bell, president; Mrs. D. Lloyd, vice-president; Mrs. C. Mitchell, secretary; Mrs. McEattie, treasurer, and Mrs. Liddell, chaplain.

QUEEN'S OWN PAGEANTS WILL PROVE INSPIRING

Hundreds of Performers to Present Scenes Illustrative of Four Great Epochs in Canadian History.

Preparations for the great pageant in connection with the Queen's Own Rifles reunion got well under way yesterday. Pageant Master John Henderson of London, England, got on the job yesterday. In the afternoon he met 60 riflemen who responded to the call of Lady Pellatt, and assigned them their roles. In the evening he selected the first 200 men, who are to be the first of the four epochs, and are to give a comprehensive presentation of Canada's evolution from 1783 to the present day. There are over 200 prominent historic persons to be represented, besides over 600 minor parts for adults and 400 for children. The performance will last a full stage 90 feet long by 75 feet deep, and the setting calls for 750 characters on the rostrum at one time. A band of continental and scenery arrived yesterday, on which the freight was \$400.

The first epoch of the spectacle will portray historic men and incidents of Canada from 1783 to 1812, when George Simcoe returned to England. The second begins with the invasion of Canada in 1812 by the Americans. It will be presented in two parts, the first including the battle of Lundy's Lane and the Laura Secord incident, and the second ending in 1817, shows the destruction of Montgomery's Tavern and the silent incidents of that rebellion.

The third epoch includes Ridgeway and the Red rebellion with the Queen's Own Rifles in action at Cut Knife Creek.

The fourth epoch takes place in front of Buckingham Palace, with the "Canadian gates" represented in full size as a background. The final scene begins with a procession of kings and queens and historic characters, from the Conqueror down to the present day. Four hundred children will take part in this spectacle, and will sing patriotic songs of all the British dominions. Thirty Indians have been enlisted from the Brant Reserve and a caravan will be made of the negro colony for ebony character of the negro colony.

There is a room for some ex-members to take part. Those willing should present themselves Monday night at the St. Lawrence arena. Mr. Henderson was a little disappointed because more of the present members of the regiment did not show up last night. All men already signed are expected to report Monday at 3 p.m. sharp.

The railway agents at a meeting yesterday decided on single fare excursions to Toronto for the pageant week.

Examining Architects.

WINNIPEG, Ont. (Special.)—An order-in-council passed this morning appointing the board of examining architects for Manitoba. They are William England, J. H. G. Russell, H. McEwen, W. Percy Over and Prof. E. Brydon, who will represent the university.

EATON'S DAILY STORE NEWS

Five Hours of Carpet Selling

We have arranged a galaxy of star values for Saturday morning buyers — the original prices of these goods have been lost to sight, for we have trimmed the figures beyond recognition.

How necessary it is to make an eight-o'clock start is plain; for the time is limited.

English Tapestry Carpet, of 10 wire goods, in itself a guarantee of the durability and the excellence of its wearing qualities. The assortment of patterns and colorings is unusual. Some have borders to match. Saturday morning value, yard, .73.

English Tapestry Squares, a special lot, taken from stock and marked down for a quick clearance; all are good patterns, in florals, chintzes and conventional, including among the colors red, green, brown and fawn. Three good, useful sizes: 2½x3½, 3x3½, and 3x4 yards. Saturday morning value, each, \$7.39.

Fine Persian Rugs, 25 in the lot, are of the Hamadon quality, in medium and light shades. The average size is 2-4x3-5. Saturday morning value, each, \$1.69.

Ornate Japanese Rugs and Mats, are purely summer fabrics, that can be used in almost any room from attic to parlor. Fancy printed and inlaid patterns, come in the following sizes:

9x12 feet, each, \$2.50; 6x9 feet, each, \$1.25; 3x6 feet, fancy, .40 each; 3x6 feet, .35 each; 2½x3½ feet, .30 each.

All-Fibre Stair Matting is another good summer stock, with which you should be acquainted. It's serviceable for halls and stairs, some mixed wool and fibre carpets, in red, blue and tan; come in widths of 22½ inches. Saturday morning value at, per yard, .16.

English Motile Axminster Rugs, 30x60 inches, with fringed ends, together with some domestic hit-and-miss Smyrnas, are pretty in bedrooms, etc. Make a strong Saturday morning value at, each, \$1.23.

Chinese Verandah Matting Seats at 2 for .5.

Are made from heavy grass, strong plaited. They're handy for porch and verandah use. Saturday morning value, 2 for .5.

Stair Oilcloth, from a special purchase of a manufacturer's dropped patterns. Comes in bright finished designs, and is an excellent Saturday morning prize at, 18-inch painted back, yard, .19; 18-inch canvas back, yard, .9.

A Dollar Waist of Exquisite Daintiness

You can scarcely call it a lawn waist, there are so many rows of insertion set in. First comes a row of fine Swiss insertion, then lawn, then a row of embroidery insertion of pretty open pattern. The entire waist is of this design, with the daintiest round yoke of Val insertion; finished with pretty three-quarter sleeves and high collar; buttoned back; tucked and trimmed. Sizes 32 to 42. Saturday 1.00

Children's Sturdy Wash Dresses Half Price

Scenes of buying activity have been very apparent in this section during the last few weeks, consequently many odd lines and broken sizes have accumulated, which we've priced to start a brisk half day's business. Among them are fancy striped and checked percales with yoke belt and cuffs of plain piped chambray—plain percales with fancy strappings and pipings—little sand dresses with bloomers attached. Colors include blue, pink, red, and brown with white, also plain sky, brown, navy and white. Sizes 2 to 14 years. Half price, .62.

SECOND FLOOR—CENTRE.

Silk and Dress Goods Remnants at Less Than Cost of Material

With a big day's business to meet, and only five hours to do it in, we've prepared inducements that should mean a steady rush from the stroke of eight.

From the factory and store we gathered thousands of yards of remnants of Wool Suitings and Dress Fabrics in almost every popular spring weave, in lengths varying from one-half yard to seven yards, and have priced them at but a small fraction of cost of production. Big color range. Clearing, per yard, .19.

Silk Remnants, 25c yard

All Small Lots of Silks, odd shades, and left-overs from recent selling, with lines from our regular stock, comprise this tempting lot, and include Taffetas, Tamolines, Peau de Cygne, Japanese Habutai, etc.; in lengths from one yard to dress lengths and over; good color assortment. Saturday, per yard, .25. Can't promise phone or mail orders.

Double Extension Cameras of the Folding Camera Model

complete "pleasure" camera ever offered; suitable for plates or films.

The Frame Work is of aluminum (very light of weight), covered with finest black morocco leather, all fittings nickelled. The double extension bellows make possible a very much larger range of work; naturalists, for instance, have need of such a camera for photographing insect life. In this double extension folding model simplicity and compactness are combined with practical usefulness. According to lens and shutter, prices range from 25.00 to 55.00.

THE T. EATON CO LIMITED

The Toronto World

FOUNDED 1891. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO. Corner James and Richmond Streets. TELEPHONE CALLS: Main 100-Private Exchange Connections All Departments.

FRIDAY MORNING MAY 6, 1910. GET ON WITH THE TUBES. We are making some headway now in regard to tubes. There are two things, however, that we wish to bring prominently before our readers and the citizens generally. The first is, that inasmuch as we have at last got a lawyer whose main business will be to straighten out our traction tangles, we ought next to get, and right away, a traction expert who is posted as to surface and underground roads. Why should we delay in getting this man and putting him on the whole proposition? And no man is too good for this job for Toronto.

Our next matter concerns how we are to finance the tubes. We can build them on the proposition itself; there are contractors who will build the tubes as many miles out as we want on the bonds of the city, secured by the undertaking itself. We do not even need to go on the money market to borrow the money, we do not need to have these bonds interfere in any way with our debt or our other assets, but men will undertake gladly to build the tubes on the security of the proposition itself and nothing more, so that the tubes are already financed as a matter of fact, and the schemers and pessimists who are going about asking how will we get the money, have no foundation for their ground.

Let us get an expert and let us get the proposition outlined, and then invite a competition of engineers and contractors as to what proposition they will make. The city will be surprised and the citizens will be surprised at the magnificent offers that will be sent in and how quickly they will undertake to give us almost immediate traction relief, and how soon every radial may be brought into the city on the city's terms and to the advantage of the people so coming in and going out.

SOFT SAWDER JOURNALISM. Ontario just now is the home of soft sawder journalism. It abounds mainly in Liberal columns. It is afraid to discuss traction and electric grievances; it delights to expound moral reform. There are some Conservative journals equally active in the service of electricity at high prices, and trolley traction to their readers at monopolistic rates.

Let the citizen who takes a paper gradually get to know this kind of a newspaper and treat it as such. The Liberals will be surprised to see how many daily papers of this kind are doing business in Ontario.

WHERE IS ALECK? These are days of refreshing. Where is Alex. MacKay, leader of his majesty's loyal opposition in Ontario? Is he going on the stump this summer to tell the people about electricity, traction, good roads, education, crown lands, drainage, the administration of justice, etc.? He should be holding a meeting every night, right among the plain people.

Reverend Doctor James Macdonald of the Globe might be glad to accompany him. The way to power and greatness lies thru such personal sacrifice, thru such political consecration. It is also the way to that serenity of soul that comes from the doing of good and the helping of the lowly. Go forth, Alex., and take the editor with you!

FIRE PROTECTION FOR COLLEGE HEIGHTS. The trouble the aldermen are having in trying to locate a fire station on the College Heights is reminiscent of the old story of the man who tried to please everybody and ended by getting them all disgruntled. It's really funny—the residents crying out for fire-protection and then objecting to it! Why? Why should a fire station depreciate the value of surrounding property? Nowadays, the buildings here are constructed with an eye to appearance as well as for utility. And a well disciplined fire station permits no objectionable hangars-on.

There seems, indeed, only one reasonable objection—that of stabling the horses. But suppose Chief Thompson advised his committee to consent to the introduction of automobile apparatus? Detroit, a city in character resembling Toronto, is finding automobile fire apparatus—in the way of horse wagons, steam engine and a general utility truck—a real success. An automobile combination chemical and hose truck would be just the thing for the residential districts to the north, where it could cover a wide area. Let's be up-to-date.

THE MEDICAL HEALTH OFFICER. Very little progress seems to have been made in the last week about securing a new medical health officer. Perhaps the board of control and the city council, having got over the typhoid scare, imagine that Providence will take care of the city until another thaw out of the winter sewage.

people have a different conception of the situation. Is the delay due to the increased pressure necessary to bring one or two of the controllers up to the point where he can feel that \$5000 is not too great a salary to pay for a man capable of looking after the city's health? If the delay results in an accession of generous instincts governed by business-like acumen, the city will not grudge it. But the board of control must learn that a good man is not to be had for less than \$5000, and if the figure offered approaches more nearly \$10,000, the city will not regret it.

Dr. Amyot appears to be the only man under consideration at present, and no doubt he would make an efficient officer, even if his experience has been more confined to bacteriological laboratory practice than to practical outside work. The objection that all said to have been raised in some quarters touching Dr. Amyot's theological views would be ridiculous almost anywhere else than Toronto, but we are dealing with people in this respect, and the sectarian aspects of an epidemic give us pause.

There is a gentleman at Ottawa who has not been mentioned, and probably not approached, and it is doubtful whether he could be secured. A liberal salary would at all events be necessary, and he would be as unlikely as Dr. Hodgetts to descend to the huckstering which the controllers appear to think proper.

Dr. Drum, or Major Drum, as he is known, is the gentleman we have in mind. He is acting director-general of the permanent army medical corps. He is a D.Ph. of McGill, and a medical graduate of high standing. His military training and his familiarity with office routine and his excellent executive record are just what is needed in the vacant position in Toronto.

AHEAD OF THE TIME. Rev. Dr. By, undertook an unusually difficult task, when he set about introducing a broad-minded policy of Christian appeal to the unchurched masses in Toronto. Dr. Eby appears to think that it is better to get people in touch with Christianity, even if they are slightly heterodox or lacking in reverence for some of the creedal requirements. But he "got in wrong" with the congregation in which he began his experiment, and the timid older Christians feared that the presence of theologically unkept and tattered creatures in the house of God might do more injury to the house than good to the visitors. It certainly looks as though Dr. Eby had more faith in God than his orthodox congregation has.

Perhaps he may be able to find a congregation as willing to do missionary work among the heathen at home as to send workers to do it in China or India. Col. Roosevelt proposes to preserve peace by going to war with any nations that propose to break it. This is reminiscent of the old saying that an Irishman is never at peace unless he is fighting. The ex-president must have a Celtic strain in his mental anatomy.

Earl Grey's estimate of the tremendous potentialities of Canada invites the reflection that, they measure her responsibilities. Vast resources that are not conserved for the public benefit can easily become the cause of a country's failure to achieve the position which appeared to be its destiny.

City planning is a live subject all over the civilized world to-day. Why should Toronto, which prides itself on being the most progressive community on the continent, be conspicuous for its indifference to this important matter? At present the city council does those things it ought not to do and leaves undone the things it should do. The remedy must come from an awakened public spirit on the part of the electorate.

Stole a Horse. NORWOOD, May 5.—A man by the name of Cassan, who lives on the Mar-nora-road, east of Havelock, has been arrested for stealing a horse near Trent Bridge, and lodged in the Belleville Jail. The officer who visited the home to recover the horse also discovered a large box containing 15 live hens. Enquiries being made Miss Susan McPherson laid claim to them and identified the same as being her property, which were stolen from her yard last week.

Will Represent Canada. Rev. Dr. Carman, Rev. T. E. TRIED TO BRIBE DOCTOR TO HELP FREE PRISONER

Charge Which Editor Makes in Returning to an Attack on Release of Skill and King.

MONTREAL, May 5.—The Canadian Municipal Journal, which originally stirred up the Skill and King case, and whose article last month read in parliament by A. C. Boyce was the beginning of the criticism directed against the minister of justice, returns to the attack in this month's issue. In an open letter to Mr. Aylesworth, Mr. Harry Braze, the editor, restates the minister's statement in parliament that the first article was an instance of a "newspaper writer fabricating his own news in his own back office" by quotations from the records of the case. Mr. Braze continues: "First, sir, let us ask whether it be true that after the sentence a relative of one prisoner (whose name can be supplied) came from Winnipeg with a letter to Mr. —, who suggested an interview with a certain medical official in order to secure, by means of a generous fee—a certificate of tuberculosis, upon which to secure a release; whether the official refused the fee; acted officially; but did not give the certificate desired." * * *

Mr. Braze continues: "This firm did two kinds of business under three firm names, in two distinct rooms. In one room they sold ordinary books, but drove away at least one customer (and he a college professor and interested in the classics) by constantly showing him indecent books with disgusting illustrations. In an inner room this respectable firm had the books which were so stupidly and wrongfully condemned—according to your humble opinion." * * *

"Now, sir, it may be well to call your attention to some case which resembles Arthur G. Robinson was sentenced by Police Magistrate Denison on October 23, 1908, for sending obscene matter thru the mails. He was shown in other words to be vile. You, sir, let him out on parole—a most unusual proceeding.

"George R. Cummings was sent down by Judge Riddell, October 12, 1907, for sending indecently filthy matter thru the mails, the sentence being the maximum, 2 years less one day. He also was paroled by you, serving until August 4, 1909." * * *

"Your action in liberating men who were pouring filthy and disgusting books broadcast into the United States after the government had asked to have the business stopped by Canada, is an affront to our neighbor nation; your statement that they were not guilty is an insult to bench, bar and police, who arrested and tried them, as well as to the intelligence of the public." * * *

"A man whose opinion on books has no rights in the premises, and T. M. B. Kuntz has the sole right. Mrs. W. is entitled for her life to the revenue from the sale of books, and as the executor of the house and as the executor cannot sell this property under par. 23 of the will as it is specifically disposed of—if it be thought best in the interest of all concerned that the house be sold, there can be no objection to the executor's selling the house, and as the price obtained for the house or the revenue therefrom. Such an arrangement with a lawyer properly approved by the official guardian may be submitted to the court at any time. The executor's consent to the sale of the house, costs of all parties out of the fund in question.

AT OSGOODE HALL

ANNOUNCEMENTS.

Toronto, May 5, 1910. Judge's chambers will be held on Friday, 6th inst., at 10 a.m. Peremptory list for divisional court for Friday, 6th inst., at 11 a.m.: 1. French v. Brink (to be continued). 2. Federal Life v. Siddall. 3. Chalmers v. Iron. 4. Morley v. Patrick.

Peremptory list for court of appeal for Friday, 6th inst., at 11 a.m.: 1. Dominion Express Co. v. Maughan (to be continued). 2. Foley v. Barber. 3. Agas v. Hogans. 4. Toronto General Trusts Corporation v. Ottawa Terminal Railway.

Master's Chambers. Before Cartwright, K.C., Master. Whaley v. Wallington—T. A. Gibson, for plaintiff. An application by plaintiff for a final order of foreclosure. Order made.

Falls v. Town of Sturgeon Falls (two actions)—G. F. Farland, for plaintiff, in each case. Motion by plaintiff in each case for costs. Order dismissing action without costs. Order made.

Falls v. Ryan—F. J. Roche, for defendant. In re Ryan, for defendant. Motion for leave to issue a subpoena duces tecum to the registrar of East Toronto. Order made.

Great West v. Shields—J. D. Falconbridge, for plaintiff. M. L. Gordon, for defendant. Motion by plaintiff to strike out statement of defence. Motion adjourned to allow of cross-examination of defendant. Order made.

Beattie v. Capital Investment Co.—C. Porter, for plaintiff. Motion by plaintiff for leave to issue a subpoena duces tecum, and for service of same on defendants in Chicago. Order made.

National Bank v. Austin—J. F. Boland, for plaintiff. C. W. Kerr, for defendant. Motion by plaintiff for an order to set aside a judgment. Plaintiff ordered to attend for further examination on 7th inst., at 11 a.m., on default action to be dismissed with costs. Costs of this motion to defendants in any event.

Chaine v. National Trust Co.—S. J. Slatford, for plaintiff. A. W. Hunter, for defendant. Motion by plaintiff to vary order of April 1. Order varied. Plaintiff ordered to attend for further examination on 7th inst., at 11 a.m., on default action to be dismissed with costs. Costs of this motion to defendants in any event.

Chew v. Caswell—M. G. L. Gordon, for plaintiff. G. Grant, for defendant. An appeal by G. Grant, for defendant. Taxing officer at Toronto. Judgment. The taxing motion must be refused with costs.

Single Court. Before Mulock, J.C. Re Dale and the Township of Blanshard, K.C., for respondent. An application to quash a by-law of the Township of Western. Judgment. The objections in substance resolve themselves into two (1) that the by-law did not receive a majority of the votes of persons qualified to vote thereon; (2) that the voting was not conducted in accordance with the provisions laid down in the Municipal Act. The court held that whether the holding a legal meeting, or the failure to hold a legal meeting, or the failure to call in question the findings of the county court judge as to the qualifications of the persons whose names are placed upon the voters list. This objection therefore fails.

Re Estate of Elizabeth Perrie—G. Lynch-Staunton, K.C., for executor. F. W. Harcourt, K.C., for class, etc. G. H. Levy, for societies benefited. A motion by executor to set aside the construction of will of E. Perrie. Judgment. An order may, if deemed necessary, go appointing the societies for whom Mr. Levy appears to represent, as residuary legatees. It would appear the effect of the paragraph is to continue the enjoyment of M. E. Kuntz. Mr. Perrie in the event remains unmarried. Then it is plain that as the enjoyment of the house and of the revenue therefrom is joint occupancy being the right of survivorship, Mr. Perrie's representatives have no rights in the premises, and T. M. B. Kuntz has the sole right. Mrs. W. is entitled for her life to the revenue from the sale of books, and as the executor of the house and as the executor cannot sell this property under par. 23 of the will as it is specifically disposed of—if it be thought best in the interest of all concerned that the house be sold, there can be no objection to the executor's selling the house, and as the price obtained for the house or the revenue therefrom. Such an arrangement with a lawyer properly approved by the official guardian may be submitted to the court at any time. The executor's consent to the sale of the house, costs of all parties out of the fund in question.

FIRST "POP" CONCERT FILLS MASSEY HALL

Miss Beddoe, Soloist, Scores a Triumph—Fine Program by Symphony Orchestra.

The first of this season's "Pop" concerts by the Toronto Symphony Orchestra came off last night at Massey Hall in glory.

Soloist a Canadian. Miss Beddoe, mezzo-soprano, "mezzo-brunette," with an attractive personality and gifted with full deep-toned dramatic voice of excellent range.

She studied in this city, Boston, Chicago and Dresden, and is now the chief characteristic of her vocal style from Frau Auer-Herbeck of Dresden.

The Miss Beddoe was enthusiastically received and the audience, which was wholly delighted.

I have more than once pleaded for the songs of Robert Franz on concert programs. I had thought that she lacked temperance in her choice of songs.

My dearest, she proved that she could splendidly subordinate technique to the emotional interpretation of a song.

SEMI-LIQUOR TO OBY BELT FINED AND LOSE LICENSE

Toronto Liquor Dealers Suffer Heavy Penalty For Infraction of the Provincial Laws.

Forty dollars and costs, including the expenses of Provincial Constable Stewart, was the penalty imposed upon Turner & Co., wholesale liquor merchants of this city, by Magistrate Denison, in police court yesterday morning.

The company will also lose its license. It was shown that the liquor was shipped in a sugar barrel and in bottles labeled unfermented wine.

For the defense James Haverson, K.C., contended that when the liquor, which had been consigned to T. G. Fitzgerald, reached the town of Niagara it was seized by a provincial inspector.

However, Magistrate Denison believed it was the kind of a case that the fact was intended to meet, and that the sale of the liquor was completed at the moment it had been delivered to the possession of a common carrier to be forwarded to its destination at Niagara.

The government analyst certified that the bottle of wine analyzed by him on April 19, contained 78 per cent. of proof spirits.

Provincial Secretary Hanna, in a statement, later said: "The government has adopted a decided policy in this matter. In selling liquor in transit the officers of the department are to be instructed to have very special instructions not to be content with seizing the supplies in transit and arresting the men in charge, but to go back and trace the liquor to the source of supply."

Whenever we find a wholesaler, a shop licensee, the holder of a warehouse license, or a retailer, who is dealing with the blind public, we intend to make it our very particular business to see that the parties—whenever they are not the same—expressed an opinion that they do not have a license after the first of May following."

Woman Cuts Her Throat. Mrs. Mary Evans, in Ill-Health, Tried to End Her Life.

With a dime novel entitled, "The Fatal Dose," lying on a table by her side, Mrs. Mary Evans, 123 Erie-avenue, in the "Midway" district, East Toronto, was found at 6:30 yesterday morning by her son. Her throat was deeply cut with a razor. She was hurried to the General Hospital, where she is said to be recovering, although her wound is serious, several small arteries being severed.

Police FAKER at Work. Seeks to Beguile Old Country Farmers With Will Story.

A report received by the superintendent of provincial police that a man representing himself to be a member of the Metropolitan Police of London, Eng., is making dupes of English immigrants, who are settling in the province. He calls upon a family with the plausible story that they have been mentioned in the will of some relative who died in Australia, and left a lot of money. Incidentally the fair finds himself hard up and endeavors to make a "touch."

The Kenny farm, containing about 33 acres, which has been purchased by Col. Sir Henry M. Pellat, fronts on the lake shore about half a mile west of the Humber River, and is cut by the Mimico Creek, which winds across its acres. The history of the property is an interesting one, the farm having been sold away back in 1874 by the Hon. Thomas Galt for \$3200 to Henry O'Brien. It passed from these hands into those of Ernest Helms, and subsequently to the Waverley family, John Vain, the Western Canada Loan and Savings Co., and finally to Mr. Kenny, who in turn disposed of the land to Sir Henry for \$40,000, or \$1200 an acre. The estate has been split up into late years, however, and only a portion of the original acres have been acquired by the present purchaser.

The board of control yesterday adopted the recommendation of Assessment Commissioner Forman to lease to the Elliott Manufacturing Company a site on the east side of Cherry-street in Ashbridge's marsh, for the erection of a paper factory. The lot, which is just north of Simcoe Park, half a mile south of the National Iron Works, has a frontage on Cherry-street of 150 feet by a depth of 290 feet. The rental for the first ten years will be \$120 per annum, being 4 per cent. on the valuation of \$3000 per acre, and the next eleven years \$150 per annum, being 5 per cent. on a valuation of \$4000 per acre. The first building erected by the company will cost \$250,000 and the next buildings will bring the cost up to \$400,000. Forty hands will be employed at the opening of the factory, and 75 later. They will manufacture corrugated fibre shipping cases.

The controllers yesterday approved of the following sales of lands for arrears of taxes: 116 feet, north-east corner Carlaw and Withrow, assessed at \$10 per foot, to William W. Hiltz, 682 Broadview-avenue, at \$23 per foot; 40 feet Withrow-avenue, near Carlaw, assessed at \$10 per foot, to William Emo, 129 Sumach-street, at \$19 per foot.

The Subtle Touch of Springtime is doing wonders at Tuxedo Park

which is in Oakville and favorably known as Toronto's Drawing Room.

THESE fine sunny days—after the rainy period—are simply instilling life and vigor into everything that grows. The trees are all in bloom—and buds—and leaves—and flowers—and song of birds—and gentle breezes—are all combining to make a glorious garden of Tuxedo.

You—who are tired—of the prosaic—and want a little poetry mixed with your life—

You—who want comfort—and the joy of building a home amid friends and neighbors—

Listen to this—

Lots at Tuxedo run from 140 to 178 feet in depth and you can buy as much frontage as you desire from \$6 to \$10 per foot.

There is fruit on every lot, and the vendor agrees to till and market the products for the benefit of purchasers of the lots, charging only for actual expense.

You never heard of a better home offering—with an attractive present and an alluring future—where all you are asked to do is go see it yourself at our expense.

We will take you out—any day to suit your convenience.

Saturday, May 7th, at 2 p.m., there is a goodly number going. Get your tickets to-day and arrange to go with them.

Remember this—

The municipality of Oakville is not large in size, but great in spirit and generous in doing—for besides providing everything for the town that city ought to have—it is now laying a concrete walk from the R. R. station to Tuxedo.

There is the Golf Course and Casino which you will participate in, which we'll tell you about, and then there's a book on Oakville and Tuxedo which we'll give you for the asking.

TO LIMIT ARMAMENTS.
Roosevelt Advocates "League of Peace" in Speech in Norway.

CHRISTIANIA, Norway, May 5.—Theodore Roosevelt delivered his address on "International Peace" before the Nobel Prize Committee to-day.

The former president of the United States entered upon the most difficult field of European politics, and in the conclusion of a carefully worked out thesis advocated an international agreement that would serve to check the growth of armaments, especially naval armaments; and the formation by those great powers honestly bent on peace of a league of peace, "not only to keep the peace among themselves, but to prevent, by force if necessary, its being broken by others."

The address was received cordially and at its conclusion John Lund, vice-president of the Nobel Prize Committee, paid a tribute to the speaker and to the country from which he came.

HEAD-ON COLLISION ON B. & O.

WATERWAYS TREATY
Exchange of Ratifications Announced at Washington.

WASHINGTON, May 5.—The exchange of ratifications of the treaty of Jan. 11, 1906, between Great Britain and the United States, known as the International Waterways Treaty, was announced by the state department to-day. This treaty was approved by the United States Senate on March 3 of last year. Its declared purpose is to prevent disputes regarding the use of boundary waters and to settle all questions which are now pending between the United States and the Dominion of Canada, involving the rights, obligations or interests of either, in relation to the other, or to the inhabitants of the other, along their common frontier, a distance of approximately 3000 miles, and to make provision for the adjustment of all such questions as may hereafter arise.

Guilty of Bribery, May Go to Europe.
PITTSBURGH, May 5.—Stating that he is suffering from congestion of the brain, Emil Winters, president of the Waltham Watch Co., who recently pleaded no defence to a charge of bribery, in giving a former city councillor \$20,000 to be used in influencing councilmen in the naming of his bank as a city depository, asked to be permitted to leave the jurisdiction of the court until September and to Carlsbad, Germany, for treatment.

The court granted the prayer and released the banker under \$50,000 bail.

COBALT--- Mining Exchanges Have an Improved Undertone ---COBALT

Cobalts Show Improvement Low Priced Securities Firmer

Timiskaming and Rochester Make Good Advances --- Balance of Mining Issues Are Steady With Firm Undertone.

World Office,
Thursday Evening, May 5.

Steadiness in prices was the main characteristic of the mining exchanges today.

Most of the stocks were in fairly good supply and sufficient to fill up the buying orders without encouraging immediate advances.

In the low priced shares the most active buying was in Rochester, which sold over two points higher than it did yesterday.

Little Nipissing was also firmer, and in fact, all of the minor securities were steady to firm in their quotations.

There was no change in the higher priced issues except in Nova Scotia, which was bid up by the pool again somewhat without, however, securing any support from buyers in this market.

The pool in this stock is still in control of 900,000 shares, and the combination has extended for another year to enable them to put the holdings out on the public.

Considerable interest is taken by the Cobalt speculators in the New York market, as they think that the action of the bigger exchange will indicate the line of sentiment in regard to the future movements of the Cobalts.

Recent weakness in Tretthewey and Chambers-Perland is attributed largely to pressure from professional bears, who are looking for public liquidation to provide them with profits.

Timiskaming made a definite recovery during the afternoon session, making an advance of three points for the day.

Timiskaming and Rochester were the only stocks to show a gain today.

Timiskaming was up 3 points, Rochester 2 points, and the balance of the stocks were steady.

LITTLE NIPISSING!

BUY and WHY?

In our advertisement, which appeared in the columns of this paper on the morning of May 3, 1910, we strongly advised the immediate purchase of Little Nipissing at the market price—not for a gamble of one day on the various exchanges, but to BUY it and be prepared to hold it for sixty or ninety days. Liberal orders have been received for this stock within the last three days.

We now beg to give you a few facts and figures as to what effect the advertisement had on the market.

On the day on which it appeared the stock opened at 22 cents, and sold up to 22 1/2 cents, with only 5900 shares being traded in.

On Wednesday it opened at 22 1/4 cents, selling up to 23 cents, with only 2100 shares traded.

Yesterday it opened at 23 cents and sold as high as 23 3/4 cents, with about 9000 shares being traded—or making a total of 17,000 shares for the three days.

Now what does this go to prove? Simply this: That the holders of Little Nipissing felt better, having had their minds put to rest, and all through the reading of the few brief facts and figures contained in that advertisement, and although the purchases on the open market were not large, the present shareholders helped the market in the opposite way by refusing to part with their stock at such low prices. Figuring this way: that Little Nipissing is a shipping mine, and if the stock is good enough for another man to buy, then it is certainly good enough for you to hold.

The cars which we mentioned would be shipped, were sent forward on May 5, 1910, and one, if not two cars more of high-grade ore will be on the way to the smelter before the end of May.

In conclusion, we will say: BUY and HOLD for the larger price which is sure to come.

For any further particulars on Little Nipissing or other stocks, we will be only too pleased to give them if you will call upon us, it proving more satisfactory than telephoning.

PLACER GOLD ON SHORES OF LOWER LAKE ABITIBI

Prospectors Going Into District From Matheson in Increasing Numbers.

To those unacquainted with the north it seems strange to expect that some day placer gold mining will be an established industry in New Ontario. But miners are now going into the lower Lake Abitibi country to prove the reported existence of placer gold in great and scattered quantities around the shores of that lake.

For many years and long before the T. and N. O. brought the district in closer touch with the outside, stories of gold being found in the sands came out; the mere mention of Abitibi has always enchanted up alluring thoughts of the "poor man's gold."

Harry Holland and Fred Kennin, prospectors, just returned from the lower lake, report that there are half a dozen outfits working on the lake shore now, and they are all hopeful that their prospects will become good dredging propositions in a short time.

The parties who are doing the most work are from Haliburton and Buffalo, but miners are now going in at a present average of 15 a day, and their number is daily increasing.

The quickest, safest and most convenient way in is by the steamboats from Matheson. The steamboat company will drop you anywhere on the lakes, and within close proximity to any desired place.

Mining Development on the Skeena. Latest advice from the mining camps in the Skeena River, via Prince Rupert, to the Grand Trunk Pacific offices, show that the country is being covered by prospectors attracted by the rich strikes already made.

In the Silver Cup mine, near Hazelton, there are over 12,000 tons of ore blocked out, which at 200 feet depth runs 100,000 and up to the ton. On the surface the vein is 2 feet 6 inches wide and at 200 feet depth remains solid ore from wall to wall 8 feet wide and continues to gradually widen as the tunnel goes in and depth is obtained. This ore is steel galena and the values run in gold and silver.

In the Nine Mile Mountain mines work is being prosecuted vigorously and it is expected to lead to a mining boom unparalleled in the history of the province in British Columbia. The Babine Range, is only a few miles wide on the surface, but at a depth of 100 feet has widened out to 5 feet 6 inches with over 2 feet 6 inches of solid ore. Specimens running \$10,000 to \$12,000 in gold and silver to the ton. On the Cronin property, also on the Babine, the cross-cut tunnel being run to cut the silver lead vein at a depth of 400 feet, cut a blind lead. Few weeks ago with over two feet of solid silver lead ore.

It is apparent that in addition to the Grand Trunk Pacific line being constructed thru what is now known as the greatest continuous belt of arable land in British Columbia, it will also open up and benefit by the development of an enormous mineral belt, rich in gold, silver, copper, lead, and also great deposits of coal covering a continuous area on the east side of the Coast Range for an indefinite extent.

The mineral country will be reached with the rails from Prince Rupert during the present year, and the agricultural district will be served to a large extent by construction work from the east end in 1911.

Judgment Reserved. Judgment was reserved by Justice Trevelyan in the non-jury assize court yesterday in the suit brought by Oliver Hazenwood, a patent medicine manufacturer, against F. W. Merrill, to force the purchase of Richmond-street property be bought from Merrill for \$12,000, who is the plaintiff, and the defendant who is the defendant.

His lordship adjourned the case of the Gowanda Mines, and the American Securities Co., Ltd., against R. Sid. Smith, until May 23. The complainant claims \$250,000 money due on shares purchased by the plaintiff, which purchase defendant holds as illegal.

NO INCENTIVE TO SEND PRICES HIGHER.

World Office Thursday Evening, May 5. There was a slightly better market for domestic securities yesterday, aided presumably by the continuance of the rally in American stocks. Considerable business was transacted at the Toronto market today, but there was no special snap shown in any of the securities, speculative or otherwise. The market at its best could only be said to be holding its own, and present sellers appear to be those who feel confidence in general lower prices in the early future. Money is still difficult to get for stock market purposes, and there is, therefore, no incentive among operators to try and put the market higher.

Rally Is Extended Further In N. Y. Speculative Stocks

With Usual Irregularity Wall Street Continues the Upturn in Prices—No Appreciation Yet Made in Canadian Securities.

World Office Thursday Evening, May 5. The apathetic state of the Toronto market from a speculative standpoint was clearly shown to-day when no real appreciation was made of the movement in the larger New York market. The dealings during the morning session were of a fair volume, but prices failed to respond to the transactions as reported and in very few instances were any higher than they were yesterday.

It is announced semi-officially that the Steel-Steel merger is now practically in full effect, and that the securities for the merger company will shortly be issued. It is presumed, of course, that the stock will be heavily placed in London, but whether the British investor will relieve the present pool of their tremendous holdings is a matter which will be settled at a later date.

Such slight improvements as did occur in the speculative stocks were directly attributable to the speculative sentiment as fanned by Wall Street, and in that price failed to rally to any great extent. The inference is that there is a difference of opinion in regard to the market for the future. It is certain that some speculators are setting their sights for a further fall in prices, and the market has therefore been checked against this opposition as well as the antagonism of actual realizing.

In the investment branch of the market, business was limited, and except in the case of Bank of Commerce shares prices were more on the soft side.

Wall Street Pointers. Bank of England rate unchanged. N. Y. C. advances wages of firemen 7 per cent. Morgan partners fail for Europe to complete Chinese loan.

Canada issues \$25,000,000 3 1/2 per cent refunding bonds in London at 99 1/2. Further blowing out of pig iron furnaces expected.

N. Y. C. considering advances in passenger rates. Electrolytic copper now selling at lowest figure since February, 1904, except in October part of 1907.

Some appearance of small investment buying in stocks reported in past two days. The American Smelting and Refining Co. has reduced the price of lead from \$4.50 to \$4.45 per 100 pounds.

Wm. Rockefeller says re St. Paul bonds. Negotiations for sale in Paris of \$50,000,000 of St. Paul debentures are completed and only formal signing of papers remains to complete the transaction.

Boston special: The directors of both B. R. T. and C. & O. are believed to have arranged that their dividends advance this month from a four to a five per cent. basis.

Joseph says: Those who buy Coppers at this level will not have to wait profits long. The three best bets in the market are C. P. R., Lehigh Valley and St. Paul.

Something more is likely to be heard of the possible landing of steel in Paris, and Mr. Morgan is believed to still consider this proposition feasible, and so expects that it will be brought about successfully. He is reported to be in

Additional facts regarding The Maple Leaf Milling Company's new issue of stock have not come to light. The capitalization of the company is \$5,000,000, of which half is common and half preferred. Cawthra Mulock & Co., Toronto, are offering for sale \$2,000,000 of 7 per cent. cumulative preferred stock at par value of \$100 per share. Each share of preferred stock carries with it a bonus of 25 per cent. of common stock. This preferred stock takes precedence over all other classes of stock and has no bonds ahead of it. The stock is reduced to \$145 a share. As the Maple Leaf Milling Company will have an output and earnings about equal to the other large milling companies, and as the latter's common stock is selling around \$140 per share, it is evident that the offer which The Maple Leaf Milling Company is making is a most attractive one.

LOADS AT CITY YARDS TRADE SLOW, MARKET DULL

Cattle Prices Weaker—Sheep, Lambs, Calves Easier—Hogs Higher at \$9.15 Cwt.

The railroads report 118 car loads of live stock at the City Market for Wednesday and Thursday, consisting of 477 calves, 209 hogs, 42 sheep and lambs, 277 cattle and 1 horse.

The quality of the cattle generally was only medium, but there were a few of good quality, and these were the ones that were sold.

Trade was dull, with market for cattle barely steady. Tuesday's trading, in fact, the drovers stated that they could not sell their cattle for what they wanted, not so their cattle for what they could get.

Tests Show Feasible for Quebec Bridge to Be Satisfactory—Will Advertise for Tender.

OTTAWA, May 5.—(Special.)—After tests made simultaneously in Canada, the United States and England, at the instance of the Canadian Board of Engineers, who have prepared the plans for the superstructure of the Quebec bridge, the engineers have reported to Hon. George E. Mackenzie, minister of railways and canals, that the plans are satisfactory.

For some days Mr. Graham has had the information that the tests made in the United States under the supervision of Mr. J. B. Francis, minister of public works, had been successful. To-day, it is stated, he had a cable from Mr. Fitzmaurice, the third member of the board of engineers, that the tests had been successful.

What SATURDAY Has in Store in the Cloak Department.

THIS programme is a "special" one. It is intended for early comers. Indeed, were you to wait until afternoon you would not expect to see a single one of these Suits and Dresses, or of the Coats and Skirts either, for that matter.

Clearing lines from our own mail order stock in two or three cases, and under-bought goods from different houses here and in Montreal. We particularly emphasize the Suits. They come in four styles, and the range of sizes is complete.

Women's and Misses' Suits—Regular \$15.00 and \$16.50, for \$7.95. 150 Suits of imported panamas, English worsteds and fine quality French serges and striped worsteds. Coats are lined with either silk or broche, and are in round or square cut styles. Some have moire collars, others braided or plain tailored, skirts are gored or semi-pleated styles, colors in the lot are navy, grey, rose, green, black, brown and amethyst. Bust measurements 32 to 42 in the lot, sold regularly at \$16.50 and \$15.00. Saturday..... 7.95

WOMEN'S DRESSES, \$12.50, \$10.00, \$7.50 VALUES FOR \$3.95. Women's Dresses of silk finished mulls, fine muslins, linsens and in summer weight materials, made in a great variety of popular styles, and trimmed with laces, insertions and silk cord; some are braided; colors in the lot are pink, sky, mauve, white, tan, black, brown and navy; 150 dresses in this lot. Regular \$12.50. \$10.00 and \$7.50 values. Saturday..... 3.95

\$8.50 SEPARATE SKIRTS FOR \$4.75. 100 Women's Separate Skirts, of fine quality black voile, in pleated styles with yoke effects, or trimmed with taffeta strappings and buttons. The regular selling prices of these skirts were \$8.50 and \$6.50. A good range of sizes from 37 to 42 inches front lengths, in the lot. Saturday's price..... 4.75

WOMEN'S \$4.95 COATS FOR \$1.79. Women's Fawn Separate Coats, in plain and two-toned smart, snappy coats, suitable for any time, made semi-fitting style, 30 inches in length, strictly tailored, with mannish collars, unlined; sizes are 36, 38, 40 and 42 bust measurements only. Regular price \$4.95. Saturday day to order..... 1.79

GIRLS' SCHOOL SUITS \$9.00, \$8.50, \$8.75 AND \$5.95 FOR \$3.95. Clearing sale of Girls' School Suits, 75 in this lot; the materials are all wool serges, in grey, French Venetians, in navy, brown, or grey, imported Panamas in grey or navy; smart saquee back coats, double-breasted fronts, trimmed with buttons, full side pleated skirts; sizes are 10, 12 and 14 years, and regular prices were \$9.00, \$8.50, \$8.75 and \$5.95. Our Weekly Millinery Event

Trimmed Hats at \$5.00 Saturday Morning. WE try to have some particularly nice hats to sell to early comers every Saturday and many are those who have had occasion to congratulate themselves and us upon this custom.

This Saturday we told our trimming girls to make up hats just a little better than usual, not telling them the price we intended to sell them at. If you don't say this is the best collection of \$5.00 hats to-morrow—!

About 100 of them, trimmed, ready for Saturday morning's sale; every one new; just out from our own workrooms; not ordinary \$5.00 hats, but specially made and trimmed by first-class milliners. We will surprise you with the value of these hats; French and American blocked shapes, in chip and hair effects, trimmed with lovely French flowers, ribbons and ornaments. Special sale Saturday..... \$5.00
