No Food Shortage During British Dockworkers' Strike 14 STEAMERS WILL BE DELAYED

MEAT PRICES ADVANCED IN ENGLAND

London Newspapers Forced to Reduce Size on Account of Strike.

CONSERVE PAPER

Little Excitement Over Dock Workers' Walkout as Many Sympathize.

BY HARRY N. MOORE

(British United Press.)

London, Feb. 18.—Britain awoke this morning to the reality of the dock strike when certain morning newspapers apologized for their reduced size on the plea that the reduction was made in order to conserve paper.

The confident announcement is made this morning in semi-official circles that there will not be any shortage of foodstuffs for some days to come and this it is expected will check any widespread movement to hoard, although certain shopkeepers are already refusing to sell large quantities of staples.

Meat prices, however, are already slightly advanced in some districts and these are likely to show the first general increase of foods before the end of the present week.

With the exception of the little group that believes that all labor troubles in Britain originate and are directed from Moscow there is little perturbation over the strike, and it looks as if there was a large body of public opinion that is in sympathy with efforts of the dockers to obtain concessions.

Feeling of Confidence.

There is a general feeling of confidence that the Labor government will not allow matters to reach a real crisis.

Premier MacDonald's direct intervention through the appointment of a court of enquiry is expected today. It is pointed out that during the next few weeks there will be less than the normal amount of shipping, especially from Canada than at any other time during the year, the shipments of lumber being especially low.

The least hopeful sign of the affair is that the dockers' leaders' recent attitude shown by employers and claim that they are treated with lack of dignity.

By Canadian Press.

London, Feb. 18.—The dock strike which was declared Saturday noon affecting 120,000 men in the ports of the United Kingdom was expected to reach full effectiveness today, according to officials of the Transport and General Workers' Union.

The country thus is threatened with a blockade from within as complete as that which the German U-boats vainly tried to achieve during the war.

As regards London, no hope is based on the action of the "blue ticket union," a new and hitherto unrecognized rival of the transport workers' union, the executive of which has recommended a "stay-in strike," under which the men would continue on duty but go slow on piece work and refuse to do overtime.

This action is viewed not as embodying any altruistic motive toward the public, but is aimed at injuring the transport union and enforcing recognition of the blue tickets by the employers, who have hitherto ignored the existence of the organization. There is a demand in some quarters that this attitude should be met by the employers immediately locking out the blues.

Mail Held Back.

Plymouth, Feb. 18.—More than 3,000 bags of mail which arrived by the Nieuw Amsterdam were held up on the tender because the dockers are not working and the post office officials only accept delivery on the quayside. Although a post office staff is usually sent to assist in getting the bags into the tender, this was not done today.

Twenty passengers from the Nieuw Amsterdam assisted in disembarking their own baggage, which they wheeled to the customs warehouse for examination and then entrained for London.

Bull In Hotel Bar, Refuses To Budge

London, Feb. 18.—A bull was being taken out of a host in High street, Maldenhead, Berkshire, a few days ago near the Red Lion Hotel, when a dog barked and moved towards the hotel.

The bull followed the barking dog up the hotel steps into the hall and turned into the public bar. The appearance of the ponderous animal caused alarm. Butchers were called in, but they could not get the bull to leave.

Its nose came in contact with the red cover of a stove. The bull backed quickly and was finally coaxed out of the hotel. It ended up its adventures by alighting on the greasy pavement and falling in the gutter.

GORMAN WIN SELLS MANY RACETICKETS

Some Hundreds of Arena Seats are Taken in First Hours.

SELL OUT ASSURED

Champion Went to American Ice Determined to Make Record.

"It's wonderful," said R. S. Sims, chairman of the ticket committee of the International Amateur Skating Championships, this morning, after he had made a round of some of the depots where tickets are on advance sale. Several hundreds had been sold this morning, he said, though they had been in the hands of the depot managers but a few hours. He paid a tribute to Charlie Gorman for his great work and was sure his wonderful performance had given a decided impetus to the sale of the tickets for the meet here. Everybody will want a part in that routing welcome that is sure to be given Gorman in the Arena at the meet next week.

"I do not doubt," continued Mr. Sims, "that the Arena will be sold completely out before the day of the opening arrives, and it is not promotion, but sound advice, to say to the people that those who defer making their selection will probably be very much disappointed when they call to buy later in the week."

Posters announcing the meet and the events have been sent to many places throughout the province, and these are expected to bring in many patrons from outside. Attractive windows cards are being distributed today, and merchants are being invited to cooperate with the committee and display them prominently in their windows.

Mr. Sims said the boxes would not last long the way they were going. Amusement tax tickets are on sale at the depots. It is advisable to buy them before going to the arena, and thereby avoid unwelcome delay. The amusement tax is two cents on 80-cent tickets, 10 cents on \$1 tickets, and 15 cents on box seats.

There's a good story attached to the record-breaking performance of Charlie Gorman at Saranac Lake on last Saturday and it is built about a determination made by the speed king of St. John, before he left for the meets at Saranac and Lake Placid to go after a new count in the 440 yards. This he did not intend to do until he had tried to obtain his fortune. He then visited a doctor and received some pills for stomach trouble.

She is a mere hamlet in the industrial belt of mid-Germany, and the friends of kind, harmless Skipper Boettcher remembered his dire accusations against the aged woman.

Investigation followed. Traces of poison were found in the man's body. Furthermore, it was discovered that the old woman had hoarded bags of a deadly poison.

Then, too, damaging evidence was introduced to show that Frau Blauel was eager for the old man's property. She denied all evidence steadfastly, but the verdict of "guilty" was returned. The death sentence in the Ailsen district calls for beheading. In her cell at Halle aged Frau Blauel awaits such a death.

Journalist Kept at Work at 103 Years

Paris, Feb. 18.—Mr. Amable Malle Saint Prix, the oldest French journalist, has died at the age of 103. He worked practically up to the day of his death, and his weekly contribution to the "Observe de Seine St. Denis" appeared as usual the day before his death.

It contained a reference which was, perhaps, a premonition of the writer's approaching end. "When I think of the grave age I have reached," he wrote, "I am always afraid that my poor brain will escape like a bird from its cage. I know the loss would not be great, but it has thought for me and regulated my thoughts to the best of its ability. I await my destiny."

FOLLIES GIRL TO MARRY R. G. COLT

Jessie Reed Will Wed Divorced Husband of Ethel Barrymore.

New York, Feb. 18.—Broadway remained calm despite the apparent suddenness of the report from Chicago that Jessi Reed of the Ziegfeld "Follies" road company, now playing there, is engaged to marry Russell Griswold Colt, divorced husband of Ethel Barrymore.

Miss Reed and Mr. Colt for some time past have been seen together frequently. She was divorced a year ago from Dan Caswell, son of a wealthy Cleveland family. No date has been set for the wedding.

CONDEMNNS WOMAN TO BE BEHEADED

She is Seventy-three Years Old; Killed a Man of Seventy-four.

Berlin, Feb. 18.—(United News)—Seventy-three-year-old Frau Marie Blauel of Ailsen sits in a jail cell at Halle waiting—beheading.

She has been condemned to this medieval form of death for poisoning a 74-year-old Skipper Boettcher of Ailsen, who sought shelter beneath her roof, promising to make her his heir in pay for his keep.

Frau Blauel, unmoved as the circumstances of the trial piled up against her, proving her cupidity and her strange attitude toward her guest, staunchly denied having murdered the ancient mariner.

The evidence showed that on the evening of July 4 of last year she had given the old man an unusually heavy meal, followed by a cup of cocoa which he had said tasted oddly.

But she stoutly maintained that he did not feel well, and left the Blauel cottage to go to the home of a relative. He told the relative that Frau Blauel had tried to poison him to obtain his fortune. He then visited a doctor and received some pills for stomach trouble.

He finally forgot his fears and went back to the home of Frau Blauel. She watched beside his bed as he died there in frightful agony. He finally expired as the dawn came, and the coroner pronounced death due to a heart attack.

Then neighbors began to talk. Ailsen is a mere hamlet in the industrial belt of mid-Germany, and the friends of kind, harmless Skipper Boettcher remembered his dire accusations against the aged woman.

DENBY QUILTS AS U. S. NAVY SECRETARY

Notifies President Coolidge That He was Ready to Leave Office.

ACTS UPON ADVICE

Defends His Part in Proceedings of Teapot Dome Oil Deals.

(By Canadian Press.)

Washington, Feb. 18.—Edwin B. Denby has resigned as secretary of the navy and his resignation has been accepted.

After repeatedly declaring he never would quit the cabinet under the fire of those who have criticized his part in the oil leasing programme, the secretary notified President Coolidge today that he was ready to step out.

His decision followed a telephone conversation between the President and Mr. Denby in which all of the latest aspects of the situation were talked over in the light of information passed on the president by Republican leaders in the Senate.

Recently a number of the secretary's friends also have been consulted by Mr. Coolidge and they are understood to have advised the president that they fully understood the embarrassment that might result in retaining Mr. Denby in the cabinet while the oil lease cases are in progress.

Not only is Secretary Denby a party to the oil leases, having affixed his signature along with that of Albert B. Fall, former secretary of the interior, but he repeatedly has defended his part in the proceedings and has declared publicly since the present controversy arose that he believed the contracts legal and would be willing to pursue the same course again.

Chorus Girl Saved From Death As Attempted Parachute Leap Fails

Houston, Texas, Feb. 18.—Rosalie Gordon, Houston chorus girl, was saved from death yesterday when an attempted parachute leap from an airplane failed. The drop was to have been one of a series of aerial acrobatics staged before 5,000 spectators at Ellington Flying Field.

In making the jump, Miss Gordon's parachute became entangled in the plane and held her suspended some 20 feet below the plane, which was more than a mile from the earth. Diavolo, acrobatic airman, who was in the plane, let himself down to the landing gear, but was unable to pull her up to him.

Stepping from a second plane to the one from which Miss Gordon was suspended, Freddie Loon, Houston aviator, relieved the pilot of the Gordon plane, who then assisted Diavolo in pulling Miss Gordon back to the landing gear. The plane landed safely.

RETURN OF SHIPS HERE UNCERTAIN

Vessels Leaving St. John Port are Now Nearing Strike Zone.

CANCEL SAILINGS

Effect Along Waterfront Here to Depend on Length of Strike.

That at least fourteen steamships were on the water bound from this port to ports in the United Kingdom which were likely to be delayed in unloading their cargo if the British dockers' strike continued for any length of time, was stated this morning by the agents of the various lines in the city. This number would be increased by all the ships now in port and en route here should there not come a settlement very soon, it was announced.

The Canadian Government Merchant Marine have the Ranger, Victor, Planter and Leader, on the ocean. The first two are just about due on the other side, and the others may not be affected, as they have just sailed from this side.

The Furness Withy Co. have the Manchester Corporation, Appomattox and the Digby en route to British ports, and they should soon reach the other side.

Only One Steamer. McLean, Kennedy report that the only vessel they have on the water now likely to be affected, unless it is a very long strike, is the Lord Londonderry.

The Robert Reford Co. said they had only one steamer sailing from here likely to be delayed by the strike, and that was the Cabotia, which was about due on the other side, unless it lasted for a considerable length of time.

The Manchester Brigade was to have sailed from Manchester for this port on Saturday, but up to noon no word of her sailing had been received by the local agents, the Furness, Withy Co.

The C. P. R. office reported that they had four or five vessels en route from here to ports in the United Kingdom which the strike was liable to delay.

Messrs. Nagle & Wigmore said they had no ships which were likely to be affected unless the men stayed out for some time. They had three steamers which had sailed from here recently, but all were for continental ports. The Brent County and Gray County had just sailed from St. John, and it was hoped the trouble would be over before they arrived back on the other side.

Personal Preference Rules Skirt Length at Fashionable Paris Meet.

Some of the models who paraded in the bitter breezes wore skirts falling only three or four inches below the knee, while others were about the same distance from the ground. It was remarked that the short skirts were a little wider than when the vogue was at its height.

POLITICAL GOSSIP FROM THE CAPITAL

Mr. Meighen and the Progressives—Will Govt. Lower the Tariff?

(Staff Correspondence Toronto Star.) Ottawa, Feb. 16.—There is no doubt in the minds of anyone here that Mr. Meighen is anxious to force dissolution during the coming session. He firmly believes that there is a "wave" in his favor throughout the country.

Judging by his recent speeches he believes that a policy of tariff retaliation against the United States coupled with nebulous proposals for Imperial preference, will have its appeal throughout the country. Mr. Meighen may step into the ring early in the game with an amendment to the speech from the throne calculated to secure a sufficient measure of Progressive support. It is very difficult, however, to conceive of a Conservative amendment which could be calculated to defeat the government before it had a chance to announce in detail its legislative programme.

Tariff Reform Expected

The vote on the budget last session was the most dangerous which the government encountered, the administration receiving a narrow majority on somewhat tricky amendments concerning the government for being recalcitrant to its pledges with respect to the tariff, etc. From present indications the Progressives will find it very hard indeed to vote against the next budget. In the first place it is a balanced budget. Then, unless all present indications fail, it will contain proposals for tariff reform more extensive than in any budget for many years past. It is safe to predict that several sorts of agricultural implements will be placed on the free list, and it is not without the realm of possibility that a clean sweep may be made of the duties on practically all the implements of production in accordance with the Liberal platform of 1919.

Obstacles Removed

Obstacles in the way of lower tariffs have recently been removed from the cabinet. Mr. Fielding has gone. Sir Lomer Gouin has gone. D. D. McClelland has gone. Messrs. Motherwell, Stewart and MacMurray are naturally strong for reduction. Mr. Lapointe was west last summer, and came back impressed with its demands. Hon. Dr. Beland is more or less neutral on the tariff question as is practically all of rural Quebec. Hon. Dr. King, while representing a protectionist province, is said to be favorable to anything which will help the prairies. Hon. George F. Graham and Hon. James Munro may be regarded as in favor of reductions for the benefit of the producer. Hon. A. B. Copp, and even Hon. E. M. Macdonald will not stand in the way of tariff reforms indicated. Hon. J. A. Robb is a mild protectionist, but a friend of agriculture. Hon. T. A. Low, is frankly protectionist. The prime minister desires sincerely to carry out the policy upon which he was elected leader.

St. John mothers Declare Vicks Wonderful for Cold Troubles

IN the columns adjoining are given the actual experiences of a number of St. John families who have adopted the use of Vicks VapoRub since it was introduced here last winter. Though new here, Vicks is old in the States, where over 17 million jars are used yearly—for croup, children's colds, babies' colds, adults' colds, catarrh, sore throat, bronchitis and all other such troubles down to intractable pneumonia.

A Vapor Lamp in Salve Form Vicks is an ingenious combination in salve form, of the world's best remedies for congestion and inflammation. It contains Camphor, Menthol, Eucalyptus, Thyme, Oil of Turpentine and other volatile oils, which are released as vapors when the salve is acted upon by the heat of the body. These vapors are taken with each breath, into the nose, throat and lungs, clearing the passages, loosening phlegm and relieving the congestion.

At the same time, the application acts like a liniment, poultice or plaster, drawing the blood away from the congested parts and relieving that soreness and tightness.

Double Direct Action Brings Quick Results This treatment often gives amazingly quick results. Colds vanish over night. Croup is relieved inside of 15 minutes. Or one application at bed-time may keep croup away altogether. For deep chest colds, bordering on bronchitis or pneumonia, it is unexcelled. Melted in a spoon and inhaled, Vicks clears the head instantly. Fine for nasal catarrh and mouth-breathing at night.

Vicks is especially favored in homes where there are young children: its use does away with dosing for colds—saves their delicate stomachs. It is not necessary, as with vapor lamps, to close the windows at night. Vicks is equally good for cuts, burns, sores, bruises, bites, stings and skin itches. Thus it is useful every day in the home.

PREACHER URGES WORTH OF SERVICE

Rev. R. G. Fulton Addresses Large Gathering of Pythians. The importance of service was stressed by Rev. R. G. Fulton yesterday afternoon at Centenary church in an excellent address at the 60th anniversary church service of the Knights of Pythias. He closed with an eloquent appeal to the members to go out into the world and carry out the ideals of service found in the ritual. Basing his talk on the words of St. Paul: "I show you a more excellent way, and the example of Jesus, found in St. John, where, after the last supper he took a towel and girded himself and washed the feet of the disciples, the speaker pointed out the dignity of service and the place it should occupy in the world of today. He said there was a danger of placing too much emphasis on brains and not enough on the heart and the teaching of Jesus was that the heart was the seat of worth-while things. It was the common people that Christ and His disciples made their appeal and it was the common people who today had to carry on the work of the church and the kingdom. There was a large attendance of members of the order. The men gathered in the school room of the church and the Pythian Sisters in the parlors. Just before the hour of service they marched into the auditorium, where seats had been reserved for them. The musical part of the service was led by a male choir under the direction of H. W. Bromfield. The organ was presided over by J. T. Browne. Rev. Mr. Fulton was assisted by Rev. Hugh Miller in the service. Solos by W. J. Bamberg and W. J. Lanyon and a male chorus by the choir were features of the service. The offering was a large one and it is expected that the objective of \$1,200 will be reached as there are always some members who cannot attend the service who send in their contributions to the orphans. Be Careful What You Wash Your Child's Hair With

If you want to keep children's hair in good condition, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Multifid coconut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can not possibly injure the hair. Simply moisten the hair with water and rub it in. Two or three teaspoonfuls of Multifid will make an abundance of rich, creamy lather, and cleans the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it the soft, silky, bright, fluffy, wavy, and easy to manage. You can get Multifid coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will last for months. Be sure your druggist gives you Multifid. Beware of imitations. Look for the name Watkins on the package.

Women May Depend upon Lydia E. Pinkham's Vegetable Compound Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I could think of to help build me up, I began to take it. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at once. I recommend it without hesitation."

Commander Honored By Govt. of Finland

The heroism displayed by the men "who go down to the sea in ships" during the late great war is recalled by the presence in the city of Capt. James McDonald, master of the Canadian Pacific steamship Brecon, who was recently honored by the Government of Finland for the rescue of the crew of a Finnish ship which had been torpedoed by the Germans in April, 1917. The meeting was held in the office of Capt. Norrgren, Glasgow, vice-consul for Finland, who presented to Capt. McDonald a silver lifeboat on a stand of black marble, and this gift is greatly appreciated by the recipient.

**DEATHS**

**Mr. and Mrs. A. D. G. VanWart.**  
 Relatives in St. John were greatly shocked and grieved to learn of the sudden deaths of both Mr. and Mrs. Abraham D. G. VanWart at their home in Bogota, N. J., on Saturday. Mrs. VanWart had been in failing health for some time and it is supposed that grief at her death hastened her husband's death. The bodies are being brought to St. John for interment in Fernhill and will probably arrive on Tuesday.

Mr. VanWart was born in Kars, Kings county, in December, 1838, and was 84 last December, but in spite of his advanced age he was active and keenly alert up to the time of his death. Mrs. VanWart was formerly Miss Gerow, of Wickham, Queens Co., N. B. They are survived by one son, Theodore, and one daughter, Miss Belle, both at home in New Jersey. J. W. VanWart, of St. John, and Coles VanWart, of Woodstock, are nephews and Mrs. J. W. Ellsworth, of St. John, is a niece.

For more than 40 years Mr. and Mrs. VanWart resided in Douglas avenue and they will be recalled by many friends. He was one time the manager of the Sovereign Insurance Company in St. John and later was chief accountant at the C. N. R. roundhouse on the Marsh road. About 12 years ago the family moved to New Jersey.

He was born at Belleisle Creek, Kings county, 77 years ago and moved to Chipman in his youth. He was well and favorably known throughout the province, having held pastorate in several sections, particularly on the North Shore, where he was stationed at Doaktown for upwards of 10 years. He is survived by his widow, who was formerly Miss Thomas, of Halifax, one daughter, Mrs. Chester Mitchell, of Doaktown, and two sons, Edmund, of Vancouver, and Elmer, at home. One sister and one brother also survive. The sister is Mrs. Coburn, of Fredericton, and the brother is Senator G. King, who is at present in Vancouver. The funeral will take place on Tuesday afternoon at 2.30 from the Baptist church.

**Hugh Daley.**

The death of Hugh Daley, for many years a highly respected citizen of the Loch Lomond Road, occurred at the Mater Misericordiae Home, Sydney street, early Saturday evening, after a brief illness. He was apparently in good health up until Friday when he took seriously ill, dying Saturday night. His wife died about three years ago.

He is survived by four sons, Richard and William, of New York, Michael, of Bathurst, and Daniel, of Loch Lomond Road. The funeral arrangements have not been completed as yet. Word from the sons in New York is being awaited.

**"Society Brand" Clothes in New Spring Models**

Society Brand Clothes are always smartly cut. In the matter of tailoring and finish there is nothing finer to be had.

There's a distinctive air about certain clothes that you can tell at once without knowing why it's there. The difference is in the cut.

The exact length of a coat, the correct width of trousers, the cut of lapels, the proper spacing of buttons—all are details that go to make or mar a man's appearance. A fraction this way or that and the balance of line is destroyed.

The correct detail in all these things may be taken for granted when you buy Society Brand. These garments not only give the fashionable air that is sought by the well dressed man; every particular is given the most careful consideration in their making. The most critical examination will not find them remiss in any particular.

**GIRLS' SCHOOL IN NEWCASTLE BURNED**

Sisters Help Students to Escape Flames—Loss \$50,000.

Newcastle, Feb. 17—A smoldering mass of ruins is all that remains of the beautiful St. Mary's Academy, a fire having razed the building during the night. Fire was discovered in the building at 9 p. m., on Saturday and immediately an alarm was sent in. At the first sign of fire the sisters marshalled the boarders and had them removed to the new school which was only recently completed, but they saved very few of their effects as the flames spread with such rapidity and it is very fortunate that there was no loss of life, due to the cool-headedness of the mother superior in charge. The building was one of the most imposing in Newcastle and was built 26 years ago and was maintained by the congregation of St. Mary's church under the direction of the Congregation de Notre Dame. It was valued at about \$50,000, with only \$10,000 insurance.

**ST. PETER'S GIVEN ANNIVERSARY CUP**

Gift From Dr. J. D. Maher is Presented—Fine Addresses Given.

A beautiful silver cup, commemorative of the society having entered into the twenty-sixth year of its existence was presented to St. Peter's Young Men's Association by Dr. J. D. Maher at a largely attended meeting yesterday afternoon.

Rev. Anthony McBratney, C. S. R., was the lecturer for the meeting. He chose as his subject "The Church as the Patroness of Music." He confined himself during the first part of his lecture to the three fundamentals of good music, notation, harmony and measure. He recounted the efforts of the Church in fostering and developing the Gregorian Chant. He said that the chant was real and sublime music, according to the testimony of Beethoven and Wagner. A vote of thanks was extended to the speaker on the motion of Arthur Howard, seconded by Frederick McGillicuddy.

Father Hill, in accepting the cup on behalf of the society, expressed their hearty appreciation to Dr. Maher for his gift, as well as for the interest he has taken in the welfare of the society. Short addresses were given by Joseph Harrington, Timothy O'Brien, Hon. R. J. Ritchie, Myles Agar and W. J. Owens.

## Social Notes Of Interest

Mrs. Percival Foster, field secretary of the Eastern division of the Y. W. C. There was a large group of friends at the station to bid Mrs. Foster good-bye. She will go to the coast in a few weeks.

Mrs. Frank M. Ross, who went to England for the Christmas season, sailed from Liverpool on Friday. She will be cordially welcomed to the city, where she has made a large circle of friends, since coming here as a bride a few months ago.

Mrs. A. K. Harvie was informally at home yesterday afternoon at the tea hour for Mrs. J. R. Harrison, of Windsor, N. S., who is leaving for home today, after a pleasant visit with her mother, Mrs. J. Morris Robinson. Mrs. Robinson and Mrs. A. M. Peters presided over the tea cups, assisting Mrs. Harvie. Mrs. Harrison's sisters, Mrs. J. C. Belyea and Mrs. J. M. The designs were quaintly pretty and tastefully colored. Tulips of all colors were arranged in a large bowl in the centre of the dining table. ## For Meatless Days

It is economy to let the butcher drive past once in a while. Oxo Cubes take the place of butcher's meat in soups and savory dishes and open up a hundred and one dainty ways of using up today what was left over from yesterday. Oxo Cubes are time and money savers—more than that, they add nutrition to other foods.

Oxo Vegetable Dish  
Steak 1/2 lb., haricot beans overnight. Fry 1/2 lb. onions in saucpan with little margarine or fat. When brown add 4 Oxo Cubes, dissolved in 1 1/2 pints of hot water. Grate or mince 1 carrot, add a little turp or parsley. Then add some barley or macaroni. Simmer for one hour. Serve with toast or mashed potatoes; a little thickening added improves it.

## DRIVEN OUT BY FIRE

Fire was discovered yesterday morning at 7.55 o'clock in a two-story frame dwelling in the rear of Acadia street, owned by S. W. Palmer, and occupied by J. Maber and P. Wallace. An alarm was sent in from box 143. When the firemen arrived on the scene it was found that the fire near the roof had worked down through the partitions. The two families had quickly moved out along with some of their furniture and the No. 2 Salvage Corps members assisted greatly in saving the different articles. Owing to the fire through the roof, and because of smoke and water, the building, which is rather old, was quite badly damaged. It is understood that there is no insurance on either building or the contents.

## BELL SILHOUETTE

The bell silhouette is emphasized by some of the new hair coats heavily banded about the hem with fur. They are quite as apt to be three-quarter length as longer.

## BLACK AND WHITE

A stunning creation of white velvet has flammings of black cloth applied in large design and is banded with black fox.

## WHAT'S WRONG WITH SO MANY COMPLEXIONS?

Bodily ills are often due to a wrong diet—indeed, what we eat has largely to do with good or bad health. But there is one disorder that we can definitely trace to faulty food, a pimply or erupted skin. Even beauty culturists admit the cure must come from within—balms, lotions, ointments being external agents to relieve but not to banish. Especially in winter must the diet be watered. White flour, meats, sweets and refined cereals are "Excess Acid," and "Excess Acid" foods cause acid blood. Acid blood is the direct cause of unsightly complexion.

Roman Meal is the natural corrective of this skin condition, because it is the richest in alkalis of any grain product. In fact, it is the only alkaline grain product now sold. This is because it contains the dark flour from three whole grains, and the dark flour is the part of grains that carries these alkalis. The white, dainty, refined flour and cereals have these mostly refined away, hence acid blood and unsightly skin conditions.

Roman Meal corrects blood acidity, soothes, heals, and clears the skin. In addition, it prevents indigestion and positively relieves constipation. With one exception, it is the cheapest food sold. For growing children, nursing and expectant mothers, it has no equal as a food. At grocers.

## Just one teaspoonful for each dishwashing

LUX is so rich in pure soap, that just one teaspoonful of the satin-like Lux flakes makes the dishwasher soapy all through. One swish of the dishsoap, and your dishes are sparkling and clean. No need to dry them when you use Lux. Simply rinse them out in hot water, and place them on the dish-rack to dry. Lux does not leave them streaky and cloudy, but spotless and glistening in their original beauty.

## For pretty hands

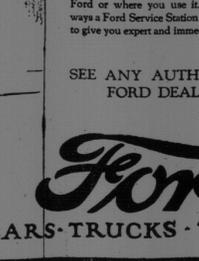

And Lux is so easy on the hands. It is as pure as a fine toilet soap, and hands which have become coarsened or reddened through dishwashing with strong soap will soon be restored to the soft, smooth texture so much desired, if you use Lux in the dishpan.

BE YOUR OWN EXECUTOR

Has it ever occurred to you that soon after your death your estate, however large, may dwindle away owing to the inexperience of your heirs in business matters?

You need have no apprehension that your dependents will thus come to want if you make adequate provision for them by means of an Imperial Life policy.

Because every such policy contains a provision under which you may specify that the proceeds shall be paid in monthly, quarterly, half-yearly or yearly instalments for 5, 10, 15, 20, 25 or 30 years, instead of in one sum.

While in the calculation of the instalments a definite rate of interest is guaranteed, such payments in the case of participating policies will be increased by sharing in the interest which the Company earns in excess of this guaranteed rate.

Ask for our booklet "Safeguard Your Legacy," which explains this attractive feature of Imperial Life policies. You'll find it interesting.

More than three hundred of these people, will be able to find accommodation—comfortable, luxurious accommodation—in the new "Admiral Beatty" Hotel, which will be open in the latter part of this year.

This new Hotel, facing on King Square and Charlotte street, will have 184 rooms, stores, ball room or banquet room, private dining rooms, cafeteria and a spacious lobby and mezzanine floor, together with all the other luxuries and necessities that go to make a thoroughly modern hotel.

A study of conditions in St. John will convince the most sceptical that "The Admiral Beatty" will fill a long-felt need, and will undoubtedly be a most profitable enterprise for its shareholders.

We are offering the 7% Convertible Debentures of the Admiral Beatty Hotel Company carrying a 40% Bonus of Common Stock, and shall be glad to send descriptive circular on request.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

GORMAN SMASHES  
440 YARDS RECORD

Also Wins Second in Three  
Mile Event—Is National  
Champion.

Charles Gorman of this city was crowned National skating champion at Saranac Lake last Saturday when he won the 440 yards and took second honors in the three-mile event. In winning the former he established a new world's record, covering the distance in the remarkably fast time of 36:35 seconds. This is two-fifths of a second faster than the professional record established on the same rink last year by Arthur Staff.

The St. John star, who represented Canada in the Olympic this year, as a point scorer was at the top of his form on Saturday. He equalled the world's amateur record in the semi-final heat. Then the committee in charge of the race offered a special prize if the world record should be broken, and Gorman keyed up to his highest pitch, got away from the tape at the starting gun at a terrific clip which he sustained marvelously to the finish line. He won easily.

The finish of the three mile race, in which two score skaters started, was exciting and close. Allen was always with the leaders of the pack and had stamina to match the furious rush of Gorman at the end. The Canadian fell ahead of Eddie Murphy, of Chicago, Frank Garnett, of St. John, second prize as leader in the greatest number of laps in this event.

440 Yards—Won by Charles Gorman, St. John, N.B.; second, Harry Kaskey, Chicago; third, Paul Forsman, New York. Time 36:35 sec.

JIMMY FRIZETTI  
TO MEET WILLIAMS

Boxers Will Meet Here in  
the Armories Next Fri-  
day Night.

Jimmy Frizetti, of Boston, and Irish Kid Williams, of New York, are headliners on a boxing card scheduled for the Armories Friday night, according to an announcement made by G. L. Landry, manager of the Armory Club. Both boxers appeared in St. John previously and made a good impression with the fans. Frizetti had the better opportunity to show his ability for he was pitted against Johnnie McIntyre, one of the most popular men to box in this city. The Boston man was given a decision over McIntyre, which is a credit to him.

Williams boxed a much inferior boxer, in the opinion of the fans, and there was little opportunity to judge his ability. It was said by those who saw him box O'Brien that he showed considerable cleverness and the promoters are hopeful that he will make a good showing when he meets Frizetti. The men are lightweight and are said to have good records in their matches in the United States. The other men on the card have not been announced.

FRED LOGAN GOES TO RACES

Fred Logan, former International skating champion, left yesterday afternoon for Lake Placid, New York, where he will attend the International skating meet this week. Mr. Logan's son, Willie, who did so well in the U. S. National meet at Saranac Lake last week, will take part in the International and under his father's able direction should do even better than he has done so far.

CHANCE WANTED  
TO BE RELEASED

Comiskey, However, Refuses  
to Part With the White  
Sox Manager

Los Angeles, Cal., Feb. 17.—Frank Chance, manager of the Chicago White Sox, yesterday telegraphed Charles A. Comiskey, club owner, asking that he be released. His action, he told Comiskey, was due to a severe illness which he said would make it impossible for him to report to the Sox spring training quarters in Winter Haven, Fla.

Comiskey, however, refused to release Chance, sending him this message: "By all means remain, old boy. Take as long as you need to get well, but come back by all means." Chance will act accordingly, he said.

The illness, according to Chance, one following a cold contracted in Chicago late last year and which affected his chest.

MISS ST. JOHN TO  
START BIG GAME

Will Face Off the Puck in  
Contest in the Arena  
Tonight.

When Miss St. John starts the game by facing off the puck at the Arena tonight, when the Abegweites of Charlottetown cross sticks with the St. John team, she will start what will probably be the best game seen here since the Granites played.

Quite a pretty little ceremonial has been arranged for this game, which will usher in Miss St. John's duties as our local Queen of Sport.

The players will line up on each side of the middle entrance to the ice and will march their sticks over the heads of the Queen as she makes her appearance on the ice. She will have a presentation made to her and then skate around the rink and return to center ice, when she will face off the puck. This will not take more than two or three minutes.

Tonight the St. John team is going to use two complete forward lines and change them frequently. This will give the locals a very fast attacking line, always fresh and full of pep. As these two forward lines have been practicing together they have developed some real team work and should unlock some combination plays that will make the fans sit up and take notice.

The locals will have Nicholson in defence, with Gilbert and Richard on the goal, with Hallett will play forward and also relieve on the defence. The other forwards will be Short, Montague, Kiley, J. Gilbert, Rathburn and Gregg.

Payne will handle the whistle and can be depended on to keep the game fast and clean.

An sufficient encouragement is given the locals other first-class teams will be brought here for exhibition games.

MODEL YACHT CLUB  
TO MEET TONIGHT

An important meeting of the St. John Model Yacht Club is called for this evening at 8 o'clock in the rooms of H. S. Gregory & Sons, Prince of Wales street. The committee on rules and constitution are to report, and some idea of what may be expected next season will be announced. A recent visit from Commodore Collins, of the Montreal Model Yacht Club, who was interviewed by members of the local club, will be reported on, and a challenge to the local club by these brought by Commodore Collins will also probably be discussed. The new club has a charter membership of nearly 40, and it is expected that some new members will be elected tonight.

Smashing Time at Indoor Ath-  
letic Meet in New York  
Saturday Night.

New York, Feb. 18.—Four new world's indoor records were set and two equalled on Saturday night in the 18th Regiment Armory. The world's record for the 80-yard high hurdles, which has stood for 37 years, was broken, twice and equalled once.

J., had topped the ladders for a new mark of 10 4-8 in the first heat. The soldier, however, lost by a yard in the final to Carl Christensen of the Newark A. C., who equalled his rival's record.

The Meadow Brook Club girl relay team of Philadelphia set a new standard of 54 2-5 seconds for the quarter-mile distance, while new marks were established by Jake Driscoll, Boston flier, in the 400-metre run, and Schuyler Eneck of Penn State in the 800-metre special, both of which distances were run for the first time indoors. The times were 50 1-5 and 1:54 4-5.

Y. M. C. I. Have Enthusiastic  
Meeting—Cups are  
Placed on View.

Sunday afternoon's meeting of the Y. M. C. I. was one of the most enthusiastic and best held in many weeks. A wide range of activities was covered. A pleasing feature was a welcome accorded Bernard O'Connor who in the Maritime skating championships contested here last week carried the colors of the "Y" to victory. The young skater modestly acknowledged the congratulations and the applause in his honor. The cups donated for the winners of the events at this meet and some of those got together for the winners of the schoolboy competitions were on display in the meeting room and won the admiration of all. There will be a public presentation of these on an evening soon, the date to be selected at a meeting of the board of management.

The following telegram was sent to Charlie Gorman—"The Young Men's Catholic Institute at an enthusiastic meeting this afternoon, instructed me to wire you warmest congratulations on your great work of Saturday. We are proud."

Announcement of the physical exhibition to be held in April was made and a strong committee was given charge of this event which it was planned to make an outstanding one.

Cards This Week  
An evening of cards is to be featured on Wednesday evening of this week—bridge and forty fives. There will be about 100 tables and a very pleasant time is assured. Harry Pierce, vice president, was in the chair yesterday.

DETAILS OF BIG  
WRESTLING MATCH

Thrilling Bout in Boston  
was Won by Champion  
Lewiss.

After a battle full of thrilling climaxes, Ed Lewis, the champion of the matmen, defeated George Kotzaris, the Greek, two straight falls in Boston recently.

Lewis registered the first fall in one hour 15 minutes, with a headlock, and the second in 18 minutes with the same hold.

In the Greek the champion faced about the toughest proposition for his size that he has encountered in his Eastern tour, for, though he had close in one pound and his favored 220 was so hard pressed at times during the first round that he sought the ropes to escape.

The victory, though awarded to Lewis by the referee, was not cleanly won as regards the scoring of the first fall, as twice the champion deliberately pulled, and the referee was obliged to shut out punishment, and, in the windup shot out a straight arm, heel of the hand to the jaw that looked tremendous.

Kotzaris came out a bit tired for the push or blow, his head striking the floor with a thud, and he was out of business. "Strangled" put on a headlock just to complete the job, though the grip was hardly needed.

Kotzanos went down hard under the second round, but gaining a headlock and putting Lewis to the mat with it seemed to give him both confidence and strength. Half a dozen times he clamped on this hold or a reverse armlock and put the big fellow to the mat, but, getting him down, lacked the necessary poundage to plant both shoulders on the canvas.

The final fall came after Lewis had been brought to the mat with a double wristlock and had escaped, he in turn putting on the headlock and holding it for more than a minute. Despite the attempts of Kotzy to kick out of it, The Greek was pretty well dazed when the referee gave Lewis the fall and the champion released a big grip.

In the first half of the fray Kotzy did about all of the forcing and had little trouble in escaping from Lewis' pet grips about the head. Three times in the breaking of these he shot the champion through the ropes clean, but the mat, much to the detriment of the fan who were mostly with the challenger.

HIGH SCHOOL TEAM  
DEFEATS ROTHESAY

Victory Gives Them Chance  
to Get Into Intercollegiate  
Finals.

The St. John High School basketball team defeated Rothesay Collegiate players on the Rothesay floor in an Intercollegiate League fixture 43 to 33 on Saturday afternoon. A loss for the St. John boys would have meant their elimination from the league as possible winners. As it stands now, they must defeat Fredericton here next Saturday, and then in the event of the Normal School winning their two remaining games, the St. John High will be tied with the Normal School, and a play-off will be necessary. Should the Normal School not succeed in winning both its games, and St. John High defeat Fredericton High, the St. John boys will take the league. Next Saturday's game will be played on the Y. M. C. A. floor.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

NEW YORK PLAYWRIGHTS JOIN HANDS;  
WILL PRODUCE WORTH-WHILE PLAYS

New Organization to Start  
Ball Rolling with "Goose  
Hangs High."

New York, Feb. 18.—A new organization has flashed across New York's theatrical horizon with the arrival of "The Goose Hangs High" at the Bijou Theatre.

Salute The Dramatists' Theatre Inc. Considerable was heard of this organization some months ago when announcements were made that six well-known playwrights had banded together to produce worth-while plays whether these same plays had been written by members of the organization, or by others. Therefore, with "The Play's The Thing" as a slogan, The Dramatists' Theatre, Inc., was born, its six pillars being Owen Davis, James Forbes, William Anthony McGuire, Cosmo Hamilton, Arthur Richman and Edward Childs Carpenter.

The First Play  
Behold now the first fruits of this newest of theatrical endeavors—"The Goose Hangs High," the play of American family life by Lewis Beach, which, by that most perfect of critics, the box office, has "gone over" to quite the biggest success of the new season on Broadway.

Therefore a few words from Edward Childs Carpenter, chairman of the advisory board of the Dramatists' Theatre, will not be amiss at this time. Says Mr. Carpenter:

"When I first began writing plays, it was difficult for a young author to gain access to the office of a manager. The producers then showed a little interest and no faith in the ability of native playwrights as a class. There were, of course, a few notable exceptions, but by far the greater number of plays presented in this country were importations in one way or another. When this vein began to run thin the managers began to experiment with home-made products and found them good. Press and public added their encouragement; cultivated pens were attracted to play-authorship; and universities and colleges throughout the country began to take seriously the drama as part of their curriculum.

"Season after season brought new talent to light. Successes made by hitherto unknowns stimulated the managerial eye and induced them to lend willing ears to beginners in prospecting for discoveries.

"All of this would never have come about had not the American author known how to make the most of his opportunity. To me it seems that his success has been largely due to his capacity for learning, then and now, with their simple, direct methods of instruction were probably the first masters of the new American playwright, but he has been too strict, held down by form; he has wisely developed his individuality, learned to express himself.

The Native Dramatist  
"Fortunately, I think the native dramatist has a more normal point of view than many of his foreign brothers. There is a sanity and sense of good taste here. Even the youngest and most erratic native writers seem to realize that the common life of which they write is so full of dramatic interest they do not need to turn their attention to themes unwholesome or point of view that are bound to make the most of what is, to my mind, the golden age of the American playwright.

DEFEATS Y. M. C. I.

Table with 2 columns: Name, Score. Includes W. Waring (18), Burns (2), Bean (4), etc.

Kingston, Ont., Feb. 17.—West Point Army hockey team played an exhibition game here last night with the Royal Military College and were defeated, 10 to 5. The game was more of a social visit than it was a hockey match but at odd times throughout there were some good plays made.

MONTEMEZZI SAILS

FORMER STAR NOW  
SERVES AS SUPER

Flora Finch Caught in the Swirl of the Ever-Changing Film.

A former star of the camera comedies is glad to serve today as an "extra" or supernumerary in the support of a popular hero of the motion picture stage, says the New York Herald. The times do change and the motion pictures with them. Who would ever have thought that Flora Finch, who used to smirk and and smirper, wriggle and giggle to the delight of thousands in the early days of the motion picture, would ever be satisfied to take such a humble part? She was a star in the John Bunny epoch.

Maybe if Miss Finch had been acting the apothecary in "Romeo and Juliet" she would have explained that her poverty and not her consent. The change in the fashions of motion picture plays has made it difficult for such types as this once popular comedienne to find such conspicuous employment. There are clowns in the cinema today as there always have been. But they are clowns with a difference. Charlie Chaplin has proved himself a descendant of the most famous of the Pierrots. He is of the race of Grimaldi and Deburau. The camera reflects his genius today because pantomime has been banished from every other field of the dramatic arts. There is at least no other that rewards it so liberally as the motion picture.

So the sun of the clown who is only grotesquely comic has set. Wherever he is, the clown is now of the race of artists who do more than make faces at the camera that they may be amused by the world beyond. The same distinction is to be observed between the methods of the clowns of the stage. They may still be extravagant in the manner of their fun-making. But somewhere, however deeply hidden in the mechanics of their profession, there must lie the kernel of an art which can express the individual genius of the performer.

ST. JOHN MAY GET ELKS CONVENTION

W. Frank Murphy Says the Prospect is Bright With New Hotel.

According to Exalted Ruler W. Frank Murphy of the Canadian Order of Elks, who left for Montreal yesterday after instituting the St. John lodge Friday, there are bright prospects of this city holding the 1926 convention of the order now that increased hotel accommodation is guaranteed.

Mr. Murphy says it is a matter of policy with the Elks to hold their big gatherings whenever possible in attractive cities on the main lines of travel and especially in places where the order needs fuller introduction.

The hotel situation in this city will have received a big boost in the next few months. The Admiral Beatty will be finished and other existing hotels will be prepared to meet the increased traffic that is sure to follow the present all-Canada average of business.

In Montreal the headquarters of the Elks is in the Mount Royal Hotel, the same as the Canadian Club has its official suite in the Bellevue Hotel, Boston. Mr. Murphy in referring to the preparations now going on to erect a new hotel here says such a move is being hailed with satisfaction in Montreal and the other parts of the country in which he has been traveling.

Although it is not always policy for them to shout about it.

A. T. WEATHERHEAD APPOINTED TURNKEY

War Veteran With a Good Record Succeeds Samuel Clifford at Jail.

Arthur T. Weatherhead, a war veteran, and son of the late John Weatherhead, at one time inspector of the St. John police force, was appointed turnkey at the St. John County Jail, succeeding Turnkey Samuel Clifford, whose sudden death occurred last week.

The new turnkey, who is 30 years of age, is a native of St. John and has an excellent war record. Soon after the declaration of war he enlisted in the Canadian Heavy Artillery and went overseas as sergeant with the First Heavy Battery under the command of Major Frank Sargeant.

He remained with the same unit during the entire war and after four years and eight months of service returned to St. John and received his discharge in January, 1919. His service in France totaled nearly four years, during which time he escaped without a scratch, although he was slightly gassed once.

Some time after his discharge he was engaged as shipper with the Christie Woodworking Co., and resigned from that position to take his present appointment.

There are three turnkeys on duty in the county jail, each of whom receives remuneration at the rate of \$32.25 a day for 365 days in the year.

It was officially announced today by A. W. Covey, president of the Maritime Province branch of the A. A. U. of C. that Sussex would be the probable site for the New Brunswick championship skating championships, which are to be held early in March.

With reference to the firemen's sports, which are to be held there tomorrow night he said there would only be three open events for seniors, the half mile, mile and two miles. There will be no events for juniors. The entries for these races will close with Mr. Covey this evening.

STILL IS UNCONSCIOUS.

It was announced that this afternoon the condition of William J. Cunningham, turnkey, was unchanged. He has not regained consciousness since Friday and he appeared weaker today.

COL. HAM'S OUTING.

After an extended trip through the Southern States, Col. George Ham has returned to Montreal. He attended the South Florida Fair at Tampa and said Canada was very much in evidence there. "The farmers of the great Republic," he said, "had no idea of the immensely wide variety of the products of Canada. They were simply staggered at the Canadian display." A Canada Day was held at the fair, and it was a distinct success. Several Canadians spoke on the Canadian exhibits, the Colonel being amongst them.

THIRTY YEARS AGO

In some news items from his files of thirty years ago the Amherst News quotes: "Prof. C. G. D. Roberts of King's College, has been compelled to take a few months vacation, owing to ill health. He left for Halifax on Tuesday evening of last week, thence to Boston and Washington, where he will remain until April with his cousin Bliss Carman. All the students were at the station to say good-bye to their popular professor, and to wish him a pleasant journey. During Prof. Roberts' absence, his lectures will be carried on by A. P. DeMille, B. A., the Senior of the College."

HAS BIGGEST CARGO HERE THIS SEASON

Marburn Brings 3,400 Tons - Girl Arrives to Wed in West.

With 307 passengers, a large consignment of mail and a record cargo for this season, the Canadian Pacific steamship Marburn arrived in port this morning from Glasgow. She docked shortly after 10 o'clock, and after the passengers had been landed, had their tickets arranged and their baggage examined they were sent forward to their destinations in a special train, which left West St. John about 9 o'clock this afternoon.

The liner brought 47 cabin and 260 third class passengers. The cabin passengers comprised 42 adults, four children and one infant, and the third class 225 adults, 22 children and three infants. Of this number 12 are destined to points in the United States and the remaining number are for Canada. In addition to the passengers the steamer had seven cars of mail and 3,400 tons of general cargo.

Prominent among the cabin passengers were Captain C. Goring of London; V. Hicks of London, Major E. W. Harrison of Ottawa, J. J. Gray of this city, H. S. Broughall of Egypt and Capt. K. Davis of London.

Major E. W. Harrison, who is in the interior department in Ottawa, was in the Old Country visiting relatives. As his leave has expired he is returning to resume his duties. J. J. Gray, who is in the employ of the Bank of Nova Scotia in this city, is returning after a visit to relatives and friends in Glasgow.

H. S. Broughall is a member of the Royal Flying Corps in Egypt. He is returning to his post after a leave of absence spent visiting friends in England. Capt. K. K. Davies is on a visit to friends in Quebec. He was formerly in command of the 7th Hariana Lancers in the Indian army, but lost his command in 1922 with 4,000 other officers when the army was cut down. He was in India for six years and had been in command of posts from Dush to Baghran and Askapad. Their chief duty was to prevent 40,000 Russian Bolsheviks from entering India. From the period 1917 to 1921 they had to keep in touch with 2,000 miles along the frontier.

Among the passengers who arrived on the Marburn and had their first glimpse of Canada was Miss Grace Peacock of Yorkshire, Scotland, who is en route to Canmore, Alberta, where she is to be married. It has been seven years since she has seen her lover and she is naturally looking forward with eagerness and pleasure to the termination of her long journey. In conversation with The Times today Miss Peacock confessed that the moment she started when she and her fiancé were boy and girl and later when he left his home to seek his fortune in Canada it was planned that they were to meet in the outbreak of the war. They were to meet with their plans and he joined the 4th Battalion and served overseas. Since then he has been working in the west and has a home of his own in Dinnet. There were two unaccompanied children on the steamer, Master A. MacLachlan, who is going to Hamilton, Ont., and Master Sulo Altalo who is going to join his father in Indian Chute, Ont.

PROVED COSTLY FOR A. T. MERRITT

Pool Room Incident of Saturday Night Recounted in Court.

As a result of a fracas in James Marloff's pocket billiard parlor in Mill street on last Saturday night Arthur T. Merritt appeared in the police court this morning to answer a series of charges. He was accused of being intoxicated and creating a disturbance in the pool room, and also was held on a warrant issued in July, 1921, alleging assault on Benjamin Thibideau. He pleaded guilty to being drunk, but denied the other charges.

Mr. Marloff and an employee testified that he had been playing pool, a dispute arose over the number of games he had paid for. It was alleged he then struck one of the staff and became abusive. He was fined \$8 or two months in jail for using abusive language and \$20 or two months in jail for the assault of the young man at the tables. The charge of assaulting Benjamin Thibideau in 1921 was dropped, as the complainant is not in the city and there were no witnesses to appear against him.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "it will soon be time to think about spring medicine."

"Not for me," said Hiram. "I'm as healthy as a trout."

"How do you get that way?" queried the reporter.

"I just gain' along an' not worryin' about medicine at all," said Hiram. "I mean give me good meals—I git lots of exercise—I sleep well an' git up early. When I'm real tired I take a rest an' then buckle-to, good an' fresh agin. The trouble with too many folks is that they got too much imagination. They think the's some-thing' wrong with 'em—an' they're al-wus lookin' fer signs an' tellin' the neighbors. They start with spring medicine—an' then they got to hev summer medicine—an' fall medicine—an' winter medicine. An' the more they take the more they want. An' if the doctor gives 'em sweetened water with a Latin name they'd tell next day what relief they got as soon as they took it. Fresh air an' exercise an' good fodder is all the medicine I need—yes, sir."
