GERMANY THE HARDEST HIT

Suit Worth \$20 Before War Now \$283

Increases of Living Cost in Various Countries Noted in Washington Statistics—Some Decline in Chicago.

Washington, May 5—The family food budget in the United States in February was exactly twice the sum expended for the same articles of food in February, 1918, according to department of labor statistics.

During approximately the same period in Great Britain, the increase was 130 per cent, while in Italy it was 187 per cent. Germany outranked all countries enumerated with an increase of 224 per cent.

Increase in prices of clothing in Germany exceeded 1000 per cent. A man's suit which before the war cost \$20, now sells for \$283.

During the year ended last February in the United States the sugar increased in price 16 per cent. Potatoes went over the top to the tune of a 273 per cent. increase since February, 1918.

Chicago, May 5—Some food prices here on the decline here today, according to the United States bureau of food and markets.

The price of Texas-Bermuda onions dropped fifty cents a bushel yesterday. May eggs were put into storage at 44-47 per cent. The amount reported on hand was more than 300,000 cases, against more than 700,000 cases reported at the same time last year.

CROP PROSPECTS IN ALBERTA

Edmonton, May 5—The first semi-monthly crop and livestock report, issued by the Department of Agriculture, states that the seeding in that province is the calendar than it was last year, varying with locality.

If quick, general seeding were possible, the prospects are the best in a dozen years. There is a depth of from two and a half to four feet of moist soil over the driest parts of the province, and the report asserts once the seed is in it will insure a moisture supply for germination and growth to carry the crop well into June.

Central Alberta has made scattered beginnings on dry spots. Peace River is backward, except along the valley. The late season is going to curtail the acreage, especially in the centre and north, but there are much better prospects for a good total acreage than people entertained at one time. The feed situation has greatly improved since the cattle and horses have got on open ground.

MATTER IN HANDS OF DR. W. B. WALLACE

Reported Today That He Will Represent Attorney-General in Renforth Case.

Information was received this morning that the attorney-general of the province has instructed W. B. Wallace, K. C., D. C., to act for him in the matter of the young men who were in the Renforth court at Hampton today but no charge will be preferred at present.

WENTY-THREE YEARS IN PRISON

Montreal, May 5—Ottave Sym, sentenced yesterday to five years' imprisonment for stealing an overcoat, had a slice record that was almost unequalled. He was the possessor of thirty-three sentences making a total of twenty-three years ten months and thirteen days in jail.

A WHITE WHALE IS SIGHTED OFF CAPE COD

Boston, May 5—A white whale, the first seen in the waters of Cape Cod in many years, was reported yesterday by Captain Gasp of the fishing schooner Ingomar. There were two white spots on the whale's back.

F. G. Sandy, M. P. P., South Victoria, whose bill to prohibit "short-circuiting" and other transactions of liquor within the province, received its second reading in the legislature this week.

American Warships To Key West, May Mean Duty In Mexican Waters

Washington, May 5—Secretary Daniels today ordered a division of destroyers, now at New York with the Atlantic fleet, to sail immediately for Key West, where they will be held for possible duty in Mexican waters.

MURDER CHARGE FORMALLY MADE

Man of Many Wives Principally Witness at Inquest and Identifies Body.

Centra, Cal., May 5—Walter Andrew Watson, alleged bigamist-murderer, was formally charged with murder here late yesterday when a coroner's jury, after an inquest over the body of Nina Lee De-De, his hidden husband's wife, returned a verdict that "death was caused by a blow on the head by James Watson."

Watson was the principal witness at the inquest. He identified the body as that of "my wife, Mrs. DeDeley." He also told the jury he had killed her and had buried the body in the lonely grave in a mountain gulch thirty miles from El Centro.

CHRISTIAN SCIENCE CASE

Boston, May 5—(Canadian Press)—An announcement that the present board of directors of the First Church of Christ Scientists will be regarded as the defacto board until the full bench of the Supreme Court has decided whether the dismissal of John V. Dittmore as a director was legal, was made yesterday by Judge Pierce.

The court also denied a motion by the trustees that Attorney General J. Weston Allen be made a defendant in the same proceedings. Judge Pierce said that he had conferred with the attorney general and believed he would soon bring an independent bill in behalf of the state.

ANNOUNCEMENT RE PRICES OF VICTORY BONDS

Montreal, May 5—The Victory loan special committee last night made the following announcement: In order to meet prevailing market conditions, the Victory loan special committee announces the following revision of prices for Victory bonds:

Table with columns: Maturity, Net Price to Seller, Net Price to Buyer. Rows include 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935.

TRAFFIC CASES

Two by-law cases were before the police magistrate this morning when Albert Clench was reported for driving his motor truck without a rear light in Mill street at 10 p.m. on April 30. He said that he was taking the car home to get the light fixed. A fine of \$50 was imposed, but allowed to stand.

Policeman Linton made the report. Glendon H. Allen, was reported by Policeman Howard for driving on the wrong side of the street on May 1. He said he did not remember the incident. The matter was allowed to stand.

Frank Orr, was reported by Policeman Linton for driving his auto truck without a rear light on April 30, in Mill street. A fine was allowed to stand. Referring to pedestrians, the magistrate said that people are supposed to keep to the right according to by-law. He cited a case where he noticed seven last night walking abreast in the street. This he said would have to be stopped.

A by-law case against Lorne Hazen, reported for speeding, was resumed, but was again postponed until the car can be tested with regard to speed as the accused says the car is not capable of making the speed alleged.

J. A. Frost of this city, was fined \$10 and costs before Magistrate W. F. Brewster in Hampton, on Monday, for driving over the road between Fair Vale and Rothery before it was declared open.

MONTREAL MARKET

Montreal, May 5—The local market was distinctly dull during the first hour this morning. The bank stocks were fairly active and strong. Bank of Montreal opened at 216, which marked 1-2 point advance over night. Royal and Merchants were steady at 291 and 291 1-2, respectively. Brompton opened at 95 1-4 and sagged to 94 3-8 after small demands. New Abitibi sold at 85, which was last night's closing figure. Steamships softened a point after opening at 85. Other issues were quiet.

As Hiram Sees It

"I hear," said the Times reporter to Mr. Hiram Hornbeam, "that you have been selling some fir saplings about \$24 a thousand feet."

NEW SYSTEM OF PILOTAGE HERE

Government to Loan Money for Purchase of Boat—Secretary Goes to Marine Department.

Fenwick M. McKelvie, pilot, left this morning for Nova Scotia, where he hopes to secure a suitable boat to replace the Howard D. Troop, recently sunk in the bay. As the owners of the Troop had no insurance on her, it was said today that the government will advance a sufficient sum for the purchase of a good boat, the amount to be paid back in twenty years. The present secretary of the pilots is to become attached to the staff of the marine department, which will assume the expense of his office, including his salary. It was also said that there has not been an increase in pilot rates at this port in twenty years, despite the increased cost of maintenance, so a satisfactory adjustment will be made with shipping interests.

Formerly there were rival pilot boats here, but in future all the pilots will be placed on the new craft and will take their turn. It is said that the pilotage system will be self-sustaining and will be no burden to the department.

CANON SCOTT ON THE GERMANS

Strong in Moncton Address—Denounces McGill Appointment.

Moncton, May 5—Addressing the Canadian Club here last night, Rev. Canon Scott of Quebec, chaplain with the Canadian expeditionary force, gave an eloquent and thrilling account of the part played by Canadians in the war. He also spoke of the Germans as a people unrepentant and unchanged and only waiting an opportunity to plunge the sword into another bitter struggle. He scathingly denounced the recent appointment of a German professor to the faculty of McGill. So long as he lived, said Scott, he would never shake the hand of a German in friendship unless first given absolute and positive assurance of his friendly intentions.

MAYOR PUTS IT UP TO THE CROWN

Perishable Foodstuffs Declared Stored on Railway Sidings in Toronto.

Toronto, May 5—Mayor Church, in a letter to Crown Attorney J. S. Corley, states that a large number of cars containing perishable foodstuffs are being stored on the sidings along the waterfront, apparently for the purpose of evading payment of wharfage charges.

Mayor Church declares that he has failed to get action in the matter from the board of commerce.

PROF. BALLANTYNE THEIR CHOICE AS MODERATOR

Ottawa, May 5—Prof. James Ballantyne, former minister of Knox church, Ottawa, was nominated by the Free-Press of Ottawa yesterday as moderator of the general assembly which is to meet here in June.

STRIKE AGAINST STARCHED COLLARS AND SHIRTS

Chicago, May 5—A twenty day strike of every man in Chicago was supposed to go into effect at six a. m. today. It was the strike against starched collars and shirts.

ALBERTA GOVERNMENT

C. P. R. President Says Freights Must Go Up

Mr. Beatty to Company Shareholders Declares Rate Increases Fixed by Dominion Railway Commission Have Not Equalled Added Costs of Railway Operations—Expects Big Immigration.

Montreal, May 5—Reconsideration of and increases in freight rates were declared necessary by E. W. Beatty, president of the C. P. R., at the annual meeting of its shareholders held here this morning. He said that while the gross earnings of the company were the largest in its history, the net earnings showed decreases from previous years because of the rise in the cost of wages and material. He said that the relation between earnings and expenses must receive careful attention. The extent of rate increases fixed by the Dominion railway commission had not equalled the increased costs forced on all railway companies.

GONZALES JOINS THOSE IN REVOLT

Carranza Has Lost His Staunchest Supporter

Washington, May 5—General Pablo Gonzales, long regarded by Carranza as his staunchest supporter has joined the revolution, according to advices through unofficial channels. Another report was that high military officers whom Carranza summoned in council a few days ago, had supplemented their advice to him with an ultimatum fixing May 15 as the limit for his tenure of office.

El Paso, Tex., May 4—(Associated Press)—An attempt to revolt against the Carranza government last night at Ojinaga, Chihuahua, by Colonel Salinas, the commander, was defeated by loyalists of the garrison, according to a telegram to A. B. Sandoval, acting consul general for the Carranza government here.

Washington, May 5—Apparently unable to get under way any offensive military expedition against the revolutionists, Carranza has begun using air-raids to harass rebel held towns in the neighbourhood of the Mexican capital, according to advices to revolutionary agents here. The report says that Carranza, capital of Mexico and Canada, has been bombarded. The information through official channels yesterday that Pablo Gonzales had defected from the Carranza government, was contained in the rebel advices.

MATTER OF OUTPUT AND SHORT DAY

Report of National Industrial Conference Board Is Given Out in Boston.

Boston, May 5—The National Industrial Conference Board, in a report issued here on the hours of work problem, has concluded that a single schedule of hours is equally adaptable for all industries from the standpoint of production.

"In general," the report says, "the ability to increase hourly efficiency and thus make up, either wholly or in part, for reductions in hours, was largely determined by the amount of handwork performed in any given process. Those industries characterized by a relatively large amount of machine work as a rule showed a marked decrease in output when hours were reduced."

The board investigated 1,518 representative establishments in five industries, cotton, wool, silk, boot and shoe, and metal manufacturing. Of these, 748 establishments had reduced hours and furnished definite information regarding results.

The report says the investigation revealed no clearly established relationship between changes in wages and the rate of production, but the evidence clearly indicated that the price rate system was more conducive to efficiency than the day rate system.

WEATHER REPORT

Issued by authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorology.

Synopsis—The area of high pressure now centered over the Great Lakes dominates the weather throughout the Dominion. The weather is fine in all the provinces with a general tendency towards higher temperatures.

A Bit Warmer. Maritime—Light winds, fine today and Thursday. A little higher temperature. New England—Fair, continued cool to night and tomorrow; frost tonight in the interior, probably heavy, moderate north winds.

Toronto, May 5—Temperatures: Highest during day, 58; lowest, 42. Stations: Prince Rupert, 46; Victoria, 44; Kamloops, 32; Edmonton, 36; Prince Albert, 30; Winnipeg, 28; White River, 40; Sault Ste. Marie, 38; Toronto, 44; Kingston, 49; Ottawa, 48; Montreal, 46; Quebec, 42; St. John, 42; Halifax, 44; St. John's, Nfld., 38; Detroit, 46.

LABOR MATTERS IN DOMINION

Galt, Ont., May 5—Negotiations between the iron moulders and the manufacturers have ended in a standing agreement. The employers granted the men an increase of seven cents an hour, making the minimum wage seventy-two cents and forty-eight hours a week. The new hours will go into effect on next Monday.

Stratford, Ont., May 5—Local plumbers and pipe fitters are standing firm in their demand for 80 cents an hour.

NEW COMPANIES IN SAINT JOHN

Incorporation of Three Announced in Fredericton

List of St. John City and County Revisors—Capital Delegation to Ottawa on Matter of Permanent Troops in Fredericton.

(Special to Times.) Fredericton, May 5—John B. Barrett, Leo J. Gallagher and Kenneth J. MacRae have been incorporated as St. John Welders and Engineers, Ltd., with capital stock of \$24,000 and head office at St. John. They will carry on business as a general manufacturing and repair company.

Mayor Reid, representing the board of trade and city council and Harry A. Smith and C. D. Richards, representing the York Commercial Club, will leave for Ottawa tonight to interview the militia council regarding stationing permanent troops in Fredericton.

R. H. Simonds, secretary of the Fredericton board of trade, has been appointed secretary of the Fredericton Housing Commission. D. W. Roberts, formerly of Fredericton, now of St. Louis, was appointed but has decided not to return to Fredericton in view of the applications under the act have been made to the housing commission. Active work is expected to start soon.

HAVE TO DEEPEN THE ST. LAWRENCE

Colonel W. Grant Morden on Matter of Nova Scotia Coal to Ontario.

Toronto, May 5—Colonel W. Grant Morden, who is promoting the British Empire Corporation, left last night for Montreal after two days in Toronto. He was asked as to the possibility of the British Empire Steel Corporation bringing Nova Scotia coal to this province. He replied that this would depend upon the deepening of the St. Lawrence canal.

"We can bring a 10,000 ton cargo of coal to Montreal," he said, "but we could not carry more than 2,500 tons of any ship that could pass through the St. Lawrence canal above Montreal. That would make it hard to ship coal economically to Ontario from Nova Scotia."

POLICE COURT

There were no arrests made during last night but the court today took up the case of Charles Ritchie, Albert and Thomas Conell, charged with breaking and entering, doing damage and stealing from the summer home of L. R. Ross, Sandy Point road and also with stealing a horse belonging to Cornelius Donovan and also cutting telephone wires the property of the N. B. Telephone Company. James Lord, a lineman for the company gave evidence concerning the cutting of the wires. Detective Donovan corroborated the evidence of the servant class before marriage. This decision was reached at a large meeting of the Veterans' Women's Association held in the G. W. V. Club annex.

Vancouver, B. C., May 5—A vigorous demand will be made for the removal of Brigadier-General H. H. McLean from the parliamentary pensions commission by the Vancouver branch of the G. W. V. Whatever you do,
eat Krumbles
W. K. Kellogg

A MINISTER must nourish himself with foods which help his system restore the vital energy so heavily drawn upon in his work. Krumbles is popular with mental workers because it helps them "keep fit."

Krumbles tastes so good and is so good that those who eat it sometimes wonder what it is.

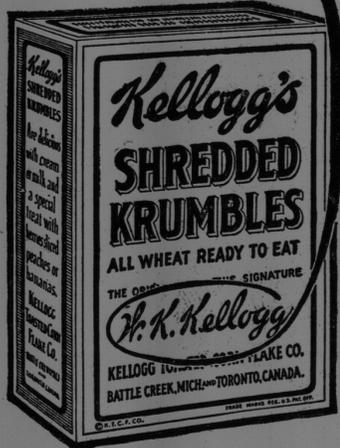

Nothing in the world but whole wheat bran and all-cooked, shredded, toasted, and given a doubly good flavor.

And, Krumbles being a compact food, a small quantity is enough for your breakfast. The nourishment in Krumbles, for example, is as carefully combined in each individual shred as Nature does when she hides so many elements in a single grain.

Ask your grocer for Kellogg's Shredded Krumbles—the only Krumbles made.

Krumbles is made in the same Kitchens at Toronto as Kellogg's Toasted Corn Flakes and Kellogg's Krumbled Bran—Always wrapped "Waxtite."

SAYS COST OF LIVING IN NEW YORK HAS DOUBLED IN LAST FIVE YEARS.

Washington, May 5—Announcement is authorized by the department of labor that in five years the cost of living in New York city has more than doubled. The increase was 103.81 per cent. in the five-year period, which began December, 1914, and ended December, 1919. Statistics showed in detail changes in the cost of living during this five-year period for fourteen industrial centres on the Atlantic and Gulf Coasts and the Great Lakes. The highest percentage of increase was 107.87 for Detroit. The next highest was 106.98 for Norfolk, New York ranked third. The total increase in each of the other cities listed is given as follows:
Portland, Maine, 91.53; Boston, 93.20; Philadelphia, 96.49; Baltimore, 98.40; Savannah, 98.68; Jacksonville, 102.14; Mobile, 94.54; Houston, 101.70; Chicago, 100.61; Cleveland, 95.05, and Buffalo, 102.65.

Here's a World Citizen.
Tulsa, Okla., May 5—Louis C. Minette, accepted for enlistment in the United States Marine Corps, said that his mother was an American who married a Frenchman in Italy. He was born on a ship flying the Spanish colors while lying in the English channel. When five his parents died in Sweden, he was adopted by a German and brought to the United States. His adopted father became a citizen. "I'd class him as a League of Nations," said the recruiting sergeant.

Seamen as War Preventers.
Sydney, N. S. W., May 5—The federal council of the Seamen's Union, after a long series of sittings, has decided to summon an international conference of seamen's organizations to consider the proposal of joint action to prevent future wars.

An Advertisement to Wives

Perhaps you don't want your husband to insure his life. The possibility of his dying suddenly seems too awful to think about. And getting money as a result of such a tragedy offends your conscience.

Well now, do you know two widows, one left comfortably provided for by life insurance money and another left destitute? Ask them what they think of life insurance. Then draw your own conclusions.

If what they say leads you to believe in life insurance—as we believe it will—ask for our free booklet "Safeguard your legacy." It will tell you about an Imperial Life Policy in which your husband can invest a few dollars each year. Then if he should die we will pay to you as long as you live—regularly—each month—a certain amount of money to keep you and the little ones from want.

The sum of \$25 on patriotic purposes was voted to the Palestine relief fund and \$57 was spent last month for charitable purposes. Mrs. Marcus and Mrs. Tasman were given a vote of thanks for their efficient work. The following officers were elected: Mrs. Joseph Goldman, president; Mrs. L. Isaacs, vice-president; Mrs. Pechonak, secretary; Mrs. H. Gros-winer, treasurer. Mrs. Goldman and Mrs. Isaacs were re-elected by acclamation.

TOOK WRONG DOSE.
Owen Sound Veteran Dies of Carbolic Poisoning.

Owen Sound, May 5—A fatal mistake was made by Robert Ward, who died from the effects of carbolic acid poisoning. He and his wife had been at a dance, returning home about 8 a. m. Mrs. Ward went at once to her room, but hearing her husband groan a few minutes afterwards, returned to the room where she had left him, to find him writhing in agony and almost unconscious. Though all possible haste was made to call a doctor, Mr. Ward was dead before anything could be done. The surmise is that he had intended to take some medicine and got hold of the wrong bottle. Mr. Ward, who was a war veteran of the Great War, is survived by his widow, two children, his parents, two brothers and five sisters.

VALUABLES SEIZED.
German Customs Authorities Busy at Dutch Frontier.

The Hague, May 5—During the last two weeks the German customs authorities at Oldenzaal, on the Dutch frontier, have seized precious stones to the value of seven million marks, bank notes valued at 600,000 marks and £400 which passengers endeavored to smuggle out. Detectives resort to all sorts of schemes, mingling and talking with passengers on trains in order to seize the valuables at the frontier. Control measures are becoming increasingly strict.

Freezone is the discovery of a noted Cincinnati genius.

USE The Want Ad Wax

Rational Home Remedy For Wrinkled, Baggy Skin

Bathing the face in a simple lotion made as follows, is the best thing known to dispense wrinkles, from the finest lines to the deepest crowfeet: Powdered saxolite, one ounce, dissolved in witch-hazel, one-half pint. Your nearest druggist can supply the constituents. It is a natural and rational treatment, as it tends to remove the cause of those tell-tale signs of advancing age, worry or ill health. Having both astringent and tonic properties, the solution tightens the too-loose skin and tends to solidify the underlying muscular tissue. This smooths out the wrinkles and gives the skin a firmer supporting foundation. Obviously this effect must also reduce hanging cheeks, double chin and baggy neck. The remarkably prompt action of this harmless lotion is another commendable feature.

Appear At Your Best—Instantly

If you receive a sudden call or an unexpected invitation you can feel confident of always appearing at your best. In but a few moments it renders to your skin a wonderfully pure, soft complexion that is beyond comparison.

Geurad's Oriental Cream

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or stressed appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

"SYRUP OF FIGS" CHILD'S LAXATIVE

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva I. Yateman, Krugerdorf, Ont., writes: "I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, however, was, that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and I sincerely feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them as I am confident they will find relief."

RETIRES AFTER FIFTY-FIVE YEARS

James Patterson Has Seen Much Change Along Waterfront. Days When Nine-Inch Lobsters Were Three Cents Each and Other Products of Sea Proportionate. To the majority of people in St. John at the present day the sight of a large liner gliding majestically up the harbor and swinging gracefully into dock is an almost sacred thing. It suggests no comment, arouses no memories, suggests no contrasts. No one is surprised to see the many steam and gasoline driven small craft fitting about the harbor. It is accepted as a matter of course that this is the age of science, the age of inventions and of modern methods. Through the medium of books of history one learns what has gone before. Radical changes have taken place in the way of doing things in the last half century, and fortunate is the man who has been permitted to be intimately associated with a most interesting phase of the life of the city, but one upon which so much depends, namely that of the waterfront. Such a man is James Patterson, who was for so many years connected with business at South Wharf. Fifty-five years ago Messrs. Masters & Patterson, the latter an uncle of James Patterson, were actively engaged with Mr. Patterson in business on practically the same site as that which has been occupied by James Patterson for so long. In 1840 James Patterson came to St. John as a clerk. The firm was selling fish and groceries. The fire of 1877 laid their building in ruins, but another structure was soon arose on the spot. In 1883 James Patterson started in business for himself, dealing in fish and fishing supplies, and manufacturing oilclothes. Since then he has "carried on," and has but last week released his hold. The greater part of his building will be occupied by Northrup & Co. as a warehouse. Mr. Patterson, retaining for his own use his office upon the second floor.

HOUSE DISCUSSES THE BIG MERGER

Richardson's Question Starts the Talk in Commons. Dr. Michael Clark, Amid Laughter, Quotes Mary's Little Lamb—Sir George E. Foster Says There Will Be Careful Government Inquiry. (Canadian Press.) Ottawa, May 5.—On the plea that the subject was of national importance and that he was to leave for the west last night, R. L. Richardson of Springfield was allowed by the commons yesterday afternoon to put his question to the government in regard to the proposed British Empire steel merger. He cited a letter from "a prominent financial man in Toronto," whose name he declined to give, which charged that the merger was an attempt by London and New York manipulators, closely connected with the United States Steel Corporation, to put over a gigantic stock watering enterprise, and that it would be interesting to the government to know the actual cash invested and the status of the companies being taken over. The writer also reported the proposal to an attempt to repudiate the deal by which several hundred millions was obtained through watered stock in a United States company. Mr. Richardson said he saw at the office of the under secretary of state the application for incorporation of this company under the joint stock companies act. The capital stock proposed was \$500,000,000, and it was estimated that this would be increased to \$1,000,000,000. He said there should be a limitation to the amount of capitalization. Over \$100 million in "wind and water" for stock manipulators to work upon. He said it was the duty of the government to look into the matter fully. Dr. Michael Clark, who was sitting next to Richardson, quoted from an article in the Toronto Star, including facts and figures given by Colonel Grant Morden and Lloyd Harris, to show that this merger was really a good thing for Canadian industry. Dr. Clark spoke of the formation of the United States Steel Corporation, quoting evidence given by Andrew Carnegie that when he retired he had forty-three partners, and each of them were worth a million dollars. He said that this was a condition of affairs which had induced the United States to cut its tariff; and, amid laughter, Dr. Clark cited the lines: "There is only one way to handle it; get rid of the protective tariff," said Dr. Clark. E. W. Nesbit of Oxford was not afraid of big interests or big corporations because they could always turn on the gas, better and cheaper than the smaller ones. He said he was opposed, however, to over-capitalization. He did not mind whether the stock went as high as five hundred millions if there was value behind every dollar of it. He advised the government to investigate the merger carefully to see if there was no water mixed in the deal. On the other hand, there were good possibilities in the merger. It might result in a reduction in the cost of steel, and enable the British to compete more successfully with the United States in the markets of the world. Government Statement. Sir George E. Foster said "The government is looking very carefully into the proposed combination in a vigorous and complete manner. It is a very large bill and will make a very thorough inquiry." W. F. McLean of South York said the government was about to embark upon the creation of a great oceanic marine merger into which it was putting hundreds of millions and would put hundreds of millions more. He said he was not to protest against the transportation facilities of the country being mixed up with a steel and coal merger. It was a menace to the national marine which was being launched by this government at great public expense. Hon. W. L. Mackenzie King said the government was about to embark upon the proposed combination in a vigorous and complete manner. It is a very large bill and will make a very thorough inquiry. Colonel J. A. Currie of Simcoe defended the proposed combination in a vigorous and complete manner. He said that while he was not financially interested in the deal, he was a member of the public and he would not have been over-estimated their assets. Values in such a business were represented by earning capacity as well as in hard cash. The resources of the United States Steel Corporation paid in

A TIME FOR CAUTION FOR BUSINESS MEN

In an interview in the Maritime Merchant, H. L. Gantner of Halifax, formerly of St. John, says regarding the policy he believes merchants should pursue: "I am not a prophet nor the son of a prophet, and therefore I do not pretend to say how long the present volume of business is likely to continue, nor when we shall see a general reduction in prices. But this I do feel, that what is present is a line when we all should watch our step very carefully, missing nothing that will take us ready for the inevitable rainy day. The present is a time when we should all keep watch on our trade 'ansactions. We should be most careful about our purchasing, and doubly so about our credits. For the past few years this country has had great prosperity, and no class has shared more largely in it than the men engaged in rebanding; profits have been forced in them by advancing markets. Often, of course, they have sold at less market rates, because they were obliged to make a reasonable margin on their purchase price, but even with this margin they should have done fairly well. Now, my point is that any retailer today who is not paying his satisfactorily must be a weak vessel, and the sooner his credit is restricted the less damage will be done. The man who is dragging today when times are bad, when money is plentiful, can have one thing happen when the quiet sun arrives. Such men should be compelled to restrict their purchases to the smallest quantities that will keep them going, or else refused credit altogether. It is hard to have to say a thing of this kind to an old friend and customer, but sometimes the thing that sounds harshest is the best in the end for all concerned. My belief is that this is a year for change. Small stocks, quick turnovers and prompt collections, 'as is the motto for all of us. We may also have a chance for extra profits occasionally but we must be willing to miss them for the sake of the greater safety which the more conservative policy assures."

MORNING NEWS OVER THE WIRES

At Concord, N. H., on May 4 Mrs. Marion Loyes Otterson was found guilty of the murder of her brother-in-law at Hookset last November. Sir Thomas Tait announced at Fredericton yesterday that the Minio strike was not declared over, but that the company would resume operations as soon as weather permitted. He estimated that the daily output would be 200 tons. In the Westmorland circuit court yesterday the grand jury reported as follows: No bill in the cases of the King against Annie Devine and the King against Karl Tower. A true bill was found in the case of the King against Roy Richards, charged with escape from the penitentiary at Dorchester. Walter Andrew Watson alias James R. Huit, the modern Bluebeard, yesterday personally guided a searching party to the body of one of his victims, Nina Lee Delaney, which was found near Coyote Wells, Cal.

SICK HEADACHES For Last 10 Years

Headaches affect all ages and both sexes alike, but in all cases the treatment should be directed to remove the cause, for with the cause removed the headache vanishes for all time. What is necessary for a permanent cure is something that will go right to the seat of the trouble. For this purpose it is impossible to find a better remedy for headaches of all description than Burdock Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system. Flora Hall, Dominion, N. S., writes: "I have been troubled with sick headaches for the last ten years. I had lost faith in all remedies until recently a friend of mine advised me to try Burdock Blood Bitters. This I did, and found relief in a very short time. I would now recommend B. B. to anyone who is suffering as I did. I only took 3 bottles, and am never troubled with sick headaches any more." B. B. has been on the market for over 40 years. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

THE PRODUCTION OF COAL DECREASING

Despite the great need for developing the Canadian coal mining industry the actual production from Canadian mines decreased materially in 1919 as compared with 1918 and 1917. The tonnage produced in these three years was as follows:

1917. 1918. 1919. Nova S. 6,345,000 6,538,520 5,702,316 New B. 189,038 208,205 177,376 Sask. 360,623 347,622 381,967 Alberta 4,873,637 6,070,600 5,022,412 Brit. Col. 2,660,834 2,878,102 2,429,211 Yukon 5,204 2,900 1,100

Total 14,435,026 16,405,958 13,714,982 Another significant feature of the fuel situation during 1919 is the fact that 21,811,813 tons of coal were imported from the United States during the year, being approximately 61 per cent. of the coal used in Canada, in 1919 only 25 per cent. of the coal used was imported. Instead of cutting down the percentage of imports we are increasing it. The bare facts are that we are depending more and more upon the United States for our coal.

SAYS MANUFACTURERS IN CANADA SHOULD RATION THE OVERSEAS MARKET.

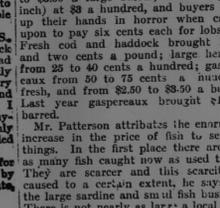

Montreal, May 5.—That Canadian manufacturers should "ration" the overseas market if they wish to retain it permanently, was a suggestion made last night by Walter Lefroy, editor and founder of "Canada" and the "Canadian Export Pioneer," weekly papers published in London, England.

LARGER TAXI LIGHTS ORDERED

Boston, May 5.—The Taxi Service Company of this city is required to equip its seventy-five machines with larger headlights, in an order issued on Saturday by the state registrar of motor vehicles, as the result of a fatality on April 1. The driver testified that he was able to see but a short distance ahead on account of his small lights.

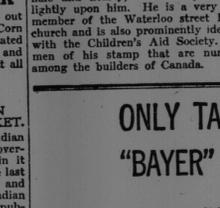

Conversation with Mr. Patterson elicited the not surprising fact that the personal life of business men about St. John has entirely changed in the last fifty years. A few of the business houses bear the same name, but the men who were actively engaged with Mr. Patterson in the early days have gone. Old H. C. L. came in for the usual berating to which it turns out that the fish has kept pace with the increase in the price of other things and is perhaps a lap ahead. Fifty years ago codfish sold at from \$2.50 to \$4 a quintal (112 lbs.); herring (pickled) at from \$2.50 to \$3.50 a large barrel; lobsters (live inch) at 80 a hundred, and fifty years ago there was a poster hanging on the wall to pay six cents each for lobsters. Fresh cod and haddock brought 11-2 and two cents a pound; large herring from 25 to 40 cents a hundred; gasper-cod from 50 to 75 cents a hundred, fresh, and from \$2.50 to \$3.50 a barrel. I last year gasper-cod brought \$11 a barrel. Mr. Patterson attributes the enormous increase in the price of fish to several things. In the first place there are not as many fish caught now as used to be. They are scarcer and this scarcity is caused to a certain extent, he says, by the large sardine and snail fish business. There is not nearly as large a local market today. Fish used to be a prominent article of diet in lumber camps, but this is changed. The fish business is one for the greater part by large companies who use steam trawlers instead of a hook and line. Many changes are to be noted in the nature of the craft which dot the harbor and line the wharves. Fifty years ago there was but one small steamer seen in St. John, and it ran to Digby. Selling vessels from all over the known world came here, bringing a variety of different kind of cargo. Market Slip derives its name from the fact that ships with their dock there with an unconsigned cargo for sale. Merchants and traders went to the ships to buy. The most noteworthy of these ships was the "Lampedo," Capt. Cook. She made an even two trips to the city, selling her cargo here and buying in return to sell in England. She was finally discarded and the "New Lampedo" took her place under the same master. The general use of steam power spelled her doom. Many ships were built at Courtenay Bay and Portland. These ships on completion were loaded with deals and taken to England and there sold intact. "Though he has exceeded the Scripture," says Mr. Patterson, "I am a man small live, and his years rest lightly upon him." Mr. Patterson is a member of the Waterloo street Baptist church and is also prominently identified with the Children's Aid Society. It is men of his stamp who are numbered among the builders of Canada.

comparison to those of this Canadian corporation. The securities of all the companies involved were of the best. D. D. MacKenzie of Cape Breton, North, referred to the tremendous deposits of coal in Cape Breton. It had been intimated that the proposed capitalization of the new corporation was very large, but in view of the coal and iron deposits to be developed, it was perhaps not too great. He advised keeping a tight rein on the corporation. Third reading was given to a bill to authorize an increase in the fees of Queen's pilots and to a bill to extend the time limit within which oleomargarine may be imported and sold. Dr. Tolmie said it was proposed to adopt a regulation requiring the word "oleo" to be printed in the material of each package of oleomargarine and to increase the police work.

C. P. BAKER DIES IN WATERTOWN

Passes Away While on Visit to Niece

Outstanding Figure in Lumbering Business of New Brunswick and Prominent in Fairville Baptist Church.

A special despatch from Watertown, Mass., today brought the sad news of the death of Charles Parker Baker of Fairville. He had been visiting his son, Rev. George R. Baker, in Thicket and his niece, Mrs. E. K. Andrie in Watertown and in the latter place became ill. Pneumonia developed on last Sunday and death came last night. The body will be brought to St. John tomorrow and the funeral will be held from his late residence on Sunday. Mr. Baker was about eighty-two years old.

After his long years of residence in Fairville and Randolph the news of the sudden death of Mr. Baker came as a decided shock to all who knew him, as he had always enjoyed very good health and while advancing in years, bore the erect carriage and sprightly step of a man much younger, and gave promise of many years yet of enjoyment of his full faculties. The name of Mr. Baker has long been identified with the lumber industry. He operated a mill years ago when Milford and Fairville were thriving villages mostly dependent upon the lumber mills. Later he became associated with Hon. A. F. Randolph and the business style became Randolph & Baker. The firm was incorporated as a joint stock company in 1899. For many years Mr. Baker controlled the practical management of affairs, making his home at Randolph village, near the mills, where he built a beautiful residence. Under his supervision the business expanded, lime quarries were opened and the operations of the company became very substantial. About ten years ago Mr. Baker retired from active management of the business and had since been living quietly in Fairville.

Of a very devout nature, Mr. Baker was one of the founders of the Fairville Baptist church, and up to his death a consistent member. Through the years he had been a member of the standing board and also a trustee, taking a deep interest in all church matters and his counsel and influence will be greatly missed in the church of which he was a charter member. From the time the mill was built, about forty years ago, he had been a most generous contributor not only to the support of the church in general but to many kindred causes, and general benevolence could always be counted upon.

Of a kindly disposition, he ever had a ready smile and word for his friends. He was much respected among the business fraternity and was well thought of over the entire province in his lumbering operations. Besides his sister, Miss Emma Baker, he is survived by his son, Rev. Geo. Baker, a Baptist clergyman in Thicket, New York state; two brothers, Frank in this city, and Edgar in Halifax, N. S.; his niece, a nephew, Ernest, now at Oxford University, England, and one grandson, the young son of Rev. Geo. Baker.

In an account of the Randolph & Baker industry written in 1897 the following appears: "The village of Randolph, which their industry has built, is on the shore of the St. John river, above the harbor of St. John. They can hold 300,000 feet of logs at once in the boom along the shore by their mills, and they have a quarter of a mile of wharf front at the mills, where schooners and lighters can take cargo. Right in rear of the saw mill are inexhaustible quarries of the finest quality of limestone. The haul from quarry to kilns is only about 1,400 feet, and as the latter are on a lower elevation beside the wharves, the stone is simply hauled out and dumped in the top of the kilns, while the fuel is run down on tramcars from the saw mill to the furnaces below. Huge sheds hold the barreled lime. The firm makes its own barres, which roll by gravitation from the coopers' shop into the kilns. In 1894 the firm turned out 65,000 barrels of lime. It was chiefly sold in the United States. Nowhere in the world, perhaps, is there an opportunity for the joint presentation of the lumber and lime industry equal to this. The firm owns eighteen houses, that furnish twenty-six tenements. They employ about 165 men in summer."

UNTRUE STATEMENT ABOUT THIS CITY

But the Halifax Echo Adds Some Comment That Is of Interest.

Some imaginative correspondent has sent the following despatch to the Halifax Echo: "St. John, N. B., May 2—In the shuffle that took place on moving day it is estimated there are seventy-five families in the city left without a home. Many of them are seeking shelter with friends and others will be forced to move to some other town in hopes they may find a dwelling place. There has been an unprecedented demand for rents and the situation has reached a serious stage. The city is loath to take full advantage of the housing act and there is no prospect of any building of houses to take care of the future demands. Many commercial travelers who have made their homes here are leaving for other towns where they have secured rents." "Scarce as houses are it will be news to St. John people that seventy-five families could get no shelter on moving day. The Echo, however, makes some comment that will be of interest to St. John people. It says: "Haligonians escaped a similar situation to that which exists in St. John owing to an act that was passed by the legislature last year and amended several days before May 1, prohibiting any landlord from putting a tenant out unless the place was required for his own use or that of his employees. Therefore practically all who did move had a place to go to, and did not have to seek the aid of relatives."

DAMAGES IN WOODSTOCK CASE ARE DETERMINED

(Special to Times.) Woodstock, N. B., May 5.—In the circuit court on Monday and Tuesday before Judge Crockett the trial of William Moorey and his wife against Lewis Bell was finished. This was an action for personal injuries to Mrs. Moorey. It was said that the defendant in last October was driving his car on the wrong side of the road and struck a wagon in which Mrs. Moorey and her daughter were driving. Mrs. Moorey received severe injuries and some wounds on the face of a permanent disfiguring character. The parties could not agree before the trial on the amount of compensation which the plaintiffs should receive and the principal question in the trial was to settle such amount. The jury found a verdict for Mrs. Moorey of \$500 and Mr. Moorey \$228.70 covering doctor bills, value of the horse and wagon, etc. R. L. Simms appearing for the plaintiffs and Jones & Jones for the defendant. The court adjourned at the conclusion of this case.

TWO TO SPEND REST OF DAYS BEHIND BARS

Quebec, May 5.—Telephore Gagnon, found guilty of manslaughter in the case of Aureole Gagnon, his daughter, who died after brutal beatings from her father and ill treatment from her stepmother, the latter now under sentence of death for the crime, was this morning sentenced to life imprisonment by Mr. Justice Desy. Romeo Remillard, found guilty of shooting and killing Lieutenant Lucien Morrissette, and also found guilty of manslaughter, also received a life imprisonment sentence. Remillard's father, charged with murder with his son, will be tried at the next sessions of the Quebec assizes.

OAK HALL'S BACK HOME SALE IN FULL SING

Corner King and Germain Looks Like Old Times. The Oak Hall Back Home Sale at the corner of King and Germain streets, at the old stand, started off with a rush yesterday morning and it certainly looks like old times to see the familiar Oak Hall sign on the windows once more.

Oak Hall made tremendous preparations for this Back Home celebration, but judging by the crowds that were lined yesterday morning it looks very much as if they would not have sufficient merchandise to run more than a few days, in spite of their tremendous preparations.

There were large crowds at the doors when the opening time came around, and from then until closing hour every one of the numerous salesmen was kept on the jump, and many were the congratulatory remarks passed in reference to the quality of the merchandise that is being offered, and at the prices which are far below anyone's expectations.

Of course Oak Hall has been preparing for this great Back Home celebration for months now. They accumulated exceptionally large quantities of merchandise at rock-bottom prices, for cash, and have marked the selling prices at a very minimum of profit, figuring on a large volume of turnover to make it up.

Besides these special purchases, they have selected many lines of clothing and furnishings from their regular stock and have marked these at drastic reductions.

The sale will continue for a few days only, as the building must be turned over to the contractors for renovations, so it behooves everybody to take advantage of the economies offered, before it is too late.

Deaths in Fredericton

E. was held in Fredericton were discussed.

FAVOR PERMANENT BOARD TO BUY FOR GOVERNMENT NEEDS

Ottawa, May 5. (Canadian Press)—Communications from business interests throughout the country have been received by the government favoring a bill to establish a permanent board for the purchase of governmental and other supplies. Resolutions in approval have been received, among others, from the boards of trade of Vancouver, Calgary, Moose Jaw, Medicine Hat, Saskatoon and Winnipeg, the associated boards of trade of British Columbia and the Canadian Manufacturers' Association.

The points generally taken are that establishment of such a board would mean greater economy in the purchase of supplies and give every man engaged in the business a fair chance to compete.

WHEN TO GATHER ROOTS AND HERBS

For medicinal purposes, roots and herbs should be gathered when their medicinal properties are at their best. For instance, roots of annual plants should be dug just before their flowering season, and roots of biennial or perennial plants after the tops have died.

All these things are taken into consideration in gathering the roots and herbs. Many tons of which are used annually in preparing the most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound.

X-RAY FAILED

Mechanic Gives Evidence. There are cases where science in its most profound phases is absolutely balked, yet other help is at hand. This is proved by the testimony of a mechanic, 35 years of age, who suffered at times, positive torture from stones in the bladder. After trying many remedies without result, he had an X-Ray photograph taken, which also failed to show where the trouble was. Fortunately, just at this juncture, when he almost had given up hope of any relief, Gin Pills were brought to his notice. These famous Pills in a very short time enabled him to pass the stone which was the cause of his trouble. We will give the name of this man on request.

FEELS IT DUTY TO TELL FACTS

Dartmouth Man Declares He Suffered For Years With Indigestion and Rheumatism—Tanlac Restores Him

"I never thought I should ever let my name be used in connection with a medicine, but Tanlac has been of such remarkable benefit to me that I feel that in giving the facts of my case, I am only doing my duty to the public."

Peter Nilsen, who lives on Rose street, and is one of the best known and most highly respected citizens of Dartmouth, Nova Scotia.

"For nearly fifteen years I had been troubled with indigestion. Although I had a good appetite my food would always seem to disagree with me, sour on my stomach, and form gas that would cause me sharp pains in the chest, and almost cut off my breath. I felt miserable for hours after every meal and my kidneys also were out of order and I had a dull aching pain in the small of my back, and if I stooped over I could hardly straighten up again."

"But of late years my chief trouble has been with rheumatism. I used to have occasional attacks of it in the arms and shoulders so bad that I couldn't use them, but during the past two years it seems to have settled in my legs and got so bad at last that I couldn't walk to business, and for a year had to go to a taxi to take me in the morning and bring me home at night. Finally I bought a car just to carry me back and forth to my work. I was in such a state that I couldn't have walked to save my life, and even if I walked a single block I would have to stop and rest four or five times. I got the best advice procurable, and was told that all my trouble was caused by my stomach and as soon as that was put in order I should get it right. But all the treatments and medicines I tried failed to do me much good."

"Well, finally about six months ago I decided to give Tanlac a trial, and the plain fact is that today I am a well man, able to walk back and forth to my work every day, and feeling as well as ever in my life. My appetite is so good that I can eat three good square meals a day, and never have that sourness or gas, the pains in my back are gone, and I sleep well at night. I haven't needed the car for some time since December 16th, as I prefer to walk now. Yes, I'm feeling stronger and better in every way. My friends all know what a condition I was in a few months ago, and they know also what Tanlac has done in my case. I think it is a wonderful medicine and I cannot recommend it too highly."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Pearson, Highgate; and by the leading druggists in every town.—(Advt.)

MARGARET ANGLIN IN NEW YORK

Famous Canadian Actress to Present Historical Drama There.

New York, May 4.—In the near future Margaret Anglin plans to present in New York a spectacular historical drama by Astrid Argyl, adapted from the French of Emile Moreau.

This play was produced on April 12 at the Columbia Theatre, San Francisco, and was acclaimed by those who attended it as one of the most superb and lavish productions ever seen on the Pacific Coast, as well as the most forceful dramatic medium in Miss Anglin's long career.

Livingston Platt designed the scenery and costumes and George Foster Platt staged the play. The cast numbers fifty persons. The medieval glamor of the story is accentuated by an elaborate musical setting arranged from Tschickowsky's opera, "The Maid of Orleans." Emile Moreau, a noted French dramatist, wrote the play originally for Sarah Bernhardt. In its present form it records poetically the last days of the glorious Maid of Orleans with all its expected pathos.

Principles!

To forego all desire to accumulate money or chattels for personal advantage.

To live decently, to have sufficient food, clothes, and shelter, but to ask no reward in this life.

To dedicate their lives solely to the work of helping others, and bringing them to Christ.

To spend their lives in consecrated ministry to the physical and spiritual needs of the poor, hopeless, needy, fallen, and stricken.

These are the principles that govern the lives of the Salvation Army Officers.

"By their deeds ye shall know them."

TICKET DEALER FINED.
Atlanta, Georgia, May 5—Charged with profiting in opera tickets, R. B. Rand was fined \$26 in the Recorder's Court. The court also ordered him to return to all purchasers of the tickets the money received by him in excess of the regular prices. Mr. Rand said that he was acting merely as an agent for persons wishing to dispose of one or more pairs of their season ticket sets, and that he was given instructions to get a certain price for each ticket sold, which, it was found, was much more than the regular price.

RECTOR AND WIFE SURPRISED.
Rev. Canon and Mrs. G. A. Kuhring were most delightfully surprised last evening when about twenty-four of the members of Canon Kuhring's Bible class called upon them and set about arranging a pleasant party. Games and music were the order of proceedings for some time and then dainty refreshments were served. Mrs. Kuhring presented a beautiful bouquet of flowers and a silver pencil was quietly slipped into Canon Kuhring's hand.

POST TOASTIES
among corn flakes is no accident.

Those who enjoy these top-notch corn flakes must remember they are not one of those food fads formed one day and exploited to the public the next.

Toasties are the result of scientific, painstaking development by master food makers.

You realize this fact when you compare them with imitations; not only taste but appearance tells—

CONDUCTS SECOND HEALING MISSION

Remarkable Interest in Cures by Layman of Church of England.

New York, May 5.—James Moore Hickson, a layman of the Church of England, is conducting a second healing mission this week in Trinity Episcopal Chapel, in Twenty-fifth street, west of Broadway. Admission is by ticket only, according to the Rev. J. Wilson Sutton, vicar of the chapel.

troit, a commission was appointed to study his methods and to report back at the next triennial convention. One of the members of this Episcopal committee is the Rev. Dr. William T. Manning, rector of Trinity, who brought Mr. Hickson to the city a year ago, and induced him to return this week. Mr. Hickson had planned last year to make a trip around the world, conducting healing missions, but stayed in this country because of the interest shown in his work here.

THREE O'CLOCK GIRL GETS \$25,000 DAMAGES. Fell From Huge "Clock" on Hippodrome Stage and Was Severely Injured.

(New York Post.)

One of the largest verdicts ever given in Kings county in an accident damage case was awarded by a jury in the

Brooklyn Supreme Court today. It gave \$25,000 to Ethel Lorraine—in private life Mrs. Esther Schubert—in her suit against the New York Hippodrome Company.

Miss Lorraine fell from a ladder on the Hippodrome stage about a year ago, when she was one of the young women taking the part of Three o'clock in the living numerals on a huge clock. She

sued the Hippodrome Company for \$100,000.

TEXAS IN NEED OF 2,000 TEACHERS.

Austin, Texas, May 5.—Shortage of public school teachers in Texas is becoming alarming, according to Miss Annie Webb Blanton, state superintendent of

public instruction, who estimates that fully 80,000 children of scholastic age in Texas this year are without teachers and that at least 2,000 teachers are needed to fill places now vacant.

The figures compiled by Miss Blanton are based on reports from 229 counties, including practically all the principal cities of the state, and indicate that

nearly all the towns have greatly overcrowded grades with teachers in many schools instructing pupils in two half-day shifts. Some grades report as many as ninety pupils for one teacher.

Low salaries for teachers and their ability to get better pay in other lines of work are attributed by Miss Blanton as chief causes for the shortage of teachers.

Buffalo, N. Y., May 5—Frank J. Gaffney, termed the second bravest soldier in the American army in the world war, Michigan, lies in a critical condition at the Hindenburg line and later at the battle about Souplet, he was awarded one of the two Congressional medals for honor and several French and British medals.

Sarnia, May 5—With one leg so badly mangled that immediate amputation was necessary, Joe Lewis, Harbor Beach, Michigan, lies in a critical condition at Sarnia General Hospital, as the result of being caught by a touring car and pummed between the spring and the wall of the Merchants' Bank.

A big touring car, owned and driven by F. L. Cleighton, of Mooretown, containing his wife and little child, while coming up the hill from the ferry got beyond control of the driver, swerving through the wall, Mrs. Cleighton was thrown without warning and pinning Lewis to the wall. Mrs. Cleighton was thrown through the wind-shield and severely cut about the forehead.

Stealing Hats New Game. London, Eng., May 5—During the last few days in the region around Victoria station, something like 200 reports have been received that persons have had their hats stolen. The method of the thieves is for one of them to snatch the hat from a person hurrying for a train and hand it to a confederate.

YOUNG MEN SAVED THE SITUATION

Their Enthusiasm Means Success of South End Playground — Will Start Work This Evening.

Only ten men and three ladies from the whole south end of the city thought it worth while to attend the well advertised meeting of the South End Improvement League in the King Edward school last evening. This would have been very disappointing to the ten men and three ladies but for the fact that the young men and boys were there in large numbers. Not only did the latter take an active part in the meeting, giving valuable suggestions, but they insisted on contributing a silver collection to pay part of the cost of the meeting. And they pledged themselves to be on the south end grounds tonight as an aid in getting the ground in shape before the 24th of May. Some caustic things were said about the amazing apathy of south end people, and there was talk of a bugle band with banners to parade the streets and invite them to the annual meeting next week.

The meeting was unique. The handful of older folk were delighted beyond measure by the spirit displayed by the young men, and their desire to help the league. It will not be their fault if the intermediate trophy for baseball does not come their way this year.

C. M. Lingley was in the chair. He told of the large amount of work to be done on the grounds, the deficit in connection with the skating rink, the prospects for this year's development not only of baseball but general athletics, and the importance of getting early to work.

A. M. Belding told of the great work being done on the east end grounds, of the outlook in the west end, the possibility of having some aquatic sport this year, and the great progress made in regard to playgrounds in St. John since the South End Improvement League set the pace two years ago.

W. K. Haley explained the relation of the Playgrounds Association to the different leagues, and pledged its support and co-operation in every possible way.

R. E. Armstrong reviewed the work done in the last two years, dwelt on the importance of the playgrounds, and congratulated the young men and boys on their interest in the work.

Alex. Wilson spoke along similar lines and emphasized the fact that the boy who learned on the playground to play the game fairly and to the best of his ability carried that spirit through his life.

A. H. Ellis spoke of last year's baseball league, and pointed out that every player this year must show his amateur card, and team players should be named early.

S. H. Davis expressed surprise at the slim attendance of parents at the meeting, and pledged himself to do all possible to arouse interest and aid in the work.

The real "pep" was put into the meeting when the chairman called on the representatives of last year's ball teams to express their views. The speakers were Edmund Lowe of the Braves, Fred Stewart of the Yankees, Arthur Seely of the Pirates, William Lahey of the All-Stars, Roy Lawson of the Juniors, and John Nixon of the Skaters. They put an unerring finger on last year's mistakes, made practical suggestions for this year, and announced that they would be on the grounds this evening to begin the work of putting them in shape.

Messrs. Haley, Wilson and Ellis were appointed a committee to consider ways possible before the annual meeting next week. The meeting closed with the national anthem, but the young men lingered for some time to talk over the outlook. A feature of the meeting was the very hearty tribute paid by the ball players to C. M. Lingley for his work on the grounds last year, his fairness and interest in all the boys.

BEAUTY MANIA SWEEPS PARIS; EARS FIXED BY SURGEONS.

Paris, May 4.—Professor Julien Bourguet, it is said, has discovered a process of giving perfect form to any woman's ears by a simple surgical operation involving neither danger nor pain. This will make it unnecessary for any woman to loop her hair on the sides of her face to conceal ugly, lobed ears. The craze for artificial beautifying has caught all Paris society. Beauty factories are springing up everywhere. Doctors specializing in this act have on their waiting list some famous women who expect to emerge from harmless operations minus their double chins, wrinkles or any other signs of age.

RICH MRS. FIELD WEDS AGAIN

London, May 5.—Nancy Perkins Field, widow of Henry Marshall Field of Chicago, was married yesterday to Arthur Ronald Lambert Field Tree. The bride who is a niece of Lady Astor was given away by Viscount Astor. Mr. Tree is a son of Lady Beatty, wife of Admiral Viscount Beatty, by a former marriage, and a cousin by marriage of the bride. Mr. Field died in New York in 1917 following an operation.

HIS BIRTHDAY.

Ottawa, May 4.—Sir Louis Davies, chief justice of the supreme court, celebrated his seventy-fifth birthday today by signing the reprieve which saved George Coppen from the gallows. Sir Louis signed the reprieve as administrator of the government, in the absence of the governor-general from Canada.

Madrid Chair of English. Madrid, Spain, May 5.—King Alfonso has announced the creation of a chair of English at Madrid University. This will be known as the Shakespeare professorship.

Now in Full Swing--The Great **OAK HALL** "BACK HOME" SALE

At the Old Stand
Corner King and Germain Streets

Our growing business has forced us to look for more floor space so we have taken over our old home stand at the corner of King and Germain streets to be operated in conjunction with our present magnificent store.

The return to this old home stand is being celebrated by the greatest sale of

Men's and Boys' Clothing and Furnishings

we have ever attempted. It has taken us months to prepare for this and we have laid in tremendous stocks of real-quality clothing and furnishings at prices that are far below present day quotations.

Our first day's business has proved conclusively that we have made no mistake and that undoubtedly our predictions have come true—that this is the biggest sale in our history.

This Back-Home Sale can only continue for a few days as the building must be turned over to the contractors for renovations.

We have done our part in getting this merchandise together at rock bottom prices. It is now up to you to take full advantage of it if you are really in earnest about practising practical economy.

Following are listed only a few of the many saving possibilities.

Turo to Kansas.
St. Louis, Mo., May 5.—Manager Branch Rickey of the St. Louis Nationals has announced the release of Oscar Turo, a Cuban pitcher, who has

been with the locals for the last three years, to the Kansas City Club of the American Association.

St. George Organizes Team.
A baseball club was organized in St. George on Monday evening and Ralph J. Doyle was appointed manager.

Juniors Play.
The Minks defeated the Lower Core Monarchs in a game of baseball last night on the Cliff street diamond, by a score of 6 to 0.

BOWLING.
Two-Men-League.
The result of the two-men league in the Y. M. C. I. last evening was as follows:—

Johnson and Clark, 568, vs. Fitzpatrick and Jarvis, 518.
Garrett and Moore, 463, vs. Hutchinson and Stack, 508.
Colgan and Smith, 511, vs. Hutchinson and Stack, 517.

GOLF.
Had Recourse to "Agony Column."
London, April 24.—A Scotch golf enthusiast, who was too polite to make a face-to-face protest against another player's objectionable manners, but too

much aggrieved to remain silent, recently inserted this advertisement in the "agony column" of several London newspapers:—
"Would the individual with the handicap of eighteen and the large voice, who hacks his way round a certain suburban course, reflect that his golfing adventures do not interest other members to the extent he would think?"

BASKETBALL.
St. Paul's Scouts Win.
St. Paul's Scouts basketball team defeated the Y. M. C. A. scout team last evening, 20 to 19.

ATHLETIC.
Another Marathon.
New York, May 5.—A marathon race at the Olympic games distance, which will receive official recognition as a try-out for the international event, will be held here on June 5 by the New York A. C. The Olympic committee decided that, because of the lapse of time between the Boston marathon last month and the Antwerp race, another tryout in June would aid in the selection of the men to represent the United States.

Runners to England.
Ithaca, N. Y., May 5.—Cornell University yesterday tentatively accepted

an invitation to send a running team to England for an international cross-country race with a joint Oxford and Cambridge team of barriers, during the Christmas holidays.

RIFLE.
Choosing Canada's Team.
Toronto, May 5.—It was decided at a meeting of the Eastern Canada Trap-shooting Association here yesterday that the trials would be held in all points of Canada for the purpose of selecting a team of six men, with two spares, to go to Antwerp to shoot for Canada. The dates for these trials are to be May 8, 15, and 22, and they will be held all over Canada on these dates. The contestants in order to qualify, must compete on the three dates, shooting at 100 targets on each date.

RING.
To Meet in Montreal.
New York, May 5.—Joe Leonard, a Brooklyn featherweight, has been selected to test the ability of Tommy Nobles, a British boxer, who recently arrived in the United States. Silvey Burns, manager of Leonard, announced last night that he had completed arrangements for a ten round bout between the pair to be held in Montreal on May 9.

CARPENTIER MAKES BOW IN RING TOGS.
Boxes Exhibition Bout in New York and Creates a Favorable Impression.

Georges Carpentier, Europe's heavyweight champion, was officially "uncovered" the other night before the admiring gaze of some 2,000 spectators at the 71st Regiment Armory, New York, on the occasion of a benefit entertainment arranged for enlisting subscriptions to the fund for erecting a Manhattan navy club. This, the first glimpse of the popular French war hero and boxing idol in ring togs in New York, was a revelation, and the spectators demonstrated their appreciation with a sustained round of applause which echoed through the eiders of the thirty-fourth street armory.

Carpentier was one of several participants in an extensive entertainment which was enjoyed from beginning to end. The French boxer took this occasion to make his initial bow in ring costume outside the moving picture studio. In his first public appearance in ring attire, Carpentier revealed himself as a truly great pugilistic figure, a perfect specimen of physical co-ordination, and possessed of ability which reflected the reason for his remarkable rise in the ring and portended, to a certain degree, excellent boxing sessions for American heavyweights who may be selected as opponents, in the event that the Frenchman agrees to fight any real bouts while in this country.

Carpentier was clad in a clinging white jersey and white trunks. Directed by

made a picture which immediately impressed. His face, reflecting the student, was not in perfect harmony with the well-muscled body, arms, legs and shoulders. The shoulders are broad, broader than they appear when Carpentier is in street costume. Across the back are rippling muscles which reflect the terrific punching power of the boxer. His arms, too, are compactly developed, in proportion to his other dimensions, and his legs appear sturdy and strong.

In his shadow boxing Carpentier followed a style of his own. It differed from the work of the average boxer in the gymnasium. The French lad would lead, cover, ward off imaginary blows, counter, side step, duck, bend in evasion and jump in with a counter, as the notion took him. The exhibition lasted about three minutes, while the crowd watched with suppressed enthusiasm.

Next Carpentier boxed with Lenares. The latter is accustomed to the Frenchman's work, having boxed with him often in France. Despite this, however, Lenares was palpably outclassed by his prominent rival, who played through the two-round session. The rounds lasted about three minutes. Carpentier in this session displayed his wonderful speed of hand and foot, his remarkable agility, and his cleverness in landing and avoiding blows. He carefully refrained, however, from demonstrating his hitting powers. Carpentier took delight in making Lenares miss, confusing the Belgian with a flurry of blows and penetrating his guard. This Carpentier did at will through the two rounds, while his own superb defence frustrated Lenares' efforts at retaliation.

Girl Gets Shine and Watch.
New York, May 5.—"What time is it, please?" she asked Charles DiOrto as he was polishing her dainty boots. Charlie drew out a \$75 watch. When his charming patron had gone Charlie was minus the watch.
