## INDICATIONS THAT GERMANY WILL SEND TROOPS TO UKRAINE

### American Observer Finds Bolsheviki Power Waning As Armies Disperse—Looks For Uprising By Red Guards in Southern Finland—Rioters Kill Hundred Persons in Petrograd

Berne, Feb. 17.—The latest despatches received here indicate that Germany intends sending troops to the Ukraine, there to occupy important points under pretext of establishing order. The German Reichstag probably will meet Wednesday to consider the peace treaty with the Ukraine. An important statement from the imperial chancellery is expected at this session of the lower house.

### ANOTHER UPHEAVAL COMING

Stockholm, Feb. 17.—(By the Associated Press).—That the power of the Bolsheviki in Russia steadily is waning is the conclusion of an American who reached Stockholm today from Petrograd, where he had resided for eighteen months. This man left Petrograd February 7. "So long as there were masses of soldiers in Petrograd and Moscow," said this man, "the Bolsheviki opponents have felt that any attempt to establish an ordered government was impossible. As a matter of fact, many of the soldiers are not Bolsheviki, but their mere presence was a deterrent. Now they are gradually departing for farms and villages and it is impossible to recall them."

"This is especially true of Moscow, where the opponents of Nikolai Lenin and Leon Trotsky are beginning to pick up courage. Another factor against the Bolsheviki in this campaign against the church. The recent procession in Petrograd headed by priests was an imposing affair, and the Bolsheviki did not think it prudent to attempt by force to prevent it. Probably a majority of the educated Russians favor separation of church and state, but do not like the idea of confiscating the church properties by such people as those composing the present government."

### GERMAN SOCIALISTS VIEWS

Stockholm, Feb. 18.—The German majority Socialists are dissociated from any connection or sympathy with the Bolsheviki, says an article in the Socialist organ Vorwarts, of Berlin, written by Otto Braun. He charges that the Russian delegates at Brest-Litovsk did not intend to utilize the truce to arrange peace, but rather to extend the revolution to the territory of the Central Powers.

"The hope of the Bolsheviki for a speedy revolution in Germany is an insane delusion," Herr Braun continues. "They apply Russian patterns to German conditions, which are about a century more advanced in economic, political and cultural matters. There is no soil in Germany in which the revolutionary methods of the Bolsheviki can take root."

German Socialists, says Herr Braun, sharply condemn the violent methods of the Bolsheviki. We must draw a broad line between ourselves and the Bolsheviki, he adds.

The article is the more significant in view of the fact that previously the Vorwarts has shown a disposition to coquette with the Bolsheviki. Its Stockholm despatches for a long time have been colored in favor of the Russian radicals.

### Communication Restored.

Stockholm, Feb. 17.—Telegraphic communication with Russia was re-established today after ten days interruption due to the destruction of the cable terminus at Nivala, Finland, by the Red Guard. Nivala is still in the hands of the Red Guard, but the cable company has been allowed to make repairs. There is still no communication with Helsinki.

### More Atrocities

Stockholm, Feb. 17.—Grim stories of atrocities committed by the Red Guard in Southern Finland were told today by 500 refugees who reached Stockholm here. Eleven men were taken from a large estate near Bjorneborg, stripped of their clothes and thrown into a well. The Red Guard used these men as targets until all were killed.

This is but one of a score of similar stories related by the eye-witnesses. The Red Guard makes a specialty of mutilating victims faces, so that relatives cannot identify the bodies.

Six wounded members of the government forces were killed with knives when the Red Guard captured Kotka. Murders are of daily occurrence in Helsinki.

The refugees declared that the reign of the Red Guard would be short if the thousand men volunteered to defend the city of Lovisa, but only four hundred by the Red Guards and a reign of terror ensued.

### Riots in Petrograd.

Petrograd, Monday, Feb. 11.—(By the Associated Press).—In an all night battle during which jewelry stores and wine cellars in the capital were pillaged by marauding soldiers, about one hundred persons were killed. Forty thousand German and Austrian prisoners, who were freed by the councils of workmen and soldiers' delegates in smaller Russian towns, are being sent to Petrograd home as a result of starvation as a result of the riots.

### HOPE THIS WILL BE LAST HEATLESS MONDAY

Boston, Feb. 18.—New England today observed what business people hoped would be the last heatless Monday holiday.

After the national fuel administration rescinded its Monday closing order, the question of further restrictions in sections where the coal shortage was still acute was left to state fuel administrators for determination and because of the crying demand for fuel all industries in this district were suspended today.

### TRAINS AGAIN LATE

The Montreal and Boston trains are reported late today. The cause of the delay is due to heavy roads. The Montreal is three hours late, and the Boston two hours and thirty minutes.

### New Japanese Ambassador

Washington, Feb. 18.—Viscount Kikujiro Ichi has been appointed ambassador for Japan to the United States, and will take place tomorrow afternoon at 2:30 o'clock.

## SHIPYARD STRIKE WILL END TONIGHT

### Men Return to Work in Response to President Wilson's Appeal— Confident He Will Adjust Mat- ters

New York, Feb. 18.—The strike of shipyard carpenters in various yards along the Atlantic seaboard will be at an end by tonight, according to statements here today by officials of the United Brotherhood of Carpenters and Joiners, who added that they believed the majority of workmen would be at their accustomed tasks by noon.

"The president has spoken back," said William L. Hutcheson, president of the United Brotherhood of Carpenters and Joiners.

New York, Feb. 18.—The strike of carpenters in the Atlantic seaboard shipyards engaged on government contracts is over, John Rice, national organizer of the United Brotherhood of Carpenters and Joiners, said today. Several thousand men who are still idle are expected to be at work tomorrow morning. About 3,000 of the strikers returned to work this morning, Mr. Rice estimated. "The men are going back because they have every confidence that President Wilson will adjust the matter to their satisfaction," he said.

Philadelphia, Baltimore, Jersey City, Elizabethport and New York about 6,000 carpenters quit work this morning, Mr. Rice announced, because they were unaware of the fact that W. L. Hutcheson, president of the brotherhood, had responded to President Wilson's letter of last night by announcing he would endeavor to influence the strikers to resume work pending the question of their grievance by the wage adjustment board.

Many of the 6,000 were later informed of this situation and returned to work, Mr. Rice said, and during the day every effort would be made to get in touch with the others.

### SIXTEEN KILLED IN LATEST AIR RAIDS

London, Feb. 18.—Sixteen persons were killed and four seriously injured in the aerial attack on London on Saturday night. It is officially announced.

Six German planes attempted to attack London on Saturday night, but only one of them succeeded in reaching the capital. This raid dropped one incendiary bomb on the east side of the city, and a number of bombs being dropped in the city.

Six seven airplanes took part in the raid on Sunday night. The first flew over London dropping bombs in various districts. All the others were turned back.

The following official report was issued today: "Last night's air raid appears to have been carried out by six or seven enemy airplanes, of whom only one penetrated into London. The first raid passed the Isle of Thanet at about 9:45 p. m. and proceeded up the Thames estuary into London, crossing the capital from south-east to north-west. Bombs were dropped in various districts between 10:40 and 10:50 o'clock."

"The remaining raiders, who attempted to reach London from the northeast across Essex or from the east along the banks of the River Thames, were all turned back."

"Reports of casualties and damage have not yet been received."

The casualties in Sunday night's air raid were 16 killed and 37 injured. It is officially announced this afternoon.

Reports on Saturday night's casualties: The total casualties caused by the airplane raid Saturday night were: Killed, 16 men, women and children. Injured, 1 man and 3 children.

## BETTER TREATMENT FOR THE SOLDIERS

### New System Will Remedy Condi- tions on Shipboard; Experienced Officers To Be in Charge

Ottawa, Feb. 18.—In regard to the complaints that have been made as to improper treatment on shipboard of returning soldiers, the statement is authorized by the militia department today that a new system is about to be adopted that should lead to improvement in the condition. In future conducting parties of experienced officers will accompany parties of draftees. On their return trip they will have charge of parties of home coming soldiers. The return of the fact that the draftees under the Military Act being sent to England with very little training it is necessary that they should be put in charge of officers of exceptional ability and experience. The utilization of these officers in looking after the care of soldiers en route to Canada after service at the front is expected to lead to greatly improved conditions on shipboard and a lessening of complaints on the part of the men in the future. The officials of the headquarters staff say they are extremely anxious to remove all cause of complaint on the part of the men.

### Famous Teacher of Deaf

Rochester, N. Y., Feb. 18.—Zeena P. Westervelt, superintendent of the West-ern New York Institute for deaf mutes, died of heart failure in this city yesterday, aged sixty-nine years. Mr. Westervelt was known to instructors of the deaf nearly all over the world for his advanced methods.

## ROUMANIAN NEGOTIATIONS FOR PEACE WITH THE CENTRAL POWERS

### Amsterdam, Feb. 16.—A despatch from Vienna to the Handelsblat says it has been learned that Roumania intends to enter into negotiations with the Central Powers, provided they give her previous assurance that they will not assail the sovereignty of Roumania, but will leave a solution of dynastic questions to the Roumanians themselves.

The Roumanians, the despatch adds, will then declare their readiness to cede Dobruja to Bulgaria, provided the Central Powers grant Roumania benevolent support in the Bessarabian question. The correspondent adds that the cabinet of M. Averescu has not yet been formed, but that it is said the first point in his programme is peace by agreement with the Central Powers.

### U. S. CAMPAIGN OF PROPAGANDA

### To Carry Truth to German People, Instruct Russians in American Democracy And Teach Them The Alles

New York, Feb. 18.—A campaign of American propaganda in foreign countries, to be carried out by the United States during the administration of Mayor Mitchell, while Mr. Woods declined to discuss the task confronting him, it was declared he planned to go to Washington within a day or two to confer with government officials.

Under Mr. Woods direction the truth about America's role in the war will be spread among the German people and among non-belligerents, and efforts will be made to beat the people of the Entente Allies with fuller knowledge of what the United States will do in war work, and to combat such insidious German propaganda as is said to have caused Italian military reverses. To Russia will be conveyed the principles of American democracy.

## POLITICAL STORM FOLLOWS CHANGES IN HIGH COMMAND

### Retirement of Sir William Robertson Brings To A Head Trouble Which Has Been Developing Since Parliament Opened— Strongly Worded Comment By Some Lon- don Newspapers.

London, Feb. 17.—The official announcement of the resignation of Sir William Robertson as head of the British general staff, being to a head the storm that for some time has been brewing in the political world in regard to the relations between the war cabinet and the high command of the army, which have been the subject of embittered controversy in the press and among the public.

The forces ranged against the government have taken a stand in protest against what was described as the "newspaper government," and they openly accuse the premier of having conducted, with the assistance of a certain newspaper group, a cabal against General Robertson and Field Marshal Sir Douglas Haig. The manifestations in the House of Commons last week, which were almost of an unprecedented character so early in a new session, were the expressions of strong feeling this controversy has evoked, and it seems certain that they will be revived in still more acute form during the present week.

The public and the army have been quite devoted in their belief in General Robertson and Field Marshal Haig, while to the general public General Sir Henry Wilson, the new chief of staff, is almost unknown. The cleavage in the parliamentary ranks in this contest by no means follows party lines. Not only were Liberals and Radicals warm in their support of Mr. Asquith's sentiments on the question, but also a large number of influential Unionists. The division taken late Wednesday night, which gave the government a vote of confidence, could hardly be taken as a criterion of the actual feeling of the House of Commons as the bulk of the members already had left the house, probably not dealing at that juncture to embarrass the government.

Had the members been in full support, it is impossible to say what would have been the result. Hence exciting scenes may be anticipated early in the week, especially as General Robertson denies that he resigned his post. The attacks are certain to be renewed and it is again expected that the government will demand a vote of confidence.

### Press Comment.

London, Feb. 18.—The idea that the public is attempting to dictate to the government what their military policy shall be, or who shall be employed to carry it out is deprecated by the Daily Chronicle, in an editorial on the situation brought by the announcement that General Robertson had been retired as chief of the imperial staff.

"The task is one for the responsible ministers," it says, "and while it is open to parliament to change the ministers, circumstances have been disclosed by the present intestine which warrants such an upheaval."

"The Times, remarking that the premier's recent speech in the House of Commons failed to carry complete conviction, says the result has been a storm of exaggeration and political intrigue over what seems to have been a most natural and commonplace arrangement. It declares that a full explanation of events obviously is overdue."

"The government seems to have done its best to mishandle an overwhelming case," it adds. "Whatever may have been the reasons behind the scenes their alternate bursts of confidence and reticence have given the impression of sheer hollowness. It is surprising that it is satisfactory, that the Allies' military organization has emerged with its principles unimpaired."

"News of General Robertson's removal," the Morning Post says, "will be received with consternation by the public and the army." It echoes the sentiment of Robertson, not only as the greatest British soldier of the day, but as the highest military genius the world has produced. "It is impossible to exaggerate," it says, "the amount of confidence and success the British army owe to General Robertson."

Declaring that it is evident that General Robertson has been dismissed, and that those who dismissed him find it inconvenient to confess the truth, the Post says that parliament will insist on knowing why the distinguished soldier is treated so severely. It continues: "If the summary dismissal of General Robertson were not enough to shatter our confidence in Premier Lloyd George and the government, the circumstances of the dismissal would do it. We have had enough of the premier who surrounds himself with journalists of the press, ready at the lift of his eyebrow to throw a whole weight into the prosecution of the war."

"The need of the hour is a premier who while knowing where to forbear interference with what he does not understand, will know also how to throw his whole weight into the prosecution of the war."

### Steps Towards Repeal of C. T. A. IN KINGS COUNTY.

James W. Lowther, the speaker of the House of Commons and General Jan C. Smuts are mentioned by the Post as the two men fitted to head the government.

### ADVANCES CONTINUE.

New York, Feb. 18.—(Wall Street)—Last week's rise in shipments and various equipments was resumed at the opening of today's stock market, advances extending from large fractions to two and a half points. The strongest features included United Fruit, Marine preferred, Atlantic Gulf, Central Leather and active steel. A two point decline in General Motors was offset by a gain of six and a half points in Chandler Motors. Rails and coppers were firm. Liberty bonds were again prominent at higher levels.

### SUSPEND CIVIL COURTS TO CARRY OUT M. S. A.

Montreal, Feb. 18.—Acting Chief Justice J. S. Archibald has decided, as the result of a conference with Hon. C. Doherty, minister of justice, to suspend until the end of March the whole of the work of the civil courts here, including the court of review, in both divisions, in order that the work of the judges of appeals under the M.S.A. may proceed without interruption.

### \$100,000 FIRE

Buffalo, N. Y., Feb. 18.—Fire at the Ell street market today caused a loss of \$100,000.

### Four Thousand Killed When Bolsheviki Captured Kiev

Petrograd, Saturday, Feb. 9.—(By the Associated Press).—Kiev, one of the principal cities of Ukraine, was captured by the Bolsheviki on Friday after sanguinary fighting. The streets were filled with dead or wounded. While the fighting was at its height on Thursday the city was bombarded by Bolsheviki aviators. Polish troops have defeated the Bolsheviki at Bobruisk, eighty-five miles southeast of Minsk. Other Poles are advancing toward Smolensk. Roumanians control the Akerman district of Bessarabia, and are threatening Odessa. The casualties at Kiev are estimated at 4,000 killed and 7,000 wounded. In a battle at Odessa on Monday between the Bolsheviki and the moderates hundreds were killed. The city was bombarded by warships.

SIR WM. ROBERTSON

The question of the government's stability is mentioned by other news papers, but mostly with expressions of hope and expectation that the parliament will support the ministers.

It still seems probable that Premier Lloyd George will make his promised statement on Tuesday, although it is regarded as possible that circumstances may impel him to speak today, notwithstanding the cold from which he is suffering.

### MERIT FIRMS MERGE WITH GOVT APPROVAL

London, Feb. 18.—It had been rumored that the government was arranging to take complete control of the distribution of meat from the Smithfield market. The report is inaccurate, inquiries show, but apparently the food ministry has urged the reduction of meat from a minimum with a view to facilitate distribution. Consequently, a number of large firms are combining, virtually, although unofficially, under government aegis. The situation is similar to that in 1903, when the so-called American merger was formed at Smithfield, but the present amalgamation is on a much larger scale.

### Rev. H. C. Archer of Fredericton was in the city today on his way to Hamp- ton on business in reference to the repeal of the Canada Temperance Act in Kings county. He says that the petitions in connection with this matter will be forwarded to Ottawa this week.

### CLOSED ON 23RD.

New York, Feb. 18.—The cotton exchange here will be closed Feb. 23, this Saturday after Washington's birthday.

Noted Singer Tells of Visit to Canadian Lines

SPIRIT IS SPLENDID

Miss Dillingham Has Given Three Hundred Concerts in Hospitals on the Western Front

Miss Lillian Dillingham, known in England as the brilliant Yorkshire soprano, has arrived in Toronto, and it is her intention to make a western tour and devote her time to giving a series of concerts to assist various local patriotic societies to carry on their work.

Widespread regret will be felt in the city when it is learned that Phillip Grannan passed away last night at his home, 887 Douglas street. He had been ill for some months and had made a visit to Montreal in the hope that he would gain relief by special treatment, but on returning his friends realized with deep sorrow that there was no hope of him living very long.

It is not given to every man to gather around him so many friends as Mr. Grannan did. He was born about fifty-six years ago, and during all his life he had lived in the North End, and it is in that section of the city, where he was best known, that he was also most beloved.

He started at the age of sixteen at the trade of shoemaker and after a little while he was in partnership with Frank McDonald for a short time, in the same block in which his present business is conducted. Before long he started for himself, and during the succeeding years the growth of his business has been steady, for he built on a firm foundation and applied himself with steady diligence.

It was not until about 1900 that Mr. Grannan took any interest in politics, although he always kept in touch with affairs and took a proper interest in matters relating to the city and the nation.

For some years, beginning about 1908, he was a member of the Municipal Commission. In June 1912 in the general provincial elections he yielded to the pressing demands of his friends to stand in the Conservative interests, and he was elected to Fredericton. He sat there during that term until the general elections of last year.

Mr. Grannan was a man of strength of character, but yet one open to reason and always willing to see the other side of the question. He was very unassuming and quiet, but yet always ready to take his share of the burden in public matters. A worthy citizen in every respect, a true friend, he was held in very high regard by all classes.

Mr. Grannan is survived by his wife, who was Miss Margaret Hogan, also of the North End, and three sons and two daughters. The sons are: Richmond, Phillip and James; the latter being residing at the Redemptorist College, North East (Pa.). The daughters are the Misses Marie and Frances, who also is one brother, Patrick, of the I. C. D. The sympathy of the whole community will be extended to the sorrowing family in their great loss.

Many friends throughout the city will regret to hear of the death of Mrs. Annie Gertrude McKean, widow of George McKean, which occurred at her residence 10 Wentworth street last Saturday, at 8:45 p.m., after a lingering illness. Although in failing health for the last three years she died peacefully.

Mrs. McKean was the second daughter of the late Richard P. McEivren, of this city, and of Mary Elizabeth Savary, his wife. She leaves to mourn their sad loss two sons—William R. McKean, and George R. McKean, of this city, and one daughter, Mary E., wife of L. Irwin Scott, of Ombay County, Tyrone, Ireland. Miss Clara O. McEivren, and James S. McEivren are sister and brother of the deceased.

The funeral will take place on Tuesday, February 19, at 2:30 p.m. from her late residence to Trinity church.

Mrs. William Willis. The death of Mrs. William Willis occurred in South Boston on February 16. She was a daughter of the late William and Mary Carter, of Milford, and is survived by her husband, one daughter, one son, two sisters, Mrs. Hannah McIntyre and Mrs. John McEivren, both of this city, and two brothers, William Carter, of this city, and Henry Carter, of Boston.

Mrs. Sarah A. Pratt. Mrs. Sarah A. Pratt, wife of Henry J. Pratt and daughter of the late Henry and Amelia Welsford, died at her residence, 288 Main street, on Sunday after a short illness. She is survived by her husband, two sons, Harry M., of the post office staff, and Captain Charles M. Pratt, M. D., now home on leave from the front; three sisters, Mrs. E. W. Pail, of this city; Mrs. James McLuskey, of Eureka (Cal.), and Mrs. Malcolm F. Woodley, of East Boston; and three brothers, Walter G., of M. R. A. Ltd.; George, of East Boston; William, of Wollstone (Mass.).

Mrs. John P. O'Brien. Many friends will learn with deep regret of the death of Mrs. Minnie A. O'Brien, wife of John P. O'Brien, which occurred suddenly on Saturday at her home, 206 Metcalf street. Besides her husband, who is a member of the 3rd Co. G. A., she leaves two sons, Fred, of No. 4 Siege Battery, overseas, and Harry at home; also one daughter, Mrs. John McLean, St. John; Pte. F. W. Shaw, St. John; Pte. R. J. Hafford, St. John; Pte. T. D. Stevenson, Moncton, and Pte. S. W. Purser, St. John.

Driver Morris enlisted in the Army Service Corps under Lieutenant-Colonel A. E. Massey and saw much of active service in that excellent unit. The young soldier meanwhile was on duty at the pay and records' office in London for some time and later in the army post office, London, where he won sergeant's stripes. His home-coming is eagerly awaited and the young soldier may be

GIVING GENEROUSLY FOR NEW ST. DAVID'S

Reports submitted at a meeting of the finance committee of St. David's church on Saturday evening showed that the canvass for funds for the reconstruction of the church, which had been in progress during the week, had been highly successful. It is believed that, if the remainder of the canvass proves equally successful, it will be possible to proceed immediately with the plans for rebuilding.

The subscriptions now include one for \$2,000, another for \$1,000, several of \$500 and many of \$100, besides many of lesser amounts which indicate fully as much generosity on the part of the givers.

At the best, it is felt, the construction work undertaken at present will have to be planned with a view to future expansion. In this part of the building work the preliminary plans, which are to be submitted for approval, these include two distinct types—the colonial and the Gothic.

DRAFT DODGERS ARE ARRESTED IN HALIFAX

Halifax, N. S., Feb. 17.—Fifteen men arrested of draft dodgers under military service act were since Saturday night by the city police. The men taken military headquarters include those of several nationalities, but there are no native Halifaxians among them. Most of them are men who have drifted from place to place on construction work and have neglected to comply anywhere with the provisions of the act.

SAYS WILL DOGS ARE KILLING THE N. S. DEER

Halifax, N. S., Feb. 17.—Andrew Meyer, game warden in the eastern part of Halifax county, says that it will dogs and not wolves that have been killing the deer. He says he trapped one of the dogs three miles back in the woods. He says he has no idea where the wild dogs came from and the one he trapped had a coal black curly coat and a pointed nose, and was a tiny stranger in the district.

Many in Toronto Have Pleasant Surroundings for Their Workers — Lunch Rooms for Girl Operators

The day of the sweat shop, of the horrors described in some of the old novels, have passed away and left behind the well-lighted, well-ventilated, and well-equipped modern factory, says a writer in the Toronto Star. It may not be that humanity is any kinder, but it certainly is much wiser. To put it on the lowest plane, the employer of today knows that the most efficient work is done by employes whose tasks are performed under the healthiest conditions possible, and, if for no other reason, he tries to supply those surroundings.

BAD FIRE IN HALIFAX Halifax, Feb. 17.—The fiercest fire which has raged in Halifax for some time took place early this morning in Upper Water street, where a building occupied by the Martin Senour Paint Company, and all the stock were destroyed with a property loss of about \$70,000.

When we first fixed up this room we gave the girls tea, but later, calculating cost of materials, we prepared for the sum of three cents to supply each girl with a bowl of soup and as much tea as she wanted. We wondered at first how it would work out, whether the fancy lunches would be given up, but we find that our employes appreciate the arrangement and bring some simple things like bread and butter, etc., to eat with what we supply.

There is a woman in charge who comes every morning to get things ready. When lunch is over she prepares the supply of soup for the next day, allows it to cook all afternoon and the following morning takes off the layer of fat formed on the top, heats it up again, and so gives the girls wholesome, tasty soup instead of a greasy, unattractive article of diet.

Patronage Must Go, Says T. W. McGarry

Act Providing for Appointment of a General Purchasing Agent for Ontario

That it was the purpose of the government to practice economy in the expenditure of its money and to do away with patronage was the statement made by Hon. T. W. McGarry, provincial treasurer, in the Ontario Legislature in moving the General Purchasing Agents Act to provide for the appointment of a general purchasing agent for that province.

PASTORAL PLEA FOR SABBATH OBSERVANCE

In the Catholic churches of the city and throughout the diocese of St. John the annual pastoral letter of His Lordship Bishop LeBlanc was read yesterday. The letter is noted for its strong plea for faithful attendance at the holy mass and a strict observance of Sunday. In opening the letter defines the setting aside of one day in the week for the worship of the Creator. The day in the old law was Saturday but under the Christian law, the church, guided by the Holy Ghost, changed the day to Sunday, thus making it an obligation to sanctify the first day of the week instead of the last. It was fitting, the letter stated, that Sunday should be set apart as a day especially consecrated to God and that it should be observed as a day of rest, of worship and of observance of religious duties. The letter continues:

CHURCH WELCOMES THEM

The weekly calendar of St. David's church yesterday welcomed the return of two former members from the front—Major Laurence T. Allan, who went overseas with No. 7 Siege Battery, and Sergeant Condit G. Manson who left St. John with the first contingent and later became a member of the famous 6th Highlanders' Battalion.

Y. M. All Mock Trial.

A mock trial was held yesterday afternoon in the rooms of St. Peter's Y. M. C. A., Douglas Avenue. One of the members, E. Conway, was taken into custody on a fictitious charge of stealing a pipe, the property of John McIntyre. John U. Hargreave officiated as judge; E. R. Hansen as prosecuting attorney, and John J. McDonnell as counsel for the defense. The defendant was convicted and sentenced to pay one cent, which was the value of the court placed on the pipe. Gregory Lundy, a detective, gave testimony regarding finger print photos he had taken, while the complainant, Percy Howard and William McVey gave incriminating evidence against the accused. Leo Dever and Arthur Casey testified on behalf of the defendant. At the conclusion of the mock trial a musical programme was carried out.

100,000 From Racing.

New Orleans racing contributed more than \$100,000 to the government in the way of the war tax on admission to the track during the winter meeting which came to a close this week, and through the income tax which the association must pay. This proves that racing is doing its bit.

TOUCHING LETTER

FROM VICTIM OF HUN BRUTALITY

Have, Feb. 16-Emile Stevigry, formerly customs officer at Massowick, a Belgian town near the Dutch border, was shot by the Germans on Dec. 13. It reads: "At the moment of leaving this life I send to you (co-workers in the custom office), as well as to my administrative superiors and my subordinate colleagues, my last adieu. I thank my superiors for the friendly assistance they always have continued toward me and beg them to continue to exercise it toward my family and my little children. I die without bravado but without fear for my country."

FUNERAL OF FORMER BRITISH AMBASSADOR

Ottawa, Feb. 17.-Diplomatic Canada was present at the funeral of Sir Cecil Spring-Rice in Ottawa Saturday afternoon. WAR FLOUR GOOD.

One St. John baker has been experimenting in war flour and declares that it is as good if not better for bread than patents. He said that the government requires the mills to make not less than 74 per cent flour from wheat that is 74 pounds of war flour to be made from 100 pounds of wheat. This is only very slightly more than most mills were extracting previous to the new regulation. The slight increase of flour extracted is true flour, not bran dust. Formerly this slight amount had been allowed to go into the feeds for animal consumption, but when every grain of wheat counts, as it does now this, he said, becomes a wasteful practice.

HOLLAND DOES NOT WANT TO LOSE IT.

RUSSIAN ULTIMATUM TO THE ROMANIANS

London, Feb. 17.-The Russian government has sent an ultimatum to the Romanian government demanding the evacuation of Bessarabia by Roumanian and counter-revolutionary troops and the right to transport Russian troops through Roumanian and Bessarabian territory. The ultimatum, according to the report, was to expire on February 16. Watch for the big Bargain Day, Thursday, Feb. 21.

New York, Feb. 18.-Three world's titles changed hands the other day. Earl Coddick of Anita, Ia, defeated Wladislaw Zbysko for the heavyweight wrestling championship at Des Moines; Bobby McLean took the professional speed skating championship from Edmund Lusk at Saranac Lake, and Augie Kleckhoff wrestled the three cubian billiard title from Alfredo De Oro in Chicago, the score being 150 to 120.

Wladislaw Zbysko, and Joe Stretcher will meet on the mat at Madison Square Garden on March 1. In addition to this match, other interesting preliminaries will be arranged. This is probably the most important match wrestling held here since the days of Frank Gotch and George Hackenschmidt, and the outcome will have an important bearing upon the leading title in the wrestling game.

REPINGTON'S TRIAL

London, Feb. 17.-A great crowd that filled every corner of Bow street Police Court was present when, on Saturday, Colonel Repington, military correspondent of the Morning Post and Howell A. Gwynne, editor of that paper, were called to answer the charge of unlawfully publishing information with respect to the disposition of military forces of Great Britain and her allies. After several witnesses had been examined, prosecution closed and the case was adjourned until next Thursday morning.

Upon receipt of an earnest petition

signed by Mrs. Westfield parishioners begging him not to leave and offering an increase in his stipend from \$800 to \$1,200, Rev. Craig W. Nichols has decided not to accept a call from the parish of Shelburne. About three o'clock on Saturday afternoon a fire broke out in Townsend's music store on King street, and injured the stock to the extent of about \$800, which is fully covered by insurance.

Montreal, Feb. 17.-In the process of looking up deserters under the military service act here Saturday night, when the Dominion police paid unexpected visits to the Central Y. M. C. A., Montreal Amateur Athletic Association Club quarters, Victoria rink and the Forum, the son of a citizen in the millionaire class was taken in charge. The young man was sent to the Guy street barracks, as he had no exemption papers in his pockets, and shortly afterward his father appeared at the Dominion police headquarters, and demanded his son's release at once. He was informed that proof of the boy's right to exemption would have to be forthcoming, otherwise the boy would be put into khaki. It is estimated that twenty or more embryo soldiers were captured Saturday and today. Shop on Thursday next at the Dollar Day stores.

HISTORICAL SKETCH OF CANADIAN NORTHERN RAILWAY

Transcontinental System With Ten Thousand Miles of Rails Had Its Beginning Only Twenty-two Years Ago

When the first rails of what is now the Canadian Northern Railway system were laid in 1896 there were only 16,270 miles of railway within the dominion. Of these the greater part were east of Manitoba, while the 6,628 between Ontario and the Rockies served but a small portion of that vast country. Immigrants had begun to pour through to the almost empty prairies, testing the claims scattered broadcast of the natural richness of the soil. Many of these farmers settled west beyond the lines of steel and into the back country. As their numbers grew, and communities arose, there was born a demand for adequate rail facilities. The dominion was awakening as out of sleep. A cheery optimism pervaded the country. Men's minds turned readily to dreams of great achievement. It was the dawn of Canada's new era.

PRESIDENT G. E. BARBOUR WILL HAVE A FEW INTIMATE TALKS ABOUT THE Y. M. C. A. IN THESE COLUMNS—INTRODUCTORY

President Barbour, speaking for the Y. M. C. A. body, says: "There seems an unfortunate lack of intimacy between our institution and the general public, and asks, 'In its unfortunate location or lack of energetic management? Are the fathers, brothers, sons and mothers of St. John less alive to the opportunities for physical, mental and moral education of the rising generation in the big Y. M. C. A. building than in other Canadian cities, or have we been less alert in proclaiming our advantages?'

What is the reason, I question if the Y. M. C. A. means as much to the people of this community as it is possible, and as president it is up to me to ascertain the reason. On the principle propounded by a leading philosopher, that the man who extends all competition in anything, though it be but the manufacture of a mouse-trap, will have a well worn path beaten to his door, even though located in the woods, so we Y. M. C. A. workers, feeling our endeavor scarce to none in importance, determined that this line and modern institution will become so much an integral part of our city's life that no apologies need be offered for proclaiming our advantages."

There is much good work to be done right here in our own city by those of us who are not fighting in France, and the duty is fully as imperative, and where can be found a better drill hall for this work than the Y. M. C. A.?

PRESIDENT IS WELL GUARDED

Secret Service Men Always on Watch

TAKE NO CHANCES

Vigilant Eyes Watch Every Move of Chief Executive of United States and Every Person Who Approaches Him

Having lost two of his war presidents by the assassin's bullet, Uncle Sam is taking no chances with the third. Never before was the occupant of the White House so vigilantly guarded as is President Wilson nowadays. As long as he is in the White House he cannot be approached by a stranger, and when he appears in public he is unostentatiously surrounded by a number of keen-eyed men who watchfully scan the faces of those who come near him. Even when he plays golf at the Country Club he is under surveillance, and it is said that he secret service men regret that there is not a more private place for him to play the game, a bath-room, for instance, or something like that. Every president is carefully watched by picked men from the moment he assumes office, of course, much to their annoyance sometimes. On one occasion before the war President Wilson is said to have eluded the vigilance of his warders and got as far as his bank before being overtaken by them. Since the war began, however, he has made no effort to evade the men whose duty it is to protect him.

Roosevelt's Game. When Col. Roosevelt was president the warders had a difficult task, for the Colonel, a man remarkably well able to take care of himself, used to greatly enjoy to escape from the secret service men. On many a foggy night has he played hide

and seek with the detectives, with every policeman in Washington anxiously on the lookout for him. If he were in Washington today and felt implacably inclined he would find it impossible to repeat his old manoeuvres. It is almost as hard to get out of the White House as to get in. At night the gates, which used to be hospitably open so that anyone who cared to do so might walk up and peek in at the front door, are guarded by policemen, who have orders not to leave them in any circumstance. At the Washington correspondent of the New York World points out, it would be useless for a band of plotters to start a riot outside the gates in the hope of luring the defenders of the citadel from their posts. They would simply use the telephones at their elbows to summon help from the guard-room.

Scattered through the grounds are other policemen with fixed posts also equipped with telephones, and it would require only a few seconds for a man, or perhaps fifty, or even a hundred armed men to concentrate at any point. At the west side of the White House grounds one gate is left open to admit visitors to the executive offices, but one must either enter the offices or stay out. When he enters he walks into the arms of two more policemen, who enquire as to his business and then convey him to the proper official. These are the precautions in day-time, and at night a new force of guards comes on duty and the detachment of United States regulars is thrown completely round the White House. These men patrol with loaded rifles and fixed bayonets, and so close are they that a cat could hardly pass without being seen. The system they employ works out so that they are advancing upon everyone who approaches the line, and if he is not personally known he cannot pass. Used Bayonet on Attache. Not long ago an attache of the White House, who did not happen to be personally known to the soldier whom he encountered as he tried to enter the grounds, attempted to proceed despite the soldier's warning. The result was that a bayonet was inserted in his leg. Inside the White House the precautions to give the alarm should any suspicious character contrive to enter the place are most elaborate and consist of electrical devices and telephones, which the cen-

TOTAL OF 13,138 SOLDIER GUESTS

Wonderful Record of Army and Navy Leave Club in Paris for Four Months

From the time the British Army and Navy Leave Club in the Place de la Republique, Paris, was opened on August 25 last year up till the end of December, 13,138 soldiers on leave from the front registered their names as its guests. After they had done so they were free to use it for the whole time of their leave, and many did so all day and every day. In the same time 83,447 meals were served and 18,000 beds occupied. These figures alone serve to show the great need which the club has met. It has never needed to beg for customers. When it came into existence in August, hundreds of Canadians then on leave so crowded it that in the first week almost it became obvious that it must grow. The time the energy and imagination of the hon. secretary, the committee and the workers have been taxed to satisfy the unexpressed demand of the men for more and more organized amusement and comfort.

40,370 Meals Last Month. The tables of the meals served and the beds occupied in the four and a half months of the club's existence show something of its growth: August 25 to Sept. 30, meals served 14,981; beds 2,698. October—Meals served 10,674; beds 2,297. November—Meals served 17,642; beds 2,984. December—Meals served 40,370; beds 5,168. On other sides of its use and development they are remarkable figures. Since for instance, the deposit safe was opened in October the men have of their own choice left in the keeping of the club 388,667 francs (288,546), much of which had it not been so prudently left behind, would almost certainly have disappeared in one way or another from the men's pockets. Every evening of the week some entertainment, concert, or what drive is given, and parties for the theatre, often have some sort of invention which they imagine will bring about peace in a few days, and when they are turned down by the technical experts of various government departments they are convinced that they are the victims of red tape. Naturally they seek to gain the ear of the president or the secretary of the club. The protection against them is ample. Government officials whom they are permitted to interview, have all electrical buzzers under their desks, "nut buttons" they are called, and as soon as an visitor enters noisily and the guest is taken in charge. Thus the population of the Washington asylum is swelled and the time of the busy officials conserved.

under the guidance of one of the ladies of the club, are regularly made up. Conducted Tours.

A late development, the charabanc trips and the tours round Paris, conducted by the women guides, has been made use of with just the same eagerness the men have shown in sailing at everything offered to help them to pass their time well. In the five weeks of the existence of the Guide Corps before the year ended 5,690 men had "done" Paris in conducted parties, to their permanent satisfaction.

A comparative table of those who have used the club shows that the Canadians have been most numerous. Of them there have been 6,487, of Australians 8,187, of British troops 2,871, of New Zealanders 897, and of South Africans 6.

WILL VACCINATE ALL IN GLOUCESTER

Frederickton, N. B., Feb. 17.—Four cases of smallpox are reported from Napadogan in the northern part of York county. The cases are well defined. Napadogan is a divisional point on the National Transcontinental railway and about 100 men are employed there at present. This makes the situation serious. The health authorities have acted promptly. Dr. B. M. Mullin, of North Devon, was sent to Napadogan on Saturday to look into the situation and he will remain there until

Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain unperfumed coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, bushy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and

all residents of the place have been vaccinated. It was also reported that there was a case of smallpox at Parkers Ridge and Dr. Ryan, of Belvedere, was instructed to investigate. He reports that the sickness is not smallpox.

The provincial board of health held an emergency meeting here tonight and issued an order for compulsory vaccination in the county of Gloucester. This makes vaccination compulsory on the entire North Shore.

TWO FIGHTS FOR DEMOCRACY.

Chicago Tribune: Democracy, as we understand it and want it, is a political arrangement which carries the consent of the governed into the government and gives people as nearly as possible the unrestricted right of political determination. Then, with necessary custodial help and restraints and with necessary punitive checks, it leaves the individual

to the development of his opportunities, the play of his genius and talents, the acquisition of money, comforts and position. That is the democracy for which we are supposed to be making the world safe. It is precisely the democracy for which Russia, as now dominated, is trying to make the world unsafe. The Russian proletarian government and the American democratic government are of necessity more bitter enemies than the

American and the German governments could be. So level-headed a man as Charles M. Schwab, president of the Bethlehem Steel Company, said that he was convinced that the new social order would win. "We are at the threshold of a new social era," he said. "This new order of things may work great hardship for many of us. It is going to come upon us sooner than we expect. It is the social renaissance of the whole world."

GERMANY IS FACING FINANCIAL CRASH

Tax of Sixty Per Cent. of Income Needed to Extinguish Debt at Present

Amsterdam, Feb. 16.—An interesting event has taken place in the Bavarian Chamber on the financial situation as brought about by the war. Count Praxsing, introducing an interpellation, said the empire, states, and municipalities would have to pay on the debt a yearly interest amounting to 2,750,000,000, which was equal to 60 per cent. of their income. In peace times the percentage was 18.5. It was, he went on, impossible to cover that tremendous amount without war indemnities. Without indemnities the collapse of the federal states and a dangerous disturbance of the empire's economic position were seriously threatened. To cover any appreciable proportion of those financial requirements by direct imperial taxation was out of the question as that would mean tapping taxation sources which ought to be preserved to the federal states. Without indemnities only one thing remained and that was a stupendous confiscation of private fortunes. Herr von Bismarck, finance minister, in reply, admitted the highly serious state of the financial situation. He objected to the imperial authorities encroaching on the taxation territory of the federal states. He pointed out that the yearly yield of war taxes was only sufficient to cover about two months of war expenditure. He foretold increased taxes and concluded by saying the responsible statesmen must strive to obtain war indemnities.

Former Captain of Braves Now Signs With Red Sox. Will Assist Barrow

Johnny Evers, the veteran second baseman, who has been battered from pillar to post in the baseball world during the last few years, has jumped into a job in the American League, and signed a contract to play next season with the Boston Red Sox. Johnny will probably not play regular, but will be Manager Ed. Barrow's right bower on the board of strategy. Evers had three offers, one of which was from Manager Jack Hendricks of the Cardinals. The Red Sox raised the ante, so he took the job which promised the best returns. Evers is glad to get back to Boston, where he enjoys much popularity because of his great aid in winning the pennant for the Braves in 1914. Manager Barrow also signed George Whiteman of Toronto yesterday. Whiteman used to play in right field for the Yankees a few seasons ago, and then went to the International League. He pounded the ball hard in Toronto last season. Barrow has also signed outfielder Ames Stovall. Wallie Schang is still a hold-out.

Manager Miller Huggins' persistent conferences with Frazee of Boston have not borne any fruit as yet in the shape of an outfielder, for it seems that Walker is sure to go to the Athletics as part of the recent trade between that club and Boston. Huggins will see Connie Mack and will make another effort to land Walker. Wild Bill Donovan, formerly manager of the Yankees, held a conference with President Frank Navin of Detroit on Wednesday and accepted a position as coach of the Tiger practice pitcher for next season. Donovan spent his major league pitching career in Detroit and welcomes the change to get back to his native beach.

Australian Soldiers Like Hospital Rinks

Anzacs Learn to Skate During Their Convalescence in Canada

The Australian soldiers, like the Canadians, have seen a bit of the world in their military service, but according to the men from the southern commonwealth they have seen nothing in the way of sport that appealed to them more than the hockey rinks they have watched on the Canadian rinks. At Cobourg where a number of these men are under treatment in the Ontario Military Convalescent Hospital they have enjoyed the open-air rink in connection with the institution, and learned to cut a few curves themselves. The fine expanses of skating surface in Canada are a novelty to them.

This course given by Mrs. Hayward has covered more than a year's work and five examinations have been passed. Superintendent Arbo presided.

### POLICE COURT

Four prisoners were before Magistrate Ritchie in the police court this morning on charge of drunkenness. They were all fined \$8 or two months in jail.

William E. Reynolds was again brought before the court on charge of being a defaulter under the Military Service Act and the case postponed until Friday. No evidence was given.

Byers Colwell, C. P. R. policeman, charged with stealing and consenting to the theft of liquor in one of the ships on the West Side by the longshoremen, was this morning allowed to go on suspended sentence. According to the evidence, the magistrate was forced to find him guilty, but gave him one more chance.

### U. S. PUBLIC DEBT BILLION GREATER

New York, Feb. 18—Restrictions put upon foreign trade are expected to operate in the direction of solving the labor problem, for the government will have control of the exports and imports of non-essentials, and these are not to receive shipping money, according to latest reports, something that will be certain to cut down the labor supply required in the production of such goods.

In some quarters of the street it is held that the stock market by its bullish activity, has been giving recognition to signs of greater war progress, among the principal indications being the restriction extended over exports and imports, the railroad control and promise of coal and labor developments along the same lines.

There is a good deal of argument in conservative banking houses to effect that prices in the stock market are likely to reach their high level on the peace movement, before peace is actually achieved.

Coal and freight conditions at New York port are greatly improved. Car congestion has been reduced more than one half since January 1st.

U. S. public debt in December was \$6,664,250,000, an increase of \$1,000,000,000 over December 1912.

Delayed despatches from Petrograd tells of indiscriminate shooting going on throughout the city day and night; 100 killed in one night, 40,000 German and Austrian prisoners released by workmen's delegates near starvation as result of riots.

### WOLF STORIES ARE WORK OF IMAGINATION

Fredericton, Feb. 18—Miss Hazel Winter of this city, supervisor of Women's Institutes for New Brunswick, will leave on Friday for Edmonton, Alta., where she will attend a convention of women's institutes. She has been invited to address the convention on the subject of "Women's Institutes' Work in New Brunswick."

Capt. Theodore H. R. McNally and his bride are returning to their home after their honeymoon. Mrs. McNally, formerly Miss Gladys Maclean of Toronto, and Capt. McNally were married at Toronto on the 6th.

Henry Braithwaite of this city, the oldest guide in active service in the province of New Brunswick, gives it as his opinion that the stories from Nova Scotia to the effect that wolves have returned to that province are purely the work of imagination. He states that there are no wolves south of the St. Lawrence river and that New Brunswick has had no wolves for years. The animals could not reach Nova Scotia without passing through this province.

### MAY RELEASE FARMERS FROM MILITARY DUTY

Believe That Special Exemption May Be Granted Those Now in The Training Depot

That those farmers or farm laborers who were not exempted from overseas service under the military service act, and have been in barracks with the New Brunswick Depot Battalion, are now to be exempted from soldiering if they so desire and may return to their homes to continue as tillers of the soil, is a rumor current in military circles. On Saturday afternoon Hon. J. P. Tweeddale, accompanied by Lieut.-Colonel Powell of local military headquarters, paid a visit to the New Brunswick depot. The men of the draft, about 800 strong, were drawn up in line and all those who were farmers or farm laborers were called upon to step forward. It is understood that about fifty of the 800 stepped forward. These men will not cross with the draft and it is understood, will in a few days return to their homes to work on the farms of their owners. These men who are farm laborers but have no farms of their own will likely be placed on some of the many farms throughout the province.

### OVERSEAS DRAFT SEEN TODAY ON ROUTE MARCH

The men of the overseas draft of the New Brunswick Depot Battalion will be seen on route march this afternoon about 5:30 o'clock, also the overseas draft of the 2nd Battalion. The draft from the New Brunswick depot will consist of about 400 men instead of 800. The men of both drafts are looking fine and local military officials are satisfied that no better lot of men ever left our province.

### SERIOUS LOSSES OF FISH CARGOES

Newfoundland Vessels With Fish Valued at \$2,000,000 Held Up at Gibraltar Because of Submarines

St. John's, Nfld., Feb. 18—Serious losses are piling up for the owners of fifteen Newfoundland sailing vessels and cargoes which have been detained for some time at Gibraltar. The vessels, carrying about one-tenth of the colony's annual catch of codfish valued at more than \$2,000,000, and consigned to Italian and Greek ports, left Newfoundland at different times from two to three months ago. As the British admiralty had adopted a policy of discouraging the sending of sailing craft into the Mediterranean and enormous insurance rates for such vessels had been put into effect, due to the danger from submarines, all were stopped at Gibraltar.

Some of the fish has been transferred to coastwise steamships, but as these are forced to take circuitous routes in order to avoid the zones frequented by submarines, it is certain that much of the cargo will have become unfit for consumption by the time it reaches its ultimate destination.

The remainder is rapidly spoiling in the holds of the vessels held idle at Gibraltar.

The cost of sending fish to Mediterranean ports has trebled in the last three years.

### ENOS R. PARKER

Rising of this city, and one son, Percy St. John Parker, now with the Cyclist Corps in France. The funeral will take place at Yarmouth. Mr. Parker was well known throughout the maritime provinces and had many friends in St. John who will hear of his death with regret.
