LEAP FROM FALLS BRIDGE IN THE RESCUE OF MAID

St. John Scene of Moving Picture Drama

PRINCIPALS HERE TODAY

Rodman Law, Noted as Freak Air and Water Man, is Here With English Young Woman to Enact Moving Drama—Plans on Making The Attempt Next Week

To jump from one or other of the bridges which span the reversing falls and swim to the shore is a feat which is planned for the next few days.

Rodman Law, a noted aviator, swimmer, etc., of New York, famous for his feat of swimming across the English Channel, arrived in the city at noon today, accompanied by Miss Beryl Bouton, of New York, an English bird-woman, and each of them plans to test his and her ability against the waters of the falls.

The feat is planned for next week. Mr. Law said they have been engaged by a picture company to come here in connection with a scenario, the scenes of which are laid about a milling town, he being the young owner of a mill.

Persons familiar with the movements of aeroplans, will recall the feat of Mr. Law some time ago in New York when he was shot from a sky-rocket in the air and came down to earth again in the aid of a parachute.

MASONS, FOR FIRST TIME, HEAR WOMAN AT THE GRAND LODGE

Precedent Broken To Listen To Appeal For Funds For Orphanage

Lansing, Mich., May 29.—Masonic precedents extending back to the very formation of the order were broken yesterday when Mrs. Minnie E. Keyes, grand worthy matron of the order of the Eastern Star of Michigan, was permitted to address the grand lodge of Free and Accepted Masons, at its annual convention.

Mrs. Keyes is the first woman in the history of Masonry, it is said, to be admitted to a meeting of the grand lodge. She made an appeal for funds to establish an orphanage for children of the members of the order.

BULGARS ARE SAID TO HAVE MASSACRED MUSSALMANS

With This Report Comes Announcement That They Are All Ready to Sign Peace Treaty With Turkey—Then For The Troubles Over Spoils

(Canadian Press)

London, May 29.—It is practically certain that the treaty of peace between the Balkan allies and Turkey is to be signed at the British foreign office by the peace delegates of the various states concerned tomorrow. Bulgaria and Turkey have both definitely decided to sign the document in deference to the wishes of Sir Edward Grey, the British foreign secretary, and there is little doubt that the other three allies, Serbia, Greece and Montenegro will do likewise.

The principal Serb peace delegate in London at noon today received a despatch from his government authorizing him to sign the primary treaty of peace with Turkey.

Massacre by Bulgarians. N N. Salnik, May 29.—A despatch from a trustworthy source says that Bulgarian troops have destroyed the village of Sredna, between Salonika and Serres, and have massacred the Mussalman population.

and so to clear the field for the very active negotiations she will have to undertake with her allies of the late war over the division of the spoils of victory.

In Sofia, the speech made by the Serb premier yesterday in the parliament at Belgrade when he explained that Serbia desired a negotiation of the treaty with Bulgaria regarding the division of territory is believed to have destroyed the hope of a peaceful settlement of the Serb and Bulgarian dispute.

AN IMPORTANT SESSION TODAY

River Commission Meeting in Fredericton

THE END IS IN SIGHT

Arrange Basis For The Argument To Be Heard In The Fall—Matter of Bridge Likely To Go Through All Right

Fredericton, N. B., May 29.—The important session of the river commission will meet here this afternoon in an important session as the work will consist chiefly of framing the issue upon which all the matters investigated by the commission will be argued before the commission. It will include the use of the St. John river for the purposes of driving logs, the use of the river and its tributaries for the purposes of national conservation of water, the conditions and uses of the river where it forms the boundary between the United States and Canada and below, as well as all other matters on which the commission has been working during the last three years.

This work is preliminary to the arguments which are to be made in the early fall. The arguments will in all probability be heard in Bangor.

There are some matters that the commission, which is made up of two representatives from Canada and two from the United States will be able to agree upon, and these will not be argued by counsel.

The session today marks the beginning of the work of the commission, as the final arguments will follow this afternoon. It is believed that the evidence taken by the commission, which fills volumes, is all completed.

In addition to the work for which the meeting is called the commission has also completed the work of taking up the St. John river between Van Buren and St. Leonard's. This hearing was held about two weeks ago, and at that time only those favoring the bridge appeared before the commission as witnesses. There were no objections to the plans for the river as far as the commission learned.

A report on the matter is to be made to the department of public works by the government at Washington and one is also to be made to the Department of Public Works of the Dominion government at Ottawa. Owing to the fact that no one appeared to object to the bridge, it is more probable that the commission will favor the proposition, which is now before the Canadian government at Ottawa.

LONDON SENSATIONAL TODAY

IN ITS GOVERNMENT RUMORS

Unconfirmed Stories of Resignation of Sir Rufus Isaacs and of Part of Cabinet Wanting Lloyd George Out

(Times' Special Cable)

London, May 29.—That Sir Rufus Isaacs' resignation is already in, that Lloyd-George's has been demanded by a portion of the cabinet and that the British government is so badly disrupted that dissolution and an appeal to the country is imminent, is a statement given credence in semi-official circles of both parties today.

The Jewish world, an authoritative organ of the British Jews, has backed up the statement that Isaacs has resigned. The Fall Mall Gazette, which for weeks has been publishing front page editorials analyzing and criticizing these members of the government in regard to the Marconi scandal, is out today with practically a straight demand for their resignations for "the honor of the mother of parliaments."

It is pointed out that no member of the British parliament has ever been known to take such a prominent part in government contracts without resigning as Lloyd George and Isaacs have in the Marconi company.

Premier Asquith met the members of the cabinet this morning, but no statement could be obtained from him.

London, May 29.—The Jewish Express learns that Sir Rufus Isaacs, attorney general, tendered his resignation, on account of the controversy over the

transactions by him and Chancellor of the Exchequer, Lloyd George in Marconi shares, but that Premier Asquith declined to accept it.

The Liberal whip denies the report that Sir Rufus Isaacs tendered his resignation. The former minister, John B. Kebley Fletcher, resigned his seat on account of ill health. It was he who challenged the Marconi scandal in the House of Commons last night.

SOCIETY LEADERS WHO ARE PAUPERS

Getting Through a London Season on One's Nerve

VARIOUS WAYS OF DOING IT

Help the Social Climber to Get Into the Inner Circles—"Bear-leading" and Working the Charity Plan—Other Methods

(Cassell's Saturday Journal) Society's London season has commenced, and soon the annual nerve-racking round of social functions, gala nights at the opera, dances, dinners and receptions will be in full swing.

To the average society woman this "big" season is an ordeal, to the average society man it is a banal bore. But, however tortuous and unless it may seem, it must be lived through. Money must be spent like water; entertaining must be conducted on a sumptuous scale; the big houses of Mayfair must be decorated with flowers and thronged with guests; the "society" of society, together with a number of moneyed bodies, who want to be considered of society, must be dined and supported generally feted by every woman who values her reputation as a hostess.

The expense of the London season may be greater than half the people's bank balances can bear, but they must be incurred.

At a fairly ordinary reception hundreds of pounds are spent upon the flowers alone. Supper—which is served from half-past eight to midnight—must be conducted on a scale which will cost, no matter how heavy their fees may be, but society contains many absolute millionaires in Belgium and Mayfair; they are multi-millionaires who are eclipsed only by the outer fringe of the fashionable set; they have their own box at the opera; they keep their motor-cars.

How Do They Do It? By divers means! The approach of the "big" season is often an agony of apprehension to these splendid paupers; but they rise magnificently, if somewhat abjectly, to the occasion. They plot and plan during Lent. Why an anxious eye on the calendar they arm themselves during the dead days before Easter for the fray in which they must prove victorious or "retire to the country."

Lady Dash, holding an army of angry tradespeople at bay with the aid of her tongue (she interviews her most belated creditors in the drawing-room) decides that something must be done. She packs her husband off to the clubs where there are other adventures of some of them honorables with but a living out of introducing people who want to get into society through the back door.

When she dashes to the clubs to see what she can do for her husband, she is comparatively easy for her to secure a lump sum of not less than a thousand pounds for inviting the marriageable daughter of a retired provision merchant to one of her receptions provided she can guarantee the presence of a princess.

"Bear-leading" and Charity The Dowager Lady Blank, on the other hand, may have no love for parties. She dabbles, by thought, perhaps, of advertising her financial condition by means of her friendship for outsiders whose names she can start a society or found a club.

"Bear-leading" consists of training the clumsy cubs of moneyed people in the way they should go. It does not necessarily consist of planting an uncouth girl, or a raw youth, upon disgraced acquaintances. It consists rather of transplanting them from the humble soil in which they have spent their childhood to the more elaborate flower-beds of Mayfair.

To start a society or found a club is not always an honest method of raising the wind, but it is a very common one. When the Dowager Lady Blank takes to politics, and induces moneyed nobodies to join her.

les to contribute to party funds, she can scarcely demand payment for her disinterested work from the political societies of which the moneyed nobodies are made honorary members; therefore, in her own subtle fashion, she demands a fee from the donors for bringing them into contact with political bigwigs and social aspirants.

The sort of club this lady prefers to found, however, is one that is associated with charity. Charity, in her case, does indeed cover a multitude of sins. She invents a glorified Dorcas society, or a club for the alleviating of the sufferings of the poor—and she makes herself the principal object of its charity.

Her society friends are always ready to do subsequent paragraphs and photographs in the papers. But the balance-sheet (not necessarily intended for publication), usually reads: "Receipts, \$2,760; expenses, \$1,760."

The Honorable Mrs. So-and-So, scornful at these devices, accepts cards and roulette as a means of social salvation. Her famous long-announced dinner is preceded by less formal dinners, which play the part of preludes to outrageous gambling.

SARDINE SITUATION ANXIOUS An Eastport correspondent of the Bangor Commercial writes:—"The lack of work in the sardine industry in this city and Lunenburg is being seriously felt by the business men, and the large number of unemployed men are causing more or less anxiety among the packers."

When the finger-nails become brittle it is not wise to use a polishing powder, because this tends to irritate the condition. To remove brittleness soak the nails nightly for ten minutes or so in warm olive oil. For polishing and keeping the nails soft and pliable a cream of white wax, vaseline and carmine should be used. This is applied after washing, and allowed to remain on a few minutes, then wipe off and the nail polished with a piece of soft cambric leather.

CITY GOVERNMENT

Commission government in St. John has thus far stood the test very well, and the citizens would not for a moment think of going back to the old system of city government.

that city. The department announces the opening of six dental clinics for school children. These clinics are maintained in connection with those already established, which have for the past year provided medical and surgical treatment for diseases of the eye, the nose and the throat.

While the board of control has, with the public sentiment behind it, been enabled to remodel in many minor ways the administration, it is really only beginning to take up the grave problem of changing conditions in Montreal so that it will compare favorably with other cities in the matter of parks, playgrounds and boulevards.

DENTAL INSPECTION

The question of having a regular examination and treatment of the teeth of children in the public schools is to be discussed by representatives of the dental association and the board of school trustees.

At the great health congress which will be held in Buffalo the last week in August, and which will be the fourth international congress on school hygiene, dental inspection will be one of the subjects of discussion.

"Dental inspection in the public schools is one of the measures advocated by many of the leading dental associations of the United States. Dental clinics have already been established in a number of the prominent cities, but the need of extending this work is clearly apparent, according to statistics furnished by health officers as well as school officials.

Mount Allison and Acadia Universities have closed the most successful year in their respective histories. In education as well as in the development of material resources the maritime provinces are making great progress.

Lord Avesbury, better known as Sir John Lubbock, whose death occurred this week, did much to secure legislation to provide for open spaces and playgrounds for children, and also for better conditions of housing, and of working in stores and factories.

When Mr. Rufus Pope was made a senator he took with him to the second chamber all the bitterness of his Toryism, made more bitter because of his failure as a politician outside of the senate.

Senator Bostock of British Columbia seconded the amendment to the naval bill which was moved by Sir George Ross. Senator Bostock is an Englishman, and therefore not likely to be attacked on the score that he is not loyal to the Empire.

The Borden government cannot afford to spend the money that is necessary to make the National Transcontinental a practically level railroad from Moncton to Winnipeg. It is content with grades which would not be accepted by the Liberal government, and it has thus cheapened the construction of the line.

The St. John Standard gravely informs its readers that "the defeat of the naval bill by the Liberal majority in the senate will be a severe blow to the Empire." Let us put over against the views of the Standard those of the Quebec newspaper which is the personal organ of Hon. Mr. Pelletier, one of Mr. Borden's Nationalist colleagues in the government.

Large consignments of daffodils, narcissi, and tulips, are being despatched daily from the Lincolnshire Pens. As many as thirty-three tons of flowers have been despatched from Spalding on one day, these figures being a record, and representing an immense quantity of flowers.

A JEWEL REVEALED. "Your husband is willing to allow you the custody of the automobile, the pool, and the rubber plant, with liberal alimony, while he takes the children and the graphophone."

HEARTY WELCOME. The little boy was waiting at the gate when the preacher rode up. "Are you Brother Jones?" the little boy asked.

ENVY. "It is vulgar to dress so as to attract attention on the street."

REASSURING. A woman hired a taxicab. The door of the cab was hardly closed before the engine started with a jerk, and the cab began to race madly along, narrowly missing lamp-posts, trams, policemen, etc.

THE FIRST LESSON. The curate was learning to ride a bicycle, and in a misplaced fit of zeal set off on his own. He thought he could manage by himself, so started off, the various dental associations are now lending their aid in behalf of the Buffalo congress.

WHAT DID HE MEAN? Last year, when the time for his annual holiday came, Mr. Houshall retired with his wife and family to a little farmhouse down in Dorset, where quiet and rest seemed to be assured.

Can accommodate you easily. There have been no pigs on the place since you left!"

MORNING NEWS OVER THE WIRES

At the session of the county court at Gagetown yesterday Judge Wilson sentenced Vashie Marrell and Ernest Collins, both of Newcastle Bridge, to three years in Dorchester penitentiary for stealing goods valued at \$100 from the store of the Rothwell Coal Co. at Miramichi.

The Royal Society in session at Ottawa yesterday decided to petition the federal government to prohibit the manufacture, sale or importation of the white or phosphorous match.

The arrival of the new Bishop of Charlottetown, Rt. Rev. Dr. O'Leary, was celebrated in that city yesterday with the impressive ceremonies, and the city was en fete for the occasion, streets and private dwellings being gaily decorated and illuminated.

An address and purse was presented to him from the clergy, who assembled from all parts of the island, and there was another purse presented by the laity.

Miss Ida Newlands, a nurse of Kingston, Ont., was yesterday awarded \$25,000 in New York in a suit for \$50,000 against J. W. Butler, a millionaire clubman living at the Ansonia Hotel. Miss Newlands while attending a patient in an apartment owned by Mr. Butler fell down an elevator shaft and broke her arm.

Chief of Police Rideout of Moncton, who was placed in charge of the case of the finding of a new-born babe in the woods near Fredericton Junction a short time ago, made an arrest yesterday, taking into custody Miss Viola Reid, aged 23 years, daughter of a well-known farmer of that place. It is alleged that she is the mother of the little one. She was conveyed to Burton, where she was placed in jail for the preliminary hearing on June 4. It is said that the crown officers have evidence which shows that the young woman was an inmate of the Salvation Army Evangelical Home in St. James street and that on or about April 28, she gave birth to a child. Some few days later, it is said, she left the city and went up the line. It is alleged that a fireman on the C. P. R. is the father of the infant.

WOULD RAISE \$6,000,000 FOR BAPTIST MISSIONS. The fifth annual report of the general appointment committee which includes a recommendation that the convention make the raising of \$5,000,000 for missions annually the ultimate objective, was presented on Monday to the

Northern Baptist convention in session at Detroit, and the recommendation was approved. Several of the recommendations in the report were subjects of active debate.

One for a united missionary campaign by the convention with Dr. John M. Moore of Boston as the educational director, was also acted upon favorably. In his report on the campaign for missions, Dean Shailer had grown a new spirit of cooperation among the Baptists of the country. He declared that the amount raised for general missions during the last year was \$20,000 more than ever before in the history of the church.

Many people visited the old Astor House on the 4th inst., drawn there by the news that it is to be closed.

**EDMUND BREESE IN "THE MASTER MIND" AT NICKEL**

Pathe's Weekly, Kalem Drama and an "Uncle Tom's Cabin" Burlesque

Tonight at the Nickel and for the next two days, at the Nickel, the Edison Talking Pictures feature will be, Edmund Brees, in the thrilling third act from "The Master Mind," a dramatic sketch reproduced with special permission of Verba & Leuchner the owners of the piece. Mr. Brees, who is well known to St. John people because of his frequent visits here in the summer, presents this excerpt with wonderful force and the separate numbers of his regular company are associated with him in producing it. As the engagement of the talking pictures is drawing to a close, interest in the productions seems to be on the increase, especially in the standard works reproduced. Pathe's Weekly affords the serious picture patron with dozens of scenes in the various portions of the world, all of which are recorded in the newspapers, making a combination most interesting. The series of films as purveyed by the General Film Company contains the very best picture fiction and in Kalem's production, "The River Pirates," a strongly dramatic picture is featured. The comedy in this show is especially strong. No other than the time honored, Uncle Tom's Cabin" is burlesqued by the Biograph's best comedians, and to see them in a scream of laughter. The "Lesson to Makers" is the concluding picture and it tells of the mishap of a Little-boy, who became enamored on all sides.

Miss Blaisdell and Mr. Rittaus are tonight and for the remainder of the week singing in numbers, and the orchestra has a new batch of New York successes.

**POPULAR PRICED TABLOID OPENS AT OPERA HOUSE NEXT WEEK**

Patrons must have noticed how the standard of each Tabloid Co. appearing at the Opera House has improved. It is announced that a still better offering will occupy this popular stage next week, when the Whyte Drama & Musical Tabloid Co will open an engagement of several weeks. The policy will be three shows daily, matinee at three o'clock, evening seven thirty and eight fifty five, prices ten, fifteen and twenty-five cents. The company is under the direction of "Tommy" Whyte, stage director and principal baritone of the Robinson Opera Co. It is well known here as an actor and director of productions. Mr. Whyte will give his personal direction to the presentation of each of the plays, which will be weekly, changing on Mondays and Thursdays, and this shall guarantee a grade of performance more resembling high priced productions.

Interesting details concerning the personnel of the company will be found in the announcement columns of all the papers tomorrow, which will doubtless be read with much pleasure by prospective patrons.

**Charge is Manlaughter**

Charlottetown, P. E. I., May 28.—The preliminary hearing into the case of James A. McGinnis, charged with manslaughter, was held yesterday at Souris, where the Whyte Drama & Musical Tabloid Co. is now performing. Galla McGinnis, second cousin of the prisoner and whom he is alleged to have killed, gave evidence to the effect that the defendant knew what he was doing when he attacked the deceased. An apparent motive was found in the evidence that Galla McGinnis, who was a fishery inspector, had forbidden his cousin to place a net in North Lake, as he believed the intention was to fish trout illegally. The doctors who performed the autopsy said the heart disease was the indirect cause of death brought on by rough treatment received from the prisoner. Magistrate McQueen committed the accused to the supreme court, on a charge of manslaughter, refusing the request of the crown prosecutor to change it to murder.

**TIZ Cured Her Quick**

Send at Once for Free Trial Package

If you have sore feet, tired feet, sweaty feet, lame feet, tender feet, smelly feet, corns, calluses or bunions, read what happened to Mrs. Crockett, of Jeffersonville. "TIZ" did it. Mr. Crockett says: "After the second treatment she walked downstairs one foot at a time. She had not been able to walk downstairs before in past five years, except by stepping down on each step with one foot at a time. This is remarkable. Send five more boxes."

No matter what ails your feet or what under heaven you have used without getting relief, just use "TIZ." It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. "TIZ" cleans them out and keeps them clean. You will feel better the first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth that can compare with it. If anyone offers you an imitation that is claimed to be "as good as TIZ," ask why, if it is just as good they don't dare to come out and advertise it. Don't you be a victim—get the genuine "TIZ" for sale at all drug stores, department and general stores, 25c. per box, or direct, if you wish. Money back if "TIZ" doesn't do all we say. **BOER WAR DRAMA IS SHOWN AT THE GEM**

The presentation of the Kalem masterpiece war drama "The Battle of Freedom" at the Gem Theatre yesterday afternoon attracted keen attention, and those who saw the picture were charmed with its reality, the touching vein of domesticity pervading it and the several thrills given during the enactment of the story. Carly Blackwell and Jane Wolf were seen in the leading roles and played them to the satisfaction of all. The story is written by Colonel Pryce, a former British officer, and staged by George Melford, who was a member of one of the Canadian contingents in the Boer war. In one of the chief climaxes, the battle for freedom, 7,000 rounds of ammunition were used, and countless numbers of men and horses, and the scene was one of the most sensational ever shown in a war drama at the Gem. There was also an Edison comedy "The Welsh Rarebit," which was certainly extremely funny, while George Irving and the orchestra added to the attractiveness of the bill which will be repeated tonight.

**ACADIA MAN IS TO CONDUCT THE INQUIRY**

Ottawa, May 28.—A new departure in the work of the forestry branch of the interior department has been made by ordering an investigation into methods for prolonging the life of forest products and utilizing by-products.

A. G. McIntyre, editor of the Pulp and Paper Magazine has been selected to conduct the inquiry which for the present will be carried on in co-operation with the forestry work of McGill University.

**Drop Obnoxious Clause**

Boston, May 28.—Shipping interests here, which do business with St. John and other Canadian ports are much gratified tonight to learn that the Democratic leaders at Washington have agreed to withdraw from the tariff bill the clause allowing a five per cent. discount on merchandise imported in American bottoms. Great Britain and other nations protested the clause as a violation of treaty rights. The decision is important to Canadian vessel owners.

**GOVERNMENT DEFENDS LOWER GRADES ON TRANSCONTINENTAL**

Ottawa, May 28.—A vigorous protest was made today by Hon. Mr. Graham in the House of Commons against the action of the government in interfering with the original plans for the construction of a practically level road between Moncton and Winnipeg by allowing cheaper construction and heavier grades on the National Transcontinental for which a vote of \$18,000,000 was asked. He argued that the saving of a little money would be had for the future, and would entail greater expense later on. Hon. Mr. Cochrane replied that the changes were but temporary and were of minor importance.

Hon. Mr. Rogers said that a royal commission was to be appointed to investigate the commercial advantages of the Georgian Bay Canal.

Hon. Mr. Cochrane brought down \$20,000,000 in railway subsidies today, of which \$15,000,000 was for the Canadian Northern.

Nearly 50 tons of water were lifted from the mines of South Staffordshire, England, last year for every ton of mineral.

**WAS WEAK AND RUN DOWN. NOT ABLE TO DO HER WORK.**

Many women get run down, and are unable to look after their household duties, owing to their nervous system becoming unstrung. Day in and day out they have to go through the same routine of work, sweeping, dusting, cooking, etc. No wonder their work gets on the nerves and they become run down.

When a woman gets into this state there is only one thing for her to do, and that is, to get something that will build up her system.

For this purpose there is not an equal to Milburn's Heart and Nerve Pills. Their restorative action is felt on every organ and tissue of the body, and in a short time the weakness will give place to strength and vitality, and make life worth living.

Mrs. Henry McIntosh, Oliver, N.S., writes:—"I would recommend Milburn's Heart and Nerve Pills to anyone who is weak and run down. I was not able to do my work, nor rest at night for four years. After taking seven boxes, I am entirely cured, and can recommend them to anyone suffering from heart or nerve trouble."

Milburn's Heart and Nerve Pills are 50 cents per box; 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

CONCRETE WALKS AT NEW THEATRE

Other Beauty Plans of Keiths Please Commissioners—Ornamental Poles for Street Railway

The owners of the new Imperial Theatre are planning a unique and attractive approach to the theatre. The application for permission to carry out the scheme was considered by the commissioners today. The company wishes to lay concrete sidewalks and curbs on both sides of the southern side of King Square opposite their building and to connect them with a concrete walk across the street from the middle pathway of the square. They wish to erect four ornamental electric light posts in front of the theatre and two on the opposite side of the street at the entrance to the walk. Their proposals were favorably received by the commissioners and were referred to the commissioner of public works and the road engineer. The company will be asked to submit detailed plans and blue prints. The commissioners and the St. John Railway Company have reached an agreement regarding the poles to be used by the company on the northern side of King Square. The company has been using four wooden poles and these will be replaced by two ornamental steel poles for the trolley wires and the wooden poles, which were used by the telephone company but are no longer needed by them since they laid underground conduits will be removed. The St. John Railway Company wrote to the commissioners today explaining their action in opening Wright street without permission by saying that they were ignorant of the law, which has never been enforced. They agree to give twenty days notice in future, when laying mains, but asked for a shorter time limit on applications for permission to lay service pipes. This was granted. An application from A. A. Wilson for permission to make an opening fifteen inches square for a coal hole in front of his building on the corner of Charlotte and Duke streets was referred to the road engineer. A. R. Delys, R. C. and E. J. Dinneen, of the Norton Grilles Dredging Company, appeared in support of the company's application for permission to erect blocks for their dredges in Lower Cove. The matter was referred to the commissioner of harbors and ferries to report.

IN HOSPITAL; HIS LEG BROKEN; BOY TAKES ILL AND DIES

Young Son of Mr. and Mrs. Wm. G. Gaskin Succumbs to Diphtheria

The sincere sympathy of a host of friends will be extended to William G. Gaskin, of the staff of Vassie & Co., and his wife in the loss of their three-year-old son, Willie, whose death occurred this morning in the epidemic hospital. The lad, who was a bright little boy, broke his leg while playing about their home in Kennedy street about seven weeks ago, and was taken to the General Hospital, where he steadily improved, and was thought to be so much better that on Saturday last it was planned to have him brought home. Somehow he contracted measles, and then diphtheria developed, and the boy was removed to the epidemic hospital, where he had since been, and where he died this morning. The death was a severe blow to his parents who had watched his recovery from his accident with eagerness, and had not anticipated any other illness setting in, and they will meet with the deep sympathy of many friends in their bereavement.

He previously had been exonerated by a coroner's jury. Hoveyby returned home unexpectedly and found J. F. Rainey there. He killed Rainey and his wife committed suicide. Klaus Not Champion; Will Find Dillon Worthy Contender

By TOM ANDREWS

The contention which is being made for Frank Klaus, the Pittsburg middle weight, that he has a rightful claim to the world's title in that class is away off. In the first place Klaus never fought for the middle weight title in America and his battles abroad were not at the correct limit, so that he could not be considered champion in any event.

There is no doubt that Klaus is one of the best middle weights in the country today and that his battle with Jack Dillon at Indianapolis, May 29, will be a near championship affair, but that does not make him world's champion by any means. When he meets Dillon he will be stacking up against a man who has as much right to claim the American title as he has, and for that reason the contest should be all the more interesting.

It is alleged that Klaus won the world's title when he won from Billy Papke in a foul in Paris last March, but the fact remains that they did not fight at the middle-weight limit, neither did they meet the weight requirements when he and Carpenter, the Frenchman, fought. Klaus winning on a foul in the ninth round. When Stanley Ketchell was killed, the man next in line to his title at that time was Billy Papke, for Papke had won the championship from Ketchell only to lose it again in a later battle. Still later Papke and Ketchell fought a fierce 20-round contest, the latter getting a close decision. Therefore Papke at that time was best entitled to the championship. It was then that Billy was engaged by Hugh McIntosh, as champion middle weight, to visit Australia and meet the best men there, which he did, but he lost to Dave Smith and also to Johnny Thompson, but afterwards defeated Smith. Thompson fought at the real American limit of 138 ringside and insisted that that time that the contest be for the championship.

Thompson has never been recognized as champion middle weight, although he had as much right to it as anyone else. It was his age that told against him. He lost a few no-decision ten-round bouts after he came back, the newspapers giving decisions against him. It was then that he was considered out of it. Eddie McGoorty, Jack Dillon, Frank Mantel, Jimmy Clabby, Hugo Kelly, George Brown and others put in a claim for the much coveted title, but all have been eliminated through contests with the exception of McGoorty, Dillon and Clabby, so that today the three are on a level with Frank Klaus for the championship, as far as the United States is concerned. It is very doubtful whether Klaus will agree to make the weight limit of 138 ringside, however, and therefore has a title to boast of. This makes the Dillon-Klaus match all the more important.

If Jack Dillon fights against Klaus the way he did against Bob Moha in Milwaukee recently, he will give the Pittsburgh man the hardest battle he has ever bumped into. From all accounts a tremendous crowd will be present to witness the contest.

DIAMOND JEWEL IS GIFT TO W. M. DOWNIE

Brother Masons Give C. P. R. St. John Chief Welcome

MRS. DOWNIE, ALSO

Handsome Gem Presented to Her in Vancouver — Proceedings at Interesting Anniversary of Cascade Lodge — Good Words For St. John Man

(Vancouver Province, May 25)

Traveling through the mountains by daylight in order to give Mrs. Downie, who is on her first trip to British Columbia, an opportunity of witnessing the grandeur and beauty of the scenery.

William Downie, general superintendent of the Atlantic division of the C. P. R., arrived from his headquarters, St. John, N. B., on Saturday evening accompanied, in addition to his wife, by Acting General Superintendent, A. E. Stevens, of the British Columbia division of the C. P. R., H. H. Watson, M.L.A., and Rev. E. D. McLaren, D.D., all of whom had gone up to North Bend to meet him and convey him to the city.

Mr. Downie, who, although confessing to sixty years of age, does not appear to be more than fifty, stated that they had had a very enjoyable trip through the mountains, stopping off at Kamloops, so as to miss nothing of the grandeur of the Selkirk, the Rockies and the Fraser Canyon.

In reply to a question about the maritime provinces, where his home now is, Mr. Downie said that the provinces were in excellent condition; trade and commerce were expanding at a great rate, and the railroads were doing an enormous business. Immigrants were pouring in in such numbers as to tax the resources of the railway to deal with, but he was happy to say that they had managed to handle this enormous volume of traffic without misadventure of any kind.

Mr. Downie said that he had met his wife deeply attached to the Province of New Brunswick, where his home had been for some years, where he had met his wife many years ago—Vancouver; and it was a special delight for him to be here to assist in the reproduction of the initiation scenes of the Cascade Lodge, which took place twenty-five years ago.

Mr. Downie was superintendent of the district of the C. P. R. from Vancouver to Kamloops, now known as District No. 2, from 1888 to 1899. In 1900 he was superintendent of District No. 8, with headquarters at Nelson, where he stayed for two years, when he was promoted to be general superintendent of the Atlantic division of the C. P. R., with headquarters at St. John, N. B.

Those who worked with Mr. Downie state that although he was a strict disciplinarian, he was very popular with all grades of workers on the railway. According to one of them, Mr. Downie was a man of very few words, but of great kindness of heart, and the only times he was really upset was when he had been detected in doing a good action. He was a great worker, and put his heart into his railway work.

Not only for the railway was Mr. Downie a great worker, but for the Masons and the church he was also very energetic. He was largely instrumental in the building of Christ Church, and it was almost entirely due to his efforts that the church secured its first pipe organ. He was a close friend of Rev. Canon Tucker, who was well known in Vancouver. By a curious coincidence, Mr. Downie's brother, Rev. Canon Downie, is also in Vancouver on a visit, and the brothers will meet again in the far west.

Masons to the number of nearly 500 assembled last night at the Masonic Temple to celebrate the historic occasion of the twenty-fifth anniversary of the institution of the Cascade Lodge No. 12 A. PRACTICALLY GIVEN UP TO DIE

"Fruit-a-tives" Cured Kidneys and Bladder

Williamstown, Ont., July 27th, 1910. "I have much pleasure in testifying to the almost marvellous benefit I have derived from taking 'Fruit-a-tives' I was a life-long sufferer from Chronic Constipation, and the only medicine I ever secured to do me any real good was 'Fruit-a-tives.' This medicine cured me when everything else failed. Also, last spring, I had a severe attack of Bladder Trouble, and 'Fruit-a-tives' cured these complaints for me, when the physicians attending me had practically given me up.

I am now over eighty years of age and I can strongly recommend 'Fruit-a-tives' for Chronic Constipation and Bladder and Kidney Troubles."

"Fruit-a-tives" is the only medicine in the world made of fruit juices—and is the greatest kidney, bladder and liver medicine ever put on the market. 50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

NEW MAIL BOXES FOR ST. JOHN

The New Mail Box.

A cut is shown above of the new type of mail boxes which have been adopted by the post office department and which will be installed in St. John at some future date. The boxes are of the pillar box type, much used in England. They stand six feet high and are surmounted by signs bearing the names of the streets on which they are placed. Space is given for a revolving electric sign on which space will be rented to advertisers. Beneath this are the slots for mail and a stamp vending machine.

Rev. E. D. McLaren, in an eloquent speech, welcomed their old first master back and in doing so said it was difficult to few men after an absence of fifteen years to return to the scene of former labors and find an old niche as open to them as if they had never gone away, their influence as strong as when they left, and the affection of their friends absolutely untouched by all that the changing years had wrought.

"But, sir," said the speaker, "to you this experience must be a source of the very keenest pleasure—far more precious than empty titles or worldly emoluments. The purely material rewards of commercial, industrial, or political activity are comparatively insignificant. Years of slavish toil may be necessary to secure them, while a moment may be sufficient to destroy them.

"But the loyal confidence, and deep, strong love that are begotten in the stress and strain of those life experiences that test the fibre of one's moral and spiritual being—the confidence and love of the men who know one best, constitute a priceless and imperishable treasure. That treasure, Most Worshipful Sir, is yours. Go where you will, you carry with you the hearts of hundreds of the best men in the City of Vancouver."

He Knows Corns

This Chemist Who Invented Blue-jay

He studied corns for a dozen years, then worked out this way to remove them. It's a simple little plaster with a little drop of wax. Apply it in a jiffy, and the corn pain stops. You forget the corn entirely. In 48 hours the whole corn comes out—root, callous, everything. Not a whit of pain or soreness. That ends the corn. Why pare corns? Why daub them? Why use old-time pads and plasters? Those are archaic methods. Blue-jay is so vastly better that folks use it on a million corns a month. Try it on one of yours.

A in the picture is the soft B & B wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

Sold by Druggists—15c and 25c per package. Sample Mailed Free. Also Blue-jay Bunlon Plasters.

THE NEW SENATORS

The new senators are E. D. Smith, of Winona, ex-M.P., for Wentworth, Alex McCall, of Sinoac, ex-M.P., for Norfolk; Lieut.-Colonel James Mason, of Toronto, and James J. Donnelly, M.P., for South Bruce.

Messrs. McCall and Smith are of the Protestant faith and Messrs. Mason and Donnelly are Roman Catholics. The religious status is thus maintained. The new senators succeed Senator Sullivan disqualified, and the late Sir Richard Scott, Senator Campbell and Senator McMillan.

In the Spring the Blood is Thin

The body of man can be influenced in health or disease only through the medium of two channels—the blood and the nerves.

When the blood is thin and watery, as it usually is in the spring, the nerves are starved and depleted, and every organ in the human body is less capable of performing its natural functions.

The action of the heart weakens, breathing is weaker, the gastric juices of the stomach do not flow regularly, the liver, kidneys and bowels are less active, and in fact the whole body falls an easy victim to disease.

Dr. Chase's Nerve Food

50 cents a box, 6 for \$2.50, at all dealers, or Edmansson, Bates & Company, Limited, Toronto.

Livian disqualified, and the late Sir Richard Scott, Senator Campbell and Senator McMillan.

Senator Smith represented Wentworth in the House of Commons from 1900 to 1908. He is one of the largest of Canada's fruit growers, packers and nursery men.

Lieut.-Colonel James Mason is the president of the Home Bank and a recognized authority on banking and finance. He is a director of several important companies. Lieut.-Colonel Mason served in the Northwest rebellion in 1885, and was severely wounded at Batoche. At the Diamond Jubilee in 1897, he was second in command of the Colonial Infantry drawn from all parts of the empire. He is a Roman Catholic.

Senator Alexander McCall is a well-known lumberman. He represented Norfolk in the House of Commons from 1908 to 1911. James J. Donnelly, M.P., has been one of the Conservative whips. He was first elected in February, 1904, but was defeated at the general election that autumn. In 1908 he was successful and again in 1911.

In order to even up the representation all the new senators are from the western part of the province. Some Swiss doctors maintain that the amount of sleep should be regulated by altitude. Too much sleep, they say, is as harmful as too much food or drink. In low-lying districts seven hours' slumber may be enjoyed with impunity, but up in the mountains five hours is enough.

Australian Team Arrives Victoria, B. C., May 29 - Australia's cricketers were given a royal welcome upon their arrival here. They will play their first match this afternoon at Oak Bay against an all island team. On Friday and Saturday, an all-star British Columbia eleven will play the Australians. The visitors include several of the greatest cricketers who have ever represented Australia in international matches.

In the two-men tournament on Black's alleys last evening Foster and Howard broke even with White and Beattie, three points each. The total score was 889 to 889 and Beattie was high man with 92-8-5.

Toronto Team. The selection of a team thoroughly representative in every department of the game to do battle for Toronto in the two-day game with the Australians at Rosedale on June 11 and 12 is a matter which has engaged the lively attention of the committee of management during the last seven days. With the great number of active cricketers in Toronto, many of whom can be classed as first rate players, the task has proved no easy one, but it is believed that sixteen names are under consideration from whom the eleven will be ultimately chosen.

The players are: Dr. W. W. Wright, Toronto; L. M. Rathburn, Toronto; P. E. Henderson, Toronto; A. H. Thorne, Etobicoke; N. Seagram, Toronto; A. H. Gibson, Hamilton and Toronto; J. Bell, Rosedale; H. S. Reid, Rosedale; H. Lownsbrough, Toronto; J. M. Laing, Toronto; H. G. Woolley, Rosedale; D. Corder, Toronto; T. Swan, Rosedale; H. G. Davidson, Toronto; G. M. Baines, Rosedale; A. Heath and S. Charge By Evers

Chicago, May 28 - Manager John Evers of the Chicago Nationals, accuses pitcher Howard Camnitz of deliberately hitting pitcher Larry Cheney and catcher Archer during the game in Pittsburgh on last Sunday, and of trying to hit Hein Zimmerman. Evers declares he will begin a crusade to do away with the practice of certain pitchers, who aim at batters' heads. Evers said he did not permit his pitchers to aim at batters and believed that if President Lincoln would take up the question other managers would issue similar orders to their men.

Gardner Hopes to Be Back Soon

Larry Gardner, the Red Sox third baseman says his foot is coming along nicely. It still is in a plaster cast, but Larry finds that he can bear considerable weight on the toes as well as on the heel. Larry is confident that there is nothing very serious in the way of broken bones, and it is his idea that he will be back in the Red Sox lineup in much less time than is generally figured for him.

KENNEL

Montreal Dog Show The Mount Royal Kennel Club show was opened today in Montreal, and will continue until Saturday, inclusive. Charles H. Mason, of Fort Washington, L. The president, D. W. Ogilvy's cup will be for the best dog, any breed, in the show, while the vice-president's cup will go to the best of the opposite sex to the winner of the president's cup. The children's class for boys and girls, fifteen years and under, children to show their own dogs, will also most likely be judged on Saturday.

Dogs Famous in the Show Ring

Dogs famous in the show ring, both in the States and Canada, will be on exhibition and it is a great satisfaction to the executive to have received so many outside entries from kennels in Winnipeg, Halifax, St. John, N. B., and other distant points.

Lady Lightfoot II. Harry Giddings a few years ago purchased for a song a handsome mare, Lady Lightfoot II. She was bred in California and owned by T. Hitchcock. She raced in Toronto as a jumper under W. F. Dunsbaugh, and did not amount to anything. Then came Harry Giddings who bought her as a brood mare, and she was an immediate success. Her progeny has earned for Mr. Giddings \$20,000. Hearts of Oak has brought him in \$7,925, and Mr. Giddings still has the best of Lady Lightfoot's offspring.

PHILADELPHIANS OUT

Word comes from Philadelphia that the Vespers of that city have withdrawn their five entries from the Henley regatta to be held next Friday for the reason that the Vesper crew could not get a crew to meet it in New York. The Philadelphia men were willing to meet a crew composed of all the clubs, but the New Yorkers did not take to this readily, with the result that all the entries have been withdrawn. The Vesper crew won the Middle States race last Labor Day, and will be the one four in this country to meet the fast Argonauts of Toronto and the pick of America at the National Regatta to be held in this city in August.

N.S. to B.C. on the "Air Line". August 27, 1912, two men in an automobile shot out of Halifax. October 14, 1912, the same two men went into Vancouver. Let your imagination take you over 4,160 miles of travelling which words fail to amply describe and you'll find yourself saying: "We know that where a car can go, Dunlop Traction Tread tires can also go, and help materially in getting the car there." Men like Haney and Wilby, who made the first All Red Route trip across Canada give great credit to Dunlop Traction Tread tires, for here are extracts from their own signed statements: "I desire to testify to the wonderful bearing qualities under most trying conditions of Traction Tread tires." - HANEY. "It was simply wonderful to see how the tires held the car to the road under the very worst weather conditions and to find the sense of fear disappearing when motoring over narrow ledges, over hanging precipices and on 25 to 30 per cent. grades." - WILBY. "Dunlop Traction Tread is the highest priced tire made in Canada. You discover that fact when you are actually buying the tire. You forget it when you commence totalling up the mileage received and tire mishaps averted." Dunlop Traction Tread Tires. Fit every type of rim. Have greatest air-capacity. Absolutely never rim-cut.

**DOWNFALL OF "SPOOK" IN EAST ST. JOHN ROAD**

Resident Encounters "Ghost" Which Proves to be Jocular Neighbor

Although the existence of ghosts is generally disputed, a prominent resident of East St. John has a thrilling tale to relate in which a "ghost" figures in the leading role. He was walking along the Red Head road when he saw a white-clad figure of indistinct shape approaching from the opposite direction. The night was dark and the road was lonely, but, bracing up his courage, he approached the ghastly figure and spoke, calling upon it to answer.

There was no reply and the shape seemed to diminish as he approached. Finally, as he drew near, the ghost seemed to crumple up at his feet. There was still no clue as to the character of the apparition, but to test its reality, the man brought his hand-bag down on its head. It seemed solid, so he tried again, putting more muscle into the blow and was rewarded by a very human howl of anguish.

A little further investigation proved that the "ghost" was a neighbor who was out trying to play a practical joke on another resident of the district. He was wrapped in a white sheet which had raised over his head, but which, when he was accosted became tangled around his feet and caused his downfall. Each admitted that part of the joke was on him.

**HORSE GALLOPING UNDER THE LASH OF THE WHIP**

Marsh Road Happening Results in Police Report

The large number of people who were on Waterloo street near the Haymarket Square last evening a little after six o'clock, witnessed the beating of a horse that was being driven by the Marsh road at a furious rate. The horse was guided along past the street railway excavation at the Marsh Bridge and the onlookers held their breath, expecting every minute to see the rapidly moving carriage collide with other teams passing at the time. As a result of the occurrence, Edward Hipwell has been reported by Policeman Gibbs for furious driving and ill-treating the horse.

**KING AND QUEEN HOME**

Airships Take Part in Greeting Their Majesties

London, May 28.—The king and queen returned to London last night from Berlin and were received with an enthusiastic welcome by large throngs. They were met at Victoria Station by the Duke of Connaught and Prince Arthur. Sir Edward Grey also was present.

A picturesque feature was the welcome to Their Majesties by a naval waterplane and a biplane, which flew from Eastchurch to meet the royal yacht at the Nore, and there, at a height of several hundred feet, made graceful curves around the vessel.

**BROTHERHOOD OF ST. ANDREW CONFERENCE IN ST. JOHN IN FALL**

September 26, 27 and 28 Selected at Meeting Here With Bishop Present

September 26, 27 and 28 are the dates that have been fixed for the maritime conference of the Brotherhood of St. Andrew to be held in this city, with headquarters in the Trinity church school room. The managing committees selected from the various churches have been working on the plans for some time but the dates and other important arrangements were fixed at a meeting held yesterday afternoon at which the Bishop of Fredericton and J. A. Birmingham, general secretary of the Brotherhood for Canada, were present.

W. A. Steiper is chairman of the managing committee and has appointed strong sub-committees who have the matter well in hand. The provisional programme, which is quite well advanced, shows that there will be some strong speakers brought here to deal with the object of the brotherhood, which is Christian work among men.

It is two years since a conference of the brotherhood has been held in the provinces, the last one being in Truro, and it is expected that a large number of delegates will attend this year's conference.

**BOUGHT LARGE BLOCK IN MILITARY ROAD**

An interesting property deal was concluded yesterday afternoon when W. C. Sharkey, who arrived in the city from Boston on Tuesday, purchased from Mrs. Creary her portion of the Hugh Morris estate in Military road. Mr. Sharkey's wife was one of the heirs of the Morris estate and owned the lot next to that owned by her sister, Mrs. Creary. Mrs. Sharkey's holdings in Military road now cover an area 125 feet wide and 825 feet deep. The land is situated next to the Corkery property purchased by Armstrong & Bruce about the first of the year. Mr. Sharkey is well known in the city. He is a native of St. Martins. He carries on a large contract and building business in Boston.
