GENERAL STATEMENT.

HISTORICAL. In the year 1861 an Act was passed by the Legislature of New Brunswick authorizing the Trustees of the "Mount Allison Wesleyan Academy," under certain specified conditions, to establish and put in operation at Sackville a degree-conferring institution under the name and style of "The Mount Allison Wesleyan College." In July, 1862, the required conditions having been duly fulfilled, a collegiate organization was effected and the work of instruction regularly entered on. Several students having been admitted to advanced standing on the basis of studies and examinations in connection with the higher classes of the Academy, the first College Class was graduated in 1863. By an amendment of the original charter in 1886, the corporate name of the institution was changed to "The University of Mount Allison College."

The office of President has been filled as follows: 1862-69, Rev. Humphrey Pickard, A. M., D. D.; 1869-78, David Allison, A. M., LL. D.; 1878-91, James R. Inch, A. M., LL. D.; 1891, David Allison, A. M., LL. D.

ORGANIZATION AND GOVERNMENT.—The Charter of 1861 conferred on the projected College full University powers as respects Courses of Study and Degrees in the various Arts and Faculties, and these powers are expressly continued to the institution under its present designation of "The University of Mount Allison College." Under this authority the University maintains complete and efficient Faculties in Arts and Theology, and confers all the Degrees appropriate thereto.

According to the provisions of the amended charter the ultimate ownership of the University is in the General Conference of the Methodist Church of Canada. The direct government is, however, vested in a Board of Regents and a Senate, and the aforesaid General Conference exercises a controlling influence on the affairs of the University solely through the power conferred on it by the Charter of appointing a large majority of the Regents.

The University Senate is a composite body consisting of all the members of the Board of Regents and Faculty. It is charged by legislation with the duty of regulating the strictly educational concerns of the University, such as framing Courses of Study and conferring Degrees. The general management of affairs is entrusted to the Board of Regents, which is the supreme governing body of the Ladies' College and the Academy as well. The Board consists of thirty-two members: twenty-four—twelve ministers and twelve laymen—appointed by the General Conference of the Methodist Church, with six representatives of the Alumni Society, and two representatives of the Alumnae Association of the Ladies' College. These various modes of appointment practically ensure a thoroughly representative character for the Governing Board of the University.

In its internal administration, the University has always been conducted on strictly non-sectarian principles. While the Methodist population of the Maritime Provinces and Newfoundland is naturally looked to as the chief source of supply of students, a very appreciable percentage of the attendance has uniformly represented other religious denominations.

STUDENTS.—Students may enter the College either as regular Undergraduates having passed the Matriculation Examination, or as special students who do not look forward to a University Degree. Among the latter are included both those who have passed the required Matriculation Examination but do not expect to pursue the regular course, and those who, without full Matriculation, have given evidence of being able to pursue the selected subjects of study. Such students, upon leaving the College, will be entitled to receive Certificates bearing the College Seal, and specifying the particular branches of study in which they have received instruction and passed satisfactory examinations. In addition, persons not in any way connected with the University may be admitted to a particular course or courses of lectures on approval of the Professor or the Faculty.

COURSES OF STUDY.—The regular courses are: The Arts

Course, leading to the Degree of Bachelor of Arts; and the Divinity Course, leading to the Degree of Bachelor of Divinity. Honor Courses are provided in Classics, Mathematics, Science, Philosophy, and in English Language and Literature.

ADMISSION OF WOMEN.—Women are received on a perfect equality with men in all lectures and competition for prizes and honors. Mount Allison was the first chartered College in Canada to admit women to all the privileges of regular Collegiate Courses and Degrees. Young women wishing to pursue an undergraduate course will find at Mount Allison facilities for thorough collegiate training under the most favorable conditions as regards health, and domestic and social advantages. Board may be had at the Ladies' College on reasonable terms. In addition to the regular undergraduate work, the best instruction in Music and the Fine Arts is available, and those not fully prepared for matriculation have opportunities of bringing up the studies in which they are deficient.

AFFILIATION WITH DALHOUSIE LAW SCHOOL.—Graduates in Arts of this University who, during their undergraduate course, have attended classes in Constitutional History, International Law, and Contracts, and have passed their examinations as required by the Law Faculty of Dalhousie College, can graduate in the Law School of said College in two years from time of entrance, provided they take, during these two years, all other required studies.

EXAMINATIONS.—Written examinations, three hours for each paper, are held at the close of each term. The Honor Examinations are held for the most part at the end of the year, slightly in advance of the ordinary class examinations.

A student's standing depends both on the result of the written examination and on his work during the term, regular attendance at lectures, etc. The lists are arranged in three divisions: First Class, Second Class, and Pass.

Supplementary examinations will be held twice each year, at the beginning of the first term, while the Matriculation

examinations are in progress, and during the second term at different dates for different subjects (see p. 2). Students desiring such examinations must give notice in writing, *and at least a fortnight in advance*, to the respective Professors of the subjects in which they wish to present themselves. A fee of \$2.00 will be charged for each such examination.

THE DEGREE OF M. A.—The Degree of Master of Arts may be taken in course by any Bachelor of Arts of at least one year's standing who shall have taken (during his Undergraduate Course or subsequently) the full Honor Course in any department; or who shall have taken, either at Mount Allison or at some approved University, at least one year's post-graduate work in some special line of study, and have passed satisfactory examinations on the same. Each applicant shall prepare and forward to the President, on or before May 1st, a satisfactory thesis on some subject connected with his courses of study. The fee should be remitted at the same time as the application for the degree.

ACADEMIC COSTUME.—All students whose names are on the College Roll are expected to provide themselves with caps and gowns, and to wear the gowns at lectures, church, and at all public Academic meetings. Bachelors of Arts are entitled to wear a hood of black stuff edged on the inside with garnet silk. Masters of Arts are entitled to wear a hood of black silk or stuff with a full lining of garnet silk. Bachelors of Divinity are entitled to wear a hood of black stuff edged on the inside with garnet silk and white ermine. Doctors of Divinity are entitled to wear a hood of scarlet cloth lined with purple silk. Doctors of Laws are entitled to wear a hood of scarlet cloth lined with blue silk.

MATRICULATION.

The Matriculation Examinations are held on the second and third days of the First Term of the Collegiate Year. Students may pass either the Junior Matriculation or the Senior Matriculation.

Certificates of Matriculation from chartered colleges are accepted in place of the examination. Students holding provincial licenses and non-professional certificates will be exempted from examination in any subject covered thereby.

JUNIOR MATRICULATION.

I. English.

Candidates in English will be expected to be acquainted with the main principles of English Grammar as taught in the Provincial High Schools. To test their power of writing their language accurately an essay must be written on some special work which they have studied. For 1900, Scott's *Marmion*; for 1901, Scott's *Lady of the Lake*. Other questions will be asked about the text. *Special importance is attached to the general analysis of sentences.* In addition there will be an examination on the Outlines of English and Canadian History, and General Geography, as in the books severally prescribed by the Educational Departments of New Brunswick, Nova Scotia, and P. E. Island.

II. Classics.

Latin—Cæsar, Gallic War, Book IV; Virgil, Æneid, Book I; Latin Grammar, *Harkness* or *Bennett*. Easy sentences of English to be translated into Latin. Question in History and Geography, arising out of the Books prescribed. For 1901, the required authors will be Cæsar, Gallic War, Book VI; Virgil, Æneid, Book III.

Greek—Xenophon, *Anabasis*, Book I; Greek Grammar, *Hadley* or *Goodwin*. For 1901, the required Greek author will be Xenophon, *Anabasis*, Book IV.

[Instead of the Classical selections prescribed, satisfactory equivalents from the same or other authors will be accepted.]

III. Mathematics.

Arithmetic—Proportion, Interest, Extraction of Square Root, Vulgar and Decimal Fractions.

Algebra—Addition, Subtraction, Multiplication, and Division of Algebraical Quantities, Simple Equations of one, two and three unknown quantities, Easy Quadratics.

Geometry—First, Second, Third, and Fourth Books of Euclid, or the subjects thereof, and the solving of easy Geometrical exercises.

IV. French.

MacMillan's French Course, First Year; *Fasnacht's* French Reader, First Year, or an equivalent. Translations of simple and easy sentences from English and French.

Students have an option between Greek and French.

V. Science.

Natural Philosophy, as treated in the Provincial High School text-books, and the Tables of the Metric System.

Chemistry of Water and the Atmosphere.

NOTE.—Skill in drawing, acquired before matriculation, will be found helpful in all the science studies of the College course. The presentation of note-books describing experiments made or seen, and recording any nature observations, will count in a candidate's favor. They must bear the teacher's initials.

SENIOR MATRICULATION.

Students may enter the Sophomore Class by passing the ordinary matriculation examinations, together with examinations on the subjects of the Freshman year, or their equivalents. In Physics a laboratory examination will be given in addition to the written one.

Outline of Course Required for B. A. Degree.

The following is a list of the classes required during the four years of the undergraduate course:

Freshman Year.

1. Latin.
2. Greek or French or German.
3. Mathematics.
4. English.
5. Science (Physics).

Sophomore Year.

1. Latin.
2. Greek or French or German.
3. Mathematics.
4. English.
5. Science (Chemistry).

Students must continue in Sophomore year the language selected as No. 2 in the Freshman year.

Junior Year.

1. Latin or Greek or French or German.
2. Logic and Psychology.

And any three of the following optional subjects:

1. Political Science.
2. Biology (Botany and Physiology).
3. Mathematics.
4. English.
5. Latin.
6. Greek.
7. French.
8. German.
9. Hebrew.
10. Theology.

The language chosen as No. 1 must be an advanced course of a language already taken for two years.

Students who choose options No. 6, 7 or 8, will join the particular course in the language chosen for which the Professor may deem them fitted.

Senior Year.

1. Ethics and Evidences of Christianity.
And any four of the following optional subjects.
- | | |
|-----------------------------------|----------------------------|
| 1. History and International Law. | 7. French. |
| 2. Mathematical Physics. | 8. German. |
| 3. Mineralogy and Geology. | 9. Hebrew. |
| 4. English. | 10. Contracts. |
| 5. Latin. | 11. History of Philosophy. |
| 6. Greek. | |

Students who, as an option during their Junior year, take Greek or French or German or Hebrew for the first time during their course, are expected to continue, during their Senior year, the language chosen, unless the Faculty grants special permission to do otherwise.

Any option under the Junior year which a student has not already taken, may be substituted during the Senior year for those given above.

All options, both of the Junior and the Senior year, can be chosen only if the arrangements of the time-table permit.

Notes.

Students taking the full Honors Course in any department may omit one of the optional subjects from either the Junior or the Senior year.

All students on the college roll shall, during their first year, attend weekly exercises in elocution. During their second year, they shall write *seven* essays, and during their third year *five*. These essays will be carefully revised and returned.

Every Senior is required to write, and deliver during his Senior year, three orations at dates fixed at the beginning of the session.

Students in Science of the Freshman and Sophomore Years will be required to prepare permanent note-books of all lectures and experiments. Term standing will be determined in large measure by the accuracy and neatness of these books.

All Books of Reference may be found in the Library, which

is open to students during lecture hours, and certain groups of books bearing on particular courses of lectures are brought together and reserved for a certain time as special libraries. During this time these "reserved books" are to be used in the Library, and are not to be removed without special permission.

COURSES OF INSTRUCTION.

CLASSICS.

Latin.

FIRST YEAR—*Cicero*. De Senectute.

Ovid. Selections.

Prose Composition. *Fletcher* and *Henderson*.

Roman History to Death of Augustus.

Roman Antiquities.

Exercises in Sight Translation.

(Four hours a week.)

Text-Books recommended: Shuckburgh's *De Senectute*; Gleason's *Term of Ovid*; Smith's *Smaller History of Rome*; Wilkins's *Primer of Roman Antiquities*; Harkness's *Latin Grammar*, or Bennett's.

SECOND YEAR—*Horace*. Odes, Books I and II.

Livy. Book V.

Prose Composition.

Exercises in Sight Translation.

(Three hours a week.)

Text-Books recommended: Page's *Odes of Horace*; Alford's *Livy*, Book V.

THIRD AND FOURTH YEARS—FOR 1900-1901.

Sallust. Jugurtha.

Cicero. De Officiis, Book III.

Virgil. Georgics, Books I and IV.

Prose Composition.

Sight Translation.

(Two hours a week.)

CLASSICS—Continued.

For 1901-1902.

Tacitus. Histories, Book I.*Cicero*. De Officiis, Book I.*Juvenal*. Satires, I, III, VIII and X.

Prose Composition.

Sight Translation.

(Two hours a week.)

Text-Books recommended: Holden's *Cicero de Officiis*; Page's *Georgics of Virgil*; Hardy's *Juvenal*; Merivale's *Jugurtha of Salust*; Davies's *Tacitus*.**Greek.**FIRST YEAR—*Xenophon*. Hellenica, Book I.*Homer*. Iliad, Books I and XVIII.

Greek Prose Composition.

Exercises in Sight Translation.

(Three hours a week.)

Text-Books recommended: Hailstone's *Hellenica*; Bond and Walpole's *Homer*, Book I; James's, Book XVIII; Nall's *Easy Exercises in Greek Syntax*.SECOND YEAR—*Euripides*. Alcestis.*Plato*. Apology.

Greek Prose Composition.

Exercises in Sight Translation.

Greek History to Death of Alexander.

(Three hours a week.)

Text-Books recommended: Hadley's *Alcestis*, or Paley's; Tyler's *Apology*; Oman's *History of Greece*, or Smith's.

THIRD AND FOURTH YEAR—For 1900-1901.

Isocrates. Panegyricus.*Euripides*. Hecuba.

Greek Prose Composition.

Exercises in Sight Translation.

For 1901-1902.

Demosthenes. Philippics, I-III.*Sophocles*. Antigone.

CLASSICS.—*Continued.*

Greek Prose Composition.

Exercise in Sight Translation.

(Two hours a week.)

Text-Books recommended: Fenton's *Panegyricus of Isocrates*; Bayfield's *Antigone of Sophocles*; Tarbell's *Philippics of Demosthenes*; Headlam's *Hecuba*.**HONOR COURSE.****Freshman and Sophomore Years.**LATIN—*Horace*. Satires, Book I.*Livy*. Book I.

Latin Grammar and Prose Composition.

GREEK—*Xenophon*. Memorabilia, Book II.*Homer*. Odyssey, Books VI and VII.

Greek Grammar and Prose Composition.

Junior Year.LATIN—*Tacitus*. Histories, Book III.*Juvenal*. Satires, Books IV, V, VII, XI and XII.*Sallust*. Jugurtha.

Prose Composition.

GREEK—*Æschylus*. Agamemnon.*Æschines*. Contra Ctesiphontem.*Demosthenes*. De Corona.

Senior Year.LATIN—*Plautus*. Captivi.*Terence*. Adelphi.*Lucretius*. Book I.*Martial*. Selected Epigrams.*Cicero*. De Oratore, Book I.GREEK—*Plato*. Gorgias.*Thucydides*. Book VII.*Aristophanes*. Birds.*Sophocles*. Oedipus Rex.HISTORY AND PHILOLOGY—*King and Cookson's Comparative Grammar of Greek and Latin.**Mahaffy's Greek Literature.**Cruttwell's Latin Literature.*

MATHEMATICS.

Freshman Class.

GEOMETRY—Euclid, Books IV, VI, XI, and definitions of Book V, with numerous exercises and problems on the subjects of these books.

ALGEBRA—Theory of Indices, Quadratic Equations, Indeterminate Equations, Involution and Evolution, Proportion, Variation, Progressions, Permutations and Combinations, Binomial Theorem.

(Five hours a week.)

Text-Books: *Chas. Smith's Algebra*; *Hall and Stevens's Geometry*.

Sophomore Year.

TRIGONOMETRY—Solution of Triangles, Use of Logarithms, Measurement of Heights and Distances. The Area of the Triangle. The Circles of the Triangle and of the Regular Polygons.

SOLID GEOMETRY—Prism, Pyramid, Cylinder, Cone, Sphere and Regular Solids.

ANALYTICAL GEOMETRY—Point, Straight Line, Circle, Parabola, Ellipse.

(Four hours a week.)

Text-Books: *Hall and Knight's Plane Trigonometry*, *Loney's Conic Sections*, *Heath's Geometry in Space*.

Junior Year.

HIGHER ALGEBRA (ELECTIVE AND HONOR)—The Binomial, Exponential and Logarithmic Theorems, Series, Continued Fractions, Undetermined Coefficients and Partial Fractions, Probability, Determinants, Theory of Equations. *Hall and Knight's Higher Algebra*.

HIGHER TRIGONOMETRY—De Moivre's Theorem and its Applications, the Circles of the Triangle, Trigonometric Series and Factors. *Loney's Analytical Trigonometry*. (Camb. Univ. Press.)

(Three hours a week.)

MATHEMATICS.—*Continued.***Senior Year.**

MATHEMATICAL PHYSICS (ELECTIVE)—This course extends over two years, half being taken up each year.

In 1900-1901, Spherical Trigonometry, Geometrical Optics and Astronomy. *McLellan & Preston's* Spherical Trigonometry, Part I. *Heath's* Geometrical Optics. *Young's* General Astronomy, and *Barlow & Bryan's* Mathematical Astronomy.

In 1901-1902, Dynamics of a Particle, Statics, Hydrostatics; such portions of these subjects being considered as can be treated without the use of the Calculus.

Loney's Dynamics and Statics and *Besant's* Hydrostatics. (Two hours a week.)

HONOR COURSE.**Freshman Year.**

MODERN GEOMETRY—*Richardson* and *Ramsay*.

GEOMETRICAL CONIC SECTIONS—*Mukhopadhyay*.

(Two hours a week during the second term.)

Sophomore Year.

The work of this year is the same as that of the Pass Course of the third year.

Junior Year.

THEORY OF EQUATIONS—*Burnside* and *Panton*.

CONIC SECTIONS (Analytical)—*Loney* and *Salmon*.

(Three hours a week.)

Senior Year.

GEOMETRY OF THREE DIMENSIONS—*Chas. Smith*.

DIFFERENTIAL CALCULUS—*Edwards*.

INTEGRAL CALCULUS—*Edwards*.

(Three hours a week.)

SCIENCE.**Freshman Year.**

PHYSICS—Lectures on the Pendulum as an illustration of the Laws of Motion and the Properties of Matter.

Isochronous Vibrations, Composition of Forces, Velocities

SCIENCE—Continued.

and Accelerations. Energy, its Transmutation and Conservation. Stresses, Strains and Oscillations. Waves, transverse and longitudinal. Propagation of Undulations. Determination of Wave-lengths and Frequencies. Reflection, Refraction and Interference of Wave systems.

Pressures, Stresses, Strains and Oscillations in Gross Matter. Water-waves and Flow. Air-waves. Music. Molecular Oscillations or Heat. States of Aggregation. Kinetic Theory of Gases, Liquids and Solids. Solutions. Latent and Specific Heats, Mechanical Equivalent of Heat.

Stresses, Strains and Oscillations in the Ether. Electrostatics. Induction. Units. Electro-kinetics. Ether-whirl or Magnetism. Electro-magnetic Oscillations. Radiant Heat and Light.

The Motor, Dynamo, Telegraph and Telephone.

Books of Reference: Daniel's Principles of Physics. Barker's Physics. Gage's Introduction to Physical Science. Tyndall on Sound, Light and Heat as a Mode of Motion. Deschanel's Physics. Hopkins's Experimental Science. Hertz's Electric Waves. S. P. Thompson's Lessons in Electricity and Magnetism. Preston's Heat and Light. Cassell's Electricity in the Service of Man.

Three lectures, experimentally illustrated, are given each week, and the class spend one hour a week in experimentation and graphical representation of results. This course forms the basis of all the Science work of the Arts Course, and its object is to lead students to such points of view as will enable them to appreciate the chief results of modern physical inquiry, to give some practice in methods of investigation, and to lay such a basis of knowledge that from it, the experimental courses of Honor Physics, Chemistry and Biology may naturally start.

Sophomore Year.

CHEMISTRY—Lectures on the Nature, Conditions and Results of Chemical Change. Acid and Alkaline Properties. Laws of Combination. Dalton's Theory. Atomic Masses and the Gramatom. Chemical Reactions and Heat-toning. Heats of Formation, Liquefaction and Vaporization. Specific

SCIENCE—*Continued.*

Gravity and Atomic Volume. Chemical and Physical Properties which vary with Atomic Mass and Atomic Volume. Specific Heat and Atomic Heat. The Natural Classification. Some common elements as representatives of Families. The Periodic Law of Color, of Valency, of Electric Property, of Volatility, Solubility and Reducibility, and of Toxic Power. Isomorphism and variation of Chemical Properties with change of Valency. Description of Natural Families and Groups, with special mention of most useful compounds and characteristic reactions. Principles of Analysis.

The Gas Laws. Avogadro, Boyle, Gay Lussac, and Charles. Molecular Masses. Solution of Gases, Liquids and Solids. Kinetic Theory of Gases, Liquids and Solids. Conditions of Equilibrium. Vapor, Osmotic, and Solution Pressures. Molecular Variations of Boiling and Freezing Points. Dissociation, Ionization and Electrolysis.

Organic Chemistry—The Carbon Valency and the Carbon Radicals. The Paraffins and their derivatives—Ethers, Aldehydes, Alcohols, Fatty Acids and Soaps. The Phenols, Fruit Acids and Sugars. Fermentation, Diastase, Digestion. The Aromatic Series.

Books of Reference: Newth's Chemistry, Watt's Dictionary of Chemistry, Ramsay's System of Inorganic Chemistry, Remsen's Organic Chemistry and his Inorganic Chemistry, Ostwald's Outlines of General Chemistry, Dobbin and Walker's Chemical Theory for Beginners, and Shepard's, Williams's or Eliot and Storer's Text-books.

Two hours are spent each week in the lecture room and one in the laboratory, where strictly research methods are followed. Dry and wet methods are correlated, beginning with the heavy metals. The object of the course is to give a general view of Chemistry and to lay a broad basis for any future advanced research or technical work in which the student may engage.

Junior Year (Elective.)

BIOLOGY—Lectures on General Biology. The Properties of Protoplasmic Matter. Plant and Animal Life. Botanical

SCIENCE.—Continued.

Analysis and Classification. The Morphology and Physiology of Plants. Nutrition and Energy. Life. Evolution. Comparative Zoology. Human Physiology and Outlines of Anatomy.

Senior Year (Elective.)

MINERALOGY—Lectures on the Physical and Chemical Characteristics of Minerals, the Study of 108 Crystal Models, and Laboratory Work in Blowpipe Analysis, Research Methods followed throughout.

Books of Reference: Williams's Crystallography, Dana's Mineralogy.

GEOLOGY—Lectures on Geological Forces and History, with determination of hand specimens of minerals and rocks. One thesis necessitating reference to Geological Reports will be required. (Three hours a week.)

Text-Book: Geikie's Class-Book of Geology.

Books of Reference: LeConte's Geology, American and Canadian Geological Reports.

HONOR COURSE.**Sophomore Year.**

PHYSICS—Laboratory Work in Physical Measurements, Manufacture of simple Apparatus and additional reading in Electricity and Magnetism.

Text-Books: Lachute's Physics, Stewart and Gee's Practical Physics, Earl's Physical Measurement.

Junior Year.

CHEMISTRY—Experiments in Physical Chemistry, Qualitative Analysis, Volumetric Analysis, Assaying with Blowpipe and Furnace. Prescott and Johnson's Qualitative Chemical Analysis. Hartley's Quantitative Analysis. Oswald's Outlines of General Chemistry. Rickett's Notes on Assaying, or Brown on Assaying.

Books of Reference: Watt's Dictionary of Chemistry and Fresenius's Qualitative and Quantitative Analysis.

SCIENCE.—*Continued.***Senior Year.**

Any two of the following:

BIOLOGY—Micro-Chemistry, Preparations of sections for Microscope and Drawings. Some line of research will be followed each year.

CHEMISTRY—Remsen's Organic Chemistry.

MINERALOGY—Determination of eighty specimens.

Text-Books: Chapman's Blowpipe Practice, Moses and Parson's Mineralogy, or Brush's Mineralogical Tables.

GEOLOGY.

Text-Book: Dawson's Canadian Geology.

In all Advanced and Honor Work, students will be required to prepare at least one thesis on some line of investigation connected with their work. Scientific accuracy, originality of discussion and illustration, literary quality and mechanical execution will be taken into account in the judgment of these theses.

The Mary J. Bowser Scholarship Fund.

By his last will and testament the late George T. Bowser, Esq., of Sackville, bequeathed to the University several thousand dollars' worth of real estate and securities to constitute a fund, named as above, and placed under the control of the Faculty of the University and the Superintendent Minister of the Sackville Circuit, the income of which is to be devoted to the education of young men and women preparing for service in the Foreign field as missionaries or teachers under the auspices and direction of the Methodist Church. The property consecrated to this noble purpose was inherited by Mr. Bowser from his sister, whose name and memory are thus perpetuated, and whose wish as to its ultimate disposal has been scrupulously observed. Regulations for dispensing aid under the general conditions embodied in the will will be duly framed by the persons charged with responsibility in the matter.

The Harry Sheffield Mathematical Scholarship.

This Scholarship, founded in 1894, in memory of the late Harry A. Sheffield, B.A., '89, of the annual value of about \$60.00, is awarded to that member of the senior class, *in need of financial assistance*, who has taken, during his undergraduate course, the highest standing in Mathematics. Winner in 1895, *W. M. Black*; 1896, *Bessie Alexander*; 1897, *Cecil Killam*; 1898, *Annie Sprague*; 1899, *Julia Colpitts*; 1900, *Maude Trenholm*.

The W. B. Jost Scholarship.

This Scholarship, of the annual value of \$12.00, has been founded by Miss Fraser, of Halifax, in memory of the recently deceased graduate whose name it bears. The income of the Scholarship is placed at the disposal of the President of the University and the Dean of the Faculty of Theology for the benefit of such one of the Nova Scotia Conference probationers attending College as they, from year to year, may deem specially entitled to financial aid.

Prizes.

Alumni Life Membership.

A Life Membership in the Alumni Society is given each year to that member of the graduating class who, during his or her course, makes the best general average. A list of these winners of the "Alumni Honors" will be found at the back of the Calendar among the members of the Alumni Society.

The Dr. J. Sinclair Tait Prize.

This prize (value \$20.00) is awarded annually to that student who, at graduation, shall have taken the highest marks in all the pass and honor subjects in *Natural Science*. Winner in 1893, *E. H. Colpitts*; 1894, no award; 1895, no award; 1896, no award; 1897, *James Bruce*; 1898, *C. C. Avar*. [Discontinued for the present.]

Reading Room.

A Reading Room, in which are to be found most of the leading Periodicals of the Dominion of Canada, as well as some of the principal newspapers of Great Britain and the United States, is accessible to all students upon the payment of a moderate fee. The outfit of this room, which occupies a prominent position in the new Residence, has been generously supplied by the Alumni Society. During the past years the students have placed on the walls neatly framed groups of the foot-ball teams from 1890 to 1896.

The Eurhetorian Society.

This is a voluntary Literary Society, the history of which reaches back for more than thirty years. Its special objects are the acquisition of readiness and power in debate, and the cultivation of a pure literary taste. Not a few of the Alumni of the Institution who are to-day prominent in the professional and legislative circles of the several provinces of the Dominion, have been enrolled in its membership. The Society, which

had entirely outgrown the well-known room provided for it in the old Lodge, has been assigned the use of the large hall in the centre of the new residence.

Young Men's Christian Association.

A branch of this society was organized in 1887, and has now a membership of upwards of fifty. Its object is to associate for Christian effort the young men who from year to year attend the University and Academy. A committee of this Association is appointed to meet new students at the railway station and introduce them to college life. The Association has for its headquarters a spacious and elegant parlor in the University Residence.

Gymnasium.

A commodious Gymnasium, fitted up with modern appliances for athletic exercises and physical development, and under the direction of a competent instructor, is available at a moderate charge to all students.

The Glee Club.

One of the recognized institutions of the University is the College Glee Club, which during the past few years has been an important element in the social life of the University, and has greatly increased the interest of public gatherings held under University auspices.

The new Residence, a cut of which appears on the opposite page, will be ready for occupation at the opening of the session in September. It is a handsome brown stone building of four stories, with a large two story ell in the rear. It has been planned to promote in the highest degree the comfort and convenience of its occupants. As respects site, construction and appointments it combines conditions exceptionally conducive to health and agreeable living, and may challenge comparison with any students' residence in Canada. It is lighted throughout by electricity, while heat is supplied by the most approved of modern hot-water systems. Drainage, plumbing and ventilation, have all received careful attention. Pure spring water is plentifully distributed throughout the building, while rain-water reservoirs of unusual capacity have also been provided for bath room and lavatory purposes. The students' rooms are bright, airy and commodious, and present alternating systems of rooms in pairs (study and bedroom for two), or apartments for single occupancy. The Eurhetorian Hall (in the rear ell) is a noble room, having an open truss-work roof with exposed timbers, and ornamental windows. Other apartments worthy of note are the spacious and sunny dining room, the large well lighted reading room, the office or board room and the reception room on opposite sides of the front entrance, the elegant Y. M. C. A. parlor, and the rooms referred to below as set apart for hospital uses. In addition to the latter, apartments in a remote and entirely isolated part of the building have been provided to meet the emergency of infectious or contagious diseases. In the internal structure great stress has been laid on solidity and strength, and especially on minimizing the danger of fire. Every room in the basement, large and small, is incased in walls of solid masonry. In the residential storeys all the walls of entrance halls, corridors and stair passages are of brick, while to give additional firmness four brick cross sections extend from front to rear. A lofty tower connecting the main edifice with the

rear ell contains a large reservoir, where a constant quantity of water is stored, which by distributed mains and permanently attached hose, can be applied instantaneously for the extinction of fire in any part of the building.

A supply of the necessary Text-books, Stationery, etc., is kept on hand in the University Office, and furnished to the Students as needed by them; and the articles so applied are charged in the term's bill at the lowest rates.

The Harriet A. Stewart Hospital.

The handsome suite of rooms designed for use as an infirmary has been provided with a complete modern hospital outfit through the kindness of the children of the late Mrs. Harriet Augusta Stewart of Sackville. Collectively these apartments as thus furnished are known as "The Harriet A. Stewart Hospital."

General Government, Regulations, Etc.

Students, both regular and special, are expected to conduct themselves with propriety, and to observe all the regulations of the Faculty as announced from time to time. Students whose conduct or progress in study shall continue, after suitable admonition, to be unsatisfactory, will not be allowed to remain in the Institution.

Regular and punctual attendance at their classes shall be imperative on all students.

No student shall be absent from the College after ten o'clock at night without special permission of the President.

All students are expected to attend Divine Service on Sunday, and to be punctual in attendance at daily prayers in the College Chapel.

Without necessarily involving expulsion from College, students may be debarred from the privileges of the Residence for failure to conform to the recognized standards of gentlemanly conduct.

No student shall resort to any tavern or place where intoxicating liquors are sold without special permission of the President; and no student who is known to use intoxicating drinks will be allowed to retain his connection with the College.

The use of tobacco on the College premises is not permitted.

Regulations and Announcements.

DEGREE OF B. D.

Candidates for this degree must be Graduates in Arts of at least two years' standing. They are required to give evidence of satisfactory acquaintance with the subjects assigned as preliminary studies.

They are required to pass a satisfactory examination in all the subjects of the three years' course of study, and to prepare for delivery a satisfactory thesis on some Biblical or Theological subject, which shall be forwarded to the Dean at least three weeks before the Annual Convocation.

Persons other than graduates in Arts may pass examinations in this course, and if successful, receive certificates to that effect.

Special facilities are offered to graduates in Arts who wish to reside in the College while pursuing this course.

Communications respecting this department should be addressed to the Dean.

The examinations for the Degree of Bachelor of Divinity will be held annually on the first Tuesday in December and June at Sackville, and at such other centres as may be appointed from time to time.

Candidates must forward, at least four weeks before the date of examination, a list of subjects in which they wish to be examined.

CANDIDATES FOR THE MINISTRY.

Candidates for the Ministry of the Methodist Church of Canada, who have been appointed to attend College, will pursue the course of study prescribed on page 192 of the Discipline of the Church.

The Educational Society of the Methodist Church makes provision for free tuition, and aids in meeting the general

expenses of young men appointed by the Conference to attend College.

PRELIMINARY COURSE OF STUDY.

This Course of Study is designed to meet the wants of young men preparing to offer themselves to be received on trial for the ministry. It embraces all the subjects prescribed for the preliminary and first year's examinations of the Methodist Conference, and may extend over one, two or three years, according to the previous attainments and circumstances of the student.

The Theological parts of this course may be pursued in connection with Matriculation in Arts.

The English and Classical parts of this Course are prepared in the Academy and College.

Students presenting themselves for admission to this Course should bring with them letters of introduction from the Superintendent Ministers of the Circuits in which they reside. If they expect to offer themselves for the ministry at the close of the year, they must be recommended from the quarterly meeting of their own circuits, and not from the Sackville quarterly meeting. Students bringing with them certificates of such recommendation will be exempted from fees for theological tuition. Licenses as exhorters or local preachers should also, in all cases, issue from the Superintendent and quarterly meeting of the Circuit in which the student resides, and where his church membership and standing should be continued.

After examination at the close of the College year, all students in the preliminary course will return home in time to be presented at their own district meetings, in case they wish to be received on trial by the Conference.

Examinations for graduates in arts, who are probationers for the ministry, will be held on the first Tuesday in December of each year at Sackville and such other places as may be appointed from time to time, and also at the time and place appointed for Conference Examinations in the respective Conferences.

SOCIETIES.

Two societies have been established having a relation to this department. The one is designed for the benefit of the Theological students in the College; and the other to serve as a connecting link between them and the ministers laboring in the three Conferences of the Maritime Provinces, as well as to promote among the latter a spirit of theological and ministerial culture.

Among the students it is proposed, by means of Essays, Exegetical Papers, and Oral discussions, to stimulate inquiry as to the best methods of ministerial efficiency, and so to assist in preparing each other for the great work of preaching the Gospel and feeding the flock of Christ.

The Ministers' Theological Union will meet at the close of each Collegiate year, and, in addition to the consideration of topics of interest belonging to their work, will have an annual Sermon preached and a Theological Lecture delivered. The preacher for 1901 will be the Rev. Thomas Marshall, and the lecturer the Rev. F. W. W. DesBarres, B. A.

* Deceased.

The object of this Society is to bring together all those who have studied at Mount Allison, either in the College or the Academy, and to ensure the life-long devotion of Mount Allison's sons to their Alma Mater. All old students are cordially invited to become members. With a view of increasing the membership, the *annual fee* was reduced, a few years ago, to *one dollar*. The funds of the Society have been devoted in past years to paying off a subscription of \$1,000 to the Endowment of the College, to furnishing scholarships to students of the College and Academy, and to adding to the Alumni Reference Library in the College. A series of resolutions with reference to nominating candidates to represent the Alumni Society on the Board of Regents, and to enable members who cannot be present to cast a vote for the same, was adopted at the regular meeting in May, 1892. Particulars may be obtained from the Secretary.

MOUNT ALLISON
Ladies' College and Conservatory of Music.

PRINCIPAL :

THE REV. B. C. BORDEN, D. D.

The attention of the friends of female education is invited to the Mount Allison Ladies' College with a confidence proportioned to the successful history it has already achieved.

Courses of study extending from the Elementary English branches to and through the whole University Curriculum to the degree of M. A. are open to all the students of this Institution. Young ladies wishing to pursue a University Course can here do so while enjoying all the social advantages and safeguards of the Ladies' College, and at the same time obtain instruction in Music, Elocution, and Fine Arts.

THE CONSERVATORY OF MUSIC, recently opened, is under the charge of a gentleman of the very highest rank in his profession, aided by accomplished teachers. It is provided with an admirable suite of rooms adapted to the Conservatory system. Superior new Pianofortes, both for instruction and practice, are furnished. The Fine Arts Department has been reorganized and enriched by the acquisition of the celebrated Owens Art Gallery Paintings, and is under the charge of Prof. John Hammond, R. A. C.

A course of instruction in SHORT-HAND and TYPE-WRITING has been established with a design to meet the needs of those who wish to fit themselves for employment in business offices.

All departments of instruction will be maintained in the very highest state of efficiency, and no pains will be spared to prove the Institution worthy of the public confidence and favor so generously and continuously expressed.

Catalogues containing Full information supplied on application to the Principal. Students admitted at any time.
