ACTIVITY IN THE LUMBER BUSINESS

Winters Cut May Reach 100 Million—Shipping Active—Summer Outlook Good

Prospects in the lumber business on the north shore now hold definite promise of a busy and prosperous summer. The winter cuts, on the St. Lawrence, the Saguenay and other streams both in the Saguenay and St. Lawrence basins were much larger than in 1922 and reports recently given out show that the tonnage in lumber to the spring markets is not nearly so heavy as at first estimated. The market is steady, the cut situation has improved somewhat and shipping to the local port has begun early this season.

It is estimated that between seventy-five and eighty million feet of lumber are now safely within the North and South Booms here. In spite of the comparatively light amount of the past season, lumbermen were favored with good weather conditions during the drive so that abundant water was had and little trouble of any kind experienced. About twenty million feet of lumber have yet to reach the boom but it is expected that all drives will be down within the next few days.

The high water delayed rafting at the boom for a few days but now conditions are reported as being quite favorable and this work is now progressing at both booms.

Two Ships in

So far, two vessels have docked here to take on lumber cargoes for foreign markets. The British Danish steamer *Kyrtor* left Monday from Montreal, and is loading long lumber for an American port.

The *Lorentz W. Hansen*, an Norwegian steamer of 11,000 tons, which made several trips to this port last season is expected in tonight or tomorrow morning. She will take on a cargo of long lumber for an European port.

LOUIS BUGOLD, MAYOR OF CARLETON

In the Municipal Elections at Carleton Place, Ont., on Saturday, Louis Bugold an uncle of P. H. Bugold, proprietor of the *Francis Hotel*, here, was elected to the mayoralty. Mr. Bugold made Edward Martin, the retiring mayor.

STORE ROBBERS SENTENCED

For their appearance for trial in the county court at Dalhousie last week, John Roy, William Ramage and John White charged with the theft of merchandise from the general store of the *Richards Mfg. Co.*, at *Richardsville*, were sentenced by Judge H. F. McLachlan to terms aggregating to five years and eight months.

ABBE DELORME WILL BE TRIED

To Be Placed on Trial For Murder of Half-Brother in Assizes

Quebec, May 23.—The transfer of Abbe Delorme from St. Michel to the Assizes for the trial for the murder of his half-brother, Raoul, Delorme, was set for the June term of the Assizes to be held in Montreal next week. The Assizes will be held in the Assize Court here today. The case was given out by Premier Taschereau who stated today:

"We have ordered the immediate transfer of Abbe Delorme to Montreal and he will stand his trial for the murder of his half-brother, Raoul, at the June term of the Assizes."

Asked when the transfer would be made the Prime Minister refused to make any further comment stating that this was a matter which would be dealt with according to needs. It is understood that this procedure will naturally be carried out with the greatest discretion.

Abbe Delorme, when about to be formally charged with the murder of his half-brother, was found to be mentally unfit to stand such a trial, but now that decision has been reversed upon the strength of the certificate of Dr. Brochu, medical superintendent of the asylum, under whose observation the patient has been.

MANY TAKING MILK LUNCH

Milk Served at Primary Departments of Public Schools

The 10 o'clock milk lunch now being served in the primary departments of the Campbellton public schools is becoming very popular, and sixty-two pupils are taking this daily.

The milk comes to the schools in half pint bottles packed in ice and straws are used for drinking. Every department now serving this every day has Miss Don's Miss Stevens, Miss Dickie's and Miss McPherson's and is very much enjoyed by all the little pupils. "A number of these pupils are paying for this milk ration, but any child which needs it gets it whether paid for or not. The free milk fund subscribed at the public meeting a few weeks ago is being used for this purpose.

TWO WORKMEN BURNED TO DEATH

In Fire Which Destroyed Cookhouse at Richardsville Early This Morning

The premises of the Richard Manufacturing Company's lower mill at Richardsville about two miles east of here was the scene of a shocking fire early this morning when Joseph Doucette of Lily Lake and Nelson Johnson of Val D'Amour lost their lives in a fire which completely destroyed the cookhouse. Seven other men, who were also employed at the mill were badly burned before escaping as a result of being forced to leap second story windows in order to avoid being trapped by the flames.

The fire broke out about 2.30 this morning and had made considerable headway before it was discovered. Sleepers in some parts of the building were able to escape without difficulty but in other sections where the flames had made more progress the only avenues of escape were the windows. Many workmen on being aroused by the cracking sound of the fire found their rooms practically enveloped in flames and merely had time to open a window and jump. A few made some odds and ends were salvaged from one section of the building but only a few of the men saved any articles of clothing from their rooms except what they had on when becoming aware of their plight. The loss in cookhouse and furniture will be heavy. The building was insured for \$5000.

THE INJURED

Suffering from cold because of their scanty attire and numerous cuts, burns and bruises, the seven injured workmen were hurried to the Soldiers Memorial Hospital here in the early morning. The two most seriously injured are Victor Tannier of Port Daniel West and Frank Arsenault of Newport, Que. Both sustained internal injuries when they made their leap to safety from the top story of the building. They are expected to recover however.

The other injured are Alfred Hachey, Jacques Ramenau and his son Omar, Val D'Amour. All of the latter fire were painfully burned about the face and neck during the brief interim before they reached safety. Several also had severe burns about the head and neck. Young Ramenau also broke his left wrist when he landed on the ground from an upper window. All, however, were quite cheerful this morning after their injuries had been dressed and expressed gratitude that the affair had not turned out even more calamitous than it did.

CAUSE UNKNOWN

So far, the cause of the fire is unknown. The local fire brigade were not called out as outside assistance was useless. The premises were equipped with hose and other fire equipment.

HOUSING LOAN FOR FREDERICTON

Housing Board at Capital Grant—ed \$30,000 More—Already Spent \$100,000.

The Fredericton Housing Board will receive an additional \$30,000 for building loans under the housing scheme this season. Notification that this amount was available was received from the provincial Government yesterday afternoon.

The \$30,000 which is thus made available for Fredericton consists of amounts left over from allotments to other districts of the province under the Housing Act, but which have not been fully taken up by the districts to which the amounts were originally assigned. The action of the Provincial Government was in response to a request for a further loan of \$50,000 for the purposes of the Fredericton Housing Board this season, and final decision was reached with regard to the disposal of this amount after the district to which the sums had been originally allotted had been given an opportunity of taking up their respective amounts but had failed to do so.

Under the Housing Act Fredericton has received the benefit of loans two amounting to \$100,000 during the past two years and 26 residences have been erected, three of which were of the semi-detached type, providing for twenty-nine families. There has not been a default in payment in the entire operation of the act here.

PLEA FOR STRAIGHT PARTY POLITICS

Quebec, May 23.—A plea for straight party politics by such parties as had at heart the interest and welfare of the entire country was made here Saturday by Hon. Ernest Lapointe, Minister of Marine and Fisheries, in an address here.

CANADIANS GOING TO UNITED STATES

Partial government figures for May on the number of skilled workers of Canada moving into the United States indicate the May total will be about 11,000. Government officials say the movement is increasing.

N. B. UNION OF MUNICIPALITIES

Annual Convention to Meet Here in August Programme Prepared Friday

The annual convention of the New Brunswick Union of Municipalities will be held here on August 21, 22 and 23, it was decided by the Union's executive while in session on Friday morning last in St. John at the office of the secretary, J. King Kelly, K. C. Mayor McKay former vice-president and now president of the Union, presided at the meeting. Besides the president and secretary, there were also present Warden Thornton, and Councillor J. T. O'Brien of St. John. The agenda for the annual convention to be held in Campbellton this year was discussed at the afternoon session. A programme was drawn up and an interesting annual meeting is anticipated. Among the features of the programme are several interesting papers prepared by experts on different subjects including an instructive address on Provincial Assessment, one on the Utilization of Waste Products from Lumber Mills and one on Health matters by Dr. Farris of St. John.

"OUR MINISTER'S HONEYMOON"

Y. P. S. of Wesley Methodist Church Ably Staged Delightful Comedy

"Our Minister's Honeymoon," a one act comedy which was presented in the hall of Wesley Methodist Church on Tuesday evening by the Young People's Society of that congregation proved a delightful entertainment and genuine success. The performance was effectively staged and well acted and the many humorous situations of the play afforded a most enjoyable evening. The large number taking part discharged their responsibilities in a most creditable manner and won repeated demonstrations of enthusiastic applause. Much credit is also due Mr. Vallis who directed the play besides the responsibility of the leading role.

A good number attended and a very neat sum was realized.

Following is the cast:

Rev. Homer Alexander Brown—The Bridegroom, Mr. J. E. Vallis.
Daisy Lovejoy Brown—The Bride, Miss Sophie Metalar.
Mrs. Jones—President of the Mite Society, Miss Isabel McBeth.
Annabelle—Member of the Sunday School Class—Mrs. Ray Matthews.
Sarah Jones and Betty Ann—Two Gossips, Misses Myrtle MacKay and Miranda Austin—Famous Cook, Miss Glenora MacCallum.
Bridesmaids—Members of Mite Society, Sunday School Class, etc.—Misses Gertrude Devereaux, Maude Warman, Laura Steeves and Dorothy Ingram.
Maid of Honor—Miss Georgina Smith.
Toby Spangles—Best Man, Mr. Clyde LaFrenk.
John Wesley Simpson—Mayor, Station Agent, Street Commissioner, etc., Mr. H. V. Colpitts.
Uncle Alex—Janitor, Mr. Wm. Farver.
Seth Parkins—General Man, Steven Treeman.

MAYOR MCKAY IS INTERVIEWED

St. John Globe's Publisher's Booster Interview With Campbellton Mayor.

Available advantages and improved property with respect to power from coal gas. Mayor M. C. McKay of this town, stated to the Globe's publisher, that the gas plant is the most modern in the province. The plant is situated on the north side of the town, and has a capacity of 4,000 horse-power. It is a fine example of modern engineering, and is a credit to the town. The plant is situated on the north side of the town, and has a capacity of 4,000 horse-power. It is a fine example of modern engineering, and is a credit to the town.

Under hydro, lower rates are anticipated and power will be sold at cost or a fraction below cost. Campbellton made an absolute success of the federal-provincial housing scheme, according to Mayor McKay. The prospective builder, submitted his own plans and specifications to a committee of the town council who handled it and on the committee's approval, the applicant entered into contract with a builder. As the work progressed, the money was loaned. For instance, on completion of a cellar, \$400 was advanced. Ten per cent was held back to cover a builder's lien. The applicant was required to furnish 15 per cent of the cost of the property and the town held the deed to the lot and a mortgage on the house as security for the loan. On the 14 houses built, the town has property of \$75,000 in excess of the money loaned, and is also covered by security.

U. S. INVESTMENTS IN THE DOMINION

2,500,000,000 American Capital Said to Be Invested Now. New York, May 21.—The United States has invested in Canada \$2,500,000,000, according to the Banker's Trust Company of New York, which has just completed a survey of Canadian industry and the amount of United States capital invested. A great increase in the amount of the United States investments in the Dominion has taken place since 1915. At that time the United States was estimated to have \$750,000,000 of Canadian investments. Of the total sum invested, \$1,200,000,000 is in bonds and the remainder in farms, mortgages, small businesses, industrial enterprises, banking and private loans.

Port Daniel Centre

Fine weather is again in full force here after a very heavy rain. Farmers are ready for a good work week on the farm if the weather continues fine. Lobster fishermen report much larger catch of lobsters, but herring are not so plentiful. The harbour is usual at this time of the year is full of fishing vessels from the Bay of Fundy. They came here for herring.

Jacquet River

The short courses in drama, military and instruction in renovating old furniture and harmony of color, conducted by the Government, were held in Freret's Hall on Monday the 14th inst. The members of the Women's Institute, who were instrumental in having such a wonderful privilege brought to our village, had the preference in being the first to enroll for the classes. Not wishing to confine such a good work to the Institute alone, an invitation was extended to neighbors and friends, consequently the three classes were filled to capacity.

RED CROSS DRIVE SOON

Objective One Thousand Members in Campbellton and Vicinity.

The local Red Cross and Public Health committees at a recent meeting by unanimous vote decided to hold a drive for one thousand members of the Red Cross Society, and drive to take place during the week of June 4th-9th. Committees are being named to organize the drive in each section of the town and surrounding country, and it is fully expected that a thousand members will be found who will contribute \$100 each to carry out the good work. The following paragraph is taken from the St. John Telegraph:—

The Red Cross provincial headquarters has received from Campbellton a list of a big drive for members will be launched in Campbellton in a short time. The drive is to enroll 1,000 members there, and if the past achievements of that branch are an indication of what it will accomplish in the future, it may be said that it will do what it sets out to do. The town council of Campbellton was the first in the province to make a grant for the maintenance of its public health nurse and the people are giving splendid support to the present public health nurse, Miss Marion Maloney. Dr. Finlay is the president of the Campbellton Red Cross and a very keen worker for the cause of public health. He is the active secretary of the society and all of its present members are enthusiastic and energetic supporters of the Red Cross work.

THE FALLING FORESTS

Kill the Forest and You Kill Life is the warning being sent to sportsmen in many parts of Canada this month by the Canadian Forestry Association of Ottawa. A voluntary society of 14,000 forest engineers, sportsmen, editors, farmers, lumbermen, pulp and paper scientists, styermen and other classes.

SPORTSMEN ORGANIZE TO BLOCK FOREST FIRES

One of the finest camping and fishing districts in the Dominion has been placed on rocks or gravel and built as small as possible. He also knows that to extinguish a fire completely requires two or three pans of water and a shovel or two of earth, and that no fire should be abandoned while there is the sign of smoke or fire.

Sporting News of the Week

Campbellton Should Have An All-Round Athletic Association

Although few people seem to realize it, one of the most pressing needs in Campbellton today is a properly organized all-round athletic association or some similar organization which will provide wholesome amusement for the youth of the town and also the advantages they should have for proper physical training. This may strike some people as a big statement. So it is, it is meant as such for it touches a big subject. And it is no figment of the writer's imagination. We are acquainted with the facts and profess to realize something of the vital importance of this matter.

In Campbellton we have various clubs, organizations and societies, all doing good work, each along its own particular line. No doubt they are all important to the town. But there is one important matter which the citizens of this town have never really tackled in the right way for the proper spirit and that is the provision of athletic training for the youth of the community.

Past Failures. From time to time in the past various sport movements have been launched but seldom have the hopes of the leaders been realized simply because the citizens of the town did not furnish the necessary financial assistance or lend their co-operation. To these failures on the part of the people as a whole, however, there is one obvious explanation. Each athletic organization which was formed, offered enjoyment and benefit to only a limited number of a certain age or sex. The interest appeal was therefore not a general one, so it naturally resulted in a sufficient number of youthful ball-players of high school age to make up a local junior league. Besides this, however, is an all-round athletic organization which will appeal to every sport loving youth of the community and which should interest every conscientious parent and every patriotic citizen of the town even though they may be too old to take part in the sport themselves. It is simply because our boys have never had a chance to show the association, especially during the winter months when sport activities would naturally slow down a bit. If instructed lectures and addresses on educational subjects could form a Rowing Club. It is really surprising that with a river like the historic Restigouche, almost brushing the very door-steps of the town, that Campbellton has never had a real Rowing and Rowing Club. It would take an adding-machine of reliable "make" to total the visitors to the place who have refused to believe this fact. Those with imagination can realize the possibilities of this sport. It is not a matter of "if" but "when" it will be organized. The Restigouche offers. Pessimists may declare that sure an undertaking is impossible but such is not the case. As one item on the sporting bill of fare which is alluring in its possibilities and worthy of serious consideration. Only a few days ago a well-known sportsman informed our representative that if Campbellton formed an athletic organization and wished to include rowing in its programme, it was sure he could secure one or two double sculls for us for a very cheap rental.

Other Sports. Besides the different units already mentioned there are several other branches of sport which could all come under the supervision and protection of the Athletic Association, such as Hockey, basketball, swimming and probably a skating and snowshoeing club during the winter. In passing it might be said that swimming is a sport which is not regarded here with the interest of which it is worthy. That is quite likely because our poor facilities for indulging in this unexcelled aquatic sport. One can deny the health-giving value of swimming and it is quite probable that if an association was formed the proper provision for the younger folks to safely indulge in this delightful summer sport would be made without any difficulty.

A Girls Club. A girls club is another unit which might be incorporated in the proposed Athletic Association. Energetic teenage girls, and many older ones, have never had a chance to show their talents to do any training. In many towns and cities throughout Canada and the United States, flourishing girls athletic clubs can be found and their remarkable capabilities in

various lines of sport have often proved amazing. Girls take readily to games, ball, swimming, etc., and they have equal rights with boys when it comes to healthy outdoor exercises. For Older Members.

Another point in our plan of the proposed Athletic Association, would be some provision for older members. Something that would personally interest the business men of the town. This could be solved through variously. Tried business men, who have the United States are likely to find this enjoyable game and the part of their leisure time. They will not only forget the worries of a busy day at the office. As an effective appetizer and health-giving sport, it would be worth while for many men who were opposed to sport before becoming familiar with this delightful game.

The Need.

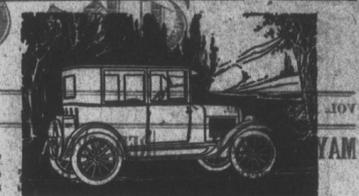

It is a point on which much might be said or written but it is hardly necessary to go into this matter at length. The need for an Athletic Association in Campbellton is a matter of common sense. It is not a matter of "if" but "when" it will be organized. The Restigouche offers. Pessimists may declare that sure an undertaking is impossible but such is not the case. As one item on the sporting bill of fare which is alluring in its possibilities and worthy of serious consideration. Only a few days ago a well-known sportsman informed our representative that if Campbellton formed an athletic organization and wished to include rowing in its programme, it was sure he could secure one or two double sculls for us for a very cheap rental.

RESTRICTIONS ON STUDENTS

Under the new regulations, students are restricted in their activities. The University has implemented new rules regarding student behavior and academic performance.

ESTIMATES WORLD POPULATION AT 1,804,187,631

Berlin, May 2.—Scattered over the face of the earth is a total population of 1,804,187,631, only seven per cent. of which are in cities. More than 100,000 inhabitants, according to statistics compiled here and based largely on 1922 census reports. Only 30 of the 70 nations listed have cities of over the 100,000 mark, which is the lowest counted within the "classification" of "large cities." Approximately 40,000,000 of the globe's inhabitants live in the 19 centers having a million residents or more each. About 30,000,000 live in the 70 nations listed here.

What the Boys Think

It is safe to say that every boy and young man in the town of Campbellton would wholeheartedly support the enterprise if a number of competent sport leaders would take the initiative. We have reason to believe that all the hockey and baseball players of the town and the young men who are behind the idea and we know for a fact that several other sport enthusiasts are also in favor of the undertaking. The boys of the town are well educated and are well equipped with the necessary knowledge to make a success of the project.

What Ails Modern Youth

One trouble with generation is too much cylinder oil and not enough elbow grease. Modern youth is often lacking in physical fitness and endurance.

SPORT PAGE INTERCOLLEGIATE MEET.

In the Maritime intercollegiate track meet held in the Wolfville, N. S., Saturday, Acadia University athletes vanquished the Mount Allison University team by a total of sixty points to thirty. Ashford of Mount Allison broke the Maritime intercollegiate record for 100 yards, his time being 10 1-8 seconds.

The Con Method Works Wonders

Instructed—I drive one of those rattling old cars, 1918 model, and each morning as I drive out, and each evening, as I come in, I repeat: "Day by day, in every way, you are getting better and better." What are the chances of her becoming a Rolls Royce in 1942? Yes, that's what it means—no suggestion—no quarter—Chicago, Ill.

LEVIS UNDER TEST

Quebec, May 21.—By a majority of 77, the elections of the Quebec liquor law to adopt the Quebec liquor law in place of prohibition, which has been in effect for several years, by a majority of more than 100 votes several years ago and the referendum which was taken last week was to decide whether old regime or whether they desired to have Government liquor stores and terms within the limits of the constitutionality.

Greater Acreage Expected

Cheap wheat and large stocks held by farmers from last year's crops over the prairie will prevent a normal acreage in the prairie provinces this year. This was the crux of the conference held at Regina when Premier Dunning, Greenfield and Bracken with several representatives of the Grain Growers' Association and elevator interests assembled to discuss the wheat board possibilities.

In face of the prospect of increased acreage in all the provinces was what their agrarian representatives reported, rather than a decrease. H. W. Wood, president of the U. P. A., a possible farmer and a man of an unclouded frame of mind remarked that his experience had been that farmers, as a rule, are seldom influenced in their acreage by prices and prevailing conditions. They usually put in about the same or a little more grain every season, regardless of marketing conditions prevailing for the previous years' yield.

It was agreed that conditions, other than the big volume of grain still in the primary hands from last year, very much favor a larger acreage than in 1922. Last fall conditions were ideal for general plowing. Labor was plentiful and a third more acreage was broken than in the fall on the prairie. The weather turned just at the right time for the ground was turned generally before the late fall rains began. That means that little preparation is necessary this spring to get the average farm ready for the grain.

Forty-five million is the estimated bushels required for seeding in the country, even more plentifully than in other years, so every man who requires seed grain will get what he can afford to pay for it on delivery or not. This is accepted as an additional reason for expecting a normal seeding.

Animals in Storm

I have heard a story of a young artist who, after painting a picture of a horse facing a storm, was not satisfied with it, and feeling that something was wrong asked the painter to look at it. Instantly the great artist said to him, "Turn the horse around." The cow turns her head to the storm, the horse turns his tail to the storm. Because each adopts the plan best suited to its needs and its anatomy. How much better suited the broad, square head of the cow, with its heavy coating of hair and its ridges of bone that supports its horns, to face the storm than is the sensitive head of the horse? What a contrast between their noses and their mode of grazing.

The cow has no upper front teeth; she raps the grass with the scythe of her tongue, while the horse bites it off and loves to bite the turf with it. The lips of the horse is mobile and sensitive. Then the bovine animal fight with their heads, and the equine with their heads.

The horse is a hard and high kicker. The cow is a feeble one in comparison. The horse will kick with both hind feet, the cow with only one. In fact, the tail of the cow is less protection to her than that of the horse. Her great use of it is to fight flies, and, if attacked in the rear, it furnishes a good hold for enemies. Then her body stem with its ridges and depressions and thin flanks is less fit in any encounter with storm or beast than is her head.

On the other hand, the round, smooth, solid buttocks of the horse with their huge masses of muscles, and depressions and thin flanks are well designed to resist storm and cold. What animal is it in Job whose neck is clothed with shaggy hair? With the horse, it is the lips that are clothed. His tremendous drive is in his hips.

Did I Pass? "For ten years hardly a day passed that I didn't suffer from stomach trouble, but I took Tanlac four years ago and haven't had a sick day since."

"The little I managed to eat simply tortured me with pain in the pit of my stomach, and gas passed around my heart causing it to skip beats until I thought it would stop altogether. I was as nervous as a witch, and lost my sleep; that I was dark and swollen under my eyes. I was so weak and run down I could hardly walk a block or do my household, and was almost in despair."

"Tanlac certainly was a godsend in restoring me to such perfect health, and I think it's the greatest medicine ever made. Nearly everybody else on McGee Street seems to have used the treatment, and are praising it."

"Tanlac is for sale by all good druggists. Accept no substitutes. Over \$7 million bottles sold."

"Mother—Wanted To Know—'Mother—Yes, darling, you were born on the 29th of February.'" "Mamma, if I'd been a year older and there hadn't been any 29th of February in that year, wouldn't I have been born at all?"

Burning Out Stumps Effectively

A good method of clearing land of stumps is to burn them out with the use of salt-peter. Salt-peter, if so applied as to penetrate into the heart of a stump property, will in a year's time reach down to the very end of the center of the stump. Two 1/2 lbs. hole put 3 table-spoonfuls of salt-peter, then close the hole, with decayed wood and dirt. During the following summer, dig out the dirt, fill the hole with kerosene and set the stump on fire. It will burn slowly but surely, and will keep on burning under the ground until every piece of root is consumed. The action of the salt-peter makes a slow-burning match of the fibres of the roots, and carries the fire wherever it has penetrated. This method eliminates the possibility of roots being left in the ground to catch on plowshares.

A Guide to Rose Growing

Although most persons who love flowers desire to grow roses, many who have planted a few bushes have been unsuccessful and have become discouraged. To assist in overcoming the difficulties that gardeners sometimes find in growing roses, the Dominion Horticulturist has prepared a bulletin that deals with practically all phases of rose culture in Canadian gardens. The bulletin is entitled "Hardy Roses, Their Culture in Canada," and bears the official number 17 of the Department of Agriculture at Ottawa.

The observation is made that certain species of roses are very easy to grow and that those who are not prepared to give the finer types the attention they deserve, will find in the Rugosa hybrids, the Austrian briars, the Province or Cabbage roses, the Damask roses, a very good assortment of roses that are hardy and of easy culture, requiring but little pruning, and not being troubled by insect and fungus enemies.

It will be of interest to learn that the Experimental Farms have succeeded in producing a very beautiful rose of unusual hardness. It is a cross between Rugosa and Persian Yellow and has been named Agnes. Besides giving some instructions as to soil, planting, pruning, cultivation, winter protect insect enemies, the bulletin gives lists of various classes of garden roses that have succeeded in Ottawa. The following varieties of Hybrid Perpetuals and Hybrid Teas have been selected as a dependable collection of reasonably hardy roses: Fran Karl Druschki, white; General Jacquemont, scarlet crimson; Her Majesty, pink; Duke of Devonshire, pink; Mrs. John Laing, pink; Mrs. R. G. Sharman Crawford, pink; Ulrich Brunner cherry red; Caroline Testout, pink; General McArthur, bright crimson; Gruss an Teplitz, bright crimson; Lady Ashport, pink; Lady Pirrie, lacy pink; Miss Duff, pink; Herriot, coral red; Madam Ravary, yellow.

Recommended climbers are American Pillar, Dorothy Perkins, Hiawatha, Tausendsohn.

This bulletin which is generously illustrated, is available at the Publications Branch, Department of Agriculture, Ottawa.

NOT SICK ONCE IN FOUR YEARS NOW

Mrs. Smith declares Health Has Been Perfect Since Tanlac Ended Stomach Trouble.

"For ten years hardly a day passed that I didn't suffer from stomach trouble, but I took Tanlac four years ago and haven't had a sick day since."

"The little I managed to eat simply tortured me with pain in the pit of my stomach, and gas passed around my heart causing it to skip beats until I thought it would stop altogether. I was as nervous as a witch, and lost my sleep; that I was dark and swollen under my eyes. I was so weak and run down I could hardly walk a block or do my household, and was almost in despair."

"Tanlac certainly was a godsend in restoring me to such perfect health, and I think it's the greatest medicine ever made. Nearly everybody else on McGee Street seems to have used the treatment, and are praising it."

"Tanlac is for sale by all good druggists. Accept no substitutes. Over \$7 million bottles sold."

"Mother—Wanted To Know—'Mother—Yes, darling, you were born on the 29th of February.'" "Mamma, if I'd been a year older and there hadn't been any 29th of February in that year, wouldn't I have been born at all?"

Registered Seed Grain

The Canadian Seed Growers' Association, which is the bureau of registration of seed in Canada, with headquarters at Ottawa, has published the annual catalogue of Registered and Extra No. 1 seed of grain and potatoes. The grains include wheat, oats, barley, corn and peas, of several varieties of each. There are also included small quantities of Grim's alfalfa, Alsike and red clover, Yellow Intermediate mangel and Dakold rye seed. The seed included in this catalogue was produced by farmer members of the association who produce pure seed of high quality and vitality for market. The central office at Ottawa in charge of the newly appointed secretary, Mr. P. Stewart, is a clearing house for the purebred seed produced in the Dominion.

Soap

Take exactly 10 lbs. of double refined 98 per cent caustic soda powder (Greenbank) put in any can or jar with 45 lbs. (4 1/2 gal.) of water, stir it once or twice, when it will dissolve immediately and become quite hot; let it stand until the lye thus made is cold. Weigh our and place in any convenient vessel for mixing, exactly 75 lbs. of clean grease, tallow or oil (not mineral oil). If grease or tallow be used, melt it slowly over the fire until it is liquid and just warm—say, temperature not over 100 deg. F. If oil be used, no heating is required. Pour the lye slowly into the melted grease or oil in a small stream continuously, at the same time stirring with a flat wooden stirrer about three inches broad; continue gently stirring until the lye and grease are thoroughly combined and in appearance like honey. Do not stir too long, or the mixture will separate itself again. The time required varies somewhat with the weather and the kind of tallow, grease, or oil used; from fifteen to twenty minutes will be enough. When the mixing is completed, pour off the liquid soap into any old square box for a mould sufficiently large to hold it, previously lined with paper, and allow to set for 24 hours. Then cut into bars of the size desired. Wrap up the box well with old blankets, or other soft material, and place in a warm place until the next day, when the box will contain a block of 130 lbs. of soap, which can afterward be cut with a wire. Remember the chief points of the above directions, which must be exactly followed. The lye must be allowed to cool. If melted tallow or grease be used, it must be more than warm. The exact weights of (double refined) 98 per cent powdered caustic soda and tallow or oil must be taken; also the lye must be stirred to the grease, not the grease or oil added to the lye.

If the grease or tallow be not clean or contains salt it must be rendered or purified, previous to use, that is to say, boiled with water, and allowed to become hard again to throw out the impurities. Any salt present will spoil the whole operation, but discolored or rancid grease or tallow is just as good as fresh for soap making purposes.

By adding a few drops of essential oil just when the mixing is completed a toilet soap is produced. Oil of mirbane (artificial almond oil) is the cheapest, but the perfume is not nearly so pleasant as real almond oil, citronella or oil of cloves. If made with clean grease or tallow or light colored oil, the soap produced is quite white.

Sometimes a little coloring matter will make the soap sell better, although of no better quality. Half an ounce of bicarbonate of potash dissolved in the lye will give a green; 1 pound palm oil melted with the tallow or oil, a yellow color; or a good brown can be got by burning 1/2 lb. of sugar in a sauce pan until black, then dissolving it in a pint of water, and adding it to the melted tallow before mixing.

A Proper Start. "Mr. Wombat, I understand you started in life as a lawyer?" "No, I started as a baby. I did however, argue with my mother at an early age."

The Lively Germ. Seven-year-old Mary had been repeatedly cautioned against kindling any object that might contain germs. "Mother," she said, "I shall never play with my puppy any more, because he has germs on him."

"Oh no," replied the mother. "There are no germs on your puppy."

"Yes, there are," insisted the child. "I saw one hop."

Insist on "Nugget"

The softer the leather the more comfortable the shoe. Frequent applications of "Nugget" will keep the leather soft.

BLACK-TAN-TONEY RED DARK BROWN AND WHITE

Exact! The new page had been at his new place only a week when he said to his employer—"Please, sir, I want to a toilet soap is produced. Oil of mirbane (artificial almond oil) is the cheapest, but the perfume is not nearly so pleasant as real almond oil, citronella or oil of cloves. If made with clean grease or tallow or light colored oil, the soap produced is quite white."

Sometimes a little coloring matter will make the soap sell better, although of no better quality. Half an ounce of bicarbonate of potash dissolved in the lye will give a green; 1 pound palm oil melted with the tallow or oil, a yellow color; or a good brown can be got by burning 1/2 lb. of sugar in a sauce pan until black, then dissolving it in a pint of water, and adding it to the melted tallow before mixing.

A Proper Start. "Mr. Wombat, I understand you started in life as a lawyer?" "No, I started as a baby. I did however, argue with my mother at an early age."

The Lively Germ. Seven-year-old Mary had been repeatedly cautioned against kindling any object that might contain germs. "Mother," she said, "I shall never play with my puppy any more, because he has germs on him."

"Oh no," replied the mother. "There are no germs on your puppy."

"Yes, there are," insisted the child. "I saw one hop."

RECIPROCITY AGAIN.
We are having in the United States to-day a replica of the 'tom-tom' music we had in Canada when reciprocity was offered us by Mr. Taft. Oh, the terrible things that were going to follow the free interchange of the fruits of the earth! The least of them was that the Yankees were going to come across the line and plunder our farmers of the homesteads they had been laboriously acquiring. We are not exaggerating the impression made on some intelligent minds on a newspaper press that went on the rampage to produce precisely that result. It was not that the devious classes were going to suffer in the very least by such interchange, but that they were afraid of the very shadow of free trade. In the United States the Fordney tariff is, one would think, too obviously a sop to keep the farming classes within the Republican fold. The more effective leaders of the farming class were of the old Puritan breed, who became Republican in the anti-slavery struggle, and remained traditionally so now that the Republican party has become the pro-slavery party; binding down the producing classes to the support of the tariff. Let them should awake from this illusion, it is absolutely necessary that they should seem to have some profit from the closed door, which takes heavy but largely invisible toll of their export business. The closed door is an injury to them as it is to our farmers, but, in view of the immense expense of their country, not in the same degree. Canadian farmers get less and pay more than their do. This appearance of benefit from the Fordney tariff, though things would be pretty much the same without it, is what gives strength to the about that is raised on its behalf. Some farmers are no doubt getting more for their potatoes under that tariff, and other farmers will lose the Canadian market for early potatoes under Mr. Fielding's tariff, an injury both ways. Mr. Fielding's introduction into his budget of a limited tariff offer of reciprocity in natural products is, under the circumstances of the moment, more or less of a miracle.—Montreal Witness.

A SCHOOL EXPERIMENT.
A school at Chesley, Ontario, attended by pupils of the average age of eight years reports the results of an interesting experiment. A group of ten children was supplied each morning with a pint of pasteurized milk. Weight tests made before the service began and at the end of five weeks showed a weight increase for the boys averaging two pounds and for the girls of one and one-fifth pounds. Ten other pupils who did not take the daily milk diet showed a gain of one and two-fifths pounds for the boys and one and one-fifth pounds for the girls. The

very substantial gain in weight shown by the boys who took the milk diet would seem to prove its benefit were it not for the fact that the gain by the girls who drank the milk was not greater than the gain of those who did not drink. Possibly the number of pupils experimented with was too few to furnish definite and conclusive proof of the body-building value of a daily milk course to growing school pupils. Similar experiments in a number of schools over a longer time and with a larger number of pupils in each would appear to be necessary for a final decision as to the value of the daily pint. In the Ontario school record the experiment the Women's Institute helped to meet the financial cost involved, but it is to be assumed that if the health value of a daily glass of milk to school pupils could be established as really worth while, it would become a regular item of the morning's work and a part of the regular cost of school maintenance.—Ex.

ASK FOR HOME PRICES FIRST.
The postal clerks are busy these days delivering mail-order catalogues to merchants at home. Before ordering goods elsewhere they should in their own interests, carefully ascertain whether goods of the same quality cannot be as cheaply purchased in Campbellton. Failure to do so betrays a deplorable lack of town patriotism.

Ontario is a free country. You may trade where you will. Nevertheless, before you seal up your money within the mail-order envelope, reflect on what may happen if all our citizens followed your example. Remember, that money in home circulation is the life-blood of HOME TRADE, and as necessary to commercial life as blood is to human life. And the above does not only apply to the purchases of goods from the local dry goods merchant, furniture dealers, hardware men, builders, etc., for some of these are often among the greatest offenders when it comes to ordering their office stationery and other printing. The principle of buying at home is therefore applicable to the merchant as well as to the consumer, in many cases. Money shipped away means less money in circulation and remains increased unemployment, larger civic relief funds, higher rate of taxation—truly a vicious circle. In your interests, therefore, ask for home prices first.

THE PEOPLE'S POWER.
At a recent meeting of the Woodstock Board of Trade Mr. George Balmann made this statement:—"I have heard of a man who, if the Government would put the Grand Falls charter in his hands, would develop power this season, and have it running in Woodstock before fall. He would not ask the Government to guarantee his bonds, or for any assistance whatsoever, but, on the contrary, he would pay the Government a rental. This party has the ability to do it; he knows all about water power and how to develop and distribute it. This proposition may come before the Government before many days, and it is of interest to the Government, with the approval of the people, have adopted a hydro-electric policy which has no place for, and should have no ear for the profit-seeking exploiters of natural resources. That policy, as we have construed it, was designed to provide the people with power at cost—no cost plus an exorbitant profit for an individual or corporation. Grand Falls is the solution of the power and at the end of five weeks showed a weight increase for the boys averaging two pounds and for the girls of one and one-fifth pounds. Ten other pupils who did not take the daily milk diet showed a gain of one and two-fifths pounds for the boys and one and one-fifth pounds for the girls. The

ing it possible for the consumer to secure cheap light and power in copious supply. Having recovered Grand Falls the people should themselves develop its potential possibilities and utilize the power for their own benefit. And it is altogether likely that they will.

NOTE AND COMMENT.
With Canada's trade showing an increase in April of over forty millions and the Canadian National Railway earnings so far this year ten millions more than those of the same period last year, things may truthfully be said to be looking up.

The system of probation is in active operation in most of the eastern cities of the United States. A judge in Toronto recently quoted figures which showed that 46 per cent. of all offenders convicted of felonies in the city of Buffalo in 1920 were placed on probation, and 71 per cent. of these were discharged improved, with an annual saving to the state on each of the 16,981 probationers of \$197,628. Of 440 convicts paroled in Ontario last year only 20 proved failures. These figures seem to justify the system.

In name Canada controls its own business and nationally is very much of an independent country, but practically that cannot be said when we consider the price of many commodities, including freight rates on Canadian owned ships are made in New York.

CHINESE ASKED TO ABOLISH THE SLAVE SYSTEM.
Hong Kong Authorities Give Instructions Regarding the Girl Slave System.

Hong King, May 22.—Speaking during a session of the Hong King Legislative Council, Sir Edward Stubs, governor of the colony, declared that he had received definite instructions from the British Secretary of State that the system of keeping mulatto, or Chinese slave girls, must be abolished. The governor said he had no doubt that 50 per cent. of the girls were contented with their lot, but a study of the literature of the early nineteenth century and the numerous pamphlets of the West India societies would show that precisely the same arguments were used as to the rare occurrence of cases of ill-treatment among the negro slaves.

BRITISH EMBARGO WILL AFFECT PRICES HERE.
Montreal, May 22.—The raising of the embargo on Canadian cattle in England is having an adverse reflection here, where the price of meat has increased two cents—and in some cases four cents—a pound. The reason given is that the supplying of English markets has had the corresponding effect of decreasing the available supply for the Canadian domestic market with the result noted. Whether the increase will be temporary or permanent, local wholesalers do not at the moment indicate.

MOTION PICTURES IN THE SCHOOLS

Thos. A. Edison Predicts That Films Will Replace Blackboard and Textbooks

New York.—The children of the future will get their education at schools in which the movie screen will supplant the blackboard and the motion picture film will take the place of textbooks. Thomas A. Edison predicted at the investigation of the Federal Trade Commission of charges that the famous Playars-Laskay corporation and its allied organizations constitute a motion picture trust. The famous inventor was called for the purpose of discussing the importance of the film industry and its possibilities for the future. He disclosed for the first time experiments with school children which he said had convinced him that 85 per cent. of all the knowledge is received through the eye and the motion pictures are 100 per cent. for its dissemination.

I have made a good many experiments in the line of teaching children by other methods than the blackboard. I made an experiment with a lot of pictures to teach children chemistry. I got 12 children and asked them to write down what they had learned from the pictures they had seen. I was amazed that such complicated subjects as chemistry was readily grasped by them to a large extent through pictures. The parts of the pictures they did not understand, I told over and over again, until they finally understood the entire picture.

"What, in your opinion, is the future growth of the motion picture?" Mr. Edison was asked. "I think that motion pictures have just started," he said, "and it is my opinion that in 20 years children will be taught through pictures and not through books."

Asked to his opinion as to the general influence over the people of motion picture films, Mr. Edison said: "The motion picture is the most powerful agent of influencing people and will increase from year to year."

Census Figures Show Agricultural Workers to be Falling Off

Ottawa, May 23.—A falling off in the number of occupied farms in the province of New Brunswick is shown by the census of agriculture which was taken in connection with the census of population in June, 1921. The number of occupied farms in 1921 was 86,655 as compared with 87,765 in 1911, and 87,000 in 1901. Farm acreage in 1921 was 4,269,540 as against 4,387,999 acres in 1911, and 4,443,400 acres in 1901. The average size of farms in 1921 was 116.4 acres as compared with 120.2 acres in 1911 and 120.3 acres in 1901. Although there was a decrease in the number of acreage of occupied farms in New Brunswick, statistics show a market increase in the value of farm property in 1921 as compared with 1911. The value of farm property in 1921 was \$181,825,675 as compared with \$84,896,906 in 1911 or an increase of 65.2 per cent. But in considering this increase the large difference between the price levels of 1911 and 1921 must be kept in mind, states the bulletin of the census bureau.

LOCAL ITEMS OF INTEREST

Newspapers of Town and Country Gathered by Graphic Reporters

CONGRATULATIONS.
Mr. C. H. Paisley is receiving the congratulations of all upon his appointment as Collector of Customs for Campbellton.

AT MR. ALVASON ACADEMY.
The students who passed the final examination are Robert Bussell, Oscar Point and Bob D. Sinclair, of Campbellton. Walter Gillies of Campbellton graduated in bookkeeping.

RECEIVED CERTIFICATE.
Alvin Fletcher has been attending Convocation at Mount Allison University and on Tuesday evening received a certificate, having completed the two year course in engineering at that institution.

YESTERDAY FROM GASP COAST.
The holiday has brought with it many visitors from down the Quebec coast. Among the many transients are Fredrick Green, and Napoleon Allard who are registered at the Florence Hotel here.

DEED IN ST. JOHN.
Frederick J. G. Knowlton, E. C. D. O. L., prominent barrister and insurance man died Friday evening at his home 124 Spring street, St. John. He had not been in the city of health recently but his condition was not regarded as serious and the news of his death came as a shock to his relatives and friends.

FORMER MEMBER OF GRAPHIC STAFF INQUIRED.
Herbert Conkley, a local foreman yesterday, had the misfortune to lose the end of one of his thumbs this morning while working about a Hopy-type machine. While engaged about the machine his thumb became caught in the revolving parts of the machine, causing a small portion of the thumb to be severed.

TIMBER BERTHS SOLD.
Two timber berths were sold today at public auction by the Crown Land Department. Berth No. 77, located on Two Mile Brook, a branch of Sal River, Northumberland county containing two square miles, was sold at the usual price of 100 per acre to W. and E. Walsh, the applicants. Berth No. 88, applied for by W. and E. Walsh, was sold to the same couple, 140, of 121 one square mile, and is located east of Bay du Vin river.—Glasgow.

CAR GARAGE FIRE.
A McLaughlin automobile owned by James Woodworth narrowly escaped serious damage last night about eight o'clock when the gasoline tank caught fire at the Florence Hotel corner, just after it had been refilled with gas. Some half-stewed individual lighted a match and held it over the mouth of the tank to ascertain the amount of its contents and the gas became ignited. For a few minutes the blaze looked serious and a chemical fire extinguisher from the Graphic office was taken to the scene by Jeff. Information was received in extinguishing the flames before the car was seriously damaged.

DEATH OF MRS. D.
The widow of Mr. D. of St. John, N. B., died at her home in St. John, N. B., on May 22nd, 1923. She was 78 years of age and had been ill for some time. Her death was a great loss to her family and friends.

GETS SIX MONTHS.
E. Cameron of St. John, N. B., was sentenced to six months in jail for illegally manufacturing liquor and was fined \$200. He was also ordered to pay the costs of the prosecution.

Newspaper Notes of Town and Country Happenings
Gathered by Graphic Reporters

CONGRATULATIONS

Mr. C. B. Fairley is receiving the congratulations of all upon his appointment as Collector of Customs for Campbellton.

AT MR. ALLISON ACADEMY

Among the students who passed the matriculation examinations are Robert Bursell, Cross Point and Robert D. Simpson, of Campbellton. Walter Gilmer of Campbellton graduated in bookkeeping.

RECEIVES CERTIFICATE

Alvin Metzger has been attending the matriculation examinations at the University and on Tuesday evening received a certificate, having completed the two year course in engineering at that institution.

VISITORS FROM GASPE COAST

The holiday has brought with it many visitors from down the Quebec Coast. Among the many transient are Frederick Green and Napoleon Allard who are registered at the Victoria Hotel here.

DEED IN ST. JOHN

Franklin J. G. Knowlton, E. C. D. C. L., prominent barrister and in-law, was in St. John, N. B., on his way to 154 Sydney street, St. John, he had not been in the best of health recently but his condition was not regarded as serious and the news of his death came as a shock to his relatives and friends.

FOREIGN MEMBER OF GRAPHIC STAFF INJURED

Herbert Connelly, a local newspaper reporter, had the misfortune to lose the end of one of his thumbs this morning while working about a line-type machine. While engaged about the machine his thumb became caught in the moving parts of the machine, crushing a small portion of the thumb.

THREE BERTHS SOLD

Two timber berths were sold today at public auction by the Crown Land Department. Berth No. 57, located on Two Mile Brook, a branch of Seal River, Northumberland county, including two square miles, was sold at the price of \$50 per square mile to W. and R. Walsh, the applicants. Berth No. 58, applied for by W. and R. Walsh, was sold to the same couple, and is located east of Bay du Vin river.

CAR CAUGHT FIRE

A McLaughlin automobile owned by James Woodworth narrowly escaped serious damage last night about eight o'clock when the gasoline tank caught fire at the Flanagan Hotel corner just after it had been replenished with gas. Some half-stowed fire-bricks lighted a match and held it over the mouth of the tank to ascertain the amount of its contents and the gas became ignited. For a few minutes the blaze looked serious and a chemical fire extinguisher from the Graphic office was taken to the scene. A guest of the hotel, however, succeeded in extinguishing the flames before the car was seriously damaged.

BLACKSMITH

Home shooting, wagon, sleds and general repairs. Prices reasonable. S. J. MacGARVIE, Mill Bridge, opposite yard, Phone 576. May 24-4 pt.

OATS

For feeding purposes. Best reconditioned Alberta Oats at 24.75 cents a bushel bag. No charge for bag. The MacMillan Co., Jacques River, N. B.

CONDITION IMPROVED

The friends of Miss Anna Beaudouin of Mr. Cassin's Hospital are glad to announce that she is improving quite favorably.

SPECIAL MEETING

A special meeting of Northern Light School No. 77, will be held in the Oddfellows Hall, Tuesday evening, May 29th at 8 o'clock sharp to discuss matters of importance and suggest projects. Full attendance requested.

By Order

NOBLE GRAND

THE HOLIDAY

Many citizens, both young and old took advantage of the holiday to get out of town for an outing. The roads through the country are dotted with motor and other vehicles and the woods and beaches of the surrounding districts are the scenes of crowds of happy picnickers. The weather is ideal and no doubt led to the general enjoyment of all.

GERMAN MEASLES IN TOWN

There are quite a number of cases of German measles in town at present. This disease which is contagious, is not a dangerous malady. It is a fever followed by a rash and scarlet fever, as it exhibits some of the features of both these diseases, but does not immunize any person from a subsequent attack of either of them and may be taken by a person who has already had both.

DEATH OF MRS. DANIEL DOUGET

Many friends of Mrs. Dan. Doucet of Seal River Crossing will regret to hear of her death which occurred on May 19th after a short illness in the Hotel Dieu Hospital here. Deceased entered the hospital on May 13th and died on the 19th. Mrs. Doucet was well known and highly respected in a large circle of friends. She leaves to survive her death, her husband and three daughters who have the sympathy of the whole community in their sad bereavement.

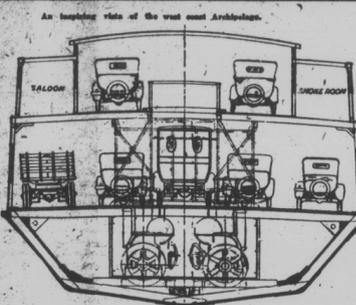

GRIT SIX MONTHS FOR MAKING BOOTLEG

E. Cameron of Jacques River, appeared before Police Magistrate D. McAllister last week on a charge of illegally manufacturing intoxicating liquor and was sentenced to six months in jail with the alternative of paying a fine of \$200 and costs. Unable to pay he was taken to the county jail. Information in the case was laid by Prohibition Inspectors Smith and Doyle.

BY AUTO ON THE GULF OF GEORGIA

WHO has not heard of the Gulf of Georgia? This Gulf is a magnificent body of water, a remnant of the great Strait of Juan de Fuca which is legend and history through which the Spanish navigators sailed hundreds of years ago, and which is now one of the most important trade routes of the world. It separates Vancouver Island from the mainland of British Columbia and the State of Washington, and is one of the most beautiful waterways known to man. The city of Victoria, at the extreme south end of Vancouver Island has several ferry lines connecting it with the mainland, but as the steamship services in the past have proved inadequate for the large crowds of summer visitors and motorists, the Canadian Pacific Railway Company has put into service a magnificent vessel which operates twice daily between Victoria and Bellingham, Washington. The ferry is an important addition to the Canadian-Pacific fleet and its name, "The Princess" is appropriate in that it is the first vessel of the company operating on the Pacific. It is equipped with a large dining room and deck spaces for further enjoyment of the magnificent view of Mount Baker standing guard in its everlasting mantle of snow among its satellites the foothills. This lofty mountain is on the mainland near Bellingham, and beautiful and inspiring, it is seen at its best when travelling to or from Victoria.

Bottom view of the "The Princess" showing method of stowing cars. Smoking room and deck spaces for further enjoyment of the magnificent view of Mount Baker standing guard in its everlasting mantle of snow among its satellites the foothills. This lofty mountain is on the mainland near Bellingham, and beautiful and inspiring, it is seen at its best when travelling to or from Victoria.

Here and There

Each acre of corn grown in Ohio costs on an average \$62.28 hours of labor.

Canada is now second on the list as an exporting land, the per capita being \$100.68 per annum.

A new station is being built by the Canadian Pacific Railway at Fredericton at a cost of \$25,000.

Half a million Canadians look to the forests each day for their meat and lodging, and more than 1,000,000 Canadian workmen are engaged in converting forest products into one form or another.

The large party of Hebrideans who were brought to Canada on the Canadian Pacific Steamship "Maricopa" and "Marloch" have gone to Red Deer, Alta., where they will form an agricultural colony.

Seven hundred farmers and farm laborers arrived in Canada recently on the Canadian Pacific steamer "Montclair." These colonists are proceeding to Ontario and western points where they will take up their work.

The project of a shigamalac sea-land from the Clyde to the Firth of Forth was brought to the fore again at a recent meeting of the Mid-Scottish Ship Canal Association, and there is a possibility of something being started in this connection in the near future.

A single pair of potato bugs would, without check, increase to 50,000,000 in one season; the hop aphid, developing thirteen generations in a single year would if unchecked to the end of the twelfth generation, have multiplied to ten sextillions.

Canadian air pilots flew 294,649 miles carrying 9,123 passengers and 77,550 pounds of freight in 1922 according to a report of the Canadian Air Board. Saskatchewan carried 3,622 passengers, Manitoba 1,022 and British Columbia 1,122.

It is estimated that the treasure in Navarin Bay, off the west coast of Greenland, is worth \$25,000,000 in gold and other minerals still at the bottom of the Bay, where it was sunk with the United States ship "Albatross" and Turkey by the United States. The Russian fleet in 1827.

EVERY WEEK

PRIZE WINNERS AT SHEEHAN KENNELS

W. M. Sheehan Is Ardent Lover of Dogs—Holder of Many Medals.

New Brunswick has many dog lovers, but none are more ardent than Wallace Sheehan of Dalhousie. He has won many prizes for his prize-winning dogs in the past ten years or over one or more of his entries can be found. One has only to view the trophies and ribbons which this fancier has won to be assured his dogs were always among the winners. Although always strong on bloodhounds he has owned some of the best Airedales, Boston Terriers, Wire Hair Fox Terriers, English Bulldogs, Manchester Terriers and Pomeranians in the Maritime Provinces.

At the present time he has in his kennels a couple of fine Airedales, topping the lot with his prize-winning Airedale Woodbine Minnie, who is only one point short of her Canadian Championship, she has only arrived from a visit to Mr. Russell's ex-M.P. of Toronto, where she was mated to one of Mr. Russell's best dogs (Once Again), a promising young Airedale which made first appearance at the Evening Shows held in St. John during the Winter Carnival where he was awarded first in puppy class (over 6 months old). This youngster should give a good account of himself at the coming shows.

In Pekinese we noticed a couple of cut ones both of which had their share of winnings and are from the best of imported championship stock. Miss Bookkeeper, an English Bull and a few English Bloodhounds which are owned by this kennel but left in the care of Dr. Evers of Kingston are also making an enviable record. We noticed a lively Wire Hair Fox Terrier also in the lot and on enquiry were informed he was one of our town boys having been bred by Mr. W. R. Milligan and owned by Mr. A. D. MacKendrick, postmaster at Campbellton. Mr. Sheehan is now preparing a few of his dogs for the coming shows.

Social and Personal News

Mr. J. D. Willett has accepted a position with the Pickard Lumber Co., Windsor, N. S. Mrs. H. E. Mott spent the week-end in Campbellton.

Harry McEvoy was a visitor to Campbellton last Wednesday. Thomas G. Scott has been recently gazetted a justice of the peace. Rev. R. J. Coleman was a visitor to Campbellton on Wednesday last.

A Pair of Sixes To Be Staged In Dalhousie

The announcement that has been made, that the Lyric Dramatic Club of Campbellton would stage on June 4th in the shiretown, the well known comedy "A Pair of Sixes" was received with delight by theatre goers, in fact by all our citizens. The readers of the "Graphic" and "Tribune" have followed during recent months, the activity of the talented young people of Campbellton, who, by their attention to practice, under able direction, have presented plays before large audiences, and brought enthusiasm among the people assembled, to encourage a good cause. It is therefore not surprising to hear people residing in smaller sections, who cannot conveniently make the trip to Campbellton, rejoice over the fact that good plays shall in future be repeated when possible. It is encouraging to know that Dalhousie can provide a spacious hall with a large stage on which to enable the performers to put on their entertainment with ease. The Convent Hall has a seating capacity of nearly five hundred and in a case of emergency, seven hundred people can be accommodated. Arrangements are already made to procure the use of the Convent Hall.

Dalhousie Boy Scouts Give Fine Entertainment

The entertainment presented on Thursday evening in St. Mary's Hall by the Dalhousie First Troop Scouts, under the direction of assistant Scout Master, T. C. Goodspeed, was a delightful affair in every way. Scout Master, Major G. S. Grimmer, acted as chairman. The object of the entertainment was to bring the Scout organization more prominently before the public, and to show what scouting means. To this end there was an exhibition of compass work, first aid to injured men, also scout games. One boy received his fivestature as a tenderfoot. The last part of the programme "Round the Camp Fire" was conducted in the usual manner. The actual campfire will be conducted in August, when the troop will hold a week's summer camp in nearby woods. A complete and practical address on the Scout movement was given by Mr. Goodspeed.

The Scouts who took their parts so well in the programme were as follows: Charles Galle, patrol leader; William Cragg, second leader; William Cragg, Walter Mac, Scout Dabrow, William Dabrow, Bernt Arsenau and Hector Alain. The boys are looking forward to spending a good time at their summer camp. The Dalhousie Orchestra, consisting of Frank Swinard, pianist; Miss Geraldine Sheehan, first violin; Ray Kennedy, second violin; E. J. Breach, Knolly, Wallace Sheehan, trap; renowned pleasing selections during the evening finishing with the National Anthem, in the singing of which the Scout's voices were heard to advantage.

The net proceeds, which amounted to \$20.00 will be used to furnish the summer camp. The news that a Boy Scout Troop is good news to the boys here and a matter for encouragement.

NARROW ESCAPE OF FIVE CHICAGOANS

Niagara Falls, Ont., May 21—Only a mud bank and extraordinary luck saved a party of five from Chicago from being carried over Niagara Falls in a motor boat Saturday evening. The boat is still stuck fast in the mud and is in danger of going over the cataract a scant half mile below, and the owner and crew are ashore and thankful that their experiences were no more thrilling than they turned out to be.

POPEST FIRE TO SOUTH OF NARROWS REPORTED TODAY

Fredericton, N. B. May 21—The forest fire of any serious proportions this season in New Brunswick has been reported today between four and five miles south of the Narrows in the vicinity of the boundary of Queens and Kings counties and north of Sussex.

Happenings of The Week

The auction sale of farm implements, machinery and stock, which was held at Mrs. Lawlor's farm, on Wednesday, was largely attended and much interest was shown in the bidding. In spite of the inclemency of the weather there was a large gathering of farmers and others who were interested in the sale. Timothy Robinson crunched his hand so badly that he needed surgical treatment.

Farmers in this district with high land on their farms have finished planting potatoes; while others whose farms consist of low lands have not yet done any sowing.

AGITATION FOR FERRY SERVICE

The prospects are encouraging for the re-establishment of the ferry service between the Dalhousie wharf and Upper Miramichi. The steamboat "The Angel" owned by Point St. Omer, Carleton and Co. is to make a weekly trip to Campbellton.

Alderman John Barbour and Mr. Arthur Thompson, prominent citizens with considerable experience in boat engineering and navigation on the Restigouche River and Bay Chaleur, are the promoters of the "Angel". Mr. Nickerson, encouraged by the subsidy voted during the recent session of the New Brunswick Legislature, when the item for steam navigation was under consideration, have applied to the Hon. J. A. Robb, Minister of Trade and Commerce, at Ottawa, for a sufficient subsidy to enable them to carry on the service proposed, in a satisfactory manner, to all concerned. Application will also be made at once to the Quebec Government for financial aid.

THE WEEKLY PAPER

An ex-Governor, has the following to say about the value of a weekly paper in the community: "Each year the local paper gives from \$500 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The editor, in proportion to his means, does more for his own people than any other ten men, and in all fairness he ought to be supported—not because you like him or admire his writings, but because the local paper is the best investment a community can make. It may not be brilliantly edited or crowded with thought, but financially it is more beneficial to the community than the preacher or the teacher. Understand me, I do not mean mentally, and yet on moral questions you will find most of the papers on the right side. To-day the editors of the local papers do the most for the least money of any people on earth."

PEACE TREATY

London, May 21—A despatch to the Central News from Athens says there is good reason to believe the Anglo-Greek government will sign the Greco-Turkish peace treaty without indemnities, but because the local paper is the best investment a community can make.

Dalhousie, N. B.

DALHOUSIE AS SUMMERING PLACE

Many Prominent Men Think Dalhousie An Ideal Resort—Citizens Interested

The article which appeared in the Dalhousie page of last week's "Graphic" referring to the Ineb Arran as a summer resort, was read with great interest by many of our readers in the shiretown. When the late Senator, Arthur Miller, P. Anderson, T. John A. Macdonald, the late Robert Moffat, Ex-M.P. for the Co. of Restigouche, and the many who were on the board of the I.C.R. when the Dalhousie Branch Railway was built, fixed upon the Town of Dalhousie, as the proper location for a large hotel, they made no mistake, and for many years hundreds of strangers spent the summer months at the Ineb Arran House. When the members of the "New Brunswick Tourist and Resources Association" held their annual meeting at the Ineb Arran, in June 1923, a splendid impression of the place was left on the minds of such leading men, as Hon. W. E. Foster, Ex-Premier of N. B., Hon. P. J. Veniot, the present Premier and Minister of Public Works, Mr. Schofield, Ex-Mayor of St. John, N. B., Mr. Tilley, Ex-M.P. P. St. John, Mr. Armstrong, Secretary of the Board of Trade, St. John, and many others, and all expressed themselves strongly in favor of Dalhousie, stating that "it was in their mind a great resort."

MEETING OF TOWN COUNCIL

Considerable Business Disposed of at Recent Meeting—Town Officers for 1923.

The following report of the first meeting of the town council for the present year is published below in full in order that the taxpayers may have a more definite knowledge of what the council is doing in their behalf and to advise among citizens generally a more active interest in town affairs.

The meeting was held on May 9th. Mayor Barbour presiding and with Aldermen McNeil, Delaney, Arsenault, Valdon, Belideau, Valrent and Alain present. The minutes of the last regular meeting and the special meeting re the Water Maintenance bond issue were read. It was then moved by Ald. McNeil and seconded by Ald. Arsenault that minutes of the last regular meeting and the special meeting be adopted as read.—Carried.

Moved by Ald. Valdon, and seconded by Ald. Arsenault, that the council take fifteen minutes recess.—Carried.

Turn of the vote on the recent bond issue was read. Moved by Ald. Delaney and seconded by Ald. Arsenault that the report of the returns of the election for the Bond issue of \$100,000 be embodied in the minutes.—Carried.

The undersigned do hereby certify that the results of the vote taken on the Bond issue of \$100,000 are as follows: Those in favor of the Bond issue of \$10,000 under Act 1923 57 Ballots. Those against the Bond issue of \$10,000 under Act 1923 10 Ballots.

PHILOMENA LEJOURNEAU
Presiding Officer.

Moved by Ald. McNeil and seconded by Ald. Delaney that the sale of \$10,000 debentures for the Town of Dalhousie for Water Maintenance be authorized.—Carried.

On motion of Ald. Delaney, seconded by Ald. McNeil, applications for the assistance of Mrs. James Wallace, harbour master of Dalhousie, and others experienced in ferry service in New Brunswick and Quebec, have prepared a prospectus in the shape of a time table, rates for passengers, charge for freight, the transfer of automobiles to and from the Quebec side of the river, etc.

As a well regulated service by water on the Restigouche River and upper part of the Bay Chaleur, would be of great assistance to the farming community, to the fishermen and to the strangers who visit our summer resort, the Hon. Charles Marc, M.P., the Hon. Charles Marc, M.P., and M. P. for Madawaska, Restigouche will press this matter upon the federal authorities.

Item: Royal Bank of Canada 1 cent 1923—Motion Carried.

Moved by Ald. Delaney and seconded by Ald. Belideau that the following Light Maintenance Accounts be paid: Graphic Ltd. Ballots \$3.50 A. T. LeBanc Service preparing legislation for debentures \$5.00 Mrs. P. LeBourgeois Services as Poll Clerk and for typing list \$5.00—Motion Carried.

Moved by Ald. Delaney, seconded by Ald. Belideau that a minimum rate of \$100 be added to the Light and that the Town Clerk notify the Electrician of the new ruling to become effective on and after May 1st, 1923.—Carried.

Moved by Ald. Delaney, seconded by Ald. McNeil that the town officers for the ensuing year be the same as for 1922, that list be included in the minutes of the meeting and also that W. A. Gallop be appointed Water Superintendent for the year 1923 at a salary of \$300.00 per annum.—Motion Carried.

Constables: W. A. Gallop, Frank Valdon, Sr., Frank Synette, H. H. McNeil, Henry Arsenault, Joseph Cameron, Odean Arsenault.

MRS. BUDGE SO WEAK COULD HARDLY STAND

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

My dear Doctor, I had to have a severe pain in my side. I would be unable to walk, and could not stand for any length of time to do my usual work. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound, and as she had had good results, I certainly got good results from it too, as the last time I had a severe pain was last May and I have not had it since. I am so glad of this, and I think it is your medicine that helped me in this way.—Mrs. L. V. Budge, Silverton, Oregon.

If you are suffering from the tortures of a headache, irregularity, backache, nervousness, or a pain in the side, you should lose no time in trying Lydia E. Pinkham's Vegetable Compound. It is a natural, healthful, and safe remedy for all these troubles. It is a natural, healthful, and safe remedy for all these troubles. It is a natural, healthful, and safe remedy for all these troubles.

minent Men Think an Ideal Re-Citizen Interested

which appeared in the age of last week's "Ging" in the Irish Army work, was read with great many of your readers in mind. When the late Sir Donald, the late Robert M. P. for the "Ging" and the man, who was of the I. C. B. when the Irish Railway was built, the Town of Dalhousie, the location for a large body of men made no mistake, and saw hundreds of strong men summer months at the Dalhousie. When the members of Brunswick Tourists and Association held their annual picnic at the Dalhousie, a splendid impression of the left on the minds of the men, as Hon. W. H. P. of the I. C. B. in 1912, present Premier and Hon. W. H. P. of the I. C. B. in 1912, Secretary of the Board of Health, and many others, and the men, who were in the Dalhousie, and was an ideal summer resort.

MRS. BUDGE SO WEAK COULD HARDLY STAND

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health

River Don't Care. I used to have a severe pain in my side. I was unable to walk fast, and could not stand for any length of time to do my ironing or washing, but I would have to lie down to get relief from the pain. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound, as she had had good results. I certainly got good results from it, too, as the last time I had a severe pain was last May and I have not had it since. I am also glad of having good running for my baby, and thank it to your medicine that helped me in this way. Mrs. L. V. Budge, River Don't, Quebec.

If you are suffering from the troubles of indigestion, irregularity, headache, nervousness, or a pain in the side, you should like to find in Lydia E. Pinkham's Vegetable Compound, a splendid impression of the left on the minds of the men, as Hon. W. H. P. of the I. C. B. in 1912, present Premier and Hon. W. H. P. of the I. C. B. in 1912, Secretary of the Board of Health, and many others, and the men, who were in the Dalhousie, and was an ideal summer resort.

LADY LARKS

MEREDITH NICOLSON

CHAPTER I. Richard Seary, a young man, was sitting in a room, looking at a picture of a young woman. He was thinking of her, and how she had been so kind to him. He was thinking of her, and how she had been so kind to him. He was thinking of her, and how she had been so kind to him.

CHAPTER II. The morning mail brought a letter from Seary's acknowledging my congratulations on his play. While my enthusiastic praise pleased him, he was very scornful of my suggestions, seeming even more depressed than when he talked to me.

CHAPTER III. The mystery is solved! It is easy to understand why he has haunted the place. "Yes, quite easy. Count Montani is very anxious to see the portrait." He wasn't referring to the picture; but I shouldn't press the matter.

CHAPTER IV. I didn't know and I wanted to ask questions about Allow's father, but as though anxious to frustrate such inquiries, my aunt asked how close we were to the place made famous by the famous painter's spectacular escape from the British. She had read the story and would motor to the scene, she declared. It was quite clear that there

Miss Mowat will also visit her cousin Mrs. David Roberts for a couple of weeks in Merced, before leaving for Yosemite National Park.

OBITUARY

Charles Brown One of the best known and most respected residents of Bonaventure Co., Charles Brown of Escuminac Falls, passed away Monday, April 23rd at his residence here after a lingering illness of over a year which he bore with patience and Christian fortitude. His hospitality was proverbial; his ready sympathy and willingness to help were always at the disposal of the sick and needy. Deceased was in his seventy-seventh year and leaves the last surviving member of a large family. The funeral service was held at the home and grave were conducted by the Rev. Geo. Gough. The pallbearers were Messrs. W. S. Montgomery, W. A. R. Cragg, William Harper, Richard Young, George Campbell and John Fraser.

John Giroux

The village of Charlo sustained the loss of an old and respected citizen this morning when John Giroux died at his home there at 2 o'clock. The deceased, who was 75 years of age is survived by his second wife, who was formerly Miss Adeline Boucher, a sister of Father Boucher who is well known here and throughout the province. The late Mr. Giroux's first wife was Miss Mary Ann McIntyre, a sister of Mr. John McIntyre of this town. The late Mr. Giroux also leaves to mourn three daughters who are; Mrs. E. J. Williams of Edmundston, Mrs. Frank Stevens of Rogersville and Mrs. James Martin of Washington. The funeral services will be held at 9:30 on Saturday morning. Rev. Father Robichaud will officiate.

Daniel Callaghan

(Printed by Request.) It was with regret that the many friends of Daniel Callaghan learned of his death which occurred at his home in Houlton, Monday, Dec. 4, after a few weeks' illness. Mr. Callaghan was born in Campbellton, N. B., in 1843 where he spent his boyhood and learned the blacksmith trade, a business he carried on until within a few years of his death. When a young man he went West, living for a number of years in Michigan and Wisconsin. In 1884 he was married to Miss Nancy Dobbins of Houlton, who survives him. He had been a resident of Houlton for the past twenty-five years. He was respected throughout the community and was a kind and devoted husband and father. The funeral services were held from St. Mary's Catholic Church, Wednesday morning, Father Silke officiating. He leaves besides his widow, five daughters, Mrs. George McKowan of Pittsfield; Mrs. Earle Grenier of Augusta; the Misses Nellie, Mary and Joseph, all of Houlton; and one son, Daniel, of Detroit Mich. One sister, Mrs. Frank Dobbins and one brother, John, of Campbellton, N. B. also survive. Houlton, Me., Dec. 12.

WOMAN SEARCHES MISSING HUSBAND

Mrs. McWilliams of St. John Believes Her Husband Buried at Halifax

St. John, N. B. May 22.—Almost firm in her conviction that the body of a man found in Weymouth, N. S., last October and buried on December 15th in Camp Hill Cemetery Halifax is that of her husband, Mrs. Helen McWilliams, of St. John, left last evening for Halifax in hope of determining whether or not her suppositions were correct. The body was at first identified as John A. A. Canadianized Boer, but last March Mrs. Love announced that she was mistaken in her identification having received word from her husband in England.

NEW BRITISH PREMIER CHOSEN

Stanley Baldwin Summoned by King to Take Bonar Law's Place

London, May 22.—Stanley Baldwin is Great Britain's new premier. He accepted the premiership offered him today by King George. Mr. Baldwin drove to Buckingham Palace immediately after lunch. Almost at the same time, with no doubting that the King had summoned him to offer him the premiership, it became known that Conservative leaders in conference had agreed upon Mr. Baldwin as their choice and had selected Sir Robert Horne, to succeed him as chairman of the executive—the position that Sir Robert filled in the last years of the Lloyd George ministry. This arrangement to fill Mr. Baldwin's old position indicated an expectation that the personal of the Bonar Law cabinet would remain almost intact.

BOY IMPLICATES PARENTS IN THEFT

Toronto Boy in Tears as He Tells of \$100,000 in Victory Bonds Stolen

Toronto, May 23.—Findlay McLeod, Jr., a boy of 17 years, broke down and cried in the dock yesterday as Assistant Crown Attorney McFadden read aloud a statement described by the detective as voluntary, in which the lad implicated his parents in the theft of \$100,000 in Victory bonds from the mails. His mother, nursing a little baby, went over to the rail and tried to comfort her son. In spite of the protests of W. B. Hopkins and R. H. Greer, K. C., Judge Costarworth admitted the statement as evidence. According to Inspector of Detectives Wallace, the boy had been questioned upon the suggestion of Inspector Guthrie on the evening of May 5 in the former's office.

JILTED LIEUTENANT SAILS WITH PARENTS Calling Off Wedding by Miss Hoyt a Terrible Blow. DR. L. D. DENSMORE HAS BEEN APPOINTED A MEDICAL REPRESENTATIVE DEPARTMENT OF SOLDIERS' CIVIL RE-ESTABLISHMENT, AT BATHURST, N. B. New York, May 20.—Instead of sailing, as he had expected, on the White Star liner Olympic with a bride, Lieutenant Frederick Wiseman Clarke R. N. returned yesterday to England on the Royal Mail Steam Packet Orduna, with his parents, because Miss Nancy McMichael Hoyt of Washington, had jilted him at the eleventh hour. The young naval officer showed his moral courage when he was questioned on deck about the calling off of the wedding by the bride-elect, but he showed that the affair affected him deeply. He said that he intended to resign from the British Navy when he arrived in England and would devote himself to business. "Has the engagement been definitely broken off?" he was asked. "I don't think we will ever be married," the Lieutenant replied. "Are you going home broken hearted?" "Broken-hearted? Well, it's been a terrible blow to me. I don't want to say anything about the controversy between our parents. I want to deny also that my folks and I were ignorant of the matrimonial affairs of Miss Hoyt's sister. We always knew about that." "Was the ring returned?" "It's a damn rotten show all round," a piping voice, "I sometimes smoke a Lieutenant Clarke replied angrily, cigarette."
