

BELIEVE DEAD WILL NUMBER 800 IN THE RAINY RIVER FIRES WORST DISASTER IN 15 YEARS

THE PROPERTY LOSS IS \$5,000,000 MORE TOWNS ARE IN DANGER

Thousands Homeless and Intense Suffering Prevails ---Flames Spread Toward Winnipeg---The Refugees Need Supplies and Medicine.

Dead, 800; homeless, 5,000; missing, 2,000. Nine towns destroyed—Spooner, Graceton, Pitt, Baudette, Swift, Roosevelt, Cedar Spur, Myron and Malcom, Minn. Towns in danger—Warroad, Minn.; Rainy river, Ont. Devastated area—Nearly 3,000 miles square. Property loss—\$5,000,000.

Feature of conflagration—Escape of thousands of panic-stricken refugees as flames swept down on them. Men fight for places in cars and tramp down women in mud. Many secure their own safety. Girl stands at car door and single-handed fights off driving them back. Train reaches Rainy River with men clinging like bees to sides, steps and trucks. Many who fail to hang on perish in flames.

[Special to The Advertiser.] The town of Pitt was burned Friday night, and the towns of Spooner and Baudette, 6 miles distant, were in flames a short time later. A hurricane was blowing at the time, and within ten minutes after the appearance of the fire the inhabitants of the town were forced to flee for their lives, being unable to save any of their property.

The fire was heralded by a shower of sparks and burning brands which swept across the Beaudette River, and the inhabitants had barely time to reach the shore before the flames were waiting before both towns were on fire at all points.

Then were enacted scenes which will never be forgotten by those present. Sick people, apparently by the score, were carried to points of safety. There were five patients in Carrigan's hospital which was burned. One woman, who had given birth to a child the same evening, had to be carried to the office of the Shelvlin-Mathieu Lumber Company, in whose building many people took refuge.

Seething flames. The buildings of Shelvlin-Mathieu Lumber Company are practically the only structures left standing in Spooner, not a tree, a fence or a foot of timber is left.

\$8,500 AUTOMOBILE WAS BADLY SCORCHED

Big Machine Owned by Mr. J. C. Duffield Caught Fire Today.

The big De Luxe automobile, owned by Mr. J. C. Duffield, was badly burned this morning shortly after 11 o'clock in Mr. Duffield's garage on Dufferin avenue.

Mr. W. Beemer, the chauffeur, had finished cleaning the machine, and started the engine, when the hood burst out in flames. He quickly turned in an alarm, and the fire brigade responded.

The fire was kept from the gasoline tank, which is at the rear, and although the engine and the body of the machine were considerably scorched, no very costly damage was done.

The exact extent of the loss has not yet been discovered, however, as the machinery has not been tested.

The auto is the finest in the city and is valued at \$8,500. It is covered by insurance.

ANOTHER CHARGE AGAINST CARRIER

Young Man Took Auto From Garage and Damaged It.

John Carrier was charged in the police court this morning with taking an automobile from a local garage several weeks ago without the proprietor's knowledge, and damaging it to the extent of \$100 or more. Carrier went joy-riding and ended up with a broken auto by the roadside. He was remanded until Thursday, when his case will come up for examination.

The young man had already been found guilty on another charge.

Louis Boubault having, after many previous offences, been found drunk again, was remanded for a week in jail, while the question of sending him to the Central Farm at Guelph is gone into fully.

William Foster pleaded guilty to assaulting a Hebrew, Moses Vochler, without provocation, and was fined \$5 and \$40 costs, in addition to being severely lectured by the magistrate. Foster was drunk when the assault took place. He is only 18, but declined to tell who supplied him with the intoxicants.

A juvenile who rode a bicycle on the sidewalk was dismissed.

AGED GENTLEMAN THROWN FROM BUGGY

Mr. Elijah Windsor, of West London, in a Runaway.

While driving on King street yesterday afternoon, the horse driven by Mr. Elijah Windsor, West London, became frightened at some pigs. The old gentleman was thrown out when the horse shied, but escaped with nothing more serious than some slight bruises. Miss Windsor, who was in the buggy at the time, was uninjured.

The horse was caught before it did any damage.

FEE SYSTEM UNPOPULAR SHOULD BE ABOLISHED

Squire Chittick Says It Is Open to Criticism—A Change Is Needed.

The move credited to Premier Whitney to abolish the fee system is looked upon with favor in this vicinity by the majority of people, even those in office who would be affected by the change.

The present system, especially in regard to the county constabulary, is said to be far from perfect.

The chief objection to the system is that only those who, whether through fault of their own or not, appear in court, pay for the upkeep of the constabulary, while thousands of residents of all rural sections are afforded protection and are under no expense.

50,000 RAILROAD EMPLOYEES STRIKE

France Is Tied Up By the Worst Walk-Out in Years.

Continued on Page Nine.

Paris, Oct. 11.—The employees of the Northern France Railway have suddenly struck, and the whole system is at a standstill. The order to strike was issued late last night, after a meeting of the railwaymen's committee, and at midnight the staff stopped work, without giving any warning.

The public was taken wholly unawares and thousands were prevented from starting on intended journeys. Shortly after midnight the station doors were closed, and mounted and foot soldiers were hurried to occupy the deserted stations.

Troops were posted along the lines to guard the locomotives and the coal depots.

At 2 o'clock this morning the Paris, Lyons and Mediterranean Railway system employees summoned a meeting at Marseilles, and declared that they were to follow the strikers in Northern France.

The state railroad men are now meeting with a similar object. The Northern France strike is partly the result of the coal men demanding an increase in wages from 60 cents to \$1 a day. From 40,000 to 50,000 men are involved, and if the strike becomes general, as it is feared it will, 300,000 employees will be idle. The telegraph lines were cut near Amiens during the night.

Strikers Demands. The demands of the employees are as follows: A general increase in wages to meet the higher cost of living. A retroactive application of the employees' pension law. A more equitable division of work. The granting of one day off in seven for all employees.

Distinct employment by the month instead of the day.

It is understood that the plan of the men was to have the strike begun in Paris at midnight and in the provinces at 5 o'clock this morning. As soon as the company and the authorities learned the situation the Paris strikers were ordered to return to work.

LAUNDRY LICENSES

Windsor Council Will Make Chinese Washers Pay.

[G. N. W. Dispatch.] Windsor, Oct. 11.—The city council last night adopted a license system with respect to Chinese laundries. The fee that will be imposed is from \$5 to \$20, according to the number of men employed, and the council reserves the right to refuse licenses unless satisfactory conditions are maintained at the laundries. The enforcement of regulations is left in the hands of the police.

SENT TO TRIAL

Belleville, Oct. 10.—Mabel McMullen, the young woman charged with having on the night of Sept. 29 broken into the residence of Sheriff Morrison and stolen therefrom furs and dress goods to the value of \$300, was committed for trial this morning by the police magistrate.

LONDONERS OFF FOR DEMONSTRATION

Large Number Left on Special Train at Noon Today For City of Berlin.

NIAGARA POWER OPENING

Dispatch From German City Says That All is in Readiness for Premier Whitney to Press the Button.

A large number of Londoners left for Berlin at 12:30 o'clock today to attend the Niagara power demonstration in that city.

The party travelled on a special train on the Grand Trunk, and will be brought back to the city tonight by another special, after the banquet.

The London party was joined by several outside delegations, and practically every municipality from this city to Berlin will send still further quotas to the demonstration.

Among those who left here were Hon. Adam Beck and Mrs. Beck, Mayor Beattie, Chairman Phil. Pocock, of the water commission, Water Commissioners John H. Chapman and William Wyatt, Aid. Tancogne, Ashplant, Aid. H. Pocock, Aid. Jeffries, Aid. Fitzgerald, Aid. Underwood, T. Harry Carling, Dr. Drake, Oliver Ellwood, Manager Dare, F. G. Jewell, O. H. Whittle, City Clerk Baker, Arthur W. White, Dr. Robinson, W. C. Coe, J. Flood, Housen, R. Simmie, Dr. Zeigler, Fritz Beck, Mayor Dr. Guest, Aid. Sanders and City Solicitor Doherty, St. Thomas; Mayor Harry Pope, Stratroy; Mr. John Doherty and Isaac Newton, Sarnia; the mayor and reeve of Bothwell, Hume B. Elliott, J. J. Cox and many others.

A considerable number from other places passed through London early this morning on their way to Berlin.

ALL IS READY

Berlin, Oct. 11.—Everything is in readiness for turning on of Niagara power, which event takes place here at 3:30 o'clock this afternoon.

Special trains are arriving from Toronto and London, bringing to the city Premier Whitney, Hon. Adam Beck and other distinguished men.

The mayors of Ontario cities in the power zone are here to join with Berlin citizens in marking the event.

The button will be pressed at 3:30 by Sri James Whitney, who will receive the same from Miss Huldah Rumpke, who will be wearing a "Miss Ontario." The Hon. Adam Beck will be then presented with an illuminated address, and Mayor Hahn will extend a welcome on behalf of the city.

JACKSON GETS A YEAR FOR KILLING ENOS

Jury Only Out Few Minutes in the Chatham Murder Case.

[Special to The Advertiser.] Chatham, Oct. 11.—Frank Jackson (colored) was sentenced by Mr. Justice Middleton this morning to serve one year in the common jail for killing Jacob Enos.

Jackson pleaded guilty to the killing, claiming self-defence.

The trial lasted only a few minutes. Justice Middleton in sentencing Jackson, denounced the practice of carrying weapons, adding that he felt that but for the fact Jackson had been carrying a revolver he would have gone clear.

DETROIT BOY HAD FULL KIT

Claude Saylor Started Out for Northwest With Camping Outfit.

STRANDED IN LONDON

Police Are Now Taking Care of a Youngster Who Found Home Conditions Rather Unsuited to His Tastes.

Claude Taylor, 14 years of age, rode the "bumbers" from Detroit, and arrived in London Saturday evening. Taylor, who is an exceptionally bright lad, gives his address as 15 William Street, Detroit, where he has been living with his foster father.

His foster mother some time ago eloped with an affinity, it is alleged, and Claude soon afterwards found himself with a step-foster-mother.

Not being satisfied with the tangled condition of his home relationship, he decided to rough it, or rather bump it, to the northwest, where he looked forward to the joys of working on a farm.

When he left home he had a rifle, a frying pan, and a full equipment for a real western career.

These were lost on the way, however, and it was several boxes of cartridges in his possession which first excited the investigations of a police officer.

The young adventurer was taken to the children's shelter, and is now in the care of Inspector Sanders, who will seek suitable employment for the boy in case his foster-parent does not endeavor to take him back to Detroit. He is well advanced at school, and appears quite able to take care of himself.

COAL BIN GAVE WAY MAN'S NARROW ESCAPE

Mr. Sam Loughrey Saved His Life by His Presence of Mind.

Mr. Samuel Loughrey, one of the stage hands at the Majestic Theatre on Dundas street, escaped death by a narrow margin in the basement of the house below the stage this morning. Mr. Loughrey was attending to the boilers, when a bin of coal, in which were stored 30 tons of anthracite, suddenly gave way. The bin is about 10 feet high, and is close to the boilers, which furnish steam to heat the building.

In an instant the coal shot out and over the floor, while the room was filled with dust.

Mr. Loughrey heard the planks creaking just before they gave way, and he clung to a beam until the coal shot under him. His feet and legs were buried, but he escaped injury.

QUAKE AT SANTIAGO

Santiago, Cuba, Oct. 11.—A severe earthquake was felt here at 3 o'clock this morning. Great alarm was caused, but no damage done.

CRIPPEN AND MISS LENEVE WILL BE TRIED ON MONDAY

Doctor Will Have Three Lawyers and Miss Leneve Two—Crippen Will Be Principal in Prosecution—Crown Recommends Every Consideration For Girl.

London, Oct. 11.—It is probable that the trial of Dr. Hawley H. Crippen and Ethel Clara Leneve for the murder of the former's wife, Cora Belle Crippen, known by the stage name of Belle Elmore, will be opened on Monday.

The case was presented to the grand jury today by the recorder, who reviewed the evidence presented at the preliminary proceedings. The recorder said that he considered it doubtful that Miss Leneve knew at the time that a murder had been committed, but he recommended that a true bill charging her with being an accessory after the fact brought against her, as he was confident that every consideration would be shown the young woman. A bill in keeping with this recommendation—one charging Crippen as the principal undoubtedly will be returned.

Crippen will be represented at his trial by three lawyers, the best known of whom are Alfred Aspinwall Tobin, Unionist member of parliament for Preston; and Huntley Eugene Jenkinson. Of the two who will look after the interests of Miss Leneve, Frederick Edwin Smith is a leading Conservative member of parliament for a Walton division of Liverpool.

FORMER LONDONER WAS KILLED IN ACCIDENT IN CALIFORNIA

Word was received here yesterday afternoon from Los Angeles, Cal., of the death of Mr. Frank Westland, formerly of this city. Mr. Westland was killed in a railway accident on Sunday.

Dr. W. S. Westland, brother of the deceased, wired for particulars, and asked that the body be shipped to London for interment.

Frank Westland was well known in the city, having lived here until he had grown up to manhood. He was employed here for a time, going later to St. Thomas, and finally going to California, where he had been residing for some years.

Deceased is survived by his mother, Mrs. (Dr.) Westland, who is at Saranac Lake at the present time; one sister, Mrs. Fraser, Montreal, and a brother, Dr. Westland, this city.

HURLED 15 FEET BY STREET CAR BUSINESSMAN WALKED AWAY

Mr. Thomas F. McFarland Struck By a Trolley in Front of City Hall on Richmond Street, But Escaped Injury.

Mr. T. F. McFarland, vice-president of the D. S. Perrin Company, had a narrow escape from serious injury last night, when he was struck by a Belt Line car, No. 98, in front of the city hall, shortly after 9 o'clock.

Mr. McFarland had been attending the conference in the hall regarding evidence to be submitted to the technical commission, and stepped out of the Arcade to cross the street. He did not notice the car coming, and as he walked onto the track, it struck him. Mr. McFarland was hurled 15 feet or more, but fortunately was thrown into one of the big piles of soft sand which are piled along the street.

It was thought at first that he was badly injured, but he was able to get up and proceed home without assistance.

HAND WAS CRUSHED IN BOILER WORKS

Serious Accident to Mr. William Brownie, of the Hamilton Road.

William Brownie, of the Hamilton road, near Sackville street, met with an unfortunate accident yesterday afternoon while working in Leonard's Boiler Works. He was reaching down with his left hand to get some oil, while the right hand rested on the surface of a planer, when a huge piston rod, weighing about five hundred pounds, and connected with the planer, rolled over his hand and severely crushed three fingers.

The young fellow was immediately rushed to a physician, where the injured members were dressed, and unless complications set in the fingers will likely be saved.

A CLINIC HELD BY DR. FUTCHER

Morning Session of Alumni Was Largely Attended.

At the morning session of the Alumni Association of the Western Medical College, held at the Auditorium, Dr. Futcher, of Johns Hopkins University, Baltimore, held an interesting lecture on "The Proves." There were fully 150 medical men in attendance, and he was subject presented in a masterly manner by Dr. Futcher.

A hearty vote of thanks was tendered him on the conclusion of his address. A short discussion followed, in which several local physicians took part.

MIGHTY OVATION AT MONTREAL FOR THE DOMINION'S PREMIER

Sir Wilfrid Laurier the Central Figure of Great Demonstration Last Night—Greeted by Tremendous Crowd in Street and at Monument National.

Montreal, Oct. 10.—Tonight's demonstration for Sir Wilfrid Laurier in the Monument National was one of the most spontaneous and enthusiastic receptions ever accorded a public man in Canada. He returned recently from a triumphal tour throughout the west, but nothing in his western trip, or in fact at any time in his life, matched the splendid welcome which greeted him tonight. The Monument National was packed to the doors by cheering thousands long before the hour for which he was announced to speak.

The procession. Sir Wilfrid came down from Ottawa this afternoon by special train, reaching the Place Viger station about 7 o'clock. Here was given an informal welcome by the leaders of Liberalism in the city and province, after which he was escorted to his four-in-hand, and proceeded by massed bands and thousands of torch-bearers, was escorted in triumph to the Monument National. The streets along the route were packed with masses of humanity, while streaming banners, waving flags and blazes of colored lights and rockets proclaimed the city's welcome to the Premier of Canada. Banners emblematic of the achievements of Sir Wilfrid were prominently displayed, among them being references to the National Transcontinental, to Canada's prosperity, to her increase in population and prestige. References to the Georgian Bay Canal, to the Hudson Bay Railway and other projected enterprises were also prominently displayed.

REV. MR. HOWARD IS A HURON COLLEGE GRADUATE

Now Takes Charge of One of the Most Important Churches in Diocese.

Everywhere the graduates of London institutions are coming to the front. Rev. R. S. W. Howard, who is leaving London for the parish of Christ Church, Toronto, has just been elected in divinity of Huron College. Rev. Mr. Howard's new charge is one of the leading churches in the Diocese of Huron. Another Huron graduate who has recently been called to a very important charge, is Rev. Arthur Carlisle, who is going to Windsor in the near future.

Huron College has an enviable reputation as a theological school, and lays claim to noted graduates far and wide.

LONDONERS PLAN BIG MOVE IN THEATRICALS

Are Considering More Theatres in the U. S. and Are Also Looking Over Canadian Field.

The Canadian Theatres, Limited, the company incorporated last week, in which Mr. J. C. Duffield, Mr. T. H. Smallman, Major Thos. Beattie, Mr. John Pringle, London, and Mr. A. E. Dymont, Toronto, and Mr. Clark Brown, of New York, are interested, will form part of a very large theatrical syndicate which is extending its territory considerably.

The new company have taken over the Bennett Enterprises, and have joined Keith & Proctor, Percy Williams, and a number of other noted theatrical men, in opening new territory in the Southern and Western States.

They have theatres in Cincinnati, Louisville, and some other cities. A handsome new house is being built in Toledo and another is in contemplation for Columbus, Ohio.

Situation in Canada. So far as can be learned there is nothing definite about extensions in Canada, but the field is being thoroughly canvassed, and it is quite probable that several playhouses will be built in Canada, particularly in the west.

"We have taken over the Bennett Enterprises," said Mr. J. C. Duffield. "We now control all the theatres in Canada that formed that circuit. In addition we have joined with some other managers in the United States, such as Keith, Proctor, Percy Williams and others, to take over the southern and western circuit in the United States. We have theatres in Cincinnati, Louisville, and other places. A new playhouse is being built in Toledo, which will be opened in September. We have in contemplation another house in Columbus. We have other plans, but they are not formulated as yet, and concerning which we can give little or no information."

LONDONERS PASS THEIR EXAMINATIONS

Results in the School of Practical Science.

In the list of supplemental examination results of the School of Practical Science, it is announced that Mr. Clayton Eckert, of Queen's avenue, was successful in passing his supplemental in geology of the second year, and Mr. H. L. Roblin completed his term examinations.

In the third year, Mr. F. R. Mortimore, in theory of construction, and Mr. C. E. Richardson in experimental electricity, succeeded in securing the required number of marks.

INQUEST INTO DEATH OF EARL BARRETT

TRIP THROUGH THE WEST WITH WILLIAM GIBSON

Entertaining Lecture Last Night in the Empress Avenue Methodist Church.

Empress Avenue Methodist Church was the scene last evening of a very entertaining and instructive programme, the feature of which was a lecture delivered by Mr. William Gibson, superintendent of the Sunday school, on incidents and impressions of a four-months' trip taken by him from Winnipeg to Vancouver. The church was well filled, and the programme opened by an offering in a hymn. This was followed by a brief prayer by the pastor, Rev. Geo. Dewey, after which an enjoyable chorus was rendered by the choir.

Then with a few fitting introductory remarks by Mr. Dewey, Mr. Gibson was introduced to the audience. Mr. Gibson opened his lecture by quoting the famous advice of Horace Greeley, "Go west, young man, go west," and gave in detail an interesting account of the railroad journey from Toronto to Vancouver, describing the different towns and cities en route, and remarked the marvelous growth of such cities as Winnipeg, Saskatoon, Calgary, Medicine Hat, etc. He next dealt with the different types and conditions of people common to the west, describing the Germans in particular as being splendid farmers. In this connection, he recited a serio-comic skit entitled "Little Jacob Strauss," which was enthusiastically received by the audience.

Procuring a Homestead.
Mr. Gibson then proceeded to describe the methods of procuring a homestead, of the long line of eager homesteaders who gather in front of the Government lands office sometimes waiting four and five days before the office opens in order not to lose their turn.

In giving his impressions of the west, Mr. Gibson stated that he was living in a great and glorious country. "It cannot be told of it, cannot be described," he said. "We look away to the east and see great waterways, the great lakes, the St. Lawrence River, and Niagara Falls. Then westward, Ho! to the broad and extensive prairies, and away beyond to the Rockies, 3,000 miles from Montreal to Vancouver, and all the time under the same old flag."

Mr. Gibson here rendered a patriotic piece entitled "Under the Old Flag," in which he was ably assisted by the choir.

A Serious Problem.
In conclusion, Mr. Gibson stated that the great inflow of mixed races into the west presents to Canada and Canadians a serious problem, and pointed out the great need of missionaries to preach the gospel in the west. In this regard, he applied the famous signal and watchword to all Canadians.

"Canadians," he said, "our country expects, our God expects, that every Canadian, every true Christian, shall this day do his duty, until every foe is vanquished and Christ is Lord indeed."

The lecture was interspersed with some exceedingly humorous Irish stories from Mr. Gibson's seemingly inexhaustible fund, while the choir ably assisted to make an appreciative evening's enjoyment.

Mr. Robert Greene moved a vote of thanks to the speaker, which was seconded by Mr. Robert Bowie.

PLANS TO TRAP DISEASE MICROBES

Boston Professor Says Milk and Other Things Can Easily Be Purified.

Boston, Oct. 11.—That microbes can be caught in traps, that they can be lured away by a real "bait" from water, milk or other liquids in which they live, and that, once in the trap, they can be destroyed or can be kept for observation like rats and mice, is asserted by Professor F. P. Gorham, of Brown University, a bacteriologist, whose experiments in treating infected milk with the ultra violet ray have already had important effects in food purification.

Professor Gorham's idea is supported by experiments just completed both in this country and in France and England. It means that before very long the householder who suspects the milk is infected may have a "trap" in a very short time feel assured that he has drawn out from the liquid all the infinitesimal creatures that bring disease and death.

When these traps are perfected and placed upon the market, they will do away with the boiling of water or milk to kill the dangerous microbes, and the person drinking the liquid after it has been through the "trap" will know that it is clear of the microbes, instead of being filled with their bodies, as is the case when they are killed by the boiling process.

"There is not the slightest doubt," said Professor Gorham, "that certain types of microbes are attracted by oxygen, are fond of it, we may say. If a current of electricity is passed through water, oxygen is liberated around one of the wires through which the current is brought into the tank. Bacteria will immediately be attracted to the wire where this gas is generated."

"The trap is, of course, separate from the main vessel, and if the current is kept on and the temperature is suitable the main receptacle may be purified. Something of this sort has already been done in France. A current of electricity was passed through water to form ozone, and this ozone destroyed, instead of trapping, the microbes. The trap might be of great help in concentrating bacterial life in a large quantity of liquid to make cultures for further examination."

"It may be that with experiments the microbe trap may prove as satisfactory for careful work as the culture is today. There is no question that by the use of electricity microbes can be attracted from the liquid they inhabit or killed in it by the generation of ozone."

BOY DROWNED

Workers Had to Draw Off Ninety Million Gallons of Water to Recover Body.

New York, Oct. 10.—After having drawn off 90,000,000 gallons of water in the Croton aqueducts mains near the Highbridge station in the upper part of the city, searchers today found the body of Joseph Plenty, a 9-year-old boy, who fell into the aqueduct through an emergency opening while playing with companions on Saturday. It took nearly a day to empty the big pipes in the section into which the boy fell.

FATHER OF RURAL MAIL DELIVERY

Mr. George Wilcox, of Springfield, Ont., Claims This Honor.

Mr. George Wilcox, of Springfield, Ont., is the father of rural free mail delivery in Canada. For many years Mr. Wilcox has taken a keen interest in this matter, having seen its advantages while visiting his 500-acre farm in Michigan.

In January, 1906, he undertook a publicity campaign to induce the Government to take the question up. He wrote to Sir Wilfrid Laurier, Sir Frederick Borden, Hon. Rudolph Lemieux, Hon. Sydney Fisher, and many other ministers, and scores of private members, urging them to urge the Government to establish rural mail delivery. Mr. Wilcox received many letters from the ministers, asking for suggestions, which he forwarded to them.

"I was the first to suggest rural

WARDS OF THE AID WERE HAPPILY WEDDED

Inspector Sanders Tells of a Marriage He Attended in Brantford.

The Children's Aid Society held a regular monthly meeting yesterday afternoon in the city hall.

Inspector Sanders stated that Miss Barnard, the collector of the society, was now making her annual call. The inspector also stated in his report that he had been present at a wedding in Brantford in which one of the wards of the society had married an estimable young man of that city. He was also pleased to report the happy marriage of another of the girls who had been under the care of the society.

LITERARY BURGLAR GOES TO SING SING

Twenty-one Years for Man Who Left Notes in Places He Robbed.

New York, Oct. 11.—George Wright, who earned the name of "the literary burglar," through the notes he left in the homes of his victims, has been sentenced to serve 21 years in Sing Sing. He has served three previous terms for similar offenses. In nearly every house he robbed

FOUND GUILTY

Benninger Remanded at Galt White Police Seek Pals.

Galt, Oct. 10.—Johann Benninger, the alleged ringleader of the gang of burglars which has been operating here for several months past, pleaded guilty in the police court this morning on two charges of robbery, one at the Galt Robe Company and the other at St. Clair Bros. The prisoner was remanded for a week to allow an effort to be made to arrest his two pals.

Wright left a note commending the owners on the quality of the silver he had taken, or abuse them when the loot was not worth carrying away.

This Home-Made Cough Syrup Will Surprise You

Stops Even Whooping Cough Quickly—A Family Supply at Small Cost.

Here is a home-made remedy that takes hold of a cough instantly and will usually cure the most stubborn case in 24 hours. This recipe makes sixteen ounces—a family supply. You couldn't buy as much or as good ready-made cough syrup for \$2.50. Mix two cups of granulated sugar with one cup of warm water, and stir 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a 16-oz. bottle, and add the Sugar Syrup. This keeps perfectly and has a pleasant taste—children like it. Braces up the appetite and is slightly laxative, which helps end a cough.

You probably know the medical value of pine in treating asthma, bronchitis, and other throat troubles, sore lungs, etc. There is nothing better. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in gualic acid and all the natural healing pine elements. Other preparations will not work in this formula.

The prompt results from this inexpensive remedy have made friends for it in thousands of homes in the United States and Canada, which explains why the plan has been imitated often, but never successfully. A guarantee of absolute satisfaction or money promptly refunded goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Company, Toronto, Ont.

THE FOREST FIRES.

The forest fires are raging mainly in the State of Minnesota, immediately south of the Ontario boundary. Minnesota and Ontario are separated by the Lake of Woods, the Rainy River, Rainy Lake and a chain of small lakes reaching down to Lake Superior.

The burned district thus far is chiefly south of Rainy River and the Lake of Woods, but the flames have crossed the boundary at several points, extending even into the wooded portion of south-eastern Manitoba.

The town of Rainy River, which is threatened with destruction, is on the north side of the Rainy River, which has so far been its protection. Beaudette, Minn., on the southern side of the river, opposite the town of Rainy River, is in ashes. The Canadian town is crowded with refugees, but they may be driven out at any moment.

The Canadian Northern Railway, which traverses the Canadian side of the Rainy River, and cuts across the state of Minnesota to Manitoba, skirts the northern edge of the fire area. It has proved a friend in need to the Minnesota refugees, who have been carried out of the fire zone in thousands.

OCTOBER.

While the American poet voted for the "day in June," we feel now the superior thrill of an October dawn, the dazzle of a more level sunshine in unclouded air, the thankful spirit of nature's ripeness.

Get out and enjoy the scene of prosperity. Now is the time for motor cars, on the dry level roads, to flit past Springbank towards Byron and Delaware, where the chestnut burrs are opening.

The dispatches from Lisbon are still under the censorship of the new Government. The outside world may not learn for a few days the actual truth as to the scenes attending the birth of the republic.

Lieutenant Sutor, of the British army, wrote a book in which he complained that army officers as a class did not take their work seriously, and that the army offered no career for a man who was in earnest about his profession.

USES OF THE MOVING PICTURES. At a recent church convention a noted divine ventured the opinion that if St. Paul were on earth today he would certainly utilize moving pictures in his preaching.

ilities are fast obtaining recognition. One American municipality recently contracted with a moving picture theatre to display a series of films showing the effects of impure milk. In the same community the public school board is considering the use of the films as a regular part of the curriculum.

For the science student, the biologist, and the medical lecturer the scope of the moving picture is limitless. As usual along this line France is to be found leading the way. Recently in Paris a wonderful demonstration on the microbe of recurrent fever was made in the factory of Pathe Freres, the celebrated film makers.

"First of all, a view was given of a scientist's laboratory, with two doctors busily engaged in examining bacilli through a microscope. Suddenly, from a corner of the room, a lively chimpanzee bounds upon one of the tables, but the doctors seize him, with the object of using him as a fearful example. They inoculate him with the microbe of recurrent fever. Then a switch of the cinematograph shows a magnified drop of his blood, with the fever microbes chasing each other through it.

Complaints have been made, more especially as to American cities, of the demoralizing subjects of picture shows, but public opinion is eradicating this feature. If the men in the business are wise they will support the demand for an intelligent censorship. The cinematograph may be made a greater means than at present of instruction and innocent entertainment, and a powerful agency for the general uplift.

Sir Wilfrid Laurier frankly says he will conclude a reciprocity treaty with the United States if the terms are profitable to this country in the Government's opinion. It is an unassailable position in common sense, but it will be assailed just the same by partisans who think there is some capital to be made by appealing to prejudice against the United States.

The Ideal Remedy For Young and Old

Nature's gifts do us good, if used judiciously. We eat bread from babyhood to old age without ever tiring of it. We drink water, year in and year out, with the greatest benefit to our health. So too, we eat fruit in season and are better for the change of diet.

Nervous Strain and the Will

People who have formed the habit of "standing outside and watching themselves" are well aware of the psychological fact that to some extent the physical manifestations of emotion are, in a sense, the emotion itself, and that by standing by and watching those manifestations an emotion can be largely produced or dissipated. By merely lowering the pitch of the voice in the midst of a heated discussion one may reduce at any rate one's own share of the heat. To smooth the knitted brow or relax the clenched jaw is a fairly long step towards arresting worry. On the other hand, anyone can work himself up into a state of irritability or anger by raising and straining his voice, or like Scott's Highlanders, snuffing fiercely with his nose. And the peculiar clenching of the teeth and vibrating thrill of exultation can be produced at will and give a momentary access of the emotion itself, with something of the placid satisfaction that follows. And so with amusement, joy and other emotions, good and bad. With this fact chiefly to work on, an American lady, Annie Payson Call, has made a whole book, "Nerves and Common Sense," out of the avoidance or cure of nervous strain and irritability. The nervousness which is insomnia, and the nervousness which is irritability, and various other forms of nervous upset, are all, she has observed, accompanied by some sort of physical strain or muscular tension—"contraction," as she calls it—and the treatment, in various forms, is to relax this physical tension, when the mental tension will go with it. Once a person is so relaxed that he can notice the physical manifestations of nervous strain, and wise enough to wish to control it—the good will must go with the respect—the habit—the trick is done. But the difficulty with most people is that they do not know the trick. The author has some curious devices by way of substitute, though not, apparently, conscious that

A SON OF THE IMMORTALS

BY LOUIS TRACY.
Author of "The Stowaway," "The Message," "The Wings of the Morning," Etc.

"Then this newest of all things felt very lonely, and he began to understand something of the isolation that would surround him in that Black Castle of his daydream, where, if all went well with him, he alone would be the 'forerunner.' A longing for companionship came upon him. He wanted someone who would laugh and talk with him, someone whose mind would not be running everlastingly in the political groove, and an irresistible impulse urged him to ask for a telegraph form and write:

"Beaumont, Villa Turquoise, Chantilly: Come and join in the 'ALEC.'"
He gave the message to an attendant, bidding him dispatch it from Chantilly. He reasoned that Beaumont would be puzzled, and he would be in a fair way toward settlement. Moreover, by depriving the Chantilly team of their crack Number One, Alec would equalize matters for the Wanderers, and the love of sport is ever the ruling passion in headstrong youth.

"By gad," he said to himself, "I'm showing craft already. That is a Machiavellian whif!"
It was, as it happened, a stroke worthy of the wily Florentine himself; but neither he nor his adviser would possibly have estimated its true bearing on events.

After dinner Stampoff found him. Delgado was astounded at first. Stampoff, short of his immense mustache, ceased to be a general, and the wisened, keen faced old man bore a striking resemblance to a certain famous actor of the Comedie Francaise; but he was seated in Alec's compartment ten seconds with the door closed ere he showed that the loss of his aspect had in no way tamed his heart.

"Yes," he said, passing a lean hand over his blue-black upper lip. "It is necessary to disguise myself. Ten years are not so long, and I am known on the European continent. You are going to Delgratz and the Schwartzburg. Once there, with three thousand bayonets behind us, we can do anything. Leave the fighting to me, you."

He stopped and glanced at a fat Turk lumbering along behind him. Delgado was a little surprised. "Exactly, my dear old friend," said Alec. "Drop titles, please, until we have a right to use them. I have a heavy seam to be left to gentlemen ushers and court chamberlains. Alec and Paul sound better, anyhow. But you were outlining a scheme. I go with you as far as Delgratz; but those bayonets in the Schwartzburg will not be behind me. I hope some of them may come within measurable distance of my manly chest; but even that is improbable, for I have always preferred that vulgar assassina are cowards."

Stampoff's bushy eyebrows had been raised, and he was staring at Alec. "You forget, perhaps you do not know, that these men actually have actually declared for you—for a Delgratz," he growled.

"And a pretty gang of cut-throats they must be! I read the details after leaving Paris. That poor woman, Paul, she was pretty and vivacious, I have heard. Just picture the scene in the dining-hall. One woman, three unnamed men, the King leaping up and endeavoring to shield her, and the salient seventh flying volleys at them. Then, when the last sob is uttered, the last groan stifled, husband and wife are piled to the dogs. Oh, it makes my blood boil! By the Lord! when I am king I shall hang the whole crew!"

He spoke very quietly. Anyone looking through the window in the upper half of the door would have seen a young man seemingly telling an older one something of ordinary import. But the words were crisp and hot. They came like drops of molten steel from the furnace of his heart.

Stampoff's thin face grew swarther. He bent forward, his hands on his knees. "Will you tell me why you are going to Delgratz?" he asked, with a curious huskiness in his voice.

"To occupy a throne—or a tomb. In either event, I am only copying the example of the vast majority of my returned associates."

"The throne is yours by right. Theodore has fallen almost precisely as your grandfather felt in the corridor of the castle and escaped with his life only because there was a struggle and a few faithful followers carried him to safety."

"If I depended on the fealty of the Seventh Regiment I should not expect to find even the faithful few. For Theodore may have looked for them; but they did not exist."

"Then we had better leave the train at Chantilly and return to Paris."

"Certainly, if the butchers of the Schwartzburg are to form my escort."

"God's bones! never have I been so mistaken in a man! Your father, now— one feared he might have lost his coat."

"but you, Alec! The devil take it! I thought better of you, I suppose, then, if you have to be a candidate—or a rival!"

"Julius is a candidate—or a rival?" Stampoff paused, irresolute. He was deeply troubled, and his fierce searchlight eyes were fixed on Alec's face. "I had real hope of you," he muttered. "You would appear to the women, and they are to have half the battle. Why are you so squeamish? You needn't embrace the men of the Seventh. You can use them. You can kick them aside. That is the fate of ladders that lean to throes. You know it, an old enough not to care."

"I am not thinking of ladders as yet, Paul. Sufficient for the day is the foundation thereof, and I refuse to build my kingdom on the broken vows of traitors."

kingdom on the broken vows of traitors."

"Stupid words! The ravings of cheap philosophers. By your own showing, I am a traitor!"

"Yes, but an honest one. You fought fairly and were beaten. Were it otherwise Theodore would never have tried so often to tempt you to his service."

The general flung himself back in the carriage and folded his arms. The steel spring was relaxed. He was baffled, and enveloped him in his chilling fog. "Very well, then. We descend at Chantilly," he said, with a sigh that was a tribute to adverse fate.

"Having paid for your ticket, you may as well come on to Vienna," said Alec, with irritating composure.

"Curse Vienna! Why should I take that long journey for nothing?"

"You'll drive me crazy. How will it oblige you?"

"Because I am going to Delgratz, general, and there are a whole lot of things I want to ask you."

Stampoff bounced up again. "Will you be so kind as to explain what you mean?" he cried, indignantly.

"Oh, yes. We are going to talk far into the night, and it is only fair that you should know my intentions. Otherwise the valuable counsel you will give me might be misdirected and be of no use."

"I fail to satisfy your demands, would turn and rend me as they have rendered Theodore. Be sure that the object of my selfish, Stampoff. Not one of these men has ever seen Prince Michael or myself. Even the leaders must have been mere boys when Ferdinand VII. was attacked—probably by their fathers. Well, I shall have none of them. They and their like are the curse of Kosovia. Who will pay taxes to keep me in the state that becomes a king. Not they. Who will benefit by good government and honest administration of the laws? Assuredly not they, for they batten on corruption; they are the maggots, not the bees of

Industry. Over whom, then, shall I reign?
"I am young Paul; but I have read and thought—not very deeply, perhaps, but I have looked at things in that strong, clear light of Paris, which is heady at times, like its good wine, but which enables men to view art and politics and social needs in their nakedness. And I am half an American, too, which accounts for certain elements in my composition that detract from French ideals. A Frenchman cannot understand, Paul, why some of my excellent kith and kin across the Atlantic should condemn studies of the nude. But somehow I have a glimmering sense of the moral purpose that teaches us to avoid that which is not wholly decent. So I am a blend of French realism and American level-headedness, and both sides of my nature warn me that a king should trust his people. Sometimes the people are slow to learn that vital fact. Well, they must be taught, and the first lesson in a state like Kosovia might well be given by trying those felons of the Schwartzburg before a duly constituted court of law."

LOST HER JEWELS

Chicago Woman Forced To Give Up Gems By New York Customs Officers.

New York, Oct. 10.—Mrs. Samuel B. Steele, who gave her address as 3339 Michigan avenue, Chicago, is the latest returning traveller to run afoul of customs inspectors. For her failure to declare them, a diamond barrette, a diamond bracelet, a silver mesh bag with diamond monogram, and a coin purse which Mrs. Steele admitted buying abroad, were seized on her arrival from Europe today.

It was announced that the customs authorities would content themselves with the seizure and would not ask that Mrs. Steele be prosecuted.

HINTS FOR THIN FOLK

By Cynthia Grey.
"How can I gain flesh?" This is the oft-recurring question of the thin woman.

It is easier to reduce flesh than it is to gain it, and it takes much patience and perseverance to obtain results.

The thin woman should rest much, eat much and worry little. She must learn to move slowly—to abandon the habit of hurrying which all thin women seem to have.

She must learn how to sleep and eat. If she has a distaste for the kind of food which will nourish her, she must cultivate a taste for it.

If she drinks a cup of hot milk before retiring she will aid the fattening process, as well as secure for herself the long, sound sleep which fattens as much as does a fat-producing diet. There is nothing like sleep to build up and restore nerve power.

Deep breathing is wonderfully effective in the matter of putting flesh on the chest. Long, deep breaths that should be taken before an open window or out of doors many times a day.

A short rest should be taken every day, even though sleep may not come. One cannot help feeling better for the remainder of the day and evening.

LONDON TO ASK FOR TECHNICAL SCHOOL

Representatives Who Will Give Testimony Agreed on This Point Last Night.

BACKED UP BY DISTRICT

Effort Will Be Made to Lay All Information Possible Before Commission in a Systematic Manner.

There will be a demand made for a technical school in London when the royal commission meets in this city to hear evidence on technical education on Oct. 17 and 18.

At the meeting of the representatives of the different organizations throughout the city, held last night in the city hall, this decision was arrived at.

There were quite a number of trades and professions represented at the meeting.

Mayor Beattie, who was elected chairman, read a letter from Mr. Jas. A. Robertson, the chairman of the royal commission, asking that the evidence to be produced be put in concrete form.

Inspector Edwards was chosen secretary of the meeting.

Limiting the Number. Mr. H. B. Archer suggested that the different organizations be allowed to name their own representatives to give testimony.

Mr. C. M. R. Graham suggested that the committee name the hours at which certain delegates should give their testimony.

Mr. F. E. Leonard considered this a good suggestion, but it was thought by the majority of the meeting that the commission would settle these details themselves.

Mr. Arthur W. White and President Harry T. Reason, of the board of trade, made a strong plea for a technical school for London.

"What we want to impress upon the commission is that we want a technical school," said Mr. White.

"That is what we are after, and all our testimony should bend towards that end," said Mr. Reason.

"The need is apparent," said Dr. Reason. "We should present a united demand for the school. We need it, and we should have it."

The delegates agreed that a technical school was greatly to be desired, and that they would make a demand for it.

It is quite probable that some Ingersoll representatives will be allowed to give evidence when the commission meets here.

Those Present. Those present at the meeting were Mayor Beattie, chairman; H. B. Archer and W. Ruse, of the Trades and Labor Council; W. W. Gammage, C. M. R. Graham, Dr. Wyckoff, Principal McCutcheon and Inspector Edwards, of the board of education; President James, of the Western University; Dr. Reason, A. W. White, F. E. Leonard, T. F. McFarland and Ed. Nelles, of the board of trade; George Moll, S. E. Cosford and Geo. Fowler, representing the stationary engineers; John Jones, E. R. Dennis, William Tytler, Geo. Young, William Brown, Geo. Everett, Chas. Gould and Ed. Gerry, of the Builders' Exchange.

JOAN SETS NEW WORLD'S MARK IN BIG STAKE AT LEXINGTON, KY.

Cleveland Filly Captures Classic Transylvania Event.

McDEVITT HAS A FINE DAY

Driver of Hailworthy, the Favorite, Is Again Fined For Shady Work.

Lexington, Oct. 10.—Seven races were pulled off with a total of twenty heats today.

It was a great day for the Cleveland trainer, Mike McDevitt, who not only won the classic Transylvania stake with the four-year-old filly Joan, but also the Championship Stallion stake for the three-year-old trotters with the Kentucky Futurity winner, Grace.

Joan set a new world's record for her age, beating a record which has stood for sixteen years, while Grace had an easy time in winning the rich event offered by the American Association of Trotting Horse Breeders.

Big Stake a Feature. Interest centered on the classic Transylvania stake, in which the bay gelding Hailworthy was favorite at \$400, Joan bringing \$300, Doodle Archdale, Billy Burke and Major Stronner \$180 each, the Michigan stallion Stroller \$55, and Willy \$30.

As the race turned out, it was a duel between Joan and Doodle Archdale. The latter led in the first heat to the home stretch, with Willy second, but when McDevitt turned on the steam Joan out-trotted them easily at the finish, winning pulled up in 2:05 3/4, a new world's record for four-year-old fillies, the best previous being the mile in 2:06 trotted by Fantasy in 1894, and that was not in a race, but in a trip against the wind.

Nottingham Fined Again. In this heat Hailworthy was not driven out, Nottingham, his driver, taking things easy.

In the second heat Hailworthy made a break and then fell back to last place on the first turn, then was out loose and driven to win, trotting the last three-quarters in 1:33, only to finish fourth. This took a lot of the "run" out of the favorite, and he had no chance to beat Joan in the final round. McDevitt, who drove Joan, also drove Grace to victory in the Kentucky Futurity on the opening day, and this is the first time in the history of the field and she had won both events in the same year.

There was not much of a contest to the Stallion stake. Grace was a won as she pleased. Native Belle being the only serious contender, and the two-year-old champion was no match for the Cleveland filly when it came to a stretch drive.

Abbe Wins Twelfth. The Abbe, winner of the Chamber of Commerce stake at Detroit, finished his racing season by winning the Wilson stake, this being the twelfth straight victory of the season without a single defeat. The Johnston Stake for 2:24 trotters saw the overturn of a favorite, the Indianapolis trotter Baron Penn winning after the first choice, Crighton, had won the first heat.

The 2:09 trot furnished the most excitement of the afternoon. Startle, the favorite, but both Soprano and Grace Girdle were well supported. The latter won the first two heats, then Soprano came on and won the race, the Michigan horse being unable to head the filly. Twinkling Dan had no trouble in winning the pacing

B. JOHNSON AND HERRMANN TALK OF COBB AND LAJOIE DECIDE "NEVER NO MORE"

Heads of Major Leagues Will Not Stand for Any More Individual Contests If They Ever Get Through Present Mix-Up Over Auto for the Champion Batsman.

NEVER AGAIN FOR AUGUSTUS. Cincinnati, Oct. 11.—August Herrmann, chairman of the national baseball commission, in discussing the Lajoie incident tonight, said: "Lajoie and Cobb, according to an official average, have the race for the leading batsmen in both leagues between them. Which has won, I do not know. The national commission cannot decide until it receives the official averages of both leagues."

"I do want to say one thing, however, since the question came up as to the hits made by Lajoie at St. Louis, and that is that no more prizes or bonuses will be permitted under the rules of the national commission. We shall be very careful to eliminate anything of the kind in the future."

"IRREPARABLE INJURY," SAYS BAN. Chicago, Oct. 10.—President B. B. Johnson, of the American League, today announced that no more prizes would be offered or permitted while he continued at the head of that baseball organization.

President Johnson said that he had taken this position as a result of the Lajoie incident. He also said that he was making an investigation of the allegations made by St. Louis sporting writers.

"Even if the assertions prove unfounded," said President Johnson, "the merest suspicion of crookedness works irreparable injury to the game, and from now on no more individual contests for prizes will be allowed."

Errors—Hofman, Kane, Weaver 2, Betcher. Two-base hits—Mowrey, Ellis. Archer. Three-base hits—Konechey, Ellis. Home runs—Schulte, Hearne. Hits—Off Peister 6 in 3 innings, off Weaver 10 in 6. Sacrifice hits—Konechey, Huggins, Hofman. Stolen bases—Konechey 2, Ellis.

Double play—Hearne and Konechey. First on bases—Chicago 11, St. Louis 9. Left on bases—Chicago 11, St. Louis 9. Hit by pitcher—By Hearne 1 (Steinfeld). Struck out—By Peister 4, by Weaver 3, by Hearne 4. Passed balls—Needham, Bliss. Time, 2:38. Umpires, O'Day and Rieger.

Athletics Beaten by Subs in Ten Innings. Morgan Allows Champions but Six Hits—Dygart Whaled for Eleven.

Philadelphia, Oct. 10.—The new champions of the American League were defeated, 5 to 4, in a ten-inning contest by a picked team here this afternoon in the first of the exhibition games to be played this week to keep the players on edge for the world's series.

The picked team was made up principally of substitutes from the Athletics. Morgan, who pitched for the picked team, allowed the champions only six hits, while the substitutes hit Dygart lead and were tied up in the eighth inning. The picked team won out in the tenth. The score follows:

Lower One Beaten by Former 2 to 0 in Fast League Contest.

LOWER III DROPS CONTEST. New Ball is Initiated in Collegiate Matches—Dr. Downing Referee.

Last night a new football was initiated in the Collegiate Institute grounds, where two lively games were played.

In the first Lower X, defeated Lower I, by the score 2-0. Broad, of Lower I, did some fine work and secured one of the goals by a rush almost the length of the field. Lower I boys, although a little light in weight, played a good game.

The following was the line-up: Lower X—Goal, Fetterly; full back, Sloman; half back, Sanborn (capt.); centre forward, McCrimmon; inside right, Fitcher; outside right, Ashman; inside left, Broad; outside left, Hamilton.

Lower I—Goal, Cambridge; full back, Brickenstein; half back, Geo. Brown; centre forward, Tom Browne; inside right, Catalano; outside right, Cambridge; inside left, Ball; outside left, Constable.

The second match was equally as interesting as Lower III had won their previous game and were anxious to stand well in the league, whereas the Com. (sen) had not as yet won a contest, and thought it time to get busy. So with this aim in view they went at it in earnest and won out.

Capt. Fish, of the Com., played fast and scored the only goal during the entire game. Hays' work on full back is also worthy of comment, atterson, of Lower III, did well.

The line-up: Com.—Goal, Jones; full back, Hays; half back, McPhillips; centre forward, Fish (capt.); inside right, Sawyer; outside right, Pollard; inside left, Cuselino; outside left, McCallum.

Lower III—Goal, Platt; full back, Pardy; half back, Nelles; centre forward, Patterson (capt.); inside right, McCann; outside right, McNeil; inside left, Moyer and Mullins; outside left, Moore.

Dr. Downing refereed both games in his usual smooth manner.

Miss Dorothy Campbell, of Hamilton, Golf Winner at Chicago.

Woodstock Girl Too. Ontario Players Show Fine Form at National Tourney at Windy City.

By Associated Press. Chicago, Oct. 10.—Miss Dorothy Campbell, of Hamilton, Canada, holder of the Women's U. S. C. A. and Canadian championships, clipped four strokes off the woman's course record in the women's national golf tournament today at Homewood, getting a score of 85 for the qualifying round.

This was a high wind blowing, which made the playing more difficult. Miss Campbell went out in 44 and back in 41.

Miss Florence Harvey, of Hamilton, Ont., turned in a card of 47-46-32. This was regarded as sure to qualify, as anything below 110 was expected to land among the first 32.

Mrs. A. E. Hedstrom, of Buffalo, made 60-56-106; Mrs. G. H. Martin, of the Tavistock Golf Club, England, turned in a card of 45-45-90.

LARRY LAJOIE DECLARES HE SHOULD HAVE RECEIVED HITS IN THE TAKLED-OF MATCHES

Unofficial Champion Batsman Says He Made One More Bingle Than He Was Given Credit for by the Scorers—Boosted His Average by "Out Guessing" the Fielders Is His Explanation.

[By Associated Press.] St. Louis, Oct. 10.—Each of the five local sporting writers, in commenting on yesterday's American League baseball games between the Cleveland and St. Louis teams, charged today that certain members of the St. Louis team allowed Napoleon Lajoie, of Cleveland, to obtain hits.

The object of this, it is charged, was to enable Lajoie to score a larger batting average, during the season, than was credited to Tyrus Cobb, of Detroit.

NO TRICKERY WHATEVER. Lajoie and other players say there was no trickery whatever, merely cleverness and misjudgment combined.

Lajoie is credited by the official scorer as being at bat four times in each game of the double-header. Each time he obtained a hit. In the summary he is also credited with a sacrifice hit.

When Lajoie was at bat, Corriden played far back of third base, the writers say. He ran up each time that Lajoie hit towards him.

PLAYERS OUTGUESSED. IS O'CONNOR'S OPINION. Malloy and Nelson were the St. Louis pitchers yesterday. In the only other game that Malloy pitched against Cleveland, Lajoie got one hit in three times at bat. Nelson never pitched to Lajoie before.

President Hedges, of the local team, refused to discuss the team's playing. "Lajoie outgessed us," said Manager O'Connor. "We figured he did not have the nerve to bunt every time. He beat us at our own game. I will not send any of my players in to play up close to Lajoie when he tries to bunt."

Stealing Brains And Stealing Money

Some people are honest in theory and dishonest in practice. They steal brains where they might not steal money. Attendance Has Been Unusually Large During Past Few Months—Clubs Are Pleased.

By Associated Press. Chicago, Oct. 10.—Reviewing the 1910 schedule, B. B. Johnson, president of the American League, yesterday said:

"In every respect the 1910 season has been the banner year of the American League, both financially and in the standard of play. Striking features were the openness of the race until the new champions forged ahead to a more commanding lead in September.

The final figures on attendance have not yet been compiled, the clubs of the league played to bigger crowds this season than in any previous race. A Short Schedule. "The short schedule, for which the league has always stood, proved another big success, but steps will be taken at the winter meeting to arrange a schedule that will down the curtain on or about Oct. 1. By carrying the games into the middle of October, the players and the club managements injure the popularity of baseball and it always has been the aim of the American League to father the short season."

World's Missionary Convention.
On Monday afternoon Mrs. Gordon Wright, of South London, gave an address before the Woman's Missionary Society of the First Methodist Church, in Wesley Hall, on the World's Missionary Convention, which was held last summer in Edinburgh. There was a large attendance and Mrs. Wright's address was very much appreciated.

Marshall-Belton.
Saturday afternoon, at the residence of Mr. L. H. Scandrett, Craig street, uncle of the bride, Miss Fay Belton and Mr. Ernest Marshall, of this city, were united in marriage by Rev. J. G. Stuart, of Knox Presbyterian Church. Miss Gwendolyn Scandrett, cousin of the bride, made a very dainty little flower girl. The happy couple left Saturday on a honeymoon motor trip. They will reside in London.

TWO INJURED LADS REGAIN CONSCIOUSNESS

Boys Hurt at Perrin's Are Now on Fair Way to Recovery.

The condition of John R. Welspring and Sam Govier, who were injured at Perrin's on Thursday last, shows continued improvement. Both have returned to consciousness. Strong hopes are now entertained for their recovery.

Mr. Patrick Hyland, who was struck by a street car on Friday night, shows no improvement, and his condition is considered very grave.

WABASH CONDUCTOR PAINFULLY INJURED

Duncan Stewart Fell From Steps of Train at Simcoe.

St. Thomas, Oct. 10.—Duncan Stewart, one of the oldest railroad passenger conductors in the employ of the Wabash Railroad, and living in Windsor, is confined to a bed in Hotel Dieu, Windsor, as the result of severe injuries received from falling off the steps of his train on Thursday.

Mr. Stewart was alighting from the steps of the train at Simcoe, and the rain having made them rather slippery, lost his footing and fell heavily between the station platform and the car. He struck on his back, inflicting several bad gashes and bruises. It is stated at the hospital that he will be confined to his bed for about a week.

METHODISTS IN LEAD.

London, Oct. 10.—Rev. H. Haigh, the British delegate to the Canadian Wesleyan Conference, said the Wesleyan body was undoubtedly the strongest religious force in Canada at the present day, paramount as it was in members, social influence and capacity.

MANUEL SAYS HE HAS CLEAR CONSCIENCE

Is Leaving Portugal But Does Not Mean to Abdicate.

Gibraltar, Oct. 11.—Before leaving Portugal, King Manuel sent the following autograph letter to the Portuguese premier:

"I am compelled, owing to stress of circumstances, to embark, but wish to inform the people of Portugal that my conscience is clear. I have always acted as a faithful Portuguese, and I shall always do my duty. I shall ever remain at heart a true Portuguese, and hope that my country will do me justice and try to understand my feelings. My departure must in no way be taken as an act of abdication."

MEDICAL COLLEGE ALUMNI HAD INTERESTING PAPERS

Western Ontario Doctors Were Addressed by Two Eminent Men.

Over one hundred medical men of Western Ontario, alumni of the Western Medical College, attended the annual meeting here yesterday.

In the afternoon a session was held in the auditorium, when two excellent papers were read by Dr. Fitcher, of Johns Hopkins University, Baltimore, and by Dr. Crile, of Cleveland.

Dr. Fitcher is an old Elgin County boy, having been born near Middlemarch, and has made a most enviable name for himself in experimental work in the great American university. His paper was attentively listened to and it imparted a great deal of information to the medical men present.

Dr. Crile is a Cleveland surgeon, with an international reputation, and his paper was a most comprehensive one on surgical work. Both were followed by interesting discussions, in which a number of the visitors took part.

NEW MINISTERS.

Lisbon, Oct. 11.—When elections are held, and a new president is chosen, Dr. Brito Comacho will become minister of war, and Dr. Menezes minister of marine. These two were primarily instrumental in engineering the revolution.

The crude green and red flag will be discarded, and the old Portuguese flag, but without the crown, adopted as the emblem of the republic. The Marquis de Soveral, the Portuguese minister at London, will be recalled.

It is reported that the war minister has ordered the entrenched military camp, which was to have been raised today, to be retained intact with all its artillery in readiness to repel any royalist attack.

It is stated that the Government will confiscate the king's property, but will respect Queen Amelia's fortune, which was inherited from her father.

Refugees Arriving.

Badajoz, Spain, Oct. 11.—A large number of monks and nuns, fleeing from Portugal, have arrived here. The under-secretary of the navy of the last Portuguese administration, also has reached Badajoz, after a flight across the border.

SAYS GIRL'S FATHER HORSEWHIPPED HIM

Youthful Lover Has His Sweetheart's Parent Arrested For Assault.

[G. N. W. Dispatch.]
Huntsville, Ont., Oct. 10.—A sensation was created here today, when a young man, residing a few miles from Huntsville, laid a complaint that led to the issuing of a warrant for the arrest of a well-known farmer of the same locality.

The complaint alleges that while on his way home from town at a late hour on Saturday night, he was violently assaulted, his arms tied, a horse whip applied, and to cap the climax, a coat of tar and feathers applied. He accuses the father of a young woman, to whom he is betrothed, of committing the assault.

It is said that his attentions to the girl had caused much annoyance to the parents, and had led to her quarrelling with her father and leaving home to enter domestic service in the home of a resident of the town, and the father, enraged by his persistence, took this means to discourage the young man.

The moderator of Stratford Presbytery, Rev. J. W. McIntosh, of Mitchell, presided; Rev. R. B. Stevenson, of Tavistock, preached; Rev. T. J. Thompson, of St. Andrew's, Stratford, addressed the minister, and Rev. D. N. Morden, of St. Mary's, the minister.

A FOOD DRINK

WHICH BRINGS DAILY ENJOYMENT.

A lady doctor writes:
"Though busy hourly with my own affairs, I will not deny myself the pleasure of taking a few minutes to tell of my enjoyment daily obtained from my morning cup of Postum. It is a food beverage, not a poison like coffee."
"I began to use Postum eight years ago, not because I wanted to, but because coffee, which I dearly loved, made my nights long weary periods to be dreamed and unlitting me for business during the day."
"On the advice of a friend, I first tried Postum, making it carefully as directed on the package. As I had always used cream and no sugar, I mixed my Postum so. It looked good, was clear and fragrant, and it was a pleasure to see the cream color it as my Kentucky friend always wanted her coffee to look—like a new saddle."
"Then I tasted it critically, for I had tried many 'substitutes' for coffee. I was pleased, yes, satisfied, with my Postum in taste and effect, and am yet, being a constant user of it all these years."
"I continually assure my friends and acquaintances that they will like it in place of coffee, and receive benefit from its use. I have gained weight, can sleep sound and am not nervous."
"There's a reason."
"Read 'The Road to Wellville,' in packages."
"Ever read above letter? A new one appears from time to time. They are genuine, true, and full of human interest."

FOUND ALL RIGHT

George Clarke, of Guelph, Located at Brantford—Was Missing Some Time.

[G. N. W. Dispatch.]
Toronto, Oct. 10.—A missing man has turned up in the person of George Clarke, who, on Sept. 28, the date set for his marriage in Guelph, disappeared from the Iroquois Hotel in this city. He was found near Brantford. Clarke was recognized by a relative, and was in poor shape, weary, ill and travel-stained.

Clarke's mother is in Brantford today, and will take him to her home in Guelph. He had a severe attack of fever some years ago, and that, coupled with excessive study, may have caused him to wander away as he did.

MAY GO TO JAIL

Montreal Editor Will Likely Be Imprisoned For Three Months.

[G. N. W. Dispatch.]
Quebec, Oct. 10.—The purpose of the crown is evidently to make Mr. Fournier, editor of The Nationalist, of Montreal, serve the term of three months in jail imposed on him by the superior court for having written the article entitled, "The Prosecution of Justice."

Mr. C. E. Dorion, K.C., has asked for the return of the record to the superior court by virtue of which the

LOADED LORRY BLOCKED STREET CAR SYSTEM

Team Unable to Haul Cargo of Lead Over a Crossing.

A lorry, loaded with over five tons of pig lead, was stalled on the north track of the street railway at Clarence street on Dundas this morning and tied up the service each way for some time. A crossing has been built up over the new tracks on the south side of the street and the team was unable to haul the load over it. The driver on a run to the residence of Mr. J. C. Duffield a few minutes later had some difficulty in crossing with the heavy apparatus.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for a long time with pains in my back and side, and was miserable in every way. I doctored until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends." Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache, don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.
