GERMANS ROUTED IN MIMIC ENGAGEMENT ON CARLING HEIGHTS

Invaders Were Driven Back With Heavy Losses.

MOVIES WERE SECURED

Men in Training Here Filmed for 9,000-Foot Scenic Production.

Canada was invaded yesterday afternoon by a landing force of Germans along the eastern coast. A large force of Canadians soon drove the invaders back to the sea. The battle was staged under the direction of a motion picture company and will form part of In a dirty old gutter, till they stopped a large military piay now being filmed.

About 4,000 men took part. The 110th, 111th and 118th Battalions were in the engagement, the boys of the 111th acting as Huns. They doffed their Canadian service caps and donned the gleaming (paper-mache) helmets of the German army. The officers were supplied with the long grey cloaks of German officers.

The battle took place at the end of Carling Heights and was supposed to represent the landing of a German force on the Eastern Canadian coast. Behind, hastily thrown-up entrenchments and barb-wire entanglements, the Canadians successfully repulsed all the invading forces' attacks and by a brilliant bayonet charge drove the Huns who were still living back to the sea coast.

Heavy Firing. Hundreds of rounds of blank amunition were used, the battle lasting for nearly half an hour. The steady oll of musketry attracted many soldier spectators to the scene, but they carefully kept out of the focus of the three machines used for filming the

RANKS INDIGNANT AT **NEW ORDER AGAINST WEARING BREECHES**

Men of Battalions Hold Meetings to Discuss It.

WHY NOT OFFICERS, TOO?

They Cannot Follow Reason ing in Objecting to Comfortable Apparel.

Much indignation has been expresse by the men of all the battalions in cam at the order issued yesterday at head quarters prohibiting the wearing of rid ing breeches by the rank and file of in fantry regiments. The explanation try units; riding breeches were part of the uniform of mounted regiments, for infantry to wear them was then im proper. The men claim that if this i so, unmounted officers and supernun erarles should also be prohibited from wearing riding breeches.

Indignation Meetings. Several battalion mass meetings wer eld in the various canteens and there vas much discussion.

The arguments in favor of the riding breeches are that they are smarter-looking and more comfortable. They reach only a ssort distance below the knee and are much cooler. They state that Sir Sam Hughes on his visit here last week complimented the men on their smart appearance, and made n reference to their unifrom being contrary to regulations.

Many of the men wear the articles in question only when off parade, they offer a pleasant change from the others in which they have drilled all day, often on wet an muddy ground. Revoked in No. 2.

If the order is not recinded, the general feeling is that it will be obeyed, as the men realize nothing is to be gained by insubordination. The same order was made in Military District No. 2 at Toronto, but was recalled in short time. The men did not obey it, and used to leave the camp ground wearing the forbidden clothing. They sually went out in such large numbers that the sentries were unable to stop

In many of the battalions the order will make no difference, as the men did not wear them. The officers state that none of their men ever were or ever will be allowed to were anything con-trary to military regulations.

ONLY ONE GOAL SUFFICES TO BEAT 153RD ATHLETES

Footbal! Team of 161st Victorious In Close Game.

"Fast and furious" was the description given of the football game last night between the men of the 161st and 153rd Battallons. By mutual consent they kicked off at 7 o'clock in stead of 8:15. The 161st carried off the honors by scoring one goal. The 161st boys, who were defeated time ago by "London's Own," their regular team out, and even their opponents acknowledge that they played a wonderful game. Play on the part of the 153rd was also fast, although the boys were handicapped by the fact that several of their regular men were absent on leave. substituted for Flannigan in goal.

Excitement in plenty was furnished by the many sudden changes in the However, for the most part it centred around the 161st end of the field, although that side eventually won. There were several hot shots at that goal. Fine playing on the part of the fullbacks on the 153rd team prevented more than one shot being made at goal. That, however, was sufficient to decide the contest. The 153rd was scheduled to meet the 142nd on Thursday, but owing to the fact that the latter is the duty battalion for the week, it has been

indefinitely postponed. DECORATION BOYS

Wellington Unit Boasts of Its Artistic

Abilities The boys of the 153rd (Wellington County) Battalion claim that their middle name is "Decoration." Beauty has been added to their lines by the use, by, not only of whitewashed stones but red and blue ones, the color scheme being a patriotic one. One particularly attract tive bed reads: "Royal City, B Co." The border is in white, "Royal City" in light blue, and the remainder in red. Flowers, too, have been requisitioned

to add the home appearance. favorites are geraniums, but a few lovers of the uncultivated blooms have planted patches of daisies before their quarters. The beds are nearly all made diamond shaped, and are outlined wit a border of white wood.

Are City Autos Going Joy Rides?

Some Cars Being Used for Private Purposes-Inquiry Likely.

Should city officials use the city autonobiles for their private uses? This question was asked today by itizen, who says that all of the city's cars, including the new police automobile, are being used by officials for pleasure and convenience.

An investigation showed that some of the cars were being run after business hours and for purposes other than the city's business. It is probable according to the informant of The Advertiser, that the matter will be brought up in the city council

The cheese factory owners in some sections have been forced to store cheese, unboxed, while in other localities there has been no difficulty in securing the required number of boxes. The factories south of St. Thomas, at Norwich and Simcoe, have been handicapped for boxes owing to the makers n those sections having been unable to the elm supply.

Making Experiment. Elm has proven to be the most satisfactory material, but experiments are now being made of boxes manufactured from a special fibre board, which, if satisfactory, will relieve to a great ex-

tent the existing shortage. Another reason for a shortage in boxes is due to the increase in production of cheese, with no consequent increase in the supply of boxes, and the effect has been to deplete the supply time, in the offices of the London Life some time. Cocoanut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it

Don't use soaps and prepared shampoos that contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless) is much better than the most expensive soap or any-

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and

AGAINST FURTHER **WAR TAXATIONS**

Vigorously Object to Proposed Measure Increasing the Taxes.

[Canadlan Press.] The Hague, Via London, June 27 .- At a session of the Prussian House of Deputies, the Socialists protested vig increased taxation for the duration of the war, while the non-Socialists ap-

parently were willing to foot the bills

only until the end of the fiscal year

of 1917. Herr Strobol, Socialist, according to the Vorwaerts' account of the session demanded to know what same person believed that the war would last a year. He made a vehement protest against the people being burdened with rifices of blood and treasure, and also their sacrifice of health owing to what he termed the present ruinous food prices. He accused the drafters of the bill of intending to save the classes from further direct taxation by saddling the masses with the burden of indirect taxes. "If the classes were made to pay six milliards of marks direct taxes, as in England, we would have peace tomorrow," the speaker asserted. Herr Strobel demanded that an end be made of this "senseless murder of nations" by a sensible arrangement, else, he predicted, both the

Tanner Hit by Bullet and Gassed by Germans.

That the Canadian Red Cross Society in England is doing good work among the wounded men in the hospitals is shown by a letter received by Mrs. D. C. Tanner of 23 Walnut street. The letter was written to her by a epresentative of the Red Cross who ad visited Mrs. Tanner's husband, Gunner D. C. Tanner of the 12th Batago near Ypres, and is in the 3rd Lonion General Hospital suffering from the effects of German gas and a bulet wound on the hand. It gives parculars regarding Gunner Tanner's younds and promises that he shall be

by the society. In his letters home Gunner Tanner praises the good work of the society, they having supplied him with paper, pencils and mirror, brush and comb and other necessities. He enlisted soon after the war broke out in the 6th (London) Battery with Major Woodman Leonard. He writes that the praise received by the battery has been well earned by them. Petrograd. June 26, via London. With the elimination of Gen. Pflanzer's army in Bukowina, the attention of Gen. Brusiloff's forces in this section is now directed upon Kolomea, the key to the defence of Lemberg on the south. The occupation of Kimpolung and Kuty has opened the way to Kolomea, and already a result of this last-recorded changed. victory of the Russians is becoming evident in the forward movement of Gen. VIENNA HEARS OF Letchitzky on the road from Sniatyn to Kolomea to a point ten miles from Pflanzer's Forces Demoralized.

It is evident from the report of prisners and booty taken that the Austrians defended Kimpolung with coniderable forces. They were attacked by Russian troops which had covered the 30 miles from Gurahumora in two days, and were rushed into the fight with scarcely an hour's rest. According to Russian military authorities, their assault added the last touch needed to complete the demoralization of Gen. THE LOCAL MARKET

Strawberries were very plentiful on the local market today, scarcely a farmer being without a crate load for sale on his wagon. The quantity brought in, and the poor demand seriously affected prices, which rapidly fell several cents, being quoted at 10c per box, wholesale, and at 11c and 12c, retail. These prices showed signs of further weakening as the morning passed.

READING

Often proves to you the Imperfections of your sight. When it becomes necessary to hold the book nearer or further away from the eyes, depend upon it something is wrong. When letters "run one into another," or the eyes ache, when fatigue follows reading, the condition of the eyes should be investigated. This is advisable, not only that your capability for reading may remain good, but also because straining eyes are a direct tax upon the health. We have an equipment which, together with our experience, enables us to determine exactly the state and needs of your eyes. Our methods are scientific and accurate.

Deputation Asks the Board of Control to Consider Matter.

A deputation from the Returned Soldiers Association interviewed the board of control yesterday afternoon relative to the formation of a branch of the Soldiers' Aid Commission. They thought that their organization, being in touch with all returned men, should be given some consideration.

Ptes. Ritchie. Nightingale and Burlette all spoke in the matter and paid their compliments to Ed Lance, the secretary of the Sportsman's Association. They claimed that little had been done for them, and as a result they had

pranched out for themselves. Mayor Stevenson and Controller Rose will interview the Sportsman's Patriotic Association and will see what can be done to straighten matters out. Building Inspector Piper was named by the council to estimate the damage done to Western Fair buildings by the soldiers and report. Major Bishop will epresent the militia department.

Roy Davidson of Lambeth astray. Shows Unusual Talent for the Piano.

An audience which filled St. Peter's Parish Hall to its capacity last evening the London Conservatory of Music and School of Expression, and demonstrated in no uncertain manner its appreciation of the brilliant and artistic program presented by the post-graduate class and one graduate in piano; Miss Florence Dewey, who has com-pleted a post-graduate course in violin and Miss Gladys Wright, a graduate of the School of Expression department. The conservatory colors, purple and gold, were conspicuously used in the decoration of the stage, proving most effective against a background of palms. On the left side was placed the Conservatory shield, while the diplomas presented at the close of the evening, were piled on a table covered with a purple cloth edged with gold fringe and centred by a vase of gold

Of the clever students who took part e name of only one appeared twice on he program, that of Roy Davidson of ambeth, winner of the \$500 scholarship presented by the London Conseratory of Music, and a young musician whose exceptional talent has already attracted much attention. Mr. Davidon plays not only with the sureness of chnic which bespeaks thorough trainng and confidence, but also with origi-nality, masterfulness and style which can only be credited to genius that is hard work and something much more. He opened the program with the Chopin concerto, E minor, after which he was given quite an ovation and also the charming girl graduates and postgraduates who appeared later.

Two orchestral parts were played on second plans by Mrs. McHardy Smith a most capable manner. Fine Performance.

Refuse To Stay Crated For Springbank So Park Is Vacant.

to London Home

Four acres of ideal park land for the abode of wild animals have been inclosed by a strong, high wire fence at Springbank, and all that is now lacking s something to roam this range. But, the promised deer are missing, and prospects are that they will not be in evidence for some time, according to park attendants. The Government was going to send several does some time ago, and a Sarnia man advised the park authorities that he was ship-ping a good buck to be added to the herd, but these well-laid plans have gone

There is no scarcity of deer in Government preserves, but the animals are shy, and it was only after a number of unsuccessful attempts that some were captured for Springbank. Then came the shipping, and that is where the trouble lies. It is not difficult to crate the does, but it is difficult to keep them attended the graduation exercises of crated. No sooner are they packed up than they break their bonds, and refuse to accept London's invitation.

The same trouble has been experienced with the buck from Sarnia, and the park authorities are busy trying to devise some means of getting the deer to the city. Until success is at tained, the park is desolate. In separate inclosures and in lonely dignity, one racoon and three owls sol-

emnly wink at their visitors.

SPRINGBANK CAMP FOR GIRLS WILL SOON OPEN

Y. W. C. T. U. Offers Opportunity to All for Week's Outing.

The many London girls, who have happy recollections of a week spent last summer at the Young Women's Christian Temperance Union summer camp at Springbank, will be interested to learn that an effort is being made to have this year's camp open to receive

guests by next week. The camp will again be situated across the river from the pumphouse. Preparations have been delayed this season, awaiting the laying of the footbridge, postponed owing to the high water in the river.

Instead of two tents as formerly, the camp this year will be somewhat more pretentious, and undoubtedly more comfortable, with a portable house for sleeping quarters and the usual tent for dining-room and sitting-room. The privilege of one week's outing i

extended any girl in the city who feels howered with bouquets, even as were she would enjoy and benefit by seven days of camping, while continuing her work in the city, which she can reach by car line. Last year, 85 girls in all each enjoyed week at the Y. W. C. T. U. summer

For the past twelve years, Buffalo, N.Y., has had competition in telephone The Federal (Independent) service Telephone Company, through its subsidiary, the Frontier Company, has been operating in opposition to the New York (Bell) Telephone Company. Since 1914 the independent concern has used the automatic system. Now it is seeking approval from the State of its entire plant to its competitor, the New York Telephone Company. It does not appear that the citizens of Buffalo have benefitted very much from competition in telephone service. If they have, they have been slow to express their appreciation. Here is what Presi-

says in explanation of his desire to sell "This step on the part of our company has become necessary because our system in Buffalo has not met with blic support. Notwithstanding the act that since the establishment of the automatic system two years ago, the service has been excellent and unusually large sums have been spent for olicitation and advertising the number Federal subscribers in Buffalo has steadily decreased rather than increased, seriously affecting the income of the company, so that today the ompany is met with the necessity of onveying its property to the Bell Company or reorganizing its finances by reducing its bonded debt and fixed

charges. "In fact, we feel indifference of the public in support of our service during the last two years, has been equivalent to a notice to us that competition in this city is no longer necessary or desirable. "The Federal Company is not com-

plaining about what it feels is an evolution of public opinion, that is a change of preference for competition to a preference of state regulation of public utilities for public good. It does assume however, that since it has been unable to obtain public support, the logical consummation is to permit it to disof its property to the company to which the public has given its sup-
