TRAINS CANCELLED BY HUNDREDS IN U.S. DUE TO COAL SHORTAGE; GREATER REDUCTION IS COMING

Three Hundred More Trains Ordered To Be Discontinued in New England States On Wednesday—250,000 Workers in Shops in Ohio Are Forced Into Idleness Due to Lack of Coal-Attorney-General Palmer Believes End of the Strike Is in Sight.

SETTLEMENT ON TUESDAY?

Washington, D. C., Dec. 8 .- "Hope for the settlement tomorrow forenoon of the controversy between the miners, the operators and the Government" was expressed in a formal statement issued today at the White House. The statement follows:

"It is hoped that there will be a settlement on Tuesday afternoon of the controversy between the miners, the operators and the Government through the acceptance by the miners of the plan for a definite settlement proposed by the president, which proposal was submitted to acting President Lewis of the miners by Attorney-General Palmer Saturday night.

senger trains were withdrawn from service on the railroads of the country today, mostly in the Middle West, South and Southwest. In accordance with instructions issued last week by the railroad administration, and hundreds of other trains had been ordered annulled next Wednesday, chiefly in the East, as a result of the coal miners strike.

In New England alone orders were out cancelling nearly 300 trains on Wednesday, dozens are to be discontinued in Pennsylvania, and even the Conadian railroads have felt the coal shortage to such an extent that 35 additional passenger trains were taken off. The reduction of passenger service in the United States since the strike began on November 1 amounts to approximately one-third of the total, and in Canada a saving of 324,000 train miles per month has been effected.

ATTORNEY-GENERAL BELIEVES END OF

STRIKE IN SIGHT

Washington, D.C., Dec. 8.—The public is still in the dark today as to the government's latest move to settle the bituminous coal miners' strike. Not a hint of the proposals had been made public, either by the miners or by the officials, but comfort was taken in the statement by Attorney-General Palmer last night, that he was quite sure the end of the strike was in sight. The statement was made by Mr. Palmer just before he boarded a train for Indianapolis, where late today he will confer with Judga A. B. Anderson to investigate alleged violations of the Lever act and anti-trust laws by operators, miners and coal dealers in connection with the bituminous coal strike, will not be empanelled today. United States District Attorney L. Ert Stack announced this forenoon. He said this step had been postponed until 10 o'clock to the conference of the strike was in sight. The statement was made by Mr. Palmer just before he boarded a train for Indianapolis, where late today he will confer with Judga A. B. Anderson to investigate alleged violations of the States District Judge A. B. Anderson to investigate alleged violations of the States District Trust laws by operators, miners and coal dealers in connection with the bituminous coal strike, will not be empanelled today. United States District Autorney L. Ert Stack announced this forenoon. He said this step had been postponed until 10 o'clock to the proposals and the proposa with Judge A. B. Anderson of the federal district court relative to the injunction proceedings involving mine union officials. Speculation as to the method of

setting the strike, which was proposed persually by President Wilson, was rendered difficult because, while Fuel Administrator Garfield reiterated there would be no increase in the price of coal to the public, and said he had not coal to the public, and said he had not budged one inch from his position, the readiness with which the strikers accepted led to the belief that an advance in wages larger than the 14 per cent guggested by Dr. Garfield had been proposed. Success or failure of the president's plan will not be determined proposed. Success or failure of the containing the information that he rad president's plan will not be determined "tentatively" accepted the proposition until Tuesday, when the court and made in Whishington Saturday might, strike leaders will consider it. In the meantime there has been no let-up in Minneapolis by tomorrow.

Question of Indemnity for Sinking of Ships At Scapa Flow Is Left to the Hague Tribunal For Final Adjustment-Other Features of Protocol Objected to by Germans Are Eliminated-Clause Relating to Evacuation of the Baltic Provinces by German Troops Is Removed.

Paris, Dec. 8.—The Allies have consented to modify some of the terms of the protocol putting the peace treaty into effect to which Germany has made objections.

The clause providing for indemnity for the destruction of the German fleet at Scapa Flow, has been modified so as to refer to The Hague tribunal the question whether the delivery of the tonnage demanded will cripple Germany, it is understood. The misunderstanding also is that the other features of the protocol most objectional to the Germans have been eliminated, and the expectation here is that the German plenipotentiaries will sign the protocol without much further delay.

The final paragraph of the protocol, providing that even after the peace treaty has gone into effect, the Allies might use military measures of coercion to insure the execution of the treaty's terms, has been eliminated entirely, as also has the clause relating to the evacuation of the Baltic provinces by German troops.

The imputation of responsibility to Germany for the sinking of the Scapa Flow fleet is left in the protocol.

According to the best information obtainable, the note to the German plenipotentiaries regarding the signature of the protocol setting forth the Allied position as indicated, will be handed to Baron von Lersner, head of the German mission, this afternoon.

Mas to Visit Mother.

Mrs. Sullivan left home at 2 o'clock at the afternoon to do some shopping after which she intended going to see her parents, Mr. and Mrs. John Taylor, 23 Talbot street, St. Thomas. When she did not come home at night her husband was a little worried, but thought that she had remained with her parents for the night. In the morn-ing, however, he was anxious, and put a long-distance call. In the meanwhile Mr. Terry identified the woman as Mrs. Sullivan.

Mr. and Mrs. Sullivan were natives of

ROAD LEGISLATION FULLY DISCUSSED BY COUNTY COUNCIL

Hamilton Road May Be Designated As a Provinicial

Road legislation, county roads and the discussion of the designation of roads occupied a great deal of the lengthy session of the county council on Satur-day morning at the county buildings. Many resolutions were passed, and opinions expressed regarding the imfied her by the clothes she was wearing.

Eyewitnesses of the fatality say that the auto came from the east, turned south on Clarence street and narrowly escaped striking a woman. This, it was said, unnerved Mrs. Draisey with the result that the car hit Mrs. Sullivan, who had just stepped from the curbing, knocking her eight feet. Before the car could be brought to a standstill it had run over the curb, and crushed the woman against the pole.

SOCIAL, ECONOMIC SALVATION THROUGH **GREAT LABOR PARTY**

Bishop Fallon Declared Sermon Delivered Last

NO NEED FOR CLASS WAR

Large Congregation Hears Bishop Discuss "Capital and Labor" Conditions.

"I look for the salvation of the world from modern political and economic onditions through the great labor party," said Bishop Fallon in his concluding remarks last night at St. Peter's Cathedral. The bishop's sermon was the secon

of a series of four special Advent serof a series of four special Advent sermons in which he is dealing with the great modern day need for rest. As last Sunday, the occasion of his first sermon of the series, Bishop Fallon prefaced his sermon with the words "Come unto me all ye that labor and are heavy laden," Matt. xi., 28.

Using labor conditions in England as the basis for his discourse, after a brief resume of his first sermon, in which he had laid down the false principles which have led to the condition of unrest, viz., the supremacy of man; the sufficiency of this life and the idol of temporal greatness, he reviewed

country.

The false principles named, he declared, "lay at the foot of the Protestant Reformation, which was nothing but a social and economic revolution,

but a social and economic revolution, cleverly disguised under the cloak of religion by self-seeking, narrow-minded and utterly unredeemed villains."

No Longer "Merry England."

"I do not claim that things were perfect before the Protestant Reformation," said his lordship, "they have not been perfect since Adam's disastrous fall, but they were never so bad as in the last 300 years."

Prior to 300 years ago the speaker said that England was justly known as "Merry England," and that the conditions which gave rise to this name were the ownership of the land by the people either outright or under long and uninterrupted leases under the church. Leases under which the tenant could not be evicted nor the rent raised.

The seeds of ruin were laid by Henry VIII., when he ordered the confiscation of the property of the Catholic Church, said the bishop. If as Henry VIII had intended the lands had come into the possession of the crown it might possibly have here for the hetter, but unpossession of the crown it might possibly have been for the better, but unfortunately he was unable to withstand the demands of the oligarchy, which had already begun to take form for payment for their service in gifts of land. This condition continued under his son Edward VI and to still greater. his son, Edward VI., and to still greater excess during the regency of the Duke of Somerset, "of whom every member of parliament demanded his price and

These common lands he likened to a reserve of grain in the barn or a balance in the bank on which the public had the right to draw. Taking his statistics from the Encyclopaedia Brittanica, in which he stated appeared the greatest indictment of the English oligrachy, Bishop Fallon pointed out that in 160 years the common people of England were robbed of 4,770,900 acres of common land.

Speaking of the "Crafts" and "Guilds"

Speaking of the "Crafts" and "Guilds" which existed during the middle ages his lordship showed how they had been a protection against monopolies till a protection against monopolies till their wealth attracted the greed of the obligarchy, Bishop Fallon pointed out pretexts. In the modern trade unlons the speaker saw the ghost of these old time guilds. He dealt briefly with the change wrought by the advent of machinery and the wonderful development of inventions at the beginning of the eighteenth century and the evils which resulted therefrom. The gradual centrely and the sent the sent that the

Proved Too Strong.

That all efforts toward amelioration of these conditions had hitherto proved unsuccessful he declared was due to the fact that the oligarchy which had proved too strong for Henry VIII is the fact that the oligarchy which had proved too strong for Henry VIII. is still too strongly entrenched. His still too strongly entrenched. His lordship pointed out that conditions in the United States in these matters were practically the same as in England. In closing he declared that he "looked for the salvation of the world from present social and economic conditions through the great Labor party if it takes the reins of constitutional government into its hands. They certainly cannot do worse. They must not, however, listen to radicalism nor to the calls of socialism. Socialism is stagnation; it is industrial slavery; it is crude and illogical. There is no need of, nor call for, a class war.

"In this great struggle for freedom and democracy the Labor party will find the great Catholic Church solidly behind it."

MINISTER PRAISES PRESS OF LONDON FOR SPLENDID WORK

London Papers Convey Word of God, Says Rev. G. A. Leichliter.

"The power of the press in London is wonderful. Take off your hats to the daily papers of this city. The editorials that have been printed within the last few weeks have accomplished the work of a dozen preachers. Next to the preacher with his Bible comes the press as the medium for conveying the Word of God." The foregoing was spoken by Rev. G. A. Leichliter to his congregation at Adelaide Street Baptist Church on Sunday evening in reference to the editorials on religious subjects.

"A Vision in the Daytime" was the subject taken by Mr. Leichliter in which he discussed the Apostle Paul, the most colossal figure in the New Testament. "Such a lot of folk blame sin onto the weakness of the flesh or a terrid liver or reported by the constant of the control of the

All on Same Level.

"We cater too much to the cravings of our sinful nature. When we dissolve partnership with this old body of ours, where will our souls go? When the day comes that millionaire and pauper stand on the same level, when all men became one equal, what shall we say? There will be few of us that will be able to say 'I was not disobedient unto the heavenly vision.' So many of us have a nature that is hell to deal with. We are surrounded by a guif of iniquity on all sides, but we must all remember that we can cross the gulf of safety into the arms of Jesus, by impilicit faith and doing the works of the Lord. And we must be able to say, I was not disobedient unto the heavenly vision.'

WESTERN ONTARIO AVIATORS ORGANIZE TO PROMOTE FLYING

New Club Will Erect Aerodrome and Encourage Flying For Sporting Purposes.

The Western Ontario section of the Canadian Flying Club was organized Saturday afternoon at a largely attended meeting held in the Tecumse House. Nearly thirty local fliers were present and the meeting was a most enthusiastic one. It was decided to become affiliated with the Canadian Flying Club, the Aero Club of Canada and the Royal Aero Club of the United Kingdom. The officers of the new organization

Fresident—Bert B. Perry.

Vice-President—Ivan W. Hunter.

Secretary—J. S. Selak.

Treasurer—Clare Slater.

It was decided to leave the election of the directors, who will also act as squadron commanders, until a later meeting. The committee of selection will be appointed at a later date also.

Alms of Club.

The aims of the Flying Club are as follows:

1. To look after the social requirements of Canadian aviators.

2. To promote aviation in Canada in a sporting way.

3. To provide facilities to enable members to learn to fly, and to increase the proficiency of members who have already learned to fly.

4. To be prepared to act as an air force reserve should the need arise.

One of the first actions of the club will be to assist in the establishment of an aerodrome in this city. Already

The local club will be represented on the Aero

The local club will be represented on the executive committee of the Aero Club. It is also expected that the Dominion Government will subsidize all flying clubs throughout the Dominion.

Success is Assured.

The large attendance at Saturday's meeting augurs well for the future success of the organization. There are nearly 100 local fliers, but many were unable to be present, owing to business engagements. The next meeting of the club will be held in the evening, when a record attendance is assured.

In addition to its aviation activities, the club will be devoted to the social development of its members, and it promises to be one of the best and biggest young men's organizations in the city. Its membership is not confined to fliers only, but is open to anyone interested in the work it purposes to do. On Saturday it was decided one interested in the work it purposes to do. On Saturday it was decided to make the entrance fee \$1, but a further call will be made upon the members should the occasion arise. When flying is established in this city it is expected that the club will be self-sustaining. A special fee for non-resident members will be decided upon at a later date. It will include all Western Ontario aviators in its membership.

HEAVY LOSS WHEN FREE PRESS GARAGE BURNED

feur Narrowly Escapes Injury.

Nine automobiles were burned and Rine automobies with the free Press Printing Company's garage, situated on Wellington street, between Cheapside and Victoria streets, was completely gutted by fire at 4:30 o'clock on Saturday afternoon.

One of the employees of the place was cranking a car when it back-fired, causing the fire. By the time Mr. Darch had got out of the building he had lost his overcoat, a watch and \$20 in cash. A Mr. Wright, who is employed there, also lost an overcoat. Harry Muir, advertising manager of the Free Press, owned one of the cars. Another had just been delivered to the garage by a salesman at 10 o'clock on Saturday morning. Included in the cars lost were a sedan and two delivery trucks.

So intense was the heat that a fence fifteen feet distant was scorched. Bert Darch narrowly escaped being

Unlucky Man Has Not Yet Tasted It.

Having four ounces of whiskey, which in the damp days prior to September, 1916, was known as one "snort," on his person cost a local man \$200 and costs in police court this morning.

Soon after the chimes had announced the hour of 12 last night, six young men assembled on the corner of Wellington and Dundas street. They seemed very nervous, peering about in every direction to see if a policeman was in sight. One was not in sight, but they were sighted by P. C. Thomas Noonan. From the depths of one of the men's pocket a small bottle of the old Imperial brand Six ounces for six thirsty men-it

In his excitement the man with the bottle swallowed twice his share, then handing the bottle back to the man from whom he had received it, took to his heels. Four others did likewise. Left to meet his fate the sight young man meet his fate, the sixth young man stood until the policeman arrived. When asked for the bottle, he denied aving it. However, he did not know hat P. C. Noonan was a pastmaster in the art of detecting liquor on a pe son, and when told in which pocket he had it, he decided that further argument was out of the question. In police court he pleaded guilty and handed Police Court Clerk John Moule the amount of the fine.

AN INNOVATION.—An event unique in the history of Dundas Centre Methodist Church occurred yesterday afternoon, when about 80 to 100 couples, men and women, proceeded to the homes of every member and adherent of the church and made a short visit. Incidentally, church views were ex-changed, and the pros and cons on many subjects were heartily entered into, and proved an excellent way of getting acquainted with each other. Possibly every home visited was not just in accord with church rituals and discipline, but nevertheless a more friendly spirit was engendered. Every visitor received a most hospitable welcome, and it is altogether likely that a regular visiting Sunday will be proclaimed in the not far distant future.

SUNDAY EVENING FIGHT OUTSIDE CAFE ATTRACTS HUNDREDS OF PERSONS, BUT IS SHORT-LIVED

Police Appear and Combatant s Land in Court-Two Have Pleasure of Paying Fines.

Although the Marquis of Queensberry rules were not observed by the three men engaged in a fight in front of the Metropole Cafe, Richmond street, on Sunday evening, hundreds of citizens were just as pleased as they would have been at a real prize fight; and cheered their favorites at each turn of the proceedings. However, the battle did not last as long as was anticipated, for P. C. Roy Venner and P. C. William Gow interfered, with the result that two young men were charged with assaulting Abdul Hameed, the proprietor of the restaurant.

This witness refused to be sworn in the regular manner. "I don't swear by the English Bible, I'm Jewish," she said, and so she was sworn by the up-

of the restaurant.

Both Fined. In police court this morning one of them paid \$20 for being drunk and disorderly, and the other paid \$10 for being disorderly. The charge of assault they denied and were not fined on that count.

According to Hameed and his wife, the two men used insulting language toward her, and were asked to be quiet. Mr. Hameed put his hands on one of the men's shoulders, and in return received a punch on the nose.

Both fined.

Joseph, an Italian waiter at the cafe, whose surname was unpronounceable and apparently could not be spelled by anyone, said that one of the combatants, when asked for money, said: "Before I give you monies I give a punch on de nose."

Hameed presented in court the bill for the meal. It amounted to \$1.85. Magistrate Graydon said that he could not order the payment of it, but that if it was not paid a charge could be laid.

F. S. Fisher, service officer for "F" unit in submitting his monthly report, said this morning:

"During November, co-operating with the employment service of Canada in "F" Unit this branch placed 757 exsoldiers out of 819 applying for work. This number included 19 handicap or disabled soldiers and also 7 ex-officers or men that were assisted to professional herris or business openings. In but after two weeks it will be at their own expense.

To comply with the rules of the contest at least five acres of grain had to be sown, and the field measured by a representative of the department. The cost of the seed, for which a price was fixed, the fertilizer, labor and threshing had to be deducted from the fixed selling price, and the profit left formed the basis for awarding the prizes. In the hogs and dairy profits the decision rested on three different points, the condition of housing, the report submit-

Construction of this addition to Detroit's hotel accommodation is being rushed by the Freud Hotel Company, completion by July 31, 1920, being the aim. Marcul L. Freud of the Hotel Addison, president of the company, plans to have the formal opening some time in August.

Design for the building, prepared by G. H. Gotschalk of Chicago, calls for 17 stories and 500 outside guestrooms. The structure will cover an area 100 by 100 feet, and will be of brick, terra cotta and steel.

Each guestroom will have tub and shower bath connections. There also will be 20 sample rooms for salesmen. The hotel will cater especially to transient patronage.

The lobby will be 55 by 51 feet, and will have a loungeroom and a writing-room on the mezzanine. There will be a large parlor on the main floor.

Much of the structural steel is on the ground, and orders have been placed for the bulk of the other construction materials. Virtually all the equipment has been purchased.

Mr. Freud is proprietor of the Hotel Addison, Charlotte and Woodward avenues, one of the largest apartment hotels in the city. With his brother, Jerome S. Freud, he is head of the Leopold Freud estate.

WHOLESALE GROCER FEARS DRURY GOVT. MAY BE STAMPEDED

Warns Premier Against Being Misled Into Class Legislation.

HAMILTON, Dec. 6.—H. C. Beckett, head of the wholesale grocery firm of W. H. Gillard & Co., and a prominent citizen, has addressed a frank letter to Premier Drury, in which attention is drawn to the danger of class legislation and to the fact that the wholesale grocery trade is of the opinion that some smooth individual has ingratlated himself into the premier's confidence and led him to believe that there is a big combine among the wholesale grocery trade, with the result that the attorney-general's department is quietly taking steps to secure information sufficient to bring the wholesale grocers of Canada before the criminal bar. In part, Mr. Beckett says:

says:
"In voting for a change of government the people hardly expected to get from the frying pan into the fire, but, according to press reports, one would think we are going to have class legislation, something just for the farmer. The people of this province are hoping you are too big a man and too broad in your ideas of national upbuilding to be a party to anything of that kind."

Mr. Beckett refers to an effort on the part of the old Whitney regime to prove charges against the whole-salers, charges which were founded on a lot of misrepresentations, as was afterwards proven. The present pre-mier is warned against too serious consideration of misrepresentations of consideration of misrepresentations of a like nature which are evidently being brought to his notice. If facts are wanted Mr. Beckett undertakes to supply them to the premier.

GERMAN MINISTER **URGES GOVERNMENT** NOT TO SIGN PEACE TREATY PROTOCOL

Gustave Noske Takes Determined Stand Against Allies.

DEFIES THE ENTENTE Declares He Does Not Care Whether Allies Occupy

"By deceit and trickery the British and French Governments are working up opinion in their countries to cripple Germany still further beyond crushing effect of the first treaty. We have yielded too often, and now must resist. Let the Allies do what they please."

Would He Resign?

Asked if he would resign if the remainder decided to accept the Allied terms, Noske replied that he could not

Says that every time you cut or pick at a corn you invite lockjaw

You reckiess men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts right out with the fingers, without one particle of pain. This freezone is a sticky substance which dries the moment it is applied and just loosens the corn without in flaming or even irritating the surrounding tissue or skin. He says a quarter of an ounce will cost very little at any of the drug stores, but this is sufficient to rid one's feet of every hard or soft corn or callous.

You are positively warned that cut-ting or picking at a corn is a suicidal

but that his present position had been deliberately adopted and was unchangeable.

changeable.

The correspondent says that although Noske carefully emphasized that he was only defining his own position, his words agreed with the intentions ascribed to the other members of the cabinet.

The two straws which Noske represents as having broken the back of German endurance, says the correspondent, are the demand for dock and harbor material and the protocol empowering the Allies to enforce execution of the peace treaty.

The correspondent says that during his talk with Noske he suggested that if the Germans had not sunk the warships in the Scapa Flow the demand of the Allies for tugs and docks would not have been made. To this, he says, Noske replied:

"Oh, yes, they would. The British

have been made. To this, he says, Noske replied:

"Oh. yes, they would. The British would have invented some pretext. Great Britain is out to cripple Germany and take our last dredges and cranes so as to prevent the revival of our mercantile marine."

Denies Responsibility.

Noske repudiated the German Government's responsibility for the sinking of the warships in Scapa Flow and accused the British Government of publishing misleading and "faked" extracts of the letter of Rear Admiral von Trotha, chief of the German admiralty, written to Admiral von Reuter, who sank the ships. Regarding the protocol, Noske said its signature would be giving Germany's assent in advance to unlimited future aggressions by the Allies.

"What more do you want," asked Noske. "You used to tell us if we chased away the Hohenzollerns peace would be adopted, and now you are breaking every pledge you gave. You have imposed upon us such a crushing peace that it could not have been worse

if the Hohenzollerns had remained.

"The French doubtless will march into Germany. Let them come. The Allies know that Germany is without means of resistance. Allied officers are all over the country. Spies are shuffling about everywhere. All the scare talk about German armament is a deliberate press campaign to prepare public opinion for aggression."

Noske further hinted at a third objection Germany might raise to the signing of the protocol.

"If the United States stays out," he said, "the commissions established under the peace treaty will be taken over by the other Allies. If that means more Frenchmen it would be most introduct to German, interests and we

more Frenchmen it would be most injurious to German interests and we should not agree."

EXTRA POWER BELTING Pulling the Peak Load

Nearly every industry has some belt-drives with variable loads.

Nearly every industry has had belt trouble when the peak came on these drives.

One of the best things Goodyear Extra Power Belting does is to take care of peak loads without trouble.

How it has solved one peak load problem is told in a letter to us from the Chisholm Milling Company (reprinted here).

The very qualities which give Goodyear Extra Power its great advantage where loads vary, make it a better belt for all-round use.

The pulley-gripping friction surface pulls over the stiff places and prevents power waste through slippage.

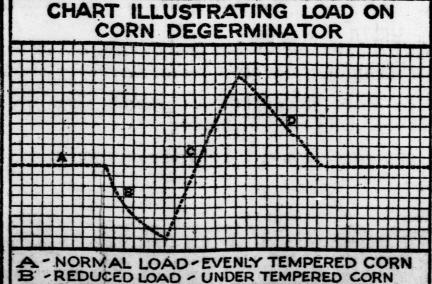

The great strength of the fabric plies which are welded into one by much fine rubber, gives very long life.

Practically all the stretch is taken out of Goodyear Extra Power before you buy it-saving costly shut-downs to tighten belts. The fine rubber, which seals the seam, prevents ply separation.

Over 1000 Canadian industrials have found Extra Power Belting an economical proposition—in price, in length of service, in efficiency of service. Some of them have solved problems exactly similar to yours. Let a Goodyear-trained belting man tell you about it. No obligation. Just phone, wire or write the nearest branch.

and degerminator in the Chisholm

TORONTO The Goodyear Tire & Rubber Co. Nov. 15th. 1919 of Canada, Ltd., Toronto, Ont. About five years ago we bought our first Goodyear Extra Power Belting. To-day half our belts are Goodyear Extra Power, and as fast as old belts wear out we are replacing them with Extra Power. The performance of the first belt has brought about this change.

We were having trouble with our corn degerminator.

Every now and then the machine would stick. Although we were using the highest priced belts we could buy, they contin-

ually burnt through when the sudden load of a sticking degerminator came. One expensive belt went in two days. The next one lasted but little longer. Then we tried a Goodyear Extra Power Belt. IT gave us 18 months' service. When the degerminator stuck, Extra Power just seemed to buckle down to the job and pulled right through the peak load. It wasn't long before we decided to use Extra Power Belts on all our equipment.

Now we have installed them on grinding mills, corn mills,

shaft drives, etc.

We figure that we save a great deal in price, save power

Yours very truly, The Chisholm Milling Co., Limited

On page 112 of Alfred W. McCann's great book, "The Science of Eating," are to be found these helpful words. "The human family is underfed in mineral food salts. A momentous facor is that the flour mills of the civilize orld are busy eliminating every particle of iron, phosphorus, sodium, tassium, silicon, calcium, chiorine, n nesium and sulphur (mineral from our staple food supply and sending out food material rich in heat units but pitifully meagre in energizing and im-

Lassard Gains Sixteen Pounds and Overcomes Troubles by Taking Tanlac.

"If any man had told me that Tanlac could do me just half the good it has done me, I would have laughed at him." said John Lassard, who lives at the Richelieu Hotel, Edmonton, Alberta, to a Tanlac representative the other day. Mr. Lassard saw three years' service in the Canadian Expeditionary Forces and was in the thickest of many of the great battles. He is now a popular brakeman on the Canadian National

"Just ask any of the boys I work with they'll tell you what Tanlac has done for me, and what I think of it," he continued, "why, three bottles of Tanlac have not only put me in good health, but they have added sixteen pounds to my

I lost my appetite almost entirely, and it seemed that everything I ate soured on my stomach and caused gas to form so bad that I would be in misery for hours after ever meal. My nerves were in such an awful condition that it was next to impossible for me to get more than a few hours' sleep at night, and if any kind of an unexpected noise happened. It made me jump like I was shot at. I was in such a run-down condition that I couldn't half do my work. At last, I thought I had just about reached my limit, and I had decided to give up my work altoether and take a long rest to try and

'ld myself up. But before I quit one of the boys who meard I was going to leave, came up to me and told me what Tanlac had done for him, and kept on insisting so much that I agreed to try it. Well, sir, I would hardly believe it if anybody else told me that Tanlac had helped them as much as it has helped me, why, I'm not the same at all. My nerves are so steady that I can stand any kind of a I can sleep like a log and I never felt better in my whole life than I do right now. I eat anything I please without ever having a pain of any kind anywhere in my body, and that gas has quit forming. I have been built up in every way, am never troubled with anything in the least, and as I told you, I have gained sixteen pounds. I wish you would publish this testimonial of mine, so that other soldiers who may come back from France in a weak, rundown condition will know that Tanlac is the very thing they need to build them up end put them in fine shape."

GIVE CALDER FREE HAND, LIBERALS IN N. OXFORD DECLARE

Can Vote in Interests of Province-Annual Election.

WOODSTOCK, Dec. 7.—North Oxford Liberals met in an annual convention here Saturday. John Calder, M.P., and E. W. Nesbitt, M.P., were vention here Saturday. John Calder, M.P., and E. W. Nesbitt, M.P., were the principal speakers. Following a lively discussion Mr. Calder was given free-hand support for such measures as may be deemed in the interests of the province without regard to party.

Mr. Calder was elected by a majority of nearly 2,000 at the November elections. He is a prominent farmer of East Nissouri, and had always been regarded as straight out and out representative of the farmers. He will undoubtedly be found supporting the Drury Government in all measures pertaining to the agricultural classes, say close observers.

A. W. Harwood, the retiring president, said in his opinion the farmer movement had much to do with the company of the province of M.P., and E. W. Neshitt, M.P., were the principal speakers. Following a lively discussion Mr. Calder was given free-hand support for such measures as may be deemed in the interests of the province without regard to party. Mr. Calder was elected by a majority of nearly 2,000 at the November elec-

taining to the agricultural classes, say close observers.

A. W. Harwood, the retiring president, said in his opinion the farmer movement had much to do with the actions of a number of familiar faces at the annual convention. Referring to the farmer's government in Ontario, he was of the opinion that only time will tell how it would work out. Concluding his speech, he said, "I am a reformer, and always have been. I am a farmer, and as such I can't help having some sympathy for the farmer movement."

MINTO COAL MINES TIED UP BY STRIKE, **CALLED SATURDAY**

the Grand Lake Coal

Grand Lake coal area, went into effect this morning, and the mines are not in operation. The number who have gone on strike was said to be about 200. The daily output of the mines has been about 350 tons. Most of the coal from the Minto Coal Company's mines has rone to the C. P. R. for use on locotives. Sir Thomas Tait of Montreal is president on the Minto Coal Company.

With good results so I got three bottles. I am glad I did so as it is a sure cure for coughs and colds. A home where there are children should never be without it. I highly recommend it to those who need a quick cure."

Oscar Lerch Takes Prize For Individual Work in Judging Trials.

GUELPH, Dec. 7.—With practically every exhibit in place today, the 36th annual Ontario Provincia Winter Fair, better known as the Guelph Winter Fair, will be officially opened Monday afternoon by Hon. Manning Doherty, minister of agriculture in the Drury U. F. O. Government.

Mr. Doherty will be the principal speaker at the directors' luncheon in the Royal Canadian Cafe previous to the official opening. The fair will close December 11. Stockmen and poultrymen are unanimous in the opinion that this year's fair exceeds all others, both in quality and quantity of exhibition. in quality and quantity of exhibition. Superintendent J. H. Saunders of Lonalthough cramped for room for exhibits, has done some marvellous juggling, and all exhibits have been nicely squeezed in.
Saturday's feature was the livestock udging competition for the

farmers of Western Ontario. It was held in the stock judging pavilion of the Ontario Agricultural College, under the direction of R. S. Duncan, supervisor of agriculture, and lasted from 7:30 a.m. until 9 p.m. Embro Men Win.

THE MINERS' STRIKE.

John Lewis, who heads the great strike of the soft coal miners of the United States, declares that the men will not return to the pits for the fourteen per cent increase. Only when they are granted the thirty-one per cent increase which was proposed by Secretary of Labor Wilson will production be resumed, according to Lewis. If Lewis is correct in his views of what the men will accept, and it is to be supposed that he should know, then his statement makes clear how altogether unreasonable were the original demands of the miners. The first demand was for an increase in wages of 60 per cent, a five-day week and a six-hour This meant a stupendous advance unequalled for size by any demands of labor. Had it been granted there would have been a doubling of the price of soft coal to all consumers, a cheerful prospect in the day of soaring prices. Lewis refused the offer of the mine owners and operators to arbitrate the differences. Apparently the miners' leader thought they could get whatever they pleased to ask. Now that they have learned that the general public of the United States is incensed at their unjust requests and that the Washington Government proposes to protect the public to the limit of its power. Lewis announces that the strikers are willing to accept just half the advance they originally demanded, and that without any concessions in regard to hours of Lewis' announcement makes it clear how senseless was the whole business and how utterly selfish are the men who are directly responsible for it. An entire continent has been thrown into great industrial distress, which very soon may bring physical suffering to millions of workers. It is not surprising that the American nation is wrathfully stirred over this display of arrogance and is determined that it

Walter Parcelle, publicity director of the American City Bureau, discusses this question in a recent number of the National Municipal Review, pointing out that community publicity must be based upon an adequate plan of community development, and a plea is made for publicity that is based upon a good reputation. The community that is imbued with a right civic spirit is bound to make itself felt throughout the country, and in illustration of the idea that he has in mind he gives the following timely little civic ser-

There is a city in Michigan whose citizens once raised a fund of \$50,000 to be spent in what someone has described as the business of "factory grabbing." The money was so spent in three years. It did not bring a single new industry to the town. When the fund was about exhausted the organization met to wind up its affairs. The motion had been made and seconded, when a leading citizen arose.

"We have spent our money," he said, "an haven't a thing to show for it. This has set me to wondering if we were not on the wrong track. While we have been trying to bring factories here, we have overlooked our own city. The streets are out of repair. We have no parks. Our schools, fire and police departments are a joke. The city hasn't enough civie spirit to light a bonfire. Now, instead of going out of business, suppose we all chip in to another fund and spend that money trying to improve our home city. "We spent \$50,000 to get new factories, and didn't get one. We have spent about the same amount to see how good a town we could make of this, and now look at the inventory: More than a dozen new industries have quietly come in and made their homes here. We have gained 40 per cent in population. We have good streets, good schools, several parks, efficient fire and police protection, and we are all loudly and proudly telling the rest of the country that this is the best city on the con-We not only believe it, but we show it, and if called on, we can prove it."

THE PRESIDENCY.

Already the campaign for the next American presidential election is under way. Within a few days the Republican National Committee will meet at the capital with the object of planning for the national convention. The delegates to this and to the Democratic National Convention will be selected by primaries, which will be held in March, but the field is now open for nominations to both parties. To date eight names have appeared, as possible

The Twin Superstition.

Any victim of dignity who is so far gone that he or she can't get down and roll a string of somersaults on the rug or bare floor has my sympathy. There is an optimum of physical effi-lency, an acme of health which

to something more than merely eing free of disease or infirmity, a super-excellence which resembles intoxication, an intoxication which has no un-pleasant reaction, in short, a perfect metabolism or a complete oxygenation, which is to be attained in no other way than by systematic daily exercise. The neglect of this little detail of health plus accounts for many a failure in modern competitive life. Succets comes much easier to the man or woman who knows the secret of pep.

Tired, weary, dull, no ambition, nervous, frazzled, overworked, sick of the Job, gloomy, discontented, envious of the other fellow, sour on the world-these are common symptoms of under-oxygen-ation. "I am utterly exhausted after my day's work," declares a school teacher, as though that were a good reason why she should not take her half hour in the tank or do her bit in the gym or take three or four miles of oxygym of take three or four miles of oxygen on the hoof after school every day. She fails to realize that by absorbing more oxygen, as she does when she takes active exercise, she is going to burn up and dispose of the accumulated waste matters which are making her feel so weary and ambitionless.

Home of Mrs. Nathaniel Milla Prettily Decorated for the Occasion.

The home of Mrs. Nathaniel Mills was the occasion of a most unusual bazaar held there by about thirty of the young girls of the Talbot Street Baptist Church. An acoundance of pink decorations cast a roft, rosy glow over the rooms filled with pretty things of every description. Everywhere quality was considered before quantity, and the prices were made most reasonable. Such dolls! From tiny little creatures with clothes for every occasion, silken bed quilts and wee pillows, to great golden-haired beauties, and everything that small doll mothers could fancy. Mrs. S. F. Wood, convener of the dolls, is a regular wizard where they are concerned, and personally supervised much of the dressmaking for the waxen babies. So famous did these dolls become even before the day of the sale that telephone orders were received in large.

Miss Violet Edwards was in charge here. Then there was a well-laden fancy work table with Miss Addie Trebilcock in charge, and great piles of home cooking presided over by Miss Madeline Maker. Miss Alma Bryant had the artificial flowers, so beautifully made and exquisitely colored that they all sold almost immediately. The bazaar was a huge success, with absolutely no raffles of any kind. In the middle of the day Tinker Bob went out again to see if perchance Mr. Wood Rat might be wandering forth. But instead of finding Mr. Wood Rat he found a long trail leading from one of the stick piles through the forest to the meadow where the Hunter had planted potatoes early in the summer. There were now and then tracks that could be distinguished in the soit dirt that looked very much like the track of Jack the Wood Rat.

But for the work of Hennessey and Connacher, the Capitals wor been overwhelmed, Sarnia showing a marked superiority in every other department. Toronto outkicked Harding when they got the ball away, but as a rule the charging tactics of the Sarnia line forced the Torontonians to run the ball instead of kicking.

Smith on the Sarnia line was wonderful. Time after time Sarnia linemen went through the Toronto line for yards and would be away, but for the snow which brought them down oftener than the tacklers.

League association football has more than regained its pre-war popularity, and Saturday's crowds were bigger than ever. Two matches were played in London yesterday. Arsenal and Chelsea in the first league and Fulham and Tottenham in the second. They drew nearly 50,000 spectators each. Tottenham easily maintained their position at the head of the league, which now seems unassailable, but the Arsenal and Chelsea had a tough content, with a draw resulting. Nothing sensational happened to any of the league matches. The most unexpected result was Notts' defeat of Everton, and perhaps it is worth noting that no fewer than ten home clubs in the three leagues were beaten, West Bromwich succeeded at Manchester, and this restores them to the top of the league, while at the bottom remains the famous old Sheffield Wednesday, with only three wins and ten points out of seventeen games.

A keen strugele is going on between Portsmouth, Watford, Reading and Queen's Park Rangers for the leadership of the Southern League, with Portsmouth slightly ahead. The only important amateur event in association football was Cambridge University's good win over the Corinthians, 5 to 3. One of several smashing rugby defeats was Richmond's 72 against St. Thomas Hospital's nil. The latter were earlier in the week beaten 71 to 0 by Oxford Lance and the second of the lead

INTERMEDIATES MAY **MEET SENIORS FOR** O.H.A. CHAMPIONSHIP

New President of O. H. A. -Two Referees On Large Ice Sheets.

TORONTO, Dec. 6.-There was large attendance at the 30th annual meeting of the Ontario Hockey Association held in the Temple Building on Saturday morning.

Several important changes were made in the constitution and the whole telegram to the Associated Press today:

"Just received cable from Edward
Cochran, the English promoter, offering one hundred and seventy-five
thousand dollars to meet Carpentier
there. Also have offer from Tortorich,

entries are expected to be larger than ever.

Perhaps the most important change made by the delegates was one to allow the intermediate champions to play-off with the senior winners, and then the victor of this contest go into the Allan Cup series as the official representative of the O. H. A. In the last the intermediates were the only

towns and villages represented in the Co. H. A. in any series precedence be given to civic amateur organization representing the whole community."

D. H. Cole of Burlington wanted the D. H. Cole of Burlington wanted the seniors stopped from playing in the intermediate series, and after a long discussion a compromise was made when Kitchener proposed that each senior club be compelled to register at least six bona fide players, who will be barred from playing intermediate. This will still allow the intermediates to step up if they show the ability and stop the practice of trotting out a senior team in some intermediate fixture.

A. W. Dick's amendment to let the intermediates into the play-off, was carried by a handsome majority. Angus Campbell, of the Northern Ontario Association, was a strong sup-porter of this amendment.

The war-time regulations in regard to soldiers were struck out after a short discussion, and in future a junior player will have the privilege of play-ing in the nearest town with a junior club if his home club rails to enter a

team.

Hockey expenses have mounted with the cost of living and it didn't take the delegates long to advance the expenses allowed to traveling clubs. On a motion by W. A. Fry, Dunnville, fifteen cents a mile for ten men was set at the The referee's charge was boosted to allow him to ask fifteen cents a mile instead of ten.

The delegates passed an amendment The delegates passed an amendment to give the secretary authority to appoint two referees on large ice spaces when he thinks it is necessary.

Only one amendment to the playing rules was passed and it has to go before the Canadian Hockey Association as a recommendation. It is to allow a goaler to be substituted at any time. H. Sturm of Kitchener wanted the goaler to be allowed to stop the puck in any fashion, such as kneeling, lying on the ice, etc., as is in vogue in the pro league. He failed to get a seconder.

The usual honorariums were passed for the secretary and the treasurer, and Sheriff Paxton's motion that the O. H. A. adopt the suggestion of the A. A. U. of C. for the registration of all athletes with the provincial branch for the purposes of registration.

The St. Patrick's Club of Toronto tendered fees for the coming season, but the secretary refused to accept them. The club manager contended that this was not in order, but the president ruled that the executive had the right to refuse any entries.

Entries will close on Wednesday, and the clubs will be grouped by the executive on Friday.

STREET RAILWAY QUESTION NOT BEFORE PEOPLE

Higher Fares Would Be Necessarv To Make Investment Pay.

VALUATORS MAKE REPORT

City Would Lose Money If Road Were Operated On Present Fares Scale.

No vote on the purchase of the London Street Railway will be taken at the coming municipal elections. The city council decided at a special meeting Saturday night, that there was not sufficient information available to justify a vote The valuation of the road made by the hydro-electric engineers was presented and proved to closely parallel the valuation made by the street railway company, except in the matter of rolling stock. The company valued its rolling stock at what the cost would be to replace it today, less depreciation to its present condition. The hydro valued the rolling stock on the basis of what it could buy second-

Higher Fares Necessary.

The engineers reported, however, that in the event of the city buying the road it would have to charge a straight five-cent fare, and six limited tickets for a quarter, in order to make the investment pay. Under the present rate of fares they stated the city would lose about \$20,000 a year.

The special railway committee received the report from Sir Adam Beck, chairman of the Hydro-Electric Commission, Saturday morning. A special meeting of No. 1 committee of the city council was held Saturday afternoon. The committee decided to submit the matter to the city council without any recommendation,

Ald. E. S. Little made the report of the special committee. He said the hydro valuators placed the valuation of the company at \$1,356,600, allowing for depreciation and other matters. The company placed the value of the road at \$1,208,000.

Increase Revenue.

Ald. John Colbert said that a point to be considered was that the better the service the more revenue there was likely to be.

Leonard Tait, treasurer of the company, said he was a firm believer in public ownership and he did not think the company should be allowed to have a monopoly of the streets.

"Reading between the lines, evidently somebody wants to sell their railway," said Ald. Seabrook. "No citizens have made any request that we purchase the railway."

Mr. Tait said that the revenue of the past five years was \$650,000 over

Would Grant Higher Fares.

"Frankly I don't know how I would vote," said Ald. E. S. Little. "To my mind the solution is to grant increased fares. The hydro valuators apparently think that the road can be carried on if that is done. If the higher fares are turned down and that is followed by litigation and strikes and eventually mentions."

Five Cent Fare and Better Service. President Charles Currie said it was a question of whether the city was prepared to pay a five-cent fare and get tickets and continue the present service. He believed the road could pay seven per cent on six and eight for 25 cents basis. The company was not prepared to give better service even if granted the higher fares this year.

Ald. Holmes objected to the proposal to pay exchange on the stock held in the United States. "They take the money out of the country; let them take it at par value," he said.

Ald. Moorhead also held this opinion. Ald. Holmes said he firmly believed in public ownership, but he wanted to know where he stood before taking over any more projects. London could Windsor, and when full information was ready a vote could be taken then. Ald. O. I. Cunningham said it was plain that they could not have good service without paying for it. Personally he was not in favor of purchasing the road, but he thought the people should be given a chance to vote on it. Full information on the matter would be available before the election, he said.

Ald. John Colbert said that a point the people should be available before the election, he said.

Ald. Watkinson raised the question of whether the street railway paid for the power it used on Sundays. Mayor Somerville replied that it did.

The state of the earnings based on the past ten months and added an estimate of the earnings based on the stimate of the earnings based on the past ten months and added an estimate for the commany year. On the basis of this they stated that the city nondominate in the money it borrowed and allow 1 per cent as a sinking fund to redeem the road. This is impossible, as this amount would pay only half that amount, and there then would be an annual deficit in the neighborhood of \$20,000.

With the \$18,950 the city would have been as a sinking fund to redeem the road. This is impossible, as this amount would pay only half that amount, and there then would be an annual deficit in the neighborhood of \$20,000.

The city therefore only could make about 3 per cent on the company at 30 cents on the dollar. There is not much possibility of this charies Currie, president of the company, told the council that the share-solvers would not accept one cent less than par.

EIGHT MONEY BYLAWS, FIVE PLEBISCITES AS WELL AS THE USUAL VOTING ON JANUAR

Altogether Voters Entitled To Cast Ballot On Money Questions Will Have 25 Different Questions To Answer.

Eight money bylaws and five plebiscites will demand the attention of the voter when he goes to the polls on New Year's Day. The money bylaws involve more than a million dollars. In addition to these thirteen decisions which the citizens must make, the only other things they will have to do are to decide whom they want for mayor, what three aldermen they favor to represent their ward, what six citizens they would like to see on the board of education, and what two on the public utilities commission. In all, the man or woman entitled to vote on money questions will have to cast 25 votes.

COMMENCED TO PRODUCE DECEMBER 1ST. This first play is from the pen of Sabine W. Wood, author of "The Quitter" and "The Man Who Saw Wrong," and assures the success of Films, Incorporated, from the outset of its career.

And speaking of earnings "BOB WISE" says ---

"The profits from the production of good photoplays have always been big. I don't care where you live or who you are, you always enjoy a good photoplay. You may be a bank president or his junior clerk, but you will pay the price for good, clean film amusement. That's what Films, Incorporated, is producing now, and an estimate of earnings based on very conservative deductions shows that Films, Incorporated, should earn 50 per cent net on its total capitalization on productions to be made in 1920. Say, what I could tell you about his company would fill a book. In fact, it has filled a small book and I will send you a copy free of charge and without obligation on your part. You know there are one hundred and ten million people in the United States, and while I can't see you all I can tell you who are interested all about it. URGENT NOTICE

To All Public Utilities, Hospitals, Essential and Non-Essential Industries In the Province of Ontario.

The shortage of Bituminous Coal has become so serious that all public utilities and industrials must immediately adopt rules tending to a strict conservation of coal.

No Bituminous Coal will be permitted to go forward or be delivered to industrials until satisfactory evidence is at hand that our public utilities and hospitals have been supplied for the winter.

Manufacturers are urged to avail themselves of the supplies of steam sizes of Anthracite now in the hands of local dealers.

Public utilities and essential industries which anticipate shortage within the next sixty days, are required to immediately file with me a statement under oath setting forth nature of industry, amount of coal on hand and daily consumption.

USERS OF FREE GAS

Users of free gas in the gas fields should conserve the supply by discontinuing the use of flares and regulating the consumption in their homes by exercising the same caution as practised by consumers paying for supply, in confining the consumption strictly to domestic use.

Did You Ever Stop to Think--

what it costs in the way of human effort to aeliver you daily that fresh, nut-brown, appetizing loaf of good white bread?

Do you realize that a brigade of men toil through the watches of the night, working while you en joy your natural sleep, rest or recreation, and enduring the extremes of heat in order that you may receive the most wonderful pure food perfectly fresh each day, --- Your Loaf of Bread.

Then, again, think of the long rainy days, of the days when Jack Frost is king, and stormy zero weather prevails! Yet your breadman calls daily, never failing to deliver you that one great necessity, -- Your Loaf of Bread.

NEAL'S BREAD

Always Fresh, Wholesome and Clean

Don't you agree with us that these servers of humanity are deserving of the most liberal treatment and appreciation? The broad, fair-minded way in which the people of London and all Western Ontario have accepted what to us was a necessity (a slight increase in the cost of your loaf—the first increase in over two and a half years), has enabled us to be even more liberal with our staff, making it possible for each and every one of them to enjoy more of the comforts and necessities of life.
