Much Business is Before the Commissioners—County Committee De-liberating—Other Matters.

At yesterday's session of County Council, the communication from Magistrate McKimley, of Ridgeway, in regard to paying the expenses of the Leitch child sent to the Industrial School, was referred to a committee composed of Commissioners, Morrison, Rycraft, and Somers.

The suggestion of the Warden that the treasurer should not pay out any money to county officials without an order from the Warden was discussed and all the council backed up the Warden on the stand he had taken.

Mr. Morrison asked why the expenses of the criminal justice account in Kent was greater than that of other counties in Ontario. The crown attorney had been paid over \$5,000 last year. Mr. Morrison said that this was too much money for one man to draw. Many men throughout the county would be willing to do a portion of this work. Mr. Douglas had free light and free fuel besides a large practice.

Mr. Ross asked Mr. Morrison why he had not attended the meeting of the criminal audit.

Mr. Vester asked how it was that the auditors' report should say that James Burk had been fined \$100 and costs, but that only \$90 of the fine had ever been paid into the county treasury.

The Warden said that he had seen the item referred to and had also interviewed the Crown Attorney and he acknowledged keeping the \$10, stating he was entitled to it. As far as the Warden could see, the Crown Attorney was paid \$1,000 in lieu of all these fees and if he had not been so paid he would only have been entitled to 4 per cent or \$4.

Mr. Sifton—Has he not made the \$10 good?

The Warden—No sir.

Mr. French said that he was glad that steps were being taken to regulate the money drawn by county officials. The jailer's salary, too, was much discussed.

These matters were left with a committee composed of Vester, Morrison, Johns and French to deal with.

Mr. Ross gave notices of motion re jailer's salary and the amending of the by-law against peddlers.

On motion of Mr. Rycraft, seconded by Mr. Vester, the action of the Warden in regard to the payment of money was endorsed.

The council then adjourned.

BOERS BEATEN OFF IN LONG ENGAGEMENT

Seven Hundred Burghers Attack Willow More, Cape Colony, and are Repulsed—A Long Siege is Ended at Last.

London, June 4.—A despatch from Willow More, Cape Colony, dated Sunday, says:—Commandant Scheeper, with 700 men, attacked Willow More yesterday (Saturday), but was beaten off after nine hours' fighting.

THE PUBLIC HAS IT ALL.

The War Office made the following announcement last (Monday) night:—"All the information received from Lord Kitchener respecting recent engagements in South Africa has been communicated to the public."

JAMESTOWN THREATENED.

A Cape Town despatch of the 3rd says:—Jamestown is threatened by Fouché's commando.

BRITISH CASUALTIES.

London, June 3.—The War Office is making no effort to allay the public uneasiness occasioned by the scantiness of the news from South Africa. Nothing has yet come through to illuminate the Vlakfontein affair, the only despatch on the subject since the first official announcement being a three-line message from Lord Kitchener, issued this morning, giving the names of three additional officers killed.

HOSPITALS CROWDED.

New York, June 3.—A special despatch to the Tribune from London

says the uncertainty with regard to recent operations in South Africa is causing a good deal of uneasiness in this country. It is believed that owing to a recent warning from General Kitchener, as to giving news to the public, the home officials have suppressed almost all the news he has forwarded. Meanwhile the daily lists of casualties are anxiously studied, but these lists do not fully denote the actual number of deaths of British soldiers caused by the war. At the present moment all the military hospitals in the United Kingdom are crowded with patients, a large number of whom are suffering from enteric fever contracted in South Africa.

ZEERUST RELIEVED.

London, June 3.—Details just received of the relief of Zeerust, Transvaal, May 22, by General Methuen, show the town was besieged practically for several months and that its food supply was short.

IMPORTANT CAPTURE.

London, June 3.—A despatch from Pretoria announces that the commando have captured Abram Mahan, son-in-law of the late General Joubert. Mahan was an energetic, progressive politician before the war, and since it began he had been very active against the British, and has filled several important commands, including that of Pietersburg, until the British occupied the place.

A PIONEER PASSES AWAY.

There passed away on Thursday, May 9th, 1901, at her late residence, River Road, Dover, Ellen, relict of the late T. W. Smith.

She will be much missed in her family circle and also by her many friends. She was the last member of a family of seven. Born in the city of Cork, Ireland, she came to this country with her parents when quite young. The funeral, which took place from her late residence on Sunday, May 12th, to Maple Leaf cemetery, was very largely attended.

The services were conducted by Rev. J. E. Courtes, D. P., and Rev. Mr. Sims. She leaves a family of four, Thos. R. William, Catherine A. and Mary J., all on the homestead. The pallbearers were Dr. Fleming, Mr. Morton, Mr. Purser, Mr. Williamson, Mr. Dowling and Mr. McKinley.

HAS BEEN BUSY MONTH

Health Officers Make Report of Doings to the Local Board

Several Recommendations Made to the Board—Forthcoming Convention.

The Board of Health met yesterday afternoon in Harrison Hall. Health Officer Dr. Hall reported as follows:—

Since your last meeting scarlet fever has been reported as follows: Princess street, one; Prince street, one; Lansdowne avenue, one. All these cases were removed to the contagious ward of St. Joseph's Hospital for treatment. Three cases of diphtheria were also reported: Grey street, one; Lacroix street, one; Church street, one. One was removed to the contagious ward of the Public General Hospital, the others were treated at home.

We had some reasons to inspect this Payne street school. Might have been infected with scarlet fever so we had it thoroughly fumigated with formaldehyde gas, since which no new cases have been reported.

Some time ago I offered to the hospital authorities the free use of the disinfecting apparatus, operated of course by Inspector Guttridge, who has become very proficient in the use of this apparatus, to disinfect wards and rooms infected by tuberculosis and other contagious diseases. The General Hospital have availed themselves of the offer three times and St. Joseph's Hospital once during the month.

I would recommend that a new supply of formaldehyde solution be purchased as it has proved very satisfactory for fumigating and disinfecting.

The next meeting of the Executive Health Officers Association will be held in Brantford, June 25th and 26th. With this I hand the preliminary announcement and general program.

Health Inspector Guttridge reported as follows:—

Since our last meeting there has been the following cases: One case of scarlet fever on Prince street; one case scarlet fever on Princess street; one case scarlet fever on Lansdowne avenue; one case of diphtheria on Church street; one case of diphtheria on Lacroix street. The three cases of scarlet fever were sent to St. Joseph's Hospital, and the houses disinfected. One case of diphtheria was sent to the General and the others were treated at home, and houses disinfected.

ALD. EDMONDSON ASKS FULL CIVIC INVESTIGATION

Committee Will Make Inquiry Into the Cost of Sidewalk on Wilson Ave.—Council will ask Grant for Road-Making—Other Matters at Last Night's Session.

Ald. Edmondson—who represents the northern part of the Maple City at municipal headquarters, who bears a reputation of being a quiet man at the Council board, a man not conspicuous in the gushing outbreaks of oratory that sometimes punctuate municipal deliberations nor the arduous discussions that make men work overtime—was responsible for the explosion of a mild bombshell in the civic chambers last evening.

"I have a little matter that is scarcely a little matter to bring before the Council," he said rising and addressing the Mayor. "It is in connection with the laying of the short plank sidewalk on Wilson Ave., the cost of which falls upon the residents. Now, this sidewalk actually cost, for material and work, just \$6.80, while the bill for extras and incidentals, supervision, etc., came to \$22.

"Now," added Ald. Edmondson, "there is something wrong about this or else ratepayers are suffering from a hardship that should be immediately alleviated."

The Mayor said the matter seemed peculiar but the work was now entirely closed and he did not see how the matter could be got at.

"There is surely something wrong," said Ald. McCoig, "and I for one believe we should know and the matter be thoroughly investigated."

Ald. Pritchard—Hear, hear!

On motion the matter was referred to the Finance committee.

All the members of Council were present when the Mayor's gavel fell at eight o'clock.

An application from John Wright to cut grass was referred to the Board of Works.

Several petitions to have dog tax struck off were referred to the Court of Revision.

Applications to trim trees were referred to the Chief of Police.

P. Kelly complained of water on his lot.—Board of Works.

Request from residents south side Emma street for permission to lay walk. Board of Works.

Letter from National Carbon Co., Cleveland, quoting prices. Property with power.

B. K. Harper asked permission to shingle roof of metal barn within fire limits. Property with power.

Herman Wilmore resigned position of call fireman. Accepted.

Petition from ratepayers of Ward 2, asking reappointment of Crossing Sweeper Hart. Board of Works.

Communication from F. H. Larkin, Seneca, asking that taxes be remitted, as he had left town. Finance.

A. J. Dolson, of Raleigh, asked if the city would co-operate in opening road through Robt. Fairbanks and Robertson-of-Inches estate. Board of Works.

The Mayor said he had asked the city engineer to make up an estimate on the value of the Bell Telephone local plant. It was placed at \$17,357.

Finance.

Thos. Scullard, secretary Chatham Navigation Co., wrote stating that the shed at the rear of Henderson's livery was dangerous. Board of works.

Also for permission to erect wooden

shed at foot of Fourth St. Property.

John Piggott and F. F. Quinn were present from Board of Trade to ask use of council and committee rooms. Granted.

Ald. Marshall, for the Board of Works, reported proceedings at recent committee meeting already published in The Planet. Adopted.

Ald. Cowan, for Industrial committee, reported no action re proposition of D. McLachlan, on advice of city solicitor. Adopted.

The Mayor called attention of Property committee that light on St. George street had been out for three nights last week.

Chief Pritchard recommended appointment of Geo. Forsythe as call man. Confirmed.

The Industrial committee was authorized to interview the County Council relative to the adoption of the Torrens system.

At the request of Ald. Marshall the Mayor decided to hold an adjourned meeting of City Council on Wednesday evening to consider petition for granolithic walk by Lacroix St. residents.

W. K. Merrifield addressed the Council relative to placing the Park St. sidewalk outside the trees. The matter was referred to the clerk for investigation.

Bud Gibson asked permission to draw 80 per cent of his earnings. Board of Works.

John Piggott addressed the Council stating that the Ontario Government had appropriated \$1,000,000 towards building leading roads through the different counties. He suggested that the council act with the county in securing a portion of the Government grant.

Ald. Marshall, Scane and Cowan were appointed a committee for the purpose.

Tenders for painting and whitewashing the market buildings were opened as follows:—

Matt. Pryor, \$60.

F. G. Judson, \$87.

Reardon & Son, \$80.

E. J. Willard, \$69.

Matt. Dooling, \$59.50.

Lowest tender was accepted.

Tenders for cutting trees on Tecumseh Park were opened as follows:—

A GOOD SUGGESTION.

In addressing the City Council last evening Mr. John Pigott, president of the Board of Trade, made a valuable suggestion when he advised the aldermen to make application for a portion of the money voted by the Provincial Government for the improvement of the leading county roads. Any appropriation could be used to excellent advantage in Kent county.

The City Council were wise in taking up the suggestion promptly and in seeking the co-operation of the county representatives and the Board of Trade. An organized and energetic effort by these representative organizations should result in substantial Government assistance and valuable impetus to the municipalities themselves.

THE COUNTY COUNCIL.

This week the Maple City extends a hearty welcome to our County Parliamentarians, who will be engaged with the duties of the mid-year municipal session.

The inaugural address of Warden VonGuten, a report of which was published in yesterday's Planet, will prove profitable and valuable. The statement of the county finances he submitted must be specially satisfactory and is a credit to the commissioners. It evidences the fact that the corporation monies have been handled wisely and well. It also demonstrates the splendid prosperity of the municipality of Kent.

There is much to be accomplished by the County Council at the present session, and we believe that the efforts of the representatives will continue along the lines of development and progress.

THE GLORY OF CARNEGIE.

The Toronto Telegram thinks Andrew Carnegie is getting too much glory out of his university donation, says the Hamilton Post. We have not noticed the glory ourselves, but we give the Telegram's idea of it.

Humanity is staggered by the spectacle of Andrew Carnegie, sacrificing \$10,000,000 for the sake of an idea that he would like to glorify his native country.

Humanity is not interested in the spectacle of a nameless boy offering up his life for the sake of an idea that he would like to glorify the flag he was born under.

Money is rated higher than manhood in this old world, or the one man who is willing to give up his millions for Scotland would not win more glory than the thousands of men who have been willing to give up their lives for the same land and other lands.

In the first place humanity has not staggered one little bit over Mr. Carnegie. Some of us accept him philosophically, as a brand of millionaire which might be worse, and some of us rave against him and denounce his gifts as an unworthy insult—which is a novel form of hero-worship. The Telegram has probably been reading some of the editorial effusions of that American press which a few weeks ago went wild with acclamation over Brigadier Gen. Funston, but it knows better than to take them seriously.

As for the men who have offered up their lives for their country, we do not think their services have gone unappreciated. It is affected exaggeration to say that all, or most of them, did so for the sake of sacrificing themselves for their country. There are too many other considerations that enter into the frame of mind that make for enlistment. It would be as misleading to fall down and worship the British army on bloor as to place Mr. Carnegie on a pedestal for heroic munificence. We are not doing either.

CANADA'S OPPORTUNITY.

Canada is being boomed in London at present, after all these years; and those who are doing the booming are not British subjects, but enterprising Americans who see great possibilities in the development of Canada. It is not very much to Canada's credit that it has been left to Americans to do the booming—there is such a thing as too much modesty; but now that she has received the cue from her neighbors Canada may develop sufficient courage to do a little booming on her own account. For years British capitalists have gone past Canada and invested their wealth in American enterprises, where success was thought to be an assured thing. Canada's resources were a sealed book to the British capitalists and they did not think it worth their while to look into the country's possibilities. Since the opening up of New Ontario, however, and the partial opening up of the vast territories surrounding it, at new day appears to have dawned for Canada, and there are possibilities in the way of manufacturing industries never before dreamed of. In the island of James Bay there are said to be rich deposits of iron ore,

while at no very great distance there is coal that could be used for smelting. These iron mines are said to be richer and more extensive than the sources from which Sydney's steel works are supplied. These facts should be brought prominently before the British manufacturers and it should not be left to Americans to do it. It concerns Canada too nearly for that. A good deal of life of the present day centres round the factories, and if a country is to be brought to the fore it is through its manufacturing industries. If Canada could induce some enterprising manufacturers to emigrate to Canada and establish industries it would do more to help the country in a few years than all the painstaking and laborious efforts of the emigration office in the past. The importation of the lowest class of people, ignorant of the mode of life in the country and who have to adapt themselves to new conditions, is a slow means of opening up the resources of a country.

But not only in Great Britain is there an awakening to what is going on in Canada. The people of the United States are coming to a keener appreciation of the meaning of Canadian development. In a recent article on the relations of Canada and the United States the Detroit Tribune takes the view that the present unpopularity cannot long continue with advantage to the United States. After quoting statistics showing the volume of trade between Canada and Great Britain, the Tribune has this to say:

"She (Canada) usually has a large balance against Great Britain; but must turn about and pay it out to satisfy our demands. She won't do that always. Her differential duties intended to stimulate trade with the mother country are a recent experiment. Brief experience has shown that, as first applied, they have the desired effect in very slight degree. It is certain that, with the new national and imperial sentiment in the Dominion, created largely since the opening of the Boer war, intelligent effort will be directed to making those differential duties more effective, and that we shall be the sufferers thereby unless measures are adopted for unfettering the natural intercourse along 4,000 miles of border."

"There is still another important point to be considered. Coincident with the awakening of national and imperial sentiment, there is going forward a rapid development of manufacturing activity in Canada. Much of it already, is due to the investment of American capital and the engagement of American enterprise. We know what that means. We know that these forces will shortly be taking full advantage of enormous resources, and that in a decade, or two, at most, the Dominion will have achieved an exceedingly large measure of commercial independence. Common sense demands that, before such a day arrives, we cultivate with her the most friendly and equitable of commercial relations and establish such measures of amicable interdependence as shall be most conducive to the maintenance of mutual concessions when she has reached a position enabling her to do well enough without us if she chooses."

There is some satisfaction in knowing that the Americans are beginning to see the advantage of better trade relations. Canadians have been the suppliants long enough.

The Hamilton Spec. rises to remark that "May's weather was damp poor weather."

It is reported that a Canadian salt trust has been formed with a capital of \$8,000,000. A corner in salt can hardly be cited as a fresh instance of the power of corporations.

During the week past the weather has been intensely sultry in Paris, and the heat, as usual in large cities, has been productive of suicides and madness. The weather over there is as unseasonable as our present cool, wet weather on this side of the Atlantic.

The cabinet evidently enjoyed themselves as guests of the Governor-General, says the Ottawa Citizen. The only hitch in the festivities resulted from "King" Kelly suffering from a sudden severe attack of modesty which interfered with the delivery of his famous oration on Cables and Cabinets, or Any Portfolio in a Storm. It has been placed in the refrigerator until next year.

New Denver, B. C., Ledger. It requires a pull to get a liquor license. Money is not necessary. You must strike the fancy of the commissioners just right or you cannot sell the booze in this town (Sault Ste. Marie, Ont.). The gentlemen who have the say in granting licenses are little tin czars, and in the west they would be tolerated about the length of time that it takes hell to melt a pound of ice.

TO ENCOURAGE INSOMNIA.

New York Sun. A Lone Star sinner, the Davilla Times, gives this extraordinary recipe, which we reprint for the benefit of science:—"If you are troubled with sleeplessness in church, pick out some woman who is chewing gum and watch her. You can't go to sleep while doing that." It would be sad to know that any Texas woman chew gum in church were it not for the assurance that they do so for keeping the men awake.

Chatham, Ont., April 2, 1901. P. S. COATE, ESQ., Manager Chatham Gas Co., Ltd. Dear Sir,—In answer to your query as to my experience with the Gas Range, I am pleased to state that from a number of years' experience I find it the cheapest and best fuel I can get. As for convenience, it is always ready in an instant, in summer the kitchen is practically as cool as any other part of the house, which is one of the few blessings we are able to get without extra cost. It has practically no objectionable features. I would be pleased if you are able to use this in rescuing some good wife from roasting her life away in a hot kitchen, where wood is used during summer. WOMEN weak, pale, tired, nervous, despondent, no ambition, losing flesh, fretful, overworked, given to worry and solitude, backache and headache, nerves astrung, sleepless nights, limbs tremble, faint feeling, Leucorrhoea, painful periods, or any Female Diseases, quickly cured by our FAMOUS PRESCRIPTION.

YOUNG MEN led into evil habits, not knowing the harm, and who are suffering from the vices and errors of youth, and troubled with Nervous Debility, Loss of Memory, Bashfulness, Confusion of Ideas, Headache, Dizziness, Palpitation of the Heart, Weak Back, Dark Circles Around the Eyes, Pimples on the Face, Loss of Sleep, Tired Feelings in the Morning, Evil forebodings, Dull, Stupid, Aversion to Society, No Ambition, Bad taste in the Mouth, Dreams and Night Losses, Deposits in the Urine, Frequent Urination, sometimes accompanied by slight burning, Gleet, Urinary Troubles, Diseases of the Genito Urinary Organs can here find a safe, honest and speedy cure. Charges reasonable, especially to the poor. CURES GUARANTEED.

VARIICOLE and PILES, and KNOTTED VEINS of the Leg cured at once without operation. Doctors will deny this. But we are proving our claims every day. The method is simple, the cure is certain and permanent.

\$1,000 for Failure.

RUPTURE AND FISTULA CURED.

THE SIGNS OF SYPHILIS are blood and skin diseases, painful swellings, bone pains, mucous patches in the mouth, hair loss, pimples on the back and watery growths. We cure these for life without injurious drugs.

Have you the seeds of any past disease working in your system? IMPOTENCY or Loss of Sexual Power, and do you contemplate MARRIAGE? Do you feel safe in taking this step? Like father, like son. We have a never failing remedy that will purify the Blood and positively bring back Lost Power.

MIDDLE-AGED MEN.—There are many troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and weakening of the system in a manner the patient cannot account for. On examination of the urinary deposits aropy sediment will often be found, and sometimes particles of albumen, and color be of a thin milky hue, again changing to a dark, torpid appearance. There are men who die of this difficulty ignorant of the cause, which is the second stage of venereal weakness. The doctors will guarantee a perfect cure in all such cases, and healthy restoration of the genito-urinary organs.

BOOK FREE.—Those unable to call should write for question list and book for home treatment. Thousands cured at home by correspondence. Our honest opinion always given, and good, honest, careful treatment given to every patient.

VANCOUVER.

Sketch of the Dauntless Navigator Who Took the Island Over.

The noble island and flourishing city of British Columbia which bear the name of Vancouver are testimony to the debt of our western coast to that dauntless navigator and explorer. Born in 1758, Vancouver was only thirteen years old when he entered the British navy, serving almost immediately after as midshipman in the second and third voyages of Captain Cook to the southern seas. His connection with the northwest coast of America, however, did not begin until 1789, when, having risen rapidly in his profession during the meantime, he was despatched at the head of a small squadron to receive the surrender of Nootka, on the island now known by his name, from the Spanish Government. He was also to make a survey of the coast northward, to ascertain whether the Strait of Juan de Fuca was really a strait, and whether some means of communication did not exist by water between the Pacific and the great lakes of Western Canada. Four years was spent by Vancouver in this work, during which he wintered in the Sandwich Islands and recrossed to the American coast with the spring. In 1793, on his mission completed, he returned to England. With characteristic zeal and energy he at once plunged into the work of preparing an elaborate report of his operations, but he had not completed his task when on May 10, 1798, he died at Petersburg, in Surrey, his end doubtless hastened by the active spirit which led him to bear more hardships than his full share of the hardships necessary incidental to his stirring career.

HON. ROBERT BOND.

Sketch of the Premier and Colonial Secretary of Newfoundland.

Hon. Robert Bond, Premier and Colonial Secretary of Newfoundland, is returning from England, after settling with the Colonial Office the French shore question, so far as it can be settled in dealings between the colony and the British Government without consulting France. Though born in St. John's in 1857, Mr. Bond was educated at Queen's College, Taunton, England. His father, Mr. John Bond, was a native of Torquay, Devonshire, who conducted an extensive business at St. John's as a branch of a Bridport establishment. The present Premier studied law, but before being called to the bar entered politics in 1880. In 1885 he was chosen Speaker of the Assembly, and on the retirement of Sir William Whiteway in 1886 Mr. Bond became leader of his party. On Sir William Whiteway's return to politics in 1889, Mr. Bond entered his Cabinet at Colonial Secretary, which post he held almost continuously until 1897. In 1890 he was one of three delegates to England on the French shore question, and the same year was appointed by both the Colonial and British Governments to visit Washington to arrange a reciprocity treaty. In 1892 he was sent to Halifax to consider the fisheries and other matters with representatives of our own Government. In 1895 he was at the Ottawa Conference. Mr. C. A. Dana wrote of him: "A comparatively young man, but his tact and ability enable him to rank with the leading statesmen of the day."

MIRAGE ON LAKE HURON.

Surface of Lake Elevated at Angle of Twenty Degrees.

There was a very curious and beautiful mirage on Lake Huron on a recent Saturday. The surface of the lake appeared to be elevated at an angle of about twenty degrees, so that from Front street in Sarnia the ice covered surface of Lake Huron was visible over the top of the buildings in Point Edward. The contour of the shore was plainly visible for many miles, and the uneven surface of the ice fields broken here and there by streaks of open water could be seen stretching away till lost in the distance of the northern horizon. The most singular feature of the phenomenon was the singular manner in which the surface of the lake appeared at intervals to rise and fall. At one time the ice-covered surface of the lake would be barely visible above the lower intervening buildings, and presently, like the raising of a drop scene in a theatre, the landscape would appear to rise till the shore of the lake and the steamers imprisoned in the ice field would be plainly visible high over the summit of Fort Gratiot light-house, as if suspended in mid air. The singular phenomenon lasted for several hours, and was viewed with an immense amount of interest by the townspeople of Sarnia.

GET UP!

That's the morning call of Chanticleer. It's a welcome cry to a well man. But to a man whose sleep seems to have been only an unrefreshing stupor; who wakes with burning eyes, throbbing head, and a bad taste in the mouth, it means only a new day's misery.

In such a physical condition health is most surely and swiftly restored by the use of Doctor Pierce's Golden Medical Discovery. It cures diseases of the stomach and organs of digestion and nutrition, and it cures through the stomach diseases of liver, lungs, kidneys, etc., which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition. It increases the activity of the blood-making glands, and every organ is benefited by the resulting increase of rich, pure blood.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and other narcotics. "Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me," writes (Prof.) Messrs. A. Oliver, of Viola, Fulton Co., Ark. "Before I used the above mentioned remedies my sleep was not sound; digestion bad; a continual feeling of misery; I now feel like a new man. Any one in need of medical treatment for nasal catarrh could do no better than to take treatment of Dr. R. V. Pierce. I know his medicines are all right in this class of diseases."

The Common Sense Medical Adviser, cloth binding, sent free by the author, on receipt of 50 one-cent stamps, to pay expense of customs and mailing only. In paper covers 31 one-cent stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

DISTRICT DOINGS.

DOVER CENTRE.

The Presbyterian picnic, which was postponed on account of rain, is being arranged for June 20th. Efforts are going to be doubled to make this picnic a monster success. The amateur bicycle races, on E. & J. wheels, will be a leading feature. First prize is a silver cup donated by S. Stephenson, of The Planet. The baseball match between S. S. No. 7, and S. S. No. 10, will be a star event. Both the teams are enthusiastic. Don't forget the place—Hugh Porter's grove, 12th concession.

Rev. N. Lindsay, D.D., preached in the Presbyterian church Sunday. A very eloquent discourse was delivered. Mr. and Mrs. John Dunlop Sr., are on a few weeks' visit to friends in Chatham and Ridgeway.

Rev. J. W. McIntosh has been in Flint, Mich., for the last few days. Our blacksmith shop still continues to be empty.

The picnic at Mitchell's Bay last Friday was a decided success. The proceeds will furnish free libraries for Schools No. 6 and No. 8.

Chas. Montgomery has got the stone foundation laid of what will be a handsome residence.

Wedding bells will be joyfully ringing in this district in the near future.

Paul Huff, Michigan, is visiting with A. S. Huff, our grocer.

LOVE'S SACRIFICE.

"And behold a woman in the city, which was a sinner, when she knew that Jesus sat at meat in the Pharisee's house, brought an alabaster box of ointment and stood at His feet behind Him weeping, and began to wash His feet with tears, and did wipe them with the hairs of her head."

The eyes he turned on her who kneeling wept. Were filled with tenderness and pity rare; But looking on the Pharisee, there crept A sorrow and a hint of sternness there.

"Simon, I have somewhat to say to thee." The Master's voice rang clearly out, and stirred.

With its new note of full authority. The listening throng, who pressed to catch each word.

"Master, say on," self-righteous Simon said.

Am muttered in his beard, "A sinner art thou."

Marvelled the while that on the drooping head

The hand of Jesus rested tenderly.

"Seest thou this woman, Simon?" Scornful eyes

Did Simon bend upon the woman's face. The while the breath of love's sweet sacrifice

Rose from the broken box and filled the place.

Self-righteousness, the slimy thing that grows

Upon a fellow-creature's frailty. That wastes fat on shame of ruined lives.

Swelled in the bosom of the Pharisee.

"Into thine house I came at thy request. Weary with travel, and thou gavest not

To me the service due the humblest guest. No towel, no water clear and cold was brought

To wash my feet; but she, whom you despise,

Out of the great affection she doth bear, Hath made a basin of her woman's eyes.

A towel of her woman's wealth of hair, Thou gavest me no kiss"—O, Simon, shame!

Thus coldly and unlovingly to greet The Prince of peace!—but ever since I came

This woman hath not ceased to kiss my feet."

"He loveth most who hath been most forgiven."

O, Simon, hearken, learn the great truth well.

No soul on faith's glad wings mounts nearer Heaven

Than that which hath been prisoned deep in hell.

Methinks I hear her say: "Thou who forgivest

My many sins, this offering, sweet of breath,

I pour on Thee, dear Lord, while yet Thou livest,

For love is ever swift to outrun death." Upon her are the eyes of Jesus turned.

With gaze which seems to strengthen and will be a leading feature. First prize is a silver cup donated by S. Stephenson, of The Planet. The baseball match between S. S. No. 7, and S. S. No. 10, will be a star event. Both the teams are enthusiastic. Don't forget the place—Hugh Porter's grove, 12th concession.

—near sight—far sight—or whether there's a thing wrong with them or not.

Hundred of people in every town ought to have their eyes tested—in fact,
every one would be the better for knowing the exact shape their eyes are in.
If nothing is wrong you'll be glad to know it. If there's a slight defect you
ought to be glad to find it out. We'll fix it for you or our glasses will.

A bold bad man is frightening the
residents of this city who live in the
vicinity of the junction of Wellington
street and Lacroix street. He is de-
scribed as of ordinary height, with
piercing blue eyes and fierce red whisk-
ers. He first made his appearance at
the residence of Mrs. Maclean, and
frightened the household by his ac-
tions, and by his inquiries for a man
named Fletcher. He came back Sat-
urday night and Sunday morning.
Yesterday the residence of James
Holmes was entered and a knife
taken. The home of J. R. Cathcart,
next door, was also broken into, en-
trance being effected by a rear win-
dow. The house was ransacked but
the intruder was evidently frightened
off, as only \$3 in money is missed.
An attempt was also made to break
into the residence of Lieut. Fred
Stone, but without success. Every-
body in the neighborhood is alarmed
and the women are afraid to venture
out at night even with an escort. Ex-
citement is intense and, unless the
marauder is speedily captured several
ladies have stated that they will
leave the neighborhood and seek re-
sidence in some other part of the city.

ERIE WINS

Defeated the Tashmoo in To-day's Mar-
ine Struggle.

Special to The Planet.
Cleveland, June 3, 3.45 p. m.—The
Erie won to-day's race with the
Tashmoo by 1 minute 45 seconds.

The result was a complete sur-
prise to spectators here.

RADIAL ROAD TO GO AHEAD

Representative of American Capitalists
to go Over the Local Route.

Kent County has now a strong like-
lihood of having a splendid system
of electric railway covering the whole
of Kent County and radiating from
Chatham as the hub. Mr. Plumer, of
Toronto, representing New York capi-
talists, arrived in the city last even-
ing and he met with a number of
leading citizens to-day to discuss the
profitableness of such a railroad in
this county.

To-morrow and next day Mr. Plumer
will be driven throughout the
county.

Yesterday afternoon N. H. Stevens,
George Stephens, M. P., William Ball,
T. A. Smith, Ald. Cowan, John Fig-
gott, Mayor Sullivan, County Council-
or Rankin and William Douglas, K.
C. met in Harrison Hall and mapped
out the route over which it was pro-
posed to take Mr. Plumer. Mr. Rank-
in will accompany Mr. Plumer on his
drive through the northern section of
the county, and George Stephens, M.
P., will take Mr. Plumer through the
southern section.

THE KIRMES.

Kirmess, conducted under the au-
spices of St. Joseph's Hospital, open-
ed to-day in the I. O. O. F. Auditor-
ium and promises to be a magnifi-
cent success. The whole, spacious
hall has been daintily decorated and
set with beautiful booths representa-
tive of the different nations of the
world. The booths are all heavily la-
den with products of the country they
represent. The Kirmess will be open
all week and should prove the pleas-
ant resort of all busy shoppers and
everyone desirous of passing a de-
lightful afternoon or evening.

Not alone because of a worthy
cause, but also because of the bright
and excellent entertainment provided
should the Kirmess conducted in aid
of St. Joseph's Hospital be patronized.

COUNTY COUNCIL.

The County Council resumed at 10
o'clock this morning. They at once
adjourned and met in committee of
the whole on the equalization of the
County rate. After a lengthy
discussion, the equalization commit-
tee decided to accept for the year
1901 the ruling of Judge Bell in 1897
in regard to the distribution of the
County rate. This afternoon the
County Council went in a body to
inspect the County House of Refuge.

Children Cry for CASTORIA.

slow sleep the brave, who sink to rest
By all their country's wishes blest!
When spring with dewy fingers cold,
Returns to deck their hallowed mold,
She there shall dress a sweeter sod
Than Fancy's feet have ever trod.

By fairy hands their knell is rung;
By forms unseen their dirge is sung;
There Honor comes, a pilgrim gray,
To bless the turf that wraps their clay;
And Freedom shall awhile repair,
To dwell a weeping heron's tear.

ASSIST NATURE.

You have been told to "hitch your
wagon to a star"—that Nature will
assist you. That's all right. There
are times, however, when you should
assist Nature, and the spring is one
of these times.

Nature is now undertaking to
cleanse your system—if you take
Hood's Sarsaparilla the undertaking
will be successful, and your complex-
ion bright and clear.

NEW ONTARIO LAND SEEKERS

Attractions of the Temiscaming Region Pourtrayed.

EASTERN END OF THE CLAY BELT

A Splendid Farming Country—15,000,000 Acres of Land Almost for the Asking—Something about the 1,500,000 Acres of the Temiscaming Valley—A Well-Watered Country—Large influx of Settlers.

The present season is likely to witness a considerably greater influx of land-seekers into New Ontario than has hitherto taken place, as the great advantages offered by this important section of our own province become better understood. Of all the districts now open for settlement the Temiscaming appears to present the greatest attractions as a purely agricultural district to settlers from Eastern Ontario on account of its advantages in the way of water communication and the prospects of close connection with the leading markets of Ontario by rail in the near future. It possesses the largest continuous area of first-class agricultural land, the group of townships of rich level land now surveyed and open for settlement lying to the west and north of Lake Temiscaming being merely the eastern extremity of the great clay belt comprising about fifteen and a half millions of acres, which, with a slight break at the Height of Land, stretches across the districts of Nipissing and Algoma into the northeastern portion of Thunder Bay.

Fine Fertile Soil.

About one-half of the 1,500,000 acres comprised in the Temiscaming Valley has been surveyed and laid out in townships. The land, which rises abruptly from the lake shore to a height of about 50 feet, slopes gradually toward the Height of Land, which is about 50 miles distant from the lake. The soil is fully equal in fertility to that of any portion of Southern Ontario, being a rich clay with a surface of black vegetable mould. There is very little rock or loose stone, some townships being without stone of any sort. The settlement is well watered by a number of streams and rivers flowing into Lake Temiscaming from the north and northwest. This provides the settler with a ready means of marketing the timber and cordwood cut from their lands in clearing, for which good prices can be obtained on delivery on the bank of the nearest favorable stream.

Crops mature very rapidly. Settlers have in some cases taken up land in May, made a small clearance and harvested a crop the same year. Oats sown in June have been reaped in a fully ripened condition in time to be exhibited at the Toronto Industrial Exhibition on Sept. 20th. The district is destined to become a great stock-raising and dairying country, as it possesses all the requisites for the establishment of these important branches of industry, more especially in the excellence of the pasturage furnished by the luxuriant growth of grass and natural vegetation, the plentiful supply of pure water and the cheapness of land and building material.

Growth of Population.

The present population of the district is estimated at about 2,000, and is rapidly increasing. The progress of settlement has been considerably stimulated by the construction of colonization roads by the Government, the sum of \$3,000 being appropriated for that purpose in 1900 and a similar amount in 1901. There are two villages in the district—Thomson, the larger of the two, is situated at the head of navigation on the Ontario side of the lake, and Halesbury, on the lake shore, further to the south.

Northward, Ho! A great deal of interest is being taken in the land-seekers' excursion, which has been arranged by the Provincial Government by way of the C. P. R. to Temiscaming station and thence by steamer to Thomson and Halesbury. The rates have been put at a low figure and many workingmen from Toronto and other places, as well as large numbers from the country, are preparing to avail themselves of the opportunity afforded of seeing the country. The excursion starts on the 28th, and the land-seekers will have fifteen days, giving ample opportunity for a close inspection of the locality. Mr. Thomas Southworth, Director of Colonization, will accompany the excursion. The result of the new departure in promoting settlement in Ontario will be watched with interest. Many have already gone in since the opening of navigation in order to have an earlier choice of lots.

Restocking the Lakes.

Mr. Bastard, Deputy Minister of Fisheries, has recently superintended the transportation of parent bass from Lake Erie to the lakes of the Muskoka District. Three or four car loads a week were shipped. Each car contained about 1,000 fish. The extent of the work is shown by the fact that, as a starter, one car load of fish was put in Lake St. Joseph, one in Lake Rosseau, and one in Lake Muskoka, to be followed by others throughout the season, while a number of streams in which no fish have appeared for years will be restocked.

National Park for Canada.

The Ontario Government has reserved 1,400,000 acres of wild land near Lake Temagami, a great lake lying west of Lake Temiscaming, on the upper Ottawa. This will be used as a national park, where the timber will be preserved and the game will be allowed to increase. The number of beavers and deer is increasing.

TO-DAY'S POSSIBILITIES.

I may not, when the sun goes down,
Have added to my store
Of worldly goods, or gained renown
Through gallantry or lore.

I may not, while I strive to-day,
Move onward to the goal—
The gleaming goal so far away—
On which I've set my soul.

But I can show a kindness to
Some one who stands without,
And I can praise some toiler who
Is toiling on in doubt.

And when the sun goes down, I still
May be a better man—
No matter what the Fates may will—
Than when I first began.
—S. E. Kiser, in Chicago Times Herald.

An Impetuous Greeting.

Along a deserted country road one dark night in May a solitary wayfarer was leading a disabled bicycle. He came to a place where two roads crossed, and paused undecided. He glanced about in the gloom and found that he was near a house. "I'll ask there," he said, walking up to the door knocked boldly.

Hardly had his knuckles left the panel, when the door burst open and a young person in a dark skirt and light waist hurried herself upon him. The force of the blow caused him to stagger backward. Involuntarily he clasped her close in his arms while he regained his equilibrium, then he released her.

"Oh, oh, oh!" she gasped. "I thought it was a May-basket." Then, as suddenly as she had come, she darted into the house and the door went to with a bang behind her. The man picked up his bicycle from the ground where he had laid it and went back to the corners. Here he stood meditating. He looked in all four directions, then glanced at the house and shook his head. "I guess I'll take my chances on the road," he said, and started down the southern one.

As he went along, the clinking of the chain as it passed over the sprocket teeth sounding plainly in the stillness, he cogitated thus:

"I have just made a most interesting discovery. How by accident we sometimes stumble on these scientific facts. Now, if I had not punctured my tire just as dark was coming on, and then lost my way, I never should have known that during the month of May the houses in country places are so many catapulas. You have merely to knock on the door and a beautiful young lady will be shot into your arms, instead of into a net, as they do it at the circus."

Mrs. Jameson's was considered a very pleasant place to board, and vacancies were awaited for eagerly by those who knew of the quiet and homeliness of her peaceful dwelling. She never would have more than four boarders at a time, so it did not seem like a regular boarding house.

"I can't take care of more than that number," she often said. "If I had more I'd be obliged to keep a girl and that won't do. I get along very well with what help Jamie can give me about dishes and on wash days."

This habit of calling her husband "Jamie" led to the boarders calling her "Mrs. Jamie."

It was a day in September, and the newest boarder sat looking across Mrs. Jamie's table at the oldest boarder. She was the new school teacher—her predecessor in both school and boarding house had been married the previous summer—and he was a young bachelor whose work was in a down town law office. She thought that he had a good face, and he thought there was something strangely familiar about her voice, though at the same time he was sure that he had never heard those tones before.

As the weeks and months went by, a friendly liking grew between these two. Each felt free to call on the other for any little help that was needed, and many and long were the discussions indulged in by them.

During the short Christmas and spring vacations the oldest boarder missed the newest one, and when school days began again there was a noticeable rise in his spirits.

One evening in May these two and Mrs. Jamie were in the sitting room. Mrs. Jamie sewing patchwork. Mr. Sayward looking at the evening paper and Miss Stewart resting in a big chair, her hands lying idly on its arms.

There came a ring at the door bell and Mrs. Jamie went to answer it. In an instant she appeared again carrying something in her hand. "It's a May basket for you, Miss Stewart," she cried excitedly. Sayward sprang to his feet and rushed from the room, Miss Stewart following after.

It was a very dark night and the children who had hung the basket really did not wish to be caught, so after a vain search and a fruitless chase the two came back unsuccessful.

"What a beautiful basket!" cried Miss Stewart, and Mrs. Jamie brought a vase of water for the flowers and a glass dish for the fruit and candies.

Quiet was at length restored, and Mr. Sayward returned to his paper, Mrs. Jamie to her patchwork and Miss Stewart to her restful attitude. Suddenly she laughed softly.

"I was thinking of something that happened several years ago," she explained, as Mrs. Jamie looked at her inquiringly. "It was when I was in my teens and before I went to Normal school. I used to have ever so many May baskets and I took great pride in never letting any one who hung them escape without getting caught. Well, one night there came an unmistakable

May basket knock. I rushed to the door, opened it and dashed out right into a strange man's arms. I almost knocked him over and I was so confused that I ran back into the house without asking him what he wanted. It was probably some one who had lost his way, or else perhaps a tramp. At any rate he did not knock again, and I can't wonder at it."

Mr. Sayward's paper did not move, but behind its shelter he was smiling and there was a sparkle in his eyes. The warm spring days grew into warm summer ones and the last day of school had come. Sayward was helping Miss Stewart decorate the schoolroom.

"Doesn't it make you feel bad," he asked, "this last day, or are you glad to get away from the noisy little wretches?"

"This is my first year," she answered, "and I am not used to it yet, so I am afraid I shall cry a little this afternoon."

"I shall not feel so bad till tomorrow," he said with meaning, but she went on without noticing.

"I shall be glad to get home again, of course. My home is in a lovely place in the country. Perhaps you have been by it on your wheel. It is out in South Wytham on the turnpike. I would like to have you call out and see me sometime. It would be a pleasant ride, and any one can tell you where Jared Stewart lives."

"I'd like to come first rate," he said, "and I will on one condition."

"What is that?" she asked, looking up at him where he stood on the top of the step ladder.

He came down, hastily and his face grew suddenly serious.

"Alice," he said earnestly, "I love you. Do you suppose you could marry me?"

Of course it was very sudden, but Alice was one who knew her own mind, so after a moment's reflection she told him that she supposed she could.

The next day he went with her to the station, and as they waited for her train she said to him shyly, "And you think you will come out on your wheel and see me?"

"I rather think so," he said.

"By the way, I forgot to ask—what was that condition you spoke of?"

"Condition? Oh, yes, I know. That you would let me greet you as I did the last time I saw you there."

"The last time?"

"Yes. Don't you remember?—one night in May, and you said, 'Oh, oh, oh, I thought it was a May-basket.'"

She looked at him with wide eyes. "Was that you?" she cried joyously. "I'm so glad it wasn't any one else."

Advertisements Queer and Peculiar.

From collection of queer advertisements made by a Washington man these are selected:

By a colored couple in Georgia: "Your presents is required to a well wedding at the home of the bride. Come on come all. Gentlemen, 25 cents; ladies, 15 cents."

By a St. Louis man: "Wanted—A respectable gentleman, widower preferred to marry the housekeeper of an aged gentleman who has been an invalid for years, and who respects her as a good and true servant, whom he would like to see in the happy state of matrimony before he dies. She has had three husbands, but is willing for a fourth."

By a North Dakota Justice of the Peace: "I am reliably informed that some of our local clergy are cutting prices and thereby demoralizing business. I will reduce prices to perfect the marriage ceremony, but will give time if necessary, or will take meats, potatoes, grain, and will agree not to kiss the bride unless perfectly satisfactory."

By an English country gentleman: "Wanted—For a sober family, a man of light weight, who fears the Lord and can drive a pair of horses. He must occasionally wait at table, join in the light prayer look after the horses and read a chapter in the Bible. He must, God willing, arise at 7 o'clock in the morning, and obey his master and mistress in all lawful commands. If he tress in all lawful commands, he is at cribbage, the more agreeable."

By a West Virginia merchant: "Bibles, blackboards, butter, Testament, Tar, Tracile, Godly books and Gintlets, For Sale Here."

By a dog fancier: "\$5 Reward—Strayed from the premises of the subscriber, in Centerville, on the 1st of October, a small dog, near the color of an opossum, with yellow legs and head and tail cut off."

By a Philadelphia girl: "Wanted—A young unmarried woman without children wants a position as cook or housekeeper."

By a praiseworthy elder: "Advent Meet—Elder D. M. Cantright, of Boston, and Elder D. M. Farnsworth, President of the Iowa Conference, will preach in the Baptist Church from Friday evening, April 5, till Monday evening."

By the Common Council, Jackson, Mich.: "Resolved, That the pound-master be instructed not to receive into the public pound any cows that any person may drive to the same pound under the age of twenty-one years."

A red-faced and by no means soft-voiced woman came into our grocer's shop the other morning, and by the gleam in her eye one could see that she had a bone to pick with the grocer.

"Why don't you send me what I send after?" she demanded. "Here I sent my boy over here for five pounds of spuds and you sent back word you didn't keep them."

"We don't," said the clerk.

"You do, too," contradicted the irate lady. "What's them if they ain't spuds?"

"Potatoes," said the clerk, mildly. "Did you want potatoes?"

"Of course, I did," snorted the lady. "Didn't I send for spuds? Law me, sin't you ever heard potatoes called by their right name before? Spuds, I said, and anybody but a born idiot knows what spuds is!"—Washington Post.

NO ARGUMENT NEEDED.

Every Sufferer From Catarrh Knows That Salves, Lotions, Washes, Sprays and Douches do Not Cure.

Powders, lotions, salves, sprays and inhalers cannot really cure Catarrh, because this disease is a blood disease, and local applications, if they accomplish anything at all, simply give transient relief.

The catarrhal poison is in the blood and the mucous membrane of the nose, throat and trachea tries to relieve the system by secreting large quantities of mucus, the discharge sometimes closing up the nostrils, dropping into the throat, causing deafness by closing the Eustachian tubes, and after a time causing catarrh of stomach or serious throat and lung troubles.

A remedy to really cure Catarrh must be an internal remedy which will cleanse the blood from catarrhal poison and remove the fever and congestion from the mucous membrane.

The best and most modern remedies for this purpose are antiseptics scientifically known as Eucalyptol, Guaiacol, Sanguinaria and Hydrastin, and while each of these have been successfully used separately, yet it has been difficult to get them all combined in one palatable, convenient and efficient form.

The manufacturers of the new Catarrh cure, Stuart's Catarrh Tablets have succeeded admirably in accomplishing this result. They are large, pleasant tasting lozenges, to be

dissolved in the mouth, thus reaching every part of the mucous membrane of the throat and finally the stomach.

Unlike many catarrh remedies, Stuart's Catarrh Tablets contain no cocaine, opiate or any injurious drug, whatever, and are equally beneficial for little children and adults.

Mr. C. R. Rembrandt of Rochester, N. Y., says: "I know of few people who have suffered as much as I from Catarrh of the head, throat and stomach. I used sprays, inhalers and powders for months at a time with only slight relief and had no hope of cure. I had not the means to make a change of climate, which seemed my only chance of cure. Last spring I read an account of some remarkable cures made by Stuart's Catarrh Tablets and promptly bought a 50-cent box from my druggist and obtained such positive benefit from that one package that I continued to use them daily until I now consider myself entirely free from the disgusting annoyance of catarrh; my head is clear, my digestion all I could ask and my hearing which had begun to fail as a result of the catarrh, has greatly improved until I feel I can hear as well as ever. They are a household necessity in my family."

Stuart's Catarrh Tablets are sold by druggists at 50 cents for complete treatment and for convenience, safety and prompt results they are undoubtedly the long looked for Catarrh cure.

One important point in a well made skirt—the edge—is not always the most conspicuous.

But if a worthless "binding" is used the hidden weakness becomes intolerably noticeable long before the garment itself ceases to be slightly.

HAS BEEN BUSY MONTH

Continued from First Page.

The one on Church street has recovered. I have disinfected the General Hospital three times in the last month, also disinfected room in St. Joseph's Hospital, and the Payne school, Prince street.

There has been one hundred and twenty-five water closets cleaned out in the last month.

I have notified the Planet and Banner to have suitable closets put in for ladies.

In regards to the Garner House, they have started to put in closets for stores of Sulman and J. B. Kelly.

Complaint of John Mount's manure pile on corner of Lacroix and Wellington streets. I have inspected the same and find that he was cleaning it out and has no more than two wagon loads left. Complaint of Jas. Paul, having an open well and cistern, he has cleared out and covered it, and well with 2 inch planks.

As there are only three scavengers it is impossible to have more work than they can possibly do.

I have laid an information against the S. T. R. in regards to cattle yards and the case is coming up to-morrow, June 4th.

In regard to the city scavengers, the city has no place for depositing night soil or garbage, and they have to furnish their own dumping grounds, upon which some of the townships have stopped the scavengers from depositing night soil. I remain, yours faithfully,

J. R. Guttridge.

On motion of Dr. Bray the clerk was instructed to order two gallons of formaldehyde solution and if possible secure it in Chatham.

The Health Officer called attention to the filthy stable refuse at the Rankin dock. Buggies were washed over it and the refuse was carried on into the river.

Dr. Bray moved that the Health Inspector report to the chairman by June 12th the matters already referred to him.—Carried.

Dr. R. V. Bray moved that the Medical Health Officer and the chairman be delegated to attend the Health Officers Convention on Tuesday and Wednesday, 25th and 26th of June, at Brantford. If either one or the other cannot go then they have the power of appointing some other member of the Board in their place. The motion carried.

HIS VIEW OF IT.

"I don't see why citizens should be at pains to raise and keep that gun boat," said J. M. Pike this morning. "It is nothing more than an inglorious monument to an inglorious retreat. Why should we parade our shame that the Americans may come and gloat over us. That retreat of Proctor's is the only blot on the whole war. We can well be proud of everything but that."

Grand Trunk Railway time table changed Sunday, June 2nd. Chatham passengers going east for Toronto and points east of that will now leave at 10.32 instead of 9.02 as formerly, and the Eastern Flyer which formerly left here at 9.29 will for the future leave at 5.30, arriving in Toronto at 10 o'clock and Montreal early the following morning. This latter is the popular train which has revolutionized travel in Canada since being put on by the popular Grand Trunk Railway.

A new book of sacred songs entitled "Battle Songs of the Cross," by John M. Whyte, the well-known singing evangelist, has just been published by William Briggs, of Toronto. The collection contains all of Mr. Whyte's exceedingly popular songs previously published, including such favorites as "Can a Boy Forget, Will He Not Come Back, De Massa ob de Sheepfold," etc., and, in addition, fully one hundred entirely new songs. Mr. Whyte's compositions have a haunting cadence all their own. This new book of his, attractive alike in its title, contents and mechanical make-up, will no doubt prove a welcome visitor to Canadian homes.

Your Straw Hat, Sir!

The reporter must have a "nose for news", but he has to possess a lots of other faculties as well.

The dealer in hats must have a keen eye for novelty, but he needs ripe experience and the natural gift of "gumption" or the novelties will run away with him.

We're pleased with this big stock of new century straw hats because though all the recognized novelties are here, the range is so fully in accord with unwritten laws of good taste. Hardly a touch of the extreme or extravagant, and yet room for such a diversity of likes and preferences.

It makes all the difference in a mans appearance whether his hat is the right shape or not—twenty times more difference than it does in a woman's case, because with a man it's a matter of hard and fast lines—no softening trimmings to break the severe outlines. As a matter of becomingness many men will hail the return of lower crowns, but this season's hats really give every man a chance to look his best.

For hats as for all other goods we go straight to the maker. If these straw hats were made in China we should buy them in China, because the maker is ALWAYS the best man to deal with. The hat we sell for \$1.00 could not be retailed for less than \$1.25 if we bought it at wholesale in Toronto or Montreal and our \$1.50 hat we should have to charge \$2.00.

- 35c—The hat begins with a medium fine straw, in light bleach with polka dot band at this price.
 - 50c—Choice of 4 styles with plain black polka dot bands and good leather sweatband. Also a lattice braid sailor in navy and white with navy band.
 - 75c—At this popular price we show a positive puzzlement of shapes and straws. Rough and medium braids, fine Swiss mixed with large straws, and the heavy jumbo braids. Choice of plain and figured bands. At this price also begin the newest shapes with low crown and narrow rims in plain and fancy braids and rough straws, including the double rims which keep their shape so well.
 - \$1.00—New sailor styles in various straws, also a rolling soft brim with high crown in Fedora shape. A choice selection.
 - \$1.25—A good range of Canton braids and rough straws, and a special Manila hat with wide brim for old or elderly men.
 - \$1.50—Two fedora styles, a rough straw with black band and a fine braid with bound edges and blue band. Also two rough straws with figured bands, one in sailor outline, the other round-topped.
 - \$2.00—Heavy jumbo braids with plain band and Canton sailor, all with fine Russia leather sweatbands, and silk bands.
- Our straw sailors for boys range from 25c to 75c. At 25c we show three distinctive styles: Plain fine braid with polka dot band. Mixed crown and plain brim, slightly rolling. Mixed black and white straw sailor.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.
