IMPROVING STREETS.

The Guelph Mercury, whose publisher recently visited Stratford with other newspaper men, says: "A visit to Ontario cities like Stratford, Brantford, Woodstock and others in about the same class as Guelph will convince residents of this city that we are behind the times in the matter of improved roadways. Strangers who come to Guelph just now, when the streets are axle-deep with mud, cannot fail to be struck with the contrast presented here as compared with the streets of their own cities, very much to our disadvantage. There is nothing which will do more to give this city an attractive, progressive appearance than well laid roadways."

There was a time when Chatham was in a much similar fix as Guelph is in to-day. Great advances have been made here, however, until the Maple City now stands first among Canadian cities of similar size in the matter of improved roadways and pavements. Chatham is still going ahead, and other cities realizing that they are behind the times, will have to follow. Chatham has a good lead, however, and with the recent establishment of a Board of Trade, our progress will be still greater. Chatham has just commenced to grow!

"TOBACCO OUTLOOK BAD."

"Mr. Gregory, of Leamington, buyer for the Empire Tobacco Company, was in the city yesterday and bought from 60 to 80 tons of tobacco from Kent County farmers."

"Mr. Gregory advised the farmers not to grow much tobacco this year, as the warehouses were overstocked and prices would be low. Next year, he said, the prices would be better. Shippers state that nearly three hundred cars of tobacco have been shipped from Essex and Kent this year to eastern factories."

The above comment from our esteemed local contemporary is especially striking in view of the stand recently taken by H. S. Clements, Kent's active young member, in the House the other day. The above item appeared in the Banner on Saturday, and on the very same day in The Planet appeared the admirable speech made by Mr. Clements upon this very same subject—the tobacco industry.

As the Banner so aptly exclaims, "the tobacco outlook is bad," and the question arises, why is it bad? Whose fault is it? The Banner stopped when they came to these questions. They were evidently awkward for the local Liberal organ to answer.

Mr. Clements points clearly to the difficulty when he says that under the existing conditions the farmers are not being properly protected. Why does Mr. Gregory advise the farmers not to grow much tobacco this year? What chance has a Canadian farmer in the tobacco industry when there are 15,000,000 pounds of tobacco leaf imported from the United States every year, with 3,000,000 pounds of this leaf manufactured into plug tobacco? The seriousness of this state of affairs is not lessened by the fact that 35 per cent. duty is charged on all Canadian tobacco going into the United States.

As Mr. Clements says the farmers of this country should receive fully \$1,000,000 a year from this industry, but they cannot do this when buyers realizing that the competition from the United States is too strong, advise the farmers "not to grow much tobacco this year."

Chatham's new Board of Trade has made an auspicious start. Two industries are already in sight and more will follow. All that remains now is for every citizen to do his part, no matter how small that part may be. One man cannot boom a town. It is unity of action that counts.

The Town Council of Berlin has fixed the tax rate at 19 mills, divided as follows: School rate 4.75, county rate 1-15, park rate .05, library rate .05, debenture rate 2.65, general rate 9.45. The Separate school supporters' rate will be 21-4 mills more, making their total school tax 7 mills.

The Galt Park Commission is at present considering improvements to their Galt Park beauty spots. Here is a one for Chatham. As a citizen pointed out in a letter to this Great Home Journal yesterday, there is certainly room for advancement along this line in the Maple City. We have situated in the heart of our city the finest and best located play ground in America. It should be kept so. Just at present a visit to a seed store would come with excellent grace from the civic Parks Committee.

Chronic Constipation

BILEANS A CERTAIN CURE.

"I had chronic constipation for five years," says Mrs. M. O'Byrne, of Agnes street, Toronto. "It brought on headache and dizzy bouts, and robbed me of health and vitality. I spent a lot of money in trying various useless remedies. At last I tried the Bileans—and they cured me."

One of the finest scientific papers in the world (Science Siftings), says of Bileans in this connection: "They cure constipation without causing griping, and do not cause after-constipation, as other purgatives do." Piles, debility, anemia, indigestion, biliousness, heartburn, headache, and female ailments all disappear before a short course of Bileans. All druggists and stores at 50 cents or Bilean Co., Toronto, for price.

WAS LAID AT REST

The following, taken from a Winnipeg exchange, has reference to the funeral of the late Mrs. Dolson, who was formerly a Miss Baird, and a resident of this city:

The funeral of the late Mrs. G. P. Dolson was held from the family residence, Bannatyne avenue. The grey velvet casket, so like the one in which Frances Willard was laid to rest, was placed in the front drawing room and round it were seated white ribbons of long standing, who had worked for years with Mrs. Dolson. Among them were noted Mrs. Chisholm, president of the provincial union, Mrs. McClung, vice-president, Mr. John Wallace, Mrs. John Stewart, Mrs. Gardiner, Mrs. Gregory, and many others. The services were conducted by the Rev. J. W. Churchill, pastor of Wesley church, who read, in a most impressive manner, portions of the simple and beautiful burial service of the Methodist church.

He spoke briefly of the life and work of Mrs. Dolson, dwelling feelingly on the manner in which she had sustained the offices of wife and mother. Passing on, he touched upon her faithfulness in attending to all duties assumed by her, both in connection with the W. C. T. U. and the church, and said how much her wise and kindly counsels would be missed. He had known her but a year and a half, but in that time he had never heard her speak an unkindly word to anyone, or fail in the performance of a duty she had assumed. She would be missed in many homes throughout the city, where she had gone on quiet charities of which she never spoke. She would be missed too by many of the young people of the city, for whom her home had been a centre of light and happiness.

The service concluded with the singing of "Jesus Lover of My Soul," a favorite hymn of the deceased.

The family had requested "no flowers," but the W. C. T. U., the Missionary Society and a few private friends had felt they must disregard the prohibition and several splendid wreaths and a great sheaf of roses lay upon the casket, which was carried by Messrs. F. Bray, A. T. Campbell, John Gregory, R. R. Duncan, T. H. Radford and J. McVicar. Representing the W. C. T. U., Mrs. Chisholm and Mrs. McClung acted as honorary bearers. The chief mourners were her husband and her sons Arthur and Le Roy, her sister, Mrs. Bruce, from Ontario, her brother-in-law, Mr. Adams and her nieces, the Misses Adams. The interment took place at Elmwood.

Right Breathing Cures Catarrh

Simple Way to Kill Catarrhal Germs in Nose, Throat and Lungs.

If you cut your finger, you don't attempt to heal it by swallowing a pill or a dose of medicine.

It is just as foolish to try and cure catarrh of the nose and throat with pills and stomach dosing, for catarrh is a local disease, and needs special local healing treatment.

The only natural and common sense method known for the cure of catarrh troubles is Hy-o-mei. It is breathed through an ingenious pocket inhaler, so that its medicated air reaches the most remote air-cells of the nose, throat and lungs, killing all catarrhal germs, soothing the irritated mucous membranes, and restoring a healthy condition.

If you suffer from catarrhal troubles, such as offensive breath, running of mucus, frequent sneezing, husky voice, discharge from the nose, droppings in the throat, loss of strength, spasmodic coughing, or a feeling of tightness across the upper part of the chest, you should begin to use Hy-o-mei at once. It will destroy all disease germs in the nose, throat and lungs, and provide the blood with additional oxygen.

The complete Hy-o-mei outfit with inhaler costs but \$1.00. So strong is C. H. Gunn & Co.'s faith in the power of Hy-o-mei to cure all catarrhal troubles, that with every dollar outfit they give an iron-clad guarantee to refund the money unless the remedy gives satisfaction.

A GRAND PERFORMANCE.

Allen Doone in the title role of Joseph Murphy's old Irish play, "Kerry Gow," made a big hit at the Auditorium Theatre yesterday. The plot of "Kerry Gow" is the tale of the grasping landlord who holds the mortgage on the farm and will not relent unless the poor but honest father consents to force his daughter to marry the villainous mortgage holder. This melodramatic plot is treated in a refreshing way, with the soft pedal on the "melodrama." The situations are good and Allen Doone makes Dan O'Hara, the Kerry Gow (Gow is Irish for blacksmith), a bright, likable fellow. There is no bloodshed and there are no undue situations that leave the audience grasping and weak when the hero thwarts the villain. Mary Fernier as Nora Drew, the girl whom Dan will marry in a few days after the last act ends, was good. The love scenes between Nora and Dan which were frequent, were never overdone.

ALLEN DOONE IN KERRY GOW.

A feature of the play, is the scene in the blacksmith shop, where Kerry Gow makes a horseshoe at the blazing forge and shows the villain's horse, which may win the race on which all the hopes of the Drews are staked, "as well as though it were the horse of my best friend." The news of the race is brought to the Drews by carrier pigeons, which fly in and light on the dove-cote.

Mr. Doone won the audience in the first act with his love song, "Sweet Nora Drew." E. H. English was a good friend of the lovers, a Raymond Drew. J. J. Hyland made the villain a very probable character; he never ranted and his villainies were not the usual preposterous horrors committed by the ordinary bad man. The company gave good support.—Kansas City Times, March 5.

CANADIAN HORSE SHOW

The first Canadian National Horse Show will be held in Toronto on May 1st, 2nd, 3rd and 4th. This is the successor of the famous Canadian Horse Show, which is now divided into two parts: consisting of the Spring Stallion Exhibition in March, and the Canadian National Horse Show in May. As it was also the thirtieth year of the Show, the unlucky number was avoided by a new organization representative of the whole Province, as well as of the city of Toronto.

The Show promises to be greater and better than ever, and the St. Lawrence Arena, the new building erected by the city, is admirably suited for the purpose. There are no less than seventy-two classes devoted to the Harness, Saddle, Hunter horses and ponies, and the sum of \$7,000 is distributed.

The principal officers of the new association are Mr. George W. Beardmore, M. P. E. H., President; W. J. Stark, Secretary; Stewart Houston, Manager. Reduced rates equivalent to a single fare for the round trip are offered on all railways.

LITERARY

A few weeks ago Canadian Pacific Railway Co. issued a pamphlet entitled, "Western Canada," for the benefit of the vast number of settlers who are pouring into the west. They have now issued one entitled, "British Columbia," which gives an exhaustive description of this rich province, its advantages, resources and climate.

Mining, Lumbering, Paper Making, Fisheries, Farming, and Dairying are treated separately; Land Regulations, Taxation, etc., are given, including advice to immigrants, which will be of inestimable value to settlers.

There is also a description of the principal cities and towns, giving the situation, population and chief industries.

A copy will be sent free to any applicant by addressing W. T. Robinson, Advertising Agent, Canadian Pacific Ry. Co., Montreal, enclosing a two cent stamp and mentioning this paper.

The April number of Rod & Gun is a Spring Fishing number, and we must make special mention of Our Fishing and Hunting Trip in Northern Ontario, by Frank Carroll; Speckled Trout and Other Baubles, Ernest J. McVeigh; Royal Trout Fishing in Canada's Killarney, by E. A. Bradford; The Fine Fishing Waters of Quebec, by E. T. D. Chambers; and Thirty Seasons of Maskinonge Fishing by W. Hickson, the perusal of any of which make a sportsman long to take a rod and lie away to the nearest fishing spot.

Although a special fishing number, Rod & Gun does not slight other sports, and we find Our Big Game and Their Enemies, Why Our Deer are Vanishing, A Fine Tourist Region, The Game Society of Nova Scotia, New York Sportsmen's Show, and numerous other articles pertaining to sports of all kinds.

No one could be a constant reader of Rod & Gun without gaining great knowledge of the resources, beauties, and pleasures of our own vast Dominion.

"The Protection of Life on Railroads," the want of which has been brought before the public on this continent, on many occasions during the past winter, is dealt with in the April number of Review of Reviews, by three men of different callings. "Can the Railroad Death Rate be Reduced?" is written by a railroad signal engineer of 24 years' practical experience; "Railway Accidents and Railway Personnel," by Wyatt W. Randall, contrasts the European and American methods; and "Psychology of the Railroad Accident," is written by Chas. R. Keyes.

In the April number of What To Eat, we have "April Entertainments," by Margaret Rayburn, which gives appropriate decorations and menu for an April lunch, and suggestions for a Kindergarten Party for little children.

Some choice tested recipes are given.

HOW DO YOU JUDGE A PIANO?

Musically inclined people naturally judge a piano by its tone—and that's why "Nordheimer" Pianos are found in the homes of so many musicians of note.

If you have an ear for tone-quality the remarkable beauty, sweetness, purity and volume of the "Nordheimer" will appeal to you.

We could explain at length the various mechanical contrivances which are incorporated in the "Nordheimer" piano to produce its unrivaled tone, but they would be understood by a mechanic only.

We much prefer you to judge this piano from what your own ear tells you about its tone—then you are sure to be satisfied.

Pleased to have you call at your earliest convenience and examine the "Nordheimer." The One Price System assures you a fair and square deal.

Our Mr. R. V. Carter will visit Chatham frequently in our interest and will be pleased to furnish you with any information you may desire. Correspondence addressed to him in care of the Gammer House will receive careful attention.

THE RAILROADS UNPREPARED.

There are bitter complaints of the inability of the American railroads to handle the freight that is pressed upon them. Railroad men have many explanations. Some of them say the engines and car works are unable to fill the orders for rolling stock that have been given them. Others talk of the need of more trackage and better terminal facilities.

It is interesting to observe that the conditions complained of by American shippers exist in other countries. They are found in England. A correspondent of the London Times says: "So inadequate are the resources of some of the English railway companies that many collieries are losing time, and steel works are being shut down in the Midlands, notwithstanding heavy order books, because the railway companies are unable to move the output from the pits or to supply the furnaces with coal. Matters are not quite so bad as that in the United States. The officers of the overworked English roads say the locomotive plants cannot provide the additional engines that are needed."

Only a short time ago there was serious traffic congestion on the Italian roads. These roads are mostly operated by the Government, which helps to explain their inability to handle freight satisfactorily, but the French lines, which are operated by private companies, were also unable to meet the demands of the shippers.

In view of all the facts it must be admitted that the men who manage the American railroads are not the only sinners. They seem to have been to a certain extent the victims of conditions which obtain in both Europe and the United States. There as well as here there has been a rapid expansion of manufacturing energy which has suddenly outrun the carrying capacity of the railroads. That there has been great expansion in this country is proved by the increased imports of materials for use in manufacturing and by the increase in the exports of finished goods.

In a measure the American railroad men are to blame for not foreseeing the growth of manufacturing, which makes freight, and not making arrangements to take care of that freight. They ought to have seen that the productive industry of

LOOKING TO LAURIER

To Assert Canada's Claim Among the Younger Nations.

Morning Post Says Canada Has Rival —Australia Aspires to Leadership of the Colonies — Premier to Make Trade Arrangements With Continental Nations — Brodeur Goes to Russia—Conference Opens To-Day.

Liverpool, April 15.—(C. A. P.)—Before 9 a.m. on Saturday a number of Canadians from Liverpool and London were present at the landing stage, expecting the Empress of Britain to land her passengers, but it was two hours or more after the Lusitania passengers landed that the Empress passengers disembarked. Among the Canadians at the landing stage were W. L. Griffiths, representing Lord Strathcona; Ald. J. W. Clifford Sifton and Captain Kingsmill.

Mr. Barker, secretary of the Liverpool Chamber of Commerce, was present for the purpose of renewing an invitation to Sir Wilfrid Laurier to visit Liverpool. The Lord Mayor of Liverpool welcomed Sir Wilfrid Laurier.

Declined Interviews.
Also, some score of press representatives attempted to interview Sir Wilfrid, who, while exceedingly cordial, declined to say anything official that what he had to say would be said at the conference.

The voyage, said Sir Wilfrid, speaking to the Canadian Associated Press, was not what could be called a pleasant one, but still he stood it fairly well, as did also Lady Laurier. Sir Frederick Borden enjoyed the voyage capitally. All are in good spirits, and eager for the fray.

Three royal blue carriages were supplied by the railway for the Laurier party, and Lady Grey's party.

It is said Sir Wilfrid will visit Paris, but many engagements have yet to be decided upon.

Premier Laurier and his party arrived in London Saturday evening and were met at the railroad station by the Earl of Eglinton, Secretary for the Colonies; Lord Strathcona and Mount Royal, the Canadian high commissioner, and other officials.

The Liverpool Daily Post understands Laurier and his colleagues will enquire into the effectiveness of the organization established in Britain for placing Canadian products on the British markets.

CHEER GEN. BOTHA.

Premier of Transvaal Welcomed to England by Crowds.
London, April 15.—(C. A. P.)—Gen. Botha, ex-commander-in-chief of the Boer army, and now first Premier of the Transvaal colony under British rule, arrived here Saturday to attend the conference of colonial Premiers. The reception accorded the general at Southampton and in London was remarkably hearty. Great crowds gathered wherever he appeared.

At Southampton he was officially welcomed by the mayor and corporation of that city, and in reply to the address Gen. Botha humorously referred to the previous occasion when, on the battlefield, he had been surrounded by Englishmen against his will. The general added that he was thankful now that he was in a position to allow himself to be surrounded by any number of Englishmen without fear of the consequences.

EDWARD AND EMMANUEL.

Will Meet On Thursday Next At Gasta—Grand Naval Review.

Rome, April 15.—It was officially announced yesterday that King Edward and King Victor Emmanuel will meet on April 18 at Gaeta. As Queen Alexandra will accompany King Edward, it is expected that Queen Helena will also go to Gaeta.

A grand naval review will be held in the Gulf of Gaeta, the British and Italian sovereigns inspecting from on board their respective yachts the assembled British and Italian squadrons of warships, after which King Victor Emmanuel will entertain the visitors at luncheon on board the Italian royal yacht, Trinacria.

HEAVY SENTENCE FOR JONES.

Man Who Tried to Blow Up Hamilton Steel Co. Goes to Pen.

Hamilton, April 15.—Sidney Jones, the Englishman arrested at the Poison Iron Works, Toronto, for attempting to blow up the boilers at the Queen street plant of the Hamilton Steel and Iron Company, appeared before the police magistrate on Saturday morning and was sentenced to two years and six months in Kingston penitentiary.

Killed By Car.

Hamilton, April 15.—At about 11 o'clock last night a Radical car men at the Beach, near station No. 4. On being picked up, it was found he had sustained shocking injuries, both legs and one arm being completely lacerated. He was conveyed to the City Hospital, where he died shortly after admission, and now lies awaiting identification.

\$20,000 Fire.

Dalhousie, N. B., April 15.—The Restigouche Wood-Working Co.'s factory caught fire late Saturday evening and was burned to the ground.

A very large quantity of manufactured lumber stored in the building was destroyed. The loss is about \$20,000; insurance about \$40,000. Men and a fire engine were sent from Campbellton.

Train Wreck at Winnipeg.

Winnipeg, April 15.—The Great Northern Express, which left here last evening at 5.30, was wrecked at a switch near the west yards of the C. N. R., inside the city limits.

Four cars and the locomotive were badly damaged, but no one was hurt.

Found Guilty.
Woodstock, April 13.—Curry and O'Brien, who have been in jail for several months awaiting trial for rape, were yesterday found guilty. Curry turned King's evidence. O'Brien is well connected in the city. Curry's people live in East Oxford.

ROBBED BY A TRICK.

How "The Squaw Man" Lost His Watch at the Station.
Kingston, April 13.—Frank Young, advance agent for "The Squaw Man," was quietly done out of a watch at the G. T. R. station.

He was about to board a train when a supposed official asked to see his ticket. It was being scrutinized when the official turned to a man and said, "We ought to put those cars on, but I do not know if we will have time to do it." The other was heard to say, "Oh, I guess we will have time all right."

Turning to Young the last speaker enquired of him what the time was by his watch. Young pulled the watch out of his vest pocket, and one of the men grabbed it and ran.

Outburst in Douma.

St. Petersburg, April 13.—A demand for the exclusion from Parliament of three Socialist deputies, pending their trial for political offences, submitted to the Lower House of Parliament by the Minister of Justice, M. Tchetchestoff, at yesterday's session, caused an outburst of indignation.

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is a good food for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing permanent cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley, of Harvard; M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Souder, M. D., of Cincinnati; Prof. Edwin R. H. M. D., of Hahnemann Med. College, Chicago; and others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and best of all useful agents in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

"SNAPPED" THE VICTIMS.

Kodak Fiends Pointed Lenses at the Burning Wreck.

Toronto, April 15.—A commercial traveler, E. M. Kane, of this city, was a passenger for Winnipeg when the C. P. R. train was wrecked near Chapeau. Beyond the loss of his baggage, which was burnt, he does not appear to have suffered, but the gruesome sights he witnessed in the death agonies of those who perished in and under the burning cars will never be effaced from his memory.

He said: "The doors had become jammed with the shock and in any event were harder to get at than the windows, which we promptly smashed and climbed out by means of the seats. It was only about two minutes until I was out of the car, and the first thing I saw was the fire, which even then had entirely enveloped the locomotive car. In fact, in less than ten minutes the whole car was practically consumed."

"The most marvelous escape was that of the baggage man on the burnt baggage car. This car rolled over twice, and the baggage with which it was filled was smashed all around him, and yet he escaped with a crushed hand."

"An action which was commented upon as being most heartless was that of a couple of kodak fiends from the Pullman car, who took photographs of the fire while it was going on, and the spectacle of these cold-blooded artists focussing their instruments on the parts of the wreck under which the poor victims were pinned was most revolting."

LORD NEVILL GOES DOWN.

Swindled Pawnbroker Out of \$2,000—Gave Jail for Jewels.

London, April 15.—At the Clerkenwell sessions on Saturday Lord Wm. Nevill was found guilty of the charge of swindling a pawnbroker and was sentenced to a year's imprisonment.

Lord William Nevill is the fourth son of the Marquis of Abergavenny. He was sentenced to five years' penal servitude on Feb. 15, 1896, for fraud in connection with a pawnbroker's note, the prosecutor being Captain Spender-Clay, who in 1904 married Pauline Astor, daughter of Wm. Waldorf Astor.

The crime for which Lord William was sentenced was stealing from a pawnbroker a box containing \$2,000 worth of jewelry by exchanging it for a similar box, apparently containing the jewels, but which, when opened, was found to contain two pieces of coal wrapped in tissue paper.

Many fashionable women attended the trial. Lord Nevill, who was stylishly dressed, bore himself with composure.

The judge, in pronouncing sentence, said he should treat the case as that of any other prisoner, and would give him the same sentence as he would a workman.

NEW CRUISER LAUNCHED.

"Invincible" One of a Trio of the Largest in the World.

Newcastle, April 15.—The British armored cruiser "Invincible" was launched on Saturday at the Elswick shipyard.

She is one of the trio of largest cruisers in the world, of which the first, the Indomitable, was launched March 16.

Under the admiralty order the greatest speed was observed, in order to prevent any delay regarding the new warship leaving out.

Her dimensions are the same as those of the Indomitable, namely, she is 17,250 tons, is 530 feet long, exceeding the older armored cruisers by 50 feet; has turbine engines and is expected to attain the high speed of 25 knots an hour.

The armament of these three cruisers includes eight 12-inch guns, almost equaling the main battery of the Dreadnought.

ANOTHER WRECK ON C. P. R.

Three Passengers Injured, But No Lives Were Lost.

Ottawa, April 15.—Another wreck occurred on the C. P. R. on Saturday, five miles west of Ayr.

It happened to the Winnipeg express, westward bound, about 4.30 a.m. Five of the passenger cars left the track.

It is said to be due to a broken or spread rail.

The men were injured, but none of them said to be in a serious condition. They are: John McBride and Charles Burn, laborers, Montreal, and George Belanger.

The accident took place near a bend in the road overlooking the Ottawa River. Had it taken place at the bend the cars would have rolled down the embankment into the river.

Attacked by Laborers.

Rochester, N. Y., April 15.—Fifteen Italian laborers employed on the New York Central Railroad refused to obey orders of Foreman Frank Adams Saturday and attacked him with picks and shovels. The men were working near Geneva. Adams escaped to the commissary house, where he secured a revolver and opened fire. Joe Lombard was shot in the breast bone and fell, his companions fleeing. He will probably die. Adams was struck over the head and severely hurt.

Electrocuted at 'Phone.

Marlboro, Mass., April 15.—While sitting at a telephone in her home here Saturday night, Miss Anna Greenwood, aged 23 years, fell dead. It is thought that as she took the telephone receiver from its hook she turned the button of an electric lamp, which was above the instrument, and that her body thus formed a connection between the light and telephone circuit.

Blizzard Stops Shipping.

Escanaba, Mich., April 15.—As a result of a steady blizzard for two days, all ore-shipping operations at the Escanaba docks are suspended. Ore in the dock pockets is frozen solid. Notwithstanding the docks are filled with boats, not a pound of ore has been run in two days. The temperature is close to zero.

IN THROES OF EARTHQUAKE

Three Mexico Cities Laid
Waste By Seismic
Shocks

Many Were Killed And In-
jured During The
Disturbances

Chilpancingo, Mex., April 16.--This
city has been completely destroyed by
one of the most serious earthquakes
that has ever visited this section.

Up to last night the known dead
number eleven, and the badly injured
twenty-seven.

A panic prevails everywhere, and
people are fleeing to the open country.
The earth continues to rock at half-
hour intervals, and many minor
shocks are completing the work of
destruction of the first earthquake.

All telegraph communication with
the outside world ceased shortly after
11.50 o'clock Sunday night, when the
first shock was felt. The telegraph
officers have installed temporary
quarters in an open square.

Word has reached here that the
Town of Chilapa, forty-two kilometers
to the northeastward, has also been
destroyed. As yet no details have
been received as to the number of
dead and wounded, but it is feared
the number will be large.

This city is the capital of the State
of Guerrero, and four years ago was
visited by an earthquake which killed
and wounded many of its inhabitants
and destroyed a large part of the
town. The population of the town is
7,496, and until the panic into which
the citizens have been thrown abates
it will be impossible to state accurate-
ly to what extent this earthquake
has decreased it.

The population of the City of Chil-
apa is 15,000.

Third City May Be Gone.
Midway between the cities of Chil-
pancingo and Chilapa is the City of
Tixtla. This is a prosperous and pro-
gressive community, and as no word
has been received from there it is
feared that it also has been destroyed.

Judging from the movements of the
earthquake, Tixtla would be directly
in its line, and if the city has escap-
ed it has been only a miracle.

The nearest big town, Acapulco, is 131
kilometers to the southwest of this
place, and has not been heard from.

Both the volcanoes of Colima and
Jerrullo are in this region, and the
people fear that the seismic disturbances
may cause these mountains to be-
come more active.

The inhabitants hereabouts are
known as "Pintos," because of the
spots on their faces. They are noted
for their hardy, warlike spirit, and for
their stoicism and fanaticism, but the
recent catastrophe seems to have com-
pletely unnerved them.

Americans In Danger.
The city is located 97 kilometers
from the nearest railroad line, and it
will be impossible for the people to
flee, except on foot or on horseback.

This fact caused a considerable
amount of anxiety, because the state
is inhabited by a large number of
Americans, who are engaged in pros-
pecting for mines.

TWO FAMILIES QUARREL

Two Raleigh street families may
shortly air their wits in the City
Police Court. At least one of the
parties in the dispute talks of tak-
ing action.

Mrs. John Owens, who lives in one
of Miss Bennett's houses on Raleigh
street, called at the Police Court
this morning to lay a complaint
against the Dittmar family, who live
next door. Mrs. Owens is quite a
conversationalist, and she had quite a
long tale of troubles to tell this
morning.

The Owens family just came to the
city a short time ago from Dresden.
The trouble first arose over a sis-
tern to the rear of the Owens resi-
dence, which the two families use.

They got to quarrelling over this
matter, and according to Mrs. Owens,
some strong language was used.
She also accuses the Dittmar chil-
dren of abusing her children. She
says that on one occasion the Ditt-
mars came to her door with large
sticks, and it appears that the two
families nearly came to blows at
times.

The police are puzzled to know
what to do in the case, and are try-
ing to smooth matters over between the
two families as best they can.

DELMAS DISMISSED

How Thaw Got Rid of His Leading
Counsel.

New York, April 16.--Interest in
the case of Harry K. Thaw now cen-
tres about the probable changes he
will make in his staff of lawyers.
While no official announcement has
been made in this regard, intimations
have come from the lawyers them-
selves that changes have been made,
and that others will follow. Delphin
M. Delmas, who led the fight at the
recent trial, has, it is stated, severed
his connection with the case. In this
connection a story of the remarkable
proceeding of Thaw, at a critical per-
iod of his trial, were published here
yesterday.

The story recites that when the trial
was resumed after the report of the
lunacy commission, Mr. Delmas called
Dr. Hamilton to the stand to have
him testify as to Thaw's mental con-
dition when the murder was commit-
ted. He was just about to question
when he received a note from Thaw,
which read: "You are no longer in
charge of my case."

Thaw Fired Him.

Delmas, surprised, secured the
court's permission to confer with his
client, the story states, and when he
asked Thaw what the note meant,
Thaw is said to have replied: "It
means just what it says. You are not
going to make those men testify that
I am insane. I am sane, and you
know it. You are no longer in charge
of my case."

Mr. Delmas then asked Thaw for
permission to withdraw, but his re-
quest was refused. Delmas, under the
law, could not voluntarily retire from
the case, and Thaw, having told him
that he (Thaw) was the leading coun-
sel in his own case, Mr. Delmas asked
him what he wished done.

"I want you to take Dr. Hamilton
off the stand and begin to sum up
for the jury," was the reply.

Delmas thereupon announced that
the defendant rested his case, and
Dr. Hamilton was excused without
testifying.

Daniel O'Reilly makes the an-
nouncement that he is now counsel
of record for Thaw, and will be in
active charge hereafter. He was ap-
pointed to that position a couple of
weeks ago, he says, succeeding Clif-
ford W. Harbridge. Thaw appointed
O'Reilly the day Mr. Harbridge start-
ed to cross-examine Dr. Mabon, Mr.
O'Reilly says, and tried to frame a
hypothetical question which the
judge ruled out.

Mr. O'Reilly is authority for the
statement that he is the only one of
the five lawyers re-engaged, but he
says that Thaw is fond of Lawyer
Peabody, and that he will be retain-
ed.

After a consultation with Thaw, Mr.
O'Reilly said that at the second trial
the defence will be practically the
same as that at the first trial--insanity
of the defendant at the time he shot
White.

It does no harm to call atten-
tion to good that may be seen
in others.

Six fine oak chairs for the Sheriff's office in Harrison Hall have been ordered by the County Council. It might be mentioned, in this connection, that the chairs in the office of the County Clerk of the Peace are almost as old and antiquated as those formerly in the Sheriff's office, and some new furniture in this department would add much to its appearance.

Samaria Stopped His Drinking

A London Lady cures her husband permanently of the drink habit and without his knowledge.

"How glad I am that I have written you for a Free Sample of Samaria. At that time my husband was drinking very hard, and I was in despair. The effect of your treatment was immediate, and now our home is entirely free from the Drink Curse. I gave my husband the tablets in his tea, and he never knew. As the taste is so good, and the general health improved and is now splendid, many, many thanks. I will be glad if you will tell others of my experience."

IT MADE A HIT

A bumper audience was convulsed from one outburst of laughter to another at the Brisco Theatre last night, the "Painting the Town," which made such a hit here on a former occasion. The house was packed last night from pit to gallery and all were highly pleased with the show.

"Painting the Town" has lost none of its mirth-producing qualities since it last played here. The fact is it seems to grow better with age. Aside from its amusing features, the show carries some very beautiful scenery; that used for the dressing room scenes and the Polly Music Hall being especially realistic.

Messrs. Leonard and Halliday as Hogan and Brogan were funnier than ever, and kept the house in an uproar of mirth all evening. But the applause of the evening was given to the quartette composed of Messrs. Lowe, King, Allyn and Pooley. They were recalled time and again, and the audience appeared as though they would stand for a whole evening's entertainment from this quartette.

All the different roles were very cleverly taken, and there are few weak spots in the company's cast.

SOCIAL EVENING

The social evening, given in Christ Church last evening, proved quite a success and was largely attended. The program was as follows:

Vocal Solo, Sweet Miss Mary—Miss Harper.

Quartette—Messrs. Martin, Wrigley, Morrison and Morrison.

Vocal Solo—Miss Gertrude Potter.

Recitation, The Widow O'Shane's Rent—Miss M. Richards.

Vocal Solo, Daffodils A-blowing—Miss May Peate.

Violin Solo, King of All—Mr. Gordon.

Vocal Solo, In the Sweet Summer-time—Miss Carter.

"INFANT BAPTISM"

The Latter Day Saints are holding special meetings this week. The subject last evening was "Infant Baptism."

By the Christian churches in general it is claimed that we were born in sin simply because David has said that he himself was conceived in sin. This he said because his father was a polygamist, and he wishing to justify himself for his polygamy and other evils presented before God the evils of his parents, because Christ said "the iniquities of the parents are visited upon the children to the third and fourth generation of them that keep not His commandments." The religious world preaches to-day that Adam's transgressions rest upon us forgetting the thought that the others were obedient have no iniquities visited upon them.

When they brought the child Christ into the temple, Simon took him up into his arms and blessed him; Luke 2, 28. When Christ began His mission children were brought to Him that He might bless them, as stated in Matthew 19, 13 to 15, Mark 10, 13 to 16, Luke 18, 15 to 17.

And when Christ ordained His ministry He said, "The work that I do shall ye do also." Accordingly Paul says, "I have not shunned to declare unto the whole council of God," and again in I. Corinthians 7, 14, he says, "children are holy." Paul says the apostasy has set in in which the man of sin would be revealed and that would believe unrighteousness rather than righteousness, and thus come under the curse of God, which history proves to be a fact, and the Roman Catholic church instead of blessing children baptize them by means of sprinkling or pouring, and the Protestants following in the track of her mother do likewise, but Paul says, "that which is not of faith is sin." The Roman Catholic church claim there is no tradition for the people to substitute infant baptism, but they have it by the tradition of the apostles, Protestantism rejecting the tradition of the apostles has therefore no plea upon which to hang her hope.

BOWSER'S HUMANITY.

Finds a Lost Boy in Street and Has an Idea He Will Adopt Him.

HIS KINDNESS IS MISPLACED.

Parents of the Child Accuse the Philanthropist of Stealing Their Offspring and Come Near Giving Him a Beating.

[Copyright, 1907, by P. C. Eastment.]

"Well, what is it this time?" asked Mrs. Bowser as Mr. Bowser came home the other evening to dinner holding the hand of a very dirty and very ragged boy about six years old.

"Didn't you hear this child crying and waiting on the street?" he queried to reply.

"No, I didn't. There is so much noise all the time that I pay no attention to anything."

"Of course not. Half the population of the city can freeze and starve to death in front of the house, and you wouldn't concern yourself at all. Thank heaven that I was born with a heart."

"And what do you call this?"

"This is either a lost or an abandoned boy. I found him crouched against the fence and hungry and cold, and I have brought him in to succor him. He is so cold and exhausted now that he can't talk, but after dinner we will question him. He may have been sent out by his mother to beg a few pennies to keep his brothers and sisters from starving, or his discouraged

plane and began kicking that and shuffling. Mr. Bowser seized his arm and hauled him away and twisted him around and said:

"We mustn't judge him too harshly. He is hardly old enough yet to know whether we are his friends or enemies. Isn't it a sad case that a child of his age is without a home, perhaps without a father or mother?"

Kicks at Bowser.

"Very sad, indeed, but still he ought to behave himself," answered Mrs. Bowser as the boy kicked at Mr. Bowser and just missed one of his shins.

"He will be all right as soon as he knows we are his friends. He may have a father who came home and beat him, and he has got in the habit of fighting back. Bubby, come here. Now look at me. I am your friend. I am going to give you more to eat and a warm bed to sleep in tonight. I like boys. Perhaps I shall adopt you and send you to school and let you live with me all the time. What is your name?"

"Cheese it!" impudently exclaimed the lad after a moment.

"What! What's that?"

"He said 'Cheese it!'" explained Mrs. Bowser as she laughed behind her hand.

"And you are giggling over it, of course! You can't understand that poverty and the want of human sympathy have made him what he is. Where do you live, sonny?"

"Rats!"

"Hey, what do you mean by that? Don't you understand what I mean? What street do you live on?"

"Oh, come off!" answered the boy as he turned away to chase the cat back down in the basement.

Mrs. Bowser had to giggle. No woman could have helped it. The first giggle set Mr. Bowser's ears to working back and forth, and at the second he rose and shouted:

"Yes, giggle and giggle and giggle, and be hanged to you! You can't see that you are encouraging the child in his impudence. You are disappointed because he wasn't found dead of cold and hunger at the gate. The boy is all right, only he is afraid of you."

"Then I'll go upstairs and you may question him some more."

"Sonny," said Mr. Bowser after she had disappeared, "I want you to understand that I am your friend. I have some pennies in my pocket, and if you will tell me where you live I will give them to you. What is the street?"

"Taffy!" grinned the boy.

"Look here, you young cub, but you are inclined to be impudent. I want you to answer me straight or out you go. What is your name?"

"Bug house!"

Draws Him Over His Knee.

Mr. Bowser reached for him and drew him over his knee. He forgot all about adoption and human sympathy. He was about to perform the old-fashioned spanking act when two things happened at once. The kid fastened his teeth in the humanitarian's leg with a grip like that of an alligator, and the front door bell rang, and somebody

drummed on the glass panel of the door outside. The boy was twisted down on the floor and the bell answered. The callers were a man and a woman—man and wife. They were not yet inside the hall when the man brandished his fists and shouted:

"You old child stealer! Where is my boy?"

"Yes, you villain, where is our Peter?" added the woman.

"What does all this mean?" asked Mr. Bowser as he stared at them.

"It means that we live five doors above here and that tonight you enticed our little son into your house. What have you done with him? Where is he? Bring him out at once or I'll knock that bald head off your shoulders!"

Claws the Air.

"And if he can't I'm the woman who can!" added the wife as she clawed the air.

Before Mr. Bowser could get things straight the boy came running past him into his mother's arms and gave him a kick to be remembered by, and then the three fled down the steps.

When Mr. Bowser shut the door and turned round Mrs. Bowser was on the stairs. A smile of human sympathy was on her face, and as he flourished his arms around and tried to utter words she softly said:

"Yes, I think it would be a good plan to adopt him, and I promise to try to be a mother to him!" M. QUAD.

Dummy.

"If this child is adopted and reared as he should be, who knows the goal he will ultimately reach?"

"That's true. He has begun well by reaching for about everything on the table."

"Never mind that. Of course he hasn't been brought up to have table manners. I wish you were more humane, Mrs. Bowser."

"I could pick up a dozen lost children a day, but I have no clothes or food for them."

Calls Wife Hard Hearted.

"If you were a millionaire the poor would be no better off for it. You are selfish and hard hearted. You have no sympathy for those in misfortune. Any evening I may come home and find a man, woman or child frozen to death in the vestibule."

"We might put a kerosene stove out there," she suggested.

Mr. Bowser turned red in the face and was about to say something decisive when the lost boy looked around for something more to devour, and, not finding it, he picked up his plate and slammed it down on the floor and began to kick and yell.

"Here, what the devil is this?" shouted Mr. Bowser as he rose up. "Young man, what do you want?"

"Sunthin' 'teat," replied the boy. "Something to eat! Good lands, but you have eaten more than three hired men could already! You may get something more by and by, but not now. We'll go up to the sitting room. Mrs. Bowser, why didn't you smile at him and speak a few motherly words?"

Mrs. Bowser took the boy by the hand and led him upstairs. On the way they passed the cat, and he gave her a vicious kick. As he reached the sitting room he walked over to the

"Now, Maria, how do those boys know we are going to a whist party?"—New York Herald.

A Little in Doubt.

"I suppose you are glad to see the interest your boy takes in his books."

"Yes," answered Farmer Cornstossel. "I shouldn't be surprised if one of these days he knew as much as the college professors themselves. The only thing is that college professors don't look to me as if they got as much enjoyment out of life as a lot of people that haven't near as much knowledge."

RED ROSE TEA

I have been six months investigating, and have just returned from a visit of personal investigation to the

Larder Lake Goldfields

which, from what I have seen there, and have taken means to verify, will prove a veritable Canadian "Rand," taking its place among the great goldfields of the world, and throwing Cobalt into the shade.

I Am a Practical Mining Man AND DEAL ONLY WITH FACTS.

The facts about Larder Lake are contained in my new book, "The Goldfields of Larder Lake," and in my copyrighted map, by far the most detailed and accurate to date.

The above mailed free on request.

CANADIANS! The majority of us were too skeptical and easy-going to inform ourselves concerning Cobalt in the beginning, and saw others step in reap enormous profits.

Cobalt is only the beginning of mining in New Ontario, the richest mineral field in the world, and there are, and will be, other opportunities as great and greater.

The Larder Lake Goldfields are the next in line. Inform yourself at once. Don't wait to see what the other fellow will do, but do it yourself, and do it now. That's the way the man on the ground floor gets there.

Investigate. Get posted. Put yourself in a position to intelligently take ground floor advantage of the tremendous opportunities for profit contained in the northern mining fields.

By means of personal investigation on the ground, the employment of reliable engineers, and the service of employees in the field, I keep my following posted, and they make money.

Thousands will testify to that.

Mr. Van Horn, of Louisville, was the guest of his son, John William, during Easter.

Mr. H. H. Eberlee spent last week with his son Charlie, in Dresden.

Mr. Joseph Bourne, of Lambeth, visited friends here recently.

George Tinney was the guest of friends at West Lorne last Sunday.

Miss Ada Reynolds, of Bothwell, and Miss Eva Frances, of Wardsville, spent Thursday with Mrs. Geo. Liddeter.

Miss Flora Garrod, of Chatham, returned to her home on Saturday, after visiting Mrs. Jas. Ferguson.

Charles Chapman has moved back on his farm here.

Miss Myrtle Tinney spent part of the week with her grandmother.

Mr. John Bourne has his farm advertised for sale. He intends moving to Lambeth in the near future.

ASK FOR Labatt's (LONDON)

Prejudiced and unscrupulous vendors may suggest others, but compare it any way you will—purity, freedom from acidity, palatableness—Labatt's Ale is surpassed by none, equalled by few—at about half the price of best imported brands.

CAMDEN TOWNSHIP.

Camden's prospect for the coming summer is a glorious one. Never in the history of this farming community did the people enjoy the anticipation of such an abundant harvest. Most of the people of this township had all of their fall plowing done, which puts them in proper shape to take advantage of such an early spring. Nearly every farmer seems to be happy and delighted with his work, which sometimes seems to be a drag, but as Nature is favoring him with her richest gifts of warm weather and sunshine, all the past trouble is forgotten and all things seem new. The wheat crop of this township seems to be all right in color, and is almost covering the ground. The meadows are looking equally as good. The clover is splendid. Some places you can almost hear the meadowlarks singing. The fruit as yet has come through without a blemish, and there will be an abundant crop of peaches and apples if no future harm befalls them. In our neighboring township—Dawn—seems to be a little backward in the way of wheat and meadows. A great many of their clover meadows are badly heaved. There is no place on earth like this farm.

Alex. Lawrence's sale the other day was well attended and everything was sold at a fair price.

A. Wilcox seems to lead this spring. He has nearly thirty acres plowed.

Mrs. James Tweedie had a narrow escape from being burned to death. While lighting the fire with coal oil it exploded and burned her face and hands badly. Luckily her clothing escaped, which would in all probability have caused her death.

Stanley Williston says business is picking up.

The Latter Day Saints are holding revivals at Wabash yet.

Our councillors say that the taxes of Camden this year will be away down. It is about time, for we have always been assessed most unmercifully high.

Shot by Burglar.
New York, April 15.—George Schambacher, a wealthy real estate dealer, 56 years of age, was shot and fatally wounded in the dining room of his home in East 44th street early yesterday. His family believe that a burglar surprised by Schambacher shot him. In reply to questions the dying man said only: "I've been shot," and pointed to an open window.

ALMOST DEAD OF BRONCHITIS.

Few people have suffered more than John P. Taylor, of Dymont, P. O. Ont. Today he is well and writes: "I must tell you how much Catarrh-rhizone has been to me. I was so bad with bronchitis sometimes that I thought it would soon be over with me. A spell of coughing would come on that left me prostrated and weak. Since using Catarrh-rhizone I have had no trouble at all. It strengthened my throat, stopped the cough, gave me free breathing and entirely cured." Just the usual experience. Catarrh-rhizone invariably cures whether Bronchitis, Asthma or Catarrh. Two sizes, 25c. and \$1.00, at all dealers.

Shot Himself in Theatre.

Pittsburg, Pa., April 15.—Robert M. Crow, a nephew of H. C. McDowry, president of the Union Trust company of this city, shot himself in the abdomen while in a box watching a performance at a local theatre last Wednesday, died in a hospital yesterday. Crow was 23 years of age.

GROWING OLD BEFORE YOUR TIME.

Broken in spirit, weak in body, nervous and discouraged. Something is wrong, and each day sees you fading away. Just one thing to do—build up! Do this, use Ferronox: What a tonic it is! Rich, red blood will carry nourishment to every corner of the body, tired organs take on new life, color, spirit and ambition are restored. Perfect manhood and abiding health is the unfailing product of Ferronox—try it, 50c. per box everywhere.

Experts Debarred.

St. Petersburg, April 15.—Premier Stolypin's threat to use the palace guards to prevent outside experts from assisting the committees of the Lower House of Parliament was put into effect on Saturday, the guards being ordered to exclude everyone except deputies.

The House was forced to submit to this display of force.

People who "take notice" must have observed a growing sentiment in this country in favor of using put-up foods and medicines of known composition. Dr. Pierce's Favorite Prescription stands alone as the only ready-put-up medicine for the cure of woman's peculiar ailments that bears on the wrapper a full list of the ingredients composing it, printed in plain English. It is the "Favorite Prescription" of a Specialist in woman's diseases and not a "patent medicine." Made of the roots of native medicinal plants without alcohol or other harmful ingredients, Dr. Pierce's "Prescription" has been the favorite cure for the weaknesses, pains, drains and disorders of the womanly system, which has stood the test of forty years of experience. Send to Dr. R. V. Pierce, at Buffalo, N. Y., for free booklet giving ingredients and what well-recognized authorities of all schools of medicine say of them.

Kills Himself at 83.

Toronto, April 15.—John Bailey, an army veteran, 83 years of age, committed suicide on Sunday afternoon. Shortly after 3 o'clock he went out into a shed in rear of the house and shot himself, placing the revolver in his mouth.

He had been sick all last week and was very despondent.

"I believe it to be the most effective remedy for the Stomach and Nerves in the market," what Annie Patterson, of Sackville, N. B., says of South American Nervine. DEFENCE HAS SURPRISE.

Trial of Mattie Perkins for Murder Begins This Week.

Cayuga, April 15.—Great interest is manifested here in the trial of Mrs. Mattie Perkins for the murder of her husband about Christmas time by means of strychnine poison.

It is said that some surprises will develop as the case expands. The crown's present plans are to give the case to the grand jury on Tuesday. It is expected an indictment for murder will be returned that afternoon or on Wednesday. The trial starts immediately.

Line of Defence. Medical evidence will be a feature of the proceedings, and it is learned that the defence will not put in much testimony to combat the crown's contention that poison produced death, but will almost admit this, centering the legal battle on quite another feature of the case, which, it is inexpedient to the interests of both to make public now.

For one thing the crown will contend that the accused purchased poison in Detroit, and it is believed the defence will try to show Mrs. Perkins never visited that city.

An array of medical experts. Dr. Bruce Smith, Prof. Ellis, and Arthur Jukes Johnson, have been retained for the crown. The defence also will have experts.

Crown Attorney Murphy will be assisted by Frank Arnoldi, K. C. E. F. B. Johnson and his partner, Robert Grant, will defend the accused. The Assizes open here Tuesday.

Justice Mabey will preside at the Assizes.

A Short Case.

Frank Arnoldi, K. C., said Saturday night the case might not last more than two or three days. He described it as a difficult one to handle, for both sides. Mr. Arnoldi goes to Welland to-day to look over the evidence.

WAS IT MURDER?

Blood-Stained Hatchet Found in the House of Koeller.

Stratford, April 15.—The case in which Leopold Koeller is charged with murder has taken a serious aspect. It is announced that a hatchet with blood-stains and flesh clinging to the blade has been found in an adjoining room to the apartment where the Dewing woman met her death. The hatchet was found buried under a pile of clothing and along with other suspicious circumstances pointing strongly towards foul play having been committed.

The post-mortem examination was completed on Saturday afternoon, but the doctor, coroner and crown attorney refuse to divulge the result of the examination. It is alleged that an article which might have been used for an improper purpose was found on the floor of the deceased's room, but as it is in the possession of the foreman of the jury, nothing will likely be divulged in this connection until the evidence is taken at the adjourned inquest.

Koeller, who is under arrest, claims that he has nothing to fear, but the discrepancies in his story points to something more sensational than has yet developed. The hypothesis is that the Dewing woman was dead before her body was burnt. But as the evidence thus far is merely circumstantial, the case is still shrouded in mystery.

SULTAN BECOMING WORSE.

War With Bulgaria May Break Out At Any Moment.

Paris, April 15.—The Memorial Diplomatique says it has learned that the illness of the Sultan of Turkey is rapidly becoming worse and that he is most anxious concerning the revolutionary movement in Asia Minor.

His advisers see only one hope, and that is to provide an exterior diversion in the form of a war with Bulgaria.

Trouble with this country would be already broken out, but for the Sultan's fear that the Bulgarians who are rapid mobilizers would win the first success and that this would be followed by an insurrection throughout the whole of Asia Minor.

In the meanwhile the paper asserts the Turkish reserves are being called out and troops are being hastened to the frontier.

Shot by Strikebreaker.

Boston, April 15.—Several disorders, the result of clashes between sympathizers with the teamsters' strike and strikebreakers were reported to the police yesterday.

John J. Gaffney of New York was arrested at the strikebreakers' headquarters, charged with shooting Spino Prisoner, who was standing in a doorway across the street from the headquarters watching a crowd, some of whom were hurling sticks and other missiles at the windows. Three or four shots were fired from the building, it is said, and one hit Spino in the mouth.

Couple End Their Lives.

New York, April 16.—The dead bodies of John Perrault and his wife were found on Saturday in their bed in a room of an apartment at Madison avenue and 116th street. From an open jet gas was pouring into the room. Beside the bed, on a table, was a chloroform bottle, but the contents had evaporated.

There were rumors of murder, following drugging and robbery, but the police expressed the belief that the case was one of suicide.

Hurt in Runaway.

Bellevue, April 15.—As the result of a runaway Saturday morning, Miss Aggie Mather, who lives near Pouchers' Mills, was thrown from a conveyance and suffered a dislocation of the shoulder.

Vote For Strike.

Fernie, B. C., April 15.—The result of the miners' referendum is as follows: Fernie, 741 for strike, 40 against; Michel, 300 for strike, 40 against; Coleman, 280 for strike, 4 against.

MUTINY IN RUSS PRISON.

Seven Inmates Killed and Many Injured by Troops.

Riga, Russia, April 15.—There was a serious mutiny in the local prison on Saturday. Thirty-three inmates attacked and overcame the superintendent and wardens of the establishment.

Troops were then summoned, and the conditions were such that they had to fire.

Seven of the mutineers were killed and 12 injured. Nine soldiers sustained wounds during the affray, which lasted an hour. The superintendent of the prison was badly beaten.

A WOMAN'S BACK WAS NOT MADE TO ACHIE

Thousands of Women suffer Untold Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burden of life. It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Doan's Kidney Pills

will cure you in the same way as they have cured thousands of others. Mrs. Theo. Craig, Almonte, Ont., writes: "I was suffering for six months for kidney trouble and my back was so lame I had to lie in bed. I was advised to try Doan's Kidney Pills. I did so and in one week I was able to walk with very little pain, and in five months my back was as strong as ever."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers, or will be mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.

Boiler Bursts—Kills Two.

Key West, Fla., April 15.—An explosion, which occurred on a dredger at Key West early yesterday, caused the death of two Spaniards, and injured eight other men. Four being badly scalded. A tube in the boiler burst, and escaping steam blew open the furnace doors and threw live coals and steam on the men. Those injured were asleep at the time.

STOMACH TROUBLES

To wrong action of the stomach and impaired digestion a host of diseases owe their origin. When the food is imperfectly digested the fullness is not derived from it by the body, and then stomach troubles start to appear.

Thus you become thin, weak, nervous and debilitated, energy is lacking, brightness, snap and vigor are lost and in their place come dullness, dizziness, loss of appetite, depression and languor. The great point is to get the stomach back into good shape again so it can properly digest the food, and the easiest, quickest and best way to do it is by the use of

BURDOCK BLOOD BITTERS

Miss Lizzie Furlotte, Jacquet River, N.B., writes: "I was very much troubled with my stomach and did not know what to do. I consulted several doctors, got medicine from them, but all to no purpose, and was constantly growing worse. One day I had the good luck to meet with a friend who had been troubled in the same way as myself. My friend told me of the wonderful cure Burdock Blood Bitters had made with her and advised me to try a bottle. I did so, and what a happy change the first bottle made. I took two more and am completely cured, and I shall ever sing the praises of B.B.B."

Price \$1.00 per bottle or 6 bottles for \$5.00.

BAFFLED.

When little Willie wanders home, Just fresh from the review, Then Mr. Papa-Know-It-All Receives a jolt or two. For Willie, small, relentless lad, At once starts in to show By skilful questioning how much His father doesn't know.

It may be all of thirty years Since father's steps were turned Unto the little district school "Where useful things were learned. And, though he gathered in some facts And garnered many a gem, He has been busy since that time Forgetting most of them.

So when the hopeful son propounds Some questions from the book The father only sits around And wears a foolish look. He knows in quite a general way Columbus and his men Discovered us a few years back, But doesn't know just when.

It's most annoying to a man, Large, dignified and fat, To have his little ten-year-old Depose him on the mat. And make him look like thirty cents Before his mother, too. But give the boy a good thrashing, And that's what he will do.

Cruel.

"You are an angel. I would die for you."

"Ah, but I fear that would separate us, dear."

Minus Box Cars.

You have doubtless heard of the shortage of box cars in this land of prosperity and long hauls, although it has probably seemed to you that there were as many as ever as you waited on a cold day for a freight train to go by and let you have access to the crossing.

We understand, too, that Weary Willie, who has been using them quite extensively as sleeping apartments, claims that it is the quality and not the quantity of which complaint should be made. Steam heat and sanitary plumbing are a few of the improvements he would suggest.

This box car shortage is hard on the railroads and hard on the traveling public, being doubtless the reason why so many hogs are traveling this season in the Pullmans. Can't something be done to relieve the shortage or even the little children begin crying for box cars?

Appreciation.

"Did the girl's father seem to like you?" "Like me? Say, before I got away I thought the old man was going to make me a clear deed to his lemon grove in Florida."

Unfilial.

"They say that he is very fast." "You've got the wrong dope. He is so slow that he couldn't catch a train if it were backing up."

Good Literature.

"Are you fond of reading?" "Oh, very." "What do you read by preference?" "A good bill of fare."

PATERSON'S

COUGH DROPS

Made by an old recipe that has cured coughs and colds for two generations. Approved by doctors as being the best all throat irritations. They please the palate too. Dissolve the three-cent bottle in the red and yellow box.

THEY WILL CURE

How do you know you do not need

If there is pain in the back and through the hips, you need Bu-Ju. If the hands and ankles are swollen, you need Bu-Ju. If there are headaches or neuralgia, you need Bu-Ju. If you are nervous and cannot sleep well at night, you need Bu-Ju. If there is a constant desire to urinate, you need Bu-Ju. If the urine is reddish, cloudy, milky, hot and scalding, you need Bu-Ju. Especially if you are tormented with inflammation or Muscular Rheumatism, Sciatica, Lumbago, you certainly do need Bu-Ju. If you have any of the above symptoms, don't hesitate; don't delay. Take Bu-Ju, and cure yourself.

I am anxious that you should know the relief and benefit I have derived from taking Bu-Ju. The effect has been marvelous. I had suffered severely for years with pain in the back, especially on rising in the morning, and am pleased to say that the pain has completely disappeared. Before using Bu-Ju, I had tried every remedy I heard of for Kidney Trouble, without even receiving relief. I would strongly advise anyone suffering from Kidney Trouble to take Bu-Ju without delay.

It costs only 3c. a day to take Bu-Ju, and your money refunded if they fail to cure. 50c. a large box. At druggists, or sent on receipt of price.

POLICE RAID OFFICE.

Seven Men Arrested on a Charge of Keeping Gambling House.

Winnipeg, April 15.—The rooms of the Canadian Stock & Grain Co. were raided again yesterday afternoon, and seven men were taken into custody on a charge of keeping and frequenting a gaming-house.

The men arrested are George W. Wood, Dale A. Smith, Fred McGill, H. Schirvar, George Westaway, H. A. Westaway, H. A. Nichols, and Thos. North.

This is the second visit of the police to these rooms, and upon the occasion of the prior call the books of the firm were seized and have since been in the possession of the law department of the province, and were used in a prosecution which had been pending against illegal transactions in stocks.

This time everything in the offices was taken as instruments used in gaming, and under the law, these goods are forfeited to the crown if the charge be sustained.

Through his counsel, Mr. Bonnar, the defendant, Mr. Wood, has claimed that the moving spirit in the prosecution is malice and desire for revenge.

His equipment, he said, would be practically the same as on his recent completed expedition. He will buy 300 dogs when he arrives in Greenland.

He anticipates that the trip might be made in about the same length of time as the 1905 trip, which required about 16 months.

He will follow the same route as on his last attempt.

LARDER LAKE

UNDERWRITERS' SYNDICATE.

We extend an invitation to investors to join us in taking over the first issue of shares which we have underwritten of a Larder Lake Gold Mining Company at 10 cents per share. The Company has just been organized, and will be managed by mining men of highest standing. The Company owns 27 well located gold claims, 1,080 acres in all, which have yielded extraordinary gold values, located in the new gold district of Larder Lake, 60 miles north of Cobalt, New Ontario, which will be systematically developed. All investors who join this Syndicate will share in profits from a ground floor basis, and will participate in an immediate profit or increase in market value of shares of 500 per cent. Immediately upon the Underwriters' Syndicate being closed Law & Co. will, in their customary vigorous manner, place the shares upon the market by judicious advertising throughout Canada and the United States at an advance of five times the cost price to the Underwriters' Syndicate, in the profits of which all members of the Syndicate will participate.

The Trusts and Guarantee Company, 14 King street west, Toronto, will act as Trustees for the Underwriters' Syndicate in receiving and holding the shares and issuing receipts therefor and also as registrars and Transfer Agents for the Company.

ADVERTISE IN THE PLANET

WORDS OF PRAISE

"The Program" prepared by the William street Baptist church, has the following to say of Miss Helen Carter, who has resigned the leadership of that church:

"It is with deep regret that we have to announce the resignation of our choir leader, Miss Carter, who is leaving in July for England, where she intends taking a course in music in the Royal Academy, London. During Miss Carter's regime, matters in the choir have reached a top notch. There has been a marked increase in proficiency, as was evidenced in the grand concert given by the choir on April 1st. Another feature worthy of notice, was the good feeling that prevailed at all times, and to this may be attributed much of the success referred to above. The church and Sunday school are also indebted to Miss Carter for the ready help she has always been willing to extend. We wish her every success."

NOT SWEEP OFTEN

There have been a number of complaints recently from occupants of offices in Harrison Hall, to the effect that the hall is not swept as often as it might be. It is claimed that some of the offices have not been swept out in months, and filth is allowed to gather till it becomes decidedly offensive.

It is also quite apparent to any observant person that some of the windows in the hall are badly in need of a good washing. Harrison Hall is a public building, and as such, it should be kept spotlessly clean. This is what the janitor is hired for.

Pointers for Fruit Growers

Continued from Page One.

barrel of forty gallons, in round numbers from 2 to 21-2c. per gallon; and it requires about a gallon for a medium sized or rather small apple tree, a little less for a peach tree, about a gallon for a plum tree, which is denser, and necessitates more water. This will give you some idea of the cost of the material. The actual labor is worth, perhaps 1c. per gallon to put it on, but a townsman would probably have to get at least 2c. per gallon to induce him to take it up, and perhaps 3c. if there were only a few trees in a place.

Yours very truly,
A. NEIL
Chief Fruit Division.

Mr. J. Innes, The Sutherland-Innes Co., Chatham, Ont.

Dear Sir—I am in receipt of your favor of the 24th inst. The following is a formula which has been usually adopted in Ontario for the preparation of the Lime and Sulphur wash:

Fresh Lime, 20 pounds.
Flowers of Sulphur, 15 pounds.
Water, 40 gallons.

Method of Preparation—Add a little warm water to the sulphur, mixing it until it becomes a paste; put in the lime and add about fifteen gallons of warm water with stirring. The sulphur, which has been made into a paste, may now be added to the slacked lime. Boil for an hour and a half, in a kettle, or in a barrel with live steam. Make up to forty gallons with hot water, strain into a spray tank, and apply while warm.

If you refer to the illustration on page 43, of the enclosed report of the Entomological Society of Ontario, possibly you may obtain an idea how the live steam process is used. We also enclose a copy of the Ontario Agricultural College's Spray Calendar, in which you may find some interesting information.

Yours truly,
A. M. McNEIL
Ottawa, November 27th, 1906.

If you are out when some people call to borrow, you are that much in.

F. Poulton and family left last week to reside on their farm in Tilbury East.

A SUGGESTION OF RARE VALUE.

A diseased condition of the surfaces of the air passages causes bad breath but more commonly emanates from indigestion or an impure condition of the blood. Thousands of cases prove that Dr. Hamilton's Pills, through their specific action on the secretory and eliminative organs, not only cure bad breath, but so thoroughly purify the system that anything suggestive of indigestion or digestive troubles is impossible. Through Dr. Hamilton's Pills the skin grows rosy and clear; activity of the mind and body increases, and bounding health is established. Sold everywhere.

BUILDING PERMITS

Earlier in the season there was some talk to the effect that building operations would be dull in this city during the coming summer. The indications are, however, that there will be just as much building, or perhaps more this summer than there was last.

The following buildings permits were recently issued by Fice Marshall Pritchard:

No. 174—T. Walter Poile, two storey brick building, on lot 6, block 7, west side of Victoria avenue, \$3,500.

No. 175—James Hendershott, one and one-half storey frame building, on lot 13, block 2, south side of Grand avenue, \$1,400.

No. 176—H. F. Macdonald, one and one-half storey brick building, on part lot 9, east side of St. George street, \$700.

No. 177—M. C. Crow, one and one-half storey frame building, on lot 1, block 9, corner Pegley and Louise streets, \$400.

No. 178—James Ronson, two storey frame building, lot 31, west side of Baxter street, \$1,225.

No. 179—Wm. Gray Mfg. Co., one storey frame building, part lot 3, west side of William street, \$1,000.

No. 180—J. E. Cosgrove, two storey frame building, lots 137 and 138, south side of Cross street, \$1,800.

No. 181—Mrs. C. Rotz, one storey frame building, lot 5, block D, north side of Gray street, \$650.

No. 182—Blonde Lumber Company, two storey brick building, lot 18, block D, east side of St. Clair street, \$7,000.

No. 183—Blonde Lumber Company, two storey brick building, lot 1, block D, east side of St. Clair street, \$3,000.

No. 184—Blonde Lumber Company, to remodel two storey brick building, lot 1, block D, east side of St. Clair street, \$1,000.

Non-alcoholic Sarsaparilla

W. K. A. MEETING

The Directors of the West Kent Agricultural Society held a meeting on Saturday afternoon in the secretary's office, at which final arrangements were made for the coming Spring Fair, which promises to be largely attended.

It was decided to charge an entrance fee of \$1 to exhibitors, but no extra fee for additional entries.

A committee was appointed to confer with the City Council to endeavor to get the Queen St. sewer extended, so that the grounds can be drained.

The race track and grounds were leased for the season to George McGavin, but the Society retain the western part, from the track to Queen St., as they propose to drain and level it, and put it in first-class condition, as well as repairing the buildings.

TRAIN IS DITCHED

Five Killed, Twenty Injured—Gas Sets Debris on Fire.

St. Paul, Minn., April 16.—While running 40 miles an hour, the Great Northern, westbound oriental limited, which left here for Pacific coast points Sunday morning was derailed early yesterday at Bartlett, N. D.

Five persons were killed and a score or more injured, some of them seriously.

After the wreck, a gas tank exploded and the train took fire, seven passenger coaches being destroyed.

The sleeper and observation coaches escaped the flames.

There is said to be some evidence that the rails had been tampered with.

Officials of the road say that the track in this vicinity had been in apparently first-class condition.

They are unable to account for the wreck on any other theory than it was an attempt of miscreants to wreck the train.

The dead are: W. B. Jones, mail clerk, Grand Forks; four unidentified foreigners, believed to be Greeks.

The wreck occurred on the line dividing Nelson and Ramsey Counties. The mail car jumped clear over the engine and landed in Ramsey County, while the remainder of the wrecked train burned in Nelson County.

Many thrilling escapes and numerous acts of heroism occurred.

Though Mail Clerk Jones was killed his body was recovered by Mail Clerk Fodness, who entered the burning mail car three times to do so. Fodness was severely burned.

News Agent W. H. Green of St. Paul worked bravely in rescuing injured and helping those in the wreckage, although he himself was badly hurt.

One Dead; Ten Hurt.

Philadelphia, Pa., April 16.—Gueseppe Gaspare was killed and ten other Italian laborers were injured in a collision between construction trains on the new Philadelphia and Western Railroad last night, just outside the city limits.

BRITISH STEAMER FOUNDERS.

Three of Her Crew Are Landed at Gibraltar.

Gibraltar, April 16.—The British steamer Andalusia from Swansea, for Barcelona, founded April 14, off the Spanish coast.

Her captain, first officer and a sailor were picked up and brought here. All the rest of the crew are believed to have been drowned.

The Andalusia was of 1,312 tons net, 287.0 feet long; had 34.3 feet beam, and was 24.6 feet deep. She was built at Newcastle in 1878, and was owned by the Iberian Steamship Co., Limited.

If you think you need a tonic, ask your doctor. If you think you need something for your blood, ask your doctor. If you think you would like to try Ayer's non-alcoholic Sarsaparilla, ask your doctor.

We publish the formulae of C. C. Ayer & Co. of all our preparations. Lowell, Mass.
