Gentlemen of the House of Commons :

In again meeting you for the despatch of business I have to congratulate you on the abundant harvest with which Providence has blessed our country, and upon the general condition of the Dominion. Its commercial prosperity, although it has to some extent shared in the depression which has prevailed in Great Britain and in the neighbouring Republic, rests upon foundations which no temporary or partial disturbance can remove.

I trust that the present year will be one of peace and progress.

The flow of population into Manitoba and the North-West Territories, although impeded by various and unexpected causes, has been substantial, and the testimony of the members of the British Association and other visitors of the North-West last summer as to the well-being, contentment, and hopefulness of the settlers, is most gratifying.

A Bill introducing into those Territories a more simple and economical system for the transfer of land will be laid before you.

The Report of the Commission for the consolidation of the Statutes affecting the Dominion has been completed and will be submitted to you for legislative action.

You are again invited to consider a measure relating to the representation of the people in Parliament and for the assimilation of the Electoral Franchises in the several Provinces.

A provisional arrangement of matters for some time under discussion with the Government of Manitoba has been entered into, and a measure confirming the same will be submitted to you so soon as it has been accepted by the Provincial Legislature.

I deemed it expedient to issue during the recess a Commission to consider and report upon the whole subject of Chinese immigration with reference to its trade relations, as well as to those social and moral objections which have been taken to the influx of the Chinese people into Canada.

The Report of the Commissioners is very nearly completed, and will be laid before you during the present Session.

The necessity of encouraging the speedy construction of lines of Railway through the North-West Territories has pressed itself on my Government, and you will be asked to aid Railway enterprise by liberal grants of land.

Urgent representations have been made by the Boards of Trade of the chief towns in Canada, as well as by some of the Chambers of Commerce in Great Britain, of the necessity that exists for the adoption of some system of Bankruptcy or Insolvency giving adequate protection against undue preferences, and your attention to this important subject is earnestly invited.

In pursuance of the vote of last Session I caused a vessel to be fitted out and dispatched to Davis' Straits and Hudson's Bay, in order to obtain more accurate information as to the navigation of those waters, and test the practicability of the route for commercial purposes.

A report of the progress of the expedition during the last season will be laid before you.

An International Exhibition will be opened at Antwerp during the present year, and a Colonial and Indian Exhibition is to be held in London in 1886. Canada should, I think, be represented in her various manufactures and natural productions on both occasions, and I invoke your consideration of the best means of aiding in these important objects.

Several other measures of importance will be submitted to you; among them will be Bills to amend the Insurance Act of 1877, the Civil Service Act, and the law relating to contagious diseases among cattle, as well as measures for taking, at an early period, a census of the population of the North-West Territories, and one relating to the North-West Mounted Police.

Gentlemen of the House of Commons :

The accounts for the past fiscal year will be laid before you. You will find that notwithstanding the very considerable reduction in the prices and volume of many of the leading imports, the income has exceeded the expenditure chargeable to Consolidated Revenue.

The Estimates for the ensuing year will also be submitted. They will be found, I trust, to have been prepared with due regard to economy.

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I am sure that your earnest consideration will be given to the subjects I have mentioned, as well as to every matter which may affect the prosperity and good government of Canada.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The Honorable Sir Alexander Campbell presented to the House, a Bill intituled : " An Act relating to Railways."

The said Bill was read for the first time.

The Honorable the Speaker reported His Excellency's Speech from the Throne and the same was then read by the Clerk.

On motion of the Honorable Sir Alexander Campbell, seconded by the Honorable Sir David Lewis Macpherson, it was

Ordered, That the House do take into consideration the Speech of His Excellency the Governor General to-morrow.

On motion of the Honorable Sir Alexander Campbell, seconded by the Honorable Sir David Lewis Macpherson, it was

Ordered, That all the Members present during this Session be appointed a Committee to consider the Orders and Customs of this House and Privileges of Parliament, and that the said Committee have leave to meet in this House, when and as often as they please.

The Honorable the Speaker presented to the House,—The Report of the Acting Librarian on the state of the Library of Parliament.

The same was then read by the Clerk, as follows :—

To the Honorable the Senate of Canada, in Parliament assembled :

The Report of the Acting Librarian, on the state of the Library of Parliament, respectfully sheweth :—

At each of the two previous Sessions of Parliament a special grant of \$1,000 was placed to the credit of the Library for the purchase of rare works on the North American continent. I am happy to be able to report that considerable additions have been made to this important section. Comparatively few works are now wanting in what may be called the *Bibliotheca Canadensis Vetustissima*, having relation to the discovery and early settlement of Canada. Hence our shelves offer a large number of works bearing on the history of the English colonies and plantations—their rise and progress, and, later on, their controversies with Great Britain previous to the Revolution; the wars of Independence and of 1812, and, returning to Canada, to the troubles of 1837-38, both in Upper and Lower Canada.

This special grant was made at a most appropriate time, for the prices of this particular class of books have of late increased largely. At a recent sale in New York 32 vols. of the *Relations des Jésuites (editio princeps)*, brought over \$3,500. I may here mention that the Library has been able to secure twenty-five of these precious components of our annals on much more favourable terms.

The American section of the Library now numbers 13,500 vols., of which 7,500 are Canadian.

During the years 1882 and 1883 the question whether the law books in the Library should be retained therein or transferred to the Supreme Court having been kept in suspense, but few purchases of law books were made. At its last Session, Parliament, however, decided that the law section should not be removed to the Supreme Court, and following that decision, I have endeavoured to bring up that section to its proper standard, by adding to it the latest editions of all law books recently issued.

It is a matter of regret to me that I have been unable, through the want of proper accommodation, to carry out, to its full extent, the resolution adopted by Parliament with regard to the organization in this Department of a section of Chartography. A considerable number of maps have been bought, but it has been found impossible to secure the necessary space to arrange and display them properly.

This want of room has been felt more or less in the different branches. The book cases around the House of Commons Reading Room, placed at our disposal by the Board of Public Works, have been filled to their utmost capacities, and it will be no easy task next year to shelve the new additions. It will, therefore, be necessary, in order to meet the requirements of the Library, to find more accommodation, and I beg leave to request respectfully that the rooms in the basement of the Library, now occupied by the Queen's Printer, be in future used for the purposes of this Department.

It has been proposed several times, within the last few years, to reorganize the Library and enlarge its scope and character. Referring to this matter, the Right Hon. Sir John A. Macdonald said, during the Session of 1883 (*Vide* official report Debates, April 16, 1883) when the report of the Library was under consideration :
 “ Our Library is neither the one thing nor the other just now. It is not a British Museum, or a Canadian Museum, or a National Library. * * * It is assumed, from the number of the volumes, that it has the character of a National Library, and yet it is commonly, and technically, merely a Parliamentary Library. Now, our selection of books is far too great to be considered a Parliamentary Library, which should be a collection of works to assist members of Parliament to perform their duties intelligently—books of reference, books containing all the information necessary for legislators; that is the idea in England, where the Parliamentary Library, which is used by the two Houses, the House of Peers and the House of Commons, is one distinctly of reference. * * * We will have to face that subject very soon. * * * Perhaps the

“ Library Committee will take up that question, because we ought really to have—
“ the Dominion of Canada ought to have—a National Library.”

In view of the prospective change indicated in the above remarks of the Right Hon. Premier, and without wishing to anticipate the action of Parliament in this matter, I beg respectfully that some much needed changes be introduced in the internal economy of the Library, to pave the way for such reorganization of this Department as may be determined upon. It would be premature to lay before Parliament the details of the scheme, but I may, however, say that one of these changes should afford more time to the staff to obtain a knowledge of the works contained in the different sections entrusted to their care.

A list of donations received since last Session is annexed to this report, and also a list of Canadian works deposited under the Copyright Act.

The number of volumes in the Library last year was estimated at 107,500. Since then the number has increased to about 111,200.

The supplementary index to the Catalogue will be issued next week.

All which is respectfully submitted.

A. D. DeCELLES,
Acting Librarian.

We rejoice that Your Excellency in again meeting us for the despatch of business has to congratulate us on the abundant harvest with which Providence has blessed our country, and upon the general condition of the Dominion, whose commercial prosperity, although it has to some extent shared in the depression which has prevailed in Great Britain and the neighboring Republic, rests upon foundations which no temporary or partial disturbance can remove.

LOS ANGELOS, 31st October, 1884.

GENTLEMEN,—I received your letter on the 27th of the month, and I started to Los Angeles the next morning to see the gentleman you told me in your letter to call on, and of course found him in his office, and told him my business, and he told me all about it, and also told me that I would have no trouble at all in taking the papers out to the party, so I had to hire a horse and buggy to go out there, and when I got out there I found them away from home, but I waited around there for about an hour and a half, but they did not come, and I had to return to the city, and next day went out again and seen him and told him my business, and told him that I wanted to see his wife; he told me that I could not see her as she was sick, and I told him that I had nothing to say to her at all but just to give her a paper, and he told me that he would take the paper, and that I could not see her, so I told him that it was to her that the paper belonged, and to her and no other would I give it to. Well, he told me that I could not see her, and said good morning to me; so I told him that I would see if I could not see her when I went into town. So I came back to town, but it was too late to see Mr. Will Gould, so the next morning I called on him, and it was just about noon, and he was not at liberty to see me just then, but told me to call back at one o'clock and he would go and see his lawyer, and as I was waiting for him to come back this man and his wife came up to his office, so I went out and found Mr. Gould and told him that they were up in his room waiting for him. So he asked me

what I had said to him when I had seen him out on the ranche, and I told him that I should see whether I should see Miss E. or not; so he said that I must have scared them a little; so he told me to go up and give her the paper, which I did, so the whole thing is settled, and I seen that the papers were fixed up all right and signed and the seal put on, and they are satisfied that is this party out here. Mr. Will Gould has written you and told you that he thought that I would not come, but you see that I did, and just as soon as I had got your letter, and My expenses are a little more than you expected. They are between \$65 and \$70, and if this does not satisfy you, you will, when you write, tell me and I shall put it all down and send it back to you, but I tell you, gentlemen, that this country is not like Canada, so when you write, which I shall expect you to do, as I have not got any more money that I know what to do with. Now, if this does not suit you, you will please to write at once and let me know.

Yours truly,

REPORT OF THE CLERK OF THE COMMITTEE.COMMITTEE ROOM,
10th February, 1885.

To the Chairman and Members of the Joint Committee of both Houses on the Printing of Parliament :—

GENTLEMEN,—I beg to submit the Annual Statement of the Receipts and Expenditure on account of the Printing of Parliament for the fiscal year ended 30th June, 1884. It is certified by the Auditor-General and signed by him as being correct.

The several contractors in connection with Printing services, have signed their respective contracts extending the same for one year, that is, to the 31st December next. This is in accordance with the last paragraph of the Sixth Report of the Committee of last Session, which recommended: "That in accordance with the provisions contained in the present Contract by which Parliament has the right to extend the same for five years, they be extended for the present for one year from 31st December next, and further thereafter if found necessary, to which extension the several contractors have signified their consent in writing."

The uncertainty which prevails as to the method to be adopted for the future performance of the Printing services has not tended to increase their efficiency at the present.

I would again respectfully draw attention to the overcrowded state of the Distribution Office, the too limited space rendering it impossible for the employes to perform the necessary work either with safety or satisfaction.

I regret to have to report the death of Mr. *Sloane*, the Assistant in the Stationery and Proof-reading Department of the House of Commons, to whom the Committee recommended last Session by their Seventh Report a yearly allowance of \$200 for certain services performed as set forth in Appendix C, as appended to that Report.

In answer to an application from the Finance Department, I asked that \$80,000 be placed in the Estimates for next year for the Printing services of Parliament. This is an advance of \$10,000 on the usual estimate, but as a supplementary of \$20,000 was required last year, I thought it advisable to do so, subject to the approval of the Committee.

All which is respectfully submitted.

HENRY HARTNEY,
Clerk, Joint Committee on Printing.

EDOUARD J. LANGEVIN,

Clerk of the Senate.

Ordered, That the same do lie on the Table.

The Honorable Mr. Kaulbach moved, seconded by the Honorable Mr. Macfarlane,

That Julius Winckler be called to the Bar of this House, to be sworn and examined.

The question of concurrence being put thereon, the same was, on a division, resolved in the affirmative.

Then Julius Winckler was called to the Bar of the House, and, being sworn, was examined, as follows:—

Q. What are your name, place of residence, and occupation or legal addition?

A. Julius Winckler, of the City of Hamilton, Dominion of Canada, Machinist.

Q. Look at paper writing now produced and shown to you, marked "A," intituled "An Act for the relief of Georg Louis Emil Hatzfeld," and at the paper writing now produced and shown to you, marked "B," being an Order of the Senate dated the 11th day of February, A.D., 1885, both writings being certified by the Clerk of the Senate. Did you serve, or attempt to serve copies of these writings, with the certificates thereon of the Clerk of the Senate, upon any person, and if so, upon whom and in what manner, on what date and at what place?

A. On Friday, the 20th day of February, A.D. 1885, at about four o'clock P.M., I called at number 252 Ontario street, in the City of Toronto, being the residence of Peter Freyseng, brother of said Anna Maria Hatzfeld, and where she was at that time residing, and where she had been residing for several months last past, and told the wife of said Peter Freyseng that I wanted to see the said Anna Maria Hatzfeld, whereupon she the said Mrs. Freyseng told me the said Anna Maria Hatzfeld had gone out since dinner, and she declined to tell me where she had gone or when she would return, and from the demeanor of the said Mrs. Freyseng and the fact that I had served the said Anna Maria Hatzfeld with a notice in this matter on the previous Monday at the same house, and the further fact that I was detained

several minutes at the door of said house before being admitted, during which time I noticed the window curtain near the door where I stood being moved as though some one was looking out, I was of the opinion then and am now, that the said Anna Maria Hatzfeld was in the said house of her said brother, when I was there on the said 20th instant and was evading me, and believing then as I do now that it was impossible to serve her personally, I served the said duplicate copies of said paper writings now produced and shown to me, marked "A" and "B" respectively, with the certificate thereon respectively of the Clerk of the Senate, upon the said Peter Freyseng, brother of the said Anna Maria Hatzfeld, by handing the same to and leaving the same with him, on the said twentieth day of February, 1885, at the said City of Toronto, and at the same time, he said that he would hand the said duplicate copies to his sister, the said Anna Maria Hatzfeld, and I am informed and verily believe that Mr. McIntyre, of Ottawa, Barrister, has been retained to represent the said Anna Maria Hatzfeld before the Committee of the Senate of Canada in the matter of the said Bill.

Q. Look at the paper writing now produced and shown to you marked "C," being a notice over the name of Osler, Teetzel and Harrison, solicitors for Georg Louis Emil Hatzfeld, to Anna Maria Hatzfeld, of the second reading in the Honorable the Senate of the Dominion of Canada of a Bill intituled: "An Act for the relief of Georg Louis Emil Hatzfeld," on Thursday, the 26th day of February, instant, and containing a copy of the motion with reference to the second reading of the said Bill, passed by the said Honorable House on the eleventh day of February, instant; also containing a copy of the said Bill. Did you serve a true copy of said paper writing on any person, and if so, upon whom; in what manner, on what day and date, and at what place?

A. I served a true duplicate copy of the said paper writing now produced and shown to me, marked "C," upon the said Anna Maria Hatzfeld by handing the same to and leaving the same with her, on Monday, the sixteenth day of February, A.D. 1885, at the residence of her brother, Peter Freyseng, in the City of Toronto, in the Dominion of Canada, being number 252, Ontario street, in said city, and at the time of such service, she took the said paper writing and I sat down beside her and she read the same, and when she had done reading I asked her if she would meet Louis, meaning the said Petitioner, in Ottawa, on the twenty-sixth instant, and she said "Yes."

Q. Do you know, and how long have you known personally the said Anna Maria Hatzfeld?

A. I do know, and have known her personally, for over fourteen years.

Q. Is the said Anna Maria Hatzfeld the wife of the Petitioner, Georg Louis Emil Hatzfeld?

A. Yes.

Q. Do you know the Petitioner, Georg Louis Emil Hatzfeld, personally, and if so, how long?

A. Yes, I have known him personally over fourteen years.

Q. Did you compare the said duplicate copies of the writings, marked "A" and "B" with the said writings respectively, and ascertain that they were true copies?

A. I did.

Q. Did you compare the said paper writing marked "C" and the said duplicate copy with that portion of the paper writing now produced and shown to you marked "D," being the Minutes of the Senate of Canada of Wednesday, the 11th day of February, 1885, printed by the Queen's Printers, which refers to the said Bill, and also the said Bill marked "A," certified by the Clerk of the Senate?

A. I did, and I found both the said paper writing marked "C" and the duplicate copy thereof served by me on said Anna Maria Hatzfeld to contain true copies of the said Bill, and of that portion of the said Minutes of the Senate of Canada which in any way refers to the said Bill or to the second reading thereof.

Q. Did you compare the said Duplicate Copy of the paper writing marked "C" with the said writing "C" and ascertain that it was a true copy?

A. I did.

Q. Is the said Anna Maria Hatzfeld upon whom you served a copy of the writing marked " C " and upon whose brother you served copies of the writings, marked " A and B," respectively, the same Anna Maria Hatzfeld who is named in said writings respectively, and who is therein styled the wife of the said Georg Louis Emil Hatzfeld?

A. Yes, she is the same person.

The said Julius Winckler was directed to withdraw.

The Honorable the Speaker informed the House that Georg Louis Emil Hatzfeld, the Petitioner in this case, was in attendance below the Bar ready to be examined by the Senate generally, or as to any collusion or connivance between the parties to obtain a separation.

Then the Honorable Mr. Kaulbach moved, seconded by the Honorable Mr. Macfarlane,

That the said Petitioners examination in this matter as well generally as in regard to any collusion or connivance between the parties to obtain a separation be for the present dispensed with, but that it be an instruction to any Committee to whom the Bill upon the subject may be referred to make such examination.

Which being objected to,

The question of concurrence was put thereon, and the same was, on a division, resolved in the affirmative, and

Ordered accordingly.

The Honorable Mr. Kaulbach moved, seconded by the Honorable Mr. Macfarlane,

That the said Bill for the relief of Georg Louis Emil Hatzfeld, be now read a second time,

Which being objected to,

The question of concurrence was put thereon, and the same was, on a division, resolved in the affirmative, and

The said Bill was then read a second time accordingly.

The Honorable Mr. Kaulbach moved, seconded by the Honorable Mr. Macfarlane,

That the said Bill be referred to a Select Committee composed of the Honorable Messieurs Botsford, Boyd, Lewin, Macfarlane, Macdonald, McClelan, Turner, Montgomery and the mover, to report thereon with all convenient speed, with power to send for persons, papers and records, and examine witnesses on oath, and that all persons summoned to appear before the Senate in this matter appear before said Committee.

The question of concurrence being put thereon, the same was, on a division, resolved in the affirmative, and

Ordered accordingly.

Then, on motion of the Honorable Sir Alexander Campbell, seconded by the Honorable Mr. Smith,

The House adjourned until Monday next at Three o'clock in the afternoon.

On motion of the Honorable Mr. Dickey, seconded by the Honorable Mr. Read, it was

Ordered, That the said Debate be postponed until Thursday, the ninth day of April next.

The Honorable Mr. Sullivan moved, seconded by the Honorable Mr. McMillan, That an humble Address be presented to Her Majesty, in the following words:—

To the Queen's Most Excellent Majesty.

MOST GRACIOUS SOVEREIGN:

We, Your Majesty's most dutiful and loyal subjects, the Senate of Canada, in Parliament assembled, humbly beg leave to approach Your Majesty for the purpose of representing:—

That by Section 3 of the Imperial Act 31 and 32 Victoria, Chapter 29, known as the Medical Amendment Act, 1868, it was enacted as follows:—

"Every Colonial Legislature shall have full power from time to time to make laws for the purpose of enforcing the registration within its jurisdiction of persons who have been registered under 'The Medical Act,' anything in the said Act to the contrary notwithstanding: Provided, however, that any person who has been duly registered under 'The Medical Act,' shall be entitled to be registered in any Colony upon the payment of the fee (if any) required for such registration, and upon proof, in such manner, as the said Colonial Legislature shall direct of his registration under the said Act."

That by the same Imperial Act, Section 21, it was provided that the term Colony shall, in this Act, include all Her Majesty's possessions abroad in which there shall exist a Legislature as hereinafter defined except the Channel Islands and the Isle of Man, and the term Colonial Legislature shall signify the authority other than the Imperial Parliament or Her Majesty in Council competent to make laws for any Colony.

That by the Imperial Act 41-42 Victoria, Chapter 33, known as the "Dentists' Act, 1878," it was enacted that "a person registered under this Act shall be entitled to practice dentistry in any part of Her Majesty's Dominions;"

That by Section 2 of an Act of the Legislature of Ontario, 37 Victoria, Chapter 30, and known as the Ontario Medical Act, the medical profession of Ontario were incorporated under the name and style of the College of Physicians and Surgeons of Ontario, with power and authority to fix and determine a curriculum of studies to be pursued by all students and to be taught by all colleges within the said Province, and to fix and determine the terms upon which persons desirous of practising medicine and surgery and midwifery within the said Province would obtain registration; and

That by the said Ontario Medical Act it was enacted that:—

"Every person desirous of being registered under the provisions of this Act, and who had not become possessed of any one of the qualifications in the said Schedule

B mentioned, before the twenty-third day of July, one thousand eight hundred and seventy, shall before being entitled to registration present himself for examination as to his knowledge and skill for the efficient practice of his profession before the Board of Examiners, in the twenty-eighth section mentioned, and upon passing the examination required and proving to the satisfaction of the Board of Examiners that he has complied with the rules and regulations made by the Council, and on the payment of such fees as the Council may by general by-law establish, such person shall be entitled to be registered, and in virtue of such registration to practice medicine, surgery and midwifery in this Province."—37 Victoria, Chapter 30; Section 22.

That under the provisions of the above cited Imperial Medical Act, any person registered by the Medical Board of Great Britain and Ireland, may claim to be registered as a medical practitioner by the Council of the College of Physicians and Surgeons of Ontario, and to practise medicine, surgery and midwifery in the said Province, subject only to the payment of a fee on proof of his registration under the provisions of, and in the manner prescribed by, the Imperial Statutes, notwithstanding the above recited provisions of the Ontario Medical Act, thereby granting in Canada to British graduates privileges which the Province of Ontario denies to her own graduates or to the graduates of any other Provinces of the Dominion.

That it appears that the Government of Canada have drawn attention to the matter above referred to, and that the Secretary of State for the Colonies has, on behalf of Her Majesty's Government, promised to introduce legislation into the Imperial Parliament to so amend the said Statutes as "to make the right of registration subject to any local law."

That, nevertheless, the Statutes referred to have not been repealed, but remain in full force and effect, and advantage is constantly taken of this provision, and sometimes by those who have been rejected by the Board of Examiners referred to in the said Ontario Act.

That the provisions of the said Imperial Act are a direct interference with the right of self-government, through the medium of this Parliament and the Legislative Assemblies of the Provinces, granted to the people of Canada, ought never to have been enacted, and should be repealed at the earliest possible moment.

We, therefore, humbly pray that Your Majesty will be graciously pleased to invite such legislation in the Parliament of the United Kingdom as will cause the operation of the said clauses of the said Acts of the Parliament of the United Kingdom to cease in Canada.

The Honorable Mr. Almon moved,

That the Petition of John Tobin and Co., and others, of the City of Halifax, be now read at length.

The question of concurrence being put thereon the same was resolved in the affirmative, and

The said Petition was then read by the Clerk accordingly.

His Honor the Speaker said : Before calling the motions on the paper, I desire to give my decision on the question of order raised by the hon. member from Amherst on Friday last, in relation to the motion of the hon. member from Woodstock, which motion is as follows :—

“That the memorandum respecting the estate of the Bank of Upper Canada, be referred to a committee of this House for the purpose of enquiring into, and reporting upon the same, with power to send for persons, papers and records, the said committee to consist of Messieurs :”

The question of order raised by the hon. Senator from Amherst is, that the subject of the said motion has already been considered and disposed of by the Senate on a similar motion of the Senator from Woodstock, on the 23rd of February last, and that it cannot therefore be again entertained by the House during the present Session. The motion of the 23rd February is in these words :

“That a committee be appointed to enquire into and report, from time to time, to the House, the value of the remaining assets of the bank of Upper Canada still uncollected, with particulars of the settlement with debtors of the bank, since its failure ; also the balance now due by the bank to the country, with power to send for persons, papers and records, the said committee to consist of Messieurs.”

This motion the Senate negatived by a vote of 49 to 1, the motion having been put to the House without a seconder.

In the first place, with reference to the rule contended for by the Senator from Amherst, that when a question has been once considered and disposed of, the House will not agree to its renewal in the same Session, I think that the authorities cited by that hon. member clearly uphold his contention. The old rule of Parliament, the obvious wisdom of which I need not comment on, is “that a question being once made, and carried in the affirmative, or negative, cannot be questioned again, but must stand as a judgment of the House.” This rule has never been abrogated or changed in any way, and all the authorities say, “that no question or motion can regularly be offered, if it is substantially the same with one on which the judgment of the House has already been expressed during the current Session.” (Bourinot, p. 339.)

The Senator from Woodstock, while not denying that the two motions just read are substantially the same, contends that in conformity with the practice of the Imperial House of Commons, they may both be considered by this House. The hon. Senator quoted from the journals of the English House of Commons for the year 1845, several entries in the said journals, when, as he contended, the same question was brought several times before the House. These precedents all refer to the celebrated "Post Office Case" of that year, and are to be found at pages 42, 54, 185, 199 and 214. I have carefully looked into all these precedents, and find they do not sustain the position of the Senator from Woodstock, or militate, in the slightest degree, against the rule to which I have referred. The quotations from pages 42 and 54 merely show that a motion relating to certain alleged irregularities in the post office was made on one day, adjourned to the following day, and then by leave of the House, withdrawn, no decision being arrived at by the House respecting it. At page 185, I find that a motion of censure was moved against the Government in regard to the said irregularities, which passed in the negative. This was the first occasion on which the House considered the subject, and disposed of it by a division, in the shape of a vote of want of confidence. On the 4th of April following, page 199, on motion that the Speaker do now leave the Chair, an amendment was moved for an Address to the Queen asking that certain warrants sent to the Postmaster General by the Secretary of State should be laid on the table of the House, on which a division was recorded in favor of the main motion. But these two last motions were, I think, essentially different in character. One was a direct vote of censure on the Government; the other simply asked for the production of papers—they were certainly not substantially the same. I now come to the last case cited by the hon. member. On the 8th of April following, a motion was made "that leave be given to bring in a Bill to secure the inviolability of letters passing through the Post Office," but this citation can have no bearing whatever on the point I am now dealing with, unless it can be shown that another Bill relating to the same subject had also been considered in the same Session, or that the principle involved in it had in some other way been considered and disposed of, which, of course, was not the case.

The rule being, therefore, clear in support of the contention of the hon. Senator from Amherst, that no question can be again considered in the same Session after having been once disposed of; I have, in the second place, to enquire, is the motion of the hon. Senator from Woodstock, now before the House, substantially the same as the one made by him on the 23rd of February last? In doing so, I pass over for the present the hon. member's own admissions on this point, and ask what were the aim and scope of his first motion? Clearly, to obtain a committee of this House to investigate and report on the affairs of the bank of Upper Canada. And is not the present motion substantially a similar motion, with a similar scope and purpose? I certainly think it is. I consider this construction of the character and object of the two motions too self-evident to require to be supported by any of the numerous authorities on construction I could quote for the purpose. The investigation asked for on the 23rd of February, after full debate and consideration by the House, was refused in a manner rare in parliamentary proceedings. The decision on that occasion was so unanimous and emphatic, that it is hard to look upon the present motion in any other light than as a contempt—I trust an unintentional contempt—of the previous judgment of the Senate.

But the Senator from Woodstock has himself left the House in no doubt as to the purpose he has in view in the motion now on our minutes. Not only does he not deny, but admits that his two motions relate to the same object, and that the object of the last was also the object of the first. If anything, however, were required to be added to these admissions, it is amply supplied in the fact that all the authorities quoted by the Senator from Woodstock were cited to establish his right to bring a subject, which the Senate had already considered and disposed of, again before the House in the same Session; the character of his argument, as well as his direct admissions, conceding the substantial sameness of his two motions.

My opinion is, that the objections of the hon. Senator from Amherst were well taken, and that the motion of the hon. Senator from Woodstock is not in order.

The Honorable Sir Alexander Campbell, Minister of Justice, presented to the House,—A Return to an Address, presented to His Excellency the Governor General, dated the 20th March, 1885; praying that he will cause to be laid before this House a Return showing in detail the total cost of the Cape Traverse Branch Railway; including the sums paid to engineers and for superintending its construction, the rolling stock, stations and other buildings.

HOUSE OF COMMONS,
THURSDAY, 18th June, 1885.

Resolved, That a Message be sent to the Senate to acquaint their Honors that this House hath agreed to the first, second, fourth, fifth, seventh, eighth and ninth of their amendments to the Bill (No. 92) intituled: "An Act further to amend 'The Canada Temperance Act, 1878,' and 'The Liquor License Act, 1883,'" and have also agreed to their third amendment, with the exception of the 5th paragraph of the 2nd proviso of the said third amendment, to which they have disagreed for the following reason:—"Because it contravenes the principle of the Act which provides that the sale of Alcohol and Spirits for the purposes mentioned shall be made only on the certificate of two Justices of the Peace accompanied by the affirmation of the applicant and the registration of the sale, which are considered necessary safeguards against an abuse of the law."

And that they have added to the said third amendment, the following further proviso:—"Provided always that all such Physicians, Druggists and Chemists selling Alcohol or Spirituous Liquors shall keep a register of all such sales, indicating the name of the purchaser and the quantity sold, and shall make an annual return of all

such sales on the 31st December in each year to the Collector of Inland Revenue within whose Revenue Division such Physician, Druggist or Chemist resides."

And that they have disagreed to the sixth amendment, for the following reason:—"Because abuses have arisen in Counties in which the Act has been adopted, owing to the absence of a penal Clause of this nature, and the provision is necessary in order to the proper and effective enforcement of the law."

And that they have amended the words so restored to the Bill, in page 2, line 15, by adding after the words "Medical man," the words "or other person authorized to grant certificates under this Act."

And that they have disagreed to the tenth amendment, for the following reason:—"Because forms are necessary for the efficient enforcement of the Act."

And that they have disagreed to the eleventh amendment, for the following reason:—"Because it is a violation of the fundamental principles of the Act, which, where adopted, prohibits the sale of all intoxicating liquors for beverage purposes; and because the Act has already been adopted in good faith by the Electors in 61 Counties and Cities of the Dominion, believing that under the express provisions of the law it would continue in force unimpaired for three years, and would then only be repealed by the same authority which adopted it; and the passing of the amendment would be a breach of faith on the part of Parliament with the Electors of these Counties and Cities; and further because the amendment is in direct opposition to the wishes of a large portion of the Electors of the Dominion as manifested by the Petitions presented to Parliament."

And that they have disagreed to the twelfth amendment, for the following reason:—"Because the House has reinstated the Clause providing Schedules."

Ordered, That the Clerk do carry the said Message to the Senate.

Attest,

J. G. BOURINOT,

Clerk of the Commons.

On motion of the Honorable Sir Alexander Campbell, seconded by the Honorable Mr. Smith, it was

Ordered, That the said Message be taken into consideration by the House on Monday next.

PRAYERS:

The following Petition was brought up, and laid on the Table:—

By the Honorable Mr. Vidal,—Of the Reverend Alexander McKnight, D.D., Moderator, the Reverend William Reid, D.D., and the Reverend William Fraser, D.D., Clerks of the General Assembly of the Presbyterian Church in Canada.

The Honorable Sir Alexander Campbell, Minister of Justice, presented to the House,—The First Report of the Joint Committee of both Houses of Parliament, to whom was referred the Report of the Commissioners appointed to consolidate and revise the Statutes of Canada.

Ordered, That it be received.

The same was then read by the Clerk as follows:—

3rd Session, 5th Parliament, 48. Victoria, 1885.

FIRST REPORT OF THE JOINT COMMITTEE OF BOTH HOUSES OF PARLIAMENT, TO WHOM WAS REFERRED THE REPORT OF THE COMMISSIONERS APPOINTED TO CONSOLIDATE AND REVISE THE STATUTES OF CANADA.

The Joint Committee of both Houses of Parliament, to whom was referred the report of the Commissioners appointed to consolidate and revise the Statutes of Canada, beg leave to make their First Report, as follows:—

The Committee have carefully examined the consolidation and revision submitted by the Commissioners.

Without retracing the whole labor of the Commissioners in preparing the draft of the proposed consolidation and revision, it was impossible for the Committee to compare with the original each of the sections represented to be transcripts of sections now in force to verify absolutely the completeness of the consolidation, or to ascertain beyond doubt that no statutory provisions have been omitted, or repealed provisions included. The time at the disposal of the Committee did not allow of more than a general examination, and the application of tests to ascertain the character of the work in these respects. In the opinion of the Committee it has been well and carefully done.

The chapters of the draft were apportioned among Sub-Committees, who made a careful examination, comparison and verification of all those sections of existing Statutes which are noted in the Draft as having undergone any change in arrangement or language, as having been repealed, or in regard to which any change is suggested by the Commissioners. The assistance given these Sub-Committees by the Commissioners who attended them was very valuable, and expedited the work materially. The amendments enumerated in the Schedule A hereto annexed, are the result of this examination and of the changes suggested by the Commissioners.

The general arrangement and execution of the proposed consolidation and revision are, in the opinion of the Committee, convenient and satisfactory, but the Committee recommend that the table of contents be put in the beginning and the index at the end of the work.

On the whole, the Committee recommend that the said Report of the Commissioners be adopted, and submit the amendments above noted for the consideration of the two Houses of Parliament.

The Committee also recommend that Senators and Members of the House of Commons be requested to preserve the copies of the Report of the Commissioners which have been distributed to them, to the end that expense in printing a further edition may be avoided.

All of which is respectfully submitted.

A. CAMPBELL,
Chairman.

24th June, 1885.

Pursuant to the Order of the Day the Bill intituled: "An Act to modify the application of 'The Consolidated Insurance Act, 1877,'" was read a second time.

On motion of the Honorable Sir Alexander Campbell, seconded by the Honorable Mr. Smith, it was

Ordered, That the said Bill be committed to a Committee of the Whole House to-morrow.

The Order of the Day being read for the consideration of the Message from the House of Commons, viz.:—

Resolved, That a Message be sent to the Senate to acquaint their Honors that this House hath agreed to the first, second, fourth, fifth, seventh, eighth and ninth of their amendments to the Bill (No. 92) intituled: "An Act further to amend 'The Canada Temperance Act, 1878,' and 'The Liquor License Act, 1883,'" and have also agreed to their third amendment, with the exception of the 5th paragraph of the 2nd proviso of the said third amendment, to which they have disagreed for the following reason:—"Because it contravenes the principle of the Act which provides that the sale of Alcohol and Spirits for the purposes mentioned shall be made only on the certificate of two Justices of the Peace accompanied by the affirmation of the applicant and the registration of the sale, which are considered necessary safeguards against an abuse of the law."

And that they have added to the said third amendment, the following further proviso:—"Provided always that all such Physicians, Druggists and Chemists selling Alcohol or Spirituous Liquors shall keep a register of all such sales, indicating the name of the purchaser and the quantity sold, and shall make an annual return of all such sales on the 31st December in each year to the Collector of Inland Revenue within whose Revenue Division such Physician, Druggist or Chemist resides."

And that they have disagreed to the sixth amendment, for the following reason:—"Because abuses have arisen in Counties in which the Act has been adopted, owing to the absence of a penal Clause of this nature, and the provision is necessary in order to the proper and effective enforcement of the law."

And that they have amended the words so restored to the Bill, in page 2, line 15, by adding after the words "Medical man," the words "or other person authorized to grant certificates under this Act."

And that they have disagreed to the tenth amendment, for the following reason:—"Because forms are necessary for the efficient enforcement of the Act."

And that they have disagreed to the eleventh amendment, for the following reason:—"Because it is a violation of the fundamental principles of the Act, which, where adopted, prohibits the sale of all intoxicating liquors for beverage purposes; and because the Act has already been adopted in good faith by the Electors in 61 Counties and Cities of the Dominion, believing that under the express provisions of the law it would continue in force unimpaired for three years, and would then only be repealed by the same authority which adopted it; and the passing of the amendment would be a breach of faith on the part of Parliament with the Electors of these Counties and Cities; and further because the amendment is in direct opposition to the wishes of a large portion of the Electors of the Dominion as manifested by the Petitions presented to Parliament."

And that they have disagreed to the twelfth amendment, for the following reason:—"Because the House has reinstated the Clause providing for Schedules."

The Honorable Mr. Vidal moved, seconded by the Honorable Mr. Wark,

That this House doth not insist upon its amendment in the fifth paragraph, of the second proviso, of its third amendment to the said Bill, to which the Commons disagree.

The question of concurrence being put thereon the same was resolved in the affirmative.

The Honorable Mr. Vidal moved, seconded by the Honorable Mr. Wark,

That this House doth concur in the addition made by the House of Commons to the said third amendment.

The question of concurrence being put thereon the same was resolved in the affirmative.

The Honorable Mr. Vidal moved, seconded by the Honorable Mr. Wark,
That this House doth not insist upon its sixth amendment to the said Bill to which the Commons disagree.

The Honorable Sir Alexander Campbell in amendment moved, seconded by the Honorable Mr. Almon,

That the Senate doth insist upon its sixth amendment to the said Bill, for the following reasons:—

1. Because the reasons adduced in the Message from the House of Commons do not show how or why the provision stricken out of the said amendment "is necessary in order to the proper and effectual enforcement of the law."

2. Because by law provision already exists for indicting and punishing Medical men and others who give certificates under The Canada Temperance Act, 1878, to be used for the purpose of evading the provisions thereof, and it is not expedient that Medical men charged with such an offence should be tried summarily before Justices of the Peace.

The question of concurrence being put thereon, the House divided, and the names being called for, they were taken down as follow:—

So it was resolved in the affirmative.

The question being then put on the main motion as amended, the same was also resolved in the affirmative.

The Honorable Mr. Vidal moved, seconded by the Honorable Mr. Wark.

That this House doth concur in the amendment made by the House of Commons to the words restored to the said Bill, in page 2, line 15.

The Honorable Sir Alexander Campbell, moved in amendment, seconded by the Honorable Mr. Almon,

That the Senate doth disagree to the further amendment made by the House of Commons to the words stricken out of the Bill by the said sixth amendment, for the following reasons:—

1. For the reasons above given for insisting upon the said sixth amendment.

2. Because the said further amendment is not consequent upon the said sixth amendment.

3. Because by the said further amendment Clergymen charged with giving certificates to be used for the purpose of evading the provisions of "The Canada

"*Temperance Act, 1878.*" would be tried summarily before Justices of the Peace, which is even more to be deprecated than that Medical men should.

The question of concurrence being put thereon, it was, upon the same division, resolved in the affirmative.

The question being then put on the main motion as amended it was also resolved in the affirmative.

The Honorable Mr. Vidal moved, seconded by the Honorable Mr. Wark,

That this House doth not insist upon its tenth amendment to the said Bill to which the Commons disagree.

The Honorable Sir Alexander Campbell, in amendment, moved, seconded by the Honorable Mr. Almon,

That the Senate doth insist upon its tenth amendment to the said Bill, for the following reasons:—

1st. Because the forms given in the schedules to the Bill are vague, loose and misleading.

2nd. Because in certain cases the said forms might lead magistrates to make convictions contrary to law, as, for instance, the forms numbered 8, 9 and 10 respectively in "Schedule O," which relate to indictable offences not punishable on summary conviction.

3rd. Because it is not expedient to make any further departure from the long established and salutary rules of procedure and evidence in criminal cases.

The question of concurrence being put thereon, it was, on the same division, resolved in the affirmative.

The question being then put on the main motion as amended it was also resolved in the affirmative.

The Honorable Mr. Vidal moved, seconded by the Honorable Mr. Wark,

That this House doth not insist upon its eleventh amendment to the said Bill to which the Commons disagree.

The Honorable Sir Alexander Campbell, in amendment, moved, seconded by the Honorable Mr. Almon,

That the Senate doth insist upon its eleventh amendment to the said Bill, for the following reasons:—

1. Because the said amendment is desirable in the true interests of temperance

2. Because the reasons adduced in the Message from the House of Commons for disagreeing to the said amendment, ignore the constitutional and sovereign authority and privileges of Parliament in the making, amending and repealing of laws.

3. Because there is nothing in "The Canada Temperance Act, 1878," to warrant the Electors of those Cities and Counties in which the second part of the said Act has already been adopted, in believing that it would continue in force unimpaired for three years, the said Act providing only to the effect that no Order in Council bringing the second part thereof into force shall be revoked for three years; and the true intent of such provision being, not that the said Act should continue for that period unaltered by Parliament, but that the effect of the second part when once adopted should not be impaired by the Executive without the consent of Parliament.

And because, even if the said Act had enacted expressly that the second part thereof when once adopted, should continue in force unaltered for three years, such an enactment would have been subject always to amendment and repeal, inasmuch as no Parliament can bind subsequent Parliaments; and because, according to the constitution of the British Empire, and to the law and privileges of Parliament, there is no compact between Parliament and the said electors, nor can there be any breach of faith in the passing of the said amendment.

4. Because the said amendment is in compliance with the wishes of a large number of the Electors of the Dominion as manifested by their petitions presented to Parliament.

The question of concurrence being put thereon, and the names being called for, they were taken down as follow :—

Resolved, That as the several contracts for the Printing, Binding and Printing Paper expire on the 31st day of December next, it is recommended that they be extended for one year from that date; and that during the recess tenders should be called for, by advertising, for the performance of the *Printing* and *Binding* required for the Parliament of the Dominion of Canada, for the periods of five and ten years, to be computed from the 1st day of January, 1887, and to be completed on the 31st day of August, in the fifth or tenth year, as the case may be, instead of the 31st day of December; such tenders to be sent in, in a sealed envelope, addressed to the Clerk of the Joint Committee of both Houses on the *Printing* of Parliament, not later than 12 o'clock noon of the first day of the next Session of the Parliament of the Dominion, after which time no tender will be received. Such tenders to be made on blank forms which can be had, on application, from the Clerk of the Committee. The calculations testing the value of each tender shall be made upon the amount of work performed in the fiscal year 1883-84, as shown in the detailed accounts; and that the several terms, conditions, and provisions, as contained in the said blank form of Tender, shall

be binding on the several Tenderers, and shall form the basis on which the several contracts shall be drawn up. It is also further recommended: That the supply of *Printing* paper required for each year be purchased by tender, during the Session, and stored for use as required, thus, it is hoped, ensuring uniformity of make and colour.

The Committee would also respectfully recommend the following alterations in the making and printing the Alphabetical Index, and the list of Sessional Papers :—

1st. By inserting in the Alphabetical Index as many references and cross references as will fully convey the whole subject matter contained in such Sessional Paper as presented to both Houses of Parliament.

2nd. By inserting in the numerical list of Sessional Papers, the titles at full length; with dates when ordered, when presented to both Houses of Parliament; the name of the member who moved for each Sessional Paper, and whether it is ordered to be printed or not printed—thereby saving the expense of republishing the full titles in the bound Volumes, of those that are ordered by the Committee not to be printed for the Sessional Papers, which this Session will amount to about 200 pages.

3rd. By abolishing the present large indentation and column rule in the numerical list, and substituting the typographical style, a more complete and direct reference could easily be had from the full alphabetical list first, and then to the full numerical list, in about eight or ten days after the close of the Session.

All which is respectfully submitted.

MAY IT PLEASE YOUR EXCELLENCY,

The Commons of Canada have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

In the name of the Commons, I present to Your Excellency the following Bills:—

"An Act for granting to Her Majesty the sum of \$1,700,000, required for defraying certain expenses now being incurred in connection with the troubles in the North-West Territories;—and

"An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1885, and the 30th June, 1886, and for other purposes relating to the Public Service;" to which Bills I humbly request Your Excellency's Assent.

To these Bills the Clerk of this House by His Excellency's command did thereupon say:—

"In Her Majesty's name, His Excellency the Governor General thanks Her loyal subjects, accepts their benevolence, and assents to these Bills."

His Excellency the Governor General was then pleased to deliver the following Speech:—

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I desire to convey to you my best thanks for the diligence with which you have performed your duties during this long protracted Session.

It has been in many respects an eventful Session—in none more so than because since its commencement the peaceful progress of the Dominion, unbroken for so many years, has been interrupted by a serious insurrectionary outbreak in the North-West Territories.

I congratulate you upon the prompt and complete suppression of these disorders and on the restoration of public confidence throughout the regions in which they occurred.

The insurrection has been encountered by the Military Force of the Dominion under Major General Middleton in a manner deserving of the highest commendation.

The courage which our citizen soldiers have shown in the face of a formidable and determined enemy, their cheerful endurance of privation and fatigue, and the readiness with which they have submitted to sacrifices, inevitable whenever a force composed of citizens of all classes is called upon to relinquish the enjoyments of civil life, reflects the highest credit upon them.

I am gratified to find that both Houses of Parliament have considered the conduct of Major General Middleton and the officers and men under his command deserving of their formal thanks. It has been my agreeable duty to bring under the notice of Her Majesty's Government the value of the services which have been thus rendered to the Empire.

I cannot leave this subject without expressing my sorrow that the success of our arms should have been purchased at the cost of many lives which Canada could ill afford to spare. The memory of these who have fallen either on the field or from sickness contracted during their service will be gratefully cherished throughout the Dominion.

It affords me much pleasure to acknowledge the prompt action of the Government of the United States in taking the precautions necessary in order to prevent any co-operation with the insurgents from their frontiers.

The measure for the adjustment of the representation of the people in Parliament will extend the franchise to numbers who have not hitherto enjoyed the right of voting for the election of members of the House of Commons, and render such representation free from frequent changes by the unconcerted action of the Provincial Legislatures.

The settlement of all matters in discussion between the Federal Government and that of Manitoba will, I trust, satisfy the expectations of the people of that Province.

The Bill regulating the influx of the Chinese people into Canada will, I doubt not, allay the feeling of discontent in relation to that subject which has for some time prevailed in British Columbia.

The aid to the Canadian Pacific Railway Company will secure the advantages which are justly expected from the completion of that great enterprise, whilst the grants in land and money to other railways in various portions of Canada may be expected to accelerate the progress of settlement and augment the commerce of the Dominion.

The ready conversion of our five per cent. bonds, which have recently matured, into four per cent. securities, and the success of the loan for four millions of pounds sterling, lately offered in the London market, show the satisfactory state of the credit of Canada.

I congratulate you on the other useful measures, both of a public and private nature, which you have passed.

Gentlemen of the House of Commons :

In Her Majesty's name I thank you for the Supplies you have granted for the Public Service,

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

The readjustment of the tariff will tend to increase the revenue and enable the Government to meet the various engagements of the country.

I now with reiterated thanks relieve you for the present from your important duties.

The Speaker of the Senate then said :—

Honorable Gentlemen of the Senate and Gentlemen of the House of Commons :

It is His Excellency the Governor General's will and pleasure, that this Parliament be prorogued until Saturday, the twenty-ninth day of August next, to be here held, and this Parliament is accordingly prorogued until Saturday, the twenty-ninth day of August next.
