RICHARD GERRARD.

Moutreal, Oct. 26, 1849.

LIPE ARBURANCE COMPANY:
No. 1, PRINCESS-STEERY BANK,
LONDON.

THE Undersigned in giving notice of the RR-I MOVAL of his OFFICE, to No. 46. Great St. James Street, bega leave (whilst thankfully mentioning the great and decided success of the above institutions in this Province), to inform the public (as some minunderstanding and misrepresentations have taken place on the subject), that the Rates of the Britannia are lower than those of any European, or well Established Life Office, doing business in this country, and subjoins below a statement of rates at the age of 30—of several other offices. He would also beg leave here to monition, that the BRITANNIA OF FILE was established for the pulpose of granting an inseediate bones to parties desirous of assuring their lives, by not charging higher rates than absolutely required to render the business safe.

For those who wish to participate in profits, there are Tables combining both the Mutual and Proprietary, principles, which are well deserving of the attention of the public.

The undersigned would, however, remark, that the opinion of many well versed in the subject of Life Assurance, is, that the choice of a Table which requires the smallest possible payment, compatible with safety, is the most advantageous.

J. H. MAITLAND,

Agent for Canada.

Prospectuses and Tables of Rates can be obtained at No. 46, Great St. James Street, or from any of the Agents, or Medical Referees throughout the Province. Capital—£1,000,000 Sterling.

EAMILTON, DUNDAS, EINGSTON, PRESCOTT, AND BYTOWN;
MACPHERSON, CRANE & Co.,

THE great and decided success which has attended this facilitation has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance of much lower Rates of Premium than those of any other Assurance Company transacting besiness in Canada.

The Directors have also resolved to extend to Beitish North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been as highly approved, and are re-MONTREAL:

DEG leave to inform the Morchants of HAMthe surrounding Country, that they have commenced the WAREHOUSING and FORWARDING BUSINESS in HAMILTON and DUNDAS,
and are now prepared to receive Property in the and are now prepared to receive Property in the commodious. Premises lately in the eccupation of Messas. M. W. & E. Bacwan, and trust that their long experience in the Business, and the strictest attention thereto, together with moderate charges, warrant them in expecting liberal support. Being owners of the first-class Lake and River Steamers. the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America, without affecting their Interest in heir respective Policies.

PETER MORRISON, COMMERCE AND COMET.

and a large Fleet of first-class SAILING VES-SELS suitable for the Lake and River Navigation, with six St. Lawrence Freight Steamers, and the largest stock of Barges in the Trude.

They offer such facilities for the transportation (without transhipment) of Produce to Oswego, Montreal or Quebec, and of Merchandise upwards, as are not equalled by any other House, and can at all times give the greatest dispatch to Property entrusted to their care.

Liberal advances will be made on Produce when placed in Store and consigned to them for Sale.

Hume, in his Political Economy, says, that "Interest (on money) is the barometer of the state, and its lowness is a sign almost mallible of thing but a prosperous state, for the rate of interest is invariably as high as it can be legally, while in fifty ways the stupis old usury laws are evad-ed, in order that men may borrow money at a higher rate. But this axiom of Hume seems to be adjeted by the fact, that in the United States. certainly one of the most prosperous countries in the world, the rate of interest is high. This seems to be explained if we think that the in-crease of the demand for capital is more rapid than the increase of capital itself; and thus it is possible, that a country may be rich and prosperous, like England, where interest is low from the shundance of capital, or like the Halland arthe abundance of capital, or like the United States where interest is high from want of capital,

We believe that Dr. Nelson, M. P. P., did not

cated in any particular system The Government have at length been driven propose a reduction of their own salaries—those the Attornies General to £300, and the salaries the other Members to £300 a-year. There have been several caucuses of Ministeri

Members since Saturday.

The Assessment Bill has been under con tion by them; and the Government has been doing all it could to whip in its supporters.

On Saturday Mr. Merritt proposed a scheme of Retrenchment to the Retrenchment Committee but yesterday the Inspector General had given u

BOUQUETS FROM EUROPE. - Ere long, partie about to attend any fashionable soirce, will be enabled to telegraph to Europe for a supply of rare flowers for the occasion! A gentleman who made the passage from Liverpool in the last mail steamer, had in his possession, on his arrival in New York, a curiosity and a striking illustration go to Torouto on a sudden summons from Mr.

Lafontaine, as a contemporary has surmised, but that he started for the Seat of Government at some inconvenience to himself in order to oppose a measure brought forward by Dr. Laterciere, which would have the effect of rendering null the degrees given by the Medical Faculty of McGill College.

The Greek Slave.

We are gird to see that the indica of Montrest are beginning to visit and admire this beautiful work of art. Those who have not yet resided it, tree not aware what a treat they are losing.

Of the Greek Slave, Mrs. Rirkland says:—

The passionate admiration which it excites is so

A Model Mother-in-Law.

new among us, that we wait for the better informed to assount to us for our own feelings, and to sanction our amotions by the assurance that what we admire in our newness is no less approved by those who have, at great cost of time and study, learned to judge. But perhaps no work of art ever less required vouchers. All the treatises in the world small never wipe away, or even heighten, the impression made upon the heholder by one hour's contemplation of the statue."

It should be remembered that the Statue is an pacted to remain but one week.

The Sosion Traveller, of the 11th instant, contains the following letter from William C. Bond, of the Cambridge, Massachusetts, observatory, relative to the lately discovered comet:—The comet is now plainly ynible to the naked eye, near the bright star Arcturus, in the constellation.

A Medel Mother-in-Law.

One T. Bigslow Lawrence (son of Abbot Lawrences, of Boston) not long ago advertised his wife, announcing "that he would pay no debts of her contracting." Upon this provocation she procured a divorce in Kentucky. Mr. Lawrence now comes out to defend himself.

Mr. Lawrence is in the calico business. He get a wife (wh) was known as the Great Western Bells), on calico principles—"colors warranted not to run." On taking her home, after a family imspection it was found that, in technical phrase, the color was not "last." She got her complexion at the Chemist. Hereupon all the Lawrences were wroth; and a great family quarrel ensued, which has ended in a divorce, upon the most approved mercantile principles. Some of the private correspondence between the "two houses" is made public—and such a tissue of mean and sulgar stuff has seldom been seen by the public. There is one letter, however, which we cannot forbear republishing. It is from Mrs. Ward, of Ky., to her daughter, the wife aloresaid of T. Bigslow.

relative to the lately discovered comet:—The comet is now plainly yighle to the naked eye, near the bright star Arcturus, in the constellation Bootse. It is better seen with a small telescope, or with an opera glass. A pail of five degrees long, too faint to be discovered with the naked eye, is visible in large telescopes. Its length is four millions of miles, and duily increasing. The nucleus of a few hundred miles in diameter, is very dense, apparently a solid body. About the 20th of this month, the comet will pass very near to the place occapied by the earth on the 25th of June. It velocity at that point will be one hundred miles as hour, its distance from the earth is now feity millions of miles, and from the earth is now feity millions of miles, and from the sun one hundred millions. It passes its perihelion on the 22nd of July.

Monglards Hoyra.—Mr. Compain has made an alteration in the time of the Omnibus marting to and from, to suit the convenience of his friends and visiters, as follows:—From Blonklands, half-past, a. a. a.; 3, 5 and 5, 7, m. From Place d'Armes, 1, 4, 6 and 9, 7, m. Which will give an opportunity of spending two or three hours in the afternoon, or evening, going and returning by the Omnibus at a trifling exponse.

The New Cabinet and Bandel Walness.

None of the rumors coming from Washington, purporting to give a list of the new cabinet to be selected by Mr. Fillmore, present any unpile features, except the one in alliance to the Suns.

Department. It seems there is a general opinion in Washington and clear sheet, and Daniel Waters will be called to the cabinet and be invested with the power of Secretary of State. The only other will be called to the cabinet and be invested with the power of Secretary of State. The only other will be called to the cabinet and be invested with the power of Secretary of State. The only other will be called to the cabinet and be invested with the power of Secretary of State. The only other will be called to the cabinet and be invested with the power of Secretary of State. The only other will be called to the cabinet and the invested with the power of Secretary of State. The only other will be called to the cabinet and the state of t

Temportant from Havana.

We are in receipt of private advices from Havana of considerable interest. Our informant may be relied upon.

The Governor General has requested Commodore McKeever to delay his departure for a day or two. The impression upon our informant's mind was that arrangements would speedily be completed with respect to the persons held prisoners by the Spanish tuthorities.

ed with respect to the personnel.

It is not improbable that Count de Alcoy would much prefer to settle the matter through the Commodore of an Angerican squadron, specially despatched for that purpose, than through any less diplomatic agent. We expect that the prisoners and the prisoners of the

patched for that purpose, than through any residiplomatic agent. We expect that the prisoners will be promptly given up on the arrival of Commodore Morris.

We also infers from the tenor of the communication made to us, that the official despatches reserved, or yet to be received, by our Government, will, when published, throw considerable light upon the rumour respecting the threatened stack upon the American Consul at Havana. We do not feel at liberty at present to communicate all we knew of this matter. Suffice it to say that the relations between the Consul and the Spenish authorities are such that, although by virtue of his office he presented Commodore McKeeyer to the Captain-General, he was not invited to the complimentary banquet subsequently given to the American officers.

We knew also that an American, understanding

the American officers.

We knew also that an American, understanding the position of affairs, took occasion to inform the Governor General of the fears of Mr. Campbell, and the apprehended attack of the people upon his person and residence. Count de Alcoy, smiling with incredulity, at once summoned the chief of police, and demanded of him whether he had known or heard of any threats or design of the kind. He promptly replied, "No." "Then," said the Count, "do you believe it probable that any such design could have been in agitation and you not have known it," to which the reply was as promptly, and no doubt with perfect truth, "No. sir." "Well," said the Count to him, "see, sir, to it, that no such attempt be made and no such threats be heard." And then turning to the gentleman, he said, "Sir, not only is the person and residence of the American Cousul in sure keeping under my authority, but the person and residence of the American Government, and appreciate them too; and that they no less understand them selves. The whole matter, we have no doubt, will be amicably settled, on terms entirely satisfactory to the United States.—N. Y. Commercial Advertiser. We knew also that an American, understanding

THUNDER STORE.—This part of the country was visited on Friday afternoon, with by far the heaviest storm of thunder and lightning we have experienced this season. During the early part of it, the rain "came down in buckets on the hay," and it blew a perfect hurricane. We are not aware that in St. Catherines any serious damage coccurred—the sign-board over the entrance to this office and others were blown down—shingle, and even tin roofs were injured—several Acacias received damage, by having their large limbs broken off by the wind, an accident which seems to have been accelerated by the industry of the small larva of a coleptoros insect, which has this year attacked this species of tree, perforating the branches nearly to the centre, and weakening them too much to enable them to bow before the storm. nearly to the centre, and weakening them too much to enable them to bow before the storm. In other parts of the country, serious accidents ogcurred during the tempest, and more than one life was lost. At Stamford, the house of Mrs. Benjamin Sutton was struck by the electric fluid, and she was instantly deprived of life. During the continuance of the storm, which lasted for several hours, the whole heavens seemed charged with electric fluid: the bright copper color of the sheet lightning, and the beautiful brilliancy of the forked lightning, we have seldom seen surpassed at such an early hour of the evening. The storm, which cleared off at about ten o'clock, was succeeded by a suitry, but bright star-light night. It seems to have swept over a vast extent of country, for we find that at Point Levi in Quebec, the sudden squall of wind overturned between fifteen and twenty wooden houses, but happily no lives were lost.—St. Catherines Constitutional.

Tealism Opera.

There was an immense audience last night the lourth representation of Mayarbeer's Proph The first act was over, and the shating discrit the lourth representation of Meyerbeer's Proposition. The first act was over, and the stating discritisations, which occupies a considerable position of the second, was proceeding, when the performance was suddenly interrupted by a loud cry from two or three roises in the pit, of "The Queen, the Queen—God save the Queen!" All eyes were instantaneously turned to the Queen's box, at the front of which her Majesty appeared, slone, standing. An impulse that was auanimous exemed at once to influence every person in the theatre. The whole audience, Mr. Costa, and all the members rose simultaneously, as though in obtained for millitary rule, and one universal shant demanded the national anthem. The performance of the opers was stopped, and in the space of two of three seconds the entire company of the establishment appeared, as if by sugie, on the stage. The band struck up the welcome strain; the size and second verses were sung by Medame Castalian and Madame Viardot (who were both engaged in the opers) with tremendous appleaue, during which Grisi, who happened to be in the bouse, made her appearance, just in time to sing the thirst, amult, retierated cheering. We have witnessed many estibilitions of loyalty, but never were present at one more apparanceous and genume than table. At Jins'

A SECOND DANIEL LAMBERT.—There is now residing at Wellington a man named William Ball, a native of Horsebay, who is supposed to be the heaviest man in the world. His weight is supposed to be about 35 stone; he measures 6 feet 5 inches round the body, 3 feet round the thigh, and 32 inches found the arm. He has been a hard working man and is very active, notwithstanding his immense size and weight.—Wolverhampton Chronicle.

July 18, 1850. TURKISH BLACK SALVE.

UNDER THE PATRONAGE OF THE HONORABLE

THIS SALVE, prepared from the original Re-ceipt procured from a celebrated Turkial Hakim, (physician) of Smyrna, in Asia Minor and which has obtained an unprecedented celebrit in Great Britain and the East Indies, from the se tonishing Cures performed by it in both these countaies, has lately been introduced into Mont countaies, has lately been introduced into Montreal. As unight be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them.—The contracted limits of an advertigement, necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or may occur, and for the present will content themselves with such statements of cures as have or may occur, and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success—Such as Swollen Glands, Broken Bressta, success—Such as Swollen Glands, Broken Brow White Swellings, Whitlows, Scalds from Steboat explosions, or other causes, Burns, Fo Sores, Scrofulous Sores, Sore Nipples, Carbund Scald Head, Gun-shot Wounds, Bruisses, Re Prosthites, Wens, Chilbinins, Ulcerated and Comon Sore, Throats, and Bonions. If used in this will prevent or cure Cancers, also, Swelling from a blow on the Breust, Ring We Pains in the Buck, Rheumatism, Gout, Pains the Chest, Palpitation of the Heart, Complaint the Liver, Spine, Heart and Hip, Rushing of Bit to the Head, Swelled Face and Toothache.

ng Department.
Montreal, June 12, 1850. 128-6m

W. & H. F. ADAMS, T. SILORS, Notre Dame
Street, beg to inform their friends and the public that they have received, per Great Britain, a Superior Stock of SPRING and SUMMER GOODS, selected for them by Mr. W. Adams, Sr., May 8, 1850.

May 8, 1850.

NALYSIS OF MINERAL WATER OF A POINT DU JOUR.—From Mr. Hunt's Analysis of the Water of the Mineral Spring at Point du Jour, near L'Assomption, i infer that it will prove a valuable addition to those already discovered in Canada.

It appears to be well adapted to cases of scrofula, diseases of the akin-gout, rheumatiam, and dyspeptic complaints generally.

Mineral Water to be useful should be taken for some time, and when it seems to lose its effect, that from another apring should be substituted; and one not agreeing with an individual, another may act kindly and effectually. Weak and delicate persons should seek the advice of a physician with regard to the employment of these waters.—It would be a great blessing to society if these productions from the laboratory of nature were to supersede the vile and heterogenous compounds, with which the world is cursed, under the name of "Patent Medicines."

We. Nalson, M. D.

Prints, White Cambries and Checks, Book as Mull Muslins, Silk and Cotton Shawis and Hank kerchiefs, Gros de Naples, Silk and Cotton Ved Vots, Lawnings, Silke, Petent Threads, Hats, Fin Caps, Carpet Bags, best in town, all well selected; Stock of every Article in the Dry Coods Line, which he will Sell at a low advance, which shall insure astafaction to those who may favour him with their custom, as the Goods have been bought low; together with a Stock which he has purchased at a Bankrupt Sale at 2—; with a great variety of other Articles.

Parties would do wall to give a call before purchasing elsewhere.

No. 35, McGira S.

READY MONEY!!!

LAVENDER, MERCHANT AND MILITARY TAILOR,

MERCHANT AND MILITARY TAILOR,
100, NOTRE DAME STREET,
DESPRETFULLY informs his Friends and the
R Public generally, that his Stock of SPRING
and SUMMER GOUDS is now complete, compraing Superfine West of England and French
Cloths, Doeskins and Cassimeres, Summer Vestings and Trowser Stuffs in great variety, which
he will make up in the best and most flathounable
style, at the lowest prices, for Cash.
In continuing the system of doing business for
Ready Money only, which he adopted in the early
part of this Spring, he is convinced that it is
equally for the advantage of the Buyer and the
Seller, and respectfully invites those who have
been in the practice of paying high prices on
Credit, to try how much cheaper they can have
Clothes for Ready Money.
Still on hand some excellent FROCK and
DRESS COATS, part of his Stock, which will be
Sold at Coat Frice.

Montreal. 1st June, 1850. Sold at Cost Price. Montreul, 1st June, 1850.

CHEAPEST SPOT IN MONTREAL No. 28, McGILL STREET, MERCHANT TAILOR AND GENTLEMEN'S

with which the world is cursed, under the name of "Patent Medicines."

WD. Nelson, M.D.

Montreal, 11th March, 1850.

I certify that I have used the Point du Jour Spring Water in my practice, and have found it to act as a mild surgative and ulterative. From the quantity of Iodine it contains, it will, I doubt not, be found useful in acrofulous diseases and in some form of syphilis, in addition to other remedies.

SAVED FROM DEATH!!!
Testimony of Mr. NATHAM MATHEWA. a highly respectable and realthy chisen of Newark, N. J. Dn. G. W. HALAY:—I believe your Forest Wine and Fills have been the means of saving my life. When I commenced taking them, I land at the point of death, with Propey, Piles, and Asthma. My Physicians had given me over as past cure, and my family had lust all hope of my recovery. While in this dreadual saustion, your Forest Wine and Fills were procured for use, and bot of Fills, I experienced great relief; my body and limbs, which were greatly sendlen, became sensibly reduced. Hopes of my recovery began now to review, and after continuing the use of your reclaims for about a month, the Friesend Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also meanly gone. I have continued the use of your hedicines and the posene time, and I some enjoy as perfect health as ever I did in my life, although I am more than sixty years of age. I ascribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also need them with similar success in dustinant complaints, and I can cheefully recommend them to the millie. SAVED FROM DEATH!

tectinate complaints, and I can cheerfully recom-tend them to the public.

Tours, respectfully, N. MATHEWS.

THE QUICKEST TIME ON RECORD. WONDERFUL EFFECTS OF ADWAY'S READY BELIEF FOR CURING DIARRHEA

JAS STEWART, at Head Quarters, Bonsecours
Street, has been complaining of Diarrhota
ton several days. On Thursday, the 13th instant,
he was quite sawell; had constant Diarrhota apon
hims; fest pain in the region of the Stomach;
Heaviness, Cold Chills, Sick, Drowsy, Mopish,
Low Spirits, and Sleepy. He was recommended
to take a few drops of RADWAY'S RSADY
RELIEF—he took 27 drops—it instantly operated.
like a charm. In an instant the pain was gone—
Cold Chills and Heaviness, Drowsiness and Torpor, gave place to a genial warmth of the system,
and a happy flow of spirits.

IN FIVE MINUTES

HE DANUED A JIG.

For he was completely careas.

HE DANCED A JIG.

For he was completely cured:
Let all who suffer pain in any form, whether it be Reservaries or Diamenoca, Pains in the Borks or the Bowels, Campe, Spasses, Spanins of Sprains, Weakness, Sova Stomack, Heard Reservary, Tooth Aches, Sait Rheum, Ring Worm, Rash or Tetter, use Radwey's Ready Reflect externally or internally, and we will wastrant them a saie, speedy and effectual care. I certify that the above statement is correct.

W. I. STEWART

I naw the said James Stowart take Radwey's Rendy Relief, and witnessed the remarkable effects it had upon him.
