### Orangemen Attend Divine Service

And Listen to Eloquent Address by Rev. S. J. Macarthur

A large number of the Orangemen of Loggsville, Chatham, Douglastown and Newcastle, attended divine service in St James' Church, Newcastle, Sunday afternoon, and were addressed by the pastor, Rev. S. J. Macarthur.

After the opening devotional exercises, in which Rev. Dr. C. W. Squires assisted, Rev. Mr. Macarthur, taking his text from the story of Rahab and the Israelites spies, as told in the second chapter of Joshua, spoke in part as follows:

At first glance Rahab appears to have acted a contemptible part, in betraying her king and country to the invader. But due allowance must be made for the times in which she lived. Things were then done in the name of religion that, in our greater light, would not now be tolerated. And as we read the narrative more carefully, we see meanings that are not noticed at first. Rahab, although of immoral character, was a public woman, and, meeting many men, studied the changing conditions and made up her mind that the religion manners and customs of the Canaanites were inferior to and must therefore go down before the purer and stronger ideals of the Israelites. Making up her mind to this, she determined to save herself and relatives from the inevitable wreck and perpetuate her family by amalgamation with the conquerors. It required wisdom, foresight and great courage to do this, but having decided it was right, she risked her life to carry out her decision. She lived up to the light she had, and when her word had been pledged she kept it at all risks. And the spies kept their word.

The lesson is obvious. As those ancient people lived up to their word and kept their vows, so should we. We ought to live up to the light that we have, but we are not doing so. We live on a lower plane than we ought--are less patriotic, less truly religious than we could and should be. We have sinned against God and against the light we have.

We ought to be true to our pledged word. There are things told in the Bible well calculated to put us to shame. It would be better for us in both church and State if we remembered our covenants and kept them.

These are great problems for us to solve. We are living in a serious time--a time over which many are thinking long and deeply. We are not out of the woods yet. Our ship of state is not yet beyond the breakers. An increasing degree of sacrifice will be called for--the testing of the nation has not yet reached the height of its trial.

The response, so far, has been good. Not only have the men of Britain answered, the call of their country, not only have the women taken their places as clerks, etc., but 500,000 women are working in munition plants. And we must be prepared to make a great and mighty effort yet before victory comes.

The first great problem Canada will have, because of the war, is that of population. The vicar of Wakefield truly says, that the man who marries and raises a family is better than the most patriotic talking bachelor. This problem of population is greatly aggravated because of the waste of men in the war. We confront a serious danger. Today, as never before, we need prayer, study of the word of God, and study of the problems that confront our nation.

Rahab studied the situation in her day, because she felt that ultimate and eternal issues devolved upon her conclusions. Thus the power of sin was burned out of her soul, and she rose to a brighter plane.

Every man owes a duty to posterity, to his country, to his God, to set up an altar in a home of his own. Many of Canada's young men will never return. The young wife will see them no more and die a widow, the sweetheart, a

### Earnest Workers Will Reap Rich Rewards

Any Lady in Circulation Zone Eligible to Compete for \$400 Piano and \$300 Worth of Other Splendid Prizes

While but three days under way, The Advocate's second big voting campaign, which formally opened on Monday last, is making highly satisfactory progress, and present indications are that this year's great prize distribution affair will be altogether as successful and satisfactory as the one conducted by The Union Advocate last year. One big factor in the favorable reception which The Advocate's second competition has already been received, is undoubtedly to be found in the thoroughly satisfactory manner in which the 1915 campaign was run, and in the exceptionally high-class articles awarded as prizes last year. Everybody remembers the magnificent \$400.00 Lonsdale Cabinet grand piano, which was won by Miss Margaret Appleby; the \$150 cabinet of highest grade silver plated table-ware, won by Miss Nan Benn, of Nordin; the \$100 silver plated tea service, which Miss Zaida Hinton, of Doaktown, captured; and the beautiful \$50 set of genuine cut glass, won by Miss Florence Parker, of Millerton. Since last year's competition, each and all of these ladies have been proud to work, and those who do the most possessors of these various articles, and on many occasions have taken a great deal of pleasure in showing their prizes and praising their merits and value. From this circumstance the knowledge has spread abroad throughout the Advocate's circulation zone, that the prizes were in every respect all that was claimed for them, and were worth all the effort put forth by their winners in capturing them.

This year exactly the same prizes as were offered for competition last year, are offered again. The simple reason for this selection is that nothing more satisfactory in every respect could be found to take their place. The \$400 Lonsdale piano is manufactured and guaranteed by The Lonsdale Piano Co., of Toronto. The \$150 cabinet of silverware is manufactured and guaranteed by Canadian Wm. A. Rogers, of Toronto, as is also the third prize, consisting of a six piece silver plated tea service. The Wallaceburg Cut Glass Works, of Wallaceburg, Ont., manufacture the \$50 set of genuine cut glass which will be awarded as fourth prize. The Advocate voting campaign, as most people understand is a simple, straightforward, business proposition, in which the only factor that will enable any contestant to win one of these beautiful and valuable prizes, is plain everyday, earnest, work. Any lady living within the Advocate circulation zone is eligible to enter the campaign, and share in the distribution of the rewards. It costs nothing to enter the campaign. There are no receipt books or supplies or any sort to buy, no subscriptions to pay for, and no expenditure of any kind required from any prospective, or actual contestant. All that is required is work, and those who do the most effective work will be the prize winners. The campaign lasts only six weeks, and anyone who contemplates entering the campaign, should do so at once and get started, collecting subscriptions and securing votes before some other enterprising contestant or contestants gain a big lead. Now conditions render the chances of all contestants fairly equal. Another few days may change conditions a great deal. Any lady who desires to win any of the Advocate prizes this year, should lose no time in sending in her name, and getting receipt books and instructions as how to proceed.

### COMPLIMENTARY BALLOT

This ballot if returned into the Advocate Campaign Department, in accordance with the rules of the Campaign, on or before September 28, 1916, will be good for

NOTE—These ballots will be received and credited in groups of ten only. By fastening the ballots together in groups of ten it will be necessary to have the contestant's name and address written on the first ballot of each group.

maiden. It means fewer homes in this land.

We must teach our young people their duty to the future. Every man should make a home. But, to enable him to do so, there must be, first, provision made for a much better distribution of wealth; and, second, there must be less extravagance. The average man now does not expect his daughter to begin life as her mother began it. The tendency now for young couples is to begin where their parents left off. At this very hour, young men are making in munition works, etc., more money than ever before, but are spending it recklessly, and not one cent better off than ever before. What a menace to the nation is this spirit of extravagance that has taken possession of us?

We need a large spirit of helpfulness--a greater amount of the spirit of standing by and helping one another. This calls for greater conservatism. We need more faithfulness.

We need a greater reverence of God. From the minister's point of view, it is sad to note how many lightly break their vows. Let us think of our vows of Baptism, our obligations as members of the church and the community,

and consider how we have kept them. Would to God that all in Church and state and societies had the spirit that keeps all vows. Are we going to always and everywhere stand for what is true or are we not? If the churches and societies would only pull themselves together and look themselves in the face there would be new churches and new societies. Have I been true to my church? Have I been doing all I can to help? Am I reading and studying to understand the great political questions of the day? That must be voted upon, so that my influence shall be thrown on to the side of Right, Justice and Freedom? If in your heart of hearts you determine to keep your word and vows, you will serve your order, your church and your country in a day that may be much nearer than most people think, when the manhood of our land will be tried as never before.

# Economic and Development Committee

## Now Investigating Conditions—All Classes of Citizens Asked to Send Suggestions on any Topic of Business Interest

Hon. F. L. Beique, K. C., chairman of the committee on the Senate of Canada "to inquire into what is being done and what could be done to best promote the agricultural, industrial and trade interests of the country, both during and after the war," with a view to aiding the Economic and Development Commission appointed by the Government in October, 1915. Hon. Mr. Beique writes us that the object of the committee in appointing the Special Committee, is mainly to help the Commission in the discharge of the heavy task imposed upon it, to also inquire as to the development and utilization of our natural resources generally, and to make an appeal to all organized bodies for their best co-operation in the matter; that the Special Committee most earnestly request everybody's prompt cooperation in seriously studying these and all other questions affecting the country's future. The appeal is being made to all municipal bodies, Boards of Trade and Chambers of Commerce, Schools, Colleges and Universities, School Commissions, Farmers' Associations, Manufacturers' Association, Transportation Companies, Church Dignitaries, heads of the various Federal and Provincial Government Departments, Bar, Medical, Notarial and Trade Associations, all Newspapers and Press Associations, Labour Associations, in fact to all organized bodies in the country, and the committee hopes that it will receive from every one of them, at as early a date as possible, the result of their best thoughts and suggestions in concrete form, in the event of such information being already of record, a reference to the publication where it can be found will be sufficient.

In recommending the appointment of the Commissions, St. Robert L. Borden on June 26th, 1915, observed that the need is everywhere recognized of stimulating greater production in Canada, and especially agricultural

at production, the immense importance of which has been emphasized by reasons of conditions arising out of the war.

That in connection with opportunities for increased agricultural production it is necessary to bear in mind the importance of:

(a) Improved methods of production with a view to a better return to the producer;

(b) Assisting this purpose with proper instruction and demonstration;

(c) Increasing the acreage under production;

(d) Attracting immigration of a type which would aid in ensuring a large and permanent agricultural population;

(e) Stimulating and encouraging co-operation among the producers; and

(f) Providing cold storage and abattoir facilities.

The Prime Minister further observes that the agricultural production of Canada is of a highly diversified character and is spread over a great territory comprising an enormous area of fertile land of which only a small percentage is at present cultivated.

The conditions of soil, climate and situation are so varied as to emphasize the necessity of pursuing methods of cultivation and purposes of production which are especially suited to any particular locality under consideration.

The great area of territory embraced within the Dominion creates unusual problems which affect:

(a) Distribution of products in our home markets and the trade thus created between the several provinces and their various communities;

(b) The transport of products to our national ports from which they shall eventually reach their destination abroad; and

(c) Their transports to the market of destination abroad.

The Government by Order-in-Council has removed the name of Wesley Allison from the list of honorary colonels. Mr. Allison was appointed an honorary colonel shortly after the outbreak of the war. His connection with the fute contracts and American Ammunition Fuse contracts was strongly condemned by the Meredith-Duff commission, and this resulted in action being taken by the Government to deprive him of his honorary military title.

## THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT  
73 Lees Ave., Ottawa, Ont.

August 9th, 1915.  
"Fruit-a-tives" has done for me, Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of "Fruit-a-tives", I thought I would try them. The result was surprising. During the 2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using "Fruit-a-tives", and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

WALTER J. MARRIOTT.

Box, a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

The Prime Minister states that so far as is compatible with conditions here-in mentioned it is manifestly in the public interest that before export of subscribers there is only a small proportion who are in arrears over one year. Even though this small proportion should pay up to the present, and if possible, in advance it would make it much easier for us to continue publishing our paper.

## A Friendly Chat With Our Subscribers

### And a Request that Notice be Taken of the Little Pink Label on Paper

Just along about now the subscriptions of the large number of subscribers who were placed on our lists during the voting campaign last summer are expiring, and while we look to a percentage of them coming off, still we believe the very large majority will continue on by having this notice brought to their attention. We trust this will be the case at any rate.

We wish also to call the attention of all our subscribers to the announcement made last issue re our second big voting campaign just begun this week, and to another announcement made that after November 1st the subscription price of the Advocate would be \$1.50 per year strictly in advance. This latter announcement not taking effect until after the campaign is over, gives the opportunity of renewing or coming in as a new subscriber, at the old rate. As we announced last week subscribers who are already paid up beyond November 1st will not be obliged to pay the additional one cent per week until their present subscription expires.

If all subscribers who are in arrears, and those whose time is now expiring would kindly make remittance according to the time of their arrears. The Advocate would appreciate their thoughtfulness very much indeed. It is a gratifying fact to the management that out of the large list of subscribers there is only a small proportion who are in arrears over one year. Even though this small proportion should pay up to the present, and if possible, in advance it would make it much easier for us to continue publishing our paper.

If those who do not wish to continue would be kind enough to notify us to that effect, without letting their subscriptions run too far over the time, it would save considerable work and anxiety in our office, and we would then know all the better where we stand. We may be allowed to advise here that all subscriptions running over time, unless we receive notice to discontinue, can be collected for another year.

However we do not wish to place with our collectors the names of any of our subscribers, and we would ask them, that if they choose to renew through any one of the contestants who will be engaged in the present subscription Campaign, thereby realising votes for them, they are at liberty to do so. The main point is, we wish all diligent subscribers to pay up, all those who became subscribers through last year's campaign to continue with us, and for many new names to be added to our lists. Permit us, then, to rely upon your support.

## Letters From The Front

Some where in France, Aug. 5, 1915  
8th Field Ambulance C E F  
B Section, Horse Transport,  
Dear Mother,

Just a few lines in answer to your very welcome letter. I was glad to hear from you. Well, Mother it is lovely weather out here, how did you celebrate the 4th of August? Well Mother I think it is going to be another year before this murder is through with. I was talking to some of the old 55th Batt. boys. They said they had seen Gordon Leslie and Frank Tardy, Robt Tardy was killed in this last battle, he was not far from me when it happened. I got a terrible shock when he was hit only a few steps from me. The 26th Fighting Batt. is here right along side of us, that is what is left of them.

I don't know where George is, I have written him two or three letters but have got no answer. Well Mother Dear, I am proud to think that nobody can throw slurs at us, and say we had cold feet and if some of the people of the Allied homes would give one of their sons let alone four to do their bit instead of Mother saying I can't let my boy go away from home for it would break my heart, how would they feel if they were like some mothers giving four and sometimes nine out of 1 family? Well Mother the Lord will protect us on this French soil as well as if it was on our own Canadian soil Well

Mother Dear, James has only to do his duty and obey his officers. I am awfully sorry that they cannot get more out of our house. I suppose they would be going too, if they were of age. Well, Mother I got your box two weeks ago, and I thank you a thousand times over for it is a treat to get such things from home. You would think to see the boys all crowding around you that you had found a gold mine, you know that we share up with our comrades. We are out on rest pass and we are going to France on sports days. We are getting a great Club for Sports but they are not like the ones over home. I have no time to write to John, but I must write him soon, I hope John is in the T N F so that he can get a transfer into the C A L C when he reaches England, he can demand on a he is the oldest brother and can be put with me. We got paid yesterday but it was not much, only one franc, that is twenty cents in our own money. Paper money is no good to us boys out here, for it gets torn in our pockets I sent home some and a German button and a Fritz bullet, the first one I had come after me. Did you get the piece of shrapnel I sent you? you know one of my horses was killed. I had a narrow escape, all I could say when it happened, was Thank God, You see, Mother, the Lord protects us boys out in this far off country. How is everybody in Rose Bank? I hope some of the able bodied men are taking tumbles to themselves instead of letting them all come out of one family to save their necks. I am glad I signed on when I did. I wish I had come over sooner, but I am here now, thank God for his safe guidance.

Well Mother I will close with love from your Loving son,

William A Ryan

## When Pigs Were Cheap

IN your grandfather's time—ask him about it—you could buy a dressed hog for three dollars; a nice big pig; And a live pig would cost you no more.

Everything in those bygone days was cheap—that is, the things in common use.

Clothes, boots, milk, bread, beefsteak, eggs, butter, lumber, farm labor, domestic servants—they all cost a good deal less than they do today.

It cost less to live—and less to be born—and less to die fifty years ago than today.

And it cost much less to publish a country weekly fifty years ago than it does today—very much less.

Yet you paid—or your grandfather did—just a dollar a year—the same as you are paying today.

But the dollar rate must yield to the pressure of necessity. We must do now what we ought to have done years ago—raise the price of The Advocate to \$1.50. The tremendously increased costs of paper, ink, supplies, and the more-than-doubled cost of living have made us "furiiously to think." And so, on and after November 1st the price of The Advocate will be \$1.50 a year.

## Good Readers All

If you were in our place, and knew all we know about the higher costs of publishing, you would wonder how we didn't make the advance long ago. We trust you to meet the new rate with a smile. Not for 50 cents a year will you say "Stop my paper."

BUT IT'S OUR DUTY TO LET YOU KNOW NOW WHAT'S COMING

**Prospects for Good Game Season**  
With the opening of the big game season less than a month away, the prospects for a large influx of American sportsmen to the province this year is bright. Guides returning from the woods report big game, particularly moose, to be very plentiful. The animals have been frequently seen around lakes and ponds and the number of cows accompanied by calves is said to be much larger than in previous seasons. "Uncle Henry" Prathwaite is returning to the Miramichi Woods to put in supplies and get ready for the hunting season. He expects one of his old parties headed by Col. John Ungar, of the United States Steel Corporation, here early in September. The Colonel has hunted in Newfoundland for the past four seasons, but has decided to try his luck at Uncle Henry's "Old Home" Camp.

# OUR SECOND MONSTER VOTING CAMPAIGN

**MONDAY, AUGUST 28th**  
The Union Advocate formally instituted its Second Great Voting Campaign, in which \$700 worth or more of Beautiful and Highly Useful Prizes will be Given Away Absolutely Free to those Ladies who take part in it.

**1st PRIZE--\$400 LONSDALE PIANO**  
Three Other Prizes Totaling \$300 or More  
Every Lady in Newcastle and in the Circulation Zone of The Union Advocate is Eligible to Share in this Great Prize Distribution  
Costs Nothing to Enter!

The first prize will be a beautiful Lonsdale Piano, which sells regularly throughout Canada for \$400. This instrument will constitute a truly magnificent prize and the lady who wins it will have just cause to congratulate herself on her success. The Lonsdale Piano is one of the finest instruments manufactured in Canada; and it has achieved a most enviable reputation among people of cultured musical tastes who know piano values, on account of its thoroughly high class construction, and tonal qualities. The winner of the Advocate voting campaign will, therefore, have the satisfaction of becoming the owner of an absolutely dependable, high-grade piano which she will be proud to use and exhibit in her home. At least three other prizes will be awarded to ladies who take part in the contest. The value of these will be not less than \$200 and may exceed that sum.

**GUARANTEED REWARD FOR EVERY CONTESTANT**  
10 per cent. Cash  
Commission to Non Prize-winners  
Every worker in the Advocate Voting Campaign will be a sure winner. We do not want any contestant to work for nothing, and to make sure that every lady who takes an active part in the campaign will receive at least fair compensation for her efforts it has been decided to pay every contestant who continues actively in the campaign until the end, ten per cent. cash commission on all the money she collects during the campaign, in the event that she does not win a prize. Thus every element is removed from the campaign, and every contestant is absolutely assured of a suitable reward for her efforts. With the assurance of certain reward in any event, no lady who desires to share the prizes to be distributed by the Advocate should allow anything to prevent her from entering the campaign at once and starting to work without delay. No cash commissions will be paid to prize-winners.

**How the Prizes are to be Won**  
The Voting Campaign will be primarily a subscription campaign in the interests of the Advocate and MacLean's and Farmers' Magazines. Any lady living within the circulation zone of the Advocate may enter the campaign, whether she is or is not, a subscriber to either publication, and may secure subscriptions to either three publications from anyone, anywhere, for any length of time. For each and every subscription obtained by contestants, votes will be credited according to the advertised vote schedules, and the contestant securing the highest number of votes during the campaign, which will extend from August 28th to October 9th, 1916, will be awarded first prize, and the other prizes will be awarded in the order of standing, respectively, to those contestants who secure the next highest number of votes. Complimentary ballots will be issued during the campaign, and published in each issue of the Advocate, and these, too, will be added to the votes secured by each contestant on subscription business. At the close of the campaign three prominent citizens of unquestionable integrity will act as judges for the purpose of reviewing the conduct of the campaign, and deciding the winners. Neither the publishers of the Advocate nor MacLean's or Farmers' Magazines will have anything to do with deciding the winners of the campaign. The names of the judges will be announced in an early issue of the Advocate.

**Rules and Regulations of the Contest**  
The campaign will open on Monday August 28, and closes on Monday, October 9th. Any lady who is a resident in the circulation zone of the Advocate and who is not an employee of the Advocate may participate in the campaign. Contestants are not required to be subscribers to either of the above publications.  
No entrance fee, nor expenditure of any kind is required to enter the campaign.  
Before any lady may participate in the campaign, she must be nominated in writing, and must obtain receipt books, etc., for use in the campaign from the Advocate.  
Contestants may be nominated by themselves or by anyone else. Nominations may be made any time, before the date to be fixed for the close of nominations.  
Votes will be given contestants for subscriptions secured by or for them to the Advocate and MacLean's and Farmers' Magazines, according to vote schedule advertised from time to time and for complimentary ballots.  
Contestants may obtain subscriptions anywhere, either new or renewal and no distinction will be made between the vote values of old and new subscriptions in the regular vote schedules.  
Contestants must report and settle for all subscriptions secured by or for them at least once each week.  
Anyone may assist any contestant in securing subscriptions.  
All receipt books and supplies needed for use in the campaign will be supplied free of charge.  
The campaign will be in charge of a Campaign Director who reserves the right to alter or abrogate any rule or condition, and to make and enforce any new rule or condition which to him may seem expedient for the proper conduct of the campaign. The interpretation or application of any rule or condition, shall be a matter for the Campaign Director alone to deal with and his decision on any point relating to the campaign shall be final.  
The subscription price of the Advocate and Farmers' Magazine is \$1 a year each in Canada and Great Britain; MacLean's Magazine is \$1.50 per year. The subscription price of the Advocate to the United States is \$1.50 a year.  
Votes cannot be transferred from one contestant to another under any circumstances whatever.  
Any subscription paid at the Advocate office with the subscriber's request, at the time of paying the subscription, but not thereafter, that votes therefor be credited to a contestant; and complimentary ballots handed to the Campaign Director, with the request that the votes therefor be credited to a contestant, will, in either, or both cases, be credited as requested; and complimentary ballots handed to the Campaign Director, with the request that the votes therefor be credited shall, within the first period of the campaign, collect and pay to the Campaign Department not less than Twenty-five Dollars for subscriptions within the first period of the campaign. In case any contestant shall not collect and pay to the Campaign Department as much as Twenty-five Dollars for subscriptions within the first period of the campaign, she shall not be entitled to receive credit for any subscription paid to the Advocate office, nor for complimentary ballots handed in to the Campaign Director at any time during the campaign. This rule shall be construed to mean that subscriptions or complimentary ballots sent by mail to the office, or to the Campaign Director, by anyone other than a contestant, shall be counted as having been paid or handed in at the Advocate office, or to the Campaign Director in person.

**THE MIDDLEMAN**

The present situation in the milk trade in St. John will probably tend to bring up once again a discussion of the advantage of bringing the producer and consumer into direct contact. In principle, direct dealing between producer and consumer has many advantages, but in practice it is found that the middleman is frequently a necessary evil. The trouble is to find a middleman who will not take undue advantage of present conditions. An honest middleman is in a position to do something for his country in these strenuous days, but unfortunately the tendency among that class is to extract all they can get out of the consumer, regardless of every other consideration.

As we understand the situation in St. John, the present price received by the farmers for their milk is a fraction under 4 cents per quart, and this is retained by the middleman for eight cents. Farmers are now demanding five cents, and the retailers say that they will have to put up their price to ten cents. The question that will at once be asked is why should the consumer pay two cents extra, when the price to the retailer has only increased one cent? The reasonable and just thing to expect would be that if the cost to the retailer is only one cent more, the extra cost to the consumer should be one cent too, if the retailer plays fair. But they do not appear to be built that way. They want to take advantage of the situation to double their profits. Is it any wonder therefore that the middleman is in disfavour with both producer and consumer?

Why are prices all round soaring skyward in the way they are? Simply because some men cannot resist the chance to take advantage of conditions, regardless of how it may hurt their fellows. Railwaymen in the United States are asking for a five cent increase in wages, an American points out that to meet this, railway companies will be compelled to increase their rates ten cents, which the shippers or consumers will have to pay to protect themselves. The latter will have to increase the cost of their goods to consumers at least fifteen per cent, and so it goes on. Fifteen per cent extra cost to the wage earners because the railway men demand five per cent extra wages! Where will this sort of thing ultimately end?

**CAN THIS REALLY BE TRUE?**

According to the observations of the Commission of Conservation, the farmers of Canada must be a dirty lot. With a view to solving the very serious problem of making the farm more attractive, and thereby retaining the young people in place of having them transfer their activities to the centres of population, the Commission of Conservation has made an extended survey of conditions on the farm. For this purpose they took observations in four hundred Canadian farms of the better class, farms which average 125 acres, of the whole four hundred, only eight had bathrooms. Sixteen in every hundred had water piped into the houses while seventeen per hundred had furnaces of one sort or other. The Commission further ascertained that there were two motor cars for every bathroom among these four hundred homes. Imagine the drudgery of housework, not to speak of general cleanliness, in homes where both rooms, kitchen sinks and the ordinary sanitary conveniences are unknown, and these among people who from a financial standpoint are better able to afford these things than is the average resident of a town.

London "Truth" informs its readers that the German Government has had the colossal "gall" to offer to exchange 4000 British civilians interned in Germany for the 26,000 German civilians interned in the British Isles. This makes one Britisher worth six Germans, which is no doubt the correct value, but probably the Kaiser did not look at it in that way.

The vice is tightening on the armies of the Central Powers. The Russians are meeting with very pronounced success in the Carpathians, and are an-

**For The British Sailors' Relief Fund**  
Town Council Asked to Contribute to the Support of Sailors' Widows and Orphans

Although the call was very short, there was quite a large representation of citizens at the public meeting in the town hall on Wednesday afternoon last. In the interests of the British Seamen's Naval Benevolent Fund, at which were present Mayor McAnn, Mr John T Hawke, editor of the Transcript, and Mr W H Price, chairman of the Board of Assessors, all of the city of Moncton, at whose instance the meeting was called.

Among Newcastle citizens present were: Mayor Fish, chairman of the meeting, Judge Lawlor, Revs W J Bate, S J MacArthur, and J F McCurdy, Ald. Hayward, and Messrs. Chas Sargeant, W A Park, D S Jackson, Corey Clarke, E A McCurdy, J R Colton, D Brown, S W Miller, Andrew McCabe, A L Kerr, Geo. Stables, G F McWilliam, J H Brown and others.

The above fund is officered by the following influential gentlemen in Canada:

Patron—H R H The Duke of Connaught.

Hon Presidents—Rt. Hon. Sir R L Borden, Prime Minister; Hon J Douglas Hazen, Minister of Marine.

President—William G Ross, President Harbor Commissions of Moncton.

Vice-Pres.—James Carruthers, Pres. Canada Steamship Lines, Limited.  
Hon. Treasurer—Mayor David Seath.

Hon. Secretary—M. P. Fennell, Jr. Through the Honorary Secretary the above named gentlemen from Moncton were asked to organize branches throughout the different seaport towns, cities and villages in the Province, and Newcastle was the first point of action outside of Moncton.

The British Seamen's Fund is one of the dependants of sailors who have lost their lives in the present great war, and is without question a most commendable one. While it may be late in starting, it is nevertheless, meeting with much success. From a pamphlet, "The people of Canada Grateful" outlining the object of this fund, the following paragraphs are taken:

"This fund is established to show to a small extent the appreciation of Canada in the only way that is possible at the present time, namely, the donation of money towards Seamen's Institutions and Hospitals of Great Britain.

"Canada is known throughout the world for her generosity and for the large amount of money subscribed to the various Patriotic Funds occasioned by the war. The time has now arisen to add to her numerous gifts a fund that will even in a small way assist the people of the Mother Country in caring for the wounded and sick and orphans of her brave seamen.

"It is not easy to realize the immensity of the task that has been imposed on the British seamen, who, no matter in whatever capacity, whether serving in the fleet, on transport service, mine sweepers, patrol duties or merchant ships, have performed their duties in a manner that has aroused not only the admiration of our own country but the world at large. Without their services and devotion Canada would have been at the mercy of a relentless enemy, her trade and commerce ruined and her people for generations required to pay tribute and feel the result of domination, if not in still greater degree a servitude impossible to say. Let us determine that every British sailor who suffers in the cause of the Empire and Canada shall feel that the hearts of his fellow-countrymen everywhere in the world are with him.

tering the plains of Hungary. The Turks were repulsed with heavy losses in their recent attack on the Suez Canal. On the Somme and Verdun fronts the Anglo-French armies are gradually pushing the Huns back, and consolidating their new positions.

at the end of last week the British secured themselves in an important advance over a front of eighteen miles. These gains have considerable strategic

These are some of the considerations that have led up to the foundation of this Fund for seamen, and if Canada, by a generous subscription towards the care and relief of these bulwarks of the Empire, can in some measure express her gratitude and thanks, it will go to show not only the people of the Empire but the world at large how mindful this country is for those who are fighting its battles.

"In undertaking the raising of the British Sailors' Relief Fund, it is realized that the heartiest support and co-operation of all classes of Canadian people are necessary to make it a success. Those who have undertaken the organization of the Fund are devoting a large amount of time and energy to the work. Prominent members of Parliament, professional and business men of Canada have already pledged their active support to the fund, and a good start has already been made with the subscription list. It is very desirable that the fund be given the very widest support throughout Canada, not only that a large amount of money may be raised, but in order that we may illustrate that the whole of Canadian people are ready to show their appreciation for the splendid work that the British seamen are doing for them."

Mayor McAnn, in his opening address said that the City of Moncton had voted \$1000 to this fund. He thought that about \$5,000 or possibly more should be raised for the territory he is to cover. The Province of Saskatchewan had voted \$25,000, Montreal, \$10,000; Halifax, \$10,000, and up to this time of the above meeting, St. John had voted \$4000, and this amount would be greatly increased. The Bell Telephone Co. had also subscribed \$1000, the Nova Scotia Steel Co., \$10,000, and the Bank of Nova Scotia \$1000.

Mr. Price, in a few words, stated that branch organizations were being formed, and all amounts collected would be handled by the proper authorities in England. He said the most logical way in which to raise whatever amount was desired by the town was to go before the Town Council and have them raise it by assessment. It would then overcome the work which would be necessary if the matter was left to an organization.

Mr. John T. Hawke, of the Moncton Transcript, in a most eloquent address, outlined the object of this fund, and showed in no uncertain terms Canada's further duty to the Empire of subscribing liberally to the support of the thousands of families in England who are now left, destitute owing to the great loss of life among the seamen, and to be prepared to help support the many more who will be left in like circumstances before this terrible war is ended. Mr. Hawke's appeal was a sympathetic one. While admitting that many sacrifices have already been made by the people of Canada, and all had sacrificed most liberally to the different funds organized, still, he said, our contributions are nothing to be compared with the losses that have already been sustained by Belgium and by Serbia, nor even by the people on the coast of England.

After listening to Mr. Hawke's able address, it was felt that the Town of Newcastle could easily raise \$1000 of the \$5000 to be raised. It was also felt by others that Newcastle should only contribute in proportion to its size as compared with Moncton. It was stated by Mayor McAnn that while Moncton's contribution might look small to people outside that city, when it was considered that the citizens of Moncton had contributed largely for other purposes, it was felt that they had shouldered their share of the war burden.

Ex-Ald. Sargeant suggested that we subscribe an amount exceeding that of Moncton and thus beat them out at the start. Mayor Fish heartily agreed with the object in view, and felt that the people would co-operate. He thought that probably \$1,000 could be raised without much difficulty.

After further remarks by J T Hawke, Mayor Fish, W A Park and Geo. Stables, a committee composed of Messrs. W A Park, E A McCurdy and R Corey Clark, were appointed to meet the Town Council, place the facts before that body and ask them to grant a liberal donation.

Adjournd.

At the close of the meeting the visitors left by auto for Moncton, via Chatham, Rexton and Richibucto, where they have since held meetings.

## GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORRIS, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential) for free advice which will prove helpful.

## Field Day at Experimental Farm

### Excursion of Farmers Proves a Great Success, and Will Likely Become an Annual Affair

The Field Day at the Experimental Farm, in Fredericton, on the 23rd inst. under the auspices of the Farmers and Dairymen's Association and backed by the local Government, was a pronounced success, and is likely to be an annual affair hereafter.

The attendance was larger than expected, and there must have been more than 1000 people on the grounds. The management of the Experimental Farm had promised to serve dinner to all who came and, although the demand was far greater than they had calculated upon, the promise was loyally kept, and Supt. W. W. Hubbard and his able assistants deserve great praise.

The forenoon and early part of the afternoon was taken up by inspection of the different features of interest on the 200 acres under cultivation, including the magnificent barns, stables, poultry houses, etc. There is a large orchard, containing 185 different varieties of apple trees which are being tested to discover the ones best suited to this country, and also vegetable and flower gardens, each in the care of an expert.

From about 1:30 p. m. to nearly 4 o'clock, lectures were given on several subjects.

President Geo. E. Fisher of the Farmers and Dairymen's Association presided, welcomed the visitors and gave them the freedom of the grounds, after urging them to become members of the Association during the coming year.

Supt. W. W. Hubbard spoke of the work of the farm. It contains about 200 acres, extending from the St. John river back to the C. P. R. track at Dock Station, all within the limits of the City of Fredericton. Of this about 200 acres had already been cleared and cultivated, and another hundred acres is ready for breaking up. The climate here is fairly average, also soil, and these with central location, brought the farm here. This is not a model farm, but one in which trial is being made of different methods. There are twenty four acres of orchards; one hundred and fifteen kinds of potatoes being raised, many plots of grain, vegetables, etc., in which results are noticed and carefully tabulated.

J. H. Grisdale, director of Experimental farms in Canada, was the next speaker. Although not a native of New Brunswick, he had visited every part of it, and considered the province one of the best live stock districts in Canada, but the people did not take advantage of their opportunities as they should. The basis of prosperity is the agricultural industry. Therefore, the experimental farm was established here. It is just in its beginning. They intend to make it the best in New Brunswick. Possibilities of increasing crop production are enormous. These fields are better today because of better cultivation and better methods. This farm is experimental, not demonstrative or model, but there are many things worth noticing. Some of the crops are very poor, because they are seeking methods to avoid. Side by side are extra good crops. The war has hindered full experiments with live stock. Yet some of the cows here have cleared sixty dollars a year—others, which will be dropped—have not done so well. It is not necessary to start with pure bred

stock. Use pure bred males and thus keep on improving. Where hay, clover oats and turnips grow so well, we should go more and more into stock raising. Our conditions are as good as in Britain. All our soil needs is a little more attention from the man who owns it. Breeds are needed in the province. A course in agricultural college will bring great results. He should visit to the experimental farm would become an annual affair. There would be no lack in the commissariat next year.

E. S. Archibald, Dominion Field Husbandman, gave a demonstration in live stock, using the stock on the farm as illustrations.

He thought the organized markets of the province were in bad shape. The consumers can appreciate quality in beef. It is up to the organized farmers to get, by municipal abattoirs, if necessary, the best for their effort. There were pure breeds on this farm—Holstein, Shorthorn and Ayrshire. Choose the dairy breed best suited to your land and stick to it. Using pure bred bullies will soon produce a breed as good as pure bred. Stock will become uniform. Organize in districts or clubs, and boom the breed. Disorganization causes loss of money. If you want steers rather than dairy cattle choose shorthorns and stick to them. Well bred shorthorn stock brings more money for beef. Good grade Ayrshire and Holstein steers sold at 74 cts. pound, against 94 for the shorthorn. If our producers would appreciate the difference between meats, it would be better.

Shorthorns were being treated as dairy cattle, but they were better for beef. If you value milk primarily for meat, do not fatten them till after two or three years old. A three-year-old Shorthorn on the farm has produced three thousand pounds of milk so far this year. She made 7500 with her first calf. Possible to have a meaty Shorthorn a good milker, but they never get up high as dairy cattle. The four year old shown was the mestier type, showing that shorthorns soon run to beef. If you value milk primarily stick to the dairy breeds. Good dairy shorthorns cost too much for the average farmer to buy. Holsteins are leaner, narrower in build, with room for big udder, teats well planted, better for milk. The best Holstein record is 150 pounds—15 gallons—a single day, made by a relative of the cow shown. Holstein is a specialized dairy bred. Will continue popular if properly handled. When a breed is popular, beware of buying anything with a pedigree, but buy only the best of the pure bred stock. Breeding counts. Like hegets like. The Ayrshire is probably the breed most popular and most generally useful throughout the province. Ayrshires originated in the poor pastures of Scotland where cattle must travel for their food. The Ayrshire is a low set, long, deep-bodied cow, with splendid middle and udder. Should have a long level bottomed udder well carried up behind. One drawback was short teats—this defect was being overcome. Select good teated cows only. This cow (Pansy) has produced over 10,000 pounds milk during the year. The next, a heifer with second calf, has short teats—this they hope to correct in her offspring, or would get rid of her. A grade Holstein cow was shown. In one case a grade cow produced 2500 more pounds of milk than a mongrel cow. The particular grade shown produced last year over 6,000 pounds.

The next example was a poor grade Ayrshire, showing what a dairy cow should not be, yet she gave over 1,000 pounds more milk a year than the fair Holstein grade just previously shown.

You can't tell from a cow's looks what she will give. The only way a dairyman can tell the value of his cow is to keep milk records. Perseverance in milking gives the cow her value. A man who does not keep tabs on his cows will make no money. Quite possible to make good profit from good dairy cows.

**CARBONOL**

**A Blessing in the Home**

If there is one thing you need around the home or farm, it is Carbonol. Good in a hundred different ways. Helps housecleaning. A few drops in a pail of water makes a bucket of antiseptic, grease-killing liquid. In solution, it is wonderful for cuts on yourself or your live stock. Drives away flies, disinfects the sick room, makes barns, stables and henneries sanitary. You should not be without it. Get some now. In bottles.

## PALE, WEAK GIRLS Grow Into Weak Despondent Women—How to Overcome The Trouble

Healthy Girlhood is the only path to healthy womanhood. The passing from girlhood to womanhood lays a new tax upon the blood. It is the overtaxing of the blood that makes growing girls suffer from headaches and backaches, from paleness and weakness and weariness, from laziness, despondency and constant ill health. Unhealthy girlhood is bound to lead to unhealthy womanhood and a life of misery. Nothing but the blood building qualities of Dr. Williams' Pink Pills can save a girl when she undertakes the trials and tasks of womanhood. That is the time when nature makes new demands upon the blood supply. Dr. Williams' Pink Pills actually make new, rich blood to meet these new demands. In this simple, scientific way Dr. Williams' Pink Pills give growing girls new health, and makes their dawning womanhood bright and attractive. Miss A. Sternberg, Halleybury Road, New Liskeard, Ont., says: "I have much reason to be grateful to Dr. Williams' Pink Pills as they restored me to health. If, indeed, they did not save my life. In 1914 I began to feel run down, and the doctor who was called in said that mine was a bad case of anaemia. I lost flesh, always felt tired, and I got so nervous that I could scarcely hold a cup to take a drink. My heart would flutter alarmingly. The doctor did not seem to be able to help me at all and my family and friends all thought that I was in a decline and could not recover. I was in bed for some weeks when an aunt came to see me and urged that I try Dr. Williams' Pink Pills. My father got a supply, and by the time I had taken three boxes there was a noticeable improvement, and from that on I steadily progressed towards recovery. I continued using the pills for some time longer, and they restored me to my old time health and strength. I shall never cease to praise this medicine, and to urge all weak run down girls to give it a fair trial, as I have proved in my own case their great merit."

You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

One cow should produce less than 6,000 pounds of milk a year, testing 2.8 per cent. of butter fat, and giving a calf each year. Should be dry eight to ten weeks. Good feed better for a cow before freshening than after. 65 to 70 lbs. of milk a day is the minimum for a good cow at freshening. Feed her well then slacken off when she goes down in milk. Feed dry cow well. In winter feed hay and oats. Also meal mixture, which should be composed of three kinds of meal at least. Crushed oats and barley and bran in equal parts, with a little oil cake or gluten, etc., is an ideal meal mixture. Quality of milk can't be improved by feeding, except that cow well fed will give richer milk at her first.

It is the breeder's fault that many Holsteins give thin milk, such cases should not be bred from for dairy purposes. One pound fat makes 1 1-6 pounds butter; butter with more than 16 per cent. moisture is illegal. Jersey is a good cow, for short, sweet, rich pastures; she gives very rich milk. For average, knockabout farm use, Ayrshire is the best, and the Holstein is also better than the Jersey. If you have unlimited pastures kill the steers at eighteen months. Best roots for steers are turnips; for dairy cows, mangels—turnips flavor the milk. Do not feed more than thirty pounds of turnips a day to milking cows. Feed just before or after milking. Legal standard for milk is 3.2 per cent. fat; average customer wants more.

Holsteins hold practically all the milk and butter records in the world. If you have good rich pastures, keep them, but for rougher conditions the Ayrshires are better. J. R. Brownlee gave a lecture in the potato field, where many kinds were planted at different distances. Experiments pointed to the Green Mountain as the best potato, with the Irish Cobbler a close second. The potato crop has been sprayed four times with Bordeaux mixture to prevent blight, and would need two more sprayings this fall. Potatoes last year sprayed with Bordeaux yielded forty-one bushels to the acre more than those not sprayed. To kill bugs use with the Bordeaux mixture half a pound of Paris Green and two pounds arsenate of lead to forty gallons of water. The best culture was three feet wide between the drills and fourteen inches between seeds.

Mr. Lee lectured on Poultry, Barred Rocks, White Wyandotte, Rhode Island Red, and White Leghorns are the breeds on the farm. The latter were a little the best for eggs, either of the other three breeds for meat. J. L. Emmitte fertilizer expert explained all about fertilizers. G. C. Cunningham, plant pathologist, entertained instructively all who were interested in his department. Not the least interesting and instructive of the demonstrations was that in the dairy room. During the day everything that could be done for the convenience and pleasure of the visitors was done by Sec'y of agriculture, J. B. Doggett, Supt. Hubbard, Pres. Fisher, and all the departmental superintendents and employees.

At four o'clock the special train which had brought the people from the central C. P. R. station down to the grounds left for town again, bearing hundreds of men and women well satisfied with their trip.

The Maritime Provinces Knights of Pythias opened their Grand Lodge in St. John last Wednesday. The membership on June 30th was 3,631 a loss of 35, of these 35 there were 33 in Collingwood Lodge which surrendered charter. \$400 was voted to the Patriotic Fund.

Due respects was paid to the memory of all departed brethren. Following officers were elected: I. B. Colwell, Halifax, grand chancellor; R. B. Sillip, St. John, G. V. C. S. J. Soley, Port Greville, Grand scribe; R. B. Wallace, Fredericton, grand master at arms; James Moulson, St. John, keeper of records and seal; J. R. Polley, St. Stephen, master of executive; D. M. Cochrane, inner guard; E. W. Stevens, Moncton, outer guard; S. W. M. Mackin, St. John, grand master.

Expert Nurses: Miss Mary E. Lynch of Chatham and Miss Doris M. Sullivan of St. John are nurses of infantile paralysis cases in Kingston Ave. Hospital, New York. Miss Sullivan is the nurse in charge of the department of diagnosis, while Miss Lynch has thirty-seven acute cases under her supervision.

A Record Run

What I C. R. men claim as a record run was made recently by a "fish special" between Moncton and Campbellton, a distance of 185 miles. The special was in charge of Conductor Frank Llannery, with Engineer Titus at the throttle and Fireman Mariner Price. The run was made in three hours and forty minutes, but the actual running time was less, as three stops were made, which caused considerable detention. The special contained seven cars. The run was made with Locomotive No. 445.

## WHEN YOU ADVERTISE YOU WANT RESULTS

### That's What You Expect to Get when you do advertise and that's where we come in

No matter what paper you have tried, results are sure if you try

## The Union Advocate

### THE HOME PAPER OF NORTHUMBERLAND COUNTY

Results have been produced for hundreds of others who have tried our columns, and we can make good for you. There are two vital points in the advertising game. The first is to select the paper YOU KNOW has the largest circulation, and the second is to look after your advertising, changing your ads, at least twice a month in a weekly paper. The Union Advocate circulates to all corners of Northumberland County, which no other paper does, and is read by more people each week than any other paper. Is there any reason then why it should not be a better advertising medium than any other paper? If you have any doubts about the above, the subscription lists are open to interested bona-fide advertisers, why not investigate? Is it not worth your while? The Advocate has nothing to hide, and will be only too pleased to prove to advertisers the truth of the above statements. In these war times, particularly, advertisers want the very best possible results to be obtained from their advertising, and unless they use the paper that reaches the most people, they are not getting full value for the money they are spending each year. The

## Average Circulation

of The Advocate each month is steadily increasing. From January 1st, this year, until May 31st, more than 43,000 copies were printed and put in circulation, and this without special editions or extra runs—bona-fide circulation only. Nearly 45,000 circulation in five months! These figures should interest every advertiser and non-advertiser within the radius that The Advocate is covering.

## What Results are You Getting?

Are they satisfactory, or do you not think you should be getting more? If you have any doubts, why not investigate, and when convinced, investigate the advertising power of The Union Advocate. This will cost you nothing, and may prove the foundation of a successful business. Country merchants will be wise in taking this matter into consideration. Some have already done so, and have received surprising results.

## DON'T FORGET THAT WE HAVE THE BEST JOB PRINTING

plant in Northern New Brunswick, and can handle all kinds of job work from a dodger to the very finest class of color and plain black printing. Every bit of work turned out of our office has that nice fine printed effect—no clumsy work, such as comes from poor presses and old rollers. The work is done by experienced hands and the proper touch and color is given to it. Samples sent to Canadian and American printers' journals of art have been most favorably commented on, which shows that work turned out from this office ranks with the best or it would not receive recognition at all. It goes to show further that only the best grades of stock are used. We are also prepared now to do a very fine class of

## EMBOSSING

by which your letter heads, etc., are improved fully 100 per cent. Programs, cards and menus can alike be improved by a little touch of embossing, and the extra cost is not very great. Drop in and let us show you samples of our work. We are the only office in Northern New Brunswick that does this class of embossing.

## You Take No Chances

When you order work at this office. You can rest assured that you will receive the best of consideration, whether your order be large or small. We make no discrimination. Prices are the same to everybody, and stock to suit every line of business is carried. Examine your supply and then let us hear from you.

### Reid Slipp

Reid Slipp, ex-County Councilor, died at Central Hamstead, Saturday. He is survived by his widow, with whom he lived more than 59 years, and four children, one of whom is A. R. Slipp, M. L. A.

### Lecture on Mission Work

Rev. John Squires gave an interesting lecture in Tabusintac on the 17th, inst. on mission work on the Labrador Peninsula. During the evening the ladies of the congregation held a sale of ice cream and cake. The sum of thirty dollars was realized, which will go towards repairs on the Methodist Church, Tabusintac.

### Distinguished Linguist Will Speak

Rev. Roscoe Heine, Phil. D. will address a mass meeting in St. James Hall on Sunday evening Sept. 3rd in the interests of The Canadian Bible Society. Dr. Heine is immigration representative for the society, a linguist, speaking nineteen languages. All should be interested in his story of the great work he is doing among the strangers who come to Canada.

### Two Little Ones Dead

The infant son, Walter, aged five months, of Mr. and Mrs. Arthur Gelkie of Douglastown, died on Sunday night. The remains were interred in St. Mark's cemetery, Tuesday afternoon. The infant daughter of Mr. and Mrs. Alex. Chamberlain of Douglastown died Monday morning. The remains were interred in St. Samuel's cemetery this morning.

### Dance at John S. Johnson's

John S. Johnson wishes to thank the friends who gathered in his new house in Nelson last Friday night, and wishes to say that he will give another one tomorrow, Thursday, August 31st. This will be the last affair of this sort before the house is roomed off. The friends are to help pay for plastering the house. Don't forget the date—tomorrow night. Tickets \$1.00. Refreshments served.

### Many People Attracted to Store by Novel Sale

A. D. Farrah & Co's novel sale has attracted many people to their store during the past week, and is continuing to do so. All through their big store could be seen hundreds of boxes in wrappers, each containing goods worth the price asked for them, and many containing coupons worth from 50 cts to \$5.00, which were cashed at the office by the lucky fishermen who chanced to pick them. One front window was artistically fitted up representing a fishing pond, the pond actually being there, and a young fisherman setting on the bank, rod in hand. Mr. Coudrie, the enterprising manager, is to be congratulated upon his push and energy in making things go successfully for his firm, and one of the big factors of his success is his liberal use of the advertising columns of The Union Advocate. Our readers should follow up this company's advertising each week and fall in line for good bargains.

**Monday—Labor Day**  
Monday, Sept. 4 being Labor Day, the stores will be closed.

Keating, both of Newcastle, also one brother, Henry McCafferty, of Rensou River, and three sisters.

### Accounts Sent Out

A large number of subscription accounts sent out from this office have been responded to very generously by a good share of the subscribers to whom they were sent, still there are many who have not yet given the matter of their arrears to The Advocate the desired attention. Dear reader, it costs money to run a newspaper. Will you therefore kindly make an early remittance according to the account sent you, accepting our thanks in advance.

### Creaghan's New Fall Goods

On page four will be found J. D. Creaghan & Co's big advt. announcing their new fall goods. Messrs Creaghan & Co. are known over the North Shore for their exquisite line of all seasonable goods, their prompt and courteous treatment of patrons and their moderate prices. They are advertising today a splendid line of new sweater coats, and at prices that should commend them to all. Visit their store and lay in your supply for the fall and winter.

### Robberies

A few nights ago Mrs. James Taylor of Nordin was robbed of \$77, of which \$10 was her own, and \$67 had been left by Mrs. Thos. Taylor, to be used for the benefit of Mr. Thos. Taylor, as required. Joseph McKnight's store and several houses were entered the same night and similar depredations have been made in Lower Derby and Redbank. In the latter place Dr. Beaton's residence having been broken into.

## The Prohibition Campaign

**Publicity Committee Meet and Confer as to Ways and Means**

The publicity committee of the Northumberland branch of the Dominion Temperance Alliance met in the town hall, Thursday evening, the president, Mr. E. A. McCurdy, presided, and reported that he had communicated with nearly every one who were selected as the County Executive at the recent Convention, and in nearly every case they had agreed to act, and work for the repeal of the Scott Act, and for bringing into force the new prohibition law. Rev. Mr. MacArthur brought up the matter of the papers, of a second offense case against Edward Dalton, which had been sent to Fredericton, and had not been returned, although written for several times. It was decided that this was a matter for the chairman of the Police Committee to deal with, who would doubtless write the Attorney General regarding the matter if the papers did not soon put in an appearance.

A communication was read from the Executive of the Dominion Alliance, asking that a delegate be present at the Provincial meeting to be held in St. John on Sept. 6th, when matters pertaining to the Prohibition Act for the repeal of the Scott Act would be discussed. Mr. McCurdy was appointed the delegate, with Rev. Dr. Squires as alternate.

A communication from the Provincial Secretary, Rev. W. D. Wilson, regarding local campaign was read and ordered filed.

After further matters were fully discussed the meeting adjourned to meet at the call of the chair.

### Will Receive

Mrs. J. J. Morris will be "At Home" on Wednesday afternoon and evening, Sept. 5th, at her residence on Henry Street, Newcastle.

## Canadian National Exhibition, Toronto

AUG. 26th TO SEPT. 11th

A great natural park 264 acres in extent, a veritable garden spot with wide paved streets and walks, vistas of velvety green sward enriched with a profusion of shrubs, trees and flowers blended into harmonious effects. Stately permanent buildings, graceful and rich in architectural detail, valued in the aggregate at \$2,500,000. Beautiful grounds valued at a similar sum, models of landscape artistry; sloping picturesquely from the blue, sunlit waters of Lake Ontario along which they stretch for 1 1/2 miles. This is the magnificent setting that adds so tremendously to the charm of the Canadian National Exhibition, Toronto, the greatest short-time exhibition of the world. In this pleasant environment the people of Canada pause each autumn to take a national inventory, to see how they have progressed during the year as a nation and prospered as a people.

The Canadian Government Railways offer specially low rates from all points in the Maritime provinces to Toronto August 31st, good for return September 8th, and September 4th good for return Sept. 13th. From dates will be \$28.80, from Halifax \$25.60, from Charlottetown \$23.55, and from St. John, Moncton, Fredericton \$20.00. From all stations on the line, the fare will be proportionately low. Single fare for the round trip will be in effect going August 28th, good for return Sept. 5th, going August 30th, good for return Sept. 7th; going Sept. 5th, good for return Sept. 13th. Return tickets for fare and one-third will be issued from August 25th, to Sept. 4th, good for return until Sept. 13, 1916.

Further particulars regarding rates will be supplied by ticket agent of the Canadian Government Railways. It will be well to secure reservations on sleeping cars in advance.

Passengers from the Maritime Provinces will have the advantage of travel by the fast trains, the "Ocean Limited" and the "Maritime Express." Via the Ocean Limited connection made with the Grand Trunk "International Limited." The "Maritime Express" connects with the Grand Trunk express trains for Toronto.

This afternoon is the last Wednesday afternoon holiday in the stores.

## Pte. Walter Mullin Killed in Action

**Was Member of Wireless Garrison Here Before Going Overseas**

Another son of the Miramichi has given up his life in defense of liberty and right in the battle fields of France was the sad intelligence received by Mr. and Mrs. Daniel Mullin of Stradman yesterday morning in a brief telegram stating that their son Pte. Walter Mullin had been killed in action. Pte. Mullin was one of the thirty-five young men who left the Wireless Station Garrison here to join the 25th Battalion and the third of that number to give up his life, the others being Major W. H. Belyea and Pte. Ernest Taylor. The young man was about twenty two years of age and besides his parents he leaves four brothers, John of Boston, Robert, Leslie and Thomas at home and four sisters, Agnes (Mrs. Call Parks) Newcastle, Hazel (Mrs. Elgen Delano) "The Bridge", Misses Sadie of Lawrence, Mass., and Beulah at home.

Mrs. Yeaton, of New York, who had been for some time the guest of her brother, Mr. J. B. Green, of Tabusintac became ill a few days ago and was taken to the Miramichi Hospital in Newcastle. Her daughter, who accompanied her here, has gone to Newcastle. Mrs. Yeaton's condition is considered critical. Miss Yeaton, who accompanied her to Tabusintac, also came to Newcastle with her.

## HYMENEAL

Keith—Saunders

A very pretty wedding took place in St. Peter's church, Tuesday, at 9 o'clock Tuesday morning, Aug. 15 when Percy Keith, of Havelock, and Miss Mary A. B. Saunders were united in marriage by the Rev. Fr. Tully Montgomery. The church was very prettily decorated with petted plants and flowers including an arch and bell of sweet peas. The bride, who wore a cream serge going away suit, was given away by her father, while Frank Saunders supported the groom. The bride was one of Millerton's most popular young ladies and one of five generations who have lived in the old homestead there.

Robinson—Burchill

A very quiet wedding took place at St. Paul's church, Chatham, Head, Miramichi, Wednesday, August 23rd, at 10.30 a.m., when Miss Mary Burchill, daughter of the late Mr. and Mrs. George Burchill, of Nelson was united in marriage to Mr. Frank John Robinson, only son of Mr. and Mrs. Arthur C. Robinson, of Boston.

The church was prettily decorated for the occasion. The ceremony was performed by Ven. Archdeacon Forsythe, assisted by the bride's uncle, Rev. W. J. Wilkinson, of Springhill. The bride who was given away by her uncle, Hon. J. P. Burchill, was gowned in white duchesse satin with court train and carried a shower bouquet of white roses. The veil was one which had been worn by her grandmother, the late Mrs. Stuart Tremaine of Halifax. The bridesmaids were: Miss Laura Burchill, the bride's sister, and Miss Mary Wilkinson, cousin of the bride. They wore white muslin dresses with yellow sashes, white stockings and little Normandy caps, and carried shower bouquets of yellow roses. After the ceremony the wedding breakfast was served at "The Hill," the home of the bride, only the relatives of the contracting parties being present.

Mr. and Mrs. Robinson left on the 1.45 train for a honeymoon trip to, Washington and Philadelphia, after which they will reside in Brookline, Mass.
