I have advised several women who suffered as I did to try your remedies. You may publish this if you wish."—Mrs. DAVID R. MORRIS, South Wellington, Vancouver Island, B. C.

No other medicine for woman's ills has received such wide-spread and unquali-fied endorsement. We know of no other medicine which has such a record of success as has Lydia E. Pinkham's Vegeta-ble Compound. For more than 30 years it has been the standard remedy for wo-man's ills such as inflammation, ulceration, tumors, irregularities, periodic pains and nervous prostration, and we believe it is unequalled for women dur-ing the period of change of life.

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. SENSATIONAL REPORT.

A sensational report was floated around the city last evening to the effect that a vessel had reached some part of Brazil from this port and the captain reported that there had been a mutiny on the passage in which two St. John's seamen had lost their lives. One was alleged to be shot dead, and the other jumped overboard and was drowned. The Telegram made enquiries last night but no confirmation of the report could be learned.

ATHENS, To-day. The Foreign Minister, sitting in the hamber of Deputies yesterday, an-ounced that Greece had declared war against Turkey. He added to the last moment, Turkey had made all kinds of efforts and held out all sorts of promises to have Greece break away from the Balkan Confederations. Premier Kenizelos read a message from the Crown Prince Constantine reporting the Greek army had entered Furkish territory and the Minister of War announced the departure of the Greek fleet. He said it was one great wish for Greek sailors to see the Turkish fleet leave its moorings. Amidst cheering, the President of the Chamber asked permission for the deputies to send greeting to the allies, now that "cannon are roaring in the name of civilization, and Christianity is at war against Barbarism

LONDON, To-day. Turkey's endeavours to detach reece from the Confederation of the Balkan States have failed, and Greece eclared war against the Ottoman Empire yesterday. All the allied Ministers have left Constantinople. Reports of fighting such as the capture of Pristina by the Servians and of a leavy battle at Mustafanacha prob ably are in advance of the real facts. The greatest struggle will be for the possession of Ardianople to clear the oad to Constantinople.

TEHERAN, To-Day. The Persian capital is menaced by force of 800 horsemen under the command of Salard Dowleh, the rebellious son of the reigning Shah. He arrived close to the city and be eved the people sympathized with him, as they are dissatisfied with the present Government. The National Council is hastily collecting cannon and troops for the defence of the city.

Accidents Similar to the George May.

The disapearance of the schr. George May" brings to mind two of a similar nature which occurred some years ago and which horrified the people of the whole colony. In October, 1887, the schr. "Mary Brown" left St. John's for Plate Cove, B. B., deeply laden with provisions, with 5 men of a crew and a passenger, Miss Chevers, on board. It became stormy that night and she went ashore on the northern end of Baccalicu. Two of the hands and the unfortunate young woman were lost but the rest managed to get up in the cliff where they remained until res-

cued next day. Another terrible marine disaste was that of the schr. "Pubnico Belle." She was coming here from Catalin laden with fish with three men of crew, two women and five children o board. She also went ashore at Bac calieu Island in a storm. The crew were saved in a similar manner to these of the "Mary Brown" but the poor women and children perished. Mr. W. D. Rose, brother of Mr. Fred. Rose of C. F. Bennett's, was the first to escape from the wreck.

To another crowded audience last night the popular Klark Urban Coy, presented "Raffles" whose history many have read, who was a thief and whose predcliction it was to steal not altogether as much from perversity as from a pure love of the excitemen cident thereto. The production of he drama necessarily involves some very exciting situations and startling climaxes and seldom have we seen the company to better advantage Harden Klark as Raffles, was inimitable and Charles Archer as Bedford the amateur detective, gave a splenlid exhibition of the high class hisrionic talent he undoubtedly posseses. The different roles impersonat d by the other gentlemen and ladies of the company were highly pleasing and the audience loudly and frequent ly applauded. The specialties las night were unusually good. The Royalty trio in the "Littigant" feature was fine: Bill Webbs comic songs and laughing while he held the stage and Al Canton's jugglery and swing mag-iq were excellent. What glasses are to weak eyes, Casrarets are to weak bowels-a 10cent box will truly amaze you.

Most old people must give to the owels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eves with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much

as at fifty. Age is not a time for harsh physics. Youth may occassionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

The government sent a letter asking that Health Inspector O'Brien's salary be increased. He receives \$700 per year and it was stated that had he re-mained in the police force he would now be drawing at least \$800 with certain perquisites giving him a total of about \$1,000. His stipend will be increased by \$130.

While favouring the increase Councillor Mullaly believed that with it the Inspector's duties should also be increased. He thought that some of the duties attached to the position of a pure food inspector should devolve ipon the Inspector. The necessity for such an official in St. John's was

quite apparent.
Councillor Martin referred to some talk in the city the outcome of observations made by Councillor Mullaly at a recent meeting. Councillor Martin averred that Messrs. Snow, Peet and others had had their share of the city's work which the yearly accounts would show. The talk referred to by Councillor Martin, he alleged, took a sectarian turn, and Councillor Mullaly said he was not affected by this but would stand out for equal rights for all irrespective of religion or denomination. There was a good deal of cross firing between the two Councillors on the matter, during which Councillor Mullaly stated that in previous years some had grown rich out of the Council's patronage and that he would prove this out of the yearly ac-counts. It took years to discover that only one person had received the work of repairing the night cars. Councillor Martin retorted that no one else would take this work and some person should do it. A Drowning Tragedy.

On Sunday last, the 6th inst., a drowning fatality occurred at Hermitage Cove in which two boys named Ball and Baldwin, aged four and eleven years, respectively, were victims. From information received it is evident that the youths after leaving their homes visited a stage head, got into a fishing boat and while playing fell overboard.
A fisherman who was looking from the water's edge found the body of the younger boy, and at nine o'clock the same night the body of Baldwin was raised from the bottom to the surface with the aid of a jigger. The sad happening has created widespread sympathy in the settlement. The little boy Ball was an adopted son of Mrs. Baldwin, mother of the other victim.

Editor Evening, Telegram, Sir,—To the most apathetic and even to the most obtuse it must now be apparent that the ominous charbe apparent that the ominous char-acters forming the "mene, mene, teckel upharsin" announcing the fast approaching dissolution of the worst Government that ever cursed this un-fortunate country are appearing to the startled vision of the political captain and crew who for the nonce will be attended to.

On all sides we see waste and squandering of the public monies for pic-nics, junketing trips, tips for heelers and bonuses and advances for sycophants, and heelers, while the poor fishermen, labourer, mechanic

> dust with taxation to raise the where withal for Morris and his horde of hungry henchmen and hangers on to satiate themselves with the good things of the world and the poor, the widow, orphan, aged and decrepid can pine in misery, deprivation and degradation. We see parapered officials, lick spittles who would wipe Morris' boots at a nod from him, receive promotions and increases, while men showing the slightest sign of independence are persecuted and kept in the lowest grade in the civil service. A case in point not long ago occurred in the Post Office where one McGregor, who had been for years stamp clerk, at a salary of between \$400 and \$500, received an advance, for the same duty be it remembered, to \$800, an increase almost of 100 per cent. Galway.

> Gibbs and Meaney had got fat salaries and Mr. McGregor being a good heeler had to be treated similarly. But this man is not the only one of his family a tidy sum from the taxpayers. His wife at a salary of \$300 per year and perquisites superintends the charwothat we can reckon that husband and wife in this case draw about \$1,200 from the overburdened taxpayers of the colony. Now, why not give this woman's position to one of our poor windows of the unfortunate men who lost their lives in the Erna, Grace Beatrice or the other ships which disappeared last winter. But I know, and so do many others, that Morris and most of his gang care very little for the widow and the fatherless and once the bread winner is gone and they are minus a possible vote. And the consideration of these matters the members of some families seem to believe they have a prior claim on positions in the civil service, that they hold a certain lien on offices of emolument and that they have some kind of hereditary title to government-al jobs. Nepotism unfortunately is a pronounced characteristic of civil service and possibly in no bunch is this more noticeable than in the Post Office department. It is a vircious principle, unjust and unfair, and petrate this and other abuses in every department should be dealt with as they deserve. But a short while, Mr. Editor, and their punishment will come. 1913 will witness the end of

graft, boodling and picnicking. Yours truly,

CITY CIRCULATION AGENT

Of Leading Montreal Daily Engorses GIN PILLS

IVE long years of suffering from Kidney Trouble—two boxes of GIN PILLS—and it's all gone. That has been the experience of Mr. Eugene Quesnel, Chief City Circulation Agent of La Patrie, of of La Patrie, of Montreal. He describes it.

Montreal,
May 3rd, 1912

"I have been suffering from kidney
Trouble for over five long years, I
hid also Rheumatism in all my bones
and muscles, could not sleep nights and
on some occasions could hardly walk.
I had been treated by some of our best
Physicians but without relief and I lost
over fifteen pounds. One day I met
one of our leading hotelkeepers, who
had been cured by your famous GIN
PILLS, and he advised me to try them.
So I bought two boxes at my druggist's
and before I had used one box I felt a
big change. Before I finished the
second one I was completely cured.
I can assure you I can hardly believe
it for if I had only known what I know
now I would not have spent over One
Hundred Dollars for nothing when two
boxes of GIN PILLS cured me."
