**"I Avoided an Operation Appendicitis Disappeared"**  
 Mrs. James Walls, Udon, Ont., writes—  
 "I took a severe pain in my right side. It was very bad at times. I tried oils and tablets without gaining any relief. The doctor pronounced it chronic appendicitis. I dreaded an operation and a friend advised Dr. Chase's Kidney-Liver Pills. I used them and not only obtained relief from pain, but I believe it has completely freed me of appendicitis, as it is now over a year since I have had any of the old symptoms."  
**Dr. Chase's Kidney-Liver Pills**  
 GERALD S. DOYLE, Distributor.

**At the Mouth of the Treacherous Pit**  
 STORY OF LOVE, INTRIGUE AND REVENGE

CHAPTER XIV.  
 "Before I had time to tell you so, however, I heard that you were engaged to Lord Rhyworth; then it was too late. Dolores, let there be no more mistakes; no more playing at cross-purposes. Believe me, I love no other woman but you."  
 The time was not far distant when every word of this interview was to come back to her with sharpest pain, when she remembered how earnestly each word was spoken; how the very ring of truth and sincerity was in his voice.  
 "I know," he said, "of whom you are thinking. It is Lola de Ferras. You believe that I am retreating between you, my beautiful queen, and her. Lola is nothing to me but a pleasant friend."  
 Lady Rhyworth thought of the emphasis Lola had laid on the word "mine," and felt puzzled.  
 "I am almost ashamed to speak as I do," he continued, "but in such a case as this there is nothing like frankness; even that friendship was more of her seeking than my giving. She is very beautiful and accomplished; she is clever beyond the generality of woman; I have spent some pleasant hours with her; but she is the very last person in the world I should ever fall in love with or marry. Now promise me, Dolores, that there shall never, during the whole course of our lives, be any further misunderstanding between us concerning Lola."  
 She promised; and in after years she remembered that promise in an agony of grief that was unexpressible.  
 "It is true I went to Beaulieu last evening," he said; "but my heart was with you all the time. Dolores, I have promised, out of respect to your dead husband and your own sorrow, not to intrude my love on you. I have waited fifteen months before I would return at all. I will wait three months longer before I try to persuade you to share your life with me. I will leave the future entirely in your hands. If you wish to wait one year or two, I will do so to please you;

**MRS. BUDGE SO WEAK COULD HARDLY STAND**  
 Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health  
 River Desert, Que.—"I used to have a severe pain in my side. I would be unable to walk fast and could not stand for any length of time to do my ironing or washing, but I would have to lie down to get relief from the pain. I had this for about two years, then a friend told me to try Lydia E. Pinkham's Vegetable Compound as she had had good results. I certainly got good results from it, for, as the last time I had a sore side was last May and I have not had it since. I am also glad of having good nursing for my baby, and I think it is your medicine that helped me in this way."  
 Lydia E. Pinkham's Private Test-Book upon "Allments Peculiar to Women" will be sent you free upon request. Write for it to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario. This book contains valuable information that every woman should know.

for conversation. When it was over, and Lola, flushed with excitement and looking most lovely, stood fanning herself, she said to him—  
 "Have you been to Deeping Hurst and seen Lady Rhyworth yet, Sir Karl?"  
 "I have been three times, and have been fortunate enough to see her each time," he replied.  
 "Do you find her much changed?" asked Lola.  
 "Yes; she appears taller, and is altogether a far more beautiful woman than when I left England."  
 A sudden terror seized her. But she would attach no importance to his words; she felt that if she did she should despair or die.  
 "Did you see the little one?" she asked presently—"Kathleen? What a lovely child she is! But what sad eyes she has! Did you notice the pathetic expression of her eyes?"  
 "Yes, and tried to dispel it by giving her some wonderful dolls," he answered.  
 "Had you thought so much of her as to bring toys purposely for her?" inquired Lola.  
 "Certainly I had; why not? I have thought of the little one continually since she was born."  
 The flush deepened. With the bitterness of death in her heart, but a careless smile on her lips, she said—  
 "That is because you thought so much of the little one's mother, I suppose."  
 "That is the precise reason," he answered. "That was a shrewd guess of yours."  
 Some one interrupted them then; but Lola had made up her mind as to what she would do. She could not say to him, "Tell me at once whether you are really in love with Dolores, or not." She would have given much for courage to do so. She had said just as much as she dared—as it was prudent for her to say to him. She had resolved upon a plan of action.  
 Before this, when she had felt that she wanted a change, Dolores had pressed her to remain a week at Deeping Hurst; she would so manage that Dolores should repeat the invitation, and, once there, she could see for herself if there was any truth in this rumor.  
 The next morning she went over to Deeping Hurst and complained to Dolores of languor and weakness.  
 "A few days with you, Dolores, always set me right," she began.  
 Lady Rhyworth interrupted her.  
 "Then by all means come, Lola," she said, earnestly. "Stay, now that you are here. You do not look well. Send one of the maids with a note to madame, and let her bring what you require back with him."  
 "You are very kind," answered Lola, with a smile; but her heart smote her for entering that hospitable house as a spy upon its mistress. Then she kissed the fair face, wondering a little at the increased beauty and brightness of it. Was it Sir Karl that had brought that delicate flush there and the radiant expression? She could not let the matter rest. When she had sent off her note and was sitting with Lady Rhyworth in the morning-room, she said—  
 "Sir Karl was at Lady Fielden's dinner-party last evening. It was given in honor of his return. I am sorry you were not there. It was very enjoyable. Sir Karl told me that he had been to see you several times—three times, I think he said."  
 "I have not counted the number of his visits," laughed Lady Rhyworth. "Deeping Hurst is not very far from Scarsdale."  
 (To be continued.)

**Heroism of British Sailors**  
 RECALLED AGAIN ON DOVER DOCKS  
 Dover, England, June 18.—A dramatic incident of the war is recalled by the necessity to-day of removing a British monitor which was sunk north of the fairway at the entrance of Dover Harbor.  
 The vessel had just taken on board a supply of shells and was anchored near the harbor entrance, awaiting a chance to slip out to sea, when she caught fire. Anchored beside her were two ammunition boats. The danger of an explosion and disaster on a large scale was imminent.  
 Troops were ordered out, townspeople were cleared from shores. To save the harbor and town the monitor's bottom was blown out, and many of her crew perished.

**King George Will Review Britain's Sea Strength**  
 London, June 17.—(A.P.)—King George will review more than 200 warships at Spithead the end of July at what is expected to be the finest naval spectacle seen in British home waters since the war. At the last naval review at Spithead in July, 1914, 220 warships were at anchor, but the navy then possessed more capital ships than it does to-day.  
 Among the big ships participating in the July review will be the Queen Elizabeth, the Barham, Malaya, Valiant, Warspite, Revenge, Royal Oak, Resolution, Royal Sovereign, Centurion, Ajax and Thunderer.

**New Cable Lines**  
 TO CONNECT ALASKAN CITIES AND SEATTLE.  
 Ketchikan, Alaska, June 10.—With the completion of a new cable between Seattle and Seward, Alaska, next fall by the United States Army, Ketchikan will be one of the largest cable stations in the world, according to officials handling the laying of the line.  
 The first section of the new cable which links Seattle and Ketchikan was finished May 31 by the cable-ship Delwood. The Delwood then went to London to lay cable for a second section which will connect Ketchikan and Seward. Another new line is to link Juneau, Wrangell and Petersburg with this city. Ketchikan will then be a relay office for four lines, two going into southeastern Alaska, one to Seward and one to Seattle. All these cables will be used commercially.  
 The new cable will be equipped for duplex operation, enabling six times as much traffic to be handled as on the old line from Seattle to Sitka.

**GLEAMS**  
 Never pick a quarrel, even when it's ripe.  
 If it wasn't for trouble, how could we enjoy happiness?  
 The man who has found life full of interest has found himself.  
 Sunshine inside the house is quite as essential as sunshine outside.  
 It's a great thing to be thankful for your lot—even if it's not a lot.  
 Those who constantly look for silver linings never see dark clouds.  
 Life is always worth living; it's the way we look at it that's wrong.  
 The world would be far brighter if we laughed a little more at our own troubles and a little less at our neighbors'.  
**FOR SORE THROAT—MINARD'S LIME MINT.**

**With this you can make your hair stay combed—all day**  
 Men are finding in Stacombs what they have always sought—an easy, natural way to keep the hair looking always as trim and neat as their favorite barber leaves it.  
 Men find Stacombs just the thing to control stray hairs, to make the curl stay in, and to keep bobbed hair in place. Stacombs is a smooth, velvety, invisible cream—non-staining and non-greasy. It comes in jars and in tubes—compact, economical. You can get it at all drug and department stores.

**Birds We See at the Seaside**  
 FEATHERED FOES OF VENTURE-SOME FISH.  
 Most holiday makers are interested in seabirds. They like to watch their graceful movements over the waves and to hear their weird cries as they ride on the wind. The birds seem tireless as they glide and swoop throughout the livelong day.  
 As darkness falls they vanish from sight, and one wonders where they have gone, so mysterious has been their departure. In the morning they are there again before the earliest human rises, and one wonders if they ever go to bed.  
 From Lake to Sea-shore.  
 With the first gleam of light they launch their bodies from the rocky ledges along the coast and go hunting for breakfast. One of the most familiar of these birds is the black-headed gull, which, strange to say, does not spend all his time by the sea.  
 In the heart of Britain's beautiful country there are lonely woods and marshes where the privileged may see thousands upon thousands of black-headed gulls at certain times of the year. That is at breeding time.

**England Defeats S. A. Cricketers**  
 VISITORS SEVERELY PUNISHED IN SECOND TEST MATCH AT LORDS.  
 London, July 1.—South African bowlers were severely punished at Lords yesterday when the second cricket test match was continued before 16,000 spectators, England scoring 531 for the loss of only two wickets, the innings then being declared closed. On Saturday the touring cricketers scored 273 runs in their first inning and their second attempt was commenced yesterday afternoon when they obtained 19 runs without loss of a wicket. The innings will be concluded to-day.  
 Hobbs and Sutcliffe for England scored 268 runs for the first wicket, which constitutes a record for test matches against South Africa. Hobbs scored 211 runs before he was caught by the South African captain; Sutcliffe 122, Woolley 134 not out, and Hendren 50 not out. Woolley punished the tired bowlers mercilessly, hitting 20 fours.

**She Knew**  
 He: "That young brother of yours saw me kiss you just now. What should I give him to keep him quiet?"  
 She (absent): "He usually gets a shilling."

**Hints for Your Home**  
 When measuring wrap or any sticky substance avoid waste by dipping the cup in boiling water.  
 Cut a piece of cardboard to fit round the brass door-knocker, and push this into place before cleaning. It will prevent the surrounding paint-work from becoming soiled and damaged.  
 Rusty tins should be rubbed with a rag dipped in whitening and sweet oil.  
 A piece of soda and a little vinegar put in the sink will dislodge grease from pipes.  
 It is quite easy to carry hats in the tray of a trunk fitted with straps. Crews should be wedged slightly with tissue paper, and paper should also be rolled about the brims. The straps are then fastened over the hats, and keep them firmly in position.  
 When washing china, breakages may be avoided by placing a Turkish towel at the bottom of the basin.  
 To keep the hands white and soft use glycerine and lemon juice mixed in equal quantities, and rubbed in after washing. Allow the lotion to dry into the skin.  
 Paper blinds have a tendency to pucker and tear along the edges. A general improvement can be effected by strengthening the blinds with a hem of tape down both sides, and by introducing tape into the slot at the bottom which takes the stretcher and the blind cord.  
 A quarter of a teaspoonful of baking powder added to mashed potatoes while heating will make them light and fluffy.  
 Pieces cut from old leather handbags and covered with flannel make excellent iron-holders.  
 To glaze cakes or pastry, use a tablespoonful of milk in which a little brown sugar has been dissolved.  
 To prevent black cotton stockings from losing their colour in the wash, soak them all night in warm, weak soda, and wash in warm water to which a teaspoonful of turpentine has been added, using plain soap. Rinse well in cold water.

**Laugh and Grow Fat**  
 is an old Axiom.  
 We advise the use of a Good Tonic and we know of no better than  
**BRICK'S TASTELESS.**  
 Brick's Tasteless is a wonderful nerve tonic and blood builder that we gladly recommend.  
 If you have no appetite, and feel tired, no energy for anything, try a bottle of BRICK'S and see how quickly it will help and improve your condition.  
 You can purchase a bottle of this excellent tonic at nearly every store in the country.  
**Price \$1.20 per bottle.**  
**Dr. Stafford & Son**  
 (Sole Agents for Newfoundland)  
 Duckworth Street and Theatre Hill.

**Radiates Vitality**  
 The man who gets on is the man who can draw on big reserves of energy. If you wish to succeed in life increase your strength and vitality by taking Bovril. Bovril builds up body and nerve and gives new and greater vitality. The man who tires easily is not likely to "get there."  
**Don't get tired—drink BOVRIL**

**Big Lips for Beauty**  
 The women of the Lake Tchad region of Central Africa vie with one another as to who can possess the longest lips.  
 When girls are about four or five years old, their future husbands pierce a hole in the centre of the upper and lower lips with a big thorn or a knife. Through these holes he places thick straws or reeds.  
 In a few weeks, when the girl has become used to the punctures, wooden pegs the size of a lead pencil are pushed into the holes. Three months later, when the lips have become accustomed to the distensions, larger pegs are inserted. At twenty-five a fashionable matron of the Sarus-Djings tribe is likely to have seven inches wide in the lower lip and five inches wide in the upper. Up to this time the discs stick straight out like birds' bills, but now they drop down from their weight.  
 After this larger discs are inserted about once a year. It is a matter of social pride with a woman to go on increasing her lips as long as possible.

**Laugh and Grow Fat**  
 is an old Axiom.  
 We advise the use of a Good Tonic and we know of no better than  
**BRICK'S TASTELESS.**

## Premier McDonald's Visit to France Causes Uneasiness

### British Government Decides Against Channel Tunnel--Spanish Suffer Severe Casualties in Morocco.

**MISUNDERSTANDINGS OVER ALLIED CONFERENCE.** LONDON, July 7. Prime Minister MacDonald surprised the House of Commons to-day by the announcement that misunderrstandings have arisen with the French Government over the invitation to the Inter-Allied Conference at London which had decided him to accept the suggestion of Premier Herriot of France to pay a hurried visit to Paris in order to smooth out the difficulties. The members of the House were evidently uneasy and mystified. Both former Premier Herbert H. Asquith and former Premier Stanley Baldwin, leaders respectively of the Liberal and Conservative, confessed themselves perplexed by Mr. MacDonald's statement; Mr. Asquith declaring himself bewildered regarding what has happened and what is going to happen. Both called for immediate publication of the memorandum included in the invitations to the Allied powers to attend the proposed conference.

**MACDONALD GOING TO FRANCE.** PARIS, July 7. Premier MacDonald of Great Britain informed Premier Herriot to-day that he would arrive in Paris at four o'clock to-morrow afternoon to confer with him regarding the proposed Inter-Allied Conference at London next week. The British Premier's telegram to this effect took the political world by surprise, all the more so in view of the fact that Mr. Herriot has an appointment for 3 p.m. to-morrow to reply to interpellations in the Senate on the very subject MacDonald is going to discuss.

**400 SPANISH CASUALTIES IN MOROCCO.** MADRID, July 7. News of a cruel and sanguinary battle raging in Morocco is contained in an official statement just issued here. Spanish casualties are 400. Later General Primo De Rivera of the cabinet conferred by telegraph with General Aizpuru, Spanish High Commissioner in Morocco. The official statement says information from Morocco reports bloody fighting with the enemy strongly entrenched and defending his position with extraordinary tenacity. Our troops, however, are in high spirit and morale and are carrying out their operations in difficult terrain with encouraging progress.

**INSURRECTION SUPPRESSED.** BUENOS AIRES, July 7. A Havas despatch from Rio Janeiro this morning says a telegram has been received there from Sao Paulo to the effect that the insurrection has been suppressed and order restored in Sao Paulo, the second largest city in Brazil and the capital of the country's wealthiest state, was reported early to-day to be still in the hands of insurrectionary forces, which took possession of the Government buildings during Friday night and Saturday morning in a sudden uprising marked by sanguinary street fighting. Owing to the strict censorship imposed by the Federal Government in Rio Janeiro and the lack of any communication whatever with Sao Paulo, the causes of the insurrection are thus far unknown here, but it appears to be sufficiently formidable to cause the Federal Government at Rio Janeiro to dispatch troops by land and sea as well as air forces to attempt its suppression. According to official statements by the Brazilian Government the insurrectionists consist of a small garrison of Federal troops, more circulating here are to the effect that the Sao Paulo police, military organized and French trained, joined the Government. Among the explanations of the uprising given here is one to the effect that it represents an effort by certain political elements in Sao Paulo state to secede from the Brazilian federation, declaring its independence and inviting the other states to join in establishing a new Government with the city of Sao Paulo as the capital. The coup d'etat is reported to have begun at 8 o'clock Saturday morning and was completed by noon. The revolutionists gained control of all Federal buildings after considerable fighting.

**DECIDES AGAINST THE TUNNEL.** LONDON, July 7. Prime Minister MacDonald announced to-day in the House of Commons that the British Government had decided against the construction of the tunnel under the English channel.

**STILL VOTING.** MADISON SQUARE GARDENS, N. Y., July 7. Brushing aside pending proposals for suspending rules and releasing delegates, the Democratic National Convention to-day went back to business of balloting for President. The proposition of fifteen minority candidates, including Governor Smith,

and the counter proposition by Mr. McAdoo was reported. An attempt to refer the proposals to the Rules Committee was defeated by a large vote. On the first ballot the leaders stood this way: McAdoo, 511; Smith, 363 1-2; Davis, 78 1-2. This was a loss of two for McAdoo, a loss of three and a half for Smith, and three for Davis. Other candidates divided the remaining 148 votes. Two delegates were reported absent.

**PRESIDENT'S SON HAS SEPTIC POISONING.** WASHINGTON, July 7. After a night during which the patient was said to have been near death in three separate sinking spells, Calvin Coolidge, Jr., son of the President, suffering from septic poisoning, was still fighting bravely for his life to-day, with his safe passage through the early morning giving slightly increased hope of his recovery.

**MACLAREN'S NEXT FLIGHT SATURDAY.** TOKYO, July 7. A. Stuart MacLaren, British aviator, who with two companions, arrived at Kasumilaura to-day, on his flight around the world, plans to spend several days either there or in this city before proceeding. MacLaren hopes to get away next Saturday. His first stop on this most hazardous and difficult part of his journey being Mitato, at the southern end of the Island of Honshu.

**CURE FOR CANCER IN SIGHT.** LONDON, July 7. Vice-Chancellor John D. Adams, of the Liverpool University, formerly of McGill University, in a statement to-day declared that research work at the University had reached the stage when it was possible to effect the disappearance of some, if not all, internal cancers. The Vice-Chancellor also announced that research work in connection with the foot and mouth disease had advanced to a point where it was possible to predict that a remedy for the disease would soon be found.

**DR. FERGUSON PASSES AWAY.** GLACE BAY, July 7. Dr. John Archibald Ferguson, for 12 years resident Medical Practitioner at Dominion No. 6 Colliery, died at 11.30 to-day, at the Glace Bay General Hospital, after an illness of several months. Dr. Ferguson, who was about fifty years of age, was born at Long Beach, Port Morien. He was educated at Dalhousie, from which he graduated both in arts and medicine. Before finally settling down in his native district, he practiced his profession for several years in Newfoundland. He is survived by his wife, a daughter of Rev. Dr. Polley, South Reigate, Vermont.

**U. S. ATHLETES LEAD.** COLOMBES STADIUM, Paris, July 7. The United States leads the 45 nations entered in Olympic competition after the completion of the record day events with a total point score of 54. Finland has 47 points, Sweden 15, and Great Britain 13.

**CANADIAN NAVAL SERVICES.** WINNIPEG, July 7. With the present annual naval appropriation, Canada could have had a permanent naval force of approximately 700. Instead we have not less than 2,000 men who are gradually becoming systematically trained seamen, declared Commodore W. Hoss, Director of the Canadian Naval Service, who was a visitor yesterday. The Commodore, who visited the Naval Volunteer Reserve points in Western

**LILACS IN THE ROOMING HOUSE DISTRICT.**

Down where the houses have faded and commerce has crept in to stay, and the last of the home-loving people have long ago journeyed away, as if in defiance of traffic, by a swelling of so-many rooms, in the dust and the noise of the city a lovely old lilac tree blooms.

None remembers the lady who loved it and planted it there by the door. When that house was a home for her children in an age to be known never more; None remembers the garden of roses that bloomed those earlier days. All have fled from that rooming-house district and only the lilac tree stays.

The house has grown ugly and bitter, it is seldom love smiles in the hall. The keeper now barter for dollars the welcome she gives those who call; The old fashioned charm has long vanished, for commerce has scooped it away. But with all its old-fashioned splendor that lilac tree blossoms to-day.

What memories cluster around it, profuse as the blooms on each bough-- The last touch of beauty which lingers where commerce is trafficking now! The men and the women who loved it to quieter places have gone. But shut in by that merciless city that lilac tree still blossoms on.

**Boy Scout Climbing Record**

Pasadena, Cal. July 4 (A.P.)--A new Boy Scouts' world's record for wall-scaling in 10.7 seconds was established here recently when Troop No. 1 of South Pasadena, shattered the previous record of 12.6 seconds held by a North Carolina troop. The event consists of a sixty-foot run with an intervening wall nine feet high that must be scaled by the eight boys comprising the team.

## Spring Overcoatings!

It is now time to leave off your Winter Weight. You can't go in your Jacket: so MAUNDERS' for yours. We have something sober and stylish and can also give you the "snappy" in Spring Overcoatings. If you want to fix up until you get your next Suit, we can match you with trousers or any other garment.

**Fruit all the Year Round**

As a result of a long series of scientific experiments it has been found possible to preserve fruit of all kinds for several months without cooking it.

Pineapples from the West Indies, grapes from South Africa, and peaches from California, if packed by this new method, will arrive in London just as fresh as when picked. Dried fruit, too, can be preserved in such a manner that, when water is applied on arrival, the fruit regains all its original flavour and size.

The preserving apparatus is simple and cheap. The fruit is washed and packed into tin cans. A light sugar syrup is then added, and all air is excluded. The tins are then hermetically sealed and stored in refrigerators. On arrival at the port of destination the frozen fruit is thawed out, when it immediately becomes as fresh as it was before packing.

Grapes are preserved by placing the bunches in tins, into which sulphuric acid gas is pumped. When all air is excluded the gas tube is withdrawn and the tins are sealed up. The sulphuric acid kills the germs which attack the grape skins, and so preserves the fruit until required for use.

These new methods of preserving should enable us to have a supply of cheap foreign fruit throughout the year.

**Large Audiences**

AT THE POPULAR STAR LAST EVENING.

The hundreds of patrons of this theatre were most loud in their praises of "Let Not Man Put Asunder," which was the feature picture last evening. It was probably Basil King's masterpiece and Pauline Frederick and Lou Tellegen, played the different roles in such a way as to please the most ardent movie critic. The performance will be repeated this evening and all who can should make an effort to see it.

For Wednesday, the well known Mabel Normand is to be seen in a United Artists Production entitled "Susanne."

**Diagnosis by Post**

Increasing interest is being taken by medical men in a new system of diagnosing and treating disease, a method which has caused world-wide controversy.

The method is known as the "E. R. A." (Electronic Reactions of Abrams), and was discovered five or six years ago by Dr. Albert Abrams, a San Francisco medical scientist. By means of a machine known as the oscillo-clast (vibration breaker) Dr. Abrams claimed to detect disease by the radioactivity of the patient's blood. A spot of blood on blotting paper can be sent by post and by means of the machine the disease diagnosed.

The radio-activity passes through the machine and is transmitted to a normally healthy man. Almost immediately reflex action is produced upon certain nerve terminals. The location of the disease is detected by tapping

the body of the healthy man with the fingers.

Dr. Abram's theory is that disease is caused by variation of the electrons of the tissue, and by his machine he sets out to heal the disease by rearranging these electrons. The treatment is painless and not electric. It is continued daily until the blood is clear.

Vibrations are sent through the body at the same rate as those of the

disease. The object of this is sympathetically to increase and intensify the vibration so that it will eventually be broken.

Have you a Suit or Overcoat made? We make a speciality of making up customers own goods at prices that are absolutely the lowest for first class work.

### Rhodes Scholarship for 1925.

The election of the Rhodes Scholar for 1925 will be completed at the end of September next, when candidates must be prepared to appear before the Committee.

Applications with ten typewritten copies of certificates and recommendations and unmounted photograph not larger than 4 by 7 inches, must be lodged with the undersigned not later than Saturday the fifteenth of September next.

The following are the conditions under which candidates are eligible to compete:

- (a) They must be British subjects and unmarried.
- (b) They or their parents must have been domiciled in the colony for five years immediately preceding the selection.
- (c) They must have completed their second year at some recognized degree-granting University or College before going into residence at Oxford.
- (d) They must have passed their nineteenth birthday, but not have passed their twenty-fifth birthday on October first of the year for which they are selected.

Birth certificates must be submitted.

Forms of application can be obtained from me at any time.

## In the Realms of Sport

### M.C.C.A. TRACK TEAM FOR MR. GRAVE.

The members of the Methodist Track Team, ten in number, will be leaving town by motor cars to-morrow morning for Mr. Grave, where they will be the guests of Rev. W. R. J. Higgitt, Rector of St. Paul's Cathedral. During the afternoon the boys will take part in the Field Sports, in connection with St. Paul's Annual Garden Party, which takes place at Shannon Park, commencing at 2 pm. The athletes from the city will give generous handicaps to the boys from over the Bay in all races events, and keenly contested races will eventually follow. Mr. Ronald O'Keefe, Newfoundland's champion distance runner, will also make the trip, and will run a three mile exhibition.

### REGATTA COMMITTEE MEETING.

A meeting of the Regatta Committee was held in the T. A. Armories last night, when a considerable portion of business was transacted in connection with the forthcoming Derby. J. A. Hiscok presided, and there was a goodly attendance of members. Secretary Ellis read a communication from the Bankers' League, asking that a Bankers' Race be included in the day's programme. This matter met with full approval of all, and it was decided that in giving the Bankers a place on the programme three boats' crews must enter. It is understood that there will be no difficulty in this respect as they have the assurance of four crews already. The collectors for the various wards were then appointed as follows:

- WARD 1—Section 1, J. T. Meenan, J. P. Crotty; Section 2, Councillor Dowden, R. H. Simms; Section 3, J. W. Morris, E. W. Taylor.
- WARD 2—K. Ruby, J. J. Lacey, A. W. O'Reilly, P. Brown, J. M. Tobin, R. Stick.
- WARD 3—Capt. English, P. F. Moore.
- WARD 4—J. M. Spears, C. E. Hunt.
- WARD 5—President and Mr. James Harris.

Unions—Councillor Vinicombe.

**WATER STREET**—(Employees & Cabstands)—George F. Kearney.  
WARD 6—J. M. Tobin, R. Stick.  
The President, Vice-President and Mr. J. P. Crotty will form the Luncheon Committee. Capt. English, A. G. Williams and Councillor Vinicombe will be appointed as a Pond Committee. Bugle and Blackboard, Mr. A. G. Williams.

The Judges for the Amateur, Juvenile and Intermediate Races are as follows:—President, Vice President, Dr. Roberts, P. F. Moore and C. E. Hunt.

Fourteen races will comprise the Regatta programme for this year, viz: Amateur, Tradesmen, Junior Football, Juvenile, Mercantile, Intermediate, Fishermen, Truckmen, Laborers, Factory, Senior Football, Intermediate, Fishermen, Bankers, Championship. The order of the races will be decided upon at a later meeting. A committee of four will call on His Excellency the Governor during the week and ask him to extend his patronage to the annual event. His Excellency has kindly offered a silver cup for competition this year. In addition to the regular prizes of gold and silver medals, and money prizes for the fishermen's race, a special bonus of \$20.00 will be awarded to the crew making the quickest time for the day. It was decided to charge a fee of \$5.00 on all tent holders at the Regatta, the amount to be used in connection with cleaning up the grounds.

The race boat Nellie R. is badly in need of repairs, and these will be effected by Mr. Bob Sexton as speedily as possible.

A communication was read from Mr. Reid in which was stated that he would meet all expenses in connection with boat and boat house and requested the Regatta Committee to take it over.

It was suggested that the Newfoundland Highlanders' Association be asked to undertake the care of the boat. The President signified his willingness to interview Lt.-Col. Herder with this arrangement in view.

Mr. W. Angus Reid was added to the Committee.

The meeting was then adjourned until Friday night next.

### TO-NIGHT'S GAME.

One of the best games for the season is anticipated for to-night, when the Saints and Cadets will face off. Both team were well in the running for the championship and great interest is being centered in the outcome of this meet. The teams will likely be:

**SAINTS**—Goal, Holbin; backs, Burridge, Roberts; halves, H. Elliot, A. Foster, W. Elliot; forwards, McNeil, Young, Sawyers, Squires, Calvert, Spares, Pike, Curran.

**CADETS**—Goal, R. Walsh; backs, Kavanagh, Brown; halves, Canning, Madden; forwards, Flynn, Caul, Walter Callahan, Meaney, (Bill) Callahan.

### BOXING CONTESTS.

Owing to the early departure of the H. M. S. Constance it has been decided to hold the boxing contests on Thursday night July 10th.

### STRAITS FISHERY

A report to the Board of Trade from the Straits for the week ending June 28th states that prospects for a good fishery were bright and there was every indication that there would be a large voyage. Both trawls and handline men were doing well; 1100 qts of fish were taken for the week. Twenty three and skiffs and thirty boats were operating. Ten traps were in the water.

### Laid to Rest

On Friday, all hat was mortal of the late S. J. Canwell, son of Mr. Wm. Canwell of Cape Sear was laid to rest in Blackhead cemetery. The service was conducted by Fr. Sullivan of Petty Hr. The funeral was a large one, showing the esteem in which the deceased was held and included many from the city, including Mr. Jos. Fitzgibbon and others. He leaves to mourn father, mother and five brothers, to whom the sympathy of the whole community goes out.

### Further Mineral Discovery at Placentia

The discovery on Thursday last of a large vein of silver and lead ore at South East Arm, Placentia, has caused a ripple of excitement in the Ancient Capital. The discovery was made by a prospector who has been working in the vicinity in the interests of a local syndicate. The news reached the city on Saturday night and since that all claims in the vicinity have been taken up.

### St. Michael's Garden Party To-Morrow Afternoon

The arrangements for St. Michael's Garden Party which takes place to-morrow afternoon on Lester's Field, are now well in hand. Last evening a large number of men were engaged until a late hour erecting the frame for the tents and in laying out the field for the sports, etc. A lot of work yet remains to be done in this direction, and it is expected that the men will turn up in large numbers again to-night so that everything may be in readiness for the big event to-morrow. The sports programme promises to be very interesting.

The men from H.M.S. Constance will provide lots of amusement with the "man in the barrel" and other novelties which in itself will be well worth seeing. A tug-of-war has been arranged between St. Mary's and St. Michael's Parishes, and a picked team from both will be picked against a team from the parish. There will also be the usual one mile, half mile and other events, as well as a football match between St. Michael's team and one composed of the Cadets from the Constance.

It is a well known fact that the ladies of St. Michael's Parish have earned a reputation second to none for catering, and at to-morrow's Garden Party they will not only sustain, but surpass, their reputation in this respect. St. Michael's Garden Party is the only attraction for to-morrow afternoon, and the success of the affair is absolutely assured.

### Winnipeg Electric.

Unreasonable weather and slowing up of business is the reason advanced for the decline in the net earnings of Winnipeg Electric. The fine weather of last fall evidently caused many Winnipeggers to walk instead of ride the cars, as the company noted a decline of 2,000,000 in passenger car-ridden. Incidentally the mild weather hit another branch of the company's activities, the gas department, as sales were off considerably also compared with previous cold falls, the decline being 55,000,000 cubic feet.

Sales of electricity were also affected, as industrial and mercantile establishments, on account of operating with reduced staffs or being idle, used less power and light than is required to meet their normal demands. Additional power contracts for 27,000 h.p., however, offset these reductions and established a new record for electricity output. The new plant at Great Falls provided sufficient power to meet all demands without using the steam plant under peak loads.

### English Electric.

Directors of English Electric of Canada will soon announce the date of the annual general meeting of shareholders. They will also pass upon the financial statement for the year ending Dec. 31, 1923. Profits will show an improvement over the previous year, and the company's strong liquid position has been maintained. Gordon F. Perry, president, and one other director, recently paid a visit to London in the interests of the company, and should have some interesting remarks to make to shareholders at the forthcoming meeting.

### Fire on West Coast.

On Saturday evening the historic Petries premises, Barr of Islands, barely escaped destruction by fire which started in Allen's Mill nearby. The damage to the mill was considerable and 200 Scotch herring barrels were destroyed.

### Bannerman Park FENCES AND SIDE WALKS.

Editor Evening Telegram  
Dear Sir—As the risk of being considered revolutionary, I would suggest to the authorities the advisability of doing away with the fencing around Bannerman Park, and thus save the expense they are about to incur in putting up a new fence. Why fence Bannerman Park? Who do you wish to keep out of the park? What advantage is it to have the place fenced? In Canada private dwellings have their grounds completely open to the street—no fences—and it is a common thing to see fruit on the trees surrounding a private house with no fence to protect it. The money about to be spent in putting up this fence would be better spent in giving us sidewalks on LeMarchant Road and other Streets, thus ensuring the safety of pedestrians.

Yours Truly,  
N. S. FRASER.

### Inducements to Tourists

Editor Evening Telegram.  
Dear Sir—Your to-day's editorial on Good Roads and Tourist Traffic is worth public backing, that action may be assured along such constructive ideas as you suggest and Mr. Hibbs deserves public recognition for his initiative in producing such a valuable reference work as indicated in that editorial. At our elbow, you might say, half a continent bears, through every summer of its history, millions of scorched, outfoating people, spending their days and nights struggling for breath, hundreds of thousands of those could, and would, find our shores, to breathe free air, if we would only learn the art of entertainment, and provide the means of travelling here. Well you say good roads and good hotels are essential, and I would add, good ships are needed, too, but none of those things will be created, unless vision and the heart and will to create, cause works, thus only can we make free our gifts to the use of those that sorely need them, our climate, our country-side with health and comfort for their bodies and minds, as the earth of old was made free to mankind at large. And it would surely seem that creation especially designed for this Island for those to seek from the toll aff oppression that besets them, where they sweat for livelihood. A powerful creative means of promoting the works needed lies in our keeping; let properly built hotels, under reliable management, provide light wines and beers to guests; Temperance lies there. I have met many hundreds of tourists around the Gaspere Coast in Quebec, and I never did see a single one drunk. It is time to return to the condition shown by the narrative of the Good Samaritan, who a traveller, had wine, as well as oil, to pour into the wounds of his neighbour.

AD VALOREM.  
July 7th, 1924.

### Sportsmen Arrive in Yacht

Home arrived at Humbermouth 9 o'clock this morning.

### Body Arrives by Home.

The Deputy Minister of Justice has received a message from Magistrate Scott, Curling, stating that the body of the late J. T. Croucher, I.P., who died suddenly at Battle Harbor, arrived by s.s. Home, and was being forwarded by the express for interment.

### Personal

Capt. Abraham Kean celebrates his 68th birthday to-day. Congratulations.

# Royal Yeast Cakes

## Produce and Provisions

**Codfish**—The schr. Faustina took out 4,767 qts. of fish from Henry Clement and J. Penney & Sons, Ramsea, to Oporto this week; the A. H. Whitman 2,233 qts. from A. E. Hickman, Hr. Breton, to Oporto, and the Lady St. John 3,400 qts. also to Oporto from Wm. Webber & Sons, Renouville. The foreign markets are keeping in good condition. Our stocks in Oporto are down to 16,615 qts., with consumption 3,985 for the week. Norway had 33,370 qts. in the Oporto market at the end of June but it was being absorbed at the rate of about 5,000 qts. per week, being new fish. The outlook for next fall's marketing of our 1924 catch is very good. If our exporters do not get panic and start the price too high and thereby antagonize foreign buyers at the outset, all will be well. If they start at \$8 and have to come down to \$5 later in the season it will be disastrous. A leading exporter said to The Trade Review yesterday "If we can open out at \$7 for No. 1 merchantable and keep it from going lower all will be well, and this is what I hope will be done." Asked whether he did not think that the big Norwegian catch would drive the price of our fish down below \$7 in the local market, he said "No, I do not fear Norwegian competition. Their fish is fast going into consumption, they have more buyers and consumers this year than any time since the war, and most of it will be gone into consumption before ours reach the European markets in heavy quantities in the closing months of the year."

**Cod Liver Oil**—We extend our welcome to a party of American scientists who arrived by the S. S. Rosalind from New York. This party is composed of some of the ablest university professors whose work during the next month or more will be confined to the biology of the codfish, tracing its life history from the beginning, also the investigation of the food and environments of the mature codfish. The principal object in view is the study of cod liver oil and the reason of its wonderful vitalizing power. With this object in view a model cod liver oil factory and laboratory has been erected at Bay Bulls at considerable expense. The Marine and Fisheries Department are rendering all the assistance possible to those visitors. We hope to have further information to give readers in our next issues as this scientific movement which was started two years ago is now growing and sure to have wonderful developments in the near future.

**Common Cod Oil**—There are many substitutes for common cod oil in the leather trade, and therefore no

prospect of much better price in the future, but it is very different with the refined oil for medicinal purposes as it is one of the greatest possibilities. If we intend to put this country ahead we must all co-operate and not miss any opportunity to show the scientists now visiting our country that we appreciate their efforts and are ready to help in any reasonable way for the benefit of all concerned.

**Canned Salmon**—Stocks of last year's canned salmon are completely exhausted. The few cases remaining sold for \$9.50 per case. Reports are now being received that the catch this season is far short of an average. Several packers who are always certain of 150 to 200 cases for the season, have not secured 20 cases to date. The report all along the French Shore is to the same effect. When the first sign of salmon was seen the weather was so blustery that no person could attend to the nets. Some consider that the presence of so many seals in White Bay and along the Treaty Coast this season has had the effect of driving the salmon off the coast. It is almost too late now to look for any quantity and the supply is going to be very short.

We know of several packers who refuse to sell any under \$10.00 per case and some intend holding for \$12.00 per case and even these prices will not pay them unless there is considerable improvement during the next two weeks.

**Lobsters**—A few cases of lobsters came in from Placentia Bay this week. The pack so far is poor, which it is said is due to taking off the inspector. A request was made for a few cases for the British Empire Exhibition and great difficulty was found in getting even two sound prime cases. The fishery to date is poor. The highest is one packer in St. Mary's Bay who has 24 cases. The price paid so far for P. B. new catch is \$22.50.

**Flour**—The first car load of new 1924 wheat was sold at Pillsbury on June 15th in Kansas. Since then the harvest has continued amid ideal weather conditions. Reports state that the vast golden plains of Kansas are producing the best milling wheat on record. Harvesting was spreading rapidly when our correspondent wrote on June 24th and is likely to be nearing completion at this date. Crop reports from Minneapolis and the northwestern States are very favorable. Recent rains and better weather are bringing wheat along nicely and some places are said to be nearly equal to last year.

**Pork**—The market is unchanged and local quotations are practically the same as in our last week's issue, viz., fat back \$24, ham butt \$24.25, S. C. Clear \$24, and spare ribs \$23 per barrel. Ham butt is becoming a scarce article in the market. Owing to the holidays this week, two here and followed by two in the United States, a minimum of business has been done. The S.S. Rosalind brought in this week 550 and the S.S. Winona 235 barrels. Total 785.

**Beef**—The beef situation remains unaltered and no change in prices is anticipated during the warm season. Boneless beef is rather scarce in the market, and this particular grade may advance twenty to fifty cents this month on scarcity. The imports of all qualities this week were 785 barrels, viz., 650 by the S. S. Winona from Montreal and 135 by S. S. Rosalind from Halifax and New York. Local quotations stand at \$24.50 for flank, \$23 family, \$22 box pack, \$20 family special and \$20 boneless.

**Molasses**—The quality of the choice molasses imported from Barbados this year has given excellent satisfaction, unfortunately the quantity available is not nearly equal to requirements. We predicted that 80c. per imperial gallon would be easily obtained for the choice grade

and our calculations have been correct. We fully expect to see choice molasses selling at 85c. before very long. Fancy molasses will be commanding 95c. per imperial gallon when trade opens up during September. The very strong position of sugar on which there has been a continuous advance and likely to go still higher during the fruit preserving season will make values for molasses very firm. The Sunset Glow is on the way from Barbados with a cargo and the Frank Adams and Lila D. Young will also take cargoes. The imports to St. John's are now over 6,000 punchons as against about 5,000 at this date last year.

**Sugar**—The price of sugar in the local market is the same as quoted last week. An advance of 10 cents per 100 lbs., however, took place at Montreal this week in all grades. There is no change in the New York quotations, but as the demand is increasing daily the figures may stiffen any day. The grinding operations of the big crop in Cuba are about over and renewed activity in placing orders is expected to occur in a few days. The St. John's price is still \$7.60 per 100 lbs. for white "A-m. granulated."

**Tea**—There is very little change in the tea market. The firm feeling maintained, the first sales of the new indicated in our last week's report is maintained, the first sales of the new Indian teas being exported at high prices. The market for the higher grades especially of Indian and Japanese tea will, it is believed by dealers, hold up for several months to present high levels. Lower grade teas are likely to ease off a bit when the market becomes active. British tea importers regard the present position of tea as very strong for Ceylon and Indian higher grade teas.

**Hay and Oats**—The market for hay and oats continues quiet and the local demand is at a low ebb, as is the case with all this season. The local market continues at \$2.60 per 4 bushel sack P.E.I. Hay is \$35 to \$35.50 per ton. A fair amount of business in hay continues to be done in Canada for shipment to the States, good Timothy being scarce a firm feeling prevailed in the markets of Montreal. Sales of car lots were made there this week at \$17 for No. 2 Timothy. The hay crop for this season will, from present indications, be up to average.

## The Depotism of Demagoguery

**Morning Post:** As this country has a constitutional problem of very much the same character, we cannot but be profoundly interested in the development of the French crisis. In the old days, the system of checks and balances was directed against the usurpation of authority by executives. Today legislatures, more particularly democratic assemblies, are laying claims to powers, in America, in Great Britain, and in France, which seriously interfere with the executive's conduct of foreign affairs, and, moreover, tend to remove any barrier against the sudden impulses and caprices of popularly elected legislators. Tyranny is eternal, and the new tyrant is the demagogue. He is at this moment very active in our country. Is he now going to make his influence felt more strongly in France? And if, in his democratic zeal, he breaks the balance of the Constitution, may he not be creating a precedent which may be seized by even more ruthless spirits?

## Shooting at the Moon

**Signals Planned to Reach the Planets.**  
One of the great dreams of scientists has always been to communicate with other planets. The dream has been reflected in fiction, in such wonderful stories as Jules Verne's "Around the Moon" and Mr. H. G. Wells's "First Man in the Moon."

Jules Verne's hero devised a method of shooting himself and his companions out of a huge cannon, while Mr. Wells's idea was the discovery of a metallic alloy which cut off the power of gravity, and so enabled its discoverer to travel through space.

In 1891 a certain Mme. Guzman left a legacy of 100,000 francs to anyone who, within ten years, should discover a means of communicating with any planet.

This year, also, an attempt is to be made to communicate with the moon. The money and machinery are ready, and the inventor of the latter, Professor R. H. Goddard, is backed by the Smithsonian Institute of Washington.

## PAYING UP.

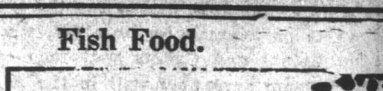

I feel all kinds of pleasant thrills, glad smiles, my face adorns, as I proceed to pay my bills each time a month is born. I write my checks, a goodly heap, and to myself I say, "The grocer now may cease to weep, the butcher may be gay. The plumber's haggard face will shine, the tinsmith's breast will glow, when they receive these checks of mine, to pay up what I owe. The undertaker's mournful life of sorrow will be rid, the harness-maker's patient wife may buy a Sunday lid. There are a hundred ways to aid the ones who weep and wail; some hand out maxims with a spade, or spring a sunshine tale. Some will resort to any plan that does not tap their tills; but I would cheer my fellow man by paying up my bills. And so I see the tailors smile, the blacksmiths show their delight, mechanics come, in single file, to tell me I'm all

right." There is a most benign old bird who tours the village streets; he always has a kindly word for every one he meets; he always has a pleasant smile for every one on deck; but when you'd draw upon his pile he freezes up like heck. The sunny smile and genial phrase are surely most sublime when offered by the man who pays his monthly bills on time.

A solution of baking soda or Epsom salts is excellent for bathing eruptions caused by poison ivy.

### Cur Montreal Letter.

(From Our Own Correspondent.)

THE NEW ENGLISH HOSPITAL OPENED.

The new St. Mary's Hospital for the English speaking Catholics of Montreal has been opened with accommodation for forty-five patients. A few days ago, your correspondent visited the place, and was shown through the building by Sister Morrissey, the Superior and Sister Keown, the assistant. The place is beautifully furnished, many relics of the old home of the late Baron Shaughnessy being left there. An effort will be made to purchase the adjoining property of the late Lord Strathcona. The selling price is a quarter of a million dollars. With this addition the new hospital would cover a block, and be right in the centre of the city. At present the modus operandi for the temporary hospital is to have three thousand members who'll subscribe \$12 a year, the same to be applied for the running expenses. A big drive is in progress which will net at least \$200,000. Among the most zealous workers for the new hospital is a Newfoundlander, Mr. Frank J. Jackson, who has succeeded in getting over one hundred subscribers. During my visit Sister Morrissey received a letter from a lady containing \$5,000 for the work, and Rev. Dr. Gerald McShane of St. Patrick's has donated \$500.

mail to those who called at those places for it. Many of the strikers will lose their jobs, as the Government will not back down on its decision—not to increase their pay. Those of the strikers who did return are taken on only temporary, and with no agreement as to salary. Those who will lose their positions will also lose their pensions.

**MANY PEOPLE IN CANADA AND THE STATES NOT PAYING INCOME TAX.**

The Montreal Herald, editorially, under the heading of "Income Tax Evasion," says:—

Canada has about 9,000,000 people. Of these only 281,512 last year paid income tax. In the United States there are 110,000,000 people, and the actual number making income tax returns was only 7,000,000. Both in Canada and the United States there is a strong suspicion that many people who ought to pay the tax are not doing so. As far as Canada is concerned the suspicion is heightened by a study of amounts collected from various classes. Last year the tax came from the following:—

Farmers . . . . . \$ 473,049  
 Professionals . . . . . 8,668,900  
 Employees . . . . . 15,529,949  
 Merchants . . . . . 5,474,256  
 Manufacturers . . . . . 870,261  
 Not Classified . . . . . 490,046  
 Business Profits . . . . . 28,022,149  
 All Others . . . . . 6,855,950

One thing that appears quite certain from the above is that one class pays its full share, namely, the employees. The officials can check up on this class quite easily, since every employer has to supply the Government with his payroll. But the figures give no certainty that the other classes pay their full share, and how to make them do so is a problem. In the United States, where tax evasion is suspected on a large scale, a move has arisen for increasing the effectiveness of the law in reaching those who should pay. It is proposed to do this by making income tax returns public, on the theory that publicity would help in smoking out many evaders. These proposals have been incorporated in the Norris amendment to the Tax Bill which has been passed by Congress and is before President Coolidge for his signature or veto. Those opposed to the amendment protest the danger of business or personal rivalry being enabled to take advantage of information in the returns. Such a proposal indicates the length to which government is reaching in these latter days. It would cause a howl of indignation in this country if income tax returns were made public, and would possibly mean the defeat of the government adopting such a means of intimidating evaders of the tax. But the law should be equally and impartially enforced. Perfection in this respect may

be unattainable, but it should be the ideal.

**GLUTTONY AND CANCER.**

A Montrealer's diary in the Herald says:—

We are devoting much attention in Montreal to the cause and cure of cancer and as no prohibition movement has been suggested to stop over-eating which Dr. Charles H. Mayo, of Rochester, Minn., says is one of the principal causes of cancer, we shall have to rely on publicity as a means of education, and upon individual self-control as the only means of showing up the immoderate eaters who so often "dig their graves with their teeth."

Is there any effect of excessive drinking of any potable beverage, alcoholic or otherwise, so dreadful as this effect of overeating? Would any sane person take a chance of becoming a victim of cancer? Dr. Mayo assures us that the doctors will find a cure for it within a few years.

The alleviation by means of serums, radium, or X-rays, Dr. Mayo says, is in the experimental stage, and he is not sure which, if any, of these remedies will be the predicted cure. We have all inherited the tendency to excess in eating and drinking from the days of barbarism, when food and drink were uncertain and hunger and thirst often almost unbearable. It is possible now, without laws or prohibitions, to eat and drink without courting disease or delirium.

**THE PRESENTATION BROTHERS REMAIN IN THE HIGH SCHOOL.**

Contrary to expectations, the Irish Presentation Brothers are to remain at the Catholic High School. The friends of the Brothers fought vigorously against the change, and after many stormy meetings, succeeded in reaching an agreement with the Board of Governors. At the annual meeting of the Governors, the same members were re-elected, and Rev. Fr. McShane, Chairman of the Board, announced that he and Rev. Brother Breen, Provincial of the Order in Canada, had reached an agreement on certain matters, and the Brothers would still be retained in the school. So the trouble ended and everyone seemed satisfied with the decision. The Brothers are taking charge of St. Augustine's new school at Notre Dame de Grace, and also the new home for English speaking Catholic boys.

**THE POSTMAN'S STRIKE CAUSES INCONVENIENCES.**

The Postman's strike caused a great deal of inconvenience, especially to business concerns. For two days and a half no mail was delivered throughout the city. Saturday afternoon, June 22nd, the delivery got a start. Those who did not go on strike, with the aid of the new clerks, kept things moving at the General Post Office and branch offices, by delivering the

**C. P. EAGAN**  
 TWO STORES  
 DUCKWORTH STREET & QUEEN'S ROAD.

our great metropolis, because of the failure to recognize the necessity of training and safeguarding our most precious human asset—character.

"We support at enormous cost reformatories and prisons for punitive and corrective purposes. Most of this expense could be avoided were our fellow citizens of every denomination to increase and strengthen religious instruction of the children as society's most effective force for the prevention of delinquency and crime.

"But infinitely more important than the saving of dollars through building up religious training, instead of reformatories, would be the saving of human lives for degradation and misery. Prison chaplains advise us that the great majority of those brought to court for wrong-doing have had little or no religious instruction. The most potent single force for rearing a decent, law-abiding citizenry is religious training.

"We therefore appeal to all parents in our great city to get their children on the path of life with the high spiritual impulses of religious ideals. Secular education should be supplemented by a religious training which conforms to the faith of the parents, but which in its beneficent results, will unquestionably rebound to the security, advancement and the perpetuity of our nation."

**THE RULE OF THE HOME.**

"In all the world—go where you will, You'll never find another Who'll stick to you through good or ill. And love you like a mother.

In all the world—where'er you roam, With sister, wife or brother; You'll never know so sweet a home, As that one made by mother."

If the homes were to measure up to the standard of our schools a large amount of evil and crime would be unknown. But when the home tears down what the school is endeavoring to build up, that is to make honest, industrious, and God-fearing citizens, by inculcating in the minds of the children religious principles, then there is bound to follow degradation and crime. In order to go right a man must think right. It is a psychological law, that any type of thought, if entertained, for a sufficient time, will, by reaching the motor tracks of the brain, finally burst into the corresponding action. And, so it is, with the evil inculcated into the minds of the "rising generation," either by bad parents or evil companions. The Dearborn Independent says:—

A Brooklyn judge asserts that more than eight per cent of our criminals are under twenty-five. Another New York jurist observes that the average hardened criminal is about seventeen and that the age at which the largest number of criminals are committed to jails and reformatories is fifteen. This implies a youth situation of alarming proportions and implications.

How can this frightful wastage of young life be accounted for? Those nearest to the facts tell us that it is not the fruitage of a crime wave that inevitably follows in the wake of war. The gauges go much deeper. In the final analysis the principal indictment falls upon one only institution and that institution is the average American home.

The top root of the situation is contempt for rightly constituted authority. A generation ago the parents governed the family. To-day the tables are largely dictated by the children. Consequently, before either the school or the church can assume any guardianship, the seeds of potential disorder have been sown. Nothing is plainer than that moral education, like charity, must begin at home.

The child who has not learned a wholesome respect for home-law will have nothing but disdain for school-law. The youth who has not been disciplined to regard either, will leave school around fourteen and go either to defy all law. And when he talks into the stern hands of the guardians of the law he will have his parents to thank most of all.

The remedy is not better laws or better schools or better churches. It is better homes and better parents.

**HOUSEHOLD NOTES.**

Some people prefer sliced orange to lemon in food-ice.

Mint is an ideal flavoring for a diet orange cocktail.

When making potato salad, rub the bowl with a cut onion.

Serve blueberry better pudding with hard or foamy sauces.

**THE VIEW FROM THE TOP.**

"The view from the summit is well worth the climb. The air is all balmy and sweet; You feel at the distance the merry bells chime. The heights are with beauty replete."

**RELIGIOUS TRAINING PREVENTS CRIME.**

"Tis by Christian education, That the spirit of a nation, Animates and grows strong. Can there be a greater token, Where the law is scarcely broken, Even by a single wrong?"

In an appeal to parents issued by Judges Alfred J. Talley, C. T. Crain, and Otto A. Rosalsky, of the General Sessions, New York, the following is taken:—

"By means of our judicial positions, we are daily brought face to face with cases of moral breakdown. The more we consider the causes which have produced these cases of delinquency and crime, the more we are convinced that much of the responsibility for them rests upon all the citizens of

**AN ILLUMINATED CROSS ON THE MOUNTAIN.**

Not myself but the truth that in life I have spoken, Not myself but the seed that in life I have sown, Shall pass on to ages all about me forgotten. Save the truth I have spoken, the things I have done.

The laying of the corner stone of the large illuminated cross to be erected on the summit of Mount Royal, took place on Sunday afternoon, June 22nd, in presence of thousands. The cross is erected by St. Jean Baptiste Society. The original design is by Rev. Fr. Pierre Dupaignes, Sulpician Priest, and Professor of the Seminary of Philosophy.

Observatories are in the arms and at the bottom of the cross, all made of steel and ornamented with 280 electric lamps. The pedestal, made in two parts, will be made of reinforced concrete covered with stone. The work of installation will be under the supervision of Mr. Louis Parent, architect, and the metal construction has been awarded to the Dominion Bridge Company. The summit of the cross, where there is another observatory, will be at a height of 628 feet above sea level.

**THE TIME YOU LOSE when Constipated makes every Beecham's Pill worth at least a Dollar in the Time it has Saved you.**

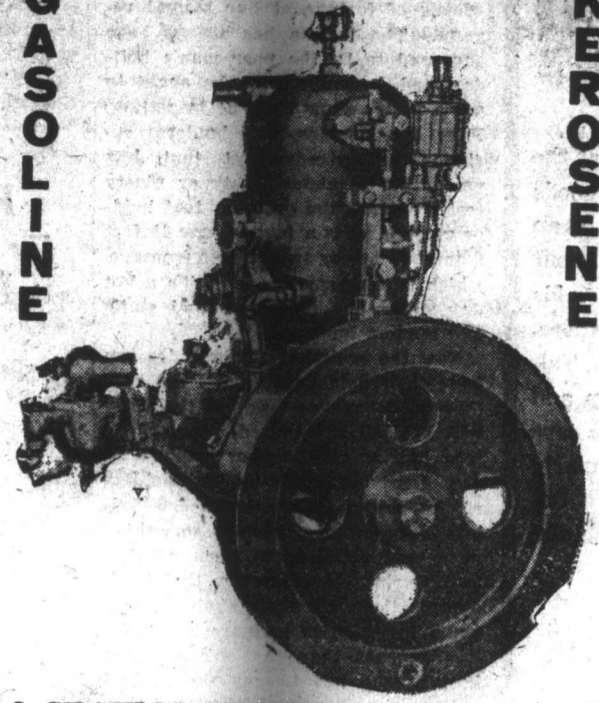

The Constipation Habit costs more than time, for it sets you back in many ways. It lowers vitality, cuts down your ability, wastes even the food you eat. Beecham's Pills make your bowels free and regular. They are famous also as an aid to digestion and a stimulant to the liver. Beecham's Pills, by helping the entire digestive tract, benefit the whole system.

### Household Notes.

by crushing the berries and sweetening them. A little lemon juice brings out to their full richness all the flavors of a fruit cocktail.

Save berry puddings with a sauce made

## SIDE TALKS.

By Ruth Cameron.

### MAKING BEAUTY TRACES A LESSON.

My next door neighbor has a five-year-old son who is having a lot of fun with a garden all his own this summer. There is work connected with that garden, too. But every day you will see the curly little head bending over his garden, weeding and pruning, and every evening with his little can he waters it.

I commented to his mother the other day on the child's faithfulness. "It's not often," I said, that you see a child taking such interest in a garden."

### Learning Respect for Other's Rights.

His mother smiled. "You wouldn't see Teddy taking such an interest either, if I didn't insist," she said. "You see, I have a theory that it's a good thing for him in lots of ways. To begin with, it's well for him to learn that even flowers don't 'just grow', but that they must have care if he is to get the best results; and last of all, I think it is going to give him more respect for other people's rights."

"I don't quite see the connection there," I said a bit uncertainly.

### The Beauty Spoilers.

"Perhaps I don't express what I mean very well," she said, "but if some people had a chance to watch the growth of flowers and help bring them to the full beauty of their bloom, they wouldn't be so quick to destroy growing things and so careless about spotting beauty spots with unsightly clutter. Now there's Robin Wood. It used to be such a lovely place to go for a walk but since it has been opened up to the public, with the cars going out there, it has been almost spoiled by the carelessness and thoughtlessness of some people. Last Sunday we walked out there and went down a path to a little spring we had

### Wedding Bells

HARRIS—BROWNE.

The Chapel of the Sacred Heart was the scene of a very pretty wedding on yesterday morning, when his Grace the Archbishop assisted by Rev. Fr. P. Kennedy, Mary Grace Harris, daughter of the late Mr. and Mrs. John Harris, became the bride of Mr. William J. Browne, M.H.A. The bride, who was given away by her uncle, Mr. Thomas Harris, was beautifully robed in white satin with a bodice of Brussels lace and train and wore a veil and orange blossoms and carried a bouquet of white carnations and sweet peas. The bridesmaids were Misses Alice and Marjorie Harris. The former was gowned in pale blue taffeta, with a black picture hat and carried a bouquet of pink carnations and sweet peas while the latter wore a gown of orchids with a large picture hat and carried a bouquet of pink carnations and sweet peas. The train bearer was Miss Margaret Conroy, daughter of Mr. and Mrs. C. O. Neil Conroy, who was dressed in pink organdie. The groom was ably supported by Mr. Harry Sinnott. After the wedding ceremony, the nuptial mass was said by Rev. Fr. P. Kennedy.

### Social Drama at Majestic

A WONDERFUL PHOTOPLAY.

Mr. Ben Redden's songs at the Majestic last night, won the instant approval of the large number present. His singing of "Rose of My Heart," was repeatedly encored as were also his first and second contributions which were likewise of a high order. The feature was an attraction worth more than passing reference. "The Rattle of Silk," is an elaborate demonstration of the laws of high society folks wherein a lady's maid is really a Countess. It is a seven reel Paramount, complete with many startling revelations that commands the interest of all from the first to the seventh reel. Betty Compton, the beauty of the screen is the star in "The Rattle of Silk," whilst an extraordinary strong cast is supporting the celebrated Betty. The musical effects and Majestic appointments were particularly pleasing last night, and a word or two of commendation of the desire of the management to avail of every detail to please patrons is in order. The returned soldiers who saw last night's picture were specially pleased and no doubt a large number will avail of the opportunity to see it today and to-morrow. The various political situations give a realistic scene of the British House of Parliament, all of which go to make up a strong stirring drama.

### BROWN—SALTER.

Miss Frances Chaucer Salter, daughter of Mr. and Mrs. W. T. H. Salter, of 48 Houston Avenue, Mattapan, and a graduate last week of Radcliffe College, became the bride of Wallace Winthrop Brown of Joliet, Ill., also a graduate last week from Harvard Law Schools, at a pretty wedding in St. Michael's Church Thursday evening. The officiating clergyman was Rev. Vincent Leroy Bennett, rector of the church, and the bride was given in marriage by her father. Bridesmaids were Miss Laura Gleason of Bennington, Vt., a classmate of the bride at Radcliffe, and Miss Evelyn Howard of Brookline, a recent graduate of Sargent School. The groom was attended by William Sanford of Opelaka, Ala., a Harvard Law School man. Ushers were William Thomas Salter, a brother of the bride and now a student at Harvard Medical School, S. Burton Badcock and Joseph Belser, both of New York. Following the marriage ceremony there was a reception at the home of the bride's parents, after which the bridal couple left for New York from where they will sail today for Europe to tour through England, Scotland, Wales and France. On their return about the first of September they will make their home at Hartford. The bride is a graduate of Milton High School. Mr. Brown is a graduate of Silver Military School and the University of Illinois.

### Don't Get Bald

Cuticura Does Much To Prevent It

Dandruff, itching and scalp irritation point to an unhealthy condition of the scalp which leads to falling hair and premature baldness. Frequent shampooing with Cuticura Soap do much to prevent such a condition, especially if preceded by a gentle anointing with Cuticura Ointment.

Send for Free Book, "How to Cure Baldness," by Dr. J. C. Clark, Cuticura Soap Co., P. O. Box 1080, St. Paul, Minn. Try our new Shampoing Soap.

### For Rainy Days

Vancouver Province: Refunding is not paying, and it is scarcely fair to pass on our obligations to posterity in this wholesale manner. Future generations may applaud us for having fought the war, but they will not be so apt to do so if we leave it to them to pay the bills. Paying would not be easy for us, but we should at least make a start. It is the essence of sound finance, when there is a loan outstanding, to make provision to meet it by way of a sinking fund or in some other manner, and this holds good of nations, provinces, municipalities, corporations or private individuals. It is the only honest thing to do, and the discipline the saving involves is good for those concerned. It would not hurt Canada, any to economize. Productive expenditure can not well afford to reduce, but there are plenty of frills that might be cut out.

When you once get to know how good Ivory soap is you will always use this fine pure soothing toilet soap. Ivory is as good as any soap can be, yet it costs less money than most toilet soaps.

Raspberries are very nice when chilled, sweetened and served in chilled halves of cantaloupes.

**CLEAN UP and KEEP CLEAN**

This is what the New Government intends doing. We have been doing this for 25 years, as Cleaning, Pressing and Dyeing is our sole business. We devote our entire time to it and therefore we can give you better satisfaction than you can get elsewhere. Owing to the growth of our business we have had to remove to larger premises on the opposite side of the street (No. 22 opp. A. V. Duffy), which gives us ample room. We use the first flat, shop and showroom; second flat, repairing and pressing rooms; third flat, dyeing and renovating.

We would like you to see some of our work before sending elsewhere; all prices reduced since the New Year. Cleaning Orders given our first and personal attention. A rush job is our specialty. We call for goods and deliver them in two hours, if necessary. Suits Pressed while you wait; a nice dressing room to change in. We can handle over one hundred pressing orders daily. In addition to Cleaning and Pressing, we clean and shape hats.

Gents' Suits Dry Cleaned—Hats Cleaned.  
 Ladies' Costumes Dry Cleaned—Suits Renovated.  
 Ladies' and Gents' Suits Dyed. Blue Serge restored to its original color.
