## LOCAL HAPPENINGS

THE GUIDE-ADVOCATE welcomes all items of interest for this column. Call Phone 11, send by mail or drop item in GUIDE-ADVOCATE Letter Box.

### GOOD SAP WEATHER.

New wall papers at McLAREN'S. Sunday and Monday were pet days. ARE your Rexall domesticated cyprinid thriving?

DIG up that ground that is idle and reduce the cost of high living.

KING hats and Eastern caps, correct Easter styles.—A. BROWN & Co.

MISS MINIBLY will open the latest spring millinery styles on March 26-27.

IF food keeps on becoming scarcer in Germany the Prussian Diet will be no joke.

W. W. EDWARDS shipped a double deck of sheep and hogs to Toronto Tuesday.

SOME people labor under the delusion that the right-of-way means the whole sidewalk.

THE rainy season comes next. We have the coat you need.—SWIFTS'.

PERHAPS the submarine and mine are declared immoral on the ground that they belong in the underworld.

THERE is generally a good demand for cod fish during Lent, but that piscatorial delicacy was sidetracked by gold fish on Saturday.

THE projected Dollar Day for the village of Thamesville failed to come to a head through the petty jealousies of some of the business men.

PRICE of vacuum sweepers is \$6.50; by some mistake \$7.50 is quoted in our ad.—T. DODDS & SON.

DON'T say cuss words over the telephone or you'll be liable to a fine, according to the legislation Hon. Mr. Lucas proposes to introduce.

BETWEEN the ages of seventeen and twenty a girl meets the only man she ever loved about twice a month—and it is always a different man.

IF you are building, get our prices on nails, glass, building paper, etc. We can save you money and have the goods.—THE N. B. HOWDEN EST.

HON. JAMES DUFF, Minister of Agriculture, stated in the Legislature that the provincial grants to fall fairs will be paid in full if conditions warrant.

IT is not too early to make plans for growing a few vegetables on the back of your village lot. There will be need of all produce that can be grown this year.

MR. JAMES CRAIG has returned from Applegate, Mich., where he attended the funeral of his cousin, David Maxwell, an old Watford boy, who died March 6th.

THE much talked of war souvenir spoons now on sale at McLAREN'S, 25c each.

A GERMAN scientist has discovered a method of making food out of straw—proving that Germany is years behind some North American breakfast food makers.

THE doctors will tell you that regular and temperate habits, care as to diet and plenty of exercise in the open air will do much towards warding off illness at this season of the year.

WHAT with Greece and Roumania "hesitating," Britain and France doing the Dardanelles dip, Turkey on the point of "rotting," and Prussia undergoing a Bunny hug every now and again, historians will be apt to call it the Tango War.

HAVE you ordered your 20th Century suit? The finest Canadian-made clothing.—A. BROWN & Co., Sole Agents.

A WELLAND paper got into a peck of trouble through saying that a local church service would be "hell," instead of "held," etc. A number of subscribers attempted to roast the editor on the typographical error but the only satisfaction they got was to be told to go to the place that was mentioned by mistake.

MISS WILLIAMS celebrated her 77th birthday on Sunday. Her millinery business is the oldest business of any kind conducted under the same management in Watford, she having been at the helm for fifty-eight years. Her many friends congratulate her on her continued business acumen.

EVERYTHING here for Easter, blouses, gloves, whitewear, neckwear, skirts, silk waists, suits and coats.—SWIFTS'.

THE engagement is announced of Miss Lorraine Mann, daughter of Mrs. John R. Mann, of Dayton, Ohio, to Mr. Angelo Cortese, of Memphis, formerly of London. After the wedding Mr. Cortese will take his bride to his southern home for a month or so, and later they will join the colony at Sarnia for the summer.

THERE is a wrong impression abroad that the tax of one per cent. on bank circulation applies to the public. There will be no tax or deduction on the withdrawals of deposits in banks other than the 2 cents revenue stamp requested to be affixed to each cheque. The one per cent. tax on a bank's note circulation is paid by the bank. The total to be paid by the chartered banks of Canada amounts to over one million dollars.

BEST American oil 16c. or 15c. in five gal. lots; Polarine auto oil, 75c per gal. 70c in fives; floor oil, 60c per gal. at HOWDENS'.

NEXT Sunday is the first day of spring. SPECIAL in bath towels, 2 for 25c.—SWIFTS'.

KEEPING OUT of trouble seems to be Uncle Sam's hardest job just at present.

THERE appears to be a growing impression among politicians that the Dominion elections are not far off.

IT is said that the reason the gold fish were in such demand on Saturday was on account of the sale being held during the fish season—Lent.

ARROW shirts and collars are in a class by themselves—made in Canada.—A. BROWN & Co.

THE spring assizes started at Sarnia on Tuesday before His Lordship Justice Clute. There are two civil and two criminal cases on the docket.

ON Sunday evening next a special song service will be given in the Methodist church by the choir. There will be anthems, quartettes, duets and solos.

THIS (Thursday) evening, the Rev. Murton Shore, rector of Watford, will be the special preacher at the Lenten week-night service in Trinity church.

SEE our specials in graniteware. Bargains in our south window.—T. DODDS & SON.

THERE was a big crowd of people in town on Saturday. The mild weather was one of the factors in bringing out so many people. The attractions offered by our merchants was another.

GOVERNMENT speakers are pointing out the vast amount of wealth the keeping of hens by every family would produce. If they would impress upon the hens that it is their duty to lay when the price of eggs is high, so many people would not get discouraged.

TEAS are up, but we have a stock at the old prices. Try our brands at your favorite price, 30, 40 and 50c. Fresh groceries and fruits at lowest prices.—THE N. B. HOWDEN EST.

MR. J. W. McLAREN disposed of his entire stock of gold fish before eleven o'clock Saturday morning. About 150 aquariums, each containing two healthy-looking gold fish, were handed out to that number of purchasers of the celebrated Rexall preparations.

GET in your clothing order for Easter. We are getting busy.—SWIFTS'.

A MEETING of the executive of the East Lambton Liberal Association was held in Watford last Friday, with a good attendance. D. J. McEachern, And. Connor and Dr. Pickering were named as a committee to interview the Liberals of the townships of Zone and Camden and the villages recently added to the riding therein, with a view to calling a convention; and S. Bailey, president; D. J. McEachern, vice-president, and H. J. Pettypiece, secretary, were named as a committee to make arrangements and call a convention, which will be held in Alvinston at an early date, yet to be decided on.

LADIES' man-tailored suits and coats made to your special measure—newest fabrics made in the most approved styles. Satisfaction guaranteed.—A. BROWN & Co.

NINETEEN-FIFTEEN is bound to be a big business year for merchants in farming communities where crops have been good because the farmers have the money. While it is a long way to harvest time, the heavy snowfall of the winter and the fact that there will be 25 per cent. more land in crop this year than last, make the biggest yield in Canadian history practically a certainty. It is up to each individual merchant to go aggressively after his share of the increase in trade—and if he gets it, the mail order house will not have the same story to tell a year hence.

GIANT vacuum cleaners, \$7.00; Perfect, \$8.00; O-Cedar mops, 75c., \$1.25 and \$1.50; Bissell's ball-bearing sweepers, \$3.00; washing machines, wringers, food choppers and all housekeeping helps at Howden's.

THE date for the High School entrance examination this year has been set for June 21st. The examinations will last for three days. The pass matriculation will start on June 11th and will be over by June 30th. The honor and scholarship matriculation will begin on June 9th, and the Upper School Entries into the Faculties of Education on the same day. The middle school entrance into the Normal Schools will start on June 24th, winding up June 30th. The supplemental examination for those who did not pass or try to pass in June will begin on the 7th of September, winding up on the 17th.

SO MANY were disappointed in not getting Rexall gold fish last Saturday that we are arranging for another limited supply—if possible for Saturday, March 27th. Look for our advertisement in next week's paper.—J. W. McLAREN.

THE Sarnia Patriotic Committee met on Thursday afternoon, when three additional families were added to the list of those who are assisted from this fund, making twenty-eight families in all. The committee find themselves obliged to make a further canvas for funds as their limit is now reached. There are many in Sarnia not contributing to this fund who should be. At present the committee is paying out monthly \$717.50.

ABOUT the largest shipment of staple hardware ever coming to Watford was received by us this week. Therefore, we can supply your needs.—T. DODDS & SON.

THE cattle market is wabbly this week. GHO. DEMARY shipped a car of horses to Springfield Wednesday.

VISIT our Irish linen department this week.—SWIFTS'.

MAPLE sugar making is now in progress, and owners of sugar groves report conditions favorable and the run of sap good so far.

THE ladies of Watford and vicinity are kindly invited to attend Miss Williams millinery opening Friday afternoon and evening, March 26.

THERE should be little trouble experienced these days about keeping a house clean. Vacuum cleaners can be had at all prices and of all qualities.

OUR display of rugs and linoleums is the finest we have ever made.—A. BROWN & Co.

MEN'S and boys' rubber and leather boots, best values. Men's and boys' wearing shoes, can't be beat, prices right. Opening this week, ladies' fine shoes—the Duchess, Classic, etc.—J. WHITE.

THE bill introduced by J. E. Armstrong, M.P. for East Lambton, to put navigation companies under the control of the railway commission, and also to give it authority over special privileges to shippers, has been withdrawn for this session, but will be re-introduced next.

ALUMINUM GOODS at prices lower than agents can quote you. Home-made dairy pails of best charcoal tin at the price of cheap factory goods. Nickel teakettles, \$1.35, copper boilers, \$4.00.—THE N. B. HOWDEN EST.

MR. E. D. SWIFT has received letters from Captain Swift. He is in Dover at the base, attached to the Ninth battalion and not with his company. He has had promotion. He thanks the senders of fine socks to his men, three packages having arrived so far and duly forwarded to France.

OWING to the fact that the privileges of the open shed at the Presbyterian church have been abused the managers are compelled to have the sheds locked. All contributors and members will be supplied with a key. Any persons outside the congregation who wish to use the shed can do so by purchasing a key at the rate of \$1.00 per year.

DRESS GOODS have advanced in price during the past month. We have a fine stock at old prices.—SWIFTS'.

A TELEGRAM was received by Mr. G. H. Wynne on Wednesday evening from Toronto, stating that his brother, Mr. John B. Wynne, of that city, formerly manager of the Sterling Bank, Watford, had died suddenly that afternoon. The remains will be brought to Watford and the funeral will take place on Saturday afternoon from the residence of Mr. G. H. Wynne, Huron street.

THE funeral of the late Mrs. Thomas Howden took place on Saturday afternoon from the residence of her brother-in-law, Mr. W. J. Howden, Erie street, to the Watford cemetery. Rev. S. P. Irwin was assisted in the service by Rev. J. C. McCracken, rector of Wyoming.

THE floral offerings were exceedingly handsome. The pallbearers were C. Howden, Dr. Geo. Howden, Col. Kenward, W. H. Shrapnell, E. D. Swift and A. G. Brown. Besides the son and daughter mentioned last week deceased leaves two brothers: John, of Wanstead, and Robert, of Sarnia; also four sisters: Mrs. J. Wyant, Mrs. D. Hicks, Mrs. G. Hicks, Wanstead, and Miss Susan McLellan, of Petrolia. Those friends on St. Patrick, who attended the funeral were Mrs. T. Smith, D. N. Sinclair, J. Cowan, K. C. Sarnia; Mrs. J. Rice, Mrs. J. Travis, Wyoming; Mr. and Mrs. Jas. Lunam, Camlachie, and Miss E. Howden, London.

BANANAS 20c, large oranges 30c, pine apples 30c, lettuce 20c a pound, cooking onions 35c a peck, potatoes 60c a bag. Phone orders delivered promptly, with the best goods we have.—THE N. B. HOWDEN EST.

THE regular meeting of the Watford Women's Institute was held at the home of Mrs. T. Dodds on Wednesday evening, March 10th, the President presiding. The rooms were beautifully decorated with shamrock and green. Tipperary was sung as our opening piece, and roll call was answered by clippings on St. Patrick. Mrs. Ferguson gave a good report of a number of socks knitted for the soldiers at the front, also the sewing for the Red Cross. Mrs. Humphries gave a paper on "How to entertain young people in the home." Mrs. Cook another paper on "The Blarney Stone," also a reading on the Bewitched Fiddle, by Miss Smith. All were much appreciated by those present. Solos were given by Mrs. Bennett, Mrs. Kelly and Miss Pentland, which we were delighted to hear. 22 members and 12 visitors were present, and also received one new member at this meeting. A vote of thanks was given to all those who took part with the program, also to the hostess for her dainty lunch. The meeting closed by singing the national anthem. Next meeting at the home of Mrs. Bambridge.—Sec'y.

YOUNG men's two piece Norfolk suits in the hair line stripes and tartan effects, \$8.00, \$10.00 and \$12.00.—A. BROWN & Co.

ON Monday, March 13th, Mrs. David Watt passed away at her home on Erie street. She had been in failing health for four or five months and during the last three weeks sank rapidly. Mrs. Watt was a christian lady highly esteemed by her many acquaintances and will be greatly missed in the community in

which she moved. She was twice married and leaves to mourn her loss her husband, Mr. David Watt, and one son by her first partner, Mr. J. M. Bastedo, of Colorado Springs, Col. One sister and two brothers also survive, namely, Mrs. Margaret Campbell, of Lucknow, and Robert and Andrew Aitken, of Watford. The funeral was held on Wednesday afternoon, service being held at the residence by Rev. J. C. Forster, Presbyterian minister, and interment made in the Watford cemetery. The pall bearers were E. D. Swift, P. Dodds, Dr. Hicks, J. W. McLaren, J. McKecher and John Livingstone. Those from a distance who attended the funeral were Mrs. Gibson, Detroit, Mich.; Mrs. Cook, Atkins, Mich.; Miss Campbell and Mrs. Taylor, Lucknow, Ont.; Misses Alice, Bell and Louise Aitken, Elkhart, Ind., all nieces of deceased; Mrs. I. J. Chambers and Mrs. M. R. Micks, of Strathroy.

TAILORING. Tailoring. A very fine stock to choose from.—SWIFTS'.

PERSONAL.

Miss Pearl Saunders is visiting friends in London.

Mrs. A. G. Shay, Gary, is visiting her parents, Mr. and Mrs. Alfred Nash.

Mr. Thompson, Toronto, takes Mr. Jeff's place on the staff of the Sterling Bank here.

C. W. Vail, G.T.R. agent, is at present enjoying a well-earned holiday. He spent Wednesday at Mt. Brydges.

Mrs. Brent, and Miss Nesbitt returned from Chicago, Thursday, after spending some time with relatives and friends in that city.

Mr. C. A. Jeff who has been on the staff of the local branch of the Sterling Bank, left on Saturday to join the second contingent at Toronto.

S. L. Howden and C. Potter, of the third contingent, London, spent Sunday at their respective homes here. Pte Howden has been transferred to the stretcher-bearers.

Our Namesake

We received this week a copy of the first issue of "The Watford Guide," a handsome six-column paper published in Watford, N. D., the town V. G. Morris, M.D., formerly of Watford, had a hand in naming. We feel flattered that the new paper is named "The Guide," after this journal, and hope it may become as closely connected with its district as this paper has become with the residents of Lambton. The Guide is the largest newspaper ever launched in the state. Watford, N. D., is the terminal town of a branch of the Great Northern railway in McKenzie county, and has been termed the "Certainteed town of Western North Dakota." The town is less than a year old and is doing a large business, the railway business so far averaging \$19,000 a month. There are 50 business firms in the town, the buildings are all substantial and up-to-date, modernly heated and lighted. A commercial club has been organized of which Dr. Morris is vice-president. The Guide, in speaking of this gentleman, says:—

"V. G. Morris, M.D., was the first physician to locate and practice medicine in McKenzie county, and ever since then he has had an increased practice until now he is one of the busiest doctors in this part of the state."

Our Real Hockey Team

The Watford High School Invincibles are the team of pucksters that kept Watford from slipping off the hockey map in the season in which we have just played here. In a total of eight games played, they won six, tied one and lost one. They scored a total of 80 goals and had only 28 scored against them. They have not lost a game on home ice in two years. The games for last season, with scores, are:

Defeated Alvinston H. S., 10-4.  
Defeated Sarnia St. George's, 13-3.  
Defeated Petrolia Stars, 8-4.  
Defeated Wellington St. intermediates, of London, 13-4.

Tied with Strathroy C. I., 2-2.  
Defeated Petrolia Stars, 13-3.  
Defeated Strathroy C. I., 18-3.  
Lost to Petrolia Stars, 5-3.

The boys who put the key in hockey:—Russ, Trenouth, goal; "Kay" Roche and Tom Roche, defence; "Curley" Auld, rover; "Eg" Prentiss, centre; Reg, Brover and "Chatty" Johnston, wings; "Bill" Bruce, spare.

"The March to the Battle-fields: or, Canada's Men on the Way"

The above is the title given a picture that will for many years to come be a highly prized "treasure." It is a photographic reproduction showing the 32,000 men of Canada's first contingent breaking camp and on the march to join the Continental forces. It shows miles and miles of the white tents and the marching men. It is a most inspiring sight. The size is 20 x 46 inches, all ready for framing. This picture is sure to be a popular souvenir of the war as far as Canada is concerned, and will be in great demand. It is owned by The Family Herald and Weekly Star, of Montreal, and a copy is being presented to all subscribers to that great national weekly newspaper, The Family Herald, Montreal, whose subscription of one dollar a year is received from this date for a limited period.

## WARWICK.

J. R. McCormick, Kingscourt, was in Sarnia this week on the Grand Jury of the spring Assizes.

Mr. Frank Morris, Rossland, B. C., attended the funeral of his uncle, the late Wm. Morris, on Sunday.

Bert Cundick now sports a new five-passenger Ford recently purchased from Ray Morningstar, Arkona, the dealer for this section.

Ruby, the three-weeks-old daughter of Mr. and Mrs. Vaughn Williamson, 4th line, was called to the realms above on Tuesday, after a short sojourn here. Interment was made in Watford cemetery.

School section No. 15 organized a farmer's club in connection with the farmer's co-operative association of Lambton. The club will meet on Thursday evening at 8 o'clock, in the Foresters' Hall, Warwick Village.

A social evening was held in Kingscourt schoolhouse on Monday evening in the interest of missions. A fairly large crowd was present and an exceptionally good program was given, including solos, duets, choruses, recitations, etc., and a choice selection by the three Crow Bros.

The meeting of the farmers Co-operative Association held in Warwick Village last Friday evening was a great success. Mr. I. R. McCormick, of Kingscourt, made a very able chairman. The speakers were Dr. Martyn M. P. P., Mr. P. Gardiner, President of Farmers Co-operative Association; Mr. McMahon and Mr. Miller, of Corunna. There were three farmers clubs organized at the meeting.

A very pleasant afternoon was held at the home of Mrs. Chas. Barnes, Main Road, on March 11th, when the Women's Institute and friends to the number of forty gathered together and quilted and sewed in aid of the Red Cross. A very dainty luncheon was served by Mrs. Barnes, which realized \$10.00. A hearty vote of thanks was tendered to the hostess and friends who so generously helped to make this meeting a financial success.

Another life-long resident of Warwick passed away on Thursday morning last in the person of Mr. William Morris of the Main road. Deceased had been in poor health for about a year and his death was not unexpected. He was a native of the township and lived within its boundaries all his life. Had he lived two days longer he would have reached his sixty-eighth year. He was a man much respected by all who knew him, a faithful member of the Methodist church, and a member of the Orange Association. He leaves to mourn his loss a widow and two sons, Ernest and Robert, of Warwick. The funeral was held on Sunday afternoon at 1.30 from the family residence, lot 4, con. 1, to the Warwick Methodist church, where service was held, interment being made in the Methodist cemetery. The funeral service was conducted by Rev. H. F. Kennedy, and was largely attended. The pall bearers were Wm. McKorie, Mil. Barrett, Wm. Beacom, Jas. Anderson, Robt. McKenzie and J. Humphries.

BROOKE

Mrs. Rich. Williamson is in London this week visiting friends.

Miss M. C. McGugan, of Thamesville, spent Sunday at her home at Walnut.

The many friends of Mr. Ward Zavitz are pleased to know that he is able to be around again after his recent illness.

Mr. and Mrs. D. G. Maddock have returned home from London and Ingersoll, where they spent the past week.

A pruning demonstration in connection with East Brooke Farmers' Club will be given by Mr. G. G. Bramhill District Representative of Agriculture in the orchard of Mr. Paul Kingston, lot 21 con. 13, on Wednesday afternoon Mar. 24th. Everybody come.

A very successful meeting of the Brooke Women's Institute was held on Thursday afternoon Mar. 11th, at the home of Mrs. W. S. Shugg. A good representation of members was present; also several visitors. The president presided and the meeting opened by singing. Roll-call was answered by giving different methods of cooking eggs. The business part of the meeting came next. The ladies are continuing their work for the Red Cross, and are preparing sewing, and other work in aid of that society. Mrs. Uter, of Arkona, then favored the ladies with an instrumental solo, which was very pleasing indeed. Some excellent papers were given. One on "Home nursing and first aid to the injured" by Mrs. John Leitch; "Essay on the life of Florence Nightingale" by Mrs. D. McNeil; and "The Arts of Life" by Miss Bella Hay. Mrs. Gardner, of Napier, was also present and gave an interesting talk on "A trip to Ottawa and visit to the House of Commons." The speakers are certainly to be congratulated for their splendid papers, and the very able manner in which they were all delivered. Mrs. Shugg and Miss Ada McCugan, sang a duet "Spring time," after which "God Save The King" was sung. A social hour was then spent and the hostess served refreshments.

Joseph, John and Clare Chivers, three sons of Mr. and Mrs. James Chivers, of Wyoming, will go to war with the third Canadian contingent.

William J. and James, a brother of the late Watford, and was here several a couple of weeks.

## FINE TROUBLES

g time is a period of others unless baby's sweet and his bowels medicine has been during teething time Tablets. They make and by their use baby easily that the mother they are coming. Con- Mrs. F. Goldsmith, writes: "Baby's Owner's greatest help. Cur-period." The Tablets fine dealers or by mail from The Dr. Williams' ockville, Ont.

REN ONTARIO

# SUFFERED EVERYTHING

### For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont. — "I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion." — Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont. — "I heard your medicine highly praised, and a year ago I began taking them for falling of womb and ovarian trouble. My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous something that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated. I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial." — Mrs. STREPHEN J. MARTIN, Chesterville, Ontario, Canada.

WATFORD, MARCH 19, 1915.

### NOTE AND COMMENT

Germany is to get some of the medicine she prescribed but so far has failed to successfully administer to Britain.

The marksmanship of the German bomb-droppers is improving. Out of four people killed in a French village only three were absolutely unconnected with warfare. The fourth was a military tailor.

We are coming into great days, perhaps the days of all days, of our Empire. These times may belittle if they do not extinguish the events of a century or more ago. Democracy and public rights and social uplift for the many may be at hand. A page of new history is to be written in a new and more impressive way.

In a word, the Americans see us actively and voluntarily participating in a titanic struggle in which the destinies of the world are being decided, a struggle in which their own share is confined to the important but not inherently honorable part of selling foodstuffs and supplies to any belligerent who can come and get them. And they are so good fellows not to entertain a new and gratifying respect for us accordingly. Let us strive to be worthy of it.

I can think of nothing better for Canada to do after the war than to make more and more her settled, permanent policy, both Greater and More Economical Production, and to push its practice in all fields of industrial activity, but more especial-

ly in the basic industry of agriculture, the one field in which notably our possibilities of expansion are unlimited.—Stratford Herald.

And the telegraph and cable lines. How Britain has been able to censor almost everything she wished to on almost every sea. No news got out about the situation in South Africa until the British Government was ready to give it out. A great American company may own most of the cables—on sufferance—but England works them as suits her purpose. To speak to all the world in a flash, to hold back from all the world, if she wills is the latest and greatest result of maritime supremacy.

The war includes all manners and conditions of men: white and dark, yellow and bronzed; East Indians, Japs, Caucasians, Turks, Arabs, Latins, Germans, Greeks, English, Irish, Scotch, Canadians, Australasians; Mohammedans, Christians (Protestants, Catholic Greek), Buddhists, Shintos. Two of the rulers engaged are spiritual heads as well: czar and sultan. Cold climates and warm climates are involved: Russia wants Constantinople and the Black Sea for warm sea ports, instead of the frozen ones in the Baltic, and on the Siberian shores of the Pacific. It includes the area of the old world of history and pre-Christian times: Greece Italy, Babylon, Persia, the land of the Jews, Egypt, etc. It goes everywhere, almost to all the seats of great empires, of great movements, where humanity made its struggles of the past. And it is maritime in every sense and in its broadest sense!

Great Britain has invested more money in this country than in any other country in the world, outside of the United States. The sum total is no less than \$2,800,000,000, being equal to \$400 for every man, woman and child. This money has gone largely to provide railway and other facilities for carrying on our business. It is loaned money, and bears one hundred and twenty millions of dollars interest annually. That interest must be met. It can be met only by exporting surplus products. There is a ready market for all the farm products we can produce over and above our own requirements. A twenty per cent. increase in farm production will cover our interest payments and maintain the country's credit. This is one answer to the question, Why is it necessary that Canada at this particular time should increase the output of the farm?

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is constitutional remedial. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

### Canada Forging Ahead

Cleveland Plaindealer: While Europe is at war, and while Canada is proving her loyalty both by protestations and by the despatch of volunteers, the people of the Dominion are not altogether forgetting that peace is the important phase of life. Peace will come, some time, and will last longer than war has lasted. Some of the European nations will be crushed beyond hope of speedy recovery, and must labor patiently through two generations or more to re-establish themselves on a peace basis. But Canada will suffer no such calamity. She is now, in the midst of war, pushing straight ahead with the greater work of peace. New regions in the far northwest are even now being opened to settlement. The men who are going into these new regions to establish homes have little thought for Europe's war. In the remoteness of northern Alberta they cannot be affected by the alternating victories and defeats in Flanders and Poland. To them the building of a comfortable home for their children, and the solid establish-

ment of a fresh new agricultural community, are matters of far more importance. They are looking toward the future, and decline to be confused by the noise and clamor of to-day.

### The Granary Door

An English trader has remarked that every shot fired in the Dardanelles which hits a Turkish fort, hits at the same time the Chicago wheat pit. There are eighty million bushels of spare wheat locked up in Russia which she will not sell to the enemy, and which she cannot sell to the Allies because she cannot make delivery. The day Constantinople falls this wheat will come on the market with a rush, in trade for munitions of war. Before the war began December wheat in Winnipeg was selling at eighty to eighty-one cents at bushel. Two weeks after the war was declared wheat had gone up to ninety-eight cents a bushel, making an advance of eighteen cents. A fortnight later December wheat in Winnipeg was selling at a hundred and twelve cents a bushel, making a second advance of fourteen cents. This was on August thirtieth, so that one month of war has raised the price of wheat thirty-two cents on the bushel. It was on this day that the May option in Winnipeg opened. While the December wheat was selling at \$1.12, May wheat opened at \$1.18. During the next four months, of September, October, November and December, wheat fluctuated up and down in small variations, showing only a slight tendency to rise, and toward the end of December was selling at \$1.45, but January brought a new movement to the wheat market. On January 10th it was selling at \$1.37, on January 24th at \$1.44, and a fortnight later, on February 9th, had risen to \$1.63. At that time there was a regular furor to buy wheat. Clerks and business men were running from their offices to the local corn exchange or to the telegraph offices, with small orders for wheat. It was so high, and it was persistently going up that they seemed to think it must go up forever. But just when the astute manipulators had largely unloaded on the more unsophisticated gamblers, the crash came. The British and French navy started to storm the Dardanelles, and had instantaneous successes with the forts at its mouth. For the first time since the war began wheat made a decided drop. By February 28 it was down eight points, to a hundred and fifty-five, by March 4 it had gone down another ten points, to a hundred and forty-five, while to-day it is selling at one dollar and twenty-five cents. This is a clear indication that the business world, which is generally prescient in its opinions, believes that Constantinople is about to fall.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation warranted to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

Wyoming, March 11.—Francis McKinley, youngest son of Mrs. James McKinley, 2nd line, who has been attending university in Toronto, has enlisted for service in the third overseas contingent.

Strathroy, March 11.—Fred Billings, the bank clerk who is charged with the theft of \$1005, has not been traced beyond Detroit. A reward of \$50 has been offered for his arrest, and descriptions have been widely circulated. The death occurred this afternoon of Mrs. F. L. Harrison, in her 80th year. Edward Harrison, of London, is a son.

Have you seen the new HIGH-OVEN RANGE—the range without a peer. The first range we had was sold six hours after it was set up, so that is something.

erence, that is, considering Belgium before the war. Britain is the protector of small states. The greater the area and variety of area, the more protection is needed when emergency arises.

Farmers who have separate houses for their laborers have no difficulty in securing help.

### Treatment of Smut

Commissioner Clark writing in the Agricultural War Book on "Treatment for Smut Prevention" says that in Eastern Canada there is considerable smut in the grain crops each year, but that it has not been sufficiently prevalent to make treatment for its prevention general. The losses, however, are much greater than is commonly realized, and the value of the crop could be considerably increased if treatment for smut prevention were more generally practiced. Over half the samples of fall wheat collected in Ontario contain smut, and it is also very common in the spring crops, especially oats. Reports on the samples treated indicate that formalin, one pound in forty gallons of water, is much more popular than bluestone as a preventive.

### Code—Gibson

A pretty home wedding was solemnized at the residence of Mr. John Gibson on Wednesday morning last, March 3rd, at eleven o'clock, when his youngest daughter, Isabel E., was married to Mr. A. Silas Code, C.E., of Alvinston, by the Rev. W. T. Hill. The bride was given away by her father and looked very pretty and girlish in an ivory duchess satin gown with rose point lace and tulle veil and cap caught with orange blossoms and carried a shower bouquet of pink roses. The groom was supported by his brother, Mr. Thos G. Code, of Cobalt. Miss Code, sister of the groom, played the bridal chorus from Lohengrin. After the ceremony a dainty buffet lunch was served by the girl friends of the bride. Mr. and Mrs. Code left on the 1.40 train for New York, where they will spend their honeymoon, the bride travelling in a blue suit and Belgian blue hat. The out-of-town guests at the wedding were Mr. and Mrs. Richard Code, Mr. F. Code, Mr. and Mrs. D. C. Munro and Mr. Walker Munro, of Alvinston.—Petroleum Advertiser.

### Methodical Pilferers

(London "Chronicle.") Labouchere seems to have been struck by the methodical manner in which the German officers set about their pilfering during the war of 1870. "As soon as a Prussian is quartered in a room," he sends for a box and some straw, then carefully packs up the clock on the mantelpiece, and all the stray ornaments he can lay hands on, and with a tear glistening in his eye for his absent family directs them either to his wife, or mother, or lady-love. Then he rings the bell, and in a mild, gentle voice orders his box of loot to be carried off by his military servant. "Sometimes he adds, they confiscated a house and resold it to the proprietor; sometimes they carted off all the furniture. Pianos, in particular, they were fond of approaching and sending home."

### Reasons for Excusing James

With an air of melancholy resignation, the truant stopped at the teacher's desk and handed her the following note from his mother:—"Dear Sir,—Please excuse James for not being present yesterday. He played truant, but you needn't whip him for it, as the boy he played truant with and him fell out, and he licked James; and a man he can lay hands on, and with a tear glistening in his eye for his absent family directs them either to his wife, or mother, or lady-love. Then he rings the bell, and in a mild, gentle voice orders his box of loot to be carried off by his military servant. "Sometimes he adds, they confiscated a house and resold it to the proprietor; sometimes they carted off all the furniture. Pianos, in particular, they were fond of approaching and sending home."

South Porcupine, Ont., March 11.—Sixteen Germans were arrested yesterday by the police officials here while in the act of drilling in a shed near here. They will be brought to trial at Timmins on Monday.

St. Thomas, March 11.—Hattie Bigelow, aged twenty-two, of Port Burwell, was burned to death this morning when the home of her parents was destroyed by fire. The young woman was alone in the house at the time, and her remains were taken from the ruins to-day. How the fire started is a mystery.

Another of President Wilson's "grave questions" is found in the sinking of an American vessel by the Prinz Eitel Friedrich. Although the captain flew the American flag and protested he was laughed at by the German captain. Remember the Maine! The ultra-neutral American press does not seem to think the matter at all serious, either.

St. Catharines, March 11.—Fifteen years in Kingston Penitentiary was the sentence imposed this morning on Frank Hartley, found guilty last night of manslaughter, in having on October 7 shot Pte. Theodore Corgoyne. Judge Sutherland, in delivering sentence, said the jury might easily on the evidence have brought in a verdict of murder.

## AUCTION SALE OF FARM STOCK AND IMPLEMENTS

The undersigned auctioneer has received instructions from  
**KERRIGAN BROS.**  
to offer for sale by public action on the premises,  
Lot 16, Concession 4, Plympton,  
commencing at one o'clock, p. m., on

**Friday, March 19, 1915,**

the following valuable stock, implements, etc.: 1 general purpose mare, rising 8 yrs. old; 1 heavy draught colt, rising 3 yrs. old; 1 driving horse, rising 4 yrs. old; 1 driving mare, rising 9 years old; 1 span of yearling colts, heavy; 8 steers, rising 2 yrs. old; 8 yearling heifers; 12 heifers, rising 2 yrs. old; 5 fat heifers, rising 2 yrs.; 14 yearling steers; 5 spring calves; 4 cows due to calve at time of sale; 2 new milch cows; 4 cows due to calve May 1st; 1 pure-bred Chester sow with litter at side; 1 grade sow with litter at side; 1 grade sow due to farrow May 2nd; 14 shoats, weighing about 120 lbs. each; about 50 chickens; Mossey-Harris spring-tooth cultivator; set hook-colt harrows; set diamond harrows, new; truck wagon, 2 1/2 tire; Peter Hamilton seed drill; Frost & Wood mower; Frost & Wood long plow; Wilkinson plow; Chatham fanning mill; set double harness; set single harness, nearly new; National cream separator; quantity of good seed oats; quantity of straw; quantity of hay.

Everything will positively be sold without reserve.  
TERMS OF SALE—Sums of \$5.00 and under, cash; over that amount 3 months' credit on furnishing approved joint notes, or 6 per cent. per annum off for cash.  
KERRIGAN BROS.,  
Proprietors, GEO. R. BROWN, Auctioneer.

### War and Business

A story is told of how an American free-lance financier cleaned up a fortune in a deal with the French Government. This man is declared to have made a profit of 3,000,000 francs (\$600,000) in three weeks, and all he had in the world on the first day of the war was \$100. What he did was this: With his \$100 he secured from an American city a complete line of sample shoes manufactured by a well-known firm. The French Government in the meanwhile adjourned to Bordeaux on account of the Germans' approach. The American was in a quandary, for he had no money to follow them. At first he thought of disposing of the shoes among his acquaintances and thus getting his money back. The samples, however, were not pairs, but all for one foot.

In despair he borrowed money enough to go to Bordeaux. He took the samples to the Intendance Bureau and told them to name their own price—that the American house could supply any amount. This strange attitude of telling a Government to name its own figure made an impression upon the Intendance officials, so that they considered his samples earnestly. Had he quoted prices they would have probably kept him waiting for weeks. As it turned out, they gave him an order the day following for 1,000,000 pairs of a certain shoe at a price 3 franc per pair higher than the manufacturer quoted. Now he is driving around Paris in a limousine and never lunches lower in the financial scale than Ciro's or the Ritz.

### Canadian Casualties

Ottawa, March 11.—Another extensive list of casualties among members of the Princess Patricia's and several other battalions of the Canadian Expeditionary Force in France was issued to-night by the Militia Department.

The list shows that the Princess Patricia's, whose losses in yesterday's report were 33, again suffered heavily. Five of the "Pats" are reported killed, one died of wounds, one is dangerously wounded, seven severely wounded and fourteen wounded. Their list of killed now approaches one hundred. The 3rd Battalion, which includes several Toronto regiments, was also a sufferer. Several of the other battalions also had losses, indicating that the Canadians had been active in recent fighting. Outside the Patricia's, the casualties in to-night's list includes six men killed, three deaths from wounds and five wounded.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old. m

### Cereal Crops on the Experimental Farms

Cereal production has occupied an important position in the work of the Experimental Farms since their inception some twenty-eight years ago. By selection, the best varieties of grains for Canadian conditions have been brought to light and by breeding many important sorts have been produced. Pioneer wheat, a new early sort possessing many merits gives promise of filling an important place in northern sections. The results in 1914 with this and other sorts of wheat, as well as oats and barley at the Central Farm and sixteen Branch Farms and Stations and two Sub-stations are presented in Bulletin No. 81 of the Experimental Farm Series. This seasonable pamphlet is available at the Publications Branch, Department of Agriculture, Ottawa.

### A Change Of Sentiment

New York Life is a humorous paper, but it takes a most serious view of the Great War. Its influence has been cast on the side of the Allies, and its comment has been both judicious and judicial. It recognizes signs of a change in German-American sentiment, from which it argues that the Potsdam cause is on the wane, and that the hyphenated Americans are reading the signs with astuteness, and, in consequence, are veering about in their view point. "When England came into the war it meant," says Life, "as Germany well knew, that Germany would be cut off from the transmarine world, and could only win by an overwhelming military success in Europe before her own resources gave out. She has not been able to effect an overwhelming success, her applications of the theory of "frightfulness" in warfare have scared off any friend she might have made, and her people now lack bread. So it is not surprising that the Kaiser grows less and less conspicuous, and that our fellow citizens of German derivation hereabouts begin to put their emphasis on the facts that they are citizens of the United States."

And, further, as a Montreal exchange notes, the absolute discrediting of German diplomacy in America has disgusted the friends of the Allies in that country. The German-Americans know enough to "sing small" when self-interest demands that kind of a tune.

Mitchell, March 11.—Robert Bell, a well-known resident of Hibbert Township, died Wednesday night as the result of kicks from his horse as he was attending to the animal in the stable. It threw him down, trampling and striking him.

### A Mad Dog at Large

Germany has not only torn up international agreements like scraps of paper, but also has bidden defiance to international law. She did not allow the treaties of 1831 and 1839 to stand in the way of her making war on Belgium, and now she does not allow solemn international agreements to modify in any degree her way of prosecuting the war. She simply defies the whole world. The wonder is that neutral nations stand for it. She should never have been allowed to sow mines on the high seas, nor should she now be allowed to sink vessels of neutrals by means of her submarines, nor any vessels without providing adequate means of saving the crew. But she has sowed mines and is sowing them, and she goes on sinking vessels indiscriminately, and yet there is no protest from the neutral nations. There should be not only a protest but an ultimatum. Of what value are international law and all these Hague Tribunal agreements? Why should Germany be exempt from their operation? If she wants to blockade Britain, let her blockade her. If she wants to keep goods of all kinds out of Britain, let her seize the vessels

carrying the goods. If these vessels are British vessels, let her provide for the safety of the crew and sink the vessels, or, if she can, let her tow them to her ports and confiscate the goods and make prisoners of the crew. If these vessels belong to neutral countries, let her take them to a prize court and buy the goods and set the vessels and crews free. If she can't do this thenations should see to it that she leave neutral vessels alone and provide safety for the crew of British vessels before she attempts to sink the vessels and the cargo. Neutral nations are not really neutral unless they do this. They are really helping Germany if they do not protest so vigorously that Germany will stop these practices. Germany is like a mad dog at large, snarling and snapping at anything and everything. She has broken most of the rules of civilized warfare, and is beginning to present a sad picture of impotent rage. The world is no more safe with a nation like Germany, with her avowed philosophy, and policy of aggrandizement by aggression than is a community with a mad dog in its midst. She is afflicted with a peculiarly virulent form of rabies, and is frothing at the mouth.

### Cardinal Facts

This is Canada's war. What will the Harvest be? Increase of knowledge means increase of production. The first essential for the highest yield is good seed. Not only grain growers, but breeders and all producers are making history at this juncture. Value of the crop is increased if treated for smut prevention. Failure to secure suitable varieties is a frequent cause of poor ensilage. All grain intended for seed should be cleaned and graded, in order to retain only the strong kernels. Good labor is worthy employment in winter as well as in spring, summer and autumn.

If labor is scarce now, it will not be more plentiful in another year, so it is wise to encourage present help. A bureau of employment could find useful work in every town of size.

Austria has decreed that every acre must be utilized for production. Wasting land is the worst form of extravagance.

Live stock is the foundation of permanently successful farming to-day, as it has always been.

The farmer who conserves his best stock for breeding will profit greatly in the future.

When manure is piled and allowed to heat, the vitality of most of the seeds is destroyed; but when drawn to the field from the stable, or not left long enough in the pile to become well rotted, manure is one of the most important means of seed dispersal.

Canada is many times larger in area than Belgium, but in population there is not a great deal of diff-

## RUPTURE

(SEE DATES AT BOTTOM)

**NEW 1915 INVENTION**  
RETAINS RUPTURE WITHOUT KNIFE, HARNES, DANGER OR PAIN. COSTS YOU NOTHING TO INVESTIGATE.  
Mr. Egan's new 1915 appliances, "The Curative" and "The Curator," are rapidly taking the place of the old-fashioned trusses purchased by mail order. These new inventions are constructed to assist nature in her work of healing and are free from every cumbersome feature that you possibly have been annoyed with some time or another. Complete cure awaits you. Correct holding will be experienced from the start. No more escape of rupture. Misery comes to an end at once. You will enjoy that absolute confidence of being able to do anything at any time or anywhere without the bowel making its escape outside the abdomen. This will relieve you of mental unrest and worry. This will make you feel like a new person. This kind of retention is intended to assist nature to close the opening. These new inventions are adapted to different forms of hernia to meet the needs of every man, woman or child. Stop further experimenting with foreign appliances and end your rupture troubles at small cost by consulting a Canadian rupture appliance specialist. Delays may be dangerous; tear off coupon now.

**THIS FREE RUPTURE COUPON**  
Upon presentation to J. Y. Egan, specialist, 8 West King street, Toronto, who will visit the towns below, entitles bearer to free consultation and examination of samples. Ask at hotel office for room number. Note dates.

The Forest spring show will be held on Thursday, April 29th. Petrolia wants a "jitney" from the County road to the west end with a half-hour service.

James Hall, a former resident of Wyoming, died in Winnipeg last week. The remains were interred at Wyoming.

Owing to slim attendance at the weekly drill, the Glencoe home guard organization has been allowed to drop for the present.

Enniskillen will have another school fair this year, and the Trustees and Ratepayers Association will also hold a picnic in June.

A Durham cow, owned by J. E. Dolan, near Renfrew, gave birth to four calves at one time. Three are living and bid fair to mature.

John McFee purchased 16 horses in the vicinity of Cambridge and Wyoming and shipped them to St. Clair, Mich. The prices ranged from \$125 to \$160.

The mill owned by the Spanish River Lumber Company at Cutler, Ont., was destroyed by fire. The office and yard of the company are located on the north shore of Sarnia bay.

The Hyatt well on the 6th con., of Enniskillen is down 2600 feet. We are informed that the syndicate will continue work until they reach the trenton line. This foundation is found at 3175 feet in Petrolia.

James Prince, a farmer of Enniskillen, enclosed a note with his address in a bag of oats he contributed for Britain's use. He has received a reply with thanks from a private in the Army Veterinary Corps, at Shorncliffe, England.

On Wednesday the town of Leamington raised \$750 in a few hours to purchase a portable kitchen for the 18th Battalion. A fund of \$2,000 is now being contributed for a motor ambulance for the Red Cross, Leamington, with a population of 3,000 has raised \$25,000 for patriotic purposes.

The Penobscot Overall Company's plant, Walkerville, has a contract for 200,000 pairs of trousers for the British Government, and the time limit set by the war office requires that 5,000 pairs a day be turned out. There are between 700 and 800 girls now working on the contract, and about 200 more girls or women who can do hand-sewing are needed.

While standing in front of his brother-in-law's barber shop last Wednesday night, George Fisher, of Sarnia, formerly of Petrolia, went suddenly insane. He was taken care of by Chief Ferguson, and later sent to Sarnia for examination. He will be sent to an asylum at once. Much sympathy is expressed here for the unfortunate young man. A few months ago his wife received injuries from burning gasoline which caused her death, and it is believed that this and other matters preyed on his mind with the above result.—Petrolia Advertiser.

On Thursday last Geo. Buchanan met with an unfortunate accident while drawing hay from Jas. Brush's, at Uttoxeter. The load had been put on the wagon in the barn, and when going down the driveway the tongue slipped through the ring on the neckyoke, letting the wagon against the horses. It was impossible to get them under control and they ran to the creek, where in turning the load and driver was capsized into the water. Mr. Buchanan was taken into the house and medical assistance summoned. He was quite badly injured and will be laid up for some time.

Prophetic Conference. Some are teaching to-day that the Bible is getting better. The Bible nowhere contains such teaching; but St. Paul clearly states in II. Tim. 3:1, that "in the last days perilous times shall come." This statement is contradictory to the false theory held by so many professing Christians that the world is getting better. Common sense will convince any intelligent thinker that the world is in a fearful condition, and this fact proves the Bible to be true, for these days that are upon us now are clearly predicted in the inspired Word. If you are interested in knowing something of the calamities that are yet coming on the world, and the sure hope of the Christian who believes the Bible, you are invited to a great prophetic conference to be held in the Christian Church, Dundas street, London, on Thursday and Friday of this week, commencing at 2:30 in the afternoon.

The speakers expected are Rev. Principal Walker, (Anglican) London; Rev. Dr. Marcus Scott, (Presbyterian) Berlin; Rev. A. McKibbin (Methodist) London; Rev. R. Stevenson, (Congregationalist) Watford; Rev. A. B. Winchester (Presbyterian) Toronto; Rev. Canon Howitt (Anglican) Hamilton; Rev. I. M. Newby (Baptist) Florence, and others.

This conference is for the purpose of studying the Word of God especially on the subject of our Lord's second coming, and all children of God are invited to attend.—R. STEVENSON.

KERWOOD. Mrs. Jno. Armstrong visited friends in Watford. Mrs. W. R. Smith visited in London recently. Mrs. Geo. Lewis is visiting in St. Thomas.

Dr. Woods, of Mt. Brydges, was in the village on Sunday. A. Rogers is visiting his son, W. Rogers, of Brantford.

Form—To Mr. and Mrs. Geo. Carroll, a son—Thomas Edwin. Mrs. W. Williams, of London, is visiting at Mr. W. Waddell's.

Mr. and Mrs. Victor Kincaid spent Sunday with friends in London. Mr. W. McIntyre is spending a few days with relatives in Hamilton.

Messrs. Morningstar and Dowden, of Arkona, made a business trip to Kerwood this week.

Mr. and Miss Waltham, of Alberta, have been visiting friends and relatives in and around the village.

We were sorry to hear that Mr. Gimlet was so ill that it was necessary for his removal to the London hospital.

Three Strathroy scouts walked up the railroad track to Kerwood. On the return trip they charged and captured the enemy, which proved to be a skunk instead of a German. They are now advertising for a deodorant.

War Summary. March 13.—The British auxiliary cruiser Bayano, with a crew said to aggregate about 216 men, has been sunk somewhere in waters surrounding the British Isles by a hostile torpedo. It is believed that only twenty-six men survived the disaster, and the British admiralty believed the others on board the Bayano perished.

No fresh details of the fighting in the Dardanelles are at hand. Russia is expected to start shortly the bombardment of the Bosphorus forts in co-operation with the attempt of the Allies to blow their way past the forts in the Dardanelles to reach Constantinople.

The French line steamer Guadeloupe was sunk recently in the South Atlantic by the auxiliary cruiser Kronprinz Wilhelm. Her crew and passengers have been landed at Pernambuco, Brazil.

March 15.—Shipping circles in England are disturbed over the remarkable activity of the fast German submarine U-29, which for three days has been torpedoing steamers at various points off the Scilly Islands and in the English Channel. The U-29 has attacked not less than eight steamers, five of which she sank.

"In fighting for the empire, Irishmen are fighting for Ireland," John E. Redmond, the Irish leader, told an audience at Liverpool last night. Mr. Redmond said that he had been admitted to her proper place in the empire "with perfect and absolute good faith and loyalty." He declared that a quarter of a million Irishmen had joined the colors, and more were making ready.

March 16.—The British Government has delivered to the American ambassador its reply to the American note which had as its object the withdrawal of the German submarine blockade and England's ban on food shipments destined for German civilians. Great Britain declined to accede to the proposal of the American Government.

The sinking of the German cruiser Dresden off the Island of Juan Fernandez by British warships, is told briefly in an official statement issued by the British admiralty. The crew of the Dresden, which for three months had eluded the vigilance of hostile ships, were saved.

In the eastern war zone the concentration of troops and preliminary operations for an engagement on an extensive scale in Poland are proceeding, but the fighting of late has been of the advance guard order. In the Carpathians neither Russians nor Austrians seem to have been able to gain any decisive advantage.

March 17.—An official British account of the recent operations at Neuve Chapelle, in which the British troops were successful in forcing the Germans to now place the German casualties between March 10 and 12 at from 17,000 or 18,000 men.

There have been several other actions recent days where the losses are described as very heavy. Nothing of an official nature has been made public recently regarding the operations in the Dardanelles, but some unofficial dispatches indicate that the warships are meeting with a determined fire from the Turkish forts in their efforts to penetrate the straits of the Dardanelles.

British warships, including the German cruiser Dresden, sunk by the British off the Island of Juan Fernandez, have reached Valparaiso. They report three men killed in the action, and it is also reported that nineteen are missing. The commander of the Dresden and 330 men came out of the fight uninjured, and it is said will be brought to Valparaiso.

London, March 16.—From the beginning of the war up to March 10, 168 British merchant ships were interned, captured or destroyed, it was announced to-day by Winston Churchill, First Lord of the Admiralty.

Canadians Capture A German Trench. London, March 16.—Describing how the Canadians captured the trench recently mentioned by Sir John French, Corporal John R. Bolt, of Princess Patricia's, says the heroic Hunns were afraid of cold steel, and fled from them screaming like little children. Others fell to their knees and pleaded for mercy, which, adds the writer, in true British fashion was granted to them.

"Just before dawn on that memorable day," he says, "we were ordered to force one of the German trenches in front of us. As we climbed over the parapet, the enemy, by means of magnesium flares, spotted us and immediately opened a withering machine gun fire. We lost men, but on we kept, plodding through a quagmire of mud, and when we jumped over the enemy's parapet into their trenches, we had to tramp over dead bodies.

"The scene was awful, through we were successful. "In the captured trench we discovered plenty of food and clothing, and also some patent hand-warmer, which serve to show they are fairly comfortable."

The Reason For It. A lady once said to Ernest McGaffery, the English poet: "Oh, Mr. McGaffery, I have just seen your wife for the first time since your marriage! She seems shorter than when I saw her last."

"Certainly," said the poet solemnly, "she is shorter. She is married now and has settled down."

Clothing Sale In Full Blast

OUR MEN'S CLOTHING DEPT. has been a busy section of our store since the arrival of our extra stock. The special prices are the attractive part. The saving is about one-half.

FARMS FOR SALE

BY AUCTION.—ON—

Saturday, March 27th, 1915

At 8 o'clock, p.m., at the ROCHE HOUSE, WATFORD

Parcel No. 1.—100 Acres, being west half of lot 3, con. 4, S. E. R., Warwick. Good frame house with basement, good frame barn with silo, and other out-buildings. About four acres of orchard. All cleared. Watered by bear creek.

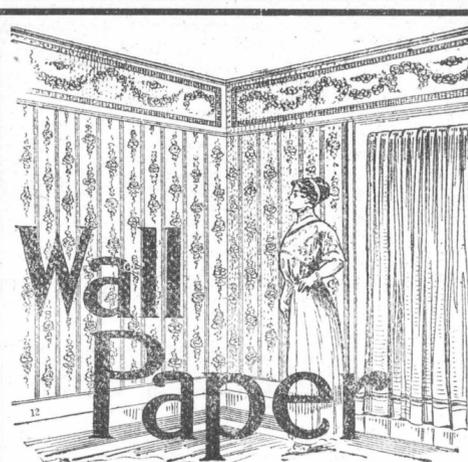

Parcel No. 2.—About 120 acres, being gore 2, con. 4, S. E. R., Warwick. Large new brick house with basement, new bank barn with silo. About 300 apple trees, seven acres good maple timber, 6 acres fall wheat, 25 acres of fall plowing done, balance seeded down. Well tile drained.

These farms are situated six miles from Watford and 1 1/2 miles from Kingscourt. Good gravel roads, rural mail and telephone connection. Land good clay loam, best of soil.

Terms easy. Made known day of sale. J. F. ELLIOT, Auctioneer.

Very Strict At Tunnel

Sarnia, March 15.—Strict vigilance is still being maintained at the tunnel, militia guards are still on duty, and every train passing through the tunnel must have all windows and doors locked. Passengers are also requested not to leave their seats while trains are in the tunnel proper. All trains are thoroughly inspected, both inside and out, before entering the tunnel. This is one of the most striking evidences that travellers have that Canada is at war.

BEFORE you decide on that wall papering come into this store and see the latest designs that we have just taken into stock. Much of the value of wall paper depends on effect and artistic combination.

Let our experience with hundreds of other customers help YOU. Come in to-day. Have you seen our spring stock of Shoes? Some odd lines clearing out regardless of cost. P. DODDS & SON

BOSANQUET COUNCIL. Council met on the 8th inst. All the members present except Mr. Menhenick. Minutes of previous meeting confirmed. Mr. Powrie applied to have about 200 rods of the Haney drain repaired and the Reeve and Mr. Rawlings were appointed to have the work done. The Reeve and Mr. Menhenick were appointed to investigate as to digging a ditch between lots 10 and 11 con. A. The by-law for the construction of the Government drain was finally passed and the Reeve and Mr. Menhenick were appointed commissioners to let and superintend the work. A by-law was passed to raise money for school purposes. The following orders were given:—R. McKenzie, \$5 for goods for J. Barlow; Wm. Bryant, \$10.00 publishing Trick drain by-law and \$35 on printing contract; Municipal World, \$22.74 supplies and 6 subscriptions; A. Carmichael \$3 assisting the engineer on Award drain; Herbert Oliver \$11.12 supplies for Harry Taylor; John Coultis, \$10 for gravel. The following resolution was passed:—Tribal—Tomson, Whereas it has pleased God, in His mysterious providence, to remove by the hand of death the beloved wife of our esteemed fellow-councillor, Mr. John Menhenick, we now, in council assembled, would express our sincere sympathy with the bereaved husband and sincerely pray that he will rise above all earthly trials and fit his thoughts on that golden strand where he will meet his beloved in the "sweet by-and-by." Council adjourned to meet on the 2nd Monday in April. GEO. SUTHERLAND, Clerk. The stock barn owned by John Kennedy, on the Rothwell and McSwend survey, Tilbury, was burned Saturday night, and besides the building eleven horses and a quantity of feed were lost by the fire. The building was valued at \$1,000 and was insured for \$500. The horses, hay and oats were valued at \$2,000 and were insured for \$1,000.

## Baraca Business Meeting

The Men's Baraca Bible Class of the Arkona Baptist Church held their semi-annual business meeting on Wednesday evening, March 10th. The attendance was encouraging and evinces the interest the men are taking in their class. Some of the officers elected are M. McLeish, president; Jas. Bieria, vice-pres.; Rev. H. W. Wright, teacher, and A. E. Augustine, secretary.

Our class meets every Sunday morning in the auditorium at 10 o'clock. Our attendance cards show a membership of about thirty men from sixteen years old upwards, and as a class we welcome you to come and enjoy an hour's profitable and interesting discussion, whether you be stranger or visitor, or whether you wish to become a member of our class.—M. McLeish, President.

## SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity At This Season.

Dr. Williams' Pink Pills for Pale People are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these Pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood, which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you. You can get these health-renewing

Pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## LAMBTON'S GOOD RECORD AS PRODUCING COUNTY

Splendid Showing Made in Live Stock and Agriculture

The following figures give the quantities of grain, roots and hay produced last season in the County of Lambton, and the number of livestock and poultry on hand, and sold and killed.

Item.	Bushels	Yield Per Acre.
Fall wheat.....	684,813	22
Spring wheat.....	5,784	24
Barley.....	622,434	34
Oats.....	3,285,941	40
Rye.....	2,100	20
Buckwheat.....	2,920	20
Peas.....	26,718	21
Beans.....	17,122	17
Corn, husking.....	1,934,691	84
Potatoes.....	614,999	163
Carrots.....	35,400	500
Mangolds.....	447,950	527
Mixed grains.....	27,766	38
Sugar beets.....	1,116,386	454

Hay, all kinds..... 148,443 14  
 Corn, silo..... 16,014 10

Animals and poultry on hand last July:—

Horses.....	28,022
Cattle.....	98,561
Sheep.....	32,722
Swine.....	62,689
Poultry.....	577,913

Sold or killed during year ending June, 1914:—

Horses.....	2,504
Cattle.....	35,697
Sheep.....	17,990
Swine.....	66,389
Poultry.....	284,219

Wool clip, pounds..... 128,431  
 Among all the counties in the province of Ontario, Lambton stands fourth in fall wheat, ninth in barley, seventh in beans, fourth in corn, ninth in potatoes, first in carrots, fourth in hay, second in sugar beets, seventh in horses, sixth in sheep, seventh in swine, sixth in poultry, fifth in cattle sold or killed, and sixth in wool clip.

### Toronto

Toronto, March 16.—Receipts at the Union stockyards to-day were 82 cars, with 1,175 cattle, 237 calves, 1,858 hogs and 123 sheep and lambs.

The cattle market declined 35c to 40c from last week's average on all good butcher cattle. Yesterday's decline was 20c to 25c, followed by a further decline to-day of 10c to 15c. One extra choice lot of heavy steers, said to be as fine as anything seen on the market for some time, sold at \$7.75. This grade would have sold over \$8 last week. For the rest of the market, so far as butcher cattle were concerned prices ranged from \$6.25 to \$7.12½ for good to choice butchers.

For good stockers and feeders there is an improved demand and choice feeders are wanted at \$6.40 to \$6.75.

Calves are 50 lower.

Sheep and lambs are firm.

Hogs firmer at \$8.25, weighed off cars.

To-day's quotations:

Extra prime steers.....	7 25 to 7 70
Butcher cows, choice.....	5 25 to 5 50
do., good.....	5 00 to 5 25
do., common.....	4 50 to 4 75

### IN MEMORIAM

In loving memory of our son and brother, Richard J. Fisher, who passed away on March 18th, 1914. Though earthly ties are broken, in life we'll meet no more. Our hearts are with you, Richard, on yonder golden shore. The God who gave has taken, and to heaven our treasure has gone. Although our hearts are broken, Thy will, O Lord, be done.  
 —His Father, Mother, Sisters and Brothers.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

### MILITARY EFFECTS FOR CHILDREN'S COATS.

**BROWN STRIPED COAT.**

The little coat pictured here is suitable for the small girl's school wardrobe. It is one of the new models for spring. The material is self striped brown silk and wool mixture. The wide collar and deep cuffs are banded with dark brown moire. There is a very wide belt, with a very decorative application of buttons.

The new coats for children's spring wear are made in a great variety of attractive styles. Covert cloth, serge, gabardine, poplin and checked fabrics are modish. They are without much elaboration, the trimming being confined to the collar and cuffs. Silks and satins in white or matching colors are most frequently used on these. For later wear silk and satin coats will be permissible for dressy occasions. Taffeta, faille and poplin are considered suitable for these.

Many of the new coats are cut on short waisted lines. The belt is a characteristic feature. The lower part of the coat is given the popular flare. The sleeves are set in as a rule, although some examples of the modified kimono sleeve will be used.

The military influence is seen even in these juvenile coats. Many of them are trimmed with gilt, gun metal or silver braid and buttons. Army and navy colors are favored. One sees models of navy blue, army gray, Russian green and Belgian blue.

Wraps which are very fair imitations of the English topcoat are carried out in covert cloth. Decorative pockets, wide belts and skillfully applied collars and cuffs are features of many covert coats.

Lingerie collars and cuffs are to be very much worn. These will give a charming finish to the simple coats. Linen, pique, organdie and lawn sets are being shown for children's suits and coats.

**Using Up Meat Scraps.**

A nice pudding may be made with cold meat. Take pieces of minced cooked beef and lean ham, a quarter of a pound of suet, half a pound of flour, a chopped onion, pepper, salt and a little finely chopped parsley. Rub the chopped suet into the flour, add pepper and salt, meat, onion, parsley, and, if liked, a dash of curry powder. Mix these ingredients, moisten with a little cold stock to make it cling together, but it must not be wet. Place in a greased pudding basin, tie over with a pudding cloth and steam steadily for two hours. Turn out to serve and pour gravy round.

**Smart Sleeves.**

An additional smartness is imparted to the sleeve of the coat suit by the embroidered clock on the outer side. Either black or colored silk to match the suit may be used for the clock.

Clean Stomach, Clear Mind.—The stomach is the workshop of the vital functions and when it gets out of order the whole system clogs in sympathy. The spirits flag, the mind droops and work becomes impossible. The first care should be to restore healthful action of the stomach and the best preparation for that purpose is Parrelle's Vegetable Pills. General use for years has won them a leading place in medicine. A trial will attest their value.

### SHRINKAGE OF CORN.

How much will corn shrink in weight during the year is a question often asked by farmers. For eight years the Iowa experiment station carried on a thorough and complete test with the following results for each month from the time of cribbing: November, 5.2 per cent; December, 1.7 per cent; January, 6 per cent; February, 3 per cent; March, 1.9 per cent; April, 3.1 per cent; May, 1.9 per cent; June, 1.6 per cent; July, 1 per cent; August, 5 per cent; September, 4 per cent; October, 0; total shrinkage for the year, 18.2 per cent, or nearly one-fifth.

### WORTH OF WOOD ASHES.

Farmers Are Advised Not to Waste Valuable Constituents.

Don't waste wood ashes. Apply them, as produced, to acid soils. This is the advice of A. R. Whitson, head of the Wisconsin state soils laboratory. It is of particular value to farmers in upper Wisconsin and others who actually have waste wood to burn.

Wood ashes contain a large proportion of lime, which makes them of value in correcting acid soils. Often-times land intended for clover or alfalfa can be better prepared for the crop by a top dressing of fresh wood ashes, either hard or soft wood being equally satisfactory. Such a treatment will be of especial value on marshy and sandy soils.

If not allowed to leach out, wood ashes are also rich in potash and so form a home source for a much needed element. Practically all of our potash supply has been imported into this country from certain of the countries of Europe now at war, which fact has caused considerable concern with many here who purchase in large quantities.

Whether or not it will pay to use ashes for agricultural purposes depends upon the distance they have to be hauled. When buying ashes the purchaser should satisfy himself that the material is neither adulterated nor full of coal residue.

### The Newest Steps.

You may talk of fancy dances, Your fox trots and your glides, Your Argentina prances, And the latest Gotham slides; You may prattle of the tango, Boost the steps from o'er the sea, Praise the latest from the Congo, Or the newest from Parce; Rave about the hesitation, How it drives dull care away, And express your admiration For the steps of cabaret— But the steps that catch your fancy And at home cause endless talk Are those first ones—kinda prancy— As the baby learns to walk.

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

### Canada's Wheat Supply

OTTAWA, March 9, 1915.—A press bulletin issued to-day by the Census and Statistics Office gives the results of a special inquiry for this purpose of ascertaining the stocks of wheat in Canada on February 8, 1915. The inquiry, carried out by direction of the Hon. Sir George Foster, Minister of Trade and Commerce, and conducted by the Census and Statistics Office in conjunction with the Department of Trade and Commerce and the Board of Grain Commissioners, was effected by means of schedules addressed to elevator, flour mill and railway companies and to crop-reporting correspondents for the estimation of quantities in farmers' hands. Completion of the returns received shows that the amount of wheat, and of wheat the equivalent of flour, in Canada on February 8 last was 79,130,593 bushels, or, if allowance be made for a small proportion of non-replies, an aggregate in round numbers of 80 million bushels. The total of 79,130,593 bushels is distributed as follows: terminal elevators 2,853,679 bushels, railway elevators 1,213,952 bushels, other elevators 26,776,246 bushels, flour mills 6,160,840 bushels, in transit by rail 12,571,876 bushels and in farmers' hands 29,554,000 bushels. The result of the inquiry shows that the quantity of wheat in Canada should be amply sufficient to meet all requirements between now and the next harvest. For seeding this spring and for food during the next six months, it is estimated that 444 million bushels will be required, this leaving, on February 8, 1915, in addition to the usual small quantity of imports, a balance of 35 1/2 million bushels for export and reserve. From February 8 to March 2, 36,370 bushels of wheat, and flour expressed as wheat were imported and 6,741,900 bushels were exported. The inquiry took no account of quantities of wheat flour in the hands of wholesale and retail vendors in towns and villages throughout Canada, nor of quantities of wheat in local grist mills. These quantities, although relatively small in individual cases, amount to a considerable aggregate, tending to show that the estimate of 80 million bushels is not excessive.

### Average Acre Values of Ontario Field Crops

The figures in the following table are obtained or deduced from the Census and Statistics Monthly for December 1914 and January 1915. Profits per acre for 1914 will vary with the cost of production, yield and market price.

Average yields and values per acre of field crops for Ontario in 1914:—

Crops	Ave. yield	Ave. price	per acre
Fall Wheat	21.51 bus.	\$1 08	\$23 23
Spring "	18.80	1 07	20 12
Oats	35.00	49	17 15
Barley	30.34	64	19 42
Corn (husking)	56.11	69	38 71
Flax	15.76	1 70	26 79
Rye	17.19	85	14 61
Peas	16.00	1 32	21 12
Beans	18.00	2 24	40 32
Buckwheat	25.40	70	16 38
Mixed Grains	36.66	63	23 09
Potatoes	167.35	47	78 65
Turnips, etc.	430.31	21	90 36
Hay a clover	1.14	14 91	17 00
Sodder Corn	10.95	4 72	51 68
Sugar Beets	9.00	6 00	54 00
Alfalfa	2.26	15 01	33 92

These figures are interesting in considering increased production for 1915. The cost of production includes the cost of preparation, seed, seeding, cultivation of crop, harvesting, threshing, wear and tear of implements and rental value of land. Preparation includes the cost of applying manure (if any). The value of the manure is counted as offset by the bye-products, straw, fibre, stalks.

Figures are not available for the profits per acre of the heavier-yielding crops as potatoes, roots, etc., but their high values should not lead the farmer to overlook their increased cost of production.

Seed Branch, Ottawa.

### Children Cry FOR FLETCHER'S CASTORIA

A painful accident happened at D. E. Wallace's saw-mill, Thamesville, last Friday morning, when a log rolled onto Alf. Keeley's right foot, crushing his instep.

Relief from Asthma. Who can describe the complete relief from suffering which follows the use of Dr. J. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes! It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

### Many women with disfigured complexions

never seem to think that they need an occasional cleansing inside as well as outside. Yet neglect of this internal bathing shows itself in spots, and sallow complexions—as well as in dreadful headaches and biliousness. It's because the liver becomes sluggish, and waste matter accumulates which Nature cannot remove without assistance. The best
