The copy filmed here has been reproduced thanks to the generosity of:

Hamilton Public Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Hamilton Public Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Mistaken Ideas

are often found in regard to certain styles of wall decoration. One of these ideas is that decorations in themselves beautiful are apt to detract from the elegance of the furniture and fittings. As well advise an artist to paint all his pictures without backgrounds. Your wall should be considered as background for the general interior. The more artistic, original and harmonious their treatment, the better it is for the upholstery, the carpets, the mantel, the pictures. Our importations for spring trade are arriving daily. It will interest you to see the new designs and colorings NOW, whether you wish to buy or not. No trouble to show goods.

Historic old Castle Garden has been converted into a magnificently appointed aquarium. The work on the building has been completed, and little remains to be done in the interior.

Orders for 250 locomotives and seven thousand railway carriages have been given by the Russian government to Austrian and Belgian firms, presumably required for the Trans-Siberian railway.

A St. Petersburg editor has hit upon the notion of printing his journal on paper suitable for making cigarettes. It is said that its circulation has been largely increased by this means, as the Russians are much given to smoking cigarettes, which they make themselves.

Parrots have been taught to amuse by their imitation of the human voice, and now their powers in this respect have been made use of for a practical purpose. At almost every station on a German railway the station master has a parrot or a starling so trained that whenever a train draws up at the platform, it commences calling out the name of the station most distinctly, and not only this, but it continues doing so while the train remains there. This has been found an excellent mode of informing passengers where they are.
